KC's accept top international award

The Muenster Council Knights of Columbus 1459 was highly honored in ceremonies held Aug. 5-8 in Chicago during a convention of the states and Supreme Council of Knights of Columbus.

The prestigious International Award of first place in Council Activities was presented to the local council, represented at the convention by Post Grand Knight Robert Knauf, accompanied by his wife, Michele.

Selected as the qualifying activity was the benefit raffle and dance and statewide sales blitz to benefit a brother Knight, Jim Hoedebeck, dying of cancer.

The bulletin announcing the selection stated, "Nowhere are the principles of our Order more in evidence than when brother Knights are called upon to help one of their brothers and his family during a prolonged illness. During trying times like these, council members rally together in truly heroic displays of charity, unity and fraternity. Such was the case last year as Knights from Muenster Council 1459 in Muenster, Texas rallied around a brother Knight

dying of cancer.

"Prolonged hospitalization and follow-up radiation treatments had severely strained the family's savings and income, so members of Council 1459 decided to help their brother and his family with its medical bills by holding a benefit raffle and dance. A statewide sales blitz was conducted with Texas Knights responding to their brother in need by buying tickets at state meetings and socials.

"Area businesses, most of them owned by brother Knights, donated food, drink and door prizes for the fund raising effort, keeping council costs low and insuring that a more substantial donation could be made to the family. After many months of hard work and a very successful dance, the council had raised over \$15,000. With the money, the brother Knights were able to pay some of his medical expenses before his death."

Bob and Michele Knauf were guests of the Supreme Council throughout the convention, and in particular at the States banquet on Tuesday night when they were

guests of Supreme Knight Virgil Dechant and his wife.

Bob joined fellow Knights at business sessions and Michele attended meetings of the ladies' groups. All attended a Memorial Mass for deceased members on Wednesday morning in Chicago's Cathedral. A Marian Prayer Hour was held Wednesday afternoon where the Icon of Mary was displayed.

The International Award program was held Wednesday afternoon. Seven groups of delegates were in attendance, including the United States, Canada, Mexico, the Philippines, Puerto Rico, Cuba and Guam.

The Knaufs went sightseeing briefly before returning home on Saturday. They included the Museum of Science and Industry, the Chicago Waterworks and the Sears Tower. While they were away, their daughters Tanya and Kristen spent the time with their grandparents, Ed and Louise Knauf. Bob said, "The Knights of Columbus are grateful to all who cooperated in the project and we express gratitude to Dorothy Hoedebeck for letting us help her."

SHOWN FOLLOWING PRESENTATION of the top international award at the convention of the Supreme Council of Knights of Columbus in Chicago, Aug. 5-8, are dignitaries involved in the event, l to r, Butch Barbosa of Austin, Texas State Programs Director and head of the award selections committee; Bishop Greco of Louisiana, Supreme

Chaplain; Mrs. Virgil Dechant, Michele and Bob Knauf, Post Grand Knight, Muenster Council; Virgil Dechant, Supreme Grand Knight, Mrs. Dee Simon and Dee Simon, Texas State Deputy. The Muenster Council won the international award after also winning the state award at the state convention in El Paso.

Town Hall meeting well attended by citizens

The Muenster Town Hall Meeting was attended by a good cross section of the community. Howard Rosser, Director of Tourism, with the East Texas Chamber of Commerce, asked those attending to make comments about what they liked about Muenster, and what they thought Muenster needs in the next 1-5 years.

Sister Barbara Bernauer was one of the first to say, "I think it (Muenster) is very friendly, I feel very safe in Muenster. Everyone seems concerned for each other."

"People of Muenster are willing and good workers," stated Wayne Klement. "Also, we've got two excellent school systems here."

The need for housing for young and old was a concern voiced at each of the three meetings. The need for public housing, such as apartment buildings, was also ex-

pressed as was the lack of land available for use at this time.

At the noon meeting, the discussion led to the application of what we have in our community. "We should utilize what we already have, which is our German heritage," said Juanita Bright. This theme was picked up again at the night meeting by Johnny Fisher, who said, "I think we need a unified direction, a theme maybe, to follow."

"Use our own raw materials to manufacture and market right here, like the meat industry does," said David Fette, publisher of *The Muenster Enterprise*. This suggestion was followed by Dennis Hess of Hess Furniture saying we should do something to utilize the dairy industry like Brenham has done with Blue Bell Ice Cream.

At the noon meeting, several suggestions were made to attract tourism and to provide something for them to do, such as tour a working dairy or farm, visit an operating ranch, tours of the surrounding area, and other similar ideas. It was suggested a local directory be started of people willing to have these tours on their farms, dairies and ranches.

Howard Rosser pointed out that economic development is increasing the business of businesses already here. He said, "The average tourist spends \$28 per day, each car has an average of 2.5 people in it. If Muenster could attract 100 more cars per day for a year it would mean \$1,000,000 in direct income. After that \$1 million has turned over the average number of times (7), it would mean \$7 million of revenue in the com-

munity, this all equals \$70,000 in sales tax alone." "Since tourism is made up of many small businesses, you don't have to provide water, sewer, utilities or housing for a large plant and yet you get the revenue," he said.

After discussion of other needs including housing for senior citizens, a bridge over the Red River, the city lake project, a need for an RV park, recreation facilities for the young people, and various other needs, Leon Klement asked, "Just how big does Muenster want to get?"

The Town Hall meetings accomplished their purpose; to state and record ideas and opinions about our town. With more light shed on the subject, the Chamber of Commerce continues its efforts to improve the business climate and quality of life in this area.

United Way dinner to feature Hansen

Veteran Dallas TV sportscaster Dale Hansen will be the keynote speaker at the Cooke County United Way's annual Kick-Off dinner, slated for Friday, Sept. 12, at the Holiday Inn in Gainesville.

Hansen, who anchors the 5, 6 and 10 p.m. sportscasts for WFAA-TV Monday through Friday and hosts "Dale Hansen's Sports Special" on Sunday evenings, joined the Channel 8 news team in March of 1983. He had worked nearly three years for KDFW in Dallas prior to joining WFAA.

He came to Dallas in 1980 from Omaha, Nebraska, where he had worked for three years as a news and sports reporter for KMTV. He

also worked in radio in Newton and Knoxville, Iowa and St. Cloud, Minnesota, and was named Best Investigative Reporter by the Iowa Associated Press in 1976.

Hansen graduated from high school in Logan, Iowa in 1966, and served in the U.S. Navy before attending a broadcasting school in Milwaukee. He and his wife, Chris, have a daughter, Terri, and several pets. They live in Roanoke.

Tickets for the United Way Kick-Off dinner are on sale now at First State Bank, Gainesville National Bank, North Texas Bank & Trust, the Chamber of Commerce offices in Gainesville and Muenster, and the United Way office in the Schad & Pulte building downtown.

Good News!

Let us, then, be children no longer, tossed here and there, carried about by every wind of doctrine that originates in human trickery and skill in proposing error.

Rather, let us profess the truth in love and grow to the full maturity of Christ the head.

Labor Day traffic safety urged by DPS leader

AUSTIN - Officials of the Texas Department of Public Safety estimate that 43 persons could be killed in traffic accidents across the state during the Labor Day period.

The 78-hour holiday period begins at 6 p.m. Friday, Aug. 29, and ends at midnight on Monday, Sept. 1.

"During this period, the Department will have additional troopers on duty," Adams said. "We know that some drivers will be determined to violate the traffic laws. DPS officers will be taking enforcement action against as many violators as they can to increase the

safety factor for law abiding motorists."

Adams said the final fatality count for the 1985 Labor Day period was 52.

"Twenty-one of the 52 deaths resulted from traffic accidents in which speed or DWI was a contributing factor," Adams pointed out. "That's why our officers will be concentrating on these violations during the upcoming Labor Day weekend."

Adams said the DPS deeply appreciates the positive response shown by Texas motorists to the safety belt law.

"We'd like to mark the first anniversary of the seat belt law by having far fewer fatalities occur than our statisticians have estimated for the holiday period," Adams said.

During the July 4th holiday period earlier this summer, eight of nine persons killed in motorcycle accidents had not been wearing helmets.

"Though only those motorcyclists 18 and younger are required to wear protective headgear, statistics show overwhelmingly that helmets save lives," Adams said.

As part of the increased driving awareness program, the DPS will furnish revised fatality counts to the news media during the Labor Day period.

Town Hall meeting set for Gainesville

The Gainesville Area Chamber of Commerce Political Action Committee, chaired by Gene Davenport, will be conducting a Town Hall meeting on Sept. 3 at 2 p.m. in the afternoon at the Cooke County College Student Center. Guest speakers will be Congressman Charles Stenholm, Senator Ray Farabee and State Representative Ric Williamson.

Everyone is invited to attend this meeting and become better acquainted with our elected officials.

Stars sing for kids

Top singers from every chart in the recording industry are set to appear on the 1986 Jerry Lewis Labor Day Telethon to benefit the Muscular Dystrophy Association, announced Hank Grieb, president of the Red River Chapter of the voluntary health organization. The 2 1/2-hour annual spectacular will be aired on KFDX, Channel 3 in Wichita Falls and Lawton, and KXII, Channel 12 in Sherman and Ardmore, beginning at 8 p.m. on Sunday, Aug. 31.

"The lineup so far is fantastic. We have the rock and roll of El DeBarge and The Jets, gospel by Amy Grant, Eddie Rabbitt's country sound, plus the Fifth Dimension, Maureen McGovern, Pia Zadora, Sha Na Na, Petula Clark and more," said Mr. Grieb.

The Telethon will be hosted by MDA National Chairman Jerry Lewis, who will be joined by anchorman Ed McMahon and co-hosts Casey Kasem in Las Vegas and Tony Orlando in New York

City. The 21st annual show, which will be broadcast live from Caesars Palace in Las Vegas, raises funds to help support MDA's worldwide research efforts and nationwide network of some 240 hospital-affiliated clinics that provide diagnosis, physical therapy and counseling to patients with any of the 40 neuromuscular diseases covered by MDA's program.

MDA Vice President and Executive Director Robert Ross believes that the public's increased consciousness of the sensitivity of people with disabilities is extremely important to all. "Those with disabilities have much to contribute to society. Typically, they devote monumental energy to maximizing their abilities. For that reason, if a stranger attempts to insist on pushing a physically-disabled person's wheelchair, she or he may resist, taking special pride in the ability to move about unaided. A wheelchair doesn't indicate that the person in it is dependent on others for mobility; it simply means that the user has a different way of getting to a desired destination," remarked Ross.

People with disabilities are living fuller, more independent lives than ever before, noted Mr. Grieb. Part of MDA's mission is to help enhance their lives as well as increase the public's understanding of the important roles people with disabilities play in society.

For that reason the annual Telethon is of utmost importance in helping to keep the two clinics operating in Wichita Falls and Sherman. These two clinics serve patients in 37 counties of North Texas and Southern Oklahoma. Medical expenses have climbed at alarming rates and expenses for these clinics are entirely paid by MDA with no expenses passed on to patients.

In addition to medical services and patient clinics, MDA operates summer camp for children each summer for every dystrophy child and an attendant in the country. This camp is free to dystrophy children and a highpoint in their lives as it is one of the few times they may be outdoors and among others with muscular dystrophy.

Westfest set for Labor Day weekend

Westfest is an annual Czech festival held on Saturday and Sunday of Labor Day Weekend in the small community of West, Texas, located 17 miles north of Waco on I-35.

The first Westfest was held in 1976 and organized to preserve the Czechoslovakian heritage of the community and to raise funds for community projects. Additional funding from Westfest enabled the city to purchase land and construct a new ballpark and a new community center in past years.

Thirty to forty thousand people attend this event each year. Most attendees come from within a 150-mile radius, with Houston 150 miles south of West and Dallas/Ft. Worth 85 miles north.

The festival kicks off with a street dance Friday night held in conjunction with the Miss Westfest contest. A parade is held Saturday morning and a 5000-meter run is scheduled for Sunday morning. The festival grounds open at 11 a.m. both days.

Six bands play each day at Westfest and folk dancers from around the country perform. The music is predominantly Czech featuring polkas and waltzes. There are also exhibitions by the Sokol gymnasts.

Twenty-eight food booths feature a variety of foods to appease almost any appetite, beer gardens to quench a thirst, and almost 100 arts and crafts booths to browse through. There is also a children's area with games, rides and supervision.

Admission to the event is \$3.00 for adults and \$1.00 for children. Admission is good for all dances, entertainment, exhibits and activities within the festival grounds.

Drinking age to go to 21

The legal drinking age in Texas goes up to 21 effective at midnight Sunday. That change in law was made by the last session of the state legislature in order to comply with federal highway fund guidelines.

The National Highway Traffic Safety Administration reported that higher legal drinking ages reduce fatal accidents involving young drivers. In states where the minimum drinking age has been raised, there has been a 13-percent reduction in fatal accidents involving drivers affected by the changes.

As of Sept. 1, it will be illegal for persons under 21 to purchase or consume alcoholic beverages in Texas.

Cancer support

On Sept. 2, 1986, the Cancer and Information Services phoneline will be operational at AMI Denton Regional Medical Center. The number, (817) 566-4000, will meet the needs of oncology patients in expressing their anxieties and concerns relating to the treatment of cancer.

All phone calls will be transferred to members of the Oncology Support Team at Denton Regional. Composed of physicians, nurses, a nutritionist, social worker and chaplain; the Oncology Team serves to help patients and family members as they face the stresses of cancer treatment.

Team members are able to answer questions, discuss possible solutions and give emotional sup-

port. The Oncology Team at Denton Regional began in 1981 as a support group visiting hospital-bound cancer victims. Within a year, the team began offering the community educational program I CANCOPE.

The program, offered each spring, gives participants a chance to share their feelings about the affliction and begin accepting a new lifestyle. The overwhelming response to the program prompted the formation of the Cancer and Information Services phoneline.

Beginning Sept. 2, the phoneline will be staffed Monday through Friday, 8 a.m. to 4:30 p.m. Callers are asked to request the Oncology Support Team when using the new phoneline: (817) 566-4000.

MRS. PHILLIP KEVIN FLUSCHE
... nee Brenda Dianne Krahl ...

Couple exchange vows

The wedding of Brenda Dianne Krahl of Valley View and Phillip Kevin Flusche of Decatur was held in Sacred Heart Church of Muenster on Aug. 16.

Father Gerald Cooney, pastor of St. John's Church in Valley View, was celebrant of the Nuptial High Mass and officiated for the double ring ceremony at 5 p.m.

The bride is a daughter of Martin and Nancy Krahl of Valley View and the groom is a son of James

and Sally Flusche of Decatur.

Before a main altar holding arrangements of white, blue and pink carnations and daisies, with greenery and lighted candles lining the communion rail, and tall brass candelabra decorated with greenery and blue ribbon bows, the bride was given in marriage by her father.

She was wearing a formal white satin wedding gown with puffed elbow-length sleeves, and a sheer Victorian-style neckline. Lace covered the fitted bodice. Satin roses, beginning at the waist, continued down the front of the skirt to form a ruffle, from the lace insert around the bottom of the skirt and surrounding the train.

She wore a lace-covered Southern Belle hat with finger-length veil and carried a traditional bridal bouquet of blue, pink and white daisies and carnations, with long satin ribbons in matching colors.

ATTENDANTS

Elaine Schad of Valley View was her sister's matron of honor. Stephanie Krahl, another sister of the bride, and Monica Flusche of Decatur, sister of the groom, were bridesmaids. They were gowned in matching dresses of pink lace over satin, featuring the sheer Victorian neckline similar in design to the bride's gown. Each carried a bouquet of pink roses and white carnations accented with blue periwinkles.

Emmy Lou Schad of Valley View, niece of the bride, was flower girl and Wesley Savage of Henderson, nephew of the groom, was ringbearer.

Carl Flusche of Decatur was his brother's best man, and groomsmen were Tom Tumelty of Decatur, a friend, and Darwin Sicking of Muenster, a cousin of the groom.

Mass servers were Conrad Flusche of Decatur, brother of the groom, and Peter O'Connor of Era, a friend of the bride.

Brothers of the bride, Gary Krahl and Grant Krahl of Gainesville, and Damian Krahl of Valley View, and a friend of the groom, Joe Stockton of Decatur, were ushers.

Mrs. Patsy Henry of Gainesville presented traditional organ music, and accompanied herself on the guitar for vocal selections, "Only A Shadow," "Wedding Song," "That's The Way," "Whither Thou Goest," "First Corinthians" and "Hail Mary."

RECEPTION

A reception and dinner followed

in Sacred Heart Community Center.

Attending the guest book were the bride's sisters-in-law, Cathy Krahl and Carla Krahl.

Reception assistants were Betty Rose Walterscheid, who also baked and cut the wedding cake, and Kristie Krahl of Gainesville, Tara Walterscheid, Donna Walterscheid and Juline Bartel, all of Muenster, who assisted in serving the cakes.

The catered roast beef dinner was prepared and served by Lou Schad and her sisters, all of Lindsay.

When the bride and groom return from a wedding trip to Orlando, Florida, they will be at

home in Decatur, where the groom is a mechanic employed by Flusche Auto Supply Shop. He is a 1982 graduate of Decatur High School and attended Tarrant County Junior College. The bride is a 1984 graduate of Valley View High School and is a student attending North Texas State University in Denton, where she is a junior majoring in Elementary Education.

Coming from a distance to attend the wedding were guests from Decatur, Denton, Henderson, Fort Worth, Alvord, Scotland, Windthorst and Gainesville in Texas and from Arkansas, Oklahoma and Florida.

**What if a friend
 called and said
 all of the businesses
 in your town
 closed up!**

What would it
 mean to you?
 How would you
 fare
 financially?

It could happen. In some
 towns it already has
 because the local people did
 most of their shopping out
 of town. We all know of
 communities with lots of
 empty stores... and empty
 stores mean less tax
 support... a lot less.

Did you ever think about how
 much of our community's taxes are paid
 by business? If they were no longer paying their share,
 do you know how much **more** your taxes would increase to pay for essential
 local services? If they no longer made charitable donations to those groups to
 which you belong, how much more would you have to pay?
 A healthy business community benefits everyone. Shop locally.

calendars and do try to attend this musical. More later...

As I write about all these coming events, I'm reminded of what a feller said Thursday night, Aug. 21, at the WBAP Community Service Club meeting. He made the **RASH** statement that **NO ONE** ever knew what was going on in this community. Yours truly almost blasted him, however, I kept my cool and stayed peaceful. I just thought, if he read the Forestburg News in this paper or looked in the windows of our local businesses he just might have an inkling of what goes on where and when. I have since learned he only take a certain paper - and it isn't the Muenster, Saint Jo or Bowie paper.

Hunting not allowed at Ray Roberts Lake

The U.S. Army Corps of Engineers, Fort Worth District, announced Aug. 22 that there will be no hunting permitted at Ray Roberts Lake until further notice. The public is warned that hunters will be cited or arrested by federal, state or county law enforcement officials if they violate this directive. For additional information, please contact Sally West or Ron Ruffenach at the Fort Worth District Public Affairs Office, (817) 334-2150.

J. Shane Wimmer. Wimmer, in his first varsity experience, started in place of quarterback Ryan Klement, who was sidelined with a pulled back muscle. Klement is expected to be ready for the season opener. Drue Bynum also got in some good

passing against the Dragons. Linemen Joe Pagel and Daniel Klement, as well as Gary Grewing, were outstanding performers. The Junior Varsity scrimmage was scoreless with Chris Klement as quarterback and cornerback. Lineman Mike Pagel shined in the

scrimmage. Muenster will play host in a scrimmage against Howe Friday. Coach Sims is expecting to alternate 20 running plays each, with the JV starting at 6:00, followed by the varsity.

Steel shot rule may hit 13 TX counties

AUSTIN - Nontoxic steel shot will be required for the 1986 waterfowl seasons in 13 Northeast Texas counties if proposed federal regulations are adopted. The U.S. Fish & Wildlife Service (USFWS) has identified three areas in those counties where use of toxic lead shot is believed to threaten endangered bald eagles. Eagles often feed on waterfowl, and if lead pellets have been ingested by or embedded in the waterfowl, fatal lead poisoning can result. The regulations are proposed in the federal agency's Supplemental Environmental Impact Statement on Use of Lead Shot for Hunting Migratory Birds in the United States. The USFWS has given notice it will not open the 1986-87 waterfowl hunting seasons unless the state approves the prohibition against lead shot. The Texas Parks and Wildlife Department has requested a one-year delay in implementing the regulations to inform the public of the need for and use of steel shot. Department officials, however, advise hunters to immediately locate sporting goods outlets where steel shot is available since it appears the regulations will go into effect for the 1986 season. The three areas defined by the USFWS are: Parts of Cooke, Grayson and Fannin Counties beginning at the Oklahoma state line, then southward along Interstate Highway 35 to its junction with U.S. Highway 82 at Gainesville, then eastward along Highway 82 to its junction with State Highway 78 at Bonham; then northward along SH 78 to its junction with the Oklahoma state line; then westward along the Oklahoma-Texas state line to its junction with I-35; as parts of Marion, Cass, Upshur and Harrison counties; and parts of Henderson, Kaufman, Anderson, Cherokee and Smith counties.

Sportsmen to face changes September 1

AUSTIN - Sept. 1 will be a significant day for Texas hunters and fishermen.

The first day of the 1986-87 state fiscal year ushers in some of the most sweeping changes in decades for hunting and fishing regulations and licensing requirements, according to the Texas Parks and Wildlife Department.

At the top of the list is a new requirement that every person who fishes Texas' public waters must possess a fishing license, regardless of age. However, those under 17 years of age or 65 or older may obtain a free fishing license from a department office, game warden or retail fishing license outlet. Those persons would not be required to purchase special fishing stamps such as the State Saltwater Stamp or the Freshwater Trout Stamp.

A new program initiated by the TPWD is the Lifetime License, which allows a sportsman to pay a one-time fee and get automatic renewal of his hunting, fishing or combination hunting/fishing license each year for the rest of his life.

Applications for lifetime licenses may be obtained from TPWD headquarters, 4200 Smith School Road, Austin, TX 78744, all TPWD law enforcement offices (listed on the back of the Hunting and Fishing Regulations Guides) or by calling statewide toll-free 1-800-792-1112.

Lifetime resident combination hunting/fishing licenses are \$500, and lifetime hunting or fishing licenses are priced at \$300 each.

Lifetime licenses benefit the resource because funds received from their sales will be used by the TPWD to acquire, develop, manage and repair hunting and fishing areas in the state.

All hunting and fishing license fees remain unchanged for 1986-87.

The upcoming hunting seasons will feature some significant changes, including the first-ever uniform statewide white-tailed deer hunting season dates, Nov. 8-Jan. 4. The statewide archery deer season is Oct. 4-Nov. 2.

The Parks and Wildlife Commission also added 59 counties to the either-sex system of deer bag limits for 1986-87. Special antlerless tags will be issued to landowners with no limit as to acreage required for taking antlerless deer.

Information on regulations may be found in the department's 1986-87 Texas Hunting Guide, Saltwater and Freshwater Fishing Guides and the Early-Season Migratory Game Bird Supplement, available from

department offices and retail license outlets.

The mourning dove season opens Sept. 1 in the North and Central Zones, and Sept. 20 in the South Zone. The white-winged dove season in the Special White-Winged Dove Area along the Rio Grande will be Sept. 6-7 and 13-14.

There also will be a number of significant changes in fishing regulations effective Sept. 1. A 14-inch minimum length limit and bag limit of five per day for largemouth bass will be in effect in most Texas waters.

There will be a number of exceptions to the statewide largemouth bass bag and length limits. These include lakes which have special limits such as slot limits or higher minimum length limits.

Lakes Fairfield and Pinkston were added to the list of lakes with a 16-inch minimum length. The daily bag limit is five bass, of which no more than three may be largemouths. Possession limit will be 10, with no more than six largemouths.

Other exceptions to the bass limits will be in effect on Lakes Texoma, Conroe, Caddo and Toledo Bend.

Crappie fishermen also need to be aware that starting Sept. 1 there is a 25-per-day statewide bag limit and no minimum length limit for that species. However, several reservoirs will have a daily bag limit of 15-per-day and a minimum length limit of 10 inches. Toledo Bend, Conroe and Caddo Lakes will continue to have no bag or minimum length limit on crappie.

by Max Hastings

The Sacred Heart Tigers had their first test of the year when they scrimmaged the Alvord Bulldogs last week. Sacred Heart came out on top, with one touchdown by Scott Taylor, while the Tiger defense kept Alvord scoreless.

The Tigers went 12 for 22 for 172 yards passing compared to Alvord's 99 yards passing. Both teams had 31 carries, but Sacred Heart produced 139 yards rushing while the Bulldogs only came up with 15 yards rushing.

Coach Pasqua praised his three linebackers Craig Voth, Wayne Becker and Casey Houtchens, saying, "They may be the three best in the district." He also complimented the rest of the defense, including his second unit, which

gave the first unit rest in the latter part of the scrimmage.

The Tiger offensive charge was led by Scott Taylor, Wayne Becker, Frank Hastings and Steve Knabe. Key offensive blockers were Deano Bayer, Casey Houtchens and Darrell Knabe. "The offense moved the ball well against Alvord considering our complicated offense," said Coach Roddy Clack. The Tigers turned the ball over twice on fourth down short yardage situations due to the controlled scrimmage rules. Coach Clack felt that in a game situation the Tigers could have continued the drives and scored.

Sacred Heart will have one more scrimmage before regular season play starts. The scrimmage will be held at Aubrey Aug. 28 at 6 p.m.

Critical groundwater areas

AUSTIN - The Texas Water Commission will hold 14 public hearings around the state in September and October to discuss the 17 recently designated critical groundwater areas.

The purpose of these hearings is to receive information from the public, to discuss boundaries of the areas and to discuss the problems and potential solutions in the areas. Bill Klemm, head of the newly formed Groundwater Conservation Section of the Water Commission, said that a critical area means an area that is experiencing or is expected to experience serious groundwater problems.

These are areas which are characterized by groundwater overdraft problems due to extensive use of groundwater water for drinking, irrigation or industrial uses.

Many of the areas' problems are complicated because other situations, such as subsidence or

contamination, are also present. A list of the public hearings follows:

Field day set for Sept. 10

A field day and tour will be held at the USDA Soil Conservation Service Plant Materials Center near Knox City on Sept. 10, 1986.

During the noon lunch, a formal program will be held. Manley Wilder, SCS assistant chief, Washington, D.C., and Waldo Smith, President of the Association of Texas Soil and Water Conservation District, Brenham, will be on the program.

Ray Svacina, SCS District Conservationist at Gainesville, said

guided tours are planned through the center starting at 8:30 a.m. Tours will run continually until lunch, then again until about 3 p.m.

Several selections of plants are being grown at the center that were not being evaluated during the last field day in 1982.

To get to the center, go north of Knox City on State Highway 6 about two miles, then turn left at FM 1292 for 2 1/2 miles. There are signs at both the turn-off and the

center, he said.

Svacina said Knox City has a 3,200-square-foot all-weather runway near the center for those wanting to fly to the field day in private or chartered planes. Transportation from the airport to the center will be furnished by the Knox City Chamber of Commerce.

Grass seed dealers, seed growers, conservation district directors, research workers, wildlife enthusiasts, livestock producers, and others interested in the search for

better plants are invited to attend. The center serves both Texas and Oklahoma.

Lunch will be served by the Knox City Chamber of Commerce on a prepaid basis at \$5.00 per plate. Payment must be sent to Doris Crownover, Chamber of Commerce, P.O. Box 91, Knox City, Texas 79529. The deadline for making lunch reservations is Sept. 2, 1986. Tickets will be held at the registration desk, and no refunds will be made.

TOMI subjects for September

Updates on agricultural price trends, prospects for the '87 farm bill, food safety, the cotton situation, cattle on feed, the grain situation, hog and pig outlook, the dairy picture, and the soybean outlook will highlight the TOMI program for September.

"TOMI" is the Telephone Outlook and Market Information program of the Texas Agricultural Extension Service, The Texas A&M University System.

Information provided by TOMI is designed to help keep agricultural producers updated on commodity markets and other vital information useful in planning and managing their operations.

More detailed information on September topics is available by dialing 409/845-8664 (TOMI), according to this schedule:

- Sept. 2-4 Agricultural Price Trends - Roland Smith
- Sept. 5-8 Prospects for '87 Farm Bill - Ron Knutson
- Sept. 9-11 Food Safety Issues - Dick Edwards
- Sept. 12-15 Cotton Update - Carl Anderson
- Sept. 16-18 Cattle on Feed - Ernie Davis
- Sept. 19-22 Grain Situation and Outlook - Ed Smith
- Sept. 23-25 Hogs and Pigs - Ernie Davis
- Sept. 26-29 Dairy Update - Bud Schwartz
- Sept. 30-Oct. 2 Soybean Situation - Johnny Feagan

Messages for TOMI are prepared by Extension Service economists, who provide the latest information available to aid producers in making decisions.

The telephone information system operates seven days a week on a 24-hour basis.

County Agent's Report

by Craig Rosenbaum

Forage and livestock producers throughout Texas are swinging to legumes for winter grazing. Legumes offer several advantages over permanent pastures:

- Legumes are higher quality forage with a higher protein content. Phosphorous and other minerals are higher in legumes than in grasses.
- Livestock perform better on legumes. Cows have higher conception rates, and higher calving percentages, and calves wean more when grazing legume pastures rather than grass pastures.
- Legumes extend the grazing season. Although many clovers grow little until February and March, the additional six to eight weeks of high quality forage is crucial for many livestock.
- Legumes are planted in the fall and grow during the winter season and thereby offer little competition to summer grasses.
- Most legumes can reseed with proper management practices.

Popular legumes for us include vetch, arrowleaf clover and sweet clover.

Legumes are somewhat more difficult to grow and need slightly different management practices than grasses. But growers can find the effort well worthwhile.

The desired pH range for growing legumes is higher than for grasses. Research conducted by Dr. Gerald Evers at the Texas Agricultural Experiment Station at Angleton has shown these optimum pH ranges for legumes: 6 to 7 for arrowleaf clover, 5.5 to 7 for subclover and 6 to 8 for crimson, berseem and rose clover.

Now is the time to collect representative soil samples from fields to be established in legumes this fall. If clovers are to be over-seeded on an established grass sod with minimal surface disturbance or on a deeper prepared seedbed, pH of the upper two inches or seed zone is important to help assure good seedling establishment.
