

MANY ASSETS FOR LIVESTOCK TRADE FOUND IN SOUTH

Breeding Experts List Suggestions On Proper Care Of Farm Animals

Many natural advantages of soil, climate and crops enable the South to produce livestock economically and efficiently...

To the farmer who is raising, or wants to raise, livestock, knowledge of a few simple but fundamental facts on animal nutrition will prove most helpful.

All farm animals are "living factories," producing meat or milk, wool, eggs or mohair or energy for work...

Protein feeds include all nitrogenous compounds of feeds. The primary purpose of protein is to form lean meat and to restore worn-out tissues and muscles...

Reunited by Bilbao's Fall

One trapped in the besieged city, the other fighting with the rebel attackers, a father and son embrace in joyous reunion after General Franco's troops occupied Bilbao.

vitamins, such as legume hays, grass hays, silage and pastures.

By feeding home-grown grains and roughage, properly balanced with cottonseed meal, the South's own concentrated protein, Southern farmers can produce livestock efficiently and economically...

COTTON CLASSING ACT DESIGNED TO ASSIST FARMERS

The drive for improvement in the quality of Texas cotton will be aided in 1938 by the terms of the cotton classing act, E. A. Miller, agronomist of the Texas Extension Service, believes.

Designed to correct the "hog round" system of cotton buying, the act requires that the Department of Agriculture, upon request from any group of producers organized to promote the improvement of cotton, determine and make promptly available to the producer the classification of any cotton they produce.

The act, as explained by Miller, also provides that the Department of Agriculture shall collect and publish timely information on the market prices of the various classes of cotton.

When the services provided by the new act are started, samples will be sent to central offices for classing, and Miller indicated that growers should receive their classing turnout within three or four days after ginning.

There are now 51 organized one variety communities, involving approximately 3,000 farmers, in the State, according to Miller. He also estimated that some 2,000 Texas 4-H club boys have organized into groups for the production of quality cotton.

School Children Pick Coffee Vacation time in the Kona District schools in Hawaii comes in the fall, because the children are needed to pick coffee.

Suitable Pasture Land Grasses Are Listed by S. C. S.

Brown county farmers and ranchers may get good winter pasture from Italian rye grass, rescue grass and bud clover, according to D. C. Lerner, Agronomist with the local soil conservation service.

Bud clover and Italian rye grass have proved themselves on bottom lands and the heavier upland, and the rescue grass is native to this county, said Mr. Lerner.

An ideal place to plant the grass is along contour ridges because of the preparation that the soil has had, and also the additional moisture that has been stored. Good protection and grazing may be secured in this way until native grasses re-sod themselves.

The seed should be scattered along the ridges with a brush drag to cover the seed slightly.

Rescue, one of the south's leading winter grasses, has a great advantage over other varieties in that it will produce seed despite close grazing by sheep and cattle.

Pasture land retired from cultivation may be prepared for over-seeding by running a disc, set straight, over it, following the contour. If twenty-five pounds of pasture seed per acre are sown, at least ten pounds of rescue seed should be included in the mixture.

Tax-Payment Plan

Two hundred and twenty-eight Brown county property owners took advantage of the new state law providing for installment plan payment of delinquent taxes before the deadline September 1, according to Tax Collector Winston Palmer.

DONOHOO ELECTED POST COMMANDER

Fed R. Donohoo was elected commander of the Isham A. Smith American Legion post Monday night. Other new officers installed at the meeting are:

Glenn Hurton, first vice-president; Dr. W. H. Paige, second vice-president; Sam H. Winn, adjutant; M. L. Loudermilk, finance officer; Rev. Harold G. Scoggins, chaplain; John A. Collins, historian; Mark Callaway, service officer; Joe Blagg, child welfare chairman; M. N. McBurney, sergeant-at-arms.

Members of the executive committee are Fred R. Donohoo, Lon L. Smith, Gus J. Rosenber, C. V. Conlisk, Joe Blagg, M. L. Loudermilk and S. H. Winn.

Donohoo has served the Legion in various official capacities for 17 of the 19 years that the organization has been in existence.

In 1927 he moved to Spur and organized the Boyd M. Williams post and served two years as adjutant. Later he was commander of the Kent county post at Jayton for two years.

Mr. Donohoo has been post adjutant, adjutant of the 17th district, adjutant of the 21st district, assistant committeeman, post historian and member of the post executive committee since coming here.

FIESTA SINGER

Bess Coughlin, "songbird of the Southwest," sings old-time songs played by their composers in Melody Lane at the Fort Worth Frontier Fiesta.

Wheat Prices Jump Due to Oriental War's Influence

The world price of a bushel of wheat jumped almost four cents a bushel this week as new war scares from the Mediterranean sent traders rushing to market to obtain supplies.

On the Chicago board of trade the September wheat price jumped at \$1.10 3-8 bushel, a gain of 2 7-8 cents. October futures were quoted at \$1.10 3-8 bushel, a gain of 2 7-8 cents and December wheat was \$1.12, up 2 7-8 cents.

Liverpool wheat was 3 1-2 to 4 cents a bushel higher at the close after a day of rush activity in the British market. Winnipeg grain climbed more than 4 cents and in Buenos Aires prices were 3 1-2 to 4 cents higher despite heavy weekend rains which erased the danger of drought in the South American wheat lands.

Further alarm was felt among traders from Liverpool to Winnipeg when it was reported that Russia had expressed unwillingness to make further wheat shipments to Europe through the Mediterranean because of current ill feeling between Italy and Russia. This report was given considerable weight.

Brownwood C. of C. Releases Booklet

A pamphlet illustrating why "All Roads Lead to Brownwood", caption of the booklet has been released by the Chamber of Commerce.

A map showing Brownwood's location in the state and the highways that lead into the city also is on the cover.

The reading matter is handled in the following order: Brown county's location, its climate and soils, diversified crops, natural resources; Brownwood's location and climate; airport, transportation, civic advantages, general business conditions, investment opportunities, Lake Brownwood and Lake Brownwood State Park.

Illustrations in addition to the county farm home, peach orchard, poultry farm, goat ranch, championship F. F. A. baby beeves, prize winning 4-H club baby beeves, prize Jerseys on Shelton Bros. dairy farm, Bangs High school, Blanket High school, Hightower Oil Refinery, view of Brownwood from Ehlinger Park on highway 7, map of Santa Fe railway lines, First Presbyterian Church, grass greens at Country Club, Daniel Baker College administration building, Howard Payne administration building, Brownwood Senior High school, Hotel Brownwood, Tasty Food Products Co., Texas Brick Co., Austin Mill & Grain Elevator, Lake Brownwood, cabin in Lake Brownwood, State Park, club house in Lake Brownwood State Park and a cluster of Brown county pecans.

Eligibility Laws For CC Admittance More Liberalized

An opportunity for work for every unemployed and needy youth in Texas between the ages of 17 and 23 is provided in October enrollment provisions of the Civilian Conservation Corps.

Approximately 11,000 white and 1,200 Negro youths, by far the largest enrollment quota ever announced by the CCC, will be admitted into CCC camps during October. Only requirements for entrance are need and age qualifications.

COUNTY'S COTTON CROP ESTIMATED AT 7,000 BALES

Although leafworms are doing considerable damage in some sections of the county to the cotton crops, sinners estimate this year's crop in Brown county at about 7,000 bales. Ginnings last year totaled 6,853 bales. Only about 30 bales have been ginned in Brownwood to date this season.

The cotton crop also has been damaged this season by grasshoppers and bollweevils. Several farmers are distributing poison for leafworms, according to C. W. Lehman, county agent.

FEATURES OF NYA PROJECT AT JOHN TARLETON NAMED

After spending Saturday morning on the John Tarleton College campus to observe the workings of the National Youth Administration agricultural training project in operation there, J. C. Kellam of Austin, Texas, director of NYA, said that the Tarleton project is the best one in all Texas.

"The Tarleton project excels all those I have observed in Texas," Mr. Kellam said.

Approximately 150 girls from 52 Texas counties are working and studying at Tarleton in the fourth week of a six-weeks YA residence NYA administration and Tarleton project. Cooperation of the Texas College make it possible for them to work on the campus enough hours to earn living expenses and a few dollars of spending money.

Classes NYA girls attend are taught by members of the regular Tarleton faculty, and compose a course designed to train for rural homemaking and better community membership. It includes health education, home economics, oral English, poultry, horticulture and floriculture and community recreation.

Mr. Kellam and officials from the district NYA office in Waco have expressed approval of the lecture program planned at Tarleton. Faculty members have spoken on travel, practical psychology, books and reading, and the enjoyment of music.

Recreation arranged has won commendation from high NYA officials. Every evening girls play softball or tennis or take part in community games directed by Tarleton Athletic Director W. J. Wisdom.

Other features of the project at Tarleton which have pleased visiting officials are the excellent meals served under the supervision of Miss Ethel Bob Montague at the Tarleton dining hall, and the opportunities make available for inspecting scientific methods of agriculture. Several girls have visited the Tarleton poultry plant and studied the methods of housing, feeding and general management in practices there.

As in similar projects at A. & M. College, N. T. A. C. and Prairie View College for Negroes, the Tarleton NYA project is operating for the benefit of rural youths between the ages of 18 and 25 years whose families are certified as in need of public assistance.

General directors of the project are Alice McAlpine of Navasota and Mary Hope Westbrook, associate professor of English at Tarleton. Also A. W. Brishin, district supervisor from Waco office has visited the project frequently.

Girls from Brownwood who are working on the Tarleton project are Marzelle N. Hoffman, Marita Browning, Ola Mae Coffey and Sylvia M. Sherman.

Former Local Couple Stars In Minstrel Sam Sullivan, son of Mrs. Mary Sullivan, of Brownwood, and a former resident of this city, scored a big hit as interlocutor at the Lions Club minstrel at Laredo, where he now lives, according to the Laredo Times. The Times gives a flattering account of his performance and the direction of the minstrel, and carries two pages of pictures of the event, said to have been one of the best entertainments ever staged in the border city.

Mrs. Sullivan also took part in the performance, and her singing was one of the decided hits of the show. Under a picture of Mrs. Sullivan, at the microphone singing one of her hit numbers, The Times says: "Mrs. Lois Sullivan, wife of Lion Sam, went to town and back again, when she got out there on the stage in front of the mike to do her stuff on 'Stormy Weather' and 'Some of These Days.' Her torch songs were hot enough to start the Chicago fire all over again and how she put them over! With a couple of encores to her credit, she nearly stopped the show."

FIRST, THERE'S AN IDEA

All good things begin with an idea. Improved motor fuels, better motor oils are no exception to that rule. So Humble's continuous improvement policy puts a premium on ideas. First, a technician gets an idea; he and his fellows elaborate it, theorize about it, satisfy themselves it's sound. Then they test it in the laboratory, that graveyard of many ideas which look good on paper. If the idea passes the laboratory test, the supreme test of all awaits it—the open road. The new product, the improved product, goes through a grueling grind no ordinary driving would ever give it. Then—if it stands up—it's offered to you.

When, therefore, we invite you to test our Humble products in your car, we're confident you'll like them. We have tested them ourselves and we know they're good!

PEEP SHOW - For Ladies Only - BY MIGNON

I'm fired again, and do you know it's twice in one short summer. The gal that beats that record has got to be a hummer. Old Simon, who had many slaves whose last name was Legree. Had nothing on that boss of mine who up and canned poor me.

Don't believe that, gals. I have been promoted to a much better position. All I have to do now is play house, ride herd on two youngsters and see if I can finesse a few editors. Of course there is a little matter of coking and scrubbing, waxing the floors and playing tag with dust. Who knows in my spare time I may invent a bath tub ring remover and pappa might find a few of his sox no longer ventilated? There's a lot of things an old horse turned out to pasture can do besides crop grass.

For Sale: Good Alarm Clock, slightly caved in but clicking just as well as it did twenty-two years ago. Handy to and easy to doze. Preference will be given buyers who have lived with postmasters.

No more voice throwing on Friday morn I'll be so lost, almost forlorn I'll have to get an almanac. To keep me straight, now that's a fact. This nice new skipper treats me swell. But his hair is red—you never can tell.

"Trail Blazers," by Nina L. Pond, Medford Printing Company. Girls it is all we expected and more. I told you it would be here and sure enough it came Sunday morn. From a printers point of view it is a very artistic piece of work, well set up, a good print, attractive bindings and the work of a real craftsman as to format. But open the pages and revel in the store of inspirational thoughts therein and it is a masterpiece. Mrs. Pond has compiled a book that will be a wealth of information, inspiration and help to assist those who are traveling through woods of life and are looking for signs.

BOY SCOUT NEWS

Scouts Back In School Many older Scouts are now making preparations to enter college and on behalf of the members of the Comanche Trail Council, we wish to state to these Scouts that we are wishing for them a most successful school year. We trust that they will remember to do all of the Scout work they possibly can—at least remembering the "Daily Good Turn". Faith In Scouts San Saba Star: Referring to the 3,000 Boy Scouts, encamped in Washington recently, Senator Capper, of Kansas said: As I see these young Americans, and as I review some of the many worthwhile things they are doing individually and in groups, the projects of the 4-H Clubs, the community services performed by the Boy and Girl Scouts, it is borne upon me that the American youth movement is progress by cooperation, not forced marches by regimentation. These young folks are working together by agreement among themselves, not under the dictatorial direction and commands from some governmental authority. They owe allegiance to a country, not a dictator. They think for themselves, while they get together.

Dublin Scouts Defeat Eastland Dublin Progress: Dublin Boy Scouts, Troop No. 24 motored to Eastland on Friday to play the Eastland Scouts in a softball tournament. Eastland Scouts Troop No. 6, lost to the guest team with a score of 14-3. This was the first time that the local Troop has met the Eastland Troop in softball. Wins Ten Year Program Award Troop 43 of Brownwood, which is Scoutmastered by H. H. Gilliam, Coach of Junior High School, has recently been presented with the 10 Year Program Award, which is awarded by the National Council to any Troop meeting certain requirements toward the 10 year Program. We congratulate the Scoutmaster and Scouts of this Troop, and hope you win this award next year.

Scout Swimming Tests We would like to emphasize the fact that Scouts, who have not completed their Swimming and Life Saving Tests, should do so before cold weather, because the failure to do so may hold you back in advancement to a higher rank since these are required tests. A Good Turn Two Eagle Scouts recently had an opportunity to render First Aid, which they had learned in their Scout work. Life Saving being one of the required Merit Badges to secure the rank of Eagle. The two Eagle Scouts, Lowell Pouncey and Herman Britt—their subject Dr. Guy Davis, Pres. Daniel Baker College, who was injured in an automobile accident. DON'T SCRATCH! Paracide Ointment is guaranteed to relieve any form of Itch, Eczema, in 48 hours or money refunded. A large 2-oz. Jar for only 50c at Renfro Drug Stores. tf

TEXAS MEMBERS OF NATIONAL GRANGE UPHOLD DEMANDS FOR CONSTRUCTIVE FARM PROGRAM

Texas farm leaders last week continued to uphold a solid front in their demands for 10-cent cotton loans from the government at a state convention of the Texas Grange in Dallas, outlining a 10-cent program designed to give parity of purchasing power and parity of prices to the American farmer. "Develop cooperative marketing and collective bargaining so that the farmer can have a fair voice in determining the price of his products." "Emphasize rural organization and self-help agencies." Taber explained that a crop control bill was not introduced in Congress until May 17. "Because of the conflict of the proposed legislation, penalty clauses it contained and because it was not national in scope, all farm organizations could not agree to support the bill," he stated. "Neither the chairman of the House or Senate Agricultural Committee sponsored the proposal, so it was impossible to pass adequate crop control legislation." At the time the bill was introduced crops had been planted and wheat had been harvested before the bill was fully discussed, so that there was nothing that could be done by legislation to increase or decrease the 1935 crop average yield. Taber pointed out. National Grange head, L. J. Taber, of Columbus, Ohio, in an address attributed failure of Congress to pass crop control legislation at its last session to two factors, the long drawn-out fight on the Supreme Court, and the lack of a proposed bill that had the support of the nation as a whole. State Commissioner of Agriculture J. E. McDonald, who spoke to Congress and advised adoption by the federal government of the domestic allotment plan of voluntary crop control and price adjustment declared that crop control legislation is certain to be adopted at the special session of Congress, scheduled to be called in a few weeks by the President. Domestic Allotment Prospects of a domestic allotment plan, advocated for four years by the Texas Commissioner, being passed by the special session are excellent, McDonald declared. Ralph W. Moore of Granger, state president of the Grange, told convention delegates that a 9-cent commodity loan considered by Washington would break the farmer and bankrupt the majority of the small business men in the south. "Business in rural sections has already fallen off 50 per cent since the price of cotton had dropped," Moore declared. "Nine-cent cotton loans will make tenants out of a great many of our landowners." A resolution was introduced at the convention for continuation of the federal crop program, with the addition of the "ever normal granary" and a guaranteed parity price of 17 cents for all cotton used in the United States. The 19 points advanced by the National Grange master from Ohio were: "Develop a long time farm program, emphasizing sound land use and retire marginal land by increasing forestry. Give the farmer cooperative machinery to guide production and prevent unreasonable surpluses. Develop the ever-normal granary and crop insurance. "Give our farmers the American market for those commodities which can be efficiently produced. Imports of farm products have increased \$400,000,000 in the last 12 months. "Continue the soil conservation program. "Use a larger proportion of tariff revenue in finding new markets for farm crops and equalizing market conditions and prices. "Place emphasis on the family-size farm. Keep farm costs and supplies, including transportation, interest and taxation, within reason. "Develop national unity and oppose sectionalism and class warfare. "Ample support for education, extension, research and youth activities. Picture framing, expert workmanship, large selection of patterns, reasonably priced. Renfro-McMinn Drug Co., 201 Center Ave.

Cosmetic Kits Are Travel Convenience

Small and compact as they are, the newest cosmetic travel kits contain everything any woman possibly could need on a trip. You can still get the brief-case size ones, but if you like to travel light the miniature varieties are the right answer. One especially nice kit, made by an old and reputable firm, comes in a waterproof case and is filled with cleansing, night and finishing creams, skin tonic, large box of face powder, cream rouge and lipstick, and a bottle of finishing lotion for hands as well as face. If you like a cream made by one firm, powder by another, lipstick by still another, and so on, get a waterproof cosmetic bag and fill it with your favorite preparations. If you are going by train or automobile, better remember to tuck a small bottle of liquid cleanser into your purse. If you have dry skin, get an oily type. A liquid cleanser which leaves a foundation film on your face is best for traveling. On a long trip, far away from hotels and bathtubs, cologne is a fine thing to have. Dip large cotton pads in it and give yourself a sponge bath between trains or while the car is being refueled and checked. Also splendid for travelling are guest size cakes of your favorite toilet soap. One fine English soap comes in these small convenient sizes as well as in huge bath tablets. For shower addicts, the firm makes a shower bath cake, carved to fit the shape of the hand. All sizes come in dark as well as in pastel shades to fit in with the color scheme of any bathroom. The profoundest happiness lies not in content but in struggling and suffering—and sacrifice. SUBLETY IS GOOD WEAPON IN HANDLING MEN, SAYS WELSHIMER

Trying to hold a man who wants to get away is like collecting water in a sieve. You will have the sieve—but even the rain-drops will fall through. And what, I ask you, is the good of chaining a man to your side when his spirit has made an exodus? Nan Pierson Brooks Macy Brill, the steel heiress whose husband, William Hunsaker Brill, left her 24 hours after the ceremony, has stated that she will not consent to the annulment he plans. She will fight for her husband. She wears his name and she isn't going to let him wave her a farewell. Certainly, whatever she does is her business and nobody else's. Maybe the young man in the case really loves her and she realizes it, and therefore is willing to brave a lot of publicity to keep him. Maybe—Pride Takes Precedence The average woman, though, knows that if a man loves her and wants her he will swim the Hellespont or brave a fire-eating dragon to get her. He will surrender everything but golf and his favorite beverage. If he knows that the woman he loves is experiencing the same cardiac disturbances, he will be turning somersets instead of running in the opposite direction. For men will run after women but when a woman turns to wait for the pursuer to catch up, he drops back a few hundred paces. Let her signal him to come faster while holding to her pace and he'll never admit that she merely leads the pursuit. Love is an emotional mercury. When we seek to clutch it, it slithers across the floor and cannot be grasped. When we leave it alone it stays quietly where it has been placed. True, 24-year-old Mr. Brill did not stay where he was placed. He began plans for pursuit of freedom. However, the attempt to hold him to an unsatisfactory bargain can hardly raise the rating of his brief-time wife. First of all, it makes the issue a publicized combat in which two people are out to win. Pride is at stake. And a man, while he may suffer something for love, will endure anything for pride!

Goading Man to Flight When a woman is gay, friendly, kind, sympathetic and not in the least obtrusive, the fact generally registers with a man. When she waves goodbye, calmly, he comes back to see why she isn't making a scene. He may miss the dramatic.

But oh, when she resorts to Amazonian tactics, she gives him open warning, and subtle pursuit, her choicest weapon, dulls its blade. Certainly there are reasons why women fight to maintain the status of wives in the homes of the men they love. Sometimes the women realize that the men still love them. Sometimes they know that their contribution to the man's life is well worth the struggle as he, too, will come to realize in time. No woman, loving deeply, should let herself and her bags be placed on the curb. However, there is a certain dignity, poise and quietude which accomplish such a purpose. In a case where the fanfare and drums are making the headlines a woman's surest bet is silence—and patience. They will intrigue a man. To assert that he can't get away will make him belligerently declare: "Oh, I can't!" Of course, maybe he can't. And maybe it's all a good act. Philippine mahogany flooring is unusual and practical. President Taft had the executive office of the White House laid with this luxurious wood during his term.

HOUSE COMMITTEE TO CONFER WITH FARMERS

The Banner received this week the following communication from Representative Maryin Jones, chairman of the House Agricultural Committee, in regard to his stand on farm legislation: "I have requested each member of the House Committee on Agriculture to hold conferences, during recess, with the farmers of his particular district, and, in so far as possible, with the farmers of his state, in reference to general farm legislation. "There are 25 members of the House Committee on Agriculture, representing as many different states. Every different part of the nation is thus represented. "We have asked each of the four major farm groups to submit to us the provisions that they feel should be included in the measure. They have indicated their willingness to do so and some of them have already submitted their suggestions. "We have planned for the Committee to return to Washington a month before the convening of the next session, for the purpose of endeavoring to have legislation ready for the consideration of the Congress soon after it assembles."

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people.

Q. How many insurance companies of all kinds operate in Texas? A. In 1936 there were 365 Texas companies and 487 out-of-state companies.

Q. When did Texas reach its peak in number of charters granted? A. In 1929, when 2,630 charters were issued to corporations with capitalization of \$285,612,000.

Q. When was the Hidalgo Treaty between the United States and Mexico consummated? A. It was signed at Guadalupe Hidalgo, Feb. 2, 1848, and after ratification by both countries, was proclaimed, July 4, 1848.

Q. What early missions in the Lower Rio Grande Valley have been memorialized by the Centennial Commission of Control? A. Markers have been erected on the Lower Rio Grande for three missions in Mexico and one in this country...

Q. How much land was included in a "cabañeria," a "laboy" and a "silio" under the Spanish land grants in Texas? A. A "cabañeria" was 125 acres; a "laboy" was 177.1 acres and a "silio" was one square league of 4,428 acres.

Q. What is a "league" in Spanish and Mexican length measurements used in Texas? A. The Spanish "league," used in Mexico and Texas land measurements, was 2.63 miles.

Q. What Europeans made the first attempt to explore the lower part of the Rio Grande River, and when? A. Tradition credits Alonso de Pineda with having spent about 40 days on the river in 1519...

Q. When was the first definite information as to the Lower Rio Grande Valley made known to the Spanish? A. A little or nothing was known of the country along and north of the Rio Grande until Alonso de Leon made a report on his search from 1586 to 1589 for La Salle's settlement.

Q. Who established the noted King Ranch in south Texas and when? A. Capt. Richard King, in 1854.

Q. What is the appropriation for the State Planning Board for the 1938-39 biennium? A. Fifty thousand dollars.

Q. What amounts have been appropriated for the Liquor Control Board and Old Age Assistance Commission for the next two years? A. For the Liquor Control Board, \$1,930,740; for the Old Age Assistance Commission, \$1,549,680.

Songs Texans Sing Know the songs that Texans sing—songs of the Texas ranches, the Texas Trails, the Texas firesides, the state song, the University song, the song "Will You Come to the Bowers?" that inspired the heroes of San Jacinto, negro spirituals.

These were: 1. Forecast of a near-record United States crop of 15,593,000 bales.

2. Indications of increased foreign production and decreasing demand for American cotton. 3. The continued downward tendency in domestic mill activity.

The MARCH OF TIME

A New BANNER Feature by the Editors of TIME, The Weekly Newsmagazine

Seven Sins

WASHINGTON—That Franklin Roosevelt loves the Supreme Court any better because his plan to change that judicial body was beaten, no one in Washington ever believed.

It can hardly be doubted that our people are restive under the slow and uncertain processes of law. I spoke, therefore, for an upbuilding process, not only to preserve the independence and integrity of the judiciary, but to reinforce it and strengthen it as an essential and honored part of our institutions.

- (1) Review "the burden now imposed on the Supreme Court." (2) Increase lower court personnel. (3) Provide "effective means of assigning District judges to pressure areas."

- (4) Set up "flexible machinery... readily adaptable to needs as they arise." (5) Adjust crowded lower courts dockets. (6) Provide for "new blood" on Federal benches.

Probable Nominee WARSZAW, Poland—While Indiana's Senator Sherman Minton was busy announcing that Philippine High Commissioner Paul V. McNutt would name in 1940 an ideal

Presidential candidate and 82-year-old Sara Delano Roosevelt in Paris insisted "I am sure my son does not want to run for a third term." In Poland last week another presidential candidacy was getting underway.

McGrady Out WASHINGTON—No flower ever bloomed so long or so repeatedly as the rumor that able Edward McGrady was about to resign as Assistant Secretary of Labor.

Rebellion MAYARI, Cuba—Startled fishermen looked up from their work on the beach near Mayari last week to see five American, nine British West Indian Negroes tumble out of a grounded, rudderless motor launch.

But bald-headed, honest Ed McGrady has more concerns than Madam Perkins. One of them is cash. Starting as a union pressman on the Boston "Herald" after acting as sparring partner for "Terrible Terry" McGovern...

Suddenly down to the water's edge came Cuban rural policemen hastily summoned by the fisherman. One look at the small arsenal of rifles, gas bombs, ammunition in the boat and the suspicious police rushed the refugees off to jail.

NEW YORK—After a 15-round fight in which he had failed to knock down Welshman Tommy Farr at Manhattan's Yankee Stadium last week, Joe Lewis retained his world heavyweight crown on points, admitted over the radio that he had been hurt twice. Said Tommy Farr: "I've got plenty of guts—that's old Tommy Farr, you know—I'm a Welshman."

Suicide Disease BOSTON—Studying the problem of suicide has been the chosen work of ambitious young Harvard psychiatrist Dr. Merrill Moore. Last week Dr. Moore reached, among other things, the conclusion that suicide is "an important disease."

Considered as a disease, suicide cannot be cured, but it can be prevented. Some of Dr. Moore's recommendations: 1) Reading "psychologically inspirational articles" in newspapers such as Beatrice Fairfax's "Advice to the Love-lorn, fills a need which we as physicians in public institutions are slow to recognize, namely, the desire of anxious persons to come in contact with the thoughts of others on daily problems."

Fatal Magic HOLLYWOOD—On the 20th-Century-Fox lot in Hollywood last week half-a-dozen men were grouped in and around a queer-looking double-decked platform in the air held together by piano wires.

Immortal Inventor WEST ORANGE, N. J.—Eleven years ago the general manager of Thomas A. Edison, Inc.'s storage battery factory, George E. Stringfellow, yelled into the inventor's less deaf ear: "Mr. Edison, would you be willing to loan me the consultant for the battery company after you passed to the Great Beyond?"

THIS CURIOUS WORLD - THE SOUTH AMERICAN LAUREL TREE YIELDS AN INFLAMMABLE LIQUID, WHEN BORED INTO AT CERTAIN SEASONS. THE GOUDOUGOUDOUGOU IS A LARGE, HOLLOWED-OUT LOG, ABOUT SIX FEET LONG AND THREE FEET THICK. SIGNALS ARE DRAWN ON THE INSTRUMENT WITH STICKS, AND MAY BE HEARD SIX MILES AWAY. BY RELAYING A MESSAGE FROM ONE VILLAGE TO THE NEXT, WORD TRAVELS THROUGH THE FOREST WITH INCREDIBLE SPEED.

THE NEW FANGLES - WHEN! HOTCHA! HAHN'T THIS BEEN A SCOPCHIEZ? WAHAT I'D GIVE TO BE IN A COOL SPOT IS NOBODY'S BUSINESS!! HOW ABOUT FIXING US UP A COUPLE OF COLD DRINKS? OH, PAPA! WHAT A COOL BREEZE!!

GREAT GRIEF! I WONDER WHAT'S HAPPENED TO THOSE DRINKS

WOW! THIS IS THE FIRST TIME I'VE BEEN COOL TODAY!! WHY CHICE!!

By-Passed Again

In spite of the fact that it now has become an old, old story, there was quite a bit of surprise when the announcement of the State Highway Commission's Federal aid lateral road program was made last week and it did not include the seven miles of the Cross Cut road in Brown county.

For more than four years efforts have been made to secure the paving of some 14 miles of lateral road in this county, out Belle Plain Avenue north, known as the Cross Cut road.

It all started back in 1933. Brown county purchased the right of way, 100-foot wide, built drainage structures to state highway specifications, graded the entire highway in this county, and constructed a costly bridge across Lake Brownwood.

When this year's projects were being prepared for submission to the Federal Bureau of Public Roads, the Cross Cut road again was brought to the attention of highway representatives. It would be included this year.

When the matter was before the highway commission, a committee from this county appeared before the commission that the Cross Cut project would be included in the new lateral road program.

What is to be done? Well, there is little that can be done. Brown county already has spent its quarter million dollars, depending upon the good faith of the Highway Commission.

Mayor Tom Miller of Austin, in a Labor Day address, took to task a few United States Senators, Congressmen and lesser lights for starting what he called a premature boom for Vice President John Nance Garner of Texas for President in 1940.

A Bit Premature President in 1940. When this country has the best President in its history, with more than three more years to serve in his second term, the Austin mayor believes it disloyal for his friends and inconsiderate of his enemies to begin talking about his successor in office.

As a matter of etiquette, probably the Austin official is correct, but as a matter of practical politics an early boom is the accepted practice. Those who talk first and loudest gather the largest plums after the election.

At present, Mr. Garner is the most prominent man in the Democratic party, excepting only the President himself. If the nomination were to be made this year, he would have little opposition. And Mr. Garner is the type of official who becomes more appreciated by the public as the years go by.

Parents of school children should approve the plan of Pan-American Exposition officials in Dallas for a two-day all expense trip to the exposition during the early fall days. As Governor Allred pointed out in a recent proclamation granting holidays for all who attend, the two days spent at the Dallas exposition form an education in themselves.

Seven states of the world's greatest democracy are named for kings and queens: Georgia, Louisiana, Maryland, North and South Carolina, Virginia, and West Virginia.

Honor of Best 4-H Girls Club In County Awarded to Zephyr

Distinction came to the Zephyr girls 4-H club this week when the group was announced as winner in Brown county in a contest sponsored by the Texas Power and Light Company. Mukewater was awarded second place in the county.

Winning clubs from 50 counties will compete for first-place honors winners of which will receive expense-paid trips to the Pan American Exposition at Dallas.

Following is the history of the Zephyr club for the past year, prepared in connection with the contest by Edith Kimmons, club historian.

This has been another successful year of 4-H Club work for the club girls of the Zephyr club.

Officers for the year are: Susie Counts, president; Gertrude Fry, vice-president; Edith Kimmons, secretary-treasurer; Mildred Skippings, assistant secretary; Mary Joe Coffey, reporter; La Verne Keeler, song leader, and Mrs. L. V. Kimmons, sponsor.

Twenty Members
We have twenty active members out of fifty girls in the community who are eligible to be club members.

We had thirteen meetings this year. Miss Maysie Malone, county home demonstration agent, has met with us eight times and given helpful demonstrations.

All of our club girls have reached their goals, with the exception of one who joined the club August 4th.

May the 28th, we enjoyed an all day picnic on the banks of Blanket Creek, at the sponsor's home. There were eighteen members, Miss Malone, Mrs. Kimmons and six visitors present. We played games, went swimming and spread our lunch under the trees at noon.

Every one present spent a happy day. After we adjourned we visited the home of the clothing demonstrator, Edith Kimmons, and saw her clothes closet that had been newly finished.

Sixteen Zephyr club girls attended the countywide 4-H Club Encampment at Coggin Park, Brownwood, July 14 and 15. Our admittance card was for each girl to take with her to camp histories and records books up to date, one sewing box equipped, one school dress and slip and one cup towel, also fresh vegetables for an exhibit. Our girls were all eligible to attend camp. Edith Kimmons of the Zephyr club was elected chairman of this camp and Mary Joe Coffey, Zephyr club, was elected secretary and La Verne Keeler of Zephyr club was elected song leader.

Out of the twenty-one prizes offered at this camp our club girls won ten.

Encampment Honors
Seven girls entered the oratory contest at the camp which is sponsored each year by the Central Texas School or Oratory. Five of these girls were from our club. Mildred Skippings of our club won first place, the prize being a scholarship to the school. Mildred has also been awarded a scholarship for this year to the school. Mildred has also been wood due to her club work.

Our girls gave a "Perfect Posture Skit" at the camp during the Style Show program. Six of the Zephyr girls, presented a one act play during stunt night, winning second place.

In order to replenish our treasury this year, each girl placed a block for a quilt and donated five cents each to buy the material for the quilt. Our sponsor set the quilt together and we were all so busy in school the Home Demonstration Club women came to our aid and helped our sponsor with the quilting. We then sold chewing gum with chances for the quilt. In this way we raised \$11.35.

On the evening of July 17 we helped the Home demonstration Club women with an ice cream supper. At this time our club gave a program, including club songs, play and style show wearing the dresses and slips that we had made.

We used our funds for the expenses of the club. We gave first second and third prizes for our garden exhibits, dress contest, and for the first three best histories.

Our Garden Achievement Day was held July 7 with twenty three varieties of vegetables shown and thirty four jars of quality products exhibited. We had as our guests at this time, the home demonstration women. Punch and cookies were served to all present.

The estimated value of the Zephyr Club girls gardens is \$3023.68 with 69,535 pounds of vegetables and 139,072 feet of row space.

On August 4 after our business meeting, we had a recreational meeting. After playing games, we served ice cream to the twenty girls present. This was given in honor of a club member, Irene Lacy, who has moved to Indiana, each girl remembering her with a gift.

Mary Joe Coffey, club reporter.

Larry Lee, shown here, and his hand play opposite Paul Whitefem and his hand in Billy Rose's Casa Manana Revue at Fort Worth.

Football Training Gets Underway Here
Grid training got underway in earnest this week at Brownwood's two colleges and at high school.

Approximately 90 candidates reported Monday morning for first workouts at Daniel Baker and Howard Payne. Brownwood high school's Lions are now in their fourth week of training.

Coaches Gene Taylor and Trickey Ward at Daniel Baker report the following candidates at that school: Centers—Harold (Bull) Durham, Brownwood, 196, two varsity letters; Billie Stewart, Coleman, 175, squadman; Eugene Moore, Amarillo, 150, freshman; Leo English, Sweetwater 195, freshman.

Guards: Glenn Wagon, San Angelo, 180, two varsity letters; Ben Wagon, San Angelo, 195, freshman; Kara Newton, Hamilton, 190, two varsity letters; J. P. Thompson, Talpa, 170, squadman; Walter Ball, Dallas, 185, squadman; W. F. Glazier, De Leon, 205, squadman; Miller Newton, Hamilton, 160, freshman.

Tackles—Hugh Trussell, Blum, 205, freshman; Joe Pitts, Dawson, 225, freshman; Jack Davenport, Odessa, 210, freshman; Gaston Alford, Rising Star, 190, squadman; Davey Carroll, Coleman, 195, squadman; Pete Barnes, Dallas, 200, Freshman; Murry Burnk, Hamilton, squadman.

Ends—Oscar Wilhelm, Comanche, 180, squadman; David Floyd, Amarillo, 170, squadman; June Stidham, Hamilton, 215, junior college transfer; Alonzo Bittick, Harlingen, 165, squadman; Emmett Esner, Cleveland, Ohio, 192, freshman; Bud Barnes, De Leon, 193, freshman; John Barton, San Angelo, 160, freshman; Socrates Walker, Cross Plains, 170, squadman; Dick Holcomb, Stephenville, junior college transfer.

Backs—Alvin Stanford, Hillsboro, 175, two varsity letters; Earle Tune, O'Donnell, 155, freshman; Claude Tune, O'Donnell, 150, freshman; Carl Stoup, Coleman, 182, freshman; Loraine Whitmore, Hillsboro, 180, junior college transfer; Preston Watson, San Saba, 170, one varsity letter; Clifford Punderbark, San Saba, 185, junior college transfer; F. H. Adams, Amarillo, 175, junior college transfer; Phillip Barnhart, Harlingen, 150, one varsity letter; J. M. (Nubbin) Payne, Hillsboro, 170, one varsity letter.

J. M. Alderson of Brownwood is manager of the Hill Billy squad.

A total of 72 candidates received equipment during the first two training sessions at Howard Payne Monday. In this number were nine of the ten lettermen eligible for 1937 service with the defending champions of the conference. Numerous winners present were: Otho Barbee of Rule and Robin Galaway of Brownwood, ends; Theodore McDonald of Kennedy and Bob Dendy of Wink, tackles; Joe Westerfield of McGregor, tackles; J. D. Rogers of Childress, Earl Sunderman of Putnam, Jack Price of Santa Anna and Wayman Wilson of McAllen, backs. The absentee was Glen Knudsen, a halfback from Cranfills Gap.

Others given the once over during the first day of training were:

Forward Wall
Linemen F. D. Andrews, Franklin; Melvin Boedecker, Stamford; Leonard Beckold, Franklin; Alvin Brock, Freer; Clyde Conner, Richland Springs; Woodrow Crawford, Cameron; Orville Etheridge, Lockhart; Sam Forehand, Santa Anna; Hubert Foster, Brownwood; Pershing Goss, May; G. C. Graves, Big Spring; Jack Hardaway, Monahans; Carroll Howard, DeLeon; Billy Mansfield, Washington, D. C.; D. L. McDonald, Bangs; Rowland Michel, San Antonio; Jimmy Mills, Dallas; Joe Poboril, Belton; Truett Polk, Brownwood; Stacks Raines, Wink; Syd Russell, Stamford; Ulysses Shaw, Cullum, Alabama; Irving Smallwood, Washington, D. C.; Roy Stephens, Tahoka; Felix Susan, Eldorado; Cap Johnson, Rockwood; Royce Ripptoe, Comal; A. C. Hays, Hico; Newell Odell, Moran; Wallace Jones, Graham; Bill La-

HUMBLE OIL COMPANY TO SPONSOR FOOTBALL BROADCAST THIS FALL

It was announced today that the Humble Oil & Refining Company sponsors of broadcasts of Southwest Conference football for the past two years, will again sponsor these broadcasts during the 1937 season.

The broadcasts will be over an extensive network of Texas stations so that the followers of Conference football in all parts of the State will be able to follow their gridiron favorites without difficulty.

Due to the ten game schedule adopted by the Conference this season, broadcasts will be more condensed than heretofore. On most Saturday afternoons, the Humble Company will broadcast as many as three games, and on several Saturdays as many as four, according to tentative schedules now being worked out. This will give radio followers of football a comprehensive picture of the Conference season.

The announcing staff is already well known to football fans. It will include Kern Tips, Cy Leland, Hal Thompson, Gene Wyatt, Tom Jacob, Bill Hightower and other. Technical equipment, much of it bought new this year to take advantage of latest developments, will be unsurpassed.

were put in. Too coarse a texture and a dry cake with a sugary crust, indicates the oven was not hot enough when the food was put in it. Excessive loss of weight in a roast after cooking and dry, tough meat with too hard a crust is another result of too high temperature in the oven.

Baking failures worry women and cause them to seek an answer to the problems, but limp, discouraged vegetables are taken as a matter of course. Miss Hughey has found.

"Vegetables weren't born to be cooked until they were a tasteless, colorless and unappetizing mess," she declared. Too much water, too long cooking period, and too high a flame are cardinal sins against the vegetable kingdom, frequently committed.

Floor demonstrations featuring the semi-waterless method of cooking vegetables on top of the gas range will be given by Miss Hughey during her visit to the Community Natural Gas Company office, according to A. P. Rowland, manager of the Company.

"Customers are especially invited to attend these demonstrations or to come by the office and talk to Miss Hughey about this new cooking method which saves the housewife time, uses less gas and results in a cooler kitchen." Mr. Rowland said. "Miss Hughey's services are free to our customers, and in addition to her floor demonstrations she will be available on appointment for personal calls to customers' homes to give advice on cooking and use of the gas range."

Gas Co. Economist Gives Suggestions On Cooking Methods

Most women are better cooks than they realize, believes Miss Pearl Hughey, home economist for the Community Natural Gas Co., who is in Brownwood this week.

"Often a woman blames herself for inability to make cakes, pies, biscuits or other family favorites when inadequate equipment or some slight misunderstanding of the operation of her range is to blame," Miss Hughey said.

As specific instances of small things that keep many women from obtaining successful results, Miss Hughey mentioned some of the problems women have brought to her for solution.

"Biscuits that brown on the bottom before they are thoroughly done is a common complaint. Sometimes the oven is at fault and needs adjusting. Often the wrong type of pan is used as a pan with sides too high will keep the heated air from circulating over the top of the food, while a black or darkened pan will absorb radiant heat from the oven, causing the food to brown more on the bottom than the top.

"Cakes that are too brown, too compact, too crusty are proof that the oven was too hot when they

Mortuary

BOLEER—Warner Boler, 21, son of J. Mark Boler of Bangs and Mrs. Rosa Boler of Vanderpool, was killed in an automobile accident near Uvalde early Monday morning. Mr. Boler, former resident of Bangs, had been employed for several years by an oil company at Vanderpool, Bandera county.

Funeral services were held Tuesday afternoon at 3:30 at Indian Gap. Interment was made in the Indian Gap cemetery.

Survivors other than his parents include his grandparents, Mr. and Mrs. J. M. Boler of Brownwood, and Mrs. J. A. Harris of Indian Gap; two sisters, Mrs. Fay Earnest of Eastland and Mrs. Frank Lee of Oklahoma City; and one brother, D. D. Boler of Vanderpool.

Flower girls and pallbearers were cousins and close friends of the deceased.

Heavy Market for Beeves Forecast

Texas feeders have prospects of an exceptional market for such beeves as they can finish out by the end of the year and the first two months of 1938, according to C. W. Barnes, animal husbandman of the Texas A. & M. College Extension Service.

Barnes, who has recently completed a tour of the major grain and livestock areas of the state, reports that the grain crop is good over a major portion of Texas.

"The good grain crop over a large part of the state in combination with the shortage of grain for early feeding in the corn belt, makes this an ideal year for Texas feeders," Barnes said. He warned however, that feeders should start their operations at once in order to get their animals well finished and on the market before corn belt beeves begin to move.

The excellent grain prospect in the corn belt has strengthened the demand for feeders and stock animals, Barnes pointed out. Texas normally sells about two million feeders and stockers each year, he said, and feeds out around 150,000 beeves.

If beeves are placed on feed as soon as the grain supply warrents, so that the animals can be marketed before early April of 1938, Barnes believes that Texas feeders could profitably finish out from 300,000 to 500,000 animals.
