### Killed On The Track.

An unknown man was struck by the work train two miles this side of Rowe yesterday morning and almost instantly killed. He had stepped off the track when the engine whistled but was struck by one of the long arms of the ditch-machine. The engineer yelled at him to duck, but instead he slowly turned his head around to look back. The arm struck him near the left eye, and his neck was broken. The crew picked him up and brought him on to town where Justice Barnett held the inquest. There was absolutely nothing on his person or in his pack by which he might be identified. He had only five cents in money. His pack contained some food, ragged clothing and what appeared to be a set of umbrella mending tools. He looked to have been about 50 years old, light mustache, brown hair, and was apparently a consumptive, having an emaciated appearance. The burial was had at the expense of the county.

Jim Trent has a new way of dodging a mad cow. One day recently while out at his feed lots one of the lady bovines became imbued with an uncontrollable desire to do him bodily harm and took after him with tail up and horns down ready for gore. The rabbit rose in Jim instanter and he made a dash for the nearest fence. The cow was was the best sprinter, however, and Jim was running over in his mind all the mean things he had ever done (to cows particularly) and expecting to feel that ripping-up-the-back sensation every moment, when his foot slipped and he fell flat. The cow couldn't stop and ran right over him without touching him. Before she could turn Jim was up and on the fence.

Chas. McCrae is rejoicing over having secured for the steam laundry a new workman who takes charge of the washing machines. His name is M. Lemmon, and he is a man of 15 years' experience. He is an all-round laundryman and will add to the general effectiveness of the laundry. Mr. McCrae is sparing no trouble or expense in his effort to establish this laundry firmly on its feet, and it is our prediction that he will win out. He should be given the hearty support of the entire people.

Joe Horne left Sunday morning with a trail outfit for Dickens county where he goes to bring up a herd of cattle for Lewis & Molesworth. His helpers are Ed Butler, Emmett McCombs and Ross Gatlin. The herd will number from 600 to 1000 head and will be trailed to Estelline where they will be loaded for shipment to pastures in Kansas.

T. B. Lumpkin has been showing this week at the Clarendon Bakery some of the finest strawberries that have ever been seen in Clarendon. They were grown in his garden here in town, and according to Mr. Lumpkin the plants have been given no special attention. A finer berry would be hard to find. This section is without doubt adapted to this fruit.

The Clarendon Gun Club "got things a-goin'" Wednesday afternoon, and about a dozen of the members punched holes in the atmosphere for something like twenty-five times around. The club has just received a new trap of a modern make and same was being given a trial. On account of not being properly anchored and adjusted its work was not satisfactory, and as a very high wind prevailed the shooting was likewise poor. The trap will be properly placed and the club will hold regular weekly shoots in the near future to which the general public will be invited. The shooting range is located north of Kearby Row, and about a five minute walk from the business district.

### T. S. BUGBEE IS ELECTED

Clarendon Man Again Honored by Being Re-Elected President Panhandle Stockmen's Ass'n.

Roswell, N. M., April 16.—The eighth annual convention of the Panhandle Stockmen's Association of Texas convened here today with sixteen hundred visitors from all parts of the great Panhandle and neighboring states in attendance. Roswell is exerting itself in making the guests have a good time, and the plans of entertainment and decoration are the most elaborate attempted by any convention town in the history of the association. The convention was called to order at 10 o'clock this morning by the president, Thomas S. Bugbee of Clarendon. After an invocation of divine blessing, Judge Granville A. Richardson, president of the Roswell Commercial club, delivered the address of welcome. In his response, W. B. Slaughter of Dalhart showed that the visitors felt at home in Roswell, inasmuch as Roswell is a cattle center and really a part of the Panhandle, although an imaginary line separates the Pecos valley of this territory from the state of Texas. President Bugbee then gave his annual address which will be found in full in another column.

E. H. Brainard of Canada, secretary of the association, gave his annual report, reading a list of thirty-four names of cattlemen who have expressed a desire to join the association since the last meeting. He reports that the association has inspectors at work everywhere on all railroads in the Panhandle, and that they had returned as many as seventy-five head of cattle to the right owners in the past year and had returned to the right owners from the markets forty-five head, valued at \$910.33. He reported further that the association has \$628.80 on hand. After his report, the thirty-four new members were voted in, and five-minute speeches were called for.

Secretary Brainard said tonight: "There never was a better attended meeting of the association than this one, and I never saw an entertainment and program as good and as complete as in Roswell, and have attended similar conventions in many states."

The election of officers for the ensuing year was taken up Thursday and resulted as follows: T. S. Bugbee, president; T. J. Richards of Paducah, vice-president; G. M. Slaughter of Roswell, 2nd vice-president; E. H. Brainard of Canadian, secretary; B. T. Ware of Amarillo, treasurer.

Amarillo was chosen as the place for next year's convention.

# Can't Miss It

So many ailments are purely nervous affections, that you can hardly miss it if you try Dr. Miles' Nervine. It restores nervous energy—and through its invigorating influence upon the nervous system, the organs are strengthened. The heart action is better; digestion improved, the sluggish condition overcome, and healthy activity re-established.

"Dr. Miles' Nervine is worth its weight in gold to me. I did not know what ailed me. I had a good physician but got no relief. I could not eat, sleep, work, sit or stand. I was nearly crazy. One day I picked up a paper and the first thing that met my eyes was an advertisement of Dr. Miles' Nervine. I concluded to try it and let the doctor go, and I did so. After taking two bottles I could dress myself. Then I began taking Dr. Miles' Heart Cure and now I can work and go out, and have told many the benefit I have received from these remedies and several of them have been cured by it since. I am fifty-nine years old and pretty good yet."

## TRAITS OF BURMESE GIRLS.

Not All of Them Are Too Good For the Earth.

The Burmese girl when she is good is so very good that nothing like her is to be found out of the books for young ladies of the early part of last century. But for all that she does not mind being eloped with, if there is nothing expected of her but to be seized in the street, and bundled into a carriage or a boat, and carried off to some place where her silks will not be too much rumpled, and where there is plenty of cocoanut oil for her hair. The Burmese girls who are not so very good—and there are quite a lot of them—are not so easily eloped with. They dislike the worry of it, when things can be managed so much more simply and without the notoriety which makes a divorce and a fresh combination so much more troublesome. They like variety, and are quite of the opinion of the misguided small boy who said the marriage of one man to one woman was called monotony.—Chicago American.

## Cure for Rheumatism.

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by all druggists.

## Russell Sage Explained.

Once there was a man, says Harper's Weekly, who thought Uncle Russell Sage ought to stop work. He spoke to him about it. "Why get together any more money, Mr. Sage? You can't eat it; you can't drink it. What good will it do you?"

"Ever play marbles?" Uncle Russell asked.

"Yes, when I was a boy."

"Couldn't eat 'em, could you? Couldn't drink 'em, could you? No use to you, were they? What did you play marbles for?"

—Why eat with rusty knives or corroded and cankered spoons when you can get them nicely silver-plated at home. One door south of the Episcopal church.

## NOW THE BRACELET COCKTAIL.

Another Fascinating Vision of Metropolitan Life.

The cocktail bracelet is the latest for women. There are fashionable women of this city who wear bracelets on their wrists which sometimes contain a Martini dry or a Manhattan. says a New York correspondent. The bracelets have one drawback, it is said, and that is they will not accommodate the cherry that goes with the fairy cocktail. The other night a Pittsburg attorney observed a woman of fashion place her lips to her bracelet. He thought that she was paying tribute to her own levelness, but learned later she was merely refreshing her inner self with a mixture of cordials. The nip contained in a bracelet cocktail is so small that it cannot be called a drink, but a cocktail it is, nevertheless. Of course, the bracelet is hollow. If large enough it holds three thimblefuls of ready-made cocktail, and pressure on an almost invisible spring permits the fluid to trickle through a tiny hole in the gold shell, which is almost too small to be seen. With one of those graceful movements which appear to be natural with a woman the drink may be imbibed without fear of detection. A Broadway goldsmith sells numbers of the bracelets every week, and as most of the purchasers prefer secrecy in connection with the transaction they pay a pretty penny for the dubiously useful trinkets.

## Patti's Burning Admirer.

Many stories of Mme. Patti are still going the rounds. Once in Italy a card was brought to her from a man whose name she did not know, but who was so very anxious to see her that she allowed him to be shown into her room. When the unknown came in he proved to be a little old man who was quite red and speechless with nervousness. Suddenly Patti noticed smoke coming out of his coat, so without saying a word she seized a glass of water and threw it over him. It turned out that the old man had put his lighted cigar into his pocket when he entered the room and so had set fire to his coat. "Sir," said Mme. Patti, "I have had many admirers who professed themselves burning with admiration for me, but I have never before met one who went so far as to set himself on fire to prove it."

## Protection From Lightning.

The protection of buildings from lightning seems to call for a special branch of engineering. Alfred Hands, a British engineer, points out that safety cannot be had from any set rules, as each case must be studied separately and its system adapted to the complications of metal about the structure. The efficiency of the conductor depends almost entirely on the way it is applied. The composition matters little, and choice between copper and iron is chiefly a question of cost and durability.

## TO OUR PATRONS

It has become necessary for me to announce that the Panhandle Steam Laundry will be run from this date forward on a strictly cash basis. Now, this has been said before; but this time it is going to stick. I have now been engaged in this business for six weeks, and the business has done much better than I expected, and if I were collecting all accounts would be paying very nicely. But by far the larger part of the business so far done has gone on the books in little amounts so hard to collect as to be almost worthless. Positively, after this date no laundry will be delivered until paid for. If we can't get the money on delivery we don't want the work. We appreciate the patronage given us and wish it to be continued, but we must have the cash.

Yours truly,

### FARMING HAS PAID WELL.

Small Fortune Made in Few Years on Washington Land.

Twelve years ago W. B. Williams secured a homestead of 160 acres from one of the first settlers in that district (Yakima). At the time such claims were selling at \$250 to \$500. The land was left in sagebrush until three years ago, when it was cleared and planted. There are at present 80 acres alfalfa, 35 acres in clover, 22 acres in orchard of pears, apples, peaches and cherries, and one acre in grapes. An offer of \$400 an acre has been refused for a portion of this farm. Hay has been the money producer on that Kennewick place. The total yield for the last season was between 600 and 700 tons. Timothy gave a return of six tons to the acre. That hay is in demand at \$18 a ton. Mixed clover and timothy sell at the farm for \$15 a ton. Alfalfa is the standard crop and ranges about \$10 or more a ton. It is easy to figure out how that farm is worth \$50,000. It was only a desert four years ago. The crops have paid the first cost of the land and water, fencing and improving, and left the land complete to the owner. Next year the orchard will begin showing results.—Seattle Post-Intelligencer.

### Silver Plating.

I have bought a new and complete outfit for plating tableware at home without sending it away and will do you just as much good, and nice work as you can get done in any city and at the same price, saving you express charges and being without the use of your ware. I guarantee all my work satisfactory and only ask a trial order to satisfy the most skeptical. All work will be promptly done at once. ### Unsportsmanlike Prayer.

Old Roman sportsmen sought by every means, human and superhuman, to win their chariot races. Douglas Sladen, in his "Carthage and Tunic," tells how the archaeologists have recovered various imprecations used by owners of racing chariots and buried in tombs before the races. Here is an example: "I adjure thee so bind the hands, the head and the heart of Victorians to-morrow as I held this cock hound. Bind also the members of the horses which he may drive, hinder them from springing forward. Precipitate their driver from the chariot, so that he may be dragged across the hippodrome."

### The Price of Health.

"The price of health in a malarious district is just 25 cents; the cost of a box of Dr. King's New Life Pills," writes Ella Slayton, of Noland, Ark. New Life Pills cleanse gently and impart new life and vigor to the system. 25c. Satisfaction guaranteed at J. D. Stocking, druggist.

### Shingle Currency.

The records of the squire's court at Blaine, Whatcom county, Washington, a little town near the British Columbia line, bear testimony to the financial stringency of the early '90s. Whatcom county is in the heart of the lumber country, and as there was no money to be had, "shingle scrip" became the currency of the land. The court records show that John Smith was "fined 10,000 shingles for drunkenness." The books show further that the fine was paid. It was an able judge who could so accommodate the law to prevailing conditions.

ARE you doing your part in this College matter?

How about the second \$50,000? Are you doing all that you should to see it come to Clarendon?

Clarendon College building fund has reached about \$22,000, and some of the donors are doubling their subscriptions. Clarendon schools have been the making of her, and other towns should note Clarendon's methods of getting those schools.—Wheeler County Texan.

THE half-way point has been passed in the effort to raise \$50,000 for the Clarendon College building fund. Our people should bear in mind the fact that when this \$50,000 is raised another like amount will be forthcoming from the district. It means great things to expend \$100,000 on a thing, and that is exactly the object in view by the promoters of this school. Think over your contribution carefully, and see if you can't raise it.

IN another column will be found a call from Mayor A. M. Beville for a meeting of the business people to arrange for the 4th of July celebration in Clarendon. Clarendon has not failed in this matter for many years, and it is desired to make the affair this year better than usual. The old Confederate veterans have named that day as the time and Clarendon as the place for their annual re-union, and we should see to it that the best arrangements are made. It is not too early to commence now. There is much work to be done and the committees should be put to work immediately. Every business house in town should have a representative at the meeting called by Mayor Beville for next Tuesday afternoon at 4:30 o'clock at the store of E. Dubbs & Sons.

THE Co-Operative Commission Company, which was organized a few years ago by a number of live stock growers for the purpose of offsetting extortionate charges of the various live stock exchange owned and controlled by the live stock commission men at the different yards, has won a decisive victory recently. The Kansas City Livestock Exchange undertook to force the packers to stop buying from the Co-operative company under threat of boycott. The situation was uncomfortable for a day or so, but was cleared up on the 4th inst. when representatives of Armour and Swift visited the yards and announced that they would send their buyers into the country, thus ignoring the Exchange and the commission people entirely, if the boycott was not lifted. It was immediately lifted. The outcome is looked upon as a great victory for the co-operative company and the producers as against the exchange trust. Many of the most prominent cattlemen in the country hold stock in the co-operative concern, among them C. M. O'Donel of New Mexico, and Richard Walsh and Murdo McKenzie of Texas. They have not organized with the intention of breaking up the exchanges, but simply for the purpose of handling cattle at the markets at the old reasonable charges.

## Fourth of July Meeting.

The Confederate soldiers have voted to hold their annual re-union this year on July 4th, in connection with Clarendon's Fourth of July celebration.

We want to make this the greatest event of all the great events ever before held in Clarendon. For the greatness of the occasion which we expect to make it we should meet at once and perfect our plans, and to that end I take the authority to call a mass meeting of our business people to meet at E. Dubbs & Sons' store on next Tuesday afternoon, April 23, at 4:30 o'clock. Let there be a representative present from every place of business.

Very truly,  
A. M. BEVILLE,  
Mayor.

## Wanted.

Man and woman for house and farm work. Good pay and permanent position for right parties. Apply in person.

W. F. WHITE,  
Rowe, Texas.

Capt. E. E. McGee was here from Rowe Tuesday looking for a break in his telephone wire. He found it just within the city limits. He informs us that he has sold the Rowe Telephone Exchange to S. L. Adamson who will move it to the new town, Hedley. Capt. McGee has built up a nice telephone business in that community and his business relations with all parties concerned have been more than pleasant. His long distance associates will be particularly sorry to see him leave the business. The Banner-Stockman trusts the genial captain will find other business close by that will prove as lucrative and pleasant.

## It Has Stood the Test—Hammar Paint.

Miss Minnie Weatherly came in from her claim in Paloduro canyon Tuesday and is rejoicing over the fact that her time has been lived up and that she is now the unqualified owner of three sections of good land. Miss Minnie deserves all the good luck that may come her way from this time on for her pluck and determination in holding on to her claim for three years and finally proving up with a clear title. She is one among a thousand. Her brother, Harry, has also just proved up on some land adjoining hers.

D. L. McClellan reports the sale of the Harry Gleason residence on First street (the old Lipsey place) to J. T. Morrow, of Canyon City, at \$1665. Mr. Morrow will move his family here. He also sold H. W. Smith's 100-acre farm 4½ miles south of town to David Johnson, of Frederick, O. T., at \$21 per acre. Mr. Johnson will locate here.

J. E. Crisp reports the following sales: H. Clifton residence on Second street to W. W. Hastings, \$750. W. A. Walters residence on Second street to same party, \$400. J. H. King residence to same party, \$750. The old Arch Ward place for J. E. McCombs to O. Hudspeth, \$1100.

—The City Meat Market, W. I. Lane, proprietor, solicits a share of your business. They handle fresh vegetables as well as meats, and will deliver promptly. Phone 17.

Messrs. R. T. Patterson, of Shreveport, La., and F. B. Fields, of Cheyenne, O. T., came in Sunday for a visit of several months to their uncle, Dr. T. E. Standifer.

Mrs. Parry Rowe and daughter, Miss Effie, came down from their home at Dalhart Monday night for a visit to the family of T. B. Lumpkin.

—The newest and best line of wall paper in town is just received at Dr. Stocking's drug store, and the prices are right. tf

## Land at \$60 Per Acre.

Alexander & Cole report having sold to J. R. Wasson, of Oklahoma City, the P. R. Stephens 100-acre tract in West Clarendon, known more familiarly as the old McLean property, the price being \$60 per acre. This is fine property. Mr. Wasson is an enterprising man of means, and the first thing he did after closing up the deal was to look up W. B. Wilson, the financial agent of the new College proposition, and give him \$300 toward the college building fund.

Mr. Wasson will at once arrange to place the property on the market in blocks and lots, which will be of great advantage to buyers of residence property, being near the college, and will relieve the building site situation by enlarging the scope of the residence section in that part of town and enable home builders to get property of worth at less money than heretofore.

Alexander & Cole also sold the S. G. Chestnut place to Dr. Gould at \$2550. Mr. Cole left the first of the week for a trip to Tennessee where he expects to find some buyers near his old home, while Mr. Wasson will interest some friends in Indian and Oklahoma Territories.

Rev. W. P. Dickey, pastor of the local Presbyterian church, also of the church at Rowe, returned from the latter place Tuesday where he had been on business connected with the removal of the church building to Hedley, the new town. An amicable agreement was reached in the matter and the removal has been completed, the building now occupying a lot in Hedley. The bank has also moved the past week, and the telephone exchange sold to S. L. Adamson of Hedley who will move it at once. This completes almost entirely the change from Rowe to Hedley. There is now left at the old town only the postoffice, school house, depot and a few residences. The postoffice building contains a small stock of groceries, also.

Capt. Geo. E. Bartlett, representing the Peters Cartridge Company, gave an exhibition at the gun club grounds Wednesday afternoon that was worth a good round admission price to anyone. He was here to advertise and talk up the Peters cartridges, and his work certainly does speak volumes for the ammunition.

Capt. Bartlett with a 30-30 rifle, using the common Peters 30-30 cartridges with soft-nosed bullet punctured holes in pieces of 3-16th inch boiler plate 2 1/2 inches square, one after another as they were thrown in the air. The holes were almost as smooth as if drilled. A sealed tin can filled with water was tossed up and reduced to vapor with one shot.

There were many other demonstrations of skill given, such as hitting marbles, small washers, bits of rocks, and other small objects while in the air. Considering the high wind this exhibition was extraordinary. But the interesting thing was his shooting 200 shots through a 22-caliber rifle without dirtying the gun. The cartridge used was King's Semi-smokeless, sold and made exclusively by the Peters people. It is a powder which supercedes the old-time black powder. It is much better in every respect and sells at the same price. One black powder cartridge will foul a small rifle as badly as the 200 of this semi-smokeless. He showed the gun barrel to the crowd to prove this.

Altogether Captain Bartlett's exhibition was a good one, and the explanatory talk he made was convincing. The Peters ammunition will doubtless sell better locally hereafter.

## PRES. BUGBEE'S SPEECH

Full Text of Clarendon Man's Address  
Delivered at Roswell Conven-  
tion on Tuesday.

Mr. Bugbee said:

Members of the Panhandle Stockmen's Association, Ladies and Gentlemen:—

In this, the eighth year of our Association, we have taken a new departure. For the first time the Association holds its meeting outside the state of Texas. I am very glad that it has been decided to do so. We have all along had many faithful and useful members residing in New Mexico, and it is highly appropriate that we should recognize their loyal service to the Association by meeting with them on their ground. It is right, also, to take notice of the great cattle interests of this portion of the territory and the share they have in the purposes for which this Association exists. For these reasons it seems to me very proper that we should by no means confine our meetings to the State of Texas as we have heretofore done.

There is another reason why it is pleasant as well as profitable to hold our meeting here. We are in the center of an immense cattle country where the business which our Association is designed to promote is carried on on a large scale and furnishes a striking example of the work in which we are all interested can be conducted to advantage, and also a striking example of the need of such an Association as this and its benefits in promoting so great an industry. We meet, too, in one of the most beautiful towns in all this section of our country, where we have only to look around us to admire its evidences of prosperity and of the good taste which has adorned the town itself with so much grace and beauty. Charming in its outward appearance, and still more charming in the cordial and gracious hospitality with which we are welcomed, I have no doubt but that all who have come to Roswell will ever remember our meeting here as one of the most pleasant in the history of the Association.

The past year has been on the whole a fairly prosperous one to the industry we represent. The season has been especially favorable and the losses from cold and storms have been lighter than usual while the increase in the prosperity of the country generally has helped make the prices of our product more firm and stable as well as advance them to a considerable extent. Speaking generally, the cowman of the section tributary to this Association is in a comfortable condition. A very large per cent of individual indebtedness has been lifted and cattlemen generally are more contented and better satisfied than they have been for many years. Let us hope that this condition of things will continue and that the circumstances of the country and the means used to promote that prosperity will lead to even greater advances.

I may briefly refer to some of these circumstances and means of progress more particularly affecting us. In the remarks I made at the opening of the last session of the Association I alluded to one of these—the advancement of agriculture proper in this section; the work of "the man with the plow." Another year's experience has only confirmed the opinion I then expressed. It was once thought that the only way a cattleman could succeed was by keeping the farmer at a distance; by holding all the range open and depending upon grass entirely to maintain his stock. But it is now clearly shown that the land of the Panhandle is capable of cultivation; that it is well adapted to produce reasonably sure crops which afford available feed for stock, and that in this way the cowman is able to keep a class of stock of higher grade than ever before and to escape a great part of the annual losses occasioned by hard seasons and scanty feed which in former years made cattle raising to a considerable degree a game of chance. It has also made it possible to feed the stock to a high standard, to make them nearly or quite ready for the market, and in-

crease the quality and market value of our product.

During the past season the State of Texas through Prof. Marshall of the A. & M. College conducted a series of experiments trying or testing the value of different feeds for making beef. This being the natural home of the kaffir corn we were all interested to know what would make the best balanced ration with it. Your President had the honor of being called on to assist in this experiment. I suppose most of you have already seen an account of the results, but for the purpose of informing those who have not, and for the purpose of making a more public record of this test and its results I take from the Drivers' Telegram of April 2nd the statement made by Prof. Marshall under whose direction the experiment was conducted:

"Texas Experiment Cattle—string of 100 steers fed under test sold here today. Two bunches of three-year-old steers, fed under direction of A. & M. College. The tests were made with ground kaffir corn fed with cotton seed, and ground kaffir corn fed with cotton seed meal. Cattle weighing 1118 on Jan. 1st, when feeding began. Lot No. 1—50 steers, were fed 20 pounds ground kaffir corn with 5 pounds cotton seed. Lot No. 2—50 steers, were fed 22 pounds ground kaffir corn and 3 pounds cotton seed meal. Both lots fed kaffir corn fodder for roughness. During the last 30 days lot No. 1 made a gain of 100 pounds. Lot No. 2 gained 91 pounds. On April 2nd at Kansas City lot No. 1 weighed 1249 pounds and sold for \$5.20. Lot No. 2 weighed 1216 pounds and sold for \$5.15. The time occupied in feeding was 85 days."

Now I want to call your attention to the fact that this feed was all raised in the Panhandle. That it has been shown that with grade cattle and careful feeding we can right here fit our cattle for market and become independent of the corn growers of Missouri and Kansas, and turn the cattle business from a game of chance to a regularly organized business where industry and skill will receive an adequate reward. This, I insist, confirms the suggestion last year that the development of farming in this country is a benefit, not only as regards the advance in the value of the land, but in the help it gives to stock raising itself.

I would not by any means, however, disparage the work of the pioneers of the cattle industry in this country, in Northwest Texas and New Mexico. They were the pioneers of civilization in this section long before any white men were here. They left comfortable homes and settled communities to come here to what was then apparently "the great American desert," and enduring the loneliness and the hardships of a pioneer life, the chances of misfortune and loss, gallantly fighting the battle with savage beasts and still more savage men, with the droughts of summer and the blasts of winter, with cattle thieves and rustlers. They have made possible the development of the country which is now beginning to dawn. To their enterprise, and to the business they gave in the way of live stock shipping we are indebted for the railroads that have penetrated this section; and to the railroads in turn we owe the coming of the farmer and consequently the great agricultural development of our glorious country. Most of these pioneers have passed over to the Life Beyond to receive their reward, but we can rejoice that there are some of them still with us; men like Goodnight and Slaughter and Littlefield, who are spared to see the land they opened to use developing beyond all they could in those early days imagine to be possible.

At this meeting, held for the first time in a new place, and a new section of the country, it is proper to call attention to the purposes and objects of the Association, and to urge as strongly as we can all who are interested to join with us. We represent one of the great industries of our Nation—next to grain growing, the most important and greatest of agricultural pursuits. Now it has always proved true that with men engaged in a pursuit there is no truer proverb than the old one, "In union there

# Still in Progress

## Barnett, Smith & Thornton

The Grocers and Furnishers

is strength." We have many difficulties still to encounter. The nature of the products of our pastures and ranches make our calling peculiarly subject to the depredations of thieves and marauders. Our Association sets itself to suppress this crime and to punish the criminal, and by maintaining at the points of shipment and at the markets a regular system of inspection to secure the property of its members and recover it when stolen. If the Association accomplished nothing more this would of itself be a sufficient reason for its existence. But the cattle thief is by no means the only one we have to encounter. The country swarms with parasites who try to thrust in between the producer and the consumer and pick up the lion's share of the price of the product; and again and again have purchasers combined to keep down the price of cattle for their own advantage. Singly we can do nothing to prevent such injustice, but by combining our forces we can in some degree at least serve each other by preventing them. We have in the past, and may again, need legislation to prevent extortion in transportation and unfair and ruinous rebates. To regulate the charges of marketing and to prevent combination of customers to keep down prices. Standing each man for himself we are powerless to secure it, but the united effort of the whole body has in the past and will again in the future succeed in some degree in getting these evils corrected. Then, apart from matters of business, our Association has a social side that is quite as attractive. Once a year a large number of men, good neighbors and good fellows, all of them having a common interest in the business they pursue, get together to greet each other, to compare their experiences and their methods, to renew old acquaintances and to form new ones, to recount the story of the past and to plan for the future; in short, to have a good time. And I earnestly hope that the many who have gathered here will find this meeting so agreeable that they will all want to get together again, and that every cowman in this section will find our Association not only profitable but also so pleasant that he will endeavor to persuade all who have not joined to come in with us at once and help to extend its influence and its usefulness and make

its annual gatherings every year more delightful.

It has been a popular fad at the National Capital as well as at nearly all the the State Capitals to make a relentless war on railroads, and there is no doubt but that many of the evils complained of should be corrected and could be done without crippling that great industry which has had so much to do in making this the grandest Nation on earth. What railroads have done for parts of this great country they will do for us if we can but secure them. Nearly one-half of our countries, and some of them the best in this great Panhandle, are without a mile of railroad, and to develop these counties we must have railroads. So long as this war goes on we can hope for no new lines of railroads. Put out the fire of the locomotive and you stop the wheels of progress. We have a soil and climate unsurpassed, if equaled, on the continent; its wealth will far surpass the combined mineral wealth of the Rocky Mountains, and we must have railroads to bring that wealth to the surface. May the good Lord hasten the time when the shrill whistle of the locomotive will be heard in the remotest corner of the Panhandle. Then, and not till then, will all its greatness be shown to the world.

Who are the men who are making this vicious war on the railroads? Are they the men who bear the burden of taxes? I think not. Many of them pay but little more than a poll tax, yet they would paralyze one of the greatest interests of our country. The car shortage is one of the great evils with which the cowman has had to contend, yet if he will look around he will see many conditions which this great wave of prosperity has brought about. The demand for cars and locomotives at foundry

and factory cannot be supplied in half the quantities that are demanded. It is also true in every line of business; it will apply to the farmer as well as the manufacturer. In our own great Panhandle I see more cotton grown than can be gathered by the available help. In my own instance I raised more kaffir corn than I could get help to gather, and had to let the cattle gather it; and many of my neighbors were in the same condition. This condition of things does not bespeak hard times. So, gentlemen, let us not kill the goose that laid the golden egg.

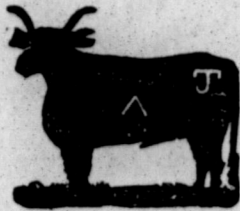

I will not consume more of your time with what I have to say, as you will be entertained each day while this meeting lasts by prominent speakers. I hope you will give us your presence while those speeches are being made, as I am certain you will learn much that will be of advantage to you. Our Secretary's report will show that we are in good financial condition and that we are making a steady growth. But instead of 700 or 800 members we should have 2500. Every stockman and farmer will certainly find it to his interest to join us and be an active member.

#### A Woman Tells How to Relieve Rheumatic Pains.

I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines yet never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked.—MRS. SARAH A. COLE, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by all druggists.

#### Resolutions of Respect.

To Capt. R. S. Kimberlin, Commander, Camp Sam Lanham, No. 1383, U. C. V.:

We, your committee appointed to draft resolutions expressive of the feelings of this Camp on the death of Comrade Wm. H. Cooke, beg leave to submit the following:

WHEREAS: It has pleased the Commander-in-Chief of the Universe to transfer our Comrade, Dr. Wm. H. Cooke from the ranks of this Camp to the Grand Army of the Redeemed on High, therefore be it

RESOLVED, by Camp Sam Lanham, No. 1383, U. C. V., that in the transfer of our Comrade, Dr. Wm. H. Cooke, the Camp has lost one of its most active, sympathetic and useful members; one who was ever ready to do everything in his power for his Comrades, in trouble or sickness; who was at all times a faithful member and a congenial Comrade.

That in the death of our revered Comrade the state has lost an honorable, upright citizen, the community a sympathetic, loving friend, his family a noble, kind and loving husband and father.

Be it further resolved, that we extend to his bereaved wife and children our tenderest sympathy, and assure them that the Camp mingles its tears with theirs and mourns deeply with them in their sad affliction.

Be it further resolved, that a copy of these resolutions be presented to the family of our Comrade, and a copy furnished each of our town papers for publication.

Very respectfully submitted,  
W. H. MARTIN, } Committee.  
W. R. BOURLAND, }

#### Sheriff's Sale.

THE STATE OF TEXAS, }  
County of Donley. }

By virtue of an Alias execution, issued out of the Honorable Justice Court of Pre. No. 1, Dallas County, on 23rd day of March, 1907, by the Justice thereof, in the case of McCormick Harvesting Machine Co., a corporation, versus T. A. Babb, No. 5168, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's sales, on the first Tuesday in May A. D. 1907, it being the 7th day of said month, before the Court House door of said Donley county, in the town of Clarendon, the following described property, to-wit:

All of section No. 12, certificate No. 11, abstract No. 1277, G. W. Smith original Grantee, in block E, Donley county, containing 640 acres, now owned by Mrs. E. P. Babb and her husband, T. A. Babb, and is located about 18 miles north of Clarendon, levied on as the property of T. A. Babb to satisfy a judgment amounting to \$240.13 in favor of McCormick Harvesting Machine Co., a corporation, and cost of suit.

Given under my hand, this 29th day of March, 1907.

Those parties who were left by his death with work uncompleted can have same promptly and properly attended to by Dr. R. L. Hearne, who succeeds to Dr. Cooke's office and practice.

#### Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by J. D. Stocking, druggist. 50c.

### You Wouldn't Believe Me

If I should tell you that you can obtain as good and in some cases better photographic work right here at home as you can in large cities. I have an ax to grind when I make the assertion and you know it. However, just to satisfy your curiosity, get a city picture, put a MULKEY photo by its side and see for yourself. Isn't this fair enough?
