Limited Castor Price Support Ordered

An experimental program of limited price supports on castor beans effective with the 1968 crop has been ordered by the U. S. Department of Agriculture.

Rep. George Mahon's office reported Monday that USDA has set a tentative support level of 55 cents per pound, subject to review of parity prices.

Department officials told Mahon's office the support rate will apply to the weight of de-hulled castor beans, excluding foreign material and moisture in excess of six percent.

High Plains growers about six cents per pound. Castor beans heretofore have had no support program.

Production of castors has been expanding in recent years, although the bulk of domestic consumption still is supplied by imports.

The High Plains supplies most of the nation's production of castors.

Goodwin Nominated For District Contest

Ross Goodwin, recently named "Conservation Farmer of the Year" in the Blackwater Valley Soil and Water Conservation District, Bailey County, has been nominated by the District for the "Outstanding Farmer" award to be presented by the Fort Worth Press later this year.

The Blackwater Valley SWCD entry will be in competition with other entries from Soil and Water Conservation Districts throughout Texas.

While it is too early to make accurate estimates of how many acres will be planted to castors in the High Plains this year, industry officials expect some acreage increase.

The organic matter of the soil, Goodwin has put in many days of unselfish service in the conservation of irrigation water. He served for six years as County Committeeman of The High Plains Underground Water Conservation District No. 1.

Davis to Sign With A & M

Robin Davis of Sudan, son of Mrs. Mary Porter Davis, stated he will sign a letter of intent on February 13 to play football at Texas A&M, Texas A&M officials announced yesterday.

With the deadline for registration only a few days away, Texas voters over 60 years old have been reminded of a new law which requires every voter to register, regardless of age or place of residence.

Texas Secretary of State John L. Hill issued the reminder in a statement summarizing registration requirements. As Secretary of State, Hill also has the title of chief election officer of Texas.

Harlem Stars-Faculty Game Enjoyed by Over 1,000 Fans

An estimated crowd of more than 1,000 people of all ages laughed their way through what surely must be the funniest basketball game of the year in Muleshoe Thursday night.

The zany antics began at 8 p.m. Thursday night in Muleshoe Junior High School gym when the Harlem Stars from California met the Muleshoe faculty in a laughter-packed almost two hours of fun.

Henry "Handa" Johnson, a comedy player with the Stars, proved more than adequate to provide merriment for the large crowd present for the contest.

Actually, the game had only an 11-point spread at the finish with the final score being 83-72, but as the Stars are firm believers in making the audience laugh and spend more time in frolicking all over the court instead of hitting the basket when they can.

Referees Bob Graves and Burel Block were on the receiving end of much of the Stars antics. From using trick balls with elastic attached to

return it to the shooter to pouring ice down the referees' backs to pushing him over the kneeling figure of another player, the entire two hours of the game was filled with laughter.

Near the end of the game, it was called to a complete halt by the Stars on the court. According to them, all games should have a "Queen" and they announced they had chosen their queen for the night. With that solemn statement, Handa Johnson marched up into the grandstand and brought back down their chosen queen to stand in the middle of the court. She is Greta Bamert, young daughter of Mr. and Mrs. Carl Bamert, who, along with the rest of the people present, had no idea what to expect. One of the players offered her a bouquet, which was promptly reclaimed before it could reach her hands, then given a folder which apparently had pictures of the Stars before being grandly escorted back to her seat by Johnson.

Coach Raymond Schroeder led the scoring for

the Muleshoe faculty by lobbing 15 points through the basket; he was followed by Hoot "Tubby Tennis Shoes" Gibson, who was a comedian in his own right, who had 13 points; Warner Lawson proved he had not forgotten the game of basketball as he followed with 10 points; James Elders and Bobby Nickels each had 8 points; of course when Nickels would miss a basket, the Stars were kind enough to lift him up where he could just put the round skin through the basket with no real effort; Coach Royce "Legs" Barnes made 5 points for the Muleshoe faculty and Gene Paul Jarman made it for 5 points; Larry Davis managed 4 points and Bud Barber, Dick Stafford and Gordon Wilson each had 2 points.

Others who did not score but played well in the tilt included Coach Ronnie "Jumping Jack" Jones, Gerald Shanks, Eugene Shaw and Keith Bray.

UF Workers to Meet Tuesday: Goal Short

The 1967 United Fund drive is lacking \$2,359.09 reaching the goal of \$14,800.00 which has been set as the goal.

A comparison of the funds collected in different divisions for 1966 and 1967 are as follows:

	1966	1967
ADVANCED	\$8,086.50	\$7,958.00
COMMERCIAL	470.00	664.61
PROFESSIONAL	1,603.50	1,484.00
EMPLOYEES	1,449.89	972.20
CITY-FARMERS	614.00	450.00
RURAL	1,577.67	931.10
SHORT	\$138.44	2,359.09
BUDGET	\$13,931.00	\$14,800.00

Many cards have not been turned in and many persons have not been contacted. Don Harmon, United Fund officer urges all to work together as a community to put the fund drive over the goal. Have YOU made YOUR contribution to the United Fund? A meeting for all United Fund workers has been scheduled for Tuesday, January 30, at 8 p.m. to be held at the Muleshoe State Bank Community room.

A Salute to Area Clubs and Presidents

Mrs. Ed Johnson

Mrs. Ed (Blanche) Johnson, Club and is interested in all the present president of the Epsilon Delta Chapter of the Delta Kappa Gamma Society-International, is a retired teacher. She was a member of the Muleshoe faculty for twenty-five years prior to her retirement in 1965 and was a member of Muleshoe Classroom Teachers Association, Texas State Teachers Association, both local and state; also a member of the National Educational Association.

Mrs. Johnson is a member of the First Baptist Church, Muleshoe and is now affiliated with the American Association of University Women, the Muleshoe Study Club, the Friendship

The Epsilon Delta's projects are: To honor and encourage Future Teacher members, to broaden their cultural background, to become better informed of the Delta Kappa Gamma Constitution, to honor the founders, to honor pioneer women educators in the area and to help with all civic matters in the community, whenever possible.

The Delta Kappa Gamma Society was originally chartered and incorporated in Austin, in 1929 by twelve Texas women educators, led by Dr. Annie Webb Blanton, a University of Texas faculty member. The amended charter permits the establishment of chapters anywhere in the world. Delta Kappa Gamma is the largest organized group of women educators in the world, having 98,000 members, who belong to more than 2,000 chapters organized in every state of the United States, District of Columbia and in six provinces of Canada. Some of the purposes of the Society are to unite women educators of the world in a genuine spiritual fellowship to honor women who have given, or who evidence a potential for distinctive service in any field of education, to advance the professional interest and possibilities of women in education, to sponsor and support educational legislation and to endow scholarship and aid outstanding women educators.

These purposes are exemplified by the fact that the Society supports 13 annual international members to pursue graduate study. Many scholarships are given to members to advance their education.

Space for Everything

COLLEGE STATION-A space for everything and everything in its space is a slogan adapted by Joy Arrington, Extension home management specialist at Texas A&M University.

Miss Arrington suggests this as the storage motto for today's modern homemaker in the "Astronautical Sixties" where space has become an everyday word, applying to everything from orbits to kitchens.

"Planned storage space is essential in the space age kitchen," says Miss Arrington. "Since specific kitchen storage is personal, each homemaker must judge the arrangement that best meets her working needs."

The home management specialist suggests some rules for good storage.

Place items where they are most used. Cooking tools, such as toasters, turners and skillets should be near the range. Store items such as saucepans, liquid measuring cups and mixing spoons near the sink.

Store articles together which are used at the same time. For example, plan a mixing center for bowls, rubber scrapers, measuring utensils, mixers and baking supplies. Miss Arrington suggests duplicating salt and measuring spoons throughout the kitchen to save steps.

Allow space for food, utensils, portable appliances, dinnerware, kitchen linens, empty containers, and freezer and

Study Club Met With Mrs. Horace Blackburn

The Muleshoe Study Club met Thursday afternoon, 4 p.m., in the home of Mrs. Horace Blackburn. Refreshments were served as the women arrived.

Mrs. Cecil Cole, president, called the meeting to order, welcoming the guests and members. Mrs. G. L. Splawn called the roll, each member answering with "Friends I Have Made on a Trip." Mrs. S. L. Benefield led the salute to the flag after which Mrs. Effie Bray led in prayer. Mrs. Rufus Gilbreath, director, introduced the visiting speaker, Mrs. Jack Lenderson, a Muleshoe resident and artist, who spoke and showed slides on "Living in Foreign Lands."

Mrs. Lenderson and her husband, Jack, kept in their home Hillne Bekaret De Patter, an exchange student, for a school term so she could attend school in Muleshoe. Hillne, as most will remember, was from Brussels, Belgium.

Mrs. Lenderson showed slides of her tour of Belgium, Germany, France, Switzerland and Holland, explaining the pictures as she showed them. While in Belgium, Blanche visited in Hillne's parents home, meeting another young lady, Vera De Patter, who returned home with her.

Mrs. Cole presided over the business meeting. Mrs. W. T. Andrews, nominating committee chairman, read the suggested slate of officers for 1968-69. President, Mrs. Horace Blackburn; Vice President, Mrs. R. O. Gregory; Second Vice President, Mrs. S. L.

Benefield; Recording Secretary, Mrs. Joe Costen; Corresponding Secretary, Mrs. Ed Johnson; Treasurer, Mrs. J. G. Arun; Parliamentarian, Mrs. T. B. White; Critic, Mrs. John Farley; Historian, Mrs. Rufus Gilbreath; Federation Counselor, Mrs. O. N. Jennings; Press Reporter, Mrs. Cecil Cole and Radio Reporter, Mrs. Doyle Turner.

Mrs. R. F. Wright made a motion that this slate of officers be accepted, motion seconded and carried.

All members in the club are to have their garment finished by February 8 and wear the garment to the club meeting. The yearly reports are due February 15. Be sure and keep this in mind.

The club has a new shipment of US flag costume jewelry pins for sale at \$2 each. If anyone would like one of these pins, call any of the club members.

The next club meeting will be February 8, 4 p.m. in the home of Mrs. Rufus Gilbreath.

FAREWELL PARTY--The Muleshoe Neighborhood of Girl Scouts met January 23 for a farewell party, honoring Mrs. L. A. Harper, who is moving to Dallas. Presenting her with a charm bracelet is Mrs. Charles Green. The bracelet has a charm with the inscription "Thanks for Scouting." Mrs. Harper has been associated with the Neighborhood Girl Scouts for the past seven years. She has held different offices in the club and at present, she is secretary and treasurer. Those attending were Mrs. Elbert Estep, Mrs. Wayland Harris, Mrs. Byron Cooter, Mrs. T. R. White, Mrs. A. J. Mallouf, Mrs. Charlene Bartholf, Mrs. Charles Green and four children.

DECA Preparing for Odessa District Meet

By Bobby Kay Gilbert

The Distributive Education Club of Muleshoe High has been real busy in the last few weeks. They are getting ready for the District Meeting, that will be held in Odessa February 3, 1968. Several members of the Muleshoe Chapter will be competing in different contests. These contests consist of a beauty pageant, public speaking, job interviews, and sales demonstrations. The members that are going on the trip are Sandra Hopper, Gail Phipps, Diane Bryant, Kay Killingsworth, Bobby Kay Gilbert, Walter Little, Larry Crawford, Ronnie Farmer, Jimmy Bruton and Neal Knight. Each one of the members going will represent MHS to the best of their ability.

Public Property

A soldier parked an army jeep and started walking down the street. A policeman called after him: "Hey, buddy, drop a nickel in that parking meter." "Put it in yourself," the GI yelled back. "That jeep belongs to you as much as it does to me."

Each member of DECA would like to encourage every student of MHS to represent and support the basketball teams. The DECA members are selling beat tags for each game, so buy them and give your support to our team.

FANS BACK TEAMS--A pep rally prior to basketball game last Tuesday, fans are shown cheering the Muleshoe teams before they took to the gym floor for the game. The teams have drawn larger crowds for all games this year than in years previous.

Trouble is Here: "If you please, ma'am," began the new maid. "There's a strange woman downstairs. She won't give her name, but she's taken off her hat and coat, opened two cupboards, rubbed her fingers over the piano and complained about the dust, and when I left her she was--"

"Oh, dear," exclaimed Mrs. Brownson. "I didn't expect my husband's mother until tomorrow."

Innocent Party: "You mustn't pull the cat's tail," a mother warned her small son. "I'm only holding it, Mom, the youngster replied seriously. "The cat is pulling."

FRESHMAN TEAM---Team members, manager and the coach of the freshman team are pictured here. They are (back row) manager Larry Gross, Stephen Black, Lewis Morris, Terry Gunter, Keith Turner, Gary King, Kenneth Carpenter, Jerry Scoggin, Jerry Putman, Frank Ellis, Rusty Peery, Kerry Siewert and coach Bob Graves. Slaughter, Jesse Clemmons, Dennis Beene, John Woodard, Steve Woodard, Jackie Harris and coach Royce Barnes. Front row: Roy McCormick, Alford Bleeker, Bobby Burge, Lionel Patterson, Ricky Botkin, Keith Griffin and Lowery Lewis.

Eight Graders Look for Their Fourteenth Win

With both defensive teams holding - and holding - and holding, the score remained the same at halftime as it was at the end of the first quarter in preliminary game activities by Muleshoe's eighth grade cagers and Herford's LaPlata eighth graders Thursday night.

Although the future Mules won the game in the final analysis, halftime saw 12-7 on the scoreboard in Muleshoe Junior High gym. Maintaining the lead all the way through the contest, the tough eighth graders ended with a score of 36-13, and now are looking forward to their fourteenth win, having gone into the Thursday night tilt with 12 straight wins to their credit for the season.

Randy Field and Lee Clodfelter tied for high points as each found the right spot to hit the basket for 11 points each; Mike Riley added 6 points to the one-sided score; Don Heathington had 3 points; Rand Baker and Ronnie Meason each scored 2 points and Johnny Hayes 1 point.

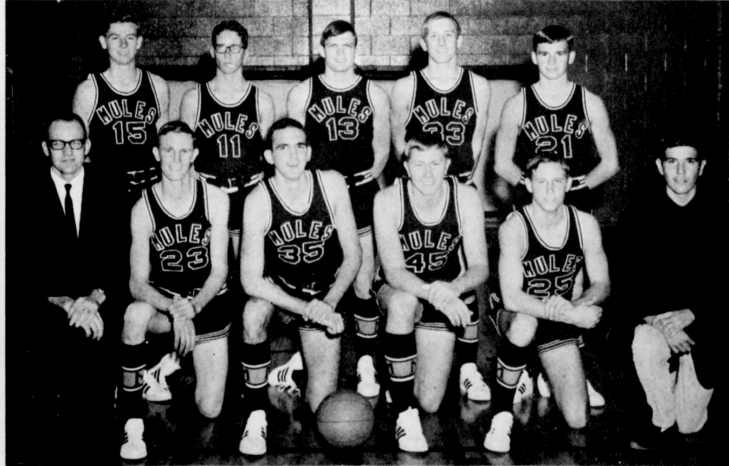

Coach Ronnie Jones' fantastic cagers, who are slow starters at times, always come back to win the contest at the moment. The Thursday night win over LaPlata of Herford made it 27 straight wins for teams who have been coached by Jones.

The defensively strong LaPlata players, who are coached by Pat Privett, came into the

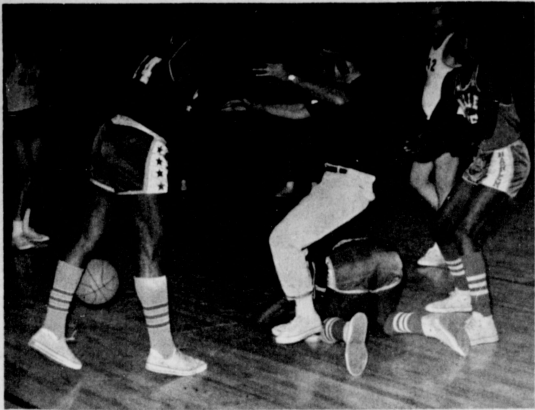

game with a record of 5-5 for the season. The Thursday night loss made it a 5-6 record for them.

On Thursday afternoon, some of the smaller eighth graders and the seventh graders from Muleshoe Junior High School traveled to Springlake, where they played Bovina. The Muleshoe team won with a score of 46-31. Billy Riels was high pointer for the team with 18 and Bobby Hays added 14 to the score to be next in line in scoring.

Innocent Party: "You mustn't pull the cat's tail," a mother warned her small son. "I'm only holding it, Mom, the youngster replied seriously. "The cat is pulling."

BASKETBALL VARSITY TEAM---These are members of the Varsity "A" team for Muleshoe High School, their coach and manager. Shown are Coach Raymond Schroeder, Ronnie Barrett, David Davis, Dan Huff, Eddie Derrick and Jerry Haskins, manager (front row) Back row: Alvin Walker, Jim Pitman, Terry Field, David Dillman and John Freeman Elliott.

REFEREE DECISION OBJECTED--Referee Bob Graves was on the receiving end of many of Handa Johnson's crazy antics during the Thursday night game between the Harlem Stars and the Muleshoe faculty. Here Johnson has his own way of showing his objection to a decision on a personal foul call by referee Graves. In the background to the left, Coach Schroeder is shown looking on, with Gene Paul Jarman (No. 42) shown in the right background.

STATE CAPITAL Highlights AND Sidelights
by Vern Sanford

AUSTIN--Democrats will have at least a five-ring circus in the upcoming primary race for governor. In fact, there's a good chance that as many as eight candidates will toss their hats in the ring by the February 5 filing deadline.

It will be a free-for-all, with the two best-known Democratic leaders, Gov. John Connally and Sen. Ralph Yarborough, standing on the sidelines. For the first time since 1956 the incumbent governor will not be running for re-election.

Lt. Gov. Preston Smith, happy that his prediction that Connally and Yarborough would stand aside, continued his steady campaigning for governor as one by one, other candidates got into the race.

Gordon B. McLendon, Dallas radioman, and Pat O'Daniel of Dallas, son of former Gov. W. Lee O'Daniel, were the first to follow Smith in the filing.

Then came former Attorney General Waggoner Carr.

Secretary of State John L. Hill of Houston lined up at the post Monday for a running start to become number five.

Don Yarborough of Houston, who ran against Connally in 1962 and 1964, was in chute number six.

In chutes numbers seven and eight were two Texans who have been serving as ambassadors. These are Eugene Locke of

Dallas, who has been in South Vietnam, and Ed Clark of Austin and San Augustine, who has been in Australia.

Decisions by Sen. John Tower and U. S. Rep. George Bush of Houston to stay out of the Republican primary for governor leaves that race open for the moment. Albert Fay of Houston is mentioned most among the GOP as their standard bearer against the winner of the Democratic dumpy-brook.

JUNIOR COLLEGES TO 'OPEN DOORS'--Junior college admission for anybody who wants to "succeed or fail on his own effort" is part of the policy of the public junior college master plan adopted by the Coordinating Board, Texas College and University System.

Senior colleges and universities are getting more and more selective, and the Board felt there must be a place for the "late bloomer" -- the student who demonstrates academic ability later than most, as well as the person whose employment ambitions require only two years of college, and the post-college age people who need continuing education.

There are 39 public junior college campuses in the state now, and the Board's plan envisions 73 within 20 years, with total enrollment of 305,000. Junior college enrollment is increasing at the average rate

of 20 percent a year, compared to a 10 percent average increase for four-year schools.

Ironically enough, the plan adopted and labeled "emergency" was similar to one proposed by Rep. Jerry Sadler in 1955, but rejected as "too advanced."

ATTORNEY GENERAL RULES--A member of the Texas Teacher Retirement System can "buy" out-of-state experience credit less than three years before he retires and draw corresponding additional benefits three years after payment, Atty. Gen. Crawford Martin held.

In other recent opinions, Martin has concluded that:

"Texas Air Control Board must determine which plants processing agricultural products in their natural state (those which come to plants in substantially the same condition as they existed in nature) are under its jurisdiction."

Members of Air Control Board also can serve on the advisory National Center for Air Pollution Control or as faculty members at state-supported universities.

Junior colleges are exempt from standard floor space, type building, bond and number-of-instructors requirements for cosmetology training courses.

Utility companies are responsible for costs of relocating poles and other facilities incident to widening of county roads where facilities are located on a perspective road right-of-way. Companies have no right to any portion of right of way due to long use.

PARK FUNDS GRANTED--A \$219,500 federal grant has been approved for acquisition of 1,259-acres of land on Lake Livingston in Polk, Trinity, San Jacinto and Walker Counties to

Trinity River Authority will put up an equal amount for the project.

TRAVEL TRAILS--Governor John Connally has designated 10 Travel Trail Areas in Texas. Each route is designed to help Texans and Texas visitors find some of the most interesting parts of the Lone Star State. These include the Plains Trail in the Panhandle; the Mountain Trail in the Big Bend; the Pecos Trail in the region below San Angelo; the Forts Trail in the old Indian country from Menard to Jacksonburg; the Hill Country Trail in LBJ country; the Lakes Trail in the region of lakes above and below Dallas-Fort Worth; the Brazos Trail through Central Texas and the Brazos Valley; the Forest Trail through the Piney Woods and other parts of East and Northeast Texas; the Independence Trail through the Galveston - Victoria - San Antonio region; and the Tropical Trail from Corpus Christi down through the Lower Rio Grande Valley.

APPOINTMENTS ANNOUNCED--Governor Connally named First Assistant Atty. Gen. George Cowden, 37, chairman of the State Board of Insurance. Cowden, of Waco, succeeds William Hunter McLean of Fort Worth, who is retiring February 1 after five years' service on the major state board.

Atty. Gen. Crawford C. Martin then elevated Nola White to

Cowden's post as Martin's top assistant. White, 62, of Beaumont has been heading the crime prevention division of the attorney general's staff.

Committee appointed to the Committee on State and Local Tax Policy John McKee of Dallas, Hugo Loewenstein of Amarillo and Dr. John Stockton of the University of Texas in Austin.

Other members will include Reps. Ben Atwell of Dallas, W. C. Sherman of Fort Worth and Hudson Moyer of Amarillo, selected by the speaker; and Sens. Henry Gorver of Houston, Bruce Reagan of Corpus Christi, and David Ratliff of Stamford designated by the lieutenant governor.

Mrs. Tobin (Anne) Armstrong of Armstrong in Kenedy County was selected Republican national committee member from Texas at a recent GOP state executive committee meeting.

She succeeds Mrs. J. C. (Barbara) Man of Dallas, who resigned.

New deputy presidents of the Texas Federation of Republican Women are Mrs. James R. Faulk of Waco, Mrs. Jack Garrett of Danbury, Mrs. M. R. Bullington of San Antonio, Mrs. Max Preston of San Angelo and Mrs. Jack Hart of Grover.

Mrs. Lee Briscoe of Eagle Lake is the new TRFW treasurer.

STATE WINS FIRST AIR CONTROL CASE--First case filed under the 1967 Clean Air Act was won by the State. So ruled the 151st District Court for the Texas Air Control Board, in a suit against Harris County garbage dump operators.

With a finding of air pollution, the trial court ordered seven dump operators to convert to landfill operations, and bid to cease operations, put out all fires, and cover all wastes with dirt.

SMITH NAMES COMMITTEES--Lt. Gov. Preston Smith named four Legislative Committee members to undertake studies ordered by the 1967 Legislature. Committees also will make recommendations to the Council, and the 1969 Legislature.

To the Committee on Feasibility of Establishing and Operating an Academy of Science in Crime Prevention and Detection, Smith named Rep. Gene Hendryx of Alpine, chairman; Sen. Jack Hightower of Vernon; Sen. David Ratliff, Stamford; and Reps. Paul Floyd of Houston and James Sluder of Naples.

To the Committee to study Rules and Procedures of State Administrative Agencies, he appointed Rep. R. H. (Dick) Cory of Victoria (chairman); Sen. Barbara Jordan of Houston; Sen. J. P. Word of Mustang; and Rep. Ralph Wayne of Plainview.

Smith picked Sen. Murray Watson Jr. of Waco to chair the committee to study the Fire Record Credit and Debit System. Others on this committee are Rep. Tommy Shannon of Fort Worth, Rep. Don Cavness of Austin, Rep. George Henson of Mineola, and Sen. Hightower.

Rep. Menton Murray of Harlingen, Representative Cory and Representative Jones will serve with Senator Jordan on the committee on Statutory Revision. Senator Word will chair that committee.

Hunters Bag 21 Aoudads

CANYON--Miserable hunting conditions with temperatures hovering around ten degrees and 20 mile per hour winds resulted in a lower than expected kill of aoudad sheep, according to Philip Evans, wildlife biologist in Canyon for the Texas Parks and Wildlife Department.

Evans said during the five-day hunt in the Palo Duro Canyon area, hunters killed 21 aoudads. Seventy of the 84-permits issued to landowners were used by hunters. The kill represented a 30 percent hunter success.

Evans said hunter success averaged 24 percent in previous years. There were 19 sheep killed in 1966, 16 in 1965, 13 in 1964 and 9 in 1963.

Forty-four of the buff-colored natives of Africa's Atlas Mountains were released in the Palo Duro Canyon area ten years ago by the Department on an experimental basis. The population now is estimated at over 600.

Of the 21 sheep killed 13 were rams and 8 were ewes. The largest ram dressed at 215 pounds and had a horn length of 27 1/2 inches.

"The hunters did not see as many sheep as they normally do," Evans said. "Sheep were killed on ranches where they had never been killed before. This leads me to believe that the sheep may have moved off their home range due to the severe weather."

Fast Start

An owner from the West showed up at Churchill Downs with an 8-year-old horse that had never been in a race before and entered him in an important event. The unknown was hardly a betting attraction, and he was off at \$136.50. He galloped home first by ten lengths.

The officials, puzzled, demanded, "Why haven't you raced this horse before? Why did you wait until he was 8 years old?"

"Well, to tell the truth," said the owner, "we couldn't catch him until he was 7."

New Organization Replaces Texas Baptist Brotherhood

A new organization, Texas Baptist Men, was given approval Monday.

About 75 top Baptist laymen and pastors from over the state unananimously okayed the proposed constitution and by-laws

of the organization in a called meeting at First Baptist Church in Dallas prior to the three-day Texas Baptist Evangelism Conference.

The new organization, Texas Baptist Men, will replace the

Texas Brotherhood organization, though work of the two will virtually be the same.

C. J. Humphrey of Amarillo presented the constitution for approval. The executive board

of the group will convene in Dallas Monday, March 4.

The Baptist Men drew praise from Dr. T. A. Patterson, executive secretary of the Baptist General Convention of Texas, following the action.

"We have seen what laymen can do when they put their hearts into the work," said the Baptist executive.

Patterson called for a "task force of laymen in Texas" who will go anywhere in the world to present the Christian message.

Roy Akers, prominent Baptist layman from San Antonio and president of the group since last November, encouraged the Baptist men "to get off the bench and get into the game."

The constitution of the newly formed organization provides: "The objective of Texas Baptist Men shall be to support the Baptist General Convention of Texas in its task of bringing men to God through Christ by fostering programs that will assist the churches and (Baptist) associations in their tasks of leading men, young men and boys to a deeper commitment to missions. . . ."

Members of Baptist men's groups in churches affiliated with the BGCT will comprise membership of Texas Baptist Men, according to Roy Akers.

The organization, as the Texas Baptist Brotherhood has done, will continue to correlate work with the Brotherhood Commission of the Southern Baptist Convention.

The new men's organization was authorized by the messengers attending the annual convention of Texas Baptists last November in Lubbock.

The constitution provides that the officers of the group shall consist of a president, at least three promotional vice presidents, a recording secretary and such other officers as may be determined necessary or

advisable by the executive board of Texas Baptist Men.

The governing body of the organization will rest in an executive board. It will be composed of the officers and executive-secretary; one man from each of the 123 Baptist associations in the state; 18 members-at-large; the Texas member of the Brotherhood Commission of the SBC; the immediate past president of the Texas Baptist Men; the chairman and the secretary of the State Missions Commission of the BGCT.

The executive board, as provided by the constitution, is authorized to elect an executive

secretary-treasurer and other professional personnel. W. L. Smith is currently serving as secretary of the Texas Baptist Brotherhood, with several observers forecasting that he will continue as the executive secretary in the new organization.

Cotton Meeting Held Recently At Halfway

The first meeting in 1968 of the Cotton Commodity Committee of the High Plains Research Foundation was held at Halfway on January 16. Chairman Donald Johnson of Lubbock conducted the meeting which was a discussion of the various research projects to be undertaken by the Foundation staff of scientists in the 1968 crop year.

Dr. Tom Longnecker, Director and Soil Scientist for the Foundation, along with staff members Dennis Moore, Jim Valliant and Loy Langford, reviewed the program already planned. Included in these projects was a three-phase program on fertilizer on cotton, an expanded cotton variety performance test, more work on water usage for practical efficiency, different planting designs, a micro-climate study, and a stepped-up program on weed-control.

Several new projects were discussed and will be considered further. One of these which will be carried out is a study on controlling blow-out problems on young cotton by planting wheat on the cotton land and then killing the wheat along with a herbicide at cotton planting time, leaving the wheat stubble for wind protection.

Members of the Cotton Committee are Donald Johnson, Lubbock; W. L. Edelman, Friona; Jack Little, Muleshoe; Ray Joe Riley, Sunnyside; Aubrey Lockett, Vernon; Earl Gene Beach, Cotton Center; Don Anderson, Crosbyton; Roy Davis, Lubbock and Ben Dopson, Lamesa.

Dear Editor

Dear Editor:

As teachers of your community's children, we would like to address this letter to all the mothers and fathers in your school district.

One of the main objectives of your child's school is to train him to become a good citizen of this great and good country.

You expect him to be a good citizen now—to do his homework, to be respectful, to obey the law, to be polite.

To you we say, it's time to do your own homework! Help us to teach good citizenship by registering to vote. It's free, but not registering could prove costly. January 31 is the deadline.

Set an example for citizenship for your child, and create an image with which he can identify. Let him know how and why you are registering—make sure he knows the power and importance of one vote. Make sure you know too. Thank you.

20 years of growth

The goal of Texas Farm Bureau members in forming their own insurance companies was to provide members with the best insurance available, at the lowest possible cost. This is still true today and now members have all lines of insurance available from their own companies.

The job of providing this service is big today. The people necessary to keep pace with Farm Bureau growth are increasing. The companies now have 41 men around the state to handle the claims of members. As agriculture changed, it became important to have trained specialists to oversee some of the complex insurance needs of members, we have added 13 Field Underwriters to do this.

The Agency force, full time dedicated men who contact members about their insurance needs, has grown also. These 20 years have seen this group increase from 11 to 275.

The Texas Farm Bureau is a membership organization dedicated to preserving the free independent way of life for the Texas farmer and rancher. Southern Farm Bureau Casualty is proud to be a part of this and proud of its 20 years of helping Texas grow through Agriculture.

Two Federal Grants Approved

AUSTIN--Two federal grants totaling \$90,100 have been approved for development of Atlanta State Park, 12 miles northwest of Atlanta in northeast Texas, and Goliad State Park, one mile south of Goliad in South Central Texas, according to Will Odom, chairman of the Texas Parks and Wildlife Commission.

These funds will be matched by appropriations made by the State Legislature in projects totaling \$160,200 at the two State Parks.

The \$109,800 project at Goliad State Park includes construction of a restroom, a service and storage building, screened camping shelters, camping units, picnic units, a nature trail, roads and parking facilities and utilities. The project also includes design, layout, site preparation and landscaping. The 209-acre park located on the San Antonio River, contains a replica of the Mission Nuestra Senora del Espiritu Santo de Zuniga, originally established in 1722 and settled in 1740.

Other historic sites in the area include Presidio Nuestra Senora de Loreto de la Bahia, Mission Nuestra Senora del Rosario, the common burial site of victims of the Goliad massacre and the General Zaragoza birthplace.

The \$70,400 project at Atlanta State Park includes trailer camping sites, tent camping units, a restroom, a trailer sanitary dump station, roads, landscaping and utilities. The project also includes design, layout and site preparation.

The 1,475-acre park is located on the southern bank of the Sulphur River and adjacent to the 120,000 surface-acre Lake Texarkana.

Odom said these projects bring to a total of 15 State Parks which have had approval of Federal Land and Water Conservation Act funds. The Federal Land and Water Conservation Fund program is administered on the Federal level by the Bureau of Outdoor Recreation, U. S. Department of the Interior. Its funds are derived from the sale of surplus government property, Federal motorboat fuels tax, the sale of the \$7 Golden Eagle Passport and other recreation fees.

Odom is State Liaison Officer for the fund and responsible for reviewing projects and proposals submitted for Federal assistance.

New Crop Year Dawning: Submit Soil Samples

LUBBOCK--A new crop year is dawning and farmers are busy planning for the new season. Foremost in these plans should be soil testing.

"Now is a good time for farmers to collect and submit soil samples for fertility level tests," reminds Jim Valentine, Extension area soil chemist at the South Plains Research and Extension Center north of here.

Valentine, who heads up the soil testing laboratory at the center, points out that soil samples can be processed and reports returned to the farmer within one week after receipt.

"In planning a program of fertilizer use, two factors are of utmost importance," explains the soil chemist. "These are the present fertility level of the soil and the desired or expected yield."

A soil test is the best way to determine the soil's present fertility level, points out Valentine. Such a test shows the levels of major plant nutrients that are present and suggests the amount of these nutrients needed to produce the farmer's desired yield in line with the water and general management practices.

"Soil testing is especially important in determining the need for phosphate," says Valentine. "Here is where the soil test can save you money. If phosphate is needed, it should, by all means, be used. However, if it is not needed, a substantial saving in production costs can be made by leaving it off."

Valentine reminds producers that the necessary information sheets and cartons for submitting soil samples are available at all county Extension offices. The information provided

Q -- I expect to be discharged from the service within five months after having served five years on active duty. May I apply now for a G. I. Certificate of Eligibility so that I will be able to attend college as soon as I am discharged?

A -- You cannot receive a Certificate of Eligibility until you have been discharged from the service, because a copy of your discharge paper, DD 214, is required with your application. However, as a serviceman you are already eligible to participate in the educational assistance program.

Q -- My son, a World War II veteran, died recently, and I found to my surprise that although he married and had two children, I was listed as his beneficiary; he never changed his beneficiary on his National Service Life Insurance when he got married. I believe he really intended his wife and children to receive his insurance. May I assign the proceeds of the insurance policy to them?

A -- Yes, you may assign the proceeds to your son's wife. Your nearest VA office will be able to help you complete the assignment.

Q -- I am currently receiving pension under the so-called "old law." Can I change to the new law and some time in the future go back to the old law if my income is reduced below the \$2,700 or \$1,400 limits?

A -- No. While you may change to the new pension law (P.L. 86-111) you cannot revert to the old pension law again at a later date.

The \$2 investment in a soil analysis could well be your most profitable expenditure for the 1968 crop, believes Valentine.

Grassed Waterways

By Fred Armstrong
SCS Office

A grassed waterway is a natural or constructed outlet shaped or graded and established to suitable vegetation as needed to provide for the safe disposal of excess surface water from terraces, diversions, fields or from natural concentrations of water without damage by erosion.

Waterways may be used in connection with terrace systems, field diversions or for the protection of natural waterways through farmland. Many farms have outside water as well as their own that is cutting gullies and eroding valuable farmland. An adequately shaped and vegetated waterway is necessary to safely carry water through or around a farm and in many cases, must be established before needed terraces can be constructed. They may also be used for grazing or hay production may be mowed or occasionally grazed for maintenance purposes but are not to be used for roads or for travel with farm equipment.

Soil Conservation Service personnel are available to provide technical assistance on management practices, layout and design of waterways and give information on Federal Cost-Share that may be available in completing water disposal systems so that run-off water from agricultural land may be conducted to safe points of release with a minimum of erosion.

Slow Increase Advised on Meat Production

COLLEGE STATION---The situation is right for a sizable increase in meat production in 1968, but producers are reminded of Secretary of Agriculture Orville L. Freeman's plea to keep production in line with demand.

John G. McHaney, Extension economist at Texas A&M University, said early in December, 1967, Secretary Freeman pointed out that the farmer can look forward to favorable livestock prices if production is kept in line with demand. If production is expanded, a decline in livestock prices can be expected.

The U. S. feed grain output in 1967 set a record and McHaney predicts lower feed grain prices in the first part of 1968 compared with a year earlier. With a more favorable livestock-feed price ratio in prospect, feeding per animal unit may be heavier.

Producers have responded to similar conditions in the past by expanding their output of livestock and livestock products. Secretary Freeman emphasized the need for producers to show restraint.

The USDA has been active in enacting measures to check price drops. This action includes the 1968 Wheat and Feed Grain programs designed to restore a better balance between production and use.
