

Some Real Belly Laughs

Would you believe that behind these strange-looking costumes are two reasonably sane members of the Hereford Lions Club? It was part of a campaign skit at the annual Lions Club election party Thursday night, and five of these "characters" appeared and performed to a whistling tune. By looking closely, one might determine that faces have been painted on the chest and on down to the waist, with "puckered lips" painted around the belly button. Needless to report, it was a hilarious number.

Water Forces Evacuations

By The Associated Press
Floodwaters from torrential rains struck the Houston and Beaumont areas late Thursday, forcing some evacuations, stranding motorists and flooding many homes and businesses.

Harris County Civil Defense officials predicted more flooding - and more evacuations - through the weekend, especially along the rain-swollen San Jacinto River east of Houston.

"We evacuated 111 persons from Bella Woods and about 100 persons from Banana Bend and Highland Shores Drive," said Harris County Civil Defense Director John Caswell. He predicted homes of more than 1,000 residents will have to be evacuated in Harris County before the week is over.

Some evacuations were under way Thursday in the Beaumont area near the Pine Island Bayou and Sour Lake and other areas near swollen river tributaries, the National Weather Service reported.

Both cities received six or more inches of rain Thursday, and Bevil Oaks north of Beaumont recorded 11.5 inches.

"All stores and businesses in downtown Beaumont were being flooded by running water up to two feet," the NWS reported just before midnight Thursday. The Red Cross set up seven shelters in Beaumont for flood refugees.

The NWS said 75 to 100 persons were stranded by deep water at Beaumont's Parkdale Mall. They were rescued early today.

The new rainstorms came one day after 800 to 1,000 residents in Conroe, 35 miles north of Houston, were evacuated from their homes after a nine-hour downpour filled streets and homes with water.

Caswell said current flooding in the Houston area would exceed that of 1973 when a record 49.8 feet of water crested the Lake Houston spillway.

"That was about five feet higher than the spillway," Caswell said. "This is going to be about six feet higher than the spillway and the extra 12-inches of water is going to affect a much larger area."

Forecasters said the crest was expected tonight.

Russ Luedke, a visitor from Neeah, Wisc., was en route to see a play in Houston when the car he was riding in flooded out.

"We were just sitting there and a guy in a canoe came along and gave us a ride," to a nearby church, Luedke said. "I don't know if I'll ever come back to Texas again."

Water was reported over the tops of cars in the Alabama Theater parking lot in Houston. Police and firemen throughout the city were called out to assist stranded motorists.

A North American Soccer League game between Houston and New England went on as scheduled in the Astrodome despite waist-deep water in some areas outside the facility.

A crowd of 650 watched the game while others stalled on feeder roads leading to the Astrodome.

The floods also hampered rescue efforts at Nederland where a tanker exploded and burned when it was struck by lightning while unloading oil.

A four-inch downpour caused streets and underpasses to flood during rush hour traffic at Fort Worth Thursday afternoon and heavy thunderstorms roamed across much of South Texas throughout the night.

Rainfall amounts in the Houston and Beaumont area ranged from five to 12 inches in a 24-hour period, the National Weather Service said.

Rain continued in Southeast Texas during the early morning hours and forecasts called for more showers and thunderstorms throughout the day. High winds were to be mostly in the 70s and 80s.

A flash flood watch was extended for Southeast Texas. It covered the area along and east of a line from College Station to Palacios.

Severe thunderstorms, packing strong, gusty winds, heavy rain, some small hail and intense lightning roared through the middle Texas coast area during the night.

Several counties were under severe thunderstorm warnings during the night.

A special marine warning urged fishermen and small boat operators in the Gulf of Mexico in the Corpus Christi area to return to shore because of gusty winds and rough seas.

Baseball size hail fell in some northwest sections of the Panhandle late Thursday.

A tornado watch was issued for northeast sections of the Panhandle.

Skies were clear in far West Texas, but cloudy over the remainder of the state.

Early morning temperatures were mostly in the 50s and 60s. Extremes ranged from 49 at El Paso and Dalhart to 75 at Brownsville.

Some 1,000 persons remain homeless in Marengo, Greene, Hale and Sumter counties. They were forced to evacuate when the Tombigbee River, swollen by torrential rains, crested at 72.4 feet Wednesday, 24 feet above flood stage - the highest water on record since the area was settled in 1818.

Evacuations also were predicted for southeast Texas where some 1,000 Harris County residents near Houston prepared to flee from their homes along the San Jacinto River.

John Caswell, Harris County civil defense director, said the current flooding would exceed that of 1973 when a record 49.8 feet of water crested at the Lake Houston spillway.

The crest at Lake Houston was expected Friday night, and Caswell said further evacuations would be ordered as the river rises. "We're looking for flooding problems throughout the weekend," he said.

Torrential rainstorms Thursday night also caused street flooding in Fort Worth and the Beaumont area. Some homes in Beaumont were reported under water, but there were no evacuations there.

Overnight rains soaked the Red River Valley, threatening more than a dozen cities and thousands of acres of rich farmland in Minnesota and North Dakota.

Volunteers and city officials reinforced dikes with sandbags and extra dirt along sections of the 200-mile valley that extends from South Dakota to Canada.

The Red River, separating North Dakota and Minnesota, rose swiftly Thursday, climbing 13 feet at Pembina, N.D., in 24 hours. The mayor of Minot, N.D., said he may order the evacuation of 12,000 persons living along the Souris River, where the water level was nearing flood stage.

The Red was expected to crest next Tuesday at East Grand Forks, Minn., and Grand Forks, N.D., at a depth of 47.5 feet, the highest since 1897.

Flooding Spreads In Mississippi

By The Associated Press
Flood waters churned deeper into the heart of south Mississippi today, advancing steadily on the sandbagged fortress of Columbia. Spring floods also caused problems in Alabama, North Dakota, Minnesota and Texas.

"It's coming and it keeps coming," Mississippi Civil Defense spokesman Jim Thornhill said at Columbia where his staff worked over ringing telephones and blaring two-way radios.

"I've seen what it has done in the Morgantown area to the north so I know what's heading our way," he said.

Columbia lies directly in the path of the muddy Pearl River floodwater - the same water that covered hundreds of homes and businesses in Jackson, 80 miles to the north.

The floodwater also covered small highways and farmland as it twisted south past Georgetown and Monticello, Miss.

In Jackson, waters receded from previously closed downtown streets. Stained flood marks were visible at least 2 feet above the water line on fashionable homes in the northeast section of the city.

More than 17,000 persons were forced to abandon their homes in the Jackson metropolitan area and hundreds of persons inundated two federal disaster centers that opened Thursday at city parks.

"We need help," said Peggy Simoneaux, who said she had been waiting at one of the centers for five hours with her 4-year-old daughter. "We have got to find a place to stay."

Officials estimated 3,000 persons at Columbia and in towns upriver - Georgetown, Morgantown and Monticello - already had fled their homes.

Thornhill said the weather service was considering raising its forecasted crest at Columbia, now expected Monday, by at least a foot.

"The river is forecast to crest at 27 1/2 feet on Monday, give or take a foot" and flood stage is 17 feet, he said.

Slaughter Cattle Show Decline

WASHINGTON (AP) - A quarterly report shows the number of cattle being fed for slaughter - the major source of most cuts of supermarket beef - is down substantially from a year ago.

The Agriculture Department said Thursday the April 1 feedlot inventory totaled 11.1 million cattle, down 6 percent from more than 11.7 million a year ago.

But officials said that, with the exception of last year, the April 1 feedlot cattle inventory was the largest since 1974.

One reason for the 6 percent drop from year-earlier inventories is that severe winter weather reduced new placements of lightweight cattle in feedlots in the first quarter of this year.

Another factor has been the high prices of feeder cattle themselves, which have tended to make many farmers and feedlot operators think hard about placing new stock on feed.

The nation's total cattle inventory is down sharply from a few years ago because producers have trimmed herds, sending them to market by the millions because of depressed prices.

In the last year, however, the reduced cattle inventory has triggered a steady rise in market prices - now at record levels - and producers are gradually beginning to rebuild their breeding herds.

Thus, with fewer cows and other "nonfed" cattle going to market, there will be less lower-grade beef for hamburger and processed foods.

More feedlot beef is coming along, but not enough to offset the decline in nonfed cattle for slaughter. That means the total U.S. beef supply this year will be down about 8 percent this spring and summer from a year ago.

Also, much more pork and poultry will be produced this year, which will help consumers, but not enough to take the place of beef. (See **CATTLE**, Page 2)

Construction Workers Boo Wage-Law Repeal

AUSTIN, Texas (AP) - An estimated 5,000 construction union members converged on the Capitol Thursday and loudly booed members of a Senate committee who approved repeal of the state's prevailing wage law.

President Harry Hubbard told the throng outside the statehouse after the 6-0 vote in the Senate Economic Development Committee.

Union members wearing hard hats and baseball caps poured into the Capitol. They clogged hallways and shouted "Kill that bill!" so loudly they could be heard through the closed doors of the House and Senate chambers.

One man was ejected from the House gallery after ignoring warnings to remain silent.

The Senate committee approved a bill by Sen. Bill Moore, D-Bryan, that would throw out a 1933 law requiring contractors to pay the local prevailing rate. (See **WAGES**, Page 2)

★ Fact Finder ★

Q--Why does the school district tax my family's cars, but the city and county don't?

A--In 1976, the Hereford City Commission abolished the tax on all but commercial vehicles. According to City Manager Dudley Bayne, the city had a difficult time collecting the tax from transient farmworkers and decided not to tax personal vehicles, although the state requires it. The county, according to tax assessor-collector Nell Miller, abolished the tax on all but commercial vehicles in 1977 because the staggered vehicle registration system, which went into effect last year, had been proposed. Under the staggered system, vehicles are registered all 12 months of the year. The assessment time on property for taxation is Jan. 1 through April 30, so the county would have been unable to get a list of those people who register after April 30. Since commercial vehicles are registered by April 1, they are still taxed. Part of the Tax Relief Amendment removes the tax on private vehicles. The city and county will be in compliance when the governor signs the bill abolishing the tax this year. The school district is now in compliance with state law, charging \$1.24 per \$100 valuation on all vehicles.

Editor's note: Do you have a question you would like to see answered by The Brand news staff? The Brand will research and seek out answers to questions for the Fact Finder. All it takes is a phone call to the news office, 364-2030, and the question will be answered at the editor's discretion.

Callers will be asked to identify themselves but their names will not be published. Questions can cover the field, with the only requirement being they are legitimate questions. The editor will determine their validity.

Lions Club Selects Officers

O.G. (Speedy) Nieman was elected as the 1979-80 president of Hereford Lions Club during an election party and ladies' night dinner Thursday at the Community Center.

Other new officers elected at the dinner included Sid Shaw, secretary; John Bryant, 1st VP; Bob Nigh, 2nd VP; Calvin Jones, 3rd VP; Victor Cantu and B.J. Gilliland, Lion tapers; Greg Black and Joe Emanuel, tail twisters; and Leo Harper and Rob Marshall, directors.

Nieman will succeed Gayle Cotton as the club president. All new officers will be installed the first part of July. The election party included campaign skits for the offices of president and secretary. Shaw will succeed Nicks Farris as secretary.

Special entertainment was provided at the party by "The Trio," composed of Bob Stice, Joyce Allred and Jan Walsler. Piano accompaniment was by Cindy Vaughn. B.J. Gilliland served as program chairman.

Vote Due on State Spending

AUSTIN, Texas (AP) - State policemen, the Texas prison system, old persons and young jazz artists were big winners in House debate of the \$20.2 billion 1980-81 state budget bill Thursday.

Debate went into its third day this morning, with Speaker Bill Clayton predicting a final vote either tonight or Saturday morning.

"I still think we can finish Friday. ... Our plans at this time are to try to finish this week," Clayton told reporters as the House adjourned Thursday night.

While the House Appropriations Committee couldn't hold off every attempt at changing its product, the net change in state revenue spending after two days of debate was about \$18 million.

That would mean about \$350 million left "on the table" for tax cuts or other spending - a far cry from Gov. Bill Clements' insistence on almost \$1 billion for property tax relief.

Biggest change made Thursday was \$6 million to increase Texas Department of Public Safety salaries even more than the appropriations committee had recommended, plus \$2 million for state policemen's overtime.

A highway patrolman who has just completed probation would get \$15,000 on Sept. 1, compared with \$13,692 now and \$14,880 recommended by the committee. A Texas Ranger sergeant's base pay would jump from \$17,244 now to \$22,200.

Rep. Tip Hall, D-Denton, said that while the additional pay raises would cost \$3 million a year, the DPS' annual cost of \$6 million for training patrolmen to replace those who have quit.

Appropriations committee members opposed Hall's amendment, but the House refused to table it, 13-124, and approved it on a voice vote.

Rep. Craig Washington, D-Houston, tried several times to eliminate \$42 million for the first phase of constructing a new \$83 million state prison but was beaten each time.

"If you kill these amendments, you are going to be telling the taxpayers we are robbing them of \$42 million," said Washington.

He contended ongoing construction at the prison system would provide some 8,000 beds to handle the overcrowding that has 800 to 1,000 inmates sleeping on mattresses on the floors of cells.

But appropriations committee members won a 75-62 vote against Washington's final attempt.

Rep. Betty Denton, D-Waco, was more successful, securing a 123-16 vote to add \$1.3 million in state funds for meals for the elderly. She said the federal government now requires state matching funds as a condition for receiving about \$23 million for such programs as Meals on Wheels.

"We'll lose it. We'll lose the whole thing" without the matching money, Mrs. Denton said.

The House voted 106-29 to remove a rider that told the Texas Commission on (See **SPENDING**, Page 2)

Government Beef Purchases Reduced

WASHINGTON (AP) - If the Carter administration has its way, Americans will be eating less beef and more chicken and pork.

In an effort to slow rapidly rising beef prices, the administration announced Thursday it is sharply reducing government purchases of beef, including hamburger for the school lunch program.

Purchases of raisins also will come to a virtual halt, while buying of other high-priced fruits and vegetables will be curtailed.

Rising meat and other food prices are threatening to undermine the anti-inflation program, the administration said.

Beef and veal prices increased by 35.7 percent at the wholesale level during the 12-month period ending in March. Food prices generally have increased 13 percent at the retail level.

The Council on Wage and Price Stability said Thursday that to reduce upward pressure on beef prices, the government's three largest food-buying agencies will cut their beef purchases by 25 percent during the next 18 months, turning instead to poultry, pork and cheese.

The agencies are the Veterans Administration, the Defense Department and the Agriculture Department, which purchased 81 million pounds of ground beef for the school lunch program at a cost of \$93 million last year. The announcement urged consumers to follow the government's example.

"We encourage consumers to increase their purchases of lower-priced meat, such as pork and chicken, as well as lower priced substitutes for high-priced fruits and vegetables, so that inflationary pressures on scarce items are moderated but the market for them is not disrupted," said a statement.

The statement, issued jointly by Carter inflation adviser Alfred E. Kahn and Esther Peterson, Carter's consumer affairs adviser, came after the government announced that economic growth slowed sharply in the first three

Government Beef Purchases Reduced

months of the year, which should help in slowing all price increases.

The Commerce Department said the nation's gross national product increased at an 0.7 percent annual rate in the January-through-March period, down sharply from a 6.9 percent rate of increase in the final three months of 1978.

The administration and Chairman G. William Miller of the Federal Reserve Board said that if the economy should speed up rapidly again in the second quarter, additional slowdown measures might have to be taken.

Should the second quarter GNP exceed a 2.5 percent annual rate, Miller said, (See **BEEF**, Page 2)

update friday

Primary Proposal Attacked, Defended

AUSTIN, Tex. (AP) - A controversial bill setting up a presidential primary in Texas elicited heated charges and countercharges Thursday between the chief supporter and opponent of the bill.

The validity of information dealing with primary dates in other states distributed by the bill's sponsor, Sen. Jack Ogg, came under fire from Sen. Ron Clower, D-Garland.

Ogg, D-Houston, countered the barrage, claiming Clower's contentions were inaccurate.

Each spoke at separate news conferences Thursday.

Clower called Ogg's information "desperation tactics" and "lies."

Ogg's measure calls for presidential primaries to be held in March 1980. The regular state primaries are in May.

Texas could vote for a Republican presidential candidate in March and participate in the regular Democratic primary in May - or vice versa.

Questioning the motives of the bill's supporters, Clower accused backers of distributing "outright falsehoods" after "earlier claims didn't hold water."

"The people are tired of being forced-fed rigged election bills," he said.

Source Says Carson Wants To Quit

LOS ANGELES (AP) - Johnny Carson wants to quit the "Tonight" show, the popular NBC program that made him probably the highest paid entertainer in

television, a source connected with the show says.

But ratings-poor NBC apparently has no intention of letting Carson leave the show, one of the network's successes and a big revenue producer. Carson's current contract runs through the spring of 1981.

Carson was unavailable for comment late Thursday, but another source connected with the late-night talk show who also asked not to be named said Carson's request was sparked by an ultimatum from NBC President Fred Silverman, who reportedly was upset by Carson's frequent absences from "Tonight."

Silverman is in Los Angeles this week for corporate meetings. He could not be reached for comment.

Under terms of his contract, Carson is required to act as host no more than three times a week 25 weeks a year and four times per week 12 weeks a year - with 15 weeks vacation.

Silverman, who joined NBC last June after leaving top-rated ABC, has noted that the show's ratings dropped when guest hosts sat in for Carson.

Shah Plans To Live In United States

WASHINGTON (AP) - The Carter Administration has changed its stand on the Shah of Iran settling in the United States, and is now saying privately that he can live here when U.S. relations with Iran are more stable.

But it was learned that the administration is not putting any time estimate on when Shah Mohammad Reza Pahlavi would be able to come to the United States.

The shah, his wife and children have been living in the Bahamas since March 30, but Bahamian officials said at the time of his arrival that they considered his stay a "brief visit."

Since being forced from Iran on Jan. 22, the shah and an entourage that includes 30 aides, have been living in exile - stopping briefly in Egypt and Morocco before going to the Bahamas.

While the shah was in Egypt, President

Carter said at a Jan. 17 press conference that it was expected he would come to the United States.

SALT Talks Resolve Important Issue

WASHINGTON (AP) - Although a major issue has been resolved, the United States and the Soviet Union are still a few steps away from wrapping up negotiations on a new treaty limiting nuclear missiles and bombers.

Secretary of State Cyrus Vance and Soviet Ambassador Anatoly Dobrynin talked for an hour Thursday evening and agreed to meet again this afternoon for their 19th meeting of the year. Nearly all have dealt with the treaty.

They were said to be moving slowly and, according to State Department spokesman Tom Reston, have not reached the point where formal discussions can begin about the time and place for a summit meeting at which President Carter and Soviet President Leonid Brezhnev can sign the treaty.

American officials, speaking privately, have said that in a formal sense, some points will be left for the two national leaders to resolve at the summit. The Soviets are not considered likely, however, to leave any substantive negotiations in the hands of the aging Brezhnev and will want the treaty all but written before agreeing to a summit.

Weather

West Texas - Generally fair west and partly cloudy east today and tonight with widely scattered showers and thunderstorms eastern third today and southeast tonight and Saturday. Mostly fair Saturday except partly cloudy southeast. Cooler most of Panhandle today and tonight and southeast Saturday. Highs low 70s north to upper 90s Big Bend. Lows near 40 mountains to low 40s Panhandle to upper 50s south.

Lions' Officers

Officers for 1979-80 were named during an election party held by the Hereford Lions Club Thursday night. Left to right, front; Speedy Nieman, president; John Bryant, 1st VP; Bob Nigh, 2nd VP; Calvin Jones, 3rd VP; Sid Shaw, secretary; Tom Carter, treasurer; back row: B.J.

Gilliland and Victor Cantu, lion tamers; Joe Emmanuel and Greg Black, tail twisters; and Rob Marshall, director. Not pictured is director Leo Harper and holdover directors Tom Robinson and Donald Hicks.

Kennedy Leads List

WASHINGTON (AP) - A year-in-advance public opinion poll ranks Sen. Edward M. Kennedy as the favorite presidential prospect among Democrats in New Hampshire, leadoff state on the long list of 1980 primary elections.

New Hampshire voters have been known to confound pollsters a week before primary day, and a 1979 survey about a 1980 election is no guide to what may happen in the first of at least 33 primaries.

Still, the survey that shows Kennedy a 2-1 choice over President Carter offers some clues as to what is happening now, as the president readies his campaign for re-election.

Political scientists David W. Moore and Robert E. Craig, who conducted the survey for Public Opinion, a journal published by the American Enterprise Institute, report that their New Hampshire soundings show Carter must convince more Democrats that he is doing a first-rate job in the White House.

They say that only 4 percent of New Hampshire Democrats rate Carter's performance as excellent, and only that group preferred him to Kennedy. Thirty-five percent said Carter is doing a pretty good job, but they split about evenly between Kennedy and the president in their 1980 preferences.

Moore and Craig, both teachers at the University of New Hampshire, said they interviewed 531 Democrats between Feb. 18 and March 4. They said the poll had a margin of error of 6 percentage points.

In a three-way matchup, they said, 48 percent preferred Kennedy for president in 1980, 23 percent Carter and 12 percent Gov. Edmund G. Brown

of California. The other 17 percent were not sure.

The survey was conducted before Carter's Middle East peace mission, which cannot have hurt his standing with the voters, although national opinion surveys indicate it did not boost his rating much. It also preceded Brown's abortive journey to New Hampshire in behalf of a constitutional

amendment to balance the federal budget and his African vacation with rock singer Linda Ronstadt.

When New Hampshire Democrats were asked to choose between Carter and Brown, the president was heavily preferred. He was favored by 43 percent, Brown by 27 percent, with the other 30 percent uncertain.

While Brown has been

preparing to challenge Carter in 1980, Kennedy has said he is not a candidate and does not intend to become one.

Moore and Craig say Kennedy's popularity is not tied to issues or to ideology. Democrats who consider themselves conservatives were as likely to favor him as those who describe themselves as liberals.

Spending

the Arts and Humanities it could spend no money on jazz festivals.

Rep. Lance Lalor, D-Houston, protested that while the commission has never funded a jazz festival, the rider probably would end its support for summer jazz workshops.

He said more than half the commission's jazz grants "go to black community groups" and the rider would "cut off any effort to train new, young black musicians in this state."

Rep. Bill Hollowell, D-Grand Saline, said it was "absurd" to spend money on jazz when teachers and state employees are getting pay raises that do not equal the inflation rate.

"The Texas Commission on the Arts and Humanities is nothing more than a rich man's club that we are financing,"

Hollowell said. He said he was against the whole grant program but singled out jazz grants because they were "the most ridiculous."

Hollowell also was a loser when the House voted 122-7 to knock out his rider that would have given every legislator free "So" for State Official - automobile license plates.

He said it would be a nice "fringe benefit" for legislators, whose \$600 monthly pay has stayed the same for four years, but Rep. Ed Emmett, R-Kingwood, said it would be a political embarrassment.

Rep. Tim Von Dohlen, D-Goliad, added an amendment providing \$3 million for the Texas Air Control Board in case its resistance to U.S. Environmental

Protection Agency rules causes it to lose federal funds.

But Von Dohlen first had to mollify Rep. Doyle Willis, D-Fort Worth, who knocked down Von Dohlen's first attempt to provide the contingency money.

Willis said he wanted to "send a message" to the air board to stop approving permits for industrial plants in neighborhoods where they are not wanted.

He said the board allowed construction in a north Fort Worth neighborhood of a "blood curdling" plant that makes glue from the blood of slaughtered livestock. "My experience with the air control board is they don't give a damn what you or anyone in your district thinks. They do what they want," Willis said.

Cattle

steam out of record-high cattle and beef prices, according to USDA experts.

Retail beef prices are expected to rise by more than 20 percent, on the average, this year, according to the department.

In a related report, the department said the outlook for consumers in May is that the beef supply will be "adequate," which means - according to USDA definition - there will be "enough to meet normal needs" of shoppers.

But it also said beef production next month will be down 8 percent to 10 percent from a year ago and 12 percent

less than the May average in 1976-78.

On the other hand, the report said pork and broilers will be "plentiful" next month. By definition, that means "more than enough for requirements."

The quarterly feedlot report covered operations in 23 major cattle-feeding states, which produce about 95 percent of the nation's beef.

Placements of new cattle in feedlots in the first quarter of the year totaled 5.88 million head, down 9 percent from 6.49 million in January-March of last year, the report said.

Even so, those placements were up 5 percent from the same period in 1977 - when cattle herds were still being liquidated at a steady pace.

Markings of "fed" cattle in the first quarter totaled 6.77 million, just slightly less than the record volume in the first quarter of 1978.

Looking at the April-June situation, the report said feedlot markings may total about 6.35 million head, down 4 percent from the second quarter of last year but still 3 percent more than in the same period of 1977.

Wages

wage on public construction projects.

House members tabled similar legislation a week ago. But contractors say some representatives are having second thoughts and might resurrect the bill.

Organized labor says repealing the law would put workers at the mercy of

employers. Instead of \$10 an hour, workers could be paid the federal minimum wage of \$2.90 an hour, union leaders claim.

The Associated Building Contractors argue the law forces local governments to adopt union wage scales that are above the actual prevailing wage.

Beef

"We will have to seriously consider a more restrictive monetary action." That would undoubtedly mean higher interest

rates. Miller also said fighting inflation must be the government's top priority, even if

it risks a serious recession. However, he said, the "odds are" that a recession will be avoided this year.

GNP Increase Dampens Outlook

WASHINGTON (AP) - The nation's economy sputtered to its lowest growth rate in a year during the first three months of 1979, indicating the economy could be dipping toward a recession if the trend continues, government figures showed Thursday.

The 0.7 percent increase in the gross national product in January through March was less than expected and was down sharply from a 6.9 percent rate of growth in the final quarter of 1978. The first-quarter rate was the lowest since a 0.1 percent decline in the same period last year.

The sharp slowdown in growth seemed

certain to support the argument of G. William Miller, chairman of the Federal Reserve Board, that economic growth already is slowing and that further measures to dampen the economy could plunge the nation into a serious recession.

While the 0.7 percent rate of growth was near the recession level of zero percent growth, Miller and top administration experts predict the economy will rebound at least partly from the low first-quarter growth, thus avoiding a recession in the near future.

The unusually severe winter in many parts of the country was at least partly to

blame for the slow economic growth in the first quarter. But it probably also reflected efforts by the government to slow the economy through high interest rates and reduced federal spending.

The administration is aiming for overall economic growth this year of about 2.2 percent, down from 4 percent last year but at a level it believes is necessary to help combat inflation.

The Commerce Department said in its GNP report that prices in the first quarter increased at an 8.7 percent annual rate, up from 8.2 percent in the fourth quarter of 1978.

Obituaries

MRS. A.C. ROGERS

Mrs. A.C. (Bessie Ophelia) Rogers, 91, of Carlsbad, N.M., died Thursday in Carlsbad, N.M. She was the mother of a Hereford man, Joe Rogers.

Services will be at 8:30 a.m. (MST) in Sunset Church of Christ at Carlsbad with Gerald Stockstill of Carlsbad and D.L. Harguess of Friona officiating. Burial will be at 5 p.m. (CST) in Rosehill Cemetery at Merkel under direction of Denton Funeral Home, Carlsbad.

Born March 2, 1888 in Graves County, Ky., Mrs. Rogers had lived in Carlsbad 13 years. She was a former resident of Abilene.

Surviving her, in addition to Joe Rogers, are two other sons, Sam Rogers of Mineral Wells and Howard Rogers of Sweetwater; seven daughters, Lucille Vancil of Merkel, Faye Shepherd of Los Angeles, Helen Johnson of Lamesa, Virgie Johnson of Carlsbad, Modell Ashley of Brownwood, Gay Martin of San Angelo and Bessie Lou Sanders of Fort Worth; 35 grandchildren and 42 great-grandchildren.

Grand Jury Clears Policeman in Shooting

John E. Sibley, "Further investigation is being coordinated by property authorities."

Neither Sibley nor District Attorney Timothy Eysen would elaborate on any "further investigation," but Eysen said the statement does not mean the grand jury could not take formal action at a later date.

"Anything short of a true bill (an indictment) could always be taken back before the grand jury," the district attorney said. Wright and his partner, John Bailey, each spent about 25 minutes before the grand jury. Delgado and investigating officer Sgt. Jim Shelton also appeared before the panel.

Earlier reports indicated Bailey yelled at Wright to shoot as Ortiz ran down a downtown street. When asked if the senior officer had shouted that order, Police Chief Curtis Harrellson said, "I wouldn't want to comment on that at this time."

Harrellson also said his department's investigation of the shooting would conclude sometime later this week. Harrellson and Eysen both said their offices had been contacted by the FBI Wednesday, but they

knew of no formal outside investigation into the matter.

The League of United Latin American Citizens and the American GI Forum both have called for state and federal investigations into the shooting. The organizations said they fear a local investigation would not be impartial.

Ann Landers

Facts On Pot

DEAR ANN LANDERS: How do you hang on to the job anyway? You are so square it's pitiful. I refer to your moldy views on marijuana. People depend on you for straight facts. So why do you print those trumped-up scare stories about pot? Instead of getting people off it you look foolish.

I've been smoking pot for six years. I'm what you'd call a weekend smoker. It has made me much more relaxed and put me in touch with my real feelings. I look forward to the calm and peace I get from five or six joints an evening. The only trouble with pot is that it's getting awfully damned expensive.

Please get some fresh information and give us the facts, Ma'am. That's what you're there for. -- Living Proof You're Full 'Of Baloney

DEAR BALONEY: The "fresh facts," according to a recent report from the federal drug enforcement officials, are as follows: Most marijuana now being sold in the United States, comes from Colombia instead of Mexico. Colombian pot is three to ten times more powerful than Mexican pot.

Five years ago 75 percent of the pot came from Mexico. Today it's less than ten percent. The reduction in Mexican pot is due to the strict policing done in Mexico and at the U.S. Border.

You are right about the price. A lid (ounce) used to sell for \$20 or \$30. Today it's \$40 and \$50. Hawaiian pot (Maui Wowie) goes for \$150 an ounce.

The potency of pot is determined by the amount of tetrahydrocannabinol (THC) --

the hallucinogenic agent it contains. Mexican pot has one to two percent of THC. Colombian pot has from 6 to 10 percent.

My information comes from a report by Peter Bensinger, administrator of the Federal Drug Enforcement Agency. These facts are reinforced by teachers who tell me more teenager students are falling out of their seats Monday morning, stoned, spaced-out and incoherent -- a result of those weekend pot parties.

My position on pot is the same as it was ten years ago. Some people can handle it -- others can't. Most teenagers have enough problems without messing with chemicals that can screw up their heads. Some long-time smokers call me crazy and insist that pot has not damaged them in the least, but pot-heads, like alcoholics, are not the best judges of the shape they're in.

Unless a teenager is a chemist, there's no way he can

Art Guild To Feature Their Work

The public is invited to attend Hereford Art Guild's Spring Tea and Art Show April 29 from 2-5 p.m. at the Community Center. Guild members will be displaying their artistic efforts completed during the past year.

Also to be featured in the exhibition will be a display of antiques (not for sale).

Teen Dance Scheduled Saturday

Local junior high and high school students are invited to attend a disco dance from 8 p.m. - 12 midnight Saturday at the Community Center.

Admission will cost \$3 per single and \$5 per couple.

Refreshments are to be served by members of Xi Epsilon Alpha Chapter, Beta Sigma Phi Sorority, who are sponsoring the dance.

CANADIAN CUTS
TORONTO (AP) — A survey of 60 professional theaters in Canada has shown that 32 percent of the companies have cut back on secondary activities, such as children's productions, tours and script workshops.

The recent survey by the Canadian Theatre Review says that while government cutbacks won't be fully implemented until 1979-80, theater activity is now being slowed.

School Lunch Menus

BREAKFAST

Public Schools
MONDAY - Honey bun, diced pears, milk.

TUESDAY - Sausage pattie, buttered toast, applesauce, milk.

WEDNESDAY - Cinnamon toast, fruit juice, chocolate milk.

THURSDAY - Bacon, pancakes, fruit juice, milk.

FRIDAY - Cereal & banana, buttered toast, milk.

LUNCH

Hereford High School and Junior High

MONDAY - Meat sauce & macaroni or beef vegetable stew, green beans, carrot stix, applesauce, cookie, cornbread, butter, milk.

TUESDAY - Chili burger or char burger, tossed green salad, crispy French fries, dill pickle slices, apricot cobbler, milk.

WEDNESDAY - Chicken-fried beef pattie or roast beef & gravy, fluffy potatoes, garden green peas, celery stix, chocolate cake, hot rolls, milk.

THURSDAY - Cheeseburger or sloppy Joe, lettuce, tomato, pickle & onions, shoestring potatoes, gelatin with fruit, peanut butter cookie, milk.

Ribbon-Cutting for Tommy's TV

Hereford Hustlers conducted another ribbon-cutting ceremony for a new business Thursday morning, welcoming Tommy's TV into the business community. The firm is located at 108 Ave. E. Tommy and Erma Murphy [center with

scissors] are the owners and managers of the business, which features RCA television and Litton microwaves. Carrell Ann Simmons is chairman of the Hustler committee of Deaf Smith Chamber of Commerce.

The Lighter Side

AUGUSTA, Maine (AP) — When Ms. Jo Reichel's fourth grade class in Gardiner learned that Maine doesn't have an official state animal, they thought of the moose. So the children took their case to the Legislature's State Government Committee. Nobody expressed any opposition to the bill sponsored by Rep. Charles G. Dow of

Gardiner. In fact, several lawmakers said they favor the plan. "A wonderful animal," said Rep. Nancy Masterton, R-Cape Elizabeth. "I'm 100 percent in favor of the bill," said Rep. Sherry Huber, D-Falmouth. "But it's going to be ironic when they start plugging away at them." It seems the Legislature

already enacted a bill reopening the hunting season on moose next year.

BALTIMORE (AP) — A dishwasher and salad chef at a local restaurant has a beef: People don't respect pigs. "I never met a pig I didn't like," said David Spero, 25, who is also founder, editor and publisher since 1971 of "Conspiracy Trail," probably America's only journal of pig lore. Spero claims 500 subscribers from England to California.

"There's no central pig movement," he said in a recent interview. "...In the past 10 years, there has been an awakening of pig consciousness. 'Most city slickers never see a pig in their entire lives, and a lot of 'em when they see a pig — a sow and her piglets — they go crazy. It's love at first sight,' he said.

Spero traces his own affection for pigs to his student days at Park School, when he and friends ran a toy pig for a student government post. Spero who lives in downtown Baltimore, said he is consider-

Two Locals Initiated By Society

CANYON — Forty-two students at West Texas State University were recently initiated into Alpha Chi, the campus-wide national honor society.

Initiated from Hereford were Jeanne Hair, junior elementary education major and daughter of Mrs. Doris Hair of 209 Star St.; and Phillip Zinser, junior agriculture business and economics major and son of Mr. and Mrs. Frank Zinser, Jr.

Alpha Chi is a coeducational society which promotes academic excellence and exemplary character among college and university students and honors those achieving such distinction.

Students who become members of Alpha Chi are lifetime members. They receive notation on their transcripts and become eligible for local and national scholarships which Alpha Chi offers each spring.

Qualifications for Alpha Chi include junior standing, an overall grade point of 3.50 (4.0-A) or higher, at least 30 semester hours at WTSU, and currently enrolled for at least 9 hours.

ing taking in a pig to test a zoning ordinance forbidding the harboring of livestock.

"The East Coast is the most pig-ignorant part of the United States," said Spero. "People say pigs are messy, but they're among the most clean of animals. They clean up after themselves. But that's not the trait I admire most in pigs. 'They're very democratic. If you treat them right, they treat you right. They're not submissive like dogs, and they're not aloof like cats,' he said.

Mr. Johnson was a lifetime resident of Foard County. He was a rancher and farmer in Foard, Knox, and Wilbarger counties. He was born Jan. 31, 1933 in Thalia. He married Faye Black Dec. 19, 1952 in Thalia.

New York Mayor Donates

NEW YORK (AP) — Mayor Edward I Koch contributed \$100 to a fund launched by the city's business community Thursday to assist survivors of the tornado that devastated Wichita Falls.

Members of the executive committee of the Association for a Better New York contributed \$10,000 to the fund.

Lewis Rudlin, chairman of the association, said he hoped to raise \$100,000 to assist the survivors whose homes were left in shambles.

Koch said that he had spoken by telephone with Kenneth Hill, mayor of the stricken city, to inform him that New Yorkers were anxious to help.

"The offer is from us," Koch stressed. "They did not ask for help."

The mayor noted that Texas legislators supported federal measures to assist New York during its efforts to stave off bankruptcy, adding, "We have a duty to help even if they didn't ask for it."

Last week three twisters roared through residential and commercial areas of Wichita Falls killing 54 persons, injuring more than 800 others, and wrecking more than 2,000 homes.

Koch urged New Yorkers to join in the drive and make their checks payable to the "Wichita Falls Disaster Relief Fund."

The Abundant Life

CONTINUING

BY BOB WEAR

LIVING IS CONTINUING, continuing to do the things generally-considered essential and acceptable and appropriate. We must continue to be concerned about all that we consider to be important and essential to our personal well-being, and to the collective good. We must not permit any let down, and there must be no lessening of our very best efforts. This is not to be done in a state of anxiety, but it is to be accepted in the spirit and with the understanding that "Living is Continuing."

CONTINUING OUR INTEREST in every aspect of that which we recognize as being worthwhile in the needs and activities of meaning full living is a must. We must not grow weary in well-doing. We must never let ourselves assume the view that such doing is not worth the required efforts. This means that we must be constantly alert, that we must manage our time, our energy and all else in the personal life structure; in all the ways they are related to the on-going spirit of life.

WE MUST CONTINUE to be mindful of our blessings, and we must continue to be thankful for them, and continue to express our thankfulness. We must never permit ourselves to drift off into the dreaminess of taking the good things for granted. We must never decide that expressing our gratitude is not worth the "continuing" effort. If we do this, we deny ourselves much of the good benefits that we could otherwise realize from

our blessings. SELF-IMPROVEMENT IS ESSENTIAL to the best of living. Of course, we must not make this action a burden by forming unreasonable expectations for ourselves, or by being impatient in doing what we are capable of doing. Everything about which we have any information encourages us to be intelligently concerned about "continuing" to improve ourselves. This is probably the most rewarding and enriching of all that we are able to do in our day-to-day living.

WE MUST LIVE WITH OTHER PEOPLE, work with other people, and, one way or another, be involved with other people. Getting along well with them is our privilege and should be considered an obligation. "Continuing" to learn the fine points of this art will be very profitable, in every meaningful way. We must never say to ourselves, "Oh well, what's the use?" We may not succeed, in all instances, but "continuing" our movement in this direction is more than justified.

WISHING IS NOT ENOUGH. Many folk never accomplish the things which would enhance and improve living, because they spend their time just wishing. We know, or can determine what the action should be, and, once we know, we must get started doing what we can. The way to the greatest degree of success is in "continuing" the wise thoughts, right actions, and movement toward the right goals.

THE BIBLE SAYS!

The Bible speaks concerning every subject of major importance. The Bible is completely accurate and is to be the Sole Rule of Faith and Practice for the Christian. If you would like to know what the Bible teaches concerning a certain subject, please write: **First Bible Baptist Church P.O. Box 363 Hereford, Texas 79045.** We will make every honest effort possible to share the Bible Teaching concerning any subject on which the Bible clearly speaks. We will use only the King James Version for our Text.

What does God Say About your works?

Titus 3:5: "Not by works of righteousness which we have done, but according to his mercy he saved us, by the washing of regeneration, and renewing of the Holy Ghost."

Rom 4:5: "But to him that worketh not, but believeth on him justifieth the ungodly, his faith is counted for righteousness."

Eph. 2:8,9: "For by Grace are ye saved through faith; and that not of yourselves: it is the Gift of God: Not of works, lest any man should boast."

Foard County Man Killed

The body of a prominent Foard County resident, Billy Carl Johnson, 46, was found Tuesday afternoon at an airplane crash site 6 miles northwest of Crowell. Mr. Johnson was the father of a Hereford woman, Debbie Foerster.

Services will be conducted this afternoon at 4:30 p.m. at First Baptist Church in Crowell. The Rev. Gary Fielding, pastor, will officiate. Assisting him will be District Judge, Leslie Thomas. Interment will be in Crowell Cemetery.

Mr. Johnson and James Jonson were last seen at 6 a.m. Friday, April 13 when they took off from Crowell airport. The light aircraft landed in a tank right side up after mechanical failure. They apparently drowned.

Citizens began a search Friday night in airplanes and pick-ups. The Civil Air Patrol began their search by air at 6 a.m. Saturday morning. The airplane was sighted Tuesday afternoon but due to poor weather conditions, were not able to retrieve the bodies until Wednesday afternoon. A pilot from the Hereford and Dimmitt area, and family members were among those assisting the search.

Quarter Horse Association. Mr. Johnson was in the Marine Corps from 1953-1955. In addition to his daughter, he

is survived by the widow; a son, Don Johnson of Thalia; a brother, Jimmy Johnson of Sarasota, Fla.; his parents, Mr.

and Mrs. O'Neal Johnson; his grandmother, Mrs. Maggie Wheeler of Crowell; and a grandson.

Gas Jumps 12 Percent

NEW YORK (AP) - The average price of a gallon of gasoline has jumped about 12 percent, from 67.99 cents to 76.22 cents, since Jan. 1, according to an authoritative newsletter that follows the gasoline industry.

That increase is not quite as large as the 18 percent rise in the first three months of 1974 during the Arab oil embargo, when prices rose from about 38 cents a gallon to about 45 cents a gallon. But the 8.23-cent price boost so far this year is greater than the 6.88-cent increase in the first three months of 1974.

The prices were contained in the latest issue of the Los Angeles-based Lundberg Letter, which does frequent surveys of prices at 16,700 gas stations. The survey, taken earlier this month, found this year's increase is most pronounced in the West.

Dan Lundberg, publisher of the newsletter, said the U.S. petroleum market has become "supercharged" and predicted that "retail prices are capable of rising considerably more."

The price of a gallon of regular-grade gasoline at full-service stations on the West

Coast has risen 8.22 cents, from 70.45 cents to 78.67 cents. In the Rocky Mountain states, the increase so far is 8.41 cents a gallon, from 69.41 cents to 77.82 cents.

Analysts attribute the increase to several factors.

With the Iranian crisis squeezing crude oil supplies, the basic price of crude rose 5 percent in the first quarter of 1979, and many oil-producing nations tacked on surcharges that made the effective increase several percentage points larger.

On Sunday, Iran added a \$1.90 surcharge to the price of its crude, bringing the price to \$16.57 per barrel.

A further oil-price rise approved by the Organization of Petroleum Exporting Countries in March is expected to add at least 3 cents to retail gasoline prices over the next couple of months.

BB/BS

BE A FRIEND, HAVE A FRIEND

JOAN DWYER
DIRECTOR

BE COURTEOUS!

The only rule we were asked to follow in Thomas Jefferson High School was "be courteous."

When you think about it, courtesy is a commendable attribute. Courtesy means being polite and gracious. It means being considerate of other people and their feelings, saying what you need to in such a way that you are understood, but not offensive.

Courtesy is letting your child, as well as your spouse and friends know you appreciate them and what they mean to you.

Courtesy is the opposite of rudeness! It's taking the time out to talk when you really don't have a spare minute. It's going that proverbial second mile, and being that significant person.

IF YOU ARE BETWEEN THE AGES OF 55-65 and are not in a Bible study class, we invite you to join us for Bible study at First Baptist Church each Sunday at 9:45 a.m. ground floor ADULT IV DEPARTMENT

Buffs Win Track Meet

By MARC HERRING
Brand Sports Editor

Double winners, record times and complete dominance in the middle distance events proved to be the impetus that West Texas needed to win its own invitational track meet here yesterday, piling up 104 points to whip Wayland Baptist (59), Lubbock Christian (16) and Eastern New Mexico (13).

Daryl Melnyk set the pace early for the Buffs, winning the two jumping events—long jumping 22-0 and triple jumping 47-7 to be the first double winner, and then John Thomas won the 100 and 200 to give the Buffaloes an almost insurmountable lead.

The other double winner for the Canyon team was Johnson Bett in the 1500 and the 5000 meters. The dominance of the middle distance events proved to be the turning point for the Buffs in the fight for first place with the Pioneers of Wayland.

The top three finishes in the 800 and a one-three finish in the 1500 meters sank any hopes Wayland had of defeating the depth-laden Buffs.

West Texas also won the two relay events even though the Buffs top mile relay team was in the Kansas Relays.

Near perfect conditions weather-wise made the afternoon produce some top marks in some events with a new record

being set in the 200 and the triple jump. The time run by Thomas in the 200 qualified him for the NCAA meet by .05 of a second.

Other individual winners for the Buffs were Reggie McElroy in the shot, Gabriel Boit in the

800 meters and Mark Owinyo in the 400 meter intermediate hurdles and Zach Cummings in the 110 high hurdles.

Lyle Returns To 'Zoo' As Ranger

NEW YORK (AP) — Sparky Lyle, the newest literary rage, was around town Thursday, appearing in book stores, signing his name on the flyleaves of his controversial best-seller and holding press conferences.

Tonight, he has to go back to work in the bullpen, possibly facing for the first time as a Texas Ranger his old New York teammates whom he unfrocked in his first-person expose, "The Bronx Zoo."

The flighty left-hander, Cy

Young winner in 1977 and frustrated bench-sitter in 1978, was asked if he had sent advance copies to his former buddies over in the other locker room.

"Naw, I don't want to rub salt in old wounds," he said. "If they want to read the book, they can buy it."

Weather Slows River Oaks Tennis Tournament

HOUSTON (AP) — The weather-plagued \$175,000 World Championship Tennis tournament at River Oaks Country Club is beginning to read like a long-run soap opera.

Each match is being played on a "to be continued" basis.

Will second seeded Roscoe Tanner of the U.S. and Adriano Panatta of Italy finally complete their second round match on consecutive days?

Will tournament director Harry Parten maintain his sanity while trying to reschedule matches and complete the tournament on Sunday as scheduled?

Tune in again today when Parten tries to squeeze in as

many matches as possible on the club's water-logged clay courts.

In Thursday's episode, three matches that had been rained out on Wednesday were completed.

Third seeded Eddie Dibbs of the U.S. finally wore down Eliot Teltscher of the U.S., 7-6, 4-6, 6-2, Ricardo Ycaza, Ecuador, beat Pat DuPre, U.S., 7-6, 4-6, 7-6 and Hans Gildemeister, Chile, defeated eighth seeded John Alexander, Australia, 6-4, 6-0.

In the only match started and completed on Thursday, Jose Kiguera, Spain, defeated Paolo Bertolucci, Italy, 6-0, 6-3.

But Tanner and Panatta

suffered the most. They weren't able to finish even one set before the rain set in again, raining them out for the second straight day.

Lubbock — With a trip to Austin at stake, Barbara Scott, the Whitefaces individual fem golfer held down fifth place after the first round of play in the regional tournament here yesterday.

Miss Scott, in her third consecutive trip to the regional meet, was second in the district following Anne Horne of Plainview.

Tanner won the first set 7-5 on Wednesday and Panatta was leading 5-4 in the second set Thursday when play again was suspended.

The lead in the regional tournament is controlled by Jackie Daiss of Odessa Permian. Miss Daiss is also in her third trip to the regional meet and it was she and Miss Scott who represented this area in state their sophomore years.

Miss Scott shot an 85 for the first 18 holes and is nine shots off the lead. Second round action will be concluded today

Scott In Fifth

Lubbock — With a trip to Austin at stake, Barbara Scott, the Whitefaces individual fem golfer held down fifth place after the first round of play in the regional tournament here yesterday.

Miss Scott, in her third consecutive trip to the regional meet, was second in the district following Anne Horne of Plainview.

The lead in the regional tournament is controlled by Jackie Daiss of Odessa Permian. Miss Daiss is also in her third trip to the regional meet and it was she and Miss Scott who represented this area in state their sophomore years.

Watson Holds Lead On Tough T of C Course

RANCHO LA COSTA, Calif. (AP) — The deep, deep rough and small greens demand the most accurate drives. Tom Watson said after establishing

Richard Sheppard, D.D.S.
General Dentistry
Hours by appointment.
909 E. Park 364-7490

the first-round lead in the \$300,000 Tournament of Champions.

"The course demands good iron shots," Watson said after firing a 3-under-par 69 Thursday, "but driving is paramount. Because of the rough, you absolutely have to drive it in the fairway."

"If you don't, you can find some lies out there that only

Tarzan and Jane can play out of."

The rough is up higher than usual on the tough, 6,889-yard La Costa Country Club course and, Watson said, the greens have been reduced in size and are extremely hard.

"They're the hardest greens in the world to chip to," said the man who has won Player of the Year honor the last two seasons.

"You've got a collar around the greens that the ball sits down into and is very hard to chip from," he said. "Beyond that, you've got the deepest rough on the golf course around the greens. That makes it really tough."

"But, in my opinion, you've got to drive it in the fairway to have any chance to win the golf tournament."

He missed 4 fairways "and it cost me 2 bogeys," said Watson, who came into this exclusive, winners-only event as the leading money-winner on the pro golf tour this year.

One shot off his lead with a 70 was surprising Ron Streck, 24, who got into the elite, 28-man field off his only pro victory in the San Antonio-Texas Open last fall.

Streck broke up with his girlfriend shortly after that triumph and has been in a deep

slump ever since. He pulled out of it with birdies on his first 3 holes here.

Tied at 71, and the only others under par, were defending champion Gary Player of South Africa, Ray Floyd, Mexican Victor Regalado and Dr. Gil Morgan, a non-practicing optometrist.

Jack Nicklaus, who has won a record five times in this event

that brings together the winners of regular PGA Tour titles from the last 12 months, topped a strong group at par 72.

Also at that figure were Lee Trevino, Australian Jack Newton, Canadian Open champ Bruce Lietzke, Lee Elder and Jerry Pate, who scored the only eagle of the cool, windy day.

U.S. Open champ Andy North shot 75 and Fuzzy Zoeller, who

beat Watson in a playoff for the Masters crown last week, struggled to a 77 that left him far back. PGA titleholder John Mahaffey was unable to compete.

Watson, second in his last three starts, said he still didn't feel comfortable and missed once from about 2 1/2 feet to save par. He retained sole control of the lead, however, with a

four-footer to save par on the final hole after he'd driven into the rough.

The key to his round was a string of three birdies beginning with a sand wedge shot to eight feet on the second hole. He hit a 4-iron only two feet from the flag on the third and scored from six feet on the next.

The tournament is sponsored by Mutual of New York.

76ers Plan--Stop Kenon

By ALEX SACHARE
AP Sports Writer

The Philadelphia 76ers, down 2-0 in their best-of-seven playoff series against the San Antonio Spurs, have decided to stop worrying about George Gervin and start concentrating on Larry Kenon.

The Sixers will assign Bobby Jones, their 6-foot-9 defensive ace, to stop Kenon when the teams meet at the Spectrum in Philadelphia tonight in the third game of their National Basketball Association playoff series.

"We have to put our best defensive player on Kenon," explained Jack McMahon, assistant coach of the Sixers. "He's playing the best basketball of his life."

"The next two games depend on the Jones-Kenon matchup."

The three other NBA second-round playoff series also resume tonight with the

Washington Bullets at Atlanta, Phoenix Suns at Kansas City and Seattle SuperSonics at Los Angeles.

The Sixers expect Gervin, the NBA scoring champion the last two years, to get his points - and he had, scoring 60 in the two games played thus far and making 25 of 37 shots. But Kenon has scored 57 points, and that is something the Sixers feel they can't allow.

So they're switching Jones, who played against Gervin for much of the second game, onto the 6-9 Kenon.

Philadelphia has also had its problems offensively. In the closing minutes of Tuesday night's 121-120 loss at San Antonio, the Sixers' star forward, Julius Erving, rarely saw the ball.

"Erving has to get at least 25 shots a game," said McMahon. "We can't win with Erving

getting six or seven shots. We've got to get the ball to Julius and Darryl Dawkins in areas where they can work."

Washington and Atlanta split the first two games of their series at Landover, Md., and now the Hawks are back on their home court, where they have won their last 17 outings.

Atlanta's 34-7 home record was the best in the NBA during the regular season, but Washington's 23-18 road mark was also the best in the league.

Bullets forward Bobby Dandridge has scored 66 points in the two games while his counterpart on the Hawks, John Drew, has had just 22. That is the matchup that most worries Atlanta Coach Hubie Brown.

Kansas City's rookie star, Phil Ford, had a woeful 3-for-17 shooting night as the Kings lost the opener to Phoenix 102-99, but Coach Cotton Fitzsimmons

is confident he'll bounce back.

"Asked the key to a Kansas City victory, Fitzsimmons replied, "I really don't think there is one. I think I'm disappointing a lot of journalists. Everybody wants to talk matchups, everybody wants to talk key, and I don't see it. I don't see it at all."

The Lakers come home trailing Seattle 2-0, although they could easily have won both games. They led 45-28 in the opener but eventually lost 112-101. In the second game Seattle's Dennis Johnson tied the score with a jump shot at the end of regulation play and the Sonics went on to win 108-103 in overtime.

Los Angeles Dodgers: "As soon as we started winning, they started crying. They were such crybabies. They have about zero class. They kept making excuses like, 'If only the ball hadn't taken a bad hop.' If only Nettles hadn't made those great plays..." The Dodgers weren't even the second best team in baseball. There's no doubt whatsoever that Boston is a lot better team than they are, in every way."

OK, Sparky, we hear you but when you cut loose from the mound, don't forget to duck.

Houston Edges Teamen

HOUSTON (AP) — Reuben Morales, Walter Schuberth and Kai Haaskivi scored goals for Houston as the Hurricane beat the New England Teamen 3-0

to remain undefeated in North American Soccer League play.

Torrential rains that flooded much of Harris County delayed the game for 45 minutes.

Up, Up And Away

Takeoff is an important part of a high jumper's success and Joe Sooter of ENMU used his abilities well as he won the event with a leap of 6-8 at the college track meet yesterday.

Sports Shorts

By The Associated Press

LOS ANGELES (AP) - Sheldon Salaman has been named president of 20th Century-Fox Sports, the film corporation said. He succeeds Ron Beckman, who recently resigned.

The sports division, founded last June, is the first major studio base for the development of new events and programming designed for network and independent stations.

Saltman has served as vice president and general manager of the sports group.

SAN FRANCISCO (AP) - A U.S. Table Tennis Association

team has left on an historic trip, eight years after another U.S. team took its "Ping Pong diplomacy" to the People's Republic of China.

The current trip will take the team into China for an exhibition match, then to North Korea for the table tennis world championships. The team will be the first U.S. sports group to visit North Korea in almost 30 years, since the Korean War.

In 1971, the U.S. table tennis team which was invited to China played exhibition matches in the communist nation which had been virtually closed to Americans for many years.

The crowd of a Montreal Expos-Toronto Blue Jays exhibition game that was suddenly suspended at the start of the 11th inning with the score tied 4-4.

The teams had agreed to a curfew prior to the start of the game to allow the Expos time to make a commercial flight to Chicago. But the crowd was never made aware of the time limit. After the game was stopped the crowd booted during a post-game ceremony and many fans had to be dispersed by helmeted police after the game had ended.

SAN FRANCISCO (AP) - The striking major league baseball umpires plan to have a 12-man picket line at Candlestick Park before tonight's and Saturday's games between the San Francisco Giants and Los Angeles Dodgers.

It will be the second major show of picketing this season at Candlestick. About a dozen umpires were outside the stadium before the Giants' home opener on April 10.

TORONTO - Riot police had to be called out to disperse part of

Angels Sweep Twins

BLOOMINGTON, Minn. (AP) - Brian Downing, a player the Chicago White Sox didn't want two years ago, and Carney Lansford, a player Minnesota wanted desperately this winter, put the whammy on Mike Marshall and the Twins.

Downing stroked a two-run single off the former Cy Young winner in the eighth inning and Lansford added a solo home run in the ninth as the California Angels overcame the Twins 6-4 Thursday and extended their winning streak to eight games.

In other American League games, Boston clipped Milwaukee 5-3 and Baltimore defeated the New York Yankees 6-3.

"I hate to say this, but last year I only faced Marshall once and I hit a home run to center field here," said Downing,

whose single erased a 4-3 deficit. "That was a fastball up high. I hadn't even seen his screwball until I hit it today."

The 28-year-old catcher was obtained by California in the Bobby Bonds deal with the White Sox before last season. He said he received criticism from the media in Chicago and felt rejuvenated once he got to the West Coast.

The man who had faith was Jim Fregosi, who made Downing his regular catcher when he became the Angel's manager in June.

The Twins tried to avert a three-game sweep by the Angels, but it was not to be. A two-run home run by Glenn Adams capped a three-run outburst by Minnesota in the

first inning, and Adam's RBI single in the fifth snapped a 3-3 tie.

In between, the Angels blasted three solo homers against Paul Hartzell. Joe Rudi and Willie Aikens connected consecutively in the fourth, and Bobby Grich hit his fifth of the year in the next inning.

Marshall took over for Hartzell to start the eighth but walked Rod Carew and hit Don Baylor. Rudi's sacrifice advanced both runners for Downing.

Red Sox 5, Brewers 3

George Scott belted a pair of doubles to drive in two runs, and rookie right-hander Chuck Rainey spaced four hits in 7 1/2 innings for his major league victory to help Boston whip Milwaukee.

Rainey needed relief help from Dick Drago after the Brewers scored their third run in the eighth on a double by Paul Molitor and Cecil Cooper's two-out single. Cooper drove in two runs with a homer in the first.

All five Boston runs were unearned on errors by Milwaukee shortstop Robin Yount and first baseman Cooper.

Orioles 6, Yankees 3
 Jim Palmer, 2-1, gave up all of New York's runs in the first two innings on five hits, then settled down to handcuff the Yankees on three hits the rest of the way.

Ken Singleton tied the game with a single in the third, and he scored the go-ahead run in the fifth on Lee May's single as Baltimore snapped a six-game losing streak. The Yankees, meanwhile, saw a four-game winning skid broken.

Foyt Speaks Mind Concerning CART

HOUSTON (AP) - Four-time Indianapolis winner A.J. Foyt never has been shy about speaking his mind, and that trait extends to the newly formed Championship Auto Racing Team that recently broke away from the U.S. Auto Club.

"Those CART guys are just a bunch of people trying to take over racing. They're not at me

because if I think something's wrong, I say it and go on my way. I don't run with a pack."

In response to a question about possible blocking tactics by teams of cars during next month's Indianapolis 500, Foyt said:

"If they try that block bleep on me some of us are going into the wall. I won't stand for it, and

they know it, I've spent some time in Houston hospitals and I'll spend some money if I have to."

Blocking tactics on raceways involve two cars on a team driving in front of and beside an opposing team's car, preventing it from taking the lead.

Foyt was also asked about the gasoline shortage.

"I definitely don't think there's a gas shortage. The EPA (Environmental Protection Agency) has the world turned upside down with unnecessary regulations; that's all. Why the hell can't we burn coal, which we have lots of?"

"Why should our generation suffer? This stuff didn't happen overnight. Let the future generations figure it out. They're supposed to be smarter anyway."

Foyt also had a solution. "If there's a gas shortage, why don't they mass produce methanol? It's what we use in race cars, and you can make it from potatoes or garbage. It burns cleaner and gives more miles to the gallon."

Foyt said only a carburetor adjustment would be necessary to convert today's passenger cars from gasoline to alcohol.

Youth Trap Shoot On Tap for Sunday

A free round of trap shooting will be provided to local youngsters following instruction in gun handling safety at the Hereford Gun Club Sunday.

The youth day is being conducted by the local club to increase interest among youth in trap shooting, and to illustrate that shooting sports can provide family entertainment.

Events will get underway at the HGC range east of the Hereford airport at 1 p.m. Sunday with a regular practice round for club members.

Registration of youth participants will begin at 2 p.m. and youngsters will begin shooting at 3 p.m.

Activities will be broken down into two age groups, 14 and under, and 15-18. Youngsters 14 years of age and under must be accompanied by a parent. Local law enforcement officers and HGC members still provide instructions in gun handling safety and supervise activities, and the two age groups will be allowed to fire at 10 trap targets. Top shooters in the two age groups will receive trophies. HGC members will be making guns and ammunition available, and those youngsters who have their own guns may bring them, but will be expected to furnish their own ammunition.

CHENEY, Wash. (AP) - Eastern Washington University football Coach John Massengale is resigning to concentrate on teaching in the school's physical education department.

HEALTH

Lawrence E. Lamb, M.D.

Hemorrhoid treatment

DEAR DR. LAMB - I'm a 59-year-old man and have trouble with hemorrhoids. A specialist did a sigmoidoscope examination and checked me out in general. He said to soak my hemorrhoids and stay away from spices, roughage and booze. Whenever I have a bowel movement it hurts and stings for awhile. I have been back to the doctor a couple of times and he said I'm too old for surgery so I'd have to live with it. This doctor is a specialist in the field of rectal problems. Have you any suggestions?

DEAR READER - I think you have misunderstood what your doctor said or misinterpreted his meaning. If at age 59 you're too old for surgery, there are an awful lot of people having surgery who are too old for it. He either thinks your hemorrhoids are of such a nature that you don't require surgery at this time or you must have some rather serious health problems that are not mentioned in your letter.

Hemorrhoids are simply varicose veins of the rectum. The veins become over-stretched and dilated. Women are more prone to have them than men because of childbirth. The delivery of the baby's head creates so much pressure on the veins in this area that it often results in hemorrhoids.

That should be a good tip to you that any obstruction or mass in this area which presses on the veins can cause hemorrhoids to pop out. That's why anyone who first develops hemorrhoids should do exactly as you did and go see a doctor. It might not be simple hemorrhoids. There may be something above the hemorrhoids such as a mass or tumor that is causing the problem. The only way the question can be answered is with a direct examination.

Some doctors would not agree entirely with our comments in your letter. The pain that occurs with hemorrhoids during a bowel movement is often associated with hard stools. For this reason stool softeners are often helpful. Some of the bulk expanders work because they keep the stools soft. The water that's trapped in the undigested food residue keeps the material soft.

You need to develop good bowel habits to avoid hard stools that cause problems and to avoid straining. To help you I am sending you The Health Letter number 2-1, Irritable and Spastic Colon and Constipation. It includes information you can use. Others who want this issue can send 50 cents with a long, stamped, self-addressed envelope for it. Send your request to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

Most doctors would agree that spices and alcohol are not good for people that have hemorrhoids. Incidentally, there are a number of minor office procedures which can be done for some types of hemorrhoids. These include such things as tying them off with rubber bands. On the surface that sounds a little wild but it's not and it works very well in some cases. The thing is the doctor has to select the type of case that he can do this type of procedure in. In very advanced cases of hemorrhoids, it won't work or if it does, the procedure becomes as extensive as a standard hemorrhoidectomy.

Appliance Service Center Opens

Doug's Appliance Service has opened in a new location, 511 E. Park Ave., and a formal ribbon-cutting ceremony was conducted by the Hereford Hustlers Thursday morning. Doug and June Barker are pictured with the giant scissors

and flanked by members of the Deaf Smith County Chamber of Commerce "goodwill ambassadors." Barker formerly operated his business from Taylor Furniture, and has been in the appliance service business for 11 years.

Names In The News

NEW YORK (AP) - Two actresses, a reporter, a U.S. senator's wife, an author and a magazine editor have been honored as "symbols of contemporary motherhood" in being named "Outstanding Mothers for 1979."

The First Outstanding Mother Awards were presented Tuesday to Jane Muskie, wife of Sen. Edmund Muskie, D-Maine; Lenore Hershey, editor-in-chief of Ladies' Home Journal; Carol Jenkins, WNBC-TV news reporter; Harriet Adams, author of 180 books including the "Nancy Drew" series; Charita Bauer, actress in "The Guiding Light" CBS-TV soap opera, and veteran actress Arlene Dahl.

The awards were sponsored by the National Mother's Day Committee.

OTTAWA (AP) - Prime Minister Pierre Trudeau says he has not read his estranged wife Margaret's controversial book "Beyond Reason," and beyond that comment he refuses to discuss it.

Parts of the book deal with the couple's married life. Mrs. Trudeau's lovers and her first experiences with marijuana.

At a news conference Tuesday, Trudeau said those who buy the book will have to judge its content for themselves.

"Do you want to know the nature of my thoughts on the book? Well, you won't get them," he told reporters.

BOSTON (AP) - Former Sen. Edward W. Brooke and his

ex-wife are being sued by the state of Massachusetts for recovery of more than \$84,000 in Medicaid payments made in behalf of Mrs. Brooke's late mother.

In filing the suit Tuesday, Attorney General Francis X. Bellotti said he has no plans to prosecute either Brooke or his former wife Remigia on criminal

welfare fraud charges.

The action came in a suit originally filed by Brooke in an effort to clear himself of the allegations. The attorney general's office filed a counter claim Tuesday, seeking to recover the \$84,387 in Medicaid payments made in behalf of the late Teresa Ferrari Navaco.

FAITH MAKES GOOD NEIGHBORS OF GREAT NATIONS

The boundary line dividing two countries can become a barricade of mutual hostility, but in the case of Canada and the United States it has always served as a bridge of friendship between two peoples with such trust, respect and understanding as to make the celebration of Canada-U.S. Goodwill Week quite unnecessary. Nowhere along the three thousand mile borderline that spans our continent have security measures ever been needed, and the citizens on both sides may enter and leave each other's land whenever they wish. This is a fine example of the spirit of brotherhood that has been taught by every religious faith, in every land. Wherever you live, you will learn this by attending the Church of your choice.

"Thou shalt love thy neighbour as thyself. Love worketh no ill to his neighbor: therefore love is the fulfilling of the law"
—Romans 13:9, 10

A living proof to all the world of faith in brotherhood
Guy Wilk Bilstrand
