say the \$60,000 project should be completed by the time school starts in early fall. (Brand Photo By Shawn Cockrum)

## Oil, real estate woes hurting bank earnings

DALLAS (AP) — Analysts predict problems in the state's energy and real estate sectors will prompt second-quarter results of weak earnings and strong loan loss provisions for Texas financial institutions.

The state's largest bank-holding company, RepublicBank of Dallas, was the first to report for the second quarter, with an 84 percent drop in earnings and net income of \$5.7 million or 13 cents per share. The loan loss provision was strengthened by \$78.5 million, the company reported.

RepublicBank reported \$22.5 billion in assets as of June 30.

First City Bancorporation of Texas, which made a \$275 loan loss provision in the first quarter, showed net income of \$15.1 million or 36 cents per share, for the second quarter, of-

ficials said Wednesday.

The company is reporting a net loss of \$217.2 million for the first six months of the year because of the large reserves set aside, spokesman John Jamison of Houston said Wednesday.

"We are still swallowing and living with the positive decision we made in the first quarter to provide for future uncertainties," Jamison said.

He said the net income reported for the second quarter indicates First City was correct in increasing reserves. The company charged off \$126.6 million in loans during the second quarter, primarily in the drilling and oilfield service areas. Reserves for loan losses stood at \$269.8 million as of June 30.

Most second-quarter reports from financial institutions will probably

reflect a slight deterioration from first-quarter results, said Georgia Head, an analyst with the Dallas firm of Rauche Pierce Refsnes Inc.

She said problems started with the rapid drop in oil prices this year and spread into the real estate economies

## Two camps stirred by AG pornography report

WASHINGTON (AP) — The final report of the Attorney General's Commission on Pornography has stirred up two camps: those who say the study could be "the death knell for the criminal pornography industry," and others who call it "highly prejudicial, farcical."

The 2,000-page report presented Wednesday by the commission to Attorney General Edwin Meese, links hard-core porn to sex crimes and contains 92 recommendations for federal, state and local governments to crack down on pornography in the United States. It also outlines steps citizen groups have taken against pornography distributors, including setting up picket lines and boycotting retailers of hard-core pornography.

The conclusions please anti-pornography groups and strike fear in the hearts of free speech activists.

"The commission has unveiled to the American public the extent of pornography involving children and violent pornography encouraging rape," said the Rev. Jerry Kirk, president of the National Coalition Against Pornography. "When Americans learn that the hard-core pornographers are producing manuals for rape and child abuse, they will be outraged and will unite against them."

In Kirk's view, "the answer lies in enforcement of state, local and federal obscenity laws and the education and mobilization of concerned citizens in a balanced, responsible manner." His group,

## Jury convicts 11 for ship hijacking

GENOA, Italy (AP) — A jury today convicted 11 people accused in the Achille Lauro cruise ship hijacking and sentenced three of them to life in prison, including alleged hijack mastermind Mohammed Abbas.

The panel of two judges and six civilians acquitted the four other defendants for lack of evidence. The jury had deliberated for three days under tight security.

Judge Lino Monteverde entered the underground courtroom, stood in front of the court and quickly read the verdict.

Four defendants were present when the verdict was announced.

They shouted "Long Live Palestine!" in Arabic from their steel-barred courtroom cages. Their shouts were translated by a courtroom interpreter.

At issue was the hijacking of the Genoa-based cruise ship with 413 people aboard. Four Palestinians commandeered the vessel Oct. 7 after it made a port call in Egypt, and demanded the release of 51 Palestinians jailed in Israel.

A wheelchair-bound American passenger, Leon Klinghoffer, 69, of New York, was shot to death during the two-day ordeal, and his body dumped overboard.

Five defendants were in custody. The other 10 were tried in absentia. Among those tried in absentia was Abbas, leader of the Palestine Liberation Front, a faction of the Palestine Liberation Organization.

In addition to Abbas, the jury gave life prison terms to two other

Palestine Liberation Front officials considered fugitives: Ozzuddin Badrakkam, 39, the PLF military leader, and Ziad El Omar, 35, who was charged with buying the hijackers' cruise tickets.

The four men accused of the hijacking are in custody. Three were sentenced today, and the fourth, Bassam al-Ashker, 18, will be tried later because he was 17 and a minor at the time of the crime.

Youssef Magied al-Moqli, 23, the hijacker accused of shooting and killing Klinghoffer, was sentenced to 30 years imprisonment. The prosecution had asked for a life term.

Ibrahim Fatyer Abdelatif, 20, also accused of being one of the pirates, was sentenced to 24 years and two months.

Ahmad Marrouf al Assadi, 24, a hijacker who had cooperated with authorities, was sentenced to 15 years and two months. He was not present when the verdict was read.

Two others received light sentences.

Abbas' cousin, Mohammed Issa Abbas, a 24-year-old Syrian convicted of using false passports was sentenced to six months. In November, he was sentenced to seven years for smuggling weapons aboard the ship.

Mowfaq Said Gandura, a 37-year-old Syrian, was sentenced to eight months in prison for giving false testimony.

Also convicted were three others considered fugitives.

Abdull Rahim Khaled, 50, received seven years and six months for using

a false passport to board the ship. Khaled, described as a PLF colonel, left the ship during a port call before it was seized.

Mohammed Ben al-Khadra, a 32-year-old Syrian, was sentenced to six years and six months for helping provide arms to the hijackers.

Yussef Hisham Nasser, a 24-year-old Lebanese, was sentenced to six years and six months for using a false name and for also helping provide arms.

Accquitted were Abu Kifah, 25, a

## Grass grows, family mows

By CINDY SMITH  
Staff Writer

Mr. and Mrs. Vincent Walterschied of 142 Greenwood and their seven kids have helped to mow half, if not most, of Hereford.

Mowing for 15 years now, Mary Walterschied said it started out as "just kind of an extra job."

"We're just a little operator," added her husband, but he was only kidding. The Walterschieds average 10-12 lawns per day and do cleanup work on lots for real estate firms and businesses.

Equipment for this "small operator" business include three riding tractors, eight walk-behinds (upright lawnmowers), three edgers, and five spinners (weeders) and one that's a blower and edger combined.

"You've got to keep that much equipment because if something breaks down we can't wait on parts," explained Mary.

Sometimes the family uses three tractors on the same lawn. "We have four mowers that we use on regular lawns and the others are back-ups, as we call 'em," said her husband. "And we have two mowers that we mow weeds 'cause you never know when they're going to fly."

Vincent does most of his own repair work and the couple checks the mowers for oil, blades, and gas every morning—before starting on the day's work.

"We load everything in the trailer and check the bolts to make sure everything's together," explained Mary.

"I like the machines that have parts here," added Vincent, "because if I can't get the parts here I don't need the machines."

Proper equipment allows the Walterschieds to get the job done fast but right.

"Yesterday we did nine lawns in 3 1/2 hours," said Mary. "Sometimes it takes longer but right now the grass is dry and it's not growing so fast. Boy, there when it was raining though..."

The Walterschieds do everything from trimming and edging to mowing, thatching, and painting. "We do everything we have the tools for," said Vincent. "The only thing we don't do is spray, because nowadays you need a license to do that."

The Walterschieds explain

(See MOWING, Page 2)

By O.G. NIEMAN

That feller on Tierra Blanca Creek says the difference between a career and a job is about 20 or more hours a week.

ooo

There is a four-word formula for success that applies equally well to organizations or individuals—make yourself more useful.

ooo

Did you hear about the family over in northwest Hereford who had a summer visit from the grandma? The youngster's maternal grandmother had come for a week-long visit, and the boy was very excited.

"Oh, boy," he exclaimed, "Now daddy can do his trick." The grandmother, of course, was curious. "What trick is that?"

"Well, he said that if you stayed for a whole week, he'd climb the walls, and I've never seen anyone do that!"

ooo

Several events are providing fun and good food for local citizens this week, and they're all for good causes. The Hereford Lions Club is sponsoring its annual carnival at the Bull Barn and it continues through Saturday night. Lions put a lot of work into their booths and all the proceeds are used for the club's worthwhile community activities.

The annual Chili Cook-off of the National Cowgirl Hall of Fame and Western Heritage is scheduled Satur-

day. The chili tasting starts about noon and entertainment and an auction follow in the afternoon. Admission is \$2 for adults and \$1 for children under 12. Proceeds will benefit the Hall of Fame.

Also on Saturday is the annual King's Manor Barbecue. It is scheduled from 5:30 to 9 p.m. and admission is \$10 a person or \$25 for a family of four. Good food and a bluegrass band will highlight this annual event which benefits Manor residents in need of financial assistance.

ooo

Texans are going to be paying more taxes, in one form or another, whether they like it or not. That's the message State Rep. Stan Schlueter of Killeen gave to Texas Press Association members at a recent convention.

Schlueter, chairman of the House Ways and Means committee, is a man who tells it like it is, pulling no punches. He says about 87 percent of state spending goes to dedicated programs that can't be touched. The remaining 13 percent can't provide the necessary cuts in spending.

Schlueter thinks we can look for a boost in the state sales tax, plus broadening it to include a number of services not covered in the tax at present. He is quite sure that there won't be a personal income tax.

**Weather**  
WEDNESDAY'S HIGH: 93 OVERNIGHT LOW: 70  
MOISTURE: None reported at KPAN.  
OUTLOOK: Tonight mostly cloudy with a 20 percent chance of thunderstorms. Lows in the upper 60s. Wind south 5 to 15 mph.  
Friday partly cloudy with isolated afternoon thunderstorms. High lower 90s. Wind southwest 10 to 15 mph. Chance of rain less than 20 percent.

established in 1983, represents more than 70 religious denominations. Opponents, however, took a different view.

The report "will be used by groups particularly on the religious right, to mobilize new citizen vigilante efforts," Barry Lynn, legislative counsel for the American Civil Liberties Union, said in an interview.

Penthouse publisher Bob Guccione had a different view of the report, calling it "disgraceful, ... highly prejudicial, farcical."

"I think it's already been roundly discredited," he added. "I don't

think it's going to have anything like the impact that Meese and the Reagan administration would have liked to have seen happen in this country."

Guccione's magazine, however, has been hurt directly by the commission's activities. Since the beginning of the year, the owners of more than 8,000 chain store outlets in the country have dropped adult magazines like Penthouse and Playboy, many of them citing as the reason testimony before the panel linking pornography to sex crimes.

High-temperature records were set Wednesday in nine cities from Virginia to Georgia, and the weather service "heat index," a gauge of heat and humidity, ranged between 105 and 115 degrees from the Southeast to southern Missouri.

Utilities supplying Georgia, Alabama, northwest Florida, southeast Mississippi, southern Maryland and the District of Columbia reported record demand for electricity.

Use of air conditioners and fans in Tennessee on Wednesday nearly matched Tuesday's record level at a time when hydroelectric production at Tennessee Valley Authority dams has been reduced because of drought.

"We have a few businessmen at lunchtime with their shoes off and pants rolled up in the Riverwalk," a scale model of the Mississippi River in Memphis, said spokesman Gary Ravetto.

The Salvation Army in Owensboro, Ky., was lending out fans, said Capt. John Bledsoe. "The elderly, of course, have top priority."

Thunderstorms Wednesday evening in Kentucky dropped

## State

### Attorney says WT discriminatory

By RUTH RENDON Associated Press Writer

HOUSTON (AP) — West Texas State University benefits from federal funds and therefore should follow federally mandated rules that prohibit sex discrimination, an attorney said.

Suzanne Meeker, who represents the six women who filed a class-action suit against the school in 1980, Wednesday told a 5th Circuit Court of Appeals panel in Houston that WTSU's intercollegiate athletic programs receive federal aid through revenue sharing, work study funds and the use of buildings constructed with federal money.

The suit charges the programs unfairly favor men by giving male athletes more money, better facilities and better game and practice times.

U.S. District Judge Robert Porter of Dallas ruled in favor of the 6,500-student university in Canyon, near Amarillo, on June 19, saying its intercollegiate athletic programs don't receive a direct benefit from federal aid and therefore Title IX sex discrimination laws do not apply.

Title IX forbids discrimination on the basis of sex in school programs. In 1974, the U.S. Supreme Court interpreted the statute to mean that only school programs receiving federal assistance fall under the law.

The appeals panel took the case under advisement on Wednesday. Ms. Meeker said the athletic department selects scholarship recipients and then submits them to the student financial aid office.

If the financial aid office determines the student qualifies for federal funds, the athletic scholarship is then set aside or reduced.

But Laura Jefferson, an assistant state attorney general, said financial aid officials don't select scholarship recipients. The officials only distribute the money according to federal guidelines, she said.

### Law firm sued over drug money

EL PASO, Texas (AP) — More than \$4.2 million in suspected drug funds was withdrawn from two local banks by a Phoenix, Ariz., attorney who knew the money was subject to tax liens, according to a U.S. Justice Department suit.

The money had also been linked to a Mexican drug lord, a prime suspect in the kidnapping and murder of a U.S. Drug Enforcement Administration agent, said a federal official.

The civil suit, filed in U.S. District Court here, named as defendants Merwin Grant and the Phoenix law firm of Beus, Gilbert, Wake & Morrill. It alleged Grant took more than \$2 million from El Paso National Bank and more than \$2.2 million from First City National Bank of El Paso.

The suit, filed Friday by Michael E. Greene, an attorney in the Justice Department's tax division in Dallas, alleged Grant knew there were tax liens on the money when he withdrew it in early July 1984.

The money was to go toward payment of \$28 million in taxes for 1984 owed by Marquodeo Alfaro Margarino, 54, a Mexican businessman, for what the IRS said were illegal transactions in a drug money-laundering scheme.

Grant represented Alfaro last year in a dispute over \$6.5 million in certificates of deposit at First City National Bank.

"Defendant Merwin Grant had actual knowledge at the time he received the currency and checks ... that such removal was being done for the purpose of defeating and evading payment of tax liabilities assessed against Taxpayer Alfaro," the suit alleges.

## National

### Whitworth denies Soviet tie

SAN FRANCISCO (AP) — A lawyer defending Jerry Whitworth on espionage charges began closing arguments by admitting the prosecution's case except for one crucial point — Whitworth did not know he was working for the Soviet Union.

"There is no question that Mr. Whitworth received money, and a lot of it, for the classified information which he provided over the years," attorney James Larson told jurors Wednesday.

"The question is, what was his intent?"

Larson conceded that Whitworth, a former Navy code expert, sold communications secrets to his friend John Walker Jr. and hid the money from the government, but said Whitworth is innocent of espionage because he was unaware Walker was working for the Soviet Union.

Federal espionage laws prohibit disclosures intended to aid any foreign nation. But U.S. District Judge John Vukasin has ruled that the prosecution is bound by Whitworth's indictment, which refers only to the Soviet Union.

Walker, who pleaded guilty to espionage and was the chief prosecution witness against Whitworth, said he never told his old Navy friend about the Soviets' involvement, instead suggesting that the secrets were being bought by Israel, the Mafia or a private intelligence organization.

But Assistant U.S. Attorney Leida Schoggen said Wednesday there was overwhelming evidence that Whitworth had knowingly provided vital cryptographic secrets to the Soviets "for greed, the basest of human motivations."

She cited Whitworth's training, which stressed the Soviets' interest in code secrets; his alleged disclosures of information prized by the Soviets, and circumstantial evidence that he wrote anonymous letters confessing involvement in a Soviet-run spy ring.

She said a conviction would mean Whitworth's "traitorous, cold-blooded conduct will not be tolerated."

### Fumes injure 92, homes evacuated

MIAMISBURG, Ohio (AP) — A railroad tank car burned unchecked today after it exploded during salvage efforts, spewing a toxic cloud that injured at least 92 people and forced thousands from their homes for the second time in two days.

"We're saying it will now be out by daylight," said Dave Bush, trainmaster in Dayton for CSX Transportation, the railroad on which the tanker derailed Tuesday. "Right now, it's just a waiting game. It's just unfortunate that so many people aren't in their homes."

At least 80 people were treated at six hospitals Wednesday night after the tanker exploded for the second time in two days, sending a poisonous plume over the parts of three cities that had been evacuated Tuesday night, officials said. Twelve people were treated at a Red Cross shelter in Dayton.

Most treated complained of shortness of breath, irritated eyes or sore throats, officials said. Three people were hospitalized.

More than 250 people were treated and released Tuesday.

Transit officials used buses to evacuate nursing home residents and the handicapped. Shoppers and workers at the busy Dayton Mall were ordered to leave Wednesday evening as the fumes neared.

For a while, Interstate 75 was open only to through traffic, and motorists were not allowed to use exits into the communities being evacuated.

Henry Guzman, an aide to Gov. Richard Celeste, estimated that up to 25,000 people had fled. The two largest emergency shelters — the University of Dayton Arena and the Dayton Convention and Exposition Center — each had about 2,500 people overnight, officials said.

## MOWS

also do some roto-tilling for small garden spots. "We also plant a few trees once in a while but that gets in to work," grinned Mary.

For those major gardening jobs, the Walterschieds provided some simple green-thumbing tips.

The couple presently takes care of the watering for the First Presbyterian Church and added that most lawns have automatic watering systems.

"A lot of people water their lawns too much," Vincent said. "It's best to

just water it real good, let it soak, and then let it dry. We usually water once a week.

"People don't think that's enough but one good watering a week is good enough for any grasses unless it gets real hot." He added that too much

watering will also cause disease.

Vincent and his wife both agree that fertilizing is also good for greener grass on the other side of the fence.

"The best time to put fertilizer down is in the fall before you think it's going to freeze. Fertilizing in the fall and then again in the spring will get you your best result," explained Vincent.

He commented that one knows when to fertilize when the grass starts looking bad—when it turns brown and is lacking the green.

According to Mary, dry fertilizer is best to use. The liquid is hard to apply unless you have the right equipment and also, you could mix it too strong and burn the grass.

Other tips of proper lawn caring techniques include how to mow the lawn the right way. "You should never mow the lawn in the same direction because it will eventually leave tracks and will keep your ground more level if you mow it in different directions," he noted.

"One week we'll mow diagonally, the next week we'll mow horizontally..." added his wife. "There are six different ways to mow a lawn and we use all of them on the lawns that we can," Vincent said.

"People don't think the mower is that heavy but it's heavy enough to make a track in the grass," he said seriously.

Edging is also a part of proper lawn care and the Walterschieds have figured out an easy way to do it. "Edging every week is easier on the person that's doing it. If you'll edge your lawn before you mow, your mower will come back and suck the grass up in the catcher and you won't have to sweep it," he grinned.

The Walterschieds also do repatching and suggested roll-out grass that can be purchased at local nurseries for easier application. "It usually averages \$2.25 a square for a 6'x16" patch of grass and it comes in all types of grasses, Bermuda, Bluegrass, Fescue," noted Vincent.

"The first year we laid grass we had a whole pickup load full but it didn't cover as much as we thought it would," laughed Mary. "You gotta have a lot of roll-out grass for that kind of job."

Being literally in the thick of it, the couple seems very happy with their part-time turned full-time business. The three children still at home help the folks out a lot and sometimes the entire family will work on the same lawn.

"It takes time to get a business built up," Mary mentioned. "At first, we were doing odd jobs and it's taken 15 years to up this far."

"We've made a lot of good friends and customers over the years and we've even had some say they'd sell the house if we quit them," Mary said.

"A lot of them run off and go on vacation in the summer and they tell us they don't have to worry. They say 'we know you're there mowing,'" she smiled.

VINCENT and MARY WALTERSCHIED... Mowin', mowin', mowin'— a family project

## BANKS

because of overbuilding in some Texas cities during the boom cycle.

Officials for InterFirst Corp. are predicting a second-quarter loss of at least \$260 million after increasing reserve funds for loan losses.

RepublicBank Chairman Gerald W. Fronterhouse said in a prepared statement that the bank's performance this year reflects the current challenging economic environment in Texas.

"There's no question that the banks as far as their earnings are definitely under pressure," said Frank Anderson, an analyst at

Weber, Hall, Sale & Associates in Dallas.

"What we're starting to see is not only no improvement in energy, but we're also seeing additional weakening in the real estate market," Anderson said.

RepublicBank's provision for loan losses of \$78.5 million in the second quarter exceeded charge-offs of \$53.8 million, thus increasing the allowance from the first quarter by \$24.7 million to \$285.7 million, or 1.84 percent of loans outstanding, RepublicBank said in a statement.

"Banks in Texas have been very

fortunate going into this cycle. They've always been the darlings of Wall Street," Anderson said. He said most banks built up a strong capital base and can withstand the present economic problems.

"The big question mark is where are oil prices going in the next couple of years and what's going to happen to real estate," he said.

Both Anderson and Ms. Head said they don't expect any major bank failures in the immediate future, but Anderson noted that "the numbers are not going to be pretty."

## Rev. Otwell says he will appeal to God, not court

AUSTIN (AP) — The Rev. W.N. Otwell, who has yet to win a court battle in his fight to keep his unlicensed church home in operation, says he is done trying.

"I'm through fooling with the court system. I'm going to a higher court. I'm going to God," he said Wednesday after the 3rd Court of Appeals dismissed his appeal.

The court said Otwell did not meet a deadline for filing a required \$1,000 appeal bond.

State District Judge Paul Davis of Austin ruled earlier this year that Otwell's Community Baptist Church at Forest Hill, near Fort Worth, was illegally operating without a state license. Davis assessed fines of \$100 per day for Otwell and eight other people connected with the home.

At first, expressing contempt for the court system, Otwell said he would not appeal Davis' decision. He changed his mind after a May 21 meeting with Gov. Mark White.

"We put up the appeal because Gov. Mark White said the court system was fair. I said I'd give it a try. It worked out like I thought it would," Otwell said.

"I told Gov. Mark White our court system is corrupt and we are in a Hitler-type situation in this country," Otwell said.

"These judges are playing God in these courtrooms and these little bureaucrats are controlling our system," he said.

Otwell argues that the state has no

business forcing a church home to get a license. But the courts, in Otwell's case and cases involving the late Rev. Lester Roloff of Corpus Christi, have ruled otherwise.

An Aug. 5 sale of the Community Baptist Church property has been ordered to cover the fines, which Otwell said now add up to more than \$24,000.

Otwell and his followers came to Austin in May to protest near the Capitol and to meet with state leaders.

The 3rd Court of Appeals did not write an opinion in the case. It was listed as "dismissed for lack of jurisdiction."

Patrick Shannon, the appeals court's chief staff attorney, said the \$1,000 appeal bond was filed after the deadline. Otwell's request for more time was denied, Shannon said.

"The reverend didn't make up his mind soon enough to get the bond filed," he said. "This is pretty much it. He's pretty much out of court now. There's not much more recourse he has."

Otwell said he will not voluntarily close the church home. He challenged Attorney General Jim Mattox to go through with the Aug. 5 sale of the

church property.

"If Jim Mattox has the guts, he'll sell it. If he ain't, he won't," Otwell said.

Mattox said Wednesday, "It's going to be sold unless he quits operating or he pays the fines."

"The law is very clear. It was totally expected," he said of the appeals court ruling. "Unfortunately, Otwell thinks he's above the law."

Otwell continued to predict that God would punish the state if the home is closed.

"God's not through with Texas yet. They think the state's economy is bad now, just wait," Otwell said.

## Atheists issue book of Bible 'absurdities'

AUSTIN (AP) — The American Atheist Center has issued a new version of a Bible handbook that atheists claim "proves that the Judeo-Christian holy book is a mass of contradictions, absurdities, unfulfilled prophecies and broken promises."

"The Bible Handbook reveals, by quoting the 'Holy Bible' itself, that as an ethical guide, a historical guide, so-called literature or a manifestation of divine wisdom, the Judeo-Christian Bible is worthless and useless; it should be thrown into the rubbish can of the past," said a statement from the American Atheist Center.

In a section entitled "Bible Absurdities," on page 107, under the subheading "A four-cornered globe," is printed the following: "I

saw four angels standing on the four corners of the earth, holding the four winds of the earth. Rev. 7:1."

On page 48 under the subheading "God a tailor," is written, "Unto Adam also and to his wife did the LORD God make coats of skin, and clothed them. Gen. 3:21."

According to the atheist center, the handbook quotes verbatim from the King James Bible. The softbound handbook sells for \$8.

### Correction

Team penning entrants need to call 289-5291 to register for the event which will be in conjunction with the Hall of Fame All-Girl Rodeo July 25-27.

A typographical error in the number was published Wednesday. The editor regrets the error.

## HIJACKING

Tunisian who was accused of helping plan the hijacking; Mohammed Jarbua, 28, a Syrian who prosecutors said was meant to take part in the hijacking but was too sick; Abu Ali Kazem, accused of helping plan the hijacking; and a Greek man, Petros Floros, who was accused of letting one of the hijackers use his passport.

## Cow reported missing

The Deaf Smith County Sheriff's office heard a report of missing livestock from Pasqual Delgado, southeast of Hereford. Delgado reported that a 900-pound heifer was missing.

Deputies also heard reports of stolen food stamps and an assault.

## Theft of car reported

City police heard reports Wednesday of a stolen vehicle, a civil disturbance, disorderly conduct, criminal mischief, harassment, assault, and two domestic disturbances. Police also had an individual return a stolen bike.

## Ann Landers "Unite"

**DEAR ANN LANDERS:** I read with interest the letter complaining about all the "stuffers" found with the bills we receive from the credit card companies and department stores—all those advertisements trying to get us to buy more. If you can unite your readers, Ann, I have the solution. It will work for most junk mail.

There are two ways of fighting back. One is to save the stuffers and wrap them around your check when you send in your payment. Make them look for your check the way we have to hunt for our statements.

Most of those order forms come, "Business Reply Mail, postage will be paid by addressee." Don't write a thing on the form; simply seal it and drop it in the mail. Each one will cost the company at least 22 cents. I am convinced if we can unite we can win.—DOIN' IT IN MID-MISSOURI

**DEAR MID-MO:** I'm not so sure we can win. But here's your letter for those who want to try it. It might make some people feel better.

**DEAR ANN LANDERS:** Last month my father was killed in a head-on collision on a major six-lane highway. The driver of the car that crashed into my dad was 86 years old. The man was traveling in the wrong direction on a divided highway. Witnesses reported seeing the car traveling in the wrong direction for at least 12 miles before the accident occurred.

The reason I am writing is to urge relatives and friends of the elderly who are no longer capable of driving to flatly refuse to allow them to risk their lives and the lives of others.

An automobile can be a lethal weapon in the hands of a driver with impaired hearing, failing eyesight and poor coordination.

Three years ago, when my father was recuperating from an operation, I took away his car keys until his doctor gave him permission to return to work. My father did not hate me for doing this; in fact, he thanked me for my concern. I did not want him to be responsible for his or anyone else's injury or death.

So, please help save the life of your loved one and the lives of other innocent people on the road by having the courage to take away the car keys when you know the time has come. It is your responsibility!—BETTY IN MAINE

**DEAR BETTY:** I've dealt with this topic before and the readers always ask me how to stand up to a stubborn, adamant parent who insists that he

(or she) is completely competent to handle a car.

The solution is to insist that person visit an eye doctor, an ear doctor and a neurologist who will check reflexes and responses. A verbal or written report validating the claim that the person is competent behind the wheel of the car should end all speculation. The final verdict should be in the hands of the doctors.

**CONFIDENTIAL to Sick and Tired of Being Lied To, Cheated On and Taken For a Sucker:** Don't let one lemon sour you on the whole human

## One-day workshop offered to college bound students

A workshop for high school juniors and seniors can help prepare them for their college careers.

"Getting Ready for College" is a one-day workshop which will be offered this summer to high school students throughout the state by the Texas Tech University Counseling Center and the Division of Continuing Education.

Counseling Center Director Rolf W. Gordhamer, who conducts the workshops, said they can prepare students to enroll in any Texas university or junior college.

Dr. Gordhamer said participants can assess their academic strengths and weaknesses and gain knowledge of their interests and abilities and how those influence the choice of a major. Careers and college entrance requirements will be explored and students will learn to interpret college catalogs.

Study skills which help ensure academic success will be taught. In addition, participants can map their own goals and objectives for their higher education experience.

"Success in the freshman year depends on more than just intelligence," said Gordhamer. "It depends on taking the appropriate courses, course loads, knowing self-management skills, having goals and good study skills and knowing the pitfalls of the freshman year."

Cost is \$95 at Texas Tech and \$145

The Red Army was founded in Russia in 1918.

HOW TO WIN AT THE LOSING GAME

race. I still believe the Ten Commandments offer the best set of guidelines for living. What else can you think of that still works after thousands of years?

How to—and how much? Find out with Ann Landers' new booklet, "How, What, and When to Tell Your Child About Sex." For your copy send 50 cents along with a long, stamped, self-addressed envelope to Ann Landers, P.O. Box 11995, Chicago, Illinois 60611.

when offered elsewhere. Reduced rates are given for group enrollments of 10 or more.

Students who sign up for the workshop are sent a packet of inventories which measure interests, values, strengths, personality and study attitudes. The inventories, which take five to six hours to complete, are scored by the Counseling Center before the workshop.

Gordhamer said when 12-15 students from an area have completed inventories, they will be notified of a time and location for the workshop. The seven-hour workshop is usually held on a Saturday, Sunday or an evening.

For more information, contact the Counseling Center at (806)742-3674.

## Ballet lessons to begin

Ballet lessons for elementary school age youth will start Friday at the Hereford and Vicinity YMCA.

The lessons will be held each Friday with a class for first through third graders from 10 to 11 a.m. and a class for fourth through sixth graders from 11 a.m. to noon.

The lessons will be taught by Delight Thames who has had eight years of instruction in ballet. She studied under Neil Hess for four years, Barbarta Tuck for two years and Patty Farmer for two years.

Cost is \$15 per month for YMCA members and \$25 per month for non-members.

For additional information call the YMCA at 364-6990.

## Montelongo selected

The National Secondary Education Council announces that Ricky Montelongo has been named an Academic All-American.

He is the son of Manuela Montelongo and the grandson of Juan Gonzalez, both of Hereford.

Ricky was a student at Stanton Junior High School, but will now be attending Hereford High School, as a sophomore in the fall. He was nominated for the national award by Coach Paul Sample. The nominee's name will appear in the Academic All-American Scholar Directory

which is published nationally.

The NSEC has established the Academic All-American Scholar Award program in order to offer deserved recognition to superior students who excel in the academic disciplines.

The scholars must earn a 3.3 or better grade point average. Only scholars selected by a secondary school instructor, counselor or other qualified sponsor are accepted. The scholars are also eligible for other awards given by the NSEC.

## Youths to attend 4-H camp

Junior County 4-H Camp is Here and this year there are 20 4-H'ers participating.

They are Jim Brett and Kinann Campbell, Jeffery and Michael Carlson, Jill Dutton, Garrett Easley, Lee Harder, Jennifer Hicks, Wade Johnson, Larissa Kleusken, Cory and Patrick Newton, Pam Price, John David and Susan Rickman, David Russell, Justin Scott, Joey Sturgeon and Lori Urbanczyk. Shirley Carlson, Tonya Kleusken and Joni Hicks are going as leaders.

Campers will go to the 4-H camp at Lake Brownwood. They will participate in canoeing, sailing, swimming, shooting sports, a high adventure course, archery, arts and crafts, games, special events, movies and parties.

We need to give a special thanks to 4-H parent leaders for sponsoring this trip. Educational programs conducted by the Texas Agricultural Ex-

tension Service serve people of all ages regardless of socio-economic levels, race, color, sex, religion, handicap, or national origin.

According to the World Almanac Book of Inventions, the first elevator was built for Louis XV at Versailles in 1743. It was installed on the exterior of the palace and used a system of counterweights for almost effortless maneuverability. King Louis used it to move from his first-floor apartment to that of his mistress on the second.

Put casters on a drawer from a dis-carded dresser to make a toy or storage bin that can be rolled under the bed.

## DR. GOTT Alzheimer's and Huntington's

By Peter H. Gott, M.D.

**DEAR DR. GOTT** — Alzheimer's disease and Huntington's chorea seem to have similar symptoms. Will you please discuss Huntington's disease in your column?

**DEAR READER** — Huntington's chorea is a rare and inherited condition characterized by progressive mental breakdown, resulting in insanity and death. It usually occurs in people over 50 and causes death within 15 years. There is no known treatment. Alzheimer's disease is similar to Huntington's. It, too, causes mental deterioration that usually starts in late middle life, produces defects in memory, judgment and behavior, and leads to death in about seven years. Alzheimer's disease does not seem to be inherited in the same way as Huntington's chorea — and it is much more common.

You can learn more about Huntington's chorea by writing to the Huntington's Disease Foundation, 250 W. 57th St., Suite 2016, New York, NY 10107. Also, there is an Alzheimer's telephone hotline that will answer questions about that illness: 1-800-621-0379 (Monday through Friday, 9 a.m. to 5 p.m. Central Time).

**Dr. Gott's new Health Report, WHAT YOU SHOULD KNOW ABOUT NURSING HOMES, offers a step-by-step guide to rating facilities and finding the best care available. For your copy, send \$1 and your name and address to P.O. Box 2597, Cincinnati, OH 45201. Be sure to mention the title.**

**DEAR DR. GOTT** — I'm 55 and have eaten two tablespoons of bran a day for five years. I get teased constantly because the bran makes my breath smell like rubbing alcohol. What can I do about this?

**DEAR READER** — Change your brand of bran. Many modern breakfast cereals contain sufficient fiber to provide for your needs without tasting like twigs and sawdust or causing unusual breath changes.

**DEAR DR. GOTT** — Is there a vaccine for rheumatic fever? I get it from strep throat.

**DEAR READER** — There is no vaccine for rheumatic fever. This ailment is thought to be due to a strange allergic reaction to streptococcus bacteria. Today, doctors are much more apt to treat strep throat with antibiotics, so rheumatic fever has become much less common. In the past, the disease was characterized by acute arthritis, carditis (heart inflammation) and chorea (irregular body movements and loss of coordination). Rheumatic fever usually can be prevented by adequate antibiotic treatment of the preceding strep infection.

**DEAR DR. GOTT** — What is polymyalgia rheumatica?

**DEAR READER** — Polymyalgia rheumatica is a chronic disease of unknown cause that produces inflammation of certain arteries (particularly around the temples), headache, muscle stiffness and muscular pain. Serious problems — such as heart attack, stroke and blindness — can follow the acute phase. The illness is not usually seen in people younger than 60. Cortisone is an effective treatment.

**DEAR DR. GOTT** — Can you please discuss the pros and cons of a tubal ligation vs. a vasectomy? My husband and I are 31 and have two children.

**DEAR READER** — A vasectomy is a simple, safe and relatively inexpensive office procedure. After each side of the scrotum has been anesthetized, the surgeon makes two small incisions, identifies the sperm ducts leading up from each testicle, clips and severs the ducts and then closes the small incision.

Even the simplest form of tubal ligation is more complicated than a vasectomy. The woman must be put to sleep with general anesthesia. Through a small abdominal incision, the gynecologist inserts a lighted instrument in order to identify each Fallopian tube. Then, through another abdominal incision, the surgeon inserts a second device that clasps the tubes and cauterizes them. This burning seals off the hollow Fallopian tubes. Finally, the abdominal incisions are closed.

In my opinion, vasectomy is preferable to tubal ligation because it is safer and simpler to perform. It also provides an opportunity for the man to play an active role in contraception — a role that has, unfortunately, largely been left to women in the past. When properly performed, vasectomies are 100 percent effective. They do not in any way affect sexual performance, sexual interest, manliness or general health.

Tubal ligation is also safe and effective when properly performed. However, it is a bit more complicated

than vasectomy and requires general anesthesia; further, its effectiveness is much more difficult to assess. A semen analysis can determine if a vasectomy has produced infertility. Discovering if a woman is sterile after tubal ligation is much less simple.

Either method is appropriate. Husbands' and wives' personal preferences usually play a large role in the decision about who gets "fixed." In helping patients decide which partner is to be sterilized, I urge them to consider cost, safety, convenience and possible lack of success (common after tubal ligation). I also suggest that the man and woman discuss each procedure in depth with their respective surgeon and gynecologist.

**DEAR DR. GOTT** — I've had myasthenia gravis off and on for about 12 years. Is there anything new in the treatment for this disease?

**DEAR READER** — Myasthenia gravis is a chronic disease of muscle weakness caused by a defect in transmission of nerve signals from nerves to muscles. There are two basic forms of treatment.

Certain drugs (in the anticholinesterase group) improve electrical conduction from nerves to muscles. These medicines act quickly and are safe, but — by themselves — rarely restore completely normal function. They are used temporarily to relieve symptoms. Neostigmine and pyridostigmine are the most commonly administered medications.

Most patients (and doctors) are more interested in treatment that is curative and permanent. Cortisone has been shown to produce long-term beneficial effects in up to 80 percent of patients. Its method of action is unclear and, unfortunately, the drug has side effects when used for long periods.

During the past few years, specialists have become more enthusiastic about surgical treatment of myasthenia. During surgery, the thymus gland is removed. This technique is quite safe and is said to produce remission or significant improvement in about 85 percent of cases. The operation is not recommended for children, the elderly or those who have a mild form of the disease.

In most medical centers, each case of myasthenia is judged individually. Initially, anti-cholinesterase drugs may be used to control the disease. Then, depending on the severity of the condition, cortisone may be considered. Finally, thymectomy may be judged to be the most appropriate permanent solution.

More information about this disease can be obtained from the Myasthenia Gravis Foundation, 15 East 26th St., Suite 1603, New York, NY 10010.

**DEAR DR. GOTT** — When my grandson was 2 weeks old, his harelip was operated on, leaving one side of his upper lip slightly larger. He was also born with a cleft palate. At what age should this be repaired? What causes these defects?

**DEAR READER** — Harelip and cleft palate are due to a congenital lack of closure of the lip and palate. During fetal growth, these tissues develop from the sides of the head toward the midline. During the latter part of pregnancy, they fuse in the middle. This fusion produces the seam we can all feel with our tongues on the roofs of our mouths. In some infants, this closure does not take place; there is a persistent space between the right and left upper lips and along the midline of the palate.

The condition is usually repaired for cosmetic reasons. However, if the defects are large, the newborn may not be able to suck and feed effectively.

## Texas Tech Law Review available upon request

today is a time of a major, across the board re-examination of the federal courts and court policy, reports Texas Tech University Law Dean Frank Newton, and how that trend is being reflected in the U.S. Fifth Circuit Court of Appeals is examined in a current edition of the Texas Tech Law Review.

This edition of the law review is made up of two volumes, including one surveying Fifth Circuit court decisions for July 1984 through June 1985.

The survey helps show the direction the court is heading in 15 major areas, ranging from admiralty and antitrust law to criminal and tax law, Newton said.

Newton indicated that with the current economic downturn, the survey gives indications of how the Fifth Circuit will handle bankruptcy and other issues arising from the slowdown of the economy.

Also, cover in the survey section are civil procedure, employment discrimination, environmental law, evidence, federal jurisdiction, first amendment, intellectual property, labor and employment law, prisoners' rights and securities.

The accompanying volume with this issue of the Texas Tech Law Review examines the Texas writ of error system, reducing appellate delay, reconciling defamation law and the free enterprise system, jury practice in Texas civil cases and other issues.

The Texas Tech Law Review is published four times annually. Copies are available by writing Texas Tech Law Review, School of Law, Texas Tech University, P.O. Box 4030, Lubbock, Texas 79409.

## N.L. All-Star team announced

By **BARRY WILNER**  
AP Sports Writer  
NEW YORK (AP) — Outfielder Darryl Strawberry, one of three New York Mets voted to the starting lineup, was the leading vote-getter for the National League All-Star team, which was announced today by the Commissioner's Office.

Strawberry attracted 1,619,511 votes, more than 135,000 ahead of the next most popular player in the fan balloting — his teammate, catcher Gary Carter.

The third Mets starter is first baseman Keith Hernandez.

Also selected to the starting team for next Tuesday's game at Houston were second baseman Ryne Sandberg of Chicago, shortstop Ozzie Smith of St. Louis, third baseman Mike Schmidt of Philadelphia and outfielders Dale Murphy of Atlanta and Tony Gwynn of San Diego.

Strawberry was hitting .295 with 13 home runs and 45 runs batted in through Wednesday. He is the first NL player ever to start All-Star Games in his first three full seasons in the major leagues.

Hernandez, hitting .286, won his eighth consecutive Gold Glove Award last season and will be making his first All-Star start.

Carter is hitting only .241 but has 13 homers and 57 RBI. He won his sixth

consecutive selection with 1,486,141 votes. Since 1970, when the fans regained the vote for the starting teams, only Carter, Johnny Bench and Ted Simmons have been selected as starting catchers for the National League.

Murphy earned his fifth straight starting assignment with a .273 average, 14 homers and 36 RBI. Gwynn held off a late surge by Montreal's Tim Lincecum to win by 82,848 votes for his debut as a starter. Gwynn, the 1984 NL batting champ, is hitting .335.

Sandberg makes his second start at second base. He has a .276 average with 43 RBI. Smith makes his fourth straight start at shortstop and joined Strawberry, Carter, Sandberg and Murphy in attracting more than 1 million votes. Smith is batting .290 and is known as the "Wizard of Oz" for his fielding exploits.

Schmidt, at .285 with 17 homers and 61 RBI, was a starter at third base from 1979-84. He began this season splitting his time between first and third base but has been mostly full-time at third for most of the season.

Manager Whitey Herzog of St. Louis will announce the pitchers and substitutes for the 28-player squad on Friday.

### Girls' Minor League All-Stars

The all-star team from the Hereford Kids Inc. girls' minor league placed second in the U.S.S.S.A. state Pee Wee tournament in Lubbock last weekend. This weekend, the team, and also the girls' major league all-star team, will play in U.S.S.S.A. sponsored tournaments at the Martin Road Complex in Amarillo. Both Hereford all-star teams play games at 8 p.m. Friday. Members of the minor league all-star team, pic-

tured with trophies and awards from last weekend's tournament, are: front row from left, Kathy Hernandez (with all-tournament team award), Cindy Streun, Keiley Whitaker, Michelle Brock, and April Roddy; middle row from left, Minerva Salazar, Jeanette Flores, Veronica Casarez (with all-tournament team award), Claudia Ramirez (with all-tournament team award), Rachel Cepeda, and Vanessa Gonzalez; back row from left, Coach Ray Martinez, Sally Moreno, Coach Patsy Webb, Brandie Webb, Kyann Lindley, Assistant Coach Lupe Ramirez, and Coach Julian Zamora. Not pictured are team members Michelle Liscano, Christie Burkhart, and Coach Carlos Ruiz, and alternate players Samantha Cottrel, Rene Hernandez, and Veronica Nava.

The final count in the 1986 NFL draft showed 173 offensive players picked and 152 for the defense.

Texas falls to 1 1/2 games behind California

# Yankees edge Rangers, 5-4

By The Associated Press

New York Yankee reliever Dave Righetti said he doesn't fool too many people but he tricked Texas Ranger catcher Don Slaught to save a ball game.

Righetti, with the Yanks leading 5-4 on Wednesday night, faced Slaught with runners on second and third with two outs in the bottom of the ninth. He caught Slaught looking at a called third strike to end the threat and the game.

"He wasn't getting around on the fastball," said Righetti, who pitched three innings and earned his 19th save. "And we figured he'd be looking fastball again."

"I threw him a slider that was more like a slurve and I think I just fooled him. I usually don't fool too many people."

Before fanning Slaught to end the game, Righetti faced pinch-hitter Tom Paciorek with the bases loaded and none out and induced him into bouncing into a pitcher-to-home-to-first double play.

"It's really more than you can ask for in that situation," said Righetti, who preserved the victory for right-hander Bob Tewksbury, 6-3. "Paciorek could just as easily have hit a gapper to beat us."

The losing pitcher was Jose Guzman, 8-9, who went 5 2-3 innings and allowed four runs on eight hits and five walks.

Two of the walks preceded Mike Pagliarulo's 19th home run of the season, which gave the Yankees a 3-1 lead in the fourth.

"Guzman never really got into the flow," said Ranger manager Bobby Valentine. "He was throwing well to every other batter. Then he got in trouble in the fourth and threw a high fastball to Pagliarulo."

After the Rangers tied it at 3-3 in the fifth, Claudell Washington got his first game-winning RBI as a Yankee with a two-out RBI single in the sixth.

"Claudell has done a great job for us since the trade," said Yankee manager Lou Piniella, who was ejected shortly after Washington's hit.

Dave Winfield, who wasn't in the starting lineup, pinch-hit for Washington in the Yankee eighth and doubled home a run that made it 5-3 and proved to be the decisive run when the Rangers got a run off Righetti in the ninth on singles by Gary Ward and Pete O'Brien and Pete Incaviglia's run-scoring double.

Larry Parrish was walked intentionally to load the bases with none out, and Paciorek was sent in to hit for Ruben Sierra.

"It didn't look too good," said Piniella. "Then we get the double play and Dave throws a perfect pitch to Slaught and it's over."

The Yankees remained eight games behind Boston in the American League East while the Rangers fell to 1 1/2 games behind California in the American League

West.

In other American League games, it was Kansas City 3, Baltimore 0; California 6, Milwaukee 1; Boston 7, Oakland 6; Cleveland 6, Chicago 3; Detroit 7, Minnesota; Toronto 6, Seattle 5.

Royals 3, Orioles 0

It didn't have the same national impact as the birth of Drew William Sabershen last October, but the Kansas City Royals have good reason to remember the day Brandon Neal Jackson was born.

Last October, a day after his son was born, Bret Sabershen pitched the Royals to an 11-0 victory over the St. Louis Cardinals and the world championship.

And Wednesday night, some 15 hours after 8-pound, 8-ounce Brandon first saw the light of day, the Royals saw some light at the end of the tunnel when proud papa Danny Jackson teamed with Bud Black on a three-hitter, blanking the Baltimore Orioles 3-0 and snapping Kansas City's club record 11-game losing streak.

It was the first victory for the Royals since June 26, when they beat Oakland 9-2. That was almost as long as Jody Jackson was overdue. She had gone to the hospital five times with false labor, as doctors revised their estimate of Brandon's arrival from June 24 to July 2. So what's an extra week?

Jackson, 5-6, allowed all three Baltimore hits while walking three and striking out three. Black came in with two on and none out in the seventh and pitched hitless ball the rest of the way.

The loss went to Rich Bordi, 3-1, who made his first start after 26 relief appearances.

Angels 6, Brewers 1

Don Sutton, 8-5, and Donnie Moore combined on a six-hitter as California won its fourth straight and opened a 1 1/2-game lead over second-place Texas in the AL West. Milwaukee has dropped four in a row and 12 of 17.

The victory was the sixth straight and 303rd of his career for Sutton, who allowed one run on four hits in 7 2-3 innings. Milwaukee starter Teddy Higuera, 10-7, gave up four runs in 3 2-3 innings.

Red Sox 7, A's 6

Third baseman Wade Boggs atoned for two costly errors with three hits and Boston scored six times in the fourth inning to erase a 4-0 deficit. Rookie Jeff Sellers, 3-3, survived three Boston errors and scattered six hits over 7 1-3 innings. Joe Sambito retired all five batters he faced for his ninth save.

Indians 6, White Sox 3

Joe Carter hit a two-run double and Mel Hall followed with a two-run homer in the fifth inning while Julio Franco went 5-for-5 and 47-year-old Phil Niekro scattered six hits for his third consecutive victory, evening his record at 6-6.

Richard Dotson, whose record dropped to 7-8, was relieved in the fifth by Bill Dawley.

Tigers 7, Twins 0

Jack Morris, 8-6, pitched a six-hitter, Lance Parrish hit two home runs and Darnell Coles also

Will Clark, a 1986 rookie with the San Francisco Giants, homered his first big league time at bat, becoming the 53rd man to do that.

homered. Parrish's homers gave him 21 for the season, tying him for the major-league lead with Oakland's Jose Canseco and Toronto's Jesse Barfield.

Blue Jays 6, Mariners 5

Cliff Johnson keyed Toronto's three-run rally in the eighth inning with a two-run pinch-hit single. Tony Fernandez opened the eighth with a double and the Blue Jays loaded the bases against Mike Moore, 5-8, on a single by Rance Mulliniks and a walk to Willie Upshaw.

George Bell greeted reliever Pete Ladd with a sacrifice fly and the other runners moved up on a throwing error by center fielder John Moses. After Jesse Barfield was intentionally walked to load the bases, Matt Young came on and struck out pinch hitter Buck Martinez. Johnson then singled to drive in the tying and winning runs.

Regular-Season Champions

The Cardinals won the regular-season championship in the Hereford Kids Inc. boys' minor league with an 11-1 record. Team members pictured are, from left: Coach Onesimo Juarez, Danny Cruz, Chris

Lee, Joshua Lopez, Andrew Tijerina, Ruben Ramos, and Coach Tony Martinez. Not pictured are John Paul Villarreal, Louis Hionouse, Joshua Gamboa, J.J. Rico, Israel Martinez, and Shawn Lance.

Ways  
with  
Wine

by David Hutchins

DESSERT WINES

Sweet white wines range from the delicately fruity to the overwhelmingly luscious. They should be sipped slowly by themselves. They are rarely improved by food. Very rich and highly flavored desserts tend to fight sweet wines. As a result, they should be served well-chilled by themselves. The finest natural sweet wines are produced by the action of "noble rot." They include Sauternes, Vouvray and Anjou whites, and the German Beerenauslesen and Trockenbeerenauslesen. German wines, in fact, offer every graduation between light flowery whites and intensely sweet wines with the same delicately acid flavor. None of them is really a mealtime wine.

The next time you stop by THE STORE to buy some dessert or mealtime wine feel free to ask us any questions you may have. What to serve with special foods...how to serve them or what glasses to use? In addition we have all your favorite beers, both domestic and imported. Stop by 400 N. 25 Mile, 364-7802 and look us over. Mon.-Sat. 10-9, use our drive up door until midnight for beer and wine, on Sun. only beer and wine is available from 12-12. In France, sweet white wines are served as aperitifs.

Montreal pitcher strikes out 11 Houston batters

# Expos beat Astros 2-1 behind Youmans

By The Associated Press

Since becoming manager of the Expos, Buck Rodgers has rarely hesitated to remove his starting pitchers at the first sign of trouble.

Yet when Floyd Youmans found himself in a jam in the eighth inning of Montreal's 2-1 victory over the Houston Astros Wednesday night, Rodgers didn't even have anybody warming up in the bullpen.

"He's a young man and we're bringing him along in a certain way," said Rodgers, who watched his starter get out of a two-one, one-out jam with back-to-back strikeouts. "That's just another step.

"He's had a lot of adversity. He struggled through his first five or six starts, but now he's progressed to the point where we can pitch him nine innings.

"He's coming along the way we want him to and tonight he passed another test."

Youmans allowed just two hits and matched his career-best with 11 strikeouts in what Rodgers called the youngster's best showing of the

season.

"He wasn't a one-pitch pitcher and he wasn't a thrower," Rodgers said. "He was a pitcher who had command of all of his pitches and who used them all."

Youmans, 9-5, walked four en route to his second complete game of the year, the first coming when he one-hit the Phillies in a 12-0 rout on June 8.

"He was definitely better tonight," said pitching coach Larry Bearnarth. "He didn't have all those runs to work with and he had to make good pitches to good hitters in some tough situations."

Youmans wasted little time setting the tone for the evening, striking out the first three Astros he faced.

"I had a good feeling coming out of the bullpen before the game that things would be good for me tonight," said Youmans, who won his fifth straight decision. "I cut down on my base on balls and I was able to get my changeup over when I want and that really helped me.

"I'm also relaxing more. I went through a period of trying to do more than I could, but now I'm just trying to do what my abilities allow and I'm getting great results."

The Expos gave Youmans an early run when Andre Dawson hit his 14th homer in the first inning.

Montreal added to their lead against Bob Knepper, 10-7, when Youmans led off the third with a base hit to left. He went to second when Dawson was hit by a pitch and scored when Hubie Brooks followed with the second of his three singles.

That was all the scoring the Expos managed off Knepper, who allowed seven hits in his seven innings of work.

"It took me a while to get my rhythm," Knepper said. "I started hitting my stride by the fifth, but they already got what they needed by then."

The Astros scored their only run when Bill Doran led off the fourth with a broken-bat single to center. Doran stole second, went to third on an infield out and scored on Denny Walling's sacrifice fly.

The victory enabled the Expos to gain a game on the New York Mets,

who earlier had lost their third straight to Cincinnati. Montreal is now 10½ games behind the NL East leaders.

"It's not over yet," said Youmans. "We've got a long way to go and they're going to lose some more before its over."

The Astros remained in a first-place tie with San Francisco in the NL West. The Giants lost to Chicago on the West Coast earlier Wednesday.

In other National League games, Los Angeles downed St. Louis 8-2, Atlanta beat Philadelphia 7-3, Chicago beat San Francisco 4-3 in 10 innings, and Pittsburgh defeated San Diego 6-4.

The losses by Houston and San Francisco left the NL West leaders in a tie.

Reds 11, Mets 1

The Mets were swept in a three-game series for the first time this season. The Reds gave Dwight Gooden, 10-4, his quickest exit of the season.

Rookie Wade Rowden went 5-for-5 with three RBI and Sal Butera hit a three-run homer for Cincinnati. Tom Browning, 7-7, allowed five hits over

eight innings for the victory. Dodgers 8, Cardinals 2

Fernando Valenzuela, 11-6, pitched a five-hitter and became the NL's third 11-game winner, rebounding from two straight losses.

He struck out nine Cardinals and walked one, losing his shutout in the ninth inning. Valenzuela also had two of the Dodgers' 15 hits, doubling in the eighth and scoring the Dodgers' seventh run.

Braves 7, Phillies 3

Doyle Alexander, making his first start since being traded from Toronto, scattered eight hits over seven innings, helping Atlanta end a five-game losing streak. He also had two singles, his first hits since 1981 when he pitched for San Francisco.

Dale Murphy's streak of playing in 740 consecutive games, the longest

among active major leaguers, ended. Braves manager Chuck Tanner and Murphy said they agreed the slumping Murphy — 7 for his last 39 — needed a day off.

Cubs 4, Giants 3

Chili Davis homered in the ninth, pulling the Giants even, but Chicago loaded the bases in the 10th, then scored the winning run when Terry Francona hit a sacrifice fly.

Pirates 6, Padres 4

Joe Orsulak homered and scored three times and Johnny Ray drove in two runs with a home run and double. Orsulak broke a 3-3 tie in the fifth inning with his second homer of the year.

Pirates starter Mike Bielecki, 6-5, went the first five innings for the victory. Don Robinson got his second save.

# 'Lucy' writers started with radio show

LOS ANGELES (AP) — Bob Carroll Jr. and Madelyn Davis are cooking up something funny with the pasta machine in their office.

Carroll took a sheet of paper and ran it through the machine, turning it into confetti.

"That's what Lucy is going to do to Gale Gordon's tie," he said.

"We like to try out all the stunts ourselves, because sometimes our ideas don't work," Miss Davis added. "People get very testy if you bring in a stunt that doesn't work."

Carroll and Miss Davis, writing partners for 39 years, are back with

Lucille Ball in her return to series television. The partners, who previously created "I Love Lucy" and "The Lucy Show," also are producing her new sitcom for ABC, "Life With Lucy."

Miss Ball, who will be 75 on Aug. 11, has not had a series since "Here's Lucy," her third and final show for CBS, which left the air in 1974. Last year, she made her first TV movie, "The Stone Pillow," playing a spunky bag lady.

The writers' association with Miss Ball goes back to 1948, when they began writing for her radio show,

"My Favorite Husband." They also wrote for "Here's Lucy" and "The Lucy-Desi Comedy Hour," and did the screenplay for "Yours, Mine and Ours," which starred Miss Ball and Henry Fonda. In addition, they created "The Mothers-In-Law" TV series and were executive producers of the sitcoms "Private Benjamin" and "Alice."

When Miss Ball decided to return to series TV, she called on her tried-and-true collaborators. "We sort of said she's the best, so how could we say no?" Miss Davis said.

In the series, Miss Ball's late husband was Gale Gordon's partner in a hardware store in South Pasadena. Her daughter is married to Gordon's son, and they all end up living in the same house.

In one typical plot, the writers said, Miss Ball will rent her house to a band in town for the Rose Parade. And, of course, she'll end up marching with them in the parade.

Certain leaves can be turned into a protein-rich cheese-like food.

# WANT ADS DO IT ALL! BUY - SELL RENT - TRADE

**THE HEREFORD BRAND**  
 WANT ADS DO IT ALL!  
 YOU WANT IT YOU GOT IT  
 CLASSIFIED  
**364-2030**  
 ADDRESS: 313 N. LEE

CLASSIFIED ADS  
 Classified advertising rates are based on a minimum of 20 words. One day is 13 cents per word or \$2.60 minimum. Rates below are for consecutive issues, no copy change, and apply to solid ad lines only.

TIMES	RATES	MIN.
1 day per word:	.13	2.60
2 days per word:	.32	4.40
3 days per word:	.31	6.20
4 days per word:	.40	8.00
5th day FREE		

Add 9 cents per word for additional days: 10 days (2 free) is 15.20 minimum; 15 days (3 free) is 22.40; month 27.80.

Classified display rates apply for special captions, paragraphing, bold type or larger type, and ads not set with full lines. \$2.40 per column inch, \$2 a column inch for additional insertions, of \$1.75 a column inch per month.

LEGALIS  
 Advertising rates for legal notices are \$3.50 per column inch for the first insertion and \$3 per column inch for consecutive issues.

Deadlines for classified ads are 3 p.m. daily for the next day's edition; 3 p.m. Friday for Sunday's edition. Cash is required on advertisements under \$10.

EVERY effort is made to avoid errors in Classified Ads and legal notices. We will not be responsible for more than one incorrect insertion. Advertisers should call attention to any errors immediately after the first insertion. In case of errors not the fault of the advertiser, an additional insertion will be given.

THE STATE OF TEXAS COUNTY OF DEAF SMITH CITY OF HEREFORD NOTICE TO BIDDERS

TO ALL INTERESTED PERSONS:

The City of Hereford, Texas, a municipal corporation, P.O. Box 512, Hereford, Texas 79045, proposes to lease and let for agricultural purposes certain lands, in accordance with the terms of this notice to bidders. This notice is the official bid form, and all proposals for the lease of this land should be submitted to the City of Hereford at the above address, for the attention of Darwin McGill, City Manager. Additional copies of this notice and proposal may be obtained from Mr. McGill by any interested person.

A lease contract will be entered into between the City of Hereford and the successful bidder, incorporating therein the terms of this notice to bidders, the bid proposal appended hereto, and any additional covenants or agreements arrived at between the City of Hereford and the successful bidder.

All bid proposals, submitted in sealed envelopes, must be received at the above address at or before 2:00 P.M. local time, on July 21, 1986, at which time the bids will be opened and considered by the governing body of said City.

The City of Hereford reserves the right to reject all bids, and the right to negotiate minor details and variations with the successful bidder. The successful bidder will be that bidder, who, in the opinion of the governing body of said City, submits the most advantageous proposal to the City of Hereford respecting the proposed lease. All bids must remain open for five days from the date of the bid opening, and the successful bidder will be notified within such period. The successful bidder must then enter into contract with the City of Hereford within ten days from date of notification that he is the successful bidder.

The terms and conditions of the proposed lease contract are as follows:

1. The land to be covered by the lease contract is described as follows:  
All of Sections Nos. 2, 3, 18 and 19, in Block K-3, Deaf Smith County, Texas, and containing 2,574 acres of land, more or less.

2. Except as more particularly set forth in this notice to bidders, the lands must be accepted by the successful bidder in the condition that such lands are now in, and it shall be the responsibility of each bidder to satisfy himself by inspection of the premises as to the condition of the land, fences, improvements, irrigation wells and equipment, and all other appurtenances and fixtures on the land. The City of Hereford makes no representations or warranties with respect to the suitability of the land for agricultural purposes, nor the availability of irrigation or other water supplies on the land, other than as set forth specifically in this notice to bidders. Permission can be obtained by any responsible prospective bidder for the right to go upon and inspect the land prior to the date of the bid opening.

3. The land is being leased for agricultural purposes only, and the successful bidder will be expected to comply with the following specific provisions:

(A) A part of the land has been heretofore placed in cultivation, and all that part of such land will be deemed cultivated land. The balance of the land is still in sod, has not been heretofore placed in cultivation, and will be deemed grass land. For the purpose of computing the annual cash rent, all land heretofore placed in cultivation will be considered cultivated land, and the actual acreage will be determined and the rent to be paid will be based upon such acreage. None of the grass land may be broken out and placed in cultivation during the term of this lease, except with the specific permission of the City of Hereford. If, at any time during the term of the lease, with the permission of the City, any such grass land is broken out or placed in cultivation, then from and after the date of such action, the land will be deemed cultivated land, and rent will be due and payable at the cultivated acre price.

(B) All of the land must be farmed, used, cultivated, and otherwise put to proper use in accordance with good farming and ranching practices customary in the area, and the lessee will from time to time plant, cultivate and harvest all crops necessary to keep and maintain all of the crop allotments on the premises under the rules and regulations of the United States Department of Agriculture, and it shall be the duty and responsibility of the lessee to determine the nature and extent of such term of this lease. Other than with respect to keeping and maintaining the allotments in force, the lessee shall be entitled to devote the cultivated acres to such crops as the lessee may desire, but it is specifically provided and must be understood that the use of sewer effluent for watering will prevent the growing of underground root crops such as sugar beets, potatoes, and the like. The lessee shall not be entitled to overgraze the grassland, and agrees to use good range management practices in accordance with the customary and accepted procedures in the area.

(C) The lessee must agree not to remove from the premises, either for his own use or for sale to third parties, any soil, dirt, coliche, or gravel and sand; and must further agree to use due diligence in maintaining the land free from additional roads and trails other than those already on the premises, the lessee agreeing to use existing roads, paths, trails, turnrows, and other means of ingress and egress, as well as access to crops, improvements, and remote portions of the premises. The City does not guarantee any access to any part of the premises except by public road established on the ground, and the lessee will be responsible for determining to his own satisfaction the availability of ingress, egress and access.

4. It is to be understood between the parties to the lease that one of the purposes for which this land was acquired by the City of Hereford was to provide a place for the discharge on private property, and without discharge into any public stream, lake or other place, the effluent from the sewer treatment plant of the City of Hereford. The City has constructed a pipeline through which such sewer effluent is transported from the sewer treatment plant of the City to the leased premises, where it may be put to beneficial use on the leased premises by the lessee under this proposed lease contract, in accordance with the following covenants and conditions:

(A) The City transports

such effluent to the leased premises at its own cost and expense, and the water will be delivered to the premises without cost or charge to the tenant. Such effluent will be made available at one location on each side of the stream bed passing through the leased premises, and may be controlled by gate valves placed in the pipeline at either such location. Eventual and final point of delivery is from the playa lake on the premises, where water not removed from the pipeline by gate valve upstream from the playa lake will be discharged into the playa lake, where such water will become the responsibility of the tenant in accordance with the further provisions hereof.

(B) The total output of the sewer plant of the City of Hereford will be so delivered to the premises, and it is to be understood that such output may vary from day to day and from time to time, and the City will not be responsible for delivering any specific quantity, whether more or less than the amount ordinarily to be expended from time to time. It is to be understood that the amount will be fairly constant in accordance with the ordinary day to day discharge from the plant, and that no reservoir or place of storage will be provided except on the leased premises. The tenant must expect such discharge to arrive on the premises day and night, and from day to day throughout the term of the lease. The City will not be expected to provide any means for terminating such flow at any time.

(C) The tenant shall be fully responsible for the application of the effluent to the land after delivery of such effluent to the points of delivery above specified, and the tenant shall be responsible for preventing any part of the effluent so delivered to the premises from being discharged into the stream bed that flows through the land, or into any other lake, stream, or other public place, or onto any adjoining land. Failure of the tenant to prevent such discharge of the effluent shall be deemed a breach of this contract, shall be subject to restraint or injunction by any court of competent jurisdiction on the petition of the City of Hereford, or any other public body, without the necessity of showing irreparable harm or inadequacy of any remedy at law. Failure of the tenant to prevent such improper discharge of the effluent shall likewise be deemed ground for cancellation of this contract, if such failure persists after due notice to the tenant. It is to be understood between the parties that the duty of the City of Hereford is a public duty to prevent any such improper discharge of effluent, and that this duty is assumed by the tenant pursuant to these provisions.

(D) The City of Hereford agrees to treat all such effluent in its regularly established sewer treatment plant, as the same now exists, and in accordance with accepted practices available to the City through the use of such existing plant. However, the City will not be responsible for the temporary delivery of effluent not so properly treated if such temporary delivery of improperly treated effluent is made necessary by breakdowns of the sewer treatment plant, or any part thereof, beyond the control of the City. The City's obligation shall extend to exercising due care and diligence to treat such effluent in accordance with practices now in effect at the City sewer plant. It is further understood that the breakdowns or failures in the pipeline system, or the sewer treatment system, which cause temporary disruption of the delivery of the effluent to the land will not impose any liability on the City for such failure to deliver the effluent to the land, and the City will not be responsible for any loss of crop by reason of water shortage, or any other

type of liability to the tenant.

(E) The playa lake, all existing surface and subsurface pipes, and other irrigation and water-spreading equipment owned by the City shall be available to the tenant for the spreading of water, but the City shall not be responsible for furnishing any equipment or facilities for spreading the water from the point of delivery other than those owned by the City and located on the premises at this time. All necessary ditches, pipes, sprinklers, and other watering facilities required by the tenant shall be furnished by him at his own cost and expense. All cost and expense of retaining the effluent and preventing improper discharge of the same in accordance with terms hereof shall be furnished by the tenant.

5. In addition to the sewer effluent to be used for irrigation purposes, as above set forth, the tenant shall be entitled to the use of the irrigation wells now located on the land, in accordance with the following provisions:

(A) The City of Hereford makes no representations with reference to the availability of underground irrigation water from irrigation wells. It shall be the responsibility of the prospective tenant to satisfy himself with reference to the amount of irrigation water that he may expect to receive from such existing wells and equipment.

(B) During the term of this lease, the responsibility for maintenance and repair of the wells and pumps below the ground shall be the responsibility, and done at the expense of the City of Hereford, except that day to day maintenance on such wells and pumps will be the responsibility of the tenant.

(C) The tenant shall be entitled to the use of all electric motors, irrigation engines, gearheads, and other irrigation equipment now on the premises, but the City reserves the right to decline to replace any of such items used above ground in the event same shall wear out or become useless during the term of the lease. All maintenance and repair of such above ground equipment shall be the responsibility of, and done at the expense of, the tenant, who shall be obligated to use due care to keep same in a good state of repair, subject to fair wear and tear. If any well has no gearhead or motor, or if any gearhead or motor wears out during the lease term, it shall be the responsibility of the tenant to furnish the same to meet his own needs in accordance with his own best judgment as to the utility of the respective wells.

(D) Although two deep irrigation wells have been drilled on the premises in prior years, it is to be understood that neither of these wells has been a serviceable irrigation well, and that neither of the same will be expected to be repaired or placed in service by the City. None of the equipment heretofore used in such wells will be made available to the tenant.

(E) The City of Hereford will not be required or expected to drill any additional irrigation wells, or to furnish any additional irrigation equipment to the tenant, except that which may be on the land at this time.

(F) It is to be clearly understood that the City of Hereford makes no representation with reference to the availability of supply of underground irrigation water, and each prospective tenant shall be expected to satisfy himself with respect to the amount of underground irrigation water available to him pursuant to the terms hereof.

6. The City of Hereford will reserve the right to drill additional water wells on the premises during the term of this lease, for the purpose of furnishing water to the City of Hereford. Such

and appurtenances, including rights-of-way and easements for water lines, sites and locations for wells, pump stations, and other appurtenances to the water system, shall be freely available to the City as needed for the purpose of such additions to the municipal water supply of the City, without cost or other charge to the City from the tenant on the land. The City will not be responsible or liable to the tenant for any reduction of availability of underground irrigation water caused by the drilling of municipal water wells, if such municipal wells are drilled in accordance with the rules and regulations of the High Plains Underground Water Conservation District No. 1.

7. The tenant will be expected to accept the houses, barns, sheds, corrals, fences, and other improvements on the land in the condition that such improvements are in at the beginning date of the lease, and will be further expected to return all such improvements to the City at the termination of the lease in the same such condition, subject only to fair wear and tear, and the acts of God and the elements. Insurance of such improvements against casualty losses, such as fire, windstorm and other natural causes, shall be at the discretion and expense of the City of Hereford. All of the existing fences on the premises must be maintained by the tenant in the same condition that they are now in, and no barbed wire fences will be removed, or replaced by electric fences, during the term of the lease. Day to day maintenance and upkeep of the fences and other improvements shall be at the sole cost and expense of the tenant during the term of the lease.

8. The City of Hereford shall have the right, at any time, during the term of this lease, through any of its officers, agents, or employees, to go upon the land, or any part thereof, for the purpose of inspecting the premises to determine compliance with the lease provisions, or for the purpose of inspecting the premises for any other legitimate purpose, including the right to survey the land for possible future development, lease, or sale of the premises, or any part thereof.

9. The land is presently leased and the crops now on the land belong to the tenant. That part of the land now planted to wheat, rye, oats and other winter crops is to be surrendered to the City by the present tenant when such crops have been harvested in the Summer of 1986. The successful bidder hereunder will be entitled to take possession of such lands when these crops have been harvested, and will be entitled to plant his own winter crops for 1987 harvest. Likewise, when the Fall row crops have been harvested in late 1986, the row crops land will be surrendered by the present tenant, and thereafter such possession will be made available to the successful bidder. Possession of the grass lands and pasture will become available to the successful bidder on January 1, 1987. The successful bidder, and new tenant, will surrender the respective areas used as above categorized, to the City, at the same time during the last year of his lease term.

10. The City reserves the right to cancel this lease as to any part of the land in grass, upon giving of six months notice of such proposed cancellation to the tenant, and upon prorata reduction or rebate of rent for any such cancellation from the date of such cancellation.

11. The tenant shall have permission to sub-lease to any responsible person all or any part of the leased premises during the term hereof, provided that no such sub-lease shall relieve the tenant from his responsibilities under the lease contract to the City of Hereford. Such

permission to sub-lease shall not include the permission to transfer or assign the lease, in whole or in part, without the permission of the City of Hereford.

12. The term of the proposed lease shall be five years, and the cash rent to be paid by the successful bidder; to the City of Hereford will be on an annual basis for five years, but the actual term of the lease shall be as follows:

(A) The successful bidder will be entitled to enter upon the premises and take possession thereof in accordance with Paragraph 9 above.

(B) The tenant shall be entitled to possession of the premises through the end of the crop year in the year 1991, and shall deliver possession of the premises back to the City of Hereford as to the wheat, rye, oats or other winter crops when such crops have been harvested in the Summer of 1991, and shall deliver the balance of the premises back to the City of Hereford at the end of the calendar year 1991. The tenant will not be entitled to plant the wheat, rye, oats and other Fall crops on the land at the end of 1991.

(C) The cash lease payable by the successful bidder for 1986 will be payable as follows: One-half of such cash rent will be payable upon the execution of the lease contract, and the other one-half shall be payable on or before September 1, 1987.

(D) The cash rent payable for the years 1988, 1989, 1990 and 1991, respectively, shall be payable on or before March 1 of each year and September 1 of each year, one-half of the rent to be payable on each such date.

(E) The cash rent shall be apportioned between the cultivated land and the other lands on the premises, and the acreage within each category of land will be determined as follows: The total acreage in the tract will be determined, by survey or other means of measurement, and the total amount of cultivated land will likewise be determined. The difference between the total acreage and the cultivated acreage will be deemed the grass land acreage, for the purpose of computing the per acre cash rent due and payable by the tenant to the City.

DATED this 2nd day of July, 1986.  
THE CITY OF HEREFORD, TEXAS  
By Darwin McGill, City Manager

NOTICE OF INTENTION TO INCORPORATE

Notice is hereby given that CAVIN CROP INSURANCE AGENCY whose principal business office is at 1500 West Park Avenue, Hereford, Deaf Smith County, Texas, intends to become incorporated without a change of firm name and that its entire assets will be transferred to a new enterprise organized to take over and continue the business under the name of CAVIN CROP INSURANCE AGENCY, INC., a Texas corporation, whose address will be 1500 West Park Avenue, Hereford, Deaf Smith County, Texas.

# New debate looms over lethal effect of passive smoke dangers

She said the controversy seemed almost a replay of disputes starting 22 years ago over the effects of smoking.

A 1964 surgeon general's report on active smoking, which concluded that cigarettes are a health hazard, is credited with greatly boosting the anti-smoking case. A similar report on passive smoking is expected this fall.

Statisticians say unexamined influences — or "bias" — can push research findings one way or another, helping account for sharp differences such as those in the Wells and British studies.

Some participants in the debate said Wells' work is bound to increase pressure for laws against smoking in public places.

"Even if the toll is only half that, it's got to help" those bills, said Graham Newson, an aide to Rep. James Scheuer, D-N.Y., who sponsored one of the measures.

Scott Stapf, assistant to the president of the Tobacco Institute, attacked Wells' work vehemently.

"This is nothing more than

cocktail-napkin scribbling," Stapf said. "The most telling fact is that the American Lung Association has not endorsed these figures. If there was anything to them, they would be rushing to Wells' side."

Physicist James Repace of the Environmental Protection Agency is co-author of an

earlier influential but disputed estimate that tobacco smoke causes 500 to 5,000 annual deaths from lung cancer among non-smokers.

Repace said Wells' work was "as sound as it can be made, given the present data. I've not found any reason to disagree with it."

# Crib deaths often preventable accidents

BOSTON (AP) — Poor parental judgment and accidents are probably responsible for many of the baby deaths that are officially classified as the mysterious sudden infant death syndrome, according to a study published today.

When a seemingly healthy baby dies unexpectedly or without explanation, the cause of death is frequently attributed to SIDS, or crib death. It is the leading killer of children between ages 1 month and 1 year, and blamed for 8,000 to 10,000 deaths in the United States annually.

New research, however, suggests that when such deaths are examined, there frequently is a reasonable explanation for the death, often a preventable household tragedy.

Dr. Millard Bass said he and his colleagues found evidence of accidental causes of death in 24 of 26 SIDS cases at Brooklyn-Kings County Hospital Center in New York City.

"What occurred in Brooklyn is probably characteristic of the problem nationwide," said Bass, a forensic pathologist at the State University of New York's Health Science Center. "It appears there are a lot of misdiagnoses being made."

Among the cases cited: —A 3-month-old boy suffering from a cold slept in a wooden drawer on a basement floor. He died, probably of asphyxiation and high body temperature, when the parents tried to treat him with a crude mist tent — a plastic bag over the drawer and an attached vaporizer.

—A month-old girl was placed face down on a large foam-rubber pillow in a bassinet. The baby was found dead, trapped in a groove formed between the edge of the pillow and the plastic side of the bassinet.

—A 4-month-old boy was dressed in an undershirt and jumpsuit, covered with three blankets and put to bed in a crib next to a leaky steam radiator. He was found dead the next morning. Blankets covered his head, and the temperature in the crib was 105.

—A mother went to sleep with her 2-month-old daughter on a plywood board covered with pieces of foam rubber. She awoke to find herself lying on top of the dead infant. The baby was wedged face down beneath her mother's chest between two pieces of foam.

"Poor judgment by the caretaker of the infant was considered an important contributing factor in almost all the deaths," the researchers concluded.

Dr. Frederick Mandell, vice president of the National Sudden Infant Death Syndrome Foundation and senior associate physician at Children's Hospital in Boston, said he feared the ramifications of the conclusions.

"The impact of this kind of article on parents whose children have suddenly and unexpectedly died — and who have not asphyxiated their child and whose children have not died of hyperthermia — will be of great significance because all parents feel some guilt, that they have done something wrong," he said.

Mandell said previous studies refuted Bass' findings, published in the New England Journal of Medicine.

Bass investigated the deaths of babies brought to the emergency room of the hospital. Most of the babies died in crowded tenements in poor neighborhoods around the hospital.

### LOOK WHO'S COMING

Now Paul and those with him left Paphos by ship for Turkey, landing at the port town of Perga. There John deserted them and returned to Jerusalem. But Barnabas and Paul went on to Antioch, a city in the province of Pisidia. On the Sabbath they went into the synagogue for the services. After the usual readings from the Books of Moses and from the Prophets, those in charge of the service sent them this message: "Brothers, if you have any word of instruction for us come and give it!"

So Paul stood, waved a greeting to them and began. "Men of Israel," he said, "and all others here who reverence God, (let me begin my remarks with a bit of history). The God of this nation Israel chose our ancestors and honored them in Egypt by gloriously leading them out of their slavery. And He nursed them through 40 years of wandering around in the wilderness. Then He destroyed seven nations in Canaan, and gave Israel their land as an inheritance. Judges ruled for about 450 years, and were followed by Samuel the prophet.

"Then the people begged for a king, and God gave them Saul (son of Kish), a man of the tribe of Benjamin, who reigned for 40 years. But God removed him and replaced him with David as king, a man about whom God said, 'David (son of Jesse) is a man after My own heart, for he will obey Me.'

"And it is one of King David's descendants, Jesus, who is God's promised Savior of Israel! But before He came, John the Baptist preached the need for everyone in Israel to turn from sin to God. As John was finishing his work he asked, 'Do you think I am the Messiah? No! But He is coming soon -- and in comparison with Him, I am utterly worthless.' — Acts 13:13-25

**Situations Wanted**

I WILL DO TREE REMOVAL. Call Bill Devers for free estimates. 364-4053 after 5 p.m.

**Help Wanted**

GOVERNMENT JOBS. \$16,040-\$59,230/Yr. Now hiring. Call 1-805-687-6000 Ext. R-10339 for current federal list.

any effect of passive smoking on risk of lung cancer or other smoking-associated diseases is at most quite small, if it exists at all."

Wells' estimates were presented last month at a meeting of the Air Pollution Control Association in Minneapolis. He provided a copy of his paper to The Associated Press.

The Wells report has not gone through formal peer review by other scientists. The British study, financed by the tobacco industry, has been reviewed by other scientists.

Karen Monaco of the American Lung Association, noting that her organization has been called "the No. 1 enemy of the Tobacco Institute," said her organization has not endorsed Wells' work, but added, "That's not to say it won't happen."

She said association doctors "feel it's just not yet fair to give that kind of an estimate" without more evidence.

Such a toll would be comparable to the 44,500 motor vehicle deaths reported last year.

The Tobacco Institute, the principal industry lobby, disputes Wells' findings and made available a British study from the July issue of the British Journal of Cancer. That study concludes "that

enough tin," Bates was forced to repeat after the voice.

"You're not very loud. You know I like it loud," the voice repeated after Bates screamed.

"I would die for the privilege to be here," Bates was forced to repeat.

Then he begged, "Please God. Let me go, Junior!"

The men exaggerated the sounds for Junior's pleasure and were acting while Bates was shocked with the cattle prod, Caldwell testified.

Later in the day, Bass asked Caldwell to describe Bates' position during one of the last torture sessions. Taking his cues from Caldwell, Bass laid on his back on the courtroom floor and stretched his arms outward.

"Like this?" Bass asked.

Bates was tied under a barn entryway so that his hips and shoulders hung off the ground, Caldwell said.

"You're giving me the mental picture that he was sort of tied up like a hammock," Bass said.

"Yes," Caldwell responded.

"How many times, Mr. Caldwell, did you say Mr. Ellebracht (Jr.) kicked Anthony Bates in the head?"

"Ten or 15," Caldwell answered.

As the trial continued into late afternoon, Caldwell's hands began to shake and he ground his teeth.

**Torture tape reveals giggles**

KERRVILLE, Texas (AP) — A drifter, allegedly tortured with an electric cattle prod before he died, begged to be released amid a chorus of giggles on a tape played in court.

Ranchers Walter Wesley Ellebracht Jr., 33, his father, Walter Wesley Ellebracht Sr., 55, and former ranch worker Carlton Robert Caldwell, 21 are charged with conspiracy in the death of Anthony Bates.

Bates and other drifters were lured to the Ellebracht's Hill Country ranch with the promise of work and then forced to stay, prosecutors maintain.

On Wednesday, Caldwell's 10th day on the witness stand in the 11-week trial, the younger Ellebracht's defense attorney, Ray Bass, asked him to identify voices on the tape, played for the first time in court.

"Are you having stage fright? This is the second tape. You haven't even been shocked yet," said a voice Caldwell identified as Junior's.

"Coochy, Coochy, coo. Now here it comes," said the voice as men, identified by Caldwell as ranch workers, giggled.

"Sometimes I'm bluffing, and sometimes I'm not," the voice said.

"I'm grateful to be here, and I'm sorry I didn't cut

# We're Smiling From —Ear To Ear!— And You Should Be Too.

If you're one subscriber out of the thousands who are reading this ad right now, then you know why this paper recently won 1st Place in Advertising Initiative during this year's Texas Press Association Awards.

In advertising competition with 20 other comparably-sized daily newspapers (many having larger overall circulations) across the State of Texas, the Hereford Brand was chosen as the best in its division.

This means that other professionals in the newspaper advertising field find your ads more creative in graphic design, layout and message. Therefore, your ads have more chance for success.

It also means, dollar for dollar, we're delivering you the best product that your advertising budget can buy. The next time you have a message to convey, pick the winning choice!

We reach thousands every day!

## —THE HEREFORD BRAND—

"the winning choice"
