DON'T BE BASHFUL, folks! Casting and rehearsals for the musical variety revue sponsored by Deaf Smith County Chamber of Commerce are underway, and the chamber needs your support in staging this show.

Let me point out that this writer has no "show biz" experience whatever, but I'm expecting to have a great time in participating in the show. We met with the singing groups Tuesday night and had a "ball" rehearsing some of the songs for the show.

There are a lot more people who should be joining us in this endeavor, and we invite you to come to rehearsals tonight. We need some more "over 40" folks in the cast. This is not a show for talented musical people...it's for talented people who want to do simple song and dance numbers and have a good time entertaining friends and neighbors!

WASHINGTON (AP) - The Carter administration is hoping it can rally labor support for voluntary wage and price guidelines despite opposition from the AFL-CIO's George Meany, who has called for mandatory inflation controls instead.

The administration's chief inflationfighter also says it may take at least a year for the program to lower the inflation rate, now above 8 percent a year.

Meany, the 84-year-old president of the 14 million-member AFL-CIO, unloaded his wrath at the Carter guideline program Tuesday, saying it would require a greater sacrifice on the part of workers than businessmen. He urged Carter to call a special session of Congress to enact wage and price controls.

"The plan his advisers have devised is unfair and inequitable and the end result of their ill-considered proposals could well be another recession," Meany said in a statement adopted by the federation's executive council, which includes 33 union presidents.

"We now believe the time has come for mandatory, legislated economic controls," he told reporters. It was his first public comment on the voluntary guidelines program Carter announced last week.

In other economic developments Tuesday:

-The Agriculture Department said farm prices rose one percent in October, the second consecutive large monthly increase, which means another probable jump in wholesale prices. The Labor Department is scheduled to issue its report on September wholesale prices Thursday:

-Carter appointed Douglas Costle, head of the Environmental Protection Agency, to also head a new Regulatory Council to supervise efforts to coordinate government regulations to make them

more efficient and less costly to business. -The Dow Jones industrial average closed below the 800 level for the first

time in nearly six months as the average of 30 industrial stocks lost 19 points to close at 792.45.

-The dollar finally stood firm against several major European currencies. including the German mark, after a seriesof sharp declines. But it fell to a new low against the Japanese yen.

-Concern on Wall Street that interest rates will continue to rise even higher appeared confirmed when the Treasury Department reported interest rates on a new issue of 3-year notes rose to 9.36 percent, the highest ever.

Administration officials quickly dismissed Meany's call for a special session of Congress to enact controls and said they have had good indications of support from other labor leaders and from rank-and-file union membership.

"We have reason to believe individual unions will cooperate provided we can demonstrate the program is fair," said Alfred Kahn, chairman of the administration's Council on Wage and Price Stability and Carter's chief inflation adviser.

Indicating a feeling - or a hope - that Meany may not call the tune on the labor attitude toward the plan, Kahn said he thinks "leaders of unions who actually do the bargaining" on new contracts will support the plan.

Although he is president of the AFL-CIO, Meany does not get involved in actual bargaining by the individual unions that make up the organization, although the members of its executive council do.

Kahn said the program already has important support from the two largest non-AFL-CIO unions, the United Auto Workers and the Teamsters Union.

But administration leaders were nevertheless distressed at the opposition expressed by Meany, since it certainly will hinder if not prevent success of the program.

In a statement, Labor Secretary Ray Marshall criticized Meany and the (See LABOR, Page 2)

# Carter Dollar Plan May Boost Interest

WASHINGTON (AP) - The government announced today a series of measures designed to stop the long slide in the value of the U.S. dollar overseas.

The steps include an unprecedented one percentage point increase in the

Federal Reserve Board's key bank lending rate to a record of 9.5 percent. The action seemed certain to set off another round of increases in interest

rates throughout the American economy. But the president said the actions are necessary "to correct the excessive decline in the dollar which has recently

occurred." "The continuing decline in the exchange value of the dollar is clearly not warranted by the fundamental economic situation. That decline threatens economic progress at home and abroad the success of our anti-inflation program," Carter told reporters at the

The surprise actions, announced without advance notice at the White House by the Treasury Department and the Federal Reserve Board, include:

-Increases in the government's arrangements with other nations to trade their currencies for dollars by \$7.4 billion, to a total of \$15 billion.

-The beginning of another currency exchange agreement with Japan.

-A requirement that U.S. banks increase their currency reserves by an amount equal to 2 percent of their cash deposits in denominations of \$100,000 or

### NYC Newspapers Inch to Presstime

NEW YORK (AP) - Negotiators for the New York Times, Daily News and striking pressmen toiled into the early morning today, inching toward an agreement aimed at ending a 12-week pressmen's strike that shut down the two morning

The negotiators failed to produce a Halloween-day accord predicted earlier by Theodore W. Kheel, mediator for striking workers.

Even if agreement is reached between the publishers and the pressmen. negotiations with three other craft unions could still delay publication of the newspapers. But Sunday editions were being tentatively planned by the publishers.

Kheel was to attend a meeting today of the Allied Printing Trades Council, an umbrella labor organization of nine newspaper craft unions and the Newspaper Guild.

Negotiators made a major breakthrough last week in agreeing to a formula for pressroom staffing.

The strike began Aug. 9 when the publishers of the Times, the News and New York Post changed pressroom work rules, saying they needed to reduce staff to compete with suburban dailies.

The pressmen's picket lines, honored by the other newspaper unions, removed 3.3 million daily papers from newsstands and doorsteps.

With the Thanksgiving holiday barely three weeks away, consumers are finding little to be thankful for at the supermarket. An Associated Press marketbasket survey shows grocery bills went up again during October, rising more than 11/2 percent.

WHARTON, Texas (AP) - Mary Lou Anderson, assessed the death penalty in August for her part in the slaying of her father and stepmother, had that sentence set aside Tuesday by pleading guilty to a reduced charge of murder.

The Lake Charles, La., woman was assessed a 50-year prison sentence by State District Judge Neil Caldwell, who in a brief hearing Tuesday morning granted a defense motion for a new trial, accepted the guilty plea and meted out the lesser

He also dismissed a pending charge of capital murder against Ms. Anderson in the slaying of her stepmother. Margie Anderson. She was accused of hiring a man to kill her parents for a \$5,000 life insurance policy. She was convicted of capital murder in the death of her father, Steve Anderson.

Ms. Anderson was given credit for the time she had spent in jail since her arrest in Murch. She is eligible for parole in 18 years.

Caldwell asked the 35-year-old woman if she was admitting her role in the slayings because she was guilty. She said that was the reason.

Appearing more nervous than during her jury trial, Ms. Anderson, 35, was quiet except when she answered the judge's questions.

At the end of the hearing, she was turned over to the Fort Bend Sheriff's Department to be returned to Goree, the woman's unit of the Texas Department of

#### Homestead Exemptions Called Welfare Program

AUSTIN, Texas (AP) - Homestead exemptions for the elderly would become a welfare program under the proposed "Tax Relief Amendment," the president of the Texas Senior Citizens Association said Tuesday.

"This makes homestead exemptions for the elderly dependent on income, making it a welfare or poverty type program," said Bob Pugh of San Antonio.

The tax amendment proposal on the Nov. 7 would allow the Texas Legislature to grant a \$10,000 homestead exemption for the elderly and disabled based on economic need. The exemption would be in addition to a \$5,000 exemption proposed for all homeowners.

Pugh, Galveston County assessorcollector C.R. Johnson and Tim Mahoney of the Texas Consumer Association urged defeat of the amendment at a Capitol news conference.

"I'm opposed to it, because it doesn't tell me exactly what it's going to do,"

You almost have to be against home, heaven and senior citizens to vote against the bill.'

Johnson said the amendment is confusing because it speaks of homestead exemptions in terms of a house's market value, while existing homestead exemptions for the elderly usually refer to assessed value.

Over 65 local exemptions in most parts of the state exceed the amount proposed under HJR 1," he said.

# Community Day Speaker Set

Pat Ferguson from Deaf Women met in Atlantic City, Smith County Welfare Department will present the keynote address Friday morning during a worship service commemorating World Community Day, an observance sponsored by Church Women United.

All interested persons are welcome to attend the service. which will begin at 9:30 a.m. Friday in Wesley United Methodist Church. Members of the local chapter of Church Women's United will be hostesses. A nursery will be provided.

'Touchstones for Discipleship" is the theme of this year's international observance, which has been celebrated every year since 1941. World Community Day emphasizes responsible corporate action for peace and justice.

In keeping with this purpose, two national human rights consultants, one in New York and one in northern California--were sponsored last spring by Church Women United in an effort to plan for such corporate action.

These consultations and this year's World Community Day focus on Church Women United's assertion that human rights is the foremost peace issue of this era.

This observance is one occasion when congregations unite their efforts to solve world problems. On World Community Day, thousands of church women will gather in their communities to commit themselves to forming a global society in which all persons have the opportunity to realize their aspirations in one community under God, according to a Church Women United spokesman.

"The dream of one community is not new for Church Women United," the spokesman said. "The goal of building a world community which lives in peace was one of the cornerstones of this movement when it began."

In 1941, during the week of the Pearl Harbor attack, when the constituting convention of the United Council of Church

one of its first acts was to inaugurate a day of peace. Every year since then, church women have celebrated World Community Day on the first Friday in November to emphasize corporate action for justice and peace.

Nationwide offerings received on World Community Day go into an Intercontinental Mission Fund, which enables Church Women United to express commitment "to be caring and sharing members of the one community under the God which they envision." Among the programs receiving grants to benefit children are: assistance on the day-to-day operation of a health center in Guyana; a creative arts and recreation program for children and youth

### COMMENTARY

**Donald F. Graff** 

### **Our thrifty states**

What's the difference between state and federal government?

For one thing: money.
According to the U.S. Census Bureau, state governments in fiscal 1977 piled up a \$13.3 billion surplus.
The federal deficit, meanwhile, was about \$50 billion.
The facts and figures offer an interesting look at how such widespread All-America problems as inflation can be handled by states, at least.
The U.S. government statistics show total expenditures by the state governments reached \$191.2 billion, an annual increase of 5.1 percent.
Education was the No. 1 state-level expense, according to the data. That was followed by welfare, highways and hospitals.

hospitals.

To break it down: the states spent \$64 billion for education, a hike of 7.4 percent. (And higher education accounted for more than one-third of that.)

accounted for more than one-third of that.)
Yearly welfare costs for the states hit a total of \$32.8 billion, rising \$3.1 billion. A 14.3 percent hike in medical assistance payments was the key increase. Staté transfers to local governments for welfare were \$8.8 billion.
At the same time, the states trimmed highway expenditures 3.3 percent to a total of \$17.5 billion, reflecting a decrease in federal funding.
Hospital funding by the states amounted to \$8.7 billion, a hike 11.8 percent.

Finally, a refreshing note was the popularity of the state

Thirteen states rolled up nearly \$1.2 billion in gross revenues during fiscal 1977 from lotteries. The leader, Michigan, grossed \$255 million with \$110.3 million left for

other spending.
Others with hefty lottery surpluses (after expenses):
New Jersey, \$77.9 million; Maryland, \$68 million; Massachusetts, \$66.6 million; and Illinois, \$52.2 million.

For art's sake

Not all kinds of gambles work for the best, of course. And something that happened in the state of Rhode Island provides another good example.

# Landry Pinpoints Staubach Flaw

DALLAS (AP) - For the first time, Dallas Cowboy Coach Tom Landry pinpointed a flaw Tuesday in veteran quarterback Roger Staubach.

"He is a great quarterback and a great competitor but he burdens himself with the full responsibility for our losses." said Landry. "If he has a weakness then that is it."

Staubach has been having a rocky season with 13 intercepted passes and 18 sacks.

Landry continued "Roger tries to do the whole job himself when we are going badly. He feels as bad as any guy I've ever seen when we lose. He's his one worst enemy."

Landry's remarks about Bowl. Staubach came after he had. Landry was asked what he

Landry said he even evaluated his own play calling and got a big laugh, saying "I'd be foolish to say I made a 100."

"We are doing a lot of things well but we are just one touchdown away on average from being a real good football team," said Landry. "That can be hard to get. One touchdown is what separates everybody in this business."

He said "Everyone expects us to be exceptional but we get beat and they think we are terrible. Well, there are four or five teams as good as we were last year."

TULSA, Okla. - Although the New Mexico State Aggies are hardly in a position to take a breather, they are just two conference wins away from winning the 1978 Missouri Valley Conference championship in coach Gil Krueger's first year as head coach.

The Aggies, 3-1 in the MVC, have conference games remaining with Drake and West Texas State, and two wins will wrap up the championship. But before they start ordering the trophy, they should take a close look at the rest of the pack

home to meet Drake this Saturday, while Tulsa is home to meet West Texas State. Another conference game finds Southern Illinois at Indiana State, while Wichita State is at home against non-conference foe Louisville.

Should West Texas State and Drake win this Saturday, it would throw the MVC race into a six-team scramble heading into the final weeks of the season as all six teams would have two losses. However, since the MVC started playing football in 1907, no team has ever won or tied for the championship with as many as two losses.

New Mexico State can simplify things by winning its last two games. If it does so, it would finish the conference season at 5-1. Tulsa, its closest pursuer, can do no better than 4-1 in the MVC because it does not play all MVC teams. In a addition, New Mexico State defeated Tulsa 23-20 earlier in

The 28-year-old left-hander won all 28 first-place votes to become the fourth unanimous winner:

Guidry started the season with a 13-game winning streak. He finished with 25 triumphs - 15 of them after losses by his team - on the way to the top winning percentage. .893, in the AL in 44 years and the best percentage ever for a 20-game

His earned run average of 1.74 also was an uncontested league high, while his 248 strikeouts in 2731/3 innings were second to the 260 recorded by California's Nolan Ryan.

"It was a great season - a season a lot of pitchers dream about." said Guidry, the bandy-legged left-hander whose scrawny frame belies the speed of his fastball. "I don't think it's fully hit yet. I haven't had time to sit down and reflect I've been through.

'Maybe it will hit me one morning in the duck blind, when 'm hunting." said the native of Lafayette. La., where hunting fills his winter months.

The shock may hit him harder than most AL batters did this year. Guidry surrendered just 187 hits in helping New York to its second consecutive World Championship. Mixing a magical position of sliders with his smoking fastball, he walked just just 72 batters in his 35 starts.

The special committee of the Baseball Writers Association of America made Guidry the first unanimous winner since 1968. when Denny McLain of the American League Detroit Tigers and Bob Gibson of the National League St. Louis Cardinals won all the first-place votes.

Mike Caldwell of the Milwaukee Brewers was second this year, collecting 25 secondplace votes and one third. Jim Palmer of the Baltimore Orioles. a three-time Cy Young winner. was third with 11 '-d-place votes and one for secon. lace.

It was the second consecutive AL Cy Young for a Yankee pitcher. Relief ace Sparky Lyle, the forgotten man in New York's miracle comeback of 1978, won the prize in 1977.

This year's voting came as little surprise, but last week. when Guidry received two awards here in as many days, he was reluctant to consider the award his until official announcement was made.

"He told me at the meeting that even though he was injured he thought he could make a contribution," Texas Coach Fred Akers.

# Meriweather Paces Jazz to 97-92 Win

By BARRY WILNER **AP Sports Writer** 

With a non-stop scoring machine like Pete Maravich in the backcourt and a rebounding terror like Truck Robinson up front, it doesn't leave much room for starring roles on the New Orleans Jazz. But Joe C. Meriweather had his chance to grab the spotlight Tuesday.

Meriweather grabbed 20 rebounds, blocked nine shots and hit 14 points to pace the Jazz to a 97-92 National Basketball Association victory over Chicago. His performance somewhat at least equaled Robinson's 28-point. 17rebound evening and 18 points for Maravich.

"Joe Meriweather was a superman tonight," said Bulls Coach Larry Costello. "He looked like Bill Russell, a real flyswatter. Any time we tried to penetrate, he'd knock it back at

Meriweather also shut off Artis Gilmore, holding the Chicago center without a shot in the third quarter and to just six points in the second half.

'Joe C. was tremendous tonight." said Jazz Coach Elgin Baylor. "He rebounded very well, did a good job on Gilmore and was blocking everything."

Elsewhere in the NBA. Golden State outlasted San Antonio 139-138 in overtime; Phoenix beat New York 120-108: Milwaukee edged Kansas City 114-112; Indiana was a 119-114

victor over Cleveland; Atlanta topped Washington 110-108; Los Angeles mauled Denver 134-107 and Portland held off Detroit 112-96.

Warriors 139, Spurs 138 John Lucas had 29 points and 14 assists and scored Golden State's final four points in a wide-open game. Lucas had tied the contest at 125 with 29 seconds left in regulation. forcing the overtime.

George Gervin had 34 points for San Antonio.

'Lucas is playing as well as any guard in the NBA right now," said the Spurs' Allan Bristow, who defensed the slick Lucas for part of the game.

Suns 120, Knicks 108

Phoenix easily outclassed the Knicks in the second half after leading by just two points at halftime. New York was playing without scoring star, Bob McAdoo, who has a back injury. and rookie guard Mike Richardson, out with a leg problem. The Suns made do without center Alvan Adams in the second half after he injured his ankle:

Paul Westphal had 35 points to pace the Suns to their seventh victory in 10 games, the best start in the franchise's history. Bucks 114, Kings 112

Milwaukee broke a four-game losing streak behind Brian Winters' 27 points and Marques Johnson's 23.

**But Bucks Coach Don Nelson** said recently acquired guard Norm Van Lier "played super.

We wouldn't have won the game without him. Nelson wasn't pleased with

the difficulty of the win. 'We've struggled too hard." he said. "It should never be this hard at home."

Pacers 119, Cavallers 114 Johnny Davis' 27 points. including 11 in the final quarter; 24 points by Ricky Sobers and 21 from Alex Englis led the Pacers over Cleveland.

Terry Furlow had 25 for the Cavs, who lost their fourth straight.

Hawks 110, Bullets 108 Jack Givens sank a jump shot with 17 seconds to go to boost the scrappy Hawks past the defending league champions. Eddie Johnson contributed 23 points to the Atlanta offense.

"We're a young team and we play in a lot of peaks and valleys," said Atlanta Coach Hubie Brown. "Tonight we just had our peaks at the right time.'

Lakers 134, Nuggets 107 Jamaal Wilkes and Lou Hudson each scored 20 and Kareem Abdul-Jabbar had 18 points and 17 rebounds to lead Los Angeles.

George McGinnis was the game's high scorer with 25. Blazers 112, Pistons 96

Lionel Hollins exploded for 13 points in the final 8:53 to spring the Blazedrs from a tight contest. He finished as the high man for Portland with 19 points. leading four double figure scorers. Bob Lanier paced the

slumping Pistons with 33 points.

TODAY IN HISTORY By The Associated Press Today is Wednesday, Nov. 1, the 305th day of 1978. There are

60 days left in the year. Today's highlight in history: On this date in 1952, the United States exploded the first hydrogen bomb, at Eniwetok Atoll in the Marshall Islands.

On this date: In 1755, an earthquake killed 60,000 people in Lisbon,

Portugal. In 1765, the unpopular British Stamp Act went into effect in the American Colonies, and many colonists defied the royal governors trying to enforce it.

In 1788, the U.S. Continental Congress, which had first met in 1774, was adjourned.

In 1940, British bombers hit Naples, Italy for the first time in World War II.

In 1950, two Puerto Rican nationalists tried to force their way into Blair House in Washington in an attempt to assassinate President Harry Truman, and one was killed by guards.

In 1976, Americans voted in an election in which Jimmy Carter defeated President Gerald Ford.

Ten years ago: The Chinese Communist Party formally expelled Li Shao-chi from his presidential duties. Five years ago: A Texas Democrat, Leon Jaworski, was

named to succeed Archibald Cox as special Watergate prosecutor. One year ago: Amsterdam police announced that the

Lawrence E. Lamb, M.D. Treating prostate cancer fast

DEAR DR. LAMB - I read your column in the paper and I need to know is there is anything special my husband should do for himself? He has a malignant prostate. The doctors at the Veterans Hospital are giving him female hormones. He has been taking them everyday for over a year. He is 65

years old Some days he feels real good and works all day. Then the next day he feels terrible. His stomach cramps and he is just so tired. I tried to get him to see other doctors, but he thinks they are doing a good job for him at the Veterans Hospihard, and it makes him awfully nervous not to be able to do the things he

wants and needs to do. DEAR READER - I appreciate your concern and your problem. Cancer of the prostate is a frequent occurrence. In fact, cancer of the prostate is the third most common cause of death in men in the United States. The sad part of it is that most of these could be de-

tected early, and cured ear-The Walter Reed Army Hospital has a 50 percent cure rate and that good record is because the per-sonnel they deal with have

an annual examination. That examination includes a rectal examination in men past the age of 40. This examination enables the doctor to feel a lump early in the course of the disease. It's entirely similar to finding a lump in the breast in a woman. When that small lump is found early enough surgery or radiation or both can be used to treat the cancer, sometimes resulting

in a complete cure. If the lump is not found soon enough, and cancer has already spread to other parts of the body, then the therapy is directed toward

neutralizing male hormones and slowing down the growth of the cancer cells. That's what the doctors are doing for your husband and that is the best treatment and standard treatment that is usually given for cancer of the prostate at that stage. Sometimes this works very well, controlling the disease for quite some time.
Usually, the Veterans Hos-

pitals are very well in-formed about the problems of cancer of the prostate simply by virtue of dealing with a population that fre-quently has this problem. I doubt that he would get any better treatment from other doctors. In fact, they would or similar treatment to what he is now receiving.

I am sending you The Health Letter number 1-6 on the prostate gland to give you more information about its function and cancer of the prostate. Other readers who want this information can send 50 cents for it with a long, stamped, self-ad-dressed envelope. Address your request to me in care of this newspaper, P.O. Box 155 Radio City Station, New York, NY 10019.

I would like to urge that every man at age 40 or over, should have an annual ex-amination which includes a finger examination of the prostate gland. That is the only way that this relatively common disease can be detected early, and the death rate and other complications curtailed. We badly need an extensive public education program about this prob-lem. Men need to be informed about the real neces sity of having this examina-

I would like to stress that it is just as important to men as finding a lump in the breast is for women. Actually, cancer of the prostate is responsible for more deaths in men than cancer of the

uterus is in women.

psychologically. Both major party gubernatorial candidates oppose the charter change. Republican Richard Thornburgh denounced 'racially divisive and inflammatory statements," and Democrat Peter Flaherty said he was against "anyone using racial tactics which would polarize or

divide blacks against whites." Rizzo's reply is: "I'm no racist. The black man has done better under me than all of the liberal mayors before me. I'm more liberal than most of the fakers when it comes to human

rights." Lately Rizzo has been campaigning with another embattled politician, Rep. Joshua Eilberg, D-Pa., who has been indicted on charges of receiving compensation for helping a Philadelphia hospital
