Lucio Baby Earns Prizes. In Brand's 1st-of-Year Contest

A five-pound, 91/2-ounce boy has won several prizes for himself and his parents as the winner of the Brand's 1979 First Baby Contest, sponsored by 18 Hereford businesses.

Dolores Lucio, 17, gave birth to the prize-winning tot at 7:32 a.m. today in Deaf Smith General Hospital. The baby's father is Gilbert Lucio, who works at Grain Handling Corporation. The parents reside on Dairy Road.

Actually, the first baby born at Deaf Smith General in 1979 belongs to Mr. and Mrs. Cameron Hill, who became parents of a boy at 1:07 p.m. on New Year's Day. However, since the couple's legal residence is in Oklahoma, where they are attending school, they are ineligible for prizes.

The Hills formerly lived in Hereford. The Lucio family has won the following prizes:

Diaper bag from TG&Y, front-end alignment from Fluestone; baby planter from Yellow Dalsy, \$10 gift certificate from J.C. Penny, 8 by 10 portrait from

Bill Bradley Photography, \$25 savings account from First National Bank, oil change kit from D&R Auto Parts, movie passes from Star Theatre, stuffed animal from Chandeller Gift Shop, baby bouquet from Flowers West, \$10 savings account from Hereford Texas Federal Credit Union, vaporizer from Thames Pharmacy, silver baby cup from Kester's Jewelry, bumper pads from Grandma's Korner, Too, \$10 gift certificate from Helen's Youth Shop, halrcut from The Barber Shop and stereo tape from Orval Watson Ford.

10 Persons Die in Winter Storm; Power Knocked Out in Dallas

By The Associated Press

An intense cold front that socked the Rocky Mountain states and Midwest over the weekend appeared to be moving slowly eastward today hinting that the near-balmy East may yet get a taste of the icy blast that knocked out power. stranded thousands and left at least 10

Weather contrasted sharply across the nation as early morning readings in the 50s and 60s along the East Coast felt more like April than January, while the Great Plains and Southwest still shivered

The mercury hit 64 degrees at midnight in Baltimore, breaking the 24-year-old record for Jan. 2, according to the National Weather Service.

Meanwhile, a foot of snow still covered

the ground in much of Kansas and Missouri. And thousands of residents in the Dallas and St. Louis areas were without electricity late Monday and early today as iceladen power lines snapped under the weight.

At one point Sunday, more than 130,000 in the two cities were without electricity.

Power company officials in Dallas were calling it the worst ice storm in 30 years. Many of the 10,000 Texans without power Monday were told they could expect to stay in the dark until sometime today.

Weather-related traffic deaths in Wisconsin, Missouri and Kansas accounted for at least three deaths. Others were reported by police in Chicago and Milwaukee where three men collapsed and died while shoveling snow.

Some of the coldest readings were felt in Colorado. Idaho and Utah where the mercury dipped to lows ranging from minus 45 to minus 60 pushed by high winds. However, forecasters predicted more moderate temperatures as the storm oved on.

Congressmen Criticize Plans To Abolish Ag Department

WASHINGTON (AP) - Farmbelt Congressmen are stiffening their resistance to any reorganization plan by President Carter that would diminish the Agriculture Department.

The latest objection came in a letter to Carter urging him "in the strongest possible terms" to abandon any such plans for the department.

Sen. Herman E. Talmadge, D-Ga., and Rep. Thomas S. Foley, D-Wash., chairmen of the Senate and House agriculture committees, told Carter in the letter that a shift such as that reportedly under consideration "would reduce the effectiveness of government service to the people and hamper efforts to meet the nation's growing needs for food" and other resources.

Their comments were in a letter to Carter dated Dec. 28 and released Sunday. It referred to reorganization plans reportedly under review that would

strip USDA of the Forest Service, along with some conservation and rural development programs. One plan calls for parts of the Soil

Conservation Service to be put into a new Department of Natural Resources. Another would transfer some rural

development programs from the Farmers Home Administration, or FmHA as the agency calls itself, into a new Department of Community and Economic Department built around the present Department of Housing and Urban Development.

Sources said late last week that all or key parts of those proposals have been cleared by top reorganization task force people, but had not yet been submitted to

The sources, who asked not to be identified, said the earliest Carter is expected to announce any reorganization proposal is in his State of the Union

In their letter to the president, Foley and Talmadge said, "As we indicated previously, we wish to cooperate with you in every possible way to make government better."

But the blueprints for USDA "only accomplish a moving of organizational boxes" within government, they added.

"They will not save money. They will not improve service. They will not be acceptable to rural America. We respectfully urge, in the strongest

Policeman **Breathes Life** To Baby Girl

Managing Editor

A Hereford police lieutenant's actions may have saved a 6-month-old baby girl's life shortly after midnight Monday.

Police received a call at 12:15 a.m. Monday concerning an emergency at 420 Jackson. Capt. Ray Morgan and Lt. Paul Ramirez who responded to the call were met outside the house by Ofelia Estrada, who identified herself as the grandmother of a sick baby she had wrapped in a blanket.

Morgan said it appeared that the baby was not breathing.

"She had thrown her head back trying to get air and she had turned blue," Morgan said.

According to police reports, Ramirez grabbed the baby, jumped into another patrol car and told officer Ted Langood to drive to Deaf Smith General Hospital. En route to the hospital, Ramirez administered mouth-to-mouth resuscitation.

The baby began breathing and moving on the way to the hospital, reports stated.

"I checked Monday and the baby was doing fine," Morgan said.

The parents, Mr. and Mrs. Juan Villalovas, 420 Jackson, met the policemen at the hospital shortly after the incident.

"I'm not a medical expert, but I think the baby might have died if it wasn't for Paul. When I got to the house, the baby was not breathing."

The child's name is Ann Marie Villalovas.

Davis Defense Could Rest This Week

HOUSTON (AP) - With a puzzling bond issue unsettled, millionaire Cullen Davis was to launch the new year today with a return trip to the witness stand.

The Fort Worth industrialist faced further cross-examination by prosecutors fighting to convict him in an alleged

conspiracy to kill his divorce judge. He maintaines he was framed by his estranged wife Priscilla and FBI informant David McCrory.

The defense team, headed by Richard "Racehorse" Haynes indicated it would rest its case this week, the 10th in the

protracted legal drama. However, nothing yet has followed any kind of script.

Attorneys mysteriously scuttled a motion last week designed to free the defendant for a New Year's eve reunion

with his girlfriend Karen Master. The honey-blonde Mrs. Master, 30, a key defense witness, was seated outside the courtroom when the issue was abandoned Friday.

"I am disappointed," she said. "A new point of law was raised and we needed time to research it," Dallas attorney Phil Burleson said at the time. Prosecutors, grinning at the surprise: turn of events refused to discuss the "new point of law" but said they would continue to oppose any move to free the defendant on bail. Davis has been in jail here since Sept.

David Mabin: head of New Zealand's Mount John Observatory, said the unidentified flying objects the Australian TV mon said they filmed over the weekend and another sighting reported on the east coast of Australia early today almost certainly were the planet Venus.

Mabin said Venus is currently at its brightest and can be seen for about 12 hours a day. "From a moving aircraft or from a car, it could appear to be moving at the same speed because of the great distance," he said.

The leading British astronomer Sir Bernard Lovell told London newspapers the sightings probably were meteorites that failed to burn up on entering the atmosphere, that it was "depressing and deplorable" that bright objects in the heavens could be imagined as visitors from outer space, and that such suggestions were science fiction.

The Australian TV films were shown in the United States Monday on CBS Evening News.

Free Food Stamps

To Be Released

WASHINGTON (AP) - Beginning with the New Year, millions of Americans who receive food stamps no longer will have to pay money for the coupons.

Since the beginning of the permanent federal food stamp program 15 years ago, recipients have had to buy some stamps to get additional bonus coupons free.

But the purchase requirement was dropped by Congress in legislation approved in 1977, and the Agriculture Department - which administers the food stamp program - has issued regulations for the new year to carry out the law.

One out of every 14 Americans uses the coupons, which can be treated like money at retail grocery stores. The program cost the government \$5.5 billion in the fiscal year that ended Sept. 20. For this fiscal year they are estimated to cost \$6.1

The regulations going into effect on Jan. 1 include other provisions to curb abuses and make food stamps more easily available to older people and poorer families. Agriculture Secretary Bob Bergland said: "I think we're going to see a substantial reduction in errors and fraud."

Cult Murder-Suicides Top 1978 Headlines

By MARY CAMPBELL Associated Press Writer

The mass killings and suicides by members of the Peoples Temple in Guyana which cost more than 900 lives is ranked as the top news story of 1978 by editors and broadcasters of Associated Press member newspapers and radio and television

The ritual suicides in the cult's jungle commune, headed by the Rev. Jim Jones, followed by a few hours the slaying of a U.S. Congressman and three American newsmen in an airstrip

Other top stories, as they were rated in the annual poll, were: 2. Mideast: Camp David accords, Begin and Sadat win Nobel Peace Price but negotiations drag on.

3. President Carter announces U.S. recognition of China.

4. California passes Proposition 13, tax rebellion spreads. 5. Death of two popes, John Paul II assumes papacy.

6. U.S. economy: dollar declines, inflation soars, Carter moves against inflation and currency decline.

7. Panama Canal treaties approved. 8. Collision over San Diego results in nation's worst air

9. World's first test tube baby is born in Britain. 10. Mayor George Moscone, Supervisor Harvey Milk shot to

death in San Francisco. Few events in the annals of history were more baffling than the violent deaths of more than 900 Peoples Temple cultists on Nov. 18 at Jonestown, Guyana. Most apparently committed suicide at the beheat of their leader by drinking a cyanide potion. Parents poisoned their children, then drank themselves. Jones

was found shot to death, a likely but not proven suicide. How many of his followers died voluntarily and how many under compulsion by armed guards remained in dispute. But, it was clear that Jones, a spellbinding Indiana-born preacher, summoned them to a ritual suicide after several of his armed followers had killed Rep. Leo Ryan and the three American

newsmen at an airstrip. Ryan had visited the Jonestown commune to investigate

reports that some members were being held against their will. Jones began his ministry in Indiana and later moved his church to California. He centered his sect in San Francisco where he extracted donations from members, ordered frequent beatings for minor transgressions and demanded sexual relations from both male and female followers. Jones gained political influence locally before leaving San Francisco in 1977 to join the agricultural community his followers had hewn from the remote jungle.

In the other Top 10 stories:

2. Long-warring Israel and Egypt agreed to terms of a peace treaty in a meeting at Camp David in the Maryland Mountains. President Carter mediated the treaty negotiations between Egyptian President Anwar Sadat and Israeli Prime Minister Menachem Begin.

The treaty was to have been signed by Dec. 17, but various snags developed, notably a dispute over tying the treaty to a timetable for the autonomy of the occupied West Bank. The deadline passed without a pact despite the continuing efforts of President Carter and U.S. Secretary of State Cyrus Vance.

owing the Camp David accords, Sadat and Begin were jointly awarded the Nobel Peace Prize. Begin traveled to Oslo to receive the award, but Sadat sent an emissary.

3. On Dec. 15, President Carter announced recognition of mainland China by the United States and resumption of diplomatic relations on Jan. 1, 1979. Simultaneously, he said the United States would abrogate its mutual defense treaty with Taiwan and end diplomatic relations with the island.

The United States pledged to maintain trade connections with Taiwan and to continue supplying defensive arms, but the reaction on Taiwan was bitter. Opposition developed in the United States as well. Sen. Barry Goldwater, R-Ariz., announced his intent to challenge the President's right to abrogate the Taiwan defense treaty without consent of the Senate.

4. When voters in California on June 6 approved Proposition 13 - a hallot proposal that slashed property taxes - the shock waves reached every state capital and the national legislature in Washington as well. The man behind the measure, crusty crusader Howard Jarvis,

suddenly became a national figure. Congressmen and governors lent him an attentive ear as he took his message east from Politicians had no trouble picking up the vibrations, and the

most prevalent campaign theme in November was: cut taxes, tighten the budget, and smile. 5. In a span of 73 days, Roman Catholicism lost two popes and

Cardinals startled the world, auguring large implications for western relations with the Communist orbit. His predecessor, the former Cardinal Albino Luciano of

Venice, was elected Aug. 24. He served only 34 days as Pope John Paul before he died of a heart seizure Sept. 28. In that short time, his spontaneity, humor and warmth had endeared him to millions. John Paul followed the 15-year reign of Pope Paul IV. who died Aug. 6.

6. The dollar's continuing drop on foreign exchange markets focused attention on serious problems in the U.S. economy.

Inflation at home and a large trade deficit were at the root of the dollar's fall, which continued unabated despite the Carter administration's actions and appeals to the public to hold down price and wage increases.

The Treasury and Federal Reserve Board increased intervention in foreign exchange markets and sharply increased domestic interest rates in an effort to shore up the beleaguered currency, but these steps failed to stabilize the dollar appreciably.

At year's end, the economy received another blow when the Organization of Petroleum Exporting Countries increased crude oil prices in 1979 by 14.5 percent. The increase, which is bound to add to the inflation rate, will also mean a larger U.S. trade deficit - and further damage to the dollar.

7. On April 18, the U.S. Senate voted to yield the Panama Canal to Panamanian control at the end of the century, much to the satisfaction of President Carter, who had staked his prestige

on the outcome. The Senate vote was 68-32 in favor, concluding the two-part canal accord. A month earlier, the Senate ratified by the same vote the initial treaty, which commits the United States and

Panama to maintaining the neutrality of the waterway. The April vote completed the arrangement, providing for

transfer of the canal to Panama on Dec. 31, 1999. Panama immediately ratified. Opposition in the United States was led by, among others, Ronald Reagan, who called the

treaties a giveaway. 8. The worst accident in nation's aviation history occurred Sept. 25 when a Pacific Southwest Airlines 727 jet collided with a small plane on approach to San Diego's Lindbergh airport.

All 135 aboard the airliner, on the Sacramento-Los Angeles-San Diego businessman's run, were killed. Eight more died on the ground. Both occupnts of the small plane, an instructor and a pilot practicing instrument landings, also died. Ground control said it had warned both the 727 and the Cessna. The airliner, on visual approach, had acknowledged the

Precisey how it happened was the subject of painstaking investigation. The accident raised renewed questions about crowded airports and the need for a sophisticated collision avoidance system aboard planes.

9. Baby Louise was born at 11:47 p.m. July 25 in the privacy of England's Oldham and District Hospital maternity unit, while the press thronged outside. She was conceived in a laboratory early the previous November in a glass thimble by her father's sperm and her mother's ovum.

After nearly three days the developing embryo was implanted in Lesley's uterus. Something over eight months later the baby was delivered by Caesarean section because the mother had developed toxemia. At 5 pounds 12 ounces, Louise announced her arrival with a yell. Said the doctors: "We've got a nice,

St. Louis, Mo. -- The Board of Directors of the National Hairdressers and Cosmetologists Association (NHCA) has unanimously adopted a new policy on salon gratuities.

The policy states: "The National Hairdressers and Cosmetologists Association believes that gratuities in connection with salon services undermine the professionalism of the industry's membership."

The following quotes from NHCA Board members across the country indicate their support of the new policy:

NHCA is very concerned about the image projected by professional cosmetologists. We have devoted much effort and time to trying to convince the American public that cosmetologists are professionals who have worked hard to become thoroughly knowledgeable a-

The man grabbed his wife, kissed her and said, "Honey, what a surprise!" She backed off from him like he was a three-day-old dead chicken and said, "What a breath! You'd better do something ... and fast."

Bad breath was discovered just after World War II and has since worked its way up to a major cause of air pollution. You can't hold a job if you have bad breath. Can't lead a normal social life, have a successful marriage. You cannot ski with bad breath, nor can you teach Sunday School. Just about all that is left open to you is making an occasional obscene phone call. (Even then, if you don't floss, you can be traced.)

Fresh Breath advocates have only begun. In the future, there are plans to have separate sections on planes for BB's and CB's. After awhile, no BB will be allowed on elevators, in doctor's or dentist's offices. (ESPECIALLY dentist's offices.) There will be separate sections of dining rooms for those who plan on Scampi with garlic and those with onions on hamburgers.

No. 1 Football Ranking Up For Grabs

By KEN RAPPOPORT **AP Sports Writer**

The national championship in college football is up for grabs after a costly fumble by Penn State in the Sugar Bowl.

The Nittany Lions' chances for their long sought-after national title quickly turned sour in the wake of a 14-7 defeat by No. 2 Alabama Monday.

And while the Crimson Tide was claiming the No. 1 ranking. there were other voices heard from after the results of New Year's Day.

Third-ranked Southern Cal put in a bid for the title with a 17-10 decision over No. 5 Michigan in the Rose Bowl, and fourth-ranked Oklahoma hoped to move into the picture after a 31-24 decision over Nebraska in the Orange Bowl Monday night.

Only the winner of the Cotton Bowl, No. 10 Notre Dame, was apparently out of the title picture. The fighting Irish beat the ninth-ranked Houston Cougars Monday in a 35-34 thriller. but their 9-3 record pales in comparison to the glittering 11-1 marks of Alabama, Southern

Cal, Oklahoma and Penn State.

'Alabama should be No. 1." said a distressed Joe Paterno, the Penn State coach who lost an opportunity for the Nittany Lions' first national championship. "Alabama beat an awfully good football team and has as much right to claim it as anybody.

Alabama Coach Bear Bryant seconded the motion.

"Yes, I feel we're the best in the country," he said. "There are a couple of reasons I would vote our team No. 1 - they overcame all the injuries and peaked today, and our schedule was extremely difficult. There were no soft touches."

One of the tougher opponents for Alabama this year was Southern Cal. The Trojans beat the Crimson Tide at the start of the season, and it's the primary reason that voters will give them heavy consideration as the nation's top college football

MIAMI (AP) - Oklahoma once-beaten teams, Alabama

Asked who deserved to be No. when the final Association Press poll is released Wednesday at 6:30 a.m., EST, Switzer replied: "I don't know. I think we are a great team. We've led the nation in rushing and scoring and came up just a few yards short in leading in total offense. I believe we have the greatest offensive team in the country

'Defense? Alabama has a great defensive team. Penn State also has a great defensive team. But I felt all season there are quite a few teams with a better offense than Penn State. Whatever the final polls say, I just hope we're recognized in a position representative of the greatness of this team."

Alabama's performance Monday certainly measured up to a No. 1 ranking. Bryant's boys stopped Penn State when they had to - in fact, two times within the 1-yard line in the final quarter. Major Ogilvie ran 8 yards for the tie-breaking touchdown with 21 seconds left in the third period.

'We beat the best team we've played all year." said Alabama running back Tony Nathan. "They were strong and well-coached. We just took it to them."

That's exactly what Southern Cal did to Michigan at the start of the Rose Bowl, running up a 17-3 lead in the first half behind the quarterbacking of Paul McDonald and the running of Charles White. McDonald

passed 9 yards for one score and White ran 3 yards for another to give the Pacific-10 champions all the points they needed in the Pasadena classic.

The victory continued the West's mastery in the Rose Bowl, where Pacific-10 teams have won for five straight years. The game was punctuated by a mild earthquake.

Heisman Trophy winner Billy Sims and quarterback Thomas Lott scored two touchdowns apiece in Oklahoma's victory over Nebraska - the first time that the Big Event fivals have

gave the Sooners a bit of revenge for a 17-14 loss to the Cornhuskers Nov. 11.

Notre Dame quarterback Joe Montana completed an 8-yard TD pass to wide receiver Kris Haines as time ran out and Joe Unis kicked the vital extra point to give the Fighting Irish a spectacular comeback victory over Houston's Southwest Conference champions.

The Cougars had built a seemingly safe 34-12 lead through the first three quarters before the Irish staged their rally on the coldest day in mer in a bowl game. The victory Cotton Bowl history, with the chill factor a minus-6 degrees In action Sunday night.

Alabama accomplished the feat of kayoing Penn State with a punishing defense that intercepted four passes thrown by the losers' quarterback. Chuck Fusina, and sacked the All-American five times.

The offense found a stubborn foe in Penn State's nation-leading defense, but scored on a 30-yard pass from quarterback Jeff Rutledge to split end Bruce Bolton in the second quarter for a 7-0 halftime lead.

After Penn State came back to tie on a 17-yard pass from Fusina to split end Scott Fitzkee in the third quarter, the Tide put the winning touchdown on the board with an 8-yard scoring run by Major Ogilvie in the same period.

The big plays, however, for

NOW GIVES YOU MORE

- ★ Over 70 extra viewing hours each month
- * More variety in movies, sports and specials
- *Agreater opportunity to see the current movies of your choice

Our half-price installation special has been extended through the month of January. The regular cost of \$15 has been cut to \$6.95 if you act in January. (An additional placement fee \$25 for use of the de-scrambler, which is returnable, is also required.)

> **Current Movies! All uncut!** All Without Commercials!

Fanfare now brings you a minimum of eight new movies a month plus encores, sports events, concerts and other specials - an average of 25 different movies and events every month! All played in their entirety - without cuts or commercial interruptions. See sports events and concerts you won't ever see on % TV! Fanfare actually expands your TV set into a total entertainment center!

> A Great Buy Anytime... An Even Better Buy Now!

The cost of a Fanfare movie or event is about 35c each - for the entire family! Compare this with what you'd spend on an evening out - plus the hassle of getting dressed, parking and etc. Yet, you get all this exclusive entertainment delivered directly to your home each month via satellite with Fanfare. Total cost is only \$8.95 per month plus a small one-time placement charge!

Lawrence E. Lamb, M.D.

Healthy living at altitude

DEAR DR. LAMB - What is the true story about eleva-tion and how does it really affect us? I am planning a move but want to know more first. I am 50 years old, my blood pressure is up a little. On my side of the family, deaths were due to heart attacks. My wife has bronchial asthma. We moved to 3,600 feet elevation first. Since it was dry, it seems to have helped her. She is not bothered anymore as she was back East.

On the other hand, our teenage daughter developed a problem with very dry skin. I have heard about two people in their 70s who had heart attacks and lung prob-iems that moved to a higher elevation and they claimed to feel better than ever with no problems.

I want to move to an altitude of about 5,000 feet. It won't be damp like it is back East, but I have found out it will be colder than where we are right now. It's a dry cold. Before I do anything, though, I would like to know how it would affect the three

DEAR READER - As you go up in altitude, the atmospheric pressure decreases. This is often associated with less moisture in the air and there is less oxygen pressure.

Below 5,000 feet the de-

crease in oxygen pressure doesn't make much differ-ence to healthy people. Be-yond that, the thinner air tends to increase the work of the heart and circulation. That's all right in normal

But because heart and vascular disease is common in our population, people who go from sea level to altitudes of 5,000 feet or above should be careful not o exert too much when they first get there. They need to gradually improve their physical capacity and not overdo it.

You can think of the effects of altitude as similar to exercise so you should be less active at altitude at first and gradually increase your activity to your previous

People who have lung disease may have more problems with altitude than others. Why? Because if air is trapped in their lungs (as from emphysema), the stale

'SQUASHED' CANTON, Ohio (AP) Brothers Hugh and John Ritz have harvested a squash weighing an estimated 350 pounds. It took four men to load it on a truck for the trip from their East Canton garden to their

air trapped in the lungs already has the effect of making them live at alti-tude. The more severe the

lung disease a person has the less likely he is going to be able to tolerate altitude. You should realize that you are already acclimated to 3,600 feet. Going on up to 5,000 feet, in your case, won't be a major transition. won't be a major transition. The fact that your wife has done better with the present change suggests that the additional altitude might not make any difference. I believe that she is the one who will need to be examined to make sure that her lung functions are adequate for

the change. While 5,000 feet won't make much difference, if you are planning on spend-ing much time at 6,000 and 7,000 feet elevations, which may be present in the locality you are planning on mov-ing to, then the altitude may become a more significant

The one recommendation I'd make to everyone who wants to go to higher alti-tudes, for whatever reason, tudes, for whatever reason, is to improve their physical fitness levels before they go. The higher your level of physical fitness before you are exposed to altitude, the less effect the change in altitude will have upon your body and your ability to cope with it.

You may be interested in more information on how your lungs work and so I am sending you The Health Let-ter number 2-4, Keeping Your Lungs Fit. Others who want this issue can send 50 cents with a long, stamped, self-addressed envelope for it. Send your request to me in care of this newspaper, P.O. Top Teams Have Rough Holiday Time

BY KEN RAPPOPORT **AP Sports Writer**

For a while, the Duke Blue Devils were perfect. Then they were perfectly awful.

The nation's No. 1 college basketball team could do no wrong for the first six games of the season, then did nothing right while losing two games in the ECAC Holiday Festival Tournament in New York.

The Blue Devils first lost an opening-round game to Ohio State, 90-84 in overtime, on Friday night. Then they dropped a 69-66 decision to St. Johns in the consolation game Saturday night before Rutgers won the title with a thrilling, triple-overtime 97-96 victory over the Buckeyes.

said Stallworth.

Southern Cal got the help of a disputed touchdown in its victory over Michigan, making its third consecutive losing Rose Bowl appearance.

Trojan tailback Charles White drove three vards for USC's second touchdown, but fumbled on the play. A taped replay appeared to show White had fumbled before he made it to the end zone, but the officials ruled it a touchdown and wiped out Stallworth, who returned to Michigan's fumble recovery.

> "I didn't see the controversial call, but obviously, what everyone says was that it wasn't a touchdown," said Wolverine Coach Bo Schembechler. "1 don't want to talk about the officiating. It will just get me in trouble. But it's a shame that something like that has to take away from the effort of our kids.

"Heck. I didn't know what was going on, but I know there aren't a lot of errors made in those kind of calls," said USC Coach John Robinson. "I think making such a big thing of it takes away from the game itself, it's splitting hairs."

That touchdown gave USC a 10-3 lead, and Frank Jordan kicked a 35-yard field goal with. two seconds remaining in the first half to give Southern Cal a 14-point advantage at the intermission. The Trojans had scored first on a 9-yard pass from quarterback Paul McDonald to tight end Hoby Brenner early in the opening quarter.

Gregg Willner put the 36-yard field goal early in the second period. Michigan quarterback Rich Leach, a senior making his fourth bowl appearance for the Wolverines, threw a 44-vard scoring pass to tailback Roosevelt Smith in the third quarter to cap the scoring for both teams.

Leach was the offensive star for the Wolverines, completing 10 of 21 passes for 137 yards. But he threw two interceptions. the first setting up USC's initial touchdown and the second giving the Trojans position for Jordan's field goal.

Gives Notre Dame Win

AP Sports Writer DALLAS (AP) - Even comeback artist Joe Montana thought Notre Dame's incredible Cotton Bowl really was all over when he lost a fumble late in the game to stop what looked like a game-winning touchdown

"I thought it was all over." said Montana, who lost the ball at the Houston 20 yard line with 2:05 remaining. "But then I saw we had timeouts left and our defense really played a super game."

By GREG THOMPSON

It proved to be far from over, with 35 seconds remaining, the revived Irish defense held the upstart Cougars on a key fourth down gamble at the Houston 29.

Montana then connected with Chris Haines for the tying touchdown as time ran out and Joe Unis booted the vital extra point Monday for a 35-34 Notre Dame victory.

The Cougars, facing away from a biting north wind that gusted to 30 miles per hour and pushed the chill factor well below zero, took a commanding 34-12 advantage in the second and third quarters.

Montana, meanwhile, was in the dressing room most of the third period with a bad case of chills brought on by the bitter weather.

"They told us Joe was not coming back in the second half and we thought it was over.but and we thought it was over. But we've learned over the last four years that it's never over.' center Dave Huffman.

The wind, which accompanied a record ice storm that had crippled Dallas on Sunday, had dictated the tempo of the game all day. It also forced Houston Coach Bill Yeoman to gamble on the key fourth down and one play late in the game.

"We were kicking the ball 10 or 12 yards into the wind," Yeoman said in explaining the decision. "Plus we had a kid center Chuck Brown with a very bad wrist snapping the ball. I was completely responsible for that call."
