ENDORSE TUBERCULOSIS DAY

Many Prominent Clergymen and Laymen Endorse Tuberculosis Day—Will be Observed Locally.

Statements of opinion approving Tuberculosis Day, which will be observed on or about April 30th, from prominent clerical, medical and lay authorities were issued today in the form of a bulletin by the National Association for the Study and Prevention of Tuberculosis. Among those who have endorsed the movement are His Eminence, Cardinal Gibbons and several Roman Catholic bishops, many prominent bishops of the Protestant Episcopal Church, several denominational and interdenominational societies, Doctors S. Adolphus Knopf and Lawrence F. Flick, Hon. Champ Clark, many prominent clergymen and others.

Champ Clark in a letter to the National Association, says: "I am in deep sympathy with the movement which your Association is doing so much to forward. We cannot learn too much about the dread scourge, for we cannot intelligently fight that which we do not thoroughly understand. Knowledge is power."

Rev. Dr. S. Parkes of Brooklyn, says: "I sincerely trust that your war on tuberculosis will prosper. It is a real war and should have the support of every right minded citizen and of all our churches of every kind. We remember with great pleasure and equal profit the tuberculosis day of 1910."

The Right Rev. John Scarborough, Bishop of New Jersey of the Protestant Episcopal Church commends the movement and speaks of the literature prepared for the use of clergymen in these words: "I am greatly interested in the effort to check the spread of tuberculosis by using 'the ounce of prevention' in time. Your circular of information is so admirable that I want every clergyman in the diocese of New Jersey to receive one."

The Right Rev. W. H. Moreland, Protestant Episcopal Bishop of Sacramento, writes: "I pledge my hearty support and that of the clergy of this diocese to the movement for the prevention of tuberculosis."

Dr. S. Adolphus Knopf of New York, the well known authority on tuberculosis, in a statement issued for the occasion says: "I venture to say that not in a few instances, as a result of tuberculosis sermons having been preached by pastors, priests, rabbis, or even only physicians, much good has resulted, not only because of the education of congregations in the preventive measures, but because of the interest aroused for the consumptive poor. I know that many an unfortunate sufferer is indebted for the amelioration of his condition or for his cure to a sermon preached on tuberculosis."

Dr. Lawrence F. Flick of Philadelphia, the widely known Philadelphia expert on tuberculosis, says: "The work of stamping out tuberculosis is in such perfect harmony with the spirit of religion that it is but natural to ask the ministers of religion to co-operate by giving the use of their church organizations for the educational part of the campaign. Not until all the people have gotten a clear conception of what tuberculosis means and of what is neces-

sary for its extermination will it be possible to inaugurate all the measures for prevention which Science has demonstrated as practicable and feasible. Knowledge must come before action is possible and there is no agency on earth through which knowledge can be so quickly and so efficiently extended to all the people as through the churches."

In connection with the above we will state that at a meeting of the local pastors of Hereford, Saturday afternoon, it was agreed that one Sunday would be devoted here as Tuberculosis Day. The Baptist minister, Rev. J. W. Boyd, was chosen to preach the sermon for the day, which will be the fourth Sunday night in May. The discourse will be given at the Presbyterian church, and as it is a union affair there will be services at no other church.

Rev. Boyd has made arrangement to secure quite exhaustive literature on the subject, and will devote the coming weeks to much study, so those that make plans to attend this service may be sure to hear many important facts concerning the disease, its ravages and the many courses being taken to lesson and prevent.

FURNITURE STORE CHANGES HANDS

Stofer Bros. and West of Snyder, Okla., Buy the B. S. Arnold Furniture Business.

A deal was consummated here Saturday by which Messrs. Stofer Bros. and West of Snyder, Okla., become proprietors of the furniture business of B. S. Arnold, a goodly portion of Oklahoma land figuring in the deal.

The personnel of the new firm is Ira Stofer, Ollis Stofer and Jim West. The two Mr. Stofers being from Snyder, Okla., while Mr. West is from Hedrick. The acquisition of the new property will give these gentlemen stores at Snyder and Hedrick, Okla., and Hereford, Texas.

Mr. Ira Stofer, who was here the first of the week seeing that the affairs of the new firm started off smoothly, left Wednesday, and left in charge our well known townsman, Mat Gilliland, who will look after the destinies of the new firm for the first few months, after which time probably one of the above named gentlemen will make their home in Hereford.

Castro County Man Here.

Mr. Terrell from southeast of Dimmitt was in Hereford Monday buying fencing material to fence something like 400 acres of good Castro county land. While here he also bought cotton seed, and will plant something like thirty acres to cotton. This planting of cotton is not an experiment with Mr. Terrell as he has already successfully grown cotton in the Panhandle. Let the good work go on.

Six-Shooter Barks.

Last Saturday night, close up to the midnight hour, several of our citizens doubtless thought that the old cowboy days had returned. For the first time in many moons some jolly gentleman proceeded to empty his six-shooter at the smiling stars when it became time for him to shake dust in the face of the sleeping city.

Mrs. J. W. Walters of Lubbock is here on a visit to her sisters; Messdames Jack North and Artis Daniel.

EASTER AMONG THE CHURCHES

Different Denominations in Hereford Observe the Day With Appropriate Special Programs.

Easter among the churches is always a day of rejoicing: the day above all days when christian people should proclaim to the world by word and song the risen Lord; the day on which we receive afresh the promise of the glorified Son, the Redeemer of all races. We shall sleep, yes, but as "the lily unfolds itself out of its own waste and decay," so shall we be triumphant in a final awakening, a resurrection with our Lord.

THE PRESBYTERIAN CHURCH.

A large and appreciative crowd assembled at the Presbyterian church Sunday to hear the pastor, Rev. W. M. Baker's discourse on Proofs of the Resurrection. The sermon, which was a good one, was prefaced by a number of well selected Easter anthem sung by the choir.

Miss Beulah Potter also contributed to the song service by a vocal solo pleasingly rendered with her sister, Miss Blanche, as accompanist. Miss Potter has recently returned from school at Waco and her many friends were glad to welcome her home and enjoyed hearing her sweet voice again.

The spirit of the day pervaded the congregation and in consequence of that fact a gracious service was had.

THE METHODIST CHURCH.

In observance of Easter quite an interesting program of songs and readings were given by the Sunday school at the Methodist church. The church service was a most impressive one. The sermon on "The Resurrection," by Rev. Sherman was beautiful and convincing. The following musical program was an inspiration to all who heard it.

THE BAPTIST CHURCH.

While no elaborate preparations had been made by the Baptist brethren for the Easter Sunday, it was a good day with them, and a large attendance greeted Rev. Boyd at both the morning and the evening service. At the morning service the pastor ably discussed "The Priesthood of Christ," the text being taken from the fourth chapter of Hebrews, and a solo was enjoyed by all those present. The evening was devoted to a sermon and special songs.

THE FIRST CHRISTIAN CHURCH.

Easter at the First Christian church was a day beautiful and joyous. The Sunday school was never better than on that morning, each pupil and teacher being thoroughly awake to the beautiful surroundings, and to the gloriousness of the occasion. The church service was but a continuation, with a splendid sermon by Rev. Shore and special music by the choir.

SACRED CONCERT.

Not enough can be said in praise of the sacred concert rendered at the Christian church on Sunday evening last. It was a beautiful culmination

of all that had gone before, a real soul-awakening in which the large audience was lifted by the glorious sentiment of the music into the realms eternal. The college, the Christian church, and all Hereford are appreciative of Miss Rhone in her rich musical talent, and in her ability to direct others. Several from other churches very kindly assisted Miss Rhone, and to these we express our sincere thanks, especially to Mr. Curtis, who came in from the country to all rehearsals.

HARDIN TILE DEMONSTRATED

Two Wildorado Men Give Demonstration of Porous Tile for Sub-Irrigation.

Geo. F. Ballew and M. T. Burks of Wildorado were in Hereford Monday giving a demonstration of the Hardin system of tiling for sub-irrigation. They had samples of the tile in three different consistencies of porosity, which they displayed on the corner in front of the First National Bank.

The tile is of a very porous nature, the water escaping by seepage or a kind of sweating process. They say that the tile is composed of five different ingredients all of which are to be found in the Panhandle in their native state.

These gentlemen have made arrangements to put in a demonstration acre at Troy Womble's place on 25-Mile avenue. The tile will be laid 20, 30 and 40 feet apart, and sixteen inches deep. Mr. Womble agreeing to plant this acre and another just opposite, but without irrigation, to the same kinds of plants so that the value of the system may be fully demonstrated. The tile will arrive in something like ten days for this free demonstration acre, at which time Messrs. Ballew and Burks will superintend its laying personally.

Party Off to the Canyon.

A number of Hereford people went up to Amarillo Wednesday morning, where they will join Amarillo friends, and from that place will go out to the Palo Duro Canyon for three days of general good times. Those from Hereford whose names we learned are: Mr. and Mrs. Esca Harrison, Misses Turrentine, Gray and Elder, and Mr. Ollie Thomas.

Card of Thanks.

We desire to express our sincere thanks to the good people of Hereford for their many kindnesses shown me during my recent sickness. Especially do I wish to thank the Presbyterian Sunday school girls, the Rebekahs, the Woodmen of the World, Mrs. Nance and family and the Drs. Taylor.

IVA REISLAND AND MOTHER.

DR. HENDERSON IN HEREFORD

Noted Educator from Austin Views The City and Delivers Instructive Address to the School.

Tuesday evening at 5 o'clock Dr. J. L. Henderson of Austin reached Hereford for the purpose of inspecting the City Public Schools. A reception committee composed of S. B. Moore, Ben Short, L. Gough C. W. Warren and A. P. Murchison took Mr. Henderson in charge and proceeded to show him some of the attractions of the Hereford country. Taking Mr. Moore's car the party proceeded out to the McDonald irrigated farm. One of the first wells to be brought in was pumping about 1500 gallons per minute, of the pure water for which the Hereford country has become famous. The big well was not in operation, yet the land and the work of the different pumping plants made a deep impression on our visitor and elicited many favorable comments as to the future of the country. Mr. Henderson said he had not seen such prospects for guaranteed crops anywhere in the state. The big Century plow, in fact every phase of the work, seemed to be intensely interesting to the visitor.

Returning to the city by way of the college, nursery and court house, the entire trip was apparently a revelation to the man from the Capitol City.

At night, after an informal, but highly interesting program by local talent, Dr. Henderson gave the assembled citizens an address along educational lines, and judging from the attention of the audience the seed fell on good ground.

Wednesday morning after a short address to the high school Dr. Henderson spent the day going from room to room seeing the work in the different departments. After making the rounds of the rooms as far as time would permit, "Dr. Henderson," says Supt. Short, "took the whole high school force, including the superintendent, to task and gave us a lecture, the kind we have been giving the children for seven long months. You know it would have been a joy to some of the high school pupils to have been a witness while the teacher received a good lecture with becoming meekness."

Mr. Short further says: "If the effect of Dr. Henderson's suggestions, his visit and his friendly criticisms do not result in better and more efficient work in the city schools then we cannot read the signs aright."

It is the desire of the teachers and the board of trustees to show Dr. Henderson when he returns again, the best high school of its size in the state. It can be done with united effort.

H. C. Myrick was busy all day Tuesday planting his sub-irrigated farm north of Hereford, to cabbage and beans.

Participate in Track Meet.

Bob Elliott, Jr., Lewis McBride, Albert Carter and Albert Moore left Friday morning for Canyon where they will participate in a track meet. These boys represent Hereford College and make a strong four to compete for the running honors. Albert Carter is the recognized star, and it is expected that he will take the honors over all teams competing.

Society

EGG HUNTS.

How thankful we are that some body instituted the custom of having egg hunts at the Easter time. There is almost as much joy in the hurry and scurry of seeing who can find the greatest number of eggs, as there is in looking into the stocking on Christmas morning. Great numbers of the Hereford children, perhaps all of them, enjoyed an egg hunt sometime during the Easter season, but one we happen to know most about was given at the home of Little Thelma Tynes on Saturday afternoon at 3 o'clock. About thirty small children, most of them members of the cradle roll and the kindergarten departments of the Christian Sunday school, gathered at the Tynes home for an Easter party and an egg hunt. Mrs. Tynes and Mrs. Chris Garrison, the teachers of these departments, were careful that each little tot should find his share of the beautifully colored eggs. What fun it was to run from place to place and how joyous the shout when an egg was found. While delicious home made candy was being served the children amused themselves by watching the goldfish and the quaint movements of the rabbit that many of us have met at the Woodburn drug store. All had a delightful time.

A PLEASANT OCCASION.

As a thoughtful courtesy and a very pleasant surprise Mr. and Mrs. J. E. Ferguson entertained with a six o'clock dinner on last Friday, the occasion being the seventy-first birthday of the mother, Mrs. J. J. Ferguson. It was a family gathering and delightfully informal throughout. Simple elegance marked every table appointment, which, with the palatable repast and the pleasant company, made the time one to be remembered. The surprise came when little Grace, the grand-daughter, and Annie Wildy Lea, came in and surrounded the grandmother with a ribbon clothes line upon which were hung many presents, both dainty and useful. Mrs. Ferguson also received many post cards bearing the sincere greeting of friends. The guests were: Mrs. J. J. Ferguson. Mr. and Mrs. C. C. Ferguson and Grace, Mrs. Alice Lea and daughter, Annie Wildy.

SURPRISE BIRTHDAY.

The lady friends of Mrs. W. M. Cogdell were unexpected but very welcome guests in the Cogdell home on the twelfth of last week, the occasion being a surprise birthday for Mrs. Cogdell. The good ladies brought an abundance of good things to eat, coming early in the forenoon and making themselves at home for the day. The occasion was a thoroughly enjoyable one to all, and especially so to Mrs. Cogdell. Miss Bertha Witherspoon gave several readings that added much to the general pleasure. There were some fifteen or sixteen of Mrs. Cogdell's friends present.

"42."

One of the very pleasant little parties of the week was that given by Mr. and Mrs. Luther Hough last Monday evening. Conversation and "42" made the time pass most pleasantly. There were four tables and quite a number of progressions were made. Refreshments of cream with pineapple and angel food cake were served.

Miss Jackqueline Weaver left yesterday for her home in Rock Springs after spending the winter with her sister, Mrs. C. W. Warren. Miss Weaver made many friends while in Hereford and all of them anticipate another visit from her.

GET YOUR COPY READY.

Those who have contracted for ad space in the Special Irrigation Edition are asked to get their "copy" for the ads ready at once—now.

The first run is off the press, and the others will be made as fast as the material can be gotten together. We have been delayed to some extent on account of power. That will be remedied at once.

To those who have not contracted for space we would urge them to do so at once. The edition will be a representative one and no Hereford business firm—be it large or small—should be without advertising space in its pages. Whether you take a large space or a small space, at least let the outside world and some of the home people find out that you are in business. Whether there was a line of reading matter in the edition or not, we have gone to enough expense in buying new "cuts" alone to make it a good one. Label it the Hereford Country and it would be worth the money. It will be filled with interesting matter concerning the Panhandle in general and especially that best part of it, The Hereford Country. A good portion of it will be devoted to irrigation, and besides a discussion of the great adaptability of the Hereford country to irrigation, several valuable irrigation articles will appear. It will give you county and local history that has slipped your mind. The big double page devoted to our great state is an encyclopedia of valuable information. The churches, secret orders, schools, county and city institutions, etc., all come in for their share in the publicity. It will be full of good stuff from cover to cover.

Primarily its object is to give to people who are interested in the Hereford country and Hereford and its neighboring communities a correct sum total of the big advantages and opportunities we offer to the world. Copies of this edition will find their way to every state in the Union, to Mexico, to Alaska, to Canada. Requests for one, for five, for ten copies are coming in each day from every where, by individuals who are already interested in the country and the town and want to get their friends interested. The big amount of virtually free advertising our town and country will receive from this edition will run into the thousands of dollars. We are doing everything in our power to make this an edition that will not disappoint them. Have you contributed your share toward making the big total? If not, then get busy.

IT GETS BETTER.

The second number of the Texas Panhandle Magazine came to our desk this week. Its editor, Walter E. Gunn, deserves much credit for the success that is attending this publication. The April issue contains along with Panhandle development talk, several good short stories, while the pictorial section is especially commendable.

An especially valuable article is "Selling a Cattle Empire," by John McDonald. Garret Dobbin dis-

courses on "Opportunity," while Joseph E. Farrow in "The Prey of the Yellowbacks" deals with the passing of the old era and the enthronement of the man with the plow. The fiction stories are from the pens of well known writers, and exceptionally interesting and amusing. The magazine is full of good stuff from front to back, the pictures alone are worth the price of the subscription. This magazine should have the support of every citizen of the Panhandle, and especially of the Hereford country. It is filling ably a long felt need. You can have it once a month by sending a dollar to The Texas Panhandle Magazine Co. 752-754 Peoples Gas Building, Chicago, Ill.

SUGGESTION TO COUNCIL.

That part of Main street from the First Christian church north to the section line needs to be regraded and crowned. It is the roughest section of street in town. In places the crown is too high and at other points too low. In fact all of Main street needs a little attention to make it the best thoroughfare in the Panhandle.

WATER, soil and sunshine, these three and all three are greatest at Hereford.

Her Life a Burden.

Ratcliff, Tex. In a letter from Ratcliff, Mrs. Mattie Campbell says, "My health was very bad. I suffered untold misery every month, and at times, I wished for death to end my suffering, for life was a burden to me. I tried Cardui, and it helped me right away. Cardui has stopped my suffering, made life worth living, and filled my home with joy and happiness." If you suffer as Mrs. Campbell did, Cardui will certainly help you, as it did her. Why not try it?

Hereford Banks Cut off Overdrafts.

The making of overdrafts is forbidden by our Banking laws, both State and National, and the Officer of the Bank permitting such practice is held personally responsible for the overdraft he allows.

Besides, the practice itself is unfair to the Bank, tends to misunderstandings between Bank and Customer and is oftentimes productive of much annoyance when a favored and otherwise appreciated customer imposes on the Bank, by putting a check in circulation which will overdraw his account.

For these and other good reasons, we have decided that from this date forward we will cut out overdrafts entirely.

We believe that this action on our part will be beneficial to our customers as well as ourselves, and cause them to keep a closer check on their business and expenditures.

If you are overdrawn now, please cover it as we have orders to close out the item of overdrafts at once. Please remember, hereafter, to make your credit before you draw your check, and you will be saved the humiliation of having your check turned down. 5-1f

Thompson Strikes Water Close.

Alex Thompson, who owns land on the Frio draw southeast of town, has just finished drilling an irrigation well. He struck water at three feet. Rather close up, wasn't it? The entire depth of the well is some sixty feet. He is now pumping some 500 gallons per minute.

We have two residence properties in Hereford, and cash difference for an unimproved section of good land in the shallow water belt within 10 or 15 miles of Hereford. Worth the money. Who wants the cash? J. H. Pitman Land Co. 11-2t

Mr. and Mrs. C. B. Hamilton of Wichita, Kansas, who have been here the past two weeks on business, returned home on the afternoon train, Tuesday.

W. M. Cogdell has been busy the past week improving his residence property, which lies at the north end of the College campus. The improvement consisted of a handsome new picket fence around the yard.

Miss Iva Reiland, who has been seriously sick here the past few weeks, was able to return to her home at Arcadia, Neb., last Saturday. Miss Reiland was accompanied by her mother.

Special Edition.

The special edition has been further delayed on account of not having a sufficient current of electric juice to pull the load on the big press. But delay only makes the edition grow bigger. Those merchants and shop men who have not made contracts for ad space will yet have a little time to get in their copy. We do not want to leave out a single firm. All Hereford must be represented.

Slap Shots.

A long shot often ends in a poor miss.

MAKE THIS TEST.

How to Tell if Your Hair is Diseased. Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic.

Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall "93" Hair Tonic. We promise that it shall not cost anything and does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "93" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c. and \$1.00. Sold only at our store—The Rexall Store.

The Texas Mule

The Bray of the Texas mule is heard around the world, for wherever he goes he justly sings the praises of his native land. He is the most sturdy farmer and the most successful miner of the animal kingdom. He is the only animal that did not enter Noah's ark. By good conduct he has overcome the prejudices of an illegitimate lineage and has successfully fought his way into the highways of industry with his parents as competitors; until today he drags the nation's commerce. He is a self-made animal. Year by year he has patiently studied new occupations and adapted himself to changed conditions until he is the master of more industrial pursuits than any other animal and he is by far the Commercial King of Beasts. He has arisen from obscure origin to the wealthiest of domestic animals; he is worth \$28 per head more than the horse, six times more than the Texas steer and fourteen times more than the hog.

1910 VALUE PER HEAD \$108.

During the past ten years the Texas mule has attracted the attention of Uncle Sam by showing the greatest increase in value per head of mules of all states in the Union, having an increase of 118 per cent or \$58.48 per head to his credit during the past decade and in doing so he has paid a dumb tribute to the soil and climate of Texas that is far more convincing in its eloquence than all the tongues of our orators or pens of our writers. The whole world marvels at a country that can rear such mules.
We have more than twice as many mules as any other state in the Union. The census reports of the Federal department of agriculture on Jan. 1, 1910, reports 702,000 head of mules and the last estimate of value per head made by the department places the average value of \$108, making a total value of all mules of all ages of approximately \$75,000,000, which is an increase of a quarter of a million mules in number and \$45,000,000 in value, including both increase in value per head and increase in number during the past decade.
The mule raising industry is one of the most inviting pursuits and Texas is undoubtedly the greatest country on the globe for mule raising.

The Texas Horse

The Texas horse, as a utility animal, excels those of any other state in the Union. He has plowed our fields, fought our battles, and is the most faithful of animal kind. Among all the animals he stands first in war, first in peace and first in the hearts of the people.

1910 VALUE PER HEAD \$80.

The horse has contributed more toward the progress of the country than any other animal and our philanthropists, as civilizers, must all take off their hats to this dumb brute. During the past quarter of a century he has given away more than half his occupations to the cause of science and scientific discoverers and inventors are now operating in his remaining territory, but he has more than held his own in value and he is today the unit of power by which all his competitors must measure potential energy. He must not only compete with the inventive genius of man, but the mule—his progeny—has wrested from him some of his most valuable occupations. No animal ever met with such strenuous and untiring competition and while press agents have been predicting his elimination he has become a prime factor in the high cost of living. He came out of the war worth \$29.40 and has steadily increased in value until today he is worth \$80.
He has carried the pack of the pioneer, pulled the stagecoach in early days, herded the cattle on the plains and while bringing forward the civilization of the country has lifted himself from a broncho to a thoroughbred. He pulls for Texas stronger than any other animal.
According to the census reports of the Federal department of agriculture, dated Jan. 1, 1910, we had 1,269,000 head of horses and the latest estimate given on value per head was \$80, making a total value of \$109,520,000 for all horses of all ages. This is an increase of 100,000 in number and \$75,000,000 in value during the past decade.

The soil and climate of Texas is particularly adapted to horse raising and no country on the globe can equal us in economy and quality of production.

TO AILING WOMEN.

A Little Sound Advice Will Help Many a Sufferer in Hereford.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, back-ache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that helps sick kidneys. You will get better, as the kidneys get better, and health will return when the kidneys are well. Let a Hereford woman tell you about Doan's Kidney Pills.

Mrs. B. Simpson, 510 Jackson St., Hereford, Texas, says: "I suffered a great deal from backache and finally was led to try Doan's Kidney Pills by seeing them endorsed by people who had used them. I can vouch for the claims made for this preparation, as I received prompt and positive relief from its use. It gives me pleasure to make the merits of Doan's Kidney Pills known."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
