

# Spell's End Not in Sight

DALLAS (AP) — Texans who already have endured weeks of blistering temperatures will find little solace in the latest bleak prediction from the National Weather Service.

"It doesn't look good," a weather service spokesman said. "Our 30-day prognosis calls for above-normal temperatures and below-normal precipitation."

Residents in at least four cities — Wichita Falls, Dallas, Houston and Abilene — suffered Wednesday through the hottest July 2 on record.

The heat wave, which has sent the mercury past the 100-degree mark for 10 straight days, brought temperatures Wednesday of 114 at Wichita Falls, 110 at Dallas-Fort Worth, 106 at Abilene and Waco, and 103 at Houston, Austin and San Antonio.

At the same time, humidity was 16 percent at Wichita Falls and Abilene, 21 percent at Dallas-Fort Worth and 35 percent at Houston.

Temperatures are expected to reach about 105 the next couple of days.

Forecasters for the weather service predicted 100-plus temperatures for at least one more week, possibly for the rest of July.

Wednesday marked the 10th consecutive day of record-breaking temperatures at Dallas-Fort Worth and the ninth in a row for Wichita Falls. Weather men looked back to 1911 to find another year with 13 days over 100 degrees.

Highest temperatures reached 119 at Presidio and 117 at Wichita Falls last month. Dallas reached an all-time high of 113.

"If we don't get a break in the weather the next three or four days, we will see a real catastrophe in our state as far as agriculture is concerned," said Texas Agriculture Commissioner Reagan Brown.

The hot and dry weather has destroyed some crops and sharply reduced others, Brown said.

V.H. Neumann, who grows grain and raises cattle on several sections of land 50 miles west of San Antonio, normally harvests a half million pounds of milo grain.

"We are just burning up. Everything is gone. We will try and salvage what we have for hay, but as far as the grain is concerned, it is gone," Neumann said.

The heat wave has been blamed for the deaths of about 60 Texans, two-thirds of them in Dallas, since the temperatures began to climb over the century mark on June 23. The casualty list is certain to climb, says an investigator for the Dallas County medical examiner.

"We will reach a plateau and then there will be a second wave of deaths. The first wave claimed its weakest victims, but in the second wave more will die as more and more people succumb to the heat," said Dr. Linda Norton.

Among the latest victims was a 19-month-old child who was reported to have walked away from his babysitter. His body was found a few hours later behind a home, and investigators said his body temperature an hour and a half later was 103 degrees.

Officials said the body temperature was 110 degrees or higher on several heat victims whose bodies were found inside their "very hot" houses.

An 80-year-old bedridden Dallas woman was taken against her will to a hospital after she refused to leave the sweltering house where she lived by herself. Her daughter obtained an emergency court warrant from a justice of the peace to get the woman, who recently suffered a broken hip, taken to Parkland Hospital overnight.

Officials at the hospital made arrangements with an ice company to deliver a large shipment of ice to stock in the emergency room's two freezers.

During a 12-day heat wave in 1978, the emergency room ran out of ice for the cold baths needed to treat heat victims, and hospital personnel had to buy ice from convenience stores.

"It may seem cruel or unorthodox, but the best thing to do (for a heat stroke victim) is to throw them in a tub of ice water," Dr. Norton said.

No heat stroke deaths were reported in Dallas last year, while in 1978, 1 was reported in June, 14 in July and 2 in August. Officials said they couldn't recall any high numbers

## Wheat Strong Despite Heat

WASHINGTON (AP) — Despite the heat wave and areas of severe drought in parts of the Great Plains, a senior government economist says he thinks farmers still will harvest a record wheat crop this year.

Moreover, says Howard W. Hjort, it's too early to be greatly alarmed over the corn crop, easily the most abundant and important of the U.S. grains.

But Hjort, who is the chief economist and policy analyst for the Agriculture Department, said the heat and dry weather have taken a terrible toll in the nation's midsection, including the northern plains, where spring-planted crops and pastures have been hurt.

Not much hard information will be known for another week when, on July 11, the USDA issues a monthly report on 1980 crop production, including the first estimate of total U.S. wheat production and its first 1980 corn figures.

Last month the department estimated 1980 winter wheat output at a record level. Planted in the fall for harvest the following summer, winter wheat makes up about 75 percent of the total U.S. wheat production.

"In total, one would still expect to see a record wheat crop this year, of all wheat," Hjort said in an interview late Wednesday.

"I would judge that most of the winter wheat was sufficiently mature so that it (the heat wave) would have only a slight negative effect on that crop," he said.

"Clearly, there will be a record winter wheat crop. The spring wheat crop has been in trouble ... the only question is the magnitude in the decline from last year."

But in the northern plains region, including the Dakotas and Hjort's home state of Montana, there "are parts of it where they're not going to harvest much of a crop at all" this year, he said.

"Any of those spring crops have to have been hurt," including spring-planted wheat, barley, oats, flaxseed and sunflowers, he said. Besides that, "Pastures are poor, the hay crop is poor, hay prices are high" and some farmers and ranchers are being forced to sell livestock prematurely or truck hay from long distances.

In the southern plains, particularly in Texas — which has more than half of the nation's cotton acreage — Hjort said some of the cotton crop will be affected. Grain sorghum, called milo, also has been hit hard, but probably not as severely so far as barley or oats, Hjort said.

Although corn is grown in parts of the heat-ridden Great

## Feds To Monitor Onion Strike

By JIM STEIERT  
Brand Farm Editor

Ruben Bonilla, national president of the League of United Latin American Citizens filed a request Wednesday with Attorney General Benjamin Civiletti to have the Justice Department oversee the onion harvest in the High Plains area.

The federal officials were requested to monitor the onion harvest in the local area to "alleviate any tensions and try and prevent any conflict and confrontation" between farm workers on strike here and police.

Deaf Smith County Sheriff Travis McPherson, who admitted he was not surprised by the request by Bonilla reported today he "wouldn't mind the Justice Department overseeing the onion harvest."

He added that his relations with Bonilla have been good.

"Ruben Bonilla and I both served together on a committee for community relations. We talked on that

committee about everyone getting along, so his request is no big problem," stated McPherson.

The county sheriff added that he expects Justice Department mediator Robert Greenwald, who was in Hereford earlier this year, to be the individual sent into the area to monitor the situation.

"The whole thing probably won't make too much of an impression. I find it interesting that Antonio Orendain (Texas Farm Workers Union director) was complaining about the Texas Rangers, who are outside people, coming in, yet he wants the Justice Department to come in and their people are outsiders. The situation becomes more confused every day," commented McPherson.

McPherson was referring to a complaint by Orendain to Bonilla about increased activity by Department of Public Safety officers in the Hereford area.

"Orendain shares our fear

that increased use of DPS troopers can serve as an intimidating factor and lead to violence, stated Bonilla concerning the TFWU director's complaint.

According to Bonilla, there is a likelihood that one or more federal mediators will be sent into the Hereford area.

A temporary restraining order issued Monday by State District Judge Wesley Gulley of Hereford which forbids secondary boycotts and prohibits Texas Rural Legal Aid lawyers from encouraging or participating in boycotts or strikes was termed as "harsh" by Bonilla, but the LULAC president added that farm workers would abide by the terms.

While speculation over the presence of federal mediators surfaced, picketing activities by members of the Texas Farm Workers Union took a brief shift to the south today as TFWU supporters disrupt

## Jobless Rate Drops Slightly Last Month

WASHINGTON (AP) — The nation's unemployment rate slipped slightly in June to 7.7 percent, the government reported today, but many economists cautioned that

joblessness will continue to rise in coming months and exceed 8.5 percent by year's end.

The 0.1 percent dip from May's 7.8 percent jobless level followed unusually sharp increases of 0.8 percent in both April and May, bringing the unemployment rate to the highest level since President Carter took office.

Despite the stability in overall joblessness last month, the number of persons on temporary layoff as well as those whose jobs had been terminated continued to rise in June, the Labor Department said.

This trend was countered by a decline in the number of unemployed people who reentered the labor force.

The department's report showed that the number of unemployed persons fell by about 148,000 to 8 million in June.

The jobless rate for most worker groups showed little change from the previous month, with the only rise occurring among adult men from 6.6 percent to 6.7 percent. The rate for adult women dipped to 6.5 percent from 6.6 percent; teen-agers,

18.5 percent from 19.2 percent; whites 6.2 percent from 6.9 percent; and minorities 13.6 percent from 13.9 percent.

The Labor Department also reported that total employment in the country fell by 450,000 in June, the fourth consecutive monthly decline. Since February, when the employment level peaked, the number of persons with jobs has fallen by 1.4 million, with most of this loss affecting adult males.

The downturn in employment since February had

## 4th of July Closings Set

Hereford financial institutions, government offices, the Post Office and most businesses will be closed on Friday in honor of the Fourth of July.

Many businesses will reopen Saturday, although local activity will not return to normal until Monday.

The Brand will be among businesses closing their doors on Friday.

## Top Bull Chipper

Lynton Allred presents Ruby Kendrick Sears with the "Bull Chip of the Decade" during this morning's Chamber of Commerce Fun Breakfast, which was sponsored by First National Bank. Mrs. Sears for years has been active in museum work and the preservation of historical sites. [Brand photo by Paul Sims]

## Ruby Sears Receives 'Bull Chip of Decade'

By PAUL SIMS  
Managing Editor

It was a special Fun Breakfast this morning at the Hereford Community Center and it was highlighted by a very special presentation.

Ruby Kendrick Sears was announced as the "Bull Chipper of the Decade"—the most prestigious of all Bull

Chip awards ever presented by the Chamber of Commerce.

Bull Chips are presented at each Fun Breakfast to individuals who have devoted time and effort toward improving the community. Mrs. Sears received the Bull Chip of the Decade for her community service during

the last 10 years.

Approximately 200 people jammed the Community Center for the patriotic Fun Breakfast and honored Mrs. Sears with a standing ovation. Though chips are usually presented with a humorous introduction, co-master of ceremonies Lynton Allred was serious as he stated what Mrs. Sears had done for Hereford.

The recipient was appointed chairman of the Deaf Smith County Historical

## Infant Son Critical

## Wreck Claims Woman's Life

A 26-year-old Hereford woman died in Deaf Smith General Hospital this morning from injuries sustained when a car in which she was a passenger slammed into a toppled truck seven miles south of Hereford on U.S. Highway 385.

Francis Guajardo, of 410

Jowell, died of internal injuries at the hospital, according to a Castro County highway patrolman. Her 6-week-old son, Seth Guajardo, was rushed by ambulance to Amarillo after he was listed in extremely critical condition with head and internal injuries.

The driver of the car and the woman's husband, Richard Guajardo, 27, was listed in stable condition this morning at Deaf Smith General.

According to Texas Department of Public Safety Trooper Rick Bentley of Dimmitt, a semi tractor-trailer carrying several tons of groceries was turning south onto Highway 385 from a farm-to-market road seven miles south of Hereford when the driver, Marcus Box, 27, of Amarillo, lost control.

The truck fell onto its side and skidded across the road. The rear portion of the trailer blocked the southbound lane of the highway, according to

## Clayton Lawyers

### Want Postponement

AUSTIN, Texas (AP) - House speaker Bill Clayton's lawyers probably will not be ready for trial by July 21, according to a member of Clayton's defense team.

U.S. District Judge Robert O'Connor has set July 21 as the date for Clayton's trial on charges of taking a bribe to influence the awarding of a lucrative state health insurance contract.

However, lawyer Charles Burton of Austin said Wednesday, "It's too soon, very candidly."

Burton said no decision on asking for a delay will be made before a July 11 pretrial hearing before O'Connor. He said he would use "every bit of time until then" to listen to tape recordings compiled by FBI operatives working on the Brilab investigation.

Clayton said Wednesday his lawyers would probably seek a 30-day postponement.

"I'm not sure they will, but I don't think they are going to be quite ready by July 21," he said.

## Feds To Drop

### Credit Controls

WASHINGTON (AP) - The Federal Reserve Board today announced plans to phase out all the special credit-control measures it took in March, as inflation has eased and the recession has deepened.

In late May, the board cut the credit restraints in half, and today it scheduled a series of moves to

dismantle the remainder.

"In recent months, there has been apparent contraction in consumer borrowing," the board said in explaining its move. "Indications are that anticipatory and speculative demands for credit have subsided and funds have been in more ample supply."

In a written statement, the White House said President Carter as "heartened by the success of the selective credit restraints in rapidly bringing about conditions in financial markets helping to reduce inflationary pressures and lower interest rates."

The statement said the speculation in financial and commodity markets had "moderated substantially, signaling an easing of credit demands and a reversal of inflationary expectations."

The statement said Carter was removing from the Federal Reserve the authority he granted under the Credit Control Act last March.

## Bell To Seek

### \$300 Million Hike

AUSTIN, Texas (AP) - Ma Bell is keeping her mouth closed, but a Public Utility Commission lawyer says the phone company might try to "sock it to" some customers when it files its rate hike request. In the next few days Southwestern Bell Telephone Co. will ask for a statewide rate increase of about \$300 million, spokesman Dale Johnson said Wednesday.

Johnson would not divulge specifics of the rate request, but PUC lawyer Allen King speculated Wednesday on the nature of the request. "I have a feeling the rate design who pays the increase and how much is going to be unusually significant to the business community in this case," King said.

He predicted Bell would "sock it to" customers of private line service, which includes burglar and fire alarm services.

He said Bell "always asks for" an

increase in ordinary residential telephone rates and this case should be no exception.

"My information is they will not ask for any long distance increase, but we probably will because it hasn't been increased since 1976," King said.

## Reagan Team Tries To End Grain Embargo

WASHINGTON (AP) - Ronald Reagan's campaign and Capitol Hill Republicans were teaming up again today in a media show to dramatize another installment of their legislation program - this one aimed at lifting the Carter administration's grain embargo against the Soviet Union.

Top campaign advisers to Reagan, the presumptive GOP presidential nominee on vacation in Mexico, and a group of Republican senators and congressmen scheduled news conferences from opposite coasts to outline their stand that only the American farmer is suffering from the embargo.

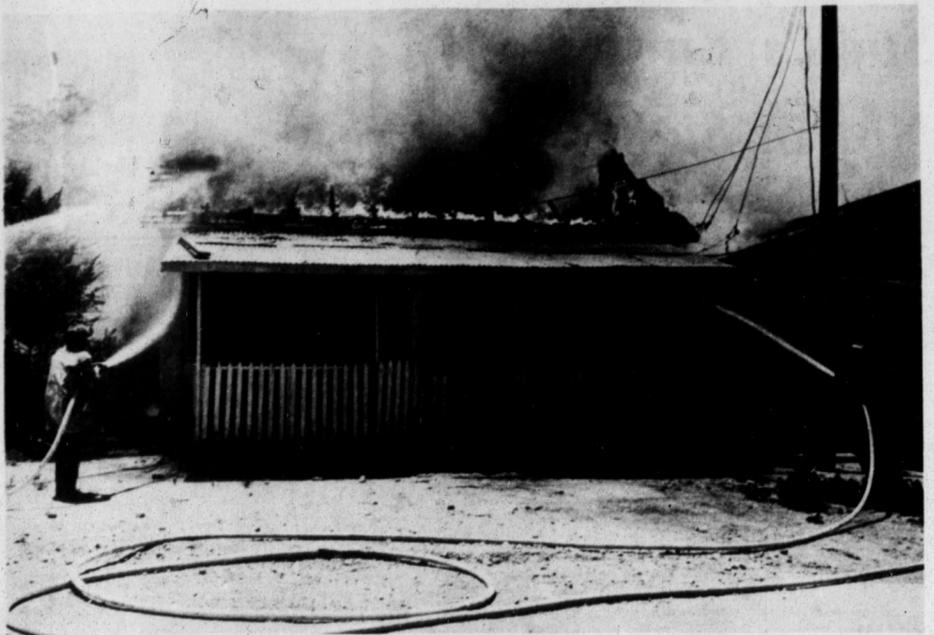

The congressional group was up first, from a spot on the Mall just outside the Department of Agriculture.

It is the second time in a week that Reagan and his GOP colleagues have coordinated their efforts in an attempt to magnify their impact.

Last week, they used a pair of news conferences to announce Reagan's support for a 10 percent tax cut in 1981 and the Republicans' determination to add the tax cut plan to every suitable piece of legislation reaching the Senate floor.

## Weather

West Texas - Partly cloudy and hot through Friday. Widely scattered thunderstorms north and southwest. Highs 95 to 110. Lows 60 mountains, mid 60s north to upper 70s extreme south. Highs Friday near 100 north to 110 Big Bend.

## Labor Camp Fire

Fireworks, thrown on the roof by youngsters, were blamed on a Wednesday house fire at the San Jose Labor Camp. The vacant house, which was being used for storage by its owner, burned for almost an hour after several units of the Hereford Volunteer Fire Department arrived at the scene. The house and most of its contents

sustained heavy damage in the fire. Following the blaze, Fire Marshal Jay Spain said that extreme caution should be used when fireworks are discharged, particularly since the recent hot spell has made conditions extremely dry. [Brand photo by Paul Sims]

# Iran-Time Drags On

## By The Associated Press

July 4, 1980. For the United States, 204 years of national independence. For 53 Americans in Iran, eight months of personal captivity.

Eight months. Two hundred forty-four days.

You can count the hours: 5,856. The minutes: 351,360. The seconds: 21,081,600.

But numbers alone do not measure the time that has passed since Nov. 4, 1979, when Iranian militants seized the U.S. Embassy in Tehran and took American citizens as hostages.

Another kind of calendar is the calendar that measures events, large and small. Events of two worlds. The world of Iran. And the world of everybody else.

Nov. 19, 1979: Three American hostages are released. Ten more will be released the next day. It will later be determined that 50 boosted to \$50 an ounce in a buying spree involving the billionaire Hunt brothers of Texas, also will collapse.

Dec. 15, 1979: The shah leaves the United States and flies to a "temporary" exile in Panama.

Feb. 24, 1980: A five-man U.N. commission in Tehran meets with Iranian President Abolhassan Bani-Sadr. Iranian officials insist that the panel's mission is not tied to the hostages' release.

Feb. 24, 1980: The U.S. hockey team wins the gold medal at the Winter Olympics. Two days earlier, the team had defeated the heavily favored entry from the Soviet Union.

Feb. 26, 1980: Iran's revolutionary council decides to readmit some foreign journalists expelled earlier.

Feb. 26, 1980: President Carter and Ronald Reagan win the Democratic and Republic primaries in New Hampshire.

March 14, 1980: Voting begins for the Iranian parliament, which is supposed to decide the fate of the hostages.

March 14, 1980: Carter announces credit controls to help curb the national borrowing spree that has helped push inflation to an annual rate of more than 18 percent a year. The prime interest rate keeps rising temporarily, but peaks at 20 percent on April 3.

April 1, 1980: Bani-Sadr offers to take custody of the hostages under certain conditions. Carter calls the offer a "positive development," but it falls through.

April 1, 1980: Some 35,000 subway and bus workers in New York City go on strike, forcing millions of commuters to struggle to work in cars, on bicycles, roller skates and foot. The walkout lasts 11 days.

April 29, 1980: Sen. Edmund S. Muskie of Maine is named secretary of state to replace Cyrus Vance, who resigned over an April 25

attempt to rescue the hostages. Eight American servicemen died in the unsuccessful raid.

April 29, 1980: Sir Alfred Hitchcock, master of mystery, dies of natural causes at age 80. James Stewart says: "There was nobody like him and he'll be very hard to replace."

May 18, 1980: The Sunday Times of London reports that wealthy Iranian exiles have launched a campaign to topple Khomeini.

May 18, 1980: Mount St. Helens in Washington erupts, sending a fallout of volcanic ash over the Pacific Northwest, killing more than 20 people and leaving dozens more missing. In Miami, race riots break out following the acquittal of four white policemen from Dade County accused of beating a black man to death.

June 3, 1980: Former U.S. Attorney General Ramsey Clark, in Iran in defiance of a U.S. government ban on travel to the country, calls the seizure of the hostages "understandable," but wrong.

June 3, 1980: The National Bureau of Economic Research in Washington makes it official: The United States is in a recession. Unemployment has risen to nearly 8 percent.

June 28, 1980: Bani-Sadr says he now considers the hostage crisis "unsolvable."

June 28, 1980: A heat wave grips Texas. More than a dozen people have died in 100-degree-plus temperatures and no relief is in sight.

July 4, 1980: Fifty-three Americans mark their eighth month in captivity in Iran.

July 4, 1980: Americans celebrate 204 years of national independence.

## Obituaries

**ELLEN IRENE RUDD**  
Ellen Irene Rudd, 71, died early Wednesday morning in a Lubbock hospital.

Services will be held Friday at 10 a.m. in Rose Chapel of Gilliland-Watson Funeral Home. Officiating will be the Rev. Jim Bozeman pastor of Temple Baptist Church. Interment will be in Restlawn Memorial Park.

Born Oct. 2, 1908 in Marietta, Ga., Mrs. Rudd was a homemaker and member of the Baptist Church. She had been residing in Lubbock Nursing Center prior to her death.

Survivors include one daughter, Allene Rudd Slaughter of Edmondson, Tx.; two sisters, Margaret Hlebocowicz of Duquesne, Penn., and Imogene Grimes of Oklahoma City; three grandchildren and seven great-grandchildren.

**LEONARDO CHAVEZ, JR.**  
Services for Leonardo Chavez, Jr., 41, of 612 Irving, are being held this afternoon at 3 p.m. in the Saint Joseph Catholic Church. The Rev. Paul Heafner will officiate. Burial will be in St. Anthony's Cemetery under the direction of Rix Funeral Home.

Mr. Chavez died Wednesday morning in St. Anthony's Hospital in Amarillo.

Born Sept. 21, 1939, in Yorktown, he had been a resident of Hereford for 16 years, and had been employed by Jake Diel Construction for eight years.

Survivors include the widow, Mary; a daughter, Anna Bell of the home; a stepdaughter, Janie Moreno of the home; a stepson,

Danny Castillo of Hereford; and a sister, Marclina Martinez of Hereford.

**RAYMOND A. WELLS, SR.**  
Services for Raymond A. Wells, Sr., 76 and resident of Hereford for 43 years, were held this morning at the First Baptist Church in Wheeler. Interment was in Memorial Park Cemetery of Amarillo this afternoon under the direction of Blackburn-Shaw Memorial Chapel.

Mr. Wells, who died Tuesday in St. Anthony's Hospital in Amarillo, had lived in Wheeler for the past nine years, where he was a farmer and a member of the First Baptist Church.

Survivors include the widow, Gladys; a daughter, Alice Rudd of Amarillo; a son, Raymond A. Wells, Jr. of Amarillo; a sister, Mrs. Neva Mackie of Pampa; and six grandchildren.

## Heat

before 1978.

All the generators at Dallas Power & Light's eight power plants are operating around the clock to handle the demand, and electric bills are sure to soar.

To encourage elderly, retired people and those on fixed incomes to keep their air conditioners on, the utility company announced it will allow those customers to pay their bills on an installment plan.

Of the 40 deaths believed heat-related in Dallas County in

## Wheat

Plains — classified as all or part of 10 states running from Texas to Montana — and is being hurt, most is grown in the more humid areas of the Midwest and South where, according to Hjort, moisture supplies appear to be adequate right now for the crop to hang on.

Most soybeans, a prime source of high-protein meal for feed and vegetable oil, are grown in corn areas and also are planted in the spring.

"I think through a broad spectrum of the country ... there is a situation where I don't think there's any major damage (to corn), but it is vulnerable," Hjort said.

Corn's most critical period is now and in August, when the crop requires sufficient moisture for it to develop grain for harvest in the fall.

As it stands, Hjort said, the department is sticking to its earlier predictions that retail food prices will go up by 7

## Strike

ted work at an onion field near Lazbuddie owned by the T.J. Power Co. of Hereford.

According to Tommy Power, a partner in the local firm, a portion of the harvesters in the company's field walked out, while others remained on the job, but

Power stated that his harvest was "definitely disrupted."

Power reported that he was called concerning picketing activity at the 15 acre field about 6:30 this morning.

Pickets later returned to Hereford and set up near the Power shed on New York

the past two weeks, 32 occurred in homes without air conditioning.

Several Texas cities opened city recreation centers for temporary use by people without air conditioning, but only a handful showed up to stay in them.

"For whatever the reason, people who need the help most have refused to leave their homes even for short periods of time," said John Pickett of the Dallas Office of Emergency Preparedness.

percent to 11 percent this year, on the average, from 1979. Most probably, the prediction has been, the rise will be 8 percent or 9 percent.

Hjort said food prices in June rose more sharply than some had been forecasting, primarily because of rising prices of live hogs and broiler chickens, a situation he expects will continue for awhile.

Although reports of "millions of birds" dying from heat are having what Hjort called a psychological effect on the market, broiler prices traditional go up sharply just before July 4, he said.

The main thing to remember, Hjort said, is that hog and broiler producers began cutting back production significantly before the heat wave, and that has been the main reason for market prices moving up.

## from Page 1

## Jobs

about matched the job gains of mid-to-late 1979, so that the overall level of employment for the month — 96.5 million people — was about the same as in June 1979, the department said.

However, during that time, the level of women working rose by a million while the number of employed adult men and teen-agers dropped 700,000 and 470,000, respectively.

The total number of people employed and unemployed makes up the labor force, which dropped by 600,000 in June to 104.5 million people, the department said.

Government and private economists are discounting

June's slight dip. Because of sharp fluctuations in the labor force, it is important to look at changes over more than a single month, they say.

A huge number of high school and college-age youth began searching for jobs in May, somewhat earlier than they usually do, and this contributed to that month's severe rise in unemployment, government officials explained.

A seasonal adjustment process normally adjusts for this increase of young people in June, they said.

June's report, then, confirms that a sharp deterioration in the economy

accelerated during the second quarter of 1980. Over the last three months, unemployment has risen sharply, especially for adult males, while employment since March has declined by

more than a million.

Private economists interviewed Wednesday stressed that the overall trend in unemployment is clearly upward through 1981.

## Accident from Page 1

Bentley.

The Guajardo vehicle, a 1961 Ford Galaxy, was headed south on the highway, slammed into the rear tires of the truck and bounced straight back.

"It must have been a powerful collision, but the car didn't even move the truck," Bentley said.

The trooper said the car skidded approximately 230

feet before it hit the trailer.

Deaf Smith County highway patrolman Ken Britton and J.C. Lambert were the first law-enforcement personnel at the scene of the accident, which occurred about 6:10 a.m.

Box was taken to Deaf Smith General for observation, although his injuries were not believed to be serious.

## Breakfast

Society by then-governor John Connally. She was one of the founders of the county museum and put months of work into restoring the E.B. Black House.

Mrs. Sears, a Hereford resident for more than 30 years, is co-chairman of the Historical Society committee created to rewrite the history of Deaf Smith County to include more-recent events.

She also has worked with the Panhandle Plains Historical Museum in Canyon and the West Texas State University Opportunity Plan.

"Our recipient is far more dignified than the award's name implies," Allred said during the announcement.

Dr. Dale Furr missed out on \$100 this morning during a drawing for chamber members only. To win, Furr would have had to be present at the breakfast.

court order limiting their activities in area vegetable fields.

Picketing at local fields yesterday became a war of tactics as protesters and packers pitted their loud speaker systems against each other.

Luckier people included Ed Brown, who won \$75. Beverly Jayroe, who won \$25. Mary Herring, who received \$50 from breakfast sponsor First National Bank which had placed the money under her chair, and Jennifer Reed and Lois Moore, who each won memberships to the Community Concert Association.

Community events announced at the breakfast included:

-Chamber of Commerce "neighborhood flag challenge" for the Fourth of July (Friday).

-YMCA "Anything Goes" for businesses, civic clubs and other organizations July 19 (entry deadline July 15).

-on-going fund drive of the Community Concert Association.

-Deaf Smith County Closed Tennis Tournament Aug. 8-10.

# Supreme Court Endorses Racial-Quota Usage

WASHINGTON (AP) — Once again deferring to the power of Congress, the Supreme Court has endorsed the use of racial quotas to guarantee minority-owned businesses a fixed share of government grants. But the court displayed no such deference for federal health and safety regulators, sharply curbing their ability

to protect American workers from cancer-causing materials.

Both decisions were announced Wednesday as the court concluded its 1979-80 term and began a three-month summer vacation. By a 6-3 vote, the justices ruled that Congress acted within its constitutional authority in 1977 when it set aside 10 percent of a \$4 billion public works program for minority businesses. The decision, rejecting arguments that the law fostered impermissible "reverse discrimination" against whites, provided a

resounding victory for the concept of affirmative action. Congress may use carefully tailored racial quotas in attempting to make up for past discrimination, the court said.

By a separate 5-4 vote, the justices barred the federal Occupational Safety and Health Administration from tightening standards that limit worker exposure to cancer-causing benzene without first proving that current standards are unsafe. About 600,000 workers come into contact daily with benzene, a highly volatile chemical used in the

manufacturing of such products as detergents, plastics, solvents, resins, disinfectants and pesticides. But beyond benzene, Wednesday's ruling casts doubt on OSHA's ability to issue more stringent standards for a variety of cancer-causing substances such as cotton dust, chlorine and fumes from coke ovens.

Charles DiBona, president of the American Petroleum Institute, said the court decision "recognizes that health regulation in this country must be made on the basis of scientific facts rather than pure speculation."

But Sheldon Samuels, health director for the AFL-CIO's industrial union department which appealed the case to the Supreme Court, said the ruling requires OSHA to meet an impossible test.

United Auto Workers President Douglas A. Fraser called the decision "an extraordinary blow to workers (that) hampers the national effort to reduce the increasing incidence of cancer and other diseases which are related to occupation."

OSHA has been issuing regulations for cancer-

causing substances on the assumption that there is no safe level of exposure and that the substances must be regulated to the lowest level industries can feasibly attain.

Two of the dissenting justices, Potter Stewart and William H. Rehnquist, called the 1977 act racist. President Carter, however, praised the ruling.

**15% LESS**

State Farm offers most Texas drivers rates that are 15% less than rates set by the State. And Homeowners rates that currently average 25% less than Standard Texas Homeowners rates.

# Top Seed Borg Defeats 6th Seed Mayer

WIMBLEDON, England (AP) — Bjorn Borg let his iceman mask drop for just an instant.

"The pressure?" He asked. "sure I'm under pressure. It is always the other guys who have nothing to lose."

"It worries me sometimes. Maybe the other guy doesn't care and plays out of his mind. If I have a bad day that is it."

The Swede, usually devoid of all emotion, gave a rare insight into his hopes and fears after defeating sixth-seeded American Gene Mayer 7-5, 6-3, 7-5 Wednesday to move into the Wimbledon semifinals.

Borg, the top seed who is bidding for his fifth successive Wimbledon title, never looked in the slightest danger against Mayer, yet felt the match was tougher than it looked.

"It wasn't easy," he admitted. "This was my best match of the tournament but it was a much more difficult match than the score suggested."

Borg is delighted with his current form.

"I am serving well and

returning much better than I was," he said. "I'm very consistent every year — in fact that is probably the strongest part of my game. I always feel confident, and most of the time I play well, but I know I must keep being consistent. I can't afford an off day."

Borg was to meet unseeded American Brian Gottfried in the semifinals Thursday. Gottfried, who has yet to drop a set in the championship, beat No.13 seed Wojtek Fibak of Poland 6-4, 7-6, 6-2 Wednesday.

"Brian has started to play very well," said Borg. "he is playing with a lot of confidence and that is the most important thing."

Gottfried's career went through a major slump last year, but he has returned to peak form over the past weeks.

The other semifinal will be between second-seeded John McEnroe and the winner of the outstanding quarterfinal between American left-handers Jimmy Connors and Roscoe Tanner, last year's defeated finalist and the No.5 seed here.

No.3 Connors moved into the last eight by ousting big-serving Hank Pfister 6-4, 6-7, 6-1, 7-6 in a match that was halted Tuesday night when darkness fell.

Connors is less than happy that his match schedule is trailing behind.

"I now have to play Thursday and Friday if I'm to get to the final," moaned

Connors, who has been in a good mood throughout the tournament. "I'll either be in great shape or dead."

"I'm just caught up in the backlog and it's not my fault."

Connors was more happy with his own form.

"I hit the ball very well out there," he said. "My serve wasn't all that good but I sometimes frightened him by coming to the net on my

second serve." McEnroe, the belligerent New Yorker who has become the new idol of the Wimbledon crowds, scored a

feet when she defeated No.2 seed Tracy Austin 6-3, 0-6, 6-4 to advance to the women's singles final.

The fourth-seeded

## Whole-Hearted Effort

White Sox first baseman Phillip Martin gives a determined last ditch effort in sending a grounder he grabbed up to home plate. He missed the tag on his base runner, but netted an assist in stopping a Ranger score in Tuesday night's championship American League Pee Wee clash.

The White Sox went on to win the contest by the slim margin of 40-36 to reign as the champs of the league. The Sox squad is slated to pair off against National League winner (the Mets) July 11. (Brand photo by Mauri Montgomery)

## Sportswriter, Player Have Scuffle

CHICAGO (AP) — Broadcaster and former Boston Red Sox star Jimmy Piersall missed Wednesday night's California Angels-Chicago White Sox telecast after he reportedly became involved in a pair of pregame scuffles.

Bob Gallis, a baseball writer for the Arlington Heights

Daily Herald, said he and Piersall scuffled in the White Sox clubhouse during batting practice before the game.

Gallis said Piersall, now a Chicago baseball commentator, apparently was upset about a story he was preparing on the Sox announcer and entered the clubhouse shouting at him.

"I'm shocked and surprised. We've always had a good relationship. He got upset and I'm not sure why," said Gallis. "I was working on a story which hasn't appeared yet."

Gallis said the story is to focus on a vote by the White Sox players last week to not retain Piersall as an unpaid coach for outfielders. Manager Tony LaRussa had asked that the vote be taken.

Gallis said he had interviewed some of the players for the story on Tuesday and that Piersall apparently was upset that he had not talked to him. Piersall reportedly also

became involved in another scuffle later in the evening outside the press box with Mike Veeck, son of Sox President Bill Veeck. No details were available on that incident.

## SPORTS

The Hereford Brand—Page 5A  
Thursday, July 3, 1980

straightforward 6-3, 6-2, 6-2 victory over his friend and doubles partner Peter Fleming to earn his semifinal spot.

"Peter has never done much on grass, but he has the potential," said McEnroe. "If he's on, he's tough. It's lucky for me he was off."

Evonne Goolagong of Australia, the 29-year-old 1971 champion, had the Center Court crowd on its

Australian, always a popular figure here, was cheered through every point against 17-year-old Austin, who had been tabbed as the player most likely to stop Martina Navratilova from taking her third straight women's title.

Goolagong will be playing her 18th major championship final Friday when she meets either Navratilova or Chris Evert Lloyd.

Oglivie Leads List in American League

# All-Star Teams Picked

NEW YORK (AP)— Ben Oglivie of the Milwaukee Brewers heads a list of 14 American League players chosen to participate in their first All-Star game next Tuesday in Los Angeles, AL President Lee MacPhail said today.

Oglivie, the fourth-leading vote-getter among outfielders, probably will start for the American League since Jim Rice of the Boston Red Sox is disabled with a broken wrist, the league said. Oglivie took a bump on the knee from a batted ball himself Wednesday night, but X-rays were negative.

Oglivie, hitting .332 with 21 homers and 56 runs batted in, joined Al Bumbry of the Baltimore Orioles, Rickey Henderson of the Oakland A's, Ken Landreaux of the Minnesota Twins, Al Oliver of the Texas Rangers and Jorge Orta of the Cleveland Indians on the AL's list of outfielders chosen to support those elected by the fans.

Reggie Jackson of the New York Yankees, Boston's Fred Lynn and teammate Rice were the elected outfielders. Rice, however, is one of three leading vote-getters who will miss the game because of injury.

Also injured are second baseman Paul Molitor of the Brewers (rib cage) and third baseman George Brett of the Kansas City Royals (ankle). They are expected to attend the game along with Rice, but they will not play.

Starting in place of Molitor will be either Bobby Grich of the California Angels or Willie Randolph of the Yankees. Either Graig Nettles of the Yankees or Buddy Bell of the Cleveland Indians will start in place of Brett.

Backing up Yankees shortstop Bucky Dent will be Robin Yount of the Brewers and Alan Trammell of the Detroit Tigers. Cecil Cooper of the Brewers was chosen as the substitute first baseman, supporting 12-time All-Star Rod Carew of California.

Carlton Fisk of the Red Sox was the leading vote-getter at catcher, and he will get help from Lance Parrish of Detroit and Darrell Porter of Kansas City.

The AL pitchers were selected Wednesday by Manager Earl Weaver of the Orioles. They were relievers Tom Burgmeier of Boston, Ed Farmer of the Chicago White Sox and Rich Gossage of the Yankees, and starters Larry Gura of Kansas City, Rick Honeycutt of the Seattle Mariners, Tommy John of the Yankees, Dave Stieb of the Toronto Blue Jays and Steve Stone of the Orioles.

Those participating in their first All-Star game besides Oglivie are pitchers Burgmeier, Farmer, Gura, Honeycutt, Stieb and Stone; catcher Parrish; infielders Trammell and Yount, and outfielders Bumbry, Henderson, Landreaux and Orta.

Among those players notably absent from the roster were third baseman Richie Hebner of the Tigers, shortstop Rick Burleson of the Red Sox and outfielders Willie Wilson of the Royals and Ken Singleton of the Orioles.

## Local Motorcycle Club Fares Well in Lubbock

Hereford's "Team Kawasaki" sponsored by the Cardinal House of Kawasaki and Suzuki was awarded a four-foot high trophy after adding up the most points in Saturday competition at the Trick Track in Lubbock, Texas.

The Hereford motorcycle club competed against several Lubbock based teams, two teams from Amarillo and teams from Plainview, Odessa, and Clovis.

Individual awards were won by Roger Hamilton who netted first place in the Open B Class and first place honors in the Over 30-year-old Class. Kevin Cardinal took first in the 250 B Class, Kenneth Hicks grasped second on the Open Expert and second in the 250 Expert segments of the competition and Shane Scott landed a third place berth in the 125 C Class division.

Also competing from Hereford were Dean Howard and Mike Blankenship. Blankenship grabbed second place in the first motor-cross event of the competition, but took a fall in the second "moto" and was unable to complete the race.

The team will be trying to notch up another win in Lubbock July 12.

## Outstanding Rodeo Competitors

Recent competitors in the 1980 Hereford Junior Rodeo, held this past weekend, show off some of the awards they received as winners in different segments of rodeo competition. Pictured left to right [kneeling] are Roy Tarango with second places in steer daubing and team roping; Mickey Gomez-All Around Champion; Jana Johnson-winner of pole competition, third place in goat undecorating, and second place in steer daubing;

[Standing] Regina Lewis-winner of barrel and pole competition in the 7-year-old and under plus third place in flags; Poppy Richardson-winner in the goat undecorating competition along with a third place in steer daubing and fourth places in pole and flag events; and Joel Smith-All Around Champion in the 13-15 boys division. Not pictured was Holly Shafer-All Around Girls Champion. [Brand photo by Mauri Montgomery]

Move Past Giants Into 4th Place

# Atlanta Braves Massacre Houston 14-0

ATLANTA (AP) — The Atlanta Braves have been walking a delicate tightrope in the heady atmosphere of Atlanta-Fulton County Stadium.

They have scored 27 runs in their last two games against division-leading Houston — including a 14-0 shutout Wednesday night — all of them with two outs in the inning.

The victory moved the Braves past San Francisco into fourth place in the National League West as the Giants lost 6-2 to Cincinnati. "It seems we get guys on first and second and then get a hit," said Bob Horner, whose two hits, including a home run, and four RBI helped pace the Atlanta attack.

"They've been hitting the ball well. We just haven't gotten them out," said Astros Manager Bill Virdon. "I've never seen it since I've been in baseball. It's about as rough as you can have it, but it will stop sometime and I hope it's tomorrow."

J.R. Richard will try to salvage one game of the four-game series tonight against the Braves' Tommy Boggs or Larry McWilliams.

"We've beaten him before," said Braves Manager Bobby Cox. "We were due to get to (Vern) Rhule. "He stood us on our heads all last year. They had to go to their bullpen a lot in their last series before they came here and they needed

some route-going performances by their starters." "We're on a hitting binge," he said. "We just caught them when their pitching wasn't sharp."

Phil Niekro drove in two runs with a single in Atlanta's seven-run third

inning and pitched a five-hitter as he notched his sixth victory in his fifth try for it. It was his second shutout of the season.

"I can't recall having ever pitched with a 14-run lead in the ninth inning before," said the veteran

knuckleballer, 6-10.

Niekro also struck out seven, giving him a career total of 2,488 and moving him past Don Drysdale into 16th place on the all-time list.

Luis Gomez and Chris Chambliss also drove in two runs in Atlanta's explosive third.

The Braves took a 2-0 lead

in the first on Chambliss' ninth home run and Horner's RBI single. They made it 3-0 in the second on Glenn Hubbard's run-scoring single, then exploded for seven runs — all unearned because of an error by third baseman Enos Cabell — in the third.

"It's been about a week like

this, I mean mistakes," Cabell said. "Every game we've won in that time we've come from behind."

Atlanta sent 12 batters to the plate in the third and seven of them got hits, all singles. After Gomez and Niekro had driven in two runs apiece and Hubbard and Dale Murphy followed with

hits, Rhule, 5-1, was

replaced by Randy Niemann. Chambliss greeted Niemann with a two-run single and Gary Matthews followed with a run-scoring single.

Horner got his three-run homer in the fifth and Jeff Burroughs added a solo home run in the eighth.

## Cubs Rout Gold Sox

By The Associated Press

Outfielder Randy LaVigne slugged two home runs, including a grand slam, to boost the Midland Cubs to an 11-4 Texas League baseball victory over the Amarillo Gold Sox Wednesday night.

In other Texas League action, Tulsa beat Shreveport, 7-1. Jackson defeated Arkansas, 8-5, and San Antonio whipped El Paso, 11-3.

LaVigne's grand slam homer came in the fifth inning and he added a two-run homer in the seventh inning.

Jon Perlman, 7-6, was the winning pitcher. The loser was Troy Vixon, 7-8. Jerry Don Gleaton limited

the Shreveport Captains to only 6 hits as the Tulsa Drillers took a 7-1 victory over the Captains. Gleaton's record is now 9-4.

Phil Klimas and Bobby Johnson had 3 hits each for the Drillers, who broke the game open with 6 runs in the last two innings.

Glenn Fisher, 6-7, was the losing Shreveport hurler.

Ed Cuervo had 3 hits, including a homer as the Jackson Mets beat the Arkansas Travelers, 8-5. Keno Perry also had 3 hits for the Mets.

Jim Riggleman had a two-run homer for the Travelers. Tim Leary, 9-5, was the winning pitcher.

Frances Berry, left, and Jim Conkwright performed as members of a "Kazoo band" during a sing-a-long at the Deaf Smith County Chamber of Commerce Fun Breakfast this morning. More than 200 persons attended the breakfast, sponsored by First National Bank. [Brand photo]

## Texas Briefs

AUSTIN, Texas (AP) — The Texas Supreme Court ruled Wednesday that Eastman Kodak Co. does not have to cover Exxon's \$2,148,305 in payments for death and injuries resulting from a pipeline leak caused by Exxon's negligence.

Exxon sought the payment under its 1951 contract to build and maintain a pipeline carrying propane to Eastman's plant near Longview.

One person was killed and another severely injured in an explosion that occurred when a vehicle drove into a pocket of propane that had leaked from the line. The court said Exxon's negligence caused the leak.

Exxon said its contract with Eastman bound Eastman to indemnify Exxon for damage judgments and attorney's fees arising from the explosion.

The court said the contract was ambiguous about whether Eastman was required to indemnify Exxon for such losses.

"Here the contract was drafted by (Exxon) after protracted negotiation of the parties. Surely had indemnity been intended, the contract would have so provided without the

necessity for a strained construction of express covenants to the contrary," the court said.

INGLESIDE, Texas (AP) — Reynolds Metals Co. will lay off 150 workers at its San Patricio reduction plant due to increased operating costs, a company spokesman said Tuesday.

Ken Murphee, plant manager, said the curtailment calls for a reduction in annual capacity of 114,000 tons of processed aluminum by 57,000 tons.

He said he did not know if full scale operations would resume. The plant employs 950 persons with a payroll of \$19.2 million.

AUSTIN, Texas (AP) — Application has been made for a new state bank in Fort Bend County, the State Department of Banking said Wednesday.

The bank, to be known as the Tri-Cities State Bank in Stafford, would have capital of \$750,000, surplus of \$600,000 and reserves of \$150,000.

Directors include M.K. Bolds, Margaret Greer Camp and J.W. Johnston, all three of Sugar Land; J. Pierre Gendron and Billy B. Rister of Houston; C.G. Giffin Sr. of Sugar Creek and Donald D. Trull, Missouri City.

The State Banking Board set a hearing date of Aug. 25.

BRECKENRIDGE, Texas (AP) — The estranged husband of a woman found beaten to death here Sunday was jailed Wednesday on murder charges, Stephens County authorities said.

Peace Justice Sid Rhodes set bond of \$50,000 for Ronnie Harber, 35, in the slaying of Darlene "Sissy" Harber, 29.

Clayton made the forecast in an interview with the Mulder News Service.

"I think we will have enough money available for appropriations next biennium. ... I going make a projection. ... I would say that in my opinion we will have probably a \$2-billion plus figure to work with," he said.

He also acknowledged there will be major spending needs and said teacher salaries "haven't kept pace" with the rate of inflation.

On another matter, Clayton said he expected his lawyers to ask a Houston federal judge to delay his trial on charges arising from the FBI's Brilab (bribery and labor) investigation for one month.

The trial of Clayton and three other defendants is scheduled to begin July 21.

"I talked to Roy (Minton) and Charlie Burton (his

attorneys) yesterday afternoon and I think they'll probably ask for about a 30-day postponement so they can be ready. I'm not sure they will, but I don't think they they going be quite ready by July 21," he said.

# King's Manor Methodist Home To Host "Western Barbecue"

King's Manor has been busy in preparation for the Saturday "Western Barbecue" scheduled to be held in the Manor garden. Serving will begin at 5 p.m. With maintenance men, house keeping and the manor beauticians hurriedly finishing up last minute chores, the office located in Westgate's Nursing Home has been

busy with typing, addressing, and mailing invitations to the home's resident's families and various people throughout the community. These girls are from left Mrs. Betty Gresham, financial secretary; Mrs. Alice Rahlfs, assistant administrator and Mrs. Ouida Coker, administrative secretary.

With the King's Manor Methodist Home's annual "Western Barbecue" approaching this weekend, seeing manor residents talking of the big event is a common scene at the home. Above from left Ida Robinson, Arthur Robinson, Ina Hastings, Carrie Hendriz, and George

Kenyon discuss the event while having their morning coffee at the manor. The event will begin at 5 p.m. and last through 9 p.m. Tickets are available for \$10 per person and \$25 for immediate family.

Jessie Mae Dodson, retired teacher, art major, and a resident of the manor is also in preparation for the annual "King's Manor Western Barbecue" slated for this Saturday on the grounds of the manor. Mrs. Dodson is in charge of making signs and name plates for staff members and volunteers to be worn at the barbecue. Mrs. Dodson is well-known for making name plates and signs for several of the manor's special events.

Saturday marks the day for the King's Manor Methodist Home second annual barbecue scheduled to begin with serving at 5 p.m. and continuing until 9 p.m. Theme of this year event is "Western Barbecue" with an atmosphere to match.

"There will be plenty of time to eat and visit the beautiful campus," said Bea Noland, director of diversional activities at the Manor.

The public is encouraged to attend the barbecue with tickets costing \$10 per person and \$25 for immediate family.

"The meat and beans for the annual event will be cooked on the grounds of the Home by men from Vega who annually, for some 30 years, have served the Vega Community at their annual celebration," stated the Founder's Association president Bill Walden.

Local entertainment will be provided throughout the evening by Carolyn and Brenda Tackett, a mother and daughter singing group; Merry Mixers Square Dance group; the Nazarene Church Sextet; Mrs. Joe Shultz, organ music; and Bill Devers "Gospel Quartet."

The two fold purpose of the event is to give people a first hand opportunity to see King's Manor, visit with residents and staff, ask questions, and through their purchase of a ticket, make a contribution toward the continued care of some 48 residents who on a fixed income need help.

The manor provides approximately \$60,000 a year subsidy (free care) for those residents who cannot afford their full cost of care.

A part of this money has been provided in the past by concerned individuals and an organization called the "Founders Association. Due to inflation, many residents who once thought they had ample income for retirement, now discover they need help.

Officers of the Founders Association include Bill Walden, president; Donald Hix of Vega, vice-president; and Norma Walden, secretary.

Directors of the association are Robert Jacobsen of Adrian, Bill McLaughlin of Rowls, The Rev. Gene Wisdom of Amarillo, Dr. Bill Forbus of Dumas, Wilson Arden of Amarillo, George Sides of Dimmitt, and Virgil Walker, Dorothy Renfro, R.D. Swanson and Bobby Boyd, all of Hereford.

The Rev. Wallace Kirby encourages and sends a special invitation to the public to join in the celebration Saturday. Approximately 700 person attended the celebration last year, and they expect over 1000 this year.

From left to right Alma Cross, Cecil Kuhne, Faye Kuhne, Grace Simms, Emma Sue Woltman and Maggie Thompson are preparing and cleaning beans to be served Saturday during the annual King's Manor barbecue. The meat and beans will be cooked by some men from Vega on the grounds of the Home. The men have served the Vega Community at their annual celebrations for some years.

David Hill, head of the maintenance department at the manor has been busy with yard work, mowing, watering, trimming hedges and clearing the flower beds around the manor in preparation for the King's Manor annual barbecue. Hill is given help by assistants Johnny Carrell and Cindy Bridwell. From left are David Hill, Cindy Bridwell and Johnny Carrell.

Mrs. A. [Tony] Guzman, head of the house keeping department at the Manor along with her assistant's Stella Ruiz and Diana Griego have been working very hard this past week cleaning and vacuuming rugs and dusting the manor to it's shiniest. King's Manor and Westgate Nursing Home will be open all day Saturday for anyone interested in visiting the residents or viewing the home. The barbecue will begin at 5 p.m.

# 1914 Fourth of July Was Big Family Affair, Recalls Local Woman

By DAWN OAKLEY  
Brand Staff Writer

"I'm a Yankee Doodle Dandy," sang George M. Cohan. "A Yankee Doodle 'do-or-die'."

"A real live nephew of my Uncle Sam, born on the Fourth of July."

Well, Mr. Cohan was not the only one to whom the Fourth of July was an important date. Mrs. J.J. Buckner of 224 Ave. D was married on her husband's 22nd birthday--the Fourth of July.

"We always had a big family celebration on the Fourth," she said, "since it was his birthday and our anniversary."

"On his 48th birthday, the flag only had 48 stars. So each candle on his cake represented a star on the flag."

"One year," Mrs. Buckner reminisced, "we had fire crackers on the cake instead of candles. We didn't light them though; I was afraid they'd mess up the cake."

"My husband died in 1964. Oh, for several years the kids thought I wasn't adjusted to the loss and they'd always try to be here on the Fourth."

"One year my daughter and her family came and took me to Lake Meredith after it had just opened up. I guess if it weren't for that I'd never have been to Lake Meredith."

Mrs. Buckner remembered big Fourth of July celebrations held at the house of her Aunt Jenny, 515 Union. The house, which in 1914 was the gathering place for the Carter family, is now a historical house.

"The day they fixed that historical marker, I went to that. I had so many good times in that old house."

"The men fixed a long table under the trees and we had dinner out there."

MRS. J.J. BUCKNER  
...reflects back on good times

"One of the main attractions of the meal was a two gallon container of homemade ice cream; we took turns turning the crank."

"Aunt Jenny furnished it all...she never was happy unless there was a crowd around."

Mrs. Buckner remembered the 1914 Fourth of July, when the man who was later to be her husband and another couple asked her to go with them from the family get together to a picnic "out at the creek."

"He had to go to town--we had three livery stables--and rent a horse and buggy."

"The way I was dressed wasn't appropriate to go on a

creek picnic. One of the Elliot girls loaned me a mid-blouse and a skirt and a pair of Oxfords."

The father of the Elliot girls, Mr. A.C. Elliot was then in charge of the Hereford Brand.

"Usually the Fourth was just a family affair. They did use to have a big to-do here though. They would have speakers--like the mayor and political speakers--on the courthouse lawn. People would bring their lunches to have on the lawn."

"In those early days they didn't have any city regulations against fireworks," said Mrs. Buckner.

"One year some neighbor children were shooting fireworks, and a little girl's clothes caught on fire and burned her so bad she died."

"Several years they shot

fireworks at the park, you know the one where the swimming pool is. We wouldn't go down, but would sit on the front porch and watch."

"Later they had fireworks out at the creek--I guess you call it the Veterans' Park. It was a mob scene."

Mrs. Buckner, then Jenny Carter, arrived in Hereford on July 3, 1912 at 11 p.m., only an hour before the Fourth of July.

"We had come to visit an aunt," she said. "After we got here, we just decided to stay."

"My cousin met us at the depot with an old mare and the delivery wagon he drove to work."

"The passenger trains used to be the most interesting things here in Hereford," Mrs. Buckner said. "The only entertainment we had was the picture show. There wasn't any radio or T.V."

"Groups of kids would go to meet the trains, just to see who came and who left."

"Hereford was just a small town you know...just about 1200 people and that may be generous...everybody knew everybody after they'd been here awhile."

"My aunt and cousin were well known; they'd been here since 1902."

"There was just one school here then," she said, "what used to be Central High."

"My husband graduated in 1911, the first graduating class after that building was built. I graduated in 1914."

Born on November 20, 1895 in Gainsville, Mrs. Buckner remembers two moves before her family settled in Hereford.

"We first moved to Marietta, Okla. It was Indian territory then. I was only a year old, but I was eight when we moved to Altus, Okla. in 1904."

"We were living in Altus in 1904 when Oklahoma became a state. I remember that...I was 12 years old."

"I've lived here continuously for 68 years," Mrs. Buckner said.

She has also lived in the same house for 59 years, she said. "The front part of this house was built in 1921, and we have added on since then."

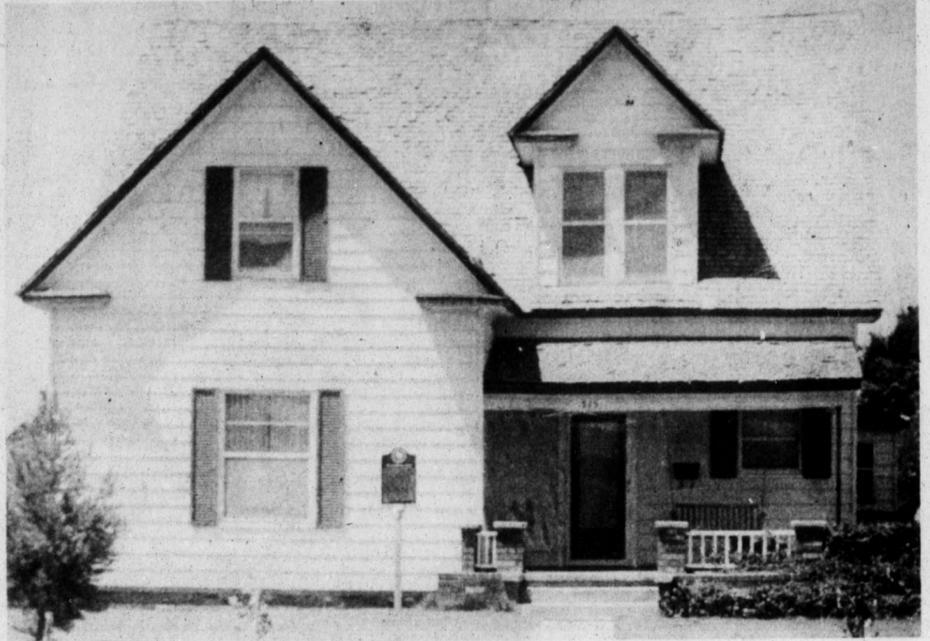

"My brother worked for Armour," Mrs. Buckner said. "There were no plants then...all the meat was shipped in from Chicago. Hereford had five grocery stores, and he would deliver the meat to them."

Hereford has always been interested in national things, in patriotic things," said Mrs. Buckner. "That's one thing I like about Hereford. I've always been patriotic."

Water M. Schirra Jr., was the only astronaut to fly in the Mercury, Gemini and Apollo space programs.

Nebraska is the only state in the U.S. with a one-house legislature, called the State Senate.

## Ann Landers

### Boozer Receives Message

**DEAR ANN LANDERS:** I'm a teenager who has been around a lot. I am into pot and booze and have slept around some. I know the score. This afternoon I heard something on the radio that made a terrific impression on me. It was on CBS. I sure hope you can get that girl's message and print it in your column.

It was a girl who was speaking. Her message hit me like a ton of cement. The girl's name was Patty Flannery, and she was not acting. It was her own life she was talking about. Please, Ann, try. It got to me like nothing else ever has, and I am sure it changed my life. Don't use my real name, just sign me -- A Whole New Person In Long Island

**DEAR NEW YOU:** I tracked down the CBS radio transcript and agree it is well worth printing. It will appear in my column on July Fourth -- a day when millions of people will be out celebrating. Here it is:

"I am Patty Flannery, and at 19 I have seen more and done more than most people at 60. I had made the drugs and drinking scene by the

time I was 17. Then came that fateful Labor Day -- Sept. 4, 1977. I became a holiday statistic people read about. My accident was right out of one of those crazy, wild, movie chase scenes.

"A group of us had been partying on drugs and wine just before I hopped on the back of my friend's motorcycle. We were going 70 miles an hour in a 30-mile zone when I joined hands with my sister who was alongside me on another cycle. We dropped hands just as we approached a curve. I was thrown 85 feet. I was luckier than my friend. He will never walk again. The doctors say I have a 50-50 chance to someday stand and walk with braces. Two years is a long time to spend in a wheelchair, especially when you are a teenager. Now I have a lifetime to regret my foolishness. There is no dumber combination than drugs, wine and motorcycles. Don't let it happen to you."

**DEAR ANN LANDERS:** Those letters you printed from people who swore their dogs and cats could talk led to a fascinating conversation with some guests in our home

last evening.

"Mrs. Jones" said they once had a Scotch terrier who took on the personality characteristics of her husband. When Mr. J. had an ulcer attack or a migraine headache, the Scottie "MacTavish" became morose and wouldn't eat a thing. The day Mr. J. was taken to the hospital, MacTavish cried by the door for hours. He ate so little while his master was away they had to take him to the vet's for special care. When Mr. J. returned, feeling much better, the dog perked right up and was his old frisky self again.

My husband and I think people who own pets have a great imagination when it comes to their beloved animals. What do you think? -- No Name, Please

**DEAR N.N.P.:** I believe the story. It is not uncommon for animals to be sympathetic to the moods of their masters. I'll bet many people in my reading audience could tell us similar stories along these lines -- all true.

**CONFIDENTIAL** to Parents in Berkeley Who Need to Know: It's impossible to know how strict is too strict.

Some children need a stronger hand than others. But this I can tell ALL parents: discipline, consistently applied, is a lot like taking out the garbage. If you don't do it, you have no right to complain later when something begins to smell.

Confused about what's right and what's wrong in today's "new morality"? You're not alone. If you want honest, down-to-earth information on your sex questions, read Ann Landers' new booklet, "High School Sex and How to Deal With It -- A Guide for Teens and Their Parents." Send 50 cents plus a long, stamped, self-addressed envelope to Ann Landers, P.O. Box 11995, Chicago, Illinois 60611.

**IF YOU ARE BETWEEN THE AGES OF 55-65 and are not in a Bible study class, we invite you to join us for Bible study at First Baptist Church each Sunday at 9:45 a.m. ground floor ADULT IV DEPARTMENT**

## County Extension Office Holds Clinic

"Keys to a Productive Summer Garden" will be one of the topics to be discussed at the upcoming Ornamental and Garden Clinic.

The clinic will be held on Wednesday, July 16th, from 9 a.m. to noon at the Hereford Community Center Banquet Room. It is free of charge and open to the public.

County Extension Agent, Louise Walker, said that the clinic is being sponsored by the Deaf Smith County Community Development Committee of the County Agricultural Extension Service.

Speakers include Dr. Roland Roberts, area vegetable specialist, speaking on "Keys to a Productive Summer Garden;" Dr. Richard Duple, turfgrass specialist, speaking on "Lawn Care-Fertilization, Irrigation, Mowing and Weed Control;" and Dr. Robert Berry, area plant pathologist, discussing "Ornamental and Lawn Disease Diagnosis and Control."

Dr. Carl Patrick, area

entomologist, will speak on "Home-Ornamental and Lawn Insect Identification, Damage and Control," while Dr. Dale Pennington, area soil chemist, will discuss "Fertilizing Lawns, Flowers, and Ornamentals."

All of the speakers are with the Texas Agricultural Extension Service.

After the speaker presentations, a time is scheduled for participants to bring specimens of plants to be diagnosed by the specialists.

An hour from 11 a.m. to 12 noon is allowed for diagnosing ornamental, lawn and garden problems.

Further information may be obtained from the County Extension Office at 364-3573.

## Bride-Elect Feted At Shower

Linda Davis, bride-elect of Adolph Knabe, Jr. was honored recently with a bridal shower and coffee in the home of Mrs. Raynold Herr, 103 Aspen.

Guests were served coffee, punch, cake, sausage balls, and fruit. The table was laid in a blue cloth with white lace, and held a silver bowl with blue and white silk roses. Silver candle sticks and a silver serving set completed the decorations.

Tracy McCathern and Vicky Hutcheson served punch, and Kathy Schoolcraft presided at the registry.

The bride-elect's mother, Mrs. Darrell Davis and her future mother-in-law, Mrs.

A.A. Knabe were in attendance, as was the bride's grandmother, Mrs. Dade Smith of Dalhart.

Hostesses were Mmes. Raynold Herr, Leaton Noyes, S.T. Loerwald, C.P. Urbanczyk, Allen Evers, Clarence Betzen, Charles Schlabs.

Clinton Jackson, Arthur Blackburn, Mary Kaye Sandoval, Mike Betzen, Ken Britten, Sam Mazurek, Mark Koenig, Leo Hoffman, Carl Strauss, Carl Sciumbato, Gene Loerwald, Joe Edd Andrews and Tony Urbanczyk.

## Life Saving Classes Open To Public

An advanced life saving class, open to the public, has begun at the Hereford City Pool starting at 6:30 p.m. each evening. The classes will run through July 14.

Following the life saving classes, a Water Safety Instructor class will be held at the City Pool with Debbie

Hoover as instructor. The public is encouraged to participate in the classes.

## Graduated Nurses

Several local women just recently finished graduating from Home and Family Nursing Instructor classes being held at the hospital LVN room. The classes were taught by Bob Berge, RN consultant and Francis Barrett of Oklahoma City, Okla. Those completing the

course are from left, Lottie Wertemberger, Vera Hoelting, Linda Cumpston, June Rudd, Rose Ann Smith, Peggy Oakes, Martha Layman, Winnie Anderson, Betty Henson, and instructors Francis Barrett and Bob Berge. [Brand photo by Denise Smith]

## Season Scheduled By Concert Association

Performers scheduled by the Community Concert Association for this season include Monty Alexander, Harvey Pittel, and the Roger Wagner Chorale.

Alexander, a well-known pianist, is scheduled to perform on October 28 at 8 p.m.

The music of the Jamaican born pianist is of original composition, and he is said to have an extraordinary rapport with his bassist and drummer.

Pittel will perform February 9, at 8 p.m. He is one of the world's greatest woodwind virtuosos, specializing in the saxophone, including the tiny soprano through the more familiar soprano, alto and tenor saxes, to the big baritone sax.

Joined with a cellist and pianist, Pittel's music encompasses chamber music of

## Barbecue Is Planned For Senior Citizens

A traditional barbecue, is planned tomorrow at the Hereford Senior Citizens Center for senior citizens who do not have other holiday plans.

The center will remain open all day.

Lunch at noon will feature the Fourth of July barbecue, either chicken or beef, with pinto beans, potato salad, coleslaw, garlic bread and fresh fruit dessert.

Serving will begin at

such composers as J.S. Bach, Duke Ellington, Maurice Ravel and Richard Rodgers.

11:30 a.m. in the cafeteria.

Card and domino games will be available for those who like them, and table tennis equipment will be set up in the patio. There will be horseshoe pitching, croquet, and any other outdoor games members want to arrange on the grounds. Music and other entertainment will make up the program being arranged under the direction of Sadie Leasure.

Performing on May 14, 1981 at 8 p.m. will be the Roger Wagner Chorale, called by Leopold Stokowski "second to none in the world."

The chorale has appeared in every state in the union and earned international praise and recognition on tours of Eastern and Western Europe, South America, Mexico, Canada, and Japan.

## New Arrivals

Mr. and Mrs. Rodolfo Requejo are the parents of a son, Pedro Requejo, born July 1. He weighed 6 lbs. 6 1/4 ozs.

## Diet/Heart Dispute Still Unresolved

The cries of opponents in the diet-heart controversy are getting louder. During the last week of May, national news media including NBC's "Today" show, a PBS news report ("McNeil-Lehrer"), the Associated Press, and the Wall Street Journal all picked up on experts' reactions to the latest pronouncement of the Food and Nutrition Board of the National Research Council.

The new report, entitled "Towards a Healthful Diet," says that the board has failed to find any convincing evidence in scientific literature to date that Americans as a whole should change their diets by eating less fat and cholesterol.  
 According to Dr. Robert Olson, member of the Food and Nutrition Board who appeared on television in support of the report, trying

to limit one's cholesterol intake by avoiding animal foods will only jeopardize other nutrient intakes and lead to further health risks.

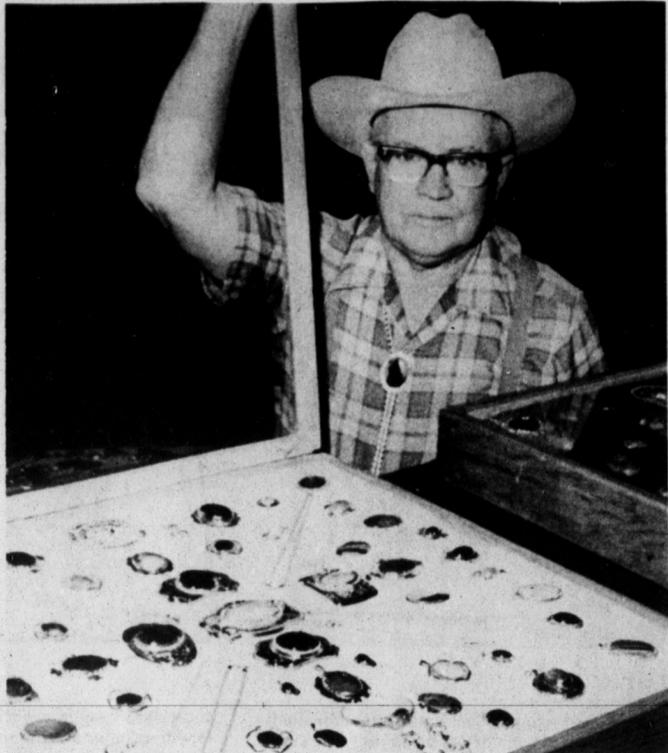

"It is unfair to tell Americans we have the answer when we don't," Olson said.

Dr. Dewitt Goodman, American Heart Association, said in his television appearance with Dr. Olson that he feels it automatically makes sense to limit dietary cholesterol.

"To follow Dr. Olson's advice (to control calories rather than worry about cholesterol intake per se) would yield increased incidence of coronary heart disease in the U.S.," he said. Goodman added that he felt Olson's report was a disservice and confusing to the public.

So wise a choice

## Display Of Rock Jewelry

Roy Martin, a member of the Deaf Smith County Lapidary Club will have several handmade pieces of jewelry on display at the library for this month. There will be several other display's located next to Martin which belong to several other members of the rock club. A special case of marbles and sphere's are displayed also at the library. [Brand photo by Denise Smith]

## Art Soiree Scheduled For July 27

An "Art Soiree" will be held July 27 at 7 p.m. in the Country Club.

The \$100 per plate event is sponsored by Big Brothers-Big Sisters, and the money will go to aid children from single parent homes.

Forty works of art have been donated to Big Brothers-Big Sisters and will be given away at the soiree as door prizes.

Reservations for the event may be obtained by contacting a BB-BS board member or the BB-BS office at 364-6171.

Contributing artists are Grace Ashley, Ruth Biffle, Jon Birdsong, Monica Blocker, Gwendolyn Branstetter, R. Russel Brown, Wanda Calton, Marilyn Castleberry, Nig Clark, W.B. Franklin and Danny Gamble.

In addition, Tom Gover, Gary Gore, Jean Green, Bob Hunnicutt, Peggy J. Jansen, Bob Jones, Ben Konix, Diana Lathem, Jean Marlow, Michael C. McCullough, Joanie Stockstill, Don Parker, Becky Parker, Don Pollard, M. Loys Raymer, Gerald Sanders, Bill Selfridge, Mary Selfridge, Suzanne Tekyl, Jim Thomas, Jack Thompson, and Richard Thompson donated works.

Others donating include Jeryl Vance, Tom Warren, Rodney Watson, Justin Wells, Rheata White, Kathryn Williams and Paul Wylie.

## Celebrate This Fourth With A Super Star-Spangled Salad

What do you do for an encore after watching the fireworks display on the Fourth of July? Dairy Council home economists suggest a Red, White and Blue Salad in

a star-shaped mold that fits the catering mood of the day. The red comes from strawberries, the blue from plump, sweet blueberries, and the basic white from

dairy-fresh cottage cheese and milk. And the result is just about the prettiest salad you ever turned out, especially when it's formed in a star-shaped mold and garnished with frosty blueberries, and green grapes.

Although it's spectacular, this tempting salad is easy to make and well within the average budget. Its beauty and taste appeal come from seasonal fresh fruits, and cooling dairy foods.

The fruits provide vitamin C (ascorbic acid) and potassium, which helps maintain body fluids during hot summer days. Both cottage cheese and milk contain generous amounts of protein for energy, and calcium to help build bones and teeth.

Since it serves 8 to 10 people, this delightful salad would be idea for a July bridge luncheon or committee meeting, as well as your 4th of July picnic or family gathering.

### RED, WHITE AND BLUE SALAD

2 envelopes unflavored gelatin  
1/2 cup sugar  
Dash of salt  
2 cups milk  
1 1/2 cups cottage cheese  
1 can (8 oz.) crushed pineapple, in unsweetened juice  
1 tsp. lemon peel  
1 cup sliced strawberries  
1/2 cup blueberries

In a 1 1/2-quart saucepan combine gelatin, sugar and salt. Stir in 1/2 cup milk to soften. Place over low heat, stirring constantly, until gelatin is dissolved. Remove from heat. Add remaining 1 1/2 cups milk. Stir in cottage cheese, pineapple and lemon peel.

Arrange a few of the strawberries and blueberries in the bottom of a 6-cup mold. Pour over 1 cup of the gelatin mixture; chill just until set. Arrange some strawberries and blueberries in a design against the side of the mold. Fold remaining strawberries and blueberries into gelatin mixture. Turn into mold; cover. Chill until firm.

Makes 8 to 10 servings.

### BARBS

Phil Pastoret

The fellow who looks you straight in the eye may be honest. It's also possible he wants your attention while he picks your pocket.

Man is the only creature stupid enough to install triple-track window screens and then go outside to eat within reach of the mosquitoes.

If you can smile at a glassful of hangover remedy you're farther out than anyone has a right to be and survive, says our neighbor.

Just heard about the farmer who crossed a chicken with a racing form, and now has the only fowl in the country that lays odds.

### Shower Hosted

Julie Cavin, bride-elect of Jackie Manning was feted with a bridal shower Wednesday evening in the home of Meredith Wilcox. Forming the receiving line were from left Meredith Wilcox, Mrs. Jim D. Cavin, mother of the bride; the honoree, and the groom's mother, Mrs. Harold Manning.

### At Wits End

By ERMA BOMBECK

It's a game we play. Every time the phone rings during M\*A\*S\*H my husband and I fake one another out. Last Monday, I won and he took the call.

The tone of his voice made me turn out Alan Alda as he gasped, "Oh, my God! You're not serious! When?" He covered the receiver and shouted to me, "Get on the extension. We're grandparents!"

My first reaction was how could that be when none of our children was married.

My second reaction was would my mother buy the old Science-Fair Project-That-Got-Out-Of-Hand theory.

The caller was our neighbor who explained that our Yorkshire terrier, who was never allowed out of the yard, got out, and her spinster poodle, who was too old to get pregnant, did, and in a Sears box in the utility room were three poodles in Yorkshire terrier bodies -- a virtual billboard for Planned Parenthood.

"What month was Murray born in?" she asked.

"June."

"I should have known," she said. "A Gemini. They never finish anything they start."

"Just a minute," I said. "Are you implying that Murray is not willing to accept maternal responsibilities?"

"Who are you kidding? Every female dog in the neighborhood has known him."

"That's not true. He lives a monk's existence behind a six-foot wall."

"You've heard of the tunnel of love? He invented it."

"I think your 'little mother' doesn't have her act together and has neither the stability nor the unselfishness to raise these puppies. If you will bring them over here Murray will raise them as a single parent."

The first night, we photographed them from every angle. Murray moved from one to the other getting to know them. He was going to make a wonderful father.

The second night he refused to share his food with them. When they spilled water all over his bed he crouched behind a waste can. He subsequently trampled them, bit their tails, rejected them, barked in their ears and tried to abandon them.

By the end of the week the puppies were demanding, cried all night, frolicked all day and were driving him crazy. When we returned them to the mother, our neighbor snapped, "What happened to Kramer vs. Kramer?"

Dustin Hoffman wouldn't have been such a hero either if his child hadn't been paper-trained.

### Electrical Skillet

### Saves Oven Cleaning

COLLEGE STATION — Small appliances save energy -- if you use them creatively!

And if they're used in place of other cooking methods, says Lillian Chenoweth, a family resource management specialist.

Mrs. Chenoweth, on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System, says "Be creative!"

Go to the use-and-care booklets that came with your appliances for creative ideas.

For instance, think of an electric skillet as more than a frypan. Use it to roast, pan-broil, bake or simmer--and fry.

With it you can prepare items as diverse as baked potatoes, pot roasts or cakes--really.

Potential energy savings are substantial, Mrs. Chenoweth promises.

Here's a savings example--bake a box-cake mix in a portable appliance rather than in a conventional oven, and save almost 60 percent in energy.

Pizza offers similar savings--68 percent in energy savings when you make pizza from a mix in an electric skillet rather than the oven. And results are just as great.

More comforting news--since almost seven of every 10 homes already have an electric skillet, most of us can

save energy without rushing out to buy a new appliance.

Don't overlook your "special-use" small appliances, either.

Some pizza makers will bake potatoes, heat frozen convenience foods or even grill foods. A work will double as a steamer, soup kettle or a punch bowl.

## Miss Cavin Feted By Bridal Shower

Julie Cavin, bride-elect of Jackie Manning was feted with a bridal shower yesterday evening at the home of Meredith Wilcox.

Carolyn Holmer and Lynnette Rhote served punch, coffee, fruit plate, cookies, and finger sandwiches from a table decorated with a flower arrangement of the bride-elect's colors, ivory and blue flanked by silver and crystal appointments.

Seated at the registra table was Mrs. Michael Lorimer of El Paso. She is the sister of the bride-elect.

Out-of-town guests included Mrs. Joe Astrander of Amarillo, Mrs. John Cavin of Amarillo, Mrs. Jess Retter of Amarillo; Rick Browning, Jessie Cash, Holly Browning, Celia Cash and Amy Cash.

Hostesses for the evening were Kay Hall, Dolores McCuistian, Jane Coplen, Joyce Ritter, De Aun Sisson, Mary Duggan, Marcella Hoffman, Thelma Weddel, Meredith Wilcox, Betty Martin, Nancy Josserand, Nance Perrin, Wanda Hoover, Marn Tyler, Judy Mitts, and Jewel May.

### TEXAS HOT CHICKEN

1/4 C. cooking oil  
2 lg. sliced tomatoes  
2 lg. sliced onions  
8 chicken thighs  
1/2 C. evaporated milk  
4 minced garlic cloves  
1 1/2 T. brown sugar  
1 1/2 tsp. lemon juice  
2 tsp. crushed red pepper  
1 1/2 tsp. salt  
1/4 tsp. ground mace  
2 bay leaves

In large frypan, place oil and heat to medium temperature. Add tomatoes and onion and cook about 5 minutes or until wilted. Add chicken, stirring several times. Add milk, garlic, brown sugar, lemon juice, red pepper, salt, mace and bay leaves; bring to a boil. Cover and simmer, stirring frequently, for 50 minutes. Remove cover and cook about 10 more minutes over high heat until most of the liquid is evaporated and fork can be inserted in chicken with ease. Discard bay leaves before serving. Serves 4.

The United States Mint system has coined money for more than 20 foreign countries.

The energy in one pound of uranium can perform as much work as 3 million pounds of coal.

## In-Law Relationships Can Be Satisfactory

**COLLEGE STATION** — People don't just marry each other—they marry into a family and all its influences, says Diane Welch, a family life education specialist.

A critical factor to the success of the new couples' relationship is how well each gets along with the others' family, she points out.

Mrs. Welch is with the Texas Agricultural Extension Service, The Texas A&M University System.

There are some factors

which can cause problems, and newly married couples should know what to expect, she explains.

First, parents may still want to "parent."

They have put a large amount of time, money, energy and self into child-rearing, and they aren't always ready to give up the role.

Expectations of what the newlyweds "should do" can bring confusion and conflict. In addition, one or both

persons in the new marriage may still depend on their parents for emotional and/or financial support or for decision-making help, the specialists continue.

A mate can resent this, and trouble may result.

In other cases, individuals may have had poor relationships with their own parents and may transfer these feelings and/or hostilities to their in-laws.

When this occurs, self-examination and re-orienta-

tion of attitude may help.

Finally, each family over the years has developed its own styles of thinking, believing, and behaving, she adds.

It may take time for each family and each of the newly married partners to get used to the others' habits and ways.

On the other hand, this "in-law" thing can be positive and rewarding with happy and meaningful in-law relationships, Mrs. Welch

suggests.

Here are some ideas for a positive approach:

Remember parents are still parents and probably have a strong emotional tie to their children. They love your spouse and your spouse loves them.

There is always a fear of rejection in a new relationship. Enter it with the attitude of acceptance.

Forget the negative connotation of "in-laws" and expect to see positive

qualities.

Share the responsibility of maintaining contacts with both sides of the family with your mate. Try to equalize involvement.

Take an adult attitude towards problem-solving. Listen to advice and recommendations but make decisions and work out problems as a couple.

Put the origins of conflict and confusion in their proper place. Work out frustrations with your mate. Avoid directing anger towards his or her family.

Leave comparisons alone. With the actions of families or family members are evaluated one side against the other, there can only be defensiveness, rebuttals and

harsh feelings.

Resist feeling threatened by the attention of your mate to his or her family. Focus on the security of your relationship with each other.

Think of the extended family as a source of love, support and satisfaction. Expect this and work toward achievement.

The ancient Greeks believed the rainbow was placed in the heavens by the gods to foretell war.

# Rhuberries Make Summer Ice Cream

The rhuberry doesn't grow on trees and it doesn't grow on bushes. In fact, it's a refreshing hybrid whipped up in the kitchen especially for hot summer days. And what could be more refreshing than the flavor combination of rhubarb and strawberries?

These two favorite fruits, one tart, the other sunshine sweet, make perfect partners in a colorful, mouth-watering glaze to serve over cold vanilla ice cream—right from

the carton—nestled in a crunchy butter-crumbs crust.

Comparing the two fruits nutrition-wise, one cup of frozen, sweetened rhubarb (cooked) is higher in calcium than the same amount of strawberries (211 mg. compared to 40 mg.); higher in potassium (475 mg. compared to 318); and about twice as high in vitamin A.

Strawberries, on the other hand, are an excellent source of vitamin C, or ascorbic acid. A cup of strawberries

contains 151 mg. of the nutrient compared to 16 mg. vitamin C in the same amount of rhubarb.

It's easy to see why this delicious recipe is such a winning combination of fruits: the ingredients complement each other in nutrition as well as in flavor!

### RHUBERRY ICE CREAM PIE

1 1/2 cups vanilla wafer crumbs  
1/4 cup (1/2 stick) butter,

melted

1 quart vanilla ice cream  
1 1/2 cups rhubarb, fresh or frozen, cut in 1-inch pieces  
1/2 cup sugar  
1 tablespoon cornstarch  
1 tablespoon water  
1/4 cup sliced fresh strawberries

Combine crumbs and butter. Press mixture firmly against bottom and sides of a 9-inch pie plate. Freeze. Slightly soften ice cream by placing it in the refrigerator

10-20 minutes, or in the microwave on defrost for 1-2 minutes. Spoon ice cream into crust; return filled crust to freezer.

In a saucepan over medium-low heat, heat rhubarb and sugar, stirring occasionally, until sugar dissolves and mixture comes to a full rolling boil. Meanwhile blend cornstarch and water; stir into rhubarb. Cook, stirring constantly, until thickened; cook 2 additional minutes. Cool.

Fold in strawberries; chill thoroughly. Spread strawberry-rhubarb glaze over ice cream; serve immediately.

# Austin Retires From 4-H Board

COLLEGE STATION — Leadership of the Texas 4-H Foundation changed recently during the June meeting of the board. H.T. "Tom" Davison, the Foundation's executive director, announces.

Robert H. Hillery of Wichita Falls, vice president of Texas Bank and Trust, was named chairman of the 24-member board, succeeding T. Louis Austin, Jr. of Dallas, Davison, 4-H and youth specialist with the Texas Agricultural Extension Service, adds.

Austin retired from the Foundation board after serving as chairman since 1970. He provided key leadership during the time the 4-H Center was being built. Austin is chairman and chief executive officer of Texas Utilities Company of Dallas. Other outgoing Foundation officers were A.T. Davies and Ray Wilson, both of Dallas.

Hillery has served on the Foundation Board for a number of years and has provided "exceptional lead-

ership" in developing the state's financial resources for 4-H programs. Davison added.

Other Foundation officers elected include W.M. Streckert of Brownwood, district manager for Texas Power and Light Co., first vice chairman; Word B. Sherrill, Jr., owner of Sherrill Realty of Midland, second vice chairman; and Jim Morriss of Austin, executive vice president of Texas Electric Cooperatives, Inc., secretary-treasurer.

## Their Faith and Courage gave us One Nation Under God...

Nearly two centuries ago, a small group of men with everything to lose and possibly nothing to gain stood firm in their faith and their convictions when they affixed their signatures to a document the like of which has never been seen in all the history of mankind. Disregarding fear for their safety and, in some cases, their children's safety, they literally pledged "their lives, their fortunes and their sacred honor" in exchange for the many freedoms which you enjoy today, including the right to worship God in any way you choose. Avail yourself of this privilege for which they gave everything they had. Attend the Church of your choice!

...they are  
endowed by their  
Creator with certain  
unalienable rights;  
— Thomas Jefferson

"Righteousness  
exalteth a nation..."  
— Proverbs 14:34

## Paul Harvey News That Star-Spangled Banner

The American Flag was a do-it-yourself project in its beginning.

While the Continental Congress had adopted the "red, white and blue" in 1777, Americans continued to improve alterations.

In 1842, when James Fremont set out to survey what was to become Washington and Wyoming and California he carried a Flag of 13 red and white stripes but the stars were blue.

And the stars encircled an angry Eagle with arrows in his claws.

Before that expedition ended, he had substituted for those arrows -- a peacepipe.

Other Americans improvised modifications of our Flag to suit themselves.

The Flag-Custer carried into battle featured crossed swords on a blue background.

His militant ensign did not undo the Sioux.

Creative license has been disallowed now.

But the American Flag has

had to survive a lot of abuse. It's been burned in Iran and Pakistan, profaned in Cuba -- even disdained by restive homelands.

But it is still there. Indeed, a renewed reverence seems to have begun with our Bicentennial celebrations.

That was the year baseball's Rick Monday rescued our Flag from the fire at Dodger Stadium.

Recently, the star player of the United States Olympic team skated past the eyes of the world proudly draping himself in The American Flag.

Today millions of American Flags in thousands of cities fly half-staff in recognition of 53 of our citizens held hostage.

Flag Day, officially June 14, is the most important of all holidays on American Samoa.

The Benevolent and Protective Order of Elks was the first fraternal organization to mandate membership observance of Flag Day -- in 1907.

President Woodrow Wil-

son made it official nine years later.

President Harry Truman made it law in 1949.

But Old Glory has had to endure a lot of disrespect between then and now.

Why are Americans again respectfully closing ranks behind their Star-Spangled Banner?

Two reasons: The spoiled brats of the sixties are growing up.

And the national disillusion of the seventies has spent itself.

Now the world is televised for us in focus and Americans are re-re-reminded every day that, all things considered, there is no place like home.

Our United States of America is yet imperfect. Our homeland, even as each homestead, requires constant, year in and year out renovation, renewal and repair.

But for all that, ours remains the only land in the world where people are standing in line to get in -- instead of braving stormy seas in small boats dying trying to get out.

"Oh say, does that Star-Spangled Banner yet wave..."

It does.

The largest shrimp beds in the world, discovered in 1948 off Narssaq and in Disko Bay, Greenland, are fished night and day during the summer months, until ice blocks the fishing grounds.

Happy  
Birthday  
Sweet  
Sixteen!  
Lenchi

## Tips on Carpeting Help Add Quality

COLLEGE STATION — Carpet can add greatly to the warmth and comfort of a home, says Dr. Jane Berry, a housing and home furnishings specialist.

Dr. Berry is with the Texas Agricultural Extension Service, The Texas A&M University System.

To get quality carpeting suited to your needs, here are a few tips for consideration:

**CONSTRUCTION**  
There are four types of carpet construction, she explains.

**TUFTED** carpet is the most popular today. A machine punches the yarn through a pre-formed backing material, and the yarn is locked in place by a latex adhesive.

**WOVEN** carpet is made of pile yarns, weft yarns and warp yarns interwoven so all three lock together in one fabric.

**NEEDLEPUNCHED** construction is a flat abrasive-resistant sandwich of unspun fibers atop a pre-woven fabric core.

**FLOCKED** Carpet is chopped fibers applied with adhesive to a backing.

**SURFACE TREATMENTS**  
Many surface treatments are used on the four construction methods, Dr. Berry points out.

**LOOPED** carpet is tightly tufted and hard wearing--

best for high traffic.

**SHAGS** have a casual appearance and are meant for medium traffic areas.

**PLUSHES** have the look of luxury with an even-cut pile--perfect for low traffic. **SAXONY** has tightly twisted yarns, woven closely so long pile stands up.

**RANDOM** shear has all one-level loops with some cut--great for heavy traffic.

**HIGH - and LOW-LOOP-** ED pile is uncut and looks pebbly. It's very durable.

**FIBER TYPES**  
Carpet fibers range from the natural wool to the synthetics of nylon (the strongest), acrylics and modacrylics, polyester and polypropylene of olefin, the specialist says.

Manufacturers have minimized the drawbacks of the synthetics--the pilling, static and soil attraction--and have kept costs down.

**BACKINGS**  
Carpet today has two backings--a primary backing of sprayed latex and a secondary backing for dimensional stability.

The new man-made backings are strong, durable and impervious to termites, moisture, rot and mildew.

In general, the greater the density of the fiber and the more firmly it's anchored, the higher the carpet quality.

## Delicious Zucchini Part of Rounded Diet

Outdoor barbeque time is magic time, especially if it features summer squash in a vegetable dish created with culinary imagination.

This unusual recipe begins by sauteing chopped onion and green pepper in melted butter, with a touch of oregano. There's no substitute for the flavor of real butter, especially with vegetables fresh from the garden.

After the onion and green pepper are tender, add the quick-cooking zucchini which has been prepared by washing and paring into quarter-inch thick slices. When the zucchini is cooked to the crisp stage, stir in tomato wedges, and finally, shredded Cheddar cheese for a zesty addition to the vegetables. The ingredients are as follows:

**ZUCCHINI MILANO**  
6 servings  
2 tablespoons butter  
1/4 cup chopped onion  
1/4 cup chopped green pepper  
1/4 cup teaspoon oregano  
4 cups sliced zucchini (1/4-inch thick)

1 tomato, cut in wedges  
1 cup (4 oz.) shredded Cheddar cheese

Dairy Council home economists recommend that "Zucchini Milano" be part of a balanced meal which might include grilled sirloin steak, baked potatoes with butter and sour cream, baking powder biscuits, apple pie a la mode, and chilled milk.

A quick look at the menu items reassures us that all the food groups (from the U.S. Department of Agriculture's food grouping system) are included: steak from the MEAT group; potatoes, apples and squash from the VEGETABLE-FRUIT GROUP; biscuits from the GRAIN group; milk, ice cream, and sour cream from the MILK group; butter and pie from the HIGH CALORIE/HIGH FAT group.

Eating a variety of foods from the four main food groups ensures a nutritious diet, and the food grouping system provides an easy way to keep track of getting the nutrients you need.

## The Lighter Side

**Uh...The Pilgrims Did It**  
LEWISTON, Idaho (AP) — What is the Fourth of July? Ask a child.

"I think it's about the time when, a long time ago, they found some stuff they could light off and blow up. It was the Pilgrims, I think," said Jamie Waltarri, 13, of Clarkston, Wash., who was among those questioned by the Lewiston Morning Tribune.

"It was when they made the Declaration of Independence. It was in 1776," said Mary Kay Patton, 10, a young woman in the know.

"We learned that in school last year," she added. "We usually go to Grangeville every year and watch the fireworks."

Anne Gage, 10, Genesee, nodded. "That's right. I knew it was something like that."

"I'm not sure what it's about, but we might be going on a raft trip down the river," was the response from Terry O'Keefe, 10, of Asotin, Wash.

To Thomas Schratzenholzer, 11, Clarkston, the Fourth of July means "playing with firecrackers -- just going out at night, making a fire, having a picnic and throwing firecrackers."

"What started the fireworks tradition?"

"I think it was when we won World War II -- or maybe it was the Civil War or the first World War," Schrat-

zenholzer said.

**Lot Today, Home Tomorrow**  
ALBUQUERQUE, N.M. (AP) — With women supervising the projects and workers hammering around the clock, construction crews here and in El Paso, Texas, built houses from the ground up in less than 35 hours.

The instant house idea was conceived by the US Home Corp., which has branches in both Southwest cities. Work on the two houses began at midnight Sunday and the two crews finished within three minutes of each other Tuesday without using prefabricated or modular materials.

The Albuquerque crew, headed by Cherie Anderson,

completed a three-bedroom, two-bath house in 34 hours, 25 minutes and 58 seconds. The crew in El Paso, headed by Dawn Sinnott, put the final touches on a similar 1,200-square-foot house three minutes later.

Officials of US Home said the normal construction time for similar houses is 56 days.

"There were no snags, and exhaustion was one of the normal problems," said Ms. Sinnott of the work at El Paso. Ms. Anderson said her project encountered such problems as countertops that did not fit and a delay in getting a chain link fence delivered.

The two houses were to be sold at prices ranging from \$38,500 to \$50,000.

The earliest surviving world map, showing the New World discoveries of the 1490s, was drawn by Juan de la Cosa, the captain of Columbus' Santa Maria.

## HEALTH

Lawrence E. Lamb, M.D.  
**Pregnant woman's needs**

**DEAR DR. LAMB** - Is it really necessary for a pregnant woman to take prenatal vitamins when she has previously had eight and nine pound babies? I have several friends who believe that this is a factor in causing them to have big babies and they're now doing without them. They eat nutritionally and also have been taught that getting fresh air and exercise are good.

**DEAR READER** - It depends. Whether any woman needs additional vitamins or minerals depends entirely on how much she is getting in her diet and how much of the vitamins and minerals are actually absorbed. In general, most women do need a little additional help during pregnancy.

A baby does not become too large because of what the mother eats. His normal size is dependent upon inherited characteristics or his own genes. You can cause a baby to be smaller than its programmed weight by not eating enough, or not eating nutritionally, or by smoking cigarettes. Women who have really large babies are sometimes destined to become diabetics. Of course, the size of the baby also depends upon how long the pregnancy lasts. The point is well illustrated by the premature baby which is characteristically small.

Two of the main needs for improved nutrition during pregnancy are increased amounts of calcium because the baby's skeleton will demand it, and increased amounts of iron because the baby's blood needs iron to form its own hemoglobin for its red blood cells.

## POLLY'S POINTERS

Polly Cramer  
**Bugs in the lettuce**

**DEAR POLLY** - Can you or one of the readers please tell me how to clean fresh greens such as spinach, kale and garden lettuce quickly while washing ALL the aphids away at the same time? I have tried salt and vinegar but I still have to pick each leaf over to be sure they are bug-free. - SHARON

**DEAR SHARON** - I do not know of a quick and easy way to do this and would be as pleased as you to get an answer. I soak such greens in a sink full of cold water and still go over them leaf by leaf. An answer, anybody? - POLLY

**DEAR POLLY** - To keep my tall boots from falling over and sagging or possibly becoming damaged at the tops, I slip a metal shower curtain hook through the hole in the boot zipper pull, and then hang both boots on one hook. Such hooks can be fastened to almost anything but I hang mine over my shoe rack. - MAXINE

**DEAR POLLY** - My husband and I work and do not have much time for our flower beds, but we have solved the problem and would like to share it with others. My husband bought gray cement sewer tiles and buried them in the ground so that only the tops show and look like flower pots. We spaced these the necessary distance apart all around the house and planted our shrubs in most of them with a few left in front, where we plant blooming flowers each year.

We put rocks around these "pots" and a retainer of wood around the outside to hold the rocks in place. We like rocks and made one section into a large rock garden. I keep several things in the rock garden for color, such as driftwood, frogs, mushrooms, etc. It is a conversation piece and our garden does not need much work to look nice all year round. - FERN

**DEAR POLLY** - After reading Lillie's Pointer for getting more juice from a lemon, I decided to send mine to share with readers who have microwave ovens. Put a lemon in such an oven (reheat setting) and leave for 20 seconds. You will be amazed how easy it will be to squeeze and how much juice you will get. - FRANCES

Polly will send you one of her signed thank-you newspaper coupon clippers if she uses your favorite Pointer, Peavee or Problem in her column. Write POLLY'S POINTERS in care of this newspaper.

I'm sending you The Health Letter number 4-6, Balanced Diet. Recommended Daily Dietary Allowances (RDA). Other readers who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

Now during an acute attack, as may occur with inflammation of one of the little pockets, you have to be very careful about your diet. If you happen to be bleeding from a diverticulum, your doctor may not even want you to have anything by mouth temporarily while he's getting that problem under control. Once the acute emergency situations are over, most doctors today feel that many patients with diverticulosis are better off to increase the bulk in their diet. There's good evidence that bland diets that don't contain any bulk can actually aggravate the condition. It's thought that these diets contribute to the spastic colon problem.

For that reason, with your doctor's concurrence after you're over an acute attack, you might want to include more bulk. You could do this by using Metamucil if he doesn't want to try using foods that provide bulk for you.

**DEAR DR. LAMB** - My husband recently had a fertility test. The results were virtually no live sperm. Is there anything that can be done to correct this? My husband is 34 years old and has never had any children.

**DEAR READER** - It depends entirely on the cause. A common cause for very low sperm counts is the presence of a large varicocele, a varicose vein of the testicle. A normal circulation is important to maintain the proper temperature. When a varicocele is present, the temperature is too high. In those cases the varicocele can be removed and the function markedly improved.

It's also been discovered in recent years that fertility pills that women use to encourage pregnancy can also be used in some cases of infertility in men. This is not true in all cases and whether it can be used depends on what the doctor finds in his examination.

I'm sending you The Health Letter number 5-6, Diverticulosis, which will give you a more complete explanation of this problem and what to do about it. Other readers who want this issue can send 75

## HONOR AMERICA WORDS OF FREEDOM

In the future days, which we seek to make more secure, we look forward to a world founded upon four essential freedoms: Freedom of speech and expression, freedom of every person to worship God in his own way, freedom from want, freedom from fear. That is no vision of a distant millenium. It is a definite basis for a kind of world attainable in our own time.

- Franklin D. Roosevelt
