## MEETS SUDDEN DEATH IN PIT

W. H. Rayzor Crushed by Falling Bank in Sand Pit—Three Other Men Hurt.

Wednesday morning at 11:30, while preparing to haul sand from the pit near the Bradley home, W. H. Rayzor was caught under a falling bank of dirt and he lost his life. Three other men were also caught.

Geo. Rayzor, brother of W. H. Rayzor, is badly hurt.

Chancy Tice received injuries on the left leg, but is able to walk.

W. L. Sain received slight injuries on the left leg.

When the crash came, which was without warning, all of the men were borne down with the tons of dirt. Sain quickly extricated himself and helped Tice to get out from under the dirt. Geo. Rayzor, though under a heavy load, succeeded in pulling himself out, and the three rushed to the assistance of W. H. Rayzor. His body with the exception of the left arm was completely covered up. His left side was against the wheel of the wagon and showed a number of contusions. It is thought that death was instantaneous. His body was recovered by friends who rushed out to the scene of the accident. The body was placed in an auto, and removed to E. B. Black Company's undertaking parlors.

The wife and family of Mr. Rayzor were prostrated with grief when the sad news of the accident was phoned them. Mrs. Rayzor started to the scene of the accident but was turned back by advising friends to her home, where she and the children remained until the body was dressed.

The remains were removed to the residence at 5 o'clock. Relatives and friends in other sections of the state were notified. The funeral will not take place until tomorrow afternoon, waiting for the arrival of his relatives.

The deceased leaves a wife and seven children, four boys and three girls, to mourn his untimely death. This is surely a sad blow to the family, and they have the sympathy of the entire community in this their great bereavement.

### Wins Trophy Cup.

Allen G. Bell, a local marksman, won the silver cup at the Roswell meet recently held in that city. A thirty bird event was put on and Mr. Bell tied the champion in the number of rocks broken. On account of the high wind the score was not high, both getting 26. A try-out was again held and 15 birds were thrown, each bringing down 13, thus tying again. In another event, Mr. Bell won and he was awarded the beautiful silver cup. It is on display at Ray's window.

### Section Foreman Shot.

Section foreman Cooper at Umberger was shot and dangerously wounded by a Mexican laborer Wednesday evening just before the train from Amarillo, due here at 6:30 p. m. passed that point. He was placed aboard and brought to this place for medical attention. Dr. W. A. Price was called in. Upon examination, it was found that a .32 calibre ball had entered his body just

to the left of his breast bone and had passed through the chest cavity, lodging under the left arm. The ball was extracted and the wounds dressed. The man suffered during night, but the attending physician thinks he was some better Thursday morning. Friends removed him from the Schrimsher lodging rooms to Carl's boarding house during the day, but the Santa Fe had him shipped to the hospital at Amarillo in the afternoon.

The Mexican who is charged with doing the shooting was arrested a few hours afterwards at Canyon City and was lodged in jail.

The man was unconscious for some hours and was unable to give any information as to his friends or relatives.

### How to Find the Comet.

Get up at 5 o'clock a. m., and take yourself to an east window, search the horizon about where you might expect the sun to rise. The comet should be found about 10 degrees above the line and its tail should appear about 35 degrees long. The sight is worth the early rise.

## FIRST SNOW OF THE YEAR

All The Panhandle Covered By Gentle Fall—Stock Did Not Suffer.

Friday evening just at dark, a gentle rain began to fall at Hereford, coming from the northeast. After a good shower had fallen, the wind ceased and one of the prettiest snow falls ever seen in this part of the state was enjoyed. So quiet was the storm that many of our citizens did not know snow had fallen until Saturday morning. The trees, fences and buildings were covered from 2 to 4 inches with a white mantle. The trees, under the weight, were bent over and presented a picture of beauty, and some of them were broken by their burden. The thermometer registered 29½ degrees and on Saturday night fell to 28, when the real first freeze was recorded. Stock on the range did not suffer. Cattlemen say that the rain and snow will keep the range good all winter. The total precipitation was half inch. Reports from all over the Panhandle give from one to four inches. A one inch fall was recorded at Amarillo; three inches was registered at Farwell; two inches was reported from Silverton; three inches from Friona, Parmer Co.

### Off To Farwell.

A crowd of Hereford attorneys and witnesses are at Farwell, county seat of Parmer county, this week. Attys. Jno. P. Slaton, Carl Gilliland, E. W. Dameron and R. W. Baird, Henry Hubbard, Geo. T. Higgins and others,

### Demos. Win in Arizona.

Phoenix, Ariz., Oct. 24.—Progressive democracy won overwhelmingly in Arizona's first state direct primary election today. Returns received at 8 p. m. indicate that George P. Hunt, of Globe, who was president of the Constitutional Convention, and the knowledgeable leader of the progressive democratic element, has been nominated for governor by a 3 to 1 vote.

Eugene S. Ives, of Tucson and Eugene Brady Oneill of Phoenix, are nominated for the United States senate and Mulford Winsor, of Yuma, for representative in congress.

Mark A. Smith, eight times Arizona's delegate to congress, and a candidate for the democratic nomination for the senate in today's primaries, was snowed under in Maricopa, the most populous county in the state, and probably will be the low man of the five senatorial candidates.

The primaries passed off quietly, no disorder being reported from any point. The vote was light compared to the election for delegates to the constitutional convention, incomplete returns showing an estimated total vote for the state of 18,000. Of this vote, the democrats take 12,000 and the republicans 6,000. Owing to the long and complicated ballots it will probably be impossible to give out the complete returns for several days.

### Burn The Weeds.

Several citizens have asked The Brand to publish a notice calling attention of the road overseers and county commissioners to the condi-

tion of some of the roads. The weeds along the roads are liable to be fired and a wind would start a prairie fire and destroy much of the grass and possibly a number of farm houses. Something should be done at once. Don't wait until a big fire gets out.

Mrs. C. H. Churchill and daughter, Miss Ruth have returned home after a visit of some months with friends and relatives in the northern states.

### Rodgers May Reach El Paso Sat.

San Antonio, Texas, Oct. 24.—Cal. P. Rodgers left here this afternoon at 12:30 o'clock on his trip westward to California via El Paso. After being in the air an hour, he reached La Coste, fifteen miles southwest of San Antonio in Medina county where engine troubles forced him to come down.

He made a good landing and at 2:30 o'clock was off to the west again. He reached Spofford in safety and will spend the night there. He expects to reach El Paso Saturday.

## ERECTING DERRICK FOR BIG WELL

Work On The Baskin-Hester Irrigation Well Begun—Derrick Being Built This Week.

Actual work has been started on the big derrick for irrigation well on the Baskin-Hester quarter east of town. The derrick will be strongly built, being 16x16 feet at the bottom and 42 feet high. A small auxiliary 6-inch well will be drilled to obtain a water supply for the rotary drill. As soon as the derrick is completed the big drilling machine will be set up and the actual boring started. A 24-inch hole, 150 or more feet deep will be drilled, and the well is expected to furnish 1,000 gallons of water. Baskin and Hester intend to seed a part of their acreage to alfalfa, some will be planted to orchard, and the rest left to grain crops.

### The Weather.

## BALL RETIRES FROM RACE

Charge Of Endeavoring To Use Affiliation For Political Preference Directly Responsible.

Houston, Tex.—Hon. Thomas H. Ball in a public statement tonight withdraws from the race to succeed Bailey in the United States Senate.

Ball says that he retires because he is charged with insincerity. At the Waco prohibition convention he said that he would not use the prohibition cause for political preference, and now that he is charged doing so, he prefers to quit the race rather than injure the cause of prohibitionists by continuing in it.

Considerable surprise was manifested at the withdrawal of Col. Thomas H. Ball from the race for United States senator, to succeed Senator Bailey. The unexpected action occasioned surprise not only in political circles generally, but to the friends and admirers of Col. Ball among the prohibitionists.

Judge W. F. Ramsey, associate justice of the Supreme Court and candidate for governor, is a strong friend to Col. Ball, and said so when questioned, but declared it more than likely that he would support Hon. Thomas M. Campbell in the event the Palestine man should announce.

Comptroller Lane was also surprised, and said that he had been for Ball, not only for the Senate but for governor. He said that many prohibitionists would now favor Campbell, but that if he did not make the race he was for Morris Sheppard.

Others seem to think that the withdrawal of Ball means that Senator Bailey will again make the race for re-election, but a strong admirer of Bailey's declared that such a course would be suicidal for the junior senator.

### Lancaster Suggested For Congress.

Lubbock, Tex., Oct. 23.—The people down in this part of the country have very seriously determined that this part of Texas is entitled to one of the two congressmen at large, and have without exception, so far as your correspondent knows, centered on Judge J. E. Lancaster of Plainview, as the proper man to make the race. Letters voicing this sentiment have been written to the Judge, urging him to run and while he has so far failed to make positive declaration that he would make the race, it is reported on what seems to be good authority that he will in all probability make the race. There isn't a more popular man in this section, but what makes his candidacy of especial concern to this part of the country is his deep interest and thorough knowledge in the matter of irrigation, and his equipment for effective work in the matter of having the state and federal government co-operate in the matter of developing irrigation in Western Texas, particularly in the shallow water belt.

### Triples Born.

Amarillo, Texas, Oct. 22.—Triplets were born yesterday to Mr. and Mrs. J. J. Green, two miles east of this city. There are two boys and one girl. The boys weighed 6½ and 6½ pounds, and the girl 5½ pounds.

## Our Guarantee

We have a word to say to our subscribers and others. It's worth while, we think. If you will read the ads in The Brand from week to week we will guarantee that you save during the year many times more than the price of the subscription. Often you may be able to save the Dollar in one purchase. You can save from \$1.00 to \$10.00 this week, if you read the ads and make purchases accordingly.

After you read the ads and make the purchases, count up what you have saved. It pays to take The Brand and pay well to read the ads. If you are not a subscriber, often when buying a dress, a suit, an overcoat or a ton of coal, you may fail to learn when and where you can save a dollar—and a dollar saved is a dollar made.

**Serious Wreck Near Amarillo**  
Amarillo, Tex., Oct. 22.—A head-on collision occurred on the Santa Fe Friday night shortly before midnight between the fast freight, No. 33, westbound, and a stock train loaded with a consignment of stock from Tulsa en route to Kansas City.

The wreck occurred about 1 1/2 miles west of St. Francis and eleven miles from Amarillo.

A half dozen cars were wrecked, most of which were loaded with sheep. The loss of sheep will amount to somewhere from 200 to 300 head and 39 head of cattle were lost.

Engineer M. E. Smith and Engineer Bowers of this city were injured by jumping, but their injuries are not considered serious. One of the brakemen was also injured slightly. H. C. Smith of Amarillo was conductor on No. 33 and Conductor Klinger, also of this city, had charge of the stock train.

The wreck caused a serious delay in the passenger service and the morning train due here at 8:30 did not arrive till 1:20 in the afternoon. The wrecking crew was called out from Amarillo Friday night and did not return here till 8 o'clock Saturday evening.

The trains were drawn by two of the large type engines, Nos. 1165 and 1191. Both were badly damaged and it will require several weeks to put them back in commission.

The cause of the wreck is being investigated officially, but as yet the responsibility has not been placed.

**Commercial Secretaries Meet.**

Dallas, Texas, Oct. 16.—The Executive Committee of the Commercial Secretaries & Business Men's Association met in the rooms of the Chamber of Commerce today. No stronger assembly of business men ever came together in Texas for the discussion of the upbuilding of the commonwealth. Heads of the most important business and industrial enterprises of the state were present at the meeting and discussed with the enthusiasm that is usually manifested only in private business the questions that would lead to the development of Texas.

The following committee was appointed to select the members of the Welfare Commission, which was launched at the annual meeting of the association October 5th: R. C. Duff, Houston, Chairman; Captain B. B. Paddock, Fort Worth; E. S. Hughes, Abilene; O. E. Dunlap, Waxahachie; S. A. Lindsey, Tyler; W. H. Featherstone, Henrietta; F. S. Hastings, Stamford; J. Hirsch, Corpus Christi and B. B. Cain, Dallas.

Although a cordial invitation to

move to Dallas was extended by the Chamber of Commerce of that city, decided to continue the headquarters in Fort Worth. J. A. Arnold was unanimously elected Secretary-Manager for the coming year, with an increase of \$500 per annum salary.

Report of the Secretary-Manager showed that the association had expended last year \$32,000 and plans were outlined for an expenditure of \$52,000 for this year with a general broadening of the work along all lines. Twenty-eight thousand dollars of the outlined expenditure was pledged as follows: Fort Worth, \$5,000; Dallas, \$4,000; Houston, \$4,000; Beaumont, \$1,250 and Corpus Christi, \$500; the remainder by smaller towns represented.

**Oil Test Well at Vernon.**

From The Record.

Papers for the drilling of a 2,000 foot test well for oil or gas were signed this morning at 11 o'clock between representatives of the Board of Trade and W. G. Long of Pittsburgh, Pa.

The site selected for drilling is near the line of the Boger land and the farm of S. A. Castlebury in the southeast corner of section 1, block 16 of the H. & T. C. surveys, about one mile west of the section house near the Denver railroad bridge over Pease River, something like four miles from Vernon.

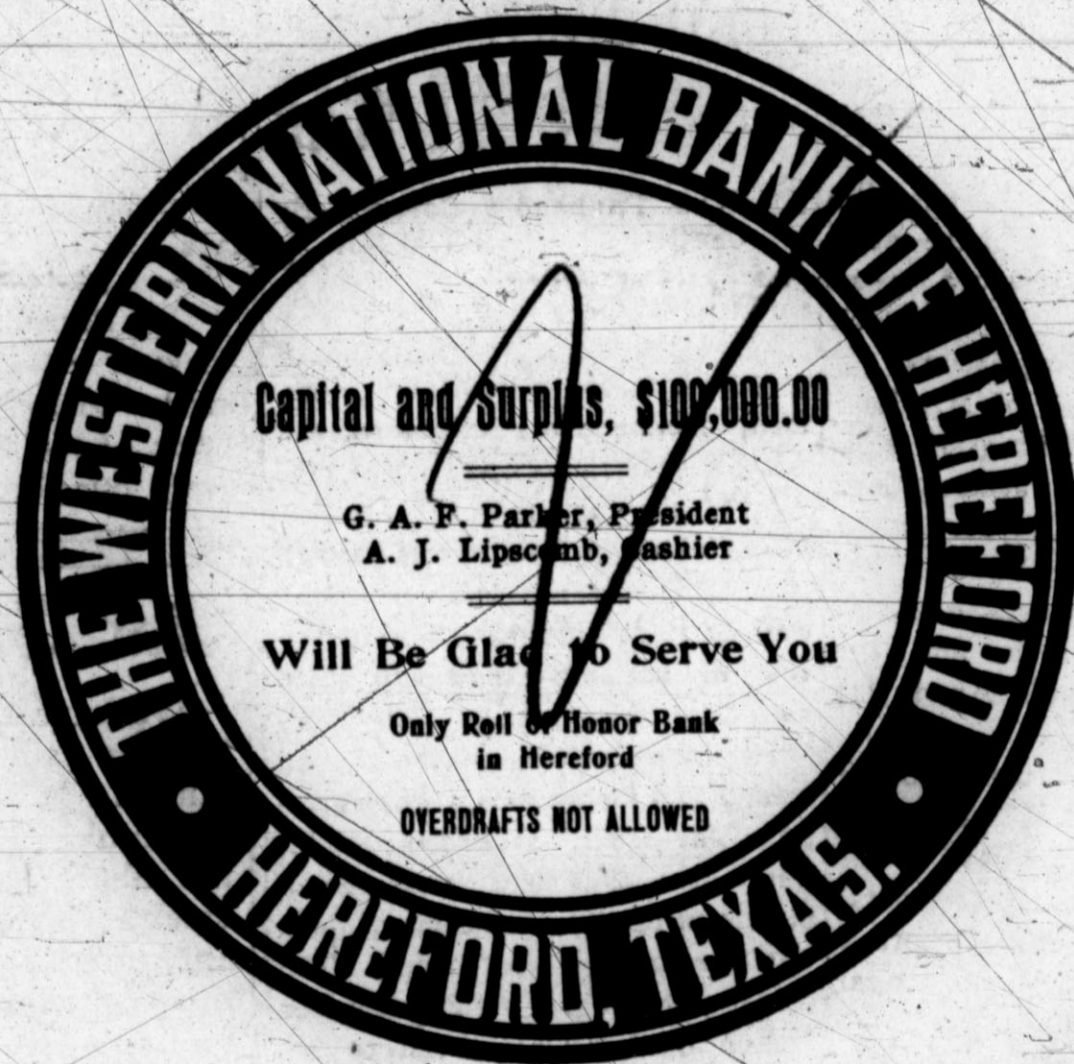

Leases amounting to 3,028 acres have been secured from Carl Zipperie, W. J. Penton, W. M. Boger and S. A. Castlebury and these, together with a cash bonus of \$3,000 when the well is sunk to a depth of 2,000 feet, unless oil or gas are found in paying quantities at a less depth, were the inducement offered by the Board of Trade for the test well.

**The Heroic Remedy of the Californians.**

The people of California have not, in adopting the initiative, referendum and recall, deprived elected officers of the power to make and execute laws. What they have done is to reclaim their own right to make laws which the Legislature neglects or refuses to make, annul any that it does make, and to cancel the commission of authority of any servant who, in their opinion, shows himself incompetent or unworthy. The power which they have reclaimed is inherent in them, according to all political philosophers. They delegated a part in this power, but alienated none of it whatever, so that in reclaiming it they are only annulling a grant that has not ceased to be terminable at their own pleasure.—Dallas News.

The Declaration of Independence might throw some light on this subject, and for the benefit of those who think that these reforms mean "mobocracy," the following quotation is given:

"We hold these truths to be self-evident; that all men are created

equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute new government, laying its foundation on such principles, and organizing its powers in such form as to them shall seem most likely to effect their safety and happiness."

Upon these truths the national and state governments have been established and people (the governed) have delegated by their constitutions certain powers to the governing power—that power being vested in a legislative judicial and executive body. Is it not sound reason to conclude that when the servants of the people fail or refuse to perform their sworn duties that they should have the right to recall such unfaithful servants? The initiative and referendum is not a form of government,

but a more direct means for the people to express their wishes either in asking for the passage of some new law or in approving or disapproving the acts of the legislative body. All those who still think the people are unable to think for themselves and to govern themselves are opposed to such direct methods of government. Therefore The Brand is not in the least surprised that President Taft, Cardinal Gibbons and Arch bishop Ireland are opposed to such measures.

### The Bible in School.

For the past several days there has been considerable discussion in Hereford as to the right of the teachers to read the Bible or offer prayer in the public schools. That the patrons may satisfy themselves as to the legal status of such matters as reading the Bible, offering prayer and singing in the schools. The Brand publishes below a few extracts from the decision of the Supreme Court of the state of Texas:

The case was sent up from Corsicana and was one in which the appellees brought an action for mandamus against the trustees commanding that they desist from conducting certain exercises in the school, these exercises consisting of reading the Bible, offering prayer, and singing religious songs.

The evidence shows that E. H. Church did not believe in the inspiration of the Bible, that J. B. Jackson and Mrs. Lita Garrity were Roman Catholics, and that M. Cohen and Abe Livine were Jews, all having children in the school. J. W. Cantwell, the superintendent, testified that the teachers read selections from the King James' version of the Bible, that they lead in prayer repeating the Lord's Prayer, the children saying it in concert, that songs of a religious and patriotic character were sung. He also testified that none of the children were compelled to read the Bible, repeat the prayer, nor join in the singing, but were compelled to be present or marked "tardy."

Judge Brown of the Supreme Court rendered the decision and said:

To hold that the offering of prayers, either by the repetition of the Lord's Prayer or otherwise, the singing of songs, whether devotional or not, and the reading of the Bible, make the place where such is done a place of worship, would produce intolerable results. The House of Representatives and the Senate of the state Legislature each elect a chaplain, who, during the session, daily offers prayers to Almighty God in behalf of the state, and in the most express manner invokes the supervision and oversight of God for the lawmakers. In the chapel of the State University Building, a religious service, consisting of singing songs, reading portions of the Bible, with prayers and addresses by ministers and others, is held each day. The Young Men's Christian Association hold their services in that building each Lord's Day, and the Young Women's Christian Association has a like service in another public building. At the Blind Institute on each Lord's Day prayers are offered, songs are sung, Sunday school is taught, and addresses made to the children with regard to religious matters. Devout persons visit our prisons and offer prayers for those who are confined. An annual appropriation is made for a chaplain for the penitentiary; in fact, Christianity is so interwoven with the web and woof of the state government that to sustain the contention that the Constitution prohibits reading the Bible, offering prayers, or singing songs of a religious character in any public building of the government would produce a condition bordering upon moral anarchy. The absurd and hurtful consequences furnish a strong argument against the soundness of the proposition. The right to instruct the young in the morality of the Bible might be carried to such extent in the public schools as would make it obnoxious to the constitutional inhibition, not because God is worshiped, but because by the character of the services the place would be made "a place of worship."

There is no difference in the protection given by our Constitution between citizens of this state on account

of religious beliefs—all are embraced in its broad language, and are entitled to the protection guaranteed thereby; but it does not follow that one or more individuals have the right to have the courts deny the people the privilege of having their children instructed in the moral truths of the Bible because such objectors do not desire that their own children shall be participants therein.

This would be to starve the moral and spiritual natures of the many out of deference to the few.

The full and complete argument and decision may be found in the Southwestern Reporter, Volume 109, pages 115 to 118.

# TEXAS NEEDS GREAT MEN

## VIII. PROPAGATION.

CAPTAIN John Smith brought the seed bag of Europe to America and Luther Burbank propagated new varieties of agricultural products. The songs of the sower and the joys of the reaper have inspired civilization since the beginning of creation and the progress of every country on the globe has been advanced by men who transplant and develop products adapted to the soil and climate of localities.

AGRICULTURAL DEVELOPMENT.

Much of our land has not yet felt the modifying influence of human skill in shaping its agricultural destinies and we need men to bring to Texas products peculiarly adapted to our natural surroundings and to make new products spring into life. In no country on the globe are the processes of nature so easily interpreted and the veins of new and bountiful industries so easily tapped as in Texas and men who can reason with nature will find a profitable field of endeavor in agricultural pursuits. Texas needs great men.

Up to and including Thursday of this week there had been shipped from McLean point two hundred and fifty-nine car load of watermelons. It is believed the total shipment will reach about two hundred and seventy. There is probably not another town of our size in the world that can boast of such an enormous output of this product.

Not only has the aggregate number of cars been especially large, but the net return to the melon farmer has been correspondingly good, in many instances, where good seed were secured, as much as a hundred dollars an acre accruing to the grower.

W. C. Cheney, who owns a tract of land known as the Rush Addition to McLean, planted one acre to this crop this year and when marketing time came he kept a careful record of his cash returns. On casting up the final he finds that he sold \$107.50 worth of melons.

Off the same ground he gathered about four hundred pounds of maize and eight bushels of peanuts. He has also hauled several loads of melons to his hogs, quite a few of them getting ripe at the time there was no market.

This we consider an excellent record, and while it is unusual yet it goes to show what intensive cultivation and careful handling will do in this line of endeavor.

Last year there were 101 car loads of melons shipped from here. This year 270. If the ratio keeps up there is little doubt that one or two years will witness McLean taking her place as the foremost melon shipping point in the world, the size of the town notwithstanding.—McLean News.

**Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

**Good For Sore Throat**

When your throat becomes slightly irritated—you neglect it for a few days—it increases in severity and becomes so sore you can hardly swallow—

Be prompt in your treatment—you don't want it to become chronic and probably end in Tonsillitis or Quinsy—that would mean either an operation or prolonged treatment, and much suffering.

Purchase a bottle of

**Nyal's Sore Throat Remedy and gargle the throat thoroughly—it allays all irritation, soothes and heals the inflamed membranes and prevents further infection**

Unlike most throat remedies Nyal's Sore Throat Remedy is absolutely safe—while most effective as a gargle it is not injurious if swallowed.

Twenty-five cents per bottle.

When we had a chance to get the exclusive selling agency for Nyal Family Remedies we jumped at it. They are known among all druggists as the highest quality line on the market, and are prepared by a great firm of manufacturing chemists, famous for fifty years.

From The Dimmitt Plainsman of Friday, Oct. 20.

Last Saturday evening while cutting feed on his place six miles northeast of Dimmitt, T. E. Talley got his hand caught in a binder machine and was almost cut off. He was brought to this city and was given medical attention and the hand can be saved.

The same evening Mr. Hanlan, while working on the same binder, got a leg almost tore off, but the limb was saved.

C. Greer, while cutting feed with a slide, slipped off the slide and a large gash cut in his left leg.

H. C. Jackson from three miles west was in town last Wednesday.

Rev. James T. Bell, a missionary worker among the Comanche Indians in Oklahoma, is visiting his parents, Mr. and Mrs. B. T. Bell in this city.

Roy Shepard, teacher of the Cleo school, spent Saturday and Sunday with his folks in Dimmitt.

Mrs. Chas. Clifton and little daughter, Cecil, of Dimmitt, Texas, arrived here Saturday for a visit with relatives. This is Mrs. Clifton's first visit here since they moved to Texas six years ago.—Powersville, Mo., Record.

Mrs. C. F. Kerr and Mrs. E. S. Ireland returned last Monday from Houston where they had been attending the grand chapter of the Eastern Star lodge. They were accompanied from Hereford by Judge C. F. Kerr in his auto.

Mrs. J. T. Gilbreath and children, who have been spending the summer in Tennessee, returned to their home ten miles south of Dimmitt last Sunday. R. R. Gilbreath accompanied them from Hereford.

**Texas Industrial Notes.**

The baking powder factory at Decatur, which was established at that city by the activity of the Commercial Club, has proved a success and its output is not equal to the demand for its products.

The Marlin Commercial Club and Business Men make a Trade Excursion every Friday night to some school house in the county and give a free moving-picture show. They show pictures and make speeches in regard to Marlin's good points as a trading center.

It is estimated that 125,000 bales of cotton will be exported from Texas to Japan this year.

The Amarillo Chamber of Commerce has succeeded in getting the experimental farm near there turned over to the United States government for demonstration work. The farm contains 120 acres.

There are thirty-seven foreign vessels in the Galveston harbor to be loaded with cotton for European and Asiatic ports.

The present forest area of Texas is about 30,000,000 acres and the estimated merchantable timber is about 27,000,000.

The estimated true wealth of Texas increased from \$2,322,200,000 in 1900 to \$3,680,000,000 in 1910.

As result of labor on the part of the Spur Commercial Club, a state experimental farm has been established near that city.

Don't fail to make allowance for slight exaggerations of pranks at school.

Don't accuse the teacher of undue favoritism. If she is kinder to one child than to another, it's because that one does not take advantage of the liberty allowed him. This is simple justice.

Don't tell the teacher that Willie will not lie. She may know better.

Don't condemn the teacher without a fair hearing. This is accorded to even the worst criminal. There are usually two sides to the story.

Don't send a scathing note to the teacher by Nellie, the contents of which she may know. Her aggressive look of triumph is not soothing and the teacher is only human.

Don't consider the teacher as an enemy. If you just must do something, put on your best bib and tucker, go to the school and spend the afternoon with her. After the children have left, say your little say. You may be surprised at how little you have to say by that time.

Don't make unfavorable comments upon the methods of the teacher in the presence of your child. Send him to bring in the coal while doing so, if it must be done.

Don't expect the teacher to understand Jimmie's disposition the first day. You have studied it for six years and there are still kinks in it which you have failed to straighten out.

Don't plead lack of time to visit the school. You can put in the time to no better advantage.

Don't reproach the teacher with the fact that "Tommy has not learned a single thing the entire term." She is not responsible for his lack of brains.

Don't condemn the school because

## Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my housework."

## TAKE The CARDUI Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients, especially on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and happiness.

If you suffer like Mrs. Fincher did, take Cardui. It will surely do for you, what it did for her. At all druggists.

### CAN'T BE SEPARATED

Some Hereford People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them. And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

J. D. Burkett, 300 E. Second St., Hereford, Texas, says: "I can strongly recommend Doan's Kidney Pills which I got from Woodburn & Son's Drug Store. I suffered acutely from sharp twinges through the small of my back, especially when I stooped or attempted to lift. I was caused much annoyance by a frequent desire to pass the kidney secretions and these troubles all showed that I had kidney complaint. Since I used Doan's Kidney Pills, I have been quite free from these difficulties. I have often suggested a trial of this preparation to other persons afflicted in a similar way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Efficiency in Legislation.

The standard of efficiency in every profession and occupation has increased almost a hundredfold during the past decade. The doctor and the lawyer have been compelled to double their research work and course of study before they are admitted to practice and the business man must become more thoroughly conversant with the problems of industry before occupying positions of trust and responsibility, but with the legislators we have had no standards. Our law-givers feel off laws like a jovial farmer spinning yarns at a crossroads store and we plod along behind them as patiently as a plow boy who hopes some day to become President, but the signs of the times indicate there is a better day coming in Texas.

Candidates who propose to mount the stage of ignorance and prejudice and win their election by an ambitious flow of words, will find themselves behind the times when they face the public in 1912. The man who cannot produce specifications for the development of the resources of the state and his district will find himself without an audience during the campaign and without votes on election day.

The Fruit and Truck Growers Association meets on the first Saturday of each month. You are invited to attend. The place—county court room; time 2:30 p. m.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? Sold by all dealers.

### Slap Shots.

When a dog gets whipped he snaps at everything when cornered, even at his friends.

Twelve men may be required to form a jury, but only one woman is needed to render a verdict.

### HEREFORD AGAIN TROUNCES CANYON

For the Second Time And the Second Game of the Season the Hereford Boys Wear the Laurels.

In the return game of foot ball between the West Texas Normal of Canyon and Hereford, which was played Tuesday on the Canyon grounds, Hereford came off with the big end of the score. The big end of the score was not very much larger than the small end, but was enough to count a victory.

The Hereford team was identically the same as that used in the previous game, but the Canyon line up had been shifted and changed a great deal. The changes made in the Canyon team had so changed the team that the ball played in no way resembled that played in the other game. To say that the Canyon team had greatly improved is a very mild way of expressing it.

Hereford won the toss and chose the west goal and Canyon kicked. Hereford had no luck at line bucks or end runs, so after making her distance twice the ball went over. Canyon fared better, still during the first two quarters the ball was kept away from the danger zone and neither side scored. The playing during the half was decidedly in favor of Canyon. At the beginning of the second half Estes kicked the ball over the goal and was forced to kick over. On the second kick the ball was touched before going outside. Canyon's full returned the ball within bounds, but fumbled it upon which it was secured by McBride of Hereford, who went over for the first, last and only touchdown of the game. Goal was missed. Score Hereford 5, Canyon 0. Canyon chose to kick, but Here-

ford returned the kick, and it was Canyon's ball on Hereford's 35 yard line. Canyon carried the ball for several first downs, but lost it on downs. Hereford attempted an on side kick, but the line leaked and the kick went wild and was secured by Canyon who had a clear track to the goal and the only thing that prevented the score was that the Canyon man could not run fast enough. He was downed after going thirty-five yards by Estes and the ball was on Canyon's fifteen yard line. Hereford took a brace and held for two downs. Canyon essayed a drop kick and Black booted it square between the posts. Score Hereford 5, Canyon 3. No more scoring was done during the quarter nor in the fourth quarter and the game ended with the ball in Hereford's possession on her own 50 yard line. The game was clean thruout and was marked by not having time taken out. Less than three minutes was taken out during the whole game.

**Let Him Without Sin Cast the First Stone.**

I am frequently impressed with the inequalities of life, especially in its application to the unfortunate women, who, having lost all that life holds dear to them, through the perfidy and the bestial inclinations of men, are hounded and pursued by the inexorable arm of the law until the worn out body finds rest and surcease from sorrow in a pine box in the potter's field, back in the furthest corner of a cemetery. While she is pursued and fined regularly to fill the exchequer of State, and furnish food and clothing for the officers of the law, the one guilty of her violation, is perhaps, the husband of a pure sweet girl, secure in his social position, surrounded by friends and genial companions. Is it a wonder that there is bitterness and desperation down where the red lights glow, and that society is hated, and God is cursed? Do you blame these unhappy women, who stepped aside in the morning of their youth yielding to the insidious tempter, when the blood ran hot, and the ear was turned to the sweet words of flattery and the irresistible charm of whispered love, and the seductive influences of men skilled in the ways of the world, familiar with the desires and longings of a poor girl's heart. I have no patience with this persistent persecution of the "spoiled doves," whose hopes are dead, whose faith is gone, and who live a life of anguish, a constant hell, from which there is no escape. Let the law do a little sparing upon the wicked men who destroy the souls of girls, and who patronize their wantonness, and let the Magdalenes have a little rest for just a little while.—J. R. Rinson, Jr. in Cleburne Enterprise.

**Wheat, Cotton and Maize.**

One may gain a knowledge of the varied products of Crosby county by checking over the outbound freight

at the Crosbyton railway depot. Here are some of the shipments that have been made during the past week:

Two cars of wheat, two cars of cattle, a number of cotton shipments and one car of milo maize.

Wheat and oats have brought considerable cash into the country this year, although these crops were short. Cotton is being held for higher prices. Maize and kaffir corn are beginning to move and will bring in the cash. We have hundreds of thousands of bushels of such surplus feed.—Crosbyton Review.

**Mrs. Matlock Dies Suddenly.**

Mrs. Matlock, mother of Mrs. J. E. Kelly, while on the train returning to her home at Quanah, Texas, died suddenly Wednesday night. Mr. Kelley, editor of the Recorder, received a message of the sad occurrence, about 9:30 o'clock p. m. and made preparations to leave at once for Quanah. Mrs. Matlock had been on a visit to Mr. and Mrs. Kelley for a week, and had not been well for several days. She was however able to take the train and no intimation was given that the end was so near.

Mr. and Mrs. Chedister have returned from Fairfield, Iowa, where they have been on a visit. They were accompanied on their return by Mr. and Mrs. Johnson. Mrs. Johnson is a grand-daughter of the Chedisters.

Rev. D. W. Hawkins and family of Ocheltree were here over Sunday visiting friends and relatives. Mr. Hawkins, before entering the ministry, was business manager of The Brand. The family has many warm friends in this city and it is hoped that at some time they may be able to make Hereford their home again. They left Monday for Dallas to visit relatives.

J. W. Riggins, a prominent citizen and former mayor of Waco, passed thru Hereford yesterday and stepped off the train to enquire, if there were any real estate men on the platform. On being introduced to one, he said he and his traveling friend had been admiring the country as they came up the line and wanted to know something about the land.
