HEREFORD, TEXAS, FRIDAY, MAY 31, 1912

NUMBER 17

## CANDIDATES SHIFT PLACES

Heavy Voting Change Places of Several Candidates and Surprise Friends.

Even the friends of some of the candidates in the Contest were surprised Monday morning when the count was finished by the committee. Some of the candidates have been showing a gradual growth in their strength and ability to get votes. For the first time in the Contest, Miss Eddith Smith takes the lead, Mrs. Allan Bell having held the top place during the the entire time with the exception of two weeks, the second and third, when Miss Nannie Davidson held the place of honor.

One of the surprise making candidates was Miss Lena Gregory, who has gradually worked up from the 9th place, going from the 5th to the 2nd place in the closely contested race of last week. Some of the heaviest voting was done by the following candidates, each gaining in the one week the number set after their names: Miss Davidson, 16,975; Mrs. Bell, 24,285; Mrs. Tucker, 41,080; Miss Pitman, 46,225; Miss Smith, 109,955; Miss Gregory, 269,125. A complete list of the total number of votes to each candidate will be found on this page in table form.

### THIRD BONUS PRIZE.

All candidates will please take notice that the Third Bonus Prize will be given away next Monday, according to the voting results up to Saturday, June 1, 10 p. m. Be sure to get all your Merchant's Coupons in the boxes by that date and hour.

### Prize Bread and Biscuits.

An interesting contest will be made at Cliett's grocery store tomorrow, Saturday, afternoon, when the ladies will offer in contest light bread and biscuits made from American Lady Flour. For the best light bread a prize of 100 pounds of flour will be given, and for the best biscuits, 50 pounds. If any of the ladies of Hereford and community have been making brag bread and biscuits, now is the time to show them.

### First Alfalfa.

The first alfalfa in the Hereford country this year, and, in fact, the first to be raised by irrigation, is being cut this week on the McDonald farm north of town. The yield will run from one-half to three-fourths of a ton. This must be a fair yield when it is known that the seed were planted last September. Four more cuttings, which are expected to run as much as a ton per acre for each cutting, will be had. Just as rapidly as the hay is matured and removed from the field the irrigation ditches are opened and the work of Major J. Pluvius begins in earnest by artificial means.

### Receives Painful Burn.

Wednesday afternoon, at the close of a birthday party for her 8-year old daughter, Annie Fitzhugh, Mrs. G. A. F. Parker met with a painful accident by having her hands burned. The little girl had lighted a candle in her own room and had placed it too near a sash curtain, which catching fire, was soon ablaze. The little girl ran to her mother, who made haste to put out the blaze by tearing the curtain loose with her hands and carrying it out of the house. Her hands were severely burned. Physicians dressed the burns and it is hoped no serious harm will result.

### Two Thousand Mile Trip.

R. Bartholemew and son of Hardy, Iowa, are in Hereford this week in an E-M-F car which they have driven without accident from Holdridge, Nebraska, where they traded two motorcycles for the machine, after riding the two machines from their home at Hardy, a distance of 600 miles. From Holdridge they went by way of Cheyenne, Boulder and Denver, and from the last place came down the Denver road to Amarillo and then to Hereford. They own some land near Kelso, this county, and while here on their pleasure trip, are looking after their interests. The entire trip has required 3 weeks, but 8 days were spent in visiting relatives.

### Another Fire at A. & M.

A fire Tuesday night at A. & M. College completely destroyed the main building, the loss being heavy and almost irreparable as many books and records of value were burned. This is the third disastrous fire at the College this session. Just what provision the Regents will make has not been decided. No doubt, larger and better buildings will be erected. There is some talk of changing the location.

### Meeting at Church of Christ Closes.

A week's meeting at the Church of Christ closed Wednesday night. Rev. Burt of Portales, N. M., did the preaching. The audiences were good and the interest fine throughout the week. Mr. Burt is an able man and an interesting speaker.

### Left a Note of Thanks.

Last week while W. B. Farmer and some others were out on his ranch east of town some 12 miles, they placed their dinner bucket, containing a good supply of desirable grub, at a vacant house near where they were working. During the morning a tramp came along and, seeing the tempting dinner, he fell an easy victim to the grub box, but he was rather thoughtful of the owners thereof. After partaking of a most bountiful meal, which was really intended for three good sized men, he penciled the following note:

"nabor i am very much oblige and if that 15 cents ant a nuff See me in town and ill make it all rite."

### Presbyterian Services.

Large crowds and increasing interest are the best words of comment about the protracted services now in progress at the Presbyterian church. Rev. Thompsen, pastor at Amarillo, is doing the preaching, assisted by Pastor Baker, but all the ministers of the town are aiding in the services by their presence, prayers and personal work. The song programs are being conducted by Miss Pattie Estes. The best singers from all the choirs are to be seen on the platform every night and this feature of the meeting, aside from the good singing, indicate a splendid co-operative spirit. Mr. Thomsen is a good preacher, an earnest talker, and at times leads out into a bit of oratorical effort with pleasing results. He carries the conviction by his remarks that he is strongly spiritual, not self-seeking nor wishing to gain praise for himself. His sermons are logical and forceful. The attendance has been good from the start, beginning Sunday night, when Rev. Shore filled the pulpit in the absence of the evangelist who had not arrived. The meeting will continue until Sunday or longer. Two sessions are being held—one at 10 o'clock a. m., the other at 8:15 p. m.

R. F. Farris is prepared to do all kinds of house cleaning. See him, his prices are right. 1t

### Attorney Dameron Announces.

W. Elmer Dameron, the present incumbent of the county attorney's office, authorizes the Brand to place his name in the list as a candidate for re-election. Mr. Dameron is serving his first term and those who are in a position to know say that he has made a proficient officer. It will be remembered that he was elected in November, 1910, while still at school, making neither an announcement nor canvass for the place, his friends taking the initiative step to have his name placed on the ticket "without his knowledge or consent." It is well known that Mr. Dameron believes and advocates the enforcement of the law, fairly and impartially, without regard to the position or influence of parties concerned. Those who are not fully acquainted with the detail work of his office are invited to make a careful and rigid examination of all records pertaining to his official conduct, and to render their decision of approval or disapproval accordingly. He asks for re-election to a second term upon his record as an officer and is willing to abide by the will of the majority in the July election.

## RANDELL AT HEREFORD JUNE TWELVE

Candidate For Senate to Speak Here Wednesday, June 12, 1:30 p. m.

Under a Sherman date line, the speaking dates for the Hon. C. B. Randell, candidate for the U. S. Senate has been announced for the Panhandle. He will speak at Hereford, Wednesday, June 12, at 1:30 p. m.

As Mr. Randell is the only candidate that has condensed to place Hereford on his speaking tour we should give him a big crowd and a respectable hearing.

### Moonlight Forty-Two.

Miss Jane Gregg, entertained about thirty of her boy and girl friends, last Tuesday night at her pretty home in the suburbs of Hereford. "Moonlight forty-two" and other games were enjoyed on the lawn. The evening passed entirely too quickly to suit the young folks who always enjoy the hours spent at "Willowood." Games were left while dainty refreshments were served. They all left feeling that they had spent one of the most pleasant evenings of the season.

### Work Will Start In Three Weeks

The people of Clovis and surrounding country will be glad to know the authoritative information has been handed out that work will actually be started on the Coleman road within three weeks and that the Santa Fe system is now busy shipping material for the construction of the line into Lubbock, Texas; part of which has been unloaded. The surveyors will complete the final survey between Clovis and Lubbock within the next few days, is the information that came through railroad circles to the Clovis Journal early in the week.

This road, giving Clovis a direct route to Ft. Worth and Dallas, Texas, will be one of the greatest boosts that the country has had since it was settled. At the present time, the route via Amarillo, Texas, to Texas and Oklahoma points is not only long, but shipments of freight from Texas points is greatly delayed and in the opening of this new route, much satisfaction will be gained by the shipping and traveling public.

The Santa Fe system have had the line mapped out, and under contemplation, and while it was publically known that it would be built in the near future, the news that it is to be started in the above time will help the wave of prosperity that is sweeping Eastern New Mexico caused by the unparalleled prospects for a bin busting crop.

This, when completed, will not only give Clovis the best railroad facilities in the Panhandle, but will add greatly to the railroad payroll here and give us connections with one of the best strips of country under the Texas one. Especially were the teachers from Central Texas delighted with the climate. President Cousins was at Hereford last Friday and states that the prospects for a large attendance was good.

**Praises The Panhandle.**

Ft. Worth, Texas.—I would like to say a few words about the "Great Plains" of Texas situated in what is known as the "Panhandle of Texas"—feeling that even a very brief description of this country "of magnificent distance" will be, in a manner as interesting to the readers of The Chariot as the "real thing" has been to the writer.

The actual Panhandle consists of twenty large counties, the combined area of which is greater than that of New Hampshire, Massachusetts and Connecticut, and is practically one vast alluvial plain, level and free from any kind of trees or shrubs except in a few places where a few live-oak and small trees are found along the bottom lands of the Canadian and Red rivers; also along these streams are a few canons, very beautiful and picturesque, that break the monotony of these extensive plains. Practically every foot of this vast country is tillable land, with deep chocolate soil adapted to raising anything that can be raised any place on earth.

"Nature! Great Parent! Whose unceasing hand  
Rolls round the seasons of the changeful year,  
How mighty, how majestic are thy works!  
With what a pleasing Dread they swell the soul!  
That sees astonished! and astonish'd sings!"

As yet few people have tried diversified farming—but those who have, find that they can produce abundant crops of wheat, oats, alfalfa, milo maize, kaffir corn, etc., with much less labor than in any other country in the United States.

The country around Hereford and Ft. Worth is fast filling up with small farmers and these towns are also growing rapidly with a splendid class of people and to my mind have a very bright future.

of people and to my mind have a very bright future.

Hereford is the county seat of Deaf Smith county, one of the largest counties in the Panhandle, and has a population of about 2,000, being a new town, it is modern and the public buildings are of the best. The county court house is a magnificent structure, built entirely of Georgia marble, and ranks with the best county structures in the United States—splendid churches and school buildings are indicative of the progressive spirit of the people in this community. Deputy F. P. Potter secured a splendid charter list for a Court of the Tribe of Ben-Hur at this place and many of the best citizens of this thriving city are on the list.

Ft. Worth is beautifully situated. It has a splendid \$15,000 school building, an up-to-date Community Church edifice where members of all denominations are free to worship. All lines of business are represented. A splendid up-to-date hotel, two general stores, pharmacy, meat market, wagon shop—and in fact everything necessary to supply the wants of the most fastidious. It has an abundance of splendid water both for domestic use and irrigating purposes—many modern homes, situated in one of the most healthful localities in the country, "an ideal place to live." Deputy Potter has also a charter list completed for a Court of our Order here, and when instituted will be one of the growing Courts. This country is rapidly filling up with good substantial farmers and business men, furnishing new material all of the time from which to recruit our membership.

Hereford Court No. 71 was instituted by State Manager Dr. H. V. Beardsley and Deputies F. P. Potter and Charlie Sullivan, assisted by a degree team headed by C. O. Lee. The entire degree work was given to a class of sixty-two charter members, after which a splendid corps of officers was elected. These officers were installed by State Manager H. V. Beardsley, assisted by Judge J. P. Slaton. This Court starts out with splendid prospects of soon being on the Roll of Honor, and all of the members signified their intention of not stopping work until this has been accomplished. **Dimmitt High School Closes.**  
 Dimmitt, May 25.—The Dimmitt High School closed its commencement exercises last night, Friday, at the Union Church which was filled to overflowing to hear the graduation program and to see the class of 1912 receive their diplomas. A splendid program by local talent was given, the program consisting of vocal and instrumental music. The address was made by A. C. Elliott, editor of the Hereford Brand, who was called upon at the last hour to fill the place of Pres. R. B. Cousins, president of the Canyon Normal, who could not meet the engagement. Mr. Elliott arrived just in time from Hereford by auto to take part in the exercises. He was introduced by the lady superintendent, Miss Millicent Griffith, in well chosen word, and he began at once with his remarks, speaking without notes or manuscript. He complimented Dimmitt upon this successful school and gave to the class of five young people some encouraging suggestions. At the close of the program, Mr. Harvey Cash, for the trustees, in a very pleasing manner delivered the diplomas to the members of the class, which consisted of two young men and three young ladies: Ulric Clifton, Louis Boyd, Willie Boyd, Nellie Turner and Luna Turner. After the benediction, many came up to congratulate the class and the superintendent and teachers for their splendid work in the school. They expressed their confidence in the teachers and otherwise showed that they appreciated their efforts for the pupils.

The commencement sermon was preached at the church on last Sunday by Rev. O. W. Dean of Tulia, who formerly held a pastorate at Hereford. This closes the third year of the Dimmitt school under the management of Miss Griffith, and it is the general opinion that the school has never been better organized nor the work more proficiently done than under her careful supervision. As a compliment, the entire faculty were offered their places again for another year.

**Green Valley Ranch.**  
 One of the largest of the big cattle ranches yet remaining intact in this section of the Panhandle is the Green Valley Ranch owned by Chas. E. Harding of Chicago. The ranch is located beginning about 7 miles east of Hereford and extends along the Tierra Blanca river for a distance of 9 miles, taking in 32 sections of land, that is 20,480 acres. On this ranch may be found at most any time 2,000 or more head of fine Hereford cattle. In the spring and summer, the number is augmented by the presence of 1,500 or more fine, young calves. Last season this ranch sold on the market something like \$12,000 00 worth of calves. Besides cattle raising, the ranch raises mules and horses and recently shipped 2 cars of horses and one car of mules at good prices. But grazing is not all the source of revenue from the ranch. A feed farm of 1,000 acres is regularly cultivated, the feed stuff being given the stock as occasion of the winter weather demands, but often no feeding is done and the stacks remain untouched. Albert D. Smith and his 8 or 10 assistants look after all the details of the ranch. Mr. Smith is the foreman and deals with the matters as a business man. Since the talk

## TEXAS NEEDS GREAT MEN

### XXXIII. PATRIOTISM.

**DURING** a famine the Roman government commissioned Pompey to procure food from foreign countries and when the expedition was confronted by an angry sea and he was urged to delay in order to avoid danger, he replied, "It is not necessary that I live, but it is necessary that I go," and he went. The human race moves forward only when it has great men to meet the emergencies of civilization and a citizenship that applauds self-sacrifice in leadership.

THE PATRIOTISM OF POMPEY.

Let those who would make their names ring across continents and reverberate through the corridors of time, brave the perils of civilization and sacrifice their lives to succor humanity and preserve the resources of their country.

It is better to wear a diadem of good deeds than to don the purple of authority, and more noble to contribute a life toward the prosperity of one's country than to spill blood on the field of battle. Texas Needs Great Men.

of irrigation has been so common, the owner of this ranch has decided to test out the matter in his own way. A small well of some 250 gallons capacity will be put in and a small patch of alfalfa tried. If this proves satisfactory, several hundred acres of the fine valley land will be put under alfalfa, the needed water to be supplied from big pumps. The contract for the first well has been let to Luther Hough of the Hereford Hardware Company. Work will begin at once.

With the open range for cattle, horses and mules, the feed farm of a 1,000 acres, and as many more acres in alfalfa under irrigation, the Green Valley Ranch will be the ideal of the Panhandle. Mr. Harding is to be congratulated in being the owner of such a fine opportunity that this ranch affords.

## NO MORE CALOMEL FOR THEM

Persons Who Have Tried Dodson's Liver Tone Find It Safer Than Calomel and Just as Sure.

Dodson's Liver Tone is a vegetable substitute for calomel that starts the liver to work just as successfully as calomel does, and hundreds of persons have stopped using the powerful drug calomel to use Dodson's Liver Tone, mild vegetable liquid, instead. Calomel often shakes up the liver too much, and brings on bad after-effects and sometimes salivation—a terrible condition.

Betts-Clark drug store sells Dodson's Liver Tone at fifty cents per large bottle, and guarantee it to be harmless to both children and grown-ups. Remember this guarantee and try a bottle, next time your liver gets lazy.

 The summer term of the Panhandle Normal at Canyon will open June 4 and a large attendance is expected. This will be the second summer session and those who attended were loud in their praise of the work done. Especially were the teachers from Central Texas delighted with the climate. ### THE OFFICES—THE PEOPLE.

In days not far past, when a man was elected to an office for one or several times, he would often conclude that the people owed him the office or more properly that he owned the office. Sometimes the people granted the claim and elected the same man year after year. This condition of things are now a part of the dusty past. The people have come to know that all offices belong to them and it is for the people, the voters, to say upon whom the emoluments and honors shall be conferred. No man has a right to claim that because he now occupies an office that he should again be elected, even if he has had such office for only a short time or even one term. But there is now a peculiar condition existing in the Court of Appeals at Amarillo. The three men now holding the judgeships were appointed by the governor under constitutional authority, and they accepted the appointment with the full knowledge that such appointments were only for a short time and until the people could elect three men of their own choice. The same constitutional authority that put the present incumbents into office, reserves to the people the right and privilege to name the officers at the first election; and they are now getting ready to exercise that right. Because these men are appointees of the governor, establishes no claim, right or title to offices. In fact, they accepted the places with the understanding that these terms would expire with the first general election. True, it is certainly a high compliment to be a preferred appointee of the governor of the great state of Texas, but it is a greater honor and a more general honor to be chosen by the expressed will of the sovereign people of that great commonwealth. Then why should the present incumbents of the Amarillo Court deny any man the right to offer himself for one of the places? If they have made good and efficient officers, well done, and this should be their appeal for the votes of the people. Let them stand

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

upon their personal and general qualifications for the offices, aided by their good record, and if by these they can win, the Democracy of the district will call them its sons of honor.

### WHO'S WHO NOW IN TEXAS.

The Texas Democratic party seems to have been completely captured by Wilson advocates, at least they dominated the Houston convention in a manner that indicated that they were in the saddle, booted and spurred. To indicate what they intend may be seen from the names of some of the most prominent delegates to the Baltimore convention: C. A. Culberson, Cone Johnson, Tom Ball, T. M. Campbell, Bob Henry, M. M. Crane, Marshall Hicks. These are the Delegates-at-Large from Texas and tells who's who in no uncertain terms.

THE Arizona legislature has passed a resolution favoring the amendment to the National Constitution, the first state to approve the measure since it was prepared by Congress.

THE Tulsa Herald has a new manager and editor in the person of L. D. Webster. The Brand is not personally acquainted with Mr. Webster, but judging from the first issue under his management, the Herald has a strong hand at the helm.

THE news item as to the building of the Lubbock-Texico Cutoff is showing up more quickly than expected. A clipping from the Clovis Journal states that work will begin in three weeks. This road will pass thru some very fine country in Lamb and Bailey counties. The line will touch near Hurley, Texas, in Bailey county.

#### For Judge Lancaster.

Without a single exception, all of the North and Central Texas weekly papers, which have had occasion to discuss the Congressional race situation, have made favorable comment and endorsement of the Plainview man. The people as well as the country and city papers concede that the Panhandle is entitled to one of the congressmen-at-large, and that one should be, so they all say, no one but Lancaster. The Cleburne Chronicle, a widely read and influential paper, says in connection with "scrap" between the two Panhandle candidates:

Judge Lancaster was urged through the Press to make the race for Congress, but he would not consent to do so until it was made clear that no one else would make it.

Judge Lancaster went to Amarillo, the political headquarters of the Panhandle, and in a conference with her citizens stated that if they had anybody who would make the race for congressman at large, name him, and he (Lancaster) would not run. At the conclusion of the conference Judge Lancaster was informed that they could find one who was willing to incur the expense and lose the time necessary to make the race, and the Amarillo people would support him. With this assurance Judge Lancaster resigned the presidency of a local bank in Plainview and early in November published his platform, and has been actively campaigning the state since that time, and his plea in behalf of the

Panhandle and the West is responsible for the wide spread sentiment over the state in favor of the Panhandle and the West having one of the congressmen to be elected at large.

After Judge Lancaster succeeded in building up this sentiment, and victory was in sight, Judge Browning holding on to his office, decided to and did enter the race. In doing so he is not only unfair to Judge Lancaster, but is against the interest of his section of the state. The Chronicle believes in fair play and thinks "the laborer is worthy of his hire" and believes Judge Lancaster should be recognized as the original Panhandle candidate.

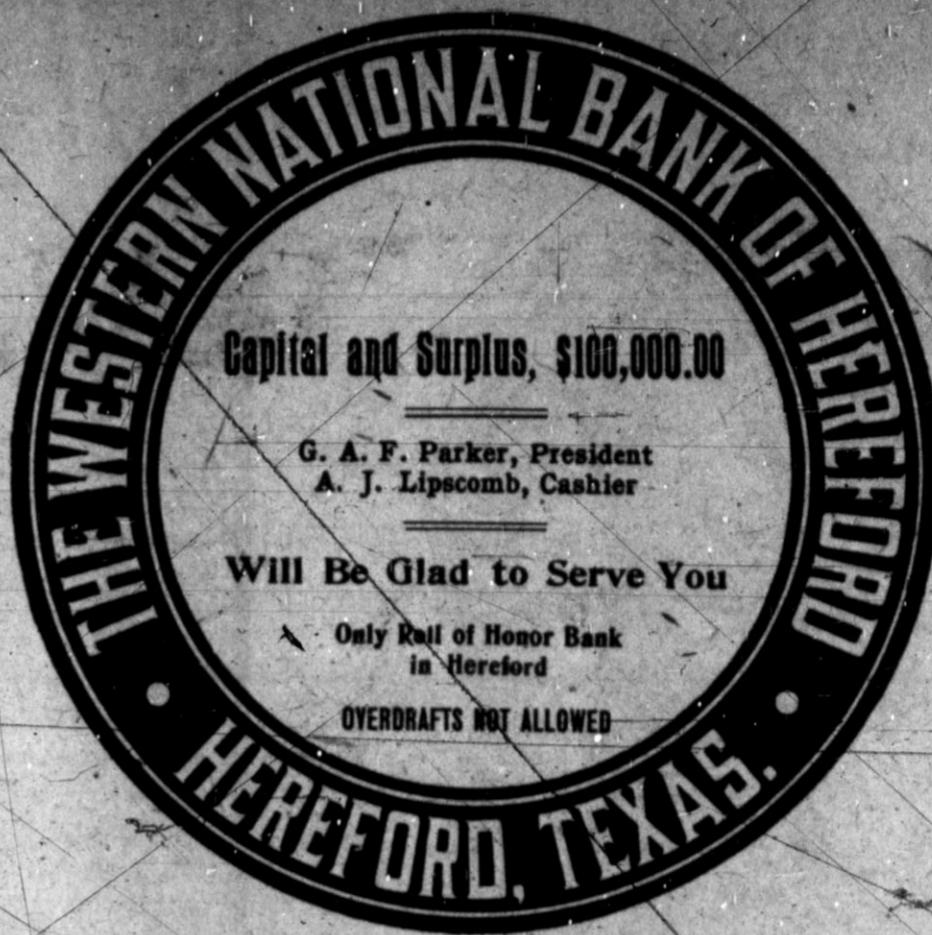

#### More Said.

A. C. Elliott, the editor of the splendid Hereford Brand, has decided to save his country and will go to the next state legislature, at least we suppose he will. Up to this time we understand he has no opponent although it is generally understood that J. C. Hunt of Canyon will be a candidate to succeed himself. It is out of our district and we are out of politics. Although unlike some of

our newspaper associates, we do not object to the association of a candidate in either public or private. Elliott would make a good representative and we believe will be elected.—Candidian Record, May 16.

Editor A. C. Elliott of the Hereford Brand has announced as a candidate for representative in the 123rd district. This means a fight between Mr. Elliott and Judge J. C. Hunt of Canyon. Mr. Elliott has been on the Plains six years and has made a great success in the newspaper business. He was formerly engaged in school work in which line he was also very successful. Mr. Elliott has the interest of our entire country at heart and if elected would make a good representative. The candidate from Canyon, Mr. Hunt, served in the legislature for one term. He was very successful during the term and has made many friends who will work for his return.—Canyon News.

TAILERS THAT SATISFY

Dear Sir:—

We recognize it as our duty to see to it that all of our garments give full satisfaction.

That is why we ask you to let us know on the enclosed post card whether the garments we made to your order last season pleased you in every detail, and whether up to the present time they have worn satisfactorily.

If not, we ask that you see our local agent and have him express them to us, and we will either make them right or make you new garments. That's what the Kahn Bros. guarantee stands for.

With but very few exceptions our clothes are proving all that our customers had expected, and if you are in the big "entirely satisfied" class, we ask as a favor that you tell us so on the enclosed card.

We, of course, hope that you will favor us with your Fall order, but won't you also let a few of your intimate friends, who appreciate good clothes, know where you are getting yours? We assure you that we very much appreciate your patronage and the value of your influence in our behalf.

When you get to Louisville, drop in and see us. We'd like to meet you personally and show you through our shops. When you come, just call for one of the Kahns.

SWK

Very truly yours,  
KAHN BROS., Inc.

Each customer I measure for a Kahn Bros. Suit receives a personal letter like the above after he has worn his suit for a time. The letter explains itself and guarantees absolute satisfaction to every customer.

C. W. Van Camp of Norman, Okla., was in Hurley the first of the week looking after land interests. He was well pleased with the present prospects here and expressed it as being one of the finest countries in the west.

Earl Owen, the photo man from Clovis, his sister, Miss Essie, and cousin, Mrs. McKinney, were in Hurley Thursday and Friday. Mr. Owen comes over about every ten days and makes pictures of the different scenes in and around Hurley.

Hurley now has the posts set from here to Friona and the wire will be strung next week on the new telephone line, which will save many long drives and other inconveniences.

Mr. Davis, the pumpman, was in this week looking after business for the Dempster Mill Manufacturing Co.

Crops in and around Hurley are looking reasonably well for the dry weather and with a little rain things would liven up considerably.

Mr. and Mrs. L. R. Cox made a trip to Plainview the latter part of the week after J. E. Brunk, who has

had a severe attack of inflammatory rheumatism. They returned Sunday afternoon with Mr. Brunk, who is able to knock around some.

The meeting is still in progress and doing good. Bro. Miller is a good worker in leading men to do right.

There are rumors that the work was started on the railroad from Lubbock to Texico the first of last week, which means a better and more convenient market for the Hurley country.

The regular daily auto service has been established from Friona to Hurley for the traveling public.

Mrs. J. T. Lindsey has treated several of her neighbors to some home-grown strawberries, which were very fine. She has a fine garden.

The Hurley Hustler wants bids on plowing two hundred and fifty acres of old land fourteen inches deep. Gasoline and steam plow men will please send in their bids immediately.

Considerable land has been prepared for alfalfa and is to be sown under irrigation.

E. H. Noremán brought us in some alfalfa roots which measured more than six feet in length, which are only a year old and proves this a great soil and climate for alfalfa.

Anyone wanting pictures of irrigation wells or surrounding country can procure them from the Hurley Hustler or from Earl Owen at Clovis, New Mexico.

### Runaway Teams.

During the last week, there seems to have been an epidemic for runaway teams. Inside a woman was seriously hurt. Most of these runaways have been the result of thoughtlessness on the part of those having the teams in charge. It is a violation of city ordinances to leave a team unhitched and unless more care is exercised by some, there is likely to be more trouble in paying fines.

## Heart Disease Almost Fatal to Young Girl

"My daughter, when thirteen years old, was stricken with heart trouble. She was so bad we had to place her bed near a window so she could get her breath. One doctor said, 'Poor child, she is likely to fall dead any time.' A friend told me Dr. Miles' Heart Remedy had cured her father, so I tried it, and she began to improve. She took a great many bottles, but she is spared to me today, a fat, rosy cheeked girl. No one can imagine the confidence I have in Dr. Miles' Heart Remedy." A. R. CANON, Worth, Mo.

The unbounded confidence Mr. Canon has in Dr. Miles' Heart Remedy is shared by thousands of others who know its value from experience. Many heart disorders yield to treatment, if the treatment is right. If you are bothered with short breath, fainting spells, swelling of feet or ankles, pains about the heart and shoulder blades, palpitation, weak and hungry spells, you should begin using Dr. Miles' Heart Remedy at once. Profit by the experience of others while you may.

Dr. Miles' Heart Remedy is sold and guaranteed by all druggists.
