THE STAR-SPANGLED BANNER

OH SAY can you see by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming,
Whose broad stripes and bright stars thro' the perilous fight
O'er the ramparts we watch'd were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
Oh, say, does the Star-spangled Banner yet wave
O'er the land of the free and the home of the brave?

On the shore dimly seen thro' the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam,
In full glory reflected, now shines on the stream.
'Tis the Star-spangled Banner: Oh, long may it wave,
O'er the land of the free and the home of the brave.

Oh, thus be it ever, when freemen shall stand
Between their lov'd home and foul war's desolation:
Blest with vict'ry and peace, may the heav'n rescued land
Praise the power that hath made and preserved us a nation.
Then conquer we must, when our cause it is just,
And this be our motto: "In God is Our Trust!"
And the Star-spangled Banner in triumph shall wave
O'er the land of the free and the home of the brave.

FIVE CARS CATTLE NET \$108 PER HEAD

D. L. McDonald Ships Market Top-
pers Finished On Home
Grown Products

Mr. D. L. McDonald got his returns last week from five cars of cattle shipped from his farm here to the Kansas City market and they are indeed very gratifying, not only to Mr. McDonald and Messrs. Webster and Schutte who fed them, but to all those really interested in the welfare of the Panhandle country.

These cattle sold on the market for \$8.80 per hundred, and the only steers that beat them that day was a bunch of heavy corn fed cattle that had been on feed a long time. They weighed here 1,367 pounds and after the shrink they brought over \$108 per head. One of the gratifying things about this lot of cattle is that they were finished on feed raised right on Mr. McDonald's farms. They were bought last fall weighing 1,031 pounds, and got on a full feed of silage, alfalfa and ground maize about January 1st, the feeding period being about 150 days. They were fed about thirty pounds of silage, ten pounds of alfalfa hay and ten pounds of ground maize per day, and some cane hay at the last. All this feed was grown on this irrigated farm. They made a gain of 336 pounds per head.

These cattle did not make big money for the feeder but they furnished a home market for feed at a little more than market value. But for the fact that stocker cattle are too high in comparison with finished cattle they would have made a handsome profit.

This demonstrates that cattle can be finished more cheaply here than in the corn belt and the price they brought proves that the feeds grown here are the equal of corn. These steers dressed 62½ per cent which shows they were very satisfactory to the killer.

Messrs. McDonald, Webster and Schutte have done a good work in demonstrating that cattle can be finished at a profit and compete with cattle from the corn belt.

These men who are demonstrating what can be done on the irrigated farm deserve great praise. They mean much to this country.

The pioneer in any good work does not, as a rule, get the credit due them. If this section is ever to be a great agricultural and finished stock country it must be done thru irrigation and those who are pushing

it will, in the years to come, be regarded as great benefactors.

Overland Trip to Colorado

Mr. and Mrs. H. M. Mitchell and son, Bertie, started Wednesday morning in their big Buick car for an extended western trip whose termination will be Fort Collins, Colorado.

They went from here to Dalhart, where they were joined by Mr. and Mrs. Floyd Cooper, who will go with them to Colorado Springs. They will spend some time at this famous resort after which the Mitchell's will visit Denver and other western points before going to Fort Collins, where they will visit friends.

The Brand will keep them in communication with their many friends here who wish them a pleasant visit and safe return.

A MOVE FOR ORGANIZATION

Meeting Called for Next Thursday Night at County Court Room

A great many of the citizens and business men of Hereford and Deaf Smith county believe the time is ripe for an organization looking to the building up of the interests of this town and county. Accordingly a meeting has been called for next Thursday night at the county court room for the purpose of affecting an organization looking to the development of all the resources of this county, both material and intellectual. Every man in Hereford is urged to be present and help boost. The young men especially are urged to take hold of the movement. This is a great country and all that is needed to make this a veritable land of milk and honey is for everyone to bestir himself—make use of what God has given us. Let us know each other better and love each other better. Let us be builders for the future, not alone from selfish motives, but from the joy that comes from creative activity. Thousands in other states and lands would rejoice to enjoy the good things that abound here in such profusion that to us they become commonplace.

God loves a doer and a builder. Let's enrich life's labor with enthusiasm and good cheer. Everybody come. Dig a ditch and bury the little hatchet and the hammer that knocks and help hoist the banner of progress.

Remember, next Thursday night. Plan to be there. Come with all your troubles left behind.

St. Louis Syndicates Buys Texas Ranch

St. Louis, Mo. June 13.—A syndicate composed of St. Louis capitalists, controlled by the Fran L. Dittmeier Real Estate Company has completed negotiations by which it acquires the title to 7,690 acres of land in Books county, Texas. The land is in one body located near Hebron, Texas, on the St. Louis, Brownsville and Mexico Railroad, a branch of the Frisco system, and has been acquired for ranch purposes. The sale was made for A. H. Brettenbach, William A. Beste and others.

As part payment the Dittmeier syndicate transferred to Breittedbach and his associates twenty-one houses located in various parts of St. Louis. The deal aggregates \$250,000.

Tries to Escape

Sheriff Baird's Deputies took Hershel Taylor from the east bound Santa Fe train here Tuesday evening who escaped from the authorities at Clovis.

Taylor was serving a jail sentence for shooting at a man in Clovis.

The sheriff from Clovis arrived that night and took Taylor back.

Taylor is the man that was tried for the killing of officer Brittain at Texico this last winter and acquitted. At the time the trial Judge gave the jury that acquitted him such a scathing address that it was widely quoted and commented upon.

Returns From Ranch

Mr. Andrew Jackson Lipscomb, cashier of the Western National Bank, returned from a two week's stay at his ranch in the north part of Deaf Smith county. Mr. Lipscomb has a herd of about 700 Hereford cows on this ranch and already has about 600 calves. They are said to be one of the best bunches in the Panhandle. Already Mr. Lipscomb has been offered \$30 per head for these calves at weaning time but did not accept the offer as he thinks it dirt cheap.

This certainly proves that the cow man is in clover and can well afford to wear fine linen and fare sumptuously every day provided he doesn't eat his own products which are too high priced.

Attention Brotherhood

The Brotherhood will meet at 3 o'clock p. m. Sunday June 20th at the new tabernacle opposite the Christian church. A full attendance is very desirable.

Last Call to Connect With Sewers

The City Commission appreciate the hearty and general response to the ordinances requiring that connections should be made with the sewers. But some premises have not yet been connected although the ordinance was adopted some time ago. Some delay has doubtless been occasioned by inability to obtain the required fixtures and fittings but apparently a few owners of property on the sewer lines have made no effort to connect. The Commission will certainly make an effort to enforce these ordinances after a reasonable opportunity has been offered all to comply with them voluntarily. The health of the community demands it.

Clean-up Notice

The Bankers Convention will meet with us in July. Lets cut weeds and clean up a bit. It will not only help the looks of the town but it will lessen the chances for sickness. Amarillo boasts of being the cleanest and most sanitary town on the plains, but there is no reason (aside from our own indifference) why we should suffer by a comparison with anybody in this particular.

I suggest that all Hereford make an effort to cut weeds, burn trash and clean up the town during the week beginning Monday June 21st.

Wont everybody please catch the step? You'll like Hereford better for being clean. Why not organize every block and work systematically to clean every block and cut the weeds on or around it?

Respectfully,
W. M. Knight, Mayor

IRRIGATION PAYS BEST HERE

Farmer With Well Now Goes on Watering His Crop, Rain or No Rain

Just now things are beginning to get dry in the Panhandle and the dry farmer is wondering when heaven is going to send the shower to bless his labors.

The farmer with a good well has joined hands with heaven and is bringing the bountiful supply from beneath to water his crops. He goes about his work rejoicing and singing. He neither finds fault with Providence nor walls, for high heaven to do all the work except the reaping.

If every quarter section within a radius of five miles of Hereford had a good well, there would be 400 wells sending forth their streams of blessedness instead of 40 as now. Hereford would be a town of 6,000 people and there would be lucrative employment for all on these well kept productive irrigated farms.

HIGHER THAN FERRIS WHEEL

Marvelous Aeroscope at the Panama-Pacific International Exposition, San Francisco, Raises Amazed Visitors 264 Feet

FOR the seeker of amusement there is opportunity a plenty in the great mechanical achievement, the aeroscope, on the Zone, Panama-Pacific International Exposition, San Francisco. The aeroscope is built on the order of a giant crane of a novel and intricate design, with a seating capacity of 100 and standing room for twenty more. The car is perfectly balanced, and perfect safety and a jarless ride of ten minutes are assured to passengers who enjoy this trip of 264 feet into the clouds. This is four feet higher than the Ferris wheel. Two motors control the ascent and descent in conjunction with the counterbalance of this huge car, and when it reaches its extreme height it begins to swing slowly around on the series of wheels at its base, giving the passenger a view of the surrounding country from every point.

Texas Has Good Coal Output.

The amount of coal produced in Texas in 1914, was 2,323,773 short tons, valued at the mines at \$3,922,459.

The coal production of the state is nearly evenly divided between lignite and bituminous coal, the balance slightly in favor of the bituminous. With the exception of the production in 1913 the production in 1914 was the largest on record, according to statistics compiled by C. E. Leasher, of the United States Geological Survey. The total production in 1914 was less than in 1913 by 105,371 tons or 4.34 per cent in quantity and \$366,461 8.54 per cent, in value. Most of the in tonnage was in the lignite output which in 1914 was 1,105,613 tons and in 1913 was 1,181,156 tons, a difference of 75,543 tons whereas the output of bituminous coal—1,218,160 tons in 1914 and 1,277,989 tons in 1913—decreased but 29,828 tons. In value, however, the bituminous coal decreased much more than the lignite.

The decreased production of both bituminous coal and lignite in 1914 is attributed to the great increase in the production of petroleum in Texas and Oklahoma, which because of its drop in price, after a record-breaking production has displaced a considerable amount of coal and lignite as a fuel both on the railroads and in the industries.

The coal mines of Texas were not entirely free from labor troubles in 1914 as 229 men were on a strike during the year with an average of 3 day each of lost time.

Most of the lignite produced in Texas is mined by hand, and of the bituminous coal produced nearly one-half is shot off solid. The use of mining machines has not made much progress in the state, and those that are employed are in the bituminous mines.

"Human Hearts" Postponed

The home talent play, "Human Hearts" which was to have been given on Saturday evening, has been postponed until after the revival meeting closes.

The Fox Show which has been here for two weeks, left no open date and the management being especially anxious for a good house in order to increase the church fund as much as possible, thought best to defer it.

That this became necessary is much to be regretted as it will necessitate a great deal of extra work on the part of the cast. Work on the play had been completed and it was ready for production. Much of the work will have to be done again owing to the delay.

The public, understanding this will doubtless give the play an excellent hearing.

Mr. Frye Enjoys Visit from Mother and Sister

Mrs. Louis Frye and daughter, Miss Julia Frye, of Davenport, Ia., were guests at the Northern Monday. They went out to the ranch of Mr. Wm. These ladies are the mother and sister respectively of Mr. William Frye. Mrs. Frye is eighty-two years old but is in the best of health and is enjoying the trip quite as much as a younger person would.

HARD LUCK IN NUGGET

By HAROLD CARTER.

(Copyright, 1915, by W. G. Chapman.) Women certainly are queer. They act in the most unexpected ways, and when you think you've roped them they're up and away like a wild maverick. Now there was Miss Rose Crawford, who kept books for Jim Riley. First he thought he'd got her and then he thought he hadn't, and then, just when he thought he had—well!

We'd heard a new preacher was coming to Nugget, and naturally the boys were interested. Doctor Hadley, who had been with us six years, had been thought a good deal of. His Saturday night illustrated lectures on the wonders of nature had proved a live wire. Jim Riley had won the prize Doctor Hadley offered for the best collection of lizards and Tom Bullen's wife got the prize he gave for the best cake baked for the church sociable; and so, with the parson gone, we saw all our innocent pastimes nipped in the bud unless Mr. Frank Cunningham turned out a sociable sort of man like his predecessor.

The minute he steps off the train, however, he looks so queer we see something is wrong. He looks about him surprised like.

"Where's your outlaws?" he asks. "There ain't been none here for these ten years, not since they passed the antiganbling laws," says Tom. "Why don't you carry pistols?" the parson asks, still more surprised. "They're taxed too high," I explain. "Times is hard in Nugget."

"What, don't you shoot up tenderfeet who take drinks of lemonade?" he demands.

"Everybody drinks lemonade, mister," explains Jim Riley. "This is a prohibition county."

Naturally this didn't make too good an impression on us, especially when he preached a sermon against outlaws from the pulpit the first Sunday. The boys had another thing against him, too. He'd asked Miss Rose to go buggy-riding with him on the Wednesday, and as Jim Riley had been monopolizing her a good deal, we didn't like the butting-in, feature. However, Miss Rose went with him.

"He didn't talk about nothing but outlaws," she said to us. "He thinks we're hiding the vice of Nugget from him to prevent his breaking it up. He says if he spots it he's going to smash it."

"So that's why he come nosing round my back door on Sunday before church!" exclaimed Jim, hotly. "Wanted to see if I was violating the temperance laws, eh?"

Well, after another week had gone by things was getting unbearable. None of us wanted to lay hands on the parson, but we saw he hadn't come to Nugget in an understanding spirit. Moreover, he was bothering Miss Rose, and we didn't like that.

"Now I tell you how it is, boys," says Tom Bullen. "What he wants is to prove himself. He's like a young horse that hasn't been broke. He's like a soldier going into battle, who thinks he's a hero and has to learn that it will take all his heroism to keep from running away. If once he gets up against what he's looking for he'll sing pretty small and possibly turn out to be a good feller."

And then he outlined his plan to us. We were to stage an attempted abduction.

It was three nights later, before the moon come up, that we carried out the plan. Jim and Tom lay in wait at the parsonage corner, about the time when Miss Rose used to walk home from the store. We knew the parson would be waiting for her, to say good evening and to offer to escort her, and the rest of us was hiding in Ephraim's store across the street, to see the fun.

Just as Miss Rose was passing the parsonage Jim and Tom leaps out and grabs her. "Scream? I never heard a girl holler like it. Jim said afterward it scared him into thinking he was really trying to abduct her."

"Help! Help!" she cried at the top of her voice. Suddenly the parsonage door opened and Mr. Cunningham came out. "Wh-wh-what's the matter?" he stammered.

It was so dark some of us had taken the opportunity to creep up close, and I tell you it fairly scared me stiff to think a man could be such a coward. The parson was positively shaking with fright, and he looked as if he was going to turn tail any instant. "You leave that young lady alone," he mumbled; and then he caught sight of Miss Rose's face. Next instant he had landed like a catapult right into the pair of them. Before he knew it, Jim was lying in the road with a cat by and Tom was leaning against the wall with a bruised eye. But the parson was at them again, and there wasn't nothing to do but to turn tail. We ran, the lot of us, and we was afraid every instant the parson would land one of us blows across our necks. But he tailed off and went back to Miss Rose, and that was the last we saw, except that we heard he took her home and told her she wasn't never to go out alone after dark in such a vicious town again.

CALOMEL IS MERCURY! IT SICKENS! ACTS ON LIVER LIKE DYNAMITE

"Doddson's Liver Tonic" Starts Your Liver Better Than Calomel and Doesn't Salivate or Make You Sick.

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work! Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Doddson's Liver Tonic on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Doddson's Liver Tonic. Take a spoonful tonight and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Doddson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Doddson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Doddson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Parrot Items

Not much news of interest in Parrot this week. A little dry yet but everything seems to be holding its own and still growing. This item is written early in the week and we are hoping a good rain will fall before it is printed.

Mrs. Jacob Wagner spent several days with her daughter, Mrs. Geo. Bacus at Nazareth, recently. Mrs. Bacus has been very sick, but is improving rapidly since being brot to the home of her parents.

Vaccinating seems to be the order of the day at present. Messrs. High, Renfro, Simpson, Hanlan, Browsher and Wilson all vaccinated their calves this week.

Martin Simpson, who had about recovered from a badly sprained knee, is again laid up, having wrenched it over again.

Mr. Cowsart, our county attorney and his wife, are enjoying a visit to the Panama Exposition. Miss Janie Dixon has charge of affairs at the Cowsart home during their absence.

Dr. Stapleton and wife, accompanied by Miss Millicent Griffith and Kenneth Rowan, started last week for the great San Francisco Fair. They are to make the trip overland in Dr. Stapleton's car.

B. F. Neely and family were out riding in their new auto and spent an afternoon at the home of Alex Lowry.

Miss Griffith conducted a week of review work at the school house in Dimmitt prior to the recent examinations held there. Several of our students stood the examination for first grade state certificates.

B. F. Neely and sons and Mr. and Mrs. J. W. Hanlan attended the show in Hereford on Thursday and Saturday nights of last week, going up in the Neely car.

F. R. Metcalf took in the show at Hereford on Thursday night, accompanied by his daughter and son, Alva and Thomas, and Harold Hanlan and Hazel Hacker. On Friday night he took the neighborhood boys and on Saturday night took his family.

Edwin Ramey of Dimmitt, was in Parrot last week, a guest at the B. F. Neely home.

One Renfro contracted for some calves in the Army neighborhood for fall delivery.

Martin Simpson entertained a few of his friends on Monday night, serving ice cream and cake to the party. Those present were: J. F. Hacker and family, Orrie Renfro and

family, J. W. Hanlan and family and B. F. Neely and family.

Mrs. Orrie Renfro and Mrs. Will Todd are contemplating a visit soon to the home of their parents in Colorado.

Mrs. W. E. Hacker has been on the sick list.

Harvey and Elmer Dixon were visitors in Parrot last Sunday.

Miss Freda Streight, the young heiress of Waco, mentioned in the Brand last week, is a grand-daughter of former Judge Barber of Dimmitt, and made an extended visit in Dimmitt some time ago.

Alfred Grant had a mare suffering from tetanus, supposedly caused from drinking water when too warm. Dr. Bowe prescribed for her by phone and at present she is getting along nicely.

Basil Jennings' wife and little son and Carl Jennings came down from Hereford last Saturday in the Jennings' Bros., car and visited over Sunday with Mrs. Jennings' parents, Mr. and Mrs. J. Boydston.

Mr. and Mrs. Cockrell, who have been visiting on the J. L. Wilson ranch for the past two years, moved to Hereford last week.

Harold Kearns of Hereford is again employed in the Parrot neighborhood, working for Presley Dyer.

Mr. Wagner has recently built a garage for his new automobile.

Presley Dyer and wife attended the show in Hereford last Friday.

Bro. Sharp arraged on last Sunday for Bro. Butterfield to hold a meeting during this week at Parrot.

Big Barbecue at Vega

The barbecue at Vega last Saturday was in every way a success. They had four beeves barbecued and those who ate of said beeves say that nothing could have been more delicious. In addition to the barbecue they served huns, pickles, coffee and other things for the vast crowd. It is estimated that six hundred people were fed, which is a great crowd for such a town as Vega. The Vega people are royal entertainers and they added new glory at this meeting.

GOD KNOWS THE BEST

Sometime, when all life's lessons have been learned,
And sun and stars forevermore have set,
The things which our weak judgments here have spurned,
The things o'er which we grieved with lashes wet,
Well flash before us out of life's dark night,
As stars shine most in deeper tints of blue;
And we shall see how all God's plans were right,
And how that seemed reproof was love most true.

And we shall see how, while we frown and sigh,
God's plans go on as best for you and me;
How, when we called, He heeded not our cry,
Because His wisdom to the end could see.
And, even as prudent parents disallow
Too much of sweets to craving babyhood,
So God, perhaps, is keeping from us now
Life's sweetest things, because it seemeth good.

And if sometimes, commingled with life's wine,
We find the wormwood, and rebel and shrink,
Be sure a wiser hand than yours or mine
Pours out the potion for our lips to drink.
If we could push ajar the gates of life,
And stand within, and all God's workings see,
We could interpret all this doubt and strife
And for each mystery could find a key.

But not today. Then be content, poor heart!
God's plans, like lilies pure and white, unfold;
We must not tear the close-shut leaves apart,
Time will reveal the chalice of gold,
And if through patient toil we reach the land
Where tired feet with sandals loose may rest,
When we shall clearly know and understand,
I think that we will say, "God knows the best."

Prospects Over Panhandle Good

While in some sections weather conditions are getting a little dry prospects are flattering for a great year. Grass every where is fine and stock of all kinds are in excellent condition for the time of the year. Row crops are generally coming up well and with the moisture in the ground will get a good start. All in all the Panhandle is destined for a good year. Now is the time for a co-operative movement to get the advantages of this country before farmers in the North and East.

Wheat is going to make a good yield and in a short time will be ready for the binder. While a rain would help the wheat most of it is going to make a fair yield without more rain. Oats which is not generally considered a staple crop is looking well and with one more shower will make a good yield.

The Panhandle country has homes for thousands who are willing to bring industry and thrift to these smiling prairies.

Resolutions of Respect

Hereford Rebekah Lodge No. 228 I. O. O. F., Hereford Texas.

Whereas, the Almighty Father, the Supreme Ruler of the universe has seen fit in His infinite wisdom, to call from our midst on May 5th 1915, our beloved sister, Mrs. Bessie Lovelace, and where as, the long and intimate relations held with her in the faithful discharge of every duty to this lodge and to its members make it eminently befitting that we, express our appreciation of her and our sympathy to the bereaved family, therefore, be it

Resolved, that the wisdom and ability that she has shown and exercised as a member of our lodge and the faithful service, counsel and encouragement she has given each of its members be held in grateful remembrance

Resolved, That the sudden removal of such a pure, sweet and noble christian life from our midst leaves a vacancy that cannot be filled, and a shadow that will be deeply realized, and will prove a serious loss to our order, her church and community in general.

Resolved, that with deep sympathy and love for the bereaved family and relatives of the deceased we express our hope that, this that is so great a loss to us all may be overruled for good by Him who doeth all things well, and may we bow submissively to the One who giveth and taketh away.

Resolved, That a copy of these resolutions be spread upon the records of this lodge, a copy sent to the Hereford Brand for publication and a copy sent to the bereaved family.

BANKERS URGED TO CO-OPERATE WITH FARMERS

SOUL MATERIAL HAS ENTERED THE BANK VAULTS OF THE NATION.

The Bank a Financial Power House to the Community.

By Peter Radford.

One of the greatest opportunities in the business life of the nation lies in practical co-operation of the country banks with the farmer in building agriculture and the adventure is laden with greater possibilities than any forward movement now before the American public.

A few bankers have loaned money to farmers at a low rate of interest, and oftentimes without compensation, to buy blooded livestock, build silos, fertilize the land, secure better seed, hold their products for a better market price, etc. The banker in contributing toward improving the grade of livestock; the quality of the seed and the fertility of the soil, plants in the agricultural life of the community a fountain of profit, that, like Tennyson's brook, runs on and on forever. Community Progress a Bank Asset.

The time was when money loaned on such a basis would severely test the sanity of the banker; such transactions would pain the directors like a blow in the face. A cashier who would dare to cast bread upon waters that did not return, buttered side up in time for annual dividends would have to give way to a more capable man. This does not necessarily mean that the bankers are getting any better or that the milk of human kindness is being imbibed more freely by our financiers. It indicates that the bankers are getting wiser, becoming more able financiers and the banking industry more competent. The vision of the builder is crowding out the spirit of the pawnbroker. A light has been turned on a new world of investment and no usurer ever received as large returns on the investment as these progressive bankers, who made loans to uplift industry. The bankers have always been liberal city builders, but they are now building agriculture.

A Dollar With a Soul.

It is refreshing in this strenuous commercial life to find so many dollars with souls. "When a dollar is approached to perform a task that does not directly yield the highest rate of interest, we usually hear the rustle of the eagle's wings as it soars upward; when a dollar is requested to return at the option of the borrower, it usually appeals to the Goddess of Liberty for its contractual rights; when a dollar is asked to expand in volume to suit the requirements of industry, it usually talks solemnly of its redeemer, but soul material has entered into the vaults of our banks and rate, time and volume have a new basis of reckoning in so far as the ability of some of the bankers permit them to co-operate in promoting the business of farming.

God Almighty's Noblemen.

These bankers are God Almighty's noblemen. Heaven lent earth the spirit of these men and the angels will help them roll in place the cornerstones of empires. They are not philanthropists; they are wise bankers. The spirit of the builder has given them a new vision, and wisdom has visited upon them business foresight.

The cackle of the hen, the low bleat of the sheep, the chirping of the crops echo in every bank vault in the nation and the shrewd banker knows that he can more effectively increase his deposits by putting blue blood in the veins of livestock; quality in the yield of the soil and value into agricultural products, than by bestness handshakes, overdrafts and gaudy calendars.

Taking the community into partnership with the bank, opening up a ledger account with progress, making thrift and enterprise stockholders and the prosperity of the country an asset to the bank, put behind it stability far more desirable than a letterhead bearing the names of all the distinguished citizens of the community. The bank is the financial power house of the community and blessed is the locality that has an up-to-date banker.

POLITICAL PRAYER MEETINGS

It is a sad day for Christianity when the church bells call the communicants together for a political prayer meeting. Such gatherings mark the high tide of religious political fanaticism, put bitterness into the lives of men; fan the flames of class hatred and destroy Christian influence in the community. The spirit actuating such meetings is anarchistic, un-Christian and dangerous to both church and state.

The success of the nation is in the hands of the farmer.

Work for the best and the best will rise up and reward you.

Tenant farming is just one thing after another without a pay day.

War As It Is

Not martial music, not blare of trumpets and beating of drums, not uniforms and tinsel, not shouts of victory; this is not war. A war correspondent writing of war as it really is says: "Imagine, if you can, lines of dead and dying whom you encounter, not every ten yards, but without a break in groups of four or five thrown one upon the other. Death in common seemed to them, perhaps, less awful. I have seen these dying ones drag themselves on hands and knees toward a wall—toward a shelter, groaning from pain and begging for a drop of water. I have seen them biting the earth as though digging already the grave that was refused by others. I have seen them expire with awful contractions, using their last breath

to curse those whose fault or negligence has found them a tomb."

Such is war.
How long, oh, Lord, how long!—Wichita Eagle.

A band of Arizona cowboys, about a dozen in the crowd, penetrated several miles into Mexico and at the points of their revolvers forced a Mexican officer to surrender two kidnapped children. Two hundred soldiers under the officers' command watched the spectacle, which no doubt lack much of edification to the Mexican commander. The American cowboy has evolved within late years into a pretty peaceable citizen, but it is not advisable to rile him. When really disgruntled he becomes about as safe to play with as the business end of a touchy mule.—Ex.

WITH THE PRESIDENT

While most of the American people are ardent admirers of William Jennings Bryan as a man both able and conscientious, public opinion is undoubtedly with President Wilson in the controversy with Germany. There is nothing in the second note to Germany that should be considered too strong. Every American citizen that is right at heart is anxious to keep out of war and has given President Wilson his hearty sympathy in his difficult task of steering the ship of state clear of trouble. That so far he has done it well, no fair minded man can deny. If at times he has seemed to lack courage his firm stand in demanding our rights at the hands of Germany will dispel all such delusions. President Wilson has shown both coolness and determination and public sentiment is with him rather than with Bryan.

NOT OUR SUPERVISORS

Now that the note to Germany is safely in Berlin and the rights of this neutral country, have been safeguarded as respects the acts of Germany let us hope that the state department will find time to bring to the attention of all the belligerents the following sound position:

Because war exists between Germany and France and Great Britain there exists no reason why our trade with Spain or Holland or Sweden or any other neutral country should be supervised by Germany, either on land or sea.

Because Great Britain, France, Belgium, Russia, Italy and Japan choose to make war on Germany, what right does that give any of those powers to say what our vessels shall carry or not carry to or from this country and Holland, Denmark, Sweden, Norway or Portugal?

Why should our trade with these neutral countries be under the inspection, supervision or control of any of the belligerent countries?

Protests have been unavailing. Now let the allies be told in plain terms that the United States will protect its commerce on every sea. Let's not make fish of Germany and chicken of Great Britain.—Fort Worth Record.

MR. WILSON'S REPLY

Whatever else the present war may be accomplishing, it is revealing a great writer of despatches in the President of the United States. What Wellington was amongst the soldiers of the Peninsular era, what Clarendon was amidst the writers of the epoch of the Great Rebellion, that Mr. Wilson is approaching in the ranks of the statesmen of today. For terseness of phrase, for luminosity of expression, for courteous, but none the less incisive, directness his state-papers are becoming difficult to surpass. As one reads his latest note to the German government, one is conscious of a certain perplexity as to what Mr. Bryan found to take exception to in it. It takes up no new ground, it breathes no breath of threat, it conceals no ultimatum, it does not embody any one of those possibilities at which Mr. Bryan's apology seemed to hint. On the contrary, so far as the previous notes may have been said to have indicated confident anticipations, it deliberately marks time. What it does do is, in the most delicate, and yet in the most solemn manner, to indicate its adherence to the earlier notes, and firmly, but with studied politeness, insist that the substance of these has not been modified in any way.—Christian Science Monitor.

CUT WEEDS CLEAN UP

In an article appearing elsewhere in this issue of the Brand Mayor Knight of Hereford, is urging the citizens to clean the city by cutting all weeds around their premises and to make a general clean up, also to connect with the sewer where possible. In this movement the mayor should have the hearty co-operation of every citizen of Hereford. Every particle of trash and rubbish that can be burned should be consigned to that fate. All other trash should be piled ready for the trash man. All weeds should be cut and burned and the town given a tidy appearance. Hereford is to be honored next month by a meeting of the bankers of this section and we should make a special effort to see that our town does not suffer in comparison with other towns from whence these magnates come. If every block would organize to see that the work on the block was done it would be a good move. Why not offer premiums for the cleanest and best kept place? Let's all pull together and start in by cleaning up our own place. Let each sweep before his own door and then go out and help his neighbor.

Change in Business

I have just sold my fire insurance business to J. E. Garrison, who will look after the business in his usual diligent way. Mr. Garrison has a line of strong old line companies, and any contract written by him will be binding. The writer wishes to thank the people of Hereford for the patronage given him and trusts that Mr. Garrison will be shown the same or more favors. A. M. Jones.

Referring to the above, I wish to say to the people of Hereford and vicinity that I have also bought the fire insurance business of Mr. R. E. Cook, and will appreciate a continuance of all business entrusted to both these gentlemen, as well as a fair division of any new business that you may have in this line.

Very respectfully,
 J. E. Garrison.

Mrs. Henry Garnett entertained with a lovely six o'clock dinner Thursday in honor of Mr. and Mrs. W. B. Arnold of Hannibal, Mo., the only other guests being Mr. and Mrs. T. E. Shirley. The hostess was assisted by little Miss Mary Short. The rooms were gay with flowers, the pretty dining room being especially inviting with its elaborate floral decorations.

The dinner was served in six courses, the menu including the old time delicacies so famous in Southern homes.

The Arnold's were friends of Mrs. Garnett in Kentucky years ago, and the dinner was "a cup of kindness for auld lang syne" which was very much appreciated.

A jolly week end event was the bunk party at the home of Mr. and Mrs. Jno. L. Wilson on Saturday evening, a surprise for their daughter, Miss Clyde. The guests arrived at the Wilson home just in time to accompany Miss Wilson to the show, after which they escorted her home and all spent the night together.

Almost the only diversion omitted from the program was sleep which by unanimous consent was indefinitely postponed.

Those who made up the jolly party were:

Misses Mabel Betts, Una Norton, Lillian Bennett, Hazel Wilson, Ethel Fuqua, Meda and Belle Woodburn, and Francis Dameron.

A delightful picnic luncheon at which the Misses Norton were hostesses, was enjoyed by about twenty of their girl friends on Thursday afternoon, with Miss Bruer of Illinois, as the honoree.

The merry party assembled at the home of Misses Hazel and Waldine Wilson and from there were conveyed in cars to the Norton home.

The luncheon was served on the lawn amidst a beautiful natural setting of trees, flowers and shrubs which just now are at their best.

The spread included fried chicken, hot rolls, potato chips, stuffed eggs, fruit salad, pimento sandwiches, olives, cream cones and ice cream.

Vocal and instrumental music interspersed with games combined to make the time after luncheon pass all too quickly.

Those who participated in the pleasures of the occasion were:

Misses Clyde Wilson, Meda and Belle Woodburn, Lois and Lollie Garrison, Bertha and Frances Dameron, Hazel and Waldine Wilson, Lota, Edna and Ethel Fuqua, Lillian Bennett, Elzina Mounis, Doris Bowers, Olive Perkins, Ruth and Inez Ricketts, Anna Price and Mabel Betts, and Mesdames Morgan and Elliott.

Mrs. Beulah Huddleston, of Texarkana, Grand Matron of the Eastern Star of Texas, was the guest of honor at a charming 12 o'clock dinner, on Monday, at which Mrs. Alec Thompson and Miss Jessie Morris were hostesses.

The hostesses were assisted by Mrs. Nell Wilson.

The elaborate dinner was served in three courses from a beautifully appointed table in the large dining room by the ladies representing the five points of the star and to the following guests who are all officers in the local lodge:

Mesdames L. R. Bradley, Oscar Shore, S. B. Edwards, Leslie Moreman, J. P. Snyder, F. T. Roloson, J. A. Stegall, R. T. Mooney, Mary Bourne, Misses Mattie, Bell and Meda, Woodburn, and Messrs. A. P. Murchison and H. B. Webb.

Mrs. A. C. Elliott was the genial hostess at a lovely pink and white luncheon, given Monday in honor of her niece, Miss Annie Beatrice Jarrett of Grandbury, who is her guest.

The Elliott home, a veritable bower with its vine covered porches and roses running riot everywhere, was never more attractive than on this occasion when nature seemed giving

Let everyone come and make this indeed a union co-operative revival.

of her best in tribute to the galaxy of youthful loveliness for which she furnished a perfect setting. Pink roses and daisies lent their charm throughout the rooms.

The hours were from ten to twelve and "forty-two" was played with the enthusiasm which evinces both interest and pleasure.

Piano numbers by Misses Glenna Rutherford and Edna Elliott were much enjoyed as also were the vocal selections by Misses Jane Gregg and Elzina Mounis.

Delicious refreshments of cream and cake were served, the favors being white roses.

The guests were: Misses Annie Beatrice Jarrett, Cassie Phillips, Madaline Barnett, N'Anna Elliott, Jehnnie Bourne, Glenna Rutherford, Elzina Mounis, Edna Kellow, Jane Gregg, Waldine and Hazel Wilson, Inez Ricketts, Bess Nance, May Pratt, Edna Elliott and Grace Wilson.

The Demorest home was the scene of a happy gathering Wednesday in celebration of the golden wedding of Mr. and Mrs. Demorest.

An excellent dinner was served to about thirty guests.

The celebrants were the recipients of several nice and useful presents.

OUR PUBLIC FORUM

Introductory

Through the Press Service of Agriculture and Commerce, the master minds of this nation will be invited to the public forum and asked to deliver a message to civilization. Men who achieve seldom talk, and men who talk seldom achieve. There is no such thing as a noisy thinker, and brevity is always a close companion to truth.

It will be a great privilege to stand by the side of men who can roll back the cornerstones of industry, to associate with men who can look at the world and see to the bottom of it; to commune with men who can hear the roar of civilization a few centuries away. Too often we listen to the rabble element of our day that cries out against every man who achieves. "Cruelly him." Mankind never has and probably never will produce a generation that appreciates the genius of its day. There never will be a crown without a cross, progress without sacrifice or an achievement without a challenge.

This is an age of service, and that man is greatest who serves the largest number. The present generation has done more to improve the condition of mankind than any civilization since human motives began their upward flight. The Greeks gave human life inspiration, but while her orators were speaking with the tongues of angels, her farmers were plowing with forked sticks; while her philosophers were emancipating human thought from bondage, her traffic

Amarillo Boy a Burglar

Frank Morris a former Amarillo boy, was shot and captured in Woodward, Oklahoma, Saturday, when he and a companion attempted to escape from the New State Bank building, which they had entered for the purpose of robbing. Morris gave the name of his companion as Duff Baker. Both the boys were about 19 years old.

The boys were seen to enter the bank by Ed Show, a restaurant keeper, about 2 a. m., and he spread the alarm. A number of citizens gathered with shot guns, and when the boys attempted to escape, they opened fire. Morris was shot down

but Baker escaped.

The boys had not succeeded in reaching any money when they were alarmed, and the bank lost nothing. It is not believed that Morris will die.

Morris' grand parents live in Amarillo, and his home was here for a number of years. He was sent to the State reform school several years ago for burglary, and has not lived in Amarillo regularly since that time. He was in the city about three weeks ago on a visit.

STREET CAR STRIKE

14,000 Men Affected; All Street Traffic Stopped

Chicago, June 14.—The first day of the big Chicago street car strike passed without serious mishap. No surface cars were run and only a few cars on the elevated. There was nothing resembling regular service except on the suburban lines of the steam railroads, and these were far from adequate. A wooden block thrown through an elevated train was the only violence. Fourteen thousand men are out.

The strike was the big question before the regular meeting of the city council tonight. Various resolutions looking to a settlement were proposed. One would pledge the city, which is a partner in the profit of the surface lines, to pay a proportionate share of any advances granted the men. Another suggested that a mediation board of five aldermen be appointed.

All manner of vehicles were pressed into service, even roller skates among some of the younger generation, but tens of thousands walked to their places of employment. The great thoroughfares through the poorer districts, such as Blue Island avenue, Acher avenue, Milwaukee avenue and Clark street, in traversing which the pedestrians may hear spoken most of the languages of the world, were black with people trudging to work. They overflowed from the sidewalks onto the pavement. The streets had the appearance, except for the general goon humor with which it was accepted, of the avenues of some city in the war zone, from which the population was flying.

The quiet of the day was not accepted by the authorities as assuring tranquility. Chief of Police Healy said he would ask authority to enroll 1,000 extra policemen to be available in event of disorder when the companies make a real effort to operate.

A drizzling rain most of the day added to the discomfort of the city. Owners of automobiles driving to or from the city submitted generally to the amiable brigandage of those seeking rides. Few machines traveled with empty seats. By a vote of 11 to 3 the finance commission of the city council decided to take under consideration for two weeks the request of Chief of Police Healy for an emergency appropriation of \$447,385 to employ 1,000 additional patrolmen for strike duty.

The State Board of Arbitration undertook a solution of the strike by addressing letters to both sides of the dispute asking either party to apply for arbitration through its organization.

Detective Otto Erlandson, one of the police guards, who rode on a south side elevated train, reported the first injury. A wooden block was hurled from the fire escape of a building into a train and Erlandson was cut by flying glass. The assailant was not found.

A single coach containing a number of policemen made a trip on the Lake street elevated to the West Side in the afternoon, but made no stops. Officials of the elevated systems denied they had imported breakers.

Norton Baby Dies

Corbett Wynne Norton, the two months old son of Mr. and Mrs. Claud Norton, died Saturday night and was buried Sunday afternoon at the City Cemetery.

A short funeral service was conducted by Dr. Faris at the grave, a choir from the Christian church furnishing the music.

The funeral was largely attended, the sympathy and love of many friends being shown in the beautiful floral offerings which made the tiny grave into a mound of flowers.

The community shares the sorrow of the bereaved parents.

Over in the Philippines the Carabao is the general beast of burden. For all kinds of hauling this short-legged, long-horned buffalo is used.

It is more than a mere coincidence that the principal brand used with the Red-Star-Green-T oils in the Philippines is a picture of this animal with its name "Carabao."

To the native of these islands the Carabao represents service, valuable service continuously performed in many ways. What the horse was to the Texas ranchman in the early days, the Carabao is to the Philippine native.

To Texaco products are pictured to the native by the Carabao, indicating the service and its character; the quality and its usefulness. The same quality and service are available for you in your town under the Red-Star-Green-T emblem of Texaco fame. Ask for them.

NOTICE OF SPECIAL MASTER COMMISSIONER'S SALE

The United States District Court, Northern District of Texas, Amarillo Division. WHEREAS, on the 19th day of April, A. D. 1915, in cause No. 49 in Equity, wherein THE FIRST MORTGAGE GUARANTEE & TRUST COMPANY, a corporation, is Plaintiff, and FAYETTE F. McELHINNEY, ET AL., are defendants, the said First Mortgage Guarantee & Trust Company, a Corporation, recovered a judgment and decree against the defendants VAUGHAN LAND COMPANY, a corporation, Fayette F. McElhinney, and Dessie McElhinney, for the sum of \$142,194.01, with interest thereon from April 19th, 1915, at 8 per cent per annum, also for the sum of \$3,000.00 attorney's fees, and for the sum of \$442.87, together with interest thereon from January 31st 1914, at the rate of 8 per cent per annum, and costs of suit, and a foreclosure of the Deed of Trust and Mortgage Liens on the hereinafter described property, situated in Bailey and Deaf Smith counties, Texas, as against FAYETTE F. McELHINNEY, DESSIE McELHINNEY, VAUGHAN LAND COMPANY, A CORPORATION, MATTHEW C. VAUGHAN, JOSEPH OGLESBY, THOMAS GAMON, JR., and WILLIAM E. CHAPMAN, and

WHEREAS, on the 21st day of May, A. D. 1915, an order of sale issued out of said Court, directing me, the said Special Master Commissioner named in said Final Decree, to sell the hereinafter described property, as follows: Those certain lands situated in Bailey county, Texas, at public outcry at the Court House door of Castro county, Texas, (to which the county of Bailey is attached for judicial purposes, the said Bailey county being an unorganized county of the State of Texas); and those certain lands situated in Deaf Smith county, Texas, at public outcry at the Court House door of Deaf Smith county, Texas; after having first advertised said sales once a week for four consecutive weeks in some newspaper or newspapers published and circulated in each of said counties of Castro and Deaf Smith. Said premises to be sold to the highest secure bidder for cash, on the first Tuesday of any month after advertising as aforesaid, such sale to be made between the hours of ten o'clock a. m. and four o'clock p. m.; provided, the plaintiff in this cause, its successors or assigns, shall have the right to bid on such property, and if the highest bidder, to credit its bid on the sums due by defendants Vaughan Land Company, Fayette F. McElhinney, and Dessie McElhinney, up to and including the amounts so due, and costs, but in such event, such plaintiff, its successors or assigns, shall pay an amount equal to at least five per cent of such bid to cover the costs of this proceeding and the expenses of such sale hereunder.

NOW, THEREFORE, by virtue of the authority vested in me by said decree and order of sale issued out of said Honorable District Court of the United States for the Northern District of Texas, on the 21st day of May A. FREE PORTS BUILDERS OF COMMERCE

CONGRESS SHOULD GIVE THEM PREFERENCE IN APPROPRIATIONS.

By Peter Radford.

This nation is now entering upon an era of marine development. The wreckage of European commerce has drifted to our shores and the world war is making unprecedented demands for the products of farm and factory. In transportation facilities on land we lead the world but our port facilities are inadequate, and our flag is seldom seen in foreign ports. If our government would only divert the energy we have displayed in conquering the railroads to mastering the commerce of the sea, a foreign bottom would be unknown on the ocean's highways.

This article will be confined to a discussion of our ports for the products of the farm must pass over our wharfs before reaching the water. We have in this nation 51 ports, of which 41 are on the Atlantic and 10 are on the Pacific Coast. The Sixty-second Congress appropriated over \$51,000,000 for improving our Rivers and Harbors and private enterprise levies a toll of approximately \$50,000,000 annually in wharfage and charges for which no tangible service is rendered. The latter item should be lifted off the backs of the farmer of this nation and this can be done by Congress directing its appropriations to ports that are free where vessels can tie up to a wharf and discharge her cargo free of any fee or charge.

A free port is progress. It takes out the unnecessary link in the chain of transactions in commerce, which has for centuries laid a heavy hand upon commerce. No movement is so heavily laden with results or will more widely and equally distribute its benefits as that of a free port and none can be more easily and effectively secured.

THE VITAL PROBLEM OF AGRICULTURE

By Peter Radford.

There is no escaping the market problem and the highest development of agriculture will not be attained until it is solved for a market is as necessary for the producer as land on which to grow his crop. Governmental and educational institutions have spent \$189,990,000 in the United States during the past ten years for improving soil production and improving seeds and plants, but very little attention and less money has been given to the marketing side of agriculture.

The problem is a monumental one and one which will never be solved until it gets within the grasp of a gigantic organization where master minds can concentrate the combined experience and wisdom of the age upon it. It is a problem which the farmers, merchants, bankers, editors and statesmen must unite in solving.

The Farmers' Union stands for all there is in farming from the most scientific methods of seed selection to the most systematic and profitable plans of marketing, but does not believe in prohibiting one to the neglect of the other. We consider the work of farm demonstrators valuable and we ask that governmental and commercial agencies seeking to help us, continue to give us their assistance and advice, but we believe that their influence should be extended to the marketing side of our farm problems also.

We cannot hope to develop manufacturing by over-production of the factory; we cannot build up mercantile enterprises by the merchants loading their shelves with surplus goods and no more can we develop agriculture by glutting the market with a surplus of products.

DARIUS

The neigh of a horse made Darius King of Persia, the six contending powers for the throne agreeing among themselves that the one whose horse should neigh first should possess the kingdom. This ancient method of settling disputes among politicians could be revived with profit today. If our partisan factions and petty politicians could only settle their disputes by the neigh of a horse, the bark of a dog or the bray of a donkey, it would be a great blessing and would give our citizens a better opportunity to pursue the vocations of industry free from political strife.

Let those who pick political plums by raising rows and who flash swords dripping in the blood of industry understand that they cannot turn the public forum into a political arena and by a clash of personal aspirations still the hammer and stop the plow and that their quarrels must be settled in the back alleys of civilization.

ALL AMERICA ON EXHIBITION THIS YEAR; RAILROADS GRANT LOW ROUND TRIP RATES TO SEE UNIVERSE'S MARVELS

Privileges of Routing Never Before Offered—Hotel Rates Average Less Than Those of Other Great Cities and 125,000 Rooms Available in Hotels and Apartment Houses in San Francisco.

There is something helpful and inspiring for every one at the Exposition. Said Vice President Marshall recently: "Whoever can, even at a sacrifice of something which for the moment appears necessary, should come to see a real work of art never equaled, even by a mirage. If there be any one in America with a thirst for knowledge and for beauty and a longing for a liberal education, such a one can obtain it here. This is the university of the world. It has a chair fully endowed to meet the wants and needs of each. The eye, the ear, the mind, the heart, the soul, each may have its horizon here enlarged. I came to bear a message. I remain to become a student. I leave the feet of this Gamelle of all exhibitions with regret." And Miss Helen Keller, who, as all know, is both blind and deaf, having acquired the faculty of speech, although she has never heard any one speak, said of her visit to the Exposition that it was the most inspiring period of her life. Said Dr. Frederick J. Y. Skiff: "Here the world is shown in epitome. The visitor from whatever realm here enters into his native land."

Apart from its costly and comprehensive displays, the great Exposition is an inspiration in itself. In its architectural beauty the Panama-Pacific International Exposition surpasses any of its predecessors. At night the great Tower of Jewels stands out sapphire white, sparkling with a thousand changing colors, as batteries of searchlights play upon this pyramidal monument, the loftiest structure at the Exposition and as tall as the average three-

five story city block. The coloring of the Exposition, the decorative lighting at night, the sculpture and the landscaping are all the work of foremost men in their respective fields.

At this writing the great Exposition is under full swing, and if you have not already made plans to see it early you should do so at once. Now is the time to visit the Exposition and the great Pacific coast region and, in so doing, to take advantage of the opportunity to make the most wonderful journey in the world in the most wonderful country on earth, the United States of America, under more favorable conditions of routing and travel than have ever prevailed before. The railroads are reducing rates from every part of America, and the low round trip rates will enable the visitor to come by one route and return by another. Thus you see the same parts of the country but once, and both your going and returning journeys are new and distinct travel trips.

Hot weather is unknown in San Francisco. Although flowers bloom the year round, it is as cool in summer as in winter, the average temperature being about 60 degrees. When you reach San Francisco you will, of course, wish to find accommodations without unnecessary delay, and while you will find some accommodations necessarily much more expensive than others, you will be able to secure a room at a dollar a day and up. Indeed, one can find all sorts of rooms in the great city of San Francisco, which in reality is a much greater center than the census would indicate, since, with its neighboring cities around San Francisco bay, it forms

a group of cities with a population of almost 1,000,000 persons. Hotel rates in San Francisco are no more than they are in any other great city in the United States. As a help to visitors the Exposition maintains the Exposition Hotel Bureau, an official activity which is conducted with the co-operation and assistance of a committee of representative hotel men of San Francisco, Oakland and Berkeley. This Hotel Bureau has no purpose other than to serve the public. It is not a profit making institution. If you want full particulars as to accommodations address the Official Exposition Hotel Bureau, Flannery building, Market and Kearny streets, San Francisco. In writing, it would be well to state how many there are in your party and how long you desire to stay.

There are accommodations for all in the great city by the Golden Gate, and one need only glance through the classified columns of the San Francisco papers to find how great is the variety of the accommodations offered, while a ride through the rebuilt city will show hundreds and hundreds of hotels and apartment houses, all constructed within the past eight years.

So do not fail to see the Exposition early. The journey there is a journey through the most interesting country in the world, and when you have reached the Exposition you will find the whole world spread out before you. The greatest geniuses of the age and the greatest nations of the world have contributed the earth's supremest achievements, and a visit to the Exposition is not only an education, but an inspiration.

A few days ago a rather bashful young woman went into a store carrying three chickens. She inquired the price of chickens and at the same time put them on the counter. The clerk didn't know that the chickens' feet were tied, and asked if they would lay there. She bit her handkerchief and said: "No sir, they are roosters."—Ex.
