

The Hereford Brand

VOLUME 12

HEREFORD, TEXAS, FRIDAY, SEPTEMBER 27, 1912

NUMBER 34

PLANT SHADE AND FRUIT TREES

Advocates Fruit Bearing Trees for the Streets as Well as for the Garden and Orchard.

There is nothing that adds so much to the beauty of a town or a home than shade and fruit trees. Hereford can boast now of having more beautiful trees than any other town of its size, and we might challenge a number of bigger towns. While a good start has been made and many of our homes have a fine row of shade trees along the curb line and in the yards, while an ample number of fruit trees in the garden, yet there is plenty of room for thousands more.

The kind of trees has a deal to do with desirable results. Most any variety will grow in this section, but some are better suited than others. Simply to name the trees that experience has shown are not giving satisfaction will leave the whole catalog open for a general selection. The lombardy poplar is a quick grower, but short life and the worms they attract are bad and it is almost impossible to have a clean tree. The cottonwoods are all good growers, but they, too, furnish food for the ever present worms, and it is not advisable to plant either of these varieties. If we could import some worm eating birds, this trouble might be avoided. The best shade tree so far shown is the black locust; a little hard to start and if no deep plowing is done around the tree, there will be no sprouts. The silver leaf maple is a beautiful tree and makes a very rapid growth. The same method of culture will prevent the objectionable sprouts. Then there is the elm, a slow grower; the green leaf maple, a good tree; the catalpa, one of the most beautiful trees; all make excellent shade.

But why plant only non-fruit bearing varieties along the streets and public high ways? Why not include in the list a few apple trees, pear trees, or fruit-bearing varieties of sufficient height to be out of the way of pedestrians. Along the farms, even plum trees and grape vines would be splendid for planting. Aside from their attractiveness, they would yield fruit. We believe it would be well for home owners in the city to plant a few fruit bearing trees along the curbing, and when the trees begin to bear, let it be understood that any one passing, may pluck therefrom. So when strangers are in the city they could enjoy the fruit as well as the hospitality. This would make a beautiful custom for the town and would redound to its honor and fame. Besides teaching a lesson of generosity to the children as they pass along the streets, it would also give them a striking lesson in open honesty. The teachers and parents could tell them that the fruit belongs to all the people and that they are at liberty to pluck as much as their sense of propriety demands. A number of cities in the Old World have thousands of fruit trees along the curbing and in the center of the streets, but the fruit belongs to the municipality, and when ripe is sold to the highest bidder, the funds derived therefrom being used for street improvement and beautification. Why couldn't the Hereford people make a great name for the city, a name that would

resound down the ages to unnumbered generations, by planting hundreds of fruit trees instead of so many shade trees?

The Roth Pump at Work.

The irrigation well on the Alex Thompson farm three miles south of town was put to work last week after several days of delay. The equipment is new for this district, consisting of a Roth rotor pump and a two-cylinder Rumely Oil-Pull engine. The pump was lowered into the well two weeks ago and the first few minutes run sheared off two or three of the rotors and choked it down. After repairs were made and everything in good shape for a trial run, the engine could not be run up to the required speed. An engineer for the company came up and "timed" the engine for a higher speed and pumping was begun in earnest. Several car loads of sand were pumped out and from 700 to 800 gallons of water per minute was delivered. In the "starting and stopping," considerably more sand was stirred up than was expected and the pump "sanded down." This made it necessary to pull the pump again. While a good test has not been made the results have been entirely satisfactory to Mr. Roth, who is here overseeing the installation of his pump. He is now waiting for some additional fixtures, and as soon as they arrive, the pump will be lowered, this time 100 feet instead of 90 as before. The well was drilled about 150 feet deep and "oceans of water" was found.

Sunday School Rally.

Next Sunday will be "Rally Day" at all of the Sunday schools in town. On Saturday some 50 or 60 census takers will canvass the town for a religious census. These canvassers will visit each house and will obtain information about the church affiliation, Sunday school attendance and other matters of interest to church and Sunday school workers. The committee wants to get the numerical census as well as the church and school census and it requests that some member of each family remain at home next Saturday, tomorrow, between the hours of 1:00 and 3:00 p. m. in order to have a full and complete census taken. The committee has arranged for the "workers" to do all of the work in two hours time.

London Man Asks About Irrigation.

The name and fame of Hereford, Texas, has reached the home of the first "Herefords," or at least near enough to Herefordshire, England, to warrant that it will. For here comes an inquiry from London under date of September 14, thus making the trip in ten days, asking about irrigation in the Hereford district. To make a short story as long as possible, the gentleman making the inquiry is a reader of The Brand and wants to know something more about our irrigation possibilities. He will be supplied with the necessary information. The gentleman and other of his friends in London own several sections of land in the county and, no doubt, have become interested in the irrigation prospects.

A New Business.

Ralph Barnett has opened up a "clothes to wear" establishment in the building next to Ashbrook & Dale's insurance office, where he would be pleased to meet his former friends, and he would also like to make a lot of more friends who wear clothes. He says he has nothing to sell but suits. If you wear clothes, he would appreciate a call.

A Good Idea For High School Girls.

In the October Woman's Home Companion on the "Good Idea Page" appears the following:

"Five high school girls and their mothers decided upon the following arrangement. Instead of carrying a single lunch every day, each girl selected one day out of the five school-days of the week, and on that day carried enough lunch for five. The effect not only simplified matters, but added to the quality of the lunches. All agreed that food was to be simple and wholesome, and that candy and pickles were to be eliminated. Five white paper napkins and a small lunch-cloth were provided with each lunch, which was served in picnic fashion. Lunches were planned for the day before instead of being hastily gathered up from the remains of the breakfast table, or instead of supplying the girl with a dime for the candy man."

Jake Shelton Ranch Sold.

Barber Brothers of Emporia, Kansas, bought this week the Jake Shelton Ranch, consisting of sections, situated 8 miles northwest of town. C. R. Barber, one of the brothers, will move to Hereford to make his home and to look after the ranch. They also bought 150 head of fine, high grade cattle from the Work-Phillips herd to further stock the ranch. This is one of the largest realty and stock deals made in this county in several years, and both deals were consummated through the instrumentality of C. H. Pratt, also of Emporia, Kansas.

How to Tell the Speed of Autos.

In a town where the blocks are 300 feet wide, it is an easy matter to determine the speed of an auto, motorcycle or other vehicle with the ordinary watch. Simply watch the machine observing when it enters into and passes out of the block and count the number of seconds it required. The following table shows the "speed":

30 sec. is 6.8 miles an hour; 25.6 sec. is 8 miles an hour; 20.4 sec. is 10 miles an hour; 17 sec. is 12 miles an hour; 15 sec. is 13.6 miles an hour; 13.6 sec. is 15 miles an hour; 12 sec. is 17 miles an hour; 11.3 sec. is 18 miles an hour; 10.2 sec. is 20 miles an hour; 8.1 sec. is 25 miles an hour.

Shipping More Cattle.

Last Sunday ten cars of 3-year-old steers for feeders were shipped out to Iowa, K. E. Bain of Silverton being the seller. He had been pasturing in Castro county and this was the nearest shipping point. The biggest shipment of the season will be made next Saturday, when some 44 cars will be sent to Idaho. Today Messrs. Donald and Money are shipping 9 pine cars to the Kansas City market. Messrs. Hicks, J. L. Wilson and J. H. Wilson will have ten cars going to market on Saturday. This makes a total of about 70 cars shipped out this week.

A Sleeping Beauty.

A lot of curiosity was aroused Tuesday afternoon by Prof. Garnett when he "put to sleep" a subject and placed him in one of the show windows of the Brand office. He was put "under the spell" by the Professor at 2 o'clock and he remained sleeping sweetly until brought to the stage in the Star Theater about 8 o'clock. The young fellow is a half Spaniard and he travels with the "Professor," who, by the way, is a good hypnotist.

YOU'LL LIKE HEREFORD!

Will It Apply Here?

Would the Houston System apply in Hereford and Deaf Smith county? When some of the farmers are placing, at large expense, improvements on their land, which will undoubtedly enhance the value of every piece of realty in the entire community, why should they be taxed for their risk and industry? If one puts down an irrigation well and thus overcomes the deficiency in rainfall and increases the crop possibility of his farm, why should he be taxed more than his neighbor, who simply enjoys the industry of the other and lives fat on the unearned increment? All such improvements should be taxed at a low ratio if not entirely exempt, especially as long as he owes for such needful improvements. If the farmer's land was worth \$25 per acre under former condition, but under irrigation is worth \$75 per acre, why should he be taxed the extra amount, because he saw fit to add the necessary improvements, while his neighbor goes scot free of any increase in assessment values, simply because his land is "dry"? If the "dry" quarter has been enhanced in value because of the proximity of "wet" quarter, why should it not be taxed on this unearned increment? It is justice and nothing but justice that it should be.

First Norther of the Season.

The first real "Norther" of the season struck this section Tuesday afternoon coming from the northeast, the usual direction for the Panhandle. At night the wind was "purty" brisk and by morning the temperature was down to 39 degrees only 7 degrees above the freezing point. During the day, Wednesday, the sky cleared and the temperature rose to about 60 during the day, being 50 at noon. Wednesday night, clear and still, brought the out-door thermometer column down to 33, the government registered 34 degrees, and frost on the upland was barely averted. There was slight indication of frost in the valleys.

Making Syrup From Sugar Beets.

Since the result of Mr. Mitchell's test has become known, a number of Hereford people will try their hand at making syrup for home use out of the sugar beets. He says that the beets should be well matured and that any one can make fine, clear syrup of excellent flavor with a little trouble as making preserves of any kind. A little attention and care is all that is needed.

Filling His Silos.

Sept. 16.—Friday afternoon a number of Childress business men went out to Ernest Hunt's ranch to inspect his new silos, which he has just completed and is now filling. All were highly pleased with the enterprise, this being the first of its kind in this section of the state. Mr. Hunt has built two silos, one costing about \$300 and the other about \$250. He has filled one with kafir corn and sorghum and is filling the other with maize. He is using one of the latest patterns of choppers and packs the feed down in a mixed form, the grain being uniformly distributed through out. Each silo holds 150 tons. Next year it is thought that a number of farmers and ranchmen will follow Mr. Hunt's lead and this will make the process much cheaper, as one set of machinery can be used for filling a number of silos.—Childress Post.

See Smith for second hand goods.

3312

Alfalfa Coming Fine.

E. Renfro says that his 35-acres of alfalfa planted and watered just before the September rains set in, is coming along in fine shape and that he has a good stand. He is cutting a fine line of millet this week which he has raised under the ditch.

Revival Closes.

The meeting at the Church of Christ closed Wednesday night with good attendance. Much interest was manifested throughout the entire meeting. Bro. A. D. Dies is a forcible speaker and presented his thought in such a manner as to make every sermon a lesson to his hearers. He leaves with the very best wishes of those with whom he has been associated while here to go to other places to fill his engagements.

Birthday Box.

The ladies aid of the First Christian church has placed a "birthday box" on the pulpit of the church, where it is expected that, when members come to the anniversary of that eventful day, they shall deposit in the box as many pennies as they are days old. The limit is not placed at pennies, however, for as many nickels as years, or as many dimes as years, or as many quarters as years, or as many dollars as years, will serve the same purpose. The funds thus secured will be used to help finish the church building.

Condition of Alfalfa.

A. W. Gregg, owner of the Niagara Farm, brought to this office the other day a few plants of alfalfa, which he took from a field of 15 acres. The plants measured 7 inches high with a root 6 inches long, and the field had been planted just 34 days. A fair growth for alfalfa.

A Service of Song.

The evening service at the Presbyterian church will be a service of hymns and sacred songs. At the 11 o'clock hour Rev. F. C. Baker, father of the pastor, will preach. You are cordially invited to worship with us. W. M. BAKER.

From The Randall County News.

Canyon, Sept. 19.—The rainfall at this place last Monday and Tuesday amounted to 5 inches, while in some parts of the county as much as 8 inches fell. This is considered enough for a fine season for fall sowing.

Three hundred and three students have been enrolled in the Northwest Texas Normal, 63 more than at the same period of last year. Twenty five men have been practicing for the football games and a good, strong team will be selected from that number. Games are being arranged with the neighboring high schools and colleges. The athletic association is taking much interest in the physical training.

Basket ball and tennis clubs have been organized among the girls of the Canyon high school and they will soon be ready for some match games with other schools.

Get a Deaf Smith County Map. Up-to-date, only \$1.50. H. G. Hays, Co. Surveyor, Hereford. 211f

I'll meet you at the Corner Drug Store. 381f

China Painting.

Mrs. W. T. Stanberry announces that on her return from El Paso about Oct. 1st, she will begin a class in china painting. Will also do firing for others at a moderate cost, and especially solicits individual orders for the coming holidays. Phone 259 after Oct. 1st.

The Western National Bank.

Our own customers know the nature and quality of the service rendered by this bank and we believe we could number many more among our customers if we had the opportunity of discussing the matter of Modern Banking Service which really serves.

This space will contain an article on the merits of modern banking each week, or an article on investments that a safe and conservative bank can recommend to its customers. We at all times take pleasure in advising with our customers concerning safe investments, and our long experience in the banking business and in the Panhandle makes us especially desirable for those who are contemplating opening a bank account with a strong bank that can take care of its customers in their time of need and in their time of prosperity advise them of good and profitable investments.

The Western National Bank solicits Mutually Agreeable Accounts.

Hughes Grain Co. is selling the very best Colorado coal to be had at a very low price for cash. 32-2t

Grabam May Resign.

Austin, Tex., Sept. 19.—Chief Justice J. A. Grabam of the Amarillo court of civil appeals was here today to see the governor. Judge Grabam was defeated for his Democratic nomination for his position and will leave the court next January if he does not resign sooner.

It is understood that he has several very attractive business offers which might prompt him to leave the court some time next month before the new term convenes, and that he was discussing this matter with Governor Golquitt.

No Calomel Necessary.

The injurious effect and unpleasantness of taking Calomel is done away with by Simmons' Liver Purifier, the mildest known liver medicine, yet the most thorough in action. Put up in yellow tin boxes only. Price 25c. Tried once, used always. 31-4t

C. D. Miller, Rooms 8 and 10 Dunlap Building, can sell you most anything you want in irrigable lands or ranch property. 24tf

High Cost of Marketing Farm Products

Tyler, Texas, September.—Mr. S. A. Lindsey, chairman of the subcommittee on Production, and Marketing of Farm Products, has been conducting an investigation into the high cost of marketing, on behalf of the Welfare Commission. There have been shipped out from this city this season 1,571 carloads of peaches to out of state points and the last end of the crop rotted on the ground for want of a market, although the consumer was anxious for the fruit.

A great deal of the Texas product goes to Colorado and Mr. Lindsey's investigations into market conditions at Colorado points shows peaches that the Texas producer gets sixty cents per bushel for packed and delivered f. o. b. Tyler at a cost of twenty-seven cents for picking, packing and hauling, sell to the Colorado consumer at \$3.75 per bushel, and when the market drops to \$3.42 per bushel the Texas farmer gets nothing for his peaches. The cost per bushel for marketing a bushel of peaches in Boulder, a common point with Denver, is distributed as follows: Picking 2 cents; packing 2 cents; package, 20 cents; hauling, 3 cents; freight, 40 cents; icing, 15 cents; handling after reaching Colorado, \$2.60; total, \$3.42. It follows that peaches which sell to the Colorado consumer for \$3.75 brought the Texas producer 33 cents.

The cost of handling the peaches after they get to Colorado is more than four times the cost f. o. b.

Again We Are With You For Better or Worse

It is with much pleasure that we announce to our friends and former patrons that on

MONDAY, SEPTEMBER 30th.

We will agrin be in a position to handle your GROCERY wants, having closed a deal with Mr. Wilkinson whereby we become owners of his present business.

We desire his many customers to continue buying from us and extend to our former patrons a most cordial invitation to do their trading with us in our new home.

We will handle all the excellent lines of Standard Goods which Mr. Wilkinson has carried and as the days progress will add other attractive lines.

Our every endeavor will be to serve you promptly and efficiently, give you high-grade Groceries at the lowest prices consistant with best quality, and give you all those attentions which a good customer deserves, whether his purchasing power be great or small.

Yours sincerely,

CARDWELL BROS.

Phone 81 or 271 Wilkinson Old Stand

Tyler, and nearly five times the cost of the freight and icing charges added together.

The situation exists to a greater or lesser degree with all perishable farm products, and many that are not strictly perishable.

The high cost of marketing reflects its results upon Texas producers in that it lessens the consumption of the quality and reduces prices below the cost of production.

Valuable Tests in Preserving Eggs.

To those who are interested in the preservation of eggs, the following facts will be of value: A man who had sufficient patience and persistence to make a thorough test of the different preparation recommended for preserving eggs, placed an equal number of eggs in each preparation and after leaving them for eighteen months, announced the following result:

- Eggs wrapped in tissue paper, 80 per cent were bad.
- Eggs packed in brine were all bad and impalatable, as the salt had penetrated the shells.
- Eggs preserved in salacylic acid glycerine, 80 per cent bad.
- Eggs rubbed with salt 70 per cent were bad.
- Eggs packed in bran, 70 per cent were bad.
- Eggs covered with paraffin, 70 per cent were bad.
- Eggs varnished with salacylic acid and glycerine, 70 per cent were bad.
- Eggs sterilized twelve seconds in boiling water, 50 per cent were bad.
- Eggs treated with alum, 50 per cent were bad.
- Eggs submerged in salacylic acid, 50 per cent were bad.
- Eggs varnished with water glass, 40 per cent were bad.
- Eggs varnished with shellac, 40 per cent were bad.
- Eggs treated with water glass and boric acid, 20 per cent were bad.
- Eggs treated with permanganate of potash, 20 per cent were bad.
- Eggs varnished with vaseline, all were good.
- Eggs preserved in lime water, all were good.
- Eggs preserved in water glass, all were good.—Exchange.

The Orator Who Nearly Lost His Pants

In the September American Magazine appears the following about a delegate at the Baltimore convention who made a speech:

"The crowd listened approvingly to a frenzied speech from a Southwestern statesman who introduced an entirely new gesture. With his right hand outstretched he made wild clutches at his shoulder with his left hand thumb. It turned out that this was no mere affectation to emphasize his rhetoric, but that his 'galluses' were slipping. He remarked to a fellow delegate as he came down from the platform: 'I durn near lost my pants.'"

Better place your order for winter coal with Hughes Grain Co. now. It may be hard to get when you need it. 32-2t

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all dealers.

Select Kaffir and Milo Maize Seed Now.

As farmers we can increase the yield of our kaffir and milo maize crops at least one-fourth, by the use of the right kind of seed. It would be a hard matter to estimate the actual loss to our farmers in the seed planted last spring, which did not even start to sprout. Not only was this seed lost, but the small percentage which often came up, made a poor stand which could not produce a maximum crop.

Poor seed often produces such a poor stand that it has to be plowed up and replanted, this making all of the first planting and sometimes the second planting a total loss. Why not feed this poor seed to the hogs or cattle and plant seed that has been secured from the field and is known to be good.

We cannot afford to wait until spring and take our seed from the bundle or out of the threshed seed

from the ganary. It may have become heated in storage, or the freezing and thawing of winter may have damaged the germinating qualities.

The time to begin our 1913 kaffir and maize crops is in September and October. By selecting the best heads from the field at this time, the farmer can secure the earliest and best formed heads. A selection of these earliest heads will insure a seed that will mature uniformly earlier than the seed from the later heads.

The farmer who will go through his field and select the best heads before the crop is harvested has an opportunity to see the type of stalk which produces the seed. A big head grown on a stalk by itself is not as good for seed as a uniform size head which grew on a good stalk, which was surrounded by other good stalks.

Again, if the crop from which seed is being selected is somewhat mixed with other sorghum crops, the selected heads should be taken as far away from the foreign heads as possible.

Remember that now is the time to start our next year's crop. Let us select the best heads we produced and store them away in a good dry place, out of the reach of mice. The heads can be stored in sacks or tied in bundles and can be hung from the rafters until spring. Shortly before planting time, these heads can be threshed out by hand. This method of selection will insure us very much better yields than we have been getting.

Agricultural Demonstrator,
Santa Fe System, Amarillo, Texas.

Prevention of Smut in Wheat.

It will pay every farmer who sows wheat this fall to treat the seed for smut before sowing it. The 1912 wheat crop was badly damaged with smut and on account of this we must exercise every precaution to keep it out of the 1913 crop.

The most of us know that the smut spores adhere to the wheat kernels and are sown with the seed. When the seed begins to grow, the smut also grows. It lives in the wheat plant and is ready to destroy the wheat kernel as soon as it forms.

On account of the large amount of

smut in the country this year, it will pay to treat all wheat seed whether it shows smut or not.

Either the "Blue Stone or Formalin Treatments" will do the work, the latter being considered best.

Use one pound of a 40 per cent solution of Formalin in 40 gallons of water, which is enough to treat from 2,000 to 2,500 pounds of seed. Thoroughly wet the seed either by sprinkling or dipping. Pile the wet grain and cover with blankets or sacks for two hours, then spread out to dry. Thoroughly disinfect the sacks in which the seed is to be replaced; also see that the grain drill is washed out with the solution. Don't treat the seed too long before sowing it.

Agricultural Demonstrator,
Santa Fe System, Amarillo, Texas.

Working for a Living

The Philadelphia Record in commenting on the breaking up of the great 3,900,000 acre X. I. T. ranch to offer for sale, says: "Rainmaking has been dropped, Charles Farwell is dead, and the X. I. T. ranch will be broken up and sold with such water as nature has provided for it."

The Record came near enough in hitting the nail on the head to miss it. When the Lord sentenced man to earn his living by the "sweat of his brow," this was certainly the best thing for man. Most everything that is worth much, cost something in labor or its equivalent money.

To give to man a state with so fine a climate and such bountiful natural resources as has Texas, both above and below ground, without even having to dig for them, would be too much like picking up

gold in the streets, which would soon destroy man's energy and inventing genius.

The Record's editorial staff evidently haven't been down to Texas, the "Do Things State," where men are not only willing to work, but actually love to go right after things and "get 'em." That piece of ground which the Record says will have to remain "with such water as nature has provided for it," will soon be blossoming as the rose under its natural rainfall, supplemented by natural water conservation and distribution, as part of the great plan for statewide natural water conservation and irrigation.

Ours is a state which is willing to do its part and to co-operate with the Almighty in making Texas "The World's Greatest Garden Spot."

Graduated Land Tax.

Fort Worth, Sept. 25.—The Farmers' Union movement, to submit to the legislature, an amendment to the constitution of Texas for a graduated land tax, upon holdings above 100 acres, is generally commended, with the proviso, that great

care should be taken that legitimate speculation by wholesale land dealers, speculators and investors shall not in any way be interfered with by such an amendment. By legitimate speculators is meant those who turn over their investment money frequently, who secure investors and settlers, and who perhaps do some improvement work to partially prepare the property for occupation, in order to secure a largely advanced price. Such men are real land merchants, valuable in the settlement of our state, and should be protected.

A Certain Shot on Chills.

I have been using your Cheatham's Chill Tonic in my family for sometime and can say it is a certain shot on Chills, says J. B. Blackshear, Lewisville, La. Money promptly refunded if it fails to cure. Price 50c. Sold by all dealers. An excellent tonic for invalids and feeble persons. Prepared only by A. B. Richards Medicine Co., Sherman, Texas. 31-41

PENALIZING INDUSTRY.

An example: A and B come into a new community and each buy an adjoining quarter section of land. A files his deed for record and returns to his former home; B also files his deed, but B remains to develop his land, open a farm and build a home. He soon gets a house built and he sends for his wife and children. He turns the virgin soil into productive fields, and thus enhances the value of his own land, the value of his neighbor's and the value of A's adjoining property. The fact that B built a house, fenced his land, raised crops and kept his family in the community, sent his children to school, all tended to increase the market value of all the land in the neighborhood. Now when A pays his taxes he finds the land assessed about one third of the price he paid for it, or perhaps one half; but when B goes to the collector's office he finds his land is assessed at a higher price and in addition must pay on all of his improvements in about the same ratio of valuation. After two or three years, even tho B has had more taxes to pay and has done many things to build up a desirable community, he decides that he would like to purchase A's land. So he writes to A and receives a reply in which A asks \$10 per acre more for his land than he gave for it. It does not require very wise men to see that B's industry has enhanced the value of A's land. It is perfectly right that A should consider that his quarter section is intrinsically worth more under the improved conditions. But here is the point at issue. If B's industry and improvements have added so much to A's property, why should B be penalized with taxes for his industry? A's land has risen in value, but he pays nothing to the state nor the community for that unearned increment. If B pays on all of his improvements, why should not A pay on the enhancement?

Another example: This question of the equalization of taxes is calling for solution at the hands of our citizens. J. J. Pastoriza, tax commissioner for the city of Houston, in trying to solve the problem has evolved a system which he and his associates believe will be just and right. His plan is based upon this question—"What, then, is a just system of taxation? It is a system which levies a tax in direct proportion to the benefits received from the government." In the Houston sys-

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY, & CO., Toledo, Ohio.
Sold by Druggists. 75c.
Take Hall's Family Pills for constipation.

tem, this general plan is being worked out:

- First, to exempt money, personal property, and the like from taxation;
- Second, to assess buildings and other improvements upon real estate at 25 per cent of the cost value;
- Third, to assess all land at its market value or real value.

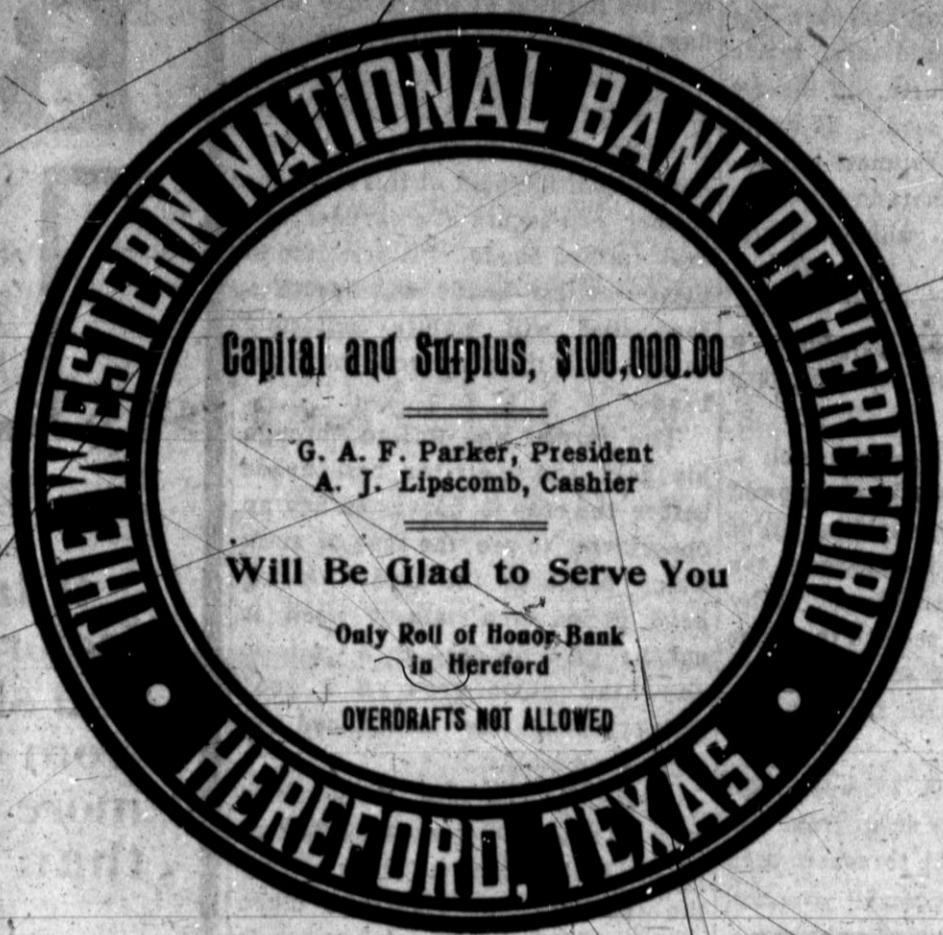

In connection with this system of taxation, the Houston commissioner would inaugurate the Somers system of assessing. The Somers system is simply a mathematical system of equalizing realty values. Many things must be taken into consideration under this plan. But there is one thing that is not considered and that is the owner's usually low estimate. The location, the street, accessibility, nearness to public buildings, nearness to transportation lines, and many other items. It begins by placing a "key value" on some central lot and the value of all other lots facing on that street, and in that block are determined by a mathematical ratio. Each block is worked out separately, and after the entire town has been studied and the land values determined, then the assessment of the improvements is added. The total sum will give the valuation of all property not exempt. This is Mr. Pastoriza's plan as outlined by the Waco Tribune. In commenting upon the system, the Tribune says:

"Money, household property, and other personal property are exempted under the Houston system, while all buildings—the humble cottage of the laboring man as well as the skyscraper of the capitalist or corporation—is taxed for only 25 per cent of its value. Since money is not taxed it has flowed into Houston, the tax reformer declares, and since buildings are partially exempted from taxation that city has enjoyed such a building growth as no other city in the state has."

There is one thing not mentioned in the Tribune's article which should be considered, and that is the taxing of notes, mortgages, bonds and stocks, and other certificates of indebtedness. The writer has never thought it right for a farmer to pay taxes on what he owes. If he still owes \$10 per acre on his land, then that amount should be deducted from the gross value before the tax begins. But as all realty and certificates representing realty should be taxed, then the assessor should list the vendor's lien note against the holder. To tax both the note and the land is double taxation and extremely unjust. The question of taxing bonds, stocks and semi-public utilities will be discussed later. No doubt the originator of the Houston System has considered all of these points and does include some sort of scheme to cover the deficiency.

The clowns produced the best attraction at Cole Brothers' Show, but the entire performance was good enough, the usual "feats" being done with clock-like precision.

The show brought out a good many quarters and halves, and it was a "sight to see" the large number of fathers under the big tent with the young off-spring; it reminded one of the way these same good fathers take their children to Sunday school.

THERE was nothing unusual about the show: you had to buy a ticket at the "wagon" to get in, then after you "saw the animals" and got as far as the door of the "main show," another ticket man with a grip full of quarters almost demanded that you buy a "reserved seat" in order to see the show at any advantage; then finally after a short "puffblow," a man with a big voice comes out and announced that all who wanted to see the "concert," the real show, would please pay 10 cents to the ticket men as they passed through the audience; thus the show men in realty "passed through" the pockets of the audience.

AND now comes Wichita Falls, a town that is widely known for its energy and enterprise and offers to entertain the court and witnesses and "camp followers" in the Sneed

trial, saying that it was sure a fair and speedy trial could be had in that city. It is well for towns to look out after conventions and such like, but the Brand thinks Fair Wichita exceeded her own anxiousness when she put in a bid for a criminal scandal to be rehearsed in the court house of that county. Amarillo has nothing which to boast in having such personal and private history exposed in open court and Wichita has lost nothing by failing to "land" such a convention.

Judge Browning of Amarillo before his court opened to hear the habeas corpus proceedings in the Sneed case, announced that every man, except the local officeholders, would be "searched" for fire arms before any could enter the court room. The Brand thought there was a law against "pistol toting" in

Texas and why should it be necessary for a judge of the criminal court of the state to issue such a warning. If citizens saw fit "to arm themselves to the teeth" when they went into the courthouse on business, let them be arrested and pay the penalty for violating the plain letter of the law. Or did Judge Browning suspect that some would want to violate the law under the circumstances and he thus warned them to be careful or they would be "pinched." Judge Swayne at Fort Worth did the same thing in a similar case. It is a bad state of affairs when criminal judges must issue forecasts.

BETTS & CLARK

Hurley Hustlings.

Delayed From Last Week.

Hurley, Texas, Sept. 16.—The best rains since the fall of September, 1907, have fallen in the valley, which has done untold good. It is expected that many of the farmers will plant a large acreage of wheat. All crops are fine.

The promoters of the town of Hurley, with appropriate ceremonies raised a flag pole 100 feet in height on the future county site of Bailey county Saturday of last week. Old glory now waves over the county of the free and the brave.

L. R. Cox, the hustling land man, will soon have his nice and commodious land office completed. It will be painted snow white with a green border. This office will have the distinction of being the first building erected on the new townsite of Hurley.

R. A. Underwood of Tulia was in Hurley Thursday and Friday of last week prospecting with a view to the establishing of a bank. All arrangements have been perfected to open a bank at Hurley in the near future.

Jno. F. Rags, superintendent of the Government Experimental Farm of Amarillo, Texas, has purchased a tract of land in the valley and will improve it shortly. He purchased same through L. R. Cox. When such citizens as Mr. Ross buy in the valley, after having had a number of years of observation on the Plains, is evidence that the Hurley country is the best of it all.

James Johnson received a telegram from Dorchester, Nebr., that his mother was quite sick and he immediately left for her bedside. He left Sunday morning.

Rev. C. G. Murphy of Oklahoma

Cure Your Backache and Rheumatism

WITH

FOLEY KIDNEY PILLS

Backache drags on your vitality. Saps your strength. Weakens your endurance. Hampers you in your work.

Besides that, it means something wrong with your kidneys; a weakness, an inflammation, a breaking down, may be, of the kidney tissues. Foley Kidney Pills is the true answer. They will help you QUICKLY, strengthen and heal your kidneys, regulate the action of your bladder, and drive out Backache and Rheumatism. They will make a strong, well man of you. No habit forming drugs. Try them.

BETTS-CLARK, Druggists

FOR SALE

On Easy Terms

Will consider some good trade. Several tracts of fine land in the Shallow Water Belt reasonably close in.

No. 1—160 acres 6 1-2 miles northwest from town. Some improvements.

No. 2—160 acres 8 miles northeast. No improvements.

No. 3—330 acres 8 miles southeast. All smooth. Fine location.

No. 4—Two sections, 8 and 9 miles east. Some 200 or 300 acres of sub-irrigated land. Good location and near to school.

No. 5—231 acres 3 miles east of Amarillo. All smooth.

No. 6—160 acres 6 miles south of Amarillo.

No. 7—160 acres 1 mile west of Dimmitt.

No. 8—160 acres 1 1-2 miles east of Dimmitt.

No. 9—One section 16 miles north of Herford. Located on 25-Mile Ave.

No. 10—One 6-room house, well, windmill, barn and all necessary out houses; young orchard, 5 acres of land.

No. 11—One 6-room house, barn, well and windmill, fine orchard and shade trees. Located on 25-Mile Ave. 1 1-2 acres.

I also have a number of other pieces of property. Can fit you up in any size residence wanted and land located anywhere. For prices and terms, see or write

J. H. BOWERS,

First National Bank Building

Herford, Texas

City was in the Hurley community this past week. He is superintendent of the Congregational church work for this district. They expect to erect a church at Hurley in the near future.

Rev. Hulburt was a business caller at Hurley Thursday.

Jacob Brown of Nebraska, accompanied by his wife, were in the valley looking after their land interest one day last week.

Floyd Young of Nebraska was in Hurley one day last week inspecting the big pumping plants. He expects to return in a short time and install one of the best plants yet installed.

J. F. Metsker, our prominent merchant, made a business trip to Farwell Thursday of last week, returning Friday.

L. R. Cox made a business trip to Amarillo and Farwell the latter part of the week. He has received a number of fine photographs of the exhibits at the Hurley carnival of last week. They are very pretty and will be used in making engravings to be used in advertising the advantages of irrigation in the valley.

We still have a few pieces of that cheap lumber. Just the thing for shed building. R. H. Kemp Lumber Co. 1t

Friona Items.

(From the Sentinel.)

Mr. and Mrs. H. S. Harris arrived home from Kansas City on Thursday of last week.

Mrs. Ethel Carter and Master Herbert of Hereford, are the guests of her mother, Mrs. Reece.

Fred W. Clennin bid off the old school building Saturday, and is now preparing to move it on his farm south of the railroad.

Rev. Hurlburt accompanied Rev. Watenberger of Oklahoma to Farwell Wednesday. Rev. Watenberger is being considered as pastor for the Farwell and Hurley congregations.

G. A. Dobbin returned from Chicago on Thursday of last week. He has decided the machinery for the big well is too small and that the Syndicate is arranging for heavier machinery.

During the week ending September 14 there was at least five inches of water fell, and Monday another big rain visited this section. Old settlers say that the ground is soaked down deeper than it has been since 1907. Farmers intending to plant wheat should get it in the ground as soon as possible after it is fit to work.

Best selected line of Fall Dress Goods and trimmings in the city at D. R. Cox & Son's 34t

Bonus Raised For Texas Gulf & Northern.

Midland, Texas, Sept. 19.—The city of Midland has succeeded in raising the bonus required by the Texas Gulf & Northwestern railroad which is to be constructed from Tumcumcari, N. M., to Midland and from the latter city southeast to San Antonio. The last of the bonus, which aggregated \$100,000, was raised the 7th, and final contract made with the Texas Gulf & Northern railroad representatives.

Mares and Mules For Sale.

Several good mares and mules colts for sale. See J. H. Bowers. 33t

Royal Tick Commission Visits Texas Packing Houses.

Ft. Worth, Texas, Sept. 25.—The Royal Tick Commission from the Australian government examined the packing plants in this city and conducted a most searching inquiry into the methods employed by these modern plants in preparing meats for the markets.

Australia has about 42,000,000 head of sheep and 5,000,000 head of cattle and the government is interested in building up its live stock industry. The Commissioners left this city to visit the Swenson ranches at Spur, Texas.

DODSON'S LIVER-TONE

INSTEAD OF CALOMEL

Just as Sure—Always Safe—No Bad Effects Ever Follow This Pleasant Tasting Liquid.

As a remedy for a torpid liver calomel has more than met its match in Dodson's Liver-Tone. It does not lash the liver on to perform its work at the cost of its strength.

Calomel depends for its power upon exciting the liver to do more work, and often the liver is too weak to stand such treatment, and you are worse off than before.

Dodson's Liver-Tone cannot cause any of the dangerous effects that often follow the use of calomel. It is entirely vegetable and pleasant to the taste, and is suitable for children and grown people.

Get a 50c bottle at Betts-Clark under the guarantee that if it doesn't satisfy you that it is a perfect substitute for calomel you get your money back.

Texas Cattle Reach South America.

San Paulo, Brazil.—Cattlemen here received recently a shipment consisting of 645 two year old short horn bulls from the King ranch near Kingsville, and 52 short horn bulls from another Texas ranch. In addition to the Texas cattle were 19 Hereford bulls from the North which had been immunized at the Texas Agricultural College, and 150 two year old short horns from the King ranch.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free. 150

To the Sheriff or any Constable of Deaf Smith County, Greeting: Oath having been made as required by law.

You are hereby commanded to summon Sam S. Wright by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 69th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 69th Judicial District, to appear at the next regular term of the District Court of Deaf Smith county, to be holden at the Court House thereof, in Hereford, on the 4th Monday in October, A. D. 1912, the same being the 20th day of October, A. D. 1912, then and there to answer a petition filed in said Court on the 18th day of May, A. D. 1912, in a suit, numbered on the docket of said Court No. 501, wherein J. H. Jackson is Plaintiff, and E. Van Metre, Sam S. Wright, and J. W. Wright are Defendants, and said petition alleging that defendants on or about September 10th, 1909, executed and delivered to H. M. and O. B. Jackson their four certain promissory notes, three for \$1,000.00 each and one for \$4,571.00, due on or before 1, 2, 3 and 4 years, respectively, from date, and bearing 8 per cent interest, interest payable annually, and each containing the usual 10 per cent attorney fee clause.

That said notes were given in part payment for Section No. 54, Cert. No. 4-568, Block K-11, Grantees G. C. & S. F. Ry. Co., in Deaf Smith County, Texas. That defendants have failed and refused to pay the same or any part thereof.

Therefore Plaintiff prays for judgment for his debt, interest, attorneys fees, and for a foreclosure of his vendor's lien upon the land above described, and for such other and further relief as he may, in law or equity, be entitled to.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, J. S. Jones, Clerk of the District Court of Deaf Smith County. Given under my hand and the seal of said Court, at office in Hereford, this the 7th day of September, A. D. 1912.

[SEAL] J. S. JONES, Clerk District Court Deaf Smith County.
By R. T. MOSES, Deputy.

Citation by Publication

STATE OF TEXAS }
County of Deaf Smith }
To the Sheriff or any Constable of Deaf Smith County, Greeting: Oath having been made as required by law.

You are hereby commanded to summon Sam S. Wright by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 69th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 69th Judicial District, to appear at the next regular term of the District Court of Deaf Smith County, to be holden at the Court House thereof, in Hereford, on the 4th Monday in October, A. D. 1912, the same being the 28th day of October, A. D. 1912, then and there to answer a petition filed in said Court on the 20th day of May, A. D. 1912, in a suit, numbered on the docket of said Court No. 502, wherein J. H. Jackson is Plaintiff, and E. Van Metre, Sam S. Wright, J. W. Wright, J. C. Paul and State Bank of Edgewood, Iowa, are Defendants, and said petition alleging that defendants E. Van Metre, Sam S. Wright and J. W. Wright, on or about September 10, 1909, executed and delivered to H. M. and O. B. Jackson, three notes for \$1,000.00 each and one note for \$4,570.00, due in 1, 2, 3 and 4 years, respectively, bearing 8 per cent interest, interest payable annually. That defendants have failed and refused to pay either principal or interest on said notes. That said notes are secured by a vendor's lien on all of Section No. 50, Cert. No. 4-556, Block K-11, Original Grantee G. C. & S. F. Ry. Co. in Deaf Smith County, Texas. Notes all contain usual 10 per cent attorney fee clause.

Therefore Plaintiff prays to recover his judgment for his debt, interest, attorneys fees and costs of suit, and for a foreclosure of his vendor's lien upon the land above described, and for such other relief as he may show himself entitled to.

Herein Fail Not, but have before said Court at its aforesaid next term, this writ, with your return thereon, showing how you have executed the same.

Witness, J. S. Jones, Clerk of the District Court of Deaf Smith County.

Given under my hand and the seal of said Court, at office in Hereford, this the 7th day of September, A. D. 1912.

J. S. JONES, Clerk District Court Deaf Smith County.
By R. T. MOSES, Deputy.

HAPPY RESULTS

Have Made Many Hereford Residents Enthusiastic.

No wonder scores of Hereford citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Hereford by Doan's Kidney Pills.

Mrs. J. J. Ward, 111 E. Second St., Hereford, Texas, says: "I am quite cured of my lame back and kidney trouble. I got Doan's Kidney from Woodburn & Son's Drug Store two months ago and they removed the pain and lameness that had caused my back to be so sensitive. I no longer suffer from dizzy spells nor do I have any further trouble from my kidneys. Nothing ever helped me as much as Doan's Kidney Pills and I feel justified in recommending this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

If you wish to buy, sell or exchange see C. D. Miller, rooms 8 and 10, Dunlap Building. 24tf

Phunnyrettes.

An eight year old boy, who had had his big toe punctured by a thorn and which had become somewhat infected, the place was "picked", he remarked thru his pain and tears—"Ma, I believe I've caught ptomaine (to make) poison."

The teacher wrote on the blackboard, "The horse and the cow is in the lot." "Who can correct the sentence?" she asked.

A pause, and little Pearl hesitatingly held up her hand.

"Well, Pearl," inquired the teacher, "what is wrong?"

"The lady should be mentioned first," said Pearl.

She—Pardon me, sir, for walking on your feet.

He—Oh, don't mention it. I walk on them myself, you know.

"Is you gwine ter let dat mewel do as he please?" asked Uncle Ephraim's wife. "Whar's you' will power?"

"My will power's all right," he answered. "You jest want ter come out, hyar an' measure dis here mewel's won't power."—New Orleans Picayune.

"What animal," said the teacher of the class in natural history, "makes the nearest approach to man?"

"The flea?" timidly ventured the little boy with the curly hair.—Buffalo Courier.

If you are a homewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE DOAN'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health.

Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. E. Ayers, 6 Sabin St., Montpelier, Vt., says:

"I was afflicted with constipation and biliousness for years, and at times became so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are sufferers from habitual constipation and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "keep your bowels clean," and it's good advice.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory, your money is returned.

**Something About the Future Life**

H. G. Wells, writing a piece of fiction in the October American Magazine, makes his principal character discuss salvation as follows with his wife:

"You see," he said, "I've always believed in Salvation. I suppose a man's way of saying so—even to his wife. But I've always believed more or less distinctly that there was something up to which a life worked—always. It's been rather vague, I'll admit. I don't think I've ever believed in individual salvation. You see, I feel that these are deep things, and the deeper one gets the individual one becomes. One has an individual voice, or an individual birthmark or an individualized old hat, but the soul—see, that's different."

"It isn't me talking to you when it comes to that. The question of what we are doing with life isn't a question to begin with for you and me as ourselves, but for you and me as mankind. Am I spinning it too fine, Madge?"

"No," she said, intent, "go on."

"You see, when we take rations here, Marjorie, it's ourselves, but when we talk religion—it's mankind. You've either got to be Everyman in religion or leave it alone. That's my idea. Salvation's a collective thing and a mystical thing—or there isn't any. Fancy the Almighty and me sitting up and keeping Eternity together! God and R. A. G. Crawford, F. R. S.—that's silly. Fancy a man in number seven boots and a tailor-made suit in the Nineteen Fourteen fashion sitting before God! That's caricature! But God and Man! That's sense, Marjorie."

Have You Any of the Library Books?

The following books have been taken from the City School Library, and have not been returned. They are quite likely in the homes of the pupils. Parents are requested to look in their libraries and return any

books that may belong to the school. An effort is being made to reorganize the library system, and secure additional standard books. Any donations of standard books will be gratefully received:

David Haram, Infield, The Boss of Little Arcadia, Susan Clegg and A Man in the House, Ferwick's Career, The Great Mogul, The Masquerader, A Prince of Dreamers, Freckles, Whispering Smith, Mustafa, Hearts Courageous, A Kentucky Colonel, The Jucklins, The American Prisoner, The Octopus, The Best Man, The Goose Girl, Hearts and Masks, The Puppet Crown, A Dash For a Throne, Call of The Wild, Taming of Red Butte Western, Music Master, Things Will Take a Turn, Uncle Remmus, The Nip of the North

Bravest of the Brave, With Wolfe in Canada, Cornet of The Horse, Young Frank Tiriers, The Mayor's Wife, Young Robin Hood, Elsie's Motherhood, Elsie Yatching With Raymond, Refugees, Old Curiosity Shop, Oliver Twist, David Copperfield, Christmas Stories, Richard Carvel, Hilt to Hilt, Hammer and Rapier, Pathfinder, Last of the Mohicans, A Little Traitor to the South, At the Time Appointed, A Strain of White, Making His Way, Strive and Succeed, Facing the World, Julius the Street Boy, Risen From Ranks.

Rev. F. C. Baker, father of Rev. W. M. Baker, pastor of the Presbyterian church, arrived yesterday from McGregor, Texas, and will make his son and his son's family a visit of some two weeks. He comes as a delegate to the Synod which meets in Amarillo on September 9 and he will remain here until that time. The mother, who has been here during the summer, will return with him. Rev. Baker, the father, will fill the pulpit at the Presbyterian church next Sunday at the 11 o'clock hour.

See Smith for that wind mill oil once a year. 33t2

Leader—Mrs. A. C. Elliott.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

Mr. and Mrs. M. A. McCarthy and three children have moved to Hereford from Blackford, Ky. They had never visited Hereford, but had heard of the fine climate and other advantages and so he and his good wife simply decided that this was the place. Mr. McCarthy is a life insurance drummer and will engage in that business in this state.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

F. D. Lawson and Adam Vanwey of Missouri, who own land in this county and who had been here since the last excursion, left Tuesday morning for their homes, both well pleased with what they saw in the Panhandle.

Car load Rock Salt just received. E. W. Harrison. 28tf

Nice 5 room house for rent, 5 acres land sown to wheat and will sell my little bay pony. A. H. Elliston. 34-2t

Populists Lose More Planks.

From Plainview News.

The old-time populist was denounced as an anarchist, a socialist, a communist and a few other such things by his democratic and republican neighbors, but he knew a thing or two politically, as events that have transpired since the nineties show. A recent inventory was made of the populist platform and it was found that the Taft republicans had abstracted four planks, the democrats six planks, and the Bull Moores had boldly dragged away eighteen whole planks, leaving but six planks, and some of these of minor importance.

Miss Bess Moyers of Los Angeles, Calif., and her twin sister, Miss Willie Moyers of San Jon, N. M., and also their mother, Mrs. Moyers, are making a visit at the home of their sister and daughter, Mrs. S. T. Shore. This is the first time in some years that they have been together and the visit is a pleasant one.

To Keep Your Teeth a Lifetime

You who wish to preserve your teeth—keep them solid and free from discoloration—remember this—

Be attentive to your teeth—keep the shreds of food from out of the crevices—thoroughly masticate your food and avoid as much as possible soft and poorly cooked foods—use the brush regularly and with an up and down motion—

and use that most efficient tooth cleanser and preservative—Nydenta Cream

Prevents fermentation arising from the decomposition of food particles—hardens the gums, protects, whitens and polishes the enamel of the teeth—sweetens and perfumes the breath. It renders the secretions and membranes of the mouth thoroughly germ proof.

This is not a mere tooth paste—it is a real tooth preservative.

In collapsible tubes—clean and economical—25c the tube.

When we had a chance to get the exclusive selling agency for Nyal Family Remedies we jumped at it. They are known among all druggists as the highest quality line on the market, and are prepared by a great firm of manufacturing chemists, famous for fifty years.
