VOLUME 12

HEREFORD, TEXAS, FRIDAY, NOVEMBER 15, 1912

NUMBER 41

THIRD WEEK DISTRICT COURT

Grand Jury Turns in Report—Petit Jury Discharged Wednesday—A Few Civil Cases Disposed of.

The Grand Jury reconvened Monday and remained in session two days, returned one bill of indictment which was for a misdemeanor, and then adjourned for the term. Their final report is as follows:

"To Hon. D. B. Hill, Judge 69th Judicial District. "We, your Grand Jury, empanelled in and for Deaf Smith county, Texas, at the October term, 1912, beg leave to make this our final report:

"We have diligently inquired into all violations of the law in this county, so far as same have come to our attention, and have returned true bills of indictment in all cases in which the evidence, in our judgment, warranted the finding of the same. In this connection, however, we beg to report that we find this county especially free from violations of every character. We have visited in a body our county jail and find same kept in a fairly good and sanitary condition. We find the walls of the building somewhat cracked caused by the settling thereof on account of drain water reaching the foundation. This ought to be attended to at an early date. We also find leaks in the roof of the court house, and we respectfully call the attention of our Commissioners' Court to the defect, to the end that they may take such steps to correct the defect as will save our splendid building from serious injury. We have had a committee examine the books kept by the officers of the county and hereto attach the report of said committee and make same our report. Having no further business before us we now ask to be adjourned for the term.

A. P. Murchison, Foreman." The report of the committee referred to is as follows: To Foreman of Grand Jury, October Term, 1912:

We, your committee appointed on the 11th day of November, 1912, to investigate the records and financial acts of the county, beg leave to report as follows:

We have examined the quarterly reports filed with the Commissioners' Court within the last twelve months, and the Finance Ledger containing the accounts of the different officers and find the accounts neatly and correctly balanced. This is all that can be done without going into a complete audit of the accounts and books which we do not deem necessary. Respectfully submitted,

H. B. Webb, W. B. Beach, Committee.

The petit jury for this week was discharged Wednesday morning, it being apparent that no more jury cases could be tried this week. The case of J. J. Coffman vs The P. & T. Ry Co., suit for damages for personal injuries, is set for next Monday and it is probably the only jury case yet to be tried at this term of court.

The following cases have been disposed of since the last issue of the brand:

The First National Bank of Hereford vs Eli Dunlap, suit for conversion and damages. Trial by a jury

and verdict returned for plaintiff in accordance with the tender of defendant, under instructions of the court.

Mrs. Kathryn Hutson vs L. T. Lester, suit to Quiet Title. Mistrial and jury discharged, not being able to agree on a verdict.

C. W. Cocking vs H. G. Hayes et al., suit for damages. Dismissed at plaintiff's cost.

Famous Editor Suicides.

James A. Wayland, editor and proprietor of The Appeal to Reason, committed suicide at his home in Girard, Kansas, Monday night by shooting himself through the head. This is the message that went over the wires and was published in all of the daily papers of the United States. There were reasons assigned for his act: the death of his wife in 1911, the many suits that have been filed against him and his paper by the government, were the apparent reasons. Perhaps the real thing that drove him mad, (and any man that takes his own life is demented), will never be known, but for any man to follow the trend of thought that he has vigorously pursued for years is enough to unbalance the best of men. He lived in an atmosphere of high tension; his editorials, his utterances were produced under high mental pressure. His every mien indicated that mentally he was living ten years in one. While in some of his theories he was correct, but he lacked confidence in his fellows, he taught hate rather than the brotherhood of man, he arrayed the poor against the rich, the unfortunate against the more fortunate, the governed against the governing, the people against the people. It may be unbecoming to speak ill of the dead, but Mr. Wayland himself did not during his life practice what he preached; the equality of men in life and property. The publication of The Appeal to Reason enriched him far beyond his fellows, his family lived in affluence, he enjoyed long pleasure trips, and at the time of his own taking off was contemplating a trip to Europe, all out of the hard earned dollar of the poor and unfortunate whom he sought to relieve by his doctrines and theories. Many a man has sent his last penny to the office of the Appeal when his own family needed bread, but being blind, they were willing to be lead by a blinded leader. Mr. Wayland was a famous editor; but not a great man; he was a good organizer, but only for his own benefit; he was a leader, but not among men who did their own thinking. His whole power lay in "inflammation" and not in "information."

Rev. Hawkins Preaches at Local Church.

Rev. D. W. Hawkins, formerly superintendent of the Hereford public school and later business manager of the Hereford Brand, but for the last three years actively engaged in the ministry, preached at the local Methodist church last Sunday night. The house was filled and from expressions heard since, every one must have enjoyed the service. Mr. Hawkins has been returned to his charge at Ocheltree which speaks well for a young minister, that place being his first work, after a short time in the Hereford mission work.

PRYOR'S REPORT SHOWS DECREASE IN CATTLE.

I. T. Pryor.

San Antonio, Texas, November—The report of Col. Ike T. Pryor of the Texas Welfare Commission on the Raising and Marketing of Livestock which has just been made public shows an alarming decrease in the production of cattle per annum in Texas. Coming just at this time when the price of meat is soaring higher and higher, the report is interesting and is being studied carefully by stockmen throughout the State. During the past decade, our supply of cattle in Texas has decreased 2,047,499 head while our population has increased 847,832. In Continental United States our population has increased 15,977,691, while our cattle have decreased 2,332,000. "The situation becomes all the more alarming when we consider that Texas supplied the decrease in number of cattle for the entire United States," says the report, "and we contributed heavily toward the loss in sheep and scarcely broke even on hogs. The figures show that the livestock industry, which has been our leading occupation, is rapidly waning in Texas."

The report urges the farmer to raise more livestock, to improve the grade to the highest possible standard; recommends the building of silos and the feeding and finishing of our livestock for market and also sounds a note of warning against the wholesale marketing of calves.

Woman's Rights Before the Legislature.

The next session of the Texas Legislature will have up for consideration a bill to change the present law regarding the property rights of married women. Judge Ocie Spear of the Court of Civil Appeals, Fort Worth, has drawn a bill covering the main points of a resolution recently passed by the Texas Bar Association, which resolution and bill proposes to give Texas women equal property rights with the men.

THE RESOLUTION.

"Be it resolved, by the Texas Bar Association that the Legislature of Texas should provide by law that married women shall have the right to the exclusive management, control and disposition of their separate property and their own personal earnings, independent of the control or joint action of the husband, and to make contracts the same as a feme sole."

THE BILL.

An Act to amend Articles 4621, 4622, and 4624; Title 68, Chapter 3, of the Revised Statutes, 1911. Concerning the Marital Rights of Parties, Defining the Separate and Community Property of the Wife, conferring power to make

ing suits on such contracts, Repealing Article 4625, Title 68, Chapter 3, Revised Statutes, and all other laws and parts of laws in conflict therewith, and Declaring an Emergency.

Section 1. Be it Enacted by the Legislature of the State of Texas; That Article 4621, Title 68, Chapter 3, of the Revised Statutes be so amended as to read as follows: Article 4621. All property, both real and personal, of the husband, owned or claimed by him before marriage, that acquired afterward by gift, devise or descent, as also the increase of all lands thus acquired, shall be his separate property. All property of the wife, both real and personal, owned or claimed by her before marriage, and that acquired afterward by gift, devise or descent, as also the increase of all lands thus acquired, shall be the separate property of the wife, and during the marriage the husband shall have the sole management, control and disposition of his separate property, both real and personal and the wife shall have the sole management, control and disposition of her separate property, both real and personal.

Sec. 2. Be it Further Enacted; That Article 4622, Title 68, Chapter 3, of the Revised Statutes, be so amended as to read as follows: Article 4622. All property acquired by either husband or wife during the marriage, except that which is acquired by gift, devise or descent, shall be deemed the common property of the husband and wife, and during the coverture may be disposed of by the husband only, except the personal earnings of the wife, and except the income from her separate property, which personal earnings and income may be disposed of by the wife alone.

Sec. 3. Be it Further Enacted; That Article 4624, Title 68, Chapter 3, of the Revised Statutes, be so amended as to read as follows: Article 4624. The wife may make any contract which she would be authorized to make but for her marriage, except those herein or elsewhere forbidden, and her coverture shall never be a defense in any suit or action based on such contract, but suits thereon may be brought in the manner prescribed in Articles 1840 and 1841.

Sec. 4. Be it Further Enacted; That Article 4625, Title 68, Chapter 3, of the Revised Statutes, and all other laws and parts of laws in conflict herewith, be, and the same are hereby repealed.

Sec. 5. Be it further Enacted; That the present laws denying to married women the right to manage their separate property, and to make contracts, being unjust to a large number of the citizens of this State, creates an emergency, and an imperative public necessity that the Constitutional rule requiring bills to be read on three several days be suspended and that this Act shall become effective as a Law from and after its passage, and it is so enacted.

Resolutions Passed by Castro County Teachers.

We, the teachers of Castro and Bailey counties, in Institute assembled, desiring to express our appreciation of the treatment accorded us by the good people of Dimmitt, give voice thereto in the following resolutions:

Resolved 1st; That we extend to Judge F. M. Barber our heartiest thanks for his many courtesies, both present and during years past; and that in retiring from office he carries with him our best wishes and the hope that as he approaches life's setting sun he may often recall his services to his people and hear their voices of approval saying, "Well done, thy good and faithful servant." Resolved 2nd; That the citizenship of Dimmitt, as a whole, accept our thanks for presence at our sessions, for their kind words of admonition and encouragement, for the interesting program rendered for our entertainment, and for the part they, individually, have taken in our exercises.

Resolved 3rd; That especial thanks be offered Judge Kerr, Dr. Stapleton, Mrs. I. H. Smith and Mrs. Cash for their inspiring papers and energetic assistance in our discussions.

Resolved 4th; That our thanks are also due to the teachers and pupils of Dimmitt school for their untiring efforts to make the Institute a success.

Resolved 5th; That we offer to our conductor, Miss Griffith, our heartfelt thanks for the masterful and scholarly manner in which she has conducted the Institute.

Resolved 6th; That we commend the people of Dimmitt for the high intellectual, moral and religious tone of their town; and assure them that our stay among them has been pleasant, profitable and uplifting.

Resolved 7th; That copies of these resolutions be furnished the Dimmitt Plainsman, the Hereford Brand and the State Line Tribune for publication.

NANNIE POTTER, DORA SHEPARD, HARRIETTE SHIRLEY, G. E. RICE,

F. A. COOKE, Chairman of Com. Columbia phone batteries at Garrison Bros. 40-3t

It is with much regret that we change the address of Lon Dukes from southeast of Hereford to Mansfield, Texas, this week where Mr. and Mrs. Dukes will make their future home. They were among Hereford's best citizens and will be sincerely missed from their community.

Cotton seed cake at Harrison's. 40-2t

Mrs. A. B. Crump has packed her millinery goods and has shipped them to Shmarock, Texas, leaving Tuesday. Mr. Crump came down and assisted his wife in making the change. We are sorry to lose Mrs. Crump from our business and social circles and wish her every success in her new place.

Mrs. J. L. Fuqua was called last Wednesday to Eldorado, Okla., to the bedside of her father, C. H. Walker, who was very ill. The end came the following day and the burial took place at his home. He leaves a son and daughter, Mark Walker of Eldorado and Mrs. Fuqua of this place.

We have an immense stock of C. S. Cake. E. W. Harrison. It

STRANGE as it may seem, even yet many merchants do not realize the value of advertising in assisting them to make more sales. The reason for this, we believe, is because they have not given the matter serious thought, or else they regard "Advertising" as a sort of unnecessary expense.

If a merchant has proudly boasted in the past, "I never advertise, every one in this locality knows me and comes here to my store when he wants anything," perhaps the following facts will serve to open his eyes to the realization that while every one in his locality knows him they do not know the merits of the line of goods he has for sale, and the only way to acquaint the buyers with these points is by advertising.

Bradstreet's commercial report shows that 85 per cent of the merchants who fail in business are non-advertisers. Think of this and then ask yourself, is it any wonder that only seven per cent of these who start in business and continue make a success of the business they engage in?

A prominent politician of national reputation is quoted as saying, when asked if, in his opinion, advertising was profitable: "A fellow who tries to do business without advertising is like the fellow who tries to throw his sweetheart a silent kiss in the dark. He knows what he is doing, but no one else does." This means so much, just read it again.

After all, what is advertising? Generally understood, it means the use of printers' ink and space, either in newspapers, pamphlets, circulars or signs. We should define it by saying, "Advertising is saying to those you wish to interest in the purchase of anything you have to sell, by the use of printers' ink, in newspapers or other mediums, what you would like to say to the prospective purchaser, by word of mouth."

This should be said in the plainest, most concise way.

We should also add a good window display and an attractive looking store.

Brand Publishing Company.

Stopped His Paper.

The other day one of our good subscribers "stopped" his paper by placing it back in the office and asking the postmaster to mark it "refused." This is as sure way to get a paper "stopped" as any when folks are too busy to drop a card to the manager requesting the paper to be discontinued or to call at the office, well and good enough. This particular subscriber did not indicate that he was offended—we couldn't tell it from the characterizational disposition of his chirography—but the refusal makes the management think that no one wants to continue to take a paper after his time is out. This one subscription has just expired and the gentleman is to be commended for having forethought enough to "stop the paper" then instead of waiting nearly a year and then put

it back marked "Refused." Therefore, the Brand is reminded that a number of subscriptions are expiring this month and if you still want the paper, it would be a good idea to send along that dollar. The management does not want any one to read the Brand that is not willing to pay for it. So, if you should not receive a copy and your time has expired any time back of the present date, you may take it for granted that the "paper has been stopped" at this end. At the close of the big contest, all of the subscriptions were paid in advance with a few exceptions, and these were dropped. Now, be on the look out again, as your subscription is likely to be one of the early maturing.

OPPOSES POLITICAL CONTROL OF UNIVERSITIES.

Waco, Texas, October—Dr. S. P. Brooks, President of Baylor University, who is a close student of economic affairs in Texas, recently made a report to the Texas Welfare Commission in which he showed in a startling and convincing manner that while Texas has the largest permanent fund for education of any state in the Union, we actually spend less per capita and less per student than all other states. Dr. Brooks was chairman of the Committee on Education appointed by the Commission to investigate our educational system and his report is a result of a close and searching investigation into affairs educational.

In a table submitted by Dr. Brooks, it is shown that the per cent school population enrolled in school in Texas is 65.46 per cent as compared with an average in other states of 72 per cent. Comparing Texas with California, which is one of the most advanced states in the Union in the matter of education, he shows that our expenditure per capita of average attendance is \$18.55, while that of California is \$59.01. The expenditure per capita of entire population in Texas is \$2.71, compared with \$7.05 in California.

Dr. Brooks sounds a note of warning to the people against political control of our institutions of learning and pleads for a more liberal support of all our schools and colleges.

Success.

Are you a success? If not, why not? Don't give up, there are still plenty of opportunities within your grasp. If you have never caught hold of an opportunity, do so at once. How many opportunities have passed by you, because you had no capital saved up with which you might have grasped them and used them to your advantage? Think it over—open an account with us, and let us help you make it grow.

Success largely depends upon one's ability to grasp the opportunities presented. This is especially true in business. We shall be glad to help you make a success. Make our bank your bank, and we will extend to you every accommodation consistent with safe banking.

By becoming a customer of ours, you are grasping the opportunity of doing business with a banking institution that is safe, sound and conservative. And by mutually agreeable transactions we shall help each other along the road to "Greater Success."

We also place at your disposal our long experience in the business world, and thereby offer you an exceptional opportunity that you may profit by the experience we have thus gained.

Mutually agreeable accounts solicited.—The Western National Bank.

E. W. HARRISON

\$2,000.00 Cold Cash.

From Claude News.

Is the price paid annually by Armstrong county for the misdemeanors of a few of our boys and men and once in awhile girls and women. This does not include the heartaches and anxiety in the homes or loss from the neglected crops of the jurymen. It includes only a portion of the salaries of the District Judge, District Attorney, Stenographer, Sheriff, the jurors, the fines, cost of maintaining the jail and board for its inmates.

Two thousand dollars a year for the last five years, spent to locate, prosecute, correct or release the very small per cent of our citizenship who fail to conduct themselves in compliance with the law. More than we pay the resident ministers of Claude for a year's work—nearly one dollar per capita for every man, woman and child in the county. One-seventh as much spent to punish a very few of our citizens as we spend on the education of the whole county.

And who pays this two thousand dollars? Invariably the hard-working, self-sacrificing, economizing men and women who by thrift and industry have accumulated something to be taxed. Seldom do those for whom this money is spent pay a dollar to the support of the county. The farmer and his wife pay a very large per cent of it, while the causes for the outlay can usually be traced to the towns.

Ten thousand dollars spent in Armstrong county in the past five years to punish a few unruly citizens, but not a fresh bucket of water for the school house. Not a tree, book, picture, or game in most of our schools to attract our boys and girls and hold them in school instead of seeking the towns for their pleasure and associations.

Two thousand dollars a year for

punishment, but not a dollar a year to develop the social and moral life of our boys and girls. And yet these are the two channels through which they go wrong.

The Good Book says, "Be not overcome with evil, but overcome evil with good." Most of us think we have done our full duty to society when we have complied with the first half of this command.

The Woman's Federation of Armstrong county is striving to comply with the last half of this command. We want to raise the social and moral standard of our entire county. In order to do this we need the cooperation of every mother and father in the county.

The school house as a "Social Center" will be our objective point. Come and help us plan this work—November 2, 1912.

Calomel is Bad.

But Simmon's Liver Purifier is delightfully pleasant and its action is thorough. Constipation yields, biliousness goes. A trial convinces. (In Yellow Tin Boxes Only.) Tried once used always. 39-5t

Think Farmers Have Neglected Big Opportunities in Eggs and Poultry.

Following is an extract from an article in the current issue of Farm and Fireside.

"One sure way to combat the high cost of living is to produce more and better poultry. What excuse has the farmer for not raising more poultry when eggs are twenty-five cents the year around and table fowls never less than fifteen cents per pound? He has none whatever.

"The farmer may be well educated along the different branches of agriculture—more so than his city cousin—but the city cousin has stolen a march on the farmer when it comes to raising good poultry. If the farmers of the United States could realize the possibilities of the poultry industry as a means for them to enrich themselves, they could better not only their own condition, but that of mankind in general.

"As a rule, the farm poultry is left to shift for itself, no thought being given it except to gather the eggs and later wonder why they don't hatch. It is not given a third of the chance afforded the other branches of the farm work, while, with only a little care and attention, it would return as much profit. Why it is, is one of the unanswered puzzles of modern times.

"If every farmer in the United States would buy of some good reliable breeder a good cock every year—say one that would cost about ten dollars—the advancement made in the farm poultry would be worth all the scrub stock in existence. If he would gradually replace all his scrub stock with pure-breds, the advancement would be worth several millions of dollars.

"There is no dispute raised to the fact that the pure-bred is superior in every respect to the scrub. The pure-bred will lay more, eat less and cost less in the end than any scrub. The pure-bred is the first to lay, the first to set and the first to resume laying again. In fact, she is 'first in everything,' and for this reason, if for no other, she is the more profitable."

Eyes Sunken With Pain.

Three years ago I had a very bad spell of neuralgia which caused my eyes to become sunken and bloodshot with pain. Hunt's Lightning Oil was recommended and after using, the pain left and has not returned; says A. M. Coffey, 316 Van Buren Street, Litchfield, Ill. This wonderful medicine is sold by all druggists everywhere. 39-5t

Write Ideas for Moving Picture Plays!

YOU Can write Photo Plays and earn \$25 or more weekly We Will Show You How

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellency necessary. No "flowery language" wanted. The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for scenarios, or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our Sales Department has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as Vitagraph, Edison, Essanay, Lubin, Solax, Imp, Rex, Reliance, Champion, Comet, Melies, Etc., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25.00, a low figure, **YOU WILL EARN \$100.00 MONTHLY FOR SPARE TIME WORK.**

FREE. Send us your name and address at once for free copy of our illustrated book, "Moving Picture Playwriting" Don't hesitate. Don't argue. Write NOW and learn just what this new profession may mean for you and your future.

DECIDE YOURSELF

The Opportunity is Here, Backed by Hereford Testimony.

Don't take our word for it. Don't depend on a stranger's statement.

Read Hereford endorsement. Read the statements of Hereford citizens.

And decide for yourself. Here is one case of it:

J. D. Burkett, 300 E. Second St., Hereford, Texas, says: "I can strongly recommend Doan's Kidney Pills, which I got from Woodburn's & Son's Drug Store. I suffered acutely from sharp twinges through the small of my back, especially when I stooped or attempted to lift. I was caused much annoyance by a too frequent desire to pass the kidney secretions and these troubles all showed that I had kidney complaint. Since I used Doan's Kidney Pills, I have been quite free from these difficulties. I have often suggested a trial of this preparation to other persons afflicted in a similar way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. It

Religious Gems in Scientific Settings.

"Be not deceived, God is not mocked; whatsoever a man soweth, that shall he also reap." Gal. 6:9. There is no religious cant about this statement. Paul states a law of being, one that works everywhere in nature about us. If a man wants a crop of wheat, he knows it is foolish to sow oats. If he wants potatoes, he knows that planting corn will not produce them. Man has tried to evade or change this law without success. Bar

is known the world over as the great nature wizard, yet, while he has succeeded in changing the habits, color or shape of some vegetables, he has never learned how to raise potatoes from any other seed. Chrysanthemum seed cannot be made to produce a flower of the same form and color as the one from which the seed was taken, but the product is always a chrysanthemum, never any other kind of flower. No man has yet succeeded in coaxing a chrysanthemum to blossom at any other time of the year than its natural time, the autumn. A fortune awaits the man who can evade this law of nature and furnish the market with chrysanthemum flowers in winter or spring.—Exchange.

AN EVERY MONTH BUSINESS

HAVE you entered the race for postmaster yet? There is plenty of time and a lot of candidates.

THE Democratic victory has given rise to a sudden overflow of loyalty to the party, and, as a result, every post office in the United States needs a change. Hereford has a crop of ten aspirants, (give the A's the broad scud) and all of them think they are fully qualified and are going to land on the job. Nine of them are going to be fearfully and woefully disappointed. Most of them seem to think that they have a "pull." Of the ten, there is one woman, and you can never tell what a woman is going to do.

Dr. M. M. Carrick, of Dallas, member of the Council on Education and Legislation of the American Medical Societies and Medical Director of "The Cleanest City in Texas" campaign, inaugurated by Holland's Magazine, was in the city yesterday for the purpose of making an inspection. Hereford is the ninety-eighth town to be visited by the Director since about the first of July. He was met at the train by Mayor Knight and the two drove over the town, the Mayor doing his best to steer the Doctor into the best and cleanest parts, but he saw all of the unkept yards and alleys in spite of Mr. Knight's efforts.

It is to be regretted that Hereford did not have on her Sunday duds when Dr. Carrick made his visit, but perhaps our chargin will make us mind our Ps and Qs better after-

THE JOY OF HOME

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

wards. As soon as the inspector returns to Dallas, a list of the winning towns will be published. Hereford, in her present untidy condition, hasn't a ghost of a show to even be in the race, but if Mr. Hollands ever puts on another, they had as well award the prizes in advance as Hereford will be there with her cleanest bib and tucker, with a silver platter to accept the premium.

Our Reputation.

The thoughtful people of Hereford were very much chagrined on account of the conduct of some of the boys at the last lyceum entertainment. It is reported that even some of the girls participated in the unseemly conduct. Hereford has always prided itself and boasted of the fact that her audiences always gave the most respectful attention at public entertainments. The occasions have been rare when it became necessary for the management to ask for quiet and respectful attention. But for the past year, a spirit of hoodlumism has taken possession of some of our younger folks and they have thought it "smart" to attract attention to themselves on many public functions by their untoward manners.

At the lyceum number Tuesday night, they "raised a rough house" from the beginning to the end. Before the entertainment began, young men would deliberately walk on top of the seats across the room. This was followed by boisterous cheering, loud and shrill whistling, throwing of paper wads and darts, stamping on the floor like wild horses on a new stable floor. A part of this continued during the entertainment, but the most embarrassing thing that could have happened to dampen Hereford's proud spirit occurred when the young lady vocalist was compelled to ask the boys on the back seats to refrain from laughing while she sang the famous "Echo Song." She feared they would interrupt the rendition as they had laughed and titted during her first song. Of course, they did not appreciate the vocal efforts of the young lady and her bird-like voice in her vocal gymnastics and the lack of common sense and gumption combined to make them want to "act smart."

Now, boys and girls, don't imagine that you have to act smart to attract attention; people will find out your worth soon enough. If you cannot behave as decent people do at public entertainments and shows, don't attend; nobody will regret your absence nor miss your contribution. Even some grown people think it perfectly proper to stamp their feet like horses when they think they are "cheering;" but the most outlandish thing is for some ruben to let out keen, ear-splitting whistles. The clapping of the hands, waving the hand or handkerchief, and on occasions for the audience to stand and give the chautauqua salute is in perfect order. The only place where loud cheering is permissible is when your favorite candidate scores a point against his opponent. Politics consists mostly of noise anyway and the candidate needs your assistance. The sensible people of Hereford regret that they have been misrepresented in the public conduct and

hereby offer their apologies to the Aller Trio.

Good Blood Means Good Health.

A clear healthy skin, full of life and color, reflecting perfect health and energy has long been known to be a business and social asset. If you are not the fortunate possessor of all the above—if you are suffering from skin eruptions of any description, it means that the blood is weak.

Pure blood, rich red in color and circulating freely, is the essential factor in the possession of perfect health.

When it becomes impoverished—thin and watery—it cannot supply proper nourishment and the body tissues become diseased.

This condition is ever ready to manifest itself and should be checked and treatment started with the first appearance of blood disorder.

In our estimation Nyal's Hot Springs Blood Remedy is the one best treatment. It gets at the root of the trouble, cleanses the blood of impurities, increases the circulation, produces blood that is rich in nourishment, blood that builds up broken-down tissues.

It will not be long before you notice a decided improvement—you will feel the blood coursing through your veins, your appetite increases, the food will be absorbed in the proper manner and the skin will become clear and healthy.

You will never regret having used Nyal's Hot Springs Blood Remedy—it will put you on your feet.

We expect to be here in business a good many years. The only way we can do it is by treating everybody right. That's our policy.

A Marvelous Escape.
"My little boy had a marvelous escape," writes P. F. Bastians of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger." Sold by all dealers.—Adv.

Thos. J. Zook, member of the commission firm of Zook & Zook, Kansas City, was here this week looking after the stock business.

After you have read this local page, turn through the paper and note the ads, big and little.

What a Baptist Preacher Did.
This is to certify that I have used one box of Hunt's Cure for a Skin trouble, and same cured me after using about \$8.00 worth of other ointments and salves. Nothing like Hunt's Cure for Skin troubles. Rev. H. T. Sizemore, Hemphill, Texas. 39-5t

Revs. Purser and Bailey returned from the Baptist Convention Tuesday overflowing with enthusiasm. They report 3,500 messengers present and some 4,000 people in attendance. One thing of importance was a resolution to endow the Theological Seminary at Fort Worth with \$500,000. The Baptist have been doing things in Texas in the largest sort of way and they are setting the pace for the other religious bodies.

Avoid Sedative Cough Medicines.
If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers.—Adv.

YOU'LL LIKE HEREFORD!

MY FATHER Had Eczema 10 Years OVELMO CURED HIM

Test Course Given Free

My father was a sufferer for years from Chronic Eczema. He tried doctors and everything else without relief. Nothing did him any good. He grew worse and worse each year. It seemed there was no hope for him. In utter despair of ever securing any real help from others, I determined to work out a treatment myself, as I am a Registered Pharmacist, owning a drug store in Ft. Wayne, Ind. I studied practically all known medical authorities on Eczema and Skin Diseases, and finally compounded in my own laboratory the OVELMO TREATMENT. It is designed to remove the cause of the disease, by working on the system internally, while the itching, smarting, burning and unsightly appearance are relieved by a soothing, healing cream applied to the affected parts.

Completely Cured

OVELMO worked like magic. My father and I hardly dared to believe our eyes. The itching ceased—pus no longer formed—the scales were replaced by new, clean, smooth, healthy skin. His general health improved—he could sleep well at night, and in a short time was completely cured. His case was well known, and his cure was so remarkable that the news spread all over the surrounding country. A little boy, whose flesh about the ankles had sloughed away almost to the bone, was next entirely cured by OVELMO, and the demand for it became so great around my home town that I was urged on all sides to place it before the general public. It is just as good for cuts, burns, bruises and chilblains as it is for Eczema and Skin Diseases.

1000 Treatments Free

I want to prove to every interested person, free of charge, what OVELMO will do in all cases of Skin Disease. I want to introduce it everywhere, and am going to give away 1000 Test Treatments Absolutely Free of Cost and Postage Paid to those needing treatment who write me for it promptly. You can stop scratching—you need not be afraid to be seen in public—you can sleep well at night. The matted crusts—the greasy crusts—the scaly, bleeding, itching skin can be restored to health, made clean and smooth again. Just write a postal, or a letter stating the Skin Disease for which you want the treatment and the age of the sufferer and I will send you a Test Course by return mail, in plain wrapper, free and postage paid. J. C. HUTZEL, 117 West Main Street, Ft. Wayne, Ind.

J. C. Hutzel, Ft. Wayne, Ind.

NEW OUTFIT FOR IRRIGATION

Water Lifter of Recent Manufacture is Excellent for Use on Extremely High Ground.

Farmers who either flooded or ran water down listed but furrows before the crop was planted this last spring are the ones, if they irrigated at the proper periods afterward, who are reaping the potatoes, beets and garden truck. Where no irrigating was done until after the crop was up the crop was much less, and in some cases, even with proper watering, the crop has been a failure, simply because of no bottom moisture at the start.

A trial is being made of many kinds of pumps, makesbits, elevators and lifters. Each class has its place—its advocates. The centrifugal pumps are hard to beat on low lifts, but where the water must be raised, say 20 feet or over, they have some capable competitors, writes C. Bolles in the Farm, Stock and Home. One of these is a true water lifter, of rather recent manufacture, which lifts the water to 20 feet or more with less power than many other styles. The lifter in use here is the 500-gallon-per-minute type and requires four horsepower for that capacity.

The machine consists essentially of 66 eight-gallon buckets (galvanized sheet steel) swung between two cog chains. These chains turn about two large cog wheels suspended loosely in the well (or pit), at the top the chain cog wheels get their power through back-gear friction pulleys. There are two shaftings; one carries the chain cog wheel and larger friction wheels, the other the belt pulley and smaller friction pulleys.

As the ascending buckets begin their backward journey the water is dumped into a centrally placed receptacle, directly underneath the shaftings. From this vessel the water flows out around the ascending buckets to an outflowing trough. There is a brake, so that if the machine stops at any time the chains are locked right where they stop running. Friction is also reduced to a minimum through the use of roller bearings. The farmer who bought this lifter paid something like \$290 for it, or with the engine the outfit would cost him about \$425. One good feature of this machine is that he is running it with a two-horsepower engine, though but one-third to one-half the buckets are in use.

The operator is working on the problem of pumping from wells, the wells being supplied from sand points driven in the bottom. At present from a well 8 feet across, 17 feet to water, 7 feet of water, and four points, two 18 feet down and the other two 27 feet down, the flow is close to 80 gallons per minute. These points are two inches in diameter.

Quarantine New Bird. Never introduce a new bird into the regular yard until it has been duly quarantined. Keep it alone for a week and note its condition, appetite, etc. Disease is often introduced into a flock by carelessness in this matter.

FARM NOTES.

Crude oil is almost a cure all. Silage is rapidly becoming a factor in feeding operations.

Plan to have plenty of shade about your place next year.

Rotation is very necessary to the growing of profitable crops.

If you have any metal roofs, it is policy to ground them. It can be done at very slight expense.

The storage of celery on a large scale is only practicable by the aid of special houses for the purpose.

On most farms, several acres of ground might be saved by a better arrangement of the fields and fences.

Always clean out the yards before winter begins. It is far easier to keep them in condition when this is done.

A Frenchman has invented a machine for mowing weeds and other under water growths in streams and lakes.

Hundreds of farmers are hogging down rye. Between rye and corn we have two mighty good crops to turn the hogs into.

An aftermath of grass in a cornfield is not a bad thing for the field, especially where all the fodder growth is in the shock.

Alfalfa and clover hay cut when it is greenest and cured in the cock under caps will help wonderfully to keep the milk yellow.

Don't forget to plow the field where the hepper has laid its eggs. That field, if left undisturbed, will hatch out trouble next year.

The dog question is receiving a great deal of attention in many farm publications. Many dogs are valuable while many more are not.

Brick and cement are about as cheap as lumber, and last many times as long. It is certainly a waste to use much wood for floors or sills. From row on, silage will have to be k. oned with in fattening opera-

tions, and the sooner you get in the band wagon the better off you will be.

Better plan on saving the manure now. Thousands of dollars worth of fertility leaks away each year on account of improperly located manure piles and barn yards.

Grasses in permanent pastures or meadows require more care than those that are grown in rotation with other crops. It is advisable to reseed permanent pastures occasionally.

Hollow building blocks are becoming more popular each year. They are cheap, costing but little more a square foot than lumber, and if of good quality will last indefinitely.

Feed Needed.

The amount of feed fed for lambs will vary some in accordance with the kind of roughage and also as to whether or not succulent feed is used. As a general rule lambs weighing from 60 pounds to 90 pounds each will eat from 8 to 2 pounds of grain and from 7 to 2 pounds of hay per day. Where silage or roots are fed the amount of hay will be somewhat less, but the total dry matter somewhat more, due to the increased palatability of the ration. Lambs of the above weights will gain from .25 to .50 pounds each per day. From .33 to .4 pounds per day should be considered as very satisfactory gains.

Home-Grown Seed corn Best. Corn, more than almost any other plant, becomes adapted to particular local conditions, and experiments have proven quite conclusively that home grown seed corn will almost always outyield that brought from a distance.

Hens Tire of Corn. While hens are greedy for corn, especially when it is only fed to them occasionally, it is a grain that they quickly tire of when regularly placed before them.

Always Demand for Eggs. The markets are ever open for eggs, roasting and broiling fowls, and it is well that the matter of improvement along that line be looked into.

Plains After Railroad. From Lubbock Avalanche. The railroad surveying party arrived at H. M. Haskew's place, one and one-half miles south of Plains last Saturday afternoon, and Monday proceeded north with the survey as far as P. Z. Conrad's ranch, where they suspended operations until the arrival of G. A. Ryan.

The surveying corps was in charge of E. W. Swart, who has two men in his employ. On Thursday night Mr. Ryan and wife arrived from Midland, and yesterday he met a committee appointed at a meeting of the citizens of the county on Tuesday.

The people of Yoakum county is to donate to said railway company a right-of-way through Yoakum county, land for depot ground near Plains, also a bonus of \$25,000. Said bonus to be paid in cash or land, \$5,000 in cash and the balance to be paid in land.

The above mentioned bonus to be paid when the road is completed to Plains and trains running over same, or when trains are running over the road to depot located at a distance not over one and a half miles from the town of Plains.

DO YOU ENJOY EATING

Or Does Everything You Eat Distress You?

Experts declare that the reason stomach disorders are so common in this country is due to hasty and careless habits of eating. Stomach troubles and run-down conditions also usually go together.

John Lind, of Oneonta, N. Y., says: "I have been troubled with a bad stomach trouble for fifteen years, and became so weak that I could hardly walk or do any work. My appetite was very poor, and it seemed impossible to get any relief. Since taking two bottles of Vinol I find that it has already made a remarkable improvement in my health; my digestion is much stronger, and I have gained in weight."

Vinol makes weak stomachs strong because it strengthens and tones up the weakened, tired and overtaxed nerves of the digestive organs. Vinol is easily assimilated by the weakest stomachs, and is delicious to the taste.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. The Corner Drug Store, Stocking & McLean, Props., Hereford, Tex. (Adv.)

HIGHEST CLASS SUNDAY PAPER IN THE SOUTH

"Cardui Cured Me"

For nearly ten years, at different times, Mrs. Mary Jinks of Treadway, Tenn., suffered with womanly troubles. She says: "At last, I took down and thought I would die. I could not sleep. I couldn't eat. I had pains all over. The doctors gave me up. I read that Cardui had helped so many, and I began to take it, and it cured me. Cardui saved my life! Now, I can do anything."

TAKE THE CARDUI Woman's Tonic

If you are weak, tired, worn-out, or suffer from any of the pains peculiar to weak women, such as headache, backache, dragging-down feelings, pains in arm, side, hip or limbs, and other symptoms of womanly trouble, you should try Cardui, the woman's tonic. Prepared from perfectly harmless, vegetable ingredients, Cardui is the best remedy for you to use, as it can do you nothing but good. It contains no dangerous drugs. It has no bad after-effects. Ask your druggist. He sells and recommends Cardui.

Notice of Trustee's Sale.

Notice is hereby given that by authority vested in me as Substitute Trustee, by appointment under the terms of a deed of trust, executed by Domenico Comperini, dated, June 22nd, 1910, recorded in Book 18, of the Deed Records of Deaf Smith County, State of Texas, on page 53, wherein the land described below was conveyed to William W. Ryan, of Jackson County, Missouri, Trustee, and to his successors in trust, as security for the payment of five promissory notes aggregating Eighteen Hundred Forty-eight (\$1848.00) Dollars, of even date therewith, executed by said Domenico Comperini and due, one on Nov. 1st, 1911, for Three Hundred Sixty-nine and 60-100 (\$369.60) Dollars, one due on Nov. 1st, 1912 and one due on Nov. 1st, 1913, and one due on Nov. 1st, 1914, and one due on Nov. 1st, 1915, each for the like sum of Three Hundred Sixty-nine and 60-100 (\$369.60) Dollars, respectively all bearing interest at the rate of 6 per cent. per annum from date until maturity, and 7 per cent. per annum thereafter, interest payable annually, each of said notes being payable to the order of Arthur L. Brunner, of Kansas City, Missouri, (who is the present legal holder thereof), said notes being more particularly described in said deed of trust, which deed of trust provides in case of default in payment of any of the notes secured thereby, or any installment of interest, or in case of default in the payment of any taxes levied against said land when the same shall become due and payable under the laws of the State of Texas, or default by the said Comperini in the performance of any other term, condition or agreement therein contained, for the period of 30 days after the same shall become due, that the then legal holder of said notes, or any one of them at the time, shall have the right, at his option, immediately and at any time while such default continues, to declare the entire debt secured thereby, to be at once due and payable; and

Default having been made in the payment of the first one of said series of notes, which note was due and payable on Nov. 1st, 1911, as aforesaid, and the interest thereon, and on all the said series of five notes described aforesaid, and in said trust deed, and default having been made in the payment of taxes on said land for the year 1911, aggregating \$14.03, said taxes having been paid by the said Brunner, which default for the said taxes of said year 1911, and for the said note for Three Hundred Sixty-nine and 60-100 (\$369.60) Dollars due Nov. 1st, 1911, has continued for more than 30 days since the said taxes were paid by said Brunner and since the maturity of said last described note, and said Arthur L. Brunner, the present legal holder of all of said notes having declared the entire indebtedness remaining unpaid, to be now due and payable at once, and the amount of principal and interest due on said series of five notes on the 1st day of October, 1912, being the sum of \$2,103.26, which, with the 1911

taxes paid by Brunner as aforesaid, make the total on said last named date, past due and unpaid, due by said Comperini to said Brunner, the sum of \$2,117.29.

William W. Ryan, Trustee named in said trust deed having been requested to execute said trust and having refused so to do, and L. H. Henschel, Alternate Trustee named in said trust deed being without the territory of the United States and unable to enforce said trust, therefore, I, E. Renfro, of Hereford, Deaf Smith County, Texas, Substitute Trustee, heretofore appointed by an instrument in writing, executed and acknowledged by the said Arthur L. Brunner, the holder of said notes, and I, having been requested by the said Arthur L. Brunner to enforce said trust, will on the 3rd day of December, 1912, (the same being the first Tuesday in said month) between the hours of 10 o'clock a. m. and 4 o'clock p. m. of said date, proceed to sell at public outcry, to the highest bidder, for cash, in front of the Court House door in the city of Hereford, Deaf Smith County, Texas, the following described real estate situated in said Deaf Smith County, Texas, to-wit:

Three Hundred Twenty (320) acres of land out of Capitol League, Number 423-412, and particularly described as the West Half of Survey or Section Number Sixteen, Township Number Three (3), North of Range Number Three (3), East of a "Capitol Syndicate Subdivision," as shown by plat of such subdivision, of record in the Deed Records of said County of Deaf Smith, in the State of Texas, in Volume 15, pages 60-65.

The proceeds whereof will be applied to the payment of the balance due upon said indebtedness to Brunner, expense of making said sale, and the remainder, if any, paid to the said Domenico Comperini, or assigns in accordance with the terms of the said deed of trust.

Dated this 5th day of October, 1912. E. RENFRO, Substitute Trustee

Woman Finally Recovers From Nervous Breakdown

Impoverished nerves destroy many people before their time. Often before a sufferer realizes what the trouble is, he is on the verge of a complete nervous breakdown. It is of the utmost importance to keep your nervous system in good condition, as the nerves are the source of all bodily power. Mrs. Anna Koenz, 211 Mechanic St., Pueblo, Colo., says:

"For many years I suffered from nervous prostration; I was unable to do any house work and doctors failed to help me. Remedies I tried from druggists did not do me a particle of good. A neighbor told my husband about

Dr. Miles' Nervine and he procured a bottle. After the first few doses I showed a marked improvement and after taking two bottles I was entirely cured. I have been perfectly well for years and cannot praise Dr. Miles' Nervine too highly."

"If you are troubled with loss of appetite, poor digestion, weakness, inability to sleep; if you are in a general run down condition and unable to bear your part of the daily grind of life, you need something to strengthen your nerves. You may not realize what is the matter with you, but that is no reason why you should delay treatment."

Dr. Miles' Nervine has proven its value in nervous disorders for thirty years, and merits a trial, no matter how many other remedies have failed to help you. Sold by all druggists. If first bottle fails to benefit your money is returned. **MILES MEDICAL CO., Elkhart, Ind.**

Chronic Dyspepsia.

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia: "I have been a chronic dyspeptic for years, and of all the medicine I have taken, Chamberlain's Tablets have done me more good than anything else," says W. G. Madison, No. 7 Sherman St., Hornellville, N. Y. For sale by all dealers.—Adv.

We have procured another wagon and team and are prepared to handle your coal orders promptly. E. W. Harrison. 39tf

If you are constipated begin to take Dr. Miles' Laxative Tablets.

"Worked and Being Worked."

The lack of co-operation among country newspapers in the matter of advertising has been their weakest point. There seems to be no uniform basis of figuring the "cost" of advertising space. One paper will be charging 8 cents per column inch, and another in the same territory getting 15 cents. It often occurs that a newspaper has one price for Paul and another for Peter. It is known to the undersigned that a certain good Panhandle newspaper was charging a furniture dealer 8 cents per inch and giving him the use of the front page, whenever he wanted it, (and he wanted always), and was making a dry goods firm pay 10 cents per inch. He thought he was making money, but it is now known that he did not make expenses out of the first rate and very little out of the second, if any.

But the worst enemy of the country newspaper is the patent medicine company. The word "enemy" is used in the sense of "lying beggar." Their agents will misrepresent the rates of your contemporaries in order to get you down to a cheap rate;

Keep Your Eye on that Can

When Buying Baking Powder

For this is the baking powder that "makes the baking better."

It leavens the food evenly throughout; puffs it up to airy lightness, makes it delightfully appetizing and wholesome.

Remember, Calumet is moderate in price—highest in quality.

Ask your grocer for Calumet. Don't take a substitute.

RECEIVED HIGHEST AWARDS.
World's Pure Food Exposition,
Chicago, Illinois, Paris Exposition,
France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to your milk and soda.

they will tell you that all of the near-by papers are charging but 4 to 6 cents per inch and taking their pay in medicine; they will tell you that their company figures that advertising is worth only so much per 100 subscribers; they tell you that the patent medicine ad does not cost you anything to run it, being plate, and that the money paid you is really a donation from them to satisfy the druggist. The trouble is, the agents have made some newspaper managers believe this, for often they will run ad plate as a "filler" when in a rush to "get out," and the patent medicine man seeing this "laughs up his sleeve," and gets the benefit of their stupidity. As a matter of fact, these companies and several others are always trying "to work" the country newspaper.

When it is known that the country press has the greatest "carrying power" both from the standpoint of reading matter and advertising, the country editor should stand pat on his rates. What do the great organizations, social, moral and political, do when they wish to "create a sentiment" in favor of certain measures? Appeal to the country press with "ready made copy," "free plate," "cuts," etc., knowing that if the country press can be lined up, the results are certain to be sure and swift. Everybody recognizes the strength of the country press. How many times have your friends and others tried to "work" you for free notices? Even the church societies will attempt to put in pure advertising as "news." It is alright, if you wish to donate to the society, but don't let them be deceived in thinking that you are "easy." Don't take anything but legitimate advertising, but get your regular rates for every inch of it. Don't charge the local merchant one price and the foreign company half that price. The patent medicine company will appreciate your position and you will get more business, if you will give them a square deal. Don't lie to them about your circulation. Don't lie to them about your rates. Don't let one of their agents talk you out of your profit in your "space." Don't let them "beg" you for a "hand out." Show them your rate card, and tell them that "he that enters by any other way is a thief and beggar."

Finally, don't leave the impression by your talk or through your columns that the newspaper is a sort of a charitable institution of the town, that every man who hands in a dollar on subscription is making a donation "to keep you up" or to "keep the paper up." Try to deal with the public in a business like way.

All report a great time and some of their friends enjoyed a feast of bird after their return.

Republican Junk For Sale March 5.

The following was issued Wednesday by the Democratic State committee of Kentucky:

"Our lease with Uncle Sam having practically expired, and having decided to retire to private life, we, the undersigned, will offer for sale at our residence, the national capital, Washington, D. C., all the following described property, to-wit:

"(a) One elephant, about forty years old, with false tusks and no backbone to speak of.

"(b) One set of injunctions and anti-trust laws; have been used very little, and just as good as they ever were.

"(c) One method of revising the tariff. This is absolutely original and patent has been applied for.

"(d) One republican platform as good as new. Has only been used for campaign purposes. In this platform a large number of planks from the democratic platform have been inserted, but they can be easily distinguished and will certainly go with the lot.

"(e) One financial system, well supplied with clearing house certificates, but very little cash.

"(f) One plan for raising campaign contributions. This is well worn and has a bad odor, but otherwise in good condition.

"(g) A large quantity of G. O. P. bric-a-brac, consisting of old dinner pails, prosperity gags, Taft smiles, well-worn vetoes, election promises, panic threats, and other things of like character too numerous to mention.

"This sale will positively take place on the above day and date, regardless of weather and size of crowd, and everything will be closed out on that date. Crow will be served by the Old Boys' Republican Club! Everybody, regardless of past political servitude, invited. THIS STUFF MUST BE CLEANED AWAY. Terms, just anything we can get and removal of property.

TIMELY WARNING**TO CALOMEL USERS**

Calomel is a Form of Mercury, and if It Stays in the Human System, Its Effect is Terrible. Ask Your Doctor.

Any physician will tell you that mercury, if it remains in the body, will soften and rot the bones, a disease doctors call necrosis of the bones. Calomel is a form of mercury, and to keep clear of danger it's a safe plan to take no calomel at all, especially as there is a better remedy.

Both children and grown people will find a perfect substitute for calomel in Dodson's Liver Tone, a pleasant, vegetable tonic that induces the liver to act and which never has any bad after-effects. In fact Dodson's Liver Tone will do every thing that calomel does without any of the dangers of calomel. A large bottle costs only fifty cents, and Betts-Clark drug store will refund your money if you are not satisfied.

Sheep For Sale.

About 750 ewes, 500 of which are good ages from 2 to 5 years old. Price, \$3.75 per head, balance 250 at \$2.50 per head or will sell either lot separate. Will carry \$1.50 per head if whole lot is taken. A. G. Bell. 411f

Why You Do Not Vote For President.

Every four years a great number of voters are always surprised when they go to vote to find the name of their favorite presidential candidate is not on the ballot. This is easy to explain. According to the method laid down in the national constitution, the president is supposed to be chosen by a select body of men, called in political circles the "Electoral College." In Texas, for example, we have 20 men on the ticket and a different set for each party. If we vote the Democratic ticket, we vote for the 20 electors or "committee of twenty," at the head of that ticket. If these twenty men get the most votes in the state, then it becomes their duty to meet at the state capital and to cast their votes for the man whom the Democratic party has chosen in their National Convention as their presidential candidate. Now, in New York this year, the 45 electoral votes will be cast for Wilson because the Democratic ticket in that state received the greatest number of votes at the ballot boxes over the state. Each state may have a different number of "Electoral Votes." This number is determined by a fixed rule, each state having as many "Electoral Votes," as it has representatives and senators in Congress. Texas has 18 representatives and 2 senators; New York has 43 representatives and 2 senators. Each state has 2 senators, but the number of representatives depend upon the population. As now determined by the returns from the states, Wilson will have 432 votes, Roosevelt 87 and Taft 8.

Closed car of best Colorado coal on track until Saturday night. \$7.50 per ton. E. W. Harrison. It

E. Renfro and his son, John, returned Wednesday afternoon from Lakewood, N. M., where they went to make arrangements for the hunt contemplated by a few of Hereford's sportsmen, but as the trip was abandoned they returned.

New Minister For Methodist Church

A wire was received here Sunday night conveying the information that Rev. Jno. R. Henson of Quanah had been appointed to the charge at Hereford. Rev. Sherman was appointed presiding elder of the Sweetwater district, and on his arrival here Tuesday his many friends extended their congratulations, but regretted that he would be compelled to leave Hereford. Rev. Henson comes to the church with strong endorsements. He is a good preacher and has held some of the best charges in the state. He will preach his first sermon at the Methodist church next Sunday morning.

Sacred Musicale.

Sunday evening at the Methodist church, a musical program will be rendered. This will be given by the church choir, assisted by a number of singers from the other choirs of the city.

Order of Service.
