

BANNER STOCKMAN

VOL. XII.

CLARENDON, TEXAS, FRIDAY, JULY 14, 1905.

NO. 38.

The Banner-Stockman This Week Launches the Biggest Premium Contest Ever Conducted by a Panhandle Paper.

A Popular Lady Will Win a Prize.

The Banner-Stockman Makes a Big Offer to the Most Popular Lady in the County.

The Banner-Stockman this week inaugurates the biggest premium contest ever carried by a Panhandle newspaper in a campaign for new subscribers.

We have bought from the Witt-Richardson Hardware & Implement Co., a \$45.00 Buck's Steel Range which can be seen at their store, and we are going to make a present of this range to the most popular lady in Donley county (married or single), the contest to be decided by popular vote.

The plan of the contest is as follows: For every dollar paid the Banner-Stockman on subscription (either new or renewal) the subscriber or his agent will be given a ticket which will entitle him to 100 votes. These votes he may cast at the time of payment or later as he may choose, voting them for the lady of his choice in the Range contest. Fifty cents paid for six months' subscription will entitle him to 50 votes. Twenty-five cents, 25 votes.

NO VOTES WILL BE SOLD TO ANYONE AT ANY PRICE.

In each copy of the paper while the contest is running will be printed a coupon which will be good for five votes when clipped and presented at this office. All votes will be cast in a specially prepared ballot box which will be kept locked at this office. The box will be opened once a week and the votes counted by the editor and the result announced in the paper for that week. At the end of the contest a committee of three disinterested parties will recount all votes cast and decide the final result.

Any lady in Donley county may enter the contest. There is no entrance fee, nor strings of any kind tied to the offer. All that is necessary to get in the race is to announce your candidacy or have a friend start you off with a bunch of votes. No one is barred except members of the families or relatives of the Banner-Stockman force or of the firm supplying the premium. In the interest of strict fair play all these will be barred from competing.

The contest will close at noon on October, 15, 1905.

FOR YOUNG LADIES.

We have decided to offer a special prize also during this contest for the young ladies of the county. We have bought from J. M. Clower, the jeweler, a handsome Ladies' Gold Watch and chain. This prize we will give to the young lady in the county under 21 years of age who secures us the greatest number of NEW

yearly subscribers while the Range contest is running. This watch is a \$25 proposition, case guaranteed for 20 years, Elgin or Waltham movement as preferred by the winner. It is now on display at Clower's store. A 14-karat gold chain goes with the watch, and the whole forms a beautiful and valuable prize for which any girl can well afford to work hard. All you will have to do to compete for this prize is to go to work. The subscription price of the Banner-Stockman is \$1 per year, 50c for six months, for 25c three months. Two 6-months subscriptions or four 3-months subscriptions will count as one yearly subscriber. The young lady who secures the largest number of yearly subscribers will get the prize. No relative of any member of the Banner-Stockman force or of Mr. Clower will be allowed to compete.

There are no other conditions than above stated. Go to work yourself and get your friends to help you solicit new names. Have your friends send the paper to relatives or friends in the old states. Subscriptions will be received for any postoffice in the United States or Canada.

STILL ANOTHER PREMIUM.

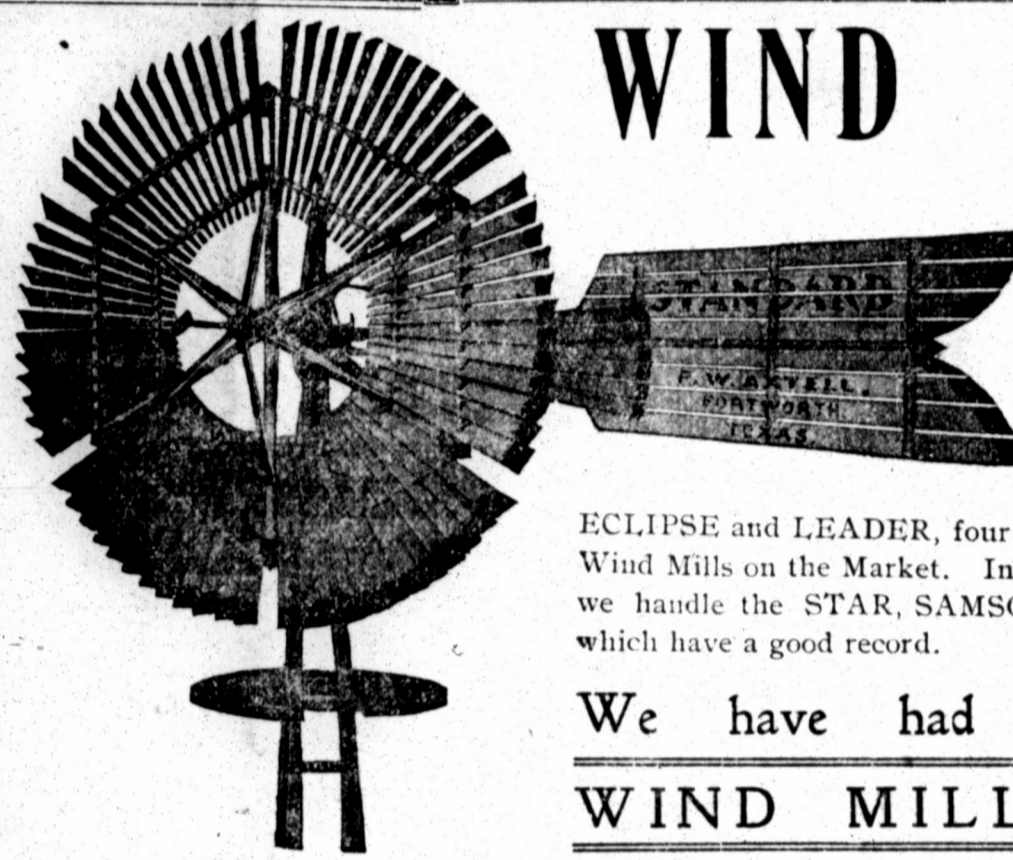

To still further stimulate the contest we offer to the first fifty NEW subscribers who come in after this date each a year's subscription to Holland's Magazine, the new high-class literary monthly which will be published by F. P. Holland, publisher of Farm and Ranch, at Dallas. The first number of this magazine will be issued in August and the first fifty NEW subscribers to the Banner-Stockman will get a year's subscription to the magazine absolutely FREE.

Contestants in either of the above prize offers may live in Clarendon or elsewhere in Donley county. We are very desirous of having candidates from every section of the county enter. The more entries the more interesting to all will be the contest, and all will have an equal chance at the prizes. Every community in the county can have its candidate and push her for the range prize, while every girl in the county has an equal chance to win the watch.

The contest is open. Now let all interested get busy. The Banner-Stockman is putting up considerable money on this proposition and wishes to see things move.

The Fatality at Claude.

In last week's Banner-Stockman appeared a short paragraph concerning the killing of one boy by another at Claude which from the wording would seem to do an injustice. We find the following full account of the accident in the Claude News which shows the accident to have been one of those unavoidable occurrences which happen from time to time and which always brings its penalty to the one who handled the gun in the shape of a deep and imperishable grief. Young Miller is to be pitied rather than censured, and the Banner-Stockman would be the last to offer anything that partook of censure to one so unfortunate. The account as taken from the News follows:

Our community was shocked Saturday morning last by an accident which resulted in the death of a young man just entering fully on the stage of life—William T. Moore, son of our esteemed fellow-townsmen, Tom W. Moore.

The particulars of the deplorable affair can be briefly told, as follows: Saturday morning about 10:30 o'clock the father and son were in J. Frank Slay's hardware house, the latter casually looking at some pocket knives, razors, etc., Willie Miller showing him the goods. About the time Will finished looking over the stock Tom Moore stepped out to the sidewalk, Mr. Slay at the same time walking out and going into the next door. At this time Will Moore left the show-case and picked up a target rifle resting on the counter and Will Miller finished replacing the goods. Will Moore expressed a preference for the hammerless pattern, when Will Miller reached under the counter and started to draw out one Mr. Slay keeps at his home but which had been brought down town a few days previous for repairs. It was not known that this gun was charged though Mr. Slay had placed the magazine in it a few days before. As Miller pulled the gun from under the counter the trigger, it is supposed, struck the corner of a plank forming part of counter, causing the discharge of the weapon. The unfortunate young man was facing the gun and the charge entered the corner of his left eye and it is supposed lodged in his brain.

Moore replaced the gun he was handling on the shelf and then it was noticed that he was sinking to the floor. Mr. Slay, who had just returned, discovered his condition and rushed to his aid. Miller was so shocked by the occurrence that he did not realize that it was the gun he was handling that had done the fatal work, thinking it the one Moore had in his hand.

Medical aid was summoned but an examination gave no hope of recovery. The young man was conveyed to the home of his father where he lingered until 12:30 o'clock, when death relieved him of his sufferings.

Mr. and Mrs. Arthur Scoggins of Clarendon were up Tuesday to take in the picnic. Mrs. Scoggins (nee Ola Jacks) was raised in Claude, and her old friends were glad to meet her again.—Claude News.

Burley Boydston and Miss Frankie Harris of Groom were married at the church at Groom last Tuesday night. This young couple have grown up near Groom and are well known and loved by all.—Claude News.

An Explanation.

GILES, Texas, July 5.

EDITOR BANNER-STOCKMAN,
Clarendon, Texas.

DEAR SIR:—In justice to our basket ball team I feel it my duty to give the public an explanation with reference to the game matched between our team and the Memphis team for July 4th at Memphis. The Memphis team telephoned our team Monday, the 3rd, to know if they would play them on the 4th. The answer was yes, and our team went according to promise. Met their captain in the morning and asked who would furnish the referee. The Memphis team said their referee was gone and they guessed they would have to use our referee. So when the time came to play I called for captains and asked them if they had their other officers. Our captain said she had chosen Prof. Bain for her umpire and Memphis had objected to him. The Memphis captain said they had a man who would act as referee half the time and umpire too, which was all the officers they needed. We showed the rules for one referee, two umpires, four linemen, one scorer and one time keeper. They said our rules were not like theirs. We asked for their rules and they said they did not have them.

We told them that in the absence of theirs we would have to play by ours, which were Spaulding's and Standard. They refused and we called the game off. We were very sorry to have to do this, for we are proud of our team, in fact too proud to disregard the rules of the game. The Memphis team showed us enough disrespect, however, to yell in our face while we were trying to tell the audience why the game was not played. Now we contend that if there was a purse for the winning team (which we understand there was) according to any rules of basket ball our team is entitled to the same.

Very respectfully,

J. A. WITHERSPOON,
Referee Giles Basket Ball Team.

How Cheap Baking Powder Is Made.

A seizure of a lot of "cheap" baking powders by the authorities of a neighboring city has exposed the character of the low priced brands of baking powders which many manufacturers are offering throughout the country. The price of the powders first attracted attention to them. Samples were taken and analyzed. The official report of the analysis showed the stuff to be "alum powders," composed chiefly of alum, sulphuric acid and pulverized rock. The powders were declared dangerous to health and several thousand pounds were confiscated and destroyed.

Physicians have frequently cautioned consumers against mixing food with these so-called "cheap" baking powders. They are all found, when analyzed, to contain large percentages of alum and sulphuric acid to which are added various sorts of filling matter sometimes both injurious and nasty.

The high class, cream of tartar baking powders, are the most economical and wholesome and should always be selected for use. They will be found cheaper in the end, besides making the food better and more healthful.

Forced to Starve.

B. F. Leek, of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful sometimes, that I could not eat. After vainly trying everything else, I cured it, with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At Dr. Stocking's drug store; only 25c.

Holland's Magazine.

Twenty-five years ago, with grit and energy and common sense for capital, Frank P. Holland began the publication of Farm and Ranch; by persistent effort he has made it by long odds the best agricultural paper in the South, if not in the entire country. With the experience of a quarter of a century and ample capital to back him, he now announces that on August 1, he will begin the publication of Holland's Magazine, a literary periodical of the highest grade to go into the homes of the Southwest. As the people of this section have had to depend heretofore on the productions of Northern publishers for such publication, it seems that the advent of such a publication, as Col. Holland proposes to make would be enthusiastically welcomed.

The advance sheets of the August number indicates that no expense is to be spared in securing reading matter and fine illustrations for the new publication. The lithographed cover in two colors presents an exceedingly attractive appearance. Among the short stories for the month are "The End of a Strike," by F. N. Stratton; "Sidney Crafton, Promoter," by Edgar White; "The Black Hand," by Annie Bishard; "The Taking of Delley," by Lorena M. Page; "The Chivalry of the Hills," by H. H. Hughes; "Mr. Long Distance," by Drab Gallene; "A Train Acquaintance," by R. F. Knapp; "The Fortune Teller," by Belle Maniates; "The Little Pioneer," by Minta Rulon Roadhouse, and numerous others.

J. M. Lewis contributes a splendid poem, "Life's Reward," used as a frontispiece. Among the special articles Mrs. E. Godinez tells about Cuban housewives, Walter B. Whitman recalls memories of cadet life at the U. S. Naval Academy, Mrs. S. E. Buchanan writes interestingly of wild flowers and Hester Gray of the real race suicide. There are pages of fashion, kitchen hints and household helps and stories, games and puzzles for the little folks.

Nearly every story and article in the 36-page magazine is superbly illustrated and it appears that Col. Holland's policy of "making good rather than making promises," will be fully carried out.

The subscription price of Holland's Magazine will be \$1 per year.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart-failure in its ghastly harvest.

You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures.

August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way.

Not Appendicitis.

A little lad whose parents attend the church of the Ascension being taken to the morning service for the first time was greatly impressed by a reference the clergyman made to the creation of Eve. A few days later he came to his mother, announcing: "My side hurts me very much and I think God is getting ready to take out one of my ribs and make me a wife."—New York Sun.

Even Trees Are Dead.

There is a cemetery in Savannah, Ga., where no one has been buried for fifty years. Here for three-quarters of a mile in extent the trees seem to meet in the clouds and present a most fantastic sight. Not a leaf is to be seen on the branches, but they are covered from trunk to twig with Spanish moss which, spreading over the great arms of the trees, saps their vitality.

HORTICULTURE

The Keiffer Pear a Favorite.

As the Keiffer pear appears on the market it is not a general favorite, as it has not been properly ripened. It needs to be picked when fully mature and then put away for five or six weeks to ripen. When so treated it had a fair flavor, though the Keiffer will never be noted for fine flavor, no matter how perfectly handled. But taking all things together, the Keiffer is a favorite with pear growers. This is because it can be depended on to live and produce fruit, which cannot be said of most of the varieties of pears. The men that planted Keiffer pear trees a generation ago are now getting an income from them, while those that planted mostly other sorts are lamenting the fact that they planted varieties that yielded to the blight. Perhaps it is the lack of high quality in the Keiffer that protects it. It may be that the bees do not visit the blossoms of the Keiffers as much as they do the varieties that have more flavor to their credit. The fact is well established that the Keiffers do not blight as badly as some of the pears that are of fine quality. Now, the grower would like to have a pear of high quality to sell to his friends, but since he cannot he is fairly well satisfied to have a pear that his friends find edible and that he can produce in large quantities. The Keiffer pear is probably the one on which most money is made, at least east of the Rocky Mountains.

Soils for Plum Trees.

The old notion used to be that plums preferred a heavy clay soil. This is still true for certain classes of plums particularly the Domestic and Damsons. But some other plums thrive in other soils, so that by choosing the varieties best adapted to particular situations plums may be grown almost anywhere. Even light, sandy soils are suitable to the Japanese varieties and some of the hybrids. Taking all kinds of plums together, however, the best soil is that which would be suitable for apples; and the general rule regarding apples is that they will thrive on any soil well suited to potatoes. A loose, deep, gravelly soil, with an open subsoil is the best for all orchard trees in this climate. This is what should be chosen where it is available. Where it cannot be had, almost any soil will do, providing only that it is well drained. It must not hold water either in summer or winter. If it is inclined to do so it must be thoroughly drained, preferably by closed stone or tile underdrains, before the trees are planted.—Prof. F. A. Waugh.

The Wandering Tree Peddler.

The Ohio Experiment station has sent out a warning against a man that is traveling in parts of Ohio selling trees on the claim that the nursery he represents is in a way connected with the Ohio Experiment station. This man claims to represent the forestry department of the station named, but finally gets down to business and says that he also represents a nursery in Greenville, Ind. He offers to sell catalpa and black locust trees at \$20 a thousand. He asserts that his nursery produces all the trees that the experiment station sends out. He asserts further that the Ohio Experiment station has a contract to pay for 200 out of every 1,000 trees his firm sells in Ohio. The Ohio station says that any man making such claims is a fraud and should be arrested under the law prohibiting men from getting money under false pretenses. Our readers in Ohio and Indiana will do well to be on the outlook for him.

Trees and Real Estate.

Why does not the absent owner of a farm plant a few trees on that farm every year to improve his property? The city owner of real estate has long ago found out that it pays to plant trees and so in the great tracts of land laid out into streets in the vicinity of the great cities we see all kinds of trees planted and cared for. On all sides of Chicago this is to be seen. The trees have been potent factors in drawing people to the suburbs to live. No one cares to go to a section where houses stand upon the open plain. But if there are thrifty trees it is different. The same tendency is as true of the farm as of the town residence.

Buy It Now.

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—so will need it quickly. Buy it now. It may save life. For sale at Dr. Stocking's drug store.

Kurus Kusse clips the following from "The Tenderfoot's" column in the Amarillo Herald. It deserves mention along with Mr. Daily's turkey ducks:

Cicero Walling was in from his ranch Wednesday morning and gave me a few particulars about the turgoose, the new fowl that he is raising on his place. The critter is a cross between a mammoth Bronze turkey gobbler as party of the first part and a Toulouse goose as party of the second part. The turgoose will weigh about forty pounds when mature, with feet like a turkey and runs like a streak. Mr. Walling says that one of them will see a grasshopper on the next section and catch it before it lights. Its natural food is kaffir corn, and during the laying season it produces an egg a day that is the size of a five-pound lard bucket, his whole family often making a meal off one egg. One of them will give enough feathers to fill a pillow and enough meat to feed a council of Methodist preachers. He says that he is going to make a specialty of raising turgoose, and expects to get rich at it, and he will be glad to answer any queries in regard to the animal whenever he comes to Amarillo, though there will be no eggs for sale this season.

A pleasant surprise party may be given to your stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation. 25c at Dr. Stocking's drug store.

Fifty Years a Preacher.

Dr. John T. Crippen, of Waterloo, Ia., a pioneer in the Methodist church, will this month celebrate the fiftieth anniversary of his entrance into the ministry. In forty five years he missed but one Sunday, that being on account of illness, and in the entire half century he has missed but four, three of them coming in succession. He has dedicated ninety-two churches. Dr. Crippen always looks at the bright side of things. During the illness which kept him away from church four weeks his physicians had given up hope of his recovery, but he had not. His wife in all seriousness asked what songs he wished sung at his funeral and he said if she had no choice they might sing "When Johnnie Goes Marching Home," and Dr. Crippen's recovery dated from that moment.

THE Banner-Stockman is in receipt of an invitation to attend the wedding on July 18th of Mr. Wade Waller and Miss Nell Elizabeth Clapp of Dallas. Wade is a popular traveling salesman for the firm of A. G. Elliot Paper Co., and the Banner-Stockman is sincere in wishing for him and his bride all the good things that could possibly be in store for them.

THE Clarendon Chronicle will shortly be installed in new quarters. Bro. Blake has bought the W. C. Morgan building and will move it to a lot on Sully street near his present office, there to be occupied by his printing plant. This will give him a splendid, roomy office building, something which the Chronicle has long been in need of.

W. P. Connelly, editor of the Bryan Eagle, accompanied by his wife (nee Miss Ora Trent) has been visiting the families of Jim and Bert Trent the past week. Mr. Connelly has been taking notes for a considerable write-up of this section for his paper. He expresses himself as being simply carried away with our country, and is especially well pleased with this climate. Clarendon, he thinks, is a beautiful town, and her school interests something to be proud of and fostered.

Childress will have her annual anniversary celebration on Tuesday and Wednesday, the 18th and 19th inst. There will be the usual run of attractions such as barbecue, baseball, tournament, gun shoot, races, etc., with the usual amount of hot air by "prominent speakers." Clarendon will no doubt furnish a large number of visitors for the occasion.

The editor had the pleasure of visiting F. N. Page's orchard Wednesday; that wasn't all he did, either. He ate all the plums and peaches he could hold and then took a big bucket full home. Mr. Page has one of the best orchards in Donley county and has a good crop of fruit this year. The peaches now ripe are of the early varieties and are large, juicy, of fine color, and like all Panhandle peaches, free from worms or any other parasite. We can truthfully say we have never eaten a better early peach than we got in this orchard. Part of this orchard is 15 years old and still bearing. Mr. Page thinks there is no country on earth that beats this for fruit, in which opinion he has the concurrence of all who have tried fruit growing.

J. G. Campbell and family came last week from Grayson county and have taken possession of their new home which they bought from Tom Allen recently. Mr. J. T. Burke, a carpenter of that county, accompanied Mr. Campbell here and will build a new house for him and also prospect for a location for himself.

Mr. and Mrs. Hale, of Pilot Point, Texas, came in Wednesday night for a visit to Mr. Hale's aunt, Mrs. H. D. Ramsey.

McLean Minnows.

MCLEAN, TEXAS, July 10.

EDITOR BANNER STOCKMAN.

McLean was visited by a fine rain Friday night and Saturday which will be of great benefit to the growing crops. Also had a very cool norther Sunday.

W. T. Wilson and family have returned from their visit to Oklahoma. He reports fine crops in the part he was in.

Mrs. S. E. Major and daughter, Miss Maye, who have been visiting S. A. Cousins and family, left last Wednesday for Rowe to visit her sister, Mrs. C. F. Doherty.

C. C. Cook and wife entertained the young folks Friday night in honor of their son, Arthur, and wife, who were married in Tennessee June 28. The young couple have the best wishes of all. They leave tonight for their future home in Gu-mon, Oklahoma.

McLean was well represented at Alanreed on the Fourth and all seemed to enjoy it notwithstanding the rain.

C. C. Cook is enjoying a visit from his mother who lives in Osa, Ark.

Mr. and Mrs. Burrows are the proud parents of a fine boy, born July 1. Also Mr. and Mrs. Self, a boy; and Mr. and Mrs. Jordan, a girl.

Mrs. Barker, who lives near North Fork, died yesterday and will be buried at McLean today. Mrs. Barker was well known here, having lived here before she married. All who knew her loved her and greatly sympathize with the bereaved ones. She leaves a husband and a little babe about ten months old.

C. S. Rice and family left this morning for Baird to visit his parents. He will be gone about a month. Mr. Roland, of Shamrock, will take his place in the lumber yard.

J. L. Gray will move his house to a more elevated place on his farm Wednesday. His neighbors will help him.

Mr. Simmons has exchanged his livery stable for a section of grass land owned by Mr. Harrol. Mr. Harrol, we learn, will move to town.

Mr. Gardenhire lost a fine mule Sunday night. Suppose lightning killed it. "BETSY."

As we have closed out our real estate business here we take this method of thanking one and all for the kindness shown us in word and deed. Our business relations on our part have been very pleasant and we have used every effort to make it both pleasant and profitable with all who patronized us.

By agreement we have turned our correspondence over to Priddy & Reeves, and with their hustling qualities, and with their wide correspondence and ours thrown together we think they will be in a position to give those wanting to sell their land better service, and will in all cases stand a better show to secure buyers. The man who spends his money advertising your lands and the country in general is generally the cause of your land advancing, and such real estate men should be appreciated and are the ones to patronize, and not the curbstone man who stands on the corner to waylay prospectors who have been influenced to come to this country by the man who spends his hard-earned money advertising for the upbuilding of the country.

Two of a Kind, and Then Some.

If there is any virtue in the supposition that competition is calculated to lower prices the price of pills and peruna is destined to go down in Clarendon before many more moons. Arrangements were completed this week which when carried out will result in Clarendon having two new drug stores in addition to the two already in business.

Jeff Trent and John McKillop are now in the market buying a stock of drugs which they will open up in Mr. Trent's building now occupied by J. M. Clower, jeweler and stationer. They expect to be ready for business about the first of August.

Mr. Clower has leased the Barnett building, now occupied by the Clarendon Produce Co., and will move thereto next week. He informs us that he, too, will put in a stock of drugs in connection with his present business. This will give Clarendon four drug stores and the field will therefore be well covered. The Banner-Stockman is always glad to welcome new enterprises and hopes the four druggists may all prosper. They are all good men and deserving of patronage.

The Clarendon second base ball team went down to Memphis last Saturday and played the first team. The Memphis boys won by a score of 4 to 1. Kerbow and Hildebrand did battery work for Clarendon.

KANSAS CITY MARKET REPORT

Special to BANNER-STOCKMAN.

Kansas City, Mo., July 10, 1905.

The cattle run last week was 30,000 head, a decrease of 7,000 head from previous week. The proportion of beef steers continued light and receipts from the range country were also small, but run of quarantine cattle held up heavy. The distribution as to class suited the packers all right, and the week closed with a gain of 15 to 25 cents on killing cattle, stockers and feeders 10 to 15 cents higher. The supply today is heavy at 15,000 head here, half of which is in the quarantine division. The market averaged about steady today, some of the good native steers heifers and cows selling strong to a little higher, while quarantine steers sold steady to lower. Some of the fed Colorados from around Fowler, have sold in the last few days at \$4.80 to \$5.00, against \$4.35 to \$4.50 week before last. A train of Idaho feeders sold at \$3.35 early last week, panhandle stockers and feeders at \$3.35 to \$3.80, several strings of light stockers from that country today at \$3.50 and \$3.55. Grass cows sell at \$2.35 to \$3.00, bulls \$2.25 to \$3.00, canners, of course down around \$2.00. The regular canning season has not opened yet, but packers will be prepared for their week after next. The liberal supply today is taken to indicate that the big movement is on for the fall months.

The sheep market keeps on gaining an advance of 15 to 25 cents being made last week, market strong to higher today. Receipts consist mainly of Arizona wethers and Native spring lambs, with native muttons included of course. New records were made today, when Arizona spring lambs sold at \$7.50, Arizona shorn grass wethers, 98 lbs, at \$5.40, yearlings 84 lbs at \$5.75. Receipts here are considerably heavier than at this time last year, but demand was never more keen

than it is just now. Packer buyers literally stand in line to get first chance at the arrivals. There are orders held here in the hands of commission men for large numbers of thin sheep, suitable for the country, which will be filled as soon as that class appears.

BACK FROM TENNESSEE.

Rev. B. W. Dodson Returns From a Visit to His Old Home, Boomed Texas While Away, and Got Into Print.

Rev. and Mrs. B. W. Dodson returned last week from their summer's vacation which was spent with friends in their old Tennessee home. They report a most delightful trip. Bro. Dodson dropped in to see an old editor friend in the person of W. W. Barksdale, of the Clarksville Daily Leaf-Chronicle, who gave him the following write-up in his issue of July 3rd:

Rev. B. W. Dodson, formerly a member of the Tennessee Conference and pastor years ago of the Clarksville Methodist Church and Southside Circuit, dropped into the office today. He is on his way back to his home in Texas via Louisville. He has been preaching to his old parishioners at Southside, Rye's Chapel, Mt. Zion, Wood's Valley and Soule Chapel.

He reports a most delightful visit to his old friends and declares that the present rainy spell is doubtless due to his visit, because he has never yet attempted to hold a meeting at Rye's Chapel in which it did not rain. However, he thinks that fair weather will begin Tuesday, as he will go out of the state tonight. His friends on Southside Circuit raised the money necessary to pay all the expenses of Bro. Dodson's trip to Tennessee. He insists that no finer people are to be found than in Tennessee.

He says that Texas is also great. His health is much improved. He weighs 210 pounds and looks like an athlete. He informs us that his portion of Texas has no destructive tornadoes and offers a theory for this fact which we do not believe the Weather Bureau will accept, viz: that the citizens of the Texas Panhandle blow their part of Texas so vigorously that no tornado is willing to attempt to blow in that part of the country.

Mr. Dodson is at Clarendon, Texas, 2,700 feet above sea level, 500 feet higher than Lookout Mountain, and is certainly being well treated and is in love with Texas. But he says he can never forget hundreds of good friends in Tennessee, where he has spent many years of ministerial life.

Ben Anderson came down from Trinidad Saturday to see relatives. Accompanied by Mrs. Anderson and baby he left Monday for Tucumcari, N. M., where they will visit his mother.

The rain Friday night was a beauty and duly appreciated by all. It serves to put crop conditions in Donley county in the very best shape. The fall in town measured about one and one-half inches.

The base ball supper was almost rained out Friday night, but the boys stayed with it and finally came out ahead of the game to the extent of several dollars.

George Merrick, an employe at the A. R. Letts ranch, was arrested by Sheriff Patman on the night of the 4th on a charge of lunacy. Groom Gossip.
GROOM, TEXAS, July 12.
EDITOR BANNER-STOCKMAN:

On the afternoon of the 7th of July, a terrific wind and hail storm passed in east of Groom about two miles almost completely ruining gardens and crops of F. P. Campbell Ed Johnson, Sam Whatley, Henry Corbin, Jefferies and Angel. The cloud commenced to gather about five o'clock, and about six it became a blackened mass. When it began to blow bringing rain and hail with it. Before it reached these parts, it struck a school-house and some barns at Whitedeer, completely demolishing same.

Some hail stones fell here as large as turkey eggs, and it was still worse further north. No one is hurt so far as known.

The fine horse of Mat Butten's died last week of blind staggers.

Mrs. Chas. Paine who has been to Montague county visiting her sick mother, has returned home, reporting her mother's condition much improved.

The Ladies' Aid supper last Friday night was well attended considering the bad weather and storm of the afternoon. Something like \$23 was taken in which did fine for such a small crowd. Geo. Parker, from Raymond, brought his graphophone and furnished us splendid music. C. R. Slay got the cake for being the laziest man, while Miss Zona Slay took a cake for being the most popular young lady.

Miss Lizzie Troup, a niece of Mrs. Frasier, is here on a visit to her aunt.

On the night of the 4th Burley Boydston and Miss Frankie Harris were married at Groom church before a large audience of friends and relatives. We have known both of the young people since childhood and both are held in high esteem by their friends. Their future home will be in Childress.

The little daughter of C. E. Boydston who has been sick for three or four months, is worse now, and two or three doctors have been attending her. She is some better than a few days ago.

On Sunday afternoon the 2nd of this inst. Mr. Lewis and Miss Lizzie Routh took a livery rig and went to Panhandle where they hoped to get married, but unfortunately, the young lady was not of age and it was denied them. They left for Claude about six in the afternoon, while the girl's father left Groom about eight. The father went to Panhandle while the couple were on their way to Claude. Phone messages were sent to Claude to not issue license to the couple. Failing again the couple left Claude and headed for Oklahoma. They then sent a message from Memphis, and the owner of the rig, Mr. Cornett, went on the next train but gained no information and came back. He started again Sunday morning for Oklahoma, but message was received the 10th saying they had them captured at Mangum, Oklahoma.

Since writing the above we learn they are married and will be left there to do as they please.

Farmers will begin their oat-threshing about the first of the week.

MAE BEE SOWE.
CHOLERA INFANTUM.

Child Not Expected to Live From One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale at Dr. Stocking's drug store.

Rev. G. S. Hardy, president of Clarendon College, was in Childress last Friday on his way to Matador in the interest of the College. In conversation with The Index he stated that Childress county had treated the College nicely, and the management felt grateful. The outlook for the school year of 1905-6, he said, was all that could be desired.—Childress Index.

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at Dr. Stocking's drug store; price 50c.

MEETING OF SANITARY BOARD.

Refuses Request to Put Throckmorton County Above the Line.

A meeting of the Texas Live Stock Sanitary board was held at Corpus Christi this week, with an attendance of J. W. Moore, chairman; M. M. Hankins of Quanah and R. McKnight of Houston, veterinarian and Dr. Parker, United States veterinarian and inspector. The meeting was also attended by several stockmen interested in the proceedings.

The commission heard an application to change the quarantine line so as to put Throckmorton county above the line, but declined to make the change.—Fort Worth Live Stock Reporter.

Hereford Stock News.

Following is a summary of the cattle news since our last issue:

J. A. Spires of Terry county this week sold and delivered to Thomas and Skinner of St. Paul, Minn., 469 2-year-old steers at the fancy price of \$19.

George Martin sold to Popham & Wilson 350 3 and 4-year-old steers to be delivered at Panhandle City. Price unknown.

J. R. T. Bassett and G. T. Higgins sold to Laird of Nebraska 400 yearling steers to be delivered at the stock pens in Hereford Saturday. The price received was \$15.50 and \$16.

H. Fitzgerald of Yoakum county sold Skinner and Thomas 240 twos at p. t.

W. W. Driscoll of Dakota bought of Messrs. Tubbs, McCummings and Beal, all of Lubbock county, 1226 2-year-old steers at \$19.

Murchison & Thompson this

week purchased from local parties 400 head of white-faced yearlings. They will be placed in the Underwood pasture north of town, which has been leased.—Hereford Brand.

The Wilson-Popham Cattle Co. bought 800 3-year-old steers from C. T. Laird, of Moore county, to be delivered at Panhandle June 8.—Amarillo Herald.

In Moore County, W. J. Morton bought 50 head of cows and calves from C. N. Thompson, paying \$25 per head, cash; J. S. Walker bought of W. E. Warren 46 head of stock cattle at \$15 per head; Clabe Burnett bought a bunch of stock cattle of J. P. Rose, consideration \$14 cash per head; W. J. Martin sold his yearlings for \$14 and his heifers for \$13, about 200 head in all.—Amarillo Herald.

The Clark steers which were shipped from this point last Saturday averaged 1132 pounds and brought \$4.30. These steers were fed for the market and the experiment was being watched with interest by other stockmen here.—Miami Chief.

Selling Too Low.

B. F. Jackson is cutting his alfalfa in the field west of town this week. This makes the second cutting this year, and Mr. Jackson is selling some of it in Miami at \$10 a ton. At the former cutting the yield was probably something better than a ton per acre, and the second crop is better than the first. One more cutting will be made this year and with favorable weather possibly two more.—Miami Chief.

Len Ballew's Kaffir Corn Field, 4 miles east of Clarendon.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & Co., Toledo, Ohio. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

Mollie Bailey is again abroad in the land and her coming is being watched for with big interest by all the small folks—and some of the larger people, too, no doubt. The show will be here on the 20th, and is said to be better than ever this year. Mollie Bailey's show has been touring the Panhandle for years and years, and has always been of a stripe which gave satisfaction in every respect. Mollie is not very strong on advertising but she is generally "there with the goods" when the doors open to admit the big crowds which always fill her tent.

Improvement Club Meets.

The regular monthly meeting of the Donley County Improvement Club was held Tuesday afternoon. There was little business transacted beyond hearing and approving the secretary's report. It was decided to spend all the money the treasurer could dig up this month in advertising the resources of Donley county, the Dallas Semi-Weekly News and the Texas Farm and Ranch being the mediums selected.

The Club now has about sixty-five members. The secretary has had printed much good literature about the county and her resources and has been circulating same by mail. In this he has been assisted by local business people to a considerable extent, and this, supplemented by some judicious newspaper advertising, is expected to soon be productive of good results.

The general passenger agent's office of the Ft. Worth & Denver railroad is co-operating with the Club and has been furnished with a supply of this literature to be distributed where it will do the most good.

The membership of the club is not nearly so large as it should be. Every citizen of the town and county should join the club and pay the small fee of 50c per month. The secretary hopes to see the membership substantially increased this month, and to that end the Banner-Stockman would urge all who read this item who are not already members to lose no time in getting their names on the rolls.
