HEREFORD, TEXAS, FRIDAY, NOVEMBER 22, 1912

NUMBER 42

FOURTH WEEK DISTRICT COURT

The fourth week of District Court is being devoted to the trial of the Coffman case, which is a suit brought by J. J. Coffman against the Pecos & Northern Texas Railway Company for \$50,000.00 damages for personal injuries alleged to have been sustained by him on August 7th, 1904, in a wreck which occurred in the yards at Hereford caused by the west bound passenger train running into an open switch and colliding with a string of freight cars standing on the sidetrack. This suit was filed over six years ago and was tried in 1908, at which time the plaintiff was awarded a verdict for \$17,500, but the case was reversed by the Court of Appeals for errors in the trial and remanded to the District Court of this county for another trial. The plaintiff is represented by the law firm of Capps, Canty, Hanger & Short of Ft. Worth, the first two being present at this trial, and by Knight & Slaton of Hereford. The attorneys for the P. & N. T. Ry. Co., are Messrs. Otis Trulove of Plainview and Carl Gilliland of Hereford.

Among the out-of-town witnesses attending court for this trial are, J. J. Coffman, the plaintiff, who lives at San Antonio, Texas, Dr. Wm. R. Howard of Ft. Worth, Dr. Herzil of San Antonio, Dr. J. P. Kaster of Topeka, Kansas, Chief Surgeon of the Santa Fe Employes Hospital Association, Dr. Maguire of Topeka, Kansas, and L. W. Earnest, general claim agent S. A. & A. P. Ry Co., San Antonio. It is likely that this case will take the whole of this week and that court will then adjourn for the term.

The following non-jury civil cases have been disposed of since the last issue of the Brand:

D. L. McDonald vs Frank E. Tindall et al., suit on note and foreclosure of vendor's lien. Trial by the court and judgment for the plaintiff.

Mrs. Laura E. McMillen vs C. S. McMillen, suit for divorce. Divorce granted as prayed for.

First National Bank of Hereford vs R. W. Lovelace, suit on note and foreclosure of Deed of Trust. Judgment by default for the plaintiff for the note sued on and for foreclosure of Deed of Trust.

L. A. Arnold vs G. R. Jowell, Jr., et al., suit on note and foreclosure of Deed of Trust. Judgment by default for plaintiff for note sued on and for a foreclosure of the Deed of Trust.

First National Bank of Hereford vs Geo. W. Dale et al., suit on note. Dismissed at plaintiff's cost.

First National of Hereford vs E. E. Rogers, suit on note and foreclosure. Dismissed at plaintiff's cost.

Western Union Land Co., vs Thos. Cook et al., suit on notes and a foreclosure. Trial by the court and judgment for plaintiff for the notes sued on and for a foreclosure of vendor's lien.

First National Bank of Hereford vs L. A. Stroud, suit on note. Judgment by default for plaintiff for note sued on.

Western Union Land Co., vs J. P. Snyder et al., suit on notes and for foreclosure. Judgment by default for plaintiff for notes sued on and for a foreclosure of vendor's lien.

Some Good Butter.

When the Brand printed a short article about the quality and condition of butter that should be offered for sale, it had no idea that any one would pay any attention to what was said. The article dealt with the problem of country butter and stated some very plain facts about butter, the good, bad and indifferent kinds that the consuming public were often compelled to endure. Now, comes Geo. E. Burns with a sample of his product, lays it in the editor's desk and said: "This butter is the answer to that butter article that appeared in the Brand some weeks ago." Mr. Burns is quite different from the average person. The average butter maker would have simply said that the editor of the Brand didn't know good butter even when he ate it, and being a country newspaper pencil jabber, didn't know enough about butter making to tell which cow gave the buttermilk. Of course, that would have ended the controversy. George Burns' answer is simply incontrovertible. The writer takes it for granted that Mr. Burns wants an honest report on that pack of butter. Here it is. The pack was in the form of a right parallelopipedon, neatly wrapped in standard butter paper; the butter was uniform in color, being of a rich creamy shade, and possessing an even grainy texture and a slight sour odor; the flavor was good, having just sufficient salt to develop the best qualities. There were no white streaks or spots in the pack. The writer having had the pleasure of trying the butter with some hot biscuits and peach preserves, he is able to give this package 100 on all the points of quality except upon the odor, which, as stated, was slightly sour, no doubt, resulting from over ripe cream. But if all the country butter that is brought to town will approach without five points of all of the good qualities of this pound sent in by Mr. Burns, Hereford butter eaters would never have cause to complain. Mr. Burns is to be congratulated upon the standard set for his output and if his cows should produce a hundred pounds per week, he would have no trouble in disposing of it.

Think about it! One person out every 26 who buys goods from Ray will get his money back. 41-2t

Texas Industrial Notes.

Kingsville.—The machinery for the addition to the machine shops of the Frisco line here, will soon be installed as the addition is now completed. The Frisco shops are running full force to keep pace with the necessary repairs incident to handling a heavy tonnage, on account of the heavy traffic that is now handled by the Kingsville division.

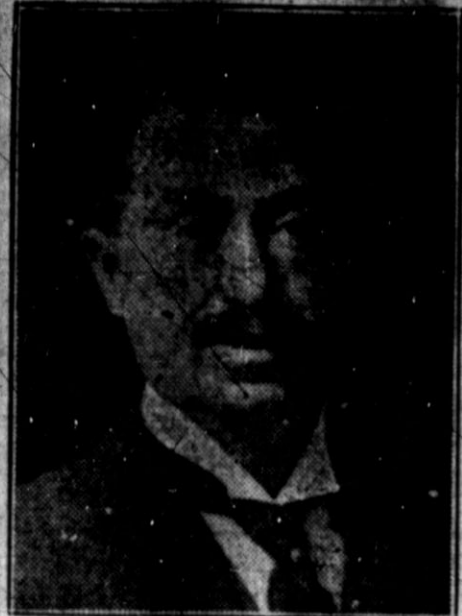

Amarillo.—The Santa Fe will at once replace its tracts between this place and the Oklahoma line with the heaviest steel. Expenditures of some \$500,000 here in the extension of the general offices and other facilities are also rumored.

Sherman.—Construction work has been started on a public highway radiating from here. Good roads bonds to the amount of \$400,000.00 were voted on recently for these improvements.

Houston.—The Houston and Brazos Valley Railroad has leased 40 miles of the International and great Northern track, between Archer and Houston, taking effect November 10

EXECUTIVE HEAD OF KATY COMMENDS STOCK AND BOND LAW.

Frank Trumbull.

Dallas, Texas, Nov.—The report current in the Texas press that an effort will be made to repeal the stock and bond law at the coming session of the Legislature lacks confirmation in business circles in this city. Frank Trumbull, executive head of the Katy system, in his statements before the Texas Welfare Commission commended the stock and bond law and suggested that the Legislature strengthen it by giving the Railroad Commission additional power to permit the railroads to issue bonds to improve their property and to build new mileage. Mr. B. B. Cain, president of the Gulf, Texas & Western, which is an independent line, also announced his opposition to the repeal of the law. Col. Jno. N. Simpson, capitalist, and one of the prominent members of the Texas Welfare Commission, is opposed to its repeal. No representative railroad or business man could be found in this city who advocated the repeal of the law, and in political circles the leading Democrats announce that they will stand by the platform demands of their party, which call for an amendment extending the authority of the Commission.

Items Left Over From Last Week.

M. O. Meeks, from the north part of the county, was here last week attending commissioner's court, he being one of the newly elected members of that body. He and W. B. Phillips made a call at this office before they returned.

Walter Megert has returned from Sanjon where he went as a delegate to the Grand Encampment of the I. O. F. He reports a fine time and a very successful session of that order.

Mr. and Mrs. P. R. Mitchell were at Plainview last week, where he went to look after some business for his company.

Sam Dunn, the original, dropped off at Hereford one day last week to shake hands with his long time friends and to crack a few fish stories.

Avery Turner, the head-light of the Panhandle Santa Fe System, was here Tuesday as witness in the Coffman personal damage suit case. Mr. Turner has become very much interested in the development of irrigation and being an old-timer on the Plains, he is not surprised that water at Hereford is now made available for farming purposes. He has known for years that the Plains was the best watered country in the world and is pleased to see the great under-ground reservoir be used.

Woman Suffrage Now in 10 States.

Whoever else is sad, those who believe in woman suffrage are highly pleased at the results of the election. In five states the people voted on the question whether the ballot should be given to women, and in four the answer was yes. The four new suffrage states are Arizona, Kansas, Michigan and Oregon. The entire Pacific coast now has equal suffrage, as Washington and California already had it. With the states that were already equal-suffrage, the new additions makes the whole number 10—the other ones besides those mentioned being Wyoming, Colorado, Utah and Idaho. These states have an electoral vote of 70 altogether.

Wisconsin was a fifth state that voted on the question this time, and in that state alone the proposition failed. The suffragists explain the failure there by saying that the move was opposed by the liquor interests and that many people also had a mistaken idea that woman suffrage was tied up with socialism, whereas "though all Socialists are suffragists, few suffragists are Socialists."

A great parade was held in New York to celebrate the addition of four states to the equal-suffrage column, 15,000 women being in line. "We will not stop till every state has given women citizenship on the same terms as men," a leading suffragist said in a speech.

Thank Offerings.

A resolution was passed at the Methodist church last Sunday to the end that all the children of that school should bring a Thank Offering, same to be used for the benefit of the needy. The offerings may be of money, clothing or food. These will be turned over to a committee for proper distribution. It is not known whether the other schools have passed a similar resolution, the move is a commendable one.

D. F. Ashbrook is now full owner of the insurance business of Ashbrook & Dale, having bought out his partner. He will continue the business at the same stand.

Cattlemen Attention.

Mrs. John Speers of Montrose, Pa., was in such dread of the ordeal of having her teeth pulled that the shock of anticipation caused her to drop dead as she was about to sit in the dentist's chair.

Rev. J. R. Henson, the new pastor of the Methodist church, will preach his first sermon Sunday. The membership and friends are invited to hear him.

F. M. Wagon of Sipe Springs, Texas, a relative of Mrs. F. H. Oberthier, was here this week and was shown the eighth wonder of the world, the biggest irrigation wells on the Plains. He likes 'em fine.

Mr. and Mrs. A. Witherspoon returned this morning from a visit to the coast country where they enjoyed a stay with friends and relatives.

M. C. Frisby of Santone was a visitor in Hereford for most of the week, he being an important witness in the Coffman case.

Your attention is called to an article headed "Running a Country Newspaper." Read it; maybe there is something in it about you.

ANOTHER BIG WATER GETTER

Sixteenth Big Irrigation Well for Hereford Puts this District in Class No. 1 for Sure Crops.

The McDonald Company has finished a new well on the Long place for Albert Rush, recently from Oklahoma. This is the sixteenth big pumper for the Hereford district. The three stage pump was lowered Tuesday afternoon and the first try out was made. A lot of sand and muddy water was the result. On Wednesday and the following days, the pumping was continued and a fine well was developed. It is expected, when the well is fully developed and the big 70-H. P. engine was hitched up to the pump, that not less than 1,800 gallons of water per minute will be secured. This will be sufficient to irrigate something near a half section.

A Good Proposition.

The attention of non-resident land owners is called to a piece in this week's paper, "Non-resident Land Owners." The object of the article is to create a sentiment in favor of advertising the Hereford irrigation district. If those who live away from Hereford think well of the irrigation projects, they will certainly co-operate in advertising such a good thing. A complete outline of the plan and methods of advertising will be given next week. Watch the paper—it will be an eye stretcher.

Mr. and Mrs. C. F. Wright of Chicago arrived today to visit with their friends, Mr. and Mrs. S. B. Edwards. Mr. Wright is a banker.

Mrs. J. M. Bogard left yesterday morning for Atoka, Okla., where she will visit for some weeks with her daughter.

Prof. T. S. Minter of Canyon will be here tomorrow, Saturday, at 2 p. m. to address the citizens of Hereford regarding the Russian thistle and its eradication.

Thanksgiving Menu.

The following menu will be served by the ladies of the M. E. church at the Bogard building Thanksgiving Day from 11:30 a. m. to 2:30 p. m.:

MENU.
Roast Turkey Gibley Gravy Dressing
Creamed Potatoes Candied Sweet Potatoes
Creamed Turnips with Chili Sauce
Waldorf Salad Cranberry Jelly
Pickles
White Bread Corn Bread
Butter
Cherry Pie Whipped Cream
Coffee Tea
All for 35 cents.

A Dry Norther.

Hereford has witnessed during the last few days some strong wind and a regular dry northern, but today the bright sunshine has warmed up the cool spots and many are taking advantage of the fine weather by donning their hunting togs. The birds will please look out.

Church Social.

The members and friends of the Methodist church will meet to night at their church in a sort of get-acquainted meeting. The new pastor, Rev. Henson, will be present and a social hour will be spent.

Mrs. Bill Smith of Plainview arrived in Hereford today for a visit with friends and relatives.

We Are Thankful

FOR the large business which the Hereford people have given us, for their continued confidence in the quality, worthiness and prices which we are able to give them for cash. For the larger prosperity and brighter prospects which now open before us.

THANKSGIVING this year opens our real winter. From now on the days will be snapping cold and you will want warm, well-made, servicable clothing. A few special lines we call your attention to are:

Jason and the Golden Fleece
One day hundreds and hundreds of years ago, a certain immortal by the name of Jason left the sunny shore of old Greece in search of the Golden Fleece. His boat was of beaten gold, driven by silken sails

and diamond-studded oars, held in place by chains of pure wrought silver.

The story of his wondrous trip and of his successful return has furnished the topic for many a winter fire-side tale.

—an analyzer—he had a definite purpose and he returned successful.

To-day silken sails and diamond studded oars are out of date—they are buried with the centuries that graced their vogue—but people still have purposes, and they still succeed, because they go prepared.

We would have you prepare yourself for a journey—not after Golden Fleece or other mythical objects—but up the road of success. You cannot travel this road as Jason did—with his gorgeous display—but after you have reached the pinnacle of success, you will have accomplished more and been worth more to your fellow man than Jason and his mythical voyage.

Something Doing at Plainview.

From The Plainview Herald.—The Pearson Syndicate has purchased a car-load of hog wire and fifty star windmills from R. C. Ware Hardware Company. They will fence a hog pasture on each farm of the 60,000 acres purchased during the summer. The Syndicate has a woven wire fence on section 16, is drilling two wells for irrigation, building two good houses, and have a traction engine pulling two Spaulding deep-tilling plows.

The company will at once develop all of its property in Hale county, and expects to put down three hundred wells. Their land will be sold for stock farming, fruit, alfalfa and truck farming. The stock-farm tracts will be marketed at about \$160 an acre in tracts of 160 acres each. Other tracts will be planted ten to twenty acres in orchard and truck and 80 acres in alfalfa. These small subdivisions will sell up to \$350 an acre. Among other improvements, the company will build 300 good farm houses.

The Pearson interests have general headquarters in both London and New York, and the Texas Land and Development Company will organize a \$250,000 Trust Company in Plainview with New York office connections. One of the finest things to be done by the company will be the planting of 25,000 salt cedars for wind breaks and shade. These trees will be brought in from Arizona, where they flourish without irrigation.

On December 1 the Syndicate will pay out in cash a large part of the \$1,500,000 purchase price contracted on the 60,000 acres of land. This will be Plainview's biggest pay day up to this time. Company terms of land sale are one-fourth down and the balance in deferred payments at 6 per cent interest.

The first well on section 16 was pumped yesterday.

J. T. Inman of Lubbock has been here most of the week shaking hands with his old friends. He used to be high sheriff of this county, but is now sojourning at the cross roads in Lubbock county.

L. W. Ernest, claim agent for the S. A. P. Ry was here this week as a witness in the damage suit case before the district court.

Will Lasswell of San Antonio was among the important witnesses at the court house this week. He lived in this county several years ago.

SOLD IN TOWN F2

Running a Country Newspaper.

Do you believe in the effectiveness of organization?

Every class of persons who have a common cause have, in some way, put their heads and their hearts together, all striving to bring the greatest benefit to their organization.

The doctors and the funeral directors, the brick layers and iron workers, the printers and book binders, all have their organizations; but the country newspaper men, the molders of public opinion, the distributors of knowledge, the guardian of public morals, the avenue of publicity, the oil of commerce, the gasoline of advertising, the makers of presidents and congressmen, the destroyers of kings and lords, the protectors of the home and fireside, have no organization for their mutual advancement. They run in the same old smooth channels or rather along the same old rough roads; they try to content themselves with the same old prices for advertising and subscription; paper stock, printer's ink, rent and grub may soar to the skies, but the country newspaper owner dares not advance his prices

one nickel for fear of losing an "Old Subscriber," who hasn't paid his subscription in 'steen years.

He will struggle on in the face of all odds, carrying the local merchant's ads at the same old figure, when, at the same time, the merchant has prized up the price of bacon and prunes and beans a half dozen times. He does not seem to have sense enough to know that when it costs him 50 per cent more to get out his "weekly sheet," that he cannot make the "buckle and tongue" meet by charging the same old prices. And some of them, God bless their ever generosity, keep on running church and lodge advertisements for nothing, when, if they eat, they have to dig up 50 cents as the price of a two-bit dinner. They pay more to attend the shows, when they come to town, than other folks even if they do sometimes ride in a free pass; and all the people suppose that they "get in" all the time on "free passes." A pass usually costs them four times as much as a regular paid-for decent folk's ticket.

They, the country newspaper men with a job department attachment, are compelled to bid on every two-dollar job against the mail order print shops and the charitably inclined folks, who want everything "just as cheap as possible." When folks order groceries or other necessities, they give the groceryman their list and trust to his honesty to give them fair weights and right prices; when a woman buys a hat or goes to a dress maker, she picks out the style, asks the price and gives the order; but when they come to the print shop with a small job, they offer an apology by saying that their society has instructed them to ask for bids and to give it to the "cheapest man." But for months and years, column after column of free notices have been set up by the printers and published, and not even so much as "thanky" has been returned for the continuous and continued favors. Sometimes these notices are so ingeniously worded as to amount to a cleverly written advertisement, but the country newspaper editor, full of hope and empty of purse, takes it in or rather is "taken in." All job offices, if they conduct their business on any sort of honesty plane, have a regular standard of prices for such things as letter heads, envelopes, cards, programs, and these things are as much a staple as sugar and coffee in a grocery store. Folks outside of the print shop should understand this. So when you, who are not mixed up with printer's ink and paste, come to the job office to have a small, ordinary job done, show the foreman or the business manager your "copy" or tell him honestly what you want, set the day when you need the work, ask him what the charges will be, tell him that you will pay for the job when delivered and that you want a nice, clean piece of work, bid him good morning and give him a chance to put his time in on the job instead of using most of it up in trying to keep you from having him do the job at an actual loss. If he robs you, don't give him any more jobs; but don't try to hold him up.

Did you read last week's article along this same line? If you didn't, hunt up the paper and read it. These little hand to heart talks are for the newspaper men and women, but if the general public happened to stumble over them, well enough. A part of this article is intended for the public.

Write Ideas for Moving Picture Plays!

YOU Can write Photo Plays and earn \$25 or more weekly We Will Show You How

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellency necessary. No "flowery language" wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for scenarios, or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our Sales Department has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as **Vitagraph, Edison, Essanay, Lubin, Solax, Imp, Rex, Reliance, Champion, Comet, Melies, Etc.**, urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25.00, a low figure, **YOU WILL EARN \$100.00 MONTHLY FOR SPARE TIME WORK.**

FREE. Send us your name and address at once for free copy of our illustrated book, "Moving Picture Playwriting" Don't hesitate. Don't argue. Write NOW and learn just what this new profession may mean for you and your future.

WHAT'S THE REASON

Many Hereford People In Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Likely the kidneys have fallen behind in their work of filtering the blood and that is the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no better remedy than Doan's Kidney Pills.

Below is grateful testimony from a sufferer in this locality.

Mrs. A. E. Whited, 201 N. Billmore St., Amarillo, Texas, says: "Doan's Kidney Pills have been so beneficial to us that I feel justified in recommending them to persons afflicted with kidney trouble and lame back. I can say that this remedy can be relied upon to correct difficulties, caused by weak kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Dr. R. M. Johnson and family have returned to Hereford after a sojourn in the city of Lubbock for sometime. They occupy their home near the College. Dr. Johnson goes away "every once and awhile," but he soon makes up his mind that Hereford is the best place and he returns to his first love. He says he is back to stay this time. He will engage in the practice of medicine and will have his office at the Corner Drug Store. We are glad to have the Doctor and his family back in Hereford.

M. L. Caldwell of El Paso and C. E. Todd of Kansas City were here this week with their friend, D. P. Fleeger, who showed them the irrigation wells around Hereford. Mr. Caldwell owns a large acreage of irrigable land near El Paso and he was naturally interested in such projects at Hereford.

Non-Resident Land Owners

Nearly every week, some non-resident land owner drops into Hereford to look over the situation as to the land business. Owing land in this section of the state, they are very naturally interested in the success of the real estate business. Most of them want to sell their lands; most of them bought the land for purely speculative purposes and are anxious to see the land advance in price, as only when the price is advancing is there much hope of turning their holdings. Some of the owners have held their lands for several years in the hope of selling at a fancy profit; they could have turned it at one time at a fair margin but a lot of them would not let lose.

But the thing that the writer had in mind when starting this article was to call attention to the fact that few, if any of the non-resident land owners, have done anything towards advertising this section. Some of them have knocked on it, but that helps but a little. The other day a gentleman came in, looked at the big irrigation wells, went out to some of the fine cattle and sheep ranches, saw good crops growing without irrigation, and then turned and said: "You fellows ought to send out millions of advertising pamphlets; they should be sent broad-cast all over the Northwest and the North. I tell you the people who want good land have never heard of the good things at Hereford. I travel over a large scope

of territory and never see even a window hanger with pictures of the Hereford district displayed. You are never in any of the big magazines, like the districts of the coast country. Why don't you fellows get together and do something? This was the trend of his talk; all mighty fine to hand out, but not one time did he say that he would give \$100 towards a fund to advertise Hereford and the Hereford country. He owns several thousand acres of land in the shallow water district, and no doubt, the under-crust of his talk consisted of a vain hope that the Hereford real estate men would stir up enough interest so that he could come in, sell his land at a fancy profit and get off with the goods.

There is no question but that the irrigation prospects at Hereford are worth advertising, our stock industry is worthy of consideration, but when a little handful of local men do all of the boosting, do all of the advertising, do all of the missionary work to get farmers into the country and at the same time must combat that everlasting "knocker" who bit off more than he could chew, all of this is just a little more than they contracted for. Now, the question.

How many non-resident owners will contribute to a fund for the purpose of advertising just one thing—irrigation at Hereford? The Brand wants one hundred men to give just \$50 each for three years. This would make an annual fund of \$5,000 and with that amount a system of advertising could be inaugurated that would mean something. If you own a piece of land within the shallow water district, take your pencil and figure out what the results would be with such a co-operation. If you own a section of land, this is only about 8 cents per acre as the cost of advertisement which would enable you to sell your land; and, if a demand was created, the price would advance from \$1.00 to \$10.00 per acre. Can you afford to risk 8 cents per acre or can't you well afford to spend 25 cents per acre for advertising purposes rather than try to hold your non-earning land? Let The Brand hear from a bunch of real live fellows. Their letters will be published and, if sufficient encouragement be obtained, an effort will be made to get up a fund, but nothing less than \$5,000 a year for three years will be considered. It is up to you, non-resident land owner, it's your move now. The local land owner will do his part.

For The Panhandle.

The Dallas News, finally realizing that the Panhandle and South Plains was a factor in the industrial development of the state, sent Frank A. Briggs, special staff correspondent, over the district and he has given the entire territory a most comprehensive write-up. While Mr. Briggs' article, in the main, adhere to the facts and conditions, no doubt, he gathered his information from many sources, some of which were unreliable, and perhaps has been imposed upon. He has discussed many phases of the conditions found in this section—from dry farming to irrigation and from poultry raising to the Hereford cattle industry. His conclusion that the successful farmer in this section is one that combines

diversification of field crops with stock raising is based upon the experience of the many hundreds of farmers who have come into the country during the last ten years.

The result of these articles, and up to date twelve have been published, can but result in advertising the country in a most effective way, as the News is the most widely read newspaper in the Southwest, thousands of copies going out of the state reaching many of the important centers of the North and East. In this way, the news has rendered a valuable service the Panhandle and South Plains.

Good Blood Means Good Health.

A clear healthy skin, full of life and color, reflecting perfect health and energy has long been known to be a business and social asset. If you are not the fortunate possessor of all the above—if you are suffering from skin eruptions of any description, it means that the blood is weak.

Pure blood, rich red in color and circulating freely, is the essential factor in the possession of perfect health.

When it becomes impoverished—thin and watery—it cannot supply proper nourishment and the body tissues become diseased.

This condition is ever ready to manifest itself and should be checked and treatment started with the first appearance of blood disorder.

In our estimation Nyal's Hot Springs Blood Remedy is the one best treatment. It gets at the root of the trouble, cleanses the blood of impurities, increases the circulation, produces blood that is rich in nourishment, blood that builds up broken-down tissues.

It will not be long before you notice a decided improvement—you will feel the blood coursing through your veins, your appetite increases, the food will be absorbed in the proper manner and the skin will become clear and healthy.

You will never regret having used Nyal's Hot Springs Blood Remedy—it will put you on your feet.

We expect to be here in business a good many years. The only way we can do it is by treating everybody right. That's our policy.

WILL IT PAY TO IRRIGATE

Question Answered by Uncle Sam—Facts and Figures Given From Actual Experience and Close Observation.

The ever recurring question in any enterprise is—will it pay? Now that Hereford has made a fair beginning in farming by irrigation, this question should be answered in a most truthful and intelligent way. It is likely the reason that many more do not make contracts for wells because the land owners do not know whether the trouble and expense will give safe and satisfactory returns on the investment.

The Brand has found that Uncle Sam, that dear-old feller who has tried many experiments of failure for the benefit of the people, has answered this question in a most satisfactory way. He did not consult the men who simply had land to sell, but the actual farmers. He sent investigators into the field in the states of Wyoming and Western Nebraska and took data from the farmers themselves. In the November report of the United States Government Crop Reporter, there are some most interesting figures.

Wheat—The first question is—will it pay to raise wheat by irrigation. Let Uncle Sam answer. From 73 farms he reports that the average yield from irrigated land was 27 bushels per acre; from non-irrigated land, 12.6 bushels. The total operating cost less the value of by-products was: on the irrigated lands, \$6.178 per acre or 0.229 per bushel; on non-irrigated lands, \$3.331 per acre or 0.263 per bushel. Now make the comparison. The price of No. 2 wheat at the St. Louis market in September was about \$1.00. Taking for granted that the freight rate is 10 cents per bushel, this would make the price in the Panhandle at 90 cents to the farmer. The difference in yield of the irrigated and non-irrigated fields was 14.4 bushels, this amount being the result of water upon the soil from the ditches. At 90 cents per bushel this would give the farmer an extra \$12.96 profit per acre. \$2.85 per acre more to raise wheat by irrigation than by the dry farming process. Subtracting this from the \$12.96, and the net sum of \$10.11 per acre is the result. If the farmer's net profit on his dry farming wheat is \$8.01 and he makes \$10.11 more by adding the water, would this extra income pay him for the trouble? He has not done any more plowing, nor any more harrowing, it required the same number of rounds with the self-binder, and the only additional cost was the extra threshing expense because of the extra yield and the

extra hauling expense, which any farmer with 14.4 bushels more to the acre would be glad to incur. The cost of the water and extra help to put it on the land is the difference between the net costs per acre, which was \$2.847 per acre. Uncle Sam has thus answered the question; it will PAY BIG to raise wheat by irrigation.

Oats—The second question—will it pay to raise oats by irrigation? Let Uncle Sam answer again. Here are the figures for 104 farms in the same district. Yield from irrigated lands, 50 bushels per acre; from non-irrigated lands, 23 bushels. Net cost per acre on first, \$5.51; net cost per acre on second, \$2.05 per acre. The September price of oats, 1911, was about 44 cents in St. Louis, or about 40 cents in this section. Now, the increase of yield under irrigation was 27 bushels per acre, which was an extra profit of \$8.34 per acre. The same question recurs. Will it pay to raise oats by irrigation in order to obtain an extra profit of \$8.34 per acre? The answer is the same—it WILL PAY BIG.

There is one factor in both of the questions which has been entirely overlooked, and that is the assurance and certainty of a crop each year under irrigation. Which shall it be? Irrigation or no-irrigation; Good crops or poor crops; sure crops or uncertain crops.

FRAIL, SICKLY CHILD

Restored to Health by Vinol—Letter to Mothers.

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite. For the benefit of such mothers in this vicinity we publish the following letter.

J. Edmund Miller, New Haven, Conn., says: "My little daughter, ever since her birth, had been frail and sickly, and was a constant source of worry. Several months ago we commenced to give her Vinol. I immediately noted an improvement in her health and appearance. I gave her three bottles of Vinol, and from the good it has done her I can truly say it will do all you claim."

This child's recovery was due to the combined action of the medicinal elements extracted from cods' livers, combined with the blood-making and strength-creating properties of tonic iron, which are contained in Vinol.

Vinol will build up and strengthen delicate children, old people and the weak, run-down and debilitated. We return the money in every case where it fails.

MY FATHER

Had Eczema 10 Years

OVELMO CURED HIM

Test Course Given Free

My father was a sufferer for years from Chronic Eczema. He tried doctors and everything else without relief. Nothing did him any good. He grew worse and worse each year. It seemed there was no hope for him. In utter despair of ever curing any real help from others, I determined to work out a treatment myself, as I am a Registered Pharmacist, owning a drug store in Ft. Wayne, Ind. I studied practically all known medical authorities on Eczema and Skin Diseases, and finally compounded in my own laboratory the OVELMO PREPARMENT. It is designed to remove the cause of the disease, by working on the system internally, while the itching, smarting, burning and unsightly appearance are relieved by a soothing, healing cream applied to the affected parts.

Completely Cured

OVELMO worked like magic. My father and I hardly dared to believe our eyes. The itching ceased—pus no longer formed—the scabs were replaced by new, clean, smooth, healthy skin—his general health improved—he could sleep well at night, and in a short time was completely cured. His case was well known, and his cure was so remarkable that the news spread all over the surrounding country. A little boy, whose flesh about the ankles had sloughed away almost to the bone, was next entirely cured by OVELMO, and the demand for it became so great around my home town that I was urged on all sides to place it before the general public. It is just as good for cuts, burns, bruises and chilblains as it is for Eczema and Skin Diseases.

1000 Treatments Free

I want to prove to every interested person, free of charge, what OVELMO will do in all cases of Skin Disease. I want to introduce it everywhere, and am going to give away 1000 Test Treatments Absolutely Free of Cost and Postage Paid to those needing treatment who write me for it promptly.

You can stop scratching—you need not be afraid to be seen in public—you can sleep well at night. The matted redness—the greenish crusts—the scaly, bleeding, itching skin can be restored to health, made clean and smooth again. Just write a postal or a letter stating the Skin Disease for which you want the treatment and the age of the sufferer and I will send you a Test Course by return mail, in plain wrapper, free and postage paid.

"Cardui Cured Me"

For nearly ten years, at different times, Mrs. Mary Jinks of Treadway, Tenn., suffered with womanly troubles. She says: "At last, I took down and thought I would die. I could not sleep, I couldn't eat. I had pains all over. The doctors gave me up. I read that Cardui had helped so many, and I began to take it, and it cured me. Cardui saved my life! Now, I can do anything."

TAKE THE CARDUI Woman's Tonic

If you are weak, tired, worn-out, or suffer from any of the pains peculiar to weak women, such as headache, backache, dragging-down feelings, pains in arm, side, hip or limbs, and other symptoms of womanly trouble, you should try Cardui, the woman's tonic. Prepared from perfectly harmless, vegetable ingredients, Cardui is the best remedy for you to use, as it can do you nothing but good. It contains no dangerous drugs. It has no bad after-effects. Ask your druggist. He sells and recommends Cardui.

Ryan, of Jackson County, Missouri, Trustee, and to his successors in trust, as security for the payment of five promissory notes aggregating Eighteen Hundred Forty-eight (\$1848.00) Dollars, of even date therewith, executed by said Domenico Comperini and due, one on Nov. 1st, 1911, for Three Hundred Sixty-nine and 60/100 (\$369.60) Dollars, one due on Nov. 1st, 1912, and one due on Nov. 1st, 1913, and one due on Nov. 1st, 1914, and one due on Nov. 1st, 1915, each for the like sum of Three Hundred Sixty-nine and 60/100 (\$369.60) Dollars, respectively all bearing interest at the rate of 6 per cent. per annum from date until maturity, and 7 per cent. per annum thereafter, interest payable annually, each of said notes being payable to the order of Arthur L. Brunner, of Kansas City, Missouri, (who is the present legal holder thereof), said notes being more particularly described in said deed of trust, which deed of trust provides in case of default in payment of any of the notes secured thereby, or in case of default in the payment of any taxes levied against said land when the same shall become due and payable under the laws of the State of Texas, or default by the said Comperini in the performance of any other term, condition or agreement therein contained, for the period of 30 days after the same shall become due, that the then legal holder of said notes, or any one of them at the time, shall have the right, at his option, immediately and at any time while such default continues, to declare the entire debt secured thereby, to be at once due and payable; and

Default having been made in the payment of the first one of said series of notes, which note was due and payable on Nov. 1st, 1911, as aforesaid, and the interest thereon, and on all the said series of five notes described aforesaid, and in said trust deed, and default having been made in the payment of taxes on said land for the year 1911, aggregating \$14.03, said taxes having been paid by the said Brunner, which default for the said taxes of said year 1911, and for the said note for Three Hundred Sixty-nine and 60/100 (\$369.60) Dollars due Nov. 1st, 1911, has continued for more than 30 days since the said taxes were paid by said Brunner and since the maturity of said last described note, and said Arthur L. Brunner, the present legal holder of all of said notes having declared the entire indebtedness remaining unpaid, to be now due and payable at once, and the amount of principal and interest due on said series of five notes on the 1st day of October, 1912, being the sum of \$2,103.26, which, with the 1911

taxes paid by Brunner as aforesaid, make the total on said last named date, past due and unpaid, due by said Comperini to said Brunner, the sum of \$2,117.29.

William W. Ryan, Trustee named in said trust deed having been requested to execute said trust and having refused so to do, and L. H. Henschel, Alternate Trustee named in said trust deed being without the territory of the United States and unable to enforce said trust, therefore, I, E. Renfro, of Hereford, Deaf Smith County, Texas, Substitute Trustee, heretofore appointed by an instrument in writing, executed and acknowledged by the said Arthur L. Brunner, the holder of said notes, and I, having been requested by the said Arthur L. Brunner to enforce said trust, will on the 3rd day of December, 1912, (the same being the first Tuesday in said month) between the hours of 10 o'clock a. m. and 4 o'clock p. m. of said date, proceed to sell at public outcry, to the highest bidder, for cash, in front of the Court House door in the city of Hereford, Deaf Smith County, Texas, the following described real estate situated in said Deaf Smith County, Texas, to-wit:

Three Hundred Twenty (320) acres of land out of Capitol League, Number 423-412, and particularly described as the West Half of Survey or Section Number Sixteen, Township Number Three (3), North of Range Number Three (3), East of a "Capitol Syndicate Subdivision," as shown by plat of such subdivision, of record in the Deed Records of said County of Deaf Smith, in the State of Texas, in Volume 15, pages 60-65.

The proceeds whereof will be applied to the payment of the balance due upon said indebtedness to Brunner, expense of making said sale, and the remainder, if any, paid to the said Domenico Comperini, or assigns in accordance with the terms of the said deed of trust.

Dated this 5th day of October, 1912. E. RENFRO, Substitute Trustee

Not Fit For Ladies.

Public sentiment should be against it, and we believe it is, there can be no reason why ladies should have to suffer with headaches and neuralgia, especially when Hunt's Lightning Oil gives such prompt relief. It is simply a question of getting the ladies to try it. All druggists sell Hunt's Lightning oil in 25c and 50c bottles. 39-5t

For Rev. and Mrs. Sherman.

Friday evening, at the home of Dr. and Mrs. W. A. Price, a reception was given in honor of Rev. and Mrs. Sherman, who were soon to depart for their new home at Sweetwater. After the guests had arrived and the compliments of the season passed, a short program consisting of musical numbers and a few choice readings, Rev. Purser, pastor of the local Baptist church, responded to a toast to Rev. Sherman. G. A. F. Parker, president of the Western National Bank, in his usual happy manner, presented to the honor guests, a beautiful set of table silver, as a slight token of appreciation from the Woman's Mission Society. A guest book, presided over by Mrs. Roloson, in which the names of those present were written, was presented to Mr. and Mrs. Sherman. A delicious buffet luncheon was served, the hostess being assisted by Mesdames Black and Short. Upon the departure of the guests, well wishes and "God speed" was extended to Rev. and Mrs. Sherman, who were leaving the city for their new field of labor.

Sacred Concert.

The sacred musicale concert given at the Methodist church Sunday night was largely attended, the house being packed to an overflow. The program consisted of choir singing, quartettes and solos. The choir has been under the training of Miss Betts to whom is due the success of the concert. Hereford has boasted of her many good voices and on this occasion, those who were on the program, retained their good reputation. An orchestra of two violins, Mr. Smith and Miss Edwards, with Miss Bowers at the piano, added greatly to the concert.

There is no longer officially any Republican party in Maryland. The state law recognizes but two parties and as Taft ran third this extinguishes the "G. O. P." there, though of course tickets may still be put up by petition.

Sheep For Sale.

About 750 ewes, 500 of which are good ages from 2 to 5 years old. Price \$3.75 per head, balance 250 at \$2.50 per head or will sell either lot separate. Will carry \$1.50 per head if whole lot is taken. A. G. Bell. 41tf

Muet Get in Early.

Those who have charge of the programs of the various church and mission societies will confer a favor upon this office and secure for themselves better service if they will hand in their "copy" early in the week. When you wait until the last hour, it often happens that important news and "paid for" matter crowd out the programs and you, no doubt, feel disappointed in the program not appearing. Of course, you can point out "stuff" in the paper that could have been thrown out and your program inserted, but when you understand that all of the "matter" cannot be set in type and the paper "run off" in one afternoon, you will appreciate the situation. It requires all the week to get the type distributed and then set up again for the next paper. And in the last rush hour of "going to press," "paid for" matter, advertisements and local news comes first, general news and programs second, editorials and contributed articles third, fillers last. Oftem programs handed in as late as Thursday morning are never set up as there may be "important news" and "paid for" matter hanging on the hook ahead of them. The Brand always endeavors to give all local matter preference, but no paper can afford to stop the press on Friday in order to insert a notice or program that could have easily been handed in on Monday.

Mr. and Mrs. Geo. Karr moved from the Northern Hotel last Friday morning returning to their home. They wish to thank their many friends and customers for their very liberal patronage during their proprietorship of the hotel, and when they get set up again in another location, hope that they will again remember them.

Columbia phone batteries at Garrison Bros. 40-3t

A number of young boys were playing round a tank-car at Detroit that had just been emptied of gasoline. They thought the tank would be a grand place to hide in and so descended into it through an open man-hole. One of the boys lit a match and the resulting explosion burned and injured them fearfully. One youngster who was just entering the man-hole was hurled through the air as if from a cannon and struck the earth 50 feet away.

The Brand is in receipt of a request from Miss Louisa Ewing of Farmington, N. M., to change her address from that place to 928 Crosby street, San Diego, Calif., where she expects to spend the winter. Miss Ewing is a niece of Mrs. N. M. Patton of this place.

J. J. Coffman of San Antonio, the principal in a \$50,000 damage case against the railroad, was here all the week. Mr. Coffman was hurt some nine years ago and his suit has been dragged through several courts. The trial has occupied all the week.
