HOMER WIL-KINSON IS CITY "DAD"

J. H. CARDWELL GIVES UP POST BECAUSE OUT-OF-TOWN

Hereford has lost one of the official "City Dads" and adopted another. The resignation of Commissioner J. H. Cardwell was received early this week, and the remaining members of the Commission, as empowered by law, selected Homer Wilkinson to fill the unexpired term. Mr. Wilkinson was not consulted about the matter at all, it. seems. He was simply notified of his election, handed a blank bond and requested to qualify as quickly as possible. After he recovered his breath, and considered the matter from all angles, he complied with the request and was formally inducted into office on Wednesday of this week

Mr. Cardwell gave as his reason for leaving office the fact that he now resides practically all of his time in the country and is unable to perform the duties of the office. He has served the city of Hereford faithfully and well Sanitarium Need for several terms, and his host of friends regret to lose the benefit of his advice and counsel in the affairs of the Several weeks ago a proposition was municipality. Report That Alleged Slayer of Bailey County School Teacher Caught Proves to be Unfounded

A dispatch to state papers from Los Angeles, Calif., February 26, stated that a man believed to be John Teal, wanted in Bailey county, Texas, for the murder of Miss Evelyn Monts, April 7, 1918, had been picked up by the officers at San Pedro, Calif., and was held in the Los Angeles jail awaiting identification from the Texas officers.

The news caused a great deal of interest here and in Castro and Batley counties. However, The Brand was informed Thursday over the telephone by the sheriff's office at Crowell that the man arrested proves to be the wrong man after all, and the long search is to be continued.

Miss Monts, a school teacher in Bailey county, was shot through the right breast with a 45-calibre revolver. The weapon was held so close to her body that her clothing was scorehed A second shot, fired after she had taken a couple of steps and turned, struck her squarely in the back of the head. The tragedy occurred in front of the house where the teacher-was boarding. neighborhood social. Teal, who had last week. moved a bunch of horses into that! J. I. FEDERAL FARM LOAN ACT UPHELD BY U. S. HIGH COURT

VITAL DECISION

Relief for Farmers and Stockmen Right now Tremendous Event

According to Secretary J. Frank Potts, of the focal Federal Farm Loan company, afty thousand dollars in cash will be distributed in this community within the next few days to farmers and stockmen who had app leations on file at the time the Federal act establishing the farm loan associations was attacked in a suit filed in the Supreme Court. There is no question in the minds of most business men that the decision banded down by the Court, upholding the validity of the Act, was one of the most momentous and heneficial legal decisions ever rendered.

The Federal farm loan act was held constitutional Feb. 28 by the Supreme Court. This is the act under which land banks were established to extend loans to farmers.

Millions of dollars in loans to farmers have been held up pending a decision of the court in this case, which was brought by Charles W. Smith, a stockholder in the Kansas City Title injunction to restrain that institution sued by the farm loan banks.

The act was attacked on the ground that Congress was without constitutional authority to establish farm loan taxation. Justice Day, who rendered the opinion for the court, said the power of Congress to establish banks had Napoleon truck chassis, find on it the in a ground sense been upheld by the paraphanalis from the old truck has Supreme Court in the days of Chief

The court, in sustaining Federal Court decrees dismissing injunction proceedings brought by Mr. Smith also

On March 1, 1920, the Farm Loan Board reported that \$182,897,000 had been advanced to 75,384 farmers and that applications from 179,734 persons then pending totaled \$471,000,000.

Santa Fe Grants Request For Two New Depot Lights

Recently the Chamber of Commerce sent a committee to Amaritio and asked the Sunta Fe railroad to install a couple of additional lights on the depot platform here. They were received by General Freight & Fassenger Agent Gallaher in the usual courteous way that Santy Fe officials have, and Mr. Gallaher promised to look into the sitstation at once.

The Brand is informed that orders have just been issued that the two new lights requested be installed at once. sentiment of the entire community when it expresses appreciation for the class to this request for aid in adding this small item to the comfort and convenience of our community life.

He'll Put You On the Map

A few miles from a large and thriving city is a little town that can't even be reached by the steam railroads. Yet on a single day last summer enthusiastic buyers from almost every state in the Union sought it out and paid it a visit. What's more, on that single day they spent, in that little hamlet, one hundred and fifty thousand dollars!

What's the answer? Pure-breds. That town is famous as a pure-bred center-to cattle men it's one of the most important spots on the map,

Pure-breds can do as much for your community. They offer the easiest, quickest and most profitable program for building up a community-a program which has pulled whole counties out of the rut, put towns on the map and brought financial independence to thousands of farmers. It is becoming clearer every day that the future of cattle raising as a profitable industry depends upon with pure blood. The beef growers who survive in the face of high feed

costs, high freight rates, scarce labor and tight credit will be the pure-bred farmers. And the communities that are ready to supply the breeding stock are sure of a lasting prosperity. Yours can be one.

About Visible Gasoline Pumps!

The Kansas City Journal of February 20, has the following report from the official City Inspector:

"Page Diogenes. There has been found in Kansas City, Kans., a filling station where one may, by the purchase of five gallons of gasoline, receive twenty ounces, nearly a quart more than five gallons.

This fact was verified by George Koran, inspector of weights and measures, who yesterday completed an investigation of all filling stations in the city, which had been ordered by J. B. Little, finance commissioner. Of fifty-three pumps at filling stations which were tested and amined, one was found that gave twenty ounces more than five gallons, twelve which gave from two to four ounces more than five gallons, and thirty which gave the correct

"Seven pumps were found to be "shorting" customers five ounces on the five gallons, one nine ounces on the five gallons, and one thirteen ounces on the five gallons.

"In testing the pumps I found the visible type of pump to be the only ones that were giving short measnrement,' Koran said. 'The reason for this is that the glass container is the only measurement the pump has and it is tested and sealed at the factory and its dimension or cubic capacity cannot be changed. It gives correct measurement where the ordinary type of pump measurement is done by the pump-stroke, which can be shortened or lengthened, as desired."

OX WARBLES CAUSE

We are receiving a great many inquiries at the present time as to how to the-back," or "grubs" as they are someprogeny of last year's heel-fly. There is some difference in opinion as to just how the grub gets into the body of the cow, but there is no question but what the heel-fly deposits the egg, eight or ten months previous to the development of the large grubs under the skin on the cow's back. No doubt if systematic pupae stage in some protected place, effort was made by every stockman in the country, this pest could be considerably decreased or possibly eradicated. The system followed would be to kill all the grubs, so that no flies would be allowed to hatch out. Unless an entire community undertook the project, however, there is not much hope for eradication.

These grubs are small in size and do causes great pain and irritation to the cows and brings a consequent reduction squeezing the warbles out through the holes that they have made in the skin. This is a tedious process that takes writing line, develop them. This, I, as considerable time, but it is well worth director of the Essay Department for the effort. After some practice it can be done much faster. The grubs should be destroyed by dropping in oil or feeding to chickens. Some have used small tweezers in withdrawing the grubs, but this is a somewhat slower process. They will come out easier is some vaseline or other lubricant is worked into the hole. It is possible to kill the grubs in the hole by dropping coal oil, chloro-will be mostly on principles of gramform or other caustic agents in on the grub, but this is not so satisfactory as removing the grub on account of the putrification resulting from the dead

Some stockmen recommend greasing the legs from the knee or bock joint down in the spring when heel flies are working to prevent the egg being depos- teachers. ited. A good mixture for this prevention is one gallon of crude oil to which

are small with quick movements and remain near the ground. The theory COWS LOT TROUBLE commonly accepted is that after the egg is deposited on the hair, the young hatch and enter the flesh at the base of the hair burrowing under the skin. reach the rear margin of the ninth or tenth rib. From here they work up corner of Fourth street, on Denrock ward into the back appearing in the avenue. fall of the year. After the warbles drop out in the spring they pass the spring .- A. & M. Neilsen-Haberer

On Saturday, February twenty-sixth, at the Presbyterian manse in Amarillo. Miss Marie Haberer of this city, was waited in marriage to Mr. George Nellsen of Idaho Falls, Idaho.

Mr. Neilsen arrived in Amarillo Saturday morning and was met there by his bride, the ceremony being performed the same afternoon by Dr. Thompsen, pastor of the Presbyterian Church.

The young couple remained in Amarillo until Monday, the returned to Hereford for a week's visit before going to Idaho Falls, where they will reside.

The simplicity of her marriage was in keeping with the quiet womanly demeanor always characteristic of this charming bride, who is a young woman of real worth, attractive personality and recognized attainments: She is an alumna of Hereford high school and for the past three years has been engaged in teaching. Last year she taught in Idaho Falls where she formed the acquaintance of Mr. Neilsen and the romance just culminating in her marriage was begun. She has been employed in the city schools here this year and her work has been eminenty satisfactory.

Mr. Neilsen is a prosperous stock farmer with extensive ranch interests near Idaho Falls.

Mr. and Mrs/Nellsen expect to leave Tuesday on a brief western trip. They will visit relatives in Salt Lake City and Denyer and will be at home in Idaho Falls by the end of the month.

B. Y. P. U.'s Entertained

The young people of the B. Y. P. U. spent a jolly evening in the home of Mr. and Mrs. Homer Wilkinson Friday, the occasion being designated a "grow-

ing younger" party.
Shaded lights and gayly blooming pot plants created a children's fairyland into which the guests, transformed by clever costuming into small boys and girls, were ushered. Welcoming them at the door was Gladys Howton, no longer a young lady, but a charming little maiden in dainty pinafore and butterfly bows. A paper doll guest book was in the charge of a comely brunette lassie, Ruth Owen, who very prettily offered to assist her young

friends in writing their names. After introductions which recognized only childhood appellations, the merry esters formed for the grand march which, bringing into prominence as it did the mirth-provoking costumes, was in itself an enjoyable entertainment.

(Continued from page 1.)

of Texas. Mr. Evans gave a most excellent lecture on the dairy business and judged the first cow brought into the ring for the benefit of the crowd.

The sale was held in the Hereford Breeders Pavilion and attraced a capacity house. Mr. Green stated that, while he had held auction sales all over the country he had never yet found as nice an convenient a sales pavilion as he found here.

The dairy industry is one of the most important branches to be developed locally, and The Brand is delighted to see this movement start for more and better dairy cows. The detailed result of the sale follows:

S. L. Harmon, Hereford, cow, \$180.00, S. L. Harmon, Hereford, cow, \$85.00. J. B. Phillips, Hereford, cow., \$185.00. S. L. Harmon, Hereford, cow, \$210.00.

S. L. Harmon, Hereford, cow, \$100.00. M. L. Stiles, Muleshoe, cow, \$155.00.

ENTERTAINMENT IS PLANNED TO SUIT VARIETY IN TASTE

Beginning at 7:00 o'clock, Friday evening. March 11, at the High School Auditorium, the entertainment offered by Misses Swisher, Lambert, Williamson and McClurkin will be held. A rare treat is promised those fortunate enough to hear this offering. Among other things, The Brand is informed that the Glee Club opens the program with "Spring Carmen;" some readings and musical numbers of the highest quality will be given by Miss Mc-Clurkin; a piano duet by Misses Wil-Hamson and Lambert entitled "Poet" and Peasant," and Miss Swisher will sing a group of songs, the kind fou always like to hear. A most interesting part will be the three trios by Misses Swisher, Lambert and Williamson, two of which will be melodies of old Southern songs. The other numbers will be "Humoreske," and "Swanee River," with violin obligato played by Jack Mounts. The proceeds of this entertainment

will go toward paying rental for the plano used in the music room at the high school and for buying music and books used in the music department.

28 BUSINESS - MEN ATTEND LUNCH TO KEEP MOVING ON

The regular weekly luncheon of the 'hamber of Commerce was held at the Morrison Cafe last Monday, with twenty eight boosters in attendance. It was a "tightening up" affair, with a talk from Chairman McDonald, urging that a forward-looking campaign for the last six months of the fiscal year be inaugurated. A check was made on standing committees, with the view of cutting out all dead wood and concentrating on vital things for 1921. Dr. Gabbert made an address on the proposed new hospital. J. M. Adams, edit-H. I. Broadwell, W. R. Steckman, Wes this plant.

To Make a Long Story Short

-We never expect to see the day when a ready-made suit will have the same fit as one tailored specially for

-There are no two ears, eyes, teeth, just alike in all the world.

-How then could one expect human figures to be alike?

-Let us measure you for that spring suit.

New tweeds, woolens and serges are here.

-We will have it ready for you Easter morn.

Business Benediction

Methodist Missionary Society The Missionary Society met in regular session Wednesday, Feb. ,23, 1921. The subject for discussion was "Defin-

ite Prayer." Miss Lula Edwards open-

ed the meeting with a prayer, after which Mrs. Ward read the scripture. The beautiful and direct way in which Mrs. Ward discussed this lesson, the practical way in which she applied it

made it an inspiration to all present.

Mrs. McMinn led the meeting in a touching prayer, after which came the personal discussion of Definite Prayer, and its benefits.

At the close of the program the president called the usual business session. Officers and committees reported. Mrs. Earl Wilson was elected leader of the little Juniors, where she has been doing some splendid work. Miss Edith Rayzor was appointed press reporter.

With the closing of the business ses sion, Miss Edith Rayzor played a special selection of music while they filed into the basement of the church, where Shaw. Skelton, Webb and Jones, served appetizing refreshments

WORLD FAMOUS JERSEY

In selecting a herd-bull our paramount idea has been to breed for greater cream production through principles of constructive linebreeding, and we have carefully considered the pedigrees of many offerings from the different great blood-lines.

· We believe we have found a bull when meets these requirements in Financial Surety No. 184034, a line-bred Finance-Interest buil, tracing seven times to the great cow, "Interest," F-3582-C, the most famous butter-producing cow on the Island of Jersey, with an average of 3 lbs. 10 oz. butter per day on a seven-day official test.

We now have this buil in service in our pure-bred herd and will accept a limited number of healthy cows for service after March 1st, at \$10 each cash with service.

Sweet Cream Butter The Dairy Division, United States Department of Agriculture, advises a larger use of sweet cream butter, because of its better quality.

The United States Navy is a large consumer of this kind of butter, made Other Real Estate according to the Navy specifications from unripened or sweet cream, instead of from the cream ripened to sourness, of which most creamery butter is made. For several years past it has been the practice of the Navy Department to contract for butter made of sweet cream in large amounts to supply the Acceptances and Bills of Exofficers and sailors. This butter is packed under the supervision of the Stock Dairy Division of the United States Department of Agriculture. During the war, the personnel of the Navy being enlarged, a much greater quantity of butter was needed.

The principal reason the Navy desires sweet cream butter is that it keeps 1 better. As the larger part of the butter supply is made during the summer I months, it is necessary to put some of it in cold storage in order to have Savings Deposits, None enough for winter, and in the course Time Certificates of Deof time it develops various more or less Demand Certificates of De-Butter made from sweet cream does Cashier's Checks_ not develop such flavors for a long Bills Payable_ time, if at all. The OilPull Is Made of the Right Stuff

With a tractor, as with a man, it's the stuff it's made of that counts.

The OilPull Tractor has demonstrated that it has the right kind of stuff to stand the gaff of consistent service. This is proved by the first ones built over 12 years ago, which are still running today giving tireless service to their owners, with prospects of years of service to come. The first OilPulls built have withstood the acid test of

ploneer agriculture, for they were sent to the virgin prairies of the Northwest and Canada where they encountered and evercame the tough prairie sod. They were called upon to pull stumps, plow through underbrush, and other real jobs incident to the preparation of virgin land for seed. And they are still turning over this same land into which they first introduced the cold steel of the plow—still threshing the grain from this land—still giving the same dependable service they gave when fresh from the factory.

Come in and let us show you the four sizes, 12-20, 16-30, 20-40, and 30-60 H. P.
