about during high winds and storms.

In return for this the company wants permission to raise its rates for service. The new rates will be approximately, it is undestood, \$2.25 for residence fones and \$3.50 for business fones. The present rates are \$1.50 and \$2.50, respectively. The company submitted a Resolution, to be adopted by the City Commission, in the event the Commission would agree to the proposal. This Resolution is given below and is submitted by the Commission for the in-Rained Nearly an spection of the people. The Commission has not acted upon it in any way as yet,

The company claims that it loses from \$800 per annum up each year in Hereford, that the city of Hereford has the cheapest telephone rates of any town of similar size in Texas, and that they have not heretofore asked for a expenses is given as the reason why the plant here has not heretofore been modernized. The estimated cost of the additions and betterments planned under this new proposal is \$16,000.

Discussion of the telephone question among members of the Commission and other informed citizens brings out the informed citizens brings out the fact that while the city originally the Bowsher place, and from there into granted the company a franchise, gov. This ruling was established, we are smed, in litigation between the tel-MRS. FORREST HALephone company and the city of Hous-ton, and other cities. The higher court set aside the Houston franchise rates on the ground that the company's earnings showed they were operating at a loss and the court held that the company had a right to charge a rate which would return them a reasonable profit on the value of their property.

If this point is correct then the resol ntion by the Hereford Commission would not mean anything, one way or the other, if the company has made up its minds to raise the rates. On the other hand, should the Commission ecline to adopt the resolution the company may not undertake the improvements at all. In fact the company could, under the above ruling, say those who ought to know, raise the

ford Ass'n May Come Here in '23

Hereford stands a chance of securing 1923 meeting of the Panhandle Mercford Breeders' Association, it is understood through local cattlemen. It is rumored that the executive committee is submitting this question of a meeting place to the members through a maft vote and strong pressure is being brought to bear to swing the convention to Hereford. Two good reasons are assigned why the assolution should following a conference between the City Commission of Hereford, Texas, come here. (1) because so many members live in this community; (2) Hereford has the largest and best equipped sale ring and bull barn in the Panhandle, and really the only one fit for such a high class meeting. The 1923 convention will probably be held the last of March or the first of April. B. be made to the telephone property, and H. July 4 Celebration Belongs To All the People

Those responsible for the suc-cess of the Fourth of July cele-bration are earnestly striving for country and city people. A plea for this community spirit has been issued in the following lang-

This community is planning a real, joyous Fourth of July selobration this year. There may be other celebrations at other places where more money will be spent, and more elaborate attrac-tions offered, but we are trying hard to make this particular cel-obration a real HOME gathering. one where the people will feet perfectly at home, one that will make every man, woman and child who attends feel that they have an intimate interest in it themselves, and a personal re-sponsibility to see that it is a

"And more than anything else we want the people out in the country to know that this is not merely a Hereford attraction, but that this particular Fourth of July belongs to the country as well as the city. We are all one big family, after all, each dependent upon the other, and without united and cordial cooperation none of us can hope to reach the full measure of our community citizenship,

Won't you accept this partieu-lar Fourth of July celebration as YOUR celebration and help us make it one that will be remembered for years and years as the most joyful, pleasant, cordial Fourth ever attempted here? We believe you will aid us in this spirit, and will help us interest the other folks in your neighborhood. Won't you please tell all your neighbors and friends about this particular Fourth, and urge them to accept it as THEIR celebration and to come in on the big day and help make it "go?"

"Your kindly cooperation in this movement will go a long ways toward success next Tuesday and will be appreciated more than we can tell you by
