CITY PURCHASES FIRE TRUCK

Commission Makes Contract With Wichita Concern For Modern Fire Fighting Apparatus—Will Arrive Soon.

Hereford has placed herself in the forefront of the smaller cities of the state by the purchase of a modern fire fighting machine. It is a combination hose and chemical motor truck. The specifications call for a four cylinder motor, mounted on a substantial chassis, with wheels of the artillery type, cushion tires. The equipment consists of fire extinguishers, flexible buckets, axes, lanterns, ladders, chemical tanks and hose, capacity for 1000 feet of water hose, place for as many as 10 or 12 men on the running boards. The entire outfit was built by the Wichita Falls Motor Truck Company and is finished in good style and attractive manner. The truck was used recently at the State Firemen's Convention for exhibition purposes and Hereford was given no little advertising as the first city of this class to buy a modern fire motor truck.

The Commission feels itself fortunate in making the change to this new outfit. It has effected such a trade by which the payment of \$50.25 for 22 months, the new equipment becomes the absolute property of the city. This stands against the expense of \$90 per month to maintain and keep up the old equipment and eliminates the possible loss by death of one or both of the fine horses. The new motor is expected to arrive at any time. Some arrangements will be made at once for a place to keep the outfit. The Commission is hard at work on that problem now.

Spot Cash for Want Ads.

To avoid the necessary expense of book-keeping and a lot of unnecessary "chasing" around on the first of each month trying to collect a number of small amounts for Local Readers and Want Ads, the Brand has adopted that good Spot Cash Rule for all such advertising. Therefore, beginning with June 1, please bring the cash with you when ordering Local Readers or Want Ads. It's less trouble; the ads will be run for only the time paid for and there will not be any "Duns" to annoy or worry you.

Hereford Seniors Entertained.
Miss Nell Wilson, a popular member of the Senior Class of the Hereford High school, entertained the class of '13 at a delightful lawn picnic at her home on 25-Mile Avenue in Hereford last Friday evening.

Each member of the class furnished a dish for the jolly picnic spread, which was one of the most enjoyable features of the evening. Following a number of delightful lawn games and the picnic lunch the party adjourned to the parlor where an hour of music closed the evening. Besides the members of the class those in attendance were Supt. Ben Short and wife, Principal D. A. Shirley and wife, Mr. and Mrs. Carl Shirley, Mrs. R. E. Cook, Misses Mabel Gass and Jane Gregg; Messrs. Clyde Gregg, Lloyd Wright, Otho Price, Chas. Ellis, Mac Gallaber. The Senior class includes: Mary Blacet, Jewell Buster, Lois Garrison, Clara Lambert, James Lipscomb, Earl Lust, Besse Nance, Alma Norton, Cotta Sisk, Edgar Webb, Nell Wilson, Virginia Wyche.

Family Reunion.

H. B. Webb and family are enjoying a family reunion this week. Wednesday a dinner fit for the Webbs was served by Mrs. Webb and the other women members. Mr. Webb has had a strawberry smile on his face all the week, but was somewhat put out when the court jerked him up for jury service. Those who are present at this happy occasion are: Mr. and Mrs. H. B. Webb and sons, Edgar and Tom, the latter having come in from Arizona to be present upon this special occasion; Geo. Webb of Tulla, a brother of Mr. Webb's; Mrs. W. H. The commencement exercises of the West Texas State Normal has been brought to a successful close. The address was delivered by Editor H. R. Greer of Amarillo. Curios to Canyon Normal.

The large collection of curios, for a long time displayed in the show windows at the Brand office, have been shipped to the Canyon Normal to which institution this valuable collection of old relics and mementoes has been donated by the collector, Robert Elliott. Mr. Elliott has been making this collection for thirty years or more. In it may be seen some of the rarest things of the early civilization of Texas and other states, and even of other countries. Besides a large collection of guns and pistols, there may be seen in this collection the "sewing bird," a small instrument made in the form of a bird, which was used to hold the cloth for our great mothers while they made the fine stitches in the broad cloth of their husbands. Then there is one of the first "threshing machines" of the country, hand made of hard hickory, known as a "flail." Few young men of this time ever saw one. Among the weapons of defense is a Sicilian dagger, taken from some student during the great uprising by the college students in that country years ago. It was brought to the United States by Prof. Cori, for a number of years professor of ancient languages in Texas Christian University. While in this country a warm, personal friendship sprang up between Prof. Cori and Mr. Elliott and on the former's departure for his old home, gave the dagger, which is some 16 inches long with silver inlaid decorations, to his American friend. A few of the things in the list are: flax spinning wheel, wooden shuttles for the old hand made looms, Indian rock corn mill, flint lock pistols and guns, French dueling pistol, army canteens and belts of the Civil War, army guns of every period since Washington's time, sabers and swords, spear used by the natives of Africa in killing the hypopotamus, buffalo guns, a hundred other things of interest. Two mementoes in the collection, while not new of much value, will, in the course of years, be a curiosity. They are simply two adobe bricks from the vault of the first court house erected on the Plains of Texas. Mr. Elliott happened to be at Dimmitt when the old court house was being raised and he promptly appropriated two well preserved bricks.

The Normal has built cases for this collection and room has been provided for additions. Any one having old relics of the early days of the Panhandle or Texas or any other state and wish to place them where they will serve an educational purpose, will confer a favor upon the students of that school by communication with either President Cousins of the Normal or with Mr. Elliott, whose office is at Amarillo.

Look out for the clowns, they will be there.

Special Services at Christian Church

There will be no admission charges, but a free will offering will be taken for the benefit of the Association.

Sheering Sheep Machinery.

Frank W. Lambert has put his sheep sheering machinery in shape for business and has moved it to a big ranch in the western part of the county where he will begin the work of the season. He has contracts for over 50,000. The machine is mounted on wheels, one line of shaft being operated on each side of the frame work, the power being a gas engine. From the seven points on each side a swivel line runs to the operator's hand, where the cutting devices, much like hair clippers, are fixed. Each of the fourteen men can make

a record of from 100 to 150 sheep per day. Along with the sheering machinery there may be seen a complete cooking and commissary department, also mounted on a wagon.

Not Fit For Ladies.

Public sentiment should be against it, and we believe it is, there can be no reason why ladies should have to suffer with headaches and neuralgia, especially when Hunt's Lightning Oil gives such prompt relief. It is simply a question of getting the ladies to try it. All druggists sell Hunt's Lightning Oil in 25c and 50c bottles. 14-41

Newspaper Man Down in Texas.

Sometimes the Brand has been confronted with the request from an advertiser that he be sent the paper free. In long ages past, this was the custom, but even now, the papers "Down in Texas" are beginning to wake up to the fact that their subscription is a legitimate part of their business and should bring a revenue, that it should not be composed of complimentary subscriptions to any and everybody that happened to extend a favor to the editor or give the paper a two inch ad. The Midlothian Argus of last week contains some pungent reading on the subject and it is so much to the point that the readers of the Brand are given the treat to see it.

"Another thing: We do not want to begin or continue the practice of giving the paper free to those who advertise or have job work done. The paper is worth a dollar a year and the advertising space is worth ten cents an inch, and the man who does some advertising or has some job work done has no more right to demand a dollar's worth of newspaper free than we would have to demand a dollar's worth of free sugar from the merchant with whom we trade. The trouble about such a practice is that once it is started, so many small patrons of the office demand it, that it becomes a nuisance, and an expensive one at that. It is an antiquated and out-of-date practice, inaugurated at a time when newspaper men had to do most anything to get a little advertising, and like many other foolish customs, it is hard to shake off. But we are going to shake it off, even if it takes a little skin off with it. Some people are always ready to take offense when statements of indebtedness are sent them, especially statements for subscription to a newspaper. We hope no one will become offended at these statements which we are going to send out. Even if incorrect you need not take offense. All you have to do is to call and see us and tell us just how it is, and we are sure we can adjust all seeming differences. All we want is a dollar for our paper, or to drop a person from our list, a most reasonable proposition, and one to which no one ought to object."

Found a Cure for Rheumatism.

"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." For sale by all dealers.—Advertisement.

Sidewalk Ethics and Sanitation.

Nearly every day and sometimes several times a day, in walking along the sidewalks, there may be seen pieces of banana peeling which some thoughtless person had thrown down. This is not only a dangerous practice, but unsanitary as well. If some woman or man should step on the peeling, they would more than likely be thrown violently to the hard sidewalk. There is nothing that attracts flies more than banana peelings and to see a lot of flies swarming around some piece of rotting banana waste is nauseating to say the least of it. Quit it; whoever you are. If you don't care for yourself, try to have some thought of others.

Fire at Farwell.

The fire at Farwell early last Monday morning burned several store buildings including the two that were used as the county court house. Most of the county records were saved, except the tax assessment sheets of Tax Collector Bratton, who will be compelled to re-assess the taxes and to do all of his work over. County Attorney Sam G. Bratton lost all of his library and office fixtures and other valuable papers. This was quite a loss for any young attorney. The county officers nice furniture for the county offices as they intend to erect a court house in the near future and the furnishings bought at this time will be good enough for the new building.

INDIGESTION FIVE YEARS

Relieved by Vinol.

Strength and even life itself depends upon the nourishment and proper assimilation of food, and unless digestion is good, the whole body suffers.

Mrs. L. D. Cook, Vineland, N. J., says: "I was sick five years with indigestion. My stomach seemed to have a heavy load in it, and at other times it seemed to be tied in knots. Nobody knows how I suffered."

"I tried a great many doctors and a great many kinds of medicine, but nothing did any good until I took Vinol. It has helped me wonderfully. I am improving fast, feel better and am getting my flesh back again. Vinol has done me a world of good."

We know the great power of Vinol, our delicious cod liver and iron tonic without oil, in curing chronic stomach trouble and building up all weakened, run-down persons, and that is why we guarantee to return your money if it does not help you. Old Policy Better.

The custom or habit of sending papers out to non-subscribers and those who fail to pay is poor business policy. After a person receives a paper for a year or more without paying for it, he will often become sorely offended if dunned for the back dues, saying that he never subscribed or did not want the paper "no how!" In order to not thus offend any one, the Brand will return to its old and better policy of "stopping the paper when the time is out." Really this has been the policy all the while, but during the indifferent times of last year, a few subscribers have been carried over. These should come forward and pay up and let us start in the New Year with a clear record. So hereafter, watch your date label. If your "Time is Out" during January or any month back, your name will be dropped from the list on February first unless arrangements are made for the year.

BIBLE STUDY ON
BENJAMIN'S PORTION FIVE-FOLD.
Genesis 43—May 25.
"He that loveth his brother abideth in the light."—1 John 2:10.

WHEN the wheat supply again began to run low, Jacob urged his sons to go for more. But they positively refused to do so, unless Benjamin went along. Finally Jacob consented, sending with them a present and double money, and praying God's blessing upon them.

Again they were expected by Joseph, who gave instructions that they dine in his presence. They were in fear, however. Joseph's steward put them at ease, assuring them that God was dealing with them. Then he brought Simeon out to them. Finally he gave them water to refresh themselves, and made ready for the repast.

Joseph came in, robed as an Egyptian prince. They bowed themselves to the earth, and offered their present. Tenderly he inquired for their father, and in respect to Benjamin. So deep was his emotion that he was obliged to retire for a time to shed tears of joy. Then he returned, and the meal proceeded. From his table, he sent portions to his brethren, having already directed that they be seated according to age and birthright. This astonished them, and much more were they astonished to perceive that Benjamin's portion was five-fold.

"Benjamin's Portion Five-fold."

The Spiritual Lesson Taught. Bible Students, realizing that Joseph was a type of the Messiah, think that Benjamin, Joseph's younger brother by the same mother, was also a type. As Abraham's wives typified different covenants, so Rachel, mother of Joseph and Benjamin, seems to typify the special Covenant of Sacrifice, which has operated during this Gospel Age and which brings forth two distinctly separate classes of saints.

The higher class is represented in Joseph—the Messiah class—the especially faithful of God's people during this Gospel Age—Jesus and His footstep followers. This class will reach the Throne of empire, becoming Ruler of the Universe, next to the Almighty, who is typified by Pharaoh, and who took Jesus from the prison-house of death and highly exalted Him.

It has escaped the attention of Bible Students, until recently, that two classes of saintly Christians are being developed during the Gospel Age—a superior class, typified by Joseph, and an inferior class, represented by Benjamin. The name Benoni—"son of my pain"—was given Benjamin by his mother, who died in giving him birth.

The antitypical lesson here would be that this special Covenant, typified by Rachel, gives birth to the elect Church. The Messiah class, of which Jesus is the Head, and will also give birth to another class, and then cease—expire. This secondary class are Scripturally designated Tribulation Saints, the declaration being made that they shall "come up out of great tribulation" to the blessing which they shall inherit.

Two Tribulation Classes. The elect Church, of which Jesus is the Head, will indeed pass through great tribulation. So it is written, "Through much tribulation shall ye enter the Kingdom." The Lord Himself passed through great tribulation—shame, suffering and death. We know that the same is true of His footstep followers, the Apostles and others. Nevertheless, these are not described in the Bible as the Tribulation Saints. For by virtue of their greater faith, they are able to rejoice in tribulations, knowing that these are working out for them a far more exceeding and eternal weight of glory.

The Tribulation Saints are those who lack somewhat in zeal, though not in loyalty. They fail to fulfil their vows of sacrifice. As the Scriptures say, "Through fear of death they are all their lifetime—subject to bondage"—bondage to the flesh, to the customs of society—fearful of the sacrificing experiences which they covenanted should be theirs.—Hebrews 2:15.

Consequently, they cannot be accepted of God as copies of His dear Son, and as worthy of sharing in His glory. Nevertheless, God is very compassionate, and tests them as to their loyalty to Him. Those who prove faithful will

be given everlasting life, though failing to attain joint-heirship in the Kingdom.

Benjamin's Five Portions. While Joseph gave abundantly to his brethren, to Benjamin he gave five portions. Since Joseph clearly typifies Messiah, the lesson is that Messiah will bestow favors upon Natural Israel. His brethren according to the flesh. The Great Company, typified by Benjamin, however, will come out of great tribulation to a higher plane than the remainder of the world. Begotten of the Holy Spirit—like the Church, they also will be spirit beings.

The Station Agent.

By J. F. Jarrell. The station agent lately has been growing in importance as a railroad officer. In nine of every ten towns he is the ranking representative of the company—the man to whom everybody appeals for advice and information. The popularity or unpopularity of the railroad in a given community depends largely upon the ability of the station agent to take care of the needs of his patrons in a satisfactory manner.

The Atchison, Topeka & Santa Fe railway company several years ago began to view the situation from this angle, recognizing the fact that the station agents, being on the ground, and having an intimate knowledge of conditions, are in position to handle the general run of problems that arise daily for prompt solution. The Santa Fe would have its station agents become factors in the business life of all towns through which its lines run.

Postmaster at Plainview.

Letters have been received in Plainview from Congressman Stephens stating that he has recommended Ben Sanford postmaster at this place. Mr. Sanford is a young man of quiet, industrious habits, and while his appointment to the position is quite a surprise to many people, yet everyone concedes that he will make a very competent official. He was at one time a railway mail clerk, and prior to coming to Plainview several years ago, he resided at Fort Worth.—The News.

PRACTICAL CHRISTIANITY.

Oftimes, in our efforts to promote the doctrines of our own peculiar church, or rather the peculiar doctrines of our own religious sect, we forget "the weightier matters." This has been brought to light in the fair city of Hereford in a most striking way. Last Saturday, a woman, abandoned and alone, with three small children to provide for, one a mere infant, was brought into court by the strong arm of the law to answer why her children should not be taken from her and given to some other person more competent and able to provide for them. While the officers of the law are not to be criticised for their action in the case (they were doing only their sworn duty), the necessity for such a step was a sad comment upon the modern brand of Christianity. Perhaps, we should not use the term, Christianity, but rather the word, religion. James says a man's religion may be vain. The following from the same New Testament writer is germane to the issue: "If any man among you seem to be religious hold not his tongue, that man's religion is vain; pure and undefiled religion is this: To visit the fatherless and widows in their need and to keep himself unspotted from sin." Men applied the same rule in the ancient days to determine the quality of a man's religious professions as they do to day. We all know the hypocrites who pray the loudest in the church house and swear the strongest in the court room. We cannot deceive God nor man by our professions; our actions tell the

truth, our daily walk is known of all men; if we would practice our religion with the same strenuous efforts with which we preach it, there would be no occasion for such a scene as was enacted in the juvenile court last Saturday. We spend thousands of dollars on church houses, church schools, foreign missions and public charity, but we neglect our duty right at our own doors—to visit the fatherless in their need. This case should stimulate the practical side of Christianity in Hereford. The members of the different churches should not stand back for fear of criticism or public talk; the work is here and the duty is plain. This article is written in the interest of the public good. We should guard ourselves when talking about others; we should rather refrain from carrying unpleasant stories from mouth to mouth, let charity cover the sins of others for, perhaps, your own sins need a larger blanket. Let's not play at Christianity.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. Geo. Shepard has so far recovered from the loss of his toes that he made a trip to Plainview with a team to attend the district conference. W. C. Baird and family of Amarillo came up in their auto the first of the week to visit with J. M. Smith and family. Mrs. Baird is a niece of Mrs. Smith. They will also visit Mrs. B. C. Roberson of Summerfield.

Opposes Omnibus Amendment. To the Editor:

Permit me to direct attention to the several subjects contained in the proposed amendment to Section 49 and 52 of Article 3 of the Constitution, known as Senate Joint Resolution No. 18.

1. It authorizes the state officials to create debts against the state to the amount of half a million dollars which may be repeated as often as the debts are paid.

2. The Legislature is given power to authorize the issuance of bonds to purchase additional ground and erect necessary buildings for the University of Texas. This is to include a Medical Department and an Agricultural and Mechanical College in connection with the State University at Austin.

3. The Legislature may issue bonds for the construction of necessary buildings for other State institutions.

4. The Legislature may authorize the issuance of bonds secured by a lien on the real property of the Penitentiary system for the purpose of constructing building and making permanent improvements.

5. The amendment authorizes the bonding of certain divisions of a county or any number of adjoining counties for roads and other public improvements by a majority vote. It now requires a two-thirds majority to issue these bonds.

6. The improvement of rivers, creeks, building of levees to prevent overflows, etc., the bonded indebtedness may be for an amount not to exceed one half of the assessed valuation of the lands. It is now one-fourth.

7. The issuance of bonds by a majority vote for the construction and maintenance of public warehouses or in aid thereof may be authorized.

Therefore, we have seven distinct, separate and independent propositions in one amendment, and the voter is forced to vote for everyone of them or against everyone of them. He is not permitted to exercise his judgment in choosing which he will oppose and which he will favor. But if a voter favors a majority vote for the issuance of road bonds, etc., and opposes other provisions of this amendment he can vote against this resolution (no. 18) and for Senate Joint Resolution No. 4. If he favors bonded warehouses and opposes other parts of this amendment, he can vote against this one and for Senate Joint Resolution No. 4. The ballot on No. 4 gives the voter the opportunity to vote for the road bond feature and against warehouses or for one or both as he sees fit. If the amendment is adopted the Legislature can issue all the bonds of the class in paragraphs two three and four that it desires and pay whatever

rate of interest it may wish. There is no limit. So it is a guess as to how many bonds (in dollars) will be issued. But if the Legislature heeds the demands that will be made, the account will be something like this:

For the University, \$2,000,000; for the Penitentiary, \$3,000,000; for other institutions, \$1,000,000; or a grand total of \$6,000,000. In addition to this, the Legislature will be called upon to appropriate two million dollars to pay the debts of the Penitentiary system for the reason that under the terms of the amendment the proceeds of the Penitentiary bonds can only be used for buildings and permanent improvements. The Legislature struck from the amendment that part which authorized the use of the bond money to pay the Penitentiary debts.

Dr. Bare Writes Newsy Letter.

Our friend of Pleasantville, Iowa, and, by the way, a pleasant sort of gentleman, who came to this country several years ago in search of health, and who, not only found health, but some wealth in addition, "jacks us up" for even thinking of cutting him off the Brand mailing list and wants us to "bare" with him until he comes down this summer. Alright, Doctor, we are glad to "extend the courtesy" to a gentleman like you. His letter is published just because we like his talk. The readers of the Brand will also notice that his ranch is gathering a 90 per cent lamb crop.

Editor Brand: On returning from a trip covering several months in

which I was not in any one place more than a week, I find about two barrels of mail, and among the letters are several from your manager, requesting me to pay up or be thrown out by the wayside. I also find a statement in one letter requesting me to send fifteen cents to square the books with my account. Heretofore you have lost nothing from me and it is my intention to pay this when I come down there on my annual trip in the automobile to my sheep ranch. I hope to get away from here about June 1st. Say! I would like to have your manager to collect some of my accts. I like his plans very much. I regret, however, to lose out in reading the Brand simply because I failed to send in the amount due on subscription in advance. I do not feel at home without the Brand. I have large interests in western part of the county, and my brother writes he is saving more than 90 per cent of the lambs. Thanking you for your courteous treatment and hoping to see the Brand in my next Texas mail I am truly,
E. A. Bare.

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

Mowing Meadows.
By mowing the meadow just after the bloom falls, the hay will retain more of its rich, grass flavor than if it is allowed to stand till thoroughly ripened. Early cut hay also is easier of digestion and not so liable to cause digestive derangements among live stock as is the late-cut product.

Fall Seeded Alfalfa.
If fall seeded alfalfa cannot make rapid growth in the spring it is at a disadvantage as compared with spring seeded alfalfa that can be sown on clean soil on which one or two crops of weed seeds have been killed before seeding.

Road Accidents in Great Britain.
A marked increase in the number of road accidents is noted in the United Kingdom. The total rose from 28,023 in 1909 to 35,210 in 1911, of which motor vehicles caused 20,228. Statistics for the London metropolitan area show that every one hundred motor cars killed five times as many persons and injured three times as many as every one hundred horse-drawn cabs.

Dependent on Wood Pulp.
Mr. Frank Lloyd, at the annual dinner of the British Wood Pulp association, spoke of the serious effect upon the industry of the drought in Scandinavia, and, referring to the rapid development of the industry, pointed out how dependent paper makers now were upon wood pulp. If they had to rely on straw, etc., as was the case only about twenty-five years ago, his mill at Sittingbourne "would alone require a string of cars over four miles long, and at least 40,000,000 gallons of water every twenty-four hours."

McCreless-Wilcox.

A quiet home wedding was celebrated at the residence of Mr. and Mrs. J. H. Henson, last Monday, May 12th, high noon, when their daughter, Miss Mattie Wilcox, was married to Mr. G. T. McCreless of Wichita Falls. Only a few friends and members of the family were present. Rev. J. H. Henson performed the ceremony. Miss Wilcox is the adopted daughter of Mr. and Mrs. Henson and is an accomplished young woman. Mr. McCreless is a prominent young business man of Wichita Falls, being connected with one of the wholesale houses of that city. The new couple left the same day on the 2:40 train for their new home at Wichita Falls, bearing the best wishes of their friends.

Mrs. R. A. Tynes returned Saturday night from San Angelo where she had been as a delegate from the Martha Taliaferro Circle of the Christian church of Hereford to the State Convention of Christian church, but especially to the annual meeting of the Missionary Society of that church which was in session at the same time.

E. B. Black made a quick business trip to Farwell Monday night and while there took an order for several hundred dollars worth of furnishings that burned early Monday morning. To replace the entire lot he got back to Hereford Tuesday afternoon. This is taking business in a hurry, but is quite characteristic of the enterprising firm of E. B. Black Company. Other companies were in competition but they did not touch the order.

Phillips-Lowery Entertained.

A number of students and teachers of the Phillips-Lowery Academy of Amarillo were entertained in Hereford last Saturday and Sunday, May 10-11, the occasion being the visit of the base ball team of that school to match a game with the Hereford boys. After the game Saturday afternoon, the teachers, Misses Crary, DeCosey and DeCosey, and one of the students, Mr. Shelton, were entertained at the beautiful home of Mr. and Mrs. F. H. Oberthier with a six o'clock dinner. In the evening, the home of Mr. and Mrs. C. Smith was opened to the visiting students and a number enjoyed the hospitality so graciously tendered. At the same time, the Hereford Club extended its courtesy to the teachers and pupils and a most enjoyable occasion was had. On Sunday, Mrs. Robert Elliott, as-

sisted by her daughter, Miss Willie, had the three teachers and Mr. McAlister, a Phillips-Lowery senior, to a twelve o'clock dinner. Robert Elliott, Jr., a student in that school, was at home and enjoyed the occasion with his fellow student and teachers.
