### BOVINA NORTHSIDE

Prof. Gayle, a graduate from A. & M. College Station, and who resides at Farwell, was out with his class of nine scholars, judging poultry at the homes of Homer Martin and W. H. Martin. The next time they will judge hogs. He also has a class at Smissyside community.

Sam Collett returned with his family from a visit in Oklahoma the past summer. Mr. Rury had charge of Mr. Collett's filling station while Mr. Collett was away.

The Rev. Lindley preached at the Baptist church last Sunday and Sunday night there were three conversions. Misses Gladys Stagner, Miss Cloy and Leone Glover. They were baptized the following Monday out on the James Richard farm south of Bovina.

Lydia Marie Spring is very ill. Also Catherine Wilson has been very sick the past week with desentery. The J. C. Denney children have been very sick the past week.

Several families left Bovina to attend the Singing Bros. Show at Amarillo on Monday.

Arthur Darlow, formerly of Bovina, but now of Atchison, Kans., expressed to his mother, one hundred and twenty pounds of fruit, consisting of concord grapes and Jonathan apples. They were very choice.

Miss Jessie Waltman spent Sunday with her sister, Mrs. Raymond Davies, out on the Davies ranch north of Bovina.

One day last week Mrs. L. A. Martin of Friona, drove to the Moresy home west of Bovina for a load of corn. Mr. Moresy has over a thousand bushels piled upon the ground left from last years crop. It is in fine condition and very dry.

The Missionary Society meets next Thursday with Mrs. J. B. Belew.

A party leaves Bovina for Dalhart Tuesday morning to attend court.

E. B. Black & Co. delivered pianos to the Wilson and Venable families last Saturday in Bovina.

There will be a basketball game between Bovina and Friona the coming Saturday.

C. M. Crum, the Friona real estate dealer, was in our midst one day last week.

This season people are leaving for winter resorts before their neighbors are home from summer resorts.

This county seems to need some hortic acid, which is good for anything that has broken out with the heat, or has the itch, or something—the election.

J. C. Denney will soon build a new house on his own land about two and a half miles from where he now lives west of Bovina. Mr. Denney owns one hundred and sixty acres.

Mrs. Billy Alderson will leave shortly for a visit with her mother and other relatives at Montgomery, Arkansas. Mr. Alderson has just purchased a new Ford.

The trouble in this world seems to be that there is not enough common sense to go around.

### FRIONA

Mr. and Mrs. Helbert of Ohio, who have been visiting at the home of Mr. and Mrs. G. W. Maurer during the past two weeks, departed for their home Tuesday morning.

W. E. Goodwine had a force of men employed during Friday, Saturday and Monday at filling his silo.

As time passes it seems that interest quickens in the coming fair and picnic to be held here Saturday. From present indications there will be a good display of agricultural products, livestock, poultry and domestic arts. It is hoped the interest will be sufficient to justify a real fair next year.

B. F. Galloway and wife, Mesdames Kinsley and Henschel, and Logan Simpson were business visitors in Amarillo Monday.

The walls of the Congregational church are gradually growing higher and it is hoped by those in charge that it will be near enough to completion that it can be used for services within at least three weeks.

Mr. and Mrs. B. S. Houlette departed Sunday morning for Des Moines, Iowa, where they will attend a reunion of veterans of the Civil War and also visit relatives and friends at their former home at Indianola, Iowa. This is the first trip they have made to their old Iowa home since coming to Texas. They expect to be gone about two weeks.

### DAWN

Another car of building material was unloaded for the new schoolhouse and work began Thursday, laying the foundation. The trustees are working hard to get this building ready for occupancy before cold weather sets in, but owing to the delay in getting material it will be December 1 before the building can be used.

Mrs. Ingram has returned from Stillwater where she has been visiting for the past two months.

Fate Hancock and family are visiting at Silverton this week.

Loyd Young has returned to A. & M. where he has been attending school for the past two years.

Leo Abbott, of Amarillo, who was visiting and helping his uncle, Clint Abbott, with his feed crop, went back to Amarillo last Saturday to enter the motorcycle race held there Sunday.

Leo went in to win, but after making the fifth lap his machine skidded and gave him quite a spill. He was in second place and would have passed the next machine on the sixth lap, if he had "shut her off" a little more on the turn. Leo looks like he had been thru a threshing machine, but otherwise, he is all O. K.

Dawn will play ball at Nazareth Sunday. All ball players are requested to be at Dawn at 11 o'clock sharp as a truck will leave at that time for Nazareth and there will be plenty of room for the players to ride down.

## Don't Put the Fans Away

There are so many all-year uses for the electric fan that it is to be regretted that most of them will be put on the shelf or in the attic within the next thirty days. The value of the fan motor from a hygienic view-point during the winter months has been admitted many times. Its practical uses for many purposes cannot be denied.

A fan in the kitchen will blow out smoke and odors if it is set on the window sill. A fan in any closed up room will do away with that "stuffy" feeling.

Directed against the steam radiator on a cold morning, the fan will bring up the room temperature in a surprisingly short time. It will help distribute the heat from a hot air register in the same manner.

If the furnace is sluggish a fan in the cold air duct, or blowing into it, will send heat to distant rooms which are ordinarily heatless. The same fan in the cellar will dry clothes on a rainy wash day in half the time otherwise required; put the fan on the floor and let it blow up between the lines of clothes to get this result.

Turn the breeze of the fan into a closet and you will take out that musty smell, and perhaps reach a few moths at the same time.

During the fall canning season, the fan is especially useful in the kitchen for ventilation and can be economically used for drying fruits and vegetables.

The woman of the house has use for the fan whenever she washes silk gloves or whitens shoes. It is an invaluable aid after a shampoo.

The fact that a fan will keep the frost off a window if the air is kept circulating against the pane is known to practically every Northern store-keeper, where frost is continuous. There are thousands of shops in other sections which take a frosted window as an unavoidable evil, and lose the advertising value of their show windows on many days of the winter.

The man who said "money is only stored-up labor" had looked deep into the affairs of man. He voiced a truth which we all unconsciously knew—but which is particularly significant at this season of the year.

There are many, many methods of storing the harvest away. Maybe in bin,—granary or cellar or—it can be in money—the easiest or most profitable way if deposited in a reliable bank.

Let it earn while it awaits your cold day call.

by to never return and I am too poor to buy the necessary Rockefeller for my Henry, but I still wear a Harding badge but now it's on the seat of my overalls. O, Lord, I am thankful for one thing and that is that Harding has been able to make the jack-rabbits taste good in the summer-time. I pray Thee that Thou will keep them replenished so I shall not weep. I am glad, O Lord, that Thou hast prospered the railroads and that they have been able to keep up their freight rates when my corn would not pay the expense of the gathering.
