

AROUND TOWN

Sights and Faces Seen

The fishing season legally opened June 1, but it officially opened Sunday, when Joe Bishop hooked that big old bass he hooks every year—and needless to say the fish got away again.

If you would like to know anything about the "Hooten-nanny" club formed by the Band and Orchestra students on the recent trip into the mountains, ask Carl Wilson or Miss Dea Smith.

Lois Lookingbill was very proud of his three-year-old son, Billie, when the youngster came in to report that he had filled the radiator of the car. Shortly afterwards the family started to town and after traveling about a mile, the car began to steam. Lois turned to his young son and asked, "Billy, what did you fill the radiator with." Billy answered, "Just dirt, Daddy." What followed is an old, old story.

Gardens in the Wyche community are looking fine, according to Mrs. R. C. Valentine, who says that a number of women are canning English peas this week, and a few are canning greens.

Tuesday afternoon John Roberts took his small son, Gene, fishing. Gene caught two nice perch and John returned empty handed. When they got home Gene said: "Daddy, if you go with me any more, you are going to have to learn how to fish."

John Billingsley, clerk for Morgan and Company, this week brought some queer looking amphibians to the Close Drug Store. They looked like catfish with legs—and caused much comment as to whether they are a variation of waterdogs, or of catfish. Others insisted that they were 9-inch tadpoles.

A. W. Gregg was in this week with some good advice. "Now is the time for everyone to have their trees and shrubs trimmed," he said, and Mr. Gregg knows what he is talking about.

Timely Rains Aid Crop Prospects In Hereford Section

ROW CROPS, RANGE LAND AND WHEAT BENEFIT FROM SHOWERS

Rains over this section Tuesday night and Wednesday morning brought relief and hope to many farmers over this area, who have been voicing an urgent need for moisture.

Wheat prospects were materially boosted by the showers, which in Hereford, resulted in 1.33 inches of moisture. The rains were especially appreciated in the north and west portions of this county, where moisture has been most scarce.

Hope 1,000,000 Bushels

Hopes for a million-bushel production of wheat in this vicinity have been advanced by grain dealers and wheat men, provided present prospects continue. Grain dealers issued a warning to farmers that wet and green wheat will not be accepted where it grades extremely low, and pointed out that low grade wheat which is accepted will be heavily docked.

Wheat in the immediate Hereford vicinity was expected to run perhaps more than last year, with the greatest loss of production seen in the north and west portions of this area. Oldham County production was believed to have been so seriously damaged that production will be cut tremendously in that area. Adrian reported much wheat damage from the late freeze and hail, but scattered fields indicated good wheat prospects for a few, this week.

Plan Row Crops

Many farmers in this area were this week waiting for the lands to dry sufficiently to plant row crops, having delayed because of insufficient moisture. Those who have already planted were thankful for the showers which came at an opportune time.

However, the greatest benefits derived from the rain was seen on range lands. In some instances range land was heeding moisture, and few are the times when range lands ever had enough moisture.

The rainfall varied over the Panhandle area in amounts, but some rain was reported in most sections from Eastern New Mexico across the Texas Panhandle and parts of the Oklahoma Panhandle.

Wheat Insurance To Be Discussed Here Saturday

Ernest Duke, Extension Service official, will be in Hereford, Saturday, June 11, to discuss Crop Insurance and explain the new phase of the government program in detail, it was today announced by A. R. Bateman, agent. Mr. Duke will address farmers and interested parties in a special meeting to be held in the county court room at 2:30 o'clock, Saturday afternoon.

"There are many points about the new program, and especially the Wheat Insurance plan, which are not clear to farmers of this area," Bateman said. "For this reason, it is important that every farmer and every landlord attend this meeting and hear the plan explained in detail. The meeting will start promptly at 2:30 o'clock, and every interested person is urged to attend."

Methodist Meet To Close Here Sunday Night

With the evangelistic meeting, now in progress at the Methodist Church, scheduled to close Sunday, June 12, Rev. M. M. Beavers, pastor, today reported excellent attendance and much interest.

Services will continue at 10 o'clock each morning and at 8 o'clock each evening until the meeting closes next Sunday. "Everyone is invited to attend the evangelistic meeting," Rev. Beavers said. "If you have not yet heard Rev. Landroth, plan to hear him before the meeting closes, and if you have heard him we know that you will be back."

Special music and hymns are also holding much interest for those who are attending the meeting.

Politics Hold Much Interest In This Area

COMMISSIONER OF PRECINCT 2 OFFICE IS MOST POPULAR

With Saturday, June 18, as the last day on which district, county and precinct officers can file their names on the Democratic primary ballot with the County Chairman, politics were on an upward trend here this week.

Numerous candidates began working in earnest as they passed out cards and solicited votes in house-to-house and farm-to-farm canvasses. Street corner gossip turned from grasshoppers to politics, and the merits of this candidate and that, became the topic of conversation more than at any previous time this year.

To date, the office of Commissioner, Precinct 2, became the most sought-after post, with five candidates seeking this office. They are T. W. Roberson, Fred G. Brown, W. A. (Bill) Gentry, T. C. Mathies and G. W. Brumley.

The Commissioner office in Precinct 1 was second in popularity, with three seeking election in this race: C. C. Bowman, Noah Ewton, and L. H. Shore. H. D. Culpepper was the only candidate in Precinct 3, and Precinct 4 boasted two candidates, E. T. Allred and John L. Morris. J. A. Loerwald was listed for Justice of Peace in Precinct 1. Three county offices featured two candidates each with Earl W. Wilson and A. J. (Major) Schroeter in the race; J. O. Newell and R. B. (Bill) Hutson were in the sheriff race, and L. H. Foster and Ray Conaway are out for county and district clerk.

Officers with only one candidate were: G. H. (Jack) Little for state representative; James W. Witherston for District Attorney; Mrs. Bessie L. Smith for county treasurer, and James C. Gilliland for county attorney.

With exception of the listing of June 18, as the last day for filing for office, the Political Calendar showed little of importance prior to the first primary, scheduled for Saturday, July 23.

All candidates were again notified to file their names with E. S. Ireland, County Democratic Chairman, prior to June 18, to secure listing on the ballot.

Camp Fire Girls To Occupy New Hut Next Meet

The next meeting of the Camp Fire Girls will be held in the new Hut, which is nearing completion. New curtains for the hut were displayed at the meeting held Tuesday morning at the home of the guardian, Miss Mary Elizabeth Stanford.

The new hut, located west of Mother's Park, is one of the most modern to be found in this section. H. H. Broadwell, who donated the land to the city, removed a building restriction on the land and A. W. Nicka arranged for labor to be donated in construction of the building. Numerous citizens donated cash sums and building materials to make the construction of the building possible.

Farmers Allowed To Borrow Money On Crop Checks

That a girl has been stationed in the County Agent's office to take applications from farmers who wish to borrow money on their 1938 government checks through Farm Security Administration was today announced by A. R. Bateman, agent.

"It is possible to borrow 50 per cent of the total amount of the government check," Mr. Bateman said. "However, the farmer must bring a copy of his lease or a letter from the landlord showing that he is legally farming the land on which the check will be issued."

An interest rate of 5 per cent is charged farmers who borrow money against their checks—and the checks are the only security required.

Deaf Smith Farmer Expresses Views Chamber of Commerce Development

By Joe Evans

A long time ago, about 1912, the business men of Lubbock organized a Chamber of Commerce. They did not stop in the city limits for members and support, they went to the far corners of the county. I was in Lubbock quite a bit from 1917 to 1920. I could see that every Lubbock County citizen was a booster for the Chamber of Commerce, even the children had been trained to root.

A little later, Plainview, in Hale County, patterned after Lubbock. We can see the fruits of their efforts. These counties are agricultural, dairying and stock farming just like our county, but are developed as I hope our county will be in the near future. They at once induced sufficient people to come into their counties to take care of their land and support their cities.

You can ride through Lubbock and Hale Counties and see few farms that are blown and few fences covered. Their land is more subject to blowing than ours. They have enough people to take care of their soil.

Our business men in Hereford are now seeking to do the thing that Lubbock and Hale counties did, and are asking us farmers and all citizens to join with them. We have just as many natural resources as Lubbock or Hale.

Let's help our business men of Hereford get the job done. We, the farmers and land owners, will receive the long end of the benefits as we own 80 per cent of the wealth of the county.

We now have prospects of various factories and we can get these factories if we all put our shoulders to the wheel. Among the prospective factories are a cheese factory, canning factory, a sugar beet factory, a dehydrating plant, and an agrol factory. The dehydration plant makes poultry and livestock feed from green feed, principally alfalfa. In twelve hours after the crops leave the cycle, it is in sacks ready for use as feed. The Agrol factory would consume hundreds of thousands of bushels of our grain each year.

These plants would employ hundreds of people. When we get such enterprises going, people with money will come to our county, buy and improve land that is now in bad condition. We land owners can enhance the value of our land \$10 to \$30 per acre by giving a little support at this time. Farmer friends, let's back our Hereford business men.

Ricketts Funeral Is Held Wednesday

PIONEER RESIDENT CAME TO THIS COUNTY 33 YEARS AGO

Funeral services for Mrs. W. A. Ricketts, 73, were held from the First Christian Church in Hereford at 3 o'clock Wednesday afternoon, June 8, conducted by Rev. H. M. Redford, pastor, assisted by Rev. L. O. Byerley, pastor of the Christian Church at Borger.

Mrs. Ricketts died at her home here, following an illness of 10 days. Victoria Catherine Henderson was born in Ellis County, Texas, Nov. 18, 1864, and spent her entire life in Texas. She married W. A. Ricketts on Dec. 15, 1881.

It was in 1900 that Mrs. Ricketts came west with her husband and their family to make their home on the prairie lands of Deaf Smith County. The family loaded their belongings into a covered wagon and left Ellis County for their new home. Pioneers faced hardships and Mrs. Ricketts was no exception, for after traveling through mud and rain they arrived to purchase a place one mile east of Jumbo, where they lived in a half dugout.

In 1908, the Ricketts family moved into Hereford and since that time have resided here. During the

ACTIVE ORGANIZATION IS FORESEEN WITH RE-ORGANIZATION

Prospects for one of the largest and most active Chamber of Commerce organizations in West Texas were visualized here this week by the membership committee as plans for a concerted drive Friday and Saturday, June 10-11, were announced.

In addition to business men, the committee expressed a hope of securing a large number of farmers and ranchers as active members of the Chamber of Commerce, which will be dedicated to the development of this area rather than to any specific section.

The membership campaign will open Friday morning with a house-to-house solicitation of the business section in Hereford, and will continue through Saturday. Special pledge cards have been secured for the drive, and general co-operation is expected from all sources in re-organizing the Chamber of Commerce.

"We are conducting the membership drive first, in order to obtain a large membership, which will in turn assure the organization of general support of the community and provide an income sufficient to employ a full-time secretary and result in the progress of the county and community in a manner which it deserves and requires."

The Chamber of Commerce lists as major projects this year: New post office. Dam on Tierra Blanca. New and improved roads. New public buildings. New people in community. More cattle, hogs and poultry. The committee, which will solicit funds in town, includes:

- C. J. Paddeok, E. B. Hedrick, Jimmie Witherspoon, Jimmie Gillette, Gus Streu, H. V. Hennen, John Roberts, George Muse, Homer Fox, Fred Brown, Jack Rose, Bury Elliston, E. S. Ireland, Claude Ricketts, John Olson, Glenn Weir, S.

G. W. Brumley In Precinct 2 Race This Week

G. W. Brumley this week authorized The Brand to announce his candidacy for the office of Commissioner of Precinct 2, subject to the Democratic Primary, July 23. In making his announcement, Mr. Brumley said:

"In announcing for the office of Commissioner of Precinct 2, I will state that I have lived in Deaf Smith County for the past 25 years, and have had business dealings with the majority of the farmers in Deaf Smith County. I feel like I have many friends, but I am not asking for one single vote on friendship alone—but if you think I would make you a good commissioner, I will appreciate your support in every way.

"If I am elected I promise to give you the best I have, and to try to make a hand."

IT COULD HAVE HAPPENED ANYWHERE

Nowhere in a civilized country could happen what is going on in Portales at this time.

In all cities where hospitals are maintained, a quiet zone is established which guarantees quiet for the patients.

We have seen city streets roped off and all traffic stopped in blocks where some one was seriously ill.

Yet in Portales a skating rink is operating within one block of two hospitals.

Now do not get us wrong, skating is a clean healthful sport, and a sport to which no one should object, but when a skating rink is allowed to operate under the front and back doors of hospitals, something should be done.

On Tuesday evening the writer was calling at one of the hospitals and the noise from the skating rink was tremendous. One patient was almost at the point of death, and several patients were in a serious condition.

Not only did the noise from the skating rink disturb the patients, but relatives who were watching beside their loved ones, were greatly disturbed by this noise.

Then after the skating a dance was held, which continued till midnight.

The writer lives seven blocks from the skating rink, and could hear the loud music, laughter and the revelry at his home late into the night.

Patients are placed in hospitals so that they will have every protection and care.

It is up to Portales to see that the skating rink is moved to a distance that it will not disturb the patients in the hospitals, or declare the hospitals a public nuisance and have them closed permanently, so as not to disturb the skating rink.—Portales Daily News.

Portales is evidently facing a problem now current in many towns and cities. As the News points out, skating is a fine recreation and a good sport—but skating, when it disturbs public institutions and invades the privacy of tax paying citizens, should be placed outside the city limits at some point that is not objectionable.

Elephants, according to cable dispatch, are being killed off in Africa, at the rate of 36,000 a year. But sheeps, that's nothing to what happened to the G. O. P. around a couple of years ago.—Amarillo Times.

My personal nomination for the very best County Librarian in all of Texas is Miss Lillie Hoestler. Lots of times we are prone to overlook the virtues of those who are nearest us, but she is one of the few persons in Hereford, whose place would be hard to fill. She has some plans for expanding the library, but is not ready to announce them as yet. When she cuts loose with this idea, you are sure going to be surprised and delighted. In the meantime, let's give her all the co-operation within our means. She deserves it, and she is sure doing a splendid piece of work in our library.

After four years of married bliss, I have decided the greatest faith any woman can show in her husband is to sit quietly in the back (or front) seat and let him do the driving.

Robert Burns' poem about the best laid plans of mice and men, was brought out recently when a Dallas newspaper carried an article regarding C. H. Dillehay, superintendent here for the past 15 years. The article said many nice things about Mr. Dillehay and his work, and in the final paragraph, said: "This man is now being held in jail without bond," along with other such remarks. Dr. Dillehay has been getting letters from friends all over the state since it appeared.

What happened was that the printers picked up a paragraph from a crime story and accidentally attached it to Mr. Dillehay's story. In all likelihood, there was in the story about the criminal, a paragraph which extolled his ability as a superintendent, and listed him as a graduate of several universities.

K-C Club Wins
June 1—The K-C strengthened their lead on first by moving down the A-M squad 11 to 6. Three hits and four errors gave the K-C a five-run lead after they had held their opponents scoreless in their first chance. The third and fourth innings finished the scoring for the K-C, but they had scored 4 and 2 runs in each of them. A run in each of second and third innings composed the total A-M score, until the last inning. A-M made a futile try for the lead in this inning but failed miserably. Hits by Hartman, F. Barnett and Schroeter combined with a walk and an error by Hofbauer, chased the 4 runs home.

The Merchants' largest inning was the last inning. They tallied 12 runs by virtue of eight hits, four of them being homers by V. J. Fuller, Springer, D. Knox and Paul Foster. Meanwhile, the WOW were allowed only 8 hits by Springer. Five runs were scored from these hits and nine errors by the Merchants.

K-C Down Lions
June 3—Playing before the largest crowd of the year, the K-C's came from behind to whip the Lions 11 to 7. The Lions took advantage of the ratty play of the K-C in the first, to score 5 of their 7 runs. Smith walked to begin the inning. An error by W. Albright placed Cogdell on first and Smith on second. Morgan forced Cogdell at second, but was safe himself. Smith advanced to third. Emmons hit a long fly to left field for the second out but scored Smith. Willis drew the second pass of the inning after Charles was safe on Hofbauer's miscue at short. This placed three men on. Willoughby singled to bring in Morgan and Charles. Willis followed them on an error by Stelzer. Willoughby was right behind Willis after Hofauer had made his second error of the inning. The Lions other two runs came one in each of the third and fifth, one a home run by Charles. The K-C did not score until the third and in this frame they rallied to bring in 3 runs by virtue of a pass to T. Loerwald, two errors by J. M. Posey at short field, and a single by G. Loerwald. Two more tallies were scored in the fifth. T. Loerwald

K-C Club Wins
June 1—The K-C strengthened their lead on first by moving down the A-M squad 11 to 6. Three hits and four errors gave the K-C a five-run lead after they had held their opponents scoreless in their first chance. The third and fourth innings finished the scoring for the K-C, but they had scored 4 and 2 runs in each of them. A run in each of second and third innings composed the total A-M score, until the last inning. A-M made a futile try for the lead in this inning but failed miserably. Hits by Hartman, F. Barnett and Schroeter combined with a walk and an error by Hofbauer, chased the 4 runs home.

We Are Not a Fly-By-Night Store — We Are In Hereford To Stay!

Every Farm A Factory

By T. C. Richardson, Secretary Texas Breeder-Feeder Association

Cheap raw products are the basis of all manufacturing. The raw products of the farm do not always have to travel far away to an industrial plant to be manufactured. Farm livestock and poultry are nature's own machines for turning crops into concentrated, finished products, for the use of the human race. The miracles of modern chemistry fill the public eye, but none of them approach the marvelous efficiency of the miracle of life, through which the animal world transforms plant life into meat or eggs, or milk or wool, "each after his own kind."

Wherever we find a farmer who has successfully survived droughts and low prices which have plagued the country of late years, we usually find that he is "manufacturing" finished products by running his crude materials through those live, walking machines which cackle, moo or baa about the farm. Several tons of grass, fodder and grain (most of which could not have been sold as raw material) went to market wrapped in steer hides when H. C. Lippe sent two truck loads to Fort Worth and cashed them for \$2,000, a few months ago.

The acreage diverted from cotton under the new farm program will be planted, mostly in feed crops. It will not bring much cash if sold in its raw state. Much of it will be grazed off, saving the labor and expense of harvesting. Much will be harvested and stored, either dry or as silage for later feeding. In the form of meat or milk these crops may, as they often have done, bring in more dollars per acre in net profit than the same number of acres in cotton.

Farms which are not fenced and cross-fenced of course cannot be grazed, but temporary fences may be quickly set up to confine stock on the field to be grazed. The kind of livestock to best utilize the crops, whether grazed or harvested and hand-fed, will of course be chosen according to the crop itself and the preference of the owner.

Dairy cows will usually pay the highest return for large quantities of silage or dry roughage with the proper grain supplements, but beef cattle will run them a good second. Sheep will utilize some weeds that cattle will not eat, and glean many a pound of meat and wool, but they must have more than weeds and gleanings. Hogs of course require a high percentage of grain in their rations, but they should always have access to green pastures, in the interest of both thriftiness and economy of production.

Not an acre of the land diverted from cotton but can be turned to profitable account, by "putting it on legs." We are so accustomed to nature's own "manufacturing machines,"—farm livestock—that we are prone to forget that the cackle of the hen means more in the total than all the factory whistles in the country; that the dairy cow's synthesis of grass and grain into milk and butterfat is more wonderful and more potent for human good than anything chemists have ever done with coal tar or soy beans.

The new farm program provides both the incentive and the opportunity for many farms to change to a system that will utilize both the land and the man-power better than cotton or other cash-crop farming.

Marketing Quota On Wheat Will Be Discontinued

COLLEGE STATION — The wheat crop will not be subject to the marketing quota plan in 1938, according to Geo. Slaughter, Wharton, chairman of the Texas Agricultural Conservation Committee.

The new farm act set May 15 as the latest date for establishing a national wheat marketing quota, subject to a referendum by wheat growers, and also provides that no wheat quotas can be in effect during the marketing year beginning July 1, 1938, unless provisions for parity payments have been made.

The Texas committee received word at its headquarters at Texas A. & M. College and from AAA officials at Washington that the wheat marketing quota would have been proclaimed if parity payments had been provided for within the required time, Slaughter said.

The farm act provides that the wheat quota shall be proclaimed when the total supply of wheat will exceed the normal year's domestic consumption and exports by more than 35 per cent.

The Division of Crop Estimates has indicated that the probable production of winter wheat will be 754 million bushels and spring wheat around 200 million bushels, and there is a carryover of about 200 million bushels.

The total supply of wheat is expected to be approximately 1,154-

000,000 bushels. This amount would be 400 to 450 million bushels in excess of the normal domestic consumption and exports and about 200 million bushels in excess of the marketing quota level.

Wheat is the only crop for which marketing quotas this year depended upon provisions for parity payments, Slaughter pointed out. Marketing quotas are already in effect for cotton and for flue-cured, burley, and the dark tobaccos. The act provides that there shall be no marketing quota for rice this year.

Mountain Trip Enjoyed By Local Students

BAND AND ORCHESTRA IN NEW MEXICO MOUNTAINS PAST WEEK

By Mrs. O. G. Hill

Fifty-three H. S. Band and Orchestra students, with their directors and nine sponsors, left Hereford early Saturday morning, May 29, for the mountains of New Mexico. They reached their destination, a Boy Scout camp, located on the Gila River about 25 miles out of Los Vegas, N. M., a short time before sundown, and enjoyed getting settled for a five-day stay.

Sunday morning the whole group, with the exception of three sponsors, set out to climb to the top of a high mountain. After several hours of climbing all but a few, who had "fallen by the way side," reached the top and enjoyed the fullest extent the magnificent views spread out before them. The surrounding mountain tops could be seen great patches of snow, which were largely responsible for the cold atmosphere up there. The return trip was a thrilling adventure, as one group missed the way down and came down the steepest slopes.

Monday morning found a few of the students still able to climb, so they went on another mountain climb, but the majority of them were willing to walk on level ground, and amused themselves by exploring the valley and playing along the river.

The afternoons were spent playing games around camp, such as softball, dominoes, bingo and cards. The evenings were spent inside the mess hall, singing, playing group games and doing stunts.

Wednesday morning everyone loaded into the bus, truck and cars, and went to El Povernir, where a guide directed the group on a hike which was truly enjoyable. He explained legends of Hermit Peak and other points.

The meals were educational in themselves. The students were divided into groups with two sponsors and each group was responsible for three meals. The food was well prepared and well served; no one became seriously ill, but two of the students were "under the weather" as a result of getting wet by the cold stream. On the whole, the trip was successful and it was with regret on the part of most of the group that they loaded into the bus for the return trip to Hereford, June 2.

Those who attended were: Betty Joe Kendall, Jack London, Wayne Phillips, Billy Jean Wilson, Anna Marie Kuper, Erwin Herr, Orvella Hill, Ruth Temple Hastings, Rachel Ireland, Harold Close, Floyd Ross, Donald Heneslee, Hicks Robertson, R. L. Bailey, George Walker, Leo Rogers, Mattie Louise Lawhon, Hilton Higgins, Glenn Smith, John Estes, Clifford Estes, Donald Ray McCullough, Dennis Lomas, Owen Owens, Jack Knox, Merlin Conklin, Karl Shirley, Troy Womble, Dean Dunlap, Betty Cockrell, Ann Cockrell, Mary Louise Dean, Wanda Jean Reed, Wanda Jean France, Virginia Newell, Burdine Brunson, Adella Benson, Verna Faye Hurford, Mary Hood, Helen Plummer, Doris Elaine Dillehay, Nancy Millard, Minnie Dea Smith, Jean Williams, Terrell Williams, Walter London, Lillie London, E. B. Posey, Billie Louise Barber, Donald Conklin, Gertrude London, Clifford Vaughan, Polly Dixon, Band Director Ralph Smith and Mrs. Smith, Mrs. Wiley Robertson, Mrs. O. G. Hill, Mrs. C. P. Cockrell, Mrs. H. A. Close, Mrs. Burl France, Mrs. Harry Lomas and Tom Carroll.

"We will continue to stress curb service, and invite the public to visit us and inspect the new ice cream cabinet," Mr. Morgan said.

Dance Revue Presented At Star Theatre

More than 250 persons Wednesday night enjoyed a presentation of Miss Lueta Borden and her pupils in their fourth annual dancing revue at the Star Theatre.

The revue was divided into three acts, "The Enchanted Garden," "Oriental Fantasy," and "The Contest." The revue was given popular acceptance by those who viewed the students, and all three acts were commendable. Costumes for the revue were also outstanding and the subject of much comment. Mrs. Grace Hall Coombes was pianist, and Mrs. Polly Steele Wiltshire was presented as guest soloist.

Foods Demand Attention Of Wyche Women

By Mrs. R. C. Valentine The Wyche Demonstration Club had as its main topic, Foods and the Different Variety of Vegetables adapted to this particular locality, as stated by Miss Sadie Lee Oliver, Home Demonstration Agent, in the home of Mrs. DuBois Walker, on June 2.

Each member was handed a pamphlet on "Filling the Farm Store House," and different topics found in the pamphlet were discussed. The topic "Make Plans by These Standard Nutrition Needs," was especially interesting. Pamphlets on "Food Preservation Budgets," were also handed out, which outlined food requirements based on Moderate Cost and Adequate Diet for one person daily. Then each person was asked to check for one person, then multiply by the number of members in their family, thus finding the number of canned vegetables required for their own family.

A discussion of various vegetables adapted to the plains was very interesting, especially that of asparagus and tomatoes and yellow vegetables. Miss Oliver explained why various types of tomatoes would not bare on the plains.

Missionary Is Guest Here Of Christian Church

Miss Vida Elliott, State Young People's Worker for the Christian Church and former missionary to India, is spending a week with the young people of the local church.

Miss Elliott spoke at the Children's Day program last Lord's Day morning, to the Intermediate Endeavorers at the Endeavor hour, and to the entire congregation Sunday night. The juniors met with Miss Elliott Monday afternoon.

Monday night a large group of young people gathered at the home of Mr. and Mrs. Carl Cockrell to

hear Miss Elliott; Tuesday night a delegation from the Christian Churches of Amarillo and their leaders came to Hereford to enjoy a picnic lunch in State Park. Immediately following the lunch and before the heavy rain the group assembled in the church to hear Miss Elliott's message.

The closing service to be held in connection with Miss Elliott's visit will be at the Church on Friday night at 8:15, at which time Miss Elliott will speak to the entire congregation and their friends. Everyone is cordially invited to this closing, Friday night service. Rev. H. M. Redford, pastor, said.

Rest Rooms Are Improved With State Campaign

AUSTIN—"The State Health Department's three-months old campaign against filthy rest rooms over the state has been marked by splendid co-operation from the retail establishments involved, the public at large, and the press. Our department is so firmly convinced that filthy rest rooms are a major public health hazard that the department's sanitary inspectors are checking rest rooms as carefully as they do other violations of sanitary regulations," states Dr. Geo. W. Cox, State Health Officer.

"We have served notice on all retail establishments in Texas that they must clean up their rest rooms and continue to keep them clean under penalty of violating the State Food and Drug Law, Article 695, which carries a fine of not less than ten nor more than one hundred dollars.

"Our sanitary inspectors have been notified to assess this fine whenever they find rest rooms maintained without adequate sanitation. The public and business establishments have been adequately warned. Any subsequent violations will be dealt with through legal channels.

"We want the public to co-operate with us in this campaign. Such filthy conditions as heretofore have been prevalent over the state will never again be tolerated. When the public finds a rest room that is unsanitary, whether it be in a cafe, tavern, filling station, retail establishment or bus station, they will be doing their community a favor if they transmit this information directly to the State Health Department, Austin, so that necessary steps can be taken.

"Disease breeds in unsanitary rest rooms and is spread from one person to another, indiscriminately, under such conditions. Facilities should be available for washing the hands; toilets must be sanitary and kept that way. The rest room that does not meet these minimum requirements is a reflection on the establishment it serves and should be so interpreted."
