An odd angle to the case is that Bill Smith Jr. was driving his truck into town from the west and probably saw the stolen car as it was being driven out of Hereford.

### What A Pity! A Career Is Almost Blasted

Kicked around Kansas and Nebraska corn fields for five years, living on whatever he could rustle, doing service most of the time in Polled Hereford herds, Advance Domino Mischief, 2756000, certainly has not had a life of ease. Purchased as a yearling from Mousel Brothers

in their 1932 sale by a leading corn belt breeder, he was turned down by the buyer and replaced by another calf. Criticized by a student of Agriculture—the son of his owner—he was offered for sale as an undesirable bull and found his way back to the Mousels at a very low price. Just as clothes do not make a man, so price does not make the bull. That almost infallible judge of breeding cattle, the late G. R. Jowell, came to his rescue and urged the McDonalds to "get this bull at any cost." We got him and placed him at the head of our herd in May 1938. He has com-

pletely dominated the McDonald herd ever since. His first five calves each sold for more money than we paid for him. He is a living, shining example of the value of a real breeding sire—positive proof that a herd bull can really make a whole herd of cattle. Out of nearly a hundred calves, he has never sired a "dog". He transmits himself so strongly, and his calves are so nearly alike, that the uniformity is almost uncanny. Advance Domino Mischief calves will be much in demand as herd sires because of their ultra modern type, easy-feeding characteristics and Anx-

ety 4th blood lines. We expect to prove the prepotency of Advance Domino Mischief by offering thirty-six of his calves at Auction next Thursday at Hereford, in the "Bull Barn"—twenty-one sons and fifteen daughters. They're in the barn now and ready for your inspection and constructive criticism, which we shall very much appreciate. Get a catalog—check them over and pick out one that pleases you. This blood and type are sure to be in demand. What a pity that five years of the life of one of the greatest sires of the breed had to be al-

most wasted—comparable to sire of the great Domino—llcan—who spent most of his on the Matador Ranch as commercial calves. What a that Advance Domino Mischief could not have had the opportunity of serving in some of the breeds' great herds at his entire career. What an influence toward better type easy-feeding.

## BULL

Each Thursday we are blessed with some 25 news boys at The Brand office, and they are undoubtedly one of the finest groups of news boys ever assembled. Not only do they sell lots of papers, but they are fellows of exceptional character and several of them are saving one-half of their earnings each week.

Gerald Daniel finished up last Thursday and dropped by the office to show us a couple of Comic Magazines which he had purchased with a portion of his earnings.

"I'm taking these home to my Dad," he said, holding forth a Superman pamphlet. He was really proud of the magazines, and added "My Dad likes to read these better than anything."

"And you don't care anything about reading them?" I asked with a grin.

This slowed Gerry down for a minute, but he came right back and said, "Oh, I read them sometimes after he gets through."

Mrs. Radovich has clipped from a magazine a picture which she says reminds her of Phil, and she posted the picture in the cigar counter at the Chocolate Shop. The fellow is complaining about getting cold checks. She says the only trouble with the picture is that the fellow has some hair—and everyone knows Phil is billiard-bald.

After considerable discussion Sylvester Slagle, Henry Sears and I decided the other morning just how these strikes should be handled. Many of the strikers have been exempt from Army draft because they are in vital industries, so we decided that the very minute they go on strike they are no longer vital—and should be immediately drafted. We also thought that it might be a good idea to draft the strikers, regardless of their age or other exemptions.

Approximately 60 farmers and business men came here last Sunday afternoon from Anton, Texas, to look over our potato cellar and to make investigations as to growing potatoes. S. O. Wilson, Debs Turner, Glenn Boardman and several others spent the afternoon showing the visitors around. Lots and lots of folks are figuring on planting spuds this coming year. Tullia will possibly show the greatest increase in potato acreage on the Plains, and a tremendous increase is likely to follow in this area.

Incidentally, most experienced potato growers expect 1941 to be a banner year for this area. Last year was a poor potato year, but the next 12 months will see gigantic markets open in the Southwest because so many army camps are being posted in the area. C. D. Potter and Fred Severance are of the opinion that the coming year will prove exceptional—and they look forward to three good years in the spud business. Since potatoes produced in this section are consumed in the southwest it would appear that market prices will be good to better—and it is entirely possible that the Potato Industry may do for the Plains what the Citrus Fruit industry has done for the Valley country.

Meanwhile, livestock continues to advance in price and for the same reason above mentioned, a banner year should be seen by the cattlemen. All of these things fit in with our irrigation and diversified farming program at Hereford—and the next three years may be the making of this country.

Bill Smith came down this week from Ruidosa, N. M., and he says the skiing is fine. He says they have two government instructors out there and that they are locating refugee Nazi sailors from a scuttled ship. Bill says skis rent for around \$1.50 a day and ski shoes at about 50c a day. He says he can make a short hill in approximately four falls. I don't know why I am giving him all of this free publicity, because Mont Baker and I have every right in the world to righteous indignation toward Ruidosa and all of its inhabi-

tants. Bill says the folks out there read in the Brand about how Mont shot three ducks and got five fish—and he said they all figure that Mont and I are the biggest liars in the whole United States and Canada. He said one old fellow read the article, and didn't say a word for five minutes, then he finally spoke up:

"Bill, I know now why you left Hereford. You were just too honest to associate with those people."

That's going too far. Again, I am stating that Mont actually killed the ducks, which really did contain the fish. It's a fact—and if the people of Ruidosa haven't got vision enough to face the facts of life, then I refuse to be responsible.

Another thing I don't like, is George Millard calling me "Ferdinand." If I remember correctly, Ferdinand was the bull that always went around sniffing flowers and getting stung by bumble bees. If this keeps up I am going to write the postmaster general if I can find out his name. If you know any dirt on George please let me have it.

**RAMBLING AROUND:** George Clark is mighty proud of the new Ford Panel Laundry Delivery Car. Tom Robinson is also mighty proud of his new red Buick; he'll show you both carburetors and he don't like to be kidded about what is going to happen when he hauls gasoline and tools in the back.

Homer Fox knows a whiz of a story about a cowboy, but it isn't printable. Harold Close has the potato bug and he's all the time throwing a new kind of sale, a White Elephant Sale. Virginia Newell wants a "plug" on the popcorn which she sells at the Star Theatre—and it is good.

Mr. and Mrs. L. L. Cannon have three dogs, a wire-haired terrier, a peke and a screw-tail bull dog. Alex Thompson has gone in for photography in a big way; he is doing his own developing, printing, etc.

Mary Acker had to buy the drinks recently because she quoted something from the Bull Column. W. C. Pitman has repainted his service station from corner to corner. G. T. Higgins, son of Mr. and Mrs. Bob Higgins, has recently been promoted to the post of Educational Supervisor in the CCC Service and has reported for duty in the Big Bend National Park.

## Fifth Column Of Disease

(NOTE: The following material is presented by the Hereford Division of the Women's Field Army of the American Society for the Control of Cancer, Inc.)

One phrase that has taken a permanent place in our vocabulary is the Fifth Column. This is the name for those shameful traitors who work from within their own country and betray it to attackers. The Fifth Column played a disgraceful part in Norway and Holland and France. Americans have been rightly warned against the Fifth Column in this country, against those who under the protection of our flag and its institutions attack our morale and if given the opportunity will hinder our national preparedness.

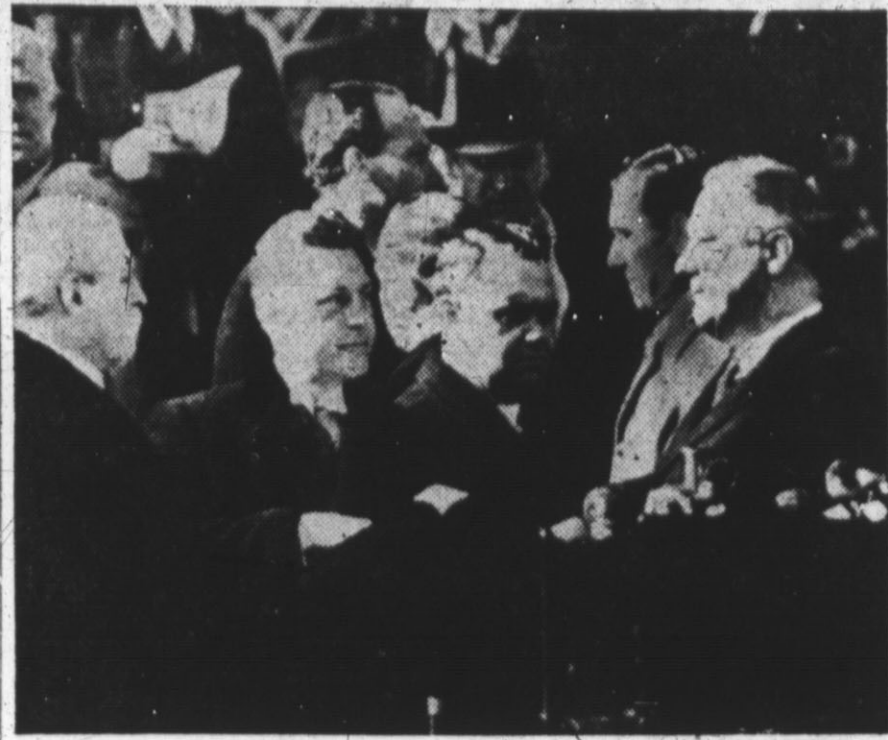

There is a curious and interesting parallel between the Fifth Column politics and something that occurs in our own bodies. As you probably know, we are all composed of tiny units that are called cells. There are millions of these cells, they are the building blocks, the bricks, that make up our flesh and bone. For the most part, these cells are disciplined and well behaved, each performing its task in the marvelous cooperative community that is our body.

Occasionally however, one or a group of cells turn traitor. Instead of fulfilling their normal functions, they begin to grow in a lawless fashion. At first this growth does little harm. It causes no pain and only mild symptoms appear. Later on however, if the activities of rebellious cells are unchecked by the vigorous intervention of surgery, X-rays, or radium, the growth will have spread through the entire body and effective treatment will be impossible.

This lawless growth of cells is called cancer. When it is just beginning it usually may be cured. Later on—well, we all know what happens later on. That is why we say "Early is the watchword in cancer control," that is why the Women's Field Army of the American Society for the Control of Cancer, which I represent is conducting an intensive educational campaign to bring the truth about this disease to every man and woman in this state.

Let us keep alert for the pres-

## President Takes Oath at Third Inaugural

This soundphoto shows Chief Justice Hughes, extreme left, administering the oath of office to President Franklin Delano Roosevelt as he was inaugurated as the first third-term President of the United States on Monday, January 20. In his inaugural address the President declared that "democracy is not dying" and "cannot die." His speech was marked by constant references to his faith in American democracy.

sence of Fifth Column cancer cells in our body, just as we are always on guard for spokesmen of the Fifth Column in our city and state. How are we to learn of the presence of such dangerous cells? The American Society for the Control of Cancer, suggests two methods:

1. A complete, annual physical examination for men and women over thirty-five years. In women, this examination should always include the pelvic and breast areas, and if they are between 35 and 55 years of age the examination should be once every six months.
2. When Fifth Column cell activity has begun, certain apparently innocent symptoms put in an appearance. These symptoms are usually painless, remember the Fifth Column cells do their dangerous work quietly. We call these first symptoms the cancer danger signals and here is how the American Society lists them:

- (1) Any persistent lump or thickening particularly in the breast;
- (2) any irregular bleeding or discharge from any body opening;
- (3) any persistent and unexplained indigestion;
- (4) any sore that does not heal normally, especially about the tongue, mouth or lips;
- (5) any sudden change in the form or rate of growth of a mole or wart.

There are your clues, the cancer danger signals, the symptoms that reveal the Fifth Column cells. Be alert for them. If they appear they may not mean cancer is present, but they do mean that you ought to consult at once with your family physician. He will tell you whether it is necessary to seek further expert opinion or whether your condition is a harmless one.

You may secure information and free leaflets on how you may help fight cancer, the Fifth Column disease, from the headquarters of the Texas Division of the Women's Field Army at Brownsville or from the American Society for the Control of Cancer, Inc., 350 Madison Avenue, New York City.

## A Yardstick for Hereford

- SCORE: Good—5 points; Fair—3; Poor—0
1. INFANT MORTALITY. The possibility a child will die in its first year is four times greater in some cities than in others. Parental neglect is important, but community management of health is a big factor.
  2. SCHOOLS, ETC. The higher the value of the educational and recreational plant, the more likely it is that you are living in a "good" town. Surveys show a direct relationship exists between them.
  3. RECREATION. Fifty acres of parks per 1,000 population is a reasonable goal for a community recreational program. Many small-well equipped neighborhood parks are favored over a few large ones.
  4. PUBLIC PROPERTY. The "value of public property minus public debt" rating in a survey of U. S. A. municipalities showed Evanston, Ill.; Brookline, Mass., and Pasadena, Calif., high up on the list.
  5. SCHOOL COSTS. In general, a city is "better" whose citizens are given more dollars' worth of educational opportunity and more of whose young people can remain in school. How does your city rate?
  6. SCHOOL GRADUATES. In determining your city's rating, consider percentage of elementary students who graduate from public high schools. Some communities are known to have twice that of others.
  7. READING HABITS. Is your community library conscious? Step over to the public library and inquire about the book and periodical circulation. It is an index of social well-being of your city.
  8. PUPILS. In some cities the percentage of school pupils in the 16-17 year bracket is twice that of others. Among the leaders in this particular rating is Brookline, Mass. Another is Pasadena, Calif.
  9. TELEPHONES. In some cities 100 families in three have telephones; in others, it may drop to one in eight. Generally speaking, the more phones, the better the town. What's your city's score?
  10. ELECTRICITY. Experts include the number of homes using electricity in rating the "goodness" of a community. Local power-company officials can supply you with necessary data for your own city.

## Care Of Wheat Crop Insurance Acreage Given

"Chiseling and strip listing of the methods quite generally used to control soil blowing in early stages; and it is not necessary that the county officials contacted before these emergency operations be started." T. P. McCollister, wheat loan supervisor said today.

"However, if these measures have failed to control wind erosion and it becomes necessary to list the land sold in order to stop blowing, the producer should understand that he should have approval of the County Committee before destroying the insured crop. This approval will give, in the opinion of the Supervisor, and committee there is no chance to produce a solid tillage is the only practical way to control the blowing soil."

"It is highly desirable that insurance contract not interfere with the control of wind erosion on any farm in a community but complete destruction of insured crop should be resorted to only as a last measure, as it is determined that the blowing soil cannot otherwise be controlled."

Production of rubber is being encouraged by a new Latin American division created last month in the U. S. Department of Agriculture.

The Surplus Marketing Administration of the Department of Agriculture announces that an estimated 2,000,000 pounds of butter were bought with stamps in September. Approximately 1,000,000 cows would be required to produce the amount needed.

# Niece Of Mrs. Schroeter Writes Of Submarine Experience In Indian Ocean

## Was Decoy For Italian Raider

An interesting revelation of how the Dutch and the British are cooperating at sea, even in the Indian Ocean—and the thrilling but dangerous experience of being used as a decoy for a submarine are highlights in an uncensored letter which Mrs. Lachlan Vass, niece of Mrs. Riehold Schroeter of Hereford, slipped into a returning American freighter from Portuguese East Africa.

Rev. and Mrs. Vass are new young missionaries who have just left this country for foreign mission service in Africa under the auspices of the Presbyterian Church U. S. They were married at Monrovia, N. C. last summer. Mrs. Vass is a daughter of Dr. E. B. Kellersberger, well-known medical missionary now in this country for furlough.

The Vasses sailed from New York on the Noordam in August. Their first exciting adventure was to be mysteriously transferred in mid-ocean from the Noordam to the Dutch steamer Swartenhondt. Mrs. Vass' comment on that experience reads, "It was something unparalleled in seafare for two ships to exchange passengers at sea and if it had not been arranged we might have had to wait weeks and weeks for passage to Africa."

A few hours out of Batavia they suddenly sighted a Dutch submarine waiting for them. The submarine officers came aboard for consultations. For a whole week, thereafter, that submarine was their escort and they were told that the Swartenhondt was being used as a decoy to catch an Italian raider thought to be loose in the Indian Ocean. One afternoon, Mrs. Vass writes, there was great swerving and veering and sounding of danger signals and another submarine appeared face to face with the Swartenhondt's escort. "We expected to see the torpedo tubes go into action," she writes, "but were relieved to learn that the newcomer was an English craft on the same mission as our escort and so nothing happened."

At the end of the week the Dutch submarine came up alongside, waved goodbye and was gone. Mrs. Vass writes that being a decoy for the submarine was bad enough but that facing the dangerous ocean alone again without even the company of the submarine escort was even worse. She tells of a second "big thrill" when their ship's operator, after being warned of a raider in their vicinity, sighted smoke on the horizon. "We turned quickly at right angles from our course and you bet we steamed away just as fast as this old tub would go," she writes. "I had my pocketbook, the family jewels, flashlight and coat all laid out ready to take to the lifeboats. (The boats by the way have been suspended over the edge of the ship during the entire trip, ready to be lowered into the water at a moment's notice.) But we got out of sight even before the funnel of the approaching ship could be seen and here we are at last in the great beautiful country of Africa—the land where I was brought up. Day after tomorrow I will see my mother and father again—after four years and eight months of separation!"

# Texas Truckers Pay Deaf Smith \$21,562.34

Austin.—The Texas trucking industry last year paid taxes to Deaf Smith county amounting to \$21,562.34, Lynn B. Shaw, general manager of the Texas Motor Transportation Association, reported today. Shaw said the amount represented \$17,787.94 for highway construction and maintenance, and \$3,774.40 for the public schools of Deaf Smith county. For each scholastic in the state, the truckers paid \$2.80, an increase of 31 cents over the previous year. An amount equal to the school fund was distributed to counties to absorb bonds for road building purposes. For highway and school purposes alone, the Texas trucking industry last year paid taxes in excess of fourteen million dollars.

Bippus Home Demonstration Club witnessed a demonstration on cooking of meats when it met yesterday afternoon with Mrs. J. G. Fortenberry as hostess. Miss Sadie Lee Oliver, CHDA, gave the demonstration. Miss Oliver broiled tender cuts of beef, pork and lamb. The club learned that tough cuts should be cooked at low temperatures for a long time, as steaks simmered not boiled; or braised which is the "smother fried" chicken of our mother's day.

The club considered purchase of cotton for mattress making and turned in applications for Surplus-Marketing Administration cotton, mattress ticking and comforts.

Those present were Mesdames B. H. Brewer, J. W. Adrian, C. F. Homfeld, E. K. Pinnell, Edd Baller, Richard Evans, Everett McIntosh, J. G. Fortenberry and Ray Slaton and C. S. Bierman, visitors.

## SOMETHING TO THINK ABOUT

The printed word is in the end the greatest temporal power in the world. The guns of a dictator can wreck a fortress at fifty miles but the printing press can shatter an empire at the range of a thousand years.

## Council Taxes Clubs And Classes

The taxation question, which was whether or not to tax classes and organizations of the school to support the staff, was decided upon. The Council voted to tax these clubs and classes, but one amendment was made to the question as stated. Instead of taxing the Hi-Y fifty cents and the F. F. A. twenty-five cents a month, they decided to tax them each fifty cents.

Each month the staff needs approximately \$5.00. The Council will furnish what is necessary to make this up after the various clubs and classes have been taxed.

### Are You Foresighted?

Do you know where you will be a few years from now? Some of you will be in school, some in college, many working at various jobs, and others will be idle and unemployed. You should think about your future needs. The knowledge and experience you acquire at school will be the background of your later life. The studying you do—sufficient or insufficient—will probably determine whether you get a good job. A few years from now, many of you will probably be wishing you had studied more and heeded the teacher's requests. Think now before it is too late and prepare yourself!

### How Is Your Writing?

Do you know how to write? Evidently, some of the teachers do not think so. You receive a paper, maybe a spelling paper, and have something marked wrong which you cannot understand. In many cases, it is not that you did not know the right answer, but that the teacher could not read it. The next time you hand in a paper, notice your writing, and be sure that it can be read easily. Every time you write, try to form every letter correctly, and soon you will be able to write so that all your papers may be read without effort.

We, the staff, wish to express our gratitude for the typewriter that has been given us. Only those people who have traveled from third to first to type each article, can really appreciate it.

## Around the Campfire

Success in life depends on luck and pluck—luck in finding someone to pluck.

It's better to be a little pebble on the beach than a big tombstone.

Robert Owen, who was yawning: "That's bad manners; you should place your hand over your mouth when you yawn."

Textie Ruth: "What! And get bit?"

She was so short that when she felt ill she didn't know whether she had a headache or corns.

A chortle is a girl who thinks she'll get rich when her shape comes in.

Yes, a couple can live on love, provided the bride's dad loves her.

Roger Hartman: "I hear the church you go to is very small."

Jane Wilson: "Yes, everytime the preacher says, 'Dearly beloved,' I feel like it's a proposal."

Dad: "Young man, you must conquer yourself. Why, I conquered myself when I was your age."

Foster Hill: "Well, I must be a harder man to lick than you were."

Folks who don't know which way to turn have no business in a revolving door.

## In Other Camps

Try-outs for two one-act plays, "The Enemy" and "Antic Spring," were held last week in a called meeting of the Dramatic Club of Snyder High School.

Climaxing a week of waiting in which the high school and seventh graders contributed their pennies to boost their favorite candidate for beauty queen, Lorraine O'Neill, junior choice, came out in first place in a photo finish race Friday afternoon in a special assembly conducted by members of the Hornet staff.

### MARY'S LAMB

Upon one bitter winter day Had came a fall of sleet, When Mary and her little lamb Appeared upon the street. The little lamb was wet and cold, And Mary was the same, But they were both so brave and bold, As down the street they came. They looked up and down the street, For safety always pays. The street was wet and slick with sleet, The lamb was in a daze It followed right at Mary's feet, Walking stiff and straight. He never thought that he would meet This, which was his fate. His feet went up into the air. He landed on his back. When he woke up the sky was fair His nose was cold, and he Thought his head would crack.

## Central Chatter

Central School,  
January 23, 1941.

Dear You,  
Since we have two new teachers at Central, I think you would like to know about them—that is, if you are half as curious as I am.

Miss Ruth Conkright has black hair and green eyes. She is five feet 5 inches tall and weighs one hundred and thirty pounds. Her hobbies are sewing and reading. Her pet dislike is sandstorms. She likes music very much.

Mr. Charles Reeve is a dark blond, has blue eyes and is married. He is nearly six feet tall and weighs one hundred and eighty-five pounds. His hobbies are tennis and chemistry. He dislikes students that talk too much and he likes the way the Central School children are organized and know what to do.

Sincerely,  
Me  
P. S. I'll be seeing you next week.

Room 7B gave Miss Imagene Cotton a fruit, gum, and candy shower just barely in time because there is a rule against giving showers at Central now.

## "Junior-Boys Suffer In Order To Give Teacher Real Shock"

Horrors! What was that, that just passed me? Could it have been.....? But, no, that would be impossible. Yet there is another, and another, and still more coming. Surely my eyes are deceiving me! That could never happen in this West Texas Institution. Oh, I know it was too good to be true. They are pulling and squirming and loosening their collars. And everyone of them is gasping for air and acting as if he were choking to death!

Last Wednesday, Miss Rigler staggered to the door of her room, looking pale and shaken. And stood there trembling and gasping for breath. She could hardly believe it. Yet she had seen it with her own eyes.

The last bell had rung for second period, she took her English book and started to proceed with the lesson. After a short while, she noticed John Estes seemingly choking. Looking more carefully to see what was the matter with him, she nearly fell over backward with shock. But quickly regaining her composure, she started looking around at some of the other boys to see if they could help John. Then she nearly lost consciousness. She opened her eyes and ventured another peep. It was true—every boy in the room was wearing a tie.

When the period was over, the boys walked sedately from the room and everybody stared in open-mouthed amazement. Some were frightened, while others

declared that they would tell their grandchildren of that day. Anyway, Miss Rigler can't say that she has never seen how handsome our Junior boys are when they are dressed up. Nobody knows why the boys all wore ties on the same day. If one were to ask Donald McCullough, he still wouldn't know. Perhaps there is more to it than meets the eye.

## Freshmen Have "Hobo" Party On January 11

The Freshman class had a hobo party Saturday night, January 11th in the gymnasium. Most of the group came dressed as hobos; some of the best dressed were Herman Hyepock, David Phillips, C. J. Lance, Barbara Robertson, Christine Smith, Mary Ruth Russell, and LaNelle Palmer.

Herman Hyepock and Norma Harmon chose sides and contests were held. Christine Smith had charge of the games. The mothers who were present served as judges in the various contests. Light refreshments were served.

### Army Feeds 'Em Well; Ask Louie Huckert, Jr.

Young fellows just getting into the Army or waiting until you are called can stop worrying—you will have something to eat besides potatoes and beans. Take Louie Huckert Jr.'s word for it.

In a recent letter to relatives at Summerfield, Huckert wrote from his camp at St. Louis, Mo., sending a copy of the Christmas Dinner menu which was served the boys. It includes roast turkey, snowflake potatoes, giblet gravy, candied yams, French peas, creamed corn, cranberry sauce, celery hearts, head lettuce,

olives, pickles, hot rolls, butter, mixed nuts, oranges, grapes, pumpkin pie, mince pie, orange cake, fruit cake, ice cream, apples, chocolate candy, bananas, French drip coffee and apple cider.

His mother, Mrs. Louie Huckert says she wished she had let him join the army sooner as he seems to be so well cared for. He had influenza and was immediately sent to a hospital to be under a doctor's care.

She says, maybe this will be some consolation to other mothers who have to see their sons leave for camp.

to their ability to pay. This service is available without cost to all farmers, whether or not they take part in other phases of this agency's program.

Mr. Drinkard explained that a local farm debt adjustment committee meets with the debtor and his creditors for a discussion of their mutual problems. These meetings often result in an agreement for extending the time of payment, reducing interest rates, scaling down the debt, or refinancing part of it through an FSA rehabilitation loan. In this way, the farmer is saved from foreclosure, and the creditors get substantial payments on what might otherwise have been bad debts.

In an effort to conserve and build up the soil in this country, and to assist landlords and tenants improve the tenancy system, the Farm Security Administration is "encouraging" better leasing arrangements.

Mr. Drinkard said that emphasis is placed on long-term or renewable contracts and on agreements which will encourage the tenant to protect the soil and improve the property. Flexible farm-lease forms are obtainable free at the FSA office and the personnel will be glad to assist in drawing them up for the landlords and tenants.

"I feel certain that there are many farmers and landlords in Deaf Smith County who need the services of this agency," Mr. Drinkard said, "and I wish to issue an invitation to everyone to visit our office in the court-house and give us a chance to be

Pointing out that trees which have been pruned because of damage by the ice-storm will need all favorable conditions possible to survive, A. R. The ground should be thoroughly soaked around the trees, Mr. Bateman said, and watered as often as necessary while dry weather continues. In general, the more severely a tree was pruned, the more help it will need to survive.

### Let's Cook Something

Be prepared for second helpings of these oven-baked beans for most folks are as enthusiastic about their mealy goodness as were our forefathers who didn't know they could eat beans unless they were baked. If you tire of winter foods while waiting for the gardens to produce fresh fruits and vegetables, try this savory dish some Saturday night or any other night and see what a delightful feast you'll have. Several people have asked for this recipe which belongs to Mrs. Hattie Rutherford and its wonderfully easy to prepare.

#### OVEN-BAKED BEANS

- 1 cup navy beans
- 4 fresh pork chops
- 1 medium sized onion
- salt, sugar, mustard

Carefully sort one cup of navy beans, wash thoroughly and soak in water overnight. The next morning add three cups of water and boil for one hour. Drain in a colander and allow cold water to drain them thoroughly in the colander. Drain and put 1-3 of the beans in a stone baking pot, sprinkle lightly with salt and pepper and place two pork chops on the beans. Sprinkle the pork with salt and pepper and ground mustard. Then add half of the remaining beans, placing the other two pork chops on top and season as before. Sprinkle with sugar and add the onion which has been finely chopped. Place the remaining 1-3 of the beans on top of the onion and cover all with hot water. Place the lid on the bean pot. Bake in moderate oven three or more hours.

Mrs. Rutherford likes to serve cornbread muffins or corn bread sticks with the beans and then top it all off with apple-pie for dessert.

## Literary Interpreters Of Southwest Furnish Lesson For Bay View Club

An interesting program on the life and works of outstanding characters of the Southwest was presented by Mesdames John P. Slaton, Bob Wilson and G. W. Heard at the Bay View Club meeting held at the courthouse Thursday afternoon.

During the business session parliamentary law was discussed and committee reports were heard.

Mrs. Slaton told of "Literary Interpretations of the Southwest" as outlined by Erna Ferguson in her "Southwest Heritage." She said there were as many reasons for writing as there were writers who told of the trials in the early development of the Southwest, resources and indomitable will and courage of the pioneers. She mentioned Morris Bishop, George Winship, Herbert Bolton, Frank Doble, Thomas J. Greep and others. She spoke of the army of occupation, war stories and men like Kit Carson, stressing the fact that today's literature of the Southwest deals with water, mines, buried treasures and cowboys, suggesting that these latter

### MRS. HENRY SEARS IS CLUB HOSTESS

writings be read to find inspiration in the knowledge of achievements made in the past.

Mrs. Wilson told of the "Will Rogers Memorials", mentioning the Claremore, Okla., museum which contains Will Rogers' own relics; The Shrine of the Sun, in Colorado Springs which contains sculpture glorifying the west that Will Rogers loved; The Coliseum recently dedicated at Ft. Worth, The Air Beacon which sends its beam of light across the Hudson River, Memorial Park in Amarillo and the planned Memorial Park at Santa Monica, Calif., which will include the Will Rogers ranch. In concluding Mrs. Wilson said "Will Rogers' own life will always be his finest memorial, no architectural structure can compare with the individual memories shared by those who knew him and those who knew about him.

Mrs. Heard discussed "Will Rogers, Philosopher." She described Will Rogers as "one who could detour words that took you around their meaning." She told of his wit and humor, his plain and unassuming manner even with fame and fortune in his hands. She quoted the late philosopher as saying "I am all ignorant, but not about the same thing," and pointed out that the greatest word in his life was "charity." Mrs. Heard concluded her remarks by saying, "The nation needed Will Rogers to help its citizens keep their feet on the ground—we need him now."

The next meeting of the club will be held on January 30, at which time the Public Welfare-Health Program, outlined in year books for January 2, will be given.

Those present were Mesdames D. H. Alexander, C. R. Barber, R. P. Coneway, Colby Conkright, T. M. Dameron, E. W. Harrison, G. W. Heard, Knox Kinard, Paul Mathers, John McLean, C. F. Moore, J. H. Olson, G. A. F. Parker, F. T. Roloson, J. P. Slaton, J. W. Spradley and Bob Wilson.

### Book Review Given For Study Group

"The Vagabond Wife" was the theme for a program of unusual interest Thursday afternoon when Mrs. Ray Johnson and Mrs. Lloyd Lookingbill were co-hostesses to members of the Summerfield Study Club at the Johnson home.

Mrs. A. L. Behrends conducted roll call which brought out facts about women who have followed their husbands into the jungles or wherever their life work carried them. Mesdames Will Rogers, Chas. Lindberg, Agnes Newton Keith and Dorothy Thompson were mentioned.

The magazine reader, Mrs. Mack Noland, chose as her article "These Women Can Take It" from May 1940 Reader's Digest. Climax of the program was a book review given by Mrs. Lloyd Lookingbill who told the story of "I Married Adventure" by Osa Johnson. Mrs. Lookingbill said "When Osa Leighty fell in love with a young photographer from a neighboring Kansas town, she looked forward to a home—but not for long—for she and her husband sold their wedding presents to help raise money for their first South Sea's trip. When she married Martin Johnson she married adventure. Not an idle, worthless and self-satisfying adventure but an adventure which gave to the world its most complete records of people and animals and places. Mrs. Johnson was however, a very happy woman and she gives to her readers the impression that she has not regretted that home to her has been where her husband kept his camera."

During the business session officers for another year were elected. Those chosen were Mrs. Ray Johnson, president; Mrs. D. C. Waiser, vice-president; Mrs. Jim Clark, recording secretary; Mrs. Guy Waiser, treasurer; Mrs. Tandy Legg, corresponding secretary; Mrs. L. L. Cannon, parliamentarian; Mrs. Lee Curry, historian. Officers will be installed at the last meeting of the club in May.

Refreshments were served to Mesdames A. L. Behrends, L. L. Cannon, Brit Clark, Jim Clark, Lee Curry, Tandy Legg, Chas. Noland, Mack Noland, B. E. Waiser, Guy Waiser, D. C. Waiser, Taylor Smith, O. B. Sumner, the hostesses and a guest, Mrs. Clara Freeman of Hereford.

### Seated Tea Honors Mrs. John Olson

One of the nicest affairs of the season was the seated tea given by Mrs. R. B. Miller and Mrs. D. H. Alexander at the Presbyterian church Saturday afternoon.

The tea, given for members of the church, honored Mrs. John Olson who is president of the Amarillo Presbyterian, and complimented new members and pioneer members of the church. The church was arranged for the reception with red and silver colors predominating in the pot plants and other floral decorations.

In the receiving line were Mrs. Alexander, president of the local organization, Mrs. Olson, the honoree; Mrs. Harvey Oash of Canyon, secretary of stewardship for the district; and Mrs. James Alken.

A short program entertained the guests. Miss Jane Wilson and Miss Rachel Ireland presented piano and vocal numbers and Miss Margaret Ann Miller entertained with appropriate readings.

### Wyche 4-H Club Has Discussion On Standard Bed

"A standard bed is the most important piece of furniture in the house," Miss Sadie Lee Oliver told the Wyche 4-H club girls at her home on January 16.

A standard bed has: 1. a sturdy bedstead; 2. a slat for every inch of springs; 3. good heavy springs; 4. a good spring mattress with a cover between it and the springs; a mattress cover, and a quilted mattress protector on top; 5. large, soft pillows with a slip protector and the pillow-slip.

A well-dressed bed has three sets of sheets, three yards long, and three sets of pillow cases. A bed making demonstration was then given.

The club decided on birthday dues as a way of raising money this year. Each member is to bring to the first meeting in March something to go in the club chest, which is to be sold in the spring. The second Saturday in February the club will have a bake sale.

Nancy Olson is the candidate for Gold Star Girl of Deaf Smith county from Wyche 4-H club.

Fruit was enjoyed by Ina Mae Hewitt, Georgia May Reeves, Patsy Harris, Alice Ann Paetzold, Marjorie Edwards, Margaret Johnson, Nancy Olson, Mrs. Louie Olson and Miss Oliver.

That the City of Hereford issued a paving certificate dated August 14, 1926, covering said property in favor of Jordon Construction Company as grantee therein, securing the sum of \$405.74 and that on August 17,

1926, all of such indebtedness was paid by L. D. Mercer to said company out of funds owned by L. D. Mercer and Beulah Mercer during their marriage. Plaintiff prays that he have judgment for title and possession of all of said land against all of said defendants and that the apparent claims, of each of the defendants in or to the same be cancelled, annulled and removed as clouds on plaintiff's title.

R. L. THOMPSON, Clerk, District Court, Deaf Smith County, Texas.

By E. Womble, Deputy.

THE STATE OF TEXAS TO THE SHERIFF OR ANY CONSTABLE OF DEAF SMITH COUNTY, GREETING:

You are hereby commanded to summon U. J. Fox, Mittie Fox, W. A. Cullen, Wm. A. Cullen, Lela M. Parks, Lila M. Parks, Henry K. Young, Liela M. Parks, J. C. Meacham, J. E. Clark, Grace Bailey, Ella M. Owens, Harold Johnston, F. H. Leightner, and Severt Nelson, and the unknown heirs and legal representatives of them or any or either of them, if they, or any of either of them be dead, in trespass to try title to the following described land situated in Deaf Smith County, Texas, to-wit:

All of Section No. 23, Block K-7, containing 647.2 acres; and for the title to and possession of said land; and in the alternative alleges that on February 24th, 1931, said land was conveyed to plaintiff, by General Warranty Deed, which was, on March 4th, 1931, duly recorded in the deed records of Deaf Smith County, Texas, and on said date under said deed went into possession of said land and has continuously since said date, to the present time, held peaceable and adverse possession thereof, with claim of ownership under said deed, cultivating using and enjoying the same, and paying all taxes thereon, each year as the same became due and payable, and before any of said taxes became delinquent, and in case he did not own said thereto, as to and against the rights of defendants, he has perfected his title under the five-year statute of limitation.

Plaintiff further pleads that while said section of land was owned by said corporation, it platted the same into a township, named it "Scherer" and recorded said plat in the deed records of Deaf Smith County, Texas, and thereafter, by deed dated June 25th, 1909, which is a link in the plaintiff's chain of title to said land, said corporation sold and conveyed said section of land to plaintiff, but recited therein that all of said section was conveyed "same and except about 15 lots heretofore sold by said Company."

That the only lots that had been theretofore so conveyed out of said township of "Scherer" are the following lots, to the following parties on the following

dates:

Lot 6, Block 20, to J. E. Clark, on Jan. 11, 1909;

Lot 7, Block 21, to Grace Bailey, on Jan. 11, 1909;

Lot 16, Block 90, and Lot 12, Block 100, to J. C. Meacham, on March 9, 1909;

Lot 1, Block 111, to Lila Parks, on Sept. 5, 1908;

Lot 6, Block 118, to Ella M. Owens, on Dec. 10, 1908;

Lot 6, Block 125, to Severt Nelson, on March 27, 1909;

Lots 1 and 2, in Block 154, to Henry K. Young, on Feb. 10, 1909;

Lots 5 and 6, in Block 51, to Sam Johnston, on March 9, 1909;

"Hotel Lot, Block, Hotel Block" to F. H. Leightner, on March 9, 1909.

The said deed is a link in plaintiff's title to said section of land, and said exception in said deed is uncertain of meaning, clouds plaintiff's title to said land, and should be construed and reformed by the court to mean that the above described lots were the only lots intended to, and that were excepted in said conveyance of said section of land.

Plaintiff seeks judgment against defendants for title to and possession of said section of land, such construction and reformation of said deed, and divesting them of the title thereto and vesting and quieting the same in plaintiff.

HEREIN FALL NOT, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and seal of said Court, at office in the City of Hereford, this 1st day of January, 1941.

R. L. THOMPSON, Clerk of the District Court of Deaf Smith County, Texas.

LEGAL NOTICE

THE STATE OF TEXAS TO THE SHERIFF OR ANY CONSTABLE OF DEAF SMITH COUNTY, GREETING:

You are hereby commanded to summon W. T. Kemper, Mrs. Emma H. Wood, George B. Wood, Mrs. Ella M. Silkwood, B. Silkwood, Emma J. Bogardus, Ray R. Bogardus, Albert H. Conaway, R. W. Frick, and Blanche Aylor, and unknown heirs and legal representatives of them or either of them, if she or he be dead; the Colorado, Hereford and Gulf Railroad Company, a defunct corporation, and its stockholders and the Southern Rock Island Plow Company, a defunct corporation and its stockholders, by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Deaf Smith County, Texas, to be held at the Court House thereof, in the city of Hereford, on the first Monday in February, 1941, the same being the 3rd day of February, 1941, then and there to answer a petition filed in said court on the 30 day of December, 1940, in a suit numbered on the docket of said Court as No. 2536 wherein Ben C. Aylor is plaintiff, and W. T. Kemper, Mrs. Emma H. Wood, George B. Wood, Mrs. Ella M. Silkwood, B. Silkwood, Emma J. Bogardus, Ray R. Bogardus, Albert H. Conaway, R. W. Frick, and Blanche Aylor, and the unknown heirs and legal representatives of either of them, who may be dead; and the Colorado, Hereford and Gulf Railroad Company, a defunct Corporation, and the Southern Rock Island Plow Company, a defunct Corporation, and the unknown stockholders of said defunct corporations, and The Massey-Harris Company, a corporation, and J. M. Murchison are defendants, and said petition alleging in substance that plaintiff is the owner in fee simple of the following described lands situated in Deaf Smith County, Texas, to-wit: All of Sections numbers, 75, 85, 95, and 96, in block K-4, and all of sections 5 and 6, in Block K-7 and that he acquired and perfected his title thereto as to and against each and all of the defendants under the ten year statute of limitation and that he is now in possession thereof, and that he has had and held the continuous, peaceable, and adverse possession of said lands, cultivating, using and enjoying the same since July 29th, 1919, down to the present time, during which time said lands have been inclosed with fences, and at no time was there as much as 5000 acres embraced in one enclosure, and that no suit has been filed by the defendants or either of them against plaintiff questioning his right to the possession of said land.

That on June 26th, 1908, while J. D. Thompson was the owner of said lands, he gave the defendant, Colorado, Hereford and Gulf Railroad Company a railroad right-of-way deed across said sections 5 and 6, which is of record in book 3, at page 253, deed records of Deaf Smith County, Texas, 50 feet on each side of a center line to be thereafter located by a surveyor, which said deed provided that unless said right-of-way was located, a railroad bed graded and used, within 12 months, from June 26th, 1908, the said lands would revert back to and vest

in grantor, and on March 8th, 1909, said Thompson conveyed all of each of said sections of land by deed recorded in book 26, at page 278, deed records of Deaf Smith County, Texas, to J. W. Aylor, now deceased, through and under whom plaintiff's title derived, and the said railroad company did not so use said right-of-way, but has long since abandoned the same.

That on June 15th, 1910, J. W. Aylor, who was then the owner of said six sections of land, executed to Mary L. Thompson a note for \$25,000.00 of said date, due on or before March 8th, 1914, and at said time executed a deed of trust to J. L. Fuqua, as trustee, on said sections 96 and 6 which is recorded in book 16, at page 178 deed of trust records of Deaf Smith County, Texas, and on said date, executed to J. D. Thompson 16 notes, all dated June 15th, 1910, for \$1660.55 each, all due March 8th, 1914, and on said date executed and delivered to said Fuqua, as trustee, his 16 deeds of trust, each to secure one of the said \$1660.55 notes, on portion of said sections 75, 95, 85, and 5, and that said deeds of trust are each of record in the deed of trust records of Deaf Smith County, Texas, in book 16 at pages 179, 186, both inclusive, and pages 191 to 198, both inclusive.

That thereafter all of said notes, together with the deed of trust liens securing them, were sold, assigned and transferred to the defendant, W. T. Kemper, and although they have all been paid, the said liens securing them have not been released, and constitute clouds on plaintiff's title, and that they are barred by both the four and ten year statute of limitation.

That the said Southern Rock Island Plow Company recovered judgement against W. S. Day for the sum of \$1577.43, with interest thereon and cost of suit, and caused the same to be abstracted and filed and recorded, on January 17th, 1932, in the judgement records of Deaf Smith County, Texas, in book 3, at page 35, and the said defendant and stockholders are asserting and claiming that it fixes a lien on said sections 95 and 96, and clouds plaintiff's title thereto, in that the said Day did not own any right, title, interest or estate in and to said lands, upon which a judgement lien could be affixed, and if it did, both the three and four year statutes of limitation has barred it.

Plaintiff seeks judgement against the above named defendants divesting them of all right, title, interest and estate in and to said six sections of

land, and vesting said title and quieting the same in plaintiff; and for cancellation and annulment of said deeds of trust and record thereof and said right-of-way deed, and record thereof, and said abstract of judgment, and record thereof and removing the same as clouds on plaintiff's title to said land.

HEREIN FAIL NOT, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND AND SEAL OF SAID COURT, at Office in the City of Hereford, this the 30 day of December, 1940.

LEGAL NOTICE

THE STATE OF TEXAS TO THE SHERIFF OR ANY CONSTABLE OF DEAF SMITH COUNTY, GREETING:

You are hereby commanded to summon W. T. Kemper, Mrs. Emma H. Wood, George B. Wood, Mrs. Ella M. Silkwood, B. Silkwood, Emma J. Bogardus, Ray R. Bogardus, Albert H. Conaway, R. W. Frick, and Blanche Aylor, and unknown heirs and legal representatives of them or either of them, if she or he be dead; the Colorado, Hereford and Gulf Railroad Company, a defunct corporation, and its stockholders and the Southern Rock Island Plow Company, a defunct corporation and its stockholders, by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Deaf Smith County, Texas, to be held at the Court House thereof, in the city of Hereford, on the first Monday in February, 1941, the same being the 3rd day of February, 1941, then and there to answer a petition filed in said court on the 30 day of December, 1940, in a suit numbered on the docket of said Court as No. 2536 wherein Ben C. Aylor is plaintiff, and W. T. Kemper, Mrs. Emma H. Wood, George B. Wood, Mrs. Ella M. Silkwood, B. Silkwood, Emma J. Bogardus, Ray R. Bogardus, Albert H. Conaway, R. W. Frick, and Blanche Aylor, and the unknown heirs and legal representatives of either of them, who may be dead; and the Colorado, Hereford and Gulf Railroad Company, a defunct Corporation, and the Southern Rock Island Plow Company, a defunct Corporation, and the unknown stockholders of said defunct corporations, and The Massey-Harris Company, a corporation, and J. M. Murchison are defendants, and said petition alleging in substance that plaintiff is the owner in fee simple of the following described lands situated in Deaf Smith County, Texas, to-wit: All of Sections numbers, 75, 85, 95, and 96, in block K-4, and all of sections 5 and 6, in Block K-7 and that he acquired and perfected his title thereto as to and against each and all of the defendants under the ten year statute of limitation and that he is now in possession thereof, and that he has had and held the continuous, peaceable, and adverse possession of said lands, cultivating, using and enjoying the same since July 29th, 1919, down to the present time, during which time said lands have been inclosed with fences, and at no time was there as much as 5000 acres embraced in one enclosure, and that no suit has been filed by the defendants or either of them against plaintiff questioning his right to the possession of said land.

That on June 26th, 1908, while J. D. Thompson was the owner of said lands, he gave the defendant, Colorado, Hereford and Gulf Railroad Company a railroad right-of-way deed across said sections 5 and 6, which is of record in book 3, at page 253, deed records of Deaf Smith County, Texas, 50 feet on each side of a center line to be thereafter located by a surveyor, which said deed provided that unless said right-of-way was located, a railroad bed graded and used, within 12 months, from June 26th, 1908, the said lands would revert back to and vest

in grantor, and on March 8th, 1909, said Thompson conveyed all of each of said sections of land by deed recorded in book 26, at page 278, deed records of Deaf Smith County, Texas, to J. W. Aylor, now deceased, through and under whom plaintiff's title derived, and the said railroad company did not so use said right-of-way, but has long since abandoned the same.

That on June 15th, 1910, J. W. Aylor, who was then the owner of said six sections of land, executed to Mary L. Thompson a note for \$25,000.00 of said date, due on or before March 8th, 1914, and at said time executed a deed of trust to J. L. Fuqua, as trustee, on said sections 96 and 6 which is recorded in book 16, at page 178 deed of trust records of Deaf Smith County, Texas, and on said date, executed to J. D. Thompson 16 notes, all dated June 15th, 1910, for \$1660.55 each, all due March 8th, 1914, and on said date executed and delivered to said Fuqua, as trustee, his 16 deeds of trust, each to secure one of the said \$1660.55 notes, on portion of said sections 75, 95, 85, and 5, and that said deeds of trust are each of record in the deed of trust records of Deaf Smith County, Texas, in book 16 at pages 179, 186, both inclusive, and pages 191 to 198, both inclusive.

That thereafter all of said notes, together with the deed of trust liens securing them, were sold, assigned and transferred to the defendant, W. T. Kemper, and although they have all been paid, the said liens securing them have not been released, and constitute clouds on plaintiff's title, and that they are barred by both the four and ten year statute of limitation.

That the said Southern Rock Island Plow Company recovered judgement against W. S. Day for the sum of \$1577.43, with interest thereon and cost of suit, and caused the same to be abstracted and filed and recorded, on January 17th, 1932, in the judgement records of Deaf Smith County, Texas, in book 3, at page 35, and the said defendant and stockholders are asserting and claiming that it fixes a lien on said sections 95 and 96, and clouds plaintiff's title thereto, in that the said Day did not own any right, title, interest or estate in and to said lands, upon which a judgement lien could be affixed, and if it did, both the three and four year statutes of limitation has barred it.

Plaintiff seeks judgement against the above named defendants divesting them of all right, title, interest and estate in and to said six sections of

land, and vesting said title and quieting the same in plaintiff; and for cancellation and annulment of said deeds of trust and record thereof and said right-of-way deed, and record thereof, and said abstract of judgment, and record thereof and removing the same as clouds on plaintiff's title to said land.

HEREIN FAIL NOT, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND AND SEAL OF SAID COURT, at Office in the City of Hereford, this the 30 day of December, 1940.

R. L. THOMPSON, Clerk of the District Court of Deaf Smith County, Texas. By E. Wombie, Deputy.
