

The Hereford Brand

VOLUME 13

HEREFORD, TEXAS, FRIDAY, AUGUST 29, 1913

NUMBER 30

WITH COUNTRY NEWSPAPERS

Department of Scissors and Paste-pot—Clippings and Comments of Interest—Politics et cetera.

IS STEPHENS THE MAN?

Vernon Record—No office within the gift of the people belongs exclusively to any man or set of men. But sometimes the character of service a man renders makes it to the interests of the people to continue him in service. This is exactly what we believe the people of this congressional district will do in the next contest. We take the liberty of asserting that no man ever served as long in congress as Hon. Jno. H. Stephens, who had his motives and actions called into question as little. Everywhere in this large district they will tell you that Mr. Stephens is only the best qualified man in the district by reason of his long service and careful preparation. The Record is not a Stephens champion by reason of his making his home in Vernon, but because he is the equal of any man in Congress today as an all-round lawmaker.

The Brand knows of a dozen men that are even better prepared for the place than Mr. Stephens. He is not even well acquainted with the people whom he represents; he has not visited over the district of late years enough to know; he is making his home in Washington and summers in the popular watering places. The Record says that no one has had his "motives and actions" called into question as little as Mr. Stephens. No wonder, he has had few motives and small actions; so much so that he is scarcely noticed in Congress. The Panhandle needs a man of large motives; a man of actions; we have passed the frontier age and must have a progressive man of the hour.

PRESCOTT VS STEPHENS.

Lockney Beacon—Congressman John H. Stephens has an avowed opponent for his place in Congress as representative of the Jumbo District in the person of W. H. Prescott of Cottle county. Others are also grooming themselves for the race when it comes off in 1914. Should the right man come out Mr. Stephens will not have as easy "pickings" as formerly and might actually have to visit the district in order to win.

STRANGER TO THE PEOPLE.

Childress Post—From a clipping found in The Post this week it will be seen that already Congressman John H. Stephens' opposition is developing and before the primary is held it is probable he will have several opponents in the field. While most people have generally understood that Mr. Stephens is a good man, yet none can point to very much important work he has ever accomplished for his district and many have formed the opinion that he has been in Congress so long that he has become a stranger to his people and to the needs of his district. There is much difference between a good man and an able man and this district now needs an able man in Congress.

A PEANUT FACTORY.

Crosbyton Review—In its last issue the Texas Spur mentioned the probable establishment of a "peanut factory" in that town. The Review lifts its bonnet and humbly asks: What is a peanut factory?

A peanut factory is a place where they make peanuts, of course. They are sometimes called a goober patch and the process of manufacturing is a secret of nature not well known to the peanut grabblers. All you have to do to establish a sort of "peanut factory" is to plant a few peanuts before they are roasted, keep the weeds out of the patch, and later on

watch the pistols of the peanut blooms shoot themselves into the ground, where the shell is not discharged, but put around the peanut. That's easy for a factory. Try it.

NOT A FABRICATION

Crosbyton Review—The Hereford Brand tells a story of the poisoning of a bunch of cattle from eating wilted kaffir corn. They were in the field but a few minutes when the owner discovered and drove them out. Thirty died, several head acting as though afflicted with hydrophobia, chasing everything within sight. This is something new in the Plains country, and many readers of the Brand may possibly regard it as a measly joke by the editor of that paper; yet it is told by the Brand in a matter-of-fact style and bears none of the earmarks of a joke.

No, my dear sir, the story was not a fabrication, but facts from beginning to end. Of the thirty cows that were poisoned and went crazy, 22 died in less than one hour after eating the wilted kaffir. Stockmen in this section tell that young, wilted sorghum, Johnson grass, and cane will do the same thing. It appears that when these plants are quite young and are overcome with dry weather stopping their growth, that they develop large quantities of prusic acid which is a deadly poison to cattle.

Fine Peaches and Plums.

Hereford is certainly making a reputation this year with her fruit. Peaches larger than base balls are not uncommon; in fact, whole crates, with all of them as large as base balls were sold to the grocery stores this week. Plums and grapes are holding their own with the peaches. The Brand force has enjoyed several treats at the hands of friends, who have been thoughtful about their peaches and plums and grapes.

Holland's Inspector Expected.

After all of the fuss about making Hereford a clean town, there is so much to do yet to put Hereford in the winning column that it is feared that the chances to win in the contest are slim indeed. A number of the streets still have large quantities of growing weeds: even many of the yards are uncut and unkept. Holland's official inspector may be expected any time now; in fact, he is due in this section now, and he will certainly find Hereford in poorer condition this year than last.

Desirable residence property close in to exchange for land or 4 cylinder run-about. Residence is on 100x140 close in, four rooms, two galleries and shed room, well and windmill, out sheds. Address box 500, Hereford. 28-3t

Likes Hereford.

The following personal mention in the Daily Ardmoreite will be of interest to Hereford people as it gives an idea what our visitors write back home when they are visiting here. Mr. Redfield is Mrs. Broadwell's father and his visit here has been much appreciated.

In a letter from Col. Redfield, who is at Hereford, Texas, he states that the Ardmoreite visits him daily and he is proud to show the paper to the citizens of that town. He states that he is enjoying the luscious peaches and is drinking water from the big gushers. A good crop of plums and grapes have also been grown there this year. The country is high and healthy and he and Mrs. Redfield are both enjoying their vacation very much.

Want to trade city property in Del Rio, Texas, for grazing land near Hereford. Write W. K. Shipman, Del Rio, Texas. 4t

TOO MUCH LABOR BY FARMERS

Crop Raised With Little Cultivation Better Than Others. Bulletin Proves This Claim.

The man who, after winding his clock every night for the greater part of his life, found that it was an eighty-day clock, doubtless felt that he had sacrificed a great deal of energy in unnecessary effort. And so may the millions of farmers in this country feel who are advised by the Department of Agriculture of the United States that the work they have given to plowing their crops in the way of cultivation has been wasted energy.

That is the substance of the information contained in bulletin No. 257 of the Department of Agriculture. The title of this bulletin is "The Weed Factor in the Cultivation of Corn." It is so revolutionary in substance and conclusions as to mark the beginning of a new epoch in agriculture, if the results so far obtained are verified by further and more comprehensive experiments.

Briefly stating the matter, this bulletin maintains, and gives the evidence for its assertion, that the cultivation of corn is entirely unnecessary, except for the eradication of weeds. The stirring of the ground, which we have been taught to regard as essential, is a waste of energy. As a basis for making this statement, the results of 125 different experiments in twenty-eight states, extending through six years, are given. They go to show that where corn was plowed and tilled according to the best methods of modern farming, the average yield was not a bushel to the acre greater than where it was not plowed or cultivated at all, except being hoed merely to cut down the weeds.

Scope of the Experiments.

This bulletin opens with an apology for putting forward what its author plainly regards as a heretical cultural theory. "The soil-mulch theory of tillage has been a fundamental one in American agriculture," it admits; and "it would seem to follow naturally that a system of cultivation which promotes nitritification and conserves moisture would be an extremely valuable system to apply to a tilled crop. In practice it has been found that in most cases frequent shallow cultivation gives better yields than other methods of corn tillage. Upon this experience tillage philosophy has been developed and tillage practice based." Nevertheless, in this publication, "a direct comparison has been made between what is considered the ideal method of cultivation for corn in each section in which the experiment was conducted, and simply removing the weeds without stirring the soil or producing a mulch. The measure of the relative merits of the two systems has been, not the preservation of the soil moisture or the effect on nitritification, or the making available of plant nutrients, but the relative yields of corn produced." Such is the brief introductory statement of the editor of the bulletin.

The uncultivated plats in these 125 experiments yielded over 99 per cent as much corn as the plats that were cultivated by the most intensive system.

In the work conducted by the Department of Agriculture, beginning in 1906, an outline was furnished the farmers co-operating in it, giving instructions for the experiment, so that it should be uniform everywhere, and supply a practical basis for conclusions. This work was carried on by real farmers in all parts of the country, acting under instructions of the department in such manner as to secure the uniformity desired. In Texas the work was in the hands of such well-known farmers as J. M. Campbell of Richardson, Gus Wohlschlaeger of Boerne, A. M. Ferguson of Sherman, L. R. Kirkpatrick of McKinney, L. A. Prince of San Augustine. After planting, one plat or series of plats of corn was to receive no cultivation whatever, the weeds and grass being removed at frequent intervals by a sharp hoe. This hoe was to be used with a horizontal stroke to cut off the vegetation at the surface, and particular care was to be paid not to stir the soil more than was absolutely necessary. The other plat or series of plats, lying along these non-cultivated plats and of the same kind of soil, was to receive the ordinary cultivation and in addition to have the weeds and grass removed by chopping, so as to eliminate the weed factor.

It may be set down here, to meet the objections of some who are likely to say that it may be alright to try to raise corn without cultivation where there is plenty of rain, but it don't do in Texas, that comparative data were kept, showing the effect of rainfall upon production, and the bulletin remarks that rainfall does not appear to have entered into the problem to any appreciable extent.

The Comparative Results in Texas. Texans are more directly interested in the results of these experiments at home, for it does not concern them directly that such things may be possible in New York, Indiana, Kansas, California or Georgia. They went the evidence of results under such conditions as govern them.

J. M. Campbell of Richardson, Dallas County, in 1908 reported that he gathered 204 pounds of corn from his cultivated plat and 268 pounds from his uncultivated plat. That was a year of heavy rainfall. In 1909 he obtained 214 pounds from his cultivated plat and 143 from the uncultivated. That was a year of very deficient rainfall. But the next year, 1910, that being also a year of insufficient rain, his and the uncultivated 194 pounds. The factor of rainfall, therefore, appears to be unimportant. The land of Mr. Campbell's farm is level black waxy.

Gus Wohlschlaeger of Boerne, cultivated plat made only 115.7 pounds Kendall County, in 1909 made 340 pounds on his cultivated plat and 346 on the uncultivated, the season being very dry. In 1910, the season still being very dry, he reported a yield of 452 pounds on his cultivated plat and 448 on the uncultivated. The land in this experiment was black waxy.

A. M. Ferguson of Sherman, Grayson County, in 1910, produced 86 pounds on his cultivated plat and 82.5 on his uncultivated. Very dry during growth of the corn. Land black waxy, with some sand. It may be noted here, to explain the differences in the yields of the different co-operators, that their plats were not always of the same size; one would have more land in the experiment than others. The comparative plats on each farm, however, were always of the same size.

L. R. Kirkpatrick of McKinney, Collin County, on his cultivated plat, reported 448.7 pounds and 308 on his uncultivated. This was an extremely dry season. Land a black bottom loam.

A. H. Prince, San Augustine, in 1911 obtained a yield of 216 pounds on both cultivated and uncultivated land. His land was a level sandy loam. The season was very wet in the early part and dry in the latter.

The most interesting, because the most extensive reports are from Utah. This was with irrigated culture. The experiments covered the years 1890 to 1897, inclusive. The average for the seven years under different conditions were as here given: Shallow tillage 52.91 bushels per acre, medium tillage 57.31 bushels, deep tillage 57.45 bushels, no tillage 51.86 bushels, mulched with dirt 55.89 bushels, hoed but not cultivated, 58.87 bushels.

The total of all the experiments, taking in twenty-eight States, gave an average of 99.108 per cent of production on the uncultivated plats, taking the cultivated production as the basis of comparison. On this basis, there would be less than half a bushel difference in a forty-bushel per acre yield.

Would half a bushel to the acre pay the cost of four plowings of the land? Another important fact disclosed was that there was but little difference in the time of maturity of the cultivated and the uncultivated corn. Of the whole number of co-operators, sixty-eight reported the time of maturity, and of these thirty-nine reported no difference in the date of ripening; in ten cases the cultivated corn ripened first, and in nineteen the uncultivated was the earliest.

Weeds Thrive in Cultivated Land. A very interesting observation made during these investigations is that in some cases weeds on the uncultivated plats ceased growing sooner than on the cultivated ones, so that at harvest time the uncultivated plats were free from weed growth and the cultivated plats were more or less weeds.

On the Arlington experimental farm where experiments were carried on directly by the Department of Agriculture, weeds started growing immediately after planting on both plats at about the same rate, but as the season progressed and the weed seeds in the surface inch or two of soil germinated and were killed, the weed growth on the uncultivated plats became gradually less, while on the cultivated plats the weeds continued growing throughout the season. The reason for this, says the author of the bulletin may be that the condition of the uncultivated soil discouraged germination of the weed seeds beneath the surface inch or two, and the inability of the seedlings to push up through the hard crust, whereas on the cultivated land the friable surface soil permitted the seedlings to push up from a considerable depth.

Interpretation of the Results.

Each farmer may study these facts and give his own interpretation of the results obtained by this series of experiments. Where one doubts the fact, it is an easy thing to carry on an experiment for himself. Lay off two plats of ground side by side, prepare the land for planting in the same manner, plant on the same day with the same kind of seed, then cultivate one plat as usual, and do nothing to the other but hoe it or remove the weeds by other and better means, and note the result. If the uncultivated

REVIVAL MEETING IN PROGRESS

Open Air Religious Revival Being Conducted on Main Street—Large Crowds Attending.

The Baptist people are conducting an open air revival on Main Street, beginning last Sunday night with a very large congregation attending. Rev. Robt. Merrell is doing the preaching. He is an evangelist of state-wide reputation and is an earnest speaker. Since the first night the audiences have been large and the interest increasing. A large platform for the singers has been erected on the north side of the Bogard building and long seats built for the people. No covering is used except for the speakers stand and the platform. Other churches of the town are assisting in the services and the ministers from the Methodists and Presbyterian churches are in constant attendance. The day meetings are held at the Presbyterian church each day from 10 to 11 o'clock a. m. The day-meetings are held especially for Sunday School workers and church members but non-church members are welcome.

Pleased With Irrigation.

Tulia Enterprise.—S. F. Flores, Louis, Levi and Foster Klous and Albert Bivins made a trip over to Hereford Tuesday to inspect the irrigated crops being grown in that community. They came back very much pleased with what they saw and the trip may result in some irrigation wells being put down in this community. If irrigation can be made a paying proposition in the Hereford and Plainview communities it can be made to pay in Swisher county, and when substantial citizens like the above bunch gets interested, there may be something doing.

Standing of Contestants in Stambaugh's Piano Contest.

Week ending Wednesday, Aug. 27th, 1913.

No.	Votes
66	4,949,430
124	2,825,685
64	1,031,040
75	777,680
110	676,895
105	659,255
154	652,675
122	648,900
107	572,105
2	462,625
155	250,505

Beginning next Saturday, Aug. 30, we will give on all goods sold 500 votes to each \$1.00 purchase. Buy your fall dry goods now and increase your votes. Ask your friends to buy their fall bill of us and turn the votes to you. Sell trade books which increases your votes very fast. Special votes for one week on school tablets—for each 5c tablet 500 votes. Ladies and girls hats, 10,000 votes on each up to \$5.00, all above \$5.00 10,000 votes.

Society

After a separation of months, and, perhaps years, the present house party of relatives entertained by Mrs. W. E. Betts is an exceedingly happy one. The guests are: Mrs. May Summers, of Alanta Georgia, a sister, Mesdames R. A Summers of Tyler, W. E. Garrison, of Wildorado and C. A. Burton, of Claredon, daughters, and Misses Sallie and Moena Lane, of Claredon, neices.

A Reception.

Mrs. W. E. Betts was at home Monday afternoon, from four to six o'clock, to a large number of her friends, complimentary to the visitors in her home. Mrs. E. B. Black introduced the guests to the receiving line, in which stood Mesdames May Summers, R. A. Summers, W. E. Garrison, C. A. Burton, Earnest Betts, and Misses Sallie and Moena Lane. Different varieties of garden flowers, tastily arranged, gave an added beauty to the receiving rooms. The dining room already pretty with cut glass and daintily decorated china, the work of Miss Nora, had its attractiveness completed by the use of a large fern on the center of the dining table. Piano selections by Miss Zollie Garrison were enjoyed by all. Refreshments of cream and cake were served.

Misses Nora and Mable Betts returned recently from a visit of six weeks with relatives in Alanta and other places in Georgia. They were accompanied home by Mrs. May Summers, of Alanta, who is on her way to Phoenix Arizona to spend the winter. On the way home Miss Nora and Miss Mabel stopped in Eldorado, Okla., for a visit of a few days with their sister, Mrs. P. D. Bailey, and again in Claredon where they were joined by their cousins Misses Sallie and Moena Lane, for a visit in Hereford.

Entertained Friends.

Mr. and Mrs. J. W. Barnett entertained a few friends at their residence last Tuesday evening. Conversation and a few of the old time play games, such as "drop the handkerchief" etc., engaged the attention of the young and old and the pleasant social affair was much enjoyed by all. As the guests arrived, they were served with fruit punch

by Miss Madaline Barnett. A feast of watermelons was the climax to the evening. These were raised by Mr. Lucas on his irrigated farm. Those who enjoyed this pleasure at the Barnett home were: Miss Lula Bender of St. Louis who will leave in a day or two for her home, Mr. Dyar, W. A. Ricketts and family, B. F. Lucas and family, Rev. G. T. Nance and family, E. E. Ramsey and family.

A Morning Party.

Mrs. Dillard Simpson, of Terrell, and Miss Lea Nicholson, of Sanger, were guests of honor at a very pleasant party, given by Miss Beulah Head, on last Friday morning, from nine to eleven o'clock. The receiving rooms, cool and inviting, were made more inviting by the use of the different garden flowers. These little parties, always pleasant, are doubly so now, since they afford the ladies of Hereford the opportunity to meet the many visitors. A number of games of "42" and music by Miss Percy Gallahar, made the morning with Miss Beulah one of real enjoyment. Refreshments of cream and cake were served. Miss Head was assisted in her duties by Mrs. Leslie Moreman.

A Lawn Party.

Complimenting her sister, Mrs. E. G. Watkins, of Cleburne, Mrs. George Garrison entertained the members of the Bay View Club, and a limited number of additional guests on last Thursday afternoon, from five to seven o'clock. Other honor guests were Mrs. Henry Hall of Dallas, and Misses Hortense and Marion Russell of Amarillo. The guests were received in the living room and served to punch, by Miss Garrison, after which they passed to the lawn and spent an hour pleasantly, doing fancy work and talking. A feature of the entertainment very much enjoyed was a book review "Keeping up with Lizzie", prepared by Mrs. Roloson. As a little surprise, Mrs. Garrison had prepared a booklet, "My Favorite Recipe," in which the club members had written in rhyme the recipe of tried merit. Mrs. Arnold, in a few well chosen words presented this booklet to Mrs. Watkins. Misses Gallher and Gregg gave some piano numbers which added to the pleasures of the afternoon. Mrs. Watking has made many friends while in Hereford all of whom are loath to have her

return home. Cream and cake were served.

For Misses Sallie and Moena Lane.

The Betts home was opened again Monday evening. Misses Nora and Mabel and Mr. Edgar entertaining the young people, complementary to their cousins, the Misses Lane, of Claredon. About twenty-four responded to this invitation to make merry. Conversation a number of games of "forty-two" and music, making the evening one of unusual pleasure. Dainty refreshments were served.

Kelso Items.

(Too late for last week.)

Aug. 21.—We are glad to report a nice shower last Sunday night in the immediate vicinity. A good rain would be greatly appreciated, as it is very dry at present. Crops are pretty badly damaged, but not an entire failure so far. (A good, big rain has visited Kelso since this was written—Ed.)

Mrs. Carrie Ballew of Ft. Worth spent a few days with her parents, H. F. Shelton and wife, on her return from Denver, Colo.

J. C. Cramberg is moving his family to Hereford in order to send their little daughters to school. We are sorry to lose a good neighbor.

Miss Annie Drum of Endee is the guest of her cousin, Miss Lena Gregory.

The cream supper given by Mr. and Mrs. McDaniel last Saturday night was well attended and every one reported a fine time and plenty of good cream.

Miss Maydolin Green of Hereford spent last week with Mrs. W. G. Harris.

Most of the cattlemen intend to dip their cattle next week.

Otto Ellison and Luther Gregory are working the road at the east end of the eight mile lane this week, which when finished will be a great improvement.

"Nameless."

Kemp has it for less. 10tf

SPEND YOUR MONEY WHERE YOU MAKE IT.

By Holland.

Money that is kept in the community helps every one in that community. It is a part of the common fund on which any one with anything to sell—merchandise, labor, farm products—can draw. Money that is sent away from home is withdrawn from this common fund. It helps to impoverish the entire community. Send all the money away and all the people in the community would be "broke." The dollar that you spend with the local merchant will continue to circulate in the neighborhood, paying lawyer, doctor, blacksmith, carpenter, teacher. Ultimately it may return to you to be again, started on its journey of purchase and payment. The dollar sent to the mail order house goes to swell the bank account of a concern in Chicago or New York. It is lost to your community forever. Your neighbor can't get it, and you will never see it again. Can't you see that self interest tells you to do your buying at home? Can't you see that it is the part of wisdom to spend your dollar where you are likely to get it again? The advertisements in this paper will aid you in deciding where to make your purchases. Only the more reliable merchants can afford to advertise continuously, and only the better grade of goods can stand such publicity.

STOMACH TROUBLE
FOR FIVE YEARS

Majority of Friends Thought Mr.
Hughes Would Die, But
One Helped Him to
Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

Spring Lake Drappings.

Aug. 19.—A very sad accident happened at the home of Mr. and Mrs. Harvey Hankins last Friday evening when their little daughter fell into the water tank and was drowned before being discovered by the mother. Mr. and Mrs. Hankins have the sympathy of the community in their bereavement.

The Holiness meetings closed Sunday night. There is some talk of organizing a church here.

Burton Axtell of Topeka, Kansas, who has spent the summer here with his brother, returned to his home Monday.

Mr. and Mrs. Ewing from Missouri arrived here Saturday to visit their daughters, Miss Ewing and Mrs. J. W. Houston.

The young people had a social Monday night at the home of O. C. Axtell. All report a good time.

R. O. Frenzel and wife left Monday for a trip through New Mexico. They expect to take up a homestead if they find a suitable location.

Hustler.

The Mexican Situation.

The trouble in Mexico has developed one fact of importance in the U. S., and that is that both the Federals and Constitutionists are firm believers in Hunt's Lightning Oil, the great American remedy for neuralgia, rheumatism, cuts, burns and other aches and pains. No wonder, since it makes the pain go away almost at once. All druggists sell it in 25c and 50c bottles. 26-5t

State Tax Increased.

By the action of the automatic tax board at Austin, the state general revenue tax was fixed at 23 cents on the hundred; the state school tax at 17 cents; and the pension tax at 5 cents; making a tax of 45 cents as against 26 2/3 cents for last year. The county tax has also been increased from 42 1/2 cents to 52 1/2 cents on the hundred, but this will be offset by the 25 per cent reduction in the assessment valuations. In addition to the state and county taxes, the usual district school tax will be collected at the same rates, running from 10 to 50 cents on the hundred. And those who live within the city limits will have the same tax of 65 cents to pay to the city. If you live outside of the Hereford independent school district, your tax will be: For state, 45 cents, for county 52 1/2 cents, plus the local school district tax. If you live within the Hereford district, but without the city limits, the school tax of 50 cents will be added to the state and county, making the total of \$1.47 1/2 cents on the hundred to pay. If within the city, 65 cents more is to be added making a total of \$2.12 1/2 cents for those who enjoy the privileges of living within the city.

So Many People Die of Blood Poison.

A little scratch on the hand, a splinter, or small abrasion of the skin is often fatal because the poisonous germs start the infection. That's where Hunt's Lightning comes in handy as an application on the abrasion, kills all germs which may have lodged there, thereby preventing infection and death. It pays to keep this remedy in the home, especially where there are children. All drug stores in 25c and 50c bottle. 26-5t

DAYS OF DIZZINESS

Come to Hundreds of Hereford People.

There are days of dizziness; Spells of headache, languor, backache;

Sometimes rheumatic pains; Often urinary disorders.

Doan's Kidney Pills are especially for kidney ills.

Endorsed in Hereford by grateful friends and neighbors.

Mrs. J. J. Ward, 111 E. Second St., Hereford, Texas, says: "I am quite cured of my lame back and I am having no more kidney trouble. I got Doan's Kidney Pills from Woodburn & Son's Drug Store and they removed the pain and lameness that had caused my back to be so sensitive. I no longer suffer from dizzy spells nor do I have any further trouble from my kidneys. Nothing ever helped me as much as Doan's Kidney Pills and I feel justified in recommending this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. It

Mrs. J. H. Truitt has returned to her home in Whitewright, Texas, after a pleasant visit of some weeks with her sister, Mrs. Gallaher.

To the Cattlemen of the Panhandle.

W. N. Waddell, chairman of the Live Stock Sanitary Committee of Texas, is organizing the Panhandle for the complete eradication of the scab. The scab infected territory has been divided up into the following districts:

The Dalhart district includes Dallam, Hartley, Sherman, Moore and Hansford counties. Dr. C. C. Spencer of Dalhart will be in charge of the work, assisted by nine other inspectors.

The Amarillo district includes Potter, Oldham, Carson, Randall, Ray, Hutchinson and Armstrong counties. There will be ten inspectors in this district. Dr. Chas. Pearson of Amarillo will be in charge of the work.

The Hereford district includes Deaf Smith, Palmer, Bailey, west half of Castro and west half of Lamb counties. There will be nine inspectors in this district with Dr. L. L. Jones of Hereford in charge of the work.

The Lubbock district includes Lubbock, Garza, Crosby, Lynn, Terry, Yoakum, Cockrell, Hockley, Haile, Floyd, Briscoe, Swisher, Dawson, east half of Castro and the east half of Lamb counties. In this district there will be seventeen inspectors. Dr. Irwin E. Barr and E. N. Riley, both of Lubbock, will be in charge of the work.

The Canadian district includes

Lipscomb, Ochiltree, Hemphill and Roberts counties. There will be seven inspectors in this district with Dr. Jno. M. Smith of Canadian in charge.

In a great number of these counties all cattle will be expected to be dipped; in other counties where there is very little or no infection known, the inspectors in charge of the work will exercise their judgment as to who will be required to dip and who will not. Would advise owners of the various herds in these districts to get in touch with the inspectors in charge to determine whether they will be expected to dip or not. In outlining this work and in instructions given to the inspectors exposed cattle will only be required to be dipped once unless infection is found in the herd. When infection is found in a herd of cattle at first dipping, the second dipping of the entire herd all the cattle will be required to be held in the dip approximately one minute, the visibly infected ones from two to four minutes according to the degree of the infection.

Look Here Housekeepers!

Let us make an oil stove out of your cook stove with one of our air-gas burners; works in any old stove; saves a lot on your fuel bill; no smoke; no ashes; no coal to get or carry; cheap; economical; clean; guaranteed. Sold by W. G. Ross. 25tf

COATED TONGUE

MEANS LAZY LIVER

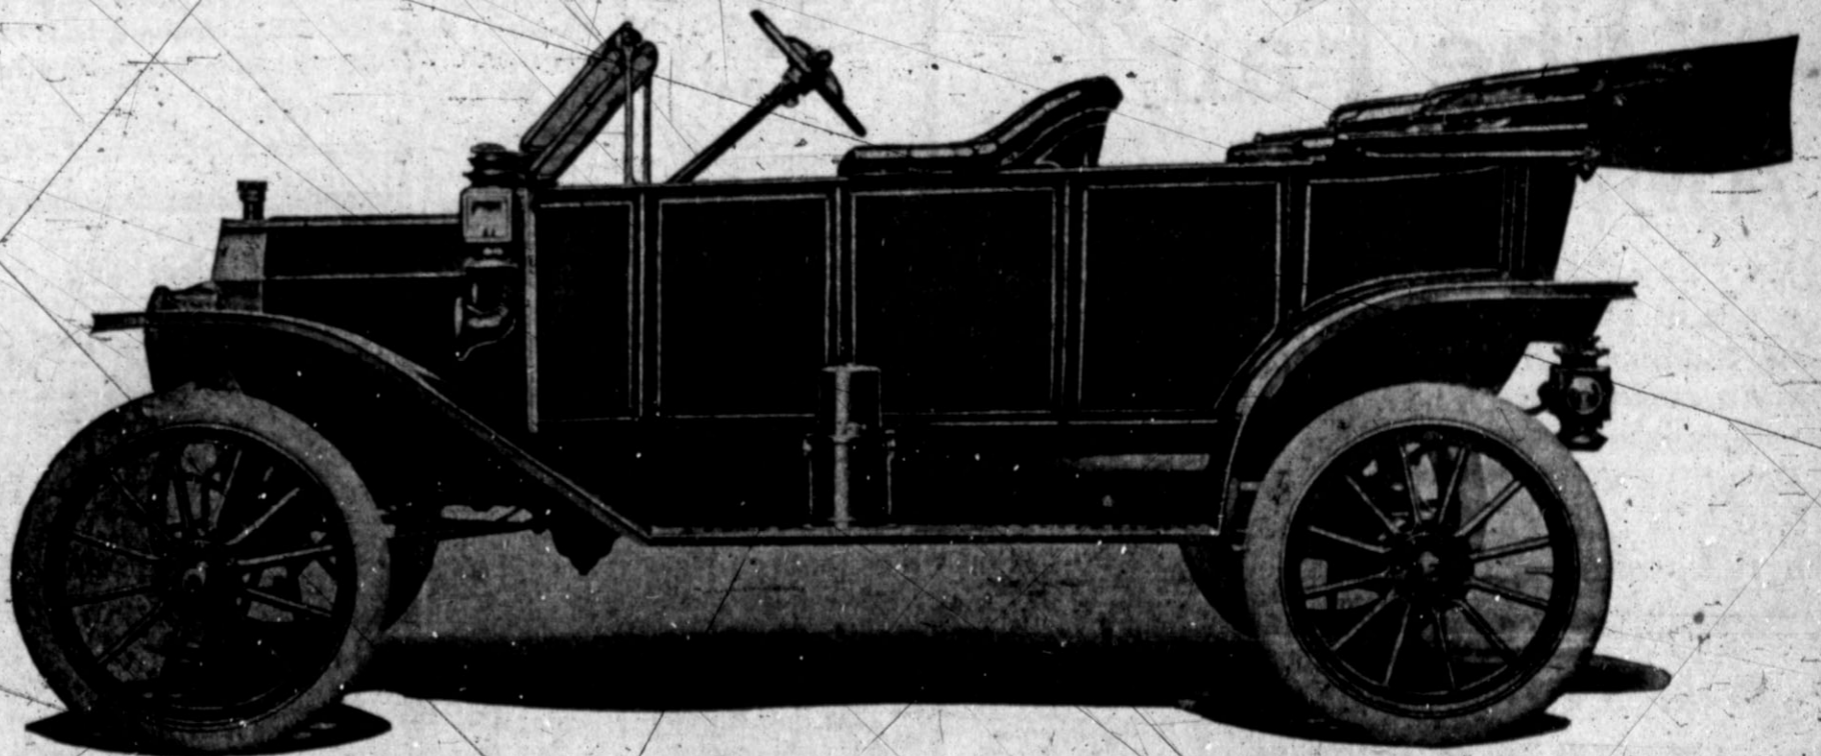

A Lazy Liver Needs a Dose of Dodson's Liver Tonic—Guaranteed to Take Place of Calomel.

When your doctor looks to see if your tongue is coated, he is trying to find out if your liver is working properly. A few years ago doctors had to prescribe calomel—there was nothing else to give.

Recently in many sections of the country Dodson's Liver Tonic has practically taken the place of calomel as a liver remedy. Dodson's Liver Tonic is mild, pleasant tasting and harmless—which makes it a fine medicine for use when your children become bilious and constipated. But the most remarkable feature of Dodson's Liver Tonic is the fact that Betts-Clark, who sells it, guarantees it absolutely. The druggist will return your money without argument if a bottle fails to give entire satisfaction. Price, 50 cents. We suggest that you get a bottle today and have it ready for the next member of your family whose liver goes wrong.

Mrs. Benton McMillan, after an extended visit with her sister, Mrs. J. J. Gallaher, left Thursday for her home in Remlig, Texas. She was accompanied by Tom Gallaher, who will remain through the winter.

The Hereford Brand

(A NEWSPAPER)

Published by

The Brand Publishing Co.

A. C. ELLIOTT
MILLCENT GRIFFITH Owners

A. C. ELLIOTT, Editor

Address all communications to
BRAND PUBLISHING CO.

Entered April 18, 1901, in the postoffice at Hereford, Texas, as second-class mail matter. First number of the paper issued February 23, 1901, as the Hereford Reporter; first number of The Brand issued March 21, 1902.

Subscription Price \$1.00 Per Year,
Strictly in Advance

Any erroneous statement affecting the character or reputation of any individual or firm which may appear in The Brand, will be gladly corrected upon being brought to the attention of the publishers.

All reading matter appearing in The Brand marked "A" or "B" with figures prefixed or "adv." is paid advertising.

THE Hereford Chamber of Commerce is busily at work in a publicity campaign. It has recently had printed several thousand envelopes which have some good boosting matter on the back, including a picture of an irrigation well. These envelopes are being used by the banks and merchants, having their own card printed on the face of the envelope. The additional cost for the printing on the back is small and the advertising in this way is distributed practically without cost. When you need envelopes, instruct the Brand to put your card on the "Oceans of Water" envelopes and help boost the game.

WILBARGER county went dry last week by 256 pro majority. Vernon, the county seat, gave a pro majority of 95. The country boxes gave the rest of the pro majority, and only three small boxes went anti-wise. This was a great disappointment to Mr. Lutz, the anti leader, who up to the very hour of the returns, held out that the county would come into the wet column. He and others had

even arranged with the picture show man to "flash" the returns on the canvass and at the hotel he had invited his friends, pro and anti, to be sure to attend the show and to see the "victory." But when the "show" was pulled off, Mr. Lutz was very conspicuous for his absence, and the pros enjoyed the "returns" in his stead. The Vernon Record, in perfect keeping with its policy of offending no one, straddles the issue, and makes an apologetic report of the pro victory and passes on to more easily followed roads.

Old School Books! All Kinds! We want them at once. E. T. Woodburn & Son. 25tf

Northwest Texas Press Association to Meet.

The annual meeting of the Northwest Texas Press Association will convene in Memphis, Texas, Friday, September 19 and Saturday following. Orion Proctor is president and Cyrus Coleman, secretary of the Association. It is expected that a large attendance will be had at this meeting as some important subjects are to be discussed.

Tel-er-phone 367. 48tf

Benton—Edwards

Married at the residence of her mother, Thursday, August 28, Miss Hattie Edwards to Mr. T. S. Benton of Whitney, Texas, Rev. Henson officiating. The ceremony was performed at 2:20 p. m. and the happy couple left immediately for the station when they departed for their new home. Only the members of the family and a few special friends were present. The Brand wishes for them a long and happy wedded life.

Calomel is Bad

But Simmons' Liver Purifier is delightfully pleasant, and its action is thorough. Constipation yields, biliousness goes. A trial convinces. In yellow tin boxes only. Tried once, used always. 26-5t

Character.

The Brand is in receipt of an article headed "Character." As it is not the custom for newspapers to publish contributed articles unless the name of the writer signed, it becomes necessary to decline to publish this piece. The names are wanted, not for the purpose of publication, but to know that the writer is responsible and sincere. The article in hand is a strongly written message of warning and if the one who wrote it will give his or her name, the Brand will place the piece on file for publication.

Surprising Cure of Stomach Trouble.

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stengle, Plainfield, N. J., writes, "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything that I want." For sale by all dealers.—Advertisement.

Music Studio.

The Misses Edwards music studio will be conducted again this year. Miss Jennie Edwards will teach the piano. She is well and favorably known. Those who wish to take piano should phone 184 or come to the studio on the morning of the opening of the school. Miss Annie Laurie Lay will take the place of Miss Hattie in teaching the violin. Miss Lay has been a successful teacher at Clifton and Itasca Colleges and uses the same methods as Miss Hattie, having studied under the same teachers. She comes highly recommended. 11t.

The Fair Opens For Business.

As announced last week, Earl E. Wilson bought out the remaining stock of goods of The Fair and will continue the business at the old stand. Mr. Wilson came here four years ago from McGregor, Texas, and engaged in the barber business, being with the same shop continuously. He left here a few weeks ago to seek a business location, but failing to find a desirable place, returned to Hereford and the deal between him and Mr. Freeman was made. Mr. Wilson is a young man of good address and is popular with both the young and elder people of the town and the Brand bespeaks for him a successful career in the mercantile business.

Public School Opens Sept. 15.

On account of the work installing the domestic science department, the school board, last Monday, set the time for the opening of the session at Monday, September 15.

Nero; horse-riding African lion, with the Barnes Circus, which exhibits here Friday, September 5. This act represents one of the most difficult animal training feats ever accomplished. Fifty other big sensational wild animal acts are given with the show in which 300 trained animals appear.

"The Fair" Announcement

I have bought the remaining stock of goods of THE FAIR and re-opened the store for business. The stock is being replenished with new goods. They have already begun to arrive and I will endeavor to keep a full supply of RACKET GOODS on hand. You will always find some useful household articles on Five, Ten, Fifteen and Twenty Cents Counters.

The Queensware and Kitchen Furnishings will be kept up-to-date.

The Dress Goods Department is being completely renewed.

The school boys and girls have not been forgotten. Tablets, Pencils, Inks, Slates, Dinner Baskets, Book Satchels and Straps at the RIGHT PRICES.

In taking charge of this business, I will at all times keep before me the needs of the community and will endeavor to merit the continued patronage of the people.

You are invited to visit THE FAIR. I want to make your acquaintance and to keep the fair nave of THE FAIR in good standing.

My Motto—"The Right Price"

My Terms—Always Cash

Trustees Sale
The State of Texas, County of Deaf Smith

Whereas, E. H. Fretz, did on the 25 day of March A. D. 1908, make, execute and deliver his certain deed of trust, said deed of trust recorded in volume 12 on pages 218 and 219, trust deed records of Deaf Smith county, Texas, for better securing the payment of one certain promissory note for the sum of \$1000.00, dated March 25 1908, payable to Edwin G. Erler, together with 10 per cent interest and 10 per cent attorney's fees, signed by E. H. Fretz, payable one year after date, the interest thereon having been paid to March 19 1910 and the time of of payment of said note having been duly and legally extended to March 25 1911; and whereas in said trust deed, N. H. Denison is named as trustee, and the said trust deed provides that in case of the removal from the State of Texas of the said N. H. Denison, that L. Gough is thereby appointed and made successor in trust with like power and authority as said trustee and the title to the premises conveyed in said trust deed shall thereupon vest in said successor in trust for the use and purposes named in said trust deed, and whereas the said N. H. Denison has heretofore removed from the State of Texas and now resides without said state; and whereas the said trust deed further provides that in case of the failure or default in the payment of said note when due then the said trustee or his successor in trust is authorized and empowered, at the request of the holder of said note to sell the property herein described according to law.

And whereas, Edwin G. Erler, is the owner and holder of said note

and the said E. H. Fretz has made default in the payment of the said note for more than thirty days, and the same is long past due and unpaid, and there is now due, principal, interest and attorney's fees the sum of \$1527 50; and whereas I have been requested by the holder of said note, after default as above mentioned, to sell the hereinafter named property, and to enforce the trust named in said trust deed: now therefore, by virtue of the authority vested in me in said deed of trust, I will offer for sale, between the legal hours thereof, to-wit: between the hours of 10 o'clock A. M. and 4 o'clock P. M. at public outcry, for cash to the highest bidder, on the first Tuesday in September, A. D. 1913, (the same being the second day of said month) at the court house door of Deaf Smith County, in the City of Hereford, County of Deaf Smith, State of Texas, the following described property, to-wit: Lots Nos. 10-11 & 12, in Block No. 1, in the Town of Hereford, in Deaf Smith County, Texas, the same being a part of Survey No. 61, Block K-3, Certificate No 1833, Abstract No. 358, W. W. & S. Grantee, containing about one-half acre and located in Hereford and in the south eastern portion of said county, together with all the rights members and appurtenances thereto belonging.

Witness my hand this the 6th day of August A. D. 1913,

L. Gough,
Successor in Trust or
Substitute Trustee.

To Prevent Blood Poisoning

Hereford Firms Who are Bidding for Your Trade

D. R. Gass & Son, Dry Goods. This is one of the most up-to-date Dry Goods establishments that we have visited in this section of the state. There will be many bargains found here in Summer Goods and we wish to say that they have received their Fall and Winter line of Men's Clothing and Ladies' Ready to Wear Coat Suits, and they are something swell. You should not lose a day in going to see them and getting your choice of their large and assorted stock. New Fall and Winter Goods in the other line of Dry Goods are arriving at this popular store almost daily. Dress from this establishment where Style and Quality are considered.

C. M. McGhee, the Photographer. Let this gentleman make that picture of the loved one. You do not know at what hour they will be taken away from you and then you would not take worlds for the photo. See him today.

The First National Bank with W. S. Higgins, President, and E. B. Posey, Cashier, is the Bank of the People. Make this your Bank and you will be a satisfied customer, for they will treat you courteously and will look after your business in a manner that will be beneficial to you.

F. H. Britain, Confectionery. We find this gentleman with a most complete stock of Confections of the highest grade. His Cigars and Tobacco's are the best and always fresh.

The Hereford Steam Laundry, with Ed Wilson, proprietor, is the place that does your Laundry work the way you want it done. You should phone them to call for that next batch of washing. Phone 246.

The Elite Confectionery. Buy your Confections of this establishment and you are sure to get the very choicest that are on the market. A nice line of Cigars and Tobaccos, Magazines and Cold Drinks.

Charlie Julian, the Second-Hand Man. This is without doubt the place to sell your Second-hand goods and receive the best price for them. Mr. Julian will sell his Second-hand goods at prices that will make you proud that you visited his place of business. East side of Main Street.

R. H. Kemp Lumber Co., with C. A. Skelton, Mgr., a Lumber Yard where you can buy that bill of Lumber or those Posts you need at a money saving price to you.

J. H. Pitman Land Co., These gentlemen have some of the very best Land Bargains that are in the Hereford country and you should write or see them if you contemplate buying. On the other hand, if you wish to sell, list with them. Let these men be your Land men, and you will be pleased. They have good exchanges to offer.

The Sanitary Barber Shop. Have your work done at this popular shop and your wife or sweetheart will receive you with wide open arms. They keep none but the best of Tonsorial Artists and they live up to their name of being strictly Sanitary.

Purcell & Son, Livery Barn. A large barn filled with nice rigs and pretty horses. If you wish to either make a business or a pleasure

drive, let this stable wait on you.

Hereford Lumber Co. We find here one of the very best Lumber Yards we have seen in the Panhandle. Their Lumber is well stacked and under sheds and is therefore nice and straight.

The Northern Hotel, located right in the heart of the business section of the city, is the traveling man's headquarters. We find that at this hospital home, they serve the very best meals that can be put on the table, that their rooms are nice, clean and cool.

Wood & Franks. We find here one of the best equipped Tin and Plumbing Shops we have found in the Panhandle country. Let them do that job of Tin work for you. Every job guaranteed and the price is right.

Mrs. T. N. Heifner, Millinery. We wish to call the attention of the lady readers that they should be proud that they have a Milliner in their town like this lady, for here they are sure to find the latest styles.

W. F. Orr, The Tailor. This gentleman is located in the rear of the Palace Barber Shop and if he is your Tailor, you are a "Nifty Dresser." Remember, he handles nothing but High-Grade Tailoring.

You will need that Fall Suit, let him order it for you. Fit and Fabric Guaranteed. Cleaning, Pressing and Altering.

A. L. Sherk, Livery, Feed and Sales Stable. Here is where you find that nice rig when you wish to go driving. A nice place to have your team fed and taken care of and we advise those who wish the best rigs in town to go here for them. Phone 249.

Hereford Nursery, L. P. Landrum, Proprietor. You should purchase your Nursery stuff of this gentleman as it is already acclimated and is the very best grade of stuff to be had. See him or write for a Catalogue.

The Western National Bank is ever ready to look after the needs of their patrons and always extend every courtesy consistent with sound Banking principles. Make your deposits with this Bank.

D. F. Ashbrook, Fire Insurance. It is a sad man or woman indeed who puts off taking out that Insurance until it is too late and you see what you have accumulated in years of hard work go up in the flames. It is a wise man or woman who sees the need of Fire Insurance and takes it out in good Companies like the

ones represented by this gentleman. See him now about that Policy.

Richards Employment Agency has done much for the public in the way of securing jobs for those who wished them and getting help for those who were in need of help. Short Order Restaurant in connection.

Jas. A. Snyder, The Tailor. Here is the meeting place of the clothes of those who are particular about their Pressing and Cleaning. This is also the place that you should go to have that Fall and Winter Suit ordered. A Perfect Fit Guaranteed and the Fabric is the Best. Let Snyder be your Tailor and you will be pleased.

Suggs & Jones, Abstracters. "It is better to be safe than sorry" so you should let these people bring that Abstract up for you, for when they do you will know that it will pass and stand the test of time.

J. I. Walker, Hardware Co. This is a Hardware Store where everything that is kept in a Hardware store can be found. The highest grade of goods and you do not have to pay more for them than you would a cheaper grade. Buy your Hardware of these people and you will be a satisfied customer. Phone 48.

Another Peach of a Treat.

It's good to be born lucky, but it's better to have a lot of remembering friends afterwards. This office has been remembered a lot here of late and Wednesday of this week, the Brand force had a "Peach" of a treat; in fact, the treat was a sack of real peaches. Mr. Eli Dunlap was the donor and the force wishes him happiness, a long life and a good fruit crop next year. The peaches he presented were of that fine, yellow kind, about the size of a good fist, and were of such juicy sweetness as to make the mouth "water" just to look at them. The Brand is always ready to sample most anything that grows on a vine or tree and to judge of its goodness. Others are invited to have their stuff properly judged.

Now is the time to get Coal bargains. There is a very good reason for selling coal cheaper in July and August. The mines are not so busy. The last Statement of the American Railway Association says that there are 45,000 less surplus cars than a year ago. Why not place your storage order now.

FALLWELL & SON
TELEPHONE 41

Barnes Big Shows.

The A. G. Barnes 3 ring Wild Animal Shows will exhibit here Friday, Sept. 5. Read what the Winnipeg "Free Press" has to say of them:

"The Barnes Shows have come and gone, and every person of the many thousand, who was in attendance, pronounce it to be the very best show that has ever been seen in Canada. It is strictly an animal performance, the animals being assisted by their trainers. The A. G. Barnes Show is a distinctive credit to the owner, managers and trainers; it is the one show on the road that depends upon trained animals of every description as its performers. Barnes Show is a big, three ring show, the center ring being a cage forty feet in diameter, made of heavy iron bars affording absolute protection to the audience, a sure guarantee of safety to all. Inside of the cage, Martha Florine introduces her specialty, which includes six persian spotted leopards, two south American panthers. This lady is one of the foremost female animal trainers of the world. Performing Bengal tigers, pumas, and twenty other savage beasts perform stunts and seemingly death defying acts which held the audience spellbound. In all over 52 groups of savage beasts in salutation were presented. The other two rings were filled with domestic performing goats and monkeys. The Baboons were certainly wonderfully trained and their stunts caused screams of laughter. Thornton and his seven grizzly bears are wonderful and from their performance one would imagine they were in training for a wrestling match with Champion Gotch. Among the special features are Emery's Siamese Elephants, Mme Ricardos Bengal Tigers, Thornton's Russian Bears, Clark's Arabian stallions, monster lions, riding horseback, Doro's dogs, twenty-two African lions, Marsell's performing pumas, and Clark's high school horses. To our mind the star attraction of the Barnes show is the performing Sea Lions. They ride

horseback, play ball, climb stairs and other interesting stunts. The show is complete with sensational novel acts. The street parade was excellent and drew throngs to witness it. In conclusion we will say that the A. G. Barnes show is the cleanest and most interesting that has visited Canada and a return visit is wished for in the near future."

Scratching For Fun.

We would have great sympathy for those who have to scratch continually, if there wasn't a remedy for the trouble, but as Hunt's Cure is guaranteed to cure or money refunded, it would seem that those who scratch do so just for the fun of it. It's a special remedy for Itch, Eczema, Tetter, Ringworm, etc. — 26-5t

Resolutions.

Resolved that we extend to the Executive Committee of the Castro county Sunday school association a hearty note of thanks for the interest they have taken in preparing the program for this convention, and for the able and practical manner in which the different topics assigned have been handled and discussed.

Resolved that we, the people of Summerfield, express hereby our appreciation of this convention being held in our midst.

And further resolved that a copy of these resolutions be spread on the minutes of this association.

Committee.

Mrs. E. B. Posey and children are in Amarillo visiting Mrs. Posey's mother.

How's This?

A Good Investment.
 W. D. Magli, a well known merchant of Whitewater, Wis., bought a stock of Chamberlain's medicines so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of his entire stock of these medicines. For sale by all dealers.—Advertisement.

Correct your habits and take Chamberlain's Tablets and you will soon be well again. For sale by all dealers.—Advertisement.

Why Did Burk Burn ett.

There is a town in Texas named Burke Burnett. The Star, a newspaper published at this place, offers the following explanation of the question, "Why did Burk Burn ett?"

Why did Burk Burn ett? Because on Munday Rand let Charlie take Mabel Dean to a supposed Iowa Park, but stopped in a Grand field and imagined they were in Loveland, but Harrold soon arrived on the scene with Electra and proceeded to Jolly Allen Dale because he had bought Bacon for lunch. Olney being shy on Grabam bread Henrietta Bowie knife in Plain view of a Matador, who had been kicked by a Jack's boro; when they returned this caused Devol to raise a row in the temple of Paradise and Walter said he had a Damsite rather he had not have gone. This caused business to slump as Byers were scarce.

Wichita falls from the new Castle, spoiling her costume and was in a Dickens of a mess when Vernon came to her rescue with a Chil dress. The fun had just begun at Sunset and it would have been Goodnight to the Holiday people if Burk had not made a bonfire out of Brownwood. Now why did Burk burn ett? Because she wanted to make a smoke for Robbstown to plunder Beville's Honey Grove and thereby Sey mour.

It is not stated that before the avalanche came Burk read by the post in the Beacon light the Snyder signal and had she been warned by the news in Plain view she might have made a record at Fort Worth that would have escaped a Tribune chief and more than likely will receive a Herald from the Tulsa Enterprise as she made her passage through the Panhandle daily and few bulletins could surpass her journals. In fact, we believe the whole push have been drinking the Hereford "Brand."

T. B. Kellow made a trip to Clovis and vicinity last Monday. He reports splendid crops in that section of New Mexico.

Chautauqua Next Year?

A few have endorsed the proposition to organize a chautauqua association for Hereford next year. It is needed. The climate of Hereford and the fame of her water will bring us a thousand visitors the first season. It is thought that the chautauqua should be during the hottest months for the down-Texas sections. This would be from July 15 to some date in August. A suitable program could be made up. State and national speakers could be engaged and other forms of wholesome entertainment furnished.

Too Much Labor by Farmers

(Continued from first page)

plat makes as much as the other, or almost as much, it goes to show that enough energy has been wasted in the unnecessary labor of plowing and harrowing corn during the hundreds of years that our fathers have been raising corn to make a new world. It is not what we have lost by misdirected energy that is of the greatest importance to the world, but what we may save by turning the energy thus saved to other things.

If the destruction of weeds is the only reason for working in the corn field, we will soon turn our efforts to the prevention of weed growth and a condition is practically in sight that will render it unnecessary for a farmer to enter his corn field from the planting to the gathering of his crop.

The editor of this bulletin, seeking to give a reason for the uprooting of established beliefs by these experiments says: "The reason why uncultivated land kept free from weeds should yield practically as much corn per acre as that given the most approved modern cultivation is not clear. The results, however, point strongly to the conclusion that the principal object of cultivation is the destruction of weeds. Where the weeds are kept down by some other method, cultivation appears to be of no particular advantage. This is contrary to the accepted teaching on this point and the conclusion is stated only tentatively. There have been abundant experimental results to show that when land is fallow a soil mulch upon it tends to preserve the moisture in the soil. It appears quite possible that when the soil is fully occupied by the roots of a growing crop there is little possibility of moisture from the deep layers of the soil being drawn by capillary action to the surface, where it could be evaporated for in doing so the moisture would have to thread its way through a maze of roots eager to absorb it. Does it not seem that these roots would themselves play the part that a soil mulch would play if the roots were not there? If such is the case, what additional advantage would arise by having a mulch on a surface beneath which is a tangle of fine roots capable of absorbing any moisture? On the other hand, these roots would not interfere to any great extent with the progress of rain-water downward in the soil, for when rainfall is great enough to saturate the surface soil there would be more moisture present than the roots would absorb. Thus, while the soil mulch is important on shallow soils as a means of holding moisture is not possible that a soil well filled with living plant roots is not in need of a mulch

for that purpose? This would at least be a plausible explanation of the results reported in this bulletin."

It is further suggested that these results may partly be due to the fact that tillage mutilates the surface roots of the crop. Again, a fall of rain too light to moisten the soil below the depth of stirring would all be lost on the cultivated land, because it would not reach the roots of the crop, while on the weeded plat there would be enough roots in the surface soil to absorb a considerable portion of such light rainfall before it had time to evaporate. It should be clearly understood that the writer offers these remarks merely as suggestions. The underlying causes for the phenomena observed must be left for future determination.

Grapes Advertised Hereford.

Grapes from the farm of A. L. Skeen were used to give the Hereford country a lift last week when G. C. Major shipped a lot to Amarillo. The grapes were grown on Skeen's plot in South Hereford and were shipped there at his request.

Cliffside, Texas.

G. C. Major,
Hereford, Texas.**Deaf Friend:**

Received your letter and also the grapes all O. K. Please send all the grapes to J. M. Burrow you can. I can get a good price at Amarillo. I brought some of them out home to put up and will get all that Mr. Burrow can't sell at town. I am getting 10 cents for them, but don't know that can get that for all of them. The grapes were all in good shape and they beat anything in Amarillo. I did more advertising for Hereford yesterday than the Brand ever done. I guess there was one thousand people saw the grapes—made a big hit for Hereford.

Yours truly,
A. L. Skeen.

Taken up by J. H. Jowell at Canyon on the 24th of August, 1913, 1 iron gray horse mule about 13 hands high, about 3 years old, no brands, owner can get mule by paying expenses against said animal. 30-2t

On their return from a two months' outing in Colorado, Mrs. Edna Wheeler, Mrs. J. W. Robinson and little Miss Willie Kenneth Robinson, arrived in Hereford last Monday for a visit with Mr. and Mrs. H. H. Hawkins. Mesdames Wheeler and Robinson are relatives of Mrs. Hawkins.

Hon. Dennis Zimmerman of Tulia autoed into Hereford Tuesday afternoon coming up from Dimmitt where he had been on professional business in the county court. While here he made a close investigation of the irrigation wells, securing a lot of valuable data, which he will make available to his friends at his home town.

Rev. G. A. Farris of Dallas, occupied the pulpit at the First Christian Church last Sunday morning and evening. A large audience heard this eminent preacher at both services. His discourses were instructive and masterful. Mr. Farris may be employed by that church as a pastor.

Infant Dies

The infant son of Mr. and Mrs. Smith McLeroy died at the home of Mrs. B. W. Robinson, Thursday morning of this week. Interment was made at the City Cemetery at six o'clock of the same day. The little one was but a week old. Mrs. McLeroy is the daughter of Mrs. Robinson, whom she is visiting. Mr. McLeroy was in the employ and foreman of the Brand office for a number of years but for the past few years has been in Amarillo. The management extends its sympathy to the bereaved family.

Pianos, Pianos! We have a big shipment of high grade Pianos which we are expecting any day. Buy one of these instruments on your own terms. E. B. Black-Co. 1t

**Pleased Customers
Are Our One Object**

Pleased customers mean satisfactory goods and satisfactory service. That is the idea we keep in mind when we buy drug store goods or when we receive an order. We want both our service and our goods to be of so high a character in quality that you will always depend upon US for your every purchase no matter how small it may be. There is nothing too good for our customers. That's why we are extremely careful in supplying you with the best of drug store goods at all times. Satisfaction is a guarantee that goes with every purchase you make at our store.

BETTS-CLARK

Everybody is going. Where? To the Star Theatre to see those good pictures. 20t

Postal Route Refused.

Tulia Herald.—The Herald is in receipt of information from the office of the Fourth Assistant Postmaster General that the application of citizens asking for a postal route from this place to Nazareth, had been refused, as the postal business at Nazareth is not sufficiently great to warrant the establishment of service to Tulia in addition to the existing service to Dimmitt. This will be a disappointment to the hundred or more people who would be benefited by the establishment of the route.

Such a route has been sought to be established before, and from the tenor of the letter received at this office from Washington, was refused on account of opposition on the part of the few citizens living on the route as now established between Nazareth and Dimmitt.

A. H. Palmer of Ardmore, Okla., is making his brother, T. M. Palmer, a visit. The two are spending most of their time on the creek fishing. They have made some big catches.
