 Marshall Formby, Hereford, and John Blake, Brownwood, are installing a new radio station, KSNY, in Snyder which is reported to be the most powerful station in West Texas between El Paso and Abilene. KSNY will operate on a frequency of 1280 kilocycles and will be powered with 500 watts. Snyder's new radio station is expected to go on the air November 1, according to Formby and Blake.

Reface News

By JOE KERR
The Hereford Calves defeated the Perryton Ranger "B" team 19 to 0 before a small crowd at Whiteface Memorial Stadium. The Calves completely outplayed Perryton in the first half but in the second half Perryton fought back hard. Although they didn't score they held Hereford's one yard line where they were stopped. Randolph Thomas scored the TD on a quarterback sneak, bringing about twelve yards. The extra point failed. Tomer Mitchell scored but it called back, Dale Winget over from there and scoring-pulling two Perryton boys the goal line with him. He scored the extra point. Winget also scored the third from the three yard line. The extra point try failed. The captains for the game were Dale Winget and Raymond

Mrs. McGee, Mr. and Mrs. Cappel and Mrs. Calvert went along. Mrs. Calvert and Mr. Cappel are sponsors of the Sophomore class.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon due notice of same being given to the editor personally, at the office.

Letters To The Editor

October 21, 1949

Letter to The Publisher:

Believing that you mean the words which appear in the upper left hand corner on page 1 of your paper, under the heading, "Notice to the Public," I am taking this means to call your attention to a grave injustice which I believe has been done to a beloved deceased citizen. I refer to that account which reported the suit filed against the J. E. Hill estate, as well as comments in the column called "Hereford Bull."

From the reporting of the wording of the suit, it could appear that Mr. J. E. Hill was seeking popularity and publicity by having the hotel named in his honor. Nothing could be farther from the truth. Mr. Hill did not seek the limelight, nor did he do his "good deeds to be seen of men." There are many who were the recipients of his generosity which could have been publicized, who he always shied away from such public notice. Personally, I know that neither Mr. Hill nor Mrs. Hill were elated over the name chosen for the hotel.

Further, I know that there are many who would agree that any reflection made upon the word of Jim Hill would be gross libel. I do not wish to appear to be acting as a judge of in the aforementioned suit, but I do wish to raise my voice against any reflection against the good name of Jim Hill, more especially that he is no longer here to speak for himself.

It seems to me that you could have been stepping out of your bounds when you made comment on the suit saying, in your column referred to above, "there seems little doubt that Mr. Hill had entered into an agreement with the hotel corporation." The trustees of his estate think so, hence the suit. However, such a decision rests

now with the court, and not with any newspaper.

There is another matter mentioned in your column upon which I would like to comment, namely your publishing of almost the complete will of Mr. Hill. Some of those items were very personal, and did not need to be published in a newspaper. If this were the practice of the Hereford Brand, it might be overlooked, but the information that I have gathered from many of the older citizens of our community leads me to believe that this was the first time such a procedure was followed. Why should Mr. Hill's will be of greater interest to your reading public than many other wills?

I do not wish to stir up a controversy or rile tempers by this letter. I merely write as the partner of a departed friend who can no longer answer for himself.

R. W. Ford.

People of Hereford and Deaf Smith county:

Friends and relatives sent me the Sunday edition in October which carried the picture of the Hereford High School baseball team of 1913 and write up about members of that particular team. You can imagine how much it meant to me and my sister, Mrs. Anna Marie Higgins, 3505 Polk Street, Amarillo, as well as other "old timers" who remember the baseball team of 1913. It recalls many happy days of living in Hereford and attending Hereford High School. Next year I hope to visit Hereford again and renew acquaintances. Until then "greetings to you and Deaf Smith county."

Charley Ellis,
630 Lake Street,
Topeka, Kansas.

Mr. and Mrs. Dennis Barnard and family visited with relatives in Pampa the past week end.

Deaf Smith Service Officer Assists About 250 Veterans During A Month

Much has been said about the benefits and services available to war veterans of all services through the Veterans Administration on a national scale. In an effort to show how these benefits and services are available to Deaf Smith County area veterans, the Brand with the cooperation of Ralph Smith, Deaf Smith County Service Officer, has prepared a series of three articles the first of which follows:

After some five years of operation, the functions and location of the Deaf Smith County Service Office apparently is a mystery to some of the estimated 1,200 veterans of three

wars who live in the county. Those who make their first trip to the office, about 250 a month, do soon find that all phases of veterans' affairs are covered by the County Service Officer. Included in the work of the office are applications for compensation, pension, loans, schooling, subsistence allowance, on-the-job training, medical and dental aid or treatment, hospitalization, civil service preference, insurance, burial benefits, etc.

Established in 1945

The Deaf Smith County Service Office, one of 205 in 254 Texas counties, was established by the Commissioners' Court of Deaf Smith in 1945 making it

one of the oldest county veterans' service offices in the state.

County Service Officer Ralph Smith estimates that about 250 county veterans use the office for help and assistance in their many problems each month.

Under State Law a County Service Officer in order to qualify for the position, must meet certain requirements before he is employed. One of the first requirements is that he must have served in the military service during a war period, was honorably discharged.

Then he is required to have certification by the state commander of a veterans organization that he has served his post or chapter as service officer at least two years, or, he is required to have served as County or assistant County Service Officer for at least one year or he is required to take a course

of training as prescribed by the Director of the Veterans Affairs Commission and be certified by the Director that he has satisfactorily completed the course and is qualified to serve as a County Service Officer. The State Law authorizes the Commissioners' Court of any County in Texas to employ and pay from the County funds a County Service Officer if they so desire, so operating funds come from the County. Ralph Smith states that money spent by the County on veterans' affairs is returned many times.

For example, in the last year approximately \$220,044.99 was added to the counties' purchasing power by the payment of compensation, pensions, loans, schooling subsistence allowance, etc., which were processed through the County Service Office.

is the saving of medical expenses, Smith says. Transfer of veterans, many of whom were unable to pay for treatment, from a county hospital to a Veterans Administration hospital has accounted to saving about \$5,000 last year to the county.

Of course, the benefit of having a trained County Service Officer which will get transportation to medical specialists and arrange for emergency treatment cases and hospital cases—sometimes in a matter of minutes—cannot be measured in dollars.

Mr. and Mrs. S. S. Dodson, Mrs. Harry Caylor and Donna spent the past week end in Perryton and Pampa.

Second Guessing

By JERRY STOLTZ

Dalhart is planning to descend on Hereford en masse about Friday night according to the Dalhart Texan. 500 tickets, that were sent up last week sold like wildfire. They were also talking of a motor caravan. Olton ran a ramdinger of a caravan to Dimmitt last week. I'm not sure, seems like there were 180 cars or something pretty big in the string.

Canyon (Hereford plays there next week) is beginning to make new coach George Scott's split-T attack click, according to those who have seen the Eagles in action. The Split-T is the formation Missouri's Don Faurot originated when he was with the Iowa Seahawks and the same one Oklahoma University has made so much hay with during the past couple of seasons. O. U. coach Bud Wilkinson also tried to use it with the College All-Stars in the All-Star-Pro fill in August but it didn't go so good. Anyhow the basic idea of the formation is that blockers don't have to move opposing linemen. They split them wide by spreading the offensive formation. If the defense doesn't spread they run around them. If it spread then they run through it and don't have to move men as long as they don't have more than eight men on the line. O. U. can run, when they get nine men up front they start throwing the pigskin.

One more point, Oklahoma set a new inter-collegiate record for fumbles lost in 1948. Wilkinson says this is because his quarterback who slides up and down the line instead of spinning for hand-offs is standing almost on the line of scrimmage which means that if a ball is fumbled chances are better for the opposition recovering since they have more men facing the ball. On the regular T that fumble would have been one or two yards back, which gives offensive backs a better chance to recover.

Dalhart put up an extra 2,200 seats for the Phillips game last week. They borrowed 400 from the Will Rogers Range Riders in

Calves Journey To Dalhart For Third Encounter

Hereford B team will travel to Dalhart today for their third encounter of the season. The Calves' record, so far, is one win and one loss. They lost a hard 0-13 fight to Happy and came back to whip Perryton's B, 19-0. Dale Winget scored twice and Randolph once in the Perryton scramble.

Burl Fish, tackle, is one of the most outstanding in line play, especially on the defense. During the Perryton game Fish continually crashed the line play and, once, intercepted a lateral. Fish was one of the stout linemen who held Perryton for four downs of hard scrimmage on the Hereford one-yard line.

The Calves will leave Hereford by bus, around 8 o'clock this morning. A traveling squad of 26 men will make the trip. Game time is 2:30.

Starting lineups with alternates on defense:
 E—Ray Graham
 E—Jerry Reese
 T—Burl Fish
 T—Paul Rettman or Emmit Brown
 G—Alvin Shirley or Tim Corbett
 C—Ray DeMent
 C—Ray London
 QB—Elmer Mitchen or Randolph Thomas
 FB—Bill Rose
 HB—Dale Winget
 HB—Johnnie Fields or James Nunnally

Amarillo and 800 from Clayton, N. M., and built an additional 1,000 themselves. They also had to ration out their press-box for the night, something Hereford is liable to be forced to do this week also.

Four word prediction. It will be rough.

Worth remembering: Win or lose, this Whiteface squad has a splendid record and deserves plenty of praise.

Coach Criswell says Dalhart can react either of two ways from the Dalhart game. They can either let down from the terrific game they played last week.

Channer And Stoltz Play Finals For City Club Golf Championship

Hereford's first, grass-green city golf championship will be decided Sunday as Dr. John Channer, 4 up and 2 to go, semi-final victor over Earl Stagner and Jerry Stoltz, 7 and 5 winner over Frank Cogdell, square off in the 18-hole finals.

Bill Howard who downed Ted Young with a 2-up win, and Dr. R. E. Lingenfelter who downed Bill Waldrep 3 and 2, and Paul Kenway 2 up on his way to the finals play for the First flight prize.

Darrell Blanton overhauled a two down lead Wendell Burdine held at the end of nine to win 1 up on the 19th. This is the first extra hole match of the journey. Blanton will meet John Patton, who defeated Tom Howard 4 and 3, in the second flight finals.

Bruce Wooddell and Dick Lucas tangled in the third flight finals. Wooddell advanced to the finals with a 4 and 2 win over Bob Hamilton while Lucas measured Carroll Whiteside 4 and 3 in the other semi-final match.

Consolation matches are not up to the time schedule which may cause some of the matches to run past Sunday.

Bill Davis upset Wayne Phillips with a victory on the 17th, 2 and 1, to enter the First flight consolation finals. J. A. Pitman and J. M. Posey were all tied at the halfway point in their Championship flight consolation match. The other between Don Martin and Deward Reherson had not been played.

Bill Waldrep turned in a card for Erb Jordan to match in the other First flight consolation match Sunday. S. A. Duckworth won a close 1 up match with Dr. Will Graham in the second flight. Mutt Wheeler and Claude Weathersbee were playing the other semi-final consolation

match in that flight. Dale Tinsley beat Roy Boyer 3 and 2 in a third flight consolation match, while the other between Homer Lee Owens and T. J. Clay was still to be played.

Tag Match Scheduled On Double Main Event For Lions Wrestling

In the Double Main Event Saturday night there was some real excitement that had everyone either standing up in their seats or running so they could see better. Yes, it seems that wrestling is back in Hereford to stay.

Next week there will be two three fall bouts and a tag match. Those on the card are Dory Detton, Al Getz, Al e x Kasaboski, and George Werhul, an ex-Amarillo football player who has been in the Northeastern states and Canada. Detton said he was a most promising new comer and he has been doing good so far.

In the matches last Saturday night Rod Fenton, a crowd favorite lost two out of three falls to Al Getz. The first fall went to Fenton in a little over 11 minutes. The second and third falls went to Getz. Time, nine and five minutes respectively. Fenton won his fall with a hammer lock. Getz won the second with a body slam and the third with a step over toe hold.

The second event was won by Kasaboski, who forfeited to Detton by hitting referee Bill Brooks. According to the wrestling rules, a wrestler is disqualified when he hits the referee if the referee sees it fit. Kasaboski won the first fall with a stomp hammer lock in a 16 minute fall. One of the spectators didn't like the way Kasaboski won or the way he acted when he paraded around in the ring.

1-A Championship Showdown Scheduled Friday Night As Whitefaces Challenge Wolves

Dalhart's undefeated rampaging Wolves invade Whiteface Memorial Stadium Friday night against Hereford's undefeated, ready Whitefaces. With promises of a District 1-A title hanging in the balance, every indication points towards a clash that will rebound throughout the Panhandle.

Looking for the key to who will win is a puzzle sidewalk and drugstore quarterbacks as well as Panhandle sportswriters have failed to solve satisfactorily all week.

Hereford will however enter the contest as underdog because of the terrific display of devastating power the Wolf Pack displayed in trouncing Phillips 39-29 in a wild nine touchdown game before 5,200 fans in Dalhart last week.

Whiteface linemen will stack up their average weight of 154 against the Dalhart 157 at a three pound disadvantage while the backs give away five and a half pounds per man with Hereford at 147 and Dalhart 153 1/2.

Coach Gene Sunderman's Wolf Pack has developed rapidly through the season, opening against top rated Littlefield with two touchdowns and surprising the entire Panhandle. They rested two weeks and then started down the victory road, running up 189 points in six games to their opponents' 33.

They smashed Shamrock 27-7, Wellington 33-6, Price College 31-0, Sundown 45-0 and topped it with their sensational 39-29 Phillips victory.

Dalhart has run from the all-year, until they surprised the Blackhaws with a double wing in the second half last week. So far they boast a strong running attack, a potent passing attack and a successful offense.

Whether the Hereford defense remains to be seen. They looked good in romping to five touchdowns against Perryton and may carry more offensive punch than they have been given credit for this season. Defensively the Whitefaces have been strong, allowing only 13 points thus far, all to Silverton when it made no difference to the outcome of the game and every member of the team was gaining experience.

Hereford should be at full strength for the first time in several games with Christian and Kelly back in the backfield.

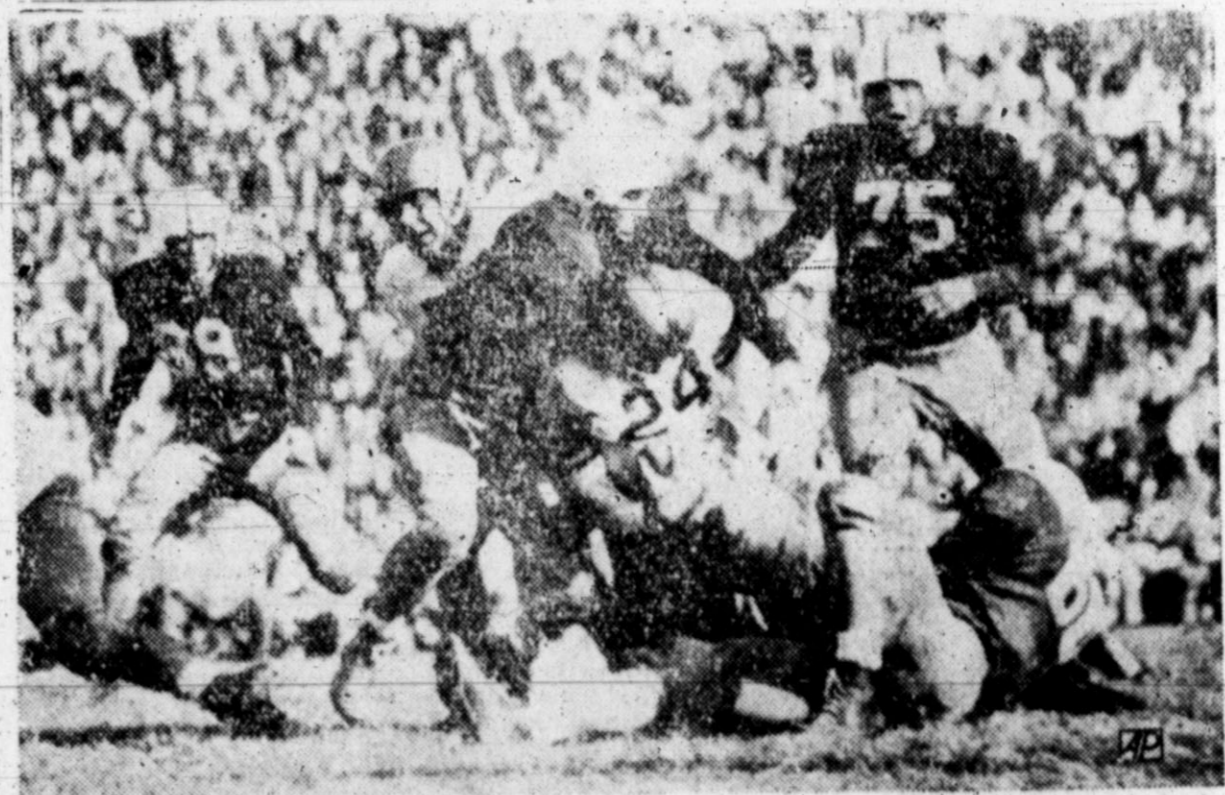

Dalhart backs have received a lot of publicity this fall as follows: Billy Cessnum, fullback—great punter, runner, pass receiver and defensive dynamo. He packs the real punch for the Wolves.

Jackie Newman, halfback—is the best passer but also a good receiver for Quarterback Ritter's heaves, tricky runner.

John Matlock, halfback—slashing runner who can break away and meander long distances, is very hard to bring down.

Billy Ritter, quarterback—is said to have all the T-formation qualities. He throws, thinks and handles the ball with veteran poise.

Probable starting line-ups shown below:

VANDERBILT STALLED—Mac Robinson, Vanderbilt back, is smeared for no gain on line play game at Nashville, Tenn., between Arkansas and Vanderbilt. Arkansas won the contest 7 to 6. Theron Roberts, Razorback tackle, stops Robinson (No. 34). (AP Wirephoto).

Digging Divots

With Hank J... Weather shut-in a lot of good would-be divot diggers over the week end, resulting in the lowest number of players on any Sunday since the course was open-

end. Only 34 registered to play. Thirty-four good or foolish men, is the debateable point. However the afternoon turned off pretty nice.

Everyone seems to be enjoying the tournament. Seems to have created a little more interest in golf around town also. The more interest the better things will be.

Jim Terry says a couple of Littlefield golfers dropped by the other day and said they had played an inter-city match with

Levelland recently. They had a 23-man team. Jim says Hereford could get 29 men out for a Sunday match easy enough. So maybe after the city championship has been decided local golfers can take on Plainview, Amarillo, Clovis or somebody in a match, if the weather stays good or gets better.

Frank Cogdell says he saw a guy drive number 8 green Sunday. He says it is the absolute truth, ask him or Wayne Phillips about it.

Junior Red Cross Program Outlined

Mrs. Cecil Lady, Junior Red Cross chairman for Deaf Smith County Red Cross Chapter, today outlined programs planned for the 1800 members of the world-wide organizations now holding their annual enrollment campaign in Deaf Smith Schools.
 "This year," Mrs. Lady said, "the American Junior Red Cross is concentrating even more of its energies in working toward world peace and international understanding, though, of course, it will continue its program of national and community service."
 In addition to exchanging correspondence, albums and school art with children of other nations, some Junior Red Cross members have launched a new program of sending recordings of school music to schools abroad. They will continue to make contributions to the National Children's Fund and prepare gift boxes and school chests for children overseas, Mrs. Lady said. The goal for Deaf Smith county schools is 200 gift boxes, she added.

The chairman pointed out that this year's program calls for increased Junior Red Cross services to the community. Children's hospitals, homes for the aged, and veterans' hospitals will receive comfort items, games and scrapbooks, as well as personal services and entertainment from Junior Red Cross members.
 Last year Hereford Junior Red Cross chapter sent gifts to orphan home in Waco. This year the home to receive the gifts will be named just before Christmas. Junior Red Cross also supplied canned milk and baby food for needy children of Deaf Smith county last year. Favors for the Amarillo Veterans New Year dinner came from Hereford Red Cross chapter.

A lot of ifs would make this an easier prediction, but without benefit of those ifs the Brand Sports Staff believes the Whitefaces can do it. John Scott says they'll eke out a 13 or 7-0 win and I'll guess 19-13 just for the heck of it, and not for any of you guys to come in here wanting it backed with cash.

Perryton and Phillips ought to win the other two District 3-A clashes with comparative ease.

ceeded to show him a few eligible blows with their fists. Kasaboski was not to be discouraged, he went on to take Detton with a stomp hammer lock. When Brooks tried to tell him that he had won he let Brooks have it with his fist, which sent him reeling into the ropes. Brooks then gave the match to Detton as punishment for "little boy Kasaboski's" bad behavior. Kasaboski shoved Brooks around a little more before they got out of the ring. After everyone had started out they heard a loud

noise up stairs by the dressing room. Rushing over and up the bleachers they found Kasaboski and Brooks loudly slapping each other around, just hard enough to raise a few warts and bruises. A lot of wrestling fans say that tag matches are the most exciting part of the sport, so next week promises to be a thriller. Chief Backale and the sponsors have asked that the fans do not throw paper and other things into the ring because it hinders the boys a lot.

DARRELL JANSSEN

W. MORTON

Wendell Morton, 17 year old, has a letter for the B team, one year of basketball and two years of track. Wendell made the first touchdown of the game by intercepting a pass on the Hereford 29 yard line and

running it all the way back. For the line: Leonard Walterscheid, who intercepted a pass on the Hereford 21 and ran it back to the Perryton eight and set up Jack Reynolds touchdown. Leonard blocked a lot of passes and did some beautiful blocking, not to mention some of those spectacular tackles he got in by himself. Beat Dahart!

Girls In The Sky

By JOYCE MCGEE
Getting into this profession of being an airplane hostess is a very practical idea. This is because air transportation is continually growing. Not only this, but the average length of time served by these girls is about a year, and half-99 per cent leave to get married. The profession is only 11 years old, and it is estimated that 30,000 girls apply every year for jobs as air stewardesses in the United States. About one out of every hundred are accepted as a stewardess. These girls must be smart, resourceful, competent, poised and ready in emergencies, trim, pleasing in appearance and young. Most of the major airline companies in America require their stewardesses to be graduate nurses. Other requirements are: Must be single between 20 and 28 years of age, their weight has to be between one hundred to one hundred and 25 pounds; her height from five feet two inches to five feet, five inches. When a girl first applies for a position, she attaches her photograph to her application blank. Her character and family background are thoroughly investigated. If she measures up to these requirements, she then is granted an interview. After she she files to the nearest train-hub has been approved by a boarding school. The hostess must account for all the tickets on the plane. She must know how to read railroad timetables so she can assist her passengers to make connections easily. She must see all of her passengers to their trains before she is off duty for the day. When a plane is grounded because of damage to the plane or bad weather, the hostess is in charge of entertaining the passengers. Her hours may not be more than one hundred and ten hours each month. Usually her working day is much less than ten hours. Her salary begins at ninety-five to one hundred and ten dollars a month. For the second six months she gets one hundred and fifteen dollars, the second year she receives one hundred and twenty up to one hundred and forty-five and all her expenses paid, while she is away from her home base. The hostesses are given two weeks vacation with pay. Also, they can get up to 8,000 miles of free transportation. This is according to how long they have been employed. Air hostesses are just like other happy, normal girls. They

A man once asked Sambo which kind of chickens were the best. "The white ones is easiest to find but the black ones is easiest to hid once you gets 'im." Panhandle Review

Lubbock meets Lamesa in the Westerner's first conference game tomorrow night. The real test of the Westerners power will come when they meet the Odessa Broncos Nov. 11. Amarillo is still a one man team. (Newby, of course). They are still the favorite in their district. Pampa will be their hardest conference game. Odessa is crying after the defeat Abilene gave them. Their fall in ratings is due to the upset only and they will continue to win, until they meet Lubbock Nov. 1; and then nobody knows for sure. Abilene is still the favorite in their district. Their backfield is slow to pull another upset like the Odessa one.

In The Southern Bracket

Port Arthur is by far the strongest team in the southern part of the state. They are favorites in their district. Some onlookers pick them to win the state which is very likely. Marshall has moved up. They are the favorites in their district. Their toughest opponent will be Texarkansas. Henderson and Yoleta are new comers to the twenty. They will continue to rise, especially Yoleta.

BEST MANNERS FORWARD

By BETTY CARNEY
Your manners are showing! Embarrassing, isn't it? But, those manners really do show! Just as conspicuously as the scuffed shoes in the magazine advertisements. However, we can't just take a little Shinola polish to cover up the dirty spots in our manners; we have to use a little more elbow grease to completely hide those spots. In order to do an effective job, let's add to this elbow grease, a little initiative, quite a bit of will power and a lot of patience. If we wholeheartedly apply this combination to our soiled manners often, we could all run a close race for the "Most Well Mannered Student of HHS." Don't you think it's worth working for? I do. After all, it doesn't take a lot of work, just a little thought and consideration. It's just as easy to form good manners as to pick up bad ones if you really try. So! Why not follow me each week and see if I might not help you in some

Just Think

Halloween is, as we know it, an evening to have masquerade parties and pester the neighbors with pranks, but it had a very different meaning at one time. The real meaning of the word is "Eve of all Hallows" or Holy Evening. It is the evening before "All Saints' Day" and it was believed at that time that the spirits of the Saints came down from Heaven on that evening to take special care of the people on earth. That is where we get our ideas about ghosts and the other horror ideas, such as black cats, bats, owls, etc. have slowly come from that. Few people know just what Halloween means. For the older people it has come to mean a time when they must hide everything that can be moved and have popcorn and apples ready for the "trick-or-treat" characters that may come. For the young people it has come to mean a time to carry off all they can and mark up or destroy all that can't be moved. We have gotten a long way from the original idea, haven't we?

What would you do if you had \$1,000 to invest?

A reporter on a large daily dropped by the other day with a king size problem. His mother, it seems had given him \$1,000 to invest. He took the money with the agreement that he would

not spend it or use it to pay debts, although he had a few. The \$1,000 was to be invested and end of 12 months he was required to report to his mother and give a full accounting on the profits, losses, and nature of the transactions. He said that he knew little about anything but the newspaper business—and was having trouble in finding something along this particular line. He sure didn't want to endanger loss of the original \$1,000—and he wanted more than the 2.9 interest on Saving Bonds.

Never having been faced with a problem of the investment nature, I sure wasn't much help. I don't know his mother, but

she is a pretty cagy woman. She sure gave the boy something to worry about—and I'll bet he has more respect for capital investments by this time next year.

Switching over to football, don't sell the Whitefaces short in their game with Dalhart. The chances for a Hereford victory may not be the best in the world, but an upset would not be too surprising. Hereford played excellent football against Sudan, which to my way of thinking was about our best game of the season. Dalhart is good. No question about that, but the dopsters are wrong lots of the time—that's why they play the games instead of settling them in the columns of the newspapers. Hereford just could; and might, win. I don't know what Jerry is predicting, but I think I'll say Hereford 13—Dalhart 7, and hope for an upset.

Furthermore there won't be any public address system in operation during the game. This is a district ruling and probably is a good one. Somewhere along the line, the announcer is bound to be prejudiced and let his opinions enter in the announcements. This is only human nature.

I noticed with interest the Connecticut 125, Newport Naval Station 0 score. It is hard to believe that a team could pile up such a score—even without an opponent. Bet that Naval Training Station coach is doing KP duty this week. However, Roger Corbett came along about that time and said he remembered away back when Amarillo beat Hereford by a score of 102, or something like that. Roger says it wasn't hard to do and he figures they would have made more, except the Amarillo team got tired; that was back before the schools were substituting whole teams at one clip. Glenn Witherspoon affirms the score, too. When asked if they were playing, both of the boys just grinned real big and clammed up.

A Brand report stated Sunday that the Fire Department used "wet water" to extinguish a cotton fire—and a lot of people have been kidding us. They contend that all water is wet, and we cannot find a good answer.

However, to keep the record straight we did check with the some of the fireboys and find that "wet water"—at least when used in connection with fire-fighting denotes a special process. The new truck, for instance, carries a 300-gallon tank and has an automatic wet water mixture feed. A solution mixes with the 300 gallons of water in the tank and makes it as effective as 1,000 gallons of ordinary water and the cotton will still float, but when sprayed with "wet water," it will sink immediately. Wet water apparently has exceptional penetrating abilities and is a great asset in combating certain types of fire, especially bales of cotton similar to those reported in the article Sunday.

Guess What? Jim Lipscomb is threatening to take up golf. He said the other day that he is considering the game, provided it does not interfere with his fishing or hunting.

Of all remodeled and redecorated jobs around Hereford in the past few months, we nominate the Hereford Creamery a tops in improvements. If you haven't seen the creamery offices lately, drop in and look them over. It's super-swanky.

NOVEMBER 8 IS VOTING DAY

Rural Fire Prevention Districts Proposed As Amendment To Constitution Along With Others

(Ten proposed changes in the Texas Constitution are to be voted on at the polls Nov. 8. Three of them are discussed in the following article, the fourth in a series.)
By BO MYERS
Associated Press Staff

A number of fine homes are located outside Tyler's city limits. Owners became unhappy when they had fires and the Tyler fire department declined to answer their pleas for help. Learning that several states had rural fire districts, a group of Smith County residents, asked Senator Warren McDonald to introduce similar legislation this year.

The proposed constitutional amendment does not outline any details of how much districts would operate. George C. Hawley, chief engineer of the staff fire insurance commission, says cities probably would be willing to provide service if revenue raised by the 3-cent tax were enough to cover expenses. Or districts might buy their own equipment and develop their own fire fighting force.

City-county health units to operate Texas in the ways of the health.
You, the Texas voter, will get to decide whether you want to pay for these three proposals at a statewide election on the constitutional amendment Nov. 8.

Creation of hospital districts was proposed by Rep. Jack Ridgeway of San Antonio. No. 3 on the ballot, the proposal reads as follows:

FOR (AGAINST) the amendment to the constitution of the State of Texas authorizing the legislature to provide for the establishment and creation of hospital districts.

FOR (AGAINST) the amendment to the constitution of the State of Texas authorizing the legislature to provide for the establishment and creation of hospital districts.

This was another instance of statewide action being suggested in order to solve a local problem.

Robert B. Green Memorial Hospital a city-council hospital in San Antonio is supported by a 10-cent property tax. That is the maximum the commissions court is authorized to levy. The legislature had no power to pass a law increasing the rate. A constitutional amendment was the only route by which taxes could be authorized.

There was little legislative argument over the measure. Backers said the amendment would not only help San Antonio and Bexar County but also would permit counties in sparsely populated areas of the state to

set up centrally located hospitals to meet their needs. A few opponents contended that the idea of creating districts containing several counties would not work. Taxpayers would not want to support a hospital located outside their county, they argued.

There was also some opposition because the amendment would not limit the tax rate which the legislature could set. This argument was offset somewhat when proponents pointed out that a district could not be created without approval of the people in the district.

The city-county health unit amendment is No. 5 on the ballot. It reads as follows:

FOR (AGAINST) the constitutional amendment authorizing the legislature to provide for the creation and establishment of rural fire prevention districts.

Work of the health units is primarily educational. The program is aimed at controlling communicable diseases and thereby reducing the mortality rate in Texas. Sanitation is a big part of the program. Courses are offered in food handling, water sanitation, proper disposal of sewage and

garbage. School health is emphasized; the health units carry on immunization programs, give advice on keeping schools clean, conduct mass X-ray examinations of children as well as adults to detect tuberculosis. Units assist the state health department by collecting vital statistics.

The only medical treatment offered is that of venereal diseases. Persons who can not pay private doctors for treatment are sent to one of three hospitals located in Waco, San Antonio and Overton for free treatment. No strong opposition was expressed against the amendment. As in the case of the other two propositions discussed here, some argument was heard against creation of a new taxing agency. Again supporters of the bill offered that the tax could be levied only after approval of a local option basis.

Subscribe Money To Finish Chapel

Approximately 200 attended a building banquet in the unfinished chapel of First Methodist Church Wednesday night. More than the needed \$24,000 to finish construction now under way was subscribed to by the group. This brings the total raised by the Hereford Methodists to \$51,000 in the last 16 months. Only three churches in the Northwest Texas area have exceeded that amount. Rev. Don Davidson said that the response was most enthusiastic and that he hoped to be completely moved into the new addition by the first Sunday in December. All further work and additional materials are now paid for.

Food and arrangements were managed for by a committee appointed to contact interested persons and to raise the needed money. On the program was Dr. E. D. Landreth, Methodist District Superintendent of Amarillo. Also present was Rev. Marvin Boyd, Plainview, who was pastor of the church when construction of the addition was begun four years ago. Tickets to the banquet were \$5.00 a plate.

On the first ballot, in which members were asked to name the amount of their donation, the \$24,000 was over-subscribed. The money pays out completely the remaining construction.

Elder and Mrs. G. A. LaGrone of Amarillo returned from their trip to Syracuse, N. Y. where they were visiting their son, V. A. LaGrone and his family. In Canada a gallon measures almost five quarts.
