THE PANHANDLE FAIR GOOD

Deaf Smith County and Hereford Get Their Share of the Honors

THE SILVER CUP COMES HERE

Hereford Country Wins Second For Best General Exhibit—First on Many Feed Crops.

There was only one thing lacking to make the Panhandle State Fair greater this year than ever—and the best of its kind ever held in the State of Texas, and that one thing is something not made to order or that real live bunch that had the planning and executing of the fair would have had it different. It was the weather. Not often do we have three or four inches of rain in a week in the Panhandle; but it came this year during fair week. Consequently the Fair was a disappointment to everyone in the matter of attendance and in a financial way, but a decided success every other way. Hundreds of people who had planned to go from Hereford were prevented by the rain and this was true from nearly all communities in Northwest Texas.

The management of the fair had been liberal in their offering of premiums and in advertising it properly, and everything was ready to demonstrate to all comers that the Panhandle is second to no other place in the United States in the variety or quality of its live stock and farm products as well as in

many other lines. Amarillo was also ready to give the world a lesson in hospitality and generous openheartedness.

In what they did Amarillo is to be congratulated.

The display in live stock, especially cattle, was ahead of last year, and would have done credit to a state fair.

In farm products nearly every county of the Panhandle was represented in some way, and many counties contended for the prizes offered. Deaf Smith got her full share and could have done better had a start been made early to collect the specimens. However this county got the second prize on general display of farm products, the premium being a silver loving cup. The first prize going to Plainview, an honor that Deaf Smith got last year and felt disposed to pass around. In addition to the prize for general display, Deaf Smith county products got the following:

- First on alfalfa.
- First on red maize.
- First on oats.
- First on feterita.
- First on celery.
- First on honey.
- First on rhubarb.
- Second on peaches.
- Second on corn.
- Third on white maize.
- Third on wheat.
- First on best display canned fruits one half dozen cans, prepared by Mrs. L. R. Bradley.

Mr. D. Vaughn one of Deaf Smith county's most extensive hog raisers took several prizes on his herd of purebred red hogs including some champion pigs.

Mr. C. O. Norton, an extensive

breeder of purebred Berkshires of this country, also captured a number of prizes and demonstrated that he has one of the best herds of pure bred berkshires to be found in the Panhandle.

The following residents of Deaf Smith won prizes on products in addition to those already mentioned: Mrs. W. B. Beedle, Mrs. Henry Hicks, A. M. Jones, R. J. Moses.

HOW TO TREAT WHEAT FOR SMUT

Department of Agriculture Issues Bulletin of Valuable Information on the Subject.

H. M. BAINER ALSO TELLS HOW

Santa Fe Agricultural Demonstrator Tells How to Prevent Big Loss Each Year.

Wheat growers in this country frequently experience serious losses caused by preventable diseases. Wheat is preyed upon by a number of parasitic fungi, three of which are classed as smuts. Two of these smuts are common pests in the wheat fields of North America; the other, commonly known as flag smut, is thus far unknown to this continent, though it is fairly common in Australia and certain other parts of the world where wheat culture has been in progress for centuries.

Of the two smuts, bunt or covered smut of wheat, sometimes referred to as stinking smut, is found wherever wheat is grown, sometimes resulting in losses to the farmers of the United States of \$20,000,000 or more annually. Not infrequently fields planted to untreated seed and giving promise of yielding 30 to 40 bushels per acre of good wheat will produce a crop of covered smut amounting, in some cases, to as much as 40 to 60 per cent of the crop.

This smut disease is caused by a parasitic fungus which attacks the growing wheat plant before the first

Proclamation of Governor

GOVERNOR FERGUSON has issued a proclamation designating October 9th as "State Fire Prevention Day," and has urged the people everywhere throughout the state to examine flues and to remove trash and rubbish to prevent the awful loss that annually devastates Texas. The Governors of many other states have issued similar proclamations, requesting that the same date be observed in the same commendable way.

The annual fire loss in Texas is over twelve million dollars. The Mayor has requested the people of Hereford to make a concerted effort to take precautions to prevent unnecessary fires. The Mayors of Amarillo and numerous other towns have done the same thing. The people of Hereford should not fall behind in this important matter. Let everybody rally to the call and examine all flues and remove all trash and rubbish that might cause a fire should a flying spark fall upon it.

leaf appears above ground. Once inside the attacked seedling it continues its growth, and by the time the wheat begins to head the diseased plants produce a crop of smut. If we examine the heads of such a plant we find, instead of normal wheat grains, only a lot of smut balls. In other words, the materials produced by the living plant for the purpose of building up sound wheat grains have been consumed by the parasite in forming its masses of smut spores which finally occupy the exact position in the wheat heads that would have been filled by

the kernels had they been allowed to develop. These smut balls consist of nothing but millions of spores enclosed in each case by a thin enveloping membrane. When the smut balls are crushed the spores give off an odor not unlike that of herring brine. The liberated spores become attached to the seed, which, if planted without previous treatment, may produce another crop of smutted wheat.

Treat Seed With Formalin—Bunt or covered smut is one of the most easily prevented of any of the cereals. (Continued on Page 4)

FURNITURE AND CARPENTRY—HEREFORD, TEXAS

OUR PUBLIC FORUM

C. E. Schaff

On The "Katy" Going to Church.

The railroads are fast becoming the great moral educators of the nation. A big corporation issuing an order against immorality is more far-reaching in its effect than the most powerful sermon. The fear of a time check oftentimes has more influence for righteousness than the fear of the great conflagration.

Mr. C. E. Schaff, President of the Missouri, Kansas and Texas Lines, when asked what that road was doing toward influencing religious growth and moral progress of the country his railway serves, said in part:

"The M., K. & T. Lines are as liberal as the law will permit in issuing passes for religious and charitable purposes. We give free transportation to such organizations and issue the clergy half rates, and we also make reduced rates to religious conferences, conventions, etc. It is our policy to co-operate in every way possible that a common carrier can consistently do in the moral uplift of the communities we serve.

We endeavor to employ only men of high moral standards and prefer to get them from Christian homes. It is as important that our employees be morally capable as that they be physically sound, and we encourage righteous living in every reasonable manner.

The company contributes liberally towards the support of the Railway Young Men's Christian Associations, which have a large membership. At least 60 per cent of our trainmen use the Y. M. C. A. Substantial and comfortable buildings are maintained at the principal terminal points along our line for the use of our employees, where they are provided with baths, clean beds, reading and social rooms, etc. This association is doing much toward the moral and physical uplift of the men in the way of providing them with wholesome environment which they might not otherwise have opportunity to enjoy.

We encourage Y. W. C. A. patrons to occupy office space in our stations and our employees co-operate with them in their work. In this and other ways the railway co-operates in work which in its inception and actual operation has a vital effect in producing better conditions of life and morals. Rather than that a railway has no soul, it should be said that the railway has a soul as big as its operations and as far-reaching as its influence."

FORMER HEREFORD RESIDENT DEAD

Mrs. Hugh Witherspoon Dies At Her Amarillo Home—Buerial Last Sunday.

Mrs. Bessie Lowe Witherspoon, a former resident of Hereford, but who for the past few years has lived in Amarillo, died in that city Friday. The remains were brought here for interment. Funeral services were conducted at the Christian Church Sunday morning, by Dr. Faris and Rev. W. N. Baker, a mixed choir furnishing music.

Mrs. Witherspoon had lived here before her marriage, and was well known and loved for the many virtues which made of her, the devoted wife and mother, and the woman whose influence was always of the best.

The passing of this good woman is sincerely mourned by many friends who extend their sympathy to the bereaved relatives.

"Mornin' on the Desert"

[Lines found written on the door of an old cabin.]

"Morning on the desert, and the wind is blowin' free, And it's ours, jest for the breathin', so let's fill up, you and me. No more stuffy cities, where you have to pay to breathe, Where the helpless human creatures move and throng and strive and seethe.

"Mornin' on the desert, and the air is like a wine, And it seems like all creation has been made for me and mine. No house to stop my vision save a neighbor's far away, And the little adobe shanty that belongs to me and May.

"Lonesome! Not a minute! Why, I've got these mountains here That was put here just to please me, with their blush an' frown an' cheer. They're waitin' when the summer sun gets too sizzin' hot, And we jest go campin' in 'em with a pan an' coffee pot.

"Mornin' on the desert, I can smell the sagebrush smoke. I hate to see it burnin', but the land must sure be broke.

Ain't it just a pity that wherever man may live He tears up much that's beautiful that the good God has to give?

"Sagebrush ain't so pretty?" Well, all eyes don't see the same, Have you ever seen the moonlight turn it to a silvery flame? An' that greasewood thicket yonder, well, it smells jest awful sweet

When the night wind has been shakin' it, for it's smell is hard to beat.

"Lonesome? Well, I guess not! I've been lonesome in a town

But I sure don't feel it—stretches wide and brown. All day through the sagebrush here the wind is blowin' free, And it's ours, jest for the breathin', so let's fill up, you and me." —Western Miner.

NATURE WARNS

Against Using Calomel

The sickening, nauseating feeling that follows the use of calomel is the natural result of disarranging your entire system. Doctors everywhere are agreeing that the action of calomel is much too strong, and leaves the body sick and weakened.

LIV-ER-LAX is a wonderful substitute for calomel, that has all of its good effects and none of its bad ones. It acts thoroughly on the liver, cleansing it of bile, and ridding the entire system of stagnating poisons.

LIV-ER-LAX is strictly a harmless vegetable compound, and is guaranteed to give satisfaction or your money will be returned. Insist on the original, bearing the likeness and signature of L. K. Grigsby. For sale here at Corner Drug Store.

FIFTY KILLED AT ARDMORE

Gasoline Explosion Takes Toll of Life; 200 are Injured; Many Buildings Destroyed

On Tuesday of this week a gasoline tank at Ardmore, Oklahoma, exploded and killed fifty people and injured several hundred, besides destroying a large amount of property. Several blocks of the town was set on fire by the burning gas and oil. The explosion was started by a spark from a workman's hammer igniting gas escaping through an opening that was being repaired. The two workmen were blown to pieces.

The disaster is one of the worst of its kind in the history of that county. Ardmore is a town of five or six thousand.

PLENTY OF PROOF

From People You Know—From Hereford Citizens

The greatest skeptic can hardly fail to be convinced by evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Hereford, people who can be seen at any time. Read the following case of it:

A. C. Barnhart, Miles Avenue, Hereford, says: "I used Doan's Kidney Pills when my kidneys were troubling me, and they brought prompt relief. I have never been bothered by my kidneys since, and I can say that Doan's Kidney Pills are permanent in their effect." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Barnhart had. Foster-Milburn Co., Props., Buffalo, N. Y.

"Will Have Prettiest Court House Lawn in Panhandle" is the heading of an article in the Floyd County Hesperian of last week. Contractor Adams, who is credited with the statement, has evidently never been in Hereford and has not seen the beautiful grounds surrounding Deaf Smith's capital building. When there's a prettier court house lawn in the Panhandle than this one it will be long after the sands of the desert have become frozen.

The Live Stock Showing

The Panhandle State Fair at Amarillo brought together a very remarkable lot of cattle, hogs, horses, and other live stock. The class of live stock shown at this fair was surprising to most people who but a few years back knew only the long-legged native steer. It disproved the impression that this country can not grow heavy cattle. The fact is that this climate is superior for growing live stock of every kind and class. Stock matures more rapidly here with proper care than in colder regions.

Another surprising thing was the great turnout of stockmen to the Panhandle Fair. It indicates the general interest now prevailing in growing better live stock. They came to see and learn. The sales is proof that they appreciate the best bred animals.

Over in New Mexico the stockmen are also sitting up and taking notice of better stock. The State Live Stock and Products Exposition which is to be held in Roswell October 4th

is being attended by New Mexico cattlemen, the sheep growers and the hogmen. All three will hold meetings during the fair week; the cattlemen on the 6th, the flockmasters on the 7th, and the hogmen on the 8th.

A very strong feature in the live stock exhibit of the Roswell fair will be the dairy section. There are already nearly a hundred entries of Holsteins, Jerseys, Guernseys, and Shorthorn in the pure-bred class. It promises to be the biggest and best dairy show ever held in the Southwest.

The other stock sections will also have good showings of cattle, horses, hogs and sheep. There is likely to be many stockmen in attendance looking for better breeding stock and there may be much business in the stock line during fair week. A. M. Hove.

Trustee's Notice of Sale

Notice is hereby given that on the 5th day of October, 1915, between the hours of ten o'clock a. m. and four o'clock p. m., I, George Findlay, Trustee, shall proceed to sell at public outcry in front of the court house door of Deaf Smith county, in Hereford, Texas, to the highest bidder for cash, the following described property, situated in Deaf Smith county, Texas, to-wit:

One hundred and sixty (160) acres of land out of Capitol League number 430 and particularly described as the southeast one-quarter (S. E. 1/4) of survey or section number five (5), township number two (2), north of range three (3), east of a "Capital Syndicate Subdivision," as shown by plat of such subdivision, of record in the deed records of said county of Deaf Smith, in the State of Texas, volume 19, pages 23-31. Patented to Abner Taylor. Located about 22 miles west of Hereford.

Said sale is to be made at the request of The Capitol Freehold Land and Investment Company, Limited the present holder of the notes hereinafter mentioned, and by virtue of the authority conferred upon me by the terms of a deed of trust executed by C. E. Wilkins, dated 25th day of August, 1909, and recorded in Vol. 15 page 287 of the deed of trust records of Deaf Smith county, Texas,

whereby the said C. E. Wilkins conveyed to me, as Trustee, the above described property, for the purpose of securing the payment of certain notes executed by the said C. E. Wilkins particularly described in the said deed of trust, and the proceeds thereof will be applied to the payment of the balance due upon said indebtedness, the expense of making said sale, and the remainder, if any, paid to the said C. E. Wilkins or his order, all in accordance with the terms of said deed of trust.

Witness my hand this 7th day of September, A. D. 1915.

PROMINENT FARMER PASSES AWAY

J. L. Gillean, Living Near Texico, Died Sunday.—Relatives Live In Hereford.

On Sunday at 7 p. m., occurred the death of Mr. J. L. Gillean, a well known farmer living near Texico. His death was not unexpected as for the past few weeks, his recovery has been considered doubtful. The primary cause of death was leakage of the heart, although there were other complications.

Mr. Gillean had been a highly respected citizen of this county for years, having at one time been manager of the ranch for Mr. R. N. Mounts. He was yet a man of middle age, and with good health would have been worth much to the community for many years. His loss is not only to his home and loved ones, but to the friends and neighbors whose esteem he enjoyed.

The family have the warmest sympathy of all in their bereavement. Those from Hereford attending the funeral services, which were held at Texico on Monday, were Mr. J. D. Curtis, E. W. Curtis, W. D. Norvell, Mr. and Mrs. R. N. Mounts, Mrs. W. E. Hicks and Rev. Farmer.

Five Inches of Rain in September

This section of the Panhandle and in fact all parts of the Panhandle country is having a rainy season. Since the first of September there has been five inches of rain—4.7 inches in the last two weeks.

While the wet weather is interfering with feed cutting at present, it is excellent for the wheat that has been sown and is putting a good season in the ground for later wheat sowing.

All you people who read the Brand in Iowa, Illinois and Missouri and have never been here should come down and see this country this fall. You will find that this section that you have always been taught to think of as the Great American Desert is about as much of a desert this fall as the famous Nile valley is in good seasons.

Up to the present time there has been a rainfall this year of 20.4 inches by standard gauge at the First National Bank.

Horses by Express

One of the heaviest consignments of express that Hereford's efficient agent, Mr. Stoabs has been called upon to handle for some time, came in last week in the way of 17 horses and mules all by express. They were sent from Lawrenceville, Ill., by A. E. Chamness. They came through in a palace horse car attached to the regular passenger. They were taken from here to the farm of Mr. Chamness northeast of here a few miles. In the lot were some very fine percheron mares, as well as some good mules. Mr. Chamness is stocking his farm and arranging to operate it.

Wheat Growers Attention

All farmers wanting "Miracle Wheat" can get it through H. B. Webb local distributor who will take your order for immediate delivery. This wonderful wheat has been thoroughly tested on the Plains and in Okla. and has proven a great producer and is hardy, and on account of its heavy stooling is not easily blown out or froze out, standing the cold weather well making it very valuable for winter pasture. 34-1f

Model 43

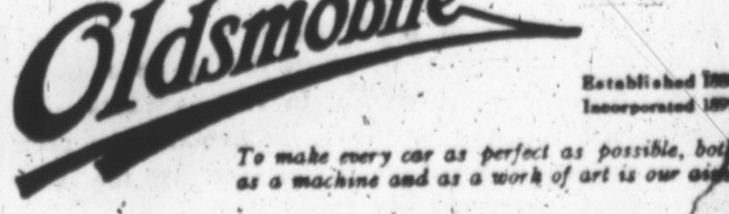

You Meet no Other Car Like It

In Model 43 the Olds Motor Works achieved what no other manufacturer has yet attempted. The car is unique, original, strikingly different from any other automobile under \$1,500 to \$2,000.

In increasing the wheelbase to 120 inches an increase in price would logically be expected, but the manufacturers have so arranged production and so provided for the purchase of materials that we can offer the car at \$190.00 less than the preceding model!

Price of Model 43 \$1,095 f.o.b. Lansing, Mich.

To Enforce migratory Bird Law

The United States Department of Agriculture warns the public that the migratory bird is to be enforced without fear or favor. Federal regulation divides the country into two zones. Zone No. 1 is the breeding ground, comprising the states of Oregon, Idaho, Washington, Montana, Wyoming, Colorado, the Dakotas, Minnesota, Wisconsin, Nebraska, Iowa, Illinois, Indiana, Ohio, New York, Pennsylvania, New Jersey, and New England. The states southward are zone No. 2, or the wintering ground. Insectivorous birds are protected indefinitely. Band-tailed pigeons, swans, curlew, and smaller shore birds are protected until Sept. 1918; wood-duck in Kansas and West Virginia; quails and wood ducks in California, and wood ducks in Missouri are protected until Sept. 1, 1917. Shooting is prohibited between sunset and sunrise; or at any time on the Mississippi, between Minneapolis and Memphis, after January 1, 1915. There are different open seasons for different birds.

ROCKEFELLER'S OVERALLS

It is safe to assert that every man, woman and child who has access to the papers—any papers, of any sort whatsoever published in city or country by newspaper men, or by pencil pushers—is cognizant of the fact that Mr. Rockefeller has "donned overalls," for without question no other one, single, fact has been so thoroughly exploited within the last few weeks by the American press.

This is a reflection upon the reading public of the country and bears out the criticism of the cynics, that we cringe to a nobility of wealth quite as servilely as the serf, to the Sultan.

The real import of Mr. Rockefeller's visit to Trinidad, has been lost sight of in the insignificant, and unimportant personalities which some are pleased to consider legitimate topics for public discussion. Mr. Rockefeller's dress, on that occasion, was not significant and speculation as to his probable motive in choosing that particular garb is absurd.

We've always thought the chief end of overalls was to keep off dirt, and are positive that those worn around the Brand office are worn with that ultimate object in view, hence, we were not surprised at his choice of clothing, as it seemed perfectly proper for wear when descending into a mine. Why not allow Mr. Rockefeller his sure prerogative as a free born American citizen, of wearing what he pleases, when he pleases, so long as his dress conforms to the laws of decency, and should he dance, let us grant him that pleasure without assuming that it's any of our business.

By a proper attention to our own affairs, it is possible, that should business call us to Trinidad at some future time we might be able to so deport ourselves as to have the same honor conferred upon us as those worthy miner's wives conferred upon Mr. Rockefeller.

THE WANTED WALKS

The recent heavy rains have impressed most Herefordites with the fact that more and better walks are an imperative necessity. Block after block of winding cow paths, with a jungle of luxuriant weeds on either side may be passed up in pleasant weather as mere undesirable conditions, but when these same "trails" become rivers of water, and then streams of sticky, slushy mud of varying depths and consistency then, the wonderful improvement which good walks would mean to Hereford is impressed very forcibly upon its entire population for in all parts of town, walks, or rather the rack of them, is the same.

Property owners, could do nothing to increase the value of their own property, and that of the whole town more than by putting in good walks.

Let's give ourselves one more reason to be thankful for the rains by heeding the hint which they've given us, to provide ourselves with substantial walks.

Once open the door to trouble, and its visits are three-fold; first, anticipation; second, in actual presence; third, in living it over again. Therefore never anticipate trouble, make as little of its presence as possible, forget it as soon as past.—Lubbock.

Through the courtesy of our friend, Andrew Lipscomb, we have received a copy of the Booster Edition of the Hereford Brand, and it is sure enough a "Booster for Hereford". The edition contains 32 pages, has many illustrations showing the attractiveness of the Hereford country, as well as complete writeups of the country. Many thanks, Andrew, for your thoughtfulness in sending us the copy. We have filed it away, and when we want to find out anything about the Hereford country, we will refer to the Booster Edition of the Brand of September 10, 1915.—Wood County Democrat, Quitman, Texas.

LIKES THE PANHANDLE

"The Panhandle is a fairyland of prosperity," remarks Geo. S. Pentecost, general passenger agent for the Rock Island, who has just made a short trip through this country.

Wholesale shipments of automobiles are going into the Panhandle daily, he says—the most fluent evidence of "money in the land."

"Riding through the country you see miles and miles of kafir corn, milo maize, millet and wheat, he explains. "I never saw so much of it in my life, and it is as high as your head and thick, too. That country has certainly struck its stride this year."—Quanah Tribune-Chief.

A THOUGHT OF HEAVEN

I watch the sunset as I look over the rim of the blue Pacific, and there is no mystery beyond the horizon, because I know what is over there. I have journeyed in those lands. Over there where the sun is just sinking in Japan. The star is rising over China. In that direction lie the Philippines. I know all that. Well there is another land that I look toward as I watch the sunset. I have never seen it; I have never seen anyone who has been there but it has a more abiding reality than any of those lands which I do know. This land beyond the sunset—this land of immortality, this fair and blessed country of the soul—why this heaven of ours is the one thing in the world which I know with absolute unshaken, unchangeable certainty. This I know with a knowledge that is never shaken by a passing cloud of doubt. I may not always be certain about this world; my geographical locations may sometimes become confused, but the other world—that I know. But as the afternoon sunshines lower faith shines more clearly, and Hope, lifting her voice in a higher key, sings the voice of fruition. My work has about ended, I think. The best of it I have done poorly; and any of it I might have done better, but I have done it, and in a fairer land with finer material and a better working light, I will do better work.—Robert J. Burdette.

Lightning and the Elder

Did you ever have a recently immigrated Scot advise you to take refuge, during a severe thunderstorm, under an elder bush—"Because lightning never strikes the elder?" Do you know that there not more than six authentic instances of the striking of the elder or any building in the near vicinity of an elder, by lightning? The scientists have a dry-as-dust explanation for this freak of nature; but the Scotch know the real reason: Christ's cross was made of the elder tree. Formerly it was a stately, handsome denizen of the forest; but after its cruel use it received a blight, so that it could no longer attain dignified proportions. It was doomed to remain a shrub, but it was exempt from the wrath of Jove, who slung the thunderbolts.

In various parts of the world, legend explains the peculiarities of other trees by the statement that the cross or a part of it was made from the wood of one of their brethren. In England the aspen, sometimes called the "trembling poplar," is said to have acquired the nervous quiver of its leaves when the trunk of an aspen was used for the shaft of the cross. In Wales, it is related that the mistletoe was formerly a great, handsome tree; but because it furnished the arms of

the cross, it was condemned to become a parasite on the tree that refused to serve the persecutors. The most interesting of all these legends is that told of the wake-robin, or marsh calla lily. Its berries are red because it grew at the foot of the cross where it received the precious drops of blood, and its root is bitter with shame and sorrow.—Ex.

Some Old Weather Signs

In its current issue, Farm and Fireside, the national farm paper, published in Springfield, Ohio, says of course, that the best weather prophet in the world is the United States Weather Bureau, which is right at least four times out of five. In regard to the less scientific guides Farm and Fireside says:

"Here are a few weather signs which are older probably than any one living today. Experience has shown them to be fairly reliable, and some of them can be explained on a scientific basis.

"Moonlight nights have the heaviest frosts.

"The higher the clouds the finer the weather.

"The farther the sight the nearer the rain.

"Dew is an indication of fine weather.

"When stars flicker in a dark background, rain or snow follows soon.

"Expect a strong wind with stormy weather when smoke from chimneys hangs near the ground.

"Here are a few in verse. They have the advantage of being easily remembered:

"Clear moon, Frost soon,

"Year of snow, Fruit will grow,

"Rain before seven, Fine before eleven,

"If the sun set in gray, The next will be a rainy day.

"When the wind's in the south, The rain's in its mouth.

The wind in the west, Suits everyone best.

"If you see grass in January Lock your grain in your granary.

"Evening red and morning gray, Help the traveler on his way.

Evening gray and morning red Bring down rain upon his head.

When the clouds appear like rocks and towers,

The earth's refreshed by frequent showers.

"If you can get the official weather report by phone you'd better count on that first. But the proverbs and jingles just given are better than a common guess."

Fair Edition

Mr. Warwick of the Randall County News, came out just before the Panhandle Fair with a regular Fair Edition. It was well filled with nicely displayed ads and interesting reading matter. It was a boost both for the Panhandle Fair and Canyon and Randall county. It shows that brother Warwick is a live wire in newspaperdom, and Canyon should be proud of their newspaper.

WHEAT SMUT CONTROL

How to Prevent a Disease Which Frequently Causes a Serious Loss to Wheat Growers

(Continued from Page 1)

cal diseases. The following procedure is recommended: Run all seed wheat through a fanning mill in order to blow out the unbroken smut balls. This being done, the grain should be sealed 10 minutes in a solution consisting of 1 pound of commercial formalin (obtainable at nearly all drug stores) added to 40 gallons of water. The seed thus treated is next allowed to drain and is then piled on the floor and stirred frequently until sufficiently dry to sow. If during the process the kernels have swollen very much, the drill should be set to sow a little thicker, else the quantity sown per acre will be less than was intended.

Recent experiments have shown that in certain sections of the country the soil of a field producing a crop of smutted wheat this year may harbor enough smut spores to cause the appearance of smut in next year's crop if the field is reseeded to wheat. This sometimes occurs where smut is very bad, in spite of the planting of treated seed, and shows that in such localities crop rotation should be practiced in addition to seed treatment. Bunt or covered smut of wheat attacks no other cereal crop, but other cereals have their own smut diseases.

Loose Smut.—The other wheat smut occurring in this country, known commonly as loose smut, is not so serious as bunt, although it probably produces an average loss of three-fourths of 1 per cent of the total wheat crop of the country. Loose smut may be prevented by treating the seed by the Jensen hot water method or some modification of it.

The Jensen method consists in soaking the seed for 10 to 15 minutes in hot water at a temperature of 132° to 133° F. It is highly important that the water shall not rise over 135° or fall below 130°. A temperature below this will not kill the smut, while a temperature too high may affect the germination of the seed. The grain, after treatment, should be immediately spread out to dry. If it cannot be spread at once, it should be dipped into cold water to cool and spread as soon as possible.

A toll of millions of dollars loss is levied against the wheat growers of the Southwest and Midwest annually through the ravages of smut. This loss is easily preventable, and can be avoided if the individual farmers will use the treatment herein given. The "Formalin Treatment" is the one advocated and endorsed by the United States Department of Agriculture, the State and National Experiment Stations, and is as follows:

Secure a 40 per cent solution of formalin at any reliable drug store. One pound of this 40 per cent formalin solution, carefully mixed with 40 gallons of water, is sufficient to treat from 2,000 to 2,500 pounds of wheat.

The seed may be treated by dipping or sprinkling: To dip, the seed should be placed in a gunny sack and submerged in the solution, the liquid being in a barrel or tank. The bag or sack of wheat should be allowed to remain immersed in this solution for at least ten minutes, after which it is taken out, allowing the liquid to drain back in the tank or barrel for a short time. The wheat should then be emptied onto a clean place and covered with sacks or blankets for two hours, after which it should be thoroughly dried before sowing.

To sprinkle, prepare a clean place on a canvas or smooth floor, and thoroughly sprinkle the space to be occupied by the wheat, with the solution, before the seed is emptied upon it. Now spread the wheat upon the space thus prepared for it, and sprinkle the solution all over it, shoveling the grain in such way, over and over, so as to insure that all the seed will be uniformly moistened with the liquid. Having thoroughly dampened the wheat with the

solution, shovel the grain into a pile and cover with sacks or blankets for two hours, after which it should be thoroughly dried before sowing. Do not allow the wheat to remain wet too long after treating, as the germinating qualities may be injured.

Place the dried wheat into sacks that have been dipped in the solution, and it will be a good plan to sprinkle the grain drill with the liquid before putting the seed into it. Exercise every precaution not to bring the treated seed into contact with grain that has not been treated, avoiding the use of bins that have contained smut infested wheat.

James A. Acker

James Alexander Acker was born December 24, 1858, near Wheeling, West Virginia.

In 1892 he was married to Annie Faulkner Parker near Okdale, Mo. There he lived until after the death of his wife which occurred in 1901.

The dying wife left three little boys—one a baby only ten days old. The baby was adopted by his brother-in-law, Mr. Edwin B. Parker of Houston.

After a short time Mr. Acker with the other two little boys, George and Clifford, and his mother-in-law, Mrs. E. F. Parker, came to Mr. G. A. F. Parker's ranch near Claude, and Claude has been the home of Mr. Acker from that time to the time of his death.

The oldest boy George, died in Hereford in 1902 and was buried here. The other son, Clifford has been, and still lives with his uncle, G. A. F. Parker of this place.

On April 28, 1914, Mr. Acker was married to Miss Lela Finley of Claude, Texas. He had been in poor health for several years, but under the care of his faithful, loving wife, he seemed to get better for a time, and his friends hoped for him a long life.

Lately he served upon a jury at Claude. His wife begged him to get excused as he was not well; but he felt it was his duty to serve, and he did his duty as he understood it conscientiously. When the jury service was over he was taken down sick. The malady was soon pronounced typhoid fever. After careful attention in Claude, the fever left him, but other troubles set up, and it was thought best to take him to St. Anthony's Sanitarium at Amarillo. Here all was done for him that could be done, but he grew steadily worse. After lingering for

"OCEANS OF WATER."

a week he passed away at 11:30 on Thursday evening September 23rd. With him at the last were his wife and son Clifford.

The body was embalmed and brought to Hereford. The funeral was held at the Methodist church at three o'clock p. m. the next day.

Rev. J. R. Henson officiating, and the body was tenderly and lovingly laid away beside that of his little son, George, in Hereford Cemetery.

Some twenty-five years ago Mr. Acker united with the M. E. Church South, at Okdale, Mo. He lived a simple, unostentatious christian life, doing always his duty as he understood it.

When able to do so, at regular services on Sunday, or through protracted revival services, he would take his place in the choir with his violin or his cornet, and assist with the music.

He loved his family, his friends and his fellowmen. His influence and his vote was ever for the right and against the wrong. He was ever patient in his suffering complaining not at all—

With malice toward none; with charity for all; with firmness in the right, as God gave him to see the right—he lived his life and did the work his hand found to do.

Society and Club News

The U. D. C's. were fortunate, on last Friday, in having as their hostess, Mrs. J. Frank Potts, whose geniality is, ever, an open sesame to a good meeting.

The afternoon was given over, to social features and a brief program which included a reading, "Thomas Nelson Page" by Mrs. W. H. Ray, z. r.

Delicious refreshments of sandwiches, potato chips, cheese straws, pickles, and coffee were served.

The Bay Views have received their course of study for the year, and will, shortly begin their work. The texts include Van Dyck's "History of Painting," Robinson's "Improvement of Towns and Cities," and Dickinson's "Education of the Music Lover."

The Woman's Missionary Society of the First Christian Church, will meet with Mrs. W. B. Dameron, Monday afternoon at three o'clock. All the ladies of the Church are cordially invited.

A wedding which will be of much interest to Hereford society, was celebrated at Canyon, on Friday Sept. 24th, when Miss Helen Bruce, of Oklahoma city, became the bride of Mr. R. L. Wilkinson of Hereford.

The bride, who was returning from a visit with friends in Roswell, was met at Canyon by Mr. Wilkinson. They were married immediately and remained in Canyon until Monday when they came to Hereford and are, at present, at the home of the groom's father Mr. J. T. Wilkinson.

The groom is the well known and popular salesman for the J. E. Bryant Candy Co. of Amarillo and is not only an excellent business man, but a genial, whole-souled good fellow with a wide circle of friends. While his bride is a stranger she will be warmly welcomed to her new home.

A delightful day was spent, Friday, at the country home of Mrs. B. K. Nutter, by several members of the Ladies' Aid of the Christian Church.

As is their custom, the ladies found a part of their enjoyment in useful occupation, and the result of their labor, was a quilt for the Old People's Home at Dallas.

The following ladies, under the espionage of Mr. E. E. Ramsey, were of the party, Mesdames Kibbe, Ricketts, Vanderburg, Shirley, Valentine and E. T. Barnett.

Among the pleasant social affairs of the week, was the six o'clock dinner given on Thursday evening by Mrs. E. T. Barnett, at which time she was hostess to ten of the young ladies who compose the "Missionary Triangle" of the Christian Church. The dinner was served in four courses, and was followed by a delightful social hour.

The Mother's Club held an interesting meeting at the home of Mrs. Pollock, on Tuesday afternoon. The routine of business was ven-

lived by the splendid hospitality of the hostess and her daughters, who assisted their mother in entertaining. Mesdames W. L. Boys, and White of Amarillo, were guests Mrs. Mat Gilliland was received into the club. Refreshments of marshmallow ice cream and cake, added to the pleasures of the afternoon.

The charming appearance of the tastefully decorated hall in which the Eastern Star benefit was given on Tuesday evening, added to the enjoyable program which was rendered, made an epicurean feast, not only for the physical nature but for the aesthetic and intellectual as well.

The pretty tables arranged in the form of a star with each point bearing its own colors in dainty floral effect, was wonderfully attractive, while the menu was perfect and was bountifully served.

The splendid address which welcomed the guests, given by Dr. Faris, the readings by Mesdames C. D. Wright and Brack Williams, each given in the reader's own, inimitable manner, and the music by the Mooney-Snyder orchestra and victrola completed a pleasing program.

Teachers Entertained

Through the courtesy of Mr. D. W. Hawkins the teachers of the public school, were given a watermelon feast, on Tuesday evening, at the school building.

The thoughtful kindness of Mr. Hawkins was much appreciated and the teachers are a unit in declaring both the melons and the donor to be most excellent representatives of their respective classes.

LANDS SUBJECT TO FORFEITURE

List of Lands Subject to Forfeiture For Non-payment of Interest Due November 1st, 1915

Austin, Texas, Sept. 21, 1915.
A. O. Thompson, County Clerk, Hereford, Texas.

Dear Sir:—

The following list shows the lands in your county subject to forfeiture for non-payment of interest due November 1st, 1914. This department has been unable to obtain responses from those to whom notices have been mailed and is now asking your co-operation in reaching the owners.

The Commissioner is unwilling to declare forfeiture without exhausting every means at his command to reach those who must suffer the consequences.

Yours very truly,
J. H. Walker,

Commissioner of General Land Office

Governor Stubbs' Poll Angus Ranch

W. R. Stubbs, of Lawrence, Kansas, formerly governor of that state, who, recently, bought a ranch of 65,000 acres in Eddy County, Pecos Valley of New Mexico, will grow poll-angus cattle there. He bought 1,000 head of ordinary cattle with the ranch, which he will get rid of. Already, he has brought 2,000 head of poll-angus to the place, and, by breeding and buying he proposes to make it a beef ranch of great importance. He also owns a ranch of 30,000 acres in Deaf Smith County, Texas. The same line of the Santa Fe Railway reaches both ranches. Likewise, on the Santa Fe system in the Arkansas Valley of Colorado, Governor Stubbs grows cattle on a little ranch of 5,000 acres. In addition to land of his own, Governor Stubbs controls leased land for pasture. It is said that he contemplates leasing 50,000 acres in Texas or New Mexico before he is done. He believes that the lands of the Texas and New Mexico plateau called the Staked Plains by the early Spaniards, were designed by nature to be pasture for beef cattle, and, since he likes the business, and has the capital to go into it big, he proposes to make the most of it.—The Earth.

by the Clerk thereof, in the case of Troy Womble versus Add Ran College, No. 90, and to me, as Sheriff, directed and delivered, I will proceed to sell within the hours prescribed by law for Sheriff's Sales, on the First Tuesday in October, A. D. 1915, it being the 5th day of said month, before the court house door of said Deaf Smith county, in the town of Hereford, the following described property, to-wit:

Situated in Deaf Smith county, Texas, being a part of survey No. 62, and being all of Block 19, of the Evans addition to the town of Hereford, Deaf Smith county, Texas, except 3 acres out of the southeast corner of said block No. 19. Said 3 acres being described by metes and bounds as follows:

Beginning at the southeast corner of said block 19, thence west with the south line of said block 19, 208.71 feet; thence north 626.13 feet to a point; thence east 208.71 feet to the east line of said block 19; thence south to the place of beginning. Levied on as the property of Add Ran College to satisfy a judgment amounting to \$895.80 in favor of Troy Womble and cost of suit.

Given under my hand, this 8th day of September 1915.

R. W. Baird, Sheriff,
Deaf Smith county, Texas.

Trustee's Notice of Sale

Notice is hereby given that on the 5th day of October, 1915, between the hours of ten o'clock a. m. and four o'clock p. m., I, George Findlay, Trustee, shall proceed to sell at public outcry in front of the court house door of Deaf Smith county, in Hereford, Texas, to the highest bidder for cash, the following described property situated in Deaf

Smith and Parmer counties, Texas, to-wit:

Six hundred and forty (640) acres of land out of Capitol Leagues number 443 and 448 and particularly described as survey or section number twenty-nine (29) township number two (2), north of range number four (4), east of a "Capitol Syndicate Subdivision" as shown by plat of such subdivision of record in the deed records of said county of Deaf Smith in the State of Texas, volume 19, pages 23-31, and in the deed records of said county of Parmer, in the state of Texas, volume 5, pages 394-403. Patented to Abner Taylor. Located about 4 miles south and 16 miles west of Hereford.

Said sale is to be made at the request of the Capitol Freehold and Investment Company, Limited the present holder of the notes hereinafter mentioned, and by virtue of the authority conferred upon me by the terms of a deed of trust executed by William W. Shives, dated 4th day of November, 1908, and recorded in Vol. 13 and 5 pages 216 and 151 of the deed of trust records of Deaf Smith and Parmer counties respectively, Texas, whereby the said William W. Shives conveyed to me, as Trustee, the above described property, for the purpose of securing the payment of certain notes executed by the said William W. Shives particularly described in said deed of trust, and the proceeds thereof will be applied to the payment of the balance due upon said indebtedness, the expense of making said sale, and the remainder, if any paid to the said William W. Shives or his order, all in accordance with the terms of said deed of trust.

Witness my hand this 7th day of September, A. D. 1915.

Trustee.

Aviator Killed at Plainview

Joseph Pendhain, an Austrian, a member of the U. S. Aviation corps and of the Austro-American Club, met death in the eighth flight which he had made of the Hale County Fair at Plainview on Thursday of last week.

A windstorm which produced whirling air currents intercepted his descent, and the machine was hurled to the ground injuring the aviator so that he never regained consciousness, dying early Friday morning.

Special Edition

The Vega Sentinel came out last week with a most excellent special edition. It contained twenty pages filled with interesting matter pertaining to Vega and Oldham county. It had many illustrations of Vega business buildings and business interests. If Vega is to be judged by the kind of a paper that Mr. Weimhold is getting out, it must be a live little place. The paper was a credit

to any town even of much larger proportions than Vega. The people of Vega and Oldham county should stand by Mr. Weimhold as he has the proper spirit.

Star Theater

Starting Monday the Star will show Universal releases exclusively. All the Broadway releases will be shown at this theater and the bookings include the most expensive and elaborate productions ever staged by any film company. Under the management of Mr. McGee, the Star's patrons are assured of the best of programs.

The Universal Film company controls the great and only weekly, "The Animated," which Hereford people will now have an opportunity of seeing each week.

Those who are acquainted with Universal productions know that they are the most entertaining of photoplays; those who are not will enjoy their first view and will always thereafter be firm patrons of the theatre that is showing them.

On Slow Marketing of Cotton.

I want to commend the efforts of those interested in the movement to hold a large part of this year's cotton crop off the market...

world as it needs it, and while an emergency now confronts the people of the South in the disposition of their cotton crop...

An observation of the fluctuations of the cotton market over a period of years will show that nearly always it reaches the lowest points during the months of October and November...

In my opinion, with the prospective size of this crop in view, it is entirely reasonable to expect ten cents per pound for this crop...

On the other hand, if we pursue the same policy this year that we have always pursued, we will doubtless see cotton go as low as seven cents basic middling...

Therefore, I am pleased to commend the patriotic spirit that prompts the bankers of Texas in their efforts to assist the farmers in getting a reasonable price for their chief produce...

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine, entirely vegetable, therefore it can't salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tonic" is Harmless To Clean Your Sluggish Liver and Bowels. Tight Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic tonight on my guarantee.
