### REV. FARMER PRESIDENT WAYLAND COLLEGE

#### Amarillo Pastor Considering Proposition Made by Trustees

Rev. R. E. L. Farmer, pastor of the Baptist Church here has been tendered the presidency of Wayland College at Plainview.

Rev. Farmer has not yet fully decided whether he will accept or not. He left this week for Asheville, Carolina, to attend the Baptist Convention at that place, and will announce his decision when he returns, if not before.

Wayland College is what is known as a junior college, giving all of a full course except the senior year.

They have an excellent building and property worth about \$200,000, and a faculty of fifteen members.

Rev. Farmer has been with the church here several years and is a strong man and will make an excellent president. It will be with keen regret that the church and community here will part with him.

### Rev. A. L. Clinkenbeard to Dallas

Rev. A. L. Clinkenbeard, a brother-in-law of Mr. T. E. Shirley, has accepted the pastorate of the North Dallas Christian church, going there from Plano.

Rev. Clinkenbeard visited here last summer, his two children spending most of the summer in the home of their uncle. He is one of the strong preachers of the state. The Dallas News of Sunday gives the following concerning his work:

The congregation of the North Dallas Christian church gave a reception in the parlors of the church last night in honor of the new pastor, the Rev. A. L. Clinkenbeard, recently called by this church from a charge at Plano. There was no program, no speechmaking, no formalities of any sort. It was said that during the evening almost all the members of the congregation called at the church. Dr. Clinkenbeard assumed the pastorate of the North Christian Church May 1.

At the last service of his Plano pastorate—April 30—all other churches of the city dismissed and the Pastors' Association took charge of a union service in honor of Dr. Clinkenbeard. The congregation of the First Christian church presented him with a fine gold watch as a testimonial of esteem.

Dr. Clinkenbeard is a native of Missouri. He was graduated from the College of the Bible, an A. B. or Transylvania College and a B. D. of the University of Chicago. He has served churches at Ladonia, Dublin and Plano. He is the recording secretary of the State Board of Missions and the chairman of the program committee for the Waco convention, May 8-11.

### Many Cattle Shipped Here

Many stock cattle have been shipped here from the territory south of here during the last few weeks. Mr. D. C. Laird brought in several hundred yearlings and took to his ranch in Castro county. Jno. L. Wilson brought in about thirteen cars, making with former shipments about 1300 head he has brought in. C. R. Smith one of the large cattlemen of this county has also shipped in several hundred head, increasing his holdings to about 1500 head.

Both Deaf Smith and Castro counties have a larger number of cattle than usual, but grass is good and they are doing well.

### DRINK BARBERS, DOPE

#### Four Deaths Result in Plainview; Others are in Critical Condition

Paul Walden, Mug Bröck, Tom Earnest and Joe Dinger died this week at Plainview as a result of drinking a barber's dope, supposed to contain a large percent of alcohol. Others that drank of the dope are in a serious condition.

Paul Walden operated a barber shop in Plainview. Sunday it is supposed and his companions began imbibing freely and when the regular article was exhausted they drank the barber's dope. Walden died Monday, the others the next day. All were young men except Dinger, who was 42 years old, and leaves orphan children.

The physicians are treating five or six others who drank of the potion.

### Ships Feed 3,000 Miles

One of the Brand's subscribers, Joseph T. Bauer, of Chichigoff, Alaska, U. S. A., addresses a letter to his long time friend, G. A. F. Parker, president of the Western National Bank, of this city, asking for a shipment of feed to be made to his far-away home on the island of Chichigoff, which lies off the coast of Alaska, some 1000 miles northwest from San Francisco. Mr. Parker complied with his request and sent him a lot of kafir and maize, which is making the long trip of some three thousand miles to the island home of this twentieth century R. Crusoe. Mr. Bauer, it seems, has a whole island to himself and is engaged in the mining business, but as a side line, he is raising poultry, and the question of suitable feed had become a problem. This he is trying to solve by sending to the Texas Panhandle for the "best chicken feed on earth" kafir and maize. Mr. Bauer says that if this shipment of several hundred pounds arrives in good condition, and the freight is not prohibitive, the result will likely be to open up a regular trade on the Panhandle cereals for Alaska customers. Mr. Bauer was, for a number of years, in the service of the government, but he now finds the privilege of private citizenship much more attractive and he has settled down to a busy life on one of the foot-stones across the Pacific Ocean. His island in the geography is not down as Chichigoff, a sort of corruption of our Chicago, likely a Russian attempt to spell the "City of the Wind and Lake," but he spells it "Chichigoff." While he is away up the border of Uncle Sam's possessions, he still lacks some 2000 miles of being on the extreme western island of Attu. An interesting feature of this island is that it is the most extreme western place on the international date line. If Mr. Bauer succeeds well with his poultry (and also his mine) we will take the liberty and pleasure sometime to drop in on him for Sunday dinner, as transportation may be so rapid in a short time that a trip to Alaska would only be a Sabbath day's journey.

### Cattle Men Vaccinating

For the past few weeks cattlemen have been busy vaccinating cattle against blackleg. This fatal disease has made its appearance in several herds this year, and cattlemen are taking extra precaution to prevent it.

Mr. O. G. Hill and family spent Sunday in Friona.

### BANDITS KILL AMERICANS

#### Soldiers Forming Patrol at Glenn Springs are Attacked; 9 Killed

El Paso May 7—A detachment of 9 American soldiers forming the patrol at Glenn Springs, Texas, was almost wiped out in a raid of Villista bandits across the border Friday night, according to reports received by Major General Frederick Funston today from Major O. B. Meyer of the Fourteenth cavalry at Marfa, Texas.

According to Major Meyer, the raiders, numbering more than fifty men, set fire to the patrol camp and fired on the troopers as they tried to escape in the dark.

Three were killed, two were wounded, and two are not accounted for. The bandits then looted Glenn Springs, killing, according to the reports received by General Funston, the 10-year-old son of Ellis Woods. They secured \$2,000 cash in the town.

The same band of Mexicans is reported on Sunday morning to have raided Bonquillas and then to have crossed back into Mexico taking with them a storekeeper named Deemers.

Two troops of the Eighth Cavalry from El Paso and two troops of the Fourteenth Cavalry from Fort Clark, ten miles north of Spofford, have been ordered by General Funston to take special trains to Marathon, the railroad station nearest to Glenn Springs. They will have to march 83 miles to reach the scene of the raid.

Col. Frederick W. Sibley, commander of the Fourteenth cavalry, will proceed from Fort Clark to take command of the troops, proceeding to Glenn Springs and Bonquillas.

Nothing has been reported here as to the identity of the bandits other than that they are supposed to be Villistas. Roving bands have been reported in sections south and southwest of Ojinaga for some time.

Glenn Springs is a little village, a few miles west of Bonquillas, which is situated not far north of the Rio Grande in the isolated stretches of the Big Bend district, seventy-five miles southwest of Sanderson.

The troops forming the patrol there belong to Troop A of the Fourteenth cavalry, which is scattered along the border in small detachments. They were under the command of a Smith.

Captain Cole at Alpine commands the troops in the immediate section. He already has left for the scene of the raid with about fifty men to rescue Sergeant Smith and his men.

### BUSINESS OPENING A MARKED SUCCESS

The formal opening of the White House Market attracted a very large crowd Saturday, the firm with its bevy of assistants being kept busy all the afternoon.

The market itself, with its handsome sanitary furnishings was very attractive and the delicious luncheon menu of White Swan products, to which were added wafers, cookies and lead tea, was most appetizing. Dainty souvenirs bearing the familiar "white face" and the firm's slogan, "It's Clean," were given the guests.

This enterprising firm will serve White Swand Pork and Beans, so ketchup. They are applying the true and tried business rule, "Get your goods before the public, and will no doubt reap the reward of their excellent business judgment."

### Band in Full Swing

The sweetest music which has fallen upon Hereford ears for many a day was that which emanated from the court house Monday evening. A gentlemanly band of some dozen dainty notes but those that listened were so filled and thrilled with visions of what this self-same bunch of musicians is going to do to make possible this summer, that to them no symphony was ever more pleasing.

Under the capable management of Mr. W. F. West the success of the band is assured. It will be "added and abetted" by the Civic Club in every way, and with the number of really excellent musicians, and others who are willing to practice, the Hereford band can very soon be made second to none in this section of the country.

It's a good thing and it's come to stay.

### Making Improvements

Among the many places that are being improved and beautified in Hereford, is that of Father Campbell. He has had a private hedge started around the place and a blue grass lawn is being started and Father Campbell says as soon as he can get to it he will have the building painted.

### WIRELESS TELEPHONE CONNECTS SHIPS

#### United States First Nation to Accomplish Feat of Talking to Ships At Sea

Washington, May 6, Wireless telephone communication between the navy department and a warship at sea was established late today for the first time as a part of a demonstration of the possibilities of wireless telephony. Simultaneously the Department was in touch with all of its land stations in continental United States and gave orders verbally to the various commanders.

Secretary Daniels and ranking officers of the navy, assembled at the department for the demonstration, talked to the battleship New Hampshire, far off the Virginia Capes, and heard distinctly the replies of her commander. Representatives of the telephone companies, whose resources had been made available for the occasion, told the secretary that communication by wireless telephone between a land station and a ship at sea never before had been accomplished anywhere, and that the United States was the only nation that knew how to perform such a feat.

The demonstration was opened by Secretary Daniels, who told Captain Chandler, commanding the New Hampshire, to get under way by 10 o'clock tomorrow morning and report his position by wireless telephone every hour until further notice. The naval station at Pensacola next was called and the commander there was instructed to furnish the department with a detailed report concerning aviation work.

Until 8 o'clock Monday morning all business between the navy department and the navy forces will be conducted largely by wireless telephone.

### Good Entertainment

The joint pianoforte recital and entertainment, given by the pupils of Mrs. Earl Wilson and Miss Wright's kindergarten class, furnished a most enjoyable evening. The performers were at great disadvantage, however, owing to the crowded house and the excessive heat which was unavoidable in the small, poorly ventilated auditorium. Many were unable to hear the program on account of the noise occasioned by the physical discomfort of the audience.

The excellence of the program was very evident and much credit is due both the musicians and the children for their mastery of a difficult situation.

The piano pupils were apparently not the least disconcerted by conditions and each one may safely feel that she is forever immune from stage fright.

Mrs. Wilson is one of Hereford's most excellent piano teachers as the creditable work of her large class testifies.

Following is the program:

- Part I  
Sunflower Dance, McClaymont, Clara Duncan and Zola Williams  
Mountain Belle, Schottische, Kinka, Bertha Lee Rutherford  
Longing for Home, Judman, Frances Fullwood  
Home Sweet Home, with Variations, Blake, Ruth Powelson  
Tulip, Lechner, Hazel O'Brien  
Here and There, Helms, Lucile Brunley  
Grand Galop de Concert, Lincoln, Zola Williams  
A Love Token, Engelman, Doyle Womble and Myra Stanley  
La Fontaine, Bolan, Besse Sanders  
Fortunata, Schuler, Apple-May, Ruth Lee  
A Bouquet of Roses and May Pole Dance, Kindergarten Class
- Part II  
Mazurka Impromptu, Luck, Edna Conell  
Alpine Hut, Lange, Franz Hoenes  
Flower Song, Lange, Ruth Smith  
March of Solon, Drumheller, Iona Womble  
6th Nocturne, Leybach, Olive Wilson  
2nd Mazurka, Gizard, Glenn Rutherford  
Military March, Schubert, Jessie Wotable  
Valse, Caprice, Newland, Claudia Bensen

### Johnson Store Treats Visitors

The courtesy of the Johnson Grocery Co., was enjoyed by hosts of visitors Saturday afternoon. The sparkling, ice grape juice so daintily served would have been delicious any time but the exceptionally hot afternoon made it especially refreshing.

This firm handles the "Top Notch" grape juice and its excellence is representative of the large line carried by this progressive store.

### GAS EXPLOSION CAUSES INJURY FROM BURNS

#### Claude Minister's Wife is Painfully Burned by Blaze

Mrs. Hicks, wife of Rev. J. H. Hicks, pastor of the Baptist church in this city, was painfully and near fatally burned yesterday when gasoline with which she was cleaning some articles of clothing took fire. The flames were communicated, originally from the stove to gasoline on the lady's hands, and later to a vessel containing a large quantity of the liquid.

In an instant the blaze took hold upon the paper and the woodwork of the building, having flashed over Mrs. Hicks. It is probable that her life was saved by the extraordinary showing of police upon the part of a tiny daughter who seeing the danger of her mother ran screaming to the house of a neighbor, and help was thus secured before the burns became fatal.

Mrs. Hicks is suffering from the burns, but is considered out of danger at present. Amarillo News.

Rev. Hicks is a brother of Dr. J. W. and W. E. Hicks, of this city. Both he and his wife are well known here, and many Hereford friends wish Mrs. Hicks a speedy recovery.

### Death of Mrs. Pritchard

On Monday of this week, Carl Cackwell received the sad intelligence of the death of his aunt, Mrs. Lizzie Pritchard, of Princeton, Mo. Mrs. Pritchard was well known to many Deaf Smith county people who have formerly lived in or near Princeton.

Mr. and Mrs. Guthrie, of this paper, were glad to number this most estimable woman among their friends and feel that her death is a distinct personal loss.

### White Faces to Evaporate

Mr. W. C. Russell and Mr. C. C. Bowman, two of the good pure bred Hereford men of Progressive Avenue, each shipped a fine yearling bull to W. P. Anderson at Bovina.

Both of these gentlemen are building up a good herd of pure bred Herefords. Deaf Smith is fast becoming a center for pure bred Herefords. There are some of the best herds in the country here, yet there are room for more.

It pays to raise the kind that bring \$250 at yearlings. When Deaf Smith and Castro counties are settled with progressive fellows like these with 20 good pure bred cows and a good bull on every section this will be the ideal country.

R. A. Brand of the Texas Meat Market, is convalescing after an illness of several days last week.

### MILITIA OF THREE STATES ORDERED OUT

#### President Orders Forces of Texas, New Mexico and Arizona To Border

Mr. and Mrs. J. E. Kirkman left here yesterday for San Antonio where Mr. Kirkman will join the State Militia and go to the border. Kirkman is a lieutenant in the Texas state militia. Following the raid by Mexican bandits at Glenn Springs, where about a dozen Americans were killed, the President has ordered the militia from Arizona, New Mexico and Texas to the border, while three regiments of regulars have been sent also, making a force of about 8,000 men in addition to the patrol already there.

Excels Corn for Alcohol

The Chicago Tribune of last Tuesday day reports that at places where tests have been made recently with kafir corn in making alcohol, that fifty six pounds of kafir made 5 1/2 gallons of spirits, as against 4 1/2 for corn. While the people of the Panhandle country, the natural home of kafir corn, would rather make pork out of their kafir than alcohol, yet white grain MUST be used for such purposes if it is gratifying to know that it is superior to corn, even for booze.

However, there are many uses for alcohol in the arts and industrial pursuits, besides making hogs out of humans, and its use is likely to grow as gasoline and other oils increase in value.

Attorney W. E. Dameron was a business visitor in Amarillo Saturday.

### Wyche-Lakeview News

F. J. Aze and L. A. Ricketts are attending court at Dimmitt, being summoned as jury men.

L. H. Spratt and family of Hereford, spent Sunday with Mr. and Mrs. W. Chivington.

Mrs. Odell of Summerville and Mrs. J. P. Roberson of Hereford, were Sunday visitors with Mr. and Mrs. Herman Roberson.

Misses Florence and Mable Hacker of Parrott, visited Monday afternoon with Mrs. L. A. Ricketts.

L. L. Cannon and H. H. Hawkins, with their families motored to the Paddock ranch Sunday evening.

Lee Conklin and Tom Haman attended the graduation exercises in Dimmitt Saturday evening, and on Sunday were dinner guests in the Chas. McNeerney home.

Ira Ricketts and family were Sunday afternoon visitors in the C. C. Slaughter home.

Mrs. R. H. Huff and Mrs. Chas. McNeerney visited Wednesday with Mrs. L. A. Ricketts.

Rev. Hawkins will preach at Wyche Sunday, he being unable to fill his appointment there last Sunday.

Will T. Smith has moved his family out to the Welliver & Pollock place for the summer.

Mr. and Mrs. Frank Owens visited Monday with relatives in Hereford.

G. W. Smith and family were Sunday guests in the High home.

The Thursday Club held their regular meeting Thursday, May 4 with Mrs. Kathryn McNeerney. A large number answered roll call and a short business session was held after which the program of singing of old familiar songs was enjoyed. Following the usual social hour the hostess served dainty refreshments of coconut custard, salted wafers, sweet cakes and coffee. The next meeting will be held with Miss Elsie Smith, Thursday, May 8.

### Parrott News Notes

Spring has come and summer, too, if the past few days may be taken as a forecast.

Jacob Wagner and family and Mr. and Mrs. Jakey Wagner, visited Sunday, April 30, with Mr. and Mrs. Joe Burkenfeld of Nazareth.

Mr. H. D. Neely and wife, of Omaha, arrived Sunday from Omaha for a visit of several weeks here, on the ranch with their son, H. Fay Neely and wife.

The Baccalaureate sermon for the graduating class of the Dimmitt High School was preached on Sunday, April 30th, by Brother Smith, of Roaring Springs. Bro. Smith was formerly in charge of the church here and the people all gladly welcomed him back for this occasion. He was accompanied by his wife and little girls.

Harold Hanlan is very sick. Having a siege with the mumps.

Mrs. Geo. Bacus and children visited the first of the week at the home of her parents here.

Mr. and Mrs. N. Fay Neely have their new house completed and ready for occupancy. Mr. High has been doing most of the carpenter work.

Commencement exercises were held in Dimmitt, Saturday night, May 6th. An immense crowd was in attendance and listened attentively to the program. There were ten graduates. This class making forty graduates by Miss Griffith during her seven years as instructor in the Dimmitt school. Of this number twenty-three were boys. Each boy of this year's class refuses to admit that he is the twenty-third one to graduate. Miss Griffith thought quite seriously of going to Idaho for work next year but has been prevailed upon to retain her position as principal in Dimmitt. Therefore she expects to begin the eighth year of school work in Dimmitt in September.

The Neelys sold and delivered two car loads of hogs last Wednesday for the Fort Worth market.

Mr. and Mrs. J. W. Hanlan spent Sunday evening with Mr. and Mrs. H. Fay Neely.

The Parrott community turned out en masse in attendance at the commencement exercises Saturday night. While we are always interested in the exercises, we were especially so this year, as three of our own people received diplomas, Mable Hacker, Ester Noble and Ned Neely.

Mrs. Grover Sanders, Mrs. H. Fay Neely and Mrs. H. D. Neely motored to Hereford Monday evening, did their shopping, enjoyed the movies, and returned home by the starlight.

Mrs. John Hacker and Mrs. Orle Renfro spent Monday with Mrs. J. W. Hanlan.

Earl Wilson is improving his ranch just across the line out of Parrott. Has a bran new piano and? We wonder. Minnie and Alfred Grant attended the Triplett sale in Dimmitt last Saturday.

Mr. B. Rowan and family came from Artesia to attend the commencement exercises in Dimmitt, their son Kenneth being a member of the class. They returned to their home Sunday.

A. G. Noble is wearing a plaster on one side of his head, the effect of being in too close contact with the radiator of his car.

Mrs. Hugh Renfro has gone to Missouri to visit her mother. Hugh is working in the Hereford Garage during her absence.

Chris Kopp is building a new garage for Mr. Stemmens.

Mrs. J. T. Hacker visited a couple of days last week with Mrs. J. W. Hanlan.

Miss Cotta Sisk closed her term of school at Parrott with a social entertainment on Tuesday evening. On entering the school house one was confronted with an intricate net work of strings. The instructions were for the ladies to begin at one floor, the gentlemen at the other and untangle the string started with, and if you came to a slip of paper to read the directions thereon and do as you were bidden. These directions led partners to the punch bowl first, where they were served with a delicious beverage, then on with the string which led partners to a seat, where each gentleman was provided with a pencil and a slip of paper upon which he must write a description of his lady. These slips of paper were then taken up and read aloud, the audience guessing by the description who the lady was. Some of the descriptions were very humorous and created much merriment. At a late hour the crowd dispersed each declaring it a most enjoyable evening.

Floyd and Will Hacker spent the day on Sunday with Harold Hanlan.

Farmers are beginning to work in earnest now and crop planting is in full force.

B. F. Neely, Percy Shepard and Orle Renfro are serving as jurymen this week.

Mr. and Mrs. Fay Neely have purchased a new Ford car.

## CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

**"Dodson's Liver Tonic" is Harmless To Clean Your Sluggish Liver and Bowels.**

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile erases into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripes and they like its pleasant taste.

Unknown Man Is Found Dead

The body of an unknown man was found hanging to a tree near Magenta, twelve miles south of Channing, by parties who were looking for horses Sunday morning. Parties here were notified by Mrs. Cherry, of that place and Sheriff Neely and several others from here left immediately for the scene. Every indication showed that the fellow had committed suicide. He was about 28 years old, light complexion, light hair, and wore a cheap suit of clothes with blue overalls, and a pair of old worn out brown shoes.

On the body was found a note addressed, "Dear Sister," and signed "Sam" with no postoffice address. It looked as though the man had climbed up the tree, tied a rope around a limb and his neck and then jumped off. His neck was not broken and it appeared as though he died from strangulation. The man is supposed to have been working on the grading camp at Magenta.

His remains were buried at that place by the county officers of Oldham county. —Channing Courier.

How to Control the Cut Worm

Numerous complaints of the ravages of cutworms, especially in relation to corn, are received each season by the department. Prompt action is necessary for controlling cutworms after their presence becomes noticeable in the spring, which is usually about the time the corn begins to sprout. Because of the fact that the delay necessary between the time the worms make their appearance and the time a reply can be received from the department is often disastrous to the crop, the importance of recognizing these insects and knowing how to control them is evident.

Cutworm injury most invariably occurs in the spring, the plants usually being cut off at the surface, or a little below the surface, of the ground, beginning as soon as the first plants sprout and continuing until late June or early July, by which time the worms are full grown. Feeding takes place at night, the worms resting during the day beneath debris or in the soil at a depth of from one-half to one inch below the surface, and since they closely resemble the color of the soil in most cases, the cause of the injury is often not apparent. However, if the soil surrounding the cut off plant is examined carefully, the culprit will quite likely be found curled up in the soil.

The various cut worms are known under a number of popular names, such as the glassy cut worm, variegated cutworm, day-backed cutworm, etc., but the injuries caused by them are very similar and their habits in general are also much the same. The parents of the cutworm are grayish or brownish moths or millers, which commonly occur at lights during summer evenings. Each moth may lay from 200 to 500 eggs, either in masses or singly, in fields covered with dense vegetation, and hence are to be found more often in cultivated fields which have been in grass or weeds the preceding fall. The eggs hatch in the fall, a few weeks after they are laid, usually during September, and the young cutworms, after feeding on grass and other vegetation until cold weather, pass the winter as partly grown caterpillars. If such infested fields are left to grass, noticeable injury is likely to occur but when it is broken up and planted to corn or other wide row crops, the worms, being suddenly placed on "short rations" wreak havoc with newly planted crops, the nearly full grown worms feeding greedily and consuming an enormous amount of food. In northern latitudes they attain full growth and stop feeding in late June or early July and change to the pupal or resting stage. The injury often ceases so suddenly that farmers are at a loss to account for the fact.

Land to be planted in corn the following spring, especially such land as has lain in grass for a considerable time and is likely to contain cutworms should be plowed in midsummer or early fall about the time the eggs are laid, or better, before the eggs are laid, for then vegetation which is suitable for the moths to lay their eggs upon is removed. The earlier the preceding year grasslands to be planted in corn are plowed, the less will be the probability that the cutworm moths will have laid their eggs thereon, and the less, consequently, will be the danger of injury by cutworms the following year.

Late fall and winter plowing of grasslands, although not as effective as early plowing will destroy many of the hibernating cutworms, as well as such other important corn pests as white grubs, and should be practiced when earlier plowing is impracticable.

Pasturing hogs upon land supposed to harbor cutworms is a beneficial practice, as these animals root up and devour insects of many kinds, including cutworms, in large numbers. Farm poultry, if trained to follow the plow will prove of inestimable value.

When cutworms are found to be abundant on corn land, the use of the poisoned bait is recommended. This may be prepared as follows: Mix 50 pounds of wheat bran, 2 pounds of Paris green, and six finely chopped oranges or lemons. Then bring the whole mixture to the consistency of a stiff dough by the addition of a scant molasses, such as is used in cattle rations, adding water when necessary. Distribute this bait over the infested field in small lumps, taking care to sprinkle it sparingly around each hill. In case bran can not be readily obtained, middlings or alfalfa meal may be successfully substituted. In fields known to be infested, the distribution of this bait should be started as soon as the corn begins to appear above ground so that the cutworms may be eliminated as quickly as possible and the injured hills promptly replanted. During the warmer spring months cutworms do most of their feeding at night and burrow into the soil to the depth of an inch or two during the day, so that the bait will usually be more effective if applied during the late afternoon or early evening hours.

Frequently cutworms migrate to cultivated fields from adjoining grass

land, and in such cases the crops can be protected by running a narrow band of the poisoned bait around the edge of the field or along the side nearest the source of infestation.

STOCK NOTES

(From Panhandle Herald)

"I sold my steers, \$1,525.25 worth too early," said Lotnie Skaggs to the Herald editor Wednesday afternoon. During the winter Mr. Skaggs put 124 head of big steers in the feed lot and fed out to them his grain crop. These steers were weighed up and shipped a few days ago, the heaviest among them weighing 1650 pounds and the 24 made an average of 1263 1/2 pounds. He sold the steers some time ago for one dollar per hundred less than the market on the day they were weighed out, and thus it is Mr. Skaggs figures that he sold \$1,525.25 too early. However, the steers made the feed bring \$1,350 and there is yet a car of home raised hogs to go to market about June 1st, and another car will be ready to go about August 1st. Off of last year's wheat crop, Mr. Skaggs realized \$4,500 cash, and his oats crop, \$1,000; feed fed to his steers brought him \$1,350 and estimating the car of hogs at \$1,500, gives him a cash return of \$8,350.00 on his last year's farming operations. He also raised 11,000 bushels of grain in 1915 from the same farm two miles south of town. Notwithstanding the loss of \$1,500 on selling his steers too early, Mr. Skaggs realized for his grain a price considerably above the market and says that it will pay Carson farmers to feed every pound of grain right at home.

Sid Williams, of the 6066 ranch, received 22 cars from the 6066 ranch down in Dickens county this week.

J. S. Winn sold 35 Hereford cows to R. E. Boyd, also 36 Hereford heifers to Bender & Anderson.

Ellis & Wynn sold 112 cows to Joe Owensby, of Stamford.

O. P. Russ shipped three registered Red Polled calves and one cow Wednesday to Geo. E. Price of Tucuman. This makes ten head Mr. Russ has sold from his herd to Mr. Price at fancy prices. He received for the cow shipped Wednesday, \$150.

J. I. Winn, Geo. Stimms, John W. Apel and Hubert Lemons shipped one car each of fat hogs to the Fort Worth market last Saturday night. Mr. Stimms and Mr. Lemons accompanied the shipment.

Gist Buys Fine Herefords. John M. Gist, of this city has just returned from Independence, Mo., where he bought from the famous Lennox herd, fifty-eight registered Hereford yearlings and cows, paying \$325 around for them. He sold one of the heifers, and not better than the average, to an Independence man for \$500 before he left there. He will bring these cattle to his ranch in Bailey county, west of Plainview, where he has accumulated quite a good sized herd of the finest registered Herefords. —Plainview News.

Bought "76" Ranch. W. H. and J. M. Lee, of this place have made recent purchase of the "76" Ranch holdings and lease from Poole and Holloway, of Midland, Tex., who have been running the ranch for a number of years. The property consists of four sections, owned and well improved, with a range at present of about forty sections. This ranch at one time covered practically all of the southwest one-fourth of Younkum county, but has gradually been restricted by the farmer and stock farmer. —Plainview Developer.

A Big Cattle Sale. One of the largest movements and sales of cattle in this section took the better part of this week to Glenrio to consummate. The Landergans are the principals with a number of buyers from Kansas. A matter of 3,250 head were shipped from Glenrio, 4,000 from Vega, Texas, a few miles east of here; 6,000 from Romero, Texas; or a total of 13,250 head, requiring 440 cars, or 12 trains of 28 cars each, to move them to their destination.

While not authoritative, it was asserted that the Landergans received \$77 per head and that \$70 had been offered for a release from the contract. The buyers were represented by John Kister, Lamar, Kansas; Frank McCreedy, Vico, Kansas; R. C. Gafford, Minneapolis, Kansas; Ace Crink, Manchester, Kansas; and Jesse Stillwell, Lamar, Kansas. —Glenrio, (N. M.) Tribune Progress.

Some Haywood County Stock Deals. P. C. Tom sold about 500 coming yearling steers at \$42.50 per head to Kansas parties on last Saturday, and steers to be delivered this week.

E. B. Dickerson has just sold one car of high grade Hereford bulls to G. W. Hennessy, of Holbrook, Ariz. Also sold a bunch of heifers of the same class to parties in Andrews county.

H. Hamilton bought two fine Hereford bulls this week, buying one from Judge A. C. Edison, at the fancy price of \$185 and one from John B. Stoecker at \$125. —Stanlon Reporter.

Large Shipment of Steers

The largest shipment of steers to leave the Halls station since its establishment was that of Sunday when 1082 head of four-year-old steers were billed out by Higginbotham Cattle Company for Sallards, Kansas, where they will finish them before shipping them to the packers. They were shipped here last fall for the winter, and were run in the old Z-L pasture. They were Herefords uniform in size, in good condition and were the prettiest big bunch of cattle the writer has ever seen. Approximating their value at \$80 each, which is a conservative estimate, the herd was worth \$86,560, and was perhaps the largest single shipment ever consigned out of Crosby county. Station agent Richardson received \$2,898.74 freight on the shipment, it taking 59 stock cars to accommodate the herd. —Halls (Crosby county, Texas) Banner.

For a New Post Office

Application has been made for the establishment of a new post office on the west line of Lynn county about 15 miles west of Tahoka and 1 mile north. It will be called Lynnend and W. W. West will be the first post master. Croquet sets at the Fair.

THE WORLD'S TWO BEST TWO-ROW CULTIVATORS

The P & O Two-Row Cultivator covers every essential feature for perfect work, ease of adjustment and adaptability of all conditions of soils. The simplest and strongest Two-Row Cultivator made. "It's the way we build them". Frame as strong as a bridge. Axles of improved construction prevents wheel widening in front, make light draft. Fine depth adjustment, each gang controlled independently. Four levers do the work of six on other styles, as the inside levers control the inside gangs independently, and also raise or lower the gangs in pairs. Easy working adjustable foot levers. The wheels can be pivoted alone or in connection with the lateral gang movement. The pressure springs are center hung, insuring proper tension in all conditions of the ground and in any position of gangs. The parallel movement of gangs insures each shovel cutting the proper width and depth. Furnished with any style gang.

**No. 27 2-Row Lister Cultivator**

We make a complete line of DRY FARMING tools, prominent among which is the No. 27 Lister Cultivator, which has many superior features, consisting of two sets of gangs mounted slidingly on a trussed spreader pipe. Turn table construction, evenly distributed weight on the gangs, holding them level and preventing one side from going in deeper. Each gang follows its own row. Roller connection between the gangs and spreader pipe. Gangs can be raised as a unit, or shovels can be raised separately. Frame balances with tongue when raising gangs. Easy change from first to second cultivation. Extra high clearance for large corn, with long shield for small corn. Eight shovel attachments can be furnished when ordered.

# THE HEREFORD BRAND

B. F. GUTHRIE, Editor

Entered April 17, 1901, in the Postoffice at Hereford, Texas, as second-class mail matter. First number of the paper issued February 23, 1901, as the Hereford Reporter; first number of the Brand issued March 21, 1902.

Subscription Price \$1.50 Per Year, Strictly in Advance

Our Mothers! Thrice worthy of every honor that this week brings to them all over the wide world. The love that has been the solace, the refuge, the inspiration, of all peoples of all the centuries of the past, is still the mold of the world's destiny and God's most potent co-agency in bringing about His own appointed ends.

Fitting, indeed, is it that men should pause in the busy strife of life to recount the virtues of these "mothers of men" who have ever been, are now, and shall always be the reflected radiance of infinite love, goodness and truth.

The heart-cry of the world at this season is expressed in the old words,

Backward, turn backward; oh time in your flight,

Make me a child again, just for tonight.

Mother, come back from the echoless shore,

Take me again in your arms as of yore

Brush from my forehead the furrows of care

Smooth the few silver threads out of my hair.

If you haven't seen Mothers' Park in all its glory of soft green grass and luxuriant shade it will be quite worth your while to make a trip over there and see what a little care used in connection with God's own sunshine and a generous supply of water can do for what would otherwise be an unsightly patch of weeds; and just here we want to pay a deserved tribute to the boy to whose faithful, conscientious, painstaking care the beautiful appearance of the park is due. Master John Turner, a pupil of the 7th grade, has had charge of the work. He, together with a smaller boy (who, by the way, is no slouch either) have watered and hoed and burned trash for the past week and the result of their labor would compete creditably with that of any man, professional or otherwise.

N. L. Ball is the new editor and owner of the Silverton Star. His well-gotten up paper is a welcome addition to our exchange list. Here's success, Brother Ball.

Claude citizens are enjoying a newly installed light service. The system will be permanently offered to the city on Saturday night, although a week ago an initial tryout gave promise of its successful operation. And thus the march of progress goes steadily on in the Panhandle.

Hereford was a real business center Saturday. From early afternoon until late evening the streets were thronged with busy, prosperous-looking people all interested in the attractive window displays, which heralded the more attractive lines carried by the city's up-to-date merchants.

The stores were crowded the entire afternoon with busy shoppers, and every merchant did a thriving business.

This co-operative spirit between the town and surrounding country is the forerunner of a greater prosperity for both. Their mutual interdependence is recognized by both, and is surely bringing about an attitude of friendly helpfulness which will bring results.

Those of the rural districts want their capital city to be worthy of an intelligent, prosperous, people, a good town from a commercial, educational, and moral standpoint, where they can buy what they want, to advantage, where their young people can continue their school work after finishing the grades, and where their boys and girls will find only those things which are uplifting in their tendency.

The town should afford just these opportunities. If it does not, no one can blame the country resident for going elsewhere to find them.

On the other hand the town must have the loyal support of its rural population. In order to maintain an extensive line of merchandise, the merchant must know that he will at least have an opportunity to dispose of it at a reasonable profit. He can only supply what his trade demands. Hereford stores can easily compete with Amarillo, and Sears & Roebuck, but they must have the trade to justify the larger stock and lesser prices. In other words to be successful and without commercial success city development is impossible.

No where is the motto "Lend a hand to one another," more essential than the conduct governing the business relations of merchant and farmer.

## JUDGE HALL ANNOUNCES

Judge R. W. Hall, of Amarillo, now Judge of the Court of Civil Appeals, has announced as a candidate for Judge of the Supreme Court, to succeed Judge Yantis. Judge Hall is one of the best lawyers of the State, a good jurist, and a true Christian gentleman in every sense of the word. If nominated and elected, and there is not much doubt of that, he will bring a ripe experience and excellent ability to bear in the discharge of his duties. The Brand is for Judge Hall, first, last and all the time.

This column stated last week that the class that gave "The Winning of Latane" had declined to give one of the Shakespeare plays. We were mistaken as to the class. It was the senior class whose literary taste should have been called in question. This class had been urged to give "A Midsummer Night's Dream" but preferred to give a comedy which they are now preparing.

We do not criticize this play, or "The Winning of Latane." Both are good as these things go. Both will doubtless give a histrionic training that is worth much. Our point is this: Literary taste is a habit. It is the sum of all the literary training of a life. If from this sum we are not forced to take a negative sum of indifferent training and influence, the result will be pure and lofty ideals, and a keen discrimination of literary values, such as will almost invariably mean a correspondingly high type of character.

Nothing in all the school curriculum can possibly mean so much to the future citizenship of the country as the development of wholesome literary habits in the student body.

Nothing of value in either of the school plays would have been sacrificed in "A Midsummer Night's Dream" and the girls would have been infinitely knowing as we do the personnel of the senior high school class we feel sure that it would have made of "A Midsummer Night's Dream" a glorious success.

## PRINTING PANHANDLE WEEKLY

The Brand office is printing the Panhandle Weekly this week for Mr. J. W. Cheney, the editor.

The Panhandle Weekly is becoming a popular paper over this section, as Mr. and Mrs. Cheney are giving the people the news.

Next week we will get out, in addition to our own paper, the Panhandle Weekly and the Antidote, for Father J. A. Campbell.

With our big lot of job work and getting out two papers, the office has been a busy place. Mr. Cheney is doing the makeup and press work himself.

## A Chapter Of Accidents

The 7 year old daughter of Mr. Schaeffer, a family moving to the Elder place east of town was killed Tuesday evening by being run over by a wagon. The father had got off the wagon to pick up a fallen article, leaving the child to hold the team when they took fright and jumped, throwing the little girl under the wheel, crushing her head and breast, killing her instantly.

Mrs. J. E. Ladd was run over by an auto near the Woodward Fair grounds Friday evening, when returning to her home south of Fargo, receiving a bad fracture of the leg, just above the knee. She is in the hospital at Woodward. Something had gone wrong with the harness and she had got out to fix it when the team got scared and knocked her down and the auto ran over her.

Mr. Matton, an old resident of the

north country, was run over by an auto in Woodward, Tuesday evening, receiving injuries from which he died that night. He was an old soldier and a member of the I. O. O. F.—Fargo, (Okla.) Republican.

## Moved Stock to Pasture

Smith & Donald unloaded 12,000 head of cattle at the stockpens here last Thursday night and put them in the pasture east of Dick Cleunin's and unloaded 300 more on Friday and took them out north.—Frisona Sentinel.

## Improving Farm

W. M. Green, of Olathe, Kansas, was a visitor in town Wednesday and paid the Texan office a call. His son recently commenced the improvement of a farm near Conlen and Mr. Green is assisting in stocking the place. They have shipped in a number of black Angus cattle and will add more of this breed to their herd.—Dalhart Texan.

## Big Loss From Fire

A very disastrous fire occurred at the C. P. Ingram farm two miles east of town Wednesday night at about 10:30 o'clock in which his barn and all its contents were burned. Four head of horses belonging to W. U. Laughlin, a neighbor, was burned to death, as was also one for Mr. Ingram. 1,300 bushels of wheat, 200 bushels of kafir corn, 30 tons of hay, buggy, harness and other implements were destroyed by the flames. The total loss was something like \$6,000 with insurance to the amount of \$2,300.—Shattuck (Okla.) Monitor.

## Barn Burned

The barn of Joe Myers, on the Franklin old farm in the Custer community, was destroyed by fire Friday morning about 3 o'clock. The origin of the fire is unknown. J. H. Myers was living on the farm and lost about one thousand bushels of feed. The barn, which was worth about \$400, was insured for \$200.

Mr. Myers, recently moved from Eldorado to his farm in the Odema community, and all his feed was in the barn which was burned.—Eldorado, (Okla.) Courier.

## Sold More Cattle

Thomas & Hughes sold another car load of white face cows the first of this week to J. A. Shugert who lives on the Cimarron river in Cimarron county, the consideration being \$80.00 per head. They also sold nine of their fine white face bulls to parties in New Mexico.—Texhoma Times.

## Stockmen to Meet at Manhattan, Kans.

On June 9, the Kansas Agricultural College, Manhattan, will be host to hundreds of farmers interested in live stock. P. W. Coburn, president of the National Bankers' Association, is on the program for a talk on "Financing the Cattleman." W. R. Stubbs, former governor of Kansas, will speak on "The Relation of the Range Cattle Business to the Feeding Industry." Dean Chas. F. Curtiss of Iowa State College, Ames, is on the program. Governor Arthur Capper has been asked to preside. Results of tests made at Manhattan in feeding 100 calves to make yearling beef will be presented.

## Buy Fine Percherons

The first of the week W. C. Ondler went to Pratt, Kansas, and Tuesday returned with two thoroughbred Percherons and a Jack. One of the horses weighs 2150, the other 2040 pounds—a black and gray.—Guyman (Okla.) Democrat.

## Apples Are Still Plentiful

The condition of the apple market is a matter of grave concern to both growers and dealers all over the country. The report of cold storage holdings of apples on April 1st, recently issued by the U. S. Department of Agriculture, gives some figures which probably will cause all dealers interested in the crop to speed up the movement of this fruit in a most vigorous way. This report, which was compiled in the Office of Markets and Rural Organization, shows that on the first of the present month there were approximately 44 per cent more apples in cold storage than at the same date last year, and the season of 1914-15 was one of unusually heavy production. Figures from 427 storages indicate that nearly 33 per cent of the apples which were placed in cold storage by December 1, 1915, were still there on April 1st, waiting to be consumed.

## Hatches 92 Chicks from 93 Eggs

Lois Andrews, living west of the city on Blue Water Creek, reports a hatch of ninety-two chickens from ninety-three eggs last week. This is believed to be a record in this part of the country.—Tucumcari (N. M.) Sun.

## Cattle Go North

Three train loads of cattle, fifty cars, were in the Frisco yards a few days ago en route from Acme, Texas, to Latham, Kansas, where they will be fed for the market.—Hobart (Okla.) Republican.

L. E. Eastland, of Boyina, has been looking for a ranch in Quay county, N. M.

E. F. CONNELL

CHAS. S. PURCELL

GEO. CLOYD

R. W. BAIRD

For County Judge (Castro County)—

B. D. WOODLEE

For Representative, 123rd District—

T. J. TILSON (Hale County)

For Treasurer—

J. J. WARD

## Farmers Buy Holsteins

Mr. F. B. Green, of Evansville, Wisconsin, who was here a short time ago talking with the dairy farmers with Mr. Jackson, our county agent, returned with two car loads of Holstein cattle last week. Mr. Green billed both his loads to Guyman but stopped at Hooker two days and while there sold 22 head. This was an excellent opportunity for the people of this section to get some of the dairy stock that made Wisconsin the first dairy state in the Union and people here were not slow to take advantage of this stock being brought here. A part of this went to fill orders of previous dates and now there is a pretty good showing of Holstein stock in and around Guyman.—Guyman (Okla.) Democrat.

## Registered Stock to Quay Co.

A. A. Pollard of Norton, got back Wednesday, from Adell, Iowa, bringing with him a carload of registered Hereford yearlings. There were twelve bulls in the bunch, five of them being of the Polled variety; and fourteen heifers. All but two of the bulls will be sold to cattlemen in Quay county. Two of the bulls and the heifers will be placed on Mr. Pollard's ranch near Norton.—Tucumcari (N. M.) Sun.

Now is the time to select your graduation present. W. H. Ray.

## Sweet Clover Flourishes Here

Among the forage plants that do well here Sweet Clover may be classed as one. A few farmers are now giving it a tryout and it is proving a wonderful producer as well as an excellent feed.

Mr. E. E. Ramsey, northwest of town, is one of the farmers now giving it a trial. In February, 1915, he sowed fifteen acres. It made considerable pasture last year and this spring is making a wonderful growth. At the present time he has about forty-five head of stock on about 15 acres a part of the time, and about thirty head all the time and they are not keeping it down. The stock are doing well.

It would seem that if this crop will do this it is foolish to use ten acres of native grass for one animal.

Moreover Sweet Clover is a legume that helps the soil, making it more productive for other crops.

This Sweet Clover is growing well without irrigation.

## Sweet Clover, Corn and Beans

Rev. J. S. Moore and his sons will farm 200 acres this season. They will sow a few acres of sweet clover and a little broom grass, the balance going to corn and beans. Mr. Moore says that some sweet clover grows along the Tajique draw where it traverses his place, and the stock eat it with great relish.—Estancia (N. M.) Herald.

# Don't Roast Yourself

—over a big coal range

—Get one of our Perfection Oil Cookers, with fireless oven. We have them with four burners, either long or short—also the Revonoc Cooker. The oven shuts absolutely tight; asbestos lined, and after you turn your fire out acts as a fireless cooker. Coal oil is cheap, while gasoline and coal is high. No heat or dust from your stove in these summer days. Beginning Monday, May 16, and continuing 30 days, we will receive sealed bids on one of these stoves of either kind, and the highest bid will get the stove regardless of what the bid is. If you buy one of these stoves during the 30 days you can bid, and if your bid is the highest you can take your stove for the bid, instead of the regular price you otherwise would pay.

Tell your husband NOW that you will not put up WITH THAT OLD HOT RANGE ANOTHER SUMMER...

**A Future for Live Stock**

(A. M. Howe)

The grower of meat animals need fear no overproduction for a while at least. The bread supply today is quite liberal, due to the vast increase in grain acreage the world over. But increasing the meat supply is a much slower process. It will take years to catch up with the ever increasing demand for meat.

In this connection a few export figures may be of interest to indicate the trend of things in the way of bread and meat. During the eight month period ending with February the United States exported only \$266,505,377.00 in breadstuffs as against \$358,758,704.00 for the same period last year. This is due to the increase in foreign grain production, less of ours being needed.

Contrast this with a few meat items as shown above. In the same period reported during this eight month period 148,621,997 pounds of fresh meat as against 61,079,441 pounds, (over 283,442,779 pounds as against 109,297,299 pounds) and hams 17,747,471 pounds as against 9,744,882 pounds. These are fair samples.

Northern Texas and Eastern New Mexico are especially adapted by climate and soil for the production of meat. It is a great breeding section, but it also is a heavy producer of forage and grasses that will finish cattle, sheep and hogs for the killer. There is little danger of a slump in prices. Though hogs increased vastly the past year, the price has advanced materially.

The moral is, that this section is safe in planting the largest possible acreage of forage and be prepared to reap the benefit of the demands for meats. Growing and feeding live stock will continue to pay good dividends for a while.

**Hereford People Get Instant Action**

Those who have used it in Hereford are astonished at the INSTANT action of simple buckhorn bark glycerine, etc., as mixed in Adler-ika. Because it acts on BOTH lower and upper bowels, ONE SPOONFUL Adler-ika relieves almost any CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieves or prevents appendicitis. A short treatment helps chronic stomach trouble. Betts-Clark.

**Recital**

The pupils of the music class of Miss Betts, assisted by the expression class of Mrs. Wright, will give a recital at the high school auditorium tonight at 8:30 p. m. The friends are invited.

**District Court Proceedings**

District Court has been giving its attention to the criminal docket this week, and cases have been disposed of up to Wednesday night. These cases were the State of Texas vs Claude Newsome, and the State of Texas vs Jesse Ford, and each of the trials resulted in verdicts of conviction, sentencing the defendants to a term of four years in the penitentiary, and their sentences were suspended during good behavior. These defendants both entered pleas of "guilty" to cattle theft.

The grand jury adjourned Thursday afternoon, May 4, to reconvene Monday, May 22. No more bills were returned after the one reported in last week's Brand.

The following civil cases have been disposed of since the last issue:

Ex Parte Clifford Aker, application for removal of disabilities of minority. Application granted.

S. B. Edwards vs Wm. Capps et al suit on note and for foreclosure. Dismissed at cost of plaintiff.

E. R. Briggs et al vs Lillie McBride et al, defendant's general demurrer to plaintiff's petition sustained and case ordered dismissed by the court. Plaintiffs gave notice of appeal.

The following out-of-town attorneys have been visitors in town this week: Messrs. Otis Trulove, H. C. Pipkin, and A. S. Rollins of Amarillo, Harry Patton of Clovis, Cecil Storey of Vernon, and Mark Cowart of Dimmitt. Messrs. Rollins, Storey and Patton have been attending District Court in Dimmitt, which is in session this week.

**Citizen's Meeting**  
Hereford has seemingly adopted the motto, "Let us now be up and doing," as a most gratifying attendance and interest spoke the people's response to the call for the citizen's meeting at the court house Friday evening. The entire program was thoroughly enjoyed but the evening proved too short for the general meeting which had been anticipated.  
Punch was served at the auditorium entrance. This pretty courtesy, together with the program of readings and music gave the occasion a happy social touch.  
If the addresses of the gentlemen evoked the sentiments of the other members of the town, there is no question as to their loyal co-operation in the work of the club. At their own suggestion the gentlemen present gave their names as honorary members with an initiation fee of \$1.00.

**REXALL ORDERLIES**  
**THE IDEAL LAXATIVE**

Prominent New Orleans Druggist is Authority For This Statement

P. A. CAPDAU  
who owns and operates one of the big stores in New Orleans, says:  
"I am of the opinion that Rexall Orderlies are the ideal laxative for men, women and children. This opinion is based upon my knowledge of the formula and upon what my customers say about them. Through personal experience, I know they are pleasant to take, gentle in action, and give the same pleasing results when used by men, women or children."

**THE CORNER DRUG STORE**  
Some Big Land Deals  
Roberts county land is certainly changing hands fast the past few weeks.  
Last week a deal was closed between Geo. Walstead and Arch King, whereby Mr. King becomes owner of the fine Walstead ranch north of the river, totaling over 7,000 acres. Mr. Walstead also purchased another ranch of ten sections from the White-foote people in the southwest portion of this county.  
Bud McCustian purchased the nice seven-section J. A. Rogers ranch lying near town. Consideration was near \$25,000. Mr. McCustian took possession first of this week and Mr. Rogers is moving to town.  
J. B. Robertson closed a deal this week, selling to Craven & Brummet Bros., of Claude, the A. M. Horner Mendota ranch of 11,500 acres. Consideration \$57,500 cash.  
W. F. Patton sold his Green Lake section to Rye Williams.  
Aside from the above large deals, several smaller ones are pending that will likely be closed up this week.—Miami Chief.

**A Peanut Crank**  
Today, Jim Harris, of Roysse, the peanut "crank" as he dubs himself, was here on business, but he did not escape without telling a Banner representative of the results he got from a crop of peanuts last year. He put in 80 acres. His land is of a gray variety. When he got through harvesting he hauled fifty-seven loads from the eight acres. He sold \$185 of the crop, wintered twenty head of cattle, five head of horses and has enough left to keep sixteen head of hogs until the new crop comes in. The question is who can make such a showing with cotton? There is reason for Mr. Harris being a crank on peanuts. He has found it more profitable than anything he can turn his hands to.—Greenville Banner.

**Notable Cross-Country Motorcycle Records**  
—practically all of them—have been made on Indians with the CRADLE SPRING FRAME.

For it's only on the Indian that you find this remarkable comfort mechanism—the device that, on rough roads, gives you the sensation of sail-boating on smooth waters.

The difference between Cradle Spring Frame riding and that of the ordinary shock absorbing devices is the difference between walking on iron heel plates and rubber heels—between riding in a farm tractor and a high-grade motor car.

The Cradle Spring Frame has more than comfort and ease in its favor. It keeps shocks from jolting motor mechanism. It absorbs the jars and bruises which the tires ordinarily suffer. Low upkeep cost results—greater mileage, less general tinkering.

Come in and test its velvety "give". Find out why you can travel fastest on roughest roads with the Cradle Spring Frame.

## The Most Popular Overland

There is already an enormous demand for this big four cylinder Overland.

With certain improvements, it is the same car of which 55,000 Overlands were sold last season for \$750.

The price is \$55 less.

Standardization of product and the purchase of raw materials at before-the-war prices, made this reduction in price possible.

It will not be lower, for materials are rising in price.

So order your Overland now, to make sure of getting it.

(State Senator)

## H. L. DARWIN.

of Delta County

Candidate for CONGRESSMAN-AT-LARGE Subject to Democratic Primary Election, July 22, 1916.

Your support earnestly solicited.

### MY PLATFORM:

I am for Woodrow Wilson for President; I favor Rural Credits, Marketing Bureau, Government aid to Good Roads, Organized Labor, Public Health, Preparedness, Prohibition, Flood Control, Levy and Drainage, Improvements of Harbors and worthy Waterways, Competitive Cattle Market, Merchant Marine, and oppose "Pork Barrel" appropriations of every nature.

Yours to serve,

H. L. DARWIN.

Resolutions adopted at Cooper, Texas, March 18th, 1916, at the organization of the Darwin Club:

"Whereas, Senator H. L. Darwin of Delta County is a candidate for Congressman-at-Large in the July Primary, and we, the voters and Democrats of Delta County, know his qualifications to be in every way such as to enable him to make a valuable Representative in Congress; therefore,

"We commend his candidacy to every Democrat in Texas, because he represents the best interest of all Texas, and Texas will be ably and favorably represented in his election. He is broad-minded, liberal and fair in all things.

"He is a graduate of the University of Texas, and the East Texas Normal College. He has represented the Second Senatorial District in the Texas Senate for the past four years, and was an able and conscientious member. Was prominent in advocating Workman's Compensation Act, "Blue Sky Law," Compulsory Education, Good Roads, Levy and Drainage, Property Rights of Married Women, Labor Legislation, Warehouse and Market Law, Rural Credits, Pure Seed Bill, Public Health, and opposed useless expenditure of Public funds of every nature. He was loyal to the best interest of the State, whether North, East, South or West, and no section appealed to him in vain when its best interests were involved.

"Senator H. L. Darwin possesses the highest educational training, which, combined with his native ability, energy and courage, will enable him to render valuable service in Congress. He represents the best the State affords in a personal, political and industrial way.

"Therefore, we urge all Democrats in Texas to support Senator H. L. Darwin of Delta County for Congressman-at-Large."

### Resolution No. 2.

"We, the Farmers of Delta County, recommend Senator H. L. Darwin to the voters of Texas for their support."

"He was raised on a farm in Delta County, and now owns and operates a farm in this county. He has equipped himself with the best education of the State affords. As a member of the State Senate he was a supporter of better agriculture, better marketing, better roads, better schools and better public health. He is an active member of the State Corn Growers' Association, the Farmers' Institute, and Farmers' Union. He is one of those who is working to better the condition of the farming interest in every way.

"He will make an efficient Congressman, and we recommend him as one of our number to every farmer and voter in Texas. The business interests will be ably and fairly represented in his election, and the producing class will have one of their number in Congress and one who will faithfully render a service to the State and Nation."

Respectfully submitted, W. S. Miller, W. White, Jack Lemmons, G. Skeen, Arch Hendrix, J. W. Russell, and 800 others.

### Delivered 1000 Head

### Now Believes in Silos

That determination and perseverance will overcome almost any handicap proven by C. M. Smith, who lives in the Pine Grove neighborhood, west of Moriarty. Last year Mr. Smith did not have a silo, but he had a patch of corn, a cistern, a hatchet, a strong arm, and a stout heart. The result was about four and a half tons (estimated) of good silage. Mr. Smith and his son put one and one-third acres of corn into the cistern, cutting it into three-fourths of an inch lengths with a hatchet, and treading it down well in the cistern. The silage was fed to five cows, lasting three months. If the estimate of the amount of silage is correct, this would give a ration of twenty pounds per day per animal. Unfortunately we do not know what, if any, additional feed was given. But during the time the silage was fed Mr. Smith's cream check was \$4.70 per week and when the silage gave out it immediately dropped to \$3.50. Of course, without the knowledge of what else the cows were fed during the time they were on the silage and what the feed was afterward, this item is of no particular significance as a feeding test, but the manner in which Mr. Smith got the silage is of particular significance. The test satisfied him of the value of silage, for he is going to build a silo this summer. (Starvation N. M.) News Herald.

# HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Came Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

## Of Interest to Club Women

To the Club women of the First District of the Texas Federation of Women's Clubs.

The chairman of the department of Literature submits the following rules of contest in original literary composition.

- Rules**
1. This contest is open to all women in the State whether members of a federated club or not.
  2. Composition must be a poem, a short story or special article.
  3. Manuscript must be typewritten and not exceed 2,000 words.
  4. Composition must be submitted before October 1st of each year, to the Chairman of the Literary Committee for the district in which the composer resides.
  5. Compositions must be signed with a fictitious name and accompanied by a sealed envelope containing the fictitious and the real name and address of the author.
  6. The chairman of each district literature committee shall select the best poem, short story and special article from her district and send same to the chairman of the State Literary Committee before November 1st of each year.
  7. The best poem, short story or special article will be published in the official organ of the Texas Federation of Women's Clubs.
  8. The two best literary essays will be incorporated at the discretion of the committee, into the program for fine arts evening at the state meeting.
  9. The State Chairman shall have the right to reject all manuscripts. No manuscripts will be returned.
- I appeal to every member of a woman's club to see that her club has one or more manuscripts entered. The first district may not produce a Glass worthy so cleverly characterized out with his camera, his beautiful, sad, foggy camera; or Arnold Bennett, stitching and stitching faithfully twenty-four hours a day, big, curious tapestries of little things; nor an H. G. Wells, with his retorts, his experiments about him, his pots and kettles

of humanity in a great stew of steam half hopeful, half discouraged, mixing up his new, queer-messes of human nature, but you can think of yourselves in the vital questions and tendencies of the day, you can make a careful, realistic and delightful study of the life about you, and in consequence, contribute a short story, poem or special article and stimulate an interest in literature in your district.

You have no doubt read something of the Texas Theatre as planned by Mrs. David Carb of Fort Worth. I hope you will give this enterprise your hearty co-operation. Mr. Carb is a young playwright and producer of ability. His plan is perfectly practicable, and dramatists interested in the theatre generally believe that the best way of rehabilitating the American stage and drama is to establish sectional theatres based upon a civic rather than a commercial idea.

There is no reason why we should not begin this work in Texas and Mr. Carb is giving us the opportunity.

The department has outlines for club study on file and will furnish on request the following:

The Immigrant as Seen Through His Own Literature; Modern Drama; Chief American Poets; English Poetry in the Nineteenth Century; Woman in Poetry, Play and Story; The Drama; Problems of Moral Education; Physical Education in Home and School, etc.

I will send on request suggestions on "How to Prepare a Club Topic" and "How to Prepare Club Programs."

Mrs. L. A. Wells, Amarillo, Texas, chairman.

First District Literature Committee.

Mrs. Maggie W. Barry, Sherman, Texas, State Chairman.

The pupils of the seventh grade were given a picnic on Tuesday evening. Master David McDonald kindly gave the use of a big hay wagon with team to match, and with an elaborate luncheon, the jolly crowd went to the pretty picnic ground near the dairy, where they enjoyed an evening of genuine fun.

Miss Clyde Wilson assisted Miss

Price in chaperoning and entertaining the frolicsome youths. They returned about dusk, tired but eager for another picnic soon.

The Freshman class of the high school planned a picnic for Saturday, but, as for various reasons several members of the class were unable to go, a part of the class, accompanied by a few friends made up the party.

A farm wagon conveyed them to Sulphur Park, that goal of picnickers, where with fishing, games, and a beautiful picnic spread, the day was most enjoyably spent. The merry-makers consisted of Carl Lewis, Jarvis Rayzor, Frank Carl, Helen Lambert, Lora Evans, Corinne Jewell, Merrell Grangerger, Marjorie Dameron, Inez Terry and Prof. F. P. Wilson.

Perhaps the most elaborate of the week's social affairs, was the charmingly appointed dinner given by Mes James C. C. Ferguson and Alice Lea, on Saturday evening.

The stately and elegant Ferguson home was the scene of the delightful function, and the guests who were privileged to share the ladies' gracious hospitality were the local gentlemen and a few other friends.

In the interval preceding and following the dinner, the spacious gallery furnished opportunity to enjoy the pleasures of social cheer with the added delights of flower-scented breeze, and the splendor of a springtime sunset reflected on velvet lawn and radiant blossoms.

Three large tables furnished in simple elegance, each brightened with a magnificent centerpiece of carnations held covers for twenty-four guests.

Suggestive place cards in gold with names in white lettering, bore the insignia of the order—a "white face," with the single exception of that for Mr. Oberthier. This, in deference to that gentleman's known preference showed the regulation Polled Angus.

The following attractive menu was served:

- Strawberry Cocktail
- roast turkey and dressing
- cranberry jelly new potatoes
- sliced tomatoes on lettuce leaves
- French peas in timbales, candied sweet potatoes
- brain and mushroom patties
- sweet pickled peaches rolled in crushed nuts
- olives celery
- fruit salad with whipped cream
- brick ice cream, angel food cake
- coffee cake
- coffee

Misses Mable Betts and Minnie Dea Coffin rendered a beautiful musical program during the evening and several enthusiastic games of "forty-two" gave pleasant diversion to the devotees of that popular game.

The guests were: Dr. Faris, Rev. W. M. Baker, B. E. Guthrie, F. H. Oberthier, O. M. and L. H. Shore, Ray and George Barber, B. S. Arnold, W. E. Hicks, Wirt Phillips, Rat Jowell, Dr. Jones, G. H. Conkright, Chas. Donald, C. R. Smith, Arch Collins, P. D. Perkins, F. W. Curtis, C. H. Lupton, of Lubbock, C. C. Ferguson, R. N. Mounts, J. L. Fuqua, and W. O'Brien.

Mrs. D. C. Laird was hostess to the Bay View Club on Thursday. The afternoon study was devoted to French Art, Mrs. McLean capably directing the work.

An interesting article on French painters was given by Mrs. Stephens, and the lesson questions were given careful study.

Dainty refreshments were served. The club meets this afternoon with Mrs. J. E. Ferguson.

An interesting and enthusiastic meeting of the Civic Club was held Saturday at the club rooms. The committee reports were gratifying and the club feels that some measure of success has already been achieved. The work of the flower committee is taking tangible form in some neat flower boxes which are being placed in the windows of the business houses. The pretty windows of W. H. Ray's jewelry store was the first to be decorated with the boxes.

Two large handsome flower beds in the business section on Main Street have been laid out and planted under the supervision of Mesdames W. E. Hicks and Ray Barber.

Misses Gray, Gillispie, and Pickett, were charming hostesses on Tuesday evening to that coterie of merry maidens known as the "Polyannas," and a number of other friends.

Inaugurating the annual picnic season, they motored to the picnicer's mecca, the Terra Blanca, and with all of youth's capacity for enjoyment they proceeded to eat, drink and be merry. The delicious supper which had been provided consisted of sandwiches, Pickles, devilled eggs, potato chips, bacon, cake and ice cream cones.

About thirty guests enjoyed the jolly occasion.

The ladies of the Mothers' Club were entertained by Mrs. T. M. Palmer, on Tuesday afternoon. A most enjoyable feature of the program was the debate, the question being, "Resolved: That the girl of today is better fitted for the problems of life than the girl of fifty years ago." The affirmative was ably taken by Mesdames Caylor and Cogdell, while Mesdames Dodson and Walker capably handled the negative and won the decision.

Visitors were Mesdames Doolittle, and Claud Gass of Ringgold, Texas. Cream and cake were served.

### Neighboring Society

The S. W. P. Club met with Mrs. Edith Powelson, April 27. After the business an excellent Easter program was rendered which was very interesting and enjoyed, not only by the Club members, but by a number of invited guests. The visitors were: Mesdames Rucker, Hawkins, Williams, Mae Powelson, and Valentine.

Some piano selections and vocal numbers were rendered during the meeting. This was very inspiring, as was also the reading, "The Crucifixion and Resurrection of Christ," given by Miss Howton. Delicious refreshments of sandwiches, pickles, white and gold cake with Spanish cream were served. The club and friends were invited to meet with Mrs. H. D. Rucker on the afternoon of May 18th. The invitation was appreciated and accepted. The Rucker home abounds with hospitality to friends and for all lines of advancement.

### Young Couple Married

Mr. Elmer Paul, of Muleshoe, and Miss Ellen Driskill, of Bovina, were married in Hereford Tuesday.

The ceremony was performed in the rest room at the court house by Dr. G. A. Faris, of the Christian church.

They were guests of the Northern Hotel until Wednesday, when they left for their home on the groom's farm near Muleshoe.

**Stetson**  
YOU will find it easier to see the difference in hats than we do to tell you about it.

Get one of our new Spring Stetsons into your hands and on to your head. Get the "feel" of a Stetson, look in a mirror and see how it shows style and quality.

Then if you like, go and try on the best hats you find anywhere else, compare them with these Stetsons here in our stock.

And we know how to select from Stetson's assortments to suit men in this community.

The Spring styles are all here—Derbies and Soft Felts—in such a variety of sizes, shapes and colors that you can pick yours out quick.
