Morales pledges interest in West Texas

By JOHN BROOKS
Managing Editor

Dan Morales, Democratic candidate for Texas attorney general, pledged Wednesday to be more attentive to West Texas' interests in Austin if elected as the state's top lawyer.

Morales was joined by most Deaf Smith County officials and Democratic candidates for local offices in his appearance at the Hereford Community Center. His stop here was part of a swing through the Panhandle.

A native of San Antonio, Morales is an honors graduate of Trinity University and Harvard Law School. He has been in private practice, a Bexar County assistant district attorney, and has served three terms in the Texas House. Morales chairs the House Criminal Jurisprudence Committee and is on the Ways and Means Committee.

Morales explained that "San Antonio often feels the same that you do, that Dallas and Houston are taken care of at everyone else's expense." He pledged to be "more responsive to the needs of Hereford, West Texas, all of Texas" as attorney general.

Morales said he felt the race for attorney general was a logical evolution in his political career, and felt he was well-suited for the job despite claims to the contrary by his opponent, State Sen. Buster Brown of Port Arthur.

Brown in recent weeks has claimed that Morales does not have enough legal experience and that he had never heard a lawsuit.

"These are desperate times for my opponent," Morales said. "The polls show he is generally 10 to 12 points behind." Morales explained the cases he heard while working for the Bexar County DA were filed in the district attorney's name, so Morales would not be listed on those cases.

"He also made some wild accusations saying that I was in a conspiracy with Jim Mattox," Morales said. "He said I was making hiring decisions for everyone above the position of secretary. That is not true. I have never discussed those decisions with Jim Mattox or anyone else. I don't know if they're making that up or if someone else made it up and told him."

"He also said I was never licensed to hear cases in federal court, but I

was licensed in the Southern District from just after my graduation from law school. It was 20 years after he graduated from law school before Buster Brown was licensed to hear cases in federal court.

"I believe my opponents camp feels the only way to make up ground is to confuse and distort the issues. The only feasible prospect they have is to spread the sorts or lies they have spread. I have considered Sen. Brown as a friend because we have worked together on many issues."

Morales said he could work well with whoever became Texas' new governor, fellow Democrat Ann Richards, or Republican Clayton Williams.

"When it comes time to work you must put politics aside and work together for whatever is best for all of Texas," Morales said. "The current Republican governor said he would never put his name on a tax bill, but I was successful in helping persuade him to sign a revenue package in 1987 that at the time was the largest in the history of the state."

Morales visits Hereford on Wednesday

Ann, Claytie sparring over bank reports

AUSTIN (AP) - Clayton Williams' campaign says Democratic gubernatorial rival Ann Richards is spreading "unfounded rumors" by trying to link the GOP candidate with a federal investigation into alleged drug money laundering.

At a news conference Wednesday, Richards cited a newspaper report which said federal agents were investigating allegations against a Houston loan broker, Lloyd G. Williams Jr., who also has done business with ClayDesta National Bank, the Midland bank owned by the Republican nominee.

"I think it is incumbent on Clayton Williams to cooperate with the investigation and tell the voters of Texas what his relationship was with Lloyd Williams," Richards said.

Williams press secretary Gordon Hensley accused Richards of "dealing with unfounded rumors, allegations and innuendos, many of which she generated herself. ... She seems to be losing it by lashing out

at Mr. Williams in an irrational manner."

Hensley said Clayton Williams "has answered questions in a very forthright manner. He said he does not know the man (Lloyd Williams)."

Lloyd Williams, no relation to the GOP candidate, said Wednesday he had nothing to do with alleged money laundering and that he was puzzled by the inquiry. He also said he didn't know Clayton Williams and only met him once, at a fund-raising event last spring.

The Dallas Morning News reported today that a source overheard a conversation between Lloyd Williams and Clayton Williams at a reception last year. The source, who was not named, said the two discussed a controversial car-loan program.

Under the program, hundreds of high-risk car buyers in Dallas and Houston were forced to purchase costly, unwanted insurance as a condition for getting a loan through ClayDesta.

Quayle: budget deal needed

DALLAS (AP) - Vice President Dan Quayle defended President Bush's apparent flip-flop on an endorsement for higher taxes on the rich to pay for a cut in taxes in capital gains.

"It's going to take a grassroots pressure on Congress to pass a budget," he said Wednesday during a news conference following a Dallas awards ceremony.

Quayle criticized what he called "congressional gymnastics" taking place in the current budget dispute.

President Bush Tuesday night backed away from his endorsement of higher taxes on the rich to pay for a cut in taxes on capital gains, forcing Democrats to delay Senate Finance Committee consideration of a deficit-reduction plan.

The plan was to have included the capital-gains cut long favored by Bush. To meet Democratic demands, the plan also included higher income tax rates on the wealthy, who would benefit most from the capital-gains reduction.

Quayle was in Dallas to accept a national award for his work in the fight against breast cancer.

"The budget agreement they pass will be quite similar to the Andrews-Summit accord that was reached by bi-partisan leadership and the President."

"There are a lot of congressional gymnastics that are going on."

Congress is likely to think hard about an agreement since several members want to leave town Oct. 19 because of re-election races, Quayle said.

The presidential flip-flop came only a few hours after he publicly said that higher rates on the wealthy would be fine in exchange for a capital gains cut.

Capital gains are fully taxed at the same rates that apply to wages and other income - 15 percent, 28 percent and 33 percent.

Quayle explained the President had not flip-flopped, but was merely attempting to find a compromise.

Bush met with Republican senators Tuesday and many of "them adamantly opposed any increase in the income in the income tax rate," Quayle said.

Concerning the stalemate in the Middle East, the vice president said there was no way to predict how long American troops will be in Saudi Arabia.

"As soon as the objectives are reached, we will come home. The objectives being: if Iraq gets out of Kuwait, if the legitimate government of Kuwait is returned, American hostages released and stability is returned," he said.

QUAYLE

Earlier, Quayle and his wife, Marilyn, received the Betty Ford Award from the Susan G. Komen Foundation, which was established for education, treatment and research involving breast cancer.

Quayle, who has visited centers for breast cancer treatment around the country, said he and Marilyn are gratified to receive the award.

Susan Ford Bales, daughter of former first lady Betty Ford, presented the awards.

Quayle spoke at length of his mother-in-law, who died of breast cancer. He told the gathering that they "are examples of valor to all Americans ... to men and women who seek to stand tall in confronting life's challenges and difficulties."

Space junk could endanger missions

WASHINGTON (AP) - Space-faring nations are scattering so much junk into near-Earth orbit that shuttle flights could become too dangerous by the end of the decade, a congressional agency said today.

"The presence of debris in low-Earth orbits, where fast-moving objects could pierce inhabited spacecraft such as the planned international space station, Freedom, and the Soviet space station, Mir, is especially troublesome because of the risk to human life," the Office of Technology Assessment reported.

A spacecraft that circles below 1,250 miles altitude is considered in low-Earth orbit. All manned spacecraft except those that went to the moon are in that category.

As of last week, the U.S. Space Command was tracking 6,645 artificial objects orbiting Earth, each larger than a softball and weighing a total of about 4.5 million pounds.

They whiz around in all directions at 4.5 miles a second. Some experts think there may be 30,000 to 70,000 bits of smaller junk.

"Only 6 percent of the catalogued objects are functional satellites," said OTA. The rest is debris from spent rocket boosters, exploded satellites and satellites that no longer serve any purpose.

Debris also is becoming a problem at the 22,300-mile altitude where communications satellites operate.

"Debris can collide with both active and inactive satellites, damaging the active satellites and producing more debris from both," the OTA study said. "Pollution in the form of gases and small particles of rocket exhaust may erode and contaminate spacecraft surfaces."

The report said international action will be needed to minimize production of new debris and to cope with that already in orbit.

Marcus Welby was right

Coffee is just fine for you

BOSTON (AP) - Coffee drinkers, delight. A good cup of joe, or two, or three, won't hurt the heart, Harvard researchers reported today.

In fact, coffee with caffeine, the often maligned chemical that gives the brew its kick, may turn out to be easier on the heart than the decaffeinated variety.

"It's amazing how coffee has a bad name, when the harder one looks at health hazards, the more difficult it is to find adverse effects," says Dr. Walter Willett of the Harvard School of Public Health.

His research, part of a huge study of healthy people, shows that those who drink several cups of ordinary caffeinated coffee every day do not raise their risk of heart attacks.

"This is a very reassuring study for something that people enjoy day in and day out," said Dr. Harvey Wolinsky of Mt. Sinai Hospital in New York, an adviser to the National Coffee Association.

The research was based on a survey of the coffee-drinking habits of 45,589 men. It was published in today's New England Journal of Medicine.

Those who suspected coffee was bad for the heart usually assumed caffeine was to blame. But the new research suggests just the opposite: Those who drink more than four cups of decaf a day have about a 60 percent higher risk of heart disease than do those who never drink it.

The researchers cautioned that the link between decaf and heart trouble is statistically weak and it's too soon to conclude decaf is harmful.

"There is no particular reason to switch from caffeinated to decaffeinated coffee from the point of view of preventing heart disease," he said.

Another recent study also raised doubts about decaffeinated coffee. Researchers at Stanford University found that people who switch from regular coffee to decaf increased their levels of low-density lipoprotein - the so-called bad cholesterol - an average of 7 percent.

No one knows why decaffeinated coffee might do this. Some speculate it could result from differences in the type of beans used to make decaf or in the way they are processed.

Caffeine might trigger heart palpitations in some people, but Dr. Peter Wilson of the Framingham Heart Study said there is no good proof of

Study shows it's okay to have a cup.

this either.

"The Marcus Welby theories are reasonable, but there isn't a lot of proof to back them up - that you should be drinking decaf because it's better for your heart," Wilson said. Robert Young, who played Dr. Welby in a TV series, made commercials for a brand of decaffeinated coffee.

Wilson added that if people believe they have fewer palpitations by switching, "it's very reasonable, and they shouldn't toss the decaf down the sink."

While the wisdom of very high coffee consumption is questionable, several experts agreed that three or four cups a day of typical American coffee are safe for virtually everybody, even those with heart disease.

Participants in the Harvard study, all doctors, dentists and other health professionals, filled out questionnaires about their coffee habits. After two years, 221 of them had suffered heart attacks or died of heart disease, while 136 had undergone coronary bypass surgery or angioplasty.

The risk among those who drank four or more cups of all kinds of coffee or just caffeinated coffee was about the same as for non-users.

"This study means that if there is a hazard with drinking caffeinated coffee, it's going to be very small, and there may be none at all," said Willett.

Local Roundup

Tests will be given

Tests will be given Tuesday through Thursday to students in the Hereford schools.

The new TAAS test will be given Tuesday, Wednesday and Thursday, and Hereford seniors who have not yet passed the TEAMS test will take that test on Wednesday and Thursday.

Hereford school officials also announced that a software glitch has delayed issuance of report cards, which were to be distributed today. Report cards will be issued as soon as they can be prepared.

Police have interesting day

Hereford police are investigating an assault of a woman, 33, by her common law husband in the 300 block of Ave. I. The woman was treated for injuries at Deaf Smith General Hospital and released.

A fight broke out between two females in the 100 block of Kibbe on Wednesday. One of the women was treated for rib injuries at DSGH.

Disorderly conduct charges have been filed against a woman for cursing another woman at a party Wednesday in the 200 block of Hickory.

Other reports included a car burglarized in the 300 block of Jowell; criminal non-support charges filed against a man, 20, for not paying court-ordered child support; and a woman, 30, was arrested on outstanding DPS warrants. Police issued 13 citations and worked two minor accidents.

Fair weather forecast

Tonight, mostly clear. Low in the lower 40s. East wind 5 to 15 mph becoming north 15 to 25 mph and gusty before midnight, requiring a lake wind advisory.

Friday, mostly sunny but cooler with a high in the mid 60s. North wind 15 to 20 mph and gusty in the morning becoming south 5 to 15 mph in the afternoon.

The extended forecast for Saturday through Monday is fair and dry each day. Highs from mid 70s to around 80. Lows in upper 40s and lower 50s. This morning's low at KPAN was 43 after a high Wednesday of 71.

Ribbon cutting for Inkahoots

Ribbon cutting ceremonies were held Wednesday afternoon for Inkahoots at 711 S. 25 Mile Ave. in Hereford. The store is open through the Christmas season with 28 persons involved in the cooperative store owned by Elaine McNutt. The store features homemade gifts and other goods, many made by local persons. Joining shopkeepers for the ribbon cutting were members of the Hereford Hustlers, goodwill ambassadors for the Deaf Smith County Chamber of Commerce.

Obituaries

ANTONIO ENCINIAS Oct. 10, 1990

Antonio "Tony" Encinias, 83, of Hereford died Wednesday, Oct. 10, 1990.

Rosary will be at 7:30 p.m. today in Rix Chapel. Funeral mass will be at 2 p.m. Friday in San Jose Catholic Church with Father Joe Bixenman officiating. Burial will be in St. Anthony's Cemetery by Rix Funeral Directors.

Mr. Encinias was born in Cuervo, N.M. and was a resident of Hereford for 50 years. He was a retired construction employee. He was a member of San Jose Catholic Church. He married Abelina Baros in 1929 at Chaparito, N.M.

Survivors include his wife; three daughters, Alice Mitchell of Alamogordo, N.M., Vi McDonald of Hereford and Cora Grossenbacher of Harlingen; a sister, Marcelina Marano of Pueblo, Colo.; a half-sister, Julia Olivas of Las Vegas, N.M.; six grandchildren; and four great-grandchildren.

FLORENCE ELIZABETH OLIVER Oct. 9, 1990

Florence Elizabeth Oliver, 77, of Hereford died Tuesday, Oct. 9, 1990.

Services will be at 11 a.m. Friday in St. Mary's Catholic Church at Brownwood with Father Benedict J. Zientek officiating. Burial will be in Pleasant Valley Cemetery at Brownwood. Arrangements are by Gilliland-Watson Funeral Home of Hereford.

She was born in Owen. She married Lloyd C. Oliver in 1938 at Washington, Kan. He died in 1969. She moved to Hereford in 1958 from Levelland. She was a homemaker and a Catholic.

Survivors include three sons, Zack Oliver of Hereford, Johnny Oliver of Canyon and Jim Oliver of Goldthwaite; a daughter, Janie Robinson of Duncan, Okla.; three brothers, James Krischke of Enid, Okla., Joe Krischke of Owen and David Krischke of Brownwood; eight grandchildren; and three great-grandchildren.

News Digest

World, National

UNITED NATIONS - After lengthy negotiations over terms of a rare U.S. denunciation of its chief Mideast ally, the Security Council reaches agreement on a resolution condemning Israel in the shooting deaths of 19 Palestinians.

WASHINGTON - The House is being asked to approve the second-largest tax increase in history - a \$144 billion plan to boost taxes on gasoline, tobacco, alcohol and higher-income Americans.

WASHINGTON - They are in their third month of holding out against all odds - 10 U.S. diplomats refusing to bow to Iraq's annexation of Kuwait or to leave other Americans in the terrorized Persian Gulf country without an official U.S. presence.

SPACE CENTER, Houston - Beaming over Discovery's smooth mission, NASA pronounced an end to the space agency's losing streak.

WASHINGTON - Congressional negotiators are edging closer to agreement on a clean air bill with a compromise on auto emission controls, an issue that had stalled the talks for several weeks.

WASHINGTON - Elected officials trying to get in step with discontented voters are joining the drive to limit politicians' terms in office.

BERLIN - The candidates for governor of the new state of Brandenburg are a study in contrasts: one is a law-and-order lawyer and body builder, the other a popular preacher who shepherded last year's peaceful East German revolt. Both are key figures in the leadership battle under way in what was East Germany.

BOSTON - For people who depend on a cup or two, or three, of coffee to jump start their day, Harvard researchers have good news today: It won't hurt your heart.

Texas

DALLAS - Vice President Dan Quayle defended President Bush's apparent flip-flop on an endorsement for higher taxes on the rich to pay for a cut in taxes in capital gains.

DALLAS - A police citizens review board is investigating whether a former police officer abused an elderly woman and drained her bank account.

WASHINGTON - The government says it got no takers for almost a fifth of the nearly 5 million barrels of crude oil offered from the Strategic Petroleum Reserve.

GEORGETOWN - No bull, a Georgetown rancher says semen collected from four Japanese bulls spirited into the United States 14 years ago could be a gold mine.

GLEN ROSE - Comanche Peak's nine unplanned shutdowns in six months doesn't mean it's a lemon among nuclear power plants, experts say.

AUSTIN - A Texas Supreme Court decision means topless dancers can still perform at a bar located near a neighborhood, says a Fort Worth city official.

HUNTSVILLE - Convicted killer Henry Lee Lucas, who at one time was linked to hundreds of slayings around the country, says the setting of his first-ever execution date is an election-year stunt.

MARSHALL - The dreaded fire ant with its severe sting that usually sends people packing is drawing untold attention in the city that celebrates the pest.

AUSTIN - Clayton Williams' campaign says Democratic gubernatorial rival Ann Richards is spreading "unfounded rumors" by trying to link the GOP candidate with a federal investigation into alleged drug money laundering.

US diplomats cont. holdout

WASHINGTON (AP) - They are in their third month of holding out against all odds - 10 U.S. diplomats refusing to bow to Iraq's annexation of Kuwait or to leave other Americans in the terrorized Persian Gulf country without an official U.S. presence.

Not that Ambassador W. Nathaniel Howell and his beleaguered staff can do much for their 500 or so countrymen, many of whom are in hiding and several of whom are desperately ill. Telephone conversations are intentionally brief, on the supposition

that Iraqi eavesdroppers are listening for useful information about the whereabouts of the elusive Americans, their risk-taking Kuwaiti protectors or Washington's intentions.

Through satellite communications, the embassy also is in touch with the State Department.

Periodically, Iraqi troops seize Americans and dispatch them to oil fields and other installations to serve as human shields against a U.S.

assault. They are beyond the reach of Howell and the other diplomats, who themselves are prohibited from leaving the embassy.

Nor can anyone or any vehicle enter the embassy with supplies or for whatever reason.

More than 100 Americans are forcibly scattered through Kuwait, which Iraqi President Saddam Hussein now regards as a province of his country. There is no indication that the Bush administration is hatching a plot to rescue them.

Insurance premiums at risk

AUSTIN (AP) - The State Board of Insurance criticized a report that said the regulatory agency has failed to develop a system to detect financially troubled companies.

The audit released Wednesday by the Office of the State Auditor said \$3.1 billion in insurance premiums are at risk.

It is the second report in less than two weeks warning of problems in the insurance industry and the failure of state regulators to correct them.

At a news conference, Insurance Board member Richard Reynolds launched an attack against state officials and consumer groups that have faulted the board for failing to uncover insurance fraud and mismanagement.

Reynolds' broadside was directed toward national consumer advocate Ralph Nader, Travis County District Attorney Ronnie Earle, Texas Supreme Court Justice Lloyd Doggett, several state consumer groups and the Texas Trial Lawyers Association.

Of Earle and Nader, Reynolds said, "They both lie like hell and fertilize."

The audit said 11.6 percent, or \$3.1 billion of the premiums in Texas, were held by companies that need further regulatory attention. The report said 283 of the 2,388 licensed companies doing business in Texas are "at-risk."

The report said an early warning system on troubled insurers has been in the planning stages for two years but "there is a lack of clear understanding by management (at the Insurance Board) as to how it should be accomplished."

The report said if the board established a classification system to evaluate insurance companies, it would be able to respond more quickly to financially troubled insurers.

House Speaker Gib Lewis, D-Fort Worth, issued a statement urging the board to establish this classification system.

In a rebuttal to the report, the Insurance Board said the audit was flawed and did not take into account existing systems for monitoring companies.

Reynolds said the amount of premiums at risk was about \$400 million and that isn't so bad considering there is \$27 billion worth of insurance sold annually in Texas.

The audit follows on the heels of a Sept. 28 special grand jury report on insurance fraud that warned the industry could face a "savings and loan type disaster."

"As was true in the savings and loan arena, we see embezzlement and self-dealing by insurance company insiders and regulators who were

asleep at the switch," said the Travis County grand jury.

The Insurance Board said the grand jury empaneled by District Attorney Earle did not uncover anything new.

In his news conference, Reynolds accused Earle of making a deal with Democratic gubernatorial candidate Ann Richards to release the grand jury report. He said Earle wants to be appointed to a judgeship if Richards is elected governor.

Reynolds called Doggett, known as a consumer advocate, a "liberal lackey of the Texas Trial Lawyers" an association he described as "insidious parasites, yellow-page bloodsuckers."

He also said consumer groups Public Citizen, Texas Citizen Action, Texas Consumer Association and Insurance Reform Coalition of Texas are front organizations for the Trial Lawyers Association, which is composed of lawyers who represent plaintiffs in legal battles against insurance companies.

Consumer group representatives said Reynolds' remarks were bizarre and that he was trying to divert public attention from the audit report.

Earle said, "The attitude that was displayed by his comments were exactly the attitude that upset the grand jury - the refusal to recognize that there's a problem."

Clean air edging closer to reality

WASHINGTON (AP) - Congressional negotiators are edging closer to agreement on a clean air bill with a compromise on auto emission controls, an issue that stalled the talks for several weeks.

The tentative accord reached Wednesday on emissions removed a major obstacle to working out legislation that can be sent to the White House before Congress adjourns later this month.

"It's a major breakthrough," said Sen. Max Baucus, D-Mont., head of the Senate negotiating team.

The legislation, which represents the first tightening of air pollution laws since 1977, also would impose new requirements on utilities, factories and thousands of small businesses to reduce urban smog, toxic chemical releases and pollution that causes acid rain.

The new requirements are expected to cost the economy from \$21 billion to \$25 billion a year when all the provisions take effect toward the end of the decade, according to White House estimates.

Members of the House and Senate negotiating teams said they hoped to complete work on the section on toxic industrial pollution within the next day or two and turn to the section on acid rain this weekend. Congressional leaders have set a goal of completing the bill by midnight Sunday.

Baucus said he hoped the final wording of the completed legislation might be approved Monday by the House and Senate conferees, who have met since July 13 to combine clean air bills passed by the two chambers.

Discovery ends NASA's losing streak

SPACE CENTER, Houston (AP) - NASA announced an end to its losing streak after Discovery completed a nearly trouble-free mission that sent a probe speeding toward the sun.

"We showed the world that the shuttle and NASA is reliable and can meet their commitments," said Aaron Cohen, director of the Johnson Space Center.

The shuttle and its five astronauts swooped out of orbit and glided to a landing at Edwards Air Force Base, Calif., on Wednesday after a four-day flight. It was NASA's first shuttle mission in six months.

Only a few problems were reported from blastoff to touchdown, including a computer programming error discovered after takeoff that was considered serious but no threat to the shuttle or crew, said Milt Heflin, lead flight director.

"Well, today the losing streak is over," Discovery commander Richard N. Richards said.

"If you criticize our mistakes, then you must also acknowledge our successes," shuttle director and former astronaut Robert Crippen said.

NASA had been unable to fly a shuttle since April, when the Hubble Space Telescope was put into orbit. Later, scientists found the \$1.5 billion telescope had a flawed mirror.

Hydrogen leaks have grounded shuttles Columbia and Atlantis for months. Although Atlantis is set for launch in early November on a secret military flight, Columbia's troubles have not been resolved.

"The fact that (Discovery) flew and they had such a textbook mission really makes us feel good," said Conrad Nagel, a NASA official in charge of Atlantis' prelaunch operations.

Atlantis' mission will be the fifth and final shuttle flight for 1990 - four fewer than planned - unless Columbia's leaks can be repaired in time for a late November or December launch.

Discovery's launch ended the longest gap between shuttle missions since flights resumed following the 1986 Challenger accident.

The shuttle blasted into orbit from Cape Canaveral, Fla., on Saturday. Several hours later, the crew sent the \$250 million Ulysses probe on a 1.86-billion-mile journey to explore the sun's poles.

Racing along at more than 25,000 mph, Ulysses was 3.1 million miles from Earth on Wednesday, NASA said. The spacecraft will swing past Jupiter in 1992 and use the planet's gravity to sling it back toward the sun.

Discovery's computer error was made before launch but was discovered when the astronauts were converting the shuttle's five computers from launch operations to orbital operations, Heflin said.

Automatic safeguards on Discovery would have prevented any problem even if the crew hadn't

discovered the error, Heflin said. But the mistake was serious because "if we erred in some procedures on the ground, why did we not catch it?"

The problem involved computer No. 4, used for "housekeeping" tasks, including monitoring Discovery's propulsion, electrical and life-support systems.

THE HEREFORD BRAND

Beware of look-alike cancer organizations

Residents of Hereford who want to be certain that the money they donate to cancer research is used in the most effective way, should be aware of look-alike cancer organizations.

Patsy Sparkman, president of the American Cancer Society Deaf Smith Unit said, "When you contribute to a charity, it makes good sense to find out exactly where your money is going and how it will be spent. Contributors have the right to know if their donations are being spent in an efficient way."

The term look-alike is used because some organizations may include words such as, "national," "society," "institute," "research," or "foundation" in their names in an attempt to be mistaken for organizations like the American Cancer Society (ACS) or the federal government's National Cancer Institute (NCI). Look-alikes may actually spend an overwhelming proportion of the donations they receive on their fund-raising and administrative expenses. ACS relies primarily on volunteer-run fund-raising.

According to Sparkman, ACS distributes over 90 percent of its income in Texas to actual cancer control programs.

Sparkman emphasized that there are many reputable organizations that sponsor legitimate cancer research and offer services to cancer patients. "We do not want to discourage people from contributing to other organizations but would just like them to take note of how their funds are being distributed," she added.

ACS urges all donors to ask questions before writing a check to a charity. The American Cancer Society and the National Charitable Information Bureau (NCIB), a charity-rating agency located in New York, have both developed a set of guidelines for donors to follow:

- * Check to see if the organization's fund-raising efforts are cost effective. The NCIB stipulates that a charity should not spend any more

than 30 percent of one dollar on fund-raising. The American Cancer Society spends 15 percent.

- * Check to see if the organization produces an annual report. This report may be helpful to inform the contributor how much money the organization spends on research, fund-raising and other expenditures.

- * Find out what are the organization's administrative costs. The NCIB recommends that these costs should not exceed 15 percent of the budget. The American Cancer Society's administrative costs are among the most effective at 3 percent.

- * Learn if the group has a solid management and an identifiable board of members. Its important that the board consists of several medical and scientific professionals.

ACS can be identified by its copyrighted Sword of Hope symbol. The Society works with more than 2500 volunteers in the Panhandle area and approximately 2.3 million volunteers nationwide.

According to Kee Ruland, a Deaf Smith Unit volunteer, ACS and other highly respected charitable organizations rely on the generosity of the public in order to continue their work. "If the public knows exactly where its charitable dollars are going, and contributes wisely, we'll all benefit," Ruland said.

Government leaders discussed at meeting

The political platforms of the leading contenders in the Texas gubernatorial race as well as legislation to be considered were presented to members of Delta Xi Chapter of Delta Kappa Gamma at its regular monthly meeting held at the Community Center Monday night.

Ann Cummings and Wanda Stanley of the legislative committee gave the reports. The program was entitled "Communication with Government Leaders."

Each member shared how her family first came to live in the state of Texas during the fellowship time led by Jean Beene. The group sang "Texas, Our Texas" under the leadership of Pat Montgomery.

Stanley explained and demonstrated the proper wearing of the Delta Kappa Gamma official jewelry, emphasizing that important traditions determine when and how the insignia may be worn.

Rose Mary Shook, chapter president, reminded members that the deadline for paying dues and assessments is Oct. 31 and should be remitted to Martha Layman, treasurer, before that date.

The Delta Kappa Gamma area workshop will be held at Randall High School on Saturday, Oct. 13, and a large group of Delta Xi members will attend.

Janet Hill, a student teacher at Northwest Primary School, was welcomed as a special guest.

Refreshments were served by the hostesses Mary Dziuk, Margaret Bell, Bera Boyd, Wana Brewer, Patsy Giles, Murlene Streun and Betty Sue Worthan.

Delta Xi members attending were Alice Christman, Margaret Ann Durham, Leta Kaul, Della Stagner, Beene, Bell, Billie Birdwell, Boyd, Brewer, Nina Brown, Betty Jo Carlson, Cummings, Dziuk, Francie Farr, Marion Goodin, Sue Inmon,

New Arrivals

Tim and Ann Marie Albracht of Chino Valley, Ariz. are the parents of a daughter, Emily Ann, born Oct. 5, 1990. She weighed 8 lbs. and 1 1/2 oz.

She has a sister named Amber. Grandparents are Rue Ford of Hereford and Guy Ford of Houston and Dr. and Mrs. John Albracht of Amarillo.

Canyon club to host bazaar

The Heritage Woman's club, A Canyon service organization, will be hosting its annual Christmas Delights Bazaar on Nov. 17, at the Rex Reeves Elementary All-Purpose Room in Canyon.

The bazaar will be open from 9-5 and will feature booths set up by exhibitors from all around the Panhandle.

A bake sale and a snack bar offer delicious things to freeze or eat on the spot.

The funds made from this bazaar are used to help support area organizations that serve the Panhandle area.

Beauty spot of the month

The Thomas E. Brisendine Jr. residence at 805 S. 25 Mile Ave. has been chosen as one of the residential beauty spots of the month. The home was selected by members of the Women's Division beauty spot of the month committee.

Make children's birthday easy on yourself

By NANCY BYAL
Better Homes and
Gardens Magazine
Food Editor

Birthday party memories last a lifetime. A birthday bash can be a blast for the kids, yet easy on you. Here are some nifty hints we've gathered from experienced party parents.

GUESTS
- Try to invite children who are all about the same age. That way, they'll have the same interests, skills and attention spans. If kids already know each other, it'll be easier for them to play together.

- The old advice to limit the number of guests to your child's age still holds. Younger kids simply can't handle as much excitement as older kids can.

INVITATIONS
- Be sure to include date, time, place, who the party is for, your phone number and RSVP, if you want one. Also mention any special information, such as something to wear or bring to the party.

- It's a good idea to note on the invitation that you'll bring kids home. This way, you can end the party promptly, instead of waiting for tardy parents to pick up their children.

- A one-hour party is long enough for preschoolers; two hours is a good guide for older kids.

PLANNING ACTIVITIES
- Age and maturity of the kids determines the kind of activities that are appropriate. For 2- and 3-year olds, avoid competitive activities or those that cause excitement, such as races. If you give prizes, make sure every child gets one, ideally the same item. By age 5 or 6, children should be able to participate in competitive games in which only some children receive prizes, but it still might be a good idea to have prizes for everyone.

- Make plans for several more games and other activities than you think the kids will have time to do.

They will go through things faster than you think possible.

- Have at least one other adult help you with the party. If necessary, hire a neighborhood teen or one of your baby-sitters to lend a hand.

FUN THINGS TO DO
- Musical Rugs: The same game as musical chairs, but played with rugs. Carpet samples are ideal.

- T-shirt Art: Give the kids white T-shirts and heat-set fabric crayons and turn them loose as fashion designers. While they're enjoying treats, set the designs by running a hot iron over each. The shirt doubles as a party favor.

- Breakfast Party: Have the kids come in their pj's for a morning party. Stage a mattress jump or pillow fight. Show cartoons.

- Backward Party: Print the invitations backward. Ask the guests to wear their clothes backward. Run the party in reverse: Eat first and end with games. Run a slapstick comedy film backward.

- Balloon Ascension: Have each child tape a stamped, self-addressed postcard to a helium-filled balloon, asking the finder to fill in where and

when they found the balloon. Then head outdoors and watch the balloons sail away.

Tip: To rent a helium tank for blowing up balloons, look in the Yellow Pages of your local phone directory under "Helium" or "Rental Serve Stores." The cost can run from about \$15 to \$35. Most places require a deposit of \$50 to \$100.

- Video Flicks: A video cartoon break sometime during the middle of the party can settle the kids down and give you a breather.

LOS ANGELES (AP) - Ten percent of the profits from the sales of the WEME jewelry collection will be donated to World Hunger Relief and Project Concern International, according to designer Gloria Lord.

Lord says the organization is based in San Diego. She says the group is concerned with global food issues and the environment. Her collection includes gold and silver pendants, earrings, bracelets and pins in the shape of WEME, which she says stands for "WE are ONE"...Where there is "ME" there also is "WE."

Music club met full of song

The Hereford Music Club met during a musical meeting Monday filled with songs and accompaniments in the home of Mrs. Wes Fisher.

The program, led by Mrs. Bill Bradley, was based on the lives and Music of Oscar Hammerstein II and Richard Rodgers.

Linda Gilbert played an overture from the musical "Oklahoma" on the piano followed by the club chorus singing "Oh What a Beautiful Morning" and "Oklahoma."

From the musical "South Pacific," Mrs. Pat Woodard sang "Some Enchanted Evening" accompanied by Mrs. Sid Shaw.

A trio of Mmes. Cliff Skiles, Bob Sims and Fisher sang "I'm Gonna Wash That Man Right Outta My Hair" and "Bali Hai" accompanied by Mrs. Shaw.

A brief business meeting followed discussing plans for the upcoming Music Club District I Convention on Nov. 3 in Hereford.

Members attending were Mmes. Thomas Betzen, Doug Manning, Donald Meyer, A.J. Schroeter, Johnny Trotter, W.T. Carmichael, Mary Carter and Harold Close.

Virginia Jackson, Sidney Kerr, Sarah Lawson, Layman, Marilyn Leasure, DeeAnn Matthews, Eloise McDougal, Carole McGilvary, Julia McNaney, Betty Mercer, Lois Miller, Montgomery, Ruby Mulkey, Sara Pesina, Audrey Powell, Fay Reeve, Shook, Pat Simmacher, Stanley, Streun, Marie Stringer, Dorothy Szydoski, Carolyn Waters, Karen White, and Worthan.

Chili supper planned

Hereford Rebekah Lodge #228 will be holding the annual chili supper on Oct. 20 at the 100F Hall, 205 East 6, from 5:30 p.m. to 8 p.m. Adult tickets are \$3 and \$1.50 for children under 12.

Noble Grand Rosalie Northcutt presided as lodge met in regular session Tuesday evening.

Lodge Deputy Sadie Shaw conducted a school of instructions with members emphasizing different procedures of business.

Appreciation was expressed to all who supported the bake sale at the Centennial celebration.

Susie Curtsinger served as hostess to Verna Sowell, Irene Merritt, Anna Conklin, Ben Conklin, Genevieve Lynn, Jo Irlbeck, Tony Irlbeck, Lydia Hopson, Verna Sowell, Dorothy Lundry, Gene Bishop, Faye Brownlow, Ursalee Jacobsen, Ocie Bolton, Peggy Leasure, Mary Lou Weatherford, Connie Ivey, Gene Ivey, Northcutt and Shaw.

The young of an seal is called an alver.

ENCoRE
ENVIRONMENTAL COALITION
for RECYCLING

EnCoRe is a community organization of Hereford citizens who are actively addressing those issues that will affect the future of our natural environment. The local group, formed in the spring of 1989, is dedicated to preserving the quality of the air, land and water for future generations. In order to foster these goals, EnCoRe is focusing on environmental education and recycling. Any funds paid to EnCoRe by recycling firms will be used by the organization for projects benefiting our community.

SPORTS

Herd ready to start over with District 1-4A opener at Pampa

By SAM WALLER
Sports Editor

Everything goes back to the beginning Friday night when the Hereford Whitefaces visit the Pampa Harvesters at 7:30 p.m. in the opening week of the District 1-4A schedule.

The Herd will be looking to reverse the early season trend that has left them with a 1-4 record while the Harvesters, who at 2-2 have the only non-losing record in the league, will try to prove they belong in the playoffs.

"I think they (Pampa) have pointed to this game," Herd coach Don Cumpton said, "first of all, because it's Hereford, second, it's the first district game and their homecoming. They've had an open date. We've got to accept the challenge and I fully expect our team to do that."

Cumpton said the start of district play will give all six teams, who were 5-24 over the first five weeks, a chance to start fresh.

"We thought we'd be better than 1-4, obviously, but we aren't and we aren't worried about it," he said. "It doesn't make any difference if you're 1-4 or 5-0 right now. What matters is the next five games, and the most important one is the Pampa game because that's the one we're playing this week."

"As far as the other teams go, I'm sure Dumas (0-5) is a little disappointed. They expected to have a better record. But it really doesn't make any difference. The first five games are strictly warmup and getting ready to go."

"Now is when it starts counting, now is when it becomes important, and now is when the cream will come to the top."

Cumpton added that moving into a six-team league after four years in a nine-member district doesn't necessarily place more importance on getting off to a fast start.

"I think you've just got to play one game at a time," he said. "You've got to take care of what's important now, and for us that's the Pampa Harvesters."

Cumpton said the Harvesters are almost totally dependent on the run, having attempted only 17 passes in four games. Pampa's Power I offense has carried the load with tailback Quincy Williams and halfback Wayne Cavanaugh doing most of the work while fullback Zach Thomas has proved effective in short-yardage situations.

But defending the run has been the Herd's main strength, allowing an average of 144.4 yards per game on the ground.

"They've been successful with the run," Cumpton said. "They execute very well and make few mistakes."

"They've had an open date, so I'm sure they've put some new wrinkles in. But I think they're going to go with what they've been successful with, and I don't blame 'em."

Cumpton said the three Pampa backs have carried the ball well, with each being used for different situations.

"They use Quincy Williams on the power and the sweep," he said. "They run the big Thomas boy (210 pounds) up the middle most of the time and then they run their misdirection stuff with Cavanaugh."

"Cavanaugh is probably the guy who can break the long one quicker. Quincy has great speed, but because of the type of plays they give Cavanaugh the ball on, he can break the big one if you're not careful."

Defensively, Cumpton said the Harvesters have been plain vanilla with the emphasis on stopping the opposition rather than forcing the big play.

"They have run pretty much a standard 4-3 defense with some stunts out of it," he said. "They could run some other stuff and we've worked on some other stuff, but all we've seen them in is a standard 4-3. They have run a little bit of eight-man front, but not a lot."

"They've been playing some pretty good defense. They may make some adjustments and if they do, we'll have to handle it. I think we're ready to handle anything they throw at us."

The Herd will have to overcome yet another setback on offense this week. Sophomore quarterback Richard Sanderson was the first signal caller to take every snap in last week's 9-7 loss at Levelland, but was lost for three weeks when he suffered a broken left (non-throwing) hand sometime in the fourth quarter. Cumpton said seniors Chris Blair and T.J. Head will both see action against the Harvesters.

Crunch time

Hereford Whiteface defensive back makes a stop during last week's 9-7 loss at Levelland. The Herd will hit the road again this week for their second straight homecoming game when they visit the Pampa Harvesters at 7:30 p.m. Friday in the District 1-4A opener for both teams.

"I haven't really decided how to do it yet," he said. "We might rotate them every two series or something like that, but they'll both play."

One bright spot for the Herd attack is this week will mark the first time the same five players have started on the offensive line for two consecutive games.

"That will help," Cumpton said, "it really will. We had an excellent practice

today (Wednesday), probably as good as we've had in a long time."

"The kids are excited about playing. They know what's at stake and will give us a great effort."

INJURY REPORT: QB Richard Sanderson (hand) is out, as is OL Ralph Martinez (knee). DB Miguel Casas (knee) returns after missing three weeks. Backup FB Brian Bentley (knee) is questionable.

Public Notice

Southwestern Bell Telephone Company has filed an application with the Texas Public Utility Commission to introduce two experimental services called Call Forwarding - Busy Line and Call Forwarding - Don't Answer.

Call Forwarding - Busy Line and Call Forwarding - Don't Answer are optional call management services that will automatically forward a customer's incoming calls to a pre-designated number whenever that incoming call encounters a busy or don't answer condition. These services are for both business and residence customers. The company proposes that the services be available beginning November 19, 1990.

The monthly rates for Call Forwarding - Busy Line and Call Forwarding - Don't Answer are \$1.00 for residence customers and \$3.00 for business customers. The monthly rate for subscribing to both services is \$1.75 for residence customers and \$4.00 for business customers. During this experimental offering period the installation charges will be waived.

Call Forwarding - Busy Line and Call Forwarding - Don't Answer are expected to generate first-year revenues of approximately \$752,000.

Call Forwarding - Busy Line and Call Forwarding - Don't Answer will be offered on an experimental basis in selected areas throughout the state for 12 months. The availability of these services after that time will depend on Southwestern Bell's decision of whether to offer the services on a permanent basis.

Persons wishing to comment on these services should notify the commission by November 9, 1990. Requests for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or you may call the Public Utility Commission Public Information Office at (512) 458-0256 or (512) 458-0221, teletypewriter for the deaf.

Manor Downs opening signals racing revival

By The Associated Press

After three years of bureaucracy and funding problems, pari-mutuel racing appears to be back on track with one midsize, or Class 2, horse course operating in Central Texas.

Another track is scheduled to take bets today and two South Texas dog tracks are scheduled to open in November.

Several other midsize tracks remain in developing, or near opening, status as they complete funding.

"We will be 100 percent ready to go," said Bob Fox, marketing director of the Class 2 Manor Downs, east of Austin.

But pari-mutuel racetracks in Texas probably won't thrive until the state lowers its tax on the sport, according to the Texas Racing Commission chairman.

None of the larger tracks will surface without racing tax cuts which could be made by the Texas Legislature next spring, Texas Racing Commission Chairman Hugh Fitzsimons of San Antonio told The Dallas Morning News.

"We've done everything we possibly could" to support track development, said Fitzsimons. "The one thing the racing commission will never be able to do is furnish money to build these tracks."

Manor Downs' Oct. 5 opening was delayed when last-minute construction work failed to assure racing commission officials of the track's safety.

Class 2 tracks may have no more than 44 open days per year, according to pari-mutuel laws, once the largest

or Class 1 tracks begin operation. The Class 1 tracks must run races 45 days a year or more and may only be in Bexar, Dallas, Harris or Tarrant counties.

Class 1 horse racing, on the scale of Remington Park in Oklahoma, isn't on the horizon for Texas yet, officials said.

Bandera Downs, northwest of San Antonio, opened July 6 and continues through Dec. 9 with betting totals of more than \$1 million per week.

North Texas racing supporters may see some action at Trinity Meadows Raceway, west of Fort Worth, if the owners complete a yearlong attempt to secure \$25 million in improvements.

Meanwhile, four tracks across the state have lost, will lose, or plan to decrease the level of their pari-mutuel licenses because of funding problems.

Few applications have been made for larger tracks and legal snares have held up approval and construction for sites near Houston.

Texas voters approved pari-mutuel wagering in November 1987, but it took almost two years for racing commissioners to be appointed, the commission apparatus to be set up and track licenses and racing dates to be granted.

Bandera Downs' success is giving the state regular pari-mutuel income from sales taxes and its 5 percent share of the wagers. But The Texas Racing Commission "won't be self-supporting by 1991," said David Freeman, commission executive secretary. "Until all these (expected) tracks come on line, I don't know how we can be self-supporting."

Harris picks Harvesters by seven over Hereford

The Hereford Whitefaces will be trying to get the inside track in their District 1-4A opener Friday when they visit the Pampa Harvesters.

The Herd (1-4 on the year) and the Harvesters (2-2) enter league play as the two highest rated teams in 1-4A according to the Harris Rating System.

The Herd plummeted 34 places to No. 80 in Class 4A after last week's 9-7 loss at Levelland and lost five points off its power rating to 169, both season lows for the Herd.

Pampa enjoyed an open date last week after making road trips to College Station and Lubbock. The Harvesters come in at No. 49 with a 176 rating, unchanged from a week ago.

The Harvesters have been installed as a seven-point favorite for the contest, but bear in mind that Harris has made the correct choice on only one Hereford game this year.

DISTRICT 1-4A GAMES
League teams can finally breathe a little easier after a horrendous first half. The district was a composite 5-24 through the first five weeks and has not had two teams win on the same weekend since the start of the season. Three teams (Dumas, Amarillo Caprock and Canyon Randall) have yet to win a game. That should change this week as Caprock

visits Randall and Dumas travels to Borger.

Caprock (0-5, 0-0) at Randall (0-5, 0-0): One thing is (almost) for sure: somebody will get their first win, barring a tie. Caprock has come close before, losing 7-6 to Lamesa in the second week, hasn't been any closer than 13 points.

The Longhorns suffered their second shutout of the season last week when Lubbock Monterey handed them a 39-0 drubbing. The loss dropped the 'Horns 10 places to No. 128 and knocked off four rating points to 158.

The Raiders got mauled 38-14 by Wolfforth Frenship, the second straight game they have given up more than 30 points. Randall moved down three spots to No. 148 and lost a rating point down to 149.

Harris picks the 'Horns to stamped by nine points.

Dumas (0-5, 0-0) at Borger (2-3, 0-0): The Bulldogs may be the hottest team in the district after posting the only win by a 1-4A member last week when they edged Lubbock Dunbar 14-12. The win boosted Borger 21 spots to No. 92 and raised the 'Dogs power rating three points to 166.

With a few breaks either way, Borger could just as easily be anywhere from 3-2 to 0-5. After opening with 7-0 win over Perryton,

Borger lost to Tascosa 15-14 and barely against survived Dunbar.

The Demons' supposedly high-powered run-and-shoot offense has yet to kick in and Dumas may not even match last year's 3-6-1 mark, let alone live up to preseason predictions of a playoff spot.

Dumas has been within 20 points only once, a 23-21 loss to Perryton, and was shelled 30-9 last week by Canyon High. The latest loss dropped the Demons three places to No. 141 and shaved two points off the rating to 154.

Harris says the Bulldogs will come out on top by 12 points.

OTHER AREA GAMES
CLASS 5A: Amarillo High by 28 over Lubbock High; Amarillo Palo Duro by 8 over Plainview; Amarillo Tascosa by 13 over Abilene Cooper; Lubbock Monterey by 7 over Lubbock Coronado.

CLASS 4A: Lubbock Dunbar by 1 over Levelland; Wolfforth Frenship by 1 over Lamesa; Lubbock by 16 over Snyder; Big Spring by 27 over San Angelo Lake View; Sweetwater by 14 over Andrews; Monahans by 12 over Fort Stockton; El Paso Riverside by 2 over Pecos.

CLASS 3A: Perryton by 16 over Amarillo River Road; Childress by 8 over Canyon; Sanford-Fritch by 10 over Dalhart; Dimmitt by 18 over

A's finish off BoSox, 4-1, to sweep ALCS

OAKLAND, Calif. (AP) - Stifle the yawns. The Oakland Athletics are in the World Series. Weren't they supposed to be there all along?

Weren't the A's considered the best team in baseball last spring, before they acquired former All-Stars Harold Baines, Willie McGee and Willie Randolph?

The A's were pegged as Goliath going into the American League playoffs against Boston, and they promptly overwhelmed the Red Sox in four straight. Without hitting a home run.

"Now we have a chance to be put in the category of a special team," said Oakland's Carney Lansford after the A's beat Boston 3-1 Wednesday to complete only the second playoff sweep since the format was expanded to seven games.

But, like an earthquake after the second game of last year's World Series, the ejection of Roger Clemens in Game 4's second inning Wednesday shook the attention away from the A's when they should be basking in victory's glow.

"One ballgame, one player is not going to overshadow what we've accomplished," said Dave Stewart, named the playoffs' Most Valuable Player after winning the game that clinched an Oakland trip to the World Series for the third consecutive year.

"People are always looking for something to overshadow things," Stewart said. "The fact is this is a great ballclub."

Clemens, in the second inning of an honorable attempt at keeping the Red Sox alive one more day, was ejected by home plate umpire Terry Cooney for verbal abuse.

Cooney, however, admitted he initiated the confrontation after he thought Clemens was showing him up because of his calls on two previous pitches.

"I saw him talking, and I said, 'I hope you're not talking to me,'" Cooney said. "He told me to take my mask off if I had something to say and I told him I didn't want to get into a verbal argument."

"Then he used several expletives and I had to take some action." Clemens, only the fifth player ever to be ejected from a playoff game, said he was not cursing at Cooney.

"I saw his throat guard moving so he was saying something," Clemens said. "He thought I was talking to him. I told him, 'I'm not shaking my head at you.' The problem was not with him."

Wherever Clemens' problem was, his outburst was the loudest noise the Red Sox made in the series. Oakland's pitching staff held Boston to four runs in four games and kept Red Sox hitting at a .183 average.

Boston was unable to drive in a run with a hit until Jody Reed singled home Ellis Burks in the ninth inning of Game 4. In his two starts, Dave Stewart allowed only three runners past first in 16 innings.

"One run a game for four games. That's amazing," Lansford said. "The pitchers have done that for three years. They've given us a chance to win every (postseason) game. We didn't have our big bats going, but we manufactured some runs and got the job done."

And while the Red Sox were unable to generate any offense, the A's were getting runs from unexpected places. Jose Canseco and Mark McGwire, who combined for 76 home runs during the regular season, were reduced to supporting roles behind the likes of Willie Randolph and Mike Gallego.

Randolph provided a pair of run-scoring singles in Oakland's 4-1 victory in Game 3. Gallego hit a two-run double off Tom Bolton moments after Clemens was ejected in Game 4.

"It's unbelievable, just unbelievable," said Gallego. "I usually just try to stay low in the weeds, and I obviously can do that well, and do my job and anything that can help this ballclub win a ball game."

So the A's make their third straight trip to the World Series - they are the first team to accomplish that since the 1976-78 New York Yankees - looking for a satisfaction that they have not allowed themselves to feel as yet.

"We're there, and now we're in the same situation as last year," Stewart said. "Hopefully, we won't have an earthquake. Hopefully, we'll get to do what people do when they win a World Series - go out and celebrate."

Clemens ejection 'unbelievable'

OAKLAND, Calif. (AP) - The big showdown turned out not to be between Roger Clemens and Dave Stewart, but between Clemens and a thin-skinned umpire.

Baseball took a backseat to etiquette Wednesday when home plate umpire Terry Cooney scolded Clemens and yanked him in one breath in the second inning.

It was the quickest and perhaps least deserved ejection in playoff history, and it was the beginning of the end for Boston as they succumbed to a four-game sweep by the Oakland Athletics.

All Clemens had to do to provoke Cooney was shake his head a couple of times and shout a few expletives from 60 feet away.

Swearing at umpires can cause enough for ejection, but pitchers have said more and stayed longer than Clemens in less significant games. The real issue appears to be whether Clemens was "showing up" or embarrassing Cooney.

"I've been in the big leagues long enough to know that (the umpires') worst fear is getting shown up, and I just feel I didn't show him up in any way," Clemens said. "If he had a question to ask me, the least he could have done is come out halfway to the mound to ask me."

Clemens, calling the incident "unbelievable," claimed he didn't curse at Cooney and should not have been tossed from the game.

Cooney declared Clemens, essentially, a liar.

Cooney said Clemens shook his head and muttered about his calls on the last two pitches of a walk to Willie Randolph. Cooney bolted from behind the plate and asked Clemens if he was shaking his head at him.

Clemens claimed he responded, "I'm not shaking my bleeping head at you."

Cooney didn't warn Clemens or indicate that he might be on the edge

of ejection. Instead, the big, burly umpire stepped around the plate and signaled the disbelieving Clemens out of the game with a flick of his thumb.

"I'm fully cognizant of the magnitude of the game," said Cooney, who claims he's one of the most easy-going umpires in the league and has ejected relatively few players in his 16 years of umpiring. "I thought several times before ejecting him."

Clemens doubted that Cooney gave the matter much thought at all.

"I don't feel I warranted anything," said an angry, bewildered and unrepentant Clemens. "I didn't verbally abuse him... He just took the ball away from me in my final game of the year."

"I'm not embarrassed at all with the way things happened," Clemens added. "I'm upset for my teammates because I wasn't out there. I don't have any remorse."

Umpire Jim Evans, the crew chief who was working in right field, also indicated that "showing up" Cooney was Clemens' main offense.

"You don't let ballplayers show you up on the field," Evans said. Cursing and screaming in frustration at Cooney after getting thrown out in the second inning, Clemens had a couple of hours to cool down while his teammates went on to lose 3-1.

Adding to Clemens' misery, the winner once again was Dave Stewart, the man who beat him in Game 1 and in seven of their eight showdowns since 1984.

As Mike Gallego came to the plate, Clemens stood on the mound, shaking his head but ready to pitch with his foot on the rubber.

Oakland players said they heard Clemens curse at Cooney.

"I heard it all," Stewart said. "He said a couple of magic words."

"In this league you respect the umpires or you don't stay around too

long," Oakland manager Tony La Russa said. "If you ask me, (Clemens) went too far."

John Peale, a film messenger for The Associated Press who was located directly behind the backstop, recounted this exchange that led to Clemens' ejection:

Clemens: "You son of a bitch. You don't know where the strike zone is."

Cooney: "What?"

Clemens: "I'm not (expletive) talking to you, you son of a bitch."

Then followed a stream of other profanities before Cooney tossed Clemens.

Clemens denied saying anything about the strike zone or second-guessing Cooney with any gestures. Videotape of the episode showed that Clemens did curse, but it was hardly more serious a breach of etiquette than occurs frequently in baseball.

EMPLOYMENT OPPORTUNITY

Applications are now being accepted for the position of **Factory Accountant** in the Accounting Department.

Qualifications for the position are:

1. B.S. degree in Accounting or related degree.
2. Knowledge of mainframe software and terminal experience.
3. Knowledge of PC software and hardware.
4. Excellent communication skills.

MAIL RESUME TO:

Pirates climb back into NLCS with 3-2 decision

PITTSBURGH (AP) - The Cincinnati Reds are heading back home, with a lot of baseball ahead of them. They're confident, they're composed, they're in control.

But there's one thing they're not - the champions.

The Reds are going back to Cincinnati, but so are the Pittsburgh Pirates. And for at least one more night, the champagne is still on ice.

Despite Reds pitcher Jose Rijo's claim the National League playoffs "are pretty much over," there will be a Game 6 Friday night in Riverfront Stadium. The Pirates plan to be there.

"All I know is, when the night started (Wednesday), they had one game to win, and the night's over and they still have one game to win," Pirates manager Jim Leyland said. "We had three games to win. Now we've got two. If we win two in a row, we're the champions."

The Pirates' 3-2 victory in Game 5 followed the set-in-stone script of the first four games as pitching and defense dictated the winner more than good hitting.

Pittsburgh got Cy Young Award-caliber pitching from its 22-game winner, Doug Drabek, and Gold Glove-caliber play from a defense that's committed only two errors in five games. Andy Van Slyke tripled home a run and scored another in the first and Don Slaught's sacrifice fly in the fourth scored the eventual deciding run.

Most of the Reds shrugged off the loss. "If we win Friday, everybody forgets what happened tonight," Paul O'Neill said.

"We're in the driver's seat," losing pitcher Tom Browning said.

The Pirates are hoping history remains on their side. They've trailed 3-1 in the postseason only twice before in their 104-year history, but rallied to win in both the 1925 and 1979 World Series.

"You can tell what's going on," Pirates left fielder Barry Bonds said. "(The Reds) are comfortable and they're going to be comfortable (Friday). I hope they party and celebrate all they want, but hey, don't look back because somebody might be ahead of you."

A tiring Drabek, who had pitched three straight complete games, was ahead 3-2 in the ninth when O'Neill, batting .467, singled up the middle and Eric Davis, batting .158, grounded a single off third base.

"When Davis hit that ground ball, I'm beginning to say there's no way we can win the game," Van Slyke said.

Manager Jim Leyland then brought in left-hander Bob Patterson.

"I'd have lifted (Drabek) sooner, except we don't have a (Dennis) Eckersley or a Cy Young," Leyland said. "I couldn't take him out before the ninth, it was his game. He's the best pitcher in the league and he deserved to stay in."

Leyland ordered the left-handed Patterson to intentionally walk Chris Sabo, bringing up left-handed hitting reserve catcher Jeff Reed, who'd entered the inning before after Reds manager Lou Piniella pinch-hit for Joe Oliver.

Reed slashed a grounder to the left of third baseman Bobby Bonilla, who somehow kept his balance after leaping the ball. He drilled a chest-high throw to second baseman Jose Lind, whose relay throw beat Reed by a step at first.

Because of one improbable 5-4-3 double play, there will be a Game 6 in Cincinnati.

So how did Bonilla, who returned to the outfield this year after leading NL third basemen in errors for two seasons, pull off a play Brooks Robinson would be proud of?

"Defense has been the key to the whole series, and defense was the key tonight," shortstop Jay Bell said. "Bobby made a lot of errors at third, but he wasn't a bad third baseman. He'd make a few errors in bunches, then not make any for a long time. He'd make great plays, but people wouldn't notice them because of the errors."

The Pirates' offense, once known as the Lumber Company, continued to slumber - they still haven't scored more than three runs in a game - but Drabek limited the Reds to two runs in 8 1-3 innings.

BETLE BAILEY By Mort Walker

Barney Google and Snuffy Smith By Fred Lasswell

The Wizard of Id By Brant Parker and Johnny Hart

Something for everyone!

This fall, fashion offers something for everyone. For the woman who favors slouchy sportswear, the ensemble on the left includes a long, full-cut jacket which allows ease of movement and a relaxed feeling, while long shorts paired with dark tights present an alternative to the short skirt. A softly draped shawl and rich suede gloves complete the updated country look. For those who love all-out glamour, this floor-length gown is perfect for those elegant holiday parties. The trend-setter will love the ensemble on the right. The silk leopard-print notch collar wrap blouse is layered over a cashmere/wool turtleneck and tops luxurious camel's hair pants in a classic silhouette. New fall fashions such as these can be found in Hereford.

Update clothes with pieces that express your style

Fall is the power season for Seventh Avenue. As the weather turns crisper, spring and summer clothing seems flimsy, insignificant. This is the season when women across the country buy those fat, five-pound issues of fashion magazines in search of something that is fashionable, yet wearable.

Today's women are tired of being dictated to by fashion designers. They are tired of feeling that, to be considered stylish, they must wear clothing that is neither flattering nor appropriate to their lifestyles, or which will look dated after one season.

And, slowly but surely, designers, stores and fashion magazines are beginning to respond to the needs of modern women. Lately, fashion magazines have begun to talk about "personal style" the idea that it's best for women to wear what makes them happy, and to express their personalities through their clothing.

Personal style means having the confidence to combine pieces which traditionally don't belong together, like separates from different designers, or something bought a few years ago with something bought this season, or something casual with something dressy.

This season, it's apparent that designers, rather than indulging in pure flights of fancy, have taken some time to think about what women really want and need. Most of them have designed clothing that is elegant, wearable and versatile, and which will still look great next fall, or even a few years from now.

Fall, 1989, is about looking and feeling your best. Luxurious sportswear in rich fabrics and relaxed shapes helps the modern women step out in style.

Soft, slouchy jackets are great wardrobe updaters this season. They are the focal piece of many American collections. These jackets have a softer shoulder and skim the body like a blouse. Bathrobe wraps, drape fronts and even classic blazers come in colors that make a statement.

Coats are also headliners. They are unfitted and fluid, as seen with the swing or trapeze coat. The tailored, double breasted coat is now oversized, with soft shoulders. Bathrobe wrap coats have shawl

collars and gracefully cloak the body.

Long skirts are lean and slit up to the thigh—a new way of showing some leg. Of course, short skirts also continue to look modern. But, the woman who would feel uncomfortable in a slit or short skirt has plenty of options, since many collections feature pants and longer skirts which are full and not slit.

Knits are the backbone of many collections. Staples, such as the turtleneck, can be used for layering or be part of total knit outfits. This fall, fashion is comfortable, so knits are a substantial part of what's coming from Seventh Avenue.

In keeping with the relaxed feeling, draped skirts and blouses, soft, and figure-flattering, are uniquely important.

Well-bred color is a significant detail. Midnight blue, the deepest and darkest of blues, replaces black in many designers' collections. Pale shades of camel are captivating on their own or when paired with midnight blue. Ivory is the season's bright, to accent the monotone layered separates. Smoke gray, spice brown and moss green also are important.

Fabrics are soft and sumptuous this season. Cashmere, alpaca, wool and pure camel's hair are used in a way that makes them touchable as never before. Suede is used in supple jackets and skirts.

For those who prowl the urban jungle, animal prints are making a comeback and turning up everywhere. However, it's usually best not to go overboard with this motif. Animal prints look best when used sparingly, rather than head-to-toe. One piece, such as a scarf, bag or hair ornament, can add excitement to an unadorned outfit.

Accessories add style to every designer's collection. Buttons double as jewelry on some clothing. Belts are wide and define the waist, or are fashioned from gold chains with colored stone details. Studs are used to embellish sportswear. Black velvet piping boldly defines the shape of a dress or skirt, for a streamlined effect.

Of course, there are still many avantgarde designers, free spirits who design the kind of clothes that prompt most women to ask, "Who

in the world would wear that, and where would they go in it?" Yet, these designers have their fans, and some of their most extreme designs may very well turn up, in modified forms, in future collections of the more mainstream designers.

This season, there really is something for everyone, from the woman who likes the most classic styles, to the one who likes to be the center of attention in the trendiest outfits. Fashion-conscious women can select the styles and details they like best from the fall collections, combine them with the favorites already on their closets, and feel confident that their personal style is shining through in every ensemble.

Henry Armstrong was the holder of three boxing titles simultaneously: Featherweight, Welterweight, and Lightweight, in the year 1938.

Video taping for your child set Oct. 16

The Hereford Police Department, Colortyme, and McDonald's are sponsoring a free service of video taping for children.

A video tape of a child can help local authorities and a community with identification that could lead to the location and recovery of a missing child.

For a video bring your child to Colortyme, 310 N. 25 Mile Ave., and a blank VHS tape, during the hours of 10 a.m. to 5 p.m. on Saturday, Oct. 13. Also available, at the parents request, will be ident-a-kid fingerprints. Fingerprinting will be administered by the Hereford Police Department.

Korean autumnal festivals for fun loving travelers

Fun loving travelers might find Korea's regional festivals particularly festive. They are celebrations of traditions and arts, nature and sports. Since many festivals are linked to the autumnal harvest, fall is a festival-rich season to visit Korea.

Regional festivals, similar in character to a county fair, are linked to events in history, nature and religion. "Koreans are enthusiastic in reliving historic events, so our festivals are colorful and exciting," Duk-Soo Hur, director of Korea National Tourism Corp. in Los Angeles, said.

The Moyangsong Fortress Festival and the Kaechon Art Festival are just two examples, Hur said.

The Moyangsong Fortress Festival in Kochang is Chollabukdo's provincial highlight in October. The festival honors 5,000 women who constructed Moyang Fortress in 1453. There are also singing and archery contests, standard festival activities in Korea.

Kochang, on the peninsula's west coast, is a 4 1/2-hour bus ride from Seoul, with a transfer in Chonju; fare is about 6,200 won (about \$9). Yogwan accommodations are available in Chonju and Kwangju.

The Kaechon Art Festival, in Chinju, is a celebration of art and classical talent such as calligraphy and poetry, drama and music.

The festival, held in November, reflects Chinju's artistic traditions dating from the seventh to ninth century Shilla Dynasty. There are daily archery contest and Sword Dance performances at the festival.

Chinju, in the southeastern province of Kyongsangnamdo, is linked to Seoul via a 1-hour Korean Air domestic flight. The fare is about 26,000 won (about \$40). There are also train and bus connections from Seoul and Pusan. Moderately priced hotel accommodations or inexpensive

yogwan accommodations are available in Chinju.

By including a regional festival on a business or vacation itinerary, travelers experience Korea's intriguing combination of an ancient culture and modern spirit. Detailed travel information is available from Korea National Tourism Corp., 3435 Wilshire Blvd., Ste. 350, Los Angeles, CA 90010.

Migrant program recruiting

Texas Migrant Council Head Start program is recruiting children in the Hereford area, of migrant families who have worked or are working in agriculture, hoeing, harvesting, planting, ginning, etc., and who have migrated to another state or county.

The program has a special interest in the families who have children between the ages of 2 1/2-5 years of age because they would benefit from the program.

All services are free. Services available are health, hearing, handicap, social service and parent involvement, nutrition, and education.

If you have a child or know someone that has a child 2 1/2-5 years of age contact the Hereford T.M.C. at 410 Irving or call Tomas Salazar at 364-5972.

We speak of a herd of cattle; in this manner, we have an army of frogs, a clutter of cats, and a skulk of foxes.

after supper in your easy chair...
The Hereford Brand is ready when you are!

When you have the time to enjoy it...
Consider it...
RETAIN IT...

That's why The Hereford Brand is the ideal medium to advertise your business. Your customers see your ad when they're paying attention!

Call 364-2030, and let us help you get the message out! **We're ready when you are!**

The Hereford Brand
"We reach thousands every day."

YOUR FEET DR. GRANT E. CETTIC - PODIATRIST

HAMMERTOES

An inherited muscle imbalance or abnormal bone length can make one or more small toes buckle under, causing their joints to contract. This in turn causes the tendons to shorten. Corns (build-ups of dead skin cells where shoes press and rub) often form on top of the contracted joints, and may become irritated and infected. Various hammertoe problems and some of the common ways to correct them surgically are shown.

Hereford Foot Clinic
364-5294
110 N. 25 Mile Ave. - Suite B - Hereford, Tx.

CLASSIFIEDS

Call Janey Allmon at the Hereford Brand, 364-2030, or come by 313 N. Lee to place your classified advertising. We reach thousands everyday!

CLASSIFIED ADS
Classified advertising rates are based on 14 cents a word for first insertion (\$2.80 minimum), and 10 cents for second publication and thereafter. Rates below are based on consecutive issues, no copy charge, straight word ads.

TIMES	RATE	MIN
1 day per word	.14	2.80
2 days per word	.24	4.80
3 days per word	.34	6.80
4 days per word	.44	8.80
5 days per word	.54	10.80

If you run ads in five consecutive issues with NO changes, you get the same ad in the Reach 4 More free. The regular charge for that ad would be \$3.80.

CLASSIFIED DISPLAY
Classified display rates apply to all other ads not set in solid word lines—those with captions, bold or larger type, special paragraphing, all capital letters. Rates are \$3.95 per column inch; \$3.25 an inch for consecutive additional insertions.

LEGALIS
Ad rates for legal notices are same as for classified display.

ERRORS
Every effort is made to avoid errors in word ads and legal notices. Advertisers should call attention to any errors immediately after the first insertion. We will not be responsible for more than one incorrect insertion. In case of errors by the publishers, an additional insertion will be published.

LEGAL NOTICES

Paul Marko Jr. has thirty days to remove his car from the premises of Brooke Pipe & Co. 15306

CONCORD, N.C. (AP) - Roast Duckling Milano by Beverley Ann Crumney of Brooksville, Fla., is the \$1,000 grand-prize winning recipe in the first Concord National Duckling Cook Off sponsored by Concord Farms.

The prize-winning recipe features roast duckling quarters flavored by pepper, oregano and basil, a thin spread of Dijon mustard and a sprinkling of Parmesan cheese.

Barbara Bell of Jacksonville, Fla., won the \$500 second prize with her Duckling with Mushroom-Wine Sauce recipe. Gloria Bove of Bethlehem, Pa., won third place with her Mexican Duckling Dinner recipe.

Crumney, who is skilled in traditional French cookery, says she has made a transition in recent years to preparing more healthful foods. "I select foods and recipes that are low in cholesterol and fat," she says.

During a trip to Hong Kong and mainland China in 1984, Crumney says she visited a duck farm and later dined on duckling in several restaurants.

The following are the winning recipes:

- ROAST DUCKLING MILANO**
1 duckling, thawed and quartered
1/4 teaspoon black pepper
1 tablespoon dried oregano
1/2 teaspoon dried basil
4 tablespoons Dijon mustard
1-3rd cup grated Parmesan cheese
1-3rd cup dry vermouth
1/4 cup chopped parsley for garnish
Preheat oven to 400 degrees F. With sharp knife, score skin of duckling quarters. Place duckling quarters skin side up on a rack in an uncovered roasting pan; sprinkle with pepper, oregano and basil. Roast 1 hour. Remove duckling from rack, drain liquid from pan. Place duckling quarters in pan without rack. Spread mustard over top of duckling quarters; sprinkle with cheese. Pour vermouth in pan and continue baking at 400 degrees F for 45 minutes or until tender. Garnish with parsley. Serves 4.
- DUCKLING WITH MUSHROOM-WINE SAUCE**
1 teaspoon vegetable oil
1/2 cup minced green onions
1/4 cup minced carrots
1 tablespoon all-purpose flour
3/4 cup dry sherry or white wine
3/4 cup water
1/2 teaspoon chicken-flavored bouillon granules
1/2 teaspoon dried whole rosemary
1/4 teaspoon dried whole thyme
1/4 teaspoon garlic powder
1 bay leaf
1/2 pound fresh mushrooms, sliced
1 duckling thawed, quartered and skinned
1 teaspoon coarsely ground pepper
Coat a large fry pan with cooking spray, add oil. Place over medium-high heat until hot. Add onions and carrots; saute until crisp-tender. Stir in flour. Cook over medium heat 1 minute, stirring constantly. Stir in wine, water, chicken bouillon granules, rosemary, thyme, garlic powder, bay leaf and mushrooms. Bring to a boil. Reduce heat; simmer 5 to 10 minutes, stirring often.

Dear Heloise: To be sure that food stored in my freezer is consumed on time, I mark it with a "use by" date rather than the date I froze it. This has helped me out quite a bit. — Diane Williams, Hartford, Conn.

RECYCLING IDEA

Dear Heloise: As a senior citizen I do a lot of craftwork. As a gift I received several sets of miniature bottles of jelly. These tiny bottles make super containers for beads, sequins, assorted wiggle-eyes and jewelry repair parts.

It is so easy to quickly pick the needed items and everything is so organized. — Gloria A. Sweeney, Kerrville, Texas

Dear Readers: As any cat owner knows, cats can be almost impossible to find if they get lost. Helen Biagioli, who lives here in Texas, told us the story of her pet's disappearance and what she did to get him back.

1. Helen put signs on both sides of her car describing her cat and giving her phone number. It looked like a moving billboard as she drove through the neighborhood.

2. She stopped neighbors and told them while posting signs.

3. She contacted local veterinarians and animal organizations and gave them flyers describing her pet.

Weeks passed without a sign of him until Helen got a phone call. A woman reported finding a cat that she believed fit the description.

Helen rushed over and sure enough it was hers, skinny and flea-bitten, but healthy. She had almost given up, but her determination had finally won out.

Fortunately her story has a happy ending and I wish that for everyone who loses a pet. Just don't give up! — Heloise

HOMEMADE CLEANING SOLUTION

Q. In a recent column, you mentioned the advantage of using "homemade" cleaning solutions over those commercially available. I am searching for a window cleaner without ammonia. I hope you know of one. — Anne Brady, Northridge, Calif.

A. Instead of using expensive and sometimes toxic commercial cleaners, many people are going back to the "old-fashioned" standbys, such as vinegar, which works beautifully on windows.

You can mix 1/2 cup of vinegar to 1/2 gallon hot water and fill a spray bottle. For best results, mist the window well and wipe with crumpled newspaper until dry.

The windows come out sparkling clean for much less money than commercial cleaners. — Heloise

AXYDLBAAXR
is LONGFELLOW

One letter stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Hints from Heloise

FLOOR TILES

Q. After removing most of the old tiles from my kitchen floor, I ran into a problem. A couple of them are stuck and I'm having a hard time trying to remove them. Any suggestions? — Angela Garza, Los Angeles, Calif.

A. Heat is the best way to remove them. You can try using a hair dryer on High. Start at one corner and hold it about two or three inches above the tile. When it warms up it should lift off.

If that doesn't work, put a piece of cloth over each tile and iron over them until they become warm. They should lift off easily. — Heloise

Q. How long can spices be kept? I have some that are very old. Do they lose their strength? I would appreciate your answer. — Pearl McGinnis, Girard, Ohio

A. When spices are fresh, they have a strong, full-bodied aroma. In time, they will lose their potency, especially if stored near heat or humidity. It is best to keep them at room temperature away from the oven, stove, sink or dishwasher.

Spices will not spoil or go bad, but if you notice your favorite dish doesn't have the flavor it should after adding the normal amount of spice, then the spice has probably lost its potency and should be thrown away. — Heloise

ANGEL-FOOD TESTING

Dear Heloise: When testing to see if an angel-food cake is done, I use a long, thin piece of spaghetti. It serves well when a toothpick is too short. — Evelyn Beck Wakeman, LaPorte, Ind.

LARGER ICE-CUBE TRAYS

Dear Heloise: Since your column reaches far and wide, I hope the manufacturers of ice trays will read this. They should make the trays with bigger holes for bigger cubes. They seem to be getting smaller all the time. It takes almost a full tray for a normal-size glass of iced tea. I gave up and bought a bag of ice. How I wish I had all my old metal ice trays back! — A Reader, Hot Springs, Ark.

FOOD STORAGE

Dear Heloise: To be sure that food stored in my freezer is consumed on time, I mark it with a "use by" date rather than the date I froze it. This has helped me out quite a bit. — Diane Williams, Hartford, Conn.

RECYCLING IDEA

Dear Heloise: As a senior citizen I do a lot of craftwork. As a gift I received several sets of miniature bottles of jelly. These tiny bottles make super containers for beads, sequins, assorted wiggle-eyes and jewelry repair parts.

It is so easy to quickly pick the needed items and everything is so organized. — Gloria A. Sweeney, Kerrville, Texas

SIX-PACK HOLDERS

Dear Heloise: When throwing six-ring holders away, remember to snip the rings so that the wild animals that forage through landfills for food won't become entangled in them. — Debbie Grillo, Baltimore, Md.

You bet! A little step to save an animal's life. — Heloise

CLEANING CLOTHESPINS

Q. Could you repeat this information about cleaning wooden clothespins that have become discolored? Thank you. — Valerie Thomas, East Detroit, Mich.

A. Sure! If your clothespins are so stained they are leaving marks on your clean laundry, then it is time to clean them.

Just soak them for about an hour in a bucket with water, a little laundry detergent and about a cup of bleach. When clean, rinse and allow to dry. — Heloise

VASE RESIDUE

Dear Heloise: To keep my flower vases from getting the ugly cloudy residue from the water, I use only distilled water in them. After I remove the flowers, I simply wash out the vase and it is ready for another arrangement. — Sharon Jenkins, Joplin, Mo.

Let us show you a Texas you've never seen before.

THE ROADS OF TEXAS is the culmination of a mammoth project that has involved many individuals for over two years. When you get your copy of THE ROADS OF TEXAS you'll wonder how you ever traveled the state without it.

This 172 page atlas contains maps that show the complete Texas road system (all 284,000 miles) plus just about every city and community! Texas A&M University Cartographics

Laboratory staff members produced the maps, based on county maps from the State Department of Highways and Public Transportation. The details shown are amazing—county and local roads, lakes, reservoirs, streams, dams, historic sites, pumping stations, golf courses, cemeteries, mines and many other features too numerous to list.

Ann Landers

DEAR ANN LANDERS: I have read your column for years and like so many others, I never thought I'd ever write to you. But something is bothering me and I'll be you know the answer.

I'm curious about the law enforcement agencies that confiscate millions of dollars worth of drugs. What do they do with it? No doubt, a few crooked cops here and there help themselves to small amounts, but what do they do with all that cocaine

and heroin?

And what about the cars and the money that police confiscate in drug busts? What happens to all those fabulous automobiles and all those millions dollars? I'm sure a great many others have wondered about this, too. Please satisfy my curiosity.—An Interested citizen in Van Nuys

Dear Interested: Thank you for asking. I've wondered about the same thing and your letter forced me to education myself.

According to Tina Vicini, director of News Affairs in the Chicago Police Department:

All drugs are destroyed. If the court determines that the property was obtained through illegal means, it is taken over.

Cars in good condition are used by the police department.

Confiscated items are auctioned off, and the proceeds, along with any illegal cash seized in a drug bust, are divided among the state and the law enforcement agencies involved in the bust.

The money is used by the police for enforcement of drug laws. This includes the purchase for surveillance equipment, radios, rental cars, paying informants and the purchase of drugs during undercover operations.

DEAR ANN LANDERS: I need to know if you consider this normal behavior.

My former fiance had a 65-pound dog. He has had "Clyde" for several years and is very attached to him. "Bob" has always kept Clyde in the house. He slept in Bob's bed and was allowed on the furniture.

About a year ago, Bob asked me and my three children to move in with him. He wanted us to be a real family. I told him I couldn't live in the same house with that dog he sheds something awful. I'm not talking about a little dog hair on the sofa. I'm talking clumps and handfufs.

We found a nice house with a private fence and Bob agreed to make Clyde an outside dog. But after we moved in, it was either too windy, too

rainy, too hot or too cold for Clyde and he became aggressively angry. He tore the window screens trying to get in the house. He dug huge holes. I was furious when I found dog hair in the food, on the counter tops, everywhere. Needless to say, the relationship began to fall apart. I tried talking quietly, pleading and screaming. Finally I begged Bob to be reasonable. I desperately wanted our relationship to work but I didn't have a chance. Clyde came first.

Is it normal for a man in his 30s to choose a dog over a fiancee? I'd like your opinion. It might make me feel better about having left him.—Doggone Fed Up (Norman, Okla.)

DEAR FED UP: Considering the number of years Bob might have with Clyde and the life he could have had with you, I'd say he made a bum choice. You, however, came off lucky. This guy, for the long haul, sounds like a mighty poor bet.

Drugs are everywhere. They're easy to get, easy to use and even easier to get hooked on. If you have questions about drugs, you need Ann Landers' booklet, "the Lowdown on dope." Send a self-addressed, long, business-size envelope and a check or money order for \$3.65 (this includes postage and handling) to: Lowdown, c/o Ann Landers, P.O. Box 11562, Chicago, Ill. 60611-0562. (In Canada, send \$4.45.)

Hints for a healthy pregnancy

Even before a child is conceived there are a number of things a mother-to-be can do to prepare for pregnancy and increase her chances of giving birth to a healthy baby.

First, you should try to get as close to your ideal weight as you can. Your drinking should be limited and you should stop smoking.

Beyond the obvious health hazards, cigarette smoking affects the nutritional status of a young woman.

For example, there's evidence vitamin C levels are lower in the blood of cigarette smokers than in non-smokers, suggesting that smoking depletes this vitamin.

You should also be aware that alcohol is not only a significant source of empty calories but its consumption interferes with the ability to retain required nutrients—often the very ones that are in the shortest supply in a young woman's diet.

It's also a good idea to begin taking a vitamin supplement that contains folic acid. A study of almost 23,000 pregnant women, published in the "Journal of the American Medical Association," found that those who took daily multivitamins containing folic acid during the first six weeks of pregnancy reduced by 75 percent their chances of having a baby with severe neural tube birth defects.

Throughout your pregnancy, eat a balanced diet, don't skip any meals and include nutritious snacks each day.

NEW YORK (AP) - Gov. Mario Cuomo says Buffalo is a baseball kind of town.

Cuomo appeared to poke fun at Florida baseball fans Tuesday after Buffalo made its pitch for a National League expansion franchise. Miami, St. Petersburg, Fla., and Orlando, Fla., are among the other bidders.

"Miami is a wonderful town, but you can't look around and say these are all baseball fans," Cuomo said. "You even have jai alai fans. Jai alai fans and baseball fans, they don't even drink in the same places."

He added: "There is something special about the Buffalo fans. I don't know a lot of people in Buffalo playing croquet. I never saw a polo match in Buffalo."

Cuomo was blunt in response to a question about whether it would be fair to give New York a third baseball team to join the Mets and Yankees when some states have none.

Veterans ball set Nov. 10

The Panhandle Ball Committee and area veteran groups will be holding the Annual Veterans Day Ball for this year in the Grand Plaza Ballroom of the Amarillo Civic Center on Saturday, Nov. 10.

The event is a "Public" Affair with "Military" Flair, and as indicated is open to the public.

The annual dinner and dance is a formal/semi-formal affair to honor all veterans and active duty military personnel. This year the ball will be oriented to remember and honor our military persons in Saudi Arabia and their support people in the greater Panhandle area.

Jack Tipton, public information chairman, says that much of the committee effort will be directed to contacting military and support groups to attend the ball so that Panhandle people can see and talk to these people.

The social hour will be 6:30-7:30 p.m., dinner at 7:30 p.m. and dancing at 9 p.m. The dinner speaker will be General Murphy. The music will be provided by Dick Morton-Bobby Burns Orchestra. The cost will be \$20 per person.

Tickets are available at the Amarillo Civic Center, 378-3096, American Legion in Amarillo, 373-8348, Veterans of Foreign Wars in Amarillo, 373-8552, or write for tickets to P.O. Box 50366, Amarillo, Texas 79159. For additional information call Guy Leach, 351-2381 or Jack Tipton, 352-9226.

Lewis & Clark's original voyage enjoyed by all

Do you have some of the spirit of the great adventurers? Perhaps you'd like to retrace the steps of famed explorers Lewis and Clark in the breathtakingly beautiful, mountainous terrain of the Pacific Northwest. Those with a sense of adventure might want to join one of nine unusual voyages along the region's rivers that combine striking scenic beauty with a deeply felt sense of history and a near-perfect climate.

It was President Thomas Jefferson who dispatched Lewis and Clark to explore the Louisiana Purchase and points west to discover an alternative water route to the Pacific and to report to him on the region's plants, animals, climate and geography. Now tracing the routes of Lewis and Clark's explorations during the early 19th century, the 70-passenger, U.S.-flag M.V. Sea Lion and its 70-passenger sister ship the M.V. Sea Bird rediscover the riverway which was vital in the opening of the West—the Columbia and Snake rivers.

The one-week voyages offered by Special Expeditions will travel from Astoria at the mouth of the Columbia, all the way to Hells Canyon on the Snake, more than 450 miles upstream. The ships will pass through some of the country's most scenic areas at a time of year when fall colors are brightening the mountainsides, apple and wine harvest are in full swing, and the summer crowds have departed.

"The Sea Lion and Sea Bird are the ideal vessels for this type of leisurely exploration," says Sven Olof-Lindblad, founder and president of Special Expeditions. "They have large windows so passengers have wonderful views while dining and lots of open deck space from which to watch the passing scenes from outside." These ships can navigate where larger ships cannot go through the Columbia River Gorge and various locks along the river system.

BURBANK, Calif. (AP) - Animator Ollie Johnston said he wasn't "on" anything when he worked on the phantasmagoric Walt Disney classic "Fantasia."

Johnston was one of the legendary "nine old men" who animated Disney features from 1937 into the 1980s. He drew the centaurettes for the Pastoral sequence of "Fantasia," released in 1940 and due out again Oct. 5.

The cartoon interpretation of classical music was a box office failure in the 1940s and 1950s. The turning point came in the 1960s, when young people embraced it as a psychedelic trip.

"People have asked what we were 'on' when we made the picture," Johnston laughed during a recent interview. "We weren't 'on' anything."

Sturdy inflatable landing craft can put passengers ashore anywhere along the way. Adds Lindblad, "The intimate ambiance fosters camaraderie and flexibility as well as sense of being on one's own private yacht."

A skilled staff of naturalists and historians accompany each journey to enhance passengers' understanding and enjoyment of the area. You'll see Astoria, headquarters for Lewis and Clark in 1805-06; the Columbia River Gorge, Bonneville Dam and Hood River; the wine country of eastern Washington; and the Palouse River. Via jet boat you'll tour Hells Canyon, deepest gorge in North America and then take a leisurely cruise back down the Columbia river.

Departure dates for the 8-day "In the Wake of Lewis and Clark" voyage aboard the Sea Lion are Oct. 7, Oct. 14 and Oct. 21, 1990; dates for the Sea Bird are Sept. 22, Sept. 29, Oct. 6, Oct. 13, Oct. 20 and Oct. 27, 1990. cost begin at \$1800 per person, double occupancy. For free brochures, write: Special Expeditions, 720 Fifth Ave., Dept. 1, New York, NY 10019. Or call toll-free: 1-800-762-0003.

Draper speaks at meeting

Argen Draper was guest speaker at the recent meeting of the Lone Star Study Club. Deaf Smith County was the topic with emphasis presented on land marks in the county.

The meeting was held in the home of Grace Tinnin and Verna Sowell was co-hostess. Betty Jo Carlson led members in the club collect.

Members voted for a memorial to be given to Mary Hall Nursery scholarship at King's Manor Methodist Nursing Home for Opal Bookout.

Roll call was answered by memories about Hereford in the early days.

Fifteen members were present. The next meeting will be held in the home of Margaret Ann Durham on Nov. 13.
