

The Hereford Brand

VOLUME 18

HEREFORD, DEAF SMITH COUNTY TEXAS, NOVEMBER 7, 1918.

NUMBER 41

COUNTY INSTITUTE WILL BE HELD AS USUAL

A school to be most effective must let and make its influence be felt beyond its territorial limits. It must also imbibe the spirit of the schools of other districts. In fact the teachers of a county should have the same plan, purpose, and end in view for the betterment of school conditions and adequate instructions. The law requires teachers to assemble in an institute. The plan was to hold the Deaf Smith County Institute the week preceding Christmas, but on account of influenza and to incur no further loss of time to the children, the institute will be held on five Saturdays—one a month—beginning Nov. 23 with the following program:

PROGRAM

Deaf Smith County Institute County Court Room.

- 9:30-10:30—Enrollment—Organization.
- 10:30—Opening Exercises.
 - a. Songs
 - b. Devotional—Rev. J. E. McClurkin.
- 11-12—Address.
Prof. J. A. Hill Pres. N. W. T. S. N., Canyon, Texas.
- 12—3:30—noon
- 1:30-2:00—Games and Exercises
Discussion led by Miss Coy Virginia Wilson.
- 2:00-3:30—Ways and Means of Teaching Patriotism
Discussion led by Mr. L. M. Fertsch.
- 3:10-4:10—Reading:
 - a. Value of
Miss Marian Erwin
 - b. The value of the Short Story
Miss Mary Gallagher
 - c. The library an aid
Miss Hattie Mann
 - d. Memory work
Miss Bonnie Angley

BUSINESS CHANGE

W. W. Bennett this week sold his stock interest and leased his fixtures in the news stand and soda fountain department of Beene & Bennett to E. P. Gallaher. Mr. Gallaher has already assumed charge of his new work.

NEW RESIDENCE

Earl E. Wilson this week began work on a four-room and bath residence, two blocks west of the Christian church, on the south side of the street. Mr. Wilson stated that he would occupy this home for the time being, and proposed to erect a larger and more commodious home after the war.

QUARANTINE RAISED

The City Health Officer authorizes the Brand to say the conditions with reference to the influenza have so much improved that in his judgment it will be safe for the schools to resume next Monday.

He also says that he thinks the churches may safely resume their usual services on Sunday, but he thinks it would be unwise for any church or any other organization to arrange for and special program for next Sunday, that would be likely to attract an unusual crowd of people. There are still some cases of influenza in the community and unless care is exercised, the disease might yet cause further trouble. The Health Officer advises that persons suffering with colds or who are not feeling well should avoid going to any assembly of people.

There have been about eighty five cases of influenza in all in a distance of about ten miles from the Court House, since October 15th. The Health Officer advises plenty of fresh air, cleanliness and the avoiding of crowds.

PLAINS POINTERS

What faith in the country optimism, hard work and good common horse sense can accomplish in the Panhandle was perhaps never better exemplified than in the story of G. W. Brumley of Hereford in the year 1918.

Mr. Brumley obtained possession of a small, 83-2-3 acre irrigation plant, located in the east edge of town, last February. He put in sixty acres in feed crops and 20 acres in alfalfa, seven acres of which were used for grazing. He ran about 200 head of hogs all summer, and in addition bought hogs on the open market and shipped them out in carload lots.

Checking up Wednesday with the Brand Mr. Brumley figured about \$5,000 from the 60 acres of crop, \$1500 from the thirteen acres of alfalfa, besides the grazing, etc. Besides this the records show that approximately \$100,000 was checked through the bank in handling hogs during the year, both those run on the alfalfa, and those purchased and shipped! Besides all this, Mr. Brumley found time during the year to handle several cars of apples for the local trade.

But then, you see, Brumley is strictly on the job about 18 out of every 24 hours. During the summer you could hear that pump of his going at most any hour of the day or night, and when you saw his jitney in town it was usually headed homewards and moving fast.

Another characteristic is the steady improvement an observer will note about the Brumley home place. He has recently remodeled and painted his home; has installed a complete water system, a concrete milk house with a tank on top, a storage tank of 130 barrels, a septic tank, etc.

Mr. Brumley believes in the Hereford irrigation field; has tested it out and made it pay; wants more land and more capital to work it. We need a lot more of irrigation men like G. W. Brumley.

MAXWELL AND FORD HAD HEAD ON COLLISION LAST SUNDAY

Sunday afternoon one and one half miles north east of Hereford near the D. L. McDonald farm an auto accident occurred when a Maxwell car driven by Clovis young people and a Ford driven by Misses Rosa May Carl and Nora Beams ran together.

Both cars were moving at good speed and when the Ford, which was in front, started to turn the Maxwell was to close behind to stop, thus causing the collision. Both cars were badly smashed up, knocking a front wheel off the Maxwell and one off the Ford. No injury was done the young people except that the driver of the Maxwell suffered from bruises on his right arm and chest.

14-YEAR-OLD BOY ACCIDENTLY SHOOTS OFF HIS LEFT ARM

The 14-year-old son of S. S. Collett of Dawn lost his left arm a few days ago as the result of another accident with a loaded gun. It seems that the boy, with some other boys, was in a wagon drawn by burros the loaded shotgun was jostled and discharged, almost severing the arm near the shoulder. He was brought to town and the arm amputated. At last accounts the young man was resting as easily as could be hoped for under the circumstances.

Is Your Boy "Over There?"

All persons who have a son, brother, husband, cousin or any relatives in the Service who knows that they are "over there," will please call Miss Bonnie Chamness and tell her where they are and who to go to, as their nearest relative or friend, to get a kodak picture of them to send to the boys as a Christmas remembrance from the County Council of Defense. The Council will have all the pictures taken, and all the trouble it will cause you will be the posing for a minute or two while Miss Chamness or Miss Mary Gallagher takes the picture.

The idea is to show the boys over there who are fighting for us that some one besides the family is thinking about them. They know the family is thinking of them and we want to show them that they are in the minds of all the people in the County, as well as the home folks, for are we not home folks also?

If you live in the country try to bring all the family in town Saturday, call Miss Chamness at 87 or 127, and she will see that some kodak pictures are taken to send to your boy; or if not a son, and you are the nearest relative or friend in the County, call any way.

Letter and Poem By Owen Just Before The "Zero" Hour

Last week, just as we were going to press, a telegram was received by Mr. and Mrs. A. H. Owen, conveying the sad news of the death in action of their son, Joseph J. Owen on September 29th.

Young Owen would have been 26 years of age on the 16th of November. He enlisted in the Engineers in June, 1917. He was first sent to Fort Riley, Kansas, and from there to Fort Sill, Okla. From the latter camp he went to Camp Mills, N. Y., and sailed for France in April of this year.

This week his parents received the following letter and poem from the boy, written as he was preparing himself to enter the battle which proved to be his last:

Dear Mother and Father:
According to military schedule our unit will soon be engaged with the enemy. There will be opportunities to display all our training and courage. In that case I hope to serve my country well. Be fully assured that I have given my country and our common

cause all I had to give. We are eager for the fray.

Forgive me for all the sorrows I have brought to your home. Be of exceeding great cheer. If I am not a survivor there is only one place I could be—with God.

Your son,
Joseph J. Owen,
1st Sergeant.
P. S. You taught me to live and think clean—that gives me advantage over the enemy. I am truly happy.
J. J. O.

I do not care how long the road, may be
Or how many be the miles,
If I can wipe a tear away
And provoke a cheery smile.

I can endure an ache and pain,
And spend a lonesome hour,
If I can smooth the rocky way
And plant each day a flower.

But give me one friend,
Who feels the hidden thought,
Of one who trembles the way
That inch by inch is fought.

A firm word to cheer,
And a hand to caress broken hopes,
When the stern plunging tide
Comes from the future ever remote.
(Tex.) Joseph J. Owen.

GOLD DOLLAR IS DUG UP AND EX-CITEMENT ENSUES

Old one-legged John Silver and his gang of cutthroats worked no harder on Treasure Island, digging for buried "pieces of eight" than did little 5 year old Milton Davidson, son of Rosecoe Davidson, last week when he accidentally unearthed a real GOLD DOLLAR in his father's yard! Mr. Davidson had only recently loosened the soil around a plant, and the little fellow, playing around in the yard picked up the tiniest piece of money Uncle Sam ever issued.

Great excitement ensued. Everybody went treasure hunting. If it had only been early spring Mr. Davidson's garden plowing problem would have been solved. However, as is usual with treasure hunters, the sample was all that was found.

By the way, how many Hereford folks ever owned a gold dollar or even saw one? Quite a curiosity to most people. This particular sample is dated 1849, and is about half the size of a dime, and same thickness. They are said to be quite rare, and are not believed to be issued by the Treasury Department at this time.

COUPLE FROM BOVINA VICTIMS OF AUTOMOBILE ACCIDENT LAST SUNDAY

A Miss Lively, a school teacher, and W. H. Martin, both of Bovina, were painfully shaken up and bruised, and Miss Lively sustained a broken collar bone, in an automobile accident last Sunday near Friona. Another occupant of the car was uninjured. The car in which they were riding turned turtle. Both Miss Lively and Mr. Martin were brought to the Hereford Sanitarium for treatment, and at last accounts were doing nicely.

Charlie Sullivan was a business visitor in Amarillo last Monday.

IRRIGATION WELL 140 FEET DEEP IS DECIDED SUCCESS

Local irrigation perspectives will have to be lengthened—pre-conceived ideas on how deep an irrigation well may be profitably sunk discarded. For a big step forward in irrigation development has been taken, and a maximum of 140 feet to water has been established!

The George Hitz well, located on the Hitz ranch near Black, was brought in Tuesday—and brought in with a bang. D. L. McDonald has been working on this well for some time, and its debut was pulled off Tuesday morning with great satisfaction to the contractor and to the owner. Mr. Hitz is vastly pleased with the initial performance of the new well, and stated he intended to irrigate 200 acres from it next season. There is plenty of water and to insure an abundant supply of it Mr. Hitz is installing a powerful 100-horse power engine.

Mr. Hitz already has a small well in operation, pulled by a 40 H. P. engine and from which he watered sixty acres the past season very profitably.

The owner of the latest addition to the Hereford irrigation field is the original booster for irrigation in these parts, and is showing his faith by his works. Heretofore it has been believed that 75 feet was about the margin of safety for irrigation profits, but Mr. Hitz believed otherwise, and is proceeding to prove his theory.

DEATH OF INFANT

Little Jane Smith, four wee's old baby of Mr. and Mrs. Joe Smith, died Thursday Oct. 31. The baby was put to rest Friday Nov. 1st, in the Hereford cemetery. Funeral services were conducted by Rev. J. D. Burelson.

W. B. Arnold of Hannibal, Mo., father of B. S. Arnold, is in the city, visiting friends.

IMPORTANT INFORMATION TO WAR WORK LEADERS

GENERAL ELECTION

One of the lightest votes ever cast in the county was that recorded Tuesday in the general election, only a bare 200 out of a possible 700 being recorded. Very little interest was manifested. All returns in Thursday with the exception of Ford School house and Howard Branch box. In these boxes Governor Hobby received 167 votes, Boyton, the Republican candidate for governor, 25 votes, and Simpson Socialist candidate, none. In fact, if we have Socialist voters in our midst they did not manifest it by their votes in this election.

Congressman Marvin Jones, who has just been furloughed in order to enlist as a private in the army, received 181 votes and his opponent, Exum, Republican, 18 votes. Both constitutional amendments carried, J. Frank Potts was elected County Surveyor, Al Miller Public Weigher, and J. M. Boone was elected Justice of the Peace over R. T. Moses, 83 to 35.

An unusual feature of the election was the defeat of County Commissioner J. K. Gray, Precinct No. 3 by John Wagner, after Mr. Gray had been nominated at the primaries without opposition.

Complete returns of the county could not be obtained up to time of going to press.

REX STEGALL IS MAKING A RECORD AS AN AVIATOR

A newspaper clipping from a Waco paper received in the city by members of his family tell of the exploits of Lieutenant J. R. (Rex) Stegall, an aviator from Brook Field, San Antonio, in exhibition flights at the Waco Cotton Palace.

Rex is well known in Hereford, his mother, Mrs. J. A. Stegall, sister, Mrs. L. J. Garton, and other members of his family residing here.

The Cotton Palace this year is devoted to war work, and Uncle Sam concentrated 148 of his best flying men from the various camps in Texas, who opened the Palace with a great "air parade" and gave the thousands of visitors an idea of the latest stunts in aerial work.

Lieutenant Rex Stegall was classed as one of the six leading advanced aviators who participated, and was highly complimented for his daring work in the air.

FLUE FIRE CAUSES TOTAL LOSS OF BRIDGES RESIDENCE

The five room residence of R. C. Bridges, who resides seven miles southeast of Hereford, was totally destroyed by fire Tuesday about noon, while Mr. Bridges was out in the field. The fire is believed to have been caused from a defective flue. Everything in the house was practically a total loss, even most of the clothing of Mr. and Mrs. Bridges being destroyed.

C. C. FERGUSON'S SISTER DIES

C. C. Ferguson received word last Thursday that his sister, Mrs. F. C. Shepard of Arrow Rock, Mo., was seriously ill, and left at once for her bedside. He arrived only a few hours before the end came.

Mrs. Shepard is survived by her husband, a daughter, Mrs. Morrell De Reign of St. Louis, a son, Lieutenant Lenn Shepard of Camp Mills, N. Y., C. C. Ferguson and J. E. Ferguson of Hereford.

MEETINGS

The following meetings in the interest of the United War Work campaign will be held Sunday afternoon, November 10, beginning promptly at 3:00 p. m.

Palo Dura Baptist church
Dawn
Wyche
Summerfield
Progressive
Askren
Ford

The hearty response which has been accorded the preliminary work of the big Nov. 11-18 campaign bespeaks a most gratifying interest and spirit of co-operation throughout the entire country. With such manifest evidence of the people's sympathy with the movement there can be no question as to the successful issue of the United War Work drive in Deaf Smith county. That nothing may be overlooked in the work of preparation the county committee calls attention to certain points which they feel should be, thoroughly understood by the various committee chairmen, both city and rural.

First, the United War Work campaign is not the plan of any one or of all of the organizations interested. "By order of the President" names at once its origin and the vital force which does, or should, animate the movement.

Second that the \$170,000,000 originally asked for is still the authorized goal of the campaign, but President Wilson and the War Department have agreed that the raising of this sum will necessitate another subscription in June as it will not be sufficient to carry on the work for a year. An increase of fifty per cent, or a total of \$250,000,000 is recommended as it would do away with the inconvenience and expense of a later campaign. It is earnestly hoped that this increase will be reached in every district of the county.

Then with the closing of the war seemingly at hand and the inaction of our boys a reasonable certainty, the urgent need for these mainstays of our soldiery becomes greater than ever before; that those whose lives have been spared to us may have also their moral and spiritual life spared from the things that would destroy. Each leader is urged to keep these facts before him as he plans his work that he may inspire his workers with earnestness and zeal so essential to success.

Again, the local work must be considered a county affair and must be done through the county (Continued on page five)

CHRISTMAS BOXES HAVE ARRIVED

The Xmas boxes, which are to be filled with gifts for the soldiers in France have been received by the chairman of the Xmas Package Committee, and are ready for distribution. These boxes are 3x4x9 inches in size and can be obtained at Stambaugh's store between the hours of 2 to 5 in the afternoons. They will be issued only to those who have the labels sent to them from the boys in France. This label should only be shown to the Red Cross authorities in charge and then saved to be placed on the box when ready for mailing. No labels can be duplicated if they should be lost.

Committee,
Mrs. Sherm Williams
Mrs. Fletcher Rogers
Mrs. Walter Dunlap

BURN SOFT COAL THIS YEAR

NO SMOKE

With the **Round Oak Double Burner**

Double Hot Blast Cokes the Coal

Round Oak Core Center grate prevents clinkers

Burns any kind of fuel

Barler Ideal Heater

A Barler heater is a convenient stove for every home. Dependable and labor-saving. Will last through many years of use. Always ready and efficient. Safe, clean, without smoke or odor. Assures warmth and comfort at small cost for fuel. Use an oil heater and have the Barler.

GARRISON BROTHERS

THE HEREFORD BRAND

SETH B. HOLMAN
Editor and Publisher

PUBLISHED EVERY THURSDAY

Entered April 17, 1901, in the postoffice at Hereford, Texas, as second-class mail matter. First issue of the paper issued Feb. 23, 1901, as the Hereford Reporter; first number of The Brand issued March 21, 1902.

Subscription Price \$1.50 a Year : : : : : Strictly in Advance

ADVERTISING RATES—Local 10 cents per line first insertion, 7 cents per line subsequent insertions (no ad taken for less than 25 cents). Classified: first insertion 1c per word, minimum 2c; subsequent insertions 1/2c per word; minimum 2c. Professional cards \$1.00 per month for one inch space. Display advertisements 15c per single column inch per week. Special rates for time contracts.

One of our neighboring contemporaries, the Vernon Record, has raised their subscription price to \$2.00 per year on Nov. 1st. During the past week the mayor of that town came into the Record office and advanced his figures another year at the new price. "When the publishers feel that it is necessary to charge \$2 a year for the home paper," said the mayor, "I want the honor of being the first man to subscribe at that price." The mayor of Vernon is a business man who recognizes the fact that a newspaper, like all other business, must keep the selling prices in ratio with the increased cost of production in order to remain in business. The Clarendon News is facing the same proposition and on Dec. 1st will go to \$2.00 per year. You have yet a month to renew your subscription at the old price. Only one year at \$1.50 will be accepted. —Clarendon News.

The Brand is compelled to announce that the step taken by the Vernon Record and the Clarendon News in advancing their subscription rates to \$2.00 per year is one that this paper will take effective January 1, 1919. The increasing cost of paper, labor, and everything else that enters into the making of a newspaper leaves us no choice; it is simply a raise in subscription or quit the business.

Like the Clarendon News, we will accept subscriptions for one year in advance, at the old rate of \$1.50, up to January 1, after which the rate will be \$2.00 per annum.

Any lady in Hereford want this job?
The applicant must give three independent references, supplying unimpeachable testimony as to character and ability. She should have had considerable clerical experience, and must submit to tests that will give a complete analysis of her qualifications. She must be thoroughly sound physically, and able to keep her health on whatever kind of a diet is obtainable, and through the most trying circumstances she must maintain a quiet, undisturbable enthusiasm. She must possess the versatility that can accomplish anything from running a cafeteria to teaching the metric system. Problems and difficulties must be faced with the initiative and resource that comes successfully with the unforeseen. The candidate must, of course, be a lady, and able to meet people of all classes with a democratic courtesy that can create and maintain a spirit of comradeship.
Well, what salary does she get for all this?
Oh, we forgot that. She must provide at least \$500.00 towards her expenses.

You can see the applicants crowding in, can't you? Every one with money in each hand to prove she has the \$500.00, and with letters in each pocket test-

I have been too modest to mention it before—

Though since the big rain I want you to know—I have some **BARGAINS** on hand in Farms and Ranches, and would appreciate your business.
Give me a chance to show you and we can do some trading.

E. F. CONNELL
THE Land Man

ifying that she has the courage of Joan of Arc, the tact of Portia, and the commercial acumen of Hetty Green.

And all to get jobs in the Y. M. C. A. canteen.

Some of them get jobs, but many more get turned down. France is pretty full just now, and the Y. M. C. A. doesn't propose to export anything it can't use. It asks for the best, and gets it in bulk.

It is wholesome for us to realize that service is a privilege, and it is heartening to find that we have so many candidates able and willing to meet the challenge of the above conditions.

It is not only the Y. M. C. A. that finds applicants able to satisfy rigid entrance tests. Women workers under the American Fund for French wounded must have medical certificates in attestation of clinical experience, and must prove that they are able to pay all their living and traveling expenses. The American Commission for aiding devastated France requires candidates to drive and repair motor trucks, to show a knowledge of dairying and chicken raising, and in other ways to satisfy the examiners that they are not amateurs looking for a picnic tour of Europe.

"America's Boundless Resources"—that well-worn fragment of the campaign orator's currency—gets a new valuation here. We have resources we never dreamed of. Pride and humanity are often merged in one emotion, and never more justly than when we see extreme emergency revealing hidden excellencies in our fellow-countrymen.

Carrying away a gate on Halloween is a delightful and exquisite joke if you are fourteen years old and the gate is your neighbor's. If you are forty-five years old and the gate is yours it assumes a different aspect.

Between the 26th and 27th of October we each conserved an hour. What use did we make of it? On that depends the answer to the question whether it deserved to be conserved.

Next year men's straw hats are to be greatly restricted in style and variety by government regulations. But next June is soon enough for us to be unhappy about it.

Foreign governments are developing a great deal of skill in the writing of peace notes. It is almost equal to the skill the Allies have developed in warfare.

"The goose that laid the golden eggs" had something on the hen who is laying eggs at the present market price, but not so very much.

If America gains nothing else from the war she will at least have a greatly increased knowledge of European geography.

Your last year's winter coat is a badge of honor if the money which would have bought a new one is going into Liberty bonds.

In war times as in other times an ounce of practical efficiency is worth a pound of theoretical knowledge.

These will be remembered as the days when peace messages were flying and Spanish influenza flew.

It sometimes looks as if it would all "over over there" before any of the rest of us get over there.

"U. S." stands for "Useful Santa Claus" this year, as well as for "Unconditional Surrender."

In fact, she will assist in making the new map of Europe.

NOTICE OF SALE.

Whereas, by Deed of Trust, dated December 30th, 1916, and recorded in Volume 17 at page 131, Deed of Trust Records of Deaf Smith County, Texas, W. L. Mansfield, for the purpose of securing the payment of certain notes executed by the said W. L. Mansfield and particularly described in said Deed of Trust, conveyed to Frank F. Ferry as trustee and to his successors in trust the following described property situated in Deaf Smith County, Texas, to-wit: Six hundred fifty-one and 68-hundredths (651.68) acres of land out of Capitol Leagues Number 435, and 436 and particularly described as all of survey or section number seven (7), Township number two (2) north, of range number one (1), east of a "Capitol Syndicate Subdivision" as shown by plat of such Subdivision of record in the Deed Records of said County of Deaf Smith in the State of Texas, volume 19 at page 23.

Trustees, and by virtue of the authority conferred in said Deed of Trust and said instrument appointing me as Substitute Trustee, I, W. A. Davidson, Substitute Trustee on the 3rd day of December, 1918, between the hours of ten o'clock a. m. and four o'clock p. m., shall proceed to sell at public outcry, in front of the court house door of Deaf Smith County, in Hereford, Texas, to the highest bidder for cash, the property above described; and the proceeds of said sale will be applied to the payment of the balance due upon said indebtedness, the expense of making said sale, and the remainder, if any, paid to the said W. L. Mansfield or his order; all in accordance with the terms of said Deed of Trust.

Witness my hand this 6th day of November, A. D. 1918.
W. A. DAVIDSON,
Substitute Trustee.

And whereas, John V. Farwell, Francis C. Farwell and Arthur L. Farwell, who are the present holders of the notes described in said Deed of Trust, have, by written instrument, duly signed and acknowledged by them and dated November 5th, 1918, constituted and appointed me substitute trustee in said Deed of Trust under the authority conferred upon them by said Deed of Trust:

Now, therefore at the request of the said John V. Farwell, Francis C. Farwell and Arthur L. Farwell, and by virtue of the authority conferred in said Deed of Trust and said instrument appointing me as substitute trustee, I, W. A. Davidson, substitute trustee, on the 3rd day of December, 1918, between the hours of ten o'clock a. m. and four o'clock p. m., shall proceed to sell at public outcry, in front of the court house door of Deaf Smith County, in Hereford, Texas, to the highest bidder for cash, the property above described; and the proceeds of said sale will be applied to the payment of the balance due upon said indebtedness, the expense of making said sale, and the remainder, if any, paid to the said W. L. Mansfield or his order; all in accordance with the said Deed of Trust.

Witness my hand this 6th day of November, A. D. 1918.
W. A. DAVIDSON,
Substitute Trustee.

NOTICE OF SALE.

Whereas, by Deed of Trust, dated December 30, 1916, and recorded in Volume 17 at page 101, Deed of Trust Records of Deaf Smith County, Texas, W. L. Mansfield, for the purpose of securing the payment of certain notes executed by the said W. L. Mansfield and particularly described in said Deed of Trust, conveyed to Frank F. Ferry as Trustee and to his successors in trust the following described property situated in Deaf Smith County, Texas, to-wit: Thirty-three hundred eighty-eight and 35 hundredths (3388.35) acres of land out of Capitol Leagues Number 435, 436, 437, and 438 and particularly described as the east one-half (E 1/2) of survey or section number eight (8), the southwest one-quarter (S. W. 1/4) of survey or section No. nine (9), all of surveys or sections number sixteen (16) seventeen (17), nineteen (19) and twenty (20) and the north one-half (1/2) of survey or sector number twenty-one (21), township number two (2) north of range number one (1) east of a "Capitol Syndicate Subdivision" as shown by plat of such Subdivision of record in the Deed Records of said County of Deaf Smith in the state of Texas, Volume 19 at page 23.

And whereas, Francis C. Farwell, Robert C. Chatfield-Taylor and George Findlay, trustees, who are the present holders of the notes described in said Deed of Trust, have, by written instrument, duly signed and acknowledged by them and dated November 5th, 1918, constituted and appointed me Substitute Trustee in said Deed of Trust under the authority conferred upon them by said Deed of Trust:

Now, therefore, at the request of the said Francis C. Farwell, Robert C. Chatfield-Taylor and George Findlay,

Ever Have a "Hunch?"

Well, our hunch is that this a WHEAT YEAR get busy.

McQueen Grain & Coal Co.

A Fortune For Someone

A great many acres of Hereford irrigated land will produce nearly as much crop this year as I am asking for a good irrigated farm. This farm will make any man rich who will buy it and "HIT THE BALL". The buildings are above the average—good enough for any one. The location is excellent. The land is rich and productive with an abundant water supply. A reasonable cash payment is asked with attractive terms on the balance. I know of no better proposition in the Hereford country for the money. It's cheap.

Retread your old Tires. Work guaranteed. 34-17 FORD GARAGE.

The Tablets That Does Not Affect the Stomach Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE, M.D.

Every Hut in France a Classroom

What chance will I have when the war is over? Thousands of boys are asking the question. They want to keep up their studies; they want these war-fare years to count. For them the war work agencies are conducting the greatest university in the world. Every hut in France is a class room and the leading college and high school teachers of the country, under the leadership of men like Professor Stokes of Yale and Professor Erskine of Columbia are keeping our boys in touch. Get behind the campaign that will keep the boys from falling behind.

UNITED WAR WORK CAMPAIGN

First State Bank & Trust Co.

State Guaranty Fund Bank
Capital Over \$100,000.00

I WANT YOU

TO ATTEND ONE REAL DISCOUNT SALE

MOST SPECIAL SALES ARE PUT ON FOR THE PURPOSE OF cleaning a stock of out-of-season and old stock, but I frankly admit to you that the sale I am going to put on is not for that purpose, but simply for the purpose of raising a large sum of money immediately—to satisfy my creditors and establish a credit for a new man in business. Everyone can understand a new man's struggle to establish his credit in the commercial world. Now, in order to raise

Several Hundred Dollars that I Must Have Immediately

I am going to have a real, big discount sale on every article in my store during the week of November 11 to 16. No old or out-of-season stuff, but all new and up-to-date goods.

If your old clothes are not about worn out now they will be—then buy new ones now while you can get them worth the money. I do not advocate extravagance but every man should have plenty of good warm clothes for the winter. Buy them next week at my store and save money at this time when dollars mean so much.

I have nothing to give away, nor anything to sell for less than what it cost me, but I will sell you goods during this sale at cost to me, and less than they can be bought for on the present wholesale market.

If you are going to need anything in the Gent's Furnishing line—either WORK or DRESS clothes—this winter it will pay you to come in and investigate and buy next week. Remember the date—

Monday, November 11, to Saturday, November 16, Inclusive

During the sale, orders for suits will be given the same big discount as other goods in the store, if accompanied by the cash. Save \$10.00 on your suit by giving us your order for it during this sale.

I have a complete line of Men's work and dress clothing, shoes, hats, caps, underwear, sox, etc.; all of which is to be sold at a big discount for CASH during this sale.

Don't overlook this opportunity of saving at least enough money to pay a month's grocery bill on your necessary winter clothes.

THE FAIR, Hereford, Tex.

Close Harmony Under Fire

THE men had finished supper, and sat around in listless groups. Even when a shell went zooming overhead they showed no interest. They were fed up on this war.

A little gray car chugged up the hill to their camp. Two war work men stepped out, carrying between them a curious long box.

"What you got there?" asked the doughboys.

"An organ."

"Well, can you beat that!"

"We've come to give you a little entertainment," said one man. "All right?"

"You bet it's all right," answered a young officer. "This gang hasn't seen a soul from the outside world for weeks. Go as far as you like."

And they did.

They sang the new songs, just over from Broadway. In a minute the whole camp was singing them. Then they sang the verse of a good old close-harmony melody, and the crowd roared the chorus.

"But haven't you men got anybody who can sing?" asked one of the entertainers. The response was immediate and overwhelming.

"Sure we have! Oh, you Shorty! Come on, Happy! Give 'em that 'Perfect Day,' Bill!"

And then things really started.

"Would you know it's the same gang?" asked the American officers.

For two hours it lasted, and then the visitors packed up their organ.

"Come again soon and send more of your men," said the officer. "We can't get too much of it!"

"So long!" yelled the men. "Good luck! Come again!"

Wherever there are American soldiers overseas, these organizations are carrying entertainment to them. Movies, concerts, lectures, local talent, even full-fledged comedies with a truck for the stage, from the simplest sing-songs in the woods to the most elaborate program in city theatres, everywhere free entertainment is provided to meet conditions.

Why you should give twice as much as you ever gave before!

The need is for a sum 70% greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000.

By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved.

Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their:

- | | |
|---------------------------|--|
| 3600 Recreation Buildings | 2500 Libraries supplying 5,000,000 books |
| 1000 Miles of Movie Film | 85 Hostess Houses |
| 100 Living Stone Stoves | 35,033 Dog-brother "secretaries" |
| 2000 Athletic Directors | Millions of dollars of home comforts |

When you give double, you make sure that every fighter has the cheer and comforts of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theatre, a cheerful home, a store, a school, a club and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs.

Now give to maintain the Morale that is winning the war!

The Girl and the Bishop

HE was one of the best known American bishops, preaching straight-out, man-fashion sermons to the boys in France. Everywhere they liked what he said and the way he said it.

On a certain night last summer, he was scheduled to speak in the big hut in one of the largest centers. His subject was announced. The hour was set for eight o'clock. Everything was ready.

Then came the telegram. It came in the middle of the afternoon. It threw the head Secretary into a frenzy. It was from Paris.

It said that the most popular American actress in France would arrive to give her performance that evening!

The girl and the bishop at once!

A hurried consultation was held and then it was explained to the bishop how matters stood.

"What time does she arrive?" asked the bishop.

"A little after eight o'clock," said some one.

"Then it's perfectly simple," the bishop went on. "Move my meeting ahead to seven o'clock. It will last only forty-five minutes. Then clear the hut, re-arrange the benches and bring on your musical comedy star!"

"Do you mean it?" they gasped.

"Why, of course!"

And that is exactly what they did. At 7.45 o'clock the bishop closed his meeting and at 8:15 o'clock the actress began her show, from the same stage.

There was no pretense about it—no attempt to get an audience for a religious meeting by announcing a vaudeville show. Each gathering was announced for exactly what it was. And at both gatherings the hut was packed!

The American soldier needs diversion and entertainment as well as he needs religion. He gets both at his hut—each one in its place, each one clearly defined, honestly labelled, sincerely offered.

This United War Work Campaign is for funds to carry clean, wholesome amusement to the soldiers as much as to provide them with the athletic, educational, religious and social background of home. It is to round out the lives of the men whose existence in a foreign country would become narrow and monotonous.

Give—to let the soldiers have a few of the good things you have every day.

UNITED WAR WORK CAMPAIGN

UNITED WAR WORK CAMPAIGN

What the Department of Agriculture is Doing

Some About Big War Jobs that Are Helping American Farmers to Feed Nations

Farmers Have Planted Wheat.

Representative of the Office of Management, Department of Agriculture, recently returned from an inspection of the typical parts of the wheat area of the United States, and in Kansas, Oklahoma, and the soil generally was in excellent condition for the fall sowing. Farmers were doing their best to get their wheat in as early as possible to get the best start. In some of the dryer portions of the wheat belt, there had been some fallow, which is a good thing, as it saves the farmer the cost of seed, and, in some cases, the difficulty of buying seed. In the wheat sections of Oregon, Washington and Idaho the summer had been exceptionally dry, and up to October there had not been sufficient rains to make it safe to plant. Some farmers, however, are planting a greater risk than usual in the wheat, which ought to be ground at about this time.

Save a War-Savings Stamp.

Great interest in clothing conservation in Oregon home demonstration and an exhibit of remodeling which had been loaned to the school of home economics at agricultural college. Following the exhibit, the women called on her for pointers and suggestions on their materials and proper care to let their neighbors know they are patching up their old records. Records have been kept of remodeling the garments estimate made of money saved in textiles conserved.

Scientists Prepare for War Service.

One of the possible need of a number of entomologists for service in the Army as entomological sanitarians, especially in connection with the "disease" problem, a class in the study of disease, hygiene, and entomology regularly in the Bureau of Entomology of the Department of Agriculture in Washington. The classes of this class have been shipped and sent throughout the country to entomologists who have been trained in the study of disease-carrying insects. In this way, knowledge of entomology greatly increased among entomologists, making them better equipped to render such service as the War Department may call for.

Raise Horses of Better Quality

Large numbers of undesirable, mediocre horses are being turned onto the market at present in all parts of the country in order to save feed, according to reports to the United States Department of Agriculture. As a consequence the market is glutted with commonplace animals of this description to the extent that the prices paid are unusually low. The department urges farmers to raise horses of better breeding and quality. The supply of desirable-quality heavy draft horses or animals suitable for artillery or cavalry purposes is below the demand, while the prices of such animals are correspondingly high. In view of both the domestic and foreign demand during and after the war for quality horses, farmers should begin now to stock up their barns with horseflesh of the desirable type. Under existing conditions feeding stuffs for work animals are extremely high in price. On this account it is imperative that the farmer should winter only work stock of the useful, most efficient, and valuable type. One heavy draft horse will perform the work of practically two under-sized, inferior plugs, while such an animal can be fed at about the same cost for maintenance as for one of the plugs. When the farmer desires to sell a heavy horse of quality and breeding he can always locate a ready market, whereas inferior animals ordinarily can be disposed of only at a sacrifice.

How Dangerous Insects Are Watched.

The extent to which the principal crops of this country are attacked by injurious insects is known almost from day to day for the entire United States by the Department of Agriculture's Bureau of Entomology through its "war emergency entomological intelligence service." Co-operative arrangements have been made with the entomologists of the State agricultural colleges and experiment station, teachers of entomology in other colleges and universities, Forest Service field workers, county agents, extension service field employees, and all other available observers by which undue increase of any insect pest is immediately reported to the bureau. In this way knowledge of prospective outbreak is centralized and then distributed to bring about prompt and efficient treatment. The information thus brought together is issued monthly to the economic entomologists of the country.

Collecting Forest Range Plants

More than 25,000 plant specimens, representing 4,800 species, have been

Well "Armed"!

When company comes there is no time to waste—no chances to be taken—so mother sees that there is always a can of

CALUMET BAKING POWDER

on hand. Cakes, pies, doughnuts, muffins and all good things to eat must be dressed up in their best taste and looks.

Then, too, her reputation as a cook must be upheld—and she "stakes" it on Calumet every time. She knows it will not disappoint her.

Order a can and have the "company" kind of bakings every day.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

You save when you buy it. You save when you use it.

HIGHEST QUALITY AWARDS

collected on national forests and purchased areas by Forest Service officers in connection with the extensive studies made of the distribution, natural habits, and economic importance of the range flora. The data obtained have direct application to many phases of range management, such as intensive range utilization, especially with a view to minimum interference with the requirements of the important forage plants, and the utilization of each type at the time and by the class of stock to which it is best adapted. Use of these data is also made in the detection, eradication, and fencing of poisonous plant areas, in natural range reseeding, and other range studies.

United States to Buy Beef for Quality

At a conference attended by Secretary Daniels of the Navy, Secretary Houston of the Department of Agriculture, Mr. Hoover of the Food Administration, and representatives of the Paymaster General of the Navy, a unanimous agreement was reached that all future purchases of beef for our Army, Navy and Marine Corps, and fighting forces of the allies shall be made on a basis of quality, irrespective of weight. The representatives of the other departments agreed that the Department of Agriculture should select the meats on the basis of quality through its inspectors at the purchasing markets.

Many Rodents Killed in Montana.

Rodent-control work in Montana during the past season has saved \$2,700,000 worth of farm crops at a cost of \$52,900, according to the report of the Montana extension specialist in rodent control. The Bureau of Biological Survey, which cooperates with the State agencies, furnished trained leadership and contributed \$12,000 from its emergency appropriation toward the cost, and Montana farmers paid the remaining \$40,900. Work was carried on in 25 counties, and 276 tons of poisoned oats were prepared in accordance with the Bureau of Biological Survey formula. Great numbers of ground squirrels and prairie-dogs were destroyed. The increasing demand for the work, according to the report of the State specialist, has secured it a prominent place on the programs of work of the county agents and has made possible the introduction of other lines of agricultural improvement work.

Exhibits Drawing Big Crowds.

Reports from five circuits of State fairs and other large expositions at which the United States Government exhibits are being shown tell of large crowds and great interest in the displays, which are made up from material contributed by the Department of War, Navy, Interior, Commerce, and Agriculture, the Food Administration, and the Committee of Public Information. The influenza epidemic in recent weeks has interfered with some itineraries, but on the whole, the exhibits are thought to have performed effective war-time work by awakening and directing interest in governmental activities, civil as well as military.

F. Lamson Scribner, of the Department of Agriculture, is chairman of the Joint Committee on Government Exhibits, which includes representatives from all departments cooperating.

Investigates Seed Exports.

The seed-reporting service of the Bureau of Markets frequently is called upon to advise the War Trade Board relative to the granting of license for the export of vegetable seeds. In order that this might be done intelligently and expeditiously, it seemed desirable at this time to ascertain facts as to the kinds and total quantities of vegetable seeds for which export licenses are desired. These facts will be considered in connection with information as to the available supplies and probable consumption, and can be used as a basis for advising the War Trade Board relative to granting export licenses. With this end in view an inquiry has been made by the seed-reporting service as to the exports of vegetable seeds to Canada, our other allies, and neutral countries.

Complete figures have not yet been compiled from this inquiry, but it may be said that a large increase in exports over 1917 is contemplated this year by a number of growers. This increase amounts in certain cases to five or six times the amount exported in 1917.

Sell Flowers and Vegetables for French Wounded.

During the summer months several Virginia garden clubs have sold flowers, fruits, and other produce, and contributed their profits to the American Fund for the French Wounded. A hall in the local market building was hired in one town and the different members have alternated in selling from it. A small curb market was utilized in another place. In each nearly all of the products were donated, but sometimes half of the price has been returned to the donor and the rest kept for the fund. The home demonstration agent has had the planning and general oversight.

Made-at-Home Labor-Saving Devices.

In 11 communities of one county in Oregon the women are making homemade driers, homemade fireless cookers, and homemade iceless refrigerators under the direction of the home demonstration agent. In connection with this project one woman found that an investment of 50¢ in a dish drainer and a wire dishcloth for pots and pans saved her 10 minutes of the time required to do the dishes after each meal, or 30 minutes a day. In a year she figured this time, if accumulated, would give two weeks of 12 hours a day, leisure. Was the investment worth while?

Colored Church Buys Canner.

Successful canning work has been done in a colored community in Virginia the past summer through the foresight of its minister. Impressed by the home demonstration agent's talks on the value of canning the surplus products of the garden, this up-to-date leader of a colored church decided to invest in a large hot-water canner and 4,000 cans for a year. His plan as it was carried out was not to do commercial work but to get the people of his church to save enough for themselves this winter. His daughter has had charge of it, and the members of the congregation have brought their fruits and vegetables to his house and canned there under supervision, saving money for themselves and canned goods for the soldiers.

Fireless Cookers That Are Safe.

Recently the National Board of Fire Underwriters issued a caution against using wooden pails or tubs to make homemade fireless cookers. To eliminate the danger of fires from these valuable fuel savers, the Department of Agriculture advocates using ground-up asbestos in place of hay, paper, or wool for packing in them. Additional safety may be attained by making the cooker from a tin can.

South to Raise More Broom Corn.

Replies to an inquiry in reference to broom-corn production recently sent out by the States Relations Service of the Department of Agriculture have been very encouraging. Florida, Mississippi, Tennessee, Louisiana, Alabama—in fact, the majority of the Southern States—give promise of decided future activity in the raising of this crop, which, at the present excessively high price of brooms, is quite remunerative. In November, at the conference of representatives from the various boys' and girls' clubs of the South, in Washington, increased cultivation will be emphasized and encouraged. At this meeting also it is planned to have a boy broom maker from a near-by State demonstrate the simplicity of "home" broom making and give actual figures on the low cost of turning out the finished product.

The DDP agricultural appropriation bill just passed by Congress contains an item expected to be of great importance in the Federal and State campaign to eradicate tuberculosis among cattle and swine. It provides that the Federal Government shall pay indemnity to owners whose cattle are slaughtered because they have been found infected with tuberculosis.

The Department of Agriculture is to pay one-third of the difference between the appraised value of the cattle and the salvage of the slaughtered animals, provided that the State, county, or municipality in which the cattle are owned and kept is cooperating in the tuberculosis work and pays at least an equal amount to the owner. In no case is the Federal Government to pay more to the owner than is paid by the State, county, or municipality. No payment by the Federal Government is to be more than \$25 for any grade animal, or more than \$50 for any pure-bred animal, and no payment is to be made unless the owner has complied with all quarantine regulations.

Expected to Remove Opposition

This provision is expected to remove much of the opposition among cattle owners that has hindered tuberculosis eradication work. Through it the Federal Government, the State, county, or

How do you know that you are getting full value

for your money when you buy shoes? There's a great difference in shoe quality, a wide range in materials and construction.

To be certain of your money's worth, rely on The Florsheim Shoe for quality and on us for correct fit—then you will receive the satisfaction that only good shoes can give—the style, fit and service that you expect.

When you see the name FLORSHEIM on shoes, you can be sure they'll give a full measure of value.

Fox Mercantile Company
Hereford, Texas

municipal governments and the owners of cattle will share in the loss resulting from slaughtering infected animals for the protection of other animals not infected.

Another important development expected to hasten tuberculosis eradication was the unanimous adoption, by breeders and live-stock sanitarians of national reputation of regulations for accrediting pure-bred herds of cattle. This action, taken last December, marked the coordination of efforts of individuals and the State and Federal Governments for the suppression of tuberculosis in pure-bred animals.

On July 1, the department issued its first list of herds officially accredited as free from tuberculosis. The herds numbered on that date approximately 240. The list also named herds that had passed one successful test. They must pass another annual test successfully before being placed on the accredited list.

The annual loss from tuberculosis among cattle and hogs is reckoned at \$40,000,000 in the United States. The Federal campaign to eradicate the disease is of comparatively recent beginning. It has been divided into three well-defined projects. The first project is the eradication of tuberculosis from individual herds of pure-bred cattle; the second is the eradication of cattle tuberculosis from circumscribed areas; the third is the eradication of tuberculosis among swine.

It is estimated by officials in close touch with available records that 15 per cent of pure-bred cattle in this country are affected with tuberculosis. In grade cattle and swine the percentage of infection is gradually increasing, as shown by post mortem records in establishments where meat inspection is maintained. Infected animals are not only dangerous to other animals, but may transmit the disease to mankind through milk and flesh.

In Ten Ways

Saves Time, Money, Health

THE COST OF CURRENT TO OPERATE A HOOVER AVERAGES ABOUT 1 1/2 CENTS PER HOUR. THE UPKEEP OF A HOOVER IS LESS THAN WHAT YOU NOW PAY FOR NEW ROOMS.

1 Money spent for having carpets cleaned by the carpet sweepers, is saved by the Hoover and floor coverings are always clean and sanitary.

2 The Hoover greatly increases the life of rugs and carpets by picking out and sweeping up the embedded GRIT which cuts off and if allowed to remain. New carpets are 50 per cent to 100 per cent more costly today. The Hoover saves money by thus increasing their life.

3 The Hoover makes the carpetings a safe play-ground for babies and little children. It wallows the dirt, buttons, pins, needles, strings, etc.—first. One mother says: "Baby's mother and I feel that the floor is not a safe play-ground for him until it has been Hoovered."

4 It greatly increases the life of wallpaper, kalsomine, etc., which swept-up dust so quickly darkens and soils. For the Hoover cleans dustlessly.

5 House-cleaning bills are lessened. With a Hoover many women prefer to do their own cleaning rather than pay help. Furthermore, good help is often impossible to find. Or you can secure help easier if you have a Hoover to lighten the work.

6 Dust breeds germs and disease, among them germs of consumption. By not permitting this filth to remain in carpets the family health is guarded.

6 The Hoover ends the backaches and nervous breakdown which follow the present hard work of cleaning days. It makes "sweeping days" unnecessary. A few minutes of "Hoovering" each day keeps the dirt entirely away.

7 It greatly increases the life of wallpaper, kalsomine, etc., which swept-up dust so quickly darkens and soils. For the Hoover cleans dustlessly.

7 The Hoover ends the semi-annual house-cleaning upheavals. The un-Hoovered home is "No Man's Land" when Spring or Fall house-cleaning is under way. Everything torn-up, wife, cranky and tired from being a "furniture mover," a step-ladder "steepie jack" and everything else. The Hoover by its year-round cleaning doesn't let the dirt accumulate. You don't have to live in dirt 10 out of 12 months when your home is Hoovered regularly.

8 An economy because it conserves housefurnishings, saves money and protects health—but above all a work-saver that saves time and thereby enables a woman to answer the call of patriotic organizations to assist in relief work.

THE HOOVER IS THUS SEEN TO BE THE PERSONIFICATION OF EFFICIENCY. AS SUCH WE COMMEND ITS PURCHASE. CONVENIENT TERMS IF DESIRED. CALL OR PHONE.

9 The Hoover ends the backaches and nervous breakdown which follow the present hard work of cleaning days. It makes "sweeping days" unnecessary. A few minutes of "Hoovering" each day keeps the dirt entirely away.

10 The Hoover ends the semi-annual house-cleaning upheavals. The un-Hoovered home is "No Man's Land" when Spring or Fall house-cleaning is under way. Everything torn-up, wife, cranky and tired from being a "furniture mover," a step-ladder "steepie jack" and everything else. The Hoover by its year-round cleaning doesn't let the dirt accumulate. You don't have to live in dirt 10 out of 12 months when your home is Hoovered regularly.

NOTICE!

Foot Specialist Coming

Dr. H. C. Wright
of Amarillo, Texas

Hereford, Friday, Nov. 8
One Day Only—At Hotel

In the hospital of your feet. If you have Corns, Bunions, Ingrowing Nails, Broken Arches, Flat Feet, Tired Aching Feet, Excessive Perspiring Feet, so-called rheumatism of the feet, weak ankles, you should not fail to see him and have your foot troubles removed. Don't wait until the last minute and then expect to get work. Come early and avoid disappointment. Examination free.

Warwick Tells About It "Over There"

(By C. W. Warwick, in Canyon News.)

I am back from the most eventful trip of my life. I would like to tell you a little of the things I have seen, but words failed me in the first place and in the second all of the things could not be passed at this time.

I have been seeing real war. Of course we did not get to the front line trenches as our divisional Y secretary forbade the men going there—but one of our men died in spite of the order. The rest of the bunch tried to get supplies up to men but it was the most difficult thing I have ever seen. For miles and miles there are trains and wagons lined all along the roads leading to the front, all heavily loaded with supplies and munitions necessary for the men to keep going. Gen. Pershing forbade the shipment of anything but necessities during the past few weeks and since nearly everything we have comes under the head luges, our supplies have been very hard to get and all have to be hauled by truck when a truck caught in a jam of transportation such as we are having now, it is impossible to get any place. We tried for six days to get to our division with supplies. The last attempt we made was Sunday morning one man and I started out in a Red Cross ambulance with material to make hot chocolate with the hope that the ambulance would get us through. Sunday we were able to get but a few miles. We gave chocolate to sick and wounded men we found on our way back. We slept in the ambulance on the road that night. Monday we traveled less distance than Sunday. That night we were up where things were going on. Fritz visited all night with his artillery fire, but we slept in the ambulance and got away O. K. Fritz is not shelling as he used to—evidently being out of ammunition. Tuesday morning we got a good start and located our division. We turned over all the stuff we had to them as they were just coming out of the trenches and started home. We walked nearly all day getting back to headquarters as all the trucks coming back were loaded. I have read about the mud of France but never imagined it could be so bad—in spite of the fact that large gangs of men are kept along the roads all the time to keep them in repair. While the roads around Paris do not show much damage from the war, the roads out here have been shelled by both German and Allies until there is nothing left and our engineers have to rebuild them from the bottom up as an advance start. The engineers are a plucky bunch and are doing a fine work. In fact I have seen none of our boys over here who are not strictly on the job and are 24 per day. All the men talk about is getting it over by Christmas and all of us sincerely hope that this will be the case.

You remember what the Canadian Captain said in his address at the Normal about the towns of the front being nothing but piles of stone, the ground being nothing but shell holes, the woods and trees being nothing but bare stumps, and his description is true to the very last. He did not overdraw in the least. This ground has been the battle ground during the past four years and there is nothing left. It is not a fertile part of France like the west and the Southern parts but evidently supported a good population from the numerous villages scattered around, all of which are fully reduced to stone. Had the French not always built with stone there would be little or nothing to show where a town had stood as a town of wooden houses would have been burned by the Germans.

I have seen two good air battles. In both instances our men brought down the German planes. In one case two German Planes fell. In another three came down. Airplanes are certainly numerous and our men are taking account of the foe in great style.

The boss told me today we were going out in the woods to establish a new "Y" hut in a regiment where there was only one man working. A hut in this part of the country may be a deserted dugout; it may be a room in a shelled house, or in the woods may be a thrown up shelter of most any kind of description. If I can get supplies to the men, I don't care where it is, but it is pathetic to see the men ask for tobacco and candy when we have no way of getting it to them. We are doing the best we can but it is far from satisfactory from our standpoint. I served hot chocolate today and could not begin to make all

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me. . . After 12 bottles, I am strong and well."

TAKE

CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

All Druggists

wanted to get to the hospital. Don't know how long our division will stay in but they are a game bunch and will stay as long as Gen. Pershing wants them. I have slept in my clothes all but one night during the past six days. I will get a good night's sleep tonight if Fritz behaves himself and will go out again early in the morning.

I could not realize what a great undertaking war is until going over the small part of the lines I got to see the past three days. It requires a master mind to bring up the artillery, when they are wanted. Will try to write something about it when the drive is over and we get a chance to rest up.

It is very cool here at night. I have five blankets and sometimes get cold sleeping on the cot.

I am liking the work fine, the only trouble we can't get supplies to fulfill the demand made upon us. It is certainly the greatest thing I have ever gone through and I shall never regret having come.

From Camp Travis

CAMP PUBLICITY OFFICE

Camp Travis, Texas, November 1—It will not be long now before Texas and Oklahoma will have another division ready to follow the 90th and 30th across the Atlantic. As soon as the 218th Engineer Regiment arrives from Camp Humphries, Va., where it is being organized, every one of the required units will have joined the 18th or "Cactus" Division now in the midst of its intensive training at Camp Travis. Already three brigadier generals have arrived and the division is rapidly growing to war strength by the constant addition of recruits out of the depot brigade.

Rapid progress is being made in the training of the division. The school of fire for instruction in shooting with pistol and rifle has begun its work. The 55th Infantry and the 19th Infantry have each put in a week on the rifle range at Camp Bullis and now the snipers and observers are receiving field training there. The school for gas defense which has been giving instruction to infantry units now is receiving students from the artillery regiments. Machine gunners and artillerymen are well along with their work.

Conquering of the influenza epidemic has started the machinery of the depot brigade grinding again and recruits, held back for several weeks, now are pouring into Camp Travis by the hundreds from Texas and Oklahoma. Since the 165th Depot Brigade was organized here little more than a year ago, more than a quarter of a million men who but yesterday were civilians, have written home folks; "I am in the depot brigade now," but few of those who read knew just what a depot brigade is supposed to be.

The depot brigade is exactly what the name implies. It is a place where soldiers are received, held and sent out to field units. But it does a whole lot of things while holding them. It is the depot brigade that receives the civilian and in the twinkling of an eye transforms him into a soldier. It outfits the recruit, determines where he is best fitted to serve, corrects minor physical defects and teaches him the A. B. C's of military life. It is the depot brigade that, in so many instances, must overcome the false impression that military discipline destroys a man's individuality, that must seek out conscientious objectors and show them their error or place them in some non-combatant branch of the service; and it is here that alien enemies generally are discovered and interned. It is the depot brigade that has to fight diseases brought to camp by recruits, for before a man can leave the depot brigade for a fighting unit he must be physically sound. The depot brigade is to the field army as what the primary grades are to the public school system.

Not only does the recruit learn the various marching movements in the depot brigade, but he also is given a rifle and instructed how to handle it. Before it turns the recruit over to the division the depot brigade teaches him how to take his rifle to pieces, how to keep it in perfect working order, the manual of arms, how to use the bayonet and not infrequently sends him to the big rifle range for actual target practice.

Without the work of the depot brigade it never would be possible for divisions to be so far advanced in their training as to be available for overseas shipment within three or four months.

The depot brigade now is confronting new problems with the coming of new increments containing men of more advanced years than previously. Among the men appearing for training under the new draft act will be many whose mode of life has deprived them of active physical exercise. It becomes necessary to modify, in many cases, the strenuous character of the physical work that has been required in the past in order that these men may round into condition without permanent injury.

Commanders responsible for training this class of men will take positive measures to see that the physical capacity of the older men shall not be overtaxed and will exercise special care and supervision in this matter in the early stages of training.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Parents will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

CAMP LOGAN NEWS LETTER

Guy Schultz, former member of the famous 10 ranch, and winner of a gold medal a \$800 cash prize at the Feeders and Breeders show last year as the champion bronco buster, is a member of the 15th division headquarters troop at Camp Logan. Schultz is a short, "hunky fellow, and he sits upon a bucking horse as easily as a slacker rides a rocking chair in his mother's parlor. Recently 100 horses were received by the headquarters troop and Schultz and other expert horsemen had great sport in breaking the "conscientious objectors"

THE DUNLAP HARDWARE COMPANY

Great Oven Improvement

Saves Time—Saves Food—Saves Fuel

Note that heat travels completely around our high oven on 4 sides, while with common type ranges heat travels on 3 sides only. Anyone can quickly see that this big improvement in oven construction gives a much quicker and more even baking oven and that it would prove a source of big fuel economy. There is no need to turn baking—biscuits steaming on the table in half the time of its ordinary range—Pastry—Roasts—Baking—all browned perfectly with a big saving in time, food and fuel with—

Cole's High Oven Range

(Patented)

that were found in the corral.

Private Linn Ford Hanson of Co., G, 43d Infantry, Camp Logan, is a double-barreled patriot. When the war began he was a farmer in Wayne, Neb. He sold his farm near the city, began enlisting his dollars in the war and then offered himself. In the Fourth Liberty Loan Campaign he enlisted \$10,000 making a total of \$15,500 which he has invested in Liberty bonds. He has also made liberal contributions to the Red Cross and is now ready to give his life if necessary. Private Hanson was with his company at Pensacola, Fla., last summer and before leaving there for Camp Logan he was married to Miss Hazel Loretto Marcelle of Troy, N. Y. President Wilson heard of Hanson's patriotism and recently sent him the following letter:

"Indirectly through a friend I learned of the circumstances of your joining the military forces of the United States and I want to send you this brief line to express my admiration of the spirit which prompted your action and prompted your whole course in connection with leaving your farm and throwing in your fortune entirely and unreservedly with the great country we all love and seek to serve."

Leslie Mann, outfielder for the Chicago Cubs during the base ball season that recently closed, has arrived at Camp Logan to resume his position as Y. M. C. A. athletic director. He was here last winter and assisted in keeping the men of the 33d division busy during the winter. The 33d is now in France and the 19th, now in training at Camp Logan, will probably leave next year.

Work began this week on the new headquarters building for the Y. M. C. A. at Camp Logan. The new building will be the first of the "Y" standard type buildings in the southern department. The building now used by the headquarters staff has been sold to the government.

About 4,000 soldiers who came here from Oklahoma early in September participated in the Oklahoma state election on October 24. Arrangements were made to permit these men to cast their votes while in camp and several Y. M. C. A. buildings were used as voting places.

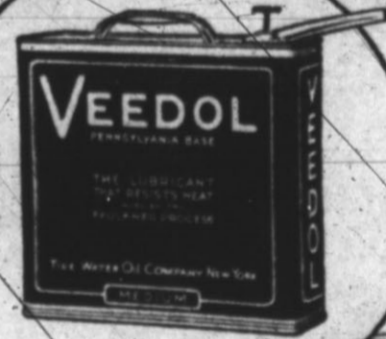

The 15th division that is being trained at Camp Logan has 30 overseas officers, as well as several French officers and a number of American non-commissioned officers to train the men. Brigadier General Guy V. Henry, acting commander of the division, wears a service chevron and the other officers who have seen overseas service are scattered among the various units.

R. T. MOSES, Proprietor

Have You Tried This Automobile Oil?

There are two ways to tell how good any lubricating oil is. One way is to make a test in the laboratory. The other way is to put it in your car and try it out under actual service conditions.

We know that Veedol will increase your mileage and save anywhere from \$50 to \$115 a year in operating expense.

Prove that out for yourself. Here's how you can do it. Clean out your automobile crankcase. Fill with kerosene. Run your motor about thirty seconds under its own power. Drain out all kerosene and refill with Veedol.

Then make a test run on familiar road including hills and straight stretches. You will find motor has acquired new up and hill-climbing ability. It will have less vibration will give greater gasoline age.

Veedol will cost you more the average oil. With 2000 to 5000 miles. That give you ample opportunity compare operating costs. Veedol as emphatically as laboratory tests.

DUNLAP HWD. CO.

FRIONA NEWS.

Owing to the appearance of the influenza epidemic in our town the school has been closed during the past week and will remain closed during all the present week. All religious services and other public gatherings at each of the churches have been discontinued indefinitely.

Mr. and Mrs. Ben Galloway, D. M. Ballard and R. G. Clein have been victims of the influenza and are now recovering. Mr. Galloway was able to be down town Saturday afternoon. County Commissioner, Reeve has been able to be about his usual vocations since his illness, but is again shut in at his home on account of the illness of other members of his family with an ailment which has not been pro-

nounced influenza but seems to be contagious.

Scott Weir arrived home from Camp Travis last week on an extended furlough for the purpose of recuperating after a severe attack of the "flu" which resulted in pneumonia and came near proving fatal. His most intimate acquaintance scarcely recognized him on account of his weakened appearance. We are all truly glad to see "Scotty" so far advanced on the road to recovery.

Clyde Goodwine, one of our boys who is now under Uncle Sam's immediate direction and is located at Huntley Hall at Canyon, has so far withstood the attack of the "flu" is getting some valuable experience as nurse in waiting on those of his comrades that have been stricken.

From present appearances there will

be a large acreage of wheat planted in this locality. Several of the farmers are already sowing and some have wheat coming up and others will begin sowing as soon as they receive their seed wheat. The recent rains have placed an abundance of moisture in the ground thus rendering it in the finest possible condition for a seed bed.

Guy Lucas, who was formerly a resident of this locality but now of Roswell, N. M., has been spending the past two weeks here visiting at the home of Mr. and Mrs. J. C. Wynn while recuperating from a recent attack of influenza.

Dempsey Winn, another of our boys who has for the past year been in the employ of the Santa Fe rail road, is making good in his chosen occupation, proof of which is evidenced by the fact of his rapid successive promotions from one position to another; his last promotion being his transfer from operator at Canyon to the general offices at Amarillo. His many friends at Friona rejoice with him in his success.

William Livings had his ankle painfully and seriously injured one day last week while assisting with some cattle work out at Staley's ranch. In cutting some of the animals out from the herd his horse slipped and fell with his weight upon the ankle.

Leslie Bruner who has for the past several weeks been employed as clerk in A. O. Gamble's store has severed his connection with the store and taken a position at the depot in the service of the Santa Fe rail road.

Mr. Dan Doolittle who has been located nine miles south east of town, has disposed of his holdings there and moved to Oklahoma. He loaded his emigrant car here Friday and Saturday last.

The Friona correspondent will make a supreme effort to have Friona represented in the Brand each week hereafter. We are sorry to have been so lagged in our efforts in the past but the force of circumstances seemed to compel it.

Service is our Middle Name. 34-117 FORD GARAGE.

RELIEF IN SIGHT FOR THOSE MARKED

All that remains now is for you to get well

Men who are worried by a look of misery on their face, caused by a general run-down system, stand out in contrast with their neighbors who get about with the agility of a child.

A love fun sparkles in their eyes and they really enjoy life in work or play.

Men who are chained down by sickness and despair dreamily look on, helpless, unable to start a thing. They waste away their days, feeling they are a burden on the world.

There is relief for you, men! If you want to rejuvenate your whole body and feel good, take our tip and go to a live druggist and buy a bottle of Pep Systemic Pills.

Start taking them today. A couple bottles will make that far-off look in your eye disappear; it will cause you to square your shoulders and furnish you with strength to get about and do things.

Pep Systemic Pills can be bought at Betts-Clark's and other live druggists. For your own sake, you ought to begin a treatment now.

By Betts-Clark. ACCEPT NO SUBSTITUTE FOR PEP SYSTEMIC PILLS.

WE BUY OLD FALSE TEETH

We will pay up to \$21.50 per set (broken or not). Send now. Cash sent by return mail. Package held 10 to 15 days subject to sender's approval of our offer. Highest prices paid for OLD GOLD JEWELRY, GOLD CROWNS, BRIDGES, PLATINUM AND SILVER.

WYCHE

Miss Thelma Hough of Hereford, is visiting Mr. and Mrs. Raleigh Hough, Mr. and Mrs. I. E. Woolery, and H. A. Angley, spent Friday in the home of Mr. and Mrs. H. C. Donk.

Miss Nellie Lee Wyche was a Hereford shopper one day last week.

Mrs. Susby of Birmingham, Alabama and Mrs. Thompson, of Denver, Colo., returned home Thursday after a week's visit with their uncle, Mr. Bridges. Mr. and Mrs. Bridges entertained in their honor Tuesday night, Oct. 29th, and a number of the neighbors were present and report the affair a success.

Mrs. G. W. Keith and children and Mr. and Mrs. I. E. Woolery and family were callers in the Angley home Thursday evening.

C. J. Padlock returned from Michigan Thursday and reports that his mother is much better.

The young people of Wyche community, spent the evening in the home of H. V. Schutte, Wednesday Oct. 30.

Mr. and Mrs. I. E. Woolery entertained Mr. and Mrs. H. C. Donk and Mr. and Mrs. H. A. Angley and family as dinner guests Sunday.

C. J. Padlock and Miss Bonnie Angley attended the rural teachers and patrons meeting in Hereford Saturday. Mr. and Mrs. Everett Donk visited friends in Canyon Sunday.

Mr. and Mrs. E. W. Keith have just been notified that their son Verget has just received a shrapnel wound, while in the big drive of the ABies. The piece of shrapnel struck his head and went downward, into his right shoulder, but owing to the excellent care he has received at the hands of the Red Cross workers he is doing nicely.

Mr. and Mrs. C. J. Padlock visited Miss Elsie Smith and Mr. and Mrs. Chasley McNerney Sunday.

THE STATE OF TEXAS
To the Sheriff or any Constable of Deaf Smith County, Greeting:
You are hereby commanded to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Deaf Smith County, a copy of the following notice:
THE STATE OF TEXAS
To all persons interested in the estate of Ann Eliza Parbury, deceased, George L. Muse, administrator with the will annexed has filed in the County Court of Deaf Smith County an application for an order to sell the following property of said estate, situated in Deaf Smith County, Texas, to-wit:

All of section No. 9 in block K-8, containing 640 acres of land which will be heard at the next term of said Court, commencing on the first Monday in December A. D. 1918, the same being the 2nd day of December A. D. 1918, at the Court House thereof, in Hereford, at which time all persons interested in said estate are required to appear and show cause why such sale should not be made, should they choose to do so.

Herein fail not, but have you before said Court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Hereford

RED CROSS AMRICO TOOTH PASTE
An antiseptic refreshing paste, that leaves a delightful after-taste. Cleans the teeth without injuring the enamel. The antiseptic properties aid in keeping the teeth and gums in a healthy condition. Big Furniture Selling

No Advance in Price

We have planned for **BIG SALES IN FURNITURE** this fall and are in position to deliver the goods. Our stock in all lines are full with good selections. We are satisfied with small profits and hence we have not marked our goods up—as they have done in other places, so you see our prices are much lower than same goods are sold for any where.

We guarantee to save you 25 per cent on your furniture buying, as well as Rugs, Linoleum, etc.
