

Battle of Ballots Will Begin Next Saturday

DEATH TAKES LIFE OF MAN ON RY. TRAIN

A. K. Kennedy, Brother of Redpath-Horner Vice President, Stricken

John K. Kennedy, a member of the Chicago staff of the Redpath-Horner Chautauques, died on the Santa Fe passenger train between Clovis and Hereford Thursday morning, while enroute from Roswell to Kansas City.

Mr. Kennedy, who was a brother of H. H. Kennedy, vice president of the Redpath-Horner Company, was a sufferer from tuberculosis. He had spent some time in Roswell and other New Mexico points in search of health but failing to be benefited to any extent, his brother had gone after him and was bringing him back to the family home in Kansas City.

Mr. H. H. Kennedy was in Hereford last spring at the opening of the local Chautauque, and made many friends among our people who will regret to learn of his loss.

2 AIRPLANES HERE SUNDAY FOR FLIGHTS

Amarillo Aerial Company Plans All Day Festival For Hereford

The Panhandle Aerial & Transportation Company of Amarillo telephoned The Brand Wednesday night to the effect that two planes are to be sent to Hereford on Sunday next for the purpose of carrying passengers in short flights.

The planes will arrive early Sunday morning and will be piloted by experienced and capable men. Exhibition flights will be given throughout the day.

T. K. WILSON BUYS FIRE INSURANCE LINE OF RALPH BARNETT

A deal was announced this week whereby the T. K. Wilson Insurance Agency purchased the Fire Insurance business of Ralph Barnett.

Mr. Barnett states that he will concentrate in the future on Life Insurance and real estate.

VEGA BEATEN ON DIAMOND SCORE 12-10

Swatfest Won by Boys From Hereford in Fast Game

In a snappy game, full of base hits, errors, runs, pep and determination on both sides, the Hereford team won its first game of the 1920 season Wednesday afternoon, Vega being the victim. The score was 12 to 10.

Features of the game were a pair of home runs by Captain Bennett, a homer each by Vaughn and Jim Carter, the latter's running catch in left center, and two double plays by the Hereford infield. Red Smith umpired the game, which was played in two hours and ten minutes.

Hereford took a comfortable lead at the start and jogged along until the first of the sixth, when Vega suddenly unlimbered her heavy artillery and laid down a barrage that netted eight runs before the smoke cleared away. Score 9 to 5 in favor of Vega. An inning or two later Hereford men retaliated in kind. Dyer and Wilson each singled, Curtsinger doubled, Bennett hit four bases and the score stood 10 to 9 in Hereford's favor. Pitcher Miller of Vega was driven to the bench in this bombardment and the burden assumed by C. Morris.

The same teams will play on May 16, probably at Vega.

The Hereford team is composed of some really good ball players, who have made local history in the past, and with proper practice to unlimber their muscles and train their batting eyes will make trouble for some of the aspiring Panhandle teams. It is a nifty hitting and fielding combination when in form.

The game was played on the new grounds just laid out by C. S. Purcell on the new Amusement Company's park south of the railroad.

The next game will be at Hereford next Sunday afternoon at 3:00 p. m., Texico-Farwell being the opposition.

The Boston Bloomer Girls are expected to arrive soon for a game, while a match with Clovis is also planned for the immediate future.

The line-up: Vega—A. McNabb ss, J. Owen cf, H. Morris lf, R. Morris c, J. Montgomery rf, R. McNabb 3b, L. Godwin 2b, M. Wood lb, G. Miller p, H. Roark sub, C. Morris sub p.

Hereford—P. Dyer 2b, J. Carter cf, L. Curtsinger p, E. E. Wilson ss, Chas. Bennett c, J. Robinson lf, R. Smith 3b, R. Rowan lb, W. Vaughn rf, C. Angelo sub.

PRECINCT CONVENTIONS TO BE HELD SATURDAY ARE VITALLY IMPORTANT

DELEGATES ELECTED WILL CONTROL COUNTY CONVENTION TO BE CONVENED ON NEXT TUESDAY, MAY 4th

RALLIES HELD HERE BY BOTH SIDES

Administration Forces Pass Ringing Endorsement of Wilson Administration; Bailey Speaker Makes Speech Over Two Hours to Cold and Quiet Crowd

Precinct Conventions will be held all over Texas Saturday, May 1, for the purpose of electing delegates to the County Conventions, to be held on the following Tuesday. The basis of electing delegates Saturday to the County Conventions is one delegate for every twenty-five votes cast for governor in the last general election.

On Tuesday the delegates selected at the Precinct Conventions will meet and elect delegates to the State Convention. The basis of selection here is one delegate for every 500 votes cast for governor in the last primary election.

In other words the real control of the state convention rests with the delegates elected on Saturday in the Precinct conventions.

The Executive Committee for the county Democratic organization, of which W. E. Dameron is county chairman, held a meeting last Tuesday afternoon and planned the work of the coming elections. Jno. P. Slaton, a mem-

ber of the committee, resigned, and Al Miller was selected to fill the vacancy, and also to serve as secretary for the committee. This makes the personnel of the Executive committee as follows: E. B. Black, precinct No. 1, Al Miller, precinct No. 2, John Patton, No. 3, Jim Chapman, No. 4, I. A. Allred, No. 5, C. H. Barrett, No. 6, J. M. Messenger, No. 8, D. L. Rutter, No. 9, and J. H. Daniels, No. 10.

It was decided to hold Precinct Conventions on May 1 beginning at 3:00 p. m. Precinct No. 1 will meet in the County Commissioners' Room at the Courthouse with J. H. Head as Chairman; precinct No. 2 will meet in the County Court room with Wm. M. Knight as chairman; the county precinct elections will be held at the respective voting places with John Patton chairman of No. 3, Jim Chapman chairman of No. 4, I. A. Allred chairman of No. 5, John Whitsett chairman

(Continued on page 4.)

HEREFORD HI REPRESENTED STATE MEET

Bruce Guthrie and Frank McMinn to go With Tennis Team

Bruce Guthrie and Frank McMinn, the two High School athletes who showed a clean pair of heels to all competition in the recent Panhandle Interscholastic League meet at Canyon, will, together with Gwynne Guthrie and James McEntire, tennis experts, represent Hereford in the State Interscholastic meet to be held at Austin on May 6-7-8. They will leave Hereford on May 4.

While very modest about it all, these four boys are chock full of confidence and are grimly resolved to show the cream of the state which will gather at Austin that Hereford High stands for something in athletics. The hearty good will and best wishes for success of the entire community go with these clean young fellows.

CHARLIE JOWELL WILL DELIVER ICE IN CITY THIS YEAR

The retail ice business of the Jones & McLean Company has been taken over by Charlie Jowell, who will run the city wagons and supply the city demands during the coming season. Jones & McLean retain the wholesale and rural business as heretofore and will supply this class of trade from their storage house on the tracks as well as from their office back of Hughes & Crouch.

PARKER BACK FROM GALVESTON TRIP IS PLEASSED WITH VISIT

G. A. F. Parker, who was called to Galveston last week by the illness of a brother, returned home Monday. He states that his brother is much improved and out of danger.

While in Galveston, Mr. Parker took in some of the sights, such as the Sea Wall, Galvez Hotel and the Causeway. Galveston is known as the Oleaner City, and Mr. Parker states that it is certainly deserving of the name.

FINE ARTIST TO SING AT AMARILLO 7th

Madam Schuman-Heink is Introduced Under Auspices of Prof. Myers

Information was received here Thursday by Agent Garton that the Santa Fe night train out of Amarillo for Clovis, due to leave Amarillo at 9:10, will be held on the night of May 7 until 11:30 p. m. in order to allow music lovers on this branch of the road to attend the recital at Amarillo that night by Madam Schuman-Heink, staged under the auspices of Prof. Emil F. Myers.

Indications are that about 100 Hereford people will attend this recital by one who is regarded as perhaps the world's greatest contralto.

JIM ROBINSON HAS SOLD FAMOUS FARM THAT IS WELL KNOWN

The Jim Robinson irrigated farm, south of Hereford, changed hands this week, the purchaser being M. R. Corbett who recently moved here. It is understood that Mr. Robinson secured a section of land south of Hereford and some Hereford city property in the deal. Mr. Robinson has not yet announced his future plans.

The Robinson farm has been famous for several years, and is highly improved. Mr. Robinson has the reputation of being one of the most successful and progressive farmers in this section, and it is hoped that he will develop another tract of land and continue his good work.

LIGHT RAIN WITH SOME HAIL VISITS PARTS OF PLAINS

Last Saturday a light rain, accompanied by some hail, fell over most of this section of the Plains. The rain was only enough to lay the dust in Hereford. North the fall seemed to be heavier in spots than in this immediate vicinity. A report reaching here said that about eleven miles west the hail piled up in spots eight inches deep, but little damage was done.

Remains of Webb Renfro Expected Here Near Future

A telegram was received by E. Renfro a few days ago from the War Department at Washington stating that the body of Webb Renfro, who died while in service in France, was expected to reach the United States shortly and asking about shipping it home. Mr. Renfro replied instructing that the body be sent here at once upon arrival. No further word has been received, and it is presumed nothing more will be heard until the ship carrying the body arrives on this side.

DIRT BROKEN AT MAGNOLIA FILLING SITE

Contractor B. A. Nicks Given the Work and Workmen Hitting Ball

Ground is being broken this week for the new brick and cement Drive-in Filling Station of the Magnolia Petroleum Company, located on the corner opposite the Courthouse on the site of the old wooden filling station of the Gulf Company.

The Magnolia Company recently submitted the plans to local contractors and the work was awarded to Contractor B. A. Nicks.

Mr. Nicks' crew is now excavating for the foundations. He states that the entire bill of materials, even including the fixtures for the building, has been shipped and is expected daily.

The plans call for a tasty little station that will be a credit to the city.

WILEY ROBERSON HAS LEG FRACTURED

Is Thrown by Steer When Cinch Breaks Under Strain

Wiley Roberson met with a very painful accident last Thursday while rounding up some cattle for W. E. Hicks north of Summerfield. He roped a yearling steer and in a quick turn made by his horse the saddle cinch broke, throwing him to the ground. A peculiar circumstance of the accident is that he fell on the right side of his horse and his left leg was broken a little below the thigh. Ed Schutte was with him and rendered first aid and assistance. They brought him to Hereford as soon as possible, where the limb was set, and he is doing as well as could be expected with so painful an injury.

HEREFORD BAND IS RAPIDLY IMPROVING PROSPECTS ARE FINE

The practice work of the Hereford Band is steadily improving in attendance and in execution. Thirteen responded to practice notice last Monday night, and at least three more musicians have signified their intention of joining the organization at once.

New Music has arrived and much interest and enthusiasm is being manifested in the drilling work.

One feature of our new band is the fact that there are no less than five cornets enrolled. As a rule this is the hardest hole to plug and the most important. The Hereford Band promises this year to pull some solo work that will make the rest of the Panhandle sit up and take notice.

Miller & Fallwell Dissolve; The Hereford Grain Co. Sells Out; City Cafe in Hands New Owners

Effective May 1, Jno. B. Miller will retire from the firm of Miller & Fallwell, who conduct a filling station and automobile accessory store on Main street, and the business will be run thereafter on a strictly cash basis by W. C. Fallwell. Upon completion of the new McDonald filling station building, now just starting construction, Mr. Fallwell will be as well equipped as any dealer in town to take care of his trade.

Miller & Fallwell have been in business almost three years, and have built up a wide and lucrative business. Mr. Miller has not given out what business he will engage in in the future.

The business and goodwill of the Hereford Grain Company located at the

GRADUATION EXERCISES TO BEGIN SUNDAY

BACCALAUREATE SERMON BY REV. SHARP PLAY ON MAY 4th

THOMSEN SPEAKS

Will Deliver Senior Class Address May 14. Final Examinations

The school term of 1919-20 is rapidly drawing to a close. The students are working earnestly on closing school programs. Sunday morning at the Christian Church the baccalaureate sermon will be preached by Rev. J. B. Sharp. A program fitting the occasion is seen with this issue of The Brand.

"The Lone Star" is the title of the Senior play. This play will be given at the Star Theatre, Tuesday evening, May 4, at 7:30 p. m. It is directed by Miss Mathea McClurkin. If you enjoy a high class, local talent play—a play of quality and worth, be present.

The seventh grade is preparing a program for May 13, at the Auditorium of the High School. There will be about fifty pupils to graduate from the Grammar school this year. This bids fair for a large enrollment for the first year in High School for the next school term.

Senior graduation will be held in the District Courtroom the evening of the 14th of May. Dr. B. Thomsen, of Amarillo, will deliver the class address. The Hereford people should make plans to be out for this occasion. High School graduates deserve a complimentary audience.

To cap the climax, the Alumni banquet will be held on May 15. Enough said.

The final examinations are approaching. The pupils of both Central and High Schools are seriously plodding away. Indications are that there will be a high percent on the passing list. There are a few instances where children enrolled and were enrolled in work too advanced. Surveying the year as a whole, while mistakes were made and will ever be made, we are closing with a remarkably successful year in Hereford's educational undertakings.

L. M. Fertzsch, Superintendent.
Program—Baccalaureate Services

E. B. BLACK HELPS FIX VALUES FOR AMARILLO PEOPLE

E. B. Black spent several days in Amarillo last week working on the value of the stock and damage thereto of the Green Furniture Company, recently injured by the fall of the old Olympic Theatre ruins. It is understood that Mr. Black is employed by J. Ray and others, owners of the buildings involved, in arriving at an expert estimate of the damage involved.

Miller & Fallwell Dissolve; The Hereford Grain Co. Sells Out; City Cafe in Hands New Owners

Effective May 1, Jno. B. Miller will retire from the firm of Miller & Fallwell, who conduct a filling station and automobile accessory store on Main street, and the business will be run thereafter on a strictly cash basis by W. C. Fallwell. Upon completion of the new McDonald filling station building, now just starting construction, Mr. Fallwell will be as well equipped as any dealer in town to take care of his trade.

Miller & Fallwell have been in business almost three years, and have built up a wide and lucrative business. Mr. Miller has not given out what business he will engage in in the future.

The business and goodwill of the Hereford Grain Company located at the foot of Main street, opposite the freight depot, was purchased last week by the Jones & McLean Grain & Coal Company, and the stock removed to the building of its new owners. The Hereford Grain Company was composed of Ezra Norton and J. A. Mayhall. It is understood that Mr. Norton will devote his time to his stock interests, while Mr. Mayhall has not yet announced his future plans.

Hereford Breeders' Sale Brings Quick Results; C. C. Slaughter Gives Dry Land Farming Figures

An immediate result of the First Annual Sale of the registered Hereford Breeders Association of Deaf Smith county, held on April 13, has been the sale of a number of fine blooded animals from local herds. There are a great many out-of-town breeders here on that occasion who did not participate in the bidding but who sat by and studied the pedigrees and shrewdly sized up the class of stuff raised here. It is this class of men who are now beginning to buy our stock, having been convinced that they can go a long way from here and do a lot worse in the purchase of breeding animals.

Among recent sales of registered cattle reported are the following:
Ray Barber sold to J. P. Osborne, of Miami, Texas, a two-month-old Beau Randolph 2nd bull calf for \$1,000.
J. M. Purcell sold to J. M. Alexander, of Gem, Texas, a Beau Converter yearling bull for \$1,500.

Jones & Dameron sold to J. P. Osborne a Superior Mischief bull calf, name Modest Mischief, for \$1,400, also Jones & Dameron sold to K. T. Alexander, a Beau Randolph Bull, name Superior Randolph, for \$1,500; and to E. B. Black, Hereford, four head of line bred Anxiety 4th heifers, one by Superior Mischief, one by Beau Calda 6th, one by Domino Junior, and one by Beau Converter. Mr. Black is rapidly establishing a fine herd of line bred Anxiety 4th stuff.

A meeting of the Executive Committee of the Breeders was recently held at which plans for the rebuilding of the Bove barn into a modern Sale barn,

and the erection of an up-to-date Sale Pavilion were discussed. A detailed report of these matters together with recommendations for immediate action will be submitted to the general membership of the Association, at a meeting to be held in the County Court room on May 7.

C. C. Slaughter, who lives southeast of Hereford, gave The Brand some startling figures this week on a crop he raised the past season by dry farming methods.

On 200 acres of ribbon cane, of which 180 acres was headed, he threshed out 3300 bushels, 100,000 bundles were fed to cattle.

On 100 acres of kafir corn, 2,117 bushels of grain was realized, besides saving out about 1,000 bundles for feeding purposes.

On 20 acres of maize 515 bushels of grain were threshed, and about one third of the stuff on this 20 acres was fed before threshing, making an average of about 40 bushels to the acre.

Mr. Slaughter fed about 430 head of cattle the past winter on headed cane. He states that the cattle he sold never had a bite of cake, yet they topped the Kansas City market. Mr. Slaughter firmly believes that cattle can be fed on the stuff raised on the Plains, without the use of high-priced imported feed, and yet come out of the winter fat and sleek.

It may be well here to remark that according to Mr. Slaughter and many others, stock can be fed here and put on the market for less money than any other locality in the United States.

Subscription price per year \$2.00
STRICTLY IN ADVANCE

VIGILANCE

On next Saturday the Democratic voters of Deaf Smith county will go into Precinct Conventions to select delegates to the County Convention, which meets on Tuesday of next week. The County Convention will in turn select three delegates to attend the State Convention, where the fight for control of the delegation which will represent Texas at San Francisco will occur.

On May 4th the Republican voters of the county will select delegates to the district Republican Convention to be held at Amarillo April 9th.

In the Democratic camp the real test of strength between the Bailey and Administration forces will occur at the precinct conventions, as the delegates here will of course dominate the county convention. Therefore whatever strength Bailey can muster in Deaf Smith county will surely show itself on Saturday.

According to a ruling of the Attorney General, women who paid their poll taxes and are otherwise qualified, can vote in the precinct and county conventions, and the members of the Deaf Smith County Good Government League are being urged to turn out in force.

The Brand cannot admit that the advocates of clean government and good citizenship in this county will for one instant permit a slackening in their vigilance which might permit the Bailey adherents to gain control of the county political machinery at Saturday's elections. Still there are always a certain class of good citizens who are busy and neglectful of their perogatives and duties as citizens, and permit vital elections to go by default. It is to these men that The Brand urgently appeals to awake, go to the precinct conventions Saturday and make sure that Texas is made safe for democracy, progressiveness, cleanliness and decency in government.

To The Brand's way of thinking no greater catastrophe could happen to the greatest State in the union than the election of J. W. Bailey to the Governor's chair. If he has accomplished a single thing in the more than twenty years he represented the State in public life that entitles him to the highest honor within the gift of the people of the State, then The Brand does not understand what real public service means.

If you believe in progress, and enlightenment and morality in government then go to the precinct conventions Saturday and support the Administration candidates.

ACKNOWLEDGEMENT

The Brand acknowledges a debt of gratitude to the City of Amarillo, to its Board of City Development and its hisling Secretary, to the Panhandle Plains Chamber of Commerce, to the Amarillo Tribune and the Amarillo News, and the citizenship of Amarillo generally, for two days of delightful entertainment, hospitality and instruction on the occasion of the recent meeting of the Panhandle Press Association.

The meeting itself was a cracker-jack. Every newspaper man present who did not take back with him new ideas, new enthusiasm, new vision, either did not attend the sessions or else has blundered into the wrong profession. The Association is becoming more and more a real, vital force in the affairs of the Panhandle Press, and the man who misses its sessions is letting Old Man Opportunity knock at his door without response.

Amarillo certainly handled the job of entertainment in masterly fashion and left a sweet taste in the mouth of the visiting pencil pushers that will go a long way toward wiping out sectional feeling and petty prejudice.

OUR SCHOOLS

The Hereford Public Schools are nearing the end of their terms for the current scholastic year. Sunday is the beginning of the Commencement exercises.

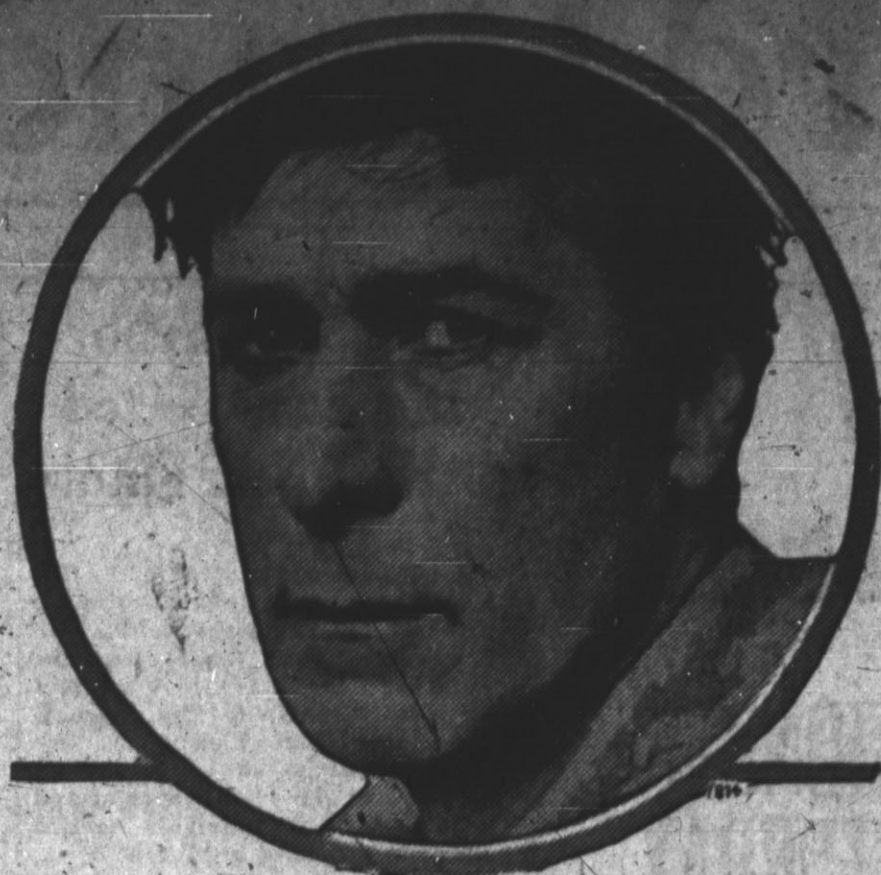

The Brand believes that the retiring Board and Superintendent L. M. Fertsch deserve the thanks and praise of the citizenship for their excellent work performed under distressing financial conditions.

It is hoped that the new Board will somehow find a way to break through the difficulties in obtaining money with which to obtain suitable teachers for another year, and that the scholastic year of 1929-21 will be the banner one in the history of the Hereford schools.

OVERALLS AT \$33 A FAIR

Undoubtedly some in various walks of life have saved something as a result of the overall fad—for fad it is. On the other hand, men who find it necessary to wear overalls in their work are complaining that the net result of the movement is a loss.

Overalls which formerly sold for a nominal sum have been advanced two and three hundred per cent. Announcement was made last week by a business concern in one of the cities that overalls with fancy belts were being offered at \$33 a pair, and up. It is not likely that the day laborer will assay to wear this style of suit. He may insist upon

That's the money 'WM. S. HART' 'The Money Corral'
An AMERICAN Pattern

Here is a picture with plenty of life and fast action. Days of the old west, as they used to be. One of the principle scenes is a rodeo of the old days, when all the wild riders, crack shots, ropers, broncho busters, Indians, punchers and

others gather to exploit their skill against one another. And there's a delightful plot to the story, with many a thrill. You'll certainly enjoy this show at the Star Theatre Saturday night, May 1st.

a much more elaborate suit than formerly satisfied him.

"By far the more efficient way to reduce living costs is to increase production, and let the man who must wear overalls buy them at prices he has been paying.

While clothing costs are high, it is practically certain that never before has the laboring man been in better position to buy what he needs. There should be a warning against extravagant expenditure. The buying of clothes not needed is a waste just as is the permitting of cotton or corn or grain to rot in the fields.

On the other hand, when some of our hysteria is dissipated, we will understand that these fads frequently result in a net loss to the community, rather than a saving.—Vernon Record.

As one man put it the other day: "It looks like a long, hard winter!" One can almost agree with this advanced view after shivering through the weeks of cool weather we have been experiencing this unusual Spring.

And, say! Don't forget the Chautauqua dates—May 24-29! All advance dope points to the best program ever offered here. Pass the word around, and get those season tickets!

Plans For Reunion

Members of the University of Texas law class of 1890 are planning a reunion at Commencement in June. This will be the thirtieth annual get-together of the members of that class.

In supplying feed to fowls, there are three kinds of constituents which should be present in certain fairly well fixed proportions of the desired results are to be obtained most economically. These constituents are mineral, nitrogenous, and carbonaceous, all of which are contained in corn, wheat oats, and barley, but not in the right proportions to give the greatest egg yield. In addition, some animal feed and green feed should be supplied.

Asparagus is one of the earliest and most wholesome vegetables and should be grown in every home garden where it can be produced successfully, say

specialists of the United States Department of Agriculture. As a canned product asparagus is one of the best, because it retains its flavor better than most other vegetables.

Tobacco exports from the United States per capita have persistently declined since 1790, says the United States Department of Agriculture. From that year to 1794 the average exports of domestic tobacco were 19.7 pounds per capita, and by 1845-1854 the average had fallen to 6.1 pounds. During 1875-1884 it was 4.9, and by 1905-1914 it had become 4.1 pounds.

From the very first chicks should be induced to exercise, for activity is a prime factor in promoting health and growth.

Thousands of acres of idle land that may be used for gardens are still available within the boundaries of our large cities.

According to the 1918 census, just caibed to the War Department, there are 6,684 Japanese in the Philippines. The new census shows there are 124,000 Japanese in California alone, or 19 times as many as in the entire Philippine archipelago.

Fresh vegetable for an average family may be grown upon a large back yard or city lot.

"I Am the Greatest Dope Shooter Alive."—Chautauqua Speaker Admits It

You will hear Harry "Gatling Gun" Fogleman say that at Chautauqua next week. He will tell you why he is and how he knows it. What's more, when you hear him you will agree with him. The "dope" he shoots is Salesmanship personal efficiency stuff and it's warm and sparkling.

If you never heard a man who can talk fast as you can think run a little race with him. If you are not a quick thinker you may come out a bad second. Don't feel bad about that. Quicker thinkers than you are have had the same experience.

What Is a Salesman?
Chautauqua Live Wire Lecturer Has The Answer

You may be a salesman, possibly a very good one. That is, you make your living actually selling something you can see and feel for actual money. Same thing applies to digging coal and running a cultivator.

Fogleman is electricity personified. He is one of the most delightful men in the world for he makes you like him first of all. Then he sells to you his philosophy of the science of salesmanship. It's a great experience and one you will never forget. Make it a point to hear Fogleman.

Do You Take Time to Think?

More than ever today, Mr. and Mrs. General Public find themselves wondering. A concrete thing has happened that affects us all. That comfortably large, round medium of barter, ONE

DOLLAR, while considerably more plentiful, doesn't seem to have the punch of yore.

The young chap who went away one morning to help sustain our National ideas of International morals and justice has come home talking in terms far beyond the scope of farm or community. Our lawmakers are working with problems that concern all world affairs instead of tax and tariff.

Never question Chautauqua service again. These unanswered queries in the back of your head will be answered by men who know and whose lives for this summer are devoted to having you know. The Chautauqua has brought them together and will bring them to you. All you need to do is to get to the tent.

Grove's Tasteless Chili Tonic restores vitality and energy by purifying and enriching the blood. You can see its strengthening, invigorating effect. Price 60c.

HEREFORD, DEAF SMITH COUNTY, TEXAS, APRIL 29, 1920.

TWO DOLLARS A YEAR.

ADMINISTRATION WILSON FULLY O. K.'D

RESOLUTIONS ADOPTED BY LOCAL WILSON MEN EMPHATIC

RECORD RECITED

Unparalleled Achievements Of Wilson Government In Time of War

BE IT RESOLVED, that we, the Democrats of Deaf Smith County, Texas, in mass meeting assembled at the Court House in the City of Hereford, on the 27th day of April, 1920, do, in all things, unreservedly endorse the record of the National Democratic Administration conducted under the leadership of our great President, Woodrow Wilson.

And while we fully endorse the record of this Administration, in the enactment of the many wholesome and needful laws, looking to the welfare and benefit of the people of the United States in time of peace, and endorse its action in declaring, as well as its manner in the prosecution, of the recent war with the Central Powers of Europe, it is the sense of this meeting that it should place itself on record, with its reasons therefore, specifically endorsing certain of the most important laws and acts as we view them of said Administration; NOW, THEREFORE, BE IT RESOLVED THAT:

WHEREAS, under the Constitution, as it originally existed, United States Senators were elected by the Legislatures of the respective States, which manner of election tended to, and often did, foster political machines, intrigues, and dishonest methods of electing Senators, often contrary to the will of the great masses of the people; we, therefore, most heartily endorse the amendment of the Constitution of the United States, whereby the manner of election is by direct vote of the people.

AND WHEREAS, heretofore, the question of tariff, the amounts and revisions were left to the Congress of the United States, to be regulated and changed by laws passed by it, and whereas, such laws, though they may have been justified at the time of their passage, on account of changed conditions, became unjust and inequitable, placing a greater or a lighter burden where it should not be; therefore, we heartily endorse the action of said Administration in its creation of the Tariff Commission, as a means of making the fixing of tariffs flexible, that they may be varied as conditions change.

AND WHEREAS, for a century, under the laws existing, monopolies could, and were, frequently causing the wreck and ruin of the fortunes of the citizens of the United States by unfair business methods, creating conditions commonly called "panics"; and whereas, their ability to do so was due to the unjust and unequal distribution of the circulating medium used by the people in conducting and carrying on honest business enterprises; and whereas, the people were hereby forced, in order to procure credits for just and legitimate enterprises, to pay ruinous tribute, in the way of exorbitant interest rates, to the financial monopolies; whereas, the Federal Reserve Banking System, established by the said Administration, is a safe-guard against such monopolies and unfair business methods, by an equitable distribution over the respective districts of the United States, of the medium of trade, and by granting safe and sound credits through said Reserve Banks as is necessary to conduct and carry on all legitimate business in the respective districts, with such flexible power as will enable said Reserve Banks, under the varied changing conditions, to meet the needs of the people of the respective districts; we, therefore, endorse the inauguration of the Federal Reserve Banking System, as the greatest progressive legislation, the Congress of the United States has passed since the birth of the American Nation.

FOR MORE THAN A CENTURY, the United States, which once held a place among the nations of the world in commerce on the high seas, has been sleeping. European nations have conducted the commerce of the world, carrying our products to, and bringing their products from, other ports, which condition necessarily handicapped us in our commerce in trading with other countries; all due to the fact that we have no, or an insufficient, merchant marine. And whereas, in point of production, we have no equal, but to get the full benefits of the world's trade, both as to raw materials and finished products, we should transport our goods in our own bottoms to foreign markets. We, therefore, endorse the action of said Administration in inaugurating the re-establishment of the Merchant Marine.

THE HAPPIEST, as well as the most useful citizen, is the home builder; and no man can give to society the best that is in him, who does not either own or is not building himself a home; and believing as we do, that the Federal Farm Loan Act, passed by the said Administration, will be a means by which many hundreds of thousands of our worthy people will be transformed from tenants or wage earners to home builders; we endorse this wholesome law.

WHEREAS, we believe that the future welfare and prosperity of the nation depends, in a large measure, on the development and education, both physical, moral and intellectual, of the children of our country; and, whereas, such education and development is a matter in which the nation, as a whole, is vitally interested and on which its very foundation rests; and whereas, we believe that American children should not have placed on their shoulders the arduous duties that have hitherto been required of them in factories and work-shops, whereby, instead of developing physically and mentally, they become both dwarfed in body and mind; we, therefore, endorse the National Child Labor Law, enacted by the said Administration, looking to the welfare and development of the children of this nation, and in endorsing this, we indict those who criticize this law, as being in favor of reducing to commercialism the young lives and future prospects of the children of our country.

WE DO NOT JUST BELIEVE, but know, that the use of, or traffic in, alcoholic liquors has never benefited anyone, but on the contrary, it has wrecked and ruined the lives and fortunes of millions of our people; it has robbed men and women alike of honor; it has invaded almost every home, driving before it prosperity and happiness; led before it prosperity and happiness, leaving in its slimy trail penury, want and misery; it has broken the hearts of millions of mothers, wives and daughters and robbed many children of their birthrights; it has made demons of men and forced women into houses of prostitution; it has invaded our legislative halls and contaminated our courts; it is a dark spectre with which no one can become associated or come in contact, without being injured; and believing that the people of one State have no right to do anything that will inflict a great or irreparable injury on the people of other States, we welcome the 18th Amendment to the Constitution, as a deliverance from the most tyrannical and cruel master that has ever ruled and ruined a nation of people.

Norma Talmadge rises to new heights of artistry as the heroine in her latest Select Picture, "The Way of a Woman," adapted from Eugene Walter's famous stage play, "Nancy Lee". A poor Southern girl, she marries a rich New Yorker to help her family and becomes a member of his fast set. To aid her

mother when she falls ill. Nancy borrows money from a young boy, only to learn that he has stolen it from a bank. Her husband dies and her troubles threaten to overwhelm her; but right is triumphant in the end and she gains happiness and a true love. Presented at the Star Theatre, Wednesday and Thursday, May 5th and 6th.

CONCLUSION: the Treaty of Peace and the League of Nations. And believing, as we do, that to accept the benefits of the League, without assuming our part of the responsibilities and duties to preserve and enforce its letter and spirit, would be unbecoming a great, proud and self-respecting people. We favor its adoption as it came from Versailles, and condemn the attempt to adopt it with material changes or reservations, as an embodiment of selfishness and willful derelict of duty.

WE MOST HEARTILY COMMEND the efforts of our great President, Woodrow Wilson, in keeping us out of the war; and in doing so, so long as to remain out was compatible with national honor, and after our flag had been insulted, our honor affronted, our citizens murdered and our rights on the seas disregarded and challenged, we unreservedly endorse the action of our President in recommending to Congress, and Congress passing the resolutions, declaring war against the Central Powers of Europe.

IN EVERY PARTICULAR, we also endorse the manner in which the war was so ably conducted to a victorious

but condemn and condemn those citizens of our country who could have, but did not, in proportion to their means and ability, assist in the prosecution of the war and its activities, equally with those, who by word or act interfused with its successful prosecution; such are untrustworthy and wholly unfit for any office of trust.

McGEE WELL NOW AT DEPTH OF 3800

The McGee well at Tucumcari is drilling at a depth of 3800 feet, with

water standing 1,000 feet in the hole. They have not yet been able to determine whether the water is coming from a seepage or from a vein of water at the bottom of the well. A large number of reports and rumors in regard to the well are being circulated, but in general, there is no authoritative foundation for these reports. One report is that oil is standing in the well. Mr. McGee authorized the statement that he does not intend to stop to ease off the water until he is able to determine certainly where the water is coming from and what is below the water. At present they are drilling with the expectation of hitting the lime formation at any time.

OilPull again breaks World Record

At the Winnipeg tractor contest in 1912 the OilPull established a world's record for fuel economy in tractor motors by using only 7 pound of fuel per horse-power hour.

For eight years this record stood unequalled. But in January, 1920, it was again broken by another OilPull. At the tractor fuel economy tests held by the Ohio State University at Columbus, a 12-20 OilPull established a new world's record—for either kerosene or gasoline burning tractor motors—of .606 pounds of kerosene fuel per horse-power hour. This lowered the old OilPull record by over 13%.

Thus, again, in public test has the OilPull tractor demonstrated its remarkable economy. OilPull economy, dependability and durability are even better proved by the unequalled record of OilPull performance in the hands of thousands of farmers since the birth of the tractor industry.

OilPulls are built in four sizes—12-20, 16-30, 20-40 and 30-60 H. P. It is only fair to mention that but few 1920 OilPulls remain unsold.

What Would You Do?

If the girl you loved and hoped to marry asked you if you had ever kissed anyone but her and you had; and, still further, you would lose \$10,000.00 if you told a lie—what would you do? That was the predicament one young duck was placed in in "Nothing But the Truth." William Collier's great success was made in this comedy over which New York yelled with joy. It will appear one of the nights at the Rodpath-Horner Chautauqua here this year. The staging will be excellent and the cast from New York. Don't miss it.

Cans by the Mile

The capacity of the can and case factory of The Texas Company at Port Arthur is ten million cans per year, with a corresponding number of wooden cases. This is required to supply the business of the Company in this and other countries.

In that huge factory, supplied with the most modern machinery and equipment, covering a large area, built of concrete and arranged to give the most favorable working conditions, the busy workmen are making over four thousand cans per hour. This is merely a small part of the requirements in labor and output necessary for the conduct of a business like The Texas Company, shipping oil products all over the world.

Besides these, there are thousands upon thousands of lithographed can of all sizes, wooden cases and barrels to be made.

Quality and service are as much a part of the equipment of The Texas Company as they are of its goods, and the Red-Star Green-T emblem of The Texas Company is the sign of this quality.

HEREFORD, TEXAS

**25,894 GALLONS
WINE IN CANADIAN**

Canadian has been this week the wettest spot in the Panhandle and yet almost as dry as a desert country. The wet condition refers to the amount of good port wine in this city, and the dry condition refers to the number of Yale padlocks that have stood between that wine and the citizenship who crave the liquor. Other towns in the Panhandle have their bootlegging cases where a few gallons of booze create a sensation but Canadian this week has been host to 25,894 gallons of good California Port wine. This is just a little too stupendous for a Panhandler to accept all at once, so we might say that the port wine is twenty percent alcohol, which means that there are 5,179 gallons of pure alcohol here, if separated from the other 20,715 gallons of trimmings.

The wine is in transit by order of the government from some agent in California and is on its way to New York under government order to get it out of the country. It is bulk wine and in three tank cars of a total capacity of 25,894 gallons. Two tanks hold 8,047 gallons each and the third holds 9,800 gallons. At pre-prohibition prices the cargo would represent a valuation of perhaps \$150,000. If some of those whose souls have been sorely tested by looking at those cars would place a valuation on the wine it would probably be worth now \$1,000,000.

The way the cars are prepared to hold wine will doubtless be interesting. The two smaller cars are of wood but on the inside is a huge metal tank that contains the wine. The larger car is of metal and on the inside is a huge glass tank that contains the wine. The cars are marked G. A. T. X. Before the war these letters were: "German American Tank Lines." After the war the name was changed to "General American Tank Lines."

The spigots to the wine tanks are sealed with the regular railroad seal and the cockpits where the tanks are filled are protected by several padlocks on each side.

Just think of it! Enough port wine to fill a swimming pool and not a drop to drink!

It is said one of the cars was checked "bad order" in the yards here on account of a broken hinge and something like twenty gallons of wine "leaked" out. The embargo on freight stopped the cars in the Canadian yards enroute. The strike will not let cars thru the Kansas City yards. They move on out as soon as Kansas City lifts the embargo.—Canadian Record.

**RAILROAD MAN HAS
BOTH LEGS MANGLED**

Monday morning Roy Swink, a copermith helper in the Denver shops at Childress, was the victim of an accident that may cost him one or both legs. According to the Childress Post, on report stated that Mr. Swink was crawling under a car to cross a track in the yards when the train was moved by an engine, causing the wheels to run over his legs. Mr. Swink, however, stated that he was passing around the end of a string of cars when it was struck by a switch engine, knocking the rear car against him and catching his legs on the rail.

The right foot was badly mangled and the left leg was fearfully torn and mangled above the ankle.

First aid treatment was given by the local company physicians and the wounded man was sent to the hospital at Fort Worth. The doctors say he may lose both feet but they hope not, and there is a chance that both may be saved.

CAR UNMANAGEABLE

An automobile driven by Mrs. R. E. Cannon became unmanageable at Dalhart Tuesday and started to follow the crowd into the J. C. Penney store, says

**NORMA
TALMADGE**

SELECT PICTURES

What is "The Way of a Woman"? All through the ages, the greatest mystery set before men has been to understand "The Way of a Woman." Often it seems to be merely a matter of caprice; one minute the sun is shining and the skies are blue—the next, dark

clouds lower overhead, there is thunder and lightning—then the sunshine again. "Smiles and tears make woman's years," says the poet. Nancy Lee, the heroine of "The Way of a Woman," played by Norma Talmadge shows that it is the truest, the finest way. Her

honesty of heart and fineness of soul win for her eternal happiness. The picture was adapted from Eugene Walter's stage success, "Nancy Lee" and will be presented at the Star Theatre next Wednesday and Thursday, May 5th and 6th.

the Dalhart Texan. Finding the entrance too narrow, the quick presence of mind of Mrs. Cannon diverted the car enough to save the plate glass front and connected with the large steel post in front. Being already on the sidewalk, the driver exercised the best judgment under the circumstances and calmly drove on down to the corner and out into the street.

Upbraided by Mr. Cannon for usurping the sidewalk from pedestrians, and as an object lesson for real expert driving-down a crowded street, the husband went out in the afternoon with the same car, only to be accosted by the city marshal for running into a Ford and afterwards trying to climb the iron post in front of the T. L. Jacques Dry Goods Store. It is said that he is now a candidate for a matched race with Barney Oldfield.

**PALO DURO POST
LEASES A HOME**

The officers of the Palo Duro Post of the American Legion at Canyon have leased the Bell house on East Houston Street for a period of one year, possession to be given May 1st. The Post will make of the home a Club House for the use of the members.

The Post had a very interesting meeting Thursday night at the Court House, says the Randall Co. News, at which time the lease was finally closed and arrangements made for the opening of the Club. The rental price is \$125 per month. The house has a very large room on the first floor which will be used as an assembly room. On the second floor are five bedrooms which will be rented to members who wish to make their home at this place. Besides these are two large rooms which will be fitted up for library and amusement room.

Post Commander H. C. Gamble stated yesterday that practically all of the 125 members of the Post had been seen and will come in on the Club feature. Besides these there are a large number of men in the county who have not joined the Post and who will be urged to become affiliated with the Palo Duro Post.

The charter has been received for the Ladies' Auxiliary. Any woman whose brother, father, son or husband was in the service is entitled to membership in the Auxiliary. There are no dues. It is run simply for the social benefit of the Post. A campaign will be put on for members as the Palo Duro Post is planning a big social event soon after the opening of the Club in May.

A few associate members will be taken into the Club. They will not have a part in the Post work, but will have all of the privileges of the Club. All names submitted by the committee for associate membership will be voted upon by the Post.

Mr. Gamble stated yesterday that a great deal more enthusiasm was being shown for the Post work since the Club House had been secured and he was confident that Palo Duro Post will become a factor in the life of the community.

**R. E. PATTISON KLINE,
Economist, at Chautauqua.**

**Kline Has Great Eastern Success.
Noted Eastern Chautauqua
Speaker Coming**

R. E. Pattison Kline has initials which are mighty significant. He has a whale of a "rep" in the East and comes heralded as one of the most successful speakers on the big Chautauqua circuits covering the Seaboard and Central States.

There is nothing of the ordinary in Kline's speeches. His fund of information on the questions about which we are concerning ourselves now enables him to hold any kind of an audience as he wishes. His subject at Chautauqua, "Strategic America," is potent with possibilities and he makes full use of the latitude it gives him in discussing our problems from many angles. He wants particularly to make people think more and better.

**TEXAS PANHANDLE
FINE LAUNDERING**

The American Outlook, of Cincinnati, New York, Chicago and San Francisco a fifteen million dollar corporation, and official organ of the Laundry owners and dry cleaners of the United States, carries a three page writeup, with one page of illustrations, of the Hereford Steam Laundry in its issue of March, 1920. The story reads:

Those of us who live in large or medium sized cities and are familiar with laundry plants and the conditions surrounding them, know little or nothing of what has to be contended with in starting a laundry plant in a small town.

Down in the Texas Panhandle district conditions are just as different from those in the more thickly populated centers as day is from night. In Hereford, Texas, which is located in the heart of the Texas cattle district and takes its name from that famous strain of blooded stock, the Herefords, is a small progressive laundry, owned and operated by a man who had the foresight to see the wonderful opportunities in that flourishing country and to grasp them.

Mr. H. L. Broadwell, the owner of the Hereford Sanitary Steam Laundry, some years ago purchased an old laundry plant that it seemed nobody wanted, which consisted mainly of an assortment of junk. The difficulties which he has had to overcome in bringing this plant up to its present state of perfection were many.

In the first place, when he took over this plant he was entirely unfamiliar with the laundry business; and secondly, before the plant could be operated on a paying basis, he found it necessary to replace the equipment with modern machinery. His next step was to move the plant into a new building adapted for laundry purposes.

All of this consumed a number of years, and as he had no one to teach him the intricacies of the laundry business he learned them by experience—experience which was sometimes costly, but which benefited him and places him in the position today of a progressive laundryowner.

One of the first lessons that Mr. Broadwell learned was that it took economical equipment combined with efficient management to enable his plant to show a profit.

Then, too, he does not find it so easy to get the work into his plant, as his customers are not located right around the plant or within easy calling distance, as is the case in so many of the larger cities.

Hereford is a progressive little town of some 2,500 population, located in Deaf Smith County, which has an area about one and one-fourth times the size of the whole state of Rhode Island, and is as flat as the prairie of Illinois.

Necessarily the customers of this laundry are not grouped in a few adjacent streets about the plant, but are spread all over this vast territory, and Mr. Broadwell tells us that some of them bring their bundles as far as twenty-five miles across country to get them washed.

The equipment consists of a complete set of up-to-date machines.

In the boiler room is found an eighty horsepower boiler and a forty horsepower Corliss engine. Water for the plant is supplied by shallow wells of the finest water, and in the engine room is an adequate system for pumping water out of the wells.

To show the progressiveness of the owner of this plant, he has long since seen the advisability of having soft water for laundry operation and has installed a modern water softening system.

Realizing that there is a field not only for laundry work but for a complete cleaning plant, Mr. Broadwell has installed such an equipment in conjunction with the laundry. In a room back of the power plant he has installed a complete cleaning equipment consisting of the latest machines for cleaning and pressing and a complete gasoline underground storage system consisting of 4 tanks and the necessary pump for delivering gasoline to the dry cleaning room.

A laundryowner in the more thickly populated centers who is bewailing his lot because of the difficulties with which he has to contend, such as the obtaining of employees, the high cost of supplies, and the many other problems which confront him today, need only stop momentarily and consider in his own mind, some of the difficulties with which such pioneers as Mr. Broadwell have to contend in operating a laundry at such a far distant point with the meager facilities available.

Great credit is due Mr. Broadwell for his progressiveness and determination to make his plant a success, and it is a great pleasure to tell his story in The American Outlook. May success continue to crown his efforts and his plant progress with as much or greater rapidity than the reports show that the whole wonderful state of Texas is doing at this time.

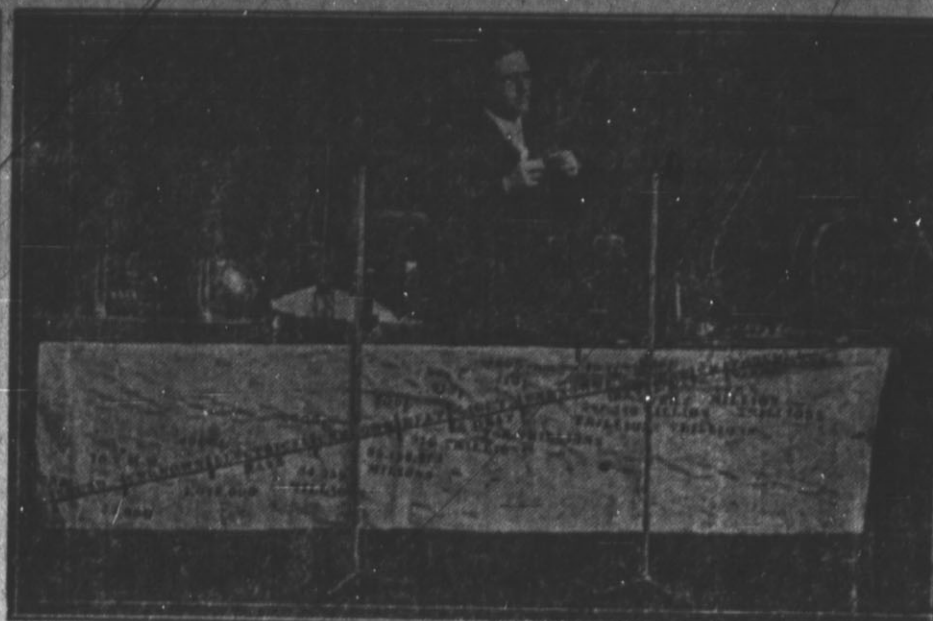

TO ALL CITY TAX PAYERS:

Unless you come to the City Office and render your Property for taxes by the 6th day of May, 1920, you will have violated a City Ordinance and will be subject to a fine.

Signed: ANNIE J. PRICE,
City Clerk and Assessor.

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

**DR. HILTON L. JONES,
Fascinating Scientific Lecturer, at Chautauqua.**

There is a word very much overworked. There is to be a man who will do "spellbinding" with entirely different methods on the Redpath-Horner Chautauqua. Hilton Ira Jones, the scientist, generally has to be spirited away from enthusiastic crowds of young and old after his lecture. People follow him from town to town.

A couple of years ago another scientist appeared on a Chautauqua program on this same circuit. Then as now, the people were warned that they would always regret a lecture of that type. Don't make the mistake this time. Jones is so much in demand that it is

unlikely Redpath-Horner will be able to feature his lecture over this Circuit again for years.

To attempt to describe this great entertainment would result only in tame adjectives. People are tremendously interested in scientific subjects. Young people have an insatiable desire for knowledge on the newly discovered laws of physics especially. If you wish a satisfying treat, take your children; get as near the front row with them as you can, watch them and listen to Jones, too. It will be the greatest single evening of combined instruction and absorbing entertainment that you or they have ever had.

THE STATE OF TEXAS

To the Sheriff or any Constable of Deaf Smith Co., Greeting:

Oath having been made as required by law

YOU ARE HEREBY COMMANDED to summon B. A. Grover, Howard Naylor and Maurice M. Johnston by making publication of this Citation in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Deaf Smith County to be held at the Court House thereof, in Hereford, on the First Monday in May, A. D. 1920, the same being the Third day of May, A. D. 1920, then and there to answer a petition filed in said Court on the 24th day of March, A. D. 1920 in a suit, numbered on the docket of said Court No. 1296, wherein H. M. and O. B. Jackson are Plaintiffs, and B. A. Grover, Howard Naylor and Maurice M. Johnston are Defendants, and said petition alleging that on January 9th, 1919, plaintiffs were and still are the owners of 80,462 acres of land situated in Deaf Smith and Oldham Counties, Texas, and described as follows:

The South half of Section 23 and Sections 17, 24 and 25 all in Block K-6 and containing 2,240 acres situated in Oldham County, Texas.

All the following described tracts all situated in Deaf Smith County, Texas: Sections 23, 29, 31, 32, 34, 47, 48, 49, 50, 75, 86, 88 and the North half of 54 all in Block K-6. Section 18 in Block A. Sections 3 and 4 in Block E. Sections 50 and 54 and the N. W. 1/4 of section 51 in Block K-11. Sections 3, 10, 14, 23, and 28, Township 5, North of Range 2 East. Sections 33, 34 and 35 Township 7 North of Range 2 East, Sections 7, 8, 16, 18, 19, 20, 21, 28, 29 and 31 in Township 6 North of Range 3 East. Sections 2, 3, 4, 9, 10, 15, 16, 27, 28, 33, 34 and 35 in Township 6 North of Range 2 East, containing 28,222 acres

of land.

That on January 9th, 1919, plaintiffs executed a contract for the sale of all of said lands to B. A. Grover for a certain sum of money. That on January 20th, 1919, the said Grover executed two contracts and oil and gas leases covering all of said lands to Howard Naylor and Maurice M. Johnston. That all of said contracts and leases have been recorded in the Deed records of Deaf Smith and Oldham Counties, thereby clouding plaintiffs' title to said lands. That said Grover has failed to keep and perform any part of said contract and that no part of the purchase price has been paid for said lands and the same is all past due.

Plaintiffs pray for the cancellation of each and all of said contracts and

For Sale

A No. 1 Irrigated farm, all good, level land, 140 acres in cultivation, 30 acres in alfalfa; well fenced, 6-room house, good barn and outbuildings; good young orchard and shade trees. Priced to sell; good terms can be had.

A good, two-story, fire-proof Business Building, 50x130, with basement, good location, in Pinyaw, Texas. Price \$27,500.00. Want to trade for Plains land.

J. H. Pitman
Hereford, Texas

NOTICE

On account of labor conditions, we will be forced to go on a spot cash basis, and will do so May 3rd, 1920. This is not because our customers do not pay us, but because we are short of help and haven't the time to make collections.

Thanking our many and valued customers, we remain

Rockwell Brothers and Company

Ford
THE UNIVERSAL CAR

The Ford car can well be called the "peoples car," because there are more than 3,000,000 of them in daily operation. That is about four to one to the nearest follower in the motor car industry. This would not be so if the Ford car had not for sixteen years proven its superiority in service, in durability, and in the low cost for operation and maintenance; this would not be so if the Ford car was not so easy to understand, so simple in construction that anybody and everybody can safely drive it. It is everybody's necessity because it doubles the value of time, and is the quick, convenient, comfortable, and economical method of transportation. We solicit your order. We have the full line, Touring Car, Runabout, Coupe, Sedan, Truck. We assure you the best possible in repair work with the genuine Ford Parts.

**Makes Farm Work
Enjoyable**

Power Farming also makes farm life far more enjoyable for everyone on the farm. It does away with endless chores taking care of horses. It greatly increases the boys' interest in farming. It aids the mother and the girls, for it mean less hired help, and the operators of Avery Tractors don't get all covered with grease like the operators of some makes of tractors, so that the washing of dirty, greasy clothes by the women folks is pretty well eliminated. And your whole family can get through the work easier and earlier which means more time to spend in the evenings for pleasure.

(Re-election)
O. H. Reeves

DIMMITT

Just a word in regard to the numerous Overall Clubs that are being organized over the United States. On first sight, it might seem that this is really a good thing and would tend to reduce the high cost of living. But on closer observation it is easily seen that in reality it works a hardship on the working man, for the reason that it forces him to pay a higher price for the clothes that he must, of a necessity wear. We read of a man who bought a pair of overalls for \$4.00 and a day or so later went into the same store and had to pay \$6.50 for the same article. All on account of the fact that an Overall Club had been organized in the town. The only sane way to cope with the high prices is to organize Old Clothes Clubs and let the working men have their clothes as cheaply as possible.

This community is waiting more or less patiently, for rain. As yet the crops have not suffered to any great extent but they must have relief soon or the wheat crop especially, will be a failure.

Rev. Sharp, pastor of the Presbyterian church at Hereford, preached here on Thursday and Friday nights. This was his first visit with us since December. On Sunday evening he also preached and held communion.

Mr. and Mrs. D. C. Laird, Miss Minnie D. Coffin, Messrs. Cogdell and Suggs, all of Hereford, attended church in Dimmitt Sunday evening.

There was no meeting of the ladies' aid this week on account of the death of the infant of Mr. and Mrs. Sam Cooper.

Rev. Florence held services three nights last week as it is the custom in the Methodist church to hold what is known as a week of prayer.

Rea Glibreath left Sunday to attend the Sunday School Convention in Waco. He will be gone several days, attending to business in Dallas after the convention is over.

Bryan E. McDonald was visiting friends in Tulla Sunday.

All ladies who have paid their poll tax for this year have been requested to meet at the Courthouse Saturday afternoon as the Democratic County Convention meets there on that day.

Bruce Gerdes and family left for Silverton Sunday, where they will visit for a few days. Before he returns, Mr. Gerdes intends to spend some time looking for a new location.

Mrs. Rea Glibreath is visiting at the home of Mr. and Mrs. Cantrell in Tulla this week.

Judge Clements, of Hale County, was in Dimmitt Monday looking after his candidacy for the office of District Attorney.

Wm. Ireland is visiting his son, E. S. Ireland, in Hereford this week.

SUMMERFIELD

Hubert Odell had the misfortune of losing one of his best work horses last week.

Will Storey left Monday for Oklahoma where he will attend to business matters for a few days. On account of the illness of Mrs. Storey's mother, Mrs. Monroe, the family did not accompany him, as had formerly been arranged and their visit in Oklahoma before leaving for California has been given up.

Lawrence Johnson has his new well finished and expects to have work started soon on his new house. He also expects to erect a large granary for storing grain as the car possibility is still very unsatisfactory. On Tuesday of this week he received three cars to load but it would require many such to take care of his grain market.

Mr. and Mrs. Louie Huckert visited Wednesday with Mr. and Mrs. John Gaetz.

Mr. Lance has put up a new windmill wheel as an additional improvement to his home place. And now with his elevated reserve tank he is better prepared to irrigate his yard and trees.

A jolly crowd of friends and neighbors were entertained by Mr. and Mrs. Louie Huckert last Friday night. One of the amusing features of the evening was when Mr. Odell appeared as escort to a fashionably (?) dressed dame of, possibly, the 1890 period and introduced his friend, Miss Sourkrot, to the company. After the laughter subsided, Miss Sourkrot disappeared and Will Storey appeared and remained as Mr. Odell's partner for the evening. Delicious coffee, cocoa and cake were served to the guests and both old and

E. Z. MARK AT HIS FAVORITE (?) INDOOR SPORT

Maybe He Will Learn After While. He'll Get Keen as Soon as the Cheap Carving Knife, Anyway.

(Copyright, 1918, by H. C. Tuttle.)

young pronounced it a most enjoyable evening.

Mrs. Theo. Cochell, of Plainview, spent the week-end with Mrs. Lawrence Johnson.

Friday evening, Saturday and Sunday the clouds gathered and looked like we couldn't possibly have a chance to miss getting a rain. Saturday about noon, a light sprinkle fell and in some places a little hail fell, not enough to do damage in our locality and not enough moisture to do much good. But if we have many measures dealt to us as we are getting them or get what they have had in other places recently, let's take the dust and just the "sign" of rain now and then and be satisfied. The optimist says we will get the rain in time for the row crops if not before.

Olive and Lucy Wilson visited with friends here Thursday night. Miss Olive taught in the Summerfield school last year. Miss Lucy has been teaching near Dawn this term, while Miss Olive just finished a term of school a short distance north of Hereford. They left Saturday for their home in Kentucky.

When the gas line comes from Amarillo to Clovis, Summerfield will surely be among the smaller towns included. As for population, we don't show up so big but the business side of the question would rate us among the first.

Mr. and Mrs. Joe Huckert were dinner guests of Mr. and Mrs. John Gaetz Thursday.

W. B. Green, together with some Dimmitt friends is enjoying a vacation and pleasure trip to southern points.

A party of men claiming to come from Woodward, Oklahoma and traveling overland in a car, camped among us last week. They said they "laid off" this spring and were bound for a hunting and trapping trip. However, they were very inquisitive about our section of the country, observing everything very closely, especially the lay of the land, formation of soil, water supply, all possibilities and seemed particularly anxious to know who owned certain tracts of land.

The ice cream social, given by the B. Y. P. U. of the Summerfield church, at the home of Kate Walsler Saturday

night was well attended and netted them a neat little sum.

Mrs. Drake and two children who live at Fripps were in Hereford shopping Saturday and on the return trip something went wrong with her car near here. She had to have it pulled back to Hereford and she and the children went home on the train.

Miss Slaton visited Saturday night and Sunday with friends in Hereford.

S. J. Rice has the lumber hauled for building the addition to his house.

Hollis Galley has commenced farming this spring the tractor way. He is using the Avery engine and pulling two treble disc plows and a Campbell packer. This enables him to get over lots of ground in a day and also puts his field in fine shape.

The children of Charlie Walsler have all been sick the past week.

Monday morning dawned with a real wintry atmosphere and a little skiff of snow fell. The clouds are still hovering over us. It is too cold to snow and not warm enough to rain, but a change in the temperature either way will surely bring us some kind of moisture.

Most of our farmers have taken the stock off the wheat this week. The amount of pasture obtained from the wheat fields has been wonderful and people, generally, seem to think they have already received an equivalent for seed and work. And will wait uncomplainingly now for the outcome of the crop. The oat fields have been badly damaged by the recent wind and dust storms.

Last Monday the neighbors, about twenty in number, gathered at the home of Mr. and Mrs. Ballard bringing with them well filled baskets and enjoying themselves throughout the day to the fullest capacity. The occasion being a surprise celebration of Mrs. Ballard's birthday.

Time—One week later

Act V. Scene—Same as Act II.
Time—Three days later, evening

A high class home talent play
A Play of quality—Two hours of pleasure
and frolic

Admission 35c and 50c

is certainly original. She is going to give you one of the most delightful treats of the entire week. She is one of the most recent stars of the Chautauque world and has reached her position by positive genius in interpretive work and study of years. Her appearance during the last two years have resulted in some of the most enthusiastic praise. You will come mighty near to tears sometimes but more times you will laugh heartily. Miss Waggoner has mastery of her art. Then, too, it is a delight just to look at her. She is charming in looks as well as manner and performance.

All of that is just the first afternoon program.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHLORONID given regularly two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Stray Sale Notice

I WILL SELL, to the highest bidder, for cash, at the Vandebon Ranch, 16 miles North of Hereford, Texas, the same being the 3rd day of May, 1920, in Deaf Smith County, Texas, within the hours prescribed by law, the following described stray stock, to-wit: Two whiteface cows, coming three years old, branded "L" on left side and "99" on right side, strayed on the Vandebon ranch in the fall of 1918, better known as the old Farley Place, 16 miles north of Hereford.

Said stock was strayed by me on the 1st day of March, 1920, and has been held as the law requires.

W. B. PHILIPS,

County Commissioner, Precinct No. Four, Deaf Smith County, Texas.

WANTED—Good clean rags at the Brand Office.

SUITS FOR THE SUMMER

No matter what you plan doing for the Summer— one of these handsome fabrics tailored to your measure will distinguish you as a better dressed man.

Here your ideas about style and fabric, your individuality and your bodies, also your pocketbook—all of them will be fit to perfection.

Yes, you'll feel more like celebrating when groomed in one of our suits.

Better a Week Early than a Day Late

Of course you don't want to be disappointed on your suit. Help us deliver your suit in plenty of time by coming in today.

PRECINCTS MEET SATURDAY, MAY 1
(Continued from page 1.)

of No. 6, J. M. Messenger chairman of No. 8, D. L. Rutter chairman of No. 9 and W. T. Womble chairman of No. 10.

The Administration Democrats held a rally Tuesday night in the District Court room. The Bailey forces held their rally Thursday night at the same place, Captain E. A. Simpson, of Amarillo, being the speaker. The Republicans announce a county convention for May 4 to elect delegates to the district convention at Amarillo on May 8.

Administration Rally
Tuesday the Administration forces issued a circular calling for a meeting at night. The call was signed by the following:
Wm. M. Knight, E. T. Woodburn, W. B. Farmer, G. M. Suggs, J. M. Gilliland, E. B. Black, Jno. Estes, J. E. Crouch, Jas. A. Hughes, Mrs. Jas. A. Hughes, Carl Gilliland, Eli Dunlap, Jno. P. Slaton, W. H. Ray, Dr. J. W. Hicks, Homer Wilkinson, W. E. Dameron, Roy M. Stocking, J. S. Jones, J. M. Boone, J. Frank Potts, F. H. Oberthier, Earl Gough, E. B. Possey, L. Gough, W. S. Higgins, E. W. Harrison, W. E. Betts, E. D. Fox, J. C. Ricketts, W. W. Bennett, J. R. Mosley, Henry Wilkinson, Percy Welliver, A. A. Foster.

W. E. Dameron, county chairman, opened the meeting at night. The district Court room was comfortably filled. Jno. P. Slaton was elected chairman of the meeting and Seth B. Holman secretary. Judge Slaton made a brief address, outlining the need for organization in defense of the administration. Carl Gilliland then gained recognition and read a set of ringing resolutions, heartily endorsing the achievements of the Democratic administration and pointing out the high points thereof. The resolutions are reproduced on another page of this issue of The Brand. Following the reading of the resolutions, which were frequently applauded as they were read, Judge Wm. M. Knight, G. A. F. Parker, W. E. Dameron, and Carl Gilliland made short, eloquent appeals for united support of the resolutions and an emphatic endorsement of the great work of Woodrow Wilson and his administration. The Chairman brought frequent smiles and laughter from the audience in his efforts to induce some opposition from the Bailey men present, all without result.

With the exception of one or two Bailey men present, and a few Republicans the resolutions were unanimously adopted by a rising vote of the audience.

Bailey Meeting
Captain E. A. Simpson of Amarillo addressed a large audience at the Courthouse Thursday night in the interests of J. W. Bailey for Governor. He was introduced by W. H. Russell. He spoke for well over two hours, the speech being well divided between descriptions of his military career and impressions and attacks upon the administration of President Wilson. Starting with the declaration of war, he explained his trip to the training camp, various offers of commissions, etc., he received meanwhile, came back to Clarendon and organized his company, and finally landed the audience with him in France, and from there to the front line trenches. During all this preamble he was tooth and toenail for Wilson. But the Captain fell out with the President on November 12, the day after the Armistice, because instant and immediate steps were not taken to ship every man Jack of the American army home instant. The inference was that the President used the army and the money voted him by

Congress to further his own personal ambitions, etc.
Captain Simpson's travelogue was entertaining and instructive, but his concrete facts against the administration appeared to be far-fetched and strained. The audience was unresponsive so far as applause was concerned.

CHAUTAQUA COMMITTEES ARE CHOSEN

Advance Man Arrives and Plans are Laid for Big Drive

A meeting of the guarantors of the 1920 Redpath-Horner Chautauqua was held last Thursday night and a fair number were in attendance. After discussing the matter in detail, D. F. Ashbrook was elected Chairman, L. W. Hough, vice chairman, Seth B. Holman Secretary. A Finance Committee, to have entire charge of the money and tickets was elected as follows: J. S. Jones, A. O. Thompson, D. C. Laird and Mesdames Homer Wilkinson and W. A. Price. A grounds committee, consisting of F. H. Oberthier and Geo. E. Burns, was selected to look after the tent and seating arrangements. This same committee served in 1919 and made a most excellent job of it. The Advertising Committee consists of Roy M. Stocking and W. S. Williams. Another meeting was scheduled for Thursday night of this week, to check up committee work, but due to conflicting dates this meeting was postponed until 7:30 o'clock Monday night, at the Courthouse.

Thursday morning Mr. Churchill, advance man for the Chautauqua, arrived in Hereford and conferred until the afternoon train with the local officers and committeemen. An advertising man will arrive soon to assist the local committee in getting started out right.

DR. LLOYD IS TALKING UP NOVEL IDEA

Advertising Scheme Turned Down by Panhandle Commerce Chamber

Dr. O. H. Lloyd, of Vega, a property owner in this county and well known here, accompanied by Airplane pilots Whipple and Beverly, arrived in Hereford Wednesday night. They had previously been announced as billed to arrive Tuesday afternoon, but were delayed a day in transit.

Thursday morning Dr. Lloyd addressed a small audience in the County Courtroom in support of his project to advertise the Panhandle and West Texas as a novel combination of truck exhibits and airplane flights in several Middle Western and Eastern states. An outline of this scheme was given in The Brand of last week.

The Doctor, who is known far and wide for his unremitting labors as a Plains booster, made quite an impression on his audience here and many favorable comments were made. It is understood that the plan involves about \$1,000 donation by each county in cash together with exhibits to be shown on the trip this summer. Due to the small crowd and lack of a commercial organization here nothing tangible came out of the meeting, so far as was announced.

zation was founded upon the idea of concentrating efforts with a territory having distinctive features and needs. 2. It will confuse those to whom it is presented, for it is agreed that the Panhandle will be called upon to furnish the agricultural exhibits which are impossible of production in much of the territory included in this proposition. 3. With perfect weather conditions and no automobile or airplane trouble it will be impossible under the plan to reach more than 180 or 200 towns. Granting that 100 persons may be interviewed in each town, it will cost \$2.00 for each individual so interviewed, exclusive of such funds as may arise from the industrial visit of the planes. 4. This character of advertising is such as to place added strain on the credulity of the people, from just what we have sought to escape for many years. 5. It is impractical and impossible and bears but scant promise of productive results. Its advertising matter will be distributed into the hands of disinterested people, largely, and is a plan that is frowned at by our best advertising methods. 6. We are already discredited and are accused of enlarging on existing facts and while we do not charge those in this expedition with misrepresentations we do contend that the flying machine is no longer a curiosity and its endeavor to exact from the people whom we would soberly and seriously interest in the affairs of this section would constitute a demoralizing reflection on the whole proposition.

NEGRO MINSTRELS AT STAR THEATRE ON FRIDAY NIGHT

Leon W. Washburn's Famous Minstrels are billed for The Star Theatre Friday night, April 30. The literature of this company states that it carries a band and orchestra, a Creole Girl Chorus, and presents high class vaudeville acts. The Albuquerque Morning Journal has the following to say about this Minstrel Show:
"A revel of fun, jokes, melody and dancing was enjoyed by the large crowd which gathered to see Washburn's Famous Minstrels at the Crystal Theatre last night. From the moment the curtain went up and the performance began the air was rife with black-faced mirth re-echoing in the convulsive laughter which shook the house. Several good numbers were given, an orchestra consisting of a violin, two cornets, two clarinets, trombone, baritone and drums supplying music for what one would term, "a great show."

CAR HAS JIMMIES AND ATTEMPTS TO ENTER THROUGH

An automobile driven by Claude Skelton tried to invade the Ford Garage by way of the front office Tuesday and but for the buffer erected at the corner of the plate glass windows would undoubtedly have caused costly damage. The car had been accidentally left in low gear before cranking and when the engine started the fun began. Mr. Skelton succeeded in stopping the car's rampage before much damage was done.

Additional Locals

J. M. Weatherford, proprietor of the Cordova Hotel is visiting his brother in Miami, Texas this week.

According to Jack Osler, General Advance Agent, Gentry Brothers' Circus will show in Hereford Tuesday, May 18th.

Cleve Hamilton, of Castro county, shipped 200 steers out of Friona to Kansas grass, Thursday of this week. Bernard and Hill also shipped 1500 head of steers to Kansas grass from Friona.

Mr. and Mrs. Frank Alexander left last Friday for Westover, Texas, where they will make their home in the future. Mr. Alexander has been with the First State Bank and Trust Company here for the past year.

Floyd Spencer, was brought to the Hereford Sanitarium last Wednesday with his right leg broken as a result of having been thrown from a horse on the Star Ranch. At last report the patient was doing nicely.

C. L. Sullivan, wife and two sons, Glenn and Bruce, and W. L. Sullivan motored to Hereford Tuesday of this week. Mr. Sullivan states that his son, Ewell, and Albert Johnson are in the grocery business in Clovis.

C. P. Arthur and family, of Iowa Park, Texas, formerly of Hereford, arrived in Hereford this week. Mrs. Arthur will visit for several weeks with relatives here, however, Mr. Arthur will return in a few days.

C. W. Murray, of 15 miles northwest, reports a good rain last Saturday afternoon. Mr. Murray has just returned from Mineral Wells and says his health has improved considerably. Mrs. Murray will remain in Mineral Wells.

Those out of town that attended the Captain speech at the Courthouse Thursday night were Mrs. E. A. Simpson, Lou Sellers and wife, Mr. Sellers is chairman of the Panhandle District Bailey Campaign, and Miss Wallace, of Amarillo.

**BETTER CHURCH BUILDINGS PLANNED
 FOR RURAL DISTRICTS BY BAPTISTS**

PART OF PROCEEDS OF 75 MILLION CAMPAIGN WILL BE EMPLOYED IN ERECTING BETTER HOUSES OF WORSHIP AND OTHERWISE HELPING DEVELOP WEAK CONGREGATIONS. IT IS ANNOUNCED.

TYPICAL RURAL CHURCH BUILDING OF TODAY

EXTERIOR OF IMPROVED RURAL CHURCH

FLOOR PLANS OF IMPROVED COUNTRY OR VILLAGE CHURCH

Several outstanding results of the Baptist 75 Million Campaign will be noted in the larger development of the rural churches. This development will take the form of a more efficient church and Sunday School life and in better houses of worship around which the church and Sunday School activities will center.

Through the enlistment department of the Home Mission Board of the Southern Baptist Convention, Atlanta, Ga., weak, struggling churches will be aided in development to the point where they can become self-supporting and employ a competent pastor for much more of his time than has been given these churches before, while plans for the betterment of the rural Sunday Schools through a series of institutes for the training of teachers in all the Southern states this summer will be carried out by the Baptist Sunday School Board.

Best Plans Are Recommended. Plans have been perfected by the architectural department of the Baptist Sunday School Board at Nashville, Tenn., in co-operation with the Church Building and Loan Department of the Home Mission Board, whereby local building committees can procure detailed plans of the best modern church buildings for either large or small congregations. These plans have been so drawn as to take care of every phase of church activity, the Sunday School and other departments being so provided for as to enable them to do their most efficient work. And a modern building, containing all these essential provisions, can be provided by any community that is able to build an old-fashioned one-room church building, as the cost for the modern structure is no more than that of the old-style one.

Big Loan Fund Provided. To aid deserving congregations in building adequate houses of worship, the church building loan department was established six years ago and already more than 700 churches have been helped in building needed houses. The initial fund, established for this purpose, was fixed at \$1,000,000 and an additional \$1,000,000 will be received from the 75 Million Campaign. Applications pending now aggregate \$1,000,000 and loans are being made at the rate of \$50,000 per month. No loans are being made in excess of one-third of the value of the property, and the loan made must clear the property of all other indebtedness and thus make it possible to dedicate the building.

From the 75 Million Campaign the Home Mission Board will receive, also, \$2,500,000 to be used as gifts in the building of additional churches during the next five years, but this sum will be expended largely in aiding churches in strategic points, among them being educational centers where it is desired to erect churches for promoting the religious life of students, especially of those students affiliated with Baptist churches.

Of the 25,000 Baptist churches in the South, 21,000 are in the rural districts and in small villages, and 19,000 of them have preaching services only once a month. While the work of the enlistment forces will be to help these weak congregations solve their problems and help them develop in numbers and efficiency, the other denominational agencies will help these struggling congregations in the erection of well-appointed church houses and the development of their Sunday Schools.

Why Good Houses Are Needed. The accompanying illustration shows a typical one-room church building and also an exterior view and floor plans of a modern, well-appointed church building, calculated to take care of all the needs of a church organization and costing no more than the one-room building.

This proposed building has many things in its favor as compared with the one-room structure, aside from its attractive appearance. First, it is more durable, being so constructed as to resist wind and storm. Second, it is easily heated in the winter, its vestibule cutting off the cold wind from the entrance, while by reason of the building having several departments it is useful to heat only the department being used on those occasions when only a small gathering is had. Then the auditorium in the center is shielded from the extreme weather by the departments surrounding it, though in the summer these surrounding departments can be opened up, giving abundant ventilation. Again, the new building offers admirable quarters for the several departments and classes of the Sunday School, thus making the teaching of the Bible a much easier task. Then the social life of the congregation can be greatly promoted by the better building, in that it affords ample quarters for church receptions, banquets and other affairs of this nature, enabling the church to give the young people adequate social activities under wholesome environments.

This and many other approved types of country churches are being employed now in every Southern state, and a more efficient church work is being done wherever such building has been erected. It is declared. Sufficient varieties of plans have been prepared to serve the needs of any particular community.

BAPTISTS TO CELEBRATE 75th ANNIVERSARY OF CONVENTION. When the Southern Baptist Convention assembles in Washington, D. C., May 12, it will be the seventy-fifth anniversary of the founding of that body and will be known as the Victory Convention, by reason of the fact that it will celebrate the successful conclusion of the 75 Million Campaign. The local committee in Washington is making plans to entertain 10,000 delegates and visitors.

By reason of the fact that the future program of the denomination along all general lines will be formulated at this time, it is expected the meeting will be one of the most important in the history of the denomination in the South.

TWO AND A HALF MILLION NEW CHRISTIANS ARE SOUGHT. Baptists of the eighteen states in the territory of the Southern Baptist Convention are now in the first stages of the campaign that is aimed to win at least two and a half million new converts to Christ in the homeland during the next five years. This is an average of 500,000 new converts for each year of the 75 Million Campaign and early returns from the evangelistic efforts indicate the goal will be reached.

Husbands may have better halves but bachelors have better quarters

At least they think they have.

Right Now We Are Offering

Made-to-measure Suits \$40 to \$50

that are better than those for which many stores ask considerably more money. They're very stylish, correctly tailored of all-wool fabrics—an important matter in these days of wool adulteration.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

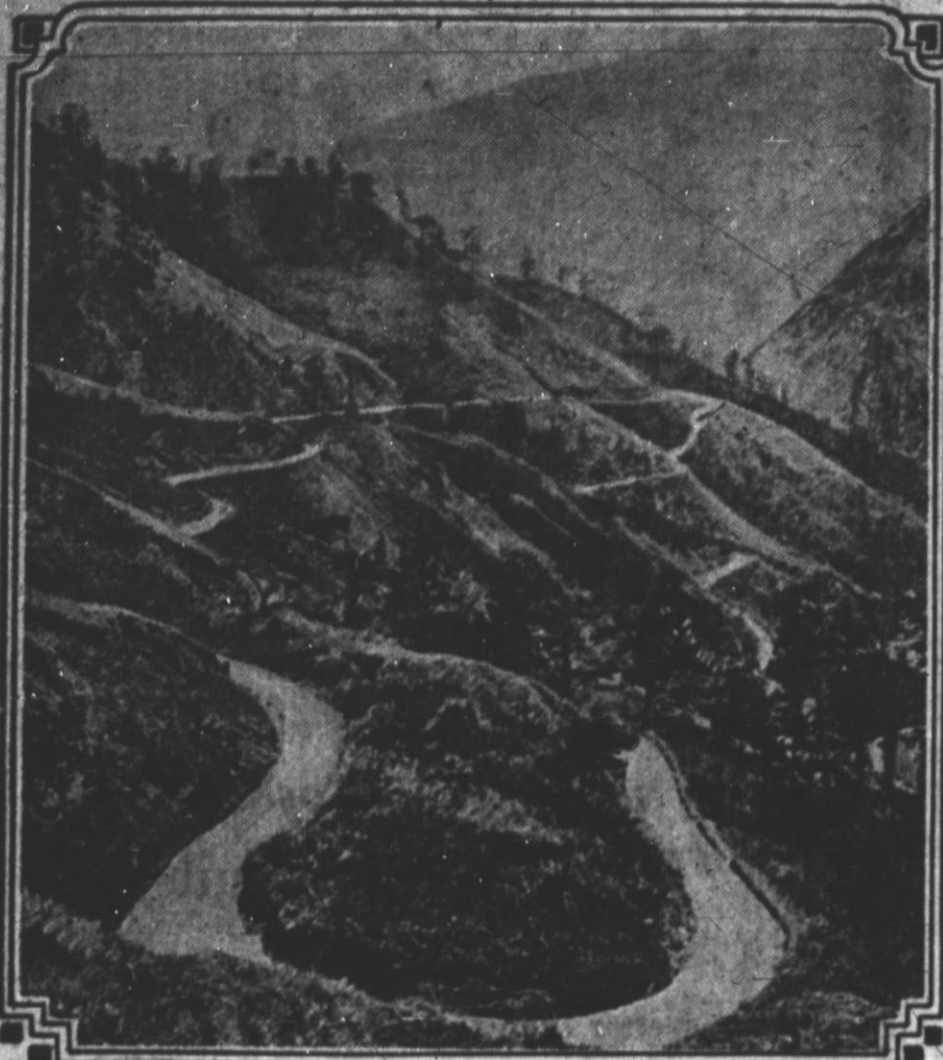

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.

A PHILIPPINE TRAVELOGUE

THE ROMANTIC ISLANDS OF THE FAR EAST. PICTURES OF THEIR NATURAL BEAUTY AND HISTORIC SPOTS—BE COMING A MECCA FOR TOURISTS AND A POPULAR WINTER RESORT.

The Zigzag on the Way to Bagulo, Summer Capital of the Philippines.

All aboard! Let's go! We're starting from Manila, the great picturesque, Americanized Oriental city, and will travel by automobile 200 miles to the north to Bagulo, the summer capital of the Philippines. The trip can also be made by train.

We have ahead of us one of the most scenic, spectacular and thrilling automobile trips in the world. We will have excellent roads all the way. The Philippines are, in fact, a paradise for motorists, possessing 3,500 miles of fine macadamized roads.

The first part of the trip is through typical small towns and then across the central plain of Luzon and through several rich and fertile provinces, where tropical vegetation is seen at its best. Here one is impressed with the great agricultural wealth of the Philippines, which represents one of the East's greatest producing areas, with the advantage of immense natural resources for the development of further production. It is regrettably true that even in the United States there is far from any real understanding of the potentialities of the islands.

At some points rice fields, looking in the distance like the greenest of green lawns, stretch away as far as the eye can see. If you want color, if you want to feel the romance and mystery of an Oriental twilight, pass this way as the red eyed sun at the end of the dying day is slowly sinking behind the unending expanse of green fields. At first you cry out in ecstasy at the gorgeous scene. But as you ride along, your eyes fastened on the panorama of tints and colors, and with the impenetrably black Oriental night coming on fast, you become enthralled. You no longer try to express your feelings. You cannot. You realize that those now fast changing, colorful masterpieces in the heavens and on the landscape are pictures that no man can adequately describe nor human hands duplicate. So what's the use of trying!

True, these are but impressions, but the travelogue considers himself justified in mentioning them, for they are a part of the trip to Bagulo and return. Indeed, the gorgeous sunsets in all parts of the Philippines leave an impression on the mind of the tourist that is everlasting.

We leave the palms and tropical foliage and enter the zone of rugged pine. We pass from the soft, incense laden air of the warm lowlands to the crisp, invigorating ozone of the temperate zone, all within a few hours' time.

For mile after mile the road now follows the tortuous course of a river, the road lying in the bottom or on the rocky sides of a granite canyon.

The Philippines are rich in hydro-electric possibilities. This power is the cheapest power on earth. And it is everlasting. Your travelogue is neither a prophet nor the son of a prophet, but he predicts that one day there will be innumerable Philippine government owned hydro-electric plants in this canyon we are now passing through. Think of the possibilities of such a project! Today the trip from Manila to Bagulo is too expensive for the average Manila worker and his family, many of whom may live and die without beholding the wondrous beauties of their own island of Luzon. Think of what a blessing it would be to Filipino mothers and children to feel upon their fevered brows the cool, invigorating breezes of the mountain tops, now so near and yet so far! With the Philippine government owning its own electric railways and hydro-electric plants it would be possible to bring

the trip to Bagulo within the means of hundreds of thousands of Filipinos. Not only is there sufficient power in this river to electrify a line from Manila to Bagulo, but to operate the street railways of Manila, light the city and furnish power for manufacturing concerns.

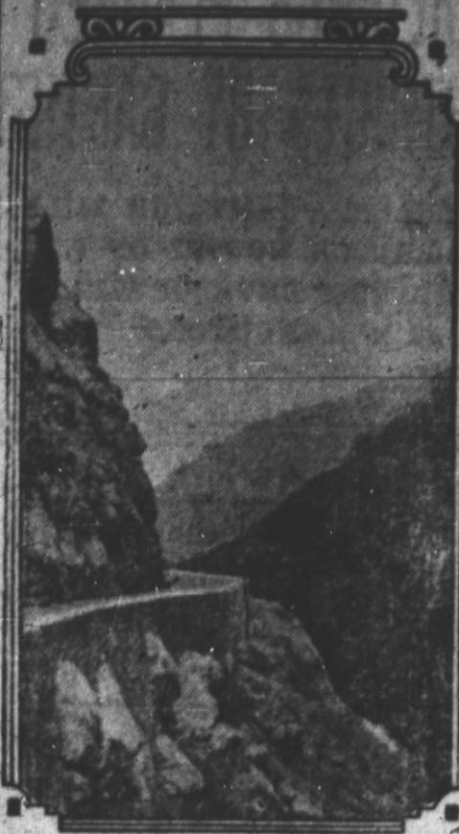

But we have now arrived at Camp One. From this point the scenery rapidly changes as the elevation increases. We are traveling over the famous Benguet road, the construction of which through the mountains is a most remarkable engineering triumph. At places the road is blasted out of the solid granite. Riding on the edge of a 100 foot precipice makes one feel like

he is on the rim of the world. Some of the turns are so sharp it is impossible to see 20 feet ahead, and we seem to be perilously near the jumping off place. We wonder if it is safe to lean out and peer into the canyon far below, and when we do we are perfectly satisfied we are flirting with death. Yet the trip is a safe one, providing our driver has better nerves than our own.

All too soon we reach the outskirts of Bagulo, a city among the clouds, and are rather surprised at the modern city we find it to be. In ten years Bagulo has grown from a village of huts to the now justly famed mountain resort of the Philippines, sometimes called the Philippine Simla. It is undoubtedly destined some day to become a large city.

Bagulo ranges in elevation from 4,500 to 5,500 feet and is surrounded practically on all sides by high mountain ridges and "hogbacks" towering into the skies at a height of almost 8,000 feet.

Aside from the scenery, which is noteworthy, the great blessing of Bagulo is its temperate climate, which is indeed a godsend to those impoverished

"At times we seemed perilously near the jumping off place."

ed by the tropical temperatures of the lowlands. Not only is the mountain air rich in ozone, but it has been demonstrated to be extraordinarily free from germs of all kinds.

Each year during the hot season the school teachers of the entire archipelago are enabled by the government to spend a month at the teachers' camp in Bagulo for recreation and conference on school work. American army officers and their families also go to Bagulo for the hot months.

And now that your travelogue has you in Bagulo, he believes he will leave you there, for there are many interesting side-trips to take, and, besides, Bagulo is the most delightful place for a vacation in the entire Orient.

- 3 cents for all consumed during month in excess of above amounts.

Hereford Light & Power Company

Bob Stands Pat. Scene from Screaming N. Y. Comedy, "NOTHING BUT THE TRUTH," at Chautauqua. The Cast is all well known and from New York.

There are comedies and comedies. In selecting William Collier's greatest success, "Nothing But the Truth," Redpath-Horner has picked practically the last word in stage success. The situations and lines in this great play

are masterpieces of ingenuity. The idea is original and the whole plot proceeds to an excruciatingly funny climax through perfect gales of laughter. A New York caste, personally selected by Mr. Chas. F. Horner, will assure an exceptionally fine production

coupled with the care that Redpath-Horner display in staging and management.

Capacity crowds always greet the Chautauqua plays. Be advised and arrange to be on hand early to insure getting a seat.

PARMER COUNTY

FRIONA

Mr. and Mrs. R. S. Houlette and son, Eustace, visited their son and brother over in New Mexico Sunday. It was the twenty-fifth anniversary of the birth of Ernest they celebrated the event together at his home.

The work at the oil well is still steadily progressing and the bottom of the hole is now near 700 feet. Selden Warren has taken a job with the company as assistant truckman for one year.

The new road grader ordered by the county was received last week by commissioner Reeve and is now in active service on the roads. It is working on the road running north from the east side of town and is operated by J. E. Staley with Bruce Staley and Smith Gallatin as drivers. They are doing some nice work.

A. O. Drake is preparing to move his family from their residence in town to their farm adjoining the north side of town. Mr. Drake is offering the north half of his farm for sale and when it is sold he will build improvements on the south half, thus bringing his home nearer town.

The Senior class will at the close of the school term present the play entitled, "Always in Trouble," which is a play cram full of mirth provoking incidents and odd characters. They began rehearsing this week.

W. E. Godwine, accompanied by his wife, departed Monday afternoon for Dallas. Mr. Godwine for several weeks past has been in very poor health and the symptoms of his ailment having become somewhat baffling to his local physician, he goes on his advice to Dallas to undergo an X-ray examination as well as other medical examinations at the hand of specialists. In order, if possible, to arrive at the true source of the trouble.

John Gischler is closing out his stock of goods preparatory to leaving the mercantile business. Mr. Gischler's health will not stand the confinement and the work of the store is too strenuous for Mrs. Gischler. He will devote himself exclusively to the grain business and has erected a large bin for storing grain.

We Buy Liberty Bonds
Ralph Barnett

THE STATE OF TEXAS

To the Sheriff or any Constable of Deaf Smith County, Greeting:

YOU ARE HEREBY COMMANDED to summon Aaron H. Brubaker, Elizabeth Brubaker and John H. Huxtable, and the unknown heirs, their heirs and legal representatives of Aaron H. Brubaker, Elizabeth Brubaker and John H. Huxtable, deceased, by making publication of this citation once each week for four consecutive weeks previous to the return day hereof in some newspaper published in Deaf Smith County, Texas, if there be a newspaper

in said county, but if not, then in the next county where a newspaper is published, to appear at the next regular term of the District Court of Deaf Smith County, Texas, to be holden at the Court House thereof in Hereford, Texas, on the first Monday in May, A. D. 1920, the same being the third day of May, A. D. 1920, in a suit numbered 1238 on the docket of said court wherein A. J. Howton is plaintiff, and Aaron H. Brubaker, and wife, Elizabeth Brubaker, and John H. Huxtable, deceased, are defendants, said petition alleging that the plaintiff is now and has been for sometime the owner and holder of the fee simple title, as well as in the peaceable possession, of a certain tract or parcel of land in Deaf Smith County, Texas, described as Section No. 58, Certificate No. 1-54, grantee BS&F, Block K-7, and containing 650 1/2 acres.

Plaintiff claims said land by fee simple title; that he has title to said land by written conveyances of record vesting title in him, and also claims title by virtue of open and adverse use and possession and paying taxes thereon for such length of time and under such tenure as to give him right and title thereto by the statutes of limitation of the State of Texas of three and five years.

That the unknown heirs of said deceased party or parties are unknown to plaintiff, and the places of residence of all of said defendants and all the unknown heirs are unknown to plaintiff; that said defendants, other than the unknown heirs, are claiming some sort of interest in and to said property, which casts a cloud upon plaintiff's title, and one of the instruments under which the plaintiff holds title is irregular in that it does not contain the written consent and authority of all those beneficially interested in the land to make the conveyance, and such defect creates a cloud on plaintiff's title, which he is entitled to have removed as set out in plaintiff's petition.

Plaintiff prays that the defendants and each of them be cited in terms of law, and that upon final hearing he have judgment vesting and decreeing in him the fee simple title to said land, free from any and all claims of each and all of said defendants, and removing the cloud from his title, so that he shall and will have and hold said land against all such persons, unknown heirs of deceased persons and further prays for general, special, legal and equitable relief.

HEREIN FAIL NOT, but have you before said court at its next regular term, this writ with your return thereon showing how you have executed the same.

Witness, A. O. Thompson, Clerk of the District Court of Deaf Smith County, Texas.

Given under my hand and seal of said Court at office in Hereford, Texas, on this 31 day of March, A. D. 1920.

A. O. THOMPSON,
Clerk of the District Court of Deaf Smith County, Texas.
11-4t By A. L. Biggs, Deputy.

THE STATE OF TEXAS

To the Sheriff or any Constable of Deaf Smith County, GREETINGS:

YOU ARE HEREBY COMMANDED, that you summon, by making publication of this citation in some newspaper, published in the County of Deaf Smith for four consecutive weeks previous to the return day, hereof, Thomas Witherspoon, Annie Witherspoon, Hial Ray Witherspoon, Jennie Witherspoon,

Myrtle Griffith and J. E. Griffith, all being non-residents of the State of Texas, to be and appear before the Honorable District Court at the next regular term thereof, to be holden in the City of Hereford and County of Deaf Smith at the Court-house thereof, on the 3rd day of May, 1920; there and then to answer the petition, filed in said Court on the 17th day of March, 1920, in a suit numbered on the docket of said Court number 1235, wherein J. P. Roberson, J. B. Roberson, B. C. Roberson, and D. B. Roberson are Plaintiffs and Thomas Witherspoon, Hial Witherspoon, Brunett McMinn, J. B. McMinn, Annie Witherspoon, Hial Ray Witherspoon, Jennie Witherspoon, Beulah Roberson, Charley Roberson, Ray Roberson, Lena Wilson, Alvie Wilson, Oliver C. Newbrough, William Roberson Newbrough, Edgar Mallory Newbrough, John W. Newbrough, J. E. Griffith, Myrtle Griffith and J. W. Newbrough are defendants.

The nature of Plaintiffs demand is as follows, to-wit: the Plaintiffs sue the Defendants for a partition of the W.

1-2 of Block No. 7 of Welsh Addition to the Town of Hereford, containing ten acres, situated in Deaf Smith County, Texas; also all of the W. 1-2 of Section 16, Block B, School File Number 1239 in Deaf Smith and Parmer counties, Texas, containing 320 acres.

Plaintiffs allege that Plaintiffs and Defendants are all joint owners of said lands, excepting the Defendants J. E. Griffith, J. B. McMinn, and Alvie Wilson, who are alleged to own no interest therein but are husbands of the defendants Myrtle Griffith, Brunett McMinn and Lena Wilson, respectively, and are made parties, pro forma.

That Plaintiffs each own an 1-7 undivided interest in said property and the following Defendants own, respectively, the following respective undivided interest therein: Thomas Witherspoon, Hial Witherspoon, and Brunett McMinn each own 1-28 undivided interest; Annie Witherspoon and Hial Ray Witherspoon each own an 1-56 undivided interest; Jennie Witherspoon owns a life estate in 1-3 of the interest of the two last named Defendants; Lena Wilson, Ray Roberson and

Charley Roberson each own an 1-24 undivided interest; Beulah Roberson owns a life estate in 1-3 of the interest of the three last named Defendants; Myrtle Griffith, Oliver C. Newbrough, William Roberson Newbrough, Edgar Mallory Newbrough and John W. Newbrough each own an 1-56 undivided interest; and J. W. Newbrough owns a life estate in 1-3 of the interest of the last five named Defendants.

Plaintiffs charge that it would be better for the estate, to sell said property and partition the proceeds and pray for the partitioning by selling the property and dividing the proceeds, according to the parties respective interests.

Herein fail not, but have you before said Court, on the said 3rd day of May, 1920, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Hereford, this, the 17th day of March, 1920.

A. O. THOMPSON, Clerk of District Court, Deaf Smith Co., Tex., 11-4t (Seal) By A. L. Biggs, Deputy.

ASBELL AND GOUGH ON SPEAKING TOUR

Rev. J. M. Asbell and Judge L. Gough of Hereford, are members of a team which is touring the Panhandle counties under the auspices of the Interchurch World Movement. In reporting Rev. Asbell's talk in Donley County, the Clarendon News says:

"The first address of the morning was that of Brother Asbell, on the subject: 'The Significance of the Interchurch World Movement.'"

"In this address we learned some of the pertinent outstanding facts of the Movement: It is not a movement for organic union. The origin of the Movement was rather prosaic, so far as the detailed steps that brought it into existence are concerned: It took quite a while to get the organization to the place, where it could be even called by a name; one day there went out a call from the Foreign Mission Board of the Southern Presbyterian Church, and from that there met a committee of representatives of various home and foreign mission agencies, and meeting after meeting was held, and as Dr. Mott said: 'It seems as if God is about to break through.'"

"Bro. Asbell spoke of the four departments of the Interchurch, which each county is to have in the work: 1. Spiritual Resources, for the purpose of enlivening the work of personal evangelism, the building up again the Family Altar, the sanctity of the home and the necessity of home life, and such as that. 2. The phase of Christian Stewardship. 3. Life Enlistment and Life work, to be brought to the attention of the younger people and children of the church. 4. Missionary Education, which is to place facts before the membership of the Church."

WAPLES-PLATTER HOUSE AT CLOVIS

The Waples-Platter Wholesale Grocery Company will soon be operating a store in Clovis, according to the Clovis News. This company has a number of branch houses in different cities in Texas. A new building which will be occupied by the firm is now under

construction on the tracks about a block east of the Letts Grocery Co. The new building is two stories with a large loading platform and is 50x100 feet. It is being constructed of reinforced concrete and every effort is being made to have the building ready for occupancy by July 1st.

There are persistent rumors that two or three other big grocery houses will locate in Clovis within the next few months. Clovis has superior railroad facilities to any town in eastern New Mexico and no other town can serve the big territory in a wholesale way as easily as the Magic City.

ASKS RAISE IN THE LIGHTING RATES

Manager A. J. Arnolds, of the Canyon Light & Power Co., has asked permission of the City Council to increase the light rates in Canyon 20 percent. In the future the bills mailed to consumers will be for a flat rate of 18 cents rather than calling for the discount as allowed in the past.

Mr. Arnolds stated that the increasing rates of all his materials used at the plant were responsible for the increase.

He stated that he would not have asked for a raise had not the last 39 per cent raise in coal prices, which was supposed to have been taken from the producer, been shoved down to the consumer. This added very greatly to his operating expenses.

According to the Randall Co. News, the raise in light rates is only in keeping with the raise made in other public utilities. The city council was the first to make a raise when it boosted the price of water from \$1.00 to \$1.50 in town and \$1.80 outside of the incorporation. Mr. Arnolds is a big consumer of water at the plant, and according to the schedule adopted, is paying a big increase in water rates. Then the telephone company tacked on a 25 cent per month fee to the service.

CAL RULES FOR VOTERS ON SATURDAY

Interpretation of Law as to Precinct, County and State Conventions

Texas League of Women Voters issued a circular to the female members of the State, describing in detail the methods of holding precinct and county conventions. The statement is so clear, and so appropriate this week, that The Brand reproduces it here for the benefit of both the women and the voters of this county:

Qualifications for Voters
Qualified Voters in Precinct Conventions are American men and women who have lived in the state one year and county six months, and who hold tax or exemption receipts for the year 1919. In towns of less than 100 inhabitants, American men and women over sixty years of age or crippled are entitled to vote in the convention of the precinct in which they reside provided they have lived in the precinct one year and the County six months. Minors and sailors vote upon the presentation of their discharge papers. American Citizenship is a qualification for voters in precinct conventions.

Foreigners who have "declared their intention" to become citizens and who hold poll tax receipts, can vote in general elections in November but are barred from party conventions.

Precinct Conventions
Precinct Conventions are called for on Sunday, May 1st, between the hours of 8 a. m. and eight p. m. and will be held in the precincts at or near the place.

Holding a Precinct Convention
A chairman appointed in advance by the county chairman of the party presides. The first business is to check the names present with the poll tax list of the precinct, and see that only QUALIFIED VOTERS, as outlined above, are seated. Insist on this being done as it is the only way to insure the legality of the proceedings of the convention. After a secretary is elected, a committee on Delegates is appointed. A precinct is entitled to one delegate in the County convention for every twenty-five votes cast for the democratic candidate for governor in the last gubernatorial race. The record of the Convention including the list of delegates kept by the secretary constitutes the "returns". The returns are sealed, sealed and transmitted to the chairman of the County Executive Committee to be used in making up the list of delegates to the County convention. In case any chairman refuses to hold the convention the voters should publish a call announcing the place and hour set by the County chairman, giving as a reason for the call the chairman's statement that he will not hold the convention and so by his failure to act, disfranchise the citizens of the precinct. This call should be signed by as many voters as possible and published in the papers and posted in usual polling places. At the stated time the voters should assemble, elect a chairman, make the list of qualified voters and proceed with the convention.

Attention Precinct Chairman
In the precinct convention is the place of origin of the power of the individual voter to decide the destiny of the National Convention it is of the utmost importance that due attention be given to them. Find out the exact hour at which the convention is to be held and notify each woman in your precinct. Select a central meeting place for all, and go in body to the place of holding the Convention at least half an hour before the hour for convening.

It is possible in this way to get the timid women out and it enables you to give a last reminder to the tardy or absent minded. Secure a list of all the women in your precinct who have tax receipts. This can be obtained from the records in the County Clerks office, either in person or through someone living in the County seat.

It is necessary to know the exact hour of the Convention and be ahead of time. It takes only a very short time to do all the business required and fifteen minutes late may mean all is over. Many contested delegations have resulted from a difference in the watches of the chairman of the precinct and a few favored ones and the remainder of the qualified voters. Be ahead of time and wait at the place set for holding the meeting until it is held.

County Conventions
These are called in each county at the county Court House May 4th and the delegates elected the preceding Saturday compose the membership. The committees of the convention are important and are usually a committee on Permanent Organization, Credentials, Resolutions, and Delegates. The temporary chairman ordinarily appoints these, or there may be nominations from the floor. Anyone intending to nominate from the floor should have well laid plans and act quickly. A county is entitled to one vote at the State convention for every five hundred votes cast for the democratic candidate for governor in the last gubernatorial election.

State Convention
This is to be held Tuesday, May 25th, in Dallas. Only properly accredited delegates elected in the County Conventions will be entitled to participate in the proceedings of the state convention. Here are elected delegates to the

National Convention for every congressman and Senator that state sends to the Congress of the United States; each state sends two Senators. Texas sends eighteen congressmen, which gives us twenty votes in the National Convention.

Delegates
There is a courtesy custom which permits the election of practically as many delegates from each of these conventions as there are men and women whom the precinct, county or state desire to honor, simply binding them to vote as a unit, and with the understanding that the vote of the whole delegation will have no more value in the Convention than the number of votes the precinct, county, or state is entitled to.

PARMER COUNTY

BOVINA
Norman Wilson, J. T. McGee and Mrs. Mark Wells were business visitors in Clovis Monday.

On Sunday afternoon, April 24, Chester Vaughn and Miss Viola Englund were married at the home of the bride's parents. These popular young people of Bovina have many friends who wish them much happiness over the voyage of life. Rev. B. Y. Dickinson officiated.

Quite an epidemic of colds has prevailed here for the past few days. Bovina schools will close May 14, and preparations for closing exercises are being made.

Quite an exciting game of baseball was played here last Saturday, in which the married men and boys were contestants. The score resulted in 10 to 7 in favor of the married men. The boys are getting ready for revenge. Married men look out for your scalps!

Last Saturday at a call meeting of the representative church people of Bovina, it was decided to enter into a co-operative revival meeting, which will begin May 19, and continue through two Sundays. The meeting will be conducted by Evangelist Young and party, who are now in a great revival at Portales, N. M. Committees to look after the various phases of the meeting have been appointed and prayer meetings are being held, to get in readiness for a great revival. Among other things, a religious survey of the entire community will be taken. We are expecting this to be the greatest religious effort ever before undertaken in Bovina.

U. S. TO PAY ITS INSURANCE IN LUMP SUM

New Rulings Given Out Following More Liberal Provisions by Congress

Mrs. L. B. Brady, chairman of the Home Service Department of the Deaf Smith county Chapter, American Red Cross, asks The Brand to reproduce the following information from War Risk Insurance Bureau regarding life insurance for ex-service men:

United States Government Life Insurance (Converted Insurance) may now be paid in a lump sum at death. You may make your insurance payable to any of the following new and enlarged list of beneficiaries: Parent, grandparent, step-parent, wife or husband, child, step-child, adopted child, grandchild, brother, sister, half brother, half sister, brother through adoption, sister through adoption, stepbrother, step-sister, parent through adoption, uncle, aunt, nephew, niece, brother-in-law, sister-in-law; persons who have stood in the relation of a parent to you for a period of one year or more prior to your enlistment or induction, or the child or children of such persons; parent, grandparent, step-parent, or parent through adoption of your wife or husband.

Congress has just passed a law, which has been signed by the President, making more liberal the provisions under all Government life insurance policies.

You may reinstate your insurance within three months after the month of your discharge by mailing two months' premiums to the Bureau of War Risk Insurance without a written application or statement as to health.

You may reinstate your insurance within 18 months after the month of your discharge from the service by filling out, signing, and mailing with remittance to the Bureau of War Risk Insurance the reinstatement application blank. The only conditions are:

1. The applicant must be in as good health as at the date of discharge or at the expiration of the grace period on his insurance, whichever is the later date, and must so state on the application.

2. Instead of paying all premiums in arrears, you need only pay as under noted:

a. To reinstate your term insurance without converting, pay two monthly premiums with the application.

b. To reinstate your term insurance and convert, pay one month's premium on the term insurance for the amount of insurance you retain and pay the first annual, semiannual, quarterly, or monthly premium, as the case may be, on the converted policy which you select.

In order to convert a portion or all of your term insurance, also fill out and mail the conversion application with remittance. (For blanks see

Home Service workers.) All checks, drafts, and money orders should be made payable to the Treasurer of the United States, and, together with applications properly filled out, should be mailed to the Bureau of War Risk, Washington, D. C.

Examples: If you were discharged in March, 1919, and you have not paid any insurance premiums since that month, and in January, 1920 you wish to reinstate your insurance, you would pay two months' term insurance premiums on the amount of insurance you desire to keep, which would cover you to February 1, 1920.

If in January, 1920, you wish to reinstate and convert at the same time, say \$5,000 or insurance on the ordinary life plan, you would remit one month's premium on \$5,000 of term insurance and one monthly, quarterly, semiannual, or annual premium on \$5,000 of ordinary life insurance, which would cover you to February 1, 1920, April 1, 1920, July 1, 1920, or January 1, 1921, respectively.

For information about quarterly, semiannual, or annual premium rates, inquire of the nearest organization of ex-service men or volunteer agency, or write to the Bureau of War Risk, Washington, D. C. You are allowed a discount if you pay your premiums on United States Government Life Insurance annually, semiannually, or quarterly. Also, in making annual, semiannual, or quarterly payments you are relieved of sending a remittance every month, and there is less likelihood that you will permit your insurance to lapse. In the event of death or total permanent disability, the Bureau will refund all premiums paid beyond the month in which death or total permanent disability occurs.

Optional settlements in lieu of monthly installments of \$5.75 payable on the death of the insured under the terms of the policy:

Option 1. Insurance payable in one will be made only when selected by the insured during his lifetime or by his last will and testament. When such selection has been made the face amount will be payable in one sum at the maturity of the policy by death.

Option 2. Insurance payable in limited installments. The installments will be payable for an agreed number of months to the designated beneficiary, but if such beneficiary dies before the agreed number of monthly installments have been paid, the remaining unpaid monthly installments will be payable to the estate of the beneficiary.

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding Piles. Instantly relieves Itching Piles, and you can get restful sleep after the first application. Price 50c.

Announcing a

Change in Business

To My Friends and Customers:

Effective May 1, 1920, I will take sole charge of the business of the old firm of Miller & Fallwell, Mr. Jno. B. Miller retiring from the partnership.

All accounts on our books will remain the joint property of Mr. Miller and myself, and should be paid at this office in the usual way.

After May 1, I will run the business on a STRICTLY CASH BASIS. This is made necessary by our present unsettled and unusual business conditions.

Both Mr. Miller and myself want to heartily thank our friends for their liberal patronage during the past three years, and I earnestly solicit the continuance of that patronage and good will.

I promise one hundred cents worth of Goods and Service for every dollar spent with me, and a square deal all around for those who give me their business.

REMEMBER: I will carry Gas, Oils, Kerosene, automobile accessories, Hood and Federal Tires, etc., and throw in a good will and Service with each purchase that can't be beat.
