# THE 1919 FAIR WAS A DING HUMMER

### TURALIII WINS ON PASSES

For, while Hereford lost, at least three bright spots shone steadily throughout the game: first, that in Paul Jowell and Bruce Guthrie they possess as promising a pair of ground-gaining half backs as any high school team ever boasted, and secondly, that the Hereford line, after their first shyness were off, held like a stone wall against the lunges of the men from Swisher county, and third, we have a fighting team.

This was the very first game for fore, they looked like easy win-ners. Full back Walters also had a snappy forward pass down to perfection and long gains were the perfection and long gains were the result. Hereford's attack was directed mainly at the line, and little progress was the result. Tulia in the United States Army while pushed the ball over for a touch.

of specie payment was under discussion. And now, with respect to federal taxation, it might be equally pertinent to suggest that the way to reduce is to reduce.

There is widespread unrest in the country, due largely to the high cost of living. Many elements enter into the situation, but much more importantly than taxation. Secretary of the Treasury Glass has demonstrated that in 1914 federal taxes, on an average, amounted to less than \$36.75 a family, while now federal taxes amount to \$235 a family. This is an increase of 539 per cent.

The Republicans took control of Congress at the last election. The Missourian and not an Oklahoman, plea that entered largely into the campaign was that the party was composed of business men whose sagacity would be needed in rewill reduce taxes, the country was told. Let us make an examination of the progress along the line of reducing federal levies.

The Republican chairman of the House ways and means committee, the Republican chairman of the appropriation committees of the House and Senate, and Senator Penrose, chairman of the Senate finance committee, have submitted arguments to the effect that present expenses must continue indefinitely.

Secretary Glass has issued a warning to Congress that unless it reduces expenditures there must be another bond issue.

The war achievement of the American women who are being mobilized for the Third Red Cross construction. The Republicans stood that we either condone or Roll Call, November 2 to 11, in but which they backed up the country's fighting men, is revealed in the announcement by the Red Cross that in two years they produced nearly \$100,000,000 worth of surgical articles and garments.

It is estimated that 8,000,000,000 women and girls participated in this tremendous work and it is among them largely that the Red Cross is now recruiting 1,000,000 workers who will assist in the enrollment of members for 1920.

These women, affiliated with over 3,700 chapters, toiled early and late in homes and Red Cross work-rooms throughout the land, A Washington dispatch fur-nishes the information that in quacy of the slipper and the hair tributed the morale maintained in Allied countries through the assist-

> TOTHING like following up a good show with a good smoke Chesterfield.

> No ordinary cigarette, this. Mellow as an old friend, but rich with flavor-the kind that goes right to the spot.

Our own buyers in the Orient select for us the choicest Turkish leaf. We blend with this several varieties of specially selected Domestic tobacco. This blending-by a secret method-brings out new qualities of flavor that other and less expert methods fail to find.

That's what we mean by "satisfy"-an entirely new kind of smoking enjoyment that you get in Chesterfields only-nowhere else; for the blend is a closely guarded secret. It can't be copied.

### WHAT ONE CLASS IS DOING

Ten per cent of the weekly collection of the Loyal Men's Class of the South Dallas Christian Sunday School is put into a sinking fund by investing it in War Savings Stamps. The accompanying picture of the Class was taken Easter Sunday in celebration of the winning of an attendance contest over every other class in the school.

The Class has an active War Savings Society and meets every other Tuesday night... The Class also pays a regular amount toward the support of a Home for Aged Persons and is active in all lizes of church work, What this Class has done, others can do. The Sunday School Class which is also a War Savings Society is laying up money which may be needed at any time and which can always be secured—with interest—on ten days'

notice to the postmaster.

### BARGAIN

-AND IT'S WELL WORTH YOUR WHILE!

Through special arrangements with the manufacturers, and during this Bargain Week only, a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This is good ware (not cheap ware)—it's worth a lot to you. Come and see for yourself.

### AND REMEMBER-

The price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come, if ever, but there may be an increase soon.

### Majestic Ranges

At Our Store-One Week Only

### October 13-18, Inclusive

To Be Truly Economical There Should Be a Majestic in Your Kitchen

Economy is not merely spending the least money-buying a range at too low a price is indeed false economy. The FIRST cost is not the only cost—the little additional first cost of a Majestic is nothing compared with its economy of fuel, durability and satisfactory service.

Nearly a million Majestic Ranges, now economically, scientifically and satisfactorily serving millions and millions of people, civilians and soldiers, is proof positive of their superiority over all others.

There is only one best. The public has judged. The Majestic is recognized as the standard of all ranges. The construction, material, workmanship and beauty of this wonderful range is unequaled, and it embodies important features possessed by no other range.

### Your Opportunity Is Here—

At our store during our Majestic Bargain Week. It's your chance to get acquainted with real facts about ranges. We assure you it will be worth your while to investigate.

### TWO NEW AND IMPORTANT FEATURES

### THE WONDERFUL UNSEEN RIVETING

Yes, it's rivet-tight, just like the old Majesic, but the rivets clinch inside of nickled parts, leaving nickel smooth as glass, and there are no big, bulky bolt-heads on the inside. And, remember, rivets hold tight; bolts with only one or two threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's striking beauty—more than skin deep.

### OH, JOY! TOP NEEDS NO BLACKING

A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt and worry of trying to keep the range look-ing nice—just an occasional thin coat of paraf-fine retains its beautiful velvet blue color.

IF YOU HAVEN'T A MAJESTIC, AVAIL YOURSELF OF THIS OPPORTUNITY TO GET ACQUAINTED WITH THIS WONDERFUL RANGE—KNOW THE INSIDE OF RANGES

A constitutional provision is needed, making each County a unit for certain School purposes and requiring each to levy some local taxes and permitting it to vote still more for the support of the local schools.

In this way, our non-resident landowners could be compelled to help support the Schools. Under present conditions the West Texas counties are pouring into the State School Fund many times more in taxes than they get back, and at the same time have to levy local taxes to the limit to maintain their Schools. While the East Texas people, in many localities levy no local taxes, but maintain their Schools outsof the amount they get out of the State Fund.

We need a new Constitution. Let's try to get it, and let Texas develope.

### **Pure Bred Sire Campaign Grows** In Popularity

Reports from many parts of the country indicate that the nationwide crusade for better live stock through the use of pure-bred sires of good quality is continuing to win enthusiastic recruits. Arizona has attested its interest by asking for 1,000 enrollment blanks. A professor of animal husbandry in Kentucky writes that, though he lives in the midst of a bluegrass county, far famed for its fine breeding, he feels that there is need for the crusade in his locality

and offers to help drive out the serub sire. South Carolina estimates that about 800 live-stock wners will banish scrub sires from their farms within the next year.

This association has only in this section and seven years ago, been in existence this year but in that time plans have been formulated and completed which will play an important part in the fuplay an important part in the fuplay and locating them on the Springvale Hreford farm, seven miles east of the city of Hereford, on the Terra Blanca. This herd was later sold to Mr. T C. Ivey. who held the herd for more than two years and later sold the herd to Jones and Dameron, of Hereford. The reader may get some idea of the value of the pure bred stock raised in Deaf Smith county when it is stated that this herd of 90 head brought in the neighborhood of \$135,000 or approximately \$1,500 per head. This herd is headed by Beau Mischief.

In addition, Mr. C. R. Barber has about 50 head of Anxiety cattle selected from the Jowell and Jowell herd. This herd is headed by Beau Randolph 2nd, a son of \$7,000 Beau Randolph and out of a Beau President dam and also by Domintor, by Domino out of a Beau Modest dam. To show the value of the Barber herd he has made several calf sales last month, these animals bringing from \$750 to \$1,000, this being the price on animals from two to six weeks old. These calves were from Beau Randolph 2nd, this animal proving to be one of the greatest breeding bulls in the thoroughbred country. ### Baskin Land Co.

The real estate men of today located in the Panhandle country have played an important part in the development of the vast field of resources which exist in this section of Texas. They have spent their time and money in acquainting the people on the outside with the conditions as they actually exist here. They have been responsible for attracting many people to this section who have purchased lands, developed them and today are among the most influential and leading citizens in this section and principle among these institutions is the Baskin Land Company of Hereford.

This institution under the management and direction of Leslie Baskin has played an important role in the development of the Hereford country. In the first place Mr. Baskin has had ' absolute-confidence in the future of this country himself and in encouraging others to locate in this section he has been very careful in his representations in order not to mislead, as some of the more unscrupulous foreign real estate dealers did here in an early day and this method of doing business has established for the Baskin Land Company the reputation of thorough reliability and dependability.

The Baskin Land Company maintains one of the most elegantly furnished offices in this section of the Paphandle. It is a clean and inviting place and one which has a decided metropolitan air about it. Lounging rooms have been provided equipped with lounging chairs and the entire office is equipped with all classes of office furniture. Personally, Mr. Baskin is pleasant and fair in his business dealings and all these things coupled together makes this institution one of the important factors in the development of the resources of Hereford and Deaf Smith County.

With the coming of oil development, Mr. Baskin has shown himself abreast of the times and has installed an oil exchange with maps, geological reports and everything of interest to those interested in the oil business in this section. He also deals in oil stocks and leases and is the center for oil operations for Deaf Smith County.

The Baskin Abstract and Title company is also a part of this business institution and in this connection it might be said that Mr. Baskin has the name and address of the owner and the description of every foot of land in Deaf Smith county, which few companies can boast of. The company turns out abstracts and title work which is par xcellent and thoroughly reliable.

The Baskin Investment Company is also a part of this institution and handles all classes of good investments, oil leases, royalties, stocks and securities. This institution makes the finding of drilling sites for oil and gas wells a specialty.

Mr. Baskin also has money to loan, buys notes, handles extensive ranch lands and does a general real estate brokerage business. The business has been established here since 1906 and there is probably not a man in this community that is more familiar with actual industrial conditions than Leslie Baskin. He takes an interest in letting people on the outside know what are the opportunities here for investment and answers all correspondence promptly in an intelligent manner without inflating conditions in the least. He is, without question the leading real estate broker of this section of the Panhandle country.

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught, Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.— Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, it was one of our family medicines. Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it,

we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, billousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thedford's the original and genuine. E 79

STATE CONFERENCES RECENTLY HELD IN SIX CITIES TO DISCUSS PLANS.

FIGHTING MEN VOLUNTEER

Responses by the Hundreds Pouring In to Appeal For 1,000,000 Workers.

Mobilization of the vast army of Red Cross workers has begun. Reports reaching Red Cross division headquarters in St. Louis indicate that plans for the Third Roll Call, November 2 to 11, are well under way in almost every one of the 655 Red Cross Chapters in the five states-Missouri, Kansas, Texas, Oklahoma and Arkansas - comprising the Southwestern Chapter Roll Call Directors have

been appointed in virtually every city, town and county and with but few exceptions working organizations are in process of formation at each place. State Directors have been appointed to take charge of the rapidly forming machine. Added impetus has been given to the preliminary campaign by Mary Von Negelein, to G. H. Tuson, part of the N. E. 1-4 of Sec. No. (9) in Blk. K-8 Deaf Smith City and Little Rock, at which definite the holding of State-wide Roll Call

is the slogan adopted. Soldiers, full much as they finished in 2th place in the Town of Hereford and addition; Many of these men will be utilized.

Many of these men will be utilized. Cross in the field of hostilities.

During the first part of the campaign there will be a house-to-house canvassing for Red Cross memberships under a distinct arrangement; but on the last two days district lines will be disregarded and former service men as well as women volunteer workers will take up their tasks with roving commissions. Not only are discharged service men wanted as Red Cross canvassers but State and National Guardsmen are urged to enroll as quickly as possible. The Red Cross welcomes assistance of all former Army and Navy officers and men who approved of the work Red Cross during the war.

Speakers and writers are being sought by the organization and asked to "do their bit." Numerous acceptances already have been received from speakers and at present a determined effort is being made to obtain the services of all newspaper men who saw service overseas and are qualified to speak or write of their adventures. A Preliminary campaign is being waged through text posters and other printed matter that has been sent to throughout the country.

Red Cross officials are stressing the point that the frive is to be made for memberships only and that no appeal is contemplated wherein the general public will be asked for funds. An encouraging number of public spirited men and women through the division already have applied at Red Cross Chapters asking a renewal of their memberships for next year.

ONE NAMED "THE SPIRIT OF AMERICA" BY ARTIST.

Foremost Painters Portray "Greatest Mother in the World" and Red Cross Nurse.

The services of some of the foremost artists in the country have been obtained in connection with the Third Red Cross Roll Call, November 2 to 11: Posters by Howard Christy and Haskell Coffin are features of a preliminary text poster campaign that is being inaugurated

The Christy poster is entitled "The Spirit of America." A silken flag— the National Colors—forms the background in front of which stands the appealing figure of a Red Cross nurse. At the bottom of the poster is a large red cross and the inscription "Join."

The Red Cross nurse is also the subject of the poster by Coffin. This is in pastel shades and portrays one of the merciful workers with arms outstretched in supplication. The poster bears only the inscription "Third Red Cross Roll Call." Another poster has to do with the better health program of the Red Cross and has the 'Greatest Mother" as a background to a text which reads "Make our Red Cross in Peace as in War - The Greatest Mother in the World."

More than 40,000 window displays are being prepared for use in mercan-tile stores throughout the country. artment stores in the larger cities have promised to feature these displays during the Roll Call period. Special moving picture slides and motion news pictures have been arranged for and will be provided for use prior to and during the campaign.

10,000 SHARES---\$10.00 EACH FULLY PAID AND NON-ASSESSABLE

### A Company Actually Drilling

on one of the largest structures in the State of Texas. It has been said by many prominent seologists that somewhere in this section of the country there runs a strata of the same enormous production as that found in the Famous Burkburnett Field.

### We Have Contracted to Drill 3600 Feet If Necessary

Our holdings are good—our capitalisation is small—and the men at the head of our company are men of honesty and integrity. . The men in charge of our drilling are men who have spent the greater part of their lives in the oil business.

How would you like to be a stockholder in this company?

The Amarillo Oil Co., organized a few months ago at \$10.00 per share, now quoted at \$1150.00 per share. An example only 50 miles from Hereford. IT WAS A WILD CAT WELL. The Fowler Farm Oil Co., the company that drilled the well that started the big rush to Burkburnett, July 26, 1918, sold their holdings on March 26, 1919, to the Masnolia Petroleum Co. for \$1,800,000. Each original stockholder received \$15,000 for each \$100 invested. IT WAS A WILD CAT WELL.

With less than \$500.00 cash and only an old rig, Frank Chelsta and Robert Galbreath drilled the first well and discovered the Glen Pool, which was the largest oil pool in the world until the Cushing Field was discovered. A few days later they were offered \$2,500,000.00 for 80 acres of their lease holdings. IT WAS A WILD CAT WELL. \$100.00 invested in Hog Creek brought \$23,000.00.

The oil fields of Texas have proven a vastly richer strike for more people than ever did Cripple Creek Goldfield, the Yukon, or any of the fortune producers of the great rushes in years some by. The oil belt of Texas has literally proven to be the pot of gold at the end of the rainbow and her people have reaped a golden harvest. We are in the oil business to make money for ourselves and all those who have the nerve and conviction to co-operate with us.

The geologists say we will strike four oil bearing sands between the surface and 2200 feet. We should be nearing our first one before many days. Don't wait until then and expect to buy at par, for every time the drill goes deeper the stock goes higher. We have an allottment of 2,000 shares at par. BUT BUY NOW. You can't wait until we strike and then wish yourself a few shares. We don't want the money of the weak or those unwilling to take a chance. We want a few people with red blood to put their money in with us and share in our profits. Don't send your money away to develope other fields. Make your dollars work near Hereford. You are welcome to see where your money is going. WATCH US DRILL.
