20th YEAR, NO. 2

HEREFORD, DEAF SMITH COUNTY, TEXAS, FEB. 5, 1920.

TWO DOLLARS A YEAR.

REDPATH-HORNER GIVES OUTLINE OF CHAUTAUQUA FOR HEREFORD IN 1920

FIVE DAYS OF RARE ENTERTAINMENT PROMISED
THOSE WHO ARE FORTUNATE ENOUGH TO
MEET UNDER THE BIG TENT

STARTING DATE IS GIVEN AS MAY 23

Features Are Big Musical Organization, a Scotch Program,
and the Cream of the Leading Lecturers From All
Corners of the United States

The Redpath-Horner Chautauqua people, who will put on the 1920 Chautauqua at Hereford, has outlined the following tentative plans for this point the coming spring. This information is contained in a letter to the local Secretary:

"We hope to begin our Chautauqua about May 23rd. We have worked for months getting this Chautauqua dated in the most economical manner. We have added towns here and cut others out there in order to make shorter routing and easier travelling. This is absolutely necessary owing to present difficulties of transportation. Besides we had to save on travelling expenses because we felt it necessary to put more money into the program.

"So the above date seemed to be the best, taking everything into consideration.

"I would like to tell you in advance some of the striking features of the 1920 program and later I hope to write to others in your community. Here are some of the more interesting attractions of your program:

"Dr. F. E. Gordon, in a lecture of sunshine and kindness.

"Dr. E. C. Mobley, publicist and civic leader, in a spiritual interpretation of present conditions.

"H. L. Fogleman ("Gatling Gun" Fogleman), America's leading speaker on business efficiency.

"Dr. R. E. Pattison Kline, who speaks from the standpoint of a scholar and leading educator.

"Marie Van Gestel, who will return from Belgium in time to give the last word on European conditions.

"Dr. Frank L. Loveland, in his new "100 percent American" lecture.

"Dr. Hilton Ira Jones, in a wonderful application of modern science to our own lives.

"J. Franklin Cavney Company, ranking first among the entertainers of the A. E. F.

"Jess Fugh, best known entertainer on American platform.

"Helen Waggoner, a new star in the entertainment field.

"Baldy Strang and his new company in a great Scotch program.

"Herbert Leake and company, musician and entertainer.

"Winston Wilkinson, co-star with John McCormick.

"The big musical feature will be a company of sixteen to twenty singers and instrumentalists, giving the most elaborate musical program ever offered on the Chautauqua, and finally, the great Metropolitan play, to be chosen from the following list: Young America; Believe Me, Xantippe; The Wolf; Stop Thief.

"In the meantime if you have any suggestion or advice, may we hear from you as soon as convenient."

CENTRAL TIME MAY BE RESTORED SOON

AMARILLO, Jan. 4.—A majority of the people who reside in this section of the country are in favor of changing back to the old Central time. It has been pointed out, that in truth the Panhandle is in the Mountain zone, still on account of commercial relations, our people feel that a change would greatly aid the average citizen.

Letters from all sections of the country are pouring in to Secretary Jamison, and fully nine-tenths of the writers favor the change. A meeting, under the auspices of the Panhandle-Plains Chamber of Commerce will be held February 17, and it is thought that the question will be settled on that date. Delegates from every Panhandle county are expected to be present at that time.

WEATHER AND FLU DELAY OIL CREWS

Reports from the field state that both Texas-Panhandle No. 1 and the Muse wells are having trouble with casing and not making the progress they should. The "Flu" seems to have hindered the Hereford Oil & Gas people very much. Driller Haught is ill and much delay has been caused thereby.

It is not believed that there will be much progress made on any of the wells until the influenza situation clears up and spring weather arrives.

NEW EXPRESS AGENT INSTALLED FEB. 1ST

A change in Express Agents occurred at Hereford on February 1, when A. A. Holloway, who has been Agent here for some time past, was checked out by Sank Ramey, who succeeds him. The office was also moved to the building on Main street formerly occupied by the Rice Tire shop.

Mr. Ramey comes from Roswell, N. M. and is an experienced man. Mr. Holloway has been transferred to a position in the Amarillo office of the company.

THREE CENSUS ENUMERATORS ARE AT WORK

After Many Difficulties the
County's Poll Strength
To Be Known

James H. Caperton, Supervisor of the Census for the Eighteenth District of Texas, writes the Chamber of Commerce under date of January 31 as follows:

"For the various enumeration districts of your County I have appointed the following enumerators:

"E. D. 52, Justice precinct 1, excluding Hereford City (John S. Wyche), E. D. 53, Hereford City (Norman C. Vogele), E. D. 54, Justice precincts 2, 3 and 4, (Harold C. Jackson).

"Mr. Vogele is actively at work looking after the enumeration of your city and I shall say that the work he is doing there is entirely to my satisfaction.

"Messrs. Wyche and Jackson have just been appointed and all supplies have been forwarded to their addresses and while I am not positive that they will accept the territories to which I have assigned them, yet I sincerely hope they will do so, and if not asking too much of you I should like to have you look the gentlemen up and if there is any doubt of them not accepting, then please try to urge them to proceed with the work.

"Now, should we succeed in getting the gentlemen started off in the work, then we soon will complete the enumeration work of your County.

"Thanking you for whatever assistance you may be able to render me, I am,

AIRPLANE FALLS BUT PILOT AND PASSENGER LIVE

The news from Plainview of an accident to one of the airplanes belonging to the Panhandle Aerial Service and Transportation Company last Sunday, in which the pilot and passenger were injured caused much interest here, as this Company carried passenger in an exhibition flight at Hereford not long ago.

The Amarillo News of Tuesday morning carried the following account of the accident:

"PLAINVIEW, Texas, Feb. 2.—Dropping slowly in a flat spin a distance of a thousand feet, a plane, under management of W. K. Whipple, was wrecked here at 4:30 Sunday afternoon. Lee Boyd, traveling salesman for a packing house, a passenger, received injuries about the head and is suffering from shock while Pilot Hines, who was in charge of the ship, is also in a local sanitarium suffering from a broken leg and cuts and bruises. A report from the hospital this morning stated that both patients had passed a most satisfactory night.

"It had not been determined today just what caused the accident and it is doubtful whether the real facts will ever be known. Characteristic of air accidents, neither of the principals remembers anything of what occurred prior to the crash.

"As soon as the affair had been reported in Amarillo, General Manager Whipple accompanied by S. M. Ramsey went to Plainview and there saw to it that every possible service should be rendered both the patients. He expressed the deepest regret over the entire affair.

"We are paying our pilots the highest salaries to be had for that class of work and we feel that we have the very highest class of men in charge of our ships," he said. "The very best of care is taken of the ships and our one rule is 'Never take a chance'.

"Ships with which I have been connected in more than a year have carried around 8,000 passengers. The accident yesterday is the first in which a passenger ever received a scratch. All pilots have strict orders never to stunt a ship and the manner in which the plane behaved yesterday indicates that something occurred in the air over which the pilot had no control."

BROOD SOWS MAY BE IMPORTED IF REGULATION MET

C. C. French, representing the hog department of the Fort Worth Stockyards Company, spent Monday in Hereford, conferring with hog men and bankers relative to the possibility of introducing a carload or more of immunized, bred sows onto the farms of the county.

The visit uncovered the fact that some quarantine regulations are absolutely necessary if this profitable industry is ever to grow to the proportions it deserves. For the first time in the history of this section there is some hog cholera scattered around, and the final decision Monday was that it will be necessary to stamp it out and then arrange to prevent any recurrence of the disease before the time will become ripe to introduce brood sows into the county.

Mr. French suggested that the remedy was for the county officials to take up with the State Livestock Sanitary Commission the matter of appointing a competent registered veterinarian in this county as its representative, so that the law regarding shipment of hogs and their immunization shall be enforced. In all probability this question will be taken up as soon as the flu situation clears and business matters get back to a normal basis.

The stockyards people propose to furnish this county with young sows, picked by experts from the shipments received in the yards, the hogs afterwards being given the double serum treatment, held for thirty days to observe its effect, and sent here at actual cost to the stockyards. It is unanimously agreed among the hog men and farmers of the county that this will be excellent forward movement for the county as a whole, provided the laws regarding immunization and prevention are fulfilled at both ends of the line.

"Spectators said that the plane first appeared to spiral down to the field, the pilot having cut off his gas. It did begin a spiral but an instant later it straightened out and began to spin.

"A late telephone message from Mr. Whipple said that both patients continued to show improvement during the day."

LAMB AND SHEEP FEED WORK ON THESE PLAINS HAS BIG POSSIBILITIES

INFANT INDUSTRY WITH LARGE PROFITS IN IT
LITTLE KNOWN TO THE GREAT MAJORITY
OF OUR FARMER-STOCKMEN

SURE WAY TO PROFITABLE MARKET

Present Season In Ground Practically Insures Big Grain
Crop In 1920, which Is Best Harvested Through
the Feed Lot and Bunch of Lambs

ARMY HEADQUARTERS PUSH SCHOOL PRIZES

Capt. R. F. Anderson, of the Army Recruiting Service, Headquarters in El Paso, Texas, has established a temporary base in Amarillo. He is engaged in promoting interest in the great essay contest of school children throughout the country, to be held February 20th, next.

The War Department is determined that the people shall learn about the New Army, which is coming into being. This New Army is a great institution of character building, of physical, educational and vocational training.

Until March 31st, 1920, any man enlisting may secure assignment to any regiment of Infantry, Cavalry, Field Artillery or Batt. of Signal or Engineer Corps, stationed in the U. S. He still has his choice of Philippines, Hawaii and Panama, and the First to Seventh Division inclusive.

In addition the War Department is making an allocation of regiments to States for Recruiting purposes, to afford opportunity for men from the same State to serve together. Texans are desired in the following regiments: 2nd Engineers, Camp Travis, Texas, 9th Infantry, Camp Travis, Texas, 17th Field Artillery, Camp Travis, Tex., 37th Infantry, Fort McIntosh, Texas, 14th Cavalry, Fort Sam Houston, Tex., 3rd Infantry, 1st Battalion, Del Rio, Texas, 2nd Battalion, Fort Sam Houston, Texas, 3rd Battalion, Eagle Pass, Texas.

With the experience of past years to prove that sheep do well and are a paying proposition in this country, and with another bumper feed crop practically assured, the following article on feeding fall lambs for the market and thereby harvesting the grain crop on the hoof is extremely timely. The author of the article is A. G. Bell, of Hereford, who has had years of practical experience with sheep in the Panhandle. The Brand hopes to induce Mr. Bell to publish further articles on the various detailed points involved in handling sheep in this country.

Lamb and sheep feeding in the Panhandle is possessed of possibilities little known by the great majority of our farmer stockmen.

With us this great industry has heretofore been almost untouched except in a few instances where the experiences of a few feeders have proven the great success of such an undertaking.

Lamb feeding has become in recent years one of the most attractive resources on many a well regulated farm. In almost every community where an abundance of feed is raised lamb feeding is becoming more and more popular. The Texas Panhandle is admirably situated and climatic conditions are ideal for the successful development of this great industry, the essentials of which are, the securing of the most desirable lambs to feed, the proper feed and the scientific balancing of these feeds into a proper ration and the proper care in handling the lambs from feed lot to market.

The day is fast approaching when we will be in the heart of sheep production, making it an easy market to secure desirable feeders from nearby ranges, being a very great advantage over the locality where feeders are shipped in often from great distances necessitating a heavy shrinkage in flesh as well as adding materially to the cost in the way of freight bills.

Few realize that the very best feeding lambs to be had are at our very door in New Mexico.

Experiments have proven that our native grain sorghums with the addition of a small portion of cotton seed meal will furnish admirable rations for sheep feeding, making profitable gains and imparting healthful conditions throughout the feeding period.

Lamb feeding is a simple, easily accomplished industry and should be encouraged by every community organization.

For the sake of brevity I have omitted the details of operation, feed preparation, equipment, etc. Will add, however, that the feeding period usually extends over about one hundred days always during the winter months when other work is not so pressing.

With a big surplus of feed there is no surer way to a profitable market than through the feed lot with a bunch of sheep or lambs. The outlook for the next several years is very bright for feeding operations and every farmer should avail himself of the most profitable route to market.

SCHOOLS MAY OPEN AGAIN MONDAY NEXT

The Brand was informed by Secretary J. Frank Potts, of the School Board, that it has been decided to reopen the public schools next Monday, February 9, provided the influenza situation clears up by that time. Mr. Potts stated that if there is no improvement by that time the children could be turned back from school Monday.

W. B. SOWELL SHOT TWICE AND KILLED

C. H. Barrett Surrenders and
Is Released on Bond In
The Sum of \$5,000

W. B. Sowell, aged about 35 years, a stock farmer, was shot twice last Sunday morning about eight o'clock and expired almost immediately. The tragedy occurred on the C. H. Barrett place, about sixteen miles north of Hereford. The weapon used was a .380-automatic revolver. One bullet entered Sowell's breast at about the center, and another the fleshy part of his right arm and body.

Immediately after the shooting C. H. Barrett telephoned Sheriff C. S. Purcell. Upon the sheriff's arrival Sowell was found to be dead. The body was brought to the Black Undertaking Parlors in Hereford, where it was prepared for shipment Tuesday to Lubbock, Texas, the home of his parents.

C. H. Barrett surrendered to Sheriff Purcell and was brought to town. He was arraigned before County Judge Jas. A. Hughes and bail allowed him in the sum of \$5,000, which was furnished.

Sowell, whose brother, John, married Barrett's sister, was working on Barrett's place on shares. Their houses were only a short distance apart. The Brand does not know just what caused the trouble, or whether there were eyewitnesses, but the general supposition is that business troubles were responsible.

Sowell leaves a widow and small boy of about ten. Barrett, who has been ranging in this country about four years and, it is understood, came here from Oklahoma, also has a wife and boy.

The Brand was informed by Secretary J. Frank Potts, of the School Board, that it has been decided to reopen the public schools next Monday, February 9, provided the influenza situation clears up by that time. Mr. Potts stated that if there is no improvement by that time the children could be turned back from school Monday.

TEXAS POOL HALLS OUT OF BUSINESS

Chief Justice White of the Supreme Court of the United States this week uttered two words which closed every pool hall in Texas and leaves their ultimate fate up to the Supreme Court of the land, which now has under advisement a motion to declare the pool hall law of Texas unconstitutional.

The two words which closed the pool halls in Texas for all time, unless the law should hereafter be held invalid were "Motion Denied". The motion made was submitted by attorneys for the pool halls to allow the halls to operate until the suit could be settled.

Sick at Kansas City
Nestor Gass, who left last week to spend a few days in the Kansas City Markets is suffering an attack of Flu according to a message received by his father, D. R. Gass, from Kansas City Wednesday.

INFLUENZA SITUATION IS RAPIDLY IMPROVING; THREE DEATHS IS TOLL

As the result of the epidemic of influenza in this vicinity the past ten days three deaths had occurred up to Wednesday of this week. At that time the epidemic seemed to be held in check, with a few new cases, and much improvement among the earlier sufferers. The picture show and churches are still closed, and Dr. W. E. Hicks, City Health officer, stated Tuesday that in his opinion it was unwise to attempt to reopen them or hold any kind of public gatherings for the time being in a final effort to stamp out the disease. In a vast majority of the cases this year the attack has been light, more like the Grippe than influenza, and the serious cases have almost entirely developed from too big a hurry to get up and about.

The entire community sorrows with the families of the victims mentioned below. Everything that medical skill could do was resorted to to save them without avail:

G. Bascom Hughes
G. Bascom Hughes died Monday, February 2, of pneumonia, following an attack of influenza. Funeral services were held from the home of his brother, A. F. Hughes, Wednesday afternoon at 3:00 o'clock, conducted by the Rev. J. M. Asbell.

Mrs. Ray E. Smith
Mrs. Ray E. Smith, of Hereford, died Wednesday, February 3, of pneumonia, following an attack of influenza. The body was shipped to Ridgeway, Mo., February 4, for burial.

Besides her husband, Mrs. Smith is survived by her mother, Mrs. Kaupmann, of Ridgeway, Mo.

Mrs. Mattie Robertson
Mrs. Mattie Robertson, aged 40, wife of J. M. Robertson, of Hereford, died at her home on a farm two miles north of Hereford Monday, February 2, of pneumonia following influenza. The body was shipped to Mont Alto, Pa., her former home, for burial.

Besides her husband, Mrs. Robertson is survived by a daughter, Birdella, and two sons, George and Paul.

Deceased is survived by two daughters, Velma, aged eight, and Winnie, aged four, his parents, Mr. and Mrs. A. G. Hughes, of Lakeview, Texas, three sisters, Mrs. Ira Ricketts, of Hereford, and Misses Ruby and Mabel Hughes, of Lakeview, and five brothers, A. F. Hughes, of Hereford; Alfred, Ernest and Aubrey Hughes, of Lakeview, and O. F. Hughes, a soldier at Eagle Pass, Texas.

TOTAL OF 902 POLL TAXES PAID IN THIS COUNTY, OF WHICH 601 ARE MEN, 279 WOMEN; 22 EXEMPTION CERTIFICATES

The final check on polls paid to County Tax Collector Purcell shows that the total is below that of 1919, although it is pointed out that the soldier vote of the county, exempt from payment by state law, and amounting to around 600, will carry the number of polls over the 1919 figures. No figures for the city have been obtainable as yet, owing to illness of the City Secretary. The county polls, by precincts, follow:

Precinct 1—208 men, 59 women, 5 exemptions	272
Precinct 2—282 men, 204 women, 12 exemptions	498
Precinct 3—10 men, 1 woman,	11
Precinct 4—18 men, 4 women, 1 exemption	23
Precinct 5—23 men, 8 women, 2 exemptions	33
Precinct 6—33 men, 1 woman, 2 exemptions	36
Precinct 8—8 men,	8
Precinct 9—6 men,	6
Precinct 10—13 men, 2 women,	15
Totals: Men 601, Women 279, exemptions 22	902

WOODBURN HOME SOLD TO NEWCOMER

Announcement was made this week that L. B. Feehan of Fort Wayne, Indiana, has purchased the E. T. Woodburn home on Twenty-Five Mile Avenue, and will move his family here at once. His family consists of a wife and six children. He is much interested in local irrigation and will probably purchase an irrigated farm later on. The sale was made through J. S. Warner.

Colonel E. T. Woodburn built this big eight-room residence thirteen years ago. He states that with all his children away with the exception of his daughter, Miss Mattie, the house is too large and that after visiting his children for a time he intends to purchase a small cottage.

THE SILENT VOTE

Twenty years ago a young man, born and reared in Texas, of Democratic forebears, and reaching the voting age, was expected as a matter of course to vote "the straight Democratic ticket". To do otherwise; to even hint the thought of supporting "men or measures," was considered political heresy. That young man, was marked as a blacksheep or a "mug-wump" and the pity or scorn of his fellows was his portion.

In this year of our Lord, nineteen hundred and twenty, if all signs fail not, this "mug-wump" or "great silent vote" will be the deciding factor in the election of the President of these United States.

Dr. Edward Howard Griggs, a widely known lecturer of New York, in an address at Dallas on Sunday last, discussed this decay of party loyalty and pointed out that it has come about through many changes of policy that have been adopted since the organization of the two main parties of the nation.

"As we all know," said Dr. Griggs, "the two parties originated out of the differences brought on by the division of the North and South in the '60s. The Republican party was organized, primarily, on the basis of a belief in a strong, centralized form of government, and the Democratic party on the basis of a belief in the sovereign rights of each individual State. And yet the greatest accession of power that has come to a President of the United States since the Civil War has come under the present Democratic regime. Those who dared take a stand on a non-partisan basis in the early days were called 'mug-wumps'. Today they are 'the Great Silent Vote'. They are the men who say that so long as the party to whom they belong does those things and stands for those things that make for the best interest of the Nation as a whole, 'We'll stand with you,' but who will knife any movement or

platform plank contrary to their conviction and integrity even though it be upheld by the party to which they belong. In men of this type lies the hope of sound government for our Nation." The news dispatches of this week carry the threat of the supporters of Herbert Hoover to organize a third party, with the former Food Administration at its head. The great Saturday Evening Post, and other national publications, are openly and vigorously calling for Hoover, or a man of his stripe, affiliated with neither Democratic nor Republican party, but standing on a "business" platform. The statement is published broadcast that modern conditions have so altered the nation's everyday affairs that both the old parties are parties in name only and without virility or power.

We are living in a motion picture age; a 1920 political panorama in twelve reels holds the stage. The "mug-wump" of 1900 seems to be the man of destiny in 1920.

"IF"

The little word "if" has attained a position of dignified importance in the world's affairs. The news dispatches tell us daily, for instance, that the Senate in Washington will ratify the peace treaty, but connected with the statement there is always an "if."

"If" seems to be the difference between something and nothing. The country might now be at peace with the world "if" only it had recognized the wisdom of electing a Congress sympathetic with President Wilson's ideals.

A little while ago America was a nation with a bluff, and big things were accomplished. We have now become an "if" nation, and we constantly find ourselves in the position of being about to do something "if" a political advantage can be gained by doing it.

Astronomers are divided into two schools. One claims that if some other planet is signaling us it is Venus, while the other school maintains it is Mars that is trying to send the earth a message by wireless. This question ought to be settled before it becomes a presidential issue and, if possible, before the Senate starts to debate about it.

The fact that 34 of the 40 Sultans who have ruled the Ottoman empire since the conquest of Constantinople by the Turks have met death violently is only one of many reasons why we have no desire to be Sultan of Turkey.

Time is fleeting, the poet tells us. Yes; it is only a short time now until Mayor Knight again will call upon the good citizens to "cut the weeds."

Political Announcements

The following candidates authorize us to announce them for the office under which they are listed, subject to the action of the Democratic Primary:

- For County Judge:**
Jas. A. Hughes (Re-election)
- For Sheriff and Tax Collector:**
Omer Baker
Geo. W. Cloyd
C. S. Purell (Re-election)
W. A. (Will) Carroll
- For County and District Clerk:**
A. L. (Leg) Biggs
Cliff Estes
E. H. (Ezra) Norton
- For Tax Assessor:**
C. E. Lester (Re-election)
- For County Treasurer:**
J. J. Ward (Re-election)
J. H. Wilson

ANOTHER EXAMPLE

The Clovis News says: "All Curry County is proud of the showing made by the boys and girls who went to State College last week to represent Curry County in the State Club meet. These boys and girls from this county got just about all the prizes in sight and their success is rejoiced in by everybody in the county. Many of the other counties of the state have had organized club work longer than Curry, and the winning of all the prizes at this time reflects great credit on the boys and girls as well as the Club Leader, Mrs. C. V. Steed."

The progressive farmers and business men of Curry County maintain a County Agent and a Home Demonstration Agent also.

Deaf Smith County is without the services of these trained helpers for the boys and girls!

The Chicago window washers went on a strike the other day. They demand forty-eight dollars for a week of forty-four hours. We haven't heard the demands of the Hereford window washers, but they must be outrageous for we can still read some of the signs put on during the halloween activities.

Senator Gore of Oklahoma is advocating a law which will bar from interstate films the depict criminal acts, criminals in action or anything that is illegal. Why not abolish moving pictures entirely and be done with it?

It is reported that Jack Dempsey, champion prizefighter, will get \$500,000 to fight in France, which leads to the conclusion that his reason for not fighting there during the war was purely financial.

The Berlin police disperse anarchist mobs by throwing bombs into their midst. If you want to get an anarchist real angry, treat him to a dose of his own medicine.

Duty of U. S. to feed starving Europe, says a headline. Very well; supply the panhandle with 20,000 box cars to carry away the surplus production, and we'll do our part.

A Yonkers, New York, woman is suing her husband for a divorce "because he was so good he was impossible." It certainly is hard to please 'em.

Herbert Hoover's presidential boom was given a big boost the other day. Senator Jim Reed of Missouri came out against him.

Pictures we have seen lead us to suspect that I. W. W. stands for "I wear whiskers."

5,000,000 COUNTRY GIRLS

There are 5,000,000 country girls in the United States, that is, girls living outside of cities in rural and small communities, according to figures given out by the National Young Women's Christian Association. In Texas, Oklahoma and New Mexico, which constitute the Southwestern field of the Y. W. C. A., it is said that 85 per cent of the population do not live in cities and that 75 per cent of the girls in these states live in the open country and small towns.

The Y. W. C. A. is making a rural survey, with the ultimate aim of reaching the social needs of girls and women living in the country and of developing a community interest where people are not brought together by such varied interests as in towns and cities.

Special subjects of the survey include home, personnel, house and conveniences; work of the home; home conditions of women and girls; source and amount of money expended on the farm during the year; recreation; religious and social opportunity; young people's and women's organizations; vocational opportunities for women and girls; health; attitude of women and girls toward moral conditions.

These surveys will be made in at least four sections of the country differing in geographical and other conditions. It is said that surveys made by religious and social bodies and by the government give almost no data concerning the life of women and girls.

The Government has made admirable investigations showing such things as the value of farm products and the hours of men's labor, says the Y. W. C. A., but the survey to be undertaken by the Association is different in that it is based on the survey work of the Interstate Relation Service of the Govern-

Service, Courtesy Reliability, Clean Merchandise

These are principles upon which our store is built.

CARE OF CLOTHING

Children should be taught that care of clothing means not only saving of time and labor but saving of money. Clothing, when taken off, should be folded or hung properly, not dropped on the floor. Make it easy for the children to take care of their garments by providing playtime clothing that gives freedom. It should be made of material that will not easily soil or tear. Handkerchiefs, caps, overshoes, and mittens should be marked so that they will not be easily lost. A convenient place for keeping the garments should be provided.

PARMER COUNTY

BOVINA

The flu has not been unkind of our vicinity, and has again paid us a visit, but not such an intensive one as last winter. Among the victims this time are F. W. Jersig, Mr. Venable, Mrs. Norman Wilson and children, Joe and Norma Lee, and several of the Bullock family. None have been serious, and all are on the road to recovery.

Mr. Venable and family from Erath county, Texas, have moved into the house formerly occupied by O. J. McLean, and together with Mr. Summar, will occupy same for the present. He intends to buy a farm home in this part of the county.

The Bullock and King boys have in-

proved from the effects of their recent burns to allow the dismissal of the nurse last week. With careful attention the boys will no doubt soon be fully recovered.

We notice a correspondent from Friona notes that O. C. Schlenker has recently bought a threshing outfit and will use same on his farm. We want to add that F. L. Spring of Bovina is equally interested in said outfit, and is now threshing his row crop. Other threshers are now at work near here, and with suitable weather will soon make a showing on the large crops.

Mrs. O. J. McLean spent a few days with her mother at Hereford. Mr. McLean joined her there Saturday.

Mrs. T. O. Cuningham has gone to Missouri where she will visit for a few weeks with her mother and other relatives.

Rev. B. Y. Dickinson did not fill his appointment at Summerfield Sunday on account of an epidemic of flu at that place.

A car of coal was stopped on the siding at Bovina last week, but did not last long when turned over to the public.

Mr. Richardson, father of Mrs. Lovelady, and who lives at Pampa, has bought a tract of land near here and will move his family down sometime this summer.

FRIONA NEWS

Mr. Cooper who has been freighting from New Mexico since the threshing season set in last summer, is now very sick with an attack of the "flu". He lives in his wagon house and is being cared for by our citizens.

Mr. and Mrs. Height, of Council Bluffs, Iowa were visiting here the early part of the week. Mr. Height owns land northwest of Friona near C. F. Brownlee's place. He was here in August to see his land for the first time and was so favorably impressed with the country that he has come again, bringing Mrs. Height with him.

M. A. Crum, our local land dealer, was a Hereford visitor Saturday.

G. W. Maurer left for his former home in Ohio Monday, having received word that one of his brothers had suffered a paralytic stroke and was not expected to recover.

Eustace Houlette has taken a position as assistant at the elevator of the Santa Fe Grain Co.

Rev. William writes to the effect that his health is so far improved that he expects to be home in time to occupy his pulpit next Sunday.

Threshing is again the order of the day and all the farmers are anxious to get their crops cleaned up before another spell of bad weather sets in.

The Christian Endeavor has elected a list of new officers with Prof. Parker as president and from visible evidence it seems that the society is taking on a new lease of life. Mr. Parker led the meeting Sunday evening and an interesting meeting resulted. There were about thirty present.

VENUS AND NOT MARS SENDING MESSAGES

If wireless messages are being received on earth from another planet, as suggested by William Marconi, it is not Mars sending the signals, but most probably Venus, says Dr. C. B. Abbott, director of the Smithsonian Astrophysical observatory and assistant secretary of the Smithsonian institution. He makes no claim that the mysterious signals do come from another planet, but he says if they do, Mars is eliminated as a possibility because it is known that conditions on that planet probably would not permit the existence of any form of living creature.

Have you ever tried Bee-Eas-Ko coffee? It's good and you will like it. Hereford Produce Company.

NOT THE ONLY ONE

There Are Other Hereford People Similarly Situated.

Can there be any stronger proof offered than the evidence of Hereford residents? After you have read the following, quietly answer the question.

H. R. Patterson, salesman, Hereford, says: "About three years ago my back and kidneys caused me trouble. My back was in bad shape and ached almost all the time. When I stooped over a sharp catching pain would dart through my back and shoulders. Mornings when I first got up my back was lame, sore and stiff and I could hardly straighten. My kidneys also acted too frequently especially at night. I saw Doan's Kidney Pills advertised and bought two boxes. Before I had used them long I was greatly relieved and three boxes of this remedy entirely cured me of kidney trouble."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Patterson had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

You Do More Work,

You are more ambitious than you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

HABERER-ANGLEY

Herman Haberer and Miss Bonnie Angley were united in marriage Thursday, January 29th, at the home of the bride in Olney, Texas.

The bride is the daughter of Mr. and Mrs. H. A. Angley, who resided near Hereford several years ago and she was one of the county teachers in Deaf Smith for two years. The groom is a successful young ranchman near Big Square.

The ceremony occurred at eight o'clock and the couple left immediately in a car arriving at their new home at Big Square, January 31st, where they are now at home to their friends.

GOOD FOOD HABITS FOR HEALTHY BOYS AND GIRLS

The rate of growth in a child after eight years is not as rapid as in earlier years, but his food habits should be safeguarded as diligently. Nervous exhaustion, due to hours of confinement and mingling with others, may seriously affect the appetite for good, wholesome food. Forty-two per cent of the lowered vitality among children is due to poor and inadequate food and to incorrect dietary habits.

A regular meal schedule should be established and food forbidden at all other times. The child should never be allowed to go to school without a warm breakfast, and then eat a cold sandwich at recess or later. A child does not have reserve materials which make it possible for him to go without food for this interval of time. The child who habitually eats no breakfast will suffer from undernutrition. Warm food promotes easy and rapid digestion and gives vigor to body and mind.

A few well-chosen dishes should compose the meals for children, but new dishes or appeals to the imagination are helpful in inducing them to eat proper food. The child's sense of taste is keen in early school years. Highly flavored foods should not be given to children, since they destroy appetite for good, wholesome, mild-flavored food.

Eggs, milk, some meat, and other foods containing body-building substances should be used liberally in the diet. Meat should be served sparingly even until school age, never more than once a day. Green vegetables, dried beans and peas, cooked cereal (from whole grains) are also valuable for body-building material, and should be included in the everyday menu.

Sweets should be forbidden between meals, but are wholesome in moderate amounts at the end of a meal. Plain dried fruits are good substitutes. Plain cakes and ice cream may be used for the same purpose.

Rich pastries and fried foods should be forbidden.

Drinking of milk should be encouraged, but tea and coffee should be forbidden. A quart of milk for each person under 16, and a pint for each one over this age is a good rule. This includes the amount served in soups, desserts, etc.

Children should form the habit of drinking water freely. They should eat slowly and chew food well.

Whimpering over food should not be permitted. Serenity promotes good digestion.

Distaste for foods should never be discussed before children. Teach them to enjoy good, wholesome food.

GOVERNMENT LIFE INSURANCE IS GOOD

To remove any confusion that may exist in the minds of former service men on account of the special provision of Japsed War Term Insurance which authorized reinstatement up to December 31, 1919, regardless of date of discharge, announcement is made by Director R. G. Cholmeley-Jones of the Bureau of War Risk Insurance, within 18 months from date of discharge, upon payment of only two months' premiums on the amount of insurance to be reinstated, or expiration of the grace period whichever is the later date, and so states in his application, still hold good.

The provision that discharged service men are permitted to reinstate at any time within three calendar months following the month of discharge by merely paying the two months' premiums, without making a formal application or a statement as to health is also in force.

The provisions for reinstatement do not protect a man until he actually reinstates. If he waits he may not be in as good health as he was at the time of discharge and consequently may not be able to secure reinstatement.

Don't put off reinstatement. Do it now!

Only One Private Got D. S. M. To 554 Officers, During the War.

Representative Gallivan in a statement issued January 14, declared only one enlisted man had been awarded a distinguished service medal, while 554 officers and 33 civilians had been given this decoration.

"Let it not be forgotten," said Mr. Gallivan's statement, "that the act creating the distinguished service medal abolished the certificate of merit, the oldest decoration of the American army which was for enlisted men only."

"I do not care to comment upon the figures which I append. It is certainly illuminating."

The figures quoted showed the following distribution of distinguished service medals:

Generals, 3; lieutenant generals, 2; major generals, 69; brigadier generals, 12; colonels, 265; lieutenant colonels, 78; majors, 16; captains, 2; lieutenants, 3; chaplains, 43; sergeants, 1; corporals, none; privates, 1; civilians, male, 25; civilians, female, 8.

At no time have the wage rates of farm labor been as high in this country as they were in 1919, certainly as far back as 1866, when the first investigation of this subject was made by the Bureau of Crop Estimates, United States Department of Agriculture. Averages for the United States are in mind, and not local rates. For labor hired by the month with board, the average rate was \$39.82, and among the geographic divisions the average was as low as \$30.54 in the South Atlantic and as high as \$62.96 in the Western including the Mountain and Pacific States. Without board, the average for the United States was \$56.29, and the lowest was \$44.03 in the South Atlantic States and the highest, \$87.12, in the Western. Extras, such as firewood, milk, etc., are not included. Harvest wages per day with board reached the top figure of \$4.43 in the North Central States west of the Mississippi River and the lowest figure of \$2.28 in the South Atlantic, and the United States average was \$3.15. Without board, the United States average of \$2.83 was most exceeded by \$5.33 in the former States, while the latter States had the lowest average, \$2.82.

Statements in similar form for day wages for work outside of harvest with board make the United States average \$2.45, that of the North Central States west of the Mississippi River \$3.22 and of the South Atlantic States \$1.85; the rates without board, in the same order, were \$3.12, \$4.03, and \$2.39.

When you buy a tractor you want first, the most efficient, dependable and economical tractor on the market. Second, you want to be sure of a *personal service from your dealer that means something*. For what good is the very best tractor to you if you don't thoroughly know how it works and how to keep it working?

I went to the Advance-Rumely Dealers School at LaPorte, Indiana, where the famous OilPull Tractor is built for the *express purpose* of putting myself in a position to give you such service. I was privileged to attend this two weeks course in company with some 250 other dealers selected by the Advance-Rumely Thresher Company.

During the two weeks we worked, and worked hard. We learned the tractor thoroughly,—not from books—but by stripping it down and assembling it again. We worked on the motor, transmission—the cooling, ignition and lubrication systems—in fact every part of the machine.

And they put the "cards on the

table" there at LaPorte. We were allowed, and urged, to look into every branch of the factory—no department was closed to us—nothing was kept from us. We saw the whole inside workings. The bigness of it impressed me—the machine shop alone is 800 feet long—but more than that was the systematic way things are organized and the thoroughness with which the goods are manufactured, inspected and tested. One of the machines, a cylinder grinder, is the only machine of its kind in the country. The OilPull cylinders and pistons, you know, are ground to within 1-1000 of an inch.

I was pretty well satisfied before I went down to LaPorte that the materials and workmanship that went into the OilPull were the best that went into any tractor—now I am SURE of it.

In the Rumely OilPull Tractor I am not only selling absolutely the most efficient, dependable and economical tractor on the market—and guaranteed, remember,—but I am backing it with a *personal service that means something*.

Said stock was estrayed by me on the 20th day of December, A. D. 1919, and has been held as the law requires.
C. C. BOWMAN,
County Commissioner, Precinct No. 1
Deaf Smith County, Texas. 52-3t.

**\$55,000 IN PRIZES
INCLUDED IN STOCK
SHOW PREMIUM LIST**

M. SANSON JR., SECRETARY-MANAGER OF FORT WORTH EXHIBITION—ALL DEPARTMENTS ARE AMPLIFIED. SHOW DATES MARCH 6-13.

M. SANSON JR., Secretary-Manager

A larger premium list than ever before in history, amounting to approximately \$55,000, has been hipped up for the various classes of the Southwestern Exposition and Fat Stock Show, which will be held at Fort Worth March 6-13. Many new classes have been created and the exhibition has been amplified in every way.

M. Sansom Jr. is secretary-manager of the show again this year. Mr. Sansom is a leading stockman, with a wide knowledge of the needs and likes of the stock industry of the Southwest. He is being assisted in the preparations for the show by R. H. McKinley, assistant secretary-manager, and Claude R. Hamilton, advertising and concessions manager.

Early appointments for the various cattle divisions of the show are as follows:

Cattle—John I. Burgess, director in charge; Harry D. Henderson, general superintendent; Ward Farmer, department manager; Dr. N. F. Williams, official veterinarian.

Shorthorns—G. E. King, Taylor, superintendent; Dale Bellows of Maryville, Mo., judge.

Herefords—John P. Lee, San Angelo, superintendent; F. W. Natta, Fowler, Ind., judge.

Aberdeen Angus—W. H. Hill, Christoval, superintendent; P. J. Donohue, Holbrook, Iowa, judge.

Red Polled—J. W. Mann, Waco, superintendent; John C. Burns, Texas A & M., judge.

Jerseys—E. A. Corbett, superintendent; Hugh Van Pelt, Wate, Iowa, judge.

Holsteins—Mrs. Juliette B. Crabb, superintendent; W. L. Blizzard, Stillwater, Okla., judge.

Carlot Cattle—George Mills, St. Louis, and William F. Fletcher, Kansas City.

A unique feature of this year's premium list is that it has a classification for Brahma cattle. This has never been done at any previous stock show in the world.

G. E. King of Taylor, Texas, will be superintendent and Henry Howell of Fort Worth, judge.

Every department of the great exhibition will be improved this year. The live stock exhibition easily will be the best ever held in the South, according to the best posted authorities. The Rodeo will stand alongside of the very best in the land and, in many features, will outclass all others, even the superb Cheyenne Round-up.

J. George Loos has a twenty car carnival ready to open at the Fort Worth show. This carnival will be the best ever seen at the stock show and will include several attractions that will be brand-new to stock show visitors.

The stock show has taken over direct control of the poultry show and the great bird fair to eclipse previous performance, both in number and quality of entries.

Exhibitors, on entering the Coliseum grounds, should go immediately to the window of the building marked "Information." There, they should ask for Hamilton and they will be directed immediately to their proper department manager. System will be the keynote of the handling of this year's show.

This will be a "clean" show. However, there will be a sales division on the central stockyards for bulls from below the line.

Dates of cattle auction sales during the show have been set as follows: Aberdeen Angus, Tuesday, March 9, 2 p. m.; Herefords, Wednesday, March 10, 2 p. m.; Holstein, Thursday, March 11, 9:20 a. m.; Shorthorns, Thursday, March 11, 2 p. m.; fat steers, Friday, March 12, 9:20 a. m.; Jerseys, Friday, March 12, 2 p. m. C. M. Evans of Texas A. and M. will be superintendent of the sales department.

Washington, Jan. 29.—The accrued interest on loans to European countries totals approximately three hundred twenty-five million dollars according to a table submitted to the house ways and means committee by the treasury department which plans to defer collection for a few years pending reconstruction. Great Britain owes the most interest, the total on loans to that country being one hundred forty four millions four hundred forty thousand dollars. France comes next owing interest amounting to ninety four millions.

CHURCH NOTES

No church announcements for next Sunday are run this week, owing to the influenza situation and the request of the Mayor that church services and gatherings be passed over for this one Sabbath.

The Woman's Missionary Society met at the church, Jan. 28th, 1920, with a very good attendance considering how much sickness there is in town. House was called to order by the President, who also conducted the "devotional." This being the day for our "Christian Stewardship" meeting, Mrs. Roy Stocking took charge of the meeting. Several interesting numbers were given, especially the talk on "Prayer" by Mrs. F. T. Roloson, and the reading on "Giving and Tithing" by Mrs. D. W. Hawkins. Mrs. Stocking then made a comparison on "Giving" as was illustrated by poster entitled "Hens or Men."

The installation of officers being next in order, Mrs. F. T. Roloson as leader installed the following officers: Pres., Mrs. D. F. Ashbrooke; Supt. of Study, Mrs. D. W. Hawkins; Supt. of Juniors, Mrs. Sites, Ass't., Mrs. Spratt; Rec. Sec., Mrs. J. Frank Potts; Cor. Sec., Mrs. Roy Stocking; Treas., Miss Lula Edwards; Local Treas., Mrs. J. A. Stogall; Pianist, Mrs. Percy Welliver. The ceremony was very impressive and was conducted with all due form and ceremony, and was closed with a sentence prayer by each officer. "So we being many, are one body in Christ, and every one members of another." After singing "Blest Be the Tie that Binds," the President read the following committees:

Social Service Committee—Mesdames Harrison, Price, Roloson, McLean and Williams.
Charity Committee—Mesdames Shepherd, Farmer and Bowers.
Finance Committee—Mesdames Stogall, H. H. Hawkins, W. E. Dunlap, Potts and Price.
Program Committee—Mesdames

Price, H. H. Hawkins, Parker, Snyder and Stocking.
Membership Committee—Mesdames Curtis, Spradley, Saltzman and Thompson.
Invitation Committee—Mesdames Hammer, Curtis, Welliver and Shepherd.
Committee to meet strangers—Mesdames Bowers, Black, Farmer and Stogall.
Auditing Committee—Mesdames Potts, Heard and Black.
Library Committee—Mesdames W. E. Dunlap, Webster, Jones and Williams.
Committee on Flowers for church—Mesdames Black, Price, Parker, Hughes and Wilson.
Committee in case of sickness or death—Mesdames Williams, Spratt, and H. H. Hawkins.
Committee on posters and charts, etc.—Mesdames D. W. Hawkins, Potts and Fox.
Special Service Work covers Committees 1, 2, 3, and 4.
Parliamentarian—Mrs. G. W. Heard.
Agent for "Voice"—Mrs. W. O. Fox.
Agent for "King's Messenger"—Mrs. J. H. Bowers.
Pianist—Mrs. Percy Welliver.
No further business the meeting adjourned.

DUMB HERO ON CASUALTY LIST

Old Red Cross Army Mule the Only Animal That Was Accorded the Distinction.

Dumb animals fought, died and died for the United States, writes J. W. Stixey Smith in the Home Sector, and only one lonely army mule, attached to the Twenty-seventh division for duty, was honored with a place on the casualty list.

The ex-soldier's magazine says: "Many men of the Twenty-seventh division will never forget the old Red Cross mule who, so far as is known, accounted for the only casualty accredited to our animals in the war. Many a time the old worn-out beast faithfully piled his way right up to the front lines with chewing gum and chocolate and cigarettes. Once, in some manner, he went too far, found himself in the thick of the fighting, got himself properly excited and—there are witnesses to attest it—kicked a Boche into oblivion. And the luck that had been with him stuck, for he came safely back to the American lines."

The faithful messenger dogs attached to liaison service to the Seventy-seventh division will always be remembered kindly by their Yankee friends. Will members of Battery B, One Hundred Thirteenth field artillery, ever forget Billy, the little pony prisoner taken from the enemy, which, though cleverly smuggled aboard ship, they were forced just before landing to relinquish and see put en route for France again? Certainly no one who was ever at St. Pierre des Corps has forgotten Miss Jenny Hohenzollern, the fastidious pet monkey who, among other things, ate a box of C. C. pills and chewed to pulp a whole fodder of important papers. Nearly half of the 6,000 pigeons remaining in the A. E. F. at the time of the armistice, when put up at auction were bid in by their khaki attendants, and in one way or another got back to their native land."

WONDER OF PLANT KINGDOM

Mandrake, for Various Reasons, Always Associated With Ideas of Madness and Evil.

There are many wonders in the plant kingdom. There are plants that catch and eat insects. There is a creeper, similar to the well-known Virginia creeper, that spreads a mantle of disease over the walls of the houses to

Mysterious Mandrake.

which it clings so that the inmates suffer from a strange illness that baffles medical science.

But undoubtedly the most mysterious, as well as the most sinister, of all plants is the mandrake, a low-growing plant with large leaves, and bearing a fruit something like an apple.

The mandrake has always been associated with madness and evil. To pull a mandrake out of the ground was at one time held to be certain death, and to all who heard its shrieks as it was torn from the earth came madness.

The root of this plant is in shape something like a human form, and makes a strange kind of screeching sound when pulled out of the ground.

In Italy the society ladies paid high prices for mandrake roots, because the possession of such was thought to insure offspring to childless women. This superstition probably arose from the references to the mandrake in Genesis 30:14: "And Reuben went in the day of wheat harvest, and found mandrakes in the field, and brought them unto his mother, Leah. Then Rachel said to Leah, 'Give me, I pray thee, of thy son's mandrakes.'"

Corn Record Broken?

What is believed to be the greatest acreage yield of corn ever reported in Pennsylvania was produced on the farm of Samuel H. Tessier, in East Donegal township, 5,500 bushels being raised on a plot of 27 acres.

Wyoming's Source of Wealth.

The state of Wyoming is receiving in oil royalties more than \$1,000,000 a year, and this is increasing to such an extent that it is said the state will be able to do without taxes in three years.

DO THE HARD

AL AS FLU
MAY DESERT THE FARMS
 Assistant Postmaster General Jas. I. Blakelock predicts decreased farm production next year and the consequent increase in the cost of living due to dissatisfaction of farmers.
 More than 40,000 answers to the 209,000 questionnaires sent to farmers, he said, indicate a condition "disturbing and portentous of disastrous consequences."
 The farmers are tired of receiving toll while city dwellers lived in "ease and comfort with high wages and short hours," said the general.
 The replies received indicated hundreds of farmers are resolved to quit the farm entirely or greatly decrease production.
 Complaint is made in the majority of replies of high prices paid by the consumers compared with low return to the farmer, indicating entirely the disproportionate profit of the middleman.

EAT GOOD FOOD AND KEEP CLEAN

The State Health Officers ask you to observe the following. It may help in preventing the spread of Influenza.
 "Eat good food, avoid crowds, walk when it is not necessary to ride, keep clean and be careful of sneezing, spitting and blowing the nose. The main thing is to keep the system healthy and keep contaminated matters away from the nose, mouth and throat. Wash the hands carefully before meals, and keep the bowels open, either by eating fruit or taking medicine.
 "After the disease is contracted people should be careful not to visit or be visited, should observe the orders of the physician in charge, and be careful to remain in bed as long as the doctor orders."

Census Takers Use Aeroplanes

Everything from aeroplanes to snowshoes is being used by the agents of Uncle Sam in taking the 1920 census of the United States. About the only modern method of transportation either on, over, or below land or water that has not been employed in enumerating Uncle Sam's Meecs and nephews seems to be the submarine.
 Aeroplanes have come in handy in enumerating the dwellers on the islands off the coast of Florida; yachts and rowboats have been used in the harbors of the country; native canoes have been in demand among the Hawaiian islands; "flivvers" are being used everywhere; the tried and trusty mule team has carried the census takers out on the desert regions; and snowshoes have become the trusted aids of the census gatherers in the northern states and Alaska.

Enumerator Turns Rescuer

In the central part of New York state, near Oswego, a few days ago an enumerator making his rounds on snowshoes arrived at an isolated farm dwelling only to find that an able-bodied man was needed more than a census gatherer as the man of the family had been sick in bed for several days and the farm animals were suffering for lack of food and water. The census man, like any good neighbor would, stopped long enough to do the chores, dig paths through the deep snow and put things in ship-shape order before continuing his journey.

Ways to Better Live Stock

From an analysis of enrollment records in the "Better Sires—Better Stock" campaign during the first three months, the United States Department of Agriculture presents figures showing that the use of purebred sires appears to lead automatically to ownership of well-bred female stock also.
 Summing up the factors which will hasten live-stock improvement and bring many benefits, the department makes the following requests of live-stock owners:

Use purebred sires of good quality in all classes of live stock. Dispose of scrub, grade, and inferior purebred sires.
 Keep breeding records. Many excellent animals of pure breeding have in the past been forced to rank as grades or scrubs owing to lack of records.
 Join an active live-stock association and attend fairs, exhibitions, and judging contests where well-bred animals of good types are shown.
 Read good agricultural literature, including live-stock and farm papers. The Department of Agriculture and the various States will send helpful bulletins on request.
 Cooperate with your county agent, your agricultural college, and other constructive forces in improving the quality of live stock in your community.

Better live stock aids the breeder both in direct returns and by giving a locality a favorable reputation. The sum total of all improvement, of course, advances the international standing of the United States with respect to its live stock and live-stock products.

 Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, Jr.

MEANEST ROAD HOG NOW IN EXISTENCE

The Canadian Record tells a story about what it calls, "The Meanest Road Hog in Existence." The Story goes:
 "A farmer on the Washita started to town over the D-C-D highway with a four horse load of bundle feed worth 24 cents a bundle. When he came to Washita and started to drive across the floating platform anchored there for a ford to keep travelers out of the soft sand in the stream, one of the horses shied and jerked the wagon around, breaking the coupling pole and leaving the load anchored partly on the ford. As he lived right close, the farmer made no effort to move the load but went to the house to secure a new timber, and was back to the wagon in about ten minutes.
 "When he returned he found that some road hogs in an automobile had come along, pitched off fifty-six bundles of feed into the stream and spaded some sand on it, making a new crossing, and continued on their way with-

...than the new landing place they made in so short a time.
 "If they didn't have heart enough to offer to pay for the feed, they might at least have tarried just a few seconds longer to thank the farmer for placing the splendid ford material there for them.
 "If there is a meaner road hog in existence, let him stand up and be classified."

A Voice From Sioux City, Iowa, says
PE-RU-NA
Worth Its Weight in Gold
 You cannot mistake the words of Mr. W. W. Northrup, of 908 Fourth Street, Sioux City, Iowa. He is enthusiastic about his present health and the merits of PE-RU-NA and wants everyone to know it. Here is a recent letter from him:—

 "PE-RU-NA is worth its weight in gold and then some. I used to think it only a woman's remedy but have changed my mind. I had a cough, especially in the morning. After using half a bottle of PE-RU-NA was much better. I would cough up chunks of phlegm and mucus, my eyes itched and bothered me. Judging from the symptoms given in your almanac it was catarrh. My stomach is in much better condition since using your medicine."
 "Use this testimonial, if you wish. Don't hesitate to advertise the merits of PE-RU-NA."
 (Signed) W. W. NORTHROP.
 There are thousands just like Mr. Northrup, skeptical at first but convinced by a trial of PE-RU-NA.
DON'T BE AN UNBELIEVER.
 If your trouble is of a catarrhal nature, try PE-RU-NA, then tell your friends. It is fine after an attack of grip or Spanish Flu.

CHANDLER SIX
Famous For Its Marvelous Motor

Europe Welcomes The Chandler Six
 NOW and then you read something about "French style and line" automobiles, or perhaps it's "the newest English idea." And folks have gone across to get the newest suggestions.
 Europe hasn't built automobiles for five years and Europe is crying new cars and good cars.
 America's style is Europe's style now.
 The Chandler Six, popular in many other countries for years but kept out of Europe the past three years because of war-time prohibition of shipment is welcomed everywhere in Europe now—welcomed for the excellence of its performance, and quite as much for the beauty of its styles of body.
 The Chandler, represented in the British Isles by Messrs. H. G. Burt & Company, Ltd., of London, was exhibited by that old established automotive house, at the great Olympia Motor Show, and was "quite the sensation of the show," says a London cab driver. "Three hundred and seventy Chandlers were sold in two days."
 Apparently England is greatly pleased with America's best style motor cars.

CHURCH NEWS YEAR OF 1920

With the return of normal conditions, and with the restoration of shipping facilities so that the surplus of agricultural products in South America and in Australia will find a market in Europe the American farmers may expect and should prepare for a period of competition. This competition will reduce to a minimum the importations of all agricultural products, except livestock and sickness in the country.

A House was called in a meeting of the President, who also acted in Waco on "devotional." This body formulated a safe "Christian Stew" for 1920.

Mrs. Roy Stocking was attended by representatives. Several officers and business men were given, sessions of the state. Many "Prayer" by sitting farmers' organizations the reading presented.

By Mrs. D. as meeting a "safe agricultural then program for 1920" was adopted. as was the Agricultural and Mechanical "Herald" was invited to organize a statewide campaign during the month of January, 1920 to put the program in effect. The organization was also expressed. Mrs. D. F. Association of all published. Mrs. D. W. general interested in Juniors, Mrs. D. W. welfare of the state, Sec. Sec. Social and State organizations Sec. members.

Farming Program for 1920

There is need for the utmost care. The country with proper living, live and was conducted of the farm. form and ceremony are speculative in with a sentence presented to comfort or "so we being made avoided at this time. Christ, and even labor in 1920 will be as another." After a year greater than it was in Tie that balance great caution should be followed in determining the acreage So each crop to be planted. A safe rule will be to plant only such acreage as can be properly cultivated and harvested with help that the farmer is certain

played for the entire year is more efficient than transient labor and when the cropping methods are well planned so as to give steady employment it proves the cheaper. To this end it is recommended:

a. That each farm be stocked to its full capacity with the better grades of live stock. This gives continuous employment throughout the year, and furnishes a home market for much material that would otherwise go to waste. Only pure bred sires should be used.

b. That each farm be put under a definite system of rotation, using such a combination of crops as will distribute the cultivation and harvesting period over a greater part of the year.

c. That the acreage devoted to crops be worked out on such basis as to harmonize with available labor supply, also giving due consideration to such acreage as may be pastured by live stock.

d. That wherever possible man power should be displaced by horse and machine power to the end that the available labor per man may be more productive.

3. There is no need of an increased row crop acreage in Texas in 1920. It will be highly speculative and unprofitable to increase the acreage devoted to cotton. With the high price of labor and the uncertainty of yield and prices, the farmer who increases his cotton acreage or makes cotton his sole money crop in 1920 will be inviting disaster to himself and to his state. In this connection it is recommended:

a. To raise all the food and feed necessary for the family and live stock, with a surplus for sale. This should include for the home, (1) Gardens, including vegetables, fresh and canned, (2) Fruit and berries, fresh and canned, (3) Poultry and poultry products for home and market, (4) Dairy products for home and market, (5) Meat sufficient for family use.

b. To plan for other money crops besides cotton.

c. To make cotton a surplus money crop.

It is recommended that farmers practice neighborhood or community cooperation in exchange of labor. The non-essential labor on the farms, or work that may be delayed, should not be performed, when a neighbor needs such labor to help, save his crop. Neither is it just for the city or town to employ non-essential labor when it is needed in the fields to help produce the necessities of life.

5. The great loss resulting from the depredation of insect pests during 1919 should not be allowed to be repeated in 1920. Owing to the fact that it is too late to plow under vegetation, it is recommended that as far as possible all farmers should rid their farms of insects in hibernation by burning all stalks and rubbish in fields, and cleaning out fence corners and roads, and along ditches and drains. Other preventative measures should be employed as recommended by State and National agencies.

6. The value of the silo for preserving and conserving feed for animals is no longer a debatable question. In the regions subject to prolonged droughts the silo capacity should be sufficient to store two years' supply of feed for all animals.

7. In those sections of the state where winter grain crops could not be planted because of weather conditions, it is recommended that increased planting be made of spring oats, cane, corn, grain sorghum, peanuts, cow peas and Sudan grass.

8. Special care is urged in the selection and purchase of planting seed, choosing those varieties known to be adapted to your locality. All seeds for planting should be as pure as can be obtained and tested for germination before planting. Enormous quantities of inferior and impure seed are planted each year, which results in low yields and inferior products. Where possible the purchase of seed should be made in quantity by cooperative associations of farmers, for by this method better seed may be procured, and all farmers in a given community may produce a uniform product which will sell more readily and for a higher price.

9. We call upon all landowners in Texas to encourage their tenants to follow the plans herein recommended and, if necessary to revise rental contracts that these recommendations may be carried out with profit to all concerned.

10. Where labor is available it is advisable to terrace all land that is liable to wash.

11. Where personal credit facilities are inadequate, farmers should organize local credit unions patterned after those now in successful operation in this state.

Where long time credit, at low interest and on easy terms is needed for the purchase of farms, the Federal Farm Land Bank of Houston is recommended as offering the best credit system for this purpose.

12. We urge the formation of groups of farmers and their families to promote their social and economic interests. The rural schools should be more widely used as community centers and meeting places. This fosters a spirit of cooperation which leads to the organization of marketing associations, live stock shipping association, rural credit unions and many other forms of cooperative effort of great benefit, when properly understood and carried out. Special attention is called to the great benefit to be derived from organizations under the new Federal Cooperative Law, a copy of which may be secured by writing the Secretary of State.

This program received the endorsement of: Council Agriculture, Federal

Bank, Texas Farmers Congress, Texas Industrial Congress, Texas Chamber of Commerce, Railway Agricultural Agents Committee, West Texas Chamber of Commerce, Texas Bankers Association, Panhandle-Plains Chamber of Commerce, Agricultural and Mechanical College.

No Worms in a Healthy Child
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Organize Building and Loan Association

Citizens of Dalhart have organized a building and loan association. The association is capitalized at \$500,000; par value of stock, \$100 per share. Subscriptions are invited at small monthly payments.

The Velvet tin is twice as big as shown here

"No Rheumatics" is a Mighty Poor Reason for Wearing a Wooden Leg

NO sting or hot burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco is mild and cool, and yet as full of "fun" as a barrel of monkeys—well, that's another story—that's Velvet.

And 'cause why?

'Cause Velvet is brought up—not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet wasn't a whacking good pipe smoke.

"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

NATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with—and don't you forget it. See, taste, smell, feel the "real tobacco-ness" in Velvet. Why, you can almost hear it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

Here's to a full pipe and a friendly one.

Liggett & Myers Tobacco Co.

SAFETY

CAR OWNER SWIPES HIS OWN MAXWELL

It isn't every man who could arrange to steal his own car, even if he wanted to, remarks the Vernon Record, but W. W. Welch, who lives about seven miles north of Vernon, managed to steal his Maxwell Sunday night of last week without any scheming at all.

The circumstances, which to the sheriff and the parties reporting the theft appeared for a time very serious and not a little complicated, were really very simple. Mr. Welch was away from home, and was known among his neighbors to have been of the intention when he left to return Monday night. Boys of the neighborhood borrowed the car without Mr. Welch's knowledge and came to Vernon Sunday night, intending to take it back to its place before the owner's return to Vernon. While the young men were enjoying themselves in the city, Mr. Welch arrived on the evening train Sunday night instead of Monday night, having changed his plans.

Alighting from the train he had gone but a short way toward the business section of town before he noted his car. He promptly climbed in and started for home, leaving the young men who had so obligingly brought it to town, without any conveyance for their own return home.

When they found that the car was gone they notified the sheriff of its supposed theft, and that officer telephoned all surrounding towns to be on the lookout for a new Maxwell, the young men footing the telephone bills. It was nearly midnight before the true situation was discovered. The young men spent the night in Vernon, being out a hotel bill in addition to their other expenses.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding Piles. Instantly relieves itching Piles, and you can get mental sleep after the first application. Price 50c.

Late News

The peace treaty fight is to be taken back to the floor of the Senate, after a long series of protracted confabs between leaders of both factions in an effort to arrive at a compromise. Senator Lodge stands pat on his observations and the negotiations have been called off. It is said that in all probability the final result will be to send the treaty back to the President with the declaration that the Senate can not agree on it.

Secretary of Agriculture, David F. Houston, has been shifted by the President to the post of Secretary of the Treasury to succeed Carter Glass, who goes to the Senate. Edwin T. Meredith, prominent editor of agricultural publications, succeeds Houston as Secretary of Agriculture.

The latest candidate to shy his hat into the ring for the Democratic nomination for governor is Dwight L. Lewelling of Dallas. Mr. Lewelling has been a member of the legislature and prominent in Dallas county politics for years. He is an ardent advocate of straight prohibition.

Four U. S. Army aviators have recently been detained by the Mexican authorities. The first two report civil treatment and have been released. The last two have not yet been returned to this side of the border.

Good Printing at The Brand.

FOR SALE

648 acres, improved, six miles of Hereford. Shallow water, and on main road. A bargain. Will carry \$9,720 from one to five years at six per cent.

J. H. Pitman
Hereford, Texas

DO THE HARD THINGS FIRST.

If you have something hard to do, just go to work and do it. If you conclude to put it off, you're pretty sure to rue it. The task that's hard to do's the one that needs your first attention. And, doing it, you may escape a lot of reprobation.

Pitch in, and do the hard things first. Let easy ones come after. Make this your rule, and life will mean a lot of joy and laughter. But if you let the hard things go, your enemies will taunt you. With serious duties unperformed, and all your life they'll haunt you.

TRAGEDY WITH FEW WORDS

Parlor Drama in Which the Scene Might Be Set in Almost Any Home.

She came into the room, where he sat alone. Her clenched hand could not totally conceal the cold, white glitter of a knife.

Her face was pale and drawn, her eyes wild and bloodshot.

He, the man—the man whose name she bore, the man whom she had sworn to

love, to honor, and to obey—sat deep in thought by the warm fire grate. So deep in thought that he did not hear the slithered footfall of the beautiful woman who now stood behind him, with a strange, bitter smile upon her lips.

Suddenly, with a gasp, she cast the knife aside, and it fell clattering upon the fender.

"I cannot!" she moaned wearily. "I cannot!"

A plying expression swept across the Gothic granite of his cheek.

"What is it, darling?" he murmured. But she spoke no word. Only, she raised a pointless black lead pencil.

She had been trying to sharpen it. But in vain!

But in vain!

But in vain!

COTTON PICKERS IN SHOOTING SCRAPE

In a difficulty between John Beggs and Albert Clanton, cotton pickers of Childress county, on Monday, January 13, Beggs shot Clanton twice with a small pistol. One bullet struck Clanton in the right shoulder but did not penetrate it. The bullet glanced across the shoulder, coming out behind. The other bullet struck Clanton high up in the right arm, shattering the bone so seriously that amputation may be necessary.

According to the Childress Post, the men have different stories to tell as to the origin of the trouble but they seem to agree reasonably well as to what occurred Monday. Clanton, with a number of others, among them Beggs's wife, was picking cotton on the Aynesworth farm when Beggs appeared upon the scene. It is stated that he accosted Clanton, intimating an undue relation between Clanton and Beggs's wife, and began the shooting with very little warning.

Beggs is in jail, where he will probably remain until the result of the other man's wounds is known. Both men claim to have come from Frederick, Okla.

WHAT HELPS FARMERS MOST? COUNTY AGENT LEADS IN VOTE

What extension agency is most helpful to the farmer?

Among 2,300 farmers of whom that question was asked, 38 per cent said that they received most help from the county agent and the farm bureau. The agricultural press was given first place by 31 per cent. Three per cent of the farmers interviewed said they received most help from farmers' organizations other than the farm bureau and 3 per cent said they received most help from bulletins and agricultural reports. Twenty-two per cent had no definite opinion as to which agency was most helpful to them.

These opinions were gathered in a survey made by officials of the States Relations Service, United States Department of Agriculture, in a number of Northern and Western States. The purpose of the survey was to get the view-point of the farmers themselves as to the relative efficiency of various phases of the outstanding problems of rural districts as viewed by the farmers of those districts.

Reasons!

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

Take CARDUI

The Woman's Tonic
Mrs. Mary J. Irvin, of Cullen, Va., writes: "About 11 years ago, I suffered untold misery with female trouble, bearing-down pains, headache, numbness... I would go for three weeks almost bent double... My husband went to Dr. for Cardui... After taking about two bottles I began going around and when I took three bottles I could do all my work." E-40

Club Members as Stock Judges

It is almost as important to be able to judge an animal accurately as it is to raise one successfully. If a person does not know what constitutes good points in an animal, he is obliged to rely on someone else's judgment in both buying and selling. That is one reason why boys and girls in the clubs supervised by the Department of Agriculture and the State agricultural colleges are being trained in stock judging. At the county, State, and interstate fairs, live stock judging contests are conducted and demonstrations given by club members to interest the public and improve the methods used in the production and care of live stock.

At the Missouri State fair boys' and girls' club teams judged both beef and dairy cattle. In putting on the demonstrations each member had his particular part to do. The captain of the team introduced one member, who gave the history and characteristics of an ideal beef animal and the same for of dairy type. Another member compared dairy and beef cattle by using an animal exhibited at the fair to illustrate his points. The captain then scored a beef steer, using a large score card that could be read by everyone in the audience. Each point was discussed and the rating of the good and poor features of the animal were pointed out and scored.

At the Interstate Fair, at Sioux City, Iowa, the Nebraska live-stock judging team won first honors in competition with teams from North Dakota, South Dakota, Missouri, and Iowa.

According to the Lynn County News the City of Taboka is using cotton seed hulls to fill up the mud holes in their streets. Now we were under the impression that cotton seed hulls were good for cattle.

Grove's Tasteless chili Tonic
restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 50c.

GOVERNMENT SELLS YUMA CITRUS LAND

The recent public sale of lands on the Yuma Mesa, Arizona, which are described as particularly adapted to the growing of citrus and other semi-tropical fruits, was a decided success. The total of the sales amounted approximately to \$1,250,000, and buyers were present from all parts of the country. One tract of 60 acres was purchased and will be developed by army officers from Washington, D. C. About 1700 acres of the first unit remained unsold at the close of the auction, and Secretary Lane has authorized the Reclamation Service at Yuma, Arizona to receive bids for these farms until June 10, 1920, unless sooner disposed of.
