## Around Town

SIGHTS, FACES SEEN

Mr. and Mrs. Wayne Edwards, Mr. and Mrs. Homer Brumley and John McLean left via train for the International Lions convention in Chicago Friday evening. Mr. and Mrs. Jim Robinson, J. W. Robinson, Jr. and Virginia Lyons left about noon Friday bound for the same destination. The Texas Lions shirts they had on were really hollering. Mr. and Mrs. J. T. Gee of Friona went with the group on the train.

Dan O'Connor, West Texas State College English instructor, spoke to the Hereford Rotary club Friday. His title was "A Week End In The Ukraine." He served in that area during the last war and emphasized that the fact that we are prone to underestimate the Russian people and their ability.

The Rub-Deh Club is sponsoring a square dance club which meets every Friday night at the City Hall at 8:30. All young people who are interested are invited to come.

Kenneth K. Wheatley, candidate for State Legislature, 123rd District including Deaf Smith County, brought his speeded up campaign to Hereford Saturday. Mr. Wheatley was at the Canyon-Randall County Rally Friday night. He attended the Simms Community Rally Saturday night and spoke on the streets of Hereford Saturday afternoon. His wife accompanied him as radio engineer and press secretary.

The Central Plains All - Star game that was rained out here last week, will be played Wednesday night at 8:30 o'clock. V F W plays in Canyon Sunday afternoon. Johnny Renner or Andy Anderson will hurl for the local nine.

You've heard how the Lions and Rotary Club members kid each other about different things. Here's the latest. Robert Thompson, a member of the Lions Club, showed a movie at a Rotary meeting in Amarillo Thursday. He said he hates to admit it, but he did. He showed Burl Elliston's film about Hereford and Deaf Smith County to about 200 Rotarians. He was slightly out-numbered, but Mr. Thompson said they were so interested in the film and showed so much enthusiasm that it made him feel as if he was in a Lion's meeting. He added, "I told them I tried to get some Rotarians to make the trip with me, but they couldn't make it. They had to take it easy during these hot summer months."

Things are looking up for completion of the Wyche Road. All of the highway department qualifications have been met and the contract will probably be up in the next contract letting.

A letter from Mr. Holmes in Hereford, England this week says they just had their Three Counties Agriculture Show (Hereford, Worcester and Gloucester), and he enclosed a copy of the Hereford Citizen Bulletin to explain further. The picture of the champion bull would interest most of the county 4-H boys as well as cattlemen.

Mr. Brooks also said he would be grateful if some kind person in Hereford, Texas could send him their local papers when they have finished with them. Anyone interested can call Pete Cowart for the address.

The Hereford England Fair fairly drags them in. The Citizen Bulletin said 22,337 saw the show the first day, 18,647 went the second day and the crowds swarmed in again on the last day, with over 10,000 already in before 3 p. m.

They described the champion as "wonderfully deep and evenly flashed with grand bone." Prizes were worth 7,750 pounds, or somewhere in the neighborhood of \$25,000.

## Deposits Show Seasonal Drop In Hereford Banks

The worst Deaf Smith county wheat harvest in many years may have been reflected in statements published by both banks during the past week. However, a general seasonal slump is usually expected in the end of June statements.

## Alan Rhodes Hurt In Motorcycle Pickup Collision

Alan Rhodes, victim of a pickup motorcycle collision one and one-tenth miles north of Hereford on Highway 51 Friday afternoon, was in the hospital Saturday evening suffering from a fractured left arm, crushed left wrist, concussion and rather severe bruising of his left leg, according to Dr. L. B. Barnett, attending physician.

Highway Patrolman Jack Crownover said Rhodes was driving a new model Harley-Davidson motorcycle north on the highway about 12:15 o'clock when a pickup going south driven by Auel Cale Jones, 49-year-old farmer, made a "U" turn in the highway. Rhodes hit the truck in the side.

Patrolman Crownover said the investigation was incomplete pending further questioning of Rhodes, who was not in condition to be questioned concerning the accident Saturday. However, he quoted Jones as saying he didn't see the motorcycle and didn't know it was there until it hit the side of the Plymouth pickup.

Eighteen-year-old Rhodes is an employee at Hereford Laundry.

## Man Accidentally Shoots Himself In Calf Of Leg

Chief of Police Hollis Rainey reported a Mr. Holland, living between Avenue A and 25 Mile Avenue in the Northwest section of town, accidentally shot himself in the leg Saturday morning. Rainey said he understood Holland took his pistol and shot into the ground in his backyard to scare a bunch of dogs away. Holland then went back in the house and while putting the gun back in the holster he accidentally fired it. The bullet went through the calf of his left leg, missing the bone about an inch.

A FUZZLED SHERIFF—Deaf Smith County Sheriff J. C. Reese scratches his head and wonders what in the world he is going to do with that bus. He repossessed it on a writ of sequestration issued out of Eastland County a month or so ago when the carnival went through town. The Negro minstrel show owned the bus, but were a couple of months behind on the payments. The sheriff says the owner told him he would be glad to sell it for the few hundred dollars that he has left in it, but in the meantime it looks like it will set in front of the county jail. The sheriff also scratched a rumor by saying, contrary to rumors there are no "groes in the jail."

from the April statement figures. Although this is a seasonal trend, the slump is \$400,000 more than in the first six months of 1949. And about the same over the corresponding period since April. The loss more than offsets the \$75,000 gain in the combined banks had over the first of the year in April.

Loans and Discounts gained another \$178,419 for the year to make the total about \$478,000 higher than it was December 31. The figure is almost equal to that a year ago. Loans and Discounts equal \$2,781,335.32 in the two banks.

Federal Reserve Bank stock remains at \$11,100 in the two banks and U. S. Government Bonds is still almost two million dollars.

Bank assets after six months of 1950 total \$7,848,384.23. This figure is about \$1,027,762 less than in April when bank assets were still approximately the same as they were at the start of the year, when the report was about \$300,000 over the preceding report in November. November was also higher than the preceding report. Total assets remain slightly over those of a year ago.

## Absentee Votes Must Be In Tues.

Campaigning intensified somewhat during the past week, as the eight candidates for the four county commissioner posts, three candidates for state representative and some of the 18 District Congressional candidates visited Hereford and Deaf Smith County.

The commissioners' posts and the County Judge and Ex-officio County Superintendent seats are the only contested positions on the county portion of the ballot that voters will read Saturday.

Six candidates are running against Governor Shivers in the campaign for election to the post he moved into from the Lieutenant Governorship. The Lieutenant Governor's job is even more hotly contested, with 12 candidates on the ballot.

Absentee ballots may be cast up to Tuesday night closing time in the Courthouse.

Voters in the west portion of precinct two are also reminded that they will vote at Central School in Box 11 on election day.

O. Hennen reported total deposits at \$5,581,119.04, about \$900,000 below the December total, after a \$100,000 gain in the first few months of the year. Bill Phillips, cashier at the Hereford State Bank, reports total deposits of \$1,510,099.45. This is about \$247,000 below the figure in May and \$275,000 below the start of the year.

Undivided profits and reserves in the First National are \$163,706.23, \$36,080 higher than in December, 1949. Undivided profits at the Hereford State are \$9,788 lower than they were at the start of the year when they amounted to \$22,659.72.

## County Draft Quota Unknown

Deaf Smith County has not yet received its quota of the 1,005 apportioned to Texas by the National Selective Service headquarters, according to Mrs. A. Petersen, secretary of the Selective Service office here.

Apportionment will be on the basis of registrations currently on file with the local boards, according to a release from Austin after the draft call was received from Washington, Tuesday.

Enlistments have picked up a little, although they have been high here for the past several months, according to Army and Air Force Recruiting Sgt. H. M. Riddle.

Information from the State Selective Service director, Brig. Gen. Paul L. Wakefield, indicates there will be no increase in Texas draft boards which number 137 now.

Texas draft boards, 137 in number, will not be increased at the present time, Brig. Gen. Paul L. Wakefield, state director of Selective Service, said today.

General Wakefield said that a message which he received from selective Service national headquarters Friday night did not authorize any increase in the number of local boards.

State Selective Service headquarters has a plan on file at national headquarters to increase the number of local boards in Texas to 438, but no increase will be made until national headquarters gives the authorization.

General Wakefield said that the present 137 local boards will continue to have jurisdiction over their present areas.

The message from national headquarters received Friday night has authorized Texas State headquarters to increase the clerical personnel in local boards, General Wakefield said.

He pointed out that details of this increase would not be worked out until sometime next week. He said he hoped some details could be made available Monday or Tuesday.

"This increase in the case of many of our local boards will take the form of having present clerks work longer hours," General Wakefield said.

"For about a year some of our clerks have not worked a full 40 hours a week simply because we did not have sufficient funds to pay them," the state director explained. "Therefore, many of our local boards have been open for business anywhere from 8 to 30 hours a week. Some have been open the full 40-hour week, but the number of clerical personnel in these were cut."

"It is likely we will increase the number of hours many of our local boards will be open," General Wakefield continued.

Texas has received no call for the induction of men and has received no authorization to have men examined by the armed forces, the state director pointed out. He said the message he received Friday night indicates that a call for induction can be anticipated in the indefinite future.

General Wakefield urged men registered with draft boards and the general public not to swamp local boards with telephone calls. He called upon registrants to notify their boards of changes of address or status by mail, if they have such matters to report.

## Assembly Of God Revival Will Start Here Tuesday

Revival services are scheduled to begin Tuesday, July 18 at the Assembly of God Church, here in Hereford. Rev. and Mrs. Harold Maley of Fort Collins, Colorado, will be the evangelists. Rev. Maley has had a wide and successful ministry and has a number of years served as District Youth Director for the Assembly of God Churches in the Rocky Mountain area. Both he and Mrs. Maley are talented singers and their singing will be an added feature of this meeting. The services will begin each evening at 8:15 and all are cordially invited.

The pastor, S. E. Eldridge, will be in charge of Morning Devotions Monday through Friday of this week over Station KPAN at 8:45. Rev. and Mrs. Maley will be singing each morning except Monday.

## Million Dollar Spud Harvest Moves Along

Approximate \$400,000 worth of potatoes have already moved out of Hereford with better than half of the 1950 harvest still left to run. About 600 cars had moved through Saturday.

Approximately 475 of the 600 were straight cars and about 120-125 were freight cars, equivalents that went out by truck.

Twenty cars of B grade went out to the valley for seed potatoes at a dollar a sack. A very small per cent of the remainder were classed below A-1's which were bringing around \$2.75.

Quality has been high this year and yields generally good. Harvest on the estimated 3,000 acres of spuds in the county was close to forty per cent finished, with three to four weeks to run. Recent rains have apparently had little if any effect on the local situation.

Ed Shannon, supervising inspector for this district, said he will have another man on at both Muleshoe and Plainview tomorrow. Eight are already working the seven Hereford houses and Jack Renfro's at Dawn. He also has a man at Kress, Monroe and Hale Center.

Everyone was running potatoes except Finlan and Digby where onions were moving this week. The market was good and possibly strengthening at the end of the week. It was reported near \$2.

## Police Arrest Driver Of Semi-Truck on DWI

County Judge L. H. Foster assessed a \$50 fine against Hassell F. Nix for driving while his driver's license was suspended and bound Elvis T. Dillard over to the Grand Jury on \$500 bond this week.

Dillard was picked up by Police Chief Hollis Rainey and Patrolman A. M. Duncan for driving while intoxicated. Rainey said they got a report that Dillard was coming through town from another motorist and were waiting when he came through town. They picked him up going east on First Street just south of the Bull Barn.

Dillard, who is from Matador, was driving a 1947 Chevrolet semi-truck. Rainey said a string of cars about two blocks long was following the truck, afraid to pass.

Judge Foster set the \$500 bond and bound him over to the Grand Jury since it was a second DWI offense which constitutes a felony.

## Hereford Potatoes Rate Top Quality

PROCESSING DEAF SMITH COUNTY POTATOES—Friday was big day for local potato sheds and growers as 99 cars moved out to various points of the United States with a good market of around \$2.75 for A's. Saturday was another big day as evidenced here. Federal and State Inspector B. M. Heiron, of Alamo, Tex., is checking the grade on some of E. M. Hobson's potatoes in picture 1. Buddy Corbett and Charles Skelton are pre-cooling a car of spuds in picture 2. Graders make short work of it as the high quality Hereford potatoes move down the line in picture 3.

#### Frio HD Club Meets In H. E. Lindley Home

By Mrs. Owen Andrews, Reporter  
On Thursday, the Frio Home Demonstration Club met in the H. E. Lindley home for a brief business meeting before going on a tour of points of interest in the locality. A council report was given by Mrs. W. A. Springer. Plans were made for the next meeting to be on August 10 at the Frank Robbins home, when the members will make aluminum trays and paint Dresden art pieces. Those who wanted articles to paint gave their orders to the secretary, Mrs. Frank Robbins, and those wanting sheet aluminum were to give their orders to Mrs. Owen Andrews. Any members who were not present have been asked to place their orders with either of these women, in order that the materials will get here in time for the meeting.

The meeting will last all day, beginning at 10 o'clock with each woman bringing a dish for the luncheon.

The tour of the afternoon began when the group went to the cannery. There they watched the canning of potatoes and were shown through the cannery. Each lady was given a can of Herford Potatoes, courtesy of the management. The group then went to radio station KPAN where John Ball pointed out things of interest and answered questions concerning the operation of the broadcasting system. A number was dedicated to the Frio women.

The last stop of the tour was the ice plant where the process of making, cutting and storing ice was explained by one of the operators.

Those who made up the group were Mesdames: Glenn Gripp Sr., Henry Andrews, H. F. Benson, Frank Robbins, C. N. McClure, E. H. Little, Henry Dobbs, H. E. Lindley, W. A. Springer, Bill Dickson, W. C. Lowery, E. B. Berryman and Owen Andrews; Misses Veradelle Andrews, and Sherry and Genelle Benson; and Larry Dobbs. Mrs. Gripp, Sr. and the young people were visitors.

Yes, Mrs. Bundy, a real bargain—increasing in value each year as more telephones are added. Southwestern Bell Telephone Company.

Mr. and Mrs. Elvin Wilson and children have taken advantage of the rainy weather of the past two weeks to make a visit to see relatives in South Dakota. They visited the Grady Wilsons, who live on a large ranch near Faith and her parents, Mr. and Mrs. George Robertson, who are living in Faith. They all like it fine there and are very busy. ## USAF Increase In Military Personnel To Be Voluntary

All of the United States Air Force recalls to active duty will be on a voluntary basis, according to information received by Sgt. H. M. Riddle at the Hereford Recruiting station in the courthouse.

The officers accepted for active duty will be Reserve or Air National Guard officers and the airmen will be from the Reserve components or those who have prior Air Force service.

Both officers and airmen eligible for recall should have certain special military skills currently required by the Air Force.

Greatest current need for officers is for those in the Reserve or Air National Guard who have been trained as navigators, bombardiers, communications, radio and radar specialists; medical and dental officers; weather specialists and armament officers.

There is also a requirement for

a smaller number of officers in most other categories of Air Force assignments.

The Air Force may have a later requirement for additional pilots. However, for the present, it is planned to meet the immediate pilot augmentation by returning to flying status those pilots recently converted to ground duties due to budgetary restrictions.

Airmen whose specialties are currently required include those with experience as aircraft and engine mechanics, radar and radio operators, communications personnel, armament specialists and medical personnel. As with officer requirements, a small number of airmen are also required in other USAF general fields.

Officers of the Reserve and Air National Guard desiring recall under these provisions should

**WANTED**—Report of whereabouts of the 123 rare, historic guns of the "One of One Thousand" Winchester 73 rifles. The revolutionary Model 73 developed for Indian fighting and hunting has long been famous in history as "the gun that won the west." Of 720,610 of these lever action repeating rifles which were made, only 124 were of the super-accurate variety known as the "One of One Thousand." These were the most sought after guns of their time. One gun of this variety appears as the "hero" with James Stewart and Shelley Winters in a new show "Winchester 73" which glorifies this famous rifle. They borrowed it from a museum. The first 20 persons reporting ownership of one of these guns will get a brand new Winchester 94 deer rifle.

## Quick Dessert That Will Be A Treat For The Kids

How to make children like foods that are good for them has long been a problem and one answer that seems to work out well is to serve foods that the older people can show some enthusiasm about, for children are always influenced by the opinions of their elders in the matter of food.

A dessert that meets these specifications is Mrs. S. S. Dodson's Apple Butter Pudding made especially for the children. It is quick to make, requires no cooking and serves as a refresher for lagging appetites during hot summer months. Graham crackers, apple butter and whipped cream are the simple ingredients used. Here is how:

Cover the bottom of a nine-inch square cake pan with graham crackers and spread over all your favorite brand of apple butter about 1/4 inch thick. Add another layer of graham crackers and another of apple butter. Top with graham crackers. Whip 1/4 pint of sweet cream and spread over the top layer of graham crackers. Place in refrigerator and allow to set at least 12 hours, overnight is best. When ready to serve, cut in squares and top individual serv-

ings with freshly whipped cream to which has been added a little powdered sugar and vanilla extract. By the time the pudding has set the required time in the refrigerator, the ingredients are so blended that you don't realize you are eating plain old graham crackers and apple butter. Even people who don't like apple butter like the pudding.

# Brothers Claim Brides During Double Wedding

The home of Mr. and Mrs. Sterling Pulliam of Bellview, New Mexico, was the scene of a double wedding Sunday, July 9, when their daughter, Miss Joyce Pulliam, became the bride of Ernest Brown and Miss Billie King, daughter of Mr. and Mrs. Charlie King, of Bellview, became the bride of Floyd Brown. The Brown brothers are sons of Mr. and Mrs. N. A. Brown of the Arceia Community.

An arch of greenery arranged in front of a large window with flanking baskets of white gladioli and fern provided background for the ceremony which was read by the Reverend John Chandler, pastor of the Baptist Church of Clovis, N. M., and cousin of the bridegrooms. Tall white taper in seven branched candelabra gave illumination for the ceremony. Donna Jean Decker and Geneva King, niece and sister of Miss King, lighted the candles.

Wedding music was furnished by Rev. and Mrs. J. J. Spurlin, of Rosedale, N. M. Rev. Spurlin sang "Always" and "O Promise

like, wearing suits in aqua blue" accompanied at the piano by Mrs. Spurlin who also played the traditional wedding marches. Miss Pulliam was dressed in white marquisette made with tulle and cap sleeves with white accessories. She wore a halo of pink rosebuds in her hair and a corsage of pink gardenias. She was attended by her twin sister, Miss Joyce Pulliam, who wore a blue satin frock with matching accessories and a corsage of white carnations. The couple's best man was his brother, Eldred Brown.

Miss King wore a pastel blue dress of silk crepe made similar to that worn by Miss Pulliam and she also wore pink rosebuds in her hair and a pink gardenia corsage.

She was attended by her sister, Miss Wilma King who was dressed in pastel pink with corsage of white carnations. Fred Chandler, cousin of the bridegroom, served as best man.

For her daughter's wedding, Mrs. Pulliam chose a purple floral marquisette with white accessories. Mrs. King wore a beige frock with floral accent and Mrs. Brown, mother of the bridegrooms, wore navy blue crepe with white accessories. All three wore white carnation corsages.

Following the ceremony a reception was held with the bride's table laid in lace and appointed in crystal. After both couples cut the wedding cake, Mrs. Eldred Brown and Miss Billie King presided at the cake and Mrs. Francis Decker, another sister of Mrs. Floyd Brown, and Mrs. Howard Pulliam, sister-in-law of Mrs. Ernest Brown, presided at the punch bowl. Mrs. Cecil Colwell, sister of Mrs. Floyd Brown, registered the guests.

# Jo Ann Witherspoon Is Leo Hennington's Bride

In a pretty double-ring ceremony, Miss Jo Ann Witherspoon became the bride of Robert Leo Hennington, son of Mr. and Mrs.

L. V. Hennington, Monday, July 10, at the home of her parents, Mr. and Mrs. F. G. Witherspoon.

Bob Wear, minister of the Church of Christ, was the officiant.

Cathedral tapers in seven-branched candelabra and tall brackets of rainbow hued gladioluses and daisies formed an improvised altar for the service.

Mary Kathryn Carroll played "At Dawning" preceding the ceremony and the wedding march from "Lohengrin" as the bridal party entered. She also played "Clair De Lune" softly as the vows were spoken.

Carl Hennington served his brother as best man and Dale Barkley was groomsman. Neil Witherspoon and Elson Hennington lighted the candles.

The bride's attendants were Doris Jean McGee, bridesmaid, and Mrs. Bill Simpson, matron of honor. Miss McGee wore pastel blue and Mrs. Simpson wore pale yellow organdy. The dresses were made with "V" neckline, cap sleeves and a high fitted waistline attached to a full flared skirt. They wore head-dresses fashioned of white flowers and net matching the dress, accented with side bow and streamers. They carried colonial nosegays of pastel daisies, rosebuds and carnations tied with satin streamers.

The bride, given in marriage by her father, was attractive in a ballerina length gown of white embroidered nylon featuring a sweetheart neckline with bertha of nylon edged with lace. The full skirt fell in folds from a tight fitted bodice and her shoulder-length veil of illusion was held in place by a Juliet cap of nylon embellished with seed pearls. She wore mitts to match her dress and carried a colonial bridal bouquet of white carnations centered with a white gardenia tied with white satin streamers knotted with miniature white bicorns. She wore a hand-carved ivory pin brought from overseas by an uncle and a rhinestone necklace, the gift of

the bridegroom. The bride's mother wore an iridescent dotted swiss and a cream rosebud corsage. Mrs. Hennington wore white linen with tuck-trim. Her corsage was of white gladioli and rosebuds.

### Reception Follows Wedding

The bride's bouquet formed the centerpiece for the bride's table at the reception which followed the ceremony. White tapers burned in crystal holders and the three-tiered wedding confection was decorated with tiny sugar lilies and topped by a miniature bridal couple. Mrs. G. C. Hartman, Jr. cut the cake and Miss Jane Witherspoon of Amarillo, cousin of the bride, and Mary Kathryn Carroll presided at the crystal punch bowl which was banked with a rainbow of color of gladioluses, snap dragon, phlox and sweet pea. Mrs. Priscilla Dill of Pampa was at the guest register.

When the couple left on a short wedding trip the bride was wearing a pink linen suit with brown accessories and a corsage of cream rosebuds.

The bride graduated as an honor student from Hereford High School in 1949 and attended Amarillo Junior College the past year. While there she was a member of Gamma Theta Chi Sorority.

# TEXANS In Washington

By Tex Easley  
AP Special Washington Service

WASHINGTON, (AP) — These pair true romance magazines have nothing on the slick paper, fine print report issued by the House Judiciary Committee in recommending passage of a bill to permit legal entry into the United States of Hisae Kawauchi Kelly.

The 33-year-old Japanese young woman was married in a Christian ceremony to Corporal Richard C. Kelly, about 28, of Dallas. He is the son of Charles C. Kelly of 3004 Douglas St., Dallas. The bill was passed by the House without opposition and is expected to go through the Senate soon and on to the White House for President Truman's signature.

The story of the romance is told by Corporal Kelly in a letter asking the help of Rep. J. Frank Wilson of Dallas in getting immigration laws amended so he could bring his wife home some day.

"Our meeting was accidental," he said. (The letter was published in the committee report.) "A buddy of mine was taking his girl friend to the opera, and he asked if I would like to join them. Since I had been in Japan for only about two weeks, of course I jumped at the chance to see an opera in Japanese.

"Neither my buddy nor I knew that his girl friend would bring Hisae. Since then we have been together almost every day. I guess the first thing we had in common was the same love for good music.

"I would like to say now that Hisae and I are plain, unpretentious people. We love the simple things of life. We have bridged the difference between our lives by patience and a real desire to learn of each other's ways. She could only speak a few words of English when I first met her, so most of our conversation came out of an English-Japanese dictionary. However, she now has a good

working knowledge of English and is improving every day.

"At first, I was not allowed to be with her alone. I went with her about two months before I could take her out alone. All this time we were just good friends—just two young people who found enjoyment in each other's company. Shortly after we began going places alone, we knew our relationship was beginning to mean more than just a casual friendship. We also knew, that there could never be anything between us except love of the highest and purest kind.

"At this time I was asked to meet her parents, which I did, and was a guest in their home many times. I spoke to her parents of our love and they gave their approval. Knowing Hisae's age, you may think it rather strange when I tell you she has never been married or had a serious relationship before. x x x"

He then told how Hisae had lost her job with a chemical company because she was keeping company with an American soldier. She had the choice of giving up one or the other.

"All our world seemed to be falling on us just because we loved each other," Kelly continued.

"The Army, I knew, would not marry us. They are rather cold about this sort of thing.

"In time we went to the Rev. Hinohara of the Tamasawa Heian Church with our troubles. (The pastor formerly was president of Hiroshima College for Women and general secretary of the United Church of Christ in Japan.) x x x

"He agreed to perform a holy ceremony for us, so before our God in a House of the Lord and before witnesses we were united in holy matrimony Feb. 4, 1950. x x x It was for us only to be united in the eyes of our Lord until we could get the right to go through it again by the laws of my country.

"This month we learned we are to have a child late this year. Yes, it would have been better if it could have waited, but we believe it is God's will. Hisae has been a Christian since childhood and consequently her moral character is of the highest nature."

**STUDY ORC BULLETIN**—Don Zimmerman, right, commander of Headquarters and Headquarters company, 4234th Armored Ordnance Maintenance Battalion, ORC, and Bennie Williams study the latest information from Reserve Headquarters which concerns all phases of the Army. About 26 men are carried on the local unit roster at the present time. Interest has increased in the Reserve during the past few weeks and several other men have expressed interest or signed to join the unit. Women are also eligible for Reserve duty at this time.

**Dr. and Mrs. Wm. F. McLean and son, Michael, left this morning for Austin after a week's stay with his parents. Mr. and Mrs. John McLean, Dr. McLean will open offices in Austin for the practice of obstetrics and gynecology.**

**"So, Mr. Wilson, that is my story. My father and friends in Dallas know and have informed me they are with us and will do all they can to help. x x x Please, in God's name, do all you can to help us."**  
Kelly said he had been in the Army six years and intends to remain in the service.

The "GO" Spray System is delivered complete, (less barrel ready to mount on any tractor, front and rear mounts both included. Initial installation requires less than 45 minutes... one man can do it! One man can operate it, as all controls are within driver's reach. When tractor is needed for other jobs, or when storing the sprayer unit, there is no need in spending valuable time in dismantling the sprayer. When boom is mounted on solution barrel brackets, the entire unit can be removed (or re-installed) in a matter of a few minutes by simply removing hose, pump and three connecting pins holding the solution barrel bracket.

All parts through which the liquids pass are chemical resistant. The boom is very durable, yet light in weight, and is constructed of 1/2-inch aluminum pipe. All brackets are made of heavy duty steel.

The "GO" Spray System is not just a "one-job" sprayer... it has many year round uses on the farm. Besides weed control, it is unsurpassed for control of grasshoppers and corn borers. When used with a "GO" Hand Sprayer, it is an efficient system for spraying livestock, fruit trees, etc. The pumping unit, a Tuffball needle bearing, gear type pump, requires no lubrication, direct drive, no belts or pulleys and is guaranteed. May also be used for fire protection, filling tires with solution, or washing barn, dairy and garage floors.

The "GO" Spray System is the results of four years of field experimenting and has led sales in the Rio Grande Valley continually since its introduction. The six row, thirteen nozzle, spray system is now available to you, direct from the manufacturer at \$130.00 F.O.B. Pharr, Texas, and the eight row machine at \$150.00 F.O.B. Pharr, Texas.

## Better Now Than Later

If we have to fight Russia we had better do it now than later. This seems to be the opinion of the man on the street and the farm. They think that President Truman did the correct thing in drawing a definite line beyond which Russian aggression will not be permitted to go.

As yet there is no open conflict with Russia; yet every thinking person knows that the calculated risk taken by the United Nations may lead to global war. The answer to that is up to Russia; but now the rulers of the Kremlin know that the United States and her potential allies will not forever continue to retreat and appease until it is too late to fight. That is what the Kremlin rulers, not the Russian people particularly, wanted. Now the men in the Kremlin know that there is something else to consider and force is the only thing they respect.

For five years it has been increasingly clear that Russia had no intention of trying to get along with any other nation that was not subservient to their particular brand of totalitarianism. The only question has been how long would the United States retreat

and try to appease a vicious movement that cannot be appeased without world slavery.

Perhaps it was this realization that caused the American people to receive the news of the fighting in Korea with a commendable steadfastness and lack of hysteria. Perhaps another reason was that they realize that the United States is in a much better position to cope with Russian aggression now than it would be five years from now.

Even though we are not as well prepared as many would like for us to be, it is evident that we are much better prepared than we were in 1941. Our industrial machinery is in good shape. Our stockpiles of essential war materials are so much larger that there is no comparison.

The thought of a Third World War is a grim one; but it is not a new one. If we are in it there is only one thing to do and that is to win it. But this time let us pray that we will so conduct ourselves as a people and a nation that we will also win peace. Peace can come only with the blessing of God.

## What Potato Bugs? Develop Morons?

A new hole in international affairs is occasioned by the protest of the Soviet Government which formally accuses American airplanes of dropping potato bugs in East Germany.

The charge, it is thought, forecasts a crop failure in East Germany. That the Russian Government makes such a silly charge may be taken as an indication of what the Communists might do themselves or as an effort to inflame popular opinion for the purpose of supporting some reprehensible activity on the part of the Communists.

In June, the German Government bought some 100,000,000 pounds of surplus American potatoes to feed the victims of a crop failure. Observers then speculated that this dependence on the United States was the cause of the so-called "potato bug" propaganda. Later, in June, the East German Government notified several countries of a "criminal American plot" to bomb its potato fields.

According to news accounts, Agricultural experts assert that the areas mentioned by the East German Government have, in previous years, been infested with the potato-bug pests in the normal course of events.

## Denounce Policy

The freedom that exists in the United States is exemplified by the mass meeting in New York City, which was originally called to protest against the treatment of "political prisoners," Negroes and others, but which switched immediately to a "hands off Korea" rally.

The New York Times estimates that some 18,000 people assembled to hear speakers attack the action of the United States in Korea. We are inclined to believe that the fanatics showed their real purpose when they disregarded the original purpose of their meeting and immediately turned to the Soviet line of thought in connection with Korea.

It appears that, even to these fanatics, the so-called "mistreatment of political prisoners" in the United States is much less important than the urge to denounce the free nations of the world for taking up the defense of the Republic of Korea.

Our Own Financial Hint: Watch agriculture. Unless the farmers have a good year in 1950 there will be a slackening of business in 1951.

The Korean affair will probably last a long time and employ thousands of U. S. troops but it might be better to fight here than to wait and fight at home.

Some case-hardened spring gardeners are now thinking about fall crops — this shows that you can't do anything for these people.

We know business men who are uninterested in politics unless it enables them to sell something to the government at a fat price.

### Rich on Relief

**T**HALL, SCHOLARLY congressman J. M. "Judge" Combs of Texas seldom opens his mouth unless he has something to say. He had plenty to say behind closed doors when the ways and means committee voted a big reduction in the capital-gains tax on upper-bracket taxpayers—and it wasn't music to his colleagues' ears. Combs bluntly charged the committee with handing out millions in tax relief to Wall street stock traders and others who make "quick profits on turnover transactions."

"You are unfairly discriminating against more than 60,000,000 low and moderate taxpayers who derive their income from salaries, wages and ordinary business income," the Texan chided his colleagues. "It has always been my understanding that taxes should be easiest on those least able to bear them, but you are handing out a lot of relief here to people who can best afford taxes."

Combs angrily pointed out that the people the committee had "put on relief" by reducing the capital-gains tax from 25 to 10 per cent were individuals with annual incomes of \$15,000 or more and married couples with joint incomes of \$30,000 or more.

Rep. Walter Lynch, Democrat of New York, and Robert W. Kean, Republican of New Jersey, were mowed down by the Texan when they argued that the capital-gains cut would stimulate investments, and thus business.

"Don't kid yourself that this will stimulate business and encourage sound investment," lashed back Combs. "All it will do is foster a quicker turnover of securities by those who speculate on the stock market."

Note — Congressman Combs is the man who had the courage and perseverance to run against ex-congressman Martin Dies of the un-American activities committee and defeat him.

### Ike's Political Party

It is well known that General Eisenhower is the secret choice of certain high-grade Republicans to be the GOP candidate in 1952. Such backers as Tom Watson of International "business machines are definitely grooming him.

However, it appears that Eisenhower — who, as a youngster in Abilene, Kansas, registered as a Democrat — has long wanted his political affiliation kept secret.

Neighbors of General Eisenhower tell how he and his wife went to vote in a little tearoom near Columbia university last year. As Mrs. Eisenhower started to register, she was asked if she wanted to sign the usual registration blank enrolling her in one of the political parties. Mrs. Eisenhower started to accept the blank, but the general stopped her.

"Why can't I state my party preference?" Mrs. Eisenhower asked, "since I am voting for one party?"

"I just don't think it is wise," Eisenhower protested. "I wish you wouldn't do it."

Mrs. Eisenhower said she didn't understand.

The general smiled and said: "You will in time."

### Frank Senator

It isn't often that a Senator will argue openly against government economy. No matter what he may think personally, he knows that government economy is a big vote-getter. However, big Ed Johnson, Colorado Democrat, solemnly warned the other day against too much economizing at the expense of democratic principles.

"We do not establish governments to save dollars; we establish governments so that the people may govern," Big Ed told his senate colleagues.

"The planners say that if big business was run like government, it would be bankrupt overnight," continued the senator from Colorado. "Now that is a pretty plausible argument, and every uninformed person the country over swallows it and repeats it. Well-meaning propaganda groups throughout the country play that tune. I concede, in fact, that our government is more wasteful and more inefficient than a streamlined dictatorship, and that its operating efficiency does not look good when placed alongside that of American business organization."

"But is that what we are striving for?" boomed Johnson. "Are we forgetting that we are trying to maintain a democratic system of representative government here in America? All of us, I am sure, would have no hesitation in choosing between a highly efficient administration by a dictator in a totalitarian state."

"The American businessman and the American worker must understand the kind of cake that is hidden under the pretty frosting," Johnson warned.

## Louisa's Letter

Dear Louisa:

I am going on eighteen years of age and my parents treat me like a child, although I have two sisters younger than I am.

I work Monday, Tuesday, Wednesday and Thursday nights after school and all day Saturday and yet when I ask to go out on a Saturday or Sunday night, they say I may not go and that I am always away.

Sure I am always away but I am working. I have no pleasure at all and my life is very miserable. They are always complaining about the money I spend even though I spend only \$1.00 a week for ice cream and other refreshments.

They refuse to let me go to dances or to movies as that costs too much and still I may not go out on dates. They refuse to let me date anytime and will not let me travel with my girl friends. When I do get out, I have to be in by 9 or 9:30. I have my driver's license, but they never let me drive the car, even when they are alone.

All the other girls, three and four years younger than I am, have boy friends and go out on dates but I cannot date or have a boy friend and yet they complain all the time. I feel like am not wanted. What shall I do?

WONDERING—PA.

Answer:

Your parents are certainly acting in a ridiculous manner. Surely if you are old enough to be working out at night, you should be allowed a good part of what you make and some liberty to see your friends, whether they be boys or girls.

Some parents have the idea that they can protect a girl and keep her home by not allowing her to go with friends but this is one of the easiest ways of making her run away from home. No girl is going to put up with such treatment long. As soon as she finishes school, she will get a job and move to some place where she can do as she pleases.

How much better it would be for both parents and daughter.

If the parents would try to make her life happier! Allow her money for the movies twice a week and let her have dates with nice boys. Certainly, they should not object to girl friends unless they are undesirable companions.

Wake up parents before it is too late! Try to make home pleasant for your children, so they will be satisfied to stay with you even when they grow older.

## The BOOTLEG Philosopher

(Editor's note: The Bootleg Philosopher undertakes to answer a city writer this week, and his argument might be a good one if it came from somebody else.)

Washington that makes farmin hard. From what I understand, farmin wasn't no snap even before Washington was established. Yours faithfully, J. A.

Dear editor:

I got up the other mornin determined to do some work there are some folks who claim loafin loses its edge if you loaf all the time but I ain't never found it that way, the only thing I know that'll take the edge off loafin is workin, however I stuck with my resolution and was gonna do some plowin when I noticed a spider had built a web from my plow to the barn door and I didn't have the heart to tear it down, it was an intricate outfit and made a pretty picture with the mornin sun glistin on it, and the way I figure there'll be plenty of days to plow, more'n I'll ever use up. Live and let live is my policy.

Consequently I went down to my neighbor's mail box and borrowed a newspaper and got out of sight and read where a city writer who is opposed to the farm program claims he "wouldn't dare buy a farm now and try to operate it, for fear he would be up to his neck in some sort of trouble with the Federal Government" over all the red tape the farmer has to put up with.

It's perfectly all right with me if a man wants to be against the farm program, that's his business, but if you ask me the reason that city writer ain't out operatin a farm is that very few tractors is air-conditioned.

It ain't red tape that drives a man off a farm or keeps a city man from takin one, it's grass and weeds and the fact there ain't nothin between you and the hot sun except your hat.

If I was a city man, I'd think up some other reason beside red tape for not farmin. It ain't

## About Your Home

By FRANCES DELL

Everyone knows that the proper selection of foods controls the taste and nutritive value of what we eat, but there are a large number of us who don't know how to select the best buys of food.

Generally, it is more economical to buy fruits and vegetables in season in the locality. They are usually of better quality than shipped produce, for, despite special coolers, sprays and air conditioning equipment, some vitamin content is lost.

Buy from a store that handles fruits and vegetables correctly. Produce should be kept cool, never handled roughly, and never allowed to stand in the sun for any length of time. This last point is a must for such vegetables as kale, spinach, and other leafy greens.

Choose vegetables for their freshness, crispness and color for they are a fairly reliable indication of their vitamin content and food value. However, do not make the mistake of selecting the very largest vegetables for they are usually overgrown and exceedingly fibrous and often have a woody taste.

The best guide to choosing quality meats is to know that good meat has a fresh odor, is fine grained, with a velvety look. It should have no dark or dry edges. The marbling, the inter-

## SUNDAY'S CURRENT QUESTION:

## Clark Has Slight Edge In Pre-Election Poll Here

What kind of voter turnout do you expect in the Democratic primary Saturday? Who do you think will be the Democratic nominee for Congress: Clark, Timmons, LaMaster or Rogers?

Bob Wear—I think the turnout will be about average. I don't think there will be much interest. There should be but I'm afraid there won't be. On the basis of the last voting it is my opinion that Clark will be the Democratic nominee.

Bud Jacobsen—I imagine about 50% of the eligible voters will vote. I'd say Clark will get it.

Mrs. Thomas Howard—The turnout should be pretty good with the world situation the way it is. If we don't turn out, we surely should, I would say Clark will be nominated.

Jack Bivens—it should be a 75% turnout. I believe that Timmons will get it.

Matt Gilliland—90 per cent. I think the interest in the Congressional race will stimulate most of it. I think LaMaster will get it.

Mrs. Onias Carroll—I think it will be at least a 90% turnout. I think Rogers will be the Democratic nominee.

Dr. M. W. Nobles—I would guess that about 50% of the voters will vote. I imagine there will be more interest in this primary than in the last. I would guess that Clark will get it.

Mrs. J. M. Posey—I imagine at least 80% will turn out to vote. I would say Clark will get it.

Ernest Wade—I imagine 80% will vote. I believe Clark will get it.

Mrs. F. G. Collier—I think 80% of the voters will vote. I think Timmons will be the Democratic nominee.

## Tater' Peelin's

By Roberta Campbell

We haven't exactly been stored in moth balls yet but it has been quite a spell since a birthday gave us as much to get excited over as Buster's ninth one has for him this week.

Sometimes it seems too bad that a child has to grow up in to cold reality from the world where he sells his teeth to the fairies and his Teddy Bear has been his best pal.

No doubt that it is the man who does a greater part of the banking business for the family, but we thought the First National Bank up in Philip, S. D. had a smart idea when they passed out to the ladies a booklet of gummed assorted labels for every household use one could think of.

There were mailin' labels for all kinds of packages, labels for cannin' and labels for gasoline and kerosene, iodine and strychnine and well said labels for every household use to save time or keep down accidents.

We repeat what we said a year ago when the first issue of this little column was printed in the Brand.

"Seems like somebody is missin' a good opportunity to make some money by puttin' in a restaurant that specializes in food grown in Deaf Smith County."

We can hardly see how a good location on the highway and plenty of advertising could keep from makin' such an eatin' place a payin' proposition.

# Long Time Ago

45 Years Ago

An important event in the history of Hereford in July, 1905 was when the Galbreath and Fox Grain Company shipped a car of Panhandle raised wheat to market. The car, which contained about 600 bushels, embraced a portion of the crops of Robert Humphrey, R. L. Boll, H. B. McKinley and B. A. Keithly and was shipped to Dallas Mills where it was to be manufactured into flour. These men all made good yields, ranging from 15 bushels to 31 bushels per acre. They said this was an important event in the history of Hereford as it was the second full car of wheat to be shipped from here. Up to that time the wheat had been fed to stock and little had been threshed.

The wool industry of Deaf Smith and Castro Counties was rapidly expanding and was believed to soon be classed with our leading and most profitable industries. That season 70,000 pounds of wool had already been shipped from Hereford. That, at the market price, placed something in the neighborhood of \$14,000 in the hands of local sheep raisers.

A recital was given at the College Chapel under the direction of Miss Olive McClintic of Waco. She was assisted by Mrs. Lee Clark and Miss Starnes. They presented a program of music, both vocal and instrumental, and excellent readings.

The Sunday law had been rigidly observed in Hereford the first two Sundays of July, 1905. Although both days were very warm, no cold drinks could be had and even ice cream was a scarce article. The lovers of cigars were compelled to lay in a supply on the preceding Saturday in order that they might enjoy their usual smokes.

The choir of the Methodist Church had engaged the services of Mrs. Jessie Dockum Smith, contralto, to assist in a concert to be given in the near future at the Methodist Church. Mrs. Smith had studied with the best teachers in New York city and Chicago, and for the past three years had taught in Baylor Female College. The proceeds from the concert were to

go to assist in paying for the pews that were soon to be placed in the church.

Mrs. Ross W. Davis entertained Misses Celia Robinson, Olla Blanton, Zula Vanderburgh, May Pierce, Margaret House, and Imo Gass on Wednesday, July 13, 1905 from five till eight p. m., that they might become known to her sister, Miss Helen Metcalfe, who was visiting her from Dallas. "The time was pleasantly passed in girlish converse that was appropriately more replete with lightsome gaiety than of wisdom and profundity until about seven o'clock when they were invited into the dining room to a prettily decorated table supplied with place cards that were The Mad-Hatter in Alice of Wonderland." A two course luncheon followed.

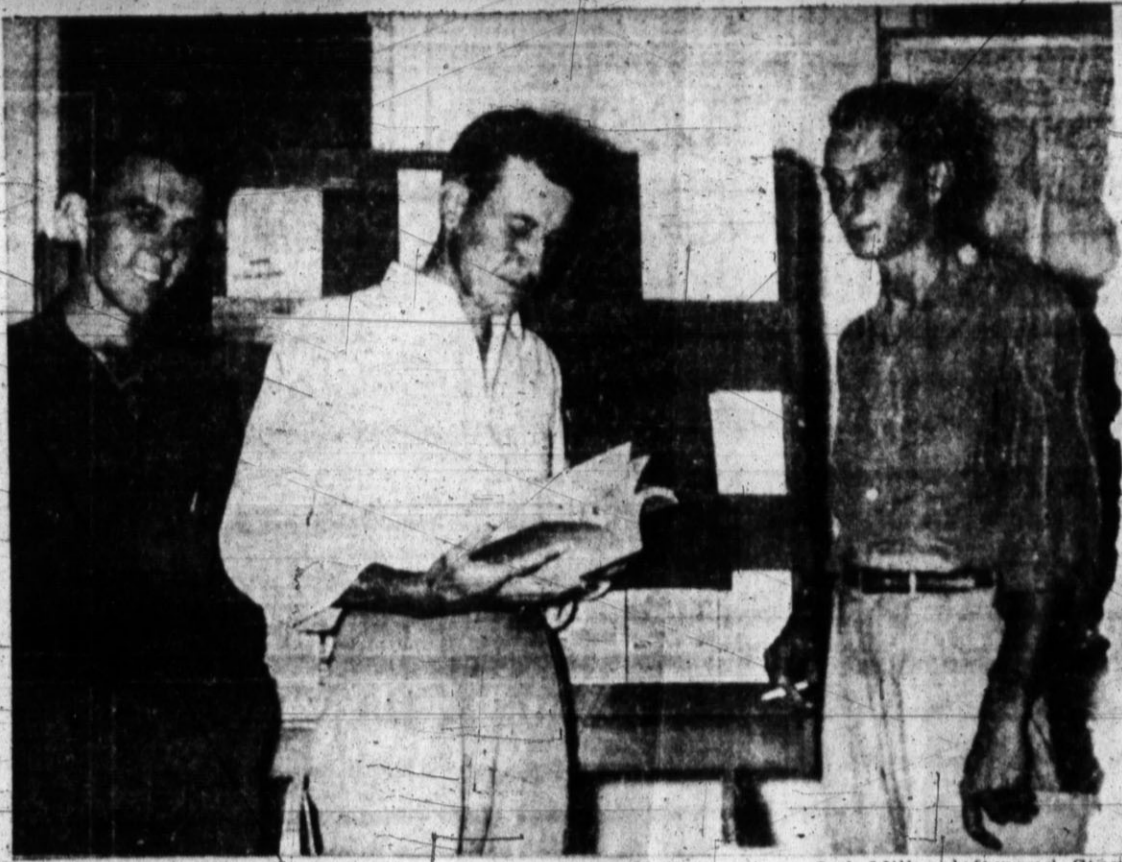

A very encouraging feature of the conditions in Hereford, it was reported, was that good rent houses were becoming exceedingly scarce. Real estate men said that the demand for good rent houses was in excess of the supply. This was partially due to the constant flow of immigration into this part of the country and partly to the fact that people were moving here from different parts of the Panhandle for the benefit of our college, the Panhandle Christian College.

Wheat was cut short in the northeast Panhandle in 1905 because of black rust.

A move was on foot in Amarillo to have two phone systems in that city. The necessity for the inauguration of such a move was brought about by the service not coming up to what some thought it ought to be.

E. F. Cornell left for Missouri points where he was to spend two weeks advertising the Panhandle.

A representative body of Hereford citizens met at T. M. Coulson & Co.'s drug store, their purpose being to come to a definite understanding in regard to the annual picnic and celebration to be held in Hereford about September 1st. In view of the fact that the celebration of the last year was a success in every particular, those present were enthusiastic in their eagerness to commence work at an early

date to perfect all necessary arrangements. The meeting was presided over by Col. S. T. Howard, president of the Farmers' Institute. All the committees for the preparation of the picnic were appointed. The different railroads leading into the Panhandle from other sections of the country were to be asked to give low rates for the occasion and prominent speakers were to be procured.

The annual picnic to be held at Dimmitt had been set for August 17. The people from Hereford and Deaf Smith County had been cordially invited to attend.

Rev. E. A. Wesson and W. T. Smith returned from Shamrock, near which place they had been engaged in a two weeks' old-time camp meeting. Mr. Smith led the choir and a successful meeting was reported.

Mr. and Mrs. Jack Londorf of Karnes City, came last Monday night to spend a few days visiting Mr. Londorf's parents, Mr. and Mrs. Boyd London, other relatives and friends. They planned to leave today. Mr. London works with the Texas Highway Department in Karnes City.

## BOOKS ON PARADE

### Davis Disagrees With "Books Are Fatal" Saying

By Corinne Jennings  
"Books are fatal" is the heading of one chapter in Clyde Brion Davis' latest book titled, "The Age of Indiscretion" and is only one of several subjects on which he reminisces from the past.

He has borrowed the title from a remark on books by Disraeli who in a petulant mood said, "Books are fatal—they are the curse of the human race. The greatest misfortune that ever befallen man was the invention of printing." Davis says Disraeli only made such a statement to gain attention.

Davis further states, "Any unqualified generality about anything in the world is apt to be nonsense. And any sort of general statement about books belongs in the same category with general statements about women, about any particular

race or about mankind as a whole."

Then he sets out to tell of the place which books have had in his life and this will bring about many memories to ones who were born and lived in his day.

A poor book is better than no book at all and he dares anyone to deny it. Because it is the product of some human brain doing its best to express that person and we can learn something from them he says, "I never yet met a person so stupid that I couldn't learn something from a half hour's serious conversation," he adds.

"No author is so ignorant, conceited, superstitious or conventional but that from the chaff a few grains of individuality will fall from the grist to reward the reader who is interested in the human phenomenon." This is

what Davis thinks about writers. Davis admits he is not a bookish person but that books so fascinate him and have done so since his earliest childhood. In recalling events of the past dealing with books many will feel akin to him because of similar experiences. He still has, he says, the first book he ever owned, "Robinson Crusoe" which he received for Christmas on his seventh birthday. He has read it many times.

His second book was "Three Hundred and Fifty Aesop's Fables" which he read so many times that he knew them all by heart.

"The History of Julius Caesar" was rather ponderous and too advanced for him at the time he received it, but he read it three times anyway. Finally he was able to borrow such books as "Black Beauty," "Beautiful Joe," Anderson's and Grimm's Fairy Tales, and several of the "Five Little Peppers" series which he considered rather sissy when compared to "Robinson Crusoe" which was at the top of favorites.

Amusingly he tells of his sister's wish for him to read "Little Women" which she considered wonderful but by the time he was able to check it from the school library at the age of 12 he had outgrown it and ashamedly admits it was the only book he never finished. But he just could not get interested in it to his sister's disgust.

"At this age he was reading 'Buffalo Bill,' 'Nick Carter,' 'The Liberty Boys of 76,' 'Deadwood Dick,' 'Frank Merriwell' and other such popular stories of the day."

Davis tells of the days when the paper back novel was at its height and says he believes that our present day comic books are the legitimate descendants of them. "They (comics) have no worse effects on morals of taste, and they probably are easier on the addlet's eyes" he feels sure.

The recounting of his adventure with the reading of "Treasure Island" is delightful. It was an experience never to be forgotten he says as was the reading of "Kidnapped" which followed.

But his buying and reading of "Through the Looking Glass" took a lot of coaxing but once accomplished he found it "delicious" as did some of his other pals with one exception who would have nothing to do with Alice and her buggy adventures on the other side of the looking glass.

A teacher became interested in

him and his reading. As the years advanced he was guided into reading such literature as that by Kipling, Mark Twain and O. Henry which he mixed with such authors as John Fox, Jr., Thomas Dixon, Harold Bell Wright, Winston Churchill, Rex Beach and Jack London, particularly the last named.

Looking back over the years he compares them to the present by saying, "I believe American literary taste has improved in the last forty or fifty years because the American public is better educated."

However, he says there are some intellectuals who proclaim a literary decadence but he says he has faith in the public's taste rather than in the judgment of the intellectuals. "Too often" Davis states, "the intellectual is a wan midget on stilts—speaking with the voice of a giant."

In closing this chapter he discusses libraries throughout the land and the educational facilities which they offer the public in proportion to their needs and the abilities of the library itself.

But of course all this means less than nothing if one is not convinced that reading of books is a good thing.

Along with Davis' latest book others of the author in the library include "Stars Inclined," "Playtime Is Over" and one of the river series, "The Arkansas," according to the librarian, Mrs. Boydston.

## Bruce Miller Speaks To WSCS Wednesday

The Woman's Society of Christian Service of the Methodist Church met in Ward Hall Wednesday afternoon with Mrs. H. M. Benefield and Mrs. Ida Rickelts, serving as hostesses.

Mrs. Don Davidson gave the devotional lesson on "Being a Good Citizen" reminding the group that "the chief business of being a good citizen is not to be happy, successful nor famous, but to do the will of the Master."

Bruce Miller, Hereford attorney, spoke on "The Responsibility of Being a Good Citizen" mentioning two important factors linked with that responsibility: 1—Being well informed and 2—being willing to serve. He concluded his talk with a discussion and comparison of everyday problems in maintaining good citizenship and said, "The law of the Kingdom of God is a law of service."

Mrs. W. B. Phillips and Earlene left Friday afternoon for Amarillo. Mrs. Phillips' son, W. B. Phillips, Jr. joined them and from there they were to drive to Utah, Pennsylvania to visit Mrs. Phillips' daughter and W. B. Phillips and Earlene's sister, Mrs. John H. Roedel. The Phillips' will be gone about two weeks.

### Ideal For Leveling

**FIELDS FOR IRRIGATION**

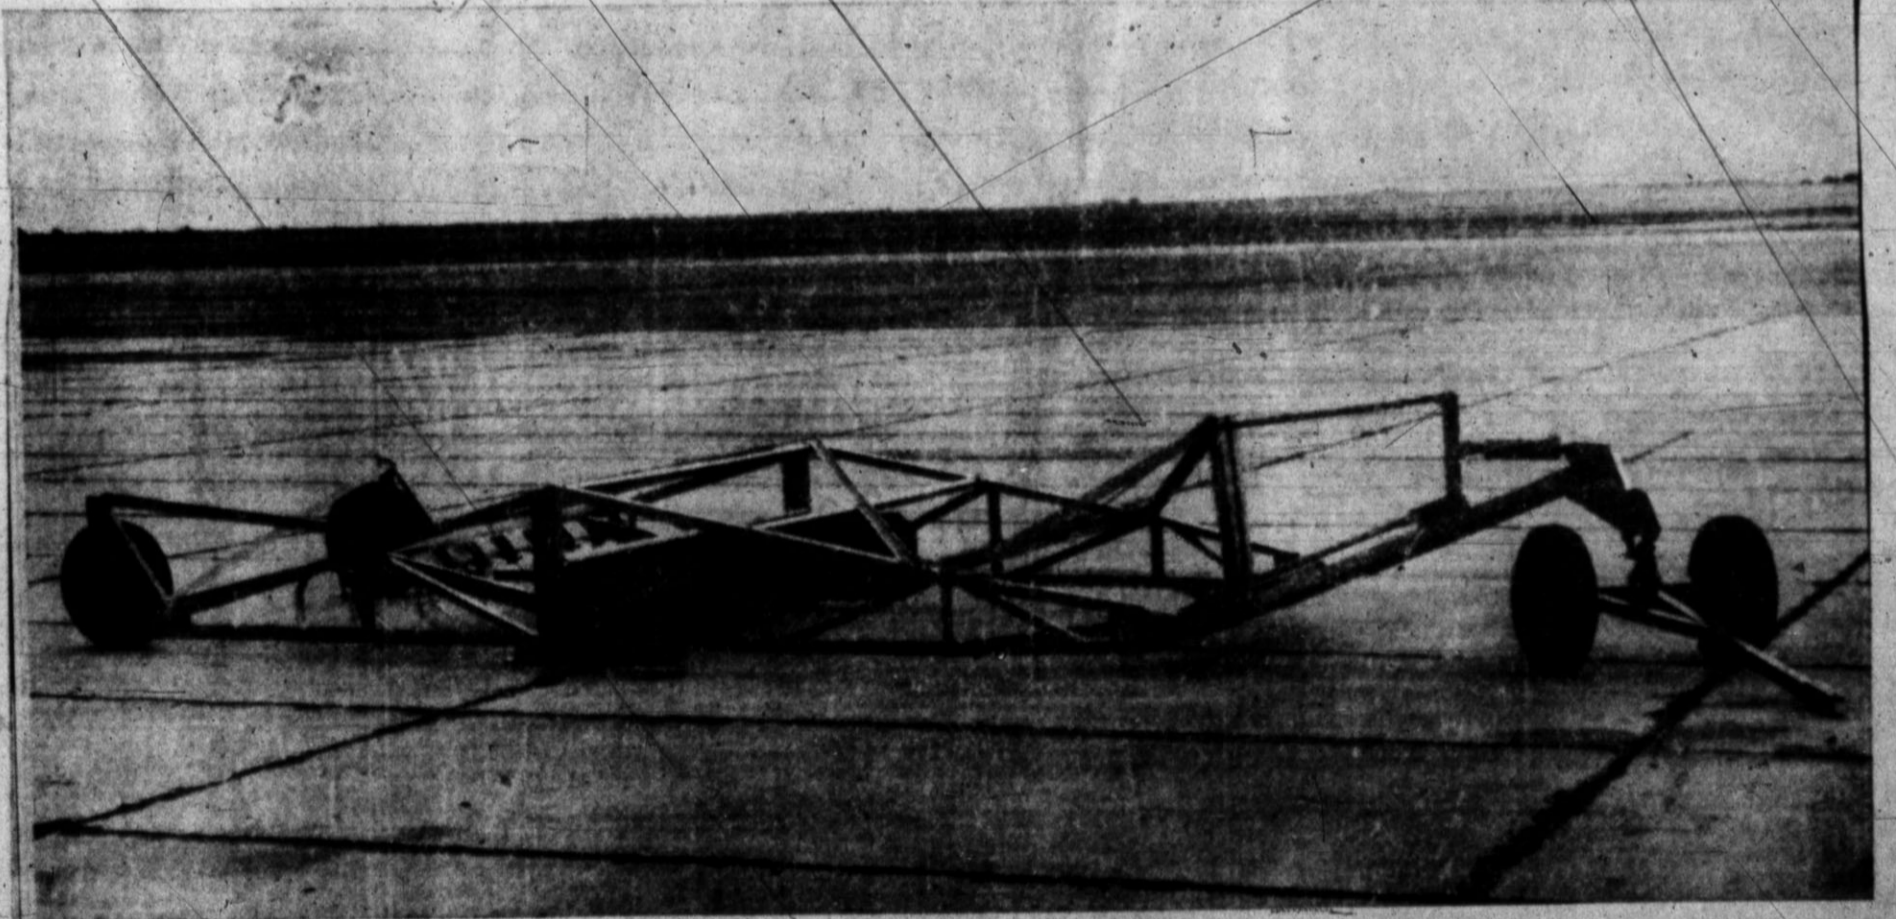

**ROADS FOR SURFACING**

**AIRPORTS FOR LANDING FIELDS**

**LAND FOR ALL PURPOSES**

### EASY TO PULL AND MANEUVER

The medium tractor size Model D Higley LEVELAN can be pulled with a small crawler or 4-row wheel tractor. A hydraulic control lifts the front end and blade and permits the LEVELAN to be turned within its own length and cut squarely back across the field—picking up all dirt dropped by the blade during the turn.

### You've Never Seen Anything Like It!

Farmers everywhere testify that there is no other machine like the Higley LEVELAN. Its sturdy construction, ease of handling and fool-proof operation combine to make an ideal tool which plows and planes in one operation. Two sets of chisels may be used, one set ahead of the blade and another behind it. The one set, which is standard equipment, can be moved easily from the front to the rear of the blade.

Farmers find it a permanently profitable tool. It should be used before planting every crop. The cost is so reasonable, and the earning possibility so great, you will want to see it.

### Week-End Vacation

**SUNDAY OUTING**—Residents of this locality are very fortunate, since they do live on the high plains, to have water and scenic picnic country like they do at Buffalo Lake and Palo Duro State Park. Any Sunday, or for that matter, almost any day of the week during the summer, you'll find numerous Hereford folks joy riding, fishing, taking pictures, picnicking or just sleeping in the shade in spots like these.

Of course we'll be the first to admit a guy would have a hard time staying in the shade of the tree in picture number one, but it made a good picture. Pictures two and three are of the second and first waterfalls at Ceto Glen in the Canyon, as picturesque a spot as you'll find anywhere. The young angler in picture four is trying his luck at Buffalo Lake, south of Umbarger. Picture five is already famous because of the picture show "Sundowners". "The Light House" was shown in the opening scene of the movie. You'll find it west of Capital Peak in Gold Canyon if you go looking for it. Jap Dickerson took all of these shots except number five that Elmer Patterson got. (Camera Club Members)

### THE FISH DIDN'T GET WET

Duaine Walker, right, and Johnny Boyce, got the gold fish out so fast Sunday afternoon in the fish scramble at the Municipal Swimming pool that one observer swore the fish didn't have time to get wet. And, although it wasn't quite that fast, Pool Manager Bud Eedley says they'll try it again this week if they can get a little bass or crappie that will give the kids a real race. He also has some races on tap for some night next week. The picture on the left shows part of the contestants scing in with the whistle in the scramble Sunday. Photo by Travis Curaway

## THE MAGICIAN

BY LEE FALK & PHIL DAVIS

CURIOUS ABOUT THE PIRATES, MANDRAKE ORDERS THE ARGOS CREW NOT TO RESIST. MEANWHILE, THE PIRATES LOOT THE YACHT...

WHERE DID THEY COME FROM?

THAT'S WHAT I WANT TO FIND OUT!

AFTER SMASHING THE RADIO, THE PIRATES HERD ALL THEIR CAPTIVES INTO CABINS--

--WHERE EVERYONE IS TIED. BUT WHEN THE PIRATE COMES TO BIND MANDRAKE, HE ALREADY APPEARS TO BE TIED!

YOU'RE NOT GOING TO TIE ME TWICE, ARE YOU?

I DON'T REMEMBER TYING HIM. GUESS I MUST HAVE--

AS SOON AS THE PIRATE LEAVES THE CABIN, MANDRAKE'S HYPNOTIC BONDS DISAPPEAR!

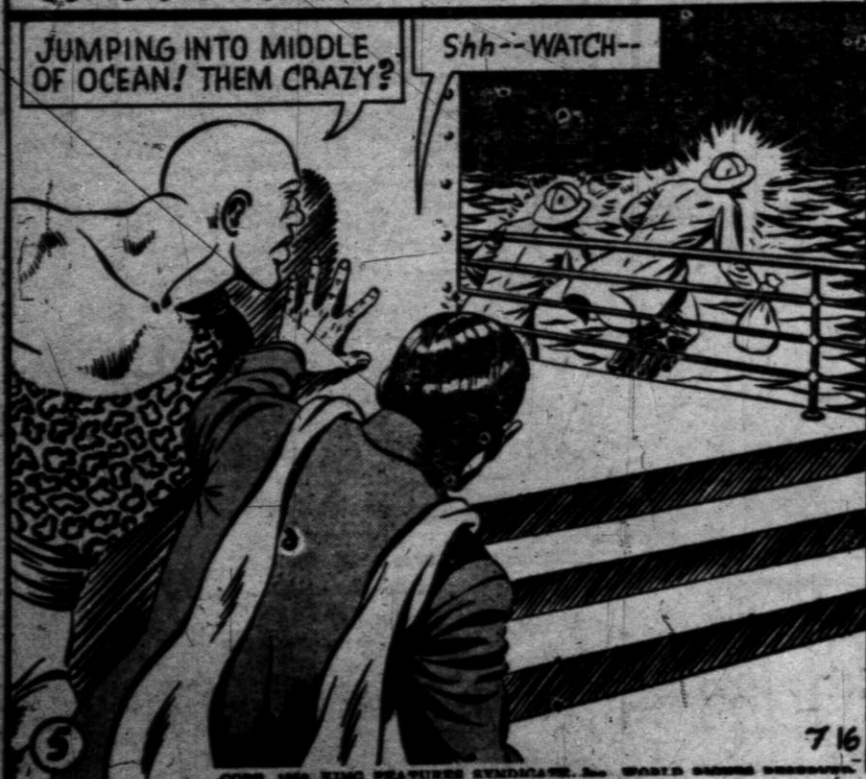

QUICK, LOTHAR. THEY TIED US IN HERE SO NO ONE WILL SEE HOW THEY LEAVE! BUT THAT'S ONE THING I DON'T WANT TO MISS!

THEY'RE AMAZED TO SEE THE ENTIRE PIRATE CREW GOING OVERBOARD INTO THE DARK SEA...

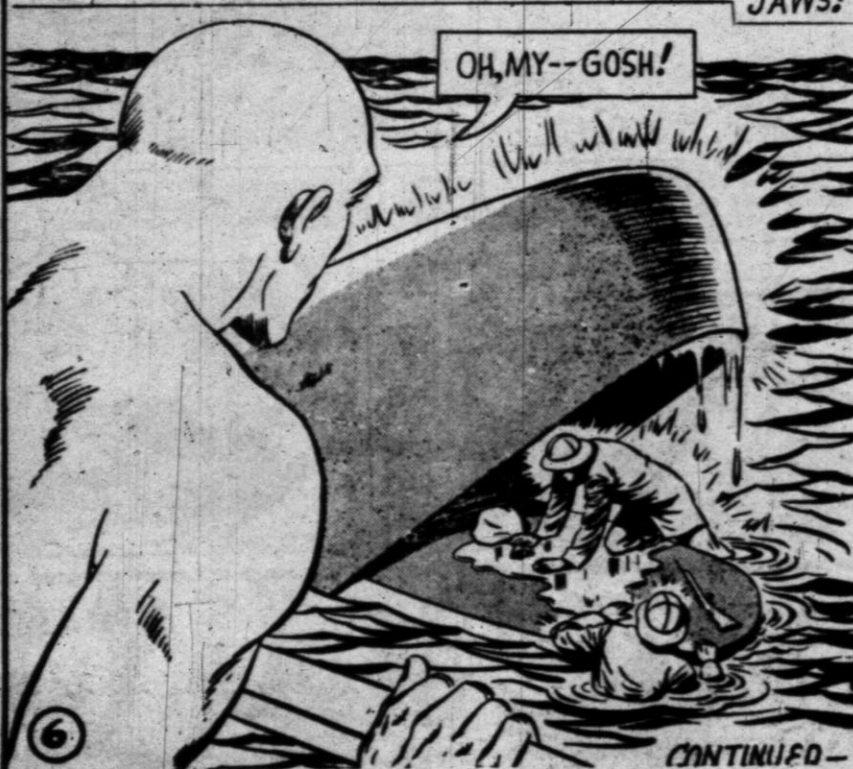

JUMPING INTO MIDDLE OF OCEAN! THEM CRAZY?

Shh--WATCH--

THEY ARE STUNNED AT THE SIGHT! THE GLOWING GHOST WHALE HAS RETURNED! AND THE GLOWING PIRATES SWIM INTO ITS GAPING JAWS!

OH, MY--GOSH!

IN THE DAYS OF KING ARTHUR

by Harold R. Foster

**Synopsis:** HAP-ATLA, YOUNG KING OF THE INNER LANDS, HAS PLANNED TO STORM KING AGUAR'S STRONGHOLD AND OVERRUN ALL THULE. HIS SURPRISE ATTACK HAS FAILED TO TAKE THE GRIM AND SILENT FORTRESS, THOUGH NOT A FOE HAS BEEN SEEN!

"WHAT IS THIS MYSTERY?" HE CRIES IN DESPAIR. "AND WHERE IS THE ARMY OF THULE?" A PANTING SCOUT BRINGS HIM THE ANSWER.

"THE MEN OF THULE HAVE MARCHED AROUND US AND ARE LAYING WASTE THE INNER LANDS!"

NOW IS THE TIME FOR AGUAR TO LEAD A COUNTERATTACK AGAINST HIS CONFUSED ENEMY, BUT ALETA SAYS: "YOUR DEFEATED FOE WOULD BE FOREVER SEEKING REVENGE, AND, BESIDES, PESTILENCE HAUNTS A BATTLEFIELD. NO, WE WILL NOT ENDANGER MY BABY'S HEALTH!"

ALETA KNOWS NOTHING OF WAR OR TACTICS BUT SHE DOES KNOW.... PEOPLE. HER PLAN IS TO REDUCE HAP-ATLA FROM AN ARROGANT YOUNG KING TO AN ORDINARY HUMAN SO SHE CAN TALK COMMON SENSE TO HIM.

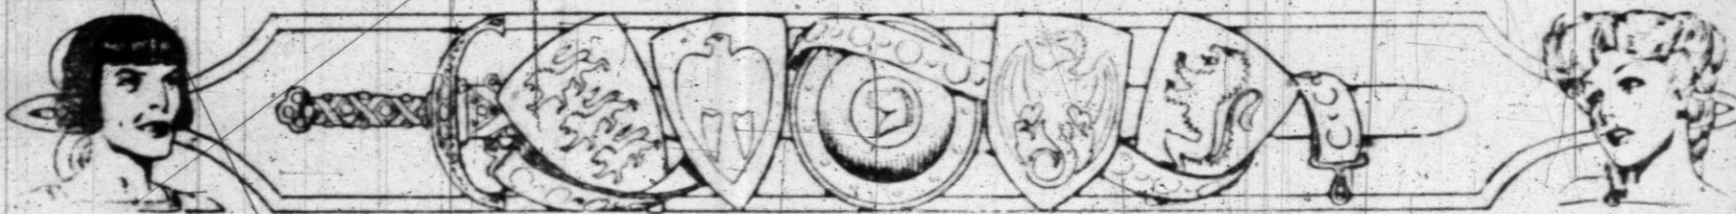

IT IS SOON THEREAFTER THAT A FOEMAN FINDS A SMALL GATE STANDING AJAR AND CAUTIOUSLY ENTERS. KING AGUAR IS IN THE GARDEN, TENDING HIS ROSES!

"YOU ARE LATE," THE KING REMARKS, "BUT TAKE THAT LETTER TO YOUR MASTER. I EXPECT AN ANSWER IN THE MORNING."

THE SOLDIER OBEYS, TOO SURPRISED TO OFFER VIOLENCE TO THE UNARMED KING..... SO FIFTY CONCEALED ARCHERS LOWER THEIR BOWS.

HAP-ATLA RECEIVES THE OFFER TO DISCUSS PEACE AND HEARS ALSO THE STORY OF ITS DELIVERY. IS KING AGUAR ALONE DEFENDING THE CASTLE? IS THERE WITCHCRAFT HERE?

NEXT WEEK - *Woman's Wig*.

THAT CRASH MADE AN INFERNO OUT OF THIS FOREST! I'LL HAVE TO DIVE INTO THE LAKE OR BE BURNED TO A CRISP!

NOT A CHANCE TO HELP THE JEWEL THIEVES... I CAN'T GET NEAR THOSE FLAMING PLANES!

I'LL BE LUCKY IF I CAN HOLD MY BREATH LONG ENOUGH TO SWIM CLEAR OF THE FLOATING GASOLINE!

WHEW! WELL, I DIDN'T GET MY MAN OR RECOVER THE BLEEDING HEART RUBY! THIS CASE JUST WENT UP IN SMOKE... OH-OH, IT'S BEGINNING TO POUR. I'D BETTER HEAD FOR THE OTHER SHORE!

AT LEAST THIS STORM WILL SAVE THE FOREST... I'D BETTER PUT UP A LEAN-TO AND GATHER SOME FIREWOOD BEFORE IT'S TOO WET TO BURN!

GOLLY! MR. ALLERDYCE'S HORSE SURE DOESN'T LOOK SICK TO ME.. IT'S QUEER ABOUT THAT MAN GIVING HIM THAT MEDICINE.. I'M GOING TO ASK TEX!

RIDE OVER TO THAT BIG TREE, GOLDY. I WANT TO TELL YOU SOMETHING.

IT WAS A CINCH. ALL THE HORSES' FEED PAILS HAVE THEIR NAMES ON THEM.. I DOCTORED BIG BLAZE'S PAIL WHILE RUSTY SADDLED MY HORSE!

IT SEEMS ODD THAT A STRANGE MAN, IF HE'S A REAL DOCTOR, WOULD MEET MR. ALLERDYCE OUT IN THE ROAD THAT WAY.. SECRET-LIKE..

OH, THERE YOU ARE, RUSTY.. YOU DIDN'T CLEAN UP THE PAILS AFTER YOU MIXED THE FEED FOR THE HORSES.

I'M GOING TO DO IT NOW.. SAY, TEX, DO THEY EVER GIVE HORSES MEDICINE IN THEIR FEED?

WELL, NOW, I S'POSE THAT COULD BE DONE, BUT NO VET I EVER HAD DEALIN'S WITH USED THAT METHOD.. WHY DO YOU ASK, RUSTY?

WHEN I WAS ROUNDING UP THE MARES AND FOALS, I HAD TO GO WAY DOWN BY THE GATE TO GET OLD DOLLY.. AND THERE WAS A MAN TALKING TO MR. ALLERDYCE IN THE ROAD... AND..

THE MAN GAVE MR. ALLERDYCE A PACKAGE WHICH HE CALLED "MEDICINE".. HE SAID, "JUST SPRINKLE IT IN THE FEED.. IT'LL FIX ANY HORSE!"

DURNED IF I EVER HEARD OF THAT KIND O' DOCTORIN'! SOUNDS MIGHTY QUEER!
