**Garden Beautiful Club Entertains At Tulip Tea Given In Tom Boyd Home**

Hereford is moving forward toward the much desired status of a garden minded city. Greater appreciation of the horticultural contributions to the beauty of the town and greater public interest in their care and protection, has been brought about largely by material improvements sponsored by Hereford's two garden clubs. Flower shows, amateur show-

ing, schools and social affairs are being given to stimulate interest and to show progress made and with each year's endeavor homes and garden spots are being made more beautiful and a growing sense of civic pride is much in evidence.  
**Tulip Tea**  
 One of the prettiest affairs of the spring season was the Tulip Tea given by the Garden Beautiful Club at the home of Mrs. Tom Boyd Monday afternoon honoring members of the Hereford Garden Club.  
 Featuring the annual flower of the club, the tulip, the receiving rooms presented a galaxy of color as springlike as rows of bright red poppies along a garden wall. Arrangements of the tulips in all colors were used about the rooms and the formal dresses worn by the house party repeated the colors of the flowers.

Expenses of two representatives to one of the ten-day schools will be paid by the local Red Cross chapter.

### Lions Push John McLean for New District Governor

The Hereford Lions Club is preparing to make a strong bid to elect John McLean as District Governor of the new Lions Club District 2-T-1 at the annual Lions Club Convention meeting in El Paso next week.

The newly-formed district, created by a division of old District 2-T, includes all of the Texas Panhandle and South Plains as far south as Brownfield.

A delegation of at least 35 local Lions Club members, headed by Boss Lion Howard Gault and campaign managers Harold Close and Jimmie Gillentine, scheduled to leave Sunday for El Paso to attend the three-day convention.

Lions Club members have been working rapidly during the past week meeting with all clubs in district and campaigning for the election of McLean to the office.

A powerful inter-club political organization is being built up to support the local candidacy. The only other announced candidate in the race, as convention dates near, is Max Boyer of the Perryton club.

Two special meetings of the Lions Club have been held already this week, and a final one to plan campaign strategy on the convention floor will be held Friday night at the City Hall, beginning at 7:30 p.m.

Mrs. Cawthon Bryant's mother and sister, Mrs. J. David and Juanita Smith of Ralls are visiting her this week.

Mr. and Mrs. Joe Smith and children returned Tuesday from Colby, Kansas, where Mrs. Smith and the children have been visiting for the past two weeks in the home of her sister, Mr. Smith went to Colby last week end to return with the family.

### STORM RELIEF FUND IS STILL GROWING

The storm relief fund for victims of the tornado at Higgins, Glazier, and Woodward, Oklahoma, has reached \$1,879.75, Mrs. Dyalitha Bradley of the local Red Cross Office, reported this week.

Scouts of Troop 2 will continue the paper collection every two weeks, Adams said. Householders in the residential sections of town are requested to place their bundles or boxes of paper for the collection outside their doors or, preferably, at the curb, Saturday morning so that it can be easily spotted and picked up.

### Lemke Landscape Project Success Without Irrigation

One of the outstanding farm landscaping jobs in this area is at the Walter H. Lemke home near Adrian, 40 miles northwest of Hereford.

Now a showplace for farm landscape gardeners in the Plains country, the Lemke plantings were started in 1937 by the Lemke's son, Walter, Jr., as a hobby.

They include a sizeable and successful orchard, a windbreak of Chinese elm and other trees, and virtually every sort of shade tree, shrub and evergreen that will grow in this climate.

All of this was accomplished without any irrigation whatever. Young Lemke built terraces and small dams to conserve every possible drop of moisture from rainfall.

While he was in the army, as a Staff-Sergeant with the AAF during the war, the plantings were cared for by his parents. Back at home now, Walter is looking after the project himself again.

Following a time-out for a fast-minutes sale of tickets, which netted the Veterans Home Fund several hundred dollars, Little Linda Lee West dipped into the hopper and came up with the name of V. Skypala for the new 1947 Studebaker Champion, Grand Prize of the day.  
Hundreds of couples jammed the dance halls at City Hall and the County Club House Sat-

urday night for the two big Victory Dances which climaxed the celebration.  
Veterans organizations netted approximately \$2,000 from the X-Day events including their share of the gate receipts at horse races Saturday and Sunday, to add to their fund for building a Veterans Memorial Home.  
Large crowds turned out for the quarter-horse racing meets at the Sta.'s Park track Saturday afternoon. Fifty percent of the gate receipts went to the Veterans fund.

First draft registrations began on October 16-17 of that year. All registration officially ceased on March 31 of this year.  
Since Selective Service began, the Deaf Smith County Board has handled the entry of between 600 and 700 local men and boys in the armed forces of the United States. "At least half again that many entered the services as volunteers from this county without ever going through the local Board," Mrs. Peterson estimates.  
None of the three men who retired this week were members of the original county board.  
Original appointees were Carl Gilliland, who resigned to take over the office of County Attorney; and Frank Givan and H. G. Cookwright, both of whom served until their deaths in 1945.

Floyd was lodged in Deaf Smith County jail, and Mitchell was taken to the hospital, where he was held under arrest pending trial on the drunkenness charge.  
Local officers, highway patrolmen, sheriff's department, and city police, have joined forces in declaring an all-out war on drunken drivers.  
Floyd was the first offender to be tried in county court here this year on DWI charges, and the stiff sentence meted out to him was hailed by officers as a fair sample of what drunk drivers may expect here in the future.

which is now critically overloaded by Hereford's estimated population of 5,000 people. Extensions of present sewer lines are also planned.  
A \$133,000 bond issue for street improvements will cover the city's portion of the cost of paving a projected hundred blocks of city streets and alleys. The city will pave intersections and alley frontage, with the individual property owners splitting the cost of paving the streets in front of their own property.  
The \$50,000 Parks Improvement bond issue will provide for improving the city's park system, and will include construction of a modern municipal swimming pool and bath houses.  
All bonds were contracted for sale prior to the election. Two San Antonio firms, the First of Texas Corporation and the Columbian Corporation, bidding jointly on the issues, were awarded contracts to purchase the bonds at an average rate of interest of slightly more than

Water works and sewer bonds are revenue bonds, to be paid from the revenue from the city's combined water works and sewer systems, and do not affect the city's tax rate.  
Parks improvement and street paving bond issues will be tax bonds, and will necessitate an increase in the city's tax rate of 15 cents on the \$100 valuation, Mayor Dameron said.  
The tax rate next year will be \$1.35 on the \$100 valuation, still 15 cents below the statutory maximum.  
Completion of a swimming pool this year is doubtful, due to the fact that some materials required for the project are still on the critical list and may be unobtainable. However, the project will be accomplished as rapidly as possible. Some parks improvements may be made this summer.  
The sewage disposal plant, characterized by officials and engineers as the most pressing from the standpoint of community health and sanitation, will get top priority.  
Water works extensions and improvements will also be accomplished as quickly as availability of materials permits. Much of this work must be done before the paving of streets is completed.

DEAR DIARY:

Had a card the other day from my old friend Henry Allmon — Henry now lives over in Arkansas, but still reads the Hereford Brand, and urged me to give with a weather forecast each week. All of which is very flattering, but I still think I have lived here too long to try guessing the weather.

However, in connection with the weather, I do think that warm weather is definitely here, and with it, the time to tell all the folks about the new Lewis Temperature (just a fancy name for a good air conditioner). These units come in two sizes for small and medium sized homes, and can be installed with a minimum of effort. They are well constructed of heavy materials, use a special air-conditioner motor, and are easily accessible for minor repairs and replacements. See them in our window. We will install.

Just received: Large shipment of the beautiful Viking glass ware — the sparkling clear glass that blends so well with any color combination. The prices are right. Excellent assortment of Pesto tools, including bit braces, tinners snips, wood chisels, pliers, screw drivers, squares, small planes, and a variety of wrenches.

Coming soon: 3 piece sets of "Case" hollow ground steak sets

— Models D and H Raining Sprinklers — Dasey ice crushers — long handled dust pans — Dasey can openers and juicers — step-on cans — Grey Ghost casting lines — big assortment of meal Hostess Trays in various designs and colors — complete assortment of Aermotor windmill repairs — allotment of Brown Eyed Susan dishes — soft balls and bats.

We have one Delta Homecraft circle saw, one 4" planer and one drill press. We also have plenty of garden plows, lawn mowers, garden tools, Weed-No-More, sprayers, spring house cleaning items such as mops, brooms, waxes, polishes, scratch remover, dusting paper, and glass cleaners.

It would appear that Hereford can now be numbered among the progressive communities of the Panhandle — all four of the projects advocated by the City Commission were approved by wide margins. Now all we need is a new school and an addition to the hospital and we will be ready to expand into a city. Wonder what it would be like to operate a city hardware store?

# CO-OP Tractor Tires

"Yes, sir, those brand new Co-op Tractor Rear Tires that have just come on the market, are far ahead in every respect. The farmers certainly have done a swell job in developing this new tire to meet their needs!"

Years of research on the part of farmers and their Co-op representatives have gone into the development and construction of this revolutionary new tractor tire. Tested and proven on the farms of America, by the farmers themselves, this excellent new tire is designed to give the best in service with the maximum efficiency. This tire is made for farmers, in farmer-owned molds, cooperatively—and it has to be good to meet the rigid specifications set up for it. This rugged and sturdy new tire is now on display. We invite you in to inspect it.

## Deaf Smith Home Demonstration Clubs Hosts at District Meeting

### Nat'l Home Demonstration Week Slated

"Today's Home Builds Tomorrow's World" is the theme for National Home Demonstration Week, which is being observed throughout the nation May 4-11. Deaf Smith County Home Demonstration Clubs will climax their own observance of the week here next Wednesday, when they will be hosts to delegates from clubs in the 18 Panhandle counties comprising THDA District One in a district convention. Several hundred Home Demonstration club members are expected in Hereford on that date for the annual meeting. The Home Demonstration clubs are celebrating their 34th anniversary this year. National Home Demonstration Week is being observed this year for the second time, and is slated to become an annual observance throughout the United States.

### District One Group to Meet Here May 7

Deaf Smith Home Demonstration women will be hosts next Wednesday, May 7, to members of District One, Texas Home Demonstration Association, at the First Christian Church in Hereford.

Home Demonstration Club women from eighteen Panhandle counties will be guests of the local clubs at the meeting. Represented in THDA District One are Dallman, Sherman, Hansford, Ochiltree, Lipscomb, Hartley, Moore, Hutchinson, Roberts, Hemphill, Oldham, Potter, Carson, Gray, Wheeler, Randall, Armstrong, and Briscoe counties.

Heading the visiting delegations will be Mrs. Carl McDowell, THDA vice-president for District 1, from Sunray. Mrs. R. L. Campbell of Wildorado, vice-president at large of the THDA, will act as parliamentarian for the meeting.

Mrs. Merlin Kaul, chairman of the Deaf Smith County Council, will deliver the welcome address Wednesday morning, and the response will be made by Mrs. M. B. Couch of Childress. Childress county has just been shifted District 1 to District 3, as a result of re-districting of Extension Service work.

Mrs. John Yancy, THDA secretary, of San Angelo; Miss Gwendolyn Jones, Food Preservation Specialist with the Extension Service; and John Sanderson, manager of the Amarillo Social Security office, will be the principal speakers at the morning session.

Miss Jones will speak on "Leadership, Our Challenge," and Mr. Sanderson will discuss "Social Security for Farm Families."

Luncheon will be served at noon in the dining room of the First Christian Church, and the luncheon program will include displays by Moore, Wheeler, Randall, and Hansford county delegations and a skit, "Fashions of Yesterday," presented by Deaf Smith County clubwomen assisted by other counties.

Business sessions will occupy the afternoon, with a discussion of committee plans and outlining the THDA program heading the afternoon program at two o'clock.

Reports will be heard from (Continued on Page 4)

### OVER 100,000 STRAWBERRIES GIVEN AWAY Mrs. Nolie Elliston's Strawberry Plants Supply Countless Thousands of Gardens

If you have a patch of strawberries in your garden, the chances are better than even that the original plants came from Mrs. N. G. Elliston of Wiche community.

Since 1938, when Mrs. Elliston set out 250 strawberry plants in her garden, she figures that she has given away more than 100,000 plants—and she's never sold a plant or a berry.

Mastodon Gem is the variety which has proved so successful for Mrs. Elliston, and which she has distributed so widely. Until two years ago, she kept a record of the number of plants given away on the back of a calendar. At that time, the number totalled 75,000. Since then she's lost count of the number of plants distributed.

But if everyone who has been given plants from the original Elliston planting has shared as generously as she has, the number of strawberry vines originating in the Elliston garden must have reached uncounted thousands.

Last year, for example, 22 members of her home demonstration club came to her home and dug about 300 plants apiece. One came back and got another 300.

The plants have been given to visitors from California, Colorado, Iowa, Illinois, Missouri, and Oklahoma, as well as other points in Texas. Numbers of Randall County Home Demonstration club women "got their start" from the Elliston garden, and a man from Nazareth in Castro county took home a load in a pick-up truck.

"My plans for this year are the same as every year," Mrs. Elliston says—"transplant half the patch, keep the old patch, and give away the remaining plants in the old planting."

"Only the plants of this year's runners are transplanted or given away," she reports. "These berries bear unusually well in this part of the country, and are grand eating fresh, as well as making excellent preserves and keeping well in freezing lockers. They reach a huge size if watered frequently."

### Family Disaster Starts Local H. D. Woman on Career

A family disaster and grim necessity started Mrs. Bill Rice on a hobby that has now developed into a profitable business proposition.

When her farm home burned about four years ago, Mrs. Rice began to use the training in furniture re-finishing that she had received in her home demonstration work; and now she does quality work in that line, with orders keeping far ahead of her working capacity, though she now hires a part-time assistant.

Since she began the work on a commercial scale, she has completed more than 200 jobs for about 125 different customers. The jobs range all the way from re-tying springs and re-upholstering overstuffed furniture to making formal draperies, slip covers, plastic curtains, to a complete job of re-decorating.

Also in line with her home demonstration training, Mrs. Rice keeps a careful record of her work, both costs and income; and is saving the money from her furniture business to use in improving her home.

Mrs. Rice continues to keep a full schedule of regular home tasks, in caring for her two young sons. She also raises chickens and a garden on a large scale, and does her quota of home canning.

### Three Thousand Veterans Jeopardize Rights Under GI Bill Regulations in West Texas

Some three thousand West Texas veterans, many in this locality, have jeopardized training and education eligibility and violated Federal Penal Laws by having accepted subsistence payments from the Veterans Administration to which they are not entitled under the law, Ned Bradley, V. A. sub-regional contact representative said today.

Over-payments to veterans in the West Texas V. A. region amounts to \$336,000, all of which is subject to recovery by the Government and cannot be "marked off" by charging it to veterans eligibility.

Veterans who have been over-paid have been notified to that effect by the V. A. regional finance office and informed that reimbursement of the excess payment must be made.

Bradley explained that over-payments are caused by veterans failure to comply with public law 679, which became effective August 8, 1946.

The law fixed a point in income at which the veteran-trainee can be capable of his own support. At this point, the

government withdraws its measure of support.

This level has been fixed at \$175 a month for single veterans and \$200 for those with dependents. When job and subsistence together reach these marks, veterans receive no additional aid in the form of federal funds. But there is no limit on such additional wages as employers might wish to pay veterans as they progress in training.

The full amount of \$65 or \$90 as the case may be, in V. A. subsistence payments is allowed only when this amount plus regular wages does not exceed \$175 for single veterans or \$200 for veterans with dependents.

Beginning in August, in compliance with this law, veterans in receipt of subsistence payments were provided with report of earnings forms on which they were to report their earnings from regular wages or salary.

Included on the form was the following — "Important Notice — If the wages, salary, or other compensation you receive from

employment plus your subsistence allowance exceeds \$175 a month if you have no dependents or \$200 a month if you have a dependent or dependents, that part of your subsistence payment necessary to bring the amount to \$175 or \$200 which applies in your case, is the only amount due you under the law. ANY AMOUNT ACCEPTED BY YOU IN EXCESS OF THIS AMOUNT IS SUBJECT TO RECOVERY

of not more than \$1,000, or by imprisonment for not more than one year or both."

In conclusion, Bradley said, "Veterans, be sure you are entitled to the full amount of your subsistence check before you cash it; otherwise, return it to the V. A. Regional Office at Lubbock with explanation and proper adjustment will be made in your behalf.

The training cruise consisted of drills and battle problems to refresh reservists' previous training and acquaint them with the latest developments in Naval equipment.

BY THE GOVERNMENT."

V. A. could not adjust its subsistence payments until wage reports were received at the end of a three months period in the meantime veterans-trainees continued to receive subsistence for the full amount.

As indicated by the report of earnings hundreds of them were not entitled to the full amount, but received it and kept it.

The law says the amount to which the veterans was not entitled must be repaid or deducted from subsistence payments due. It cannot be liquidated by charging it to his eligibility, Blakley emphasized.

Veterans trainees who drop out of training without notifying V. A., and who continue to receive subsistence payments, also find themselves in serious trouble with the Government.

The Servicemen's Readjustment Act of 1944, better known as the G. I. Bill provides "Any claimant who knowingly accepts an allowance to which he is not entitled shall be ineligible to receive any further allowance under this title — whosoever shall obtain or receive any money, check, or allowance under this title, without being entitled thereto and with intent to defraud the United States Government, shall be punished by a fine

**Shishtinta Group Send Aid To Others**  
Carrying out the 1947 Birthday Project "Going Places," the Shishtinta Camp Fire Girls furthered their aim and objective of "helping others," giving service and aiding in better understanding between all groups, by showing their friendliness last week to Camp Fire Girls in

Two boxes of clothes were also sent to the storm area at Higgins. Under the direction of Mrs. Bob Wilson, guardian of the Shishtinta group, the girls donated and gathered together clothes for girls their own ages and wrote letters of sympathy

You can overload your electric wiring system too if you don't lights to your home, and leave your wiring as it was installed years ago, you're apt to overload it, and receive less efficient service. ### Windbreak Plantings Are A Living Tribute to Recently Retired CHDA

Dozens of windbreak plantings standing out sharply on the flat expanse of Deaf Smith county plains, are a lasting tribute to Miss Sadie Lee Oliver, who retired this year as Deaf Smith County Home Demonstration Agent after more than 40 years of teaching and Home Demonstration work, eight of them in this county.

Landscaping of farm homes and the planting of windbreaks constituted one of Miss Oliver's major projects in this county.

Among the windbreak plantings accomplished here under her direction as demonstrations were those at the homes of Mrs. Bees Werner, the Merlin Kauls, and the Paul Rudds at Westway; the Thiele farm and the Ira Ott and Nolle Elliston places at Wyche; the R. J. Coleman farm at Messenger; the Moody Steph-an far mat Summerfield; and the N. D. Bartlett farm at Westway.

Her last demonstration planting was at the George Heard place south of Hereford on the Dimmitt Highway.

Miss Oliver came to Deaf Smith county from Canadian in 1938.

### Another Cattle Parasite Threat To Texas Herds

COLLEGE STATION, April 30—Texas stockmen may have another cattle parasite problem on their hands.

In a report received by the Texas A. & M. College Extension Service, entomologists of the U.

and began the organization of Home Demonstration clubs in this county. Prior to coming here, she had served as Hemphill County Demonstration Agent for four years. For 14 years she was an instructor in the Department of Rural Arts at Texas State College for Women in Denton.

Now living at her farm near Belton, Miss Oliver still keeps up with Deaf Smith County activities through the Hereford Brand, which she receives regularly.

S. Department of Agriculture state that they have discovered in Florida and Texas an African cattle parasite, the "tall louse." The scientists say that heavy infestations of the lice can be a serious threat to cattle production. The lice sap cattle of their vitality and can make them too weak to walk if infested heavily.

How the louse got to the United States is a question, the entomologists say. Previously, it was known to exist only in West Africa, where it was discovered in 1915. It has been most recently reported in Texas.

The lice infest the brush of the animal's tail, and Florida cattlemen have named it the "tall louse." Stockmen can recognize serious infestations by the appearance of the animals' tail.

The USDA entomologists say that sprays containing 1.5 per cent DDT, in a wettable powder form, have proved to be effective means of controlling the louse. They state that although the tail is the central point where the lice gather, spraying the entire animal thoroughly is advisable. One and one-half to two pints of spray per animal is usually enough to do the job.

## Extensions Map Plans for Shifting Farm Laborers Through Harvest Areas in Texas

COLLEGE STATION, April 28 —With a record cotton crop already planted and up in the Rio Grande Valley and with growers in both South and West Texas scheduling big increases, pressure on the available labor supply probably will be as heavy as it was during the war years in the opinion of Cesar Hohn, state farm labor supervisor for the Texas A. & M. College Extension Service.

But this year an estimated 10 to 15 per cent more Latin American workers and a few more Negro workers will be following the cotton crops, thus helping to ease the situation, he believes. Valley farmers have taken out

permits for planting 480,167 acres of cotton, compared with 290,000 acres planted last year; Gulf Coast farmers have planted about 20 per cent more; and, always depending on moisture conditions, West Texas growers are expected to increase their acreage considerably. For the state as a whole, the U. S. Department of Agriculture is asking 8,000,000 acres of cotton compared with an estimated 6,400,000 acres planted last year, but it is doubtful that the goal will be met.

Faced with this production and labor situation, the Extension farm labor program, with four years of experience in shooting for maximum utilization of a-

valuable labor, has set in motion the 1947 program which is designed to have labor on hand when it is needed, to eliminate lost motion spent in useless travel to jobless areas, and to encourage workers to remain on a job until it is finished, thus helping both grower and worker. Among steps being taken:

If all goes well with the Valley crop, every available worker will be needed for picking cotton there, so migrants living in the Valley are being urged to remain there for the picking season which will get underway in late June, and in addition, when additional labor is needed in the Valley, as in other areas, migrants will be routed there from other sections.

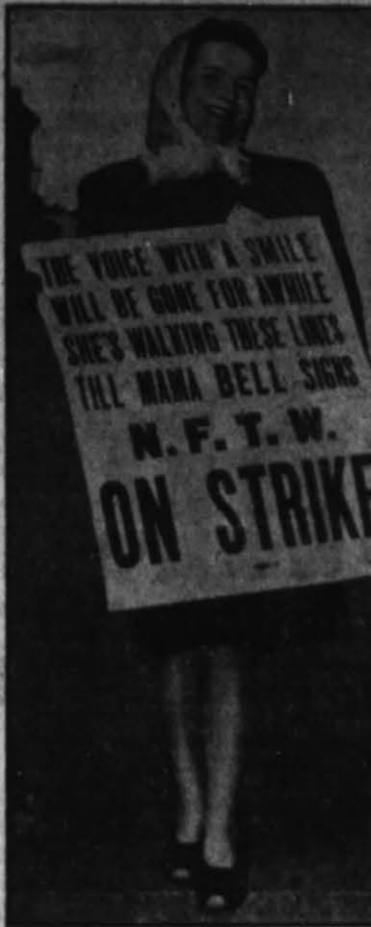

As the crop matures in the Gulf Coast section in early August, workers will be directed to that section, and from there they will fan out over the state to other areas, particularly West Texas, which use large numbers of migratory workers.

County agents report labor needs to the state office at College Station, and already the system of weekly reports to the counties, stating labor needs and giving the state farm labor picture, is enabling the agents and farm labor fieldmen to direct the workers to jobs in both cotton and vegetable fields.

Sugar beet workers, who annually make the long trek to the beet areas in northern states, are being routed in an orderly manner to avoid surpluses in some areas and deficient supplies in others.

Texas fieldmen will be stationed in each of the beet areas to carry on a continuous educa-

### Officers Are Elected By El Nino Sudy Club

The last regular meeting of the El Nino Sudy Club was held Tuesday evening April 22 with Mrs. E. J. Kirksey, new officers for the club year which will begin in September after a summer vacation, were elected and will be installed at a joint

tional and training program and to bridge the language and other gaps between workers and growers. They will try to see to it that migrants don't run out of work during the slack periods and go to other work opportunities before the job is done, a situation which has occurred at times in the past and has resulted in additional recruiting of Texas labor by beet companies and consequent shortages of labor here.

With a larger force of fieldmen and since both growers and workers are familiar with the workings of the program, Hohn predicts that the farm labor program this year will operate more smoothly than ever before and that all labor needs can be met.

meeting with The Child Study Club to be held in the City Hall banquet room on May 8.

The officers elected include; Mrs. Fred Pierce, president; Mrs. Will Graham, vice-president; Mrs. E. J. Kirksey, secretary; Mrs. Ben Childers, treasurer; Mrs. Stanford Knox, corresponding secretary; Mrs. Jim Bookout, parliamentarian; Mrs. W. J. Reeves, historian and Mrs. R. A. Daniel, reporter.

Moving pictures of the Easter Egg Hunt and picnic given by members of the club for their children, were shown by Mrs. Fred Pierce.

Those attending were Mesdames John Jacobsen, Jr., Fred Pierce, Stanford Knox, W. J. Reeves, T. J. Clay, R. A. Daniel, W. H. Patton, Ben Ezzell, Bruce Woodell, Elizabeth Bonoso, Jim Bookout, and the hostess.

### Annual Spring Tea Is Given By Wyche Club

The annual spring tea for Wyche Home Demonstration Club was held Thursday afternoon at the home of Mrs. Liston Wilson. Invited guests were presidents of all Home Demonstration Clubs of Deaf Smith County, Council officers and women of Wyche Community.

Mrs. Ray Cowser was guest speaker, choosing as a subject "Planning a Home." Musical entertainment was presented by a girls sextette from the High School Glee Club with Miss Thelma McMinn directing. Girls singing were Betty Katherine Hodges, Ludie Virginia Turner, Anne Morgan, Mary Catherine Edwards, Louise Young, and Ramona Gunstenson.

Mrs. E. O. Baker presided at the punch bowl and Mrs. Paul Wilson served the cake.

Those besides those on the program, signing the guest register were Mesdames; J. V. Pickens, Ashart Reimart, Ira Ott, V. P. Walker, E. C. Hewitt, Jr., Paul Wilson, E. O. Baker, Merlyn Kaul, T. J. Parsons, Maurice Tannahill, J. E. Springer, George Robertson, N. G. Elliston, C. E. Gandy, Ira Scott, Jewell E. Elliston, Curtis Traweck and the hostess.

In their soil improvement work, Texas farmers applied 100 times as much lime to their land in 1946 as they did back in 1943.

### Call Issued to Custom Combine Operators

A call to custom combine operators to be ready for the 1947 wheat harvest is being made by the Texas A. & M. College Extension Service.  
 J. B. Kidd, farm labor field assistant in charge of the Extension wheat harvest program announces that more "outside combines" will be needed this year than ever before. "Texas wheat and small grain acreage is eight percent larger than the record acreage of 1946."  
 "The wheat crop is in better condition at this time of the

year than in many seasons," says Kidd. "The subsoil moisture is good and Texas County agricultural agents report 98 per cent of the wheat in good condition—the other two per cent in fair condition. Some green bug damage is reported but the present prospects are for a bumper Texas wheat crop."  
 Kidd also urges combine operators to plan to bring their trucks to the harvest. Independent truckers, not attached to combine outfits, may be needed he says, and harvest labor of all types will be in great demand if the crop develops as it looks now.

The farm labor field man invites custom combine operators to contact him for any information regarding the coming harvest. His address is: Extension Service District Farm Labor Office, Box 1110, Plainview, Texas. The farm labor office will keep operators posted on crop conditions; combine, truck and labor needs; and what counties need help.
