HEREFORD, DEAF SMITH COUNTY, TEXAS, MAY 20, 1920.

TWO DOLLARS A YEAR.

1920 Chautauqua Begins Monday; Splendid Program

BIG "TOP" IS GOING UP; SUPERINTENDENT HERE; TICKETS GOING

GIRL SCOUTS ARE ASSISTING LOCAL COMMITTEE IN PLACING ENOUGH SEASON TICKETS BEFORE MONDAY TO AVOID LOSS

"NOTHING BUT THE TRUTH" SCORES

Famous Play Said to be Much Better Even Than "It Pays To Advertise;" "Gatling Gun" Fogelman, Jess Pugh and Musical Artists Headliners

The Hereford Chautauqua begins next Monday, May 24, and continues for six days. The programs will be held in the afternoon at 2:45 and in the evening at 7:45. Following is a list of entertainments for that week:

Monday, May 24.—Afternoon, Baldy Strang, Beatrice Baughman, Lona Hoover, Lois Leonard, entertainers and musicians. In the evening this same quartette of entertainers will be on the program and there will be a lecture by Dr. Hilton L. Jones.

Tuesday, May 25.—The Cavenys. This Company consists of a chalk artist, a soloist, and a pianist. In addition to their program in the evening there will be a lecture by Gatling Gun Fogelman, master of efficiency.

Wednesday, May 26.—Afternoon, a lecture by Rev. Ernest Mobley on "America at the Cross Roads." Many Hereford people know Mr. Mobley. He is a fine speaker. In the evening the comedy drama, "Nothing but the Truth" will be given. This is a comedy in three acts that will no doubt be one of the most entertaining numbers of the Chautauqua.

Thursday, May 27.—Afternoon, the Orchestral Entertainers with Herbert Lonka. In the evening there will be a lecture by Dr. Frank Loveland and also a program by the same company of artists.

Friday, May 28.—Afternoon, Chas. F. Horner's Own Company. This organization consists of fourteen superb soloists. In the evening their program will be supplemented by a lecture by Dr. R. E. Patton Kline.

Saturday, May 29.—Afternoon, Boniah Marty and Lillian Sellers will give a musical program as a prelude to the lecture by Dr. F. E. Gordon. They will also be on the program for the evening with Jess Pugh, the joyline specialist, bringing the week's program to a close.

The Chautauqua Superintendent this year at Hereford, will be J. H. Fiedler, who arrived in Hereford Friday morning ready for business, and with optimism and enthusiasm over the program fairly oozing from every pore. He was accompanied by C. W. Driskell, the Chautauqua "Twenty Four Hour Man," who is charged with the duty of checking up local ticket sales and pushing them along.

Miss Jessie Blak and her band of Girl Scouts have generously agreed to aid the local committee with the ticket sales and this bunch of live wire workers were scheduled to hit the streets Friday and Saturday and make a grand cleanup.

Chairman Ashbrook, Vice Chairman Hough, Ticket Chairman J. S. Jones, F. H. Oberthier, Albert Herbst, Ralph Barnett, and others have worked strenuously the past week to place the season tickets necessary to insure against loss on the guarantee to the Chautauqua people. And the work is not yet finished, by any manner of means, but must be before Monday. Additional committeemen and committee women are needed, especially on Saturday, when it is hoped a whirlwind campaign will wind up the guarantee and leave the slate clean for Monday. Those who will help with this work are requested to get in touch with Chairman Ashbrook at once.

All the advance "dope" The Brand has received on the 1920 show indicates that it is the very best talent available, and should set a high water mark for his form of entertainment. There are four numbers on the program especially which seem to stand out, i. e.: "Gatling Gun" Fogelman, the human dynamo,

the funny play, "Nothing But the Truth," Jess Pugh, "The Ambassador From Joyland," and Charles F. Horner's own company of musicians, about twenty of them.

Local patrons of the Chautauqua will remember with pleasure the play of last year, "It Pays to Advertise." Mr. Horner says his play this year is much superior to this one. Music lovers will also recall the Premier Artists of 1919, who left such a sweet taste in the mouths of everyone. This company has been enlarged this year to over more than double the number of 1919, every man and woman an artist in his or her line.

The story of the play, "Nothing But the Truth," runs as follows:

"Nothing But the Truth" is the greatest success of that much loved comedian, Willie Collier. Blase New York mobbed the lobby for weeks and the play was sold out two months in advance for the season. The success was repeated in Chicago the following year. Then the whole of Eastern America followed suit and screamed with laughter over this original and breezy play.

The plot is laid in New York. Bob Bennett, the hero, is a young New York broker, associated with two older and much less scrupulous men in the stock selling game. He is in love, head over heels too, with the daughter of one of them. Before the first act is minutes old, Bob is involved in a situation in which it is necessary for him to double ten thousand dollars in just a little less than no time. Before he knows it he has wagered ten thousand dollars of somebody else's money that he can tell "nothing but the truth" for twenty-four hours.

There is no let down in this play. Climax follows climax as situations and trouble pile up. The intra acts afford time for the audience to get their breath for the next spasm.

There is one mute member of the cast. This actor plays a very important role. Watch the big clock that marks off the minutes and hours of Bob's tribulations. Bob had looked into some beautiful faces, but never any which were so expressive, so charged with hope and tragedy as this expressive clock face. The final act has all the excitement of a horse race.

BRADLY CATTLE IN OTHER HERDS' ARE BRINGING PRICES

The Hereford Journal of May 1 carries a report of the sale put on by A. J. Minish & Bros., at Cedar Falls, Iowa, April 14, which included 19 registered two-year-old heifers from the Brady Estate and two from the W. T. Wombie herd, both of Hereford.

These heifers were sold for an average price of \$514 per head.

Additional registered cattle sales reported the past week include the purchase by Allen Powelson of two calves from Grover Sanders, one by Beau Randolph 4th, and one by Spear Michler, both out of Glycerine 4th. Glycerine 4th is directly out of Beau Michler. The two calves brought \$1,500. W. T. Wombie also sold Jno. H. Edwards, of Odessa, Texas, sixteen cowboys at a price of \$450 a round.

Report Proves Interest Here in Study of Bible

For three years now, a teacher has been employed to teach the Bible to public-school children. As public money could not be used for this purpose, the expense was met by private subscription.

This past year Miss Mattie M. Swisher, a graduate of Moody Bible Institute has taught both Bible and Music in our public schools.

The school board paid half of her salary for music. The other half was paid by the persons listed below:

On hand from last year	10.00
Acker, C. C.	15.00
Black, E. B.	15.00
Bruner, Roy K.	15.00

COUNTY DELEGATES TO ATTEND STATE CONVENTION SOON

County Judge James A. Hughes, Captain John Estes, Rev. W. H. Terry and Rev. J. E. McClurkin, regularly elected Democratic delegates from Deaf Smith county, will leave here Monday, for Dallas, where they will represent this county in the meeting of the State Democratic Convention, which convenes on May 25.

These gentlemen were elected to handle this important matter for the citizens of the county at the County Convention. They carry instructions to vote for the endorsement of the Wilson administration, to vote for delegates to the San Francisco Convention who will be similarly instructed, and to vote as a unit.

S. E. Edwards, of Kansas City, arrived in Hereford the first of the week. Mr. Edwards is here in the interest of his irrigated farm and will also attend to court matters.

Building the City of Tomorrow

When we build, let us think that we build forever. Let it not be for the present delight, nor for the present use only. Let it be such work as our descendants will thank us for, and let us think, as we lay stone on stone, that a time is to come when these stones will be held sacred because our hands touched them, and that men will say as they look upon the labor and wrought substance of them, "See! This our Fathers did for us."

SATURDAY, MAY 22, OPENING DAY FOR HEREFORD AMUSEMENT COMPANY MEDLEY OF BASEBALL, RIDING, RACING

Whitefaces Are Too Strong For Vega Ball Team

The Hereford Whitefaces journeyed up to Vega Wednesday afternoon and beat the Vegaites 5 to 4 in a ten inning struggle, described as the best of the season, so far. Every store in town closed for the occasion, the "umps" was good, the crowd was good, and it was a bang-up affair, any way you look at it. Curtsinger pitched a magnificent game, holding the Oldham County outfit scoreless after the second inning and being absolutely air-tight in the pinches.

The Hereford team was not composed of all regulars, several of the boys being unable to get away, and the holes were plugged with volunteer material. Returning players report that Jim Robinson, at third, made a great foul catch, that Ralph Smith simply ate up the short position, and that the Vega left fielder trapped five hard line drives and begged for more.

Hereford broke it up in the tenth. French Thurmond singled, and Jim Robinson smashed out a two-bagger, ending the agony.

Manager Gabbert announces that future games have been scheduled as follows:
Tulia at Hereford, May 22
Texico at Texico, May 23
Canyon Normal at Canyon, May 25
Amarillo Elks at Hereford, May 30.

Rebekah Team is Winner of Flag I. O. O. F. Contest

Hereford's Rebekah degree team, I. O. O. F., won the banner for being the best drilled team, at the annual meeting of the Panhandle Association I. O. O. F., held at Amarillo this week. The Hereford team has won this banner every year for the past ten years, with the exception of 1919, when the Amarillo team captured it after a close contest. The emblem is now back at headquarters. The team consists of Mrs. Hugh Witherspoon, N. G., Mrs. H. Whitelock, V. G., Mrs. J. B. Jones, P. A., Mrs. Don Sowers and Miss Elizabeth Tatman, leaders, Miss Lois Cobb, pianist, and Messdames C. S. Purcell, Lee Biggs, W. S. Williams, W. H. Ray, Lawrence Johnson, Roscoe Davidson, Mary Smith, James Florey, Omer Baker, E. Hooks. The male members of the team are Omer Baker, Lee Biggs, E. Hooks, Walter Orr, and Al Miller.

Two days of sociability and entertainment were enjoyed at the Amarillo meeting. The Canton degree was conferred upon John Henson. Among the new officers of the Panhandle Association elected at Amarillo for another year were J. E. Crouch of Hereford, who will fill the post of Chaplain.

NORMAL CLOSING EXERCISES TO BE HELD ON MAY 30

The Annual Home Coming and Commencement Exercises of the West Texas Normal College will be held at Canyon this year beginning May 30 and extending through June 4.

On the first day, Sunday, May 30, Baccalaureate exercises will be held in the College Auditorium. Dr. Herbert E. Bigelow, of the People's Church, Cincinnati, O., will deliver the sermon. In the evening Vesper Services will be held with an address by Dr. Bigelow.

Monday evening the Training School department will give a Cantata, and Tuesday Class presentations, reunion of individual classes and a musical concert will take up the day. Wednesday additional class presentations, Field Sports and a Pageant. Thursday will occur an Assembly of Visitors and Home-comers, address by distinguished men, an unveiling of a soldier's Memorial Tablet, and music. Friday is Commencement Day.

The Normal faculty has extended a cordial invitation to all the citizens of the Hereford community to attend these exercises.

GROUNDS ARE READY, TULIA BASEBALL TEAM WILL BE THE VICTIMS, AND RIDERS ARE COMING FROM EVERYWHERE

THOSE RAINBOW-COLORED STEERS

Truman Hines Picked Thirty Nine Head From Bunch of One Thousand, and Joseph's Coat of Many Colors has Nothing on Them

Miss Millicent Griffith Principal High School

Several matters of interest to the patrons of the school were disposed of at a meeting of the board on Wednesday evening. Perhaps more important than any other was the election of Miss Millicent Griffith to the position of High School principal. Miss Griffith formerly taught here and her worth and ability as a teacher are well known. Since leaving Hereford she has been constantly in school work. She had entire charge of the schools at Dimmitt for a number of years, which years marked a period of growth unprecedented in their history. For the past two years she has been in Clovis as a ward principal. The board feels that it is fortunate in securing her services and that she will materially strengthen the work of the high school.

For the history department, Miss Laura Ellen Jones, of Dallas, was chosen, and for English, Miss Lucille Brand of Houston. Both of these selections seem matters of congratulation. Miss James was a successful teacher of history here three years ago, having completed the term of Miss Kate Wilson who resigned early in the year. She has taken special work in history since then and is doubtless capable of doing better work than at that time.

Miss Brand comes from Rice Institute where she will receive her degree in June. The faculty of this institution give the board every assurance that Miss Brand's scholarship is of an exceptionally high order, while such other qualifications as enter into the making of a successful teacher are recommended unreservedly. She is specially prepared to teach English, having specialized in this subject, throughout her college course.

The board granted the use of the Central building to Mrs. C. S. Garrison and Miss Bernadine Price, for a summer school, with the understanding that work done in this school is an assurance of promotion but that examinations held at the close of the term under the supervision of Supt. Fertsch will be the test for advanced standing.

The work of Miss Matten, as teacher of expression, was also officially recognized by the board. While Miss McClurkin is not paid by the district, her work for the schools has been of such character that the board desires to endorse it and to urge the importance of this work in the school. Miss McClurkin will leave shortly for Boulder, Colorado, where she will spend the summer studying her art, thus strengthening the marked ability she has already manifested.

It is probable, the places still remaining vacant will be filled within a short time and indications point toward a strong faculty for the coming school year.

The exact program for the roping and riding and relay races has not yet been given out, but these events will begin immediately following the ball game. Telephone messages, letters and messages from word of mouth have been received from all over the Plains country from hard riding boys who promise to be on hand Saturday with their Broncos and sireingles.

There is going to be a lot of fun on the grounds Saturday afternoon, a full afternoon of enjoyable entertainment, and the man, woman or child in the Hereford community that misses it is going to be sorry for it afterwards.

Breeders Secure Financial Support For New Project

It is now practically an assured fact that the Hereford Breeders' Association of Deaf Smith county will go ahead with their plans for rebuilding the old Howe barn and the erection of a modern Sale Pavilion, seating 1,200 people.

The committee appointed recently to canvass this matter among the citizens and to place part of the stock in the \$20,000 company projected report that the bulk of this stock has been readily taken, and there is just a few more shares left. In other words enough has been placed to cinch the proposition and make sure that the plan will not fall through.

Another meeting of the Breeders will be held on Saturday, May 29, when a checking up will occur and definite plans for building made.

METHODIST WILL SHOW PHOTOPLAY WITH REPUTATION

The Ladies of the Methodist church desire The Brand to announce that they have secured the magnificent six-reel Photo-play "The World at Columbus," featuring the great Christian pageant, "The Wayfarer," and will show it at The Star Theatre on June 1. This picture is issued by the Centenary Commission of the M. E. Church, South, and is said to be one of the most stupendous and inspiring christian pageant pictures ever screened anywhere.

The work of the church in foreign lands, under many varied conditions, with riots of costumes and colors, is portrayed. The music accompanying the play is said to be of a unique order. It will be rendered on the big organ at the Star.

The Methodist ladies are working hard to make the play a success locally, and much enthusiasm and interest is being aroused.

L. F. BORDEN HOME SOLD FOR SUM OF \$5,000

The L. F. Borden residence in North Hereford sold the past week for a consideration of \$5,000, the purchaser being John Miller.

H. H. Walker purchased the E. H. Mace place. This was formerly the John Miller home. Both sales were made by J. S. Warner.

HALE COUNTY BOY DROWNS AT EL PASO

The body of Foy Yancy, who was drowned in Cement Lake, near El Paso, Texas, last Sunday, was brought to Plainview on the 2:15 train this afternoon. Clarence Johnson who joined the 19th Infantry here at the same time as did Mr. Yancy, accompanied the body as a military escort. Funeral services were to be held at the Baptist church, with Rev. H. J. Mathews in charge. Interment was in the Plainview Cemetery, with the Plainview Undertaking Company in charge.

Six sisters and three brothers survive Mr. Yancy, who was the youngest son. Both parents also survive him. All but one of the children, a brother in California, were here for the funeral.

According to Mr. Johnson, Mr. Yancy, who was 17 years old at the time of his death, was drowned in Cement Lake near the smelter west of El Paso Sunday afternoon. A number of them were swimming and five of them were swimming across the lake. They had all made the trip across successfully and were returning. When they were about half way across, Foy was seen to sink, and despite all efforts to save him he was drowned. One of his friends was almost drowned in his efforts.

As the lake was large and about fifteen feet deep, the body was not found until yesterday morning.

Foy was born in Hunt County, but came to Hale County with his parents several years ago. He received his education in the Bellview School, in the southeast part of the county, near which his parents live.—Plainview Herald.

Card of Thanks

We wish to thank our many friends for their kindness and loving sympathy during the death of our beloved son and brother, J. A. Johnson, Jr., also for the beautiful floral offerings.

Mr. and Mrs. J. A. Johnson and family.

William Collier's Greatest Comedy Success, "Nothing but the Truth," at Night; Ernest C. Mobley Afternoon—Play Day One of the Biggest at Chautauqua.

Ernest C. Mobley, who appears in the afternoon, is not a professional lecturer. There are particular things that need to be said to American audiences at this time by an American with wide experience and dispassionate judgment. This man is touched particularly by the feeling of God's handwork in the affairs of this Nation. Mobley has been successful in more activities than most men. He is many sided—lawyer, journalist, friend of Lloyd George, Balfour, Bonar Law, pastor of one of England's great churches, with American through and through. "America at the Crossroads" is the pertinent title of a timely speech. Mobley has been eye witness to events of world history in the last four years. One of them was the Peace Conference. The whirl of it all has not affected his ability to catch big facts.

Army Changed

Time has changed the old-time regular army in so many ways that the old-timers hardly recognize it. Schools, tractors and trucks instead of horses and mule, and many other changes in every branch make it look like what it really is, a new outfit.

The change in the system is noticeable too. Formerly a man "just enlisted" not knowing where he was going. Now he knows the branch, quite often the exact place and outfit, and always he knows what opportunities are offered.

The war department's strict ruling provides that if a man is accepted for

a certain branch and fails to make that branch, if he does not wish to go into any other arm of the service he will be furnished transportation, hotel and meals back to the place of acceptance.

PRINT PAPER COSTS \$14.25 IN CANADA

Print paper costs \$14.25 f. o. b. the cars in Canada. That is, that is the price when it can be got at all. The Record has been since January 1 trying to buy a car load of print paper.

When the Bigler well blow in five weeks ago, the manager of The Record went in person to buy a car load of print paper. He was able to contract last week for a car to be shipped in June or July at \$14.25 f. o. b. the Canadian mill. This will make the paper cost at least 10 cents a pound delivered in Vernon.

Six months ago this paper could be bought for 7c a pound. Paper manufacturers say the price will go considerably higher.—Vernon Record.

\$180,000 TO BUY TWO SECTION FARM

John M. Gholson and C. C. Smith of Eastland County have purchased what is known as the Pearson farm, 11 miles east of Plainview, from B. C. Holle and C. W. Wilson for \$180,000. As the farm contained 1280 acres the price per acre was \$140. This is perhaps the highest price ever paid for land this distance from Plainview. Mr. Holle and Mr. Wilson recently purchased the farm from the Pearson Farm Trust of New York.

War Brides From Overseas

According to statistics received by the Red Cross from embarkation records of the War Department, 3,709 foreign brides of soldier members of the American Expeditionary Forces were cared for by the Red Cross and the Y. W. C. A. The total number of American soldier marriages abroad is computed at 5,000. Of the brides whose nationality was recorded, 2,295 were French, 1,101 British, 79 Belgian and only 31 German.

Grain-Sampling

A device with which a sample of grain, to be used in grading a given lot, can be evenly divided so that one-half will be as representative as the whole original sample, has been designed and patented by the United States Department of Agriculture, and any one in the United States is free to make and use it without the payment of a royalty.

A representative sample of a given lot or shipment of grain which is secured by means of a probe, usually has to be divided into smaller portions for one or more of the tests to be applied in determining its grade. Haphazard reduction of the size of the sample has been found wholly unreliable, and consequently the device known as a Modified Boerner Sampler has recently been put out by the Bureau of Markets, of the United States Department of Agriculture. It is similar in principle to a sampler designed by the bureau a year or two ago, but is so designed that it can easily be constructed of block tin or brass by any tinsmith at about one-third the cost of the original.

The sampler is cylindrical and stands about 30 inches high. The sample to be halved is poured into a hopper at the top, which is emptied by pulling a lever that removes a cap over the lower end of the hopper. As the grain flows

downward it strikes the apex of a baffle, in the form of a cone.

Encircling the base of this cone are a series of small chutes whose distance apart is exactly the width of these openings. Half of the grain flows in these chutes and half between them. The latter portion flows directly into the uppermost of two pans placed one above the other at the base of the sampler. The half falling into the chutes is diverted into a funnel, the lower end of which leads to a protected opening in the center of the upper pan, thereby permitting this half of the grain to flow into the lower pan. In this fashion the original sample is evenly divided into two parts, one of which is certain to be as representative of the original lot as is the other.

One of the duties of the Bureau of Markets, United States Department of Agriculture, is to administer the United States grain-standards act, and because it desires to make standard equipment for grain grading easily obtainable by all dealers, country as well as city, the bureau has devised this comparatively inexpensive apparatus to take the place of the more expensive Boerner sampling device.

The sampler and a few other pieces of apparatus are all that are required for grading grain, according to practice

recommended by the United States Department of Agriculture.

Inside Stuff

Through the experiments of French scientists, a new contrivance has been evolved which makes possible "movies" of the human body in operation, according to word reaching the Red Cross from Paris.

The machine combines the X-ray and moving picture camera, and is

known as the "radiocinetograph." It is hoped its use will clear up many of the mysteries surrounding obscure diseases.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. **WORMS IN CHILDREN**—Child Worms, given regularly in tea or three weeks will enrich the blood, improve the digestion, and put an end to the ills which trouble the whole system. Worms will then show off or depart the normal, and the child will be in perfect health. Pleasant to take. 50c per bottle.

DIMITT

With all the rain that has fallen in the last two weeks, wheat crops are almost assured, while the moisture will bring up other crops. People should stop and count the blessings they receive each day and see if we do not really get more than we deserve.

The Ladies' Aid met with Mrs. Pickett Thursday and finished packing the box for Buckner's Orphan Home, which will be sent at once.

Mrs. Rosa McLean and Miss Alice visited with Mrs. Clarence Dixon, near Texico, last week.

Mrs. Will Gollehon is visiting in Canadian.

The Plainview boosters visited Dimmitt on Tuesday, about fifty in number. All had a good time for an hour or two. They had a band and a quartette which were surely enjoyed. Plainview is working to make one of the best, and, of course, to boost is the way.

Worth Clifton is home after five months' absence, which he spent in California.

Tennie Hastings is visiting in Canyon this week.

Mrs. Lovelace is visiting her daughter, Mrs. Tom Tate, east of town.

Quite a number of Dimmittites attended the Gentry Bros. Show in Hereford Tuesday night.

Only one of our teachers has been employed. Miss Ois Parks, Primary Teacher, who has been with us two years before, but the past year and a half she has been attending school in Denton, so we are sure of getting even better than we had before.

Our Chautauqua begins on May 30. Everyone come and show your appreciation of a good program, as good as you will find in larger places.

The little son of Mr. Walker, near Parrot, had the misfortune to get one of his legs broken one day this week.

SUMMERFIELD

Mrs. G. J. Ness visited Tuesday afternoon with Mrs. Will Storey.

Mr. and Mrs. Dee Owen spent the day Monday with Mr. and Mrs. J. W. Hanlan.

The Ladies Missionary Society met on Tuesday of last week at the home of Mrs. Churchill.

G. J. Ness was a business visitor in Amarillo last Thursday.

Mr. Johnson got his grainyard all cleaned up before the recent hard rain. Miss Myrtle Lance returned to her

home in Chillicothe last Wednesday.

Mr. and Mrs. Percy Estes and children called Sunday afternoon on Mr. and Mrs. Hogan.

Mr. and Mrs. A. C. Winkler and Marvin came down from Amarillo Friday morning on business, and for a short visit with friends here, returning to Amarillo Saturday morning.

Mrs. Hollis Galley spent a few days last week with her sister, Mrs. Roy Botsford. Mrs. Botsford and two children were sick.

Earl Lance has been quite ill the past week.

Ira Logue is in school in Wichita, Kansas, at present. If he passes the required examination there, he will go to Buffalo, Nw York and enter a government school there.

John Decker and family spent the day Sunday with Mr. and Mrs. Earnest Betts.

Our section of the country received a good soaking Thursday night and all day Friday, continuing with showers Saturday and sprinkles Sunday.

Mr. and Mrs. Dee Owen visited Sunday afternoon at Mr. Ballard's.

Mr. and Mrs. Lawrence Johnson and Elton, and Misses Ione Kenney and Estelle Slaton were dinner guests Sunday in the G. J. Ness home.

A new road is being opened south from the railroad track along the west side of the Black section and extends south past Churchill's, Stadler's and Murdock's land. W. J. McMinn and son, Lee, have the contract for the work.

Several horses have strayed away from their homes in this vicinity lately. J. W. Hanlan had three missing for several days. He finally located two of them, but the third is still missing. Frank Jacobs has two gone and can find no trace of them.

On account of the hard rain Friday

night no one from our little burg attended the commencement exercises in Hereford.

Patrons of the 204 telephone line gave their line a good working over putting in new posts and tightening the wire. Then Mr. Tyce ordered new insulators but was unable to get them at the present time, and no promise of a possibility to have a new order filled in the near future.

Several of our farmers had commenced planting before Friday's rain, but everyone thinks now it will be more than a week before fields will be dry enough to work in again.

Dr. Gabbert was a Summerfield visitor Monday evening.

Tuesday was a Gala day for the "kiddies". The school rooms were in a manner deserted. All the children, far and near, went to Hereford to see the Animal show.

THE CHEERFUL CHERUB

I lose my temper at this dog; He is so irritating. But then I like to get real mad—I think it's stimulating.

Chautauqua next week!

The Overall Fad

"Wearing overalls may have its value as a protest against the high cost of tweeds and serges, but we question greatly whether the fad will do much to better the situation. One result, if it be generally followed, will be a jump in the price of jeans. Already, reports say, the price shows an upward tendency, and men for whom the denim suits are an essential working costume view with alarm this effect of the movement to make the uniform of the toiler fashionable.

"The same argument that was used against popularizing the cheap cuts of meat applies to the adoption of overalls by bankers, brokers, clerks and others not engaged in manual labor.

"We are inclined to agree with H. G. Larimer, a fair price commissioner for Iowa, who says that the way to reduce high prices is not by going to extremes, but by sticking to a policy of sane, careful, intelligent buying.

"To that advice we would add: If the men who wear overalls because their jobs require them will stay at their jobs and put into them every day an honest day's work, and if the men whose jobs do not require overalls will be equally diligent, we will bring down the high cost of living by catching up with the deficit in production—and there is no other way so certain or so safe for bringing it down.

"The high cost of living is the high cost of strikes and idleness."
—Newspaper Editorial.

The Overall craze is passing—sensible people realize this solution of high prices is all wrong. The remedy is to buy GOOD clothes that will wear, made Substantially by Tailors who "know how"—the kind we sell exclusively.

CHAUTAQUA

Under date of June 19th last year the Ardmore Statesman, of Ardmore, Oklahoma, published the following editorial:

"The Redpath-Horner Chautauqua, which appeared in this city last week, is worthy, the Statesman thinks, of editorial commendation. The writer was not able to attend all of the numbers in the course, but some member of the staff of this paper did, and we give it as an unequivocal verdict, 'there was not a dull feature in the entire week's program.' To discuss the features in detail would require more space than can be given to this comment, but to our readers who may reside in territory yet to be visited on the Company's circuit, we beg to give assurance that they have a treat in store. It differs from many similar institutions in that it does not 'put its best foot foremost'; or, in other words, the attractions increased in merit as the program of the week progressed, and those of the last two days were easily the best presented. We recognize that editorial comment of this character is unusual, but we have no apology to make for it. The Chautauqua was of such high order of merit that we deem it due to our readers in distant states (of whom we have a goodly number) to advise them that if this particular Chautauqua aggregation contemplates visiting them, they will make a regrettable mistake if they miss a single number in the week's entertainment."

The Hereford Chautauqua of 1919 fully measured up to the words of praise from Ardmore. Chas. F. Horner writes that the 1920 Chautauqua is even better—the best in his fourteen years of experience.

The Hereford Chautauqua begins next Monday and lasts all week. Local citizens have guaranteed \$1,400 for this attraction, believing that the citizens of this community want real entertainment of the best kind. If you have not yet purchased your season ticket DO IT NOW!

EATING ONE'S CAKE

Long ago the observation was made that one cannot eat his cake and have it too. Neither time nor circumstances has diminished in one whit the truthfulness and significance of its import. If one spends more than he makes, there is nothing left. Spending, uncurbed and undirected, will eat away the cake of savings, and rapaciously devour the contents of the pay envelope.

Most dollars spent now pay for sixty cents value or, stated in another way, articles that cost a dollar three or four years ago now cost \$1.40. Things move in cycles. Within three, four or five years from now, the purchasing power of the dollar will have again risen. The question everyone should decide for himself when it comes to spending, is whether the article which will cost him \$1.40 now or only a dollar—five years from now, is worth it. Spent today that dollar has only a sixty-cent purchasing power; saved and spent five years from now it will have a hundred-cent purchasing power, and the owner will have the interest it has made for him if he has wisely invested it in War Savings Stamps for instance.

Those who now form the habit of getting one or more War Saving Stamps at the postoffice each pay day will soon have good cause to congratulate themselves upon the exercise of good judgment and long-headedness. Too many people insist they cannot save because they fail to analyze their expenditures and know exactly where their money is going. These people, if they will be frank with themselves, will find after a few days use of pencil and paper in keeping track of their expenditures that they can easily add to their interest-bearing War Saving Stamps collection every month.

Saving is decidedly worth while. A personal reserve fund is necessary. It can be had only by saving.

Binder Twine

The wheat grower need have no apprehensions as to the supply of binder twine this season. Reports coming to the Bureau of Plant Industry, of the United States Department of Agriculture, indicate that here will be a plentiful supply of this commodity available for the American farmer. Not only will it be plentiful, but it is likely to be cheaper this year than for some years past.

Yucatan—the chief and cheapest source of henequen, from which the twine is made—produced a large crop this year; which, coupled with the termination of control of prices by the Commission Reguladora, was responsible for a drop in the price of fiber from 15 to 10 cents a pound in March. The price is now reported to be 8 cents a pound. This reduction should be reflected in the price of twine this season.

Thus far the recent revolution in Mexico has not affected the henequen industry of Yucatan and Campeche, the two important fiber-growing States of that country. It is too late now for any disruption of this industry to affect seriously the supplies of twine for this year's harvest, as practically all the fiber necessary for the present needs has already been imported to the United States.

Although there is no danger for this year's twine supply, officials of the Department of Agriculture are somewhat apprehensive over the effect that the low prices for fiber prevailing now will have upon the production of henequen during the next few years. Low prices, according to reports to the Department, are leading the growers in Yucatan to reduce their planting, with the result that a real shortage of the fiber five or six years hence is a very likely possibility.

Clean Cars

The cleaning and disinfection of railroad stock cars is an important means of preventing the spread of infectious

diseases of live stock. In connection with Federal control over the interstate transportation of live stock, administered by the Bureau of Animal Industry, it is required that all such cars or other vehicles which have contained animals affected with a communicable disease, such as tick fever, scabies of sheep and cattle, hog cholera, etc., be cleaned and disinfected under bureau supervision before being again used in interstate commerce.

All live stock received at public stockyards or at official slaughtering establishments are inspected at the time they are received by employees of the Bureau of Animal Industry. If any animals are found to be affected with a communicable disease the carrier which brought them to their destination is at once notified to have the car set aside and thoroughly cleaned. After that has been accomplished, it is disinfected under the personal supervision of a Federal employee.

Various States also have regulations requiring that cars must be cleaned and disinfected before being used in the transportation of certain classes of live stock. The Bureau of Animal Industry cooperates with such States by having its employees at central markets supervise the cleaning and disinfection of cars in compliance with the require-

Political Announcements

The following candidates authorize us to announce them for the office under which they are listed, subject to the action of the Democratic Primary:

- For State Representative, 123rd District:
 - Burke Mathes
Plainview, Texas
- For County Judge:
 - Jas. A. Hughes
(Re-election)
- For Sheriff and Tax Collector:
 - Omer Baker
Geo. W. Cloyd
C. S. Purcell
(Re-election)
- For County and District Clerk:
 - W. A. (Will) Carroll
H. W. (Bob) Baird
- For County and District Clerk:
 - A. L. (Lee) Biggs
Cliff Estes
- For Tax Assessor:
 - E. H. (Ezra) Norton
- For County Treasurer:
 - C. E. Lester
(Re-election)
 - F. J. Ward
(Re-election)
 - J. H. Wilson

ments of the State to which any stock may be destined.

An idea of the magnitude of this work may be gathered from the fact that during the fiscal year ended June 30, 1919, bureau employees personally supervised the disinfection of 44,843 cars. In addition, a large number of motor trucks were handled in the same manner.

Eggs from "stolen" nests should not be marketed; they are of unknown age and quality and should be used at home.

Chautauqua next week!

**EMPLOYEES STORES
 CUT OLD H. C. L.**

Groceries, Meats, Medical Supplies,
 Work-clothes Sold by Ford
 Motor Company

In order that the men and women in its plants may be aided in reducing the present cost of living, the Ford Motor Company has established three stores from which groceries and other necessities are sold at cost. One store is located at the Ford Blast Furnace where 15,000 are employed one at the parent Tractor Plant where approxi-

mately 5,000 work and one at the present plant in which 35,000 are now engaged.

In the main store is the Ford factory, the stock consists of a line of staple groceries, medical supplies, work-men's clothing, and meats. The stores are organized along the cash and carry plan and the customers bring their baskets to save the expense of wrapping the articles. Expense is held to a minimum. Customers enter one door, pass along the counter, choose their articles, pay for them and leave through another door. While the saving varies, it averages easily from eight to twenty percent. The stores were created especially to reduce the present cost of necessities to Ford employees, but no customers who are not Ford workers have yet been turned away.

Carload quantities of foodstuff are often secured at great savings, and then special sales are held. The first

big sale ever held in the Ford factory resulted in the sale of more than 35,000 pounds of pork in one day. Many workers bought halves and quite a few bought whole pigs at a saving of about fifteen percent of the market price. Special sales of beef, chickens, hams, ham apples and other commodities are handled in like manner. Each Thursday during the past ten weeks, carloads of fresh ocean fish have been received from the Atlantic coast by express and sold at ten cents a pound. From forty to eighty thousand pounds are disposed of at each sale.

The Ford stores are yet in an experimental stage and to just what point they will progress is not known at this time. However, Ford officials say that they were established to reduce the cost of necessities to Ford workmen and that it is intended to do as much as possible to accomplish that purpose.

Texas C. E. Union

Fred D. Strudell, chairman of the Convention Committee of the Texas C. E. Union, announces that he has secured Dr. Robert H. Miller, of Kansas City, for one of the speakers for the Missionary session of the Texas State Christian Endeavor Convention which is to be held in Dallas June 9-13, 1920, at which more than fifteen hundred out of town delegates are expected to attend. Dr. Miller is at the head of

the denomination of Disciples of Christ or Christian Churches in the United States and Mr. Strudell regards him as an important feature of the convention, which occurs on Friday night of the With him in the missionary session convention will appear also Gam Sing Quah, a Chinese missionary, now enroute from China. Other speakers of the convention already announced are: Dr. Ira Landrith, D. D., LL. D., Boston, Extension Secretary of the United Society; E. P. Gates, Boston, General Secretary United Society; Governor Chas. H. Brough, of Arkansas; Paul Brown, Los Angeles, National Superintendent of the Intermediate C. E. Department; Clarence C. Hamilton, Boston, Field Manager C. E. World; Dr. John B. Gonzales, Topeka; W. Roy Breg, general Secretary of the Southwestern Federation C. E.; John Cecil, associate Secretary of the Southwestern Federation; Marsh M. Calloway, State G. E. President, Houston; together with a number of other state Christian Endeavor officers.

H. U. Crissman, who is in charge of the music for the convention reports the employment of Alva R. Wilgus, assisted by Mrs. Wilgus, San Antonio, as director of the music for the convention. Mr. Wilgus, until recently, was Musical Director of the Southern Department of the Y. M. C. A. and he and Mrs. Wilgus are a great team in handling chorus singing of great crowds.

Two thousand have registered for the convention and from all indications this will be the greatest convention outside of the great world conventions Christian Endeavor has ever had. The Dallas people offer lodging free.

Notice

In an effort to dispel a false rumor that is being spread to the contrary, I wish to say that my daughters, Lola and Brucie, have studied Expression under Mrs. Tubb, and found her to be an unexcelled teacher. It was a disappointment to all of us when, about six months ago, she said she felt like she must give up her teaching and devote her time to her children and special reading. At this time, she wanted Lola to take her class, but we thought best for Lola to study for a few months first, and this is the reason the girls prepared to go to Horner Institute in Kansas City.

The girls will join me in saying that we were well pleased with the help and teaching Mrs. Tubb gave and would be taking training now if she were teaching.
 Mrs. L. R. Brady.

Good Printing at The Brand.

Card of Thanks

Dear Neighbors and Friends:
 We cannot think of words sufficient to thank you for the kindness and sympathy you offered us in the burial of our dear son, Wilbur. And especially do we want to thank the dear soldier boys, who not only showed us the greatest kindness and sympathy, but to a Comrade as well. May God bless you all.
 E. Renfro and family.

Cartoons, Clay Modeling, Music the Second Day of the Chautauqua

The Caveny Company, who have the afternoon on the second day, have one of the most original, artistic and musical programs imaginable. J. Franklin Caveny himself is capable of keeping you amused and happy but he has Marie Caveny, soprano, and Miss Cronin, pianist, as assistants. Caveny talks as he works and he works fast. The results are works of art whether made of rags, clay, or crayons. You have probably never seen a song illustrated by an artist as it is being sung. The Caveny's do that. Clay busts of great men are made in a twinkling. Then Caveny may draw a cartoon of two of people in the audience. Jags seemingly do not lend themselves to works of art. Caveny can do wonders with a bunch of humble rags. It is a program throughout that delights. It leaves plenty of things to talk about and wonder over.

Stray Sale Notice

I WILL SELL to the highest bidder, for cash, at R. F. Spees place, about 35 miles West and about six miles North from Hereford, in Deaf Smith County, Texas, within the hours prescribed by law, the following described stray stock, to wit: One whiteface roan cow, about 4 years old, branded JF (together) left shoulder and Slash on left shoulder. One yearling steer which belongs to said cow, not branded. One two year old steer, (Hereford) branded F left hip with slash on left. Said stock was estrayed by me on the 20th day of March, 1920, and has been held as the law requires.

J. H. WAGNER,
 County Commissioner, Precinct No. Three.
 15-31 Deaf Smith County, Texas.

Pure Dwarf Kafir Seed
Pure Dwarf Maize Seed

The crop you harvest next fall depends largely on the kind of seed planted. Pure field seeds are advocated by all good farmers—but not always used.

With the excellent condition of the ground for planting this spring every farmer should plant the very best quality of seed available.

Both kafir and maize seed for sale grown and guaranteed pure by D. L. McDonald, who last year raised 78.5 bushels per acre. This is positively the best seed I have ever handled.

Price \$5.00 cwt. sacked.

E. W. HARRISON

Alumni Banquet

The closing chapter in the school life of Herford for this year was written in a brilliant social function given by the High School alumni on Saturday evening, in which the graduates of other years, their friends, the teachers in the public schools, and the board of education, gathered to do honor to the class of 1923, and to strengthen the spirit of love for and pride in Herford Public Schools.

The large banquet hall of the Christian Church showed the 1923 class colors of green and white, throughout the decorations. Each table was graced by a handsome bouquet of the class flower, while the class motto, "Build for Character, and not for Fame," in green and white lettering spoke the inspiration that has left color to the achievements of this class of bright, young people. A pretty continuation of the class colors was also shown in the loes served in a dainty shade of green on white china. The menu consisted of Mint Frappe, pickles, Parker House rolls, celery, asparagus, creamed potatoes, pressed chicken, fruit salad, brick cream, wafers, angel cake, demitasse and mint.

The program was opened by Mr. G. A. F. Parker, president of the school board, who in a speech brimming over with sallies of wit and fun, introduced the toastmaster, Mr. A. O. Thompson, and at the same time established the keynote of the entire program. The cue was so well taken by Mr. Thompson that the occasion was freed from any embarrassing formality and was thoroughly enjoyed by all.

Reception

Social activities in Herford this week have centered around two recent brides, Mrs. John Williams and Mrs. W. E. Dameron, and many delightful social functions have been given in their honor.

None of these have been more enjoyable, nor more perfectly appointed than was the reception given Wednesday afternoon at the Dameron home by Mrs. W. B. Dameron and Mrs. A. M. Jones with Mrs. W. E. Dameron as honoree.

A color scheme that harmonized charmingly with the furnishings was in pink and white, carried out in larkspur and carnations arranged against a background of glossy green in foliage and fern. Hanging baskets of gracefully falling vines with touches of the dainty pink and white coloring completed an effective decorative scheme.

Receiving with the bride were Mrs. W. B. Dameron, Mrs. A. M. Jones, Miss Ina Gregg, and Mrs. John Williams. Others of the house party were Mrs. C. H. Dyer, Mrs. J. J. Clark, Mrs. J. E. Ferguson, Mrs. B. F. Guthrie, and Misses Dene Dunlap and Lura Gregg.

A program of music and readings was contributed to by Misses Mattea McClurkin, Bonnie Chamness, Dene Dunlap, Ina Gregg and Mesdames John Williams, Carl Mounts, and C. H. Dyer.

After being served delicious brick cream in pink and white with angel food cake, the guests registered in a dainty hand-decorated bride's book.

About seventy-five guests enjoyed the pleasures of the afternoon.

Shower

Four charming hostesses for a very charming social affair, were Misses Bonnie Chamness, Douglas Wilson, Mary Fox and Clara Dunlap, who entertained on Thursday afternoon with a shower honoring a much-loved bride, Mrs. John Williams.

The Dunlap home was chosen for the occasion and its attractive living rooms, gay with baskets and vases of larkspur arranged with fern, furnished a setting in harmony with the program of the afternoon. A vocal solo, "Beautiful Eyes," by Miss Chamness, was followed by a toast "To Leap Year" by Miss Mary Bourne, and another, "To the Bride and the Girls left behind," by Miss Annie Price. Again, Miss Chamness sang, then to the surprise of the guests, the strain was taken up by a bridal party in miniature proceeding down the stairway. Little Miss Frances Oberthier, dainty and demure in bridal costume with flowing veil, bouquet, and other accessories, came, leaning on the arm of a handsome young groom in the person of Master Roger Wilkinson. They were preceded by little, Miss Virginia Bruner, a vision of loveliness as flower girl, accompanied by Master Robert Hough, a most attractive ring bearer. The bridal party was met at the central archway by the clergyman, dignified and serious, Master Van Bruner. After an impressive "silent" ceremony the bride announced that she wished her friends to see the bridal gifts and led the real bride to the dining room where an elaborate assortment of gifts, including silver, linen, china, and cut glass, were displayed.

The serving of brick cream with angel food cake closed a most delightful afternoon, which was shared by a large party of guests.

Parent-Teacher Association

The Parent-Teacher Club closed its usual year's work with the April meeting, but prior to this time the club had decided to take up some line of civic work during the summer months, instead of disbanding. This was thought best for two reasons, namely, the urgent need of civic work in Herford,

and the possibility of enlisting through this work this summer, new recruits for the regular work of the club during the winter.

A few years ago Herford had a thriving Civic club—a thoroughly representative body with perhaps the largest membership of any club in the city. Those who lived here at that time remember well that during the life of this club, Herford was a cleaner, more sanitary town than it has ever been before or since. Flies were fewer than ever before and general conditions that make for health were much improved. Many of the women who did such excellent work in the Civic club are members of the Parent-Teacher association and there it no good reason why the same good work could not be accomplished this summer.

Again, every woman interested in the schools ought to belong to the one organization that has for its object the betterment of the schools. The dues are only 25 cents a year and every woman is not only invited, but urged to join the Parent-Teacher Association.

A meeting has been called by the president, Mrs. J. H. Pitman for the first Friday in June. All members and any who will become members are urged to come. The meeting will be held in the club room at 2:30 p. m.

Recital

Cut flowers and pot plants lent a marked social atmosphere to the delightful program furnished on Monday evening, when the pupils of Miss Coffin appeared in piano recital at the Presbyterian church.

The program was divided into two parts. In the first, Mattie Lou Harrison, Josephine Stocking, Gwendolyn Spradley, Ruby Ward, Marguerite Bowman, Kathleeta Hawkins, Juanita Standifer, Lolita Wright, Mary Wilkinson, Wanda Wilkinson, Frances Oberthier, Jimmy Carter, and Jack West were the performers.

In the varied character of the different numbers, and the skill and ease with which each was rendered, was distinct evidence that even the beginners were capable of giving a most entertaining program. Two quartettes and a double trio were especially pleasing numbers.

In part second, the pupils showed, in addition to general proficiency, a technique unusual in youthful performers, and which amounted to brilliancy in some numbers. Taking part in this were: Misses Maurine Hughes, Kathleen Hawkins, Emma Jeane Donald, Mary McDonald, Mildred Cross, Mabelle Hill, Eloise Pitman, Grace Ferguson, and Annie Fitzhugh Parker. Promise of musicianship of a high order was evidenced throughout this part of the program.

Mrs. Rice Honored

The spirit of friendship and good fellowship was exemplified in an informal gathering of the friends of Mrs. H. L. Rice, who have been associated with her in Sunday School work as members of the class of D. F. Ashbrook, of the M. E. Sunday School, when on Tuesday of this week, the class met at the home of Mrs. J. Frank Potts to spend the day and partake of the delicious dinner prepared by the ladies of the class.

The occasion was a recognition of the faithful and efficient services of Mrs. Rice in the work of the Sunday School and an appreciation of the high regard of those who have been associated with her in this work.

Mrs. Rice, with her family, is soon to leave for Oregon and this last day spent with her will linger long in the hearts of her friends as a most pleasant memory.

MANILA CARNIVAL BIG ATTRACTION OF FAR EAST

This is the season of the year when the Philippines become the playground for the entire orient. It is carnival season in Manila.

In 1906 the first Philippine carnival was held on historic Wallace Field in Manila in February, when the climate of the islands is at its best, and each succeeding year there has been a larger and more elaborate celebration. The 1920, or Victory Carnival, will be the greatest event of its sort ever held anywhere in the Far East.

There are commercial and government exhibits in connection with the carnival, and on no other occasion is it possible to gain at once such a comprehensive idea of the production and

development of resources of the archipelago as that which is offered the visitor at the carnival city.

In the evenings the carnival becomes the center of Philippine and oriental social activity. A huge open air auditorium serves for the elaborate nightly balls, and on its mammoth floor thousands of couples swing together to the strains of music furnished by the famous Constabulary and other military bands. Probably at no other place in the world will one see an equally impressive cosmopolitan spectacle.

The Manila visitor who can plan his trip to arrive at the Pearl of the Orient for carnival time may well deem himself fortunate.

Graduation

Friends of Miss Elizabeth Black will be interested in the announcement of her appearance in graduation recital on the commencement program of Texas Woman's College Thursday evening, May 13th.

This is Miss Black's first year in this institution. She spent last year in Southern Methodist University, after a thorough course with local teachers. Her thoroughness and native ability may be judged from the fact of her completing the course at this well known school in one year.

Miss Black's program numbers were: Papillons Schumann (a) Elegie Rachmaninoff (b) Reflections on the Water Debussy Rhapsodie No. 6 Liszt Mr. and Mrs. Black went to Ft. Worth Tuesday to be present at her graduation.

Bay View Club

The program for Thursday's meeting of the Bay View Club was omitted in order to give more time for discussion of the study work for next year.

The club feels that better results will be obtained by working in line with the recommendations of the district and state federations and has decided to make a study of some of the live questions of the day. Citizenship and the political status of woman today will be studied, with Ashley's Civics and McDonald's "Five Lessons in American Citizenship" as guides.

The last half of the year two of Shakespeare's plays will be studied.

The members are looking forward to the next meeting when Mrs. George Garrison will present her report of the district meeting at Amarillo.

Hear Ewing Thomason

Among those who listened to the speech of Hon. Ewing Thomason, candidate for governor from the standpoint of personal friendship of long standing, when he spoke in Amarillo Monday, were Mrs. W. B. Daniels and Mrs. W. H. Russell.

Both of these ladies were friends and neighbors of Mr. Thomason year ago in Cook county and to the pleasure of hearing his address was added that of renewing a valued acquaintanceship.

LITTLE ELIZABETH STEPHENS DIES; TO BE BURIED HERE

Little Elizabeth Stephens, daughter of Mr. and Mrs. H. B. Stephens, of Amarillo, died at the home in Amarillo at 5:00 o'clock Thursday morning of a complication of diseases, after a lingering illness. The little girl would have been five years old next September.

The body will be brought to Herford Saturday morning, funeral services being held from the Black Undertaking Parlor at 10:00 a. m., interment in the City Cemetery. The family and friends will come down Friday night or Saturday morning.

The host of local friends of Mr. and Mrs. Stephens join The Brand in sympathy for their sad bereavement.

ANOTHER BATCH CITY REAL ESTATE TRADES ARE MADE

Recent real estate trades made include the following:

W. H. Gilbreath traded his home in Herford to C. Runtun for the latter's lace on 25-Mile Avenue. Mr. Gilbreath then sold the Runtun place to J. Rudd of Spring Lake. Mr. Gilbreath will move soon into the old C. L. Sullivan home, which he purchased some time ago.

W. H. Gilbreath has just closed a deal whereby he secures the H. C. Shobe ranch, consisting of six sections, twelve miles northwest. This place was formerly known as the J. E. Carr sheep ranch. This deal was made through McEntyre & Thurmond.

Rice Terraces Are World's Masterpieces

This is a photograph of the Ifugao Igorrot rice terraces, which are among the most remarkable of their kind in the world. They are one of the many marvelous sights for the tourist to see in the Philippine Islands and are to be found in the Ifugao district of the Mountain province, Northern Luzon. The height of these terraces, which are held up by stone walls, is from 4 to 18 feet, averaging 8 feet high. It is estimated there are 12,121 miles of eight-foot stone walls in the Ifugao terraces, which is approximately half the distance around the world. These terraces are skillfully irrigated by water brought in troughs along the precipitous mountain sides over long distances.

McQUEEN JEWELRY STORE IS ROBBED IN MUSKOGEE, OKLA.

The Muskogee Jewelry & Art Company of Muskogee, Okla., was robbed Tuesday night of valuables to the value of about \$1,000, according to the Amarillo News.

J. W. McQueen, formerly in the grain business here is manager of this store, his partner being E. E. Pickel of Amarillo.

Mr. McQueen advised his partner in a message that the robbers entered through the window over the rear door and secured a number of Shrinic emblems, buttons, charms, rings and three wrist watches.

RAINFALL FIGURES FOR MONTH OF MAY SHOWN BY GAUGE

The exact figures on the rainfall at Hereford this month, as shown on the chart of the rain gauge at the First National Bank, are as follows: May 6, three tenths, May 7, twenty-five hundredths of an inch, May 8, one inch and three tenths, May 14, eight tenths of an inch. In addition there has been a lot of dew and cloudy weather that has helped hold what moisture was received.

The rainfall of course has varied by localities all over this country, many communities receiving much more than this and many others not getting as much. The above are the actual figures for Hereford proper.

POLITICAL WORK FOR CANDIDATES IS NOW BEGINNING

Activity favoring the candidates of various aspirants for governor of Texas is apparent since the County Convention was held. Pat Neff supporters are distributing placards and literature boosting their man, while Thomason's friends are conferring. So far as known there have been no organizations of any kind formed, but individual adherents of these two candidates are active.

A number of local men went to Canyon last week to hear Mr. Thomason speak and were highly pleased with his platform and personality.

NORMAL PLAN IS APPROVED

Hereford Citizens Express Themselves as Favoring Needed Expansion

In reporting the meeting at Canyon, May 11, in the interest of the West Texas Normal expansion, the Randall County News says, in part:

President Hill outlined the plans and proposition of expanding the West Texas State Normal College in order to make the school a better servant of this section of the State. He pointed out that of the seventeen millions of dollars spent by the State of Texas, thirteen millions of the appropriations went for education, yet none of the schools had sufficient funds. Governor Hobby felt that the educational system of the state should be brought into closer working relations and had appointed a committee to make plans for the co-ordination and co-operation of the different twenty educational institutions. But the facilities of the normal schools are paid salaries ranging from \$1500 to \$2700 while bricklayers on the new dormitory are paid \$12 per day and the ignorant Mexican laborers are paid \$6.40 per day. Next year there will be a greater shortage of teachers, and the available supply will be of poorer quality if salaries are not raised.

The West Texas State Normal College is 400 miles from the nearest state educational institution. Statistics show that 80 percent of the enrollment of even such great schools as Yale come from within 100 miles of the school. This is conclusive that a large percent of the boys and girls of the Panhandle-Plains country are not going away to college. 75 percent of the students of the Normal come from within 100 miles of Canyon; 89 percent come from within a radius of 200 miles of Canyon. This school is the only chance offered the boys and girls of the Panhandle-Plains country to attend a state institution of higher learning.

Mr. Hill discussed the advantages of the student attending an institution which does not have such a great attendance that the student is prohibited the personal contact of the teachers. The student gets more from the personality of the teacher than from the book he studies. It was recently suggested in the conference at Austin that the University of Texas discontinue the first two years of work, leaving this to the Normal schools of the state. If this should be done it would take more than half of the 4,000 students from the university, many of whom are 16 and 17 year old and are lost in the great school.

The West Texas State Normal College must take care of the educational needs of the Panhandle-Plains country. There have been nearly 6,000 different students enrolled in the school in the ten years of its existence, 75 percent of whom would not have attended school had not the Normal been in existence in this section. The academic departments are strong and well equipped and prepared to care for the students, but special departments need expansion. Twenty six students were turned away from the manual training department this year because there was not teaching force enough to care for them. The Home Economics department could be doubled were the teaching force available. Mr. Hill urged that every girl should learn home making. This section has the best foundation for home making than any section in the United States. If its citizenship is not developed, it will be a distinct loss to the state. But where? The student will not go 400 miles. The advantages must be offered here.

The teacher of agriculture is becoming more and more important to this section. \$120,000,000 of small grain was raised in the Panhandle-Plains country last year. The department of agriculture has a big place to fill in the development of this section. The boys and girls coming to school are from the farms and ranches. They go back to the farms and ranches after their courses are completed. It has been a waste of money if they return less prepared or no better prepared than when they came to school. They should be sent back to live better and produce more. The boys and girls are entitled to it.

Mrs. Guthrie, of Hereford, pointed out the wonderful opportunities that confronted the people of Canyon. Better business houses, better religious facilities, were needed for the environment of the students. She was greatly impressed with the economy and prac-

tibility of expanding this school rather than building a new agricultural college.

Rev. Sharp, of Hereford, stated that economy was not the important thing in education. It is the least to be considered. We must pay for the advantages. Dallas is going to pay \$150 and up for teachers next year. We must pay that price or we will get teachers that she don't want. He was highly pleased at the idea of expanding the Normal.

Mayor Knight, of Hereford told how the people of Hereford stood by Canyon when the Normal was being offered to the town, as they realized they were too near the New Mexico border to have a chance at the location. The people of Hereford had always appreciated the school. He believed it would be a great mistake to think of establishing a new school in West Texas until the present school were able to get the support they needed. He most heartily approved the appropriation that it would take to expand the Normal so that it could best serve the people of the Panhandle-Plains country.

G. A. F. Parker, of Hereford, reviewed how Texas institutions had been built up at the expense of this section—how the lands were used to build the capitol and the railroads. We must now pull together to be recognized. This section must pull together and do it all it can for the West Texas State Normal College.

Card of Thanks
I take this means of expressing my appreciation to my patrons and friends for the support and patronage and for the many kind words spoken of me and of my work in the past. I crave your further patronage for the future term, I leave the last of June to pursue my course of study and hope to return to you in the fall brimming full of new ideas and valuable material for the following year.

Respectfully,
Miss Mattea McClurkin.

Habitual Constipation Cured in 14 to 21 Days
"LAX-FOS WITH PEPSIN" is a specially prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

Oh! the Ache and Pain of Neglected Feet

If you are troubled with tired aching feet don't delay a visit to this store any longer. Come today and let us demonstrate to you.

Dr. Scholl's Foot Comfort Appliances

There's no joy in anything when your feet ache and pain, or if you have corns, bunions and callouses. Foot discomfort seems to pervade the whole body and you feel tired all over.

But just you put a Dr. Scholl's Foot-Easer in each of your shoes and see how good it feels. You take a new interest in life. The aches and pains vanish, your ankles stop turning in, your broken down arches assume normal position, the callouses disappear, toes straighten out and corns leave, forward pressure into your shoes is stopped and genuine relief and foot comfort are yours.

Dr. Scholl's Foot-Easer is self adjusting to the action of the foot, manipulates and strengthens the muscles, stimulates the circulation and gives ease and springiness to the step that puts real pleasure into everything you do. It can be comfortably worn in your regular size shoe.

Zip, Pop and Boom

Orchestral Entertainers and Herbert Leake, of Chautauqua. If a company of four people ever did more things with more musical instruments than the Orchestral Entertainers it isn't on record. There are a saxophone trio, mirambaphone quartette, drums and effects, whistling and imitations, clarinet, violin, piano and voice. The combinations made are too numerous to mention. Every member of the company is an artist.

Herbert J. Leake is the leader. For six years he was with Al G. Fields Minstrels and after that drummer and manager of the great Bohumir Kral's Band. He does more things with a trap drum and its accessories than seem possible for a man with only two hands. The other members of the company all play several instruments and are adepts with all of them. Miss Alberta Kibler, Miss Juanita Spohnberger and Miss Cornelia Munz are with Mr. Leake.

The program will have you all swaying and sometimes raise you right off the seat. Leake knows what the public likes and his program will be one of the best you have ever heard anywhere. Redpath-Horner presents them the third day of Chautauqua.

Baby Travels 7,000 Miles

Spiro Chakiridlo, aged 3, recently was delivered safely to his parents in Hayden, Colo., by the Red-Cross, after 7,000 miles' travel from Siberia. Spiro is the step-child of Louis Chakros, a bugler with the American forces, who returned from Chita, Siberia, with his new wife a few weeks ago.

When the couple called the baby

was left with the mother's family. The child's father was killed in a riot two years ago, during the revolution outbreak.

The baby was well and seemed to have enjoyed the long voyage and cross country trip. He was cared for during the long trip by a Red Cross nurse.

You Do More Work

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine. It is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

Now is the time to start that war on insects and we have the very thing that you will need **DEAD SHOT**. Hereford Produce Company.

Why Horner Programs Fail

Redpath-Horner Chautauques are leaders in all lines of Chautauqua activity but pre-eminently so in program. Mr. Horner, who builds these programs himself has been unanimously accorded the title of "Master Builder" in the Chautauqua field.

It is a Redpath-Horner program that is coming to Hereford this summer. Of all the programs Redpath-

Horner has offered, this should be the best. From day to day stories, little bits of absorbing interest about the various people and companies will appear in this column.

The Quality That Does Not Admit Its Equal. Because of its tonic and invigorative effect, **LAX-FOS WITH PEPSIN** is better than ordinary laxatives and does not cause unpleasant results. Remember the full name and look for the signature of H. W. GROVE. Good Printing at The Brand.

Why a Majority of the Smaller Cars Come on Goodyear Tires

Last year more cars using 30x3-, 30x3½, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread	\$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread	\$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$4.50

CHARLIE CARROLL COMPLETES COURSE

Lieutenant A. Macomb, Commanding Officer in charge of the U. S. Navy Recruiting service at Dallas, advises The Brand under date of May 15th as follows:

"Charlie Carroll now serving in the U. S. Navy at the Hospital Corps Training School at San Francisco, Cal., has completed his course of instruction and has been promoted to Hospital Apprentice 1st Class.

"The Navy, at present, offers wonderful opportunities for ambitious young men, and all branches are open for enlistments."

FARMERS WARNED ON CAR QUESTION

Frank R. Jamieson Secretary of the Panhandle-Plains Chamber of Commerce at Amarillo, advises The Brand as follows:

"From the best obtainable information, it now becomes quite apparent that the car supply for the movement of the 1920 crop will be very limited indeed. It is therefore, of more than passing importance that the farmers of this Panhandle country provide themselves with storage facilities to accommodate the harvest of 1920.

"It is a very significant fact that the Railroads operating under the most acute disadvantage moved from the Panhandle and Plains territory of Texas between January 20th and May 5th, 1920 some 16,183 cars of grain, according to the facts presented before the Interstate Commerce Commission by the Panhandle Plains Chamber of Commerce.

"Owing to the delay, however, in the movement of the 1919 crop a very great loss was sustained by the people of this section of the country, much of which could have been avoided had the farmers been equipped with the proper storage facilities."

"It is urged, therefore, that we should provide some escape from a recurrence of the loss through which we have suffered so seriously in the past year."

OLD SALT-RISING BREAD FORMULAS

Self-rising bread, which is commonly called by the misleading name of "salt-rising bread" has been known in one form or another for generations. It has been a particular favorite when and where it was difficult to get the satisfactory yeast. The following recipe is recommended by the home economics kitchen of the United States Department of Agriculture:

1 cup milk, sweet; 2 tablespoons white corn meal; 1 teaspoon salt; 1 tablespoon sugar; 1 tablespoon butter (if used); Flour.

Scald the milk. Allow it to cool until it is lukewarm, then add the salt, sugar and corn meal. Place in a fruit can or a heavy crock or pitcher and surround with water at about 120 degrees to 140 degrees F. Water at this temperature is the hottest in which the hand can be held without inconvenience, and can be secured by mixing

nearly equal parts of boiling water and tap water (unless the tap water is unusually warm). If placed in a fireless cooker a fairly even temperature can be maintained for several hours.

Allow the mixture to stand for 3 to 7 hours, or over night, until it shows signs of fermentation. If it has fermented sufficiently, the gas can be heard as it escapes. This leaven contains enough liquid for one loaf. If more loaves are needed, add 1 cup of water, 1 teaspoon of salt, 1 tablespoon of sugar, and 1 tablespoon of butter for each additional loaf. Make a soft sponge by adding a cup of flour for each loaf to be made. Beat thoroughly and put the sponge in a convenient receptacle and surround by water again at the temperature of about 120 degrees to 140 degrees F.

When the sponge is filled with tiny gas bubbles and has more than doubled in volume add more flour gradually until the dough is so stiff that it can be kneaded without sticking to the hands or to the board. Knead 10 or 15 minutes, put at once into the pans, allow to rise until about two and one-half times its original bulk, and bake. Salt-rising bread is never so light as the bread raised with yeast. A loaf made with one cup of liquid therefore will

come not quite up to the top of a pan of standard size.

Market white-shelled and brown-shelled eggs in separate packages. Eggs irregular or thin-shelled, or which have shells otherwise defective, should be kept by the producer for home use so that breakage in transit may be reduced as much as possible.

The Mediterranean or egg breeds are best suited for the production of white-shelled eggs. Representatives of this class are bred largely for the production of eggs rather than for meat production. Among the popular breeds of this class are: Leghorn, Minorca, Ancona, and Andalusian.

When taking eggs to market, protect them from the sun's rays in warm weather. Ship or deliver eggs twice or three times weekly.

The Centenary Commission of the M. E. Church, South, presents "The World at Columbus," in six reels, featuring the magnificent Christian Pagano, "The Wayfarer," at the Star Theatre, Tuesday, June 1. The worldwide parish of Methodism visualized. Don't miss this unusual treat!

GOV.-GENERAL OF PHILIPPINES FOR FREEDOM

relates It Not Right That Freedom Should Longer Be Withheld.

FRANCIS BURTON HARRISON, Governor-General of the Philippines. (First Article.)

My six years' experience as governor-general of the Philippine Islands has convinced me that the Filipino people are ready and fit to have their independence. I have recommended to Congress, as well as to the executive administration, that independence be granted.

As to the question of the stability of government, I wish to say to the American people upon my responsibility the governor-general that in my opinion there exists today in the Philippine Islands a stable government, which I think should answer the requirements laid down by Presidents Grant and McKinley, and as I understand it, also by Mr. Root—namely, a government elected by the suffrage of a people, which is supported by the people, which is capable of maintaining order and of fulfilling its international obligations.

I am very glad to go on record as being entirely in sympathy with the aspirations of the Filipino nation for independence.

I have recommended to Congress that in granting independence some provision be made similar to what is known as the Platt amendment in the treaty with Cuba, which restricts the ability of the new republic in borrowing of foreign governments and also limits the United States to interfere in the affairs of the new republic in conditions of disorder should be used to prevail. Such recommendation does not come as an expression of a view of the Philippines; it is my view of what would be desirable to secure a feeling of confidence and satisfaction on the part of all persons who have already invested money in the Philippines or who contemplate doing so in the near future.

But it is not right that independence should longer be delayed. By temperament, by experience, by racial ability, in every way, the 7,000,000 Filipinos are entitled to be free from every government except their own choice. They are intelligent enough to decide for themselves. I have found the native Filipino official to be honest, efficient and capable of administering executive positions as any men I have met anywhere in the world.

These officials are today governing 300 municipalities and forty-two provinces, economically, efficiently and for the good of the entire people. They are a native congress, including many graduates of Yale, Princeton, Harvard and other American universities. Other members are graduates of Santo Tomas and other Philippine universities, and in education and ability they compare favorably with any I know.

They have leaders like Speaker Osuna of the House of Representatives and President Quezon of the Senate who would adorn any office.

The Philippines are away ahead of the United States in successful government ownership and operation of public utilities.

The government took hold of the tram railways and made them pay a profit of 1,000,000 pesos a year more than under private ownership.

It took hold of the highways, and now have 7,000 miles of the best macadamized roads in the world. The Manila city government is about to take over the street railways and the gas and electric plants, while the territorial government is arranging for ownership and control of the coal supply.

The movement for independence is peaceful one. No territory was moral to Uncle Sam during the war. It formed an armed and equipped division of our government, gave it a submarine destroyer and oversubscribed Liberty loans and Red Cross funds.

Two million natives speak English fluently, and there are 700,000 English-speaking children in the public schools. I am more than willing to retire if the Philippines can be granted what they deserve—a government like that of the United States.

A MISREPRESENTED RACE.

The Filipino people are a much misrepresented race. The frequent publication of pictures of semi-naked Minus Moros and Igorotes has caused great many Americans to believe they are typical of the inhabitants of the Philippines. Such is far from the case, however. Of 11,000,000 inhabitants of the islands, 10,500,000 are a Christian, civilized people with a culture and refinement that will compare very favorably with that of other nations. The Filipino women are especially modest. A street flirtation is unknown, so far as a Filipino woman is concerned, is something that is almost unknown, as any American that has visited Manila will testify.

PARMER COUNTY

BOVINA

A. Berggren has purchased a new Fordson.

Housecleaning and paper hanging seems to be the order of the day.

W. H. Martin has been seriously ill at a hotel in Texico.

Last Sunday was a busy day in Bovina church circles. At the Sunday school hour Quarterly Conference was held at the Methodist church by Rev. R. A. Clements, presiding elder, after which Rev. J. T. Griswold, pastor of Lubbock Methodist church, preached. At 11:00 a. m. and 8:00 p. m. Rev. J. T. Burnett preached at the Baptist church.

The big revival starts off this week in fine form.

Next Sunday evening at 7 o'clock all the young people are urged to meet at the Methodist church for the purpose of reorganizing the Epworth League.

On account of the rain the commencement exercises were not held last Friday, but instead the following program was rendered Monday at 8 p. m.:

- Invocation ----- Rev. E. Y. Dickinson
- Piano Solo ----- Mrs. B. Y. Dickinson
- Class Poem ----- Mary McDonald
- Piano Solo ----- Miss Jessie Davis
- Class Prophecy ----- Naomi Tidenberg
- Commencement Address ----- Rev. J. R. Sharp
- Presentation of Diplomas ----- Mr. E. V. Day
- Benediction ----- Rev. J. R. Sharp

The Centenary Commission of the M. E. Church, South, presents "The World at Columbus," in six reels, featuring the magnificent Christian Pageant, "The Wayfarer," at the Star Theatre, Tuesday, June 1. The worldwide parish of Methodism visualized. Don't miss this unusual treat!

Fowls for breeding purposes should be strong, healthy, vigorous birds. The comb, face and wattles should be of a bright red color, eyes bright and feebly prominent head comparatively broad and short and not long or crow-shaped, legs set well apart and straight, plumage clean and smooth.

Chautauqua next week!

I SHALL HAVE TO LOOK INTO THIS

CAN'T A MAN PASS A FRESHLY-DUG HOLE WITHOUT STOPPING TO LOOK IN ?

KIND OF POULTRY ON GENERAL FARM

The hen, first and last, is the main dependence for increasing the supply of white meat and eggs on a farm, but she requires the aid of turkeys, guineas, geese and ducks just as on a dairy farm the cow requires the aid of pigs, sheep and goats. The setting of the standard at 100 hens per farm is safe, but no such arbitrary standard can be set for the other kinds of poultry, say the poultry specialists of the United States Department of Agriculture.

The small farm, with grain fields of neighboring farms in proximity to the barn and dooryard, would, perhaps, be better without turkeys. The farm through which no streams run and which has no large pond would perhaps be better without ducks. But the circumscribed farm on which turkeys would be unusually profitable, and the farm that has no streams and ponds may have large range for turkeys. Each farm family will have to determine for itself what poultry can be profitably kept in addition to 100 hens, bearing in mind that an adequate number should be kept of all the kinds for which free range can be found.

THE STATE OF TEXAS

To The Sheriff or any Constable of Deaf Smith County, Greeting:

You Are Hereby Commanded to cause to be published once a week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Deaf Smith County, copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the Estate of J. W. English, Deceased. John B. Curtis and Ora Elizabeth Curtis have filed in the County Court of Deaf Smith County, an application for the Probate of the last Will and Testament of said J. W. English, Deceased, filed with said application, and for Letters Testamentary which will be heard at the next term of said Court, commencing on the first Monday in June, A. D. 1920, the same being the 7th day of June, A. D. 1920 at the Court House thereof, in Hereford, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.

HEREIN FAIL NOT, but have you before said Court on the said first day of the next term thereof his Writ, with your return thereon, showing how you have executed the same

Given under my hand and the seal of said Court, at office in Hereford, this 20th day of May, 1920.

A. O. THOMPSON, Clerk
County Court Deaf Smith County, Texas. 17-11

The Centenary Commission of the M. E. Church, South, presents "The World at Columbus," in six reels, featuring the magnificent Christian Pageant, "The Wayfarer," at the Star Theatre, Tuesday, June 1. The worldwide parish of Methodism visualized. Don't miss this unusual treat!

CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them.

J. W. Beck, farmer, Hereford, says: "At one time I was a blacksmith but my back and kidneys were in such bad shape I had to give up the work. My back was sore and lame mornings and ached so severely I couldn't stoop over to do my work. When I bent over a sharp pain would shoot through the small of my back and I could hardly straighten up again. My back was also weak. I did not sleep well at night. My kidneys were irregular in action and bothered me at night as I often had to get up two or three times to pass the kidney secretions. Another member of my family had used Doan's Kidney Pills with such good results I began using them. Two boxes relieved me of the trouble and fixed me up in good shape."

**TABERNACLE MOVED
IN ANCIENT WAY**

A primitive, and altogether novel, way of moving things was reported to us Monday, when about a hundred men assembled and moved the town's 40 by 60 foot tabernacle a distance of about 50 feet, using no contrivance more modern than a lever, and lifting the structure bodily and "hoisin' 'er over" a foot at a time.

The former location of the tabernacle in the middle of Main street had been a source of vexation to people living in the north part of town for years, and after some agitation on the part of those interested, permission to move the same was granted by the city council, and volunteers were secured for the job.

Owing to its peculiar construction, the usual method of placing rollers under it was thought to be impracticable, and extravagant use of man power had to be made. The actual moving required about two hours' time, and resulted in little damage to the structure.—McLean News.

**"Boys, Don't Leave School"
Chautauque Lecturer Gives the Pupils a Big Boost**

If Dr. F. E. Gordon said nothing else in his lecture, "Shooting the Goal," than this, he has scored a tremendous point in the arguments he backs up the advice with. Dr. Gordon has made a specialty in the study of the problems which face the student and the parent in their relation to the teacher. He is striving to bring about a clear understanding between all three. As an inspirational lecturer Dr. Gordon reaches great heights.

"The home and the public school are vitally related to every undiscovered secret and to every great problem we as citizens of this Nation are facing today," says this friendly Chautauque speaker. There you are. On that premise there is based a tremendous structure of logic. Gordon makes an appeal to the head and the heart which is irresistible.

Chautauque a Joy Time—One Reason Why This is "Happy Week."
If, as is generally supposed, laughing has anything to do with growing fat, there should be a general and considerable increase in weight in Hereford. A marked increase will be noticeable after "Nothing but the Truth". This is one of the funniest comedies ever produced and most surely the greatest this town will get to see this year.
Imagine betting ten thousand dollars on your ability to tell the truth for one whole day! In the first place, just what constitutes a fib anyhow? You will have a new conception of what dilution of fact is ordinarily accepted as the real thing. It looks easy, doesn't it? Well, it looked easy to Bob, too. At that he comes mighty near losing his best girl into the bargain, to say

nothing of the ten thousand.
"Nothing But the Truth" is the most expensive as well as the most successful comedy Redpath-Horner has ever produced. It is a stream from start to finish. The situations are simply paralyzing and the lines not only clever but funny beyond description. New York went wild over it.

Word of Words

"There was one word," wrote a Red Cross nurse serving in a French army hospital, "that we quickly learned in five languages. It was the word that came most often to the lips of sick or wounded soldiers when suffering or delirium wrung utterances from them. It is mutter, mere, moeder, madre and mother."

Stray Sale Notice
I WILL SELL to the highest bidder, for cash, at H. Trow place, about 32 miles North and about six miles East from Hereford, in Deaf Smith County Texas, within the hours prescribed by law, the following described stray stock, to wit: Two small mare mules, (black) about 3 years old, Color, bay, Unbranded. Said stock was estrayed by me on the 2nd day of April, 1920 and has been held as the law requires.

Chautauqua next week!

W. T. Womble and wife will make an auto trip to Midland, Texas next week, if the weather permits. Mr. and Mrs. Womble have many friends in and near Midland.

H. L. Rice and family left Hereford by auto this week for points in New Mexico, Colorado, Wyoming, Oregon and California. They expect to be on the go for the entire summer.

We save you money on stationery and toilet articles.
Skelton.

It is your duty to make your money buy as much as possible. Buy at Skelton's.

Expression Teacher
I wish to notify those interested in expression that I will begin a class in the Emersonian Method, at the home of Mrs. Stegall, 306 Lawton St., May 31. Have nine years training from Boston and Philadelphia, five years college work and eighteen years experience. References: Mrs. Francis Tubb, Mrs. A. O. Thompson.
Mrs. Laura Robinson, Paris, Texas.
17-11-Pd.

Your stationery should be distinctive, typical of yourself.

Character, temperament, personality, is shown in the style of writing paper and envelopes you use.

We have beautiful styles, shapes and sizes at prices to suit any mood.

If you want your personality pleasingly, properly reflected in your correspondence, select your writing materials here.

"SEND IT TO THE LAUNDRY"
"YES, IT IS SANITARY"

Mrs. Chas. Donald and daughter, Miss Emma Jean, left Tuesday for Ft. Worth and Watauga where they will make a several weeks' visit with Mrs. Donald's parents and sister.

S. J. Dodson, of El Paso, Texas, formerly of this city, arrived Sunday to attend Court. Mr. Dodson says he has not stopped any Mexican bullets, but he has witnessed several battles.

Mr. and Mrs. C. H. Meyers, of Stockton, Calif., who have been in Hereford this week visiting with Mr. Meyers' sister, Mrs. John Haberer, and family, left for North Bend, Nebraska Wednesday morning.

Mrs. S. M. Hooper, of Plainview, and daughter, Mrs. S. J. Baldwin, of St. Joe, Mo., arrived in Hereford Monday night for a visit with D. L. Hooper. Mrs. Hooper is D. L. Hooper's mother and Mrs. Baldwin is his sister.

Esa Harrison went to Amarillo Monday to attend the Panhandle Grain Dealers' Association. From there he went to Oklahoma City to attend the Oklahoma Grain Dealers' Association and from there he will go to Galveston, Texas, where he will wind up his trip by attending the Texas Grain Dealers' Association.

Mrs. E. W. Hutcheon and daughter, Miss Helen L., arrived in Hereford Sunday. Mrs. Hutcheon will be remembered as Miss Una Norton, of this city. She will leave this week for Artesia, N. Mex., where she will visit her father and other members of the Norton family.

Chautauqua next week!

The Centenary Commission of the M. E. Church, South, presents "The World at Columbus," in six reels, featuring the magnificent Christian Pageant, "The Wayfarer," at the Star Theatre, Tuesday, June 1. The worldwide parish of Methodism visualized. Don't miss this unusual treat!

The Brand Force Changes
Miss Cecil Gilliland, who has been Society and Local reporter for The Brand for over a year, has resigned to accept a position in the Hereford Post-office.

Mrs. B. F. Guthrie will conduct the Social column for The Brand in the future, while N. C. Vogele will look after locals and assist with subscription, advertising and other work.
Ira Connel accepted a position with The Brand last Monday, and will learn the printer's trade.

Chautauqua next week!

When people enter your home, when you are anxious for their comfort and pleasure, good furniture, tastefully chosen and placed, is worth while.

You probably don't recall a single successful hostess who has not had a dainty, "homey" atmosphere about her house.

Even if you get it one piece at a time, 'twill add to your peace of mind to see how we can help you.

The Grain Situation

When grain was selling at \$1.60 per hundred, we advised farmers to hold,—offering all of our customers to carry them until the the price was better.—

Today the same grain is selling for more than \$2.00 per hundred, and we are rejoicing with the farmers who took our advice.

Now we do not hesitate to give you another sure winning pointer—

For your own good, and our good, do your banking with

The Western National Bank
