TWO DOLLARS A YEAR

AN OIL OFFICE OPENED

L. Baskin Secures Federal License to Operate Oil Exchange

Hereford's first Oil Exchange will be opened on September 1 by L. Baskin, in his office at the lower end of Main street. The Exchange has been granted a federal license and will be operated under the rules and regulations laid down by Federal law governing such matters.

The Exchange will handle oil leases, oil stocks, and other matters pertaining to the conduct of the oil and gas business. Anticipating the growth of this new industry, Mr. Baskin has employed an expert Dictograph stenographer in the person of Miss Marie Beckman, of Elgin, Ill., who has already arrived and assumed her new duties Wednesday of this week. Miss Beckman uses the last word in stenographic equipment—the Dictograph, an instrument which looks like a first cousin to an adding machine, and on which Miss Beckman takes dictation in much the same manner in which a bank clerk balances your pass book.

Another innovation by Mr. Baskin to handle the work of the Exchange easily and efficiently is the installation of a huge blackboard wall map of Deaf Smith county, 6x9 feet, on which the minute details of the topography of the county is traced. This map is full of valuable information of all kinds concerning the county, and is probably the largest of its kind in the country.

Ray Barber Plans To Build Real Barn

Ray Barber, breeder of Registered Herefords, has just let the contract for a modern feeding barn, with a capacity of 24 head, to be erected on the hill across the creek from the City Park.

Mr. Barber describes this latest improvement as a "real barn." It will measure 35x48 feet, with hip roof, concrete foundation, drop board siding, will face northeast and southwest, and will be rat and fly proof. Each stall will have a window, and the interior will provide for bins, hay, wash room, etc. The ten foot driveway will run entirely through the middle.

As soon as completed Mr. Barber intends to bring in some picketed stuff and keep them where prospective buyers can always easily locate and inspect them.

We Are All Asked To Another Picnic

The Chamber of Commerce is in receipt of an urgent request from the El Paso Chamber to appoint delegates to attend the Old Settlers' Reunion, to be held in Van Horn, Texas, August 27 and 28 next, at which time matters affecting the various highways proposed for the Tri-State region will be discussed.

There will also be a general round-up and entertainment features, together with a barbecue.

Delegates are invited to come to El Paso on the return trip with Governor Hobby and party, at which time there will be an entertainment for the visitors.

It Was Bunch From Tulia This Time—10-4

We simply hate to say anything about it. In fact, if it were not for the Brand's motto of giving all the news while it is news we would quietly forget it.

But the honest truth is—our ball team took another walloping last Sunday. This time it was Tulia. The score was 10 to 4, or somewhere around that figure. We refuse to go into more detail.

Revival Attracts Enthusiastic Crowds

Dr. Graham Frank and the Huttons are pleasing the people of Hereford and vicinity who attend the big nightly meetings at the First Christian Church. The music is delightful and Dr. Frank is preaching an unusual line of sermons. The appreciation of the people is evidenced by the crowds which greet him. The meeting will continue through Sunday.

On Friday night Dr. Frank will discuss: "Safe For Two Worlds;" Saturday night: "The Slighted Invitation;" Sunday, a. m.: "Religion in the Home;" Sunday, p. m.: "The New Testament Hamlet."

A packed house greeted Dr. Frank Monday night to hear his discussion of the League of Nations. The speaker, a strong advocate of the League, presented objections to the measure as well as the benefits to be derived from it. His discourse was a masterful effort and one much appreciated by the audience.

Oil Interest Grows; Derrick Completed

A swelling undercurrent of activity in the local oil situation is slowly developing from day to day. There are all kinds of rumors of contracts for drilling floating around. The town continues to fill up with strangers and old-timers returning home. Automobiles loaded with strange faces, are scurrying over our country roads. Real estate is beginning to change hands.

Driller Ricketts of the Hereford Oil & Gas Co., announced this week that his rig crew would have the derrick completed by Wednesday night at the latest. It is believed that within another two weeks several additional contracts for wells can be announced.

Wednesday afternoon The Brand received a wire from A. B. Miller of the Happy Oil & Gas Company of Amarillo saying: "Another big gas blowout in the Canyon well today."

Meanwhile, living conditions are forcing themselves to the front. There is hardly a residence in town for rent. The demand for houses is growing steadily. Many deals are on foot and many people are wondering where they will hang their hats this coming fall and winter. It seems to The Brand that now is the time of all times for a Building & Loan Association, or for some man with the money to erect a lot of cottages. Otherwise a civic housing problem of large proportions will surely confront us before many days.

Santa Fe Uses Old Cadillac on Rails

A Cadillac touring car came through Hereford last Friday, but not over State Highway No. 33. Instead it traveled serenely over the California line of the Santa Fe railway, and it was occupied by General Superintendent Sears, Division Superintendent, Farley, Roadmaster Immrath, Bridge and Building Foreman Rouse, and a stenographer, all of the Santa Fe general offices at Amarillo.

The Cadillac had been stripped of its tires and equipped with iron wheels and flanges. The party left Amarillo early in the morning on an inspection trip and made the round trip to Clovis and back in one day.

Real Estate Beginning To Move: For Instance

As an indication of real estate activity The Brand has ascertained that J. H. Pitman has recently sold the following tracts:

To O. G. Hill, one section, three miles west of Hereford;
To J. H. Goshwick, Ranger, Texas, one section five miles south;
To Tom Wilson, one half section, ten miles west;

To C. W. Murray, Crosbyton, Texas, 960 acres fourteen miles northwest;

To C. H. McGee, Crosbyton, Texas, 649 acres thirteen miles northwest.

GREAT CASTRO PICNIC

Dimmitt Citizens Entertain Tremendous Crowd Last Thursday

What was said to have been the largest crowd ever assembled in Castro county greeted the hospitable citizenship of Dimmitt last Thursday on invitation to attend the big annual Picnic planned for that day. Approximately 2,000 people assembled around the pretty little Castro county Courthouse lawn.

The big feature of the day was the "eats." Nothing like it was ever witnessed before. Fried chicken, beef, ham and every conceivable kind of food under the sun was provided in limitless quantities, and the visitors were stuffed until their eyes bugged out.

Another unique feature of the occasion was the absolute lack of "hot air" of any kind. There was no speech-making whatever, the entire day being given up to eating sociability and various amusements and games. Incidentally the Dimmitt baseball team slaughtered an aggregation from Hereford during the afternoon. Horse racing, potato races, etc., entertained the tremendous big crowd until supper time when another whirl was taken at the still laden tables.

It was a great day for Castro county, perfectly handled and greatly enjoyed by bunches of visitors from Hereford, Plainview, Tulia, Lubbeck and many other points over the state.

West Texas After Women's Club Date

A determined effort to secure the next meeting of the State Federation of Women's Clubs for Western Texas was the feature of the annual convention of this strong association, held at Stamford recently. Mrs. R. T. Evans, delegate to the convention from this place, so reported at a special meeting of the Bay View Club of Hereford, held at the home of Mrs. Evans last Monday afternoon.

Mrs. Evans gave a detailed report of the entire three days session of the Federation, her recital being received with intense interest by the club members present. Her report showed what the women of Texas are doing in club work, and the different lines of endeavor attempted show they are rapidly coming to the front.

A new impetus for work was the result of this splendid report. The Bay View Club will study more extensively their course in Modern Drama begun last year. The coming year's work will cover ten of the leading Dramatists and their works. The Year Book committee is at work and their plans promise to make this one of the best and most helpful years of the Club.

The Club was glad to have with them the new members, also Mrs. Slaughter and Mrs. Young, as guests.

At the close of this pleasant afternoon the hostesses served a refreshing ice course.

Former Employee of Brand Pays Us A Visit

Mr. and Mrs. P. V. Winstead and little daughter, and brother-in-law, J. M. Winstead, of Canyon, paid us an enforced visit Wednesday, while enroute to Las Vegas, N. M., in their car. Tuesday night just as they arrived they broke an axle and spent Wednesday among us while waiting for repairs to their machine.

Mrs. Winstead was formerly employed on The Brand in the days when J. Ray and A. C. Elliott owned the paper.

METHODISTS HAVE AGREED ON FINAL PLANS FOR NEW CHURCH; BIDS IN ORDER

The Methodist church building has not been started yet, but the beginning is near at hand. It appears that the days of anxiety for the finance committees who were charged with raising the funds have passed. Sufficient pledges and funds are on hand to assure the project and the finance committees are resting on their oars.

Architects and a superintendent of construction have been chosen and contracts signed. That is all fixed and settled by a closed contract. Plans have been submitted to the building committee, in fact, the plans for the building were submitted some days past. Changes in the plans have been made more than once, and yet the final plans have not been adopted. A number of the Methodist members have met on several occasions and discussed and studied the plans as drawn and changed and redrawn. A subcommittee was appointed last week and much time and labor has been employed in an effort to get satisfactory plans, but

it seems that the end is not yet. The plans for the main auditorium and second story have been agreed upon, but the trouble is found in arranging the basement. The basement will contain the heating plant, kitchen and banquet room and eight large Sunday School rooms. The Methodists who are working so diligently at the construction of this building seem assured that they will have an up to date and satisfactory church and Sunday school plant. They also think that the plans will be agreed to this week and that they will be ready to break dirt for the building early in September.

Later—At a special meeting of the Committee Wednesday night an agreement on disputed points was reached, and Thursday morning Rev. W. H. Terry departed for Amarillo to settle these points with the architect. As soon as revised blue prints are made, bids will be asked for for actual construction work.

Why Can't Deaf Smith Have Agent?

Arrangements have practically been closed by the Commissioners Court for an agent to give his whole time to the work in Randall county.

Judge Fletcher stated yesterday that the court was of the opinion that the agent should be employed but a few details were to be worked out before final arrangements were made.

A county agent was first employed four years ago when Randall joined three other counties in employing a government agricultural county agent. For the past two years Randall has been connected with two other counties.

The work of the agent has proven so successful that the farmers are demanding a man to look only after the interests of Randall county. None of the agents could begin to cover the territory when connected up with three counties. With only one county efficient work can be done.

During last winter the county agent saved Randall county enough to pay his salary for several years. A good man will make the farmers and stockmen many thousands of dollars each year.

C. F. Walker is now representing Randall county, together with Potter and Oldham.—Randall Co. News.

The above item contains plenty of food for thought for the citizens of Deaf Smith county. Randall county, our neighbor, finds that an Agent pays. It is only one of over 200 Texas counties that have discovered the same truth.

How long is Deaf Smith county to be deprived of this vital aid to the development of its livestock and agricultural resources?

Commercial Club to Meet at Lunch on Friday

There will be a meeting of the Directors and interested members of the Chamber of Commerce Friday at noon, at the Stockmen's Cafe, where lunch will be served to all who have the price. The principal matter for discussion will be the coming County Fair.

Anyone interested in development work for Hereford and Deaf Smith county who is willing to pay for his own dinner will be cordially welcomed.

Half Inch of Rainfall Very Gratefully Received

A blessed rain, amounting to about a half inch in Hereford, started falling about dusk Tuesday evening, August 19, and continues at intervals throughout the night. It is understood that the rain did not go very far east of us, but did reach down below Dimmitt.

The air is much cooler and there are many new smiles to be seen on the faces of farmers and stockmen.

Activity in Cavalry Account of Mexico

Since Uncle Sam has begun to use the plain English language and the Eighth Cavalry in dealing with old Whiskers Carranza down in Mexico there are unwonted evidences of activity among the rank and file of the new Texas Cavalry. For if the signs of the times fail not there may be some active service across the border before snow flies.

The state papers carry news to the effect that the high command of the Texas Cavalry are feverishly at work recruiting and getting ready for any eventuality. Incidentally, an Inspector for the Guard dropped in on Captain Wesley Bradley last week and looked into local troop affairs. All equipment is on hand with the exception of the horses. And those cannot be procured until the troop is recruited up to more wholesome proportions. The Inspector gave Captain Bradley four weeks in which to get the troop in shape for horses. If this is not done, through lack of local interest, then we will probably lose the troop.

Captain Bradley is looking for healthy young men who are not afraid of an hour and half's drill each week and the strong probability of a little excitement.

Schools Will Open Monday, Sept. 8th

The Hereford Public Schools will open for the fall term on Monday, September 8. This definite information is contained in a postal card received by The Brand from Superintendent L. M. Fertsch, dated Roswell, N. M., August 19.

Prof. Fertsch, who has been teaching all summer in the Canyon Normal, is taking a "short mental vacation and spiritual rest," as he expresses it, before taking up the long winters' grind.

O. H. John Has Large Acreage in Indian Corn

What is probably the largest Indian corn field in this neck of the woods is that belonging to O. H. John, six miles northwest of Hereford. Mr. John has 150 solid acres of corn on his irrigated farm. Some of it was planted about the first of May, and the wet weather immediately following prevented complete planting until thirty days later, so it is hard to judge the entire yield. The corn is of the Yellow Dent variety and Mr. John says the ears are smaller than he hoped for. Some portions of the crop look like about 45 bushels to the acre, and some about twenty bushels.

Court News
Arch D. Collins vs. J. F. Waldrip. Suit on note. Judgment in favor of plaintiff.

2 NEW BRICKS FOR US

W. B. Parmer Contracts; D. F. Ashbrook is Considering

Another Main street brick building has already been started, and a fifth one is in prospect.

W. B. Parmer, who owns a 25-foot lot between the C. O. Lee Hardware and the new bricks now being erected by R. E. Elliston, has contracted for a building 25x80, and Contractor B. A. Nieks, who is erecting the Elliston buildings, has already put in part of the foundation and is merging the new work with the old. This will add another modern business house to our rapidly improving Main street.

Mr. and Mrs. D. F. Ashbrook, who own a 30 foot lot just north of the Ford Garage, are making preliminary plans for the erection of a two-story brick on this site, if conditions continue to improve. There is a five foot strip south of the Star Theatre building owned by C. H. Dyar, and it is possible that this strip may be purchased by the Ashbrooks and incorporated in the new proposed building. If this building is completed it will give Hereford two blocks and a half of almost solid modern brick-buildings on the east side of Main street. Let the good work go on.

Amarillo Boosters To Be Here Monday

On next Monday, August 25, Amarillo will run a Booster Train through into New Mexico on a Trade Excursion. The train is due to arrive at Hereford at 9:52 a. m. and spend one hour here. The Brand hopes that every business man in town will meet the train and demonstrate to our visitors that the live ones are not all bunched at Amarillo. The letter from the Amarillo Board of Development announcing this trip follows:

"On Monday, August 25th, one hundred live wires of the City of Amarillo on a special train of four pullmans will leave here for a visit to their friends and neighbors in a number of Panhandle, eastern New Mexico, and southern Colorado towns. Your city is one of those we will visit."

"This trip is taken solely for the purpose of getting better acquainted with you. The train will be operated on a schedule that must be strictly adhered to; and we shall therefore expect nothing in the way of entertainment from your people but will be glad of an opportunity to meet each of them."

"Our present schedule, which will be slightly revised, will put the train into your town at 9:52 a. m. on Monday, Aug. 25. The train will leave your city at 11:02 a. m."

Cliff Estes Lands in New York From France

A telegram was received from Cliff Estes Wednesday night, dated at New York, announcing his arrival on this side of the water.

Cliff is a member of the Regular Third Division, and it is understood that he will probably go to Camp Merrett, N. J. for demobilization. In all probability he will be home before long.

C. C. Ferguson Presents Us With SOME Peaches

The Brand force feasted on some of the finest peaches we have ever seen produced in this country the past week. They were raised by C. C. Ferguson, and were huge in size and simply unbeatable in flavor. Even poor newspaper slaves sometimes get in on some of the good things of this life.

Texico-Farwell Has Big Picnic

Texico-Farwell pulled off a big picnic on August 7 that, according to the Texico-Farwell News, was a red letter day for that community.

Parties from far off began arriving early Thursday. Old timers state that more people were gathered here on that day, than on any previous day in the history of the community.

Johnson's band of Clovis furnished the music. After supper the large crowd was treated to an hour's concert.

The program proper commenced at 11 o'clock with James McDowell acting as chairman, who introduced the speakers. Judge J. D. Hamlin gave a most interesting address. C. A. Roberson followed him in an address that carried the audience with him from the beginning and many times he was interrupted by words of praise from the audience.

Dinner was served on the ground. After dinner the band gave a fine concert, after which the crowd witnessed a ball game between Portales and Texico. While no one could be found to enter the swimming contest, yet a number of younger ones enjoyed themselves in the pool just north of the building.

At seven the band gave another fine concert. The crowd seemed in no hurry to leave the ground, and for that reason, a lot of them were caught by the rain later in the evening. In all Texico-Farwell was well pleased, in fact, elated over the outcome of the day.

PLAINVIEW LIBRARY GIVEN 150 VOLUMES

A gift of a hundred and fifty volumes has been made to the Plainview Library by Miss Paddock, daughter of the late Mr. and Mrs. H. G. Paddock, in memory of her parents. Among the books is a set of Dickens, an exceptionally fine set, and a set of Scott. In addition, there is miscellaneous late fiction, a reference set on literature of twelve volumes and several bound volumes of standard magazines, such as Harper's and Century. These books are from the library of the late Mr. Paddock, who made his residence in Plainview for some time and who made many friends among the citizens of that town.

POTTER COUNTY VOTES GOOD ROADS BOND ISSUE

At a county election held in Amarillo Saturday, August 9, for the purpose of authorizing county commissioners to issue bonds to the amount of \$750,000 to be used in hard surfacing roads, a vote of more than 10 to 1 in favor of the issue was carried. Federal aid to the amount of \$200,000 has been pledged to Potter county, the maximum amount to be pledged to any county, and an additional \$200,000 as a minimum in event of the success of the bond election to be held Nov. 24th.

A city election is to be held Sept. 6 to grant authorization for the issuance of \$150,000 in bonds to be used in municipal road construction.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught, Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Geston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's, the original and genuine. B 79

SMALL CHILD KILLED BY KICK FROM HORSE

The eighteen-months-old child of Mr. and Mrs. F. W. Wilkerson, who reside six miles west of Plainview, was killed by the kick of a horse on August 11.

He was playing in the yard with other children and wandered off from them without being noticed. His mother missed him, and when search was instituted he was found in the horse lot, barely alive. There was the print of a horse's hoof on his chest. The child was placed in an automobile and rushed to Plainview, but was dead upon arrival there.

TOM TRAMMELL DEAD

Tom Trammell, a prominent stockman of Briscoe County, was buried at Silverton Wednesday afternoon. Trammell, it is alleged, took his own life in a prominent hotel in Pueblo, Colo., Sunday morning. His head was blown asunder by a bullet from a revolver. The shot was fired while he was at a table in the dining room.

Mr. Trammell leaves a wife and a four-year-old daughter. Interment was under the auspices of the Woodmen of the World Lodge.

Mr. Trammell was one of the Trammell Brothers, who have engaged in the livestock business successfully on the plains for a number of years, and has a wide acquaintanceship in this section. He was well known in livestock circles.—Plainview Herald.

AN ESSAY ON GEESSE

The following composition on geese was written, according to Capper's Weekly, by a school boy in St. Louis:

Geese is a heavy-set bird with a head on one side and a tail on the other. His feet is set so far back

on his running gear that they nearly miss his body. Some geese is ganders and has a curl in his tail. Ganders don't lay or set. They just eat, loaf and go swimming. If I had to be a geese I would rather be a gander. Geese do not give milk, but give eggs, but for me give me liberty or give me death.

CANYON TO PAVE

According to the Randall Co. News, at a special meeting of the Canyon City Council-Friday night Mayor J. D. Gamble was authorized by the Council to employ an engineer at once, and to make estimates for paving in Canyon.

The Mayor hopes to have these estimates ready in a very short while.

NEW BANK BUILDING

A Canadian, Texas, construction company has been engaged to furnish plans and specifications for a new 25x80 bank building to be built at Wheeler, Texas, in the near future.

Sheppard and Bailey May Debate

It is reported that it is likely that Senator Morris Sheppard and Joseph W. Bailey may have a joint debate at Cleburne September 29 relative to the League of Nations, Bailey opposing its adoption.

The United States has 509,000 acres of sugar cane this year, as compared with 527,000, the revised estimate for last year, according to reports from field agents of the Bureau of Crop Estimates, United States Department of Agriculture. The 1919 acreage, however, is still well above the acreage of ten years ago. This acreage does not include sorghum or other seeded cane, but does include all varieties grown by planting stalks or joints.

DISCOURSE ON TEETH

A fifth grade school boy in Kansas was told by his teacher to write a composition on teeth, and handed in the following, according to the Topeka Capital:

"Teeth is growed in the mouths of most animals, cept hens. The hen don't chew what she eats; she just swallows it and then says to her gizzard: go it and see what you kin make out of that. My ant fanny she has store teeth which keeps a droppin' down. I ast her one day why she didn't throw them away and git her a gizzard like a hen. Sometimes teeth acts awful. I don't know which is the worst, a toothake or the stumakake, ive had both. There is this difference, when your tooth akes you kin git it pulled if you have the nerve. I hed a tooth pulled once by a doctor. He told me it

wouldn't hurt. I believe all the doctors is liars. There was another doctor that give me some medicine and said that it would taste good. He's a liar too. Teeth is regularly nusance any way you take them. my maw makes me brush my teeth every day, which there ain't no sense in so far as I can see. If I had my way there wouldn't be any more teeth. we would all eat like a hen.

THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and conk out, you are in trouble. You don't know what the trouble is—without finding out what you feel nervous, dizzy, whenever you feel nervous, or have pains in the back—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

Get some GOLD MEDAL Haaslem Oil Capsules at once. They are an old, tried preparation used all over the world for centuries. They contain only old-fashioned, soothing oils combined with strength-giving and system-cleansing herbs, well known and used by physicians in their daily practice. GOLD MEDAL Haaslem Oil Capsules are imported direct from the laboratories in Holland. They are convenient to take, and will either give prompt relief or your money will be refunded. Ask for them at any drug store, but be sure to get the original imported GOLD MEDAL brand. Accept no substitutes. In sealed packages. Three sizes.

Now All You Good Fellows, Come Fill Up Your Pipes

15c

The Velvet tin is twice as big as shown here

If ever men are "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'tis when Velvet's in the bowl.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco—truly "ageing in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts, Yo' mouth with friendly smoke—An' let the old world wag."

Liggett & Myers Tobacco Co.

—the friendly tobacco

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life-long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?

Let us send you a Swift "Dollar." It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

Swift & Company, U.S.A.

CASTRO COUNTY

DIMMITT

Wm. O'Brien of Amarillo was on our streets Monday.

Miss Clara Turner is visiting her sister in New Mexico.

C. E. McLean came in from Mineral Wells Wednesday evening.

John Flannigan sold his town property to Robert Hastings. The Flannigans will move to their ranch at Spring Lake this week.

Judge Woodlee and family went to Abarnathy Saturday evening. Mrs. Woodlee and children will spend a few weeks with her sister, Mrs. Herald, and family.

Mr. Sowers' family moved into their new house two miles east of town this week.

Born to Mr. and Mrs. Edd Bell, a girl, on Wednesday.

Mr. and Mrs. Hodges, of Lubbock, came in Wednesday evening to attend the picnic and spend a few days at the C. E. McLean home.

J. D. Burch, who lives five miles south of town, was in to the picnic wearing a blue ribbon some of his neighbors had pinned on him as he had the best wheat in the country. His twenty acre field averaged 40.1-2 bu. per acre.

Mrs. Jack Slover came in from Lubbock Wednesday to visit home folks.

Miss Bertha Johnson of Childress, was at the picnic Thursday.

Ester Noble came in from Oklahoma Wednesday.

Miss Lake Woodburn and sister, Loma, are spending the week at Farwell visiting their cousins.

Harvey Cash made a trip to Amarillo Monday.

Mrs. Regben Holland of Lubbock is visiting at the Elliot ranch this week.

John Bell is enjoying a visit from his brother-in-law from New Mexico.

There was a large crowd at the picnic Thursday. There were quite a number of Herefordites and some from Lubbock, Childress, Lockney, Plainview and other points.

PARMER COUNTY

BOVINA

Bovina has been too busy for some time past for anything except taking care of the wheat crop.

Little Josephine Hawkins has been visiting in Vaughn. N. M. Mrs. Hickman accompanied her home for a few days visit.

Roy Hawkins is spending several weeks in his old home near Waukegan, Ill.

H. H. Smith, who has been with the Santa Fe in Bovina for the past five years, left last week for Panhandle, where he will act as agent. Mr. Smith had become a permanent fixture in Bovina, and was active in social, religious life and in everything that pertained to the upbuilding of the community. The members of the Epworth League, of which he had been president for three years, gave an entertainment in his honor at the home of Mr. and Mrs. Parker Hinson, last week. Mr. Smith is succeeded as Agent here by Harry L. Green, who was formerly a resident here.

The young people enjoyed a social at the home of Mr. and Mrs. Berggren, Saturday night.

Mrs. Ray, from Bell county, is here on a visit to Mrs. J. C. Bullock.

Rev. Forbes filled his appointment at the Baptist church Sunday.

Messrs. Frank and Tom Hastings were in Clarendon the latter part of last week, where they were called to attend the funeral of their father. Their many friends join in extending sympathy in the hour of bereavement.

Mr. and Mrs. Martin from New Mexico, have been here on a visit to B. B. Ezell and family.

Mrs. Hecox happened to the misfortune of having her ankle badly sprained a few days ago.

Several of our citizens were in Texico Friday night of last week to ride the Woodman Goat. They describe the affair as quite exciting and all was well in the end when the big feast was served.

Miss Gertrude Lambert has returned from Canyon, where she has been attending the Normal. She will teach the Jesko school next term.

Josh Campbell, who has been working here for several months, has returned to his old home in Ft. Worth.

Bring Your Printing To The Brand!

ELFERS-PATTON

The home of Mr. and Mrs. J. E. Patton was the scene of a pretty wedding Wednesday evening, July 30, at 6:30 p. m. Their daughter, Camilla Louise, and Alva Ford Elfers, were the contracting parties. The wedding ceremony was said by Rev. B. Y. Dickinson, pastor of Bovina Methodist Church, and brother to the bride.

The marriage was the termination of a courtship which begun while Miss Patton taught school near Bovina last session.

The bride is the daughter of Mr. and Mrs. J. E. Patton, and having been reared here is known by a host of friends as a young lady of many accomplishments, and is loved by all for her sunny disposition.

The groom is a substantial young stock-farmer of Bovina and is prominent in business, church and social life of that section.

The young couple left immediately after the ceremony for a trip overland through New Mexico, Nevada, Montana, Arizona, California and other Northwestern States.

They will be at home in Bovina, Texas, after September 15.—Itasca Item.

Texas State Sunday School Association Plan

What is said to be the greatest constructive program of religious instruction in Texas is now being launched by the Texas State Sunday School Association of all evangelical denominations. The program includes every Sunday School in Texas and a simultaneous campaign is to be made to the end that the State may be fully covered with the complete data and that every person may become familiar with the aims and purpose of the work of the state wide campaign for means.

The plans call for the organization of ten Regional Districts these districts will be subdivided into zones and further into county and community organizations.

The State has been divided into the following districts, i. e.—Dal-

las, Ft. Worth, Waco, Houston, San Angelo, San Antonio, El Paso, Wichita Falls, Corpus Christi, and Amarillo. Each of these cities will be the headquarters of the district and the program makes plans for the employment of a Regional Superintendent and Secretary.

Other plans in this program include an employed specialist that will give material and direct aid to the various zone organizations. In addition to this, plans for the discovery development and enlistment of at least 10,000 volunteer workers, to this may also be added the direct aid to be given the 100,000 teachers and officers in 8700 Sunday Schools in Texas. It is also planned to endeavor to double the membership and enrollment of the Sunday Schools of the State during this campaign.

This great body of trained leadership will in turn be reaching the masses and the membership of the schools. The employed secretaries will give their full time to the promotion of simultaneous campaigns for increase, to maintain institutes, missionary campaigns, home visitation, develop special departmental workers, and to give to every Sunday School the latest methods obtainable through the co-operation of all the various denominations.

In all of these gatherings of workers, there is never to be any discussions of doctrines or church policy, but only upon the methods that have been successfully used to make the work of all Sunday Schools more efficient. At least fifteen state wide specialists will be employed in departmental work.

The Sunday School Association plans for Texas to have some part in the work in Mexico, also in a few of the neighboring states that are not self sustaining and also includes assistance to the Mexicans and negroes of Texas.

The campaign, to raise a minimum of at least \$266,000 per year for the next three years, which will be used to make this program effective and carried to a successful time this fall, the date to be announced later. Subscriptions are to be solicited from the citizenship and the individuals similar to the United War Work Campaigns.

Mr. M. H. Wolfe is President of the State Sunday School Association, Judge Joseph E. Cockrell, Chairman of the State Executive Committee, and Cullen F. Thomas, Chairman of the Board of Trustees.

Subscription Price \$2.00 a Year Strictly in Advance

A BROAD-MINDED VIEW

Is America sufficient unto herself?

Has labor an interest in business development?

Extremely important at this time are these two questions.

The republican leaders who are opposing the league of nations would have you believe that the rest of the world is not necessary to the prosperity and happiness of the United States. Certain labor leaders have threatened to stop the wheels of business unless their demands for increased compensation are met.

We are disposed to call upon Representative Marvin Jones, of this congressional district, to write the Brand's editorial answer to both questions. Here is what he says, condensed into two paragraphs, taken from a recent speech in the House of Representatives:

"The United States has had 100 years of the richest experience that was ever crowded into a single century. Heretofore she has been more or less sufficient unto herself, but she has developed to that point of production and distribution which require that she have other markets for her vast production. Otherwise her products will stagnate on her hands and prices will get so low as to discourage her people and cause untold losses. If we are not to have cheap cotton, cheap wheat, and other products in proportion, to gether with low wages for the workers of the country, we must take advantage of the markets of the world.

"I have no patience with the demagogue who would destroy the business interests or the productive life of this country. You can not destroy the business life without destroying the market for all of our products and without causing intense suffering and entailing a loss on every man. You cannot desassociate poor business and poor prices. Every man in the United States who toils for a living is interested in a steady business development of the country. If it fails, he suffers. He is, therefore, vitally interested. More and more it is getting to be the spirit of the American people that every man should do some useful work. Gradually the idea is gaining force that voluntary idleness is unpardonable. Nothing will add more to the growth of this trend of thought and attitude than an enlarged opportunity for every man of ambition and energy."

A RESTLESS COUNTRY

The entire country is enveloped in an atmosphere of unrest. The daily news from the industrial centers and from the smaller communities where labor is grouped is extremely disquieting. Strikes are in progress in many places, and there are threats of impending strikes. Labor, hit hard by the increased cost of living, is crying out for a more liberal participation

in the profits created by physical toil.

A demand has been made that the government shall take the railroads away from their owners, paying for them with government bonds, and place them under control of a commission composed of representatives of labor, capital and the government. Other schemes are being advocated, many of them with distinct socialistic earmarks.

Where it will end cannot be foretold. A robust faith in democratic methods and American institutions is necessary at this time. The resources of the government are being drawn upon for a solution. The profiteers are being hunted down, and safeguards are being devised to protect both brains and brawn, which are equally needed in the upbuilding and maintenance of our industrial life.

The purchasing power of the dollar practically has been cut in half by the changing conditions brought on by the war. The dollar is the working basis for everything in our economic scheme of existence, and it is possible that the confusion in every quarter is merely the noise of readjustment—the noise of labor and business reestablishing themselves in their relation to the new dollar value.

History tells that after every war there has followed a season of restlessness. That is the experience of the United States now. The country is slow in striking a normal gait, but we have no apprehensions as to the result eventually.

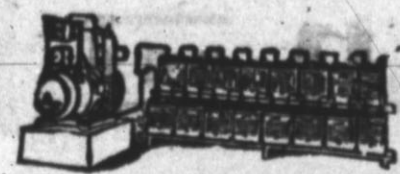

It is time for cool heads and wise counsel to take charge. Selfishness should be eliminated, and the petty politicians trying to make capital for themselves out of the critical situation should be branded and driven from public life.

COST OF LIVING

Hereford would be unique indeed if the constantly mounting cost of living had not been felt here. There has been suffering among some of those who are not possessed in a large measure of the world's goods, and a great many others have been compelled to

DELCO-LIGHT
The complete Electric Light and Power Plant

Endorsed by more than 70,000 satisfied users throughout the world.

Ford Garage

economize to the point of squeezing their pocketbooks.

But here in Hereford we are lucky, relatively speaking. Much of the foodstuff consumed is raised in our own gardens and on our own land. In the larger places the situation is more serious. Tens of thousands of people are on the verge of starving because they cannot stretch their wages to meet the higher prices.

To estimate the percentage of increase in the prices paid for articles of food in Hereford would require considerable guesswork, but an interesting comparative study might be made as between Hereford and Dallas. The United States Department of Labor made an investigation and discovered that the average cost per family a year for 22 principal articles of food in Dallas, in June, 1919, was \$652.73. In 1918 the average cost for the same food was \$586.40, and in 1913 the cost was \$357.62.

In Dallas, therefore, the average family pays 83 per cent more for food now than it did six years ago. Twenty-four other cities throughout the country show an average slightly more than Dallas.

INFLUENZA

The country is informed by persons supposed to know what they are talking about that another epidemic of influenza is likely to be in September. The predictions are based upon nothing more tangible than the fact that there have been such recurrences in the past—upon a possibility rather than a certainty, or even a probability.

There is no occasion for fright, but there is every reason for the observance of the common sense precautionary measures which should be within the knowledge of every household. The individual owes a duty to his physical self—the duty of keeping the body in condition. Disease is apt to attack anybody, but those who are in good health are better able to repel it.

It is unfortunate that medical science as yet has been unable to solve the problem of the prevention and cure of influenza. But it will be solved in time. Meanwhile, the best advice is: Keep well; be fit to fight influenza, or any other disease, at the moment it attacks.

JUSTICE A LUXURY

In an American court of civil justice, at Mount Clemens, Mich., it cost Henry Ford, a citizen, \$250,000 to get a verdict of six cents against the Chicago Tribune, a newspaper. The newspaper paid out \$250,000 in defending itself against the libel suit.

The quarrel of Ford and the Tribune is nothing to concern the country for longer than a moment. But what if it had been a poor man that was characterized by the newspaper as an anarchist? How far could he have gotten in an effort to obtain justice from a corporation able to spend millions if necessary in fighting its legal battles.

If justice is a luxury only for the rich, it certainly is a tough outlook for the poor folks who frequently find it necessary, and not of their own free will and accord, to appeal to the courts in the interest of their rights.

Justice should be simple and inexpensive. Otherwise, it is a mockery. There should be reform in court procedure. The dignity of the law is in danger. It is a problem for the lawyers.

FISTS

Fighting with fists is undignified and especially is this true if the fighting happens to occur on the floor of the United States House of Representatives.

Congressman Blanton, of the seventeenth Texas district, the other day spoke of Congressman Hardy, of the sixth Texas district, as a "rubber stamp" member. Because Mr. Hardy has consistently supported the administration, Mr. Blanton, who frequently is "off the reservation," attempted to imply that Hardy permits another to do his thinking for him.

Mr. Hardy, his patience sorely tried, rushed in the direction of Mr. Blanton. Friends stopped him on the way. "A physical encounter was narrowly averted," said the newspaper accounts.

Fist-fighting, as stated, is wholly and absolutely lacking in the thing called dignity, but sometimes the provocation is great and—a great many important controversies have been settled satisfactorily with the fists.

Speaking of probable candidates, don't take your eye off Gen. Pershing.

A friend who is not suspected of being a prohibitionist has furnished the information that Noah, the ark builder, might have lived to be an old man if he hadn't spent

the last 300 years of his life as a wine souse.

The republican leaders who railed at the President a few weeks ago because he did not call Congress into session are now hurling invectives at him because he has refused to permit an adjournment while their work is half done.

In this section of the country we would feel less uneasy if we had genuine assurance that the proposed investigation of Mexico by a Congress committee was to be a patriotic affair and not merely another scheme to "put Wilson in a hole."

Senator Gore of Oklahoma, hesitated and stumbled on the question of giving the President wholehearted support during the war. His opponent for reelection will be Congressman Scott Ferris, who backed the President to the limit and without stint.

Another thing that has helped to boost the cost of living is the speculative craze which has seized the American people. Senator Capper, of Kansas, estimates that the people in his state lately have put more money into dubious oil and mining stocks than in government bonds.

What would you have said, say ten years ago, if you were told that the United States would send an army of two million men to France and bring them home again, that the kaiser would be deposed, the czar dead, Texas in the equal suffrage column, and the Mexican problem unsolved?

With an output of 7,151,000 barrels of 42 gallons each in the month of June, Texas became the leading oil-producing state of the United States. Deaf Smith county is chagrined that it did not help to make this record, but later on, fortune favoring, it expects to assist in keeping Texas at the head of the list.

We could warm up to former Senator Bailey's plan to reform the democratic party with more confidence if it was not for the suspicion that it merely is a weapon with which to strike at the President and the league of nations.

Striking actors, actresses and chorus girls have caused the clos-

ing of many theatres in the larger cities, but we refuse to get excited so long as our favorite movie keeps open.

It was probably an anti-prohibitionist who declared there is nothing brewing in the United States except trouble.

FRIDAY—Pa & ma & me went 2 the Cirkus & I am tired tonite but Gee they

was sum things 2 see like elefinks & girafits, & everything & we seen a lady only ma sed she wassent no lady with a snak round her neck—called a Boy Conetruc-tor & prit nigh a milyun clown & when we was a waiting in the crowd for 2 get our tickets ma sed 2 pa You

better be careful pa or sumbuddy will slip that \$ Bill out of yure poket & pa sed If enny buddy can get there hand in my pocket its moren-I can do. We was packed so tite. & pa had 2 pay 15 cts for a ice Cream kone. And we split it into 3.

SATURDAY—s. s. class walked out in the woods. Had a grate time cause I am nuts about Natchure.

SUNDAY—I sed 2 ma I was going 2 Sunday skool & when I cum home my hare was wet which ma tuk for Sircumstanshul Evidents I had ben in a swimming. Which I had. She went out in the Yard & I herd her get a switch. As she was coming in I was going out. Pritty fast 2. pa met me & he sed Where you going. I sed I aint going Im gone. But when I cum back I wisht I haddent went.

MONDAY—Birthday. ma sed I should ought to ack like a man so I did. I grouled about brekfast. I skattered the paper round the hous gothered up pa's seegar butts & put 1 on the Piano, 1 on the dresser & spilt ashes & matches on the flore & tride 2 sware like pa when I euddent get my tie on rite. Ma herd me. Wot you mean she sed. I sed I am trying 2 ack like a man. & she grabbed me & I am done being a m.n. Shot a eat with my nigger shooter.

TUESDAY—Ast Jake's coezen wot is the differents between A Louise & a Kooty he sed A Louise walks on its Stummick wile a Kooty dont give a Durn whose Stummick it walks on.

WEDNESDAY—pa set a old hen today. That is down rite cool I say. If I was that old Hen I wood strike. I wood sware I had Lice & leave the nest and Refuse 2 set a tall this hot wether. Pa speaks of buying a ottomobeel. Or a ford mebbly.

THURSDAY—Took a walk with Jane. She kept a eyeing me & I sed Jane you look at me as if you was afrade I would kiss you if I got a chants. She sed Well woodent you & I replied & sed I'll say I wood. Diddent.

REAL ESTATE EX-CHANGES ARE RAPID

The prosperity of Donley is partially reflected in the rapid exchange of property at neat figures, in fact, at whatever price the owner asks, says the Clarendon News. Among the recent sales are: The B. T. Lane home was sold to W. P. Blake who in turn sold to C. B. Williams. Frank Whitlock's home was sold to W. H. Johnson. Tom Connally's home was sold to Jim Taylor of Petrolia. R. H. Muir sold 6000 acres of land four miles south of town to C. T. Taylor of Petrolia. Charles McMurty has sold his home in west Clarendon to C. T. Taylor of Petrolia. Many other big trades are pending.

LUBBOCK COUNTY WILL HOLD FAIR IN SEPTEMBER

Lubbock County will hold a fair September 18th-20th. George W. Briggs, secretary, is urging the people of that section to bring in products for the fair, all entries being based on the list of entries announced for the Texas State Fair, at Dallas, so that the exhibits for Lubbock County's fair will be available for use in the State Fair.

Y. M. C. A. Issues 19000 Service Pins

New York, August 18.—Service pins and certificates are being issued by the Y. M. C. A. to some 19,000 men and women who served the Association at home or overseas during the war. There is also the prospect that these workers will form a permanent, nationwide organization whose ratification will take place at the annual convention of the International Committee in October.

The pins are of two designs, that for workers who have served overseas bearing a narrow, gold colored bar. The certificates, which are signed by William Sloans, Chairman of the National War Work Council, and Dr. John R. Mott, General Secretary, the recipient's name and the period of his or her service. The names are submitted to a committee at the National Headquarters in New York and there passed upon. Three months' employment by the "Y" in any capacity, or a total of 800 hours' work for the organization are necessary qualifications for a certificate.

The plan for the formation of the war workers' veteran association is finding wide approval, and applications are coming rapidly.

SEES HIS BROTHER FOR THE FIRST TIME IN EIGHTEEN YEARS

Jim Garner arrived in Plainview yesterday for a visit with his brothers, Marvin and Flake Garner. Flake hadn't seen his brother for eighteen years. When he returned from Chicago today his

brother was awaiting him. Jim Garner has been ranching in the Dakotas for a number of years. Mae Garner, of Canyon, is also a guest of the Garner brothers. —Plainview Herald.

HALE COUNTY WILL HAVE EXHIBIT AT COTTON PALACE

Hale County will have an exhibit at the Cotton Palace, at Waco. The Plainview City Board of Development voted in favor of this show.

The board voted against a show with the West Texas Chamber of Commerce.

THE DUPLEX ALCAZAR

TWO RANGES IN ONE.

When you pass our store next week look in and see the new **DUPLEX ALCAZAR RANGE** which burns either Coal or Wood and Oil — separately or at the same time.

We expect a Woman Demonstrator from the factory to be with us the entire week, who will be glad to explain the many ingenious features of the range.

We shall also have a quantity of useful souvenirs which will be distributed as long as the supply holds out.

Dunlap Hardware Company

CAN YOU MAKE GOOD BREAD— HUNDRED PER CENT BREAD

The first few weeks after American families returned from substitute breads to that of 75-100 per cent wheat flour they were fairly content with any wheat bread whatever, whether it was excellent or not.

However, now, since it is becoming once more a common part of every-day meals, almost every housewife is interested in knowing just how her bread would compare with other women's. Many are planning to take a loaf to the county fair this summer, and they especially will be interested in knowing the points most often considered by the judges.

Score the bread you make next baking day, and if it does not suit the requirements of an excellent loaf find out what is the trouble. Perhaps you will find you are using too much flour or are keeping the dough too warm or baking it in too hot an oven. If you are having any of these or the many other troubles which often arise in bread making you will find the United States Department of Agriculture's Farmers' Bulletin No. 807, "Bread and Bread Making," of value in solving the problems. It will be sent free on request.

The following score card is one used in the Office of Home Economics, Department of Agriculture, in scoring breads made in the experimental kitchen:

Points in Bread-Judging

Appearance—10 points.

Consider the general shape of the loaf as a whole, the shape of the top and the roundness or flatness of the dome. The surface should be smooth with no cracks, wrinkles, bulges, lumps, or humps.

Lightness—10 points.

This is the size of the loaf proportioned to its weight, measured by the extent to which the dough has risen and the amount of "spring" taking place in the oven.

Crust—10 points.

The depth or thickness of the crust should be about one-eighth inch, and its color should be a uniform golden brown, neither dark brown nor pale nor floury. The ideal crust has the natural bloom of a well-baked upper surface. Glossiness, due to the use of egg white, or butter, or milk coating, may be considered desirable in some circumstances, but it is not necessary. The qualities sought are tenderness, crispness, and elasticity. A hard or tough crust would be graded low.

Crumb—30 points. (Color, 5 points; texture, 15 points; moisture and elasticity, 10 points.)

Color—5 points.

The best wheat bread is white or creamy, not gray.

Texture—15 points.

The size of the pores should be uniform, circular, or elongated upwards rather than transversely. Streaks, unlevained areas, large holes, and crevices help to make the texture of a loaf rank low.

Moisture and elasticity—10 points.

The crumb of the loaf should be soft and springy, not sticky, wet, soggy, or stringy, nor yet dry, harsh, or crumbly. When the cut surface is pressed lightly it should dent easily and spring back to the level instead of refusing to be moved or remaining permanently dented.

Flavor—30 points.

The ideal flavor is the slight "nutty" taste of the well-baked wheat grain. Salting should be

sufficient, yet not especially prominent. Any flavor, such as the rank taste of poor yeast or of rancid fat, would make it necessary for a judge to subtract nearly the entire 30 points given to flavor.

Keeping qualities—10 points.

Does the loaf keep well for three days when carefully treated, or does it soften, become stringy in the center, darken, or develop bad flavor or odor?

Total—100 points.

Can you make a 100-point loaf of bread?

Our Public Library Is For All People

It is the business of the Library to loan books and help you answer the questions that are puzzling you; in fact, to be a continuation school of knowledge for all tastes and needs and creeds. A public library justifies its existence only to the extent in which its books are used and the value of good books can only be measured by the pleasure and profit derived from them by the individual readers.

"Dead from the neck up," is not a very new expression, not very refined; but you will grant that it is expressive; and you would dislike to feel that anyone could apply it with justice to you. They could not unless you have padlocked your brain and allowed it to become paralyzed through disuse. It is not enough to simply live along for unless you are well informed you become a bore, tiresome to others; even tiresome to yourself.

Books that are worth while, books with ideas in them well expressed, not only interest and amuse, but open up new subjects for thinking and discussion. If you desire to keep pace with the onward movement of the world, you must read and read the best; borrow the brains of the Best Writers and make their thoughts your thoughts.

The Library Board is endeavoring to place books in the Library that will render the greatest good to the greatest number and to supply the patrons with a class of reading that will be helpful and inspiring. A file of the latest Government Bulletins is being perfected, also reference work on Child Welfare and Home Economics. Reports and information on Vocational training will be interesting to those who are planning their future life work.

A number of new books ready for circulation, as follows:

The Undying Fire, by H. G. Wells, is a book for thoughtful readers.

Four Horsemen of the Apocalypse, by V. Blasco Ibañez, the one great interpretation of the World War.

Victorious, by Reginald W. Kauffman, a noted War-correspondent's novel of the war.

The Indian Drum, by William MacHarg and Edwin Balmer, a mystery story based on an Indian Legend of the Great Lakes.

Penny of Top Hill Trail, by Belle K. Maniates, a western story of mystery and humor.

Judith of Blue Lake Ranch, by Jackson Gregory, a story of the Plains Country.

Cornelia, by Lucy Fitch Perkins, story of a girl who would

rather be sorry than safe. A twin sister to Emira Lou.

Rebecca of Sunny-brook Farm, by Kate Douglas Wiggin.

Nedra, Geo. Barr McCutcheon.

Goose Girl, Harold McGrath.

The Long Shadow, B. M. Bower.

The Thoroughbred, Henry Kitchel Webster.

Mary James' Paw, Norman Way.

Re-Creation of Brian Kent by Harold Bell Wright.

The Library is in need of several copies of good current magazines each month, will you help to fill that need by sending in your magazines when you have finished reading them? You will always be welcome at the Library rooms in the Courthouse basement on Thursday and Saturday afternoons from 3 to 6 o'clock. The Library belongs to you so won't you help to make it what you want it to be in the life of your community.—The Library Board.

Call and see our line of new fall hats. 30-1t Mrs. T. N. Heifner.

Panhandle Exhibit At Dallas State Fair

The Brand is in receipt of a letter from F. R. Jamison, Secretary of the Panhandle-Plains Chamber of Commerce at Amarillo, urging this county to join other Panhandle counties in sending an exhibit to the Dallas State Fair. This question will doubtless be taken up by the local Fair Committee in the near future. The letter follows:

"We are undertaking to arrange an all Panhandle exhibit at the Dallas State Fair of which it was remarked by Mr. W. H. Stratton, Secretary of that great institution: 'the exhibit as you have planned it should certainly be a splendid one and be of inestimable value to the great Panhandle of our country.' The Panhandle-Plains Chamber of Commerce will reserve the space and do all the work necessary to make this exhibit the most attractive on the grounds and to contribute in a most valuable manner to the section of the State which we have the honor to represent. You will please be informed that the individuality of your county will not be lost, while it is desired to have all of the Panhandle counties who will enter the section of the building in connection with other Panhandle counties so that the county to another will form the great exhibit, with each individual unit properly placed and significantly signed. This will admit each individual county to compete for the county prizes which are offered and by this cooperative plan we will be able to stage some attractive features which will assure us greater attention and a better showing in the Fair.

"Now we want you to take charge of this if you have time to do it, if not, will you appoint someone who will take this matter up and see that the best selections are made from the products of your county, these to be shipped by your county to Dallas to be placed in your showing: It is desired that each county furnish a man to take care of their exhibits through the Fair: However, if it is not possible or practical to do that, this Association will take care of the exhibit for such county and see that it is given proper and efficient representation. There will be no expense to the unit county, except

the collection of this exhibit, its transportation to Dallas, and placing it in this connection and it is earnestly hoped by this Association that each and every one in the Panhandle and plains country will participate in this great State Fair.

"The 'Panhandle Day' has been designated as October 15, and we will have some remarks to make upon this topic later on but the all-important thing at the present time is the determination whether or not your county will be represented in this exhibit; so that we may make the proper reservation for it. Please give this matter your immediate attention and if you can take care of the matter personally, it will be a great delight to us. If you cannot, then will you please secure some one who will do this work and advise us who he is and what we may do to assist him!"

Vega Barbecue

The date of the Citizens Barbecue has not been definitely set at this time but will be done soon, keep a look-out for same. But it will be either the last part of August or the early part of September. According to what seems to be the slackest work time of the various communities of the County.

This is an Oldham County Trade-Territory affair as far as the giving of same is concerned, and arrangements are being made where every person in the County can contribute their mite and feel that they have a part in same. The committees will be appointed in the various precincts and will give all a chance to contribute a small amount, and it will not take but a small amount from anyone. We do not expect to advertise so widely as had been arranged for for the former affair, and while anyone who wants to come will be welcome, yet we will expect it to be more of an Oldham County affair for the boys who went to war service from any trade territory of the County or any other soldier boys who may be near enough to be able to come and be with us. Understand that while it is not expected to be as big an affair as originally planned, yet it will be just as enthusiastic in our expression of appreciation to the boys as though all of Texas was here.

REX TYNES' MOTHER DIES.

Mrs. J. M. Tynes, aged 59, mother of Rex Tynes, of the Corner Drug Store, died at her home in Franklin, Texas, last Saturday, and was buried at Franklin on Sunday.

Mrs. Tynes had been in bad health for a long time, and her death was not entirely unexpected. Rex was advised by wire last Friday of her serious condition, and immediately hurried to Amarillo and caught the Denver train south, but due to bad connections arrived after his mother had passed away. He returned to Hereford Wednesday.

The Brand joins Mr. Tynes' host of friends and acquaintances in extending sympathy in his hour of sorrow.

CONVERSATION PARTY

Honoring her guests, Mrs. Slaughter, of Van Alstyne, Texas, and Mrs. Young, of Sherman, Texas, Mrs. J. Frank Potts was at home to a number of friends, in a most unique manner, on Friday morning, May 15th.

Progressive Conversation was the source of much fun and pleasure. The guests gathered around labelled tables, discussed such interesting subjects as "Oil," "Hay-fever" and even the fall styles.

A combination word contest ended the morning pleasure and the "Talkers" were served a tempting ice course.

Y. P. M. S.

The Y. P. M. S. met at the home of Mrs. T. A. Hill, Monday, August 11th, with Jewel Porter, hostess.

After devotional the young peoples work was received and plans were made for the meeting at the church, Wednesday, August 20th.

After the benediction the hostess served delicious ice cream and cake.

Ordinance No. 68

requires occupants of premises to remove therefrom all weeds, and from the streets, sidewalks, gutters and alleys adjoining. Any refusal to do so after having been notified by the City Marshall to do so shall constitute a misdemeanor, and on conviction thereof shall be punished by a fine of not less than five dollars.

B. A. Witherspoon, City Marshall.

GET RESULTS

Stock Salesmen have easy sailing with the aid of our "Short Course" in Salesmanship with Objection Chart, just compiled and off the press. A limited number of copies are being given away free to introduce them to Stock Salesmen only.

Free to Stock Salesmen Only

The use of selling motives explained convincingly and thoroughly. Build up a perfect new canvass without delay, trouble or worry. No more stumbling, stuttering or pausing to think. One hour's time makes you a high-pressure "close-contact" salesman that gets results.

Quit being a maker of prospects, entertainer and advance man for the "other fellow" that knows how. Carried in pocket, ready for reference when "stumped" and help is needed to analyze your failure.

Stock Salesmen only write, stating what stock you are now selling or have sold. A limited number of copies only. Act now. Free for the asking.

Baptists Announce Quota of \$94,150 for Deaf Smith and Five Other Counties

In the Baptist \$16,000,000 campaign in Texas, the county quota of Bailey, Farmer, Castro, Swisher, Randall, Deaf Smith and Armstrong has been announced as \$94,150.

The \$16,000,000 to be raised by the Baptists of Texas for the five year program of the Southern Baptists \$75,000,000 drive has been apportioned by the campaign directors through the 18 State districts, 120 Texas Baptist associations and counties. Individual church apportionments will be made from the county quotas.

August is being devoted to Information, September to Intercession, October to Enrollment, November to Stewardship and actual campaigning "Victory Week" November 30th to December 8th.

According to Dr. F. S. Groner, State Campaign Director, the organization is rapidly being completed, and it is thought the full organization will be perfected within the next few weeks. The major portion of the campaign will be conducted through the Baptist Standard, the churches' official organ, and much stress is being placed on greatly enlarging the circulation of this paper. Efforts are being made to place the Baptist Standard in every Baptist home in the State.

The county quotas above announced cover amount to be raised in pledges and subscriptions for the next five years.

TOURISTS HURT

Tourists on their way from Ft. Worth, their home, to Denver, met an accident Sunday afternoon when the Dodge car driven by Mrs. Simpson, turned over and completely around, and when it stopped was sitting right side up and facing the opposite direction from the way they were going.

The occupants, Mr. Simpson, an insurance agent and wife and small son, Miss Henry, Mrs. Cowan and her small son, Mrs. Simpson who was taken to the Sanitarium, has a fracture at the base of the skull and has never regained consciousness and her condition is serious. Their little boy has a broken foot and other slight injuries.

Miss Henry, who is also at the Sanitarium has a fractured jaw and otherwise injured and bruised. Mrs. Cowan and her little boy each are bruised about the head and face but nothing serious.

This accident happened on the Hartley road near Twist in almost exactly the same place that the Premier car turned over with the B. F. Milton family of Duncan, Oklahoma, about a week ago.

—Dalhart Texan.

THE DEEPEST WELL IN THE WORLD

The deepest drilling in Texas for oil is near Polytechnic College, Fort Worth. This well is now at a depth of over 4,700 feet. The contract is for a 5,000 foot well unless oil or gas is found at a lesser depth. But a well is being drilled at Clarksburg, Pennsylvania, which is said to be the deepest well in the world.

Oil and gas men throught Pennsylvania are deeply interested in the progress of this deep well, which is being drilled on the Goff farm, at Clarksburg. This well, which is now the deepest in the world, has reached a depth of 7,363 feet, but not a sign of oil or gas has been found. The drillers are still at work, the owners having sufficient cable and power, as well as tools, for further drilling.

The second deepest well in the world is located at McDonald, Pennsylvania, and was not abandoned until the owners had spent a fortune and the drill showed a depth of 7,248 feet. It required almost three years to drill this well, and had materials not been so scarcely and costly last year it is doubtful if the owners would have given up the venture.

The Hope Oil Company, which recently completed a well in the Walker district, Wood County West Virginia, are seeking a location for a deep test well, and should no oil or gas be found it is certain to cost the company a vast amount of money, as they are going to drill the well as deep as drillers can go. The well the company drilled in West Virginia went down 4,597 feet, two years being required to drill the well. At the latter depth the well started to flow oil at a rate of eight to ten barrels daily, but in addition it showed salt water production of about 300 barrels.—Canadian Record.

NOT THE ONLY ONE

There Are Other Hereford People Similarly Situated.

Can there be any stronger proof offered than the evidence of Hereford residents? After you have read the following, quietly answer the question.

H. R. Patterson, salesman, Hereford, says: "About three years ago my back and kidneys caused me trouble. My back was in bad shape and ached almost all the time. When I stooped over a sharp catching pain would dart through my back and shoulders. Mornings when I first got up my back was lame, sore and stiff and I could hardly straighten. My kidneys also acted too frequently especially at night. I saw Doan's Kidney Pills advertised and bought two boxes. Before I had used them long, I was greatly relieved and three boxes of this remedy entirely cured me of kidney trouble."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Patterson had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Died From Rattlesnake Bite

Sometime Monday Alma, the 9-year-old daughter of Mr. and Mrs. L. F. Kindle of Lonie community, was bitten by a rattlesnake and she died from the effects of same Monday night. Medical aid was summoned but the poison had gained such headway that death was the result.—Childress Post.

TREATMENT FOR DISEASES COMMON AMONG FOWLS

All diseased birds should be isolated.

Colds and roup.—Disinfect the drinking water as follows: To each gallon of water add one tablespoon of sodium sulphite or as much potassium permanganate as will remain on the surface of a dime.

Chicken pox.—Put a touch of iodine on each sore and apply carbolated vaseline.

Gapes.—Fresh ground and vigorous cultivation will often remedy this trouble, which is caused by small gapeworms that live in the soil and attach themselves to the inside of the throat.

Diarrhea in hens.—Low-grade flour or middlings is good for this trouble. A teaspoonful of castor oil containing five drops of oil of turpentine to each fowl is also good.

Bumblefoot.—When the feet are badly swollen, a small cut should be made with a clean, sharp knife and the pus removed. Wash the wound out with equal parts of hydrogen peroxide and water, grease with vaseline, and bandage.

Limberneck.—A teaspoonful of castor oil given to the fowl will sometimes effect a cure.

Scaly legs.—Apply vaseline containing 2 per cent of creolin to the affected parts and after 24 hours soak in warm, soapy water. Repeat treatment until cured.

For a detailed discussion of the

fore-going and other poultry diseases, request Farmers' Bulletin 957, "Important Poultry Diseases," from the United States Department of Agriculture.

All the little people are invited to come and enjoy our Sunbeam band and each Sunday afternoon here will be another story telling hour for all the little folks that are too small to take part in the program.

Report of Circle Number Three.

Mrs. Brazil opened her beautiful home to the Circle last Wednesday, and as each one arrived welcomed her in her happy, hospitable way.

After the song: "I'll go where You want me to go," accompanied by Mrs. J. M. Gilliland, Mother LeGrand made an earnest prayer, in which the absent were remembered.

Mrs. Tubb led the devotional by reading the seventh chap. of Matt. "Judge not, that ye be not judged." A selection so suited to our needs and previous resolutions.

Mrs. Gililand had the lesson so well prepared it was like a spiritual feast, where each one received the food most helpful to her. A round table of questions and discussions followed which everyone enjoyed extremely.

We certainly were glad to have Mrs. Connell with us again after her long absence.

Mr. Tubb's mother was our visitor and added to our enjoyment by taking part in our lesson.

There was an interesting business session. Personal service was planned also a review of the resolutions. Instead of sending flowers to Mrs. Bourn, on the occasion of her daughter's marriage, The Circle sent the "Baptist Standard."

In Mrs. Connell's closing prayer, she not only invoked blessing on the work, but also to go with us to our homes and make us better christians, better neighbors and better mothers.

Mr. and Mrs. Fred Fuqua kindly helped with their car.

JOSEPH TUGGLE DEAD

Joseph Tuggle of Grady died in Clovis last Friday and the remains were carried there for burial Friday, the funeral services being conducted by Rev. Redmon, pastor of the Methodist Church at Clovis. Mr. Tuggle was 78 years of age.

LABOR DAY CELEBRATION

The various labor organizations of Clovis are planning a big program for Labor Day on the First Monday in September. The complete program will be finished soon and will be furnished the public. It will be the greatest celebration organized labor has ever had in Clovis.

THE OAKLAND

SENSIBLE SIX TOURING CAR

On the firm foundation of its service record in the hands of upwards of 100,000 owners, rests the fact that this Oakland Sensible Six Touring model costs less to own, operate and maintain than any other automobile built.

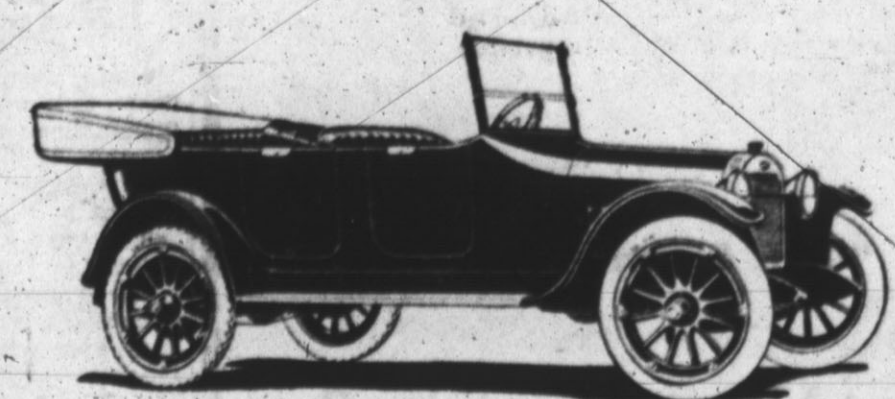

HIGH POWER AND LIGHT WEIGHT—As a foremost example of the high-powered, light-weight type of automobile construction now deeply entrenched in popular favor, this Oakland enters its fifth year with all the features of its power plant fully matured and confirmed, with every chassis virtue completely verified and with the stamp of broad approval set upon its stout, roomy and convenient body.

and ease that betokens inherent and lasting ability.

SPACIOUS AND EASY RIDING—Careful design has contrived a full 106 inches of body room on the 112-inch wheelbase—an extraordinary proportion. Both front and rear seats are spacious. Ample leg-room is provided in both compartments, making this model entirely comfortable for tall people.

The comfort of this body is increased by the deep upholstery in genuine leather, the slow action of the long semi-elliptic springs and the cushions and the cushion effect produced by the large tires.

By reason of the fact that the ratio of its horsepower to the pounds of this car's weight is 1 to 48, it acts with an alacrity

SAFETY SERVICE SECURITY

**Nation-Wide Campaign
For Red Cross Nov. 3**

Plans for a nation-wide Red Cross campaign opening Monday, November 3, and closing Armistice Day, November 11, have been formally announced by Dr. Livingston Farrand, chairman of the executive committee of the American Red Cross. The primary object of the campaign, which will be known as the Third Red Cross Roll Call, will be to enroll members for 1920 but there will be in addition a general appeal for \$15,000,000 to enable the organization to complete its war obligations at home and abroad. There will also be local appeals, where necessary, conducted by the Chapters, to secure funds needed for local programs.

During the war there were two annual Red Cross campaigns, the War Fund Drive in the late spring and a Christmas Roll Call for membership. The only campaign this year will be the one in November and in succeeding years there will be only an annual Roll Call in which the Red Cross will seek the re-affirmed allegiance of the American people expressed in dollar memberships. The money so derived will be used for American purposes and the approval thus received is to be regarded as a mandate to carry on future programs.

"The first task of the American Red Cross is, of course, to complete its obligations to American soldiers and sailors", said Dr. Farrand in announcing the program. "The organization plans, as its future policy, to concentrate its efforts upon peace problems at home, unless America should again be involved in war or confronted by great disasters creating special emergencies."

"The Red Cross programs are primarily within the field of public health and will aim particularly at co-operation with official activity, federal, state and local. The Red Cross will seek not to duplicate the work of established organizations, but will endeavor to supplement other agencies where they already exist or to stimulate and organize work where none exists."

The tremendous task of the American Red Cross in the war has, however, left a continuing obligation which cannot be fulfilled for some months to come, Dr. Farrand stated. In an amendment to the Army Bill, Congress has prolonged the responsibility of the Red Cross abroad by authorizing Secretary of War Baker to transfer to the Red Cross such medical and surgical supplies and supplementary and dietary foodstuffs now in Europe as is not needed by the Army abroad or at home "to be used by the American Red Cross to relieve and supply the pressing needs of the countries involved in the late war."

Inventories of these supplies are now being made. To them will be added such material as the American Red Cross itself has in Europe and these will be distributed in the

countries where the organization is concluding its war relief program and where, because of the ravages of war, famine and epidemic, the distress is most pronounced, as in the Balkans, Poland and other Eastern European countries. To meet these obligations and administer this foreign relief the Red Cross must raise at this time a fund of \$15,000,000, Dr. Farrand stated.

"The Red Cross authorities realize that the astonishing generosity of the American people during the war and the present high cost of living at home might legitimately lead many to expect a release from further demands for assistance to other peoples," continued Dr. Farrand, "but we must remember that our Allies were much harder hit by the war than we were and that we have incurred obligations to them which honor demands shall be discharged. In naming the sum of \$15,000,000, the Red Cross has tried to determine the smallest amount which will enable it to round out its work and make effective the appropriation of Army goods rather than to estimate the generosity of the American people."

"It is believed that the end of our foreign obligations is in sight and, accordingly, the Red Cross is turning its chief attention and energy to the development of a clearly defined home program, which already includes systematic preparedness for Disaster Relief, a widespread Nursing Plan, continuing Home Service operations, First Aid instruction, and a Junior Red Cross program, all of which will depend for their success upon large and vigorous Chapters. For these reasons, the enrollment of members is the chief purpose of the November campaign. It is the primary ambition of the American Red Cross to be of service to Americans."

**Uncle Sam Prepares
For Tremendous Job
of Taking Census**

Preparations are being made for the Fourteenth census of the United States to be taken in 1920. Directors of this work are being appointed all over the United States.

Texas is divided into eighteen districts, Deaf Smith county being included in the eighteenth district, with Jas. A. Hübner, of Shamrock, Texas, as director for the District. The following counties compose the district: Armstrong, Bailey, Borden, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Fisher, Floyd, Foard, Gaines, Garza, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Hutchinson, Kent, King, Knox, Lamb, Lipscomb, Lubbock, Lynn, Moore, Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Scurry, Sherman, Stonewall, Swisher, Terry, Wheeler and Yoakum (53 counties). Population (1910) 203,679.

**MEXICO WILL EXHIBIT
AT THE VICTORY FAIR**

INVITATION EXTENDED BY DIRECTORS THRU CONSUL FLORES ACCEPTED BY PRES. CARRANZA.

The Republic of Mexico, for the first time in history, will make an official Government exhibition at the Victory Fair.

Mexican Consul Flores, of Ft. Worth and Dallas and W. H. Stratton, Secretary State Fair of Texas, originated the idea, Signor Albino R. Nuncio, of the Mexican Industrial, Commercial & Labor Department, made a trip all the way from the City of Mexico to Dallas, a few days ago to complete arrangements. Signor Nuncio is an expert in preparing displays for exhibitions. He had charge of the Mexican Government's exhibition at the Pan-American Exposition at Buffalo, N. Y. and at the Panama-Pacific Exposition at San Francisco, California.

The display at the Victory Fair will consist of agricultural, industrial, official, and artistic exhibits. Pottery, Indian Blankets and wicker-ware are among the commodities, in many different sizes, color combinations and unique designs that are made by the Mexicans and the Indians of Mexico, that will be shown.

The Dallas Trade Trippers, who visited Mexico recently, inspected their national museum of commercial and industrial arts. They are filled with admiration for the many interesting and handsome articles they saw there. Many of these, together with a famous Mexican art loan collection, it is planned, will be shown at the Victory Fair at Dallas in October.

One, or more, of their excellent Police, or Army Bands, may come. Secretary Stratton has sent a special request of this nature to President Carranza.

Twenty thousand square feet of floor space have been set aside for the Mexican Government exhibition. Advances have been received that thousands of representative Mexicans will attend the Fair. At this time an immense amount of business can be transacted between Mexicans and Texans and many cordial personal friendships will then be made.

**HORACE GOLDIN, MAGICIAN
STAR FOR VICTORY FAIR**

WITH COMPANY OF ORIENTAL MYSTICS WILL MYSTIFY COLISEUM AUDIENCES.

Horace Goldin, Master-Magician, Illusionist, and Inventor of Legerdemain, with his company of Oriental Mystics, will be a star coliseum attraction at the Victory Fair at Dallas in October.

Goldin presents some of the most mystifying spectacular illusions ever seen anywhere. He himself is a "whole show of whirlwind magic."

A beautiful maiden walks through a big plate glass mirror—Goldin disappears from a wicker basket suspended from an airplane—a dainty damsel appears to be torn to shreds by a raging tiger, only to walk forth presently unharmed. Goldin climbs a rope dangling from nowhere, until he disappears into—nowhere. These, and many other tricks which appear to defy all the laws of nature and of mechanics, will be presented by Goldin, the Royal Russian Magician & Company.

**GIANT SEARCHLIGHTS WILL
ILLUMINATE VICTORY FAIR**

THREE HIGH POWERED LIGHTS MADE FOR RUSSIAN GOVERNMENT SECURED.

Three immense electric Searchlights, that will prove a revelation in illuminating possibilities, have been secured for the Victory Fair. These were obtained through the co-operation of J. F. Strickland, President, and J. W. Carpenter, Vice President, Dallas Light & Power Company.

The combined strength of these searchlights is 6,500,000 candlepower. They were procured in Chicago where they were originally made for the Russian Government prior to the revolution in that country, but were never shipped there. The additional light will be found a great convenience and protection to the visitors. Light is emblematic of progress and knowledge and these giant searchlights will be especially appropriate for the Victory Fair at Dallas in October.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

The New Mazda C-4 Lamp

Latest Lighting Achievement

In appearance the MAZDA C-4 is strikingly different from any lamp now on the market. The bulb is made of white glass of a peculiar opalescence. Instead of being transparent, like the standard lamp, the glass of the gas-filled MAZDA C-4 is seemingly opaque. But when the current passes through the filament, the lamp emits a brilliant yet glareless, soft and ideally-diffused light which is unlike that produced by any other lamp.

Oil Fever Rising in Donley County

Each passing day sees the organization of new local and foreign companies for operation in the Donley oil fields. A Clarendon company that has recently drawn up articles of incorporation is the Riverside Oil and Gas Company. They hold six-thousand acres north and west of Clarendon and are capitalized for \$85,000, \$10 par. The drilling contract which has been let to A. R. Sturgeon calls for a 3000 foot hole.

Leo Spring, manager of the Spring Advertising Company, has contracted to handle the complete advertising campaign for the Gray county oil company. This company, according to Mr. Spring owns 7,240 acres in the north-east portion of Donley county and the south-east corner of Gray county with offices at McLean. Their drilling contract calls for operations before the first of January. Their capital is \$98,000.

The Home People's is drilling at about 800 feet. This test is near Deep Lake in Hall county south of Clarendon. The Buck Creek and Don Lea companies are awaiting casing. Lelia Lake is drilling near 800 feet in a blue shale.

Announcement was made here today by the Giant Oil Company that a contract had been let to the Taylor Building Company of Fort Worth for the erection of the derrick on their No. 1 well upon the 8500 acres which the company will explore in Donley and Hall counties.

That the Panhandle field has gas is proved by the fact that several wells have come in with paying quantities, and the development of this part of the territory is only a matter of time.

Mrs. E. E. Allen and son, of Hereford, were visitors on August 4th at the big exhibit of the Southern California products maintained free to the public in the Los Angeles Chamber of Commerce. They also attended the lectures and moving pictures that are a part of the daily program. The exhibit is the largest of any in the country maintained by a commercial organization.

Before returning home, they expect to visit several of the many other places of interest in the southland.

LUBBOCK SHEEP ARE INCREASING RAPIDLY

W. M. Haddock, County Sheep inspector, has just completed an inspection and his records show that he has inspected this year 25,561 sheep, which shows an increase over last year of nearly 8,000 head.

Mr. Haddock says that this increase is from the natural increase of the flocks in the county as there has been none brought to the county from elsewhere. This number of sheep are owned by thirty one parties, and there is a growing demand for more sheep this year. A number of farmers will likely add a few hundred head to their stock farm this year.

Mr. Haddock says the sheep in this county are entirely free from disease as far as he can determine, except one herd which he says has a few lambs affected with what he says is the stomach worm, and proves fatal in many cases.—Lubbock Avalanche.

NEGRO SHOOTING SCRAPE

According to the Clovis News, Doc Howard and Ben Watts, both negroes, engaged in a shooting scrape last Tuesday with the results that Watts is dead and Howard has a gun shot wound in his right side. Several of the negroes in Clovis, says The News, have been engaging in their favorite past time of shooting craps during the past few days previous to the fracas, and the quarrel resulted over a division of the spoils of the game. It seems that the two men had been quarreling in the forenoon and when they met about noon Tuesday, the shooting occurred.

Watts, or "Big Boy" as he is called in Clovis, used a Harrington & Richardson 38, while Howard shot with an automatic. The live negro claims to have been shot before he pulled his gun. Watts' pistol contained three empty shells and the other negro says he fired twice. One of these shots struck Watts in the abdomen and severed an artery from which death occurred shortly afterward. The negro before falling ran about a block. The other one whose wound is only slight walked to his home several blocks away, where he was placed under arrest. He will recover from effects of the wound.

Doc Howard has been in Clovis for several months and is porter at the Sanitary Barber Shop. Watts had been there only a few weeks. Both negroes have served in the army.

We will buy your Vendor's lien notes. 11-14 Baskin Abstract & Title Co.

LIVE STOCK SPECIALS NUMEROUS THIS YEAR

PRESIDENT SIMPSON GRATIFIED AT WIDESPREAD INTEREST SHOWN IN STATE FAIR AT DALLAS.

President Jno. N. Simpson, of the State Fair of Texas, has received advice that a number of new special premiums will be awarded to Live Stock raisers at the Victory Fair at Dallas in October.

These will be in addition to the \$60,000.00 in cash premiums offered by the State Fair itself, and will make the aggregate cash premiums available for the Victory Fair the largest ever offered by any Fair in the country.

Swift & Company, as evidence of their desire to promote live stock improvement in Texas, have donated \$1,000.00 for special premiums. This amount will be divided as follows: Champion Hereford Steer \$150.00; Champion Shorthorn Steer \$150.00; Champion Aberdeen-Angus Steer \$150.00; Champion Red Polled Steer \$150.00; Grand Champion Steer \$150.00; Barrows, all breeds \$125.00; Mutton Sheep, \$125.00.

All entries competing for the Swift swine premiums are to be fed sixty days before the opening of the Fair, Oct. 6th, on rations balanced with Swift's Digestor Tankage.

Armstrong Packing Company, "The Pioneer Packers of Texas," Dallas, offers \$120.00 in cash premiums for Champion Barrows.

J. J. McLain, Anna, Texas, offers \$200.00 in cash premiums for Duroc Jerseys, as follows: For Boars \$57.50; sows \$57.50; litters of pigs \$85.00. The Flowerdale Farm, offers \$50.00 for the Grand Champion Barrow, (any breed) of the Show.

"THE GARDEN OF FOLLIES" HEADLINER AT VICTORY FAIR

MAGNIFICENT NEW YORK MUSICAL REVIEW SECURED BY SECRETARY STRATTON.

"The Garden of Follies," New York's best word in scintillating, spectacular, Musical Extravaganza, will be a headliner amusement attraction in the coliseum at the Victory Fair at Dallas in October.

This was secured in person by Secretary Stratton during his recent visit to the East. Visions of the Winter Garden, or of Broadway in 1919, will float before the eyes of the beholder of this beautiful production.

Oodles of pretty girls, captivating music, magnificent scenery, "dreamy" costumes, and a "cob-webby" plot, delightfully intertwined, make up the production.

Grace, beauty and wit will abound in "The Garden of Follies."

VICTORY FAIR AUTO SHOW WILL BE BRILLIANT EVENT

TRUCKS, TRAILERS AND TRACTORS WILL ALSO BE SHOWN IN GREAT PROFUSION.

A Palace of Pleasure Cars, vast fleets of sturdy Trucks, and trainloads of Tractors and Trailers will be exhibited at the Victory Fair at Dallas in October.

The 1920 models, in many makes of sedans, touring cars, limousines, sport models, and runabouts, evidencing all the latest ideas in speed, endurance, beauty and comfort, will be shown.

Trucks, hundreds of makes, in many sizes, and suitable for all hauling needs on the farm, in the city or town, or anywhere else that time and labor-saving transportation is needed, will be there.

Tractors, the farm power plant on wheels—that make all farm tasks easy, will be demonstrated.

So many trucks will be shown that a new building had to be erected to house them. This will be a substantial frame building 50x400 feet, and will cost \$7,500.00. In the center will be a beautiful art-fountain. Both the automobile and trucks building will be artistically decorated and the lighting effects provided at an additional cost of \$3,500.00, will be very novel.

It is proposed to make the new truck building a community social center, where you can come and meet your friends and have a real good time. An orchestra will be provided, and there will be dancing every day and every evening. The Dallas Automobile Trades Association is co-operating with the State Fair management to make the Auto Show at the Victory Fair an event long to be remembered.

SANITARIUM STARTED

Work has been commenced on the Baptist Sanitarium at Clovis. It is located on Prince street, where a nice site has been selected. Owing to labor conditions it will probably be three or four months before the building is completed, but when it is finished it will be a building Clovis will be proud of.

Mining in Texas in 1919.

During the first six months of 1919 the Presidio mine at Shafter, Tex., and other properties in Western Texas have been producing at the rate of 590,000 ounces of silver a year.

"Minor Troubles" of a County Agent.

A county agent in one of the Eastern States believes in diversified activities. He reports as follows for one month's work: "Burnt up 90 gallons of gasoline,

5 quarts of oil, had 6 punctures and one blow-out. Trailer broke away and upset load; pig fell out of the car and was caught with difficulty, afterwards jumped from sty and was run over by an auto. Buried three pigs with all the profits and lost \$28 besides. Tore best trousers, getting over pasture fence; broke watch crystal loading corn planter; but outside of a few minor troubles had a very satisfactory month's work."

Jellies and jams save butter and taste mighty good any day in the year. A wise housekeeper has plenty of them in her preserve closet.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILLI TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Parents will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

LET THE LITTLE FORDSON DO YOUR WORK

A test of the Fordson Tractor was made at Wichita, Kansas. The test was crowding a seasons work into thirty days. The test was begun on June 16th and on July 12 the Tractor had cut 220 acres of wheat; dragged 44 miles of road; plowed over 100 acres of land; plowed, disced and planted 8-acres of cane; to say nothing of cutting feed, sawing wood and other farm work. The Tractor was run day and night the engine not being permitted to stop more than five minutes during the entire time.

Kitchen Economy

means to save time, steps and work, as well as food. And if you are anxious to do so you should arrange your kitchen as more than a million other women have done by installing the HOOSIER KITCHEN CABINET.

This is an actual labor-saving machine—not merely a place for storage. It has 40 labor-saving features. Its scientific arrangement results from thousands of experiments. The most used articles are nearest at hand. You sit instead of stand—you reach instead of walk.

The HOOSIER makes play of kitchen tasks. HOOSIER prices range from \$37.50 to \$55.00, and you pay as convenient. Your money back if you are not delighted.
