SIGHTS, FACES SEEN

Mr. and Mrs. G. C. Hampton and family left this week for Alabama. Mr. Hampton plans to work in the Ford plant in Detroit. They lived in the county for the past 14 months, working on the Lucher Leslie place.

Toastmasters club held their regular weekly meeting in the form of a family picnic Monday night at Jovona park.

Tall stories told by the members and their wives provided entertainment for the evening. Urlin Streu led the group singing afterward.

Mrs. Tommy Crone won a \$40 down payment on a standard sewing machine in a recent contest.

The meeting of the Hereford Cemetery association scheduled to be held Tuesday night, was called off. It will be re-scheduled at a later date.

Scholarships to Texas A&M college were presented to 65 more high school graduates this month. All will enter A&M in September with scholarships from \$200 to \$600 with the opportunity to earn the rest of their education cost at student jobs.

Any person who came to the Panhandle before January 1, 1947, is invited to attend the Swisher County Picnic on Tuesday, July 17th, and be a special guest.

Grain Sorghum Loan Rate For Coming Year is \$2.09

The 1951 farm-stored loan rate for grain sorghum is \$2.09, according to information received Tuesday in the office of Deaf Smith PMA Secretary Faust Collier.

Those summoned include: E. F. Byrd, Elmer Carlson, Ben Childers, J. C. Cocanougher, Roy Manning, F. J. Walter, T. J. Clay, Frank A. Gyles, E. W. Graham, Weldon

Gas Rate Increase Must Be OK'd by Each Town Served

The West Texas Gas company's request for an approximate 14% increase in rates must be presented to each of the towns it serves for individual approval, the Texas Railroad Commission told the company Tuesday.

Local action on the rate increase request has not yet been taken. C. I. Wall, president of the firm, stated in his request for a rate raise that ever-increas-

Potato Harvest in Full Swing; All Sheds Open

As of this morning, all the potato-processing sheds in Hereford are operating as harvest on what has been called a "very satisfactory" crop enters its second week.

According to reports from the potato sheds, the yield is running from 150 to 225 sacks per acre. The quality of the spuds and the yield are described as better than last year.

This, with a higher market at the present time, bears out one processor's view of a "good year for the potato growers for the amount of acreage they have."

Present market for the Hereford spuds, which are now being shipped over the entire United States, is from \$3.50 to \$4 per sack.

The only fly in the ointment, in the eyes of local processors, is the labor situation, which might tighten up considerably by next week. Some fear that cotton-chopping operations south of here might drain off the available labor supply and put the crimp on local harvesting operations.

Associated Growers — Made trial run Friday evening. Started processing Monday evening. Has shipped about 20 cars so far. Will harvest about 1000 acres. Yield from 150-200 sacks per acre. Market good. Thirty-five in sheds, 80-125 in field crews.

Jones and Peters — Began processing Monday afternoon, harvesting 110 acres on Joe Peters farm north of Hereford. Shipped about six cars through Tuesday night. No check on yield. Quality of first run of spuds not good, but running

better as harvest progresses. Will be at full capacity Thursday with 150-200 in fields and 60 in sheds. Market still strong. Better than normal crop. Not too sure of labor supply.

Howard Gault — Began operations Thursday morning. Expect to be swamped from there on. Will start on Mac Noland farm, open up on own field Friday. Then work on Jake Moore and Virgil Hennen crops. No labor trouble foreseen. Quality as "fine as one could ask with yield satisfactory to good."

J. K. Baker — Ran test Tuesday. Started Thursday morning on 110 acres south of Hereford. Market and yield good. Will have 45 in field, 25 in shed.

Fred F. Barrett and Son — Start Thursday, swing into full production next Monday. Processing for Frank Knabe and will start on own field Monday. Outlook is good. Will employ 70 in field, 30 in shed.

CofC Seeks Entomologist To Assist County Agent

The Hereford Chamber of Commerce has been approached by many farmers in the county during recent weeks, says Secretary-Manager Tom McFarland, pointing out the necessity for an entomologist for the county who can also serve as assistant to the county agent.

"It has been pointed out to us by a certain individual in the U.S. Extension service," McFarland said, "that we are the largest county in the Panhandle of Texas in total acres under cultivation and by far the most diversified as far as agricultural products go. Also, in that gentleman's opinion, we are one

Stanfield Rites Held Tuesday at Avenue Baptist

Funeral services were held at 5 p.m. Monday afternoon for John Stanfield, 13-year-old son of Mr. and Mrs. H. B. Stanfield at the Avenue Baptist church with Rev. Fields in charge.

The youth suffered severe head injuries Saturday afternoon when he was knocked from the Tierra Blanca bridge south of town by a passing combine on a flat bed truck. He died Sunday at the Amarillo air terminal where he was to leave for Dallas where he was to be treated by a brain specialist.

Stanfield was born October 31, 1937 in Lamesa and moved to Hereford with his family in 1944.

In addition to his parents, he is survived by two brothers, Eugene who is stationed with the army at Alamogordo and Jerry who is stationed at San Antonio; one sister Doris of Hereford; his paternal grandfather, John Stanfield of Kaufman, and his maternal grandmother, Mrs. Walter Brasher of Hale Center.

Packer Seeks Pea Acreage in County

The possibility of planting additional money crops for Deaf Smith county farmers who have lost crops to weather, was advanced this week in a letter sent by a Plainview cannery to the Hereford Chamber of Commerce, local banks, county agricultural agencies, and The Hereford Brand.

In the letter, the Plainview firm urged local producers to explore the possibilities of planting tomatoes, pinto beans, blackeye, cream, and brown chowder peas.

In particular, the firm expressed interest in local planting of peas, stating that they could be harvested within 60 days of planting and would be a good fill-in crop for crops already destroyed by weather.

retary-manager Tom McFarland said that if interest in the proposition warranted it, he would arrange a meeting and have a representative of Plainview Foods, Inc. meet with farmers in this area in the near future.

Ashley, Mixon, president of the firm, said his company has developed an unlimited outlet over the past 10 years for the crops mentioned. They have grown from a five-car shipment of canned tomatoes in 1942 to 100 carloads of black-eyed peas in 1950.

The firm furnishes the seed on a cost basis and never ties the farmer, Mixon related, to a fixed price contract as markets have usually been higher at harvest time than at planting time.

"We find we get a much better quality and a heavier yield

from plantings through June and July than earlier plantings," Mixon said, because the crop is free from weeds and requires less irrigation.

"The farmers who have lost their cotton, in my opinion," Mixon continued, "cannot plant a better cash crop at this time than peas, as they are one of the best legumes to be found and it is by far the cheapest method yet found for rebuilding the land."

McFarland intimated that the Chamber of Commerce would adopt a "wait and see" attitude on this proposition, but did state his office would cooperate in every way possible with local farmers interested in learning more about the project.

Further information on this will be available through the Chamber of Commerce office.

Three Hurt in Auto Wreck in Oklahoma

Three Hereford residents are hospitalized at Johnson hospital in Afton, Okla. with injuries suffered when the car in which they were returning from Atlantic City, N. J. overturned in a ditch on Highway 66, five miles north of Afton.

Hospitalized are: Mrs. Guy Lawrence, Mrs. Ray Cowser and Miss Donna Cowser. Mrs. Lawrence's condition was listed by hospital authorities on Tuesday as serious. They listed the condition of Mrs. Cow-

ert and her daughter both as "fair." Uninjured in the accident were Guy Lawrence, driver of the 1951 Nash, and Ray Cowser.

Hospital authorities list Mrs. Lawrence's injuries as a compression fracture of the vertebrae. Mrs. Cowser suffered a lacerated forehead and shock. Donna Cowser, 17, suffered a torn patella capsule and was in shock following the accident.

Friends here contacted Law-

rence and Cowser by telephone Wednesday and learned that none of the injuries were as serious as believed immediately after the accident.

A cast was to be put on part of Mrs. Lawrence's back Wednesday. She is scheduled to be returned to Hereford Monday by the Gilliland ambulance.

A report of the accident as provided by the Afton American states that the Lawrence auto came up behind a slow-

Precautions Against Polio Listed by Health Officer

No reports of polio have been received in Deaf Smith county as yet, according to the county health officer, Dr. R. R. Willis.

Some localities in this part of the state have begun reporting cases already this summer. Health precautions which will

help toward lessening the danger of polio were listed for The Brand by Dr. Willis. These include:

1. A general clean-up, spraying, avoiding getting into water that is too cold when you are tired, and cleaning up around the home.

Hot weather precautions for general public sanitation were prescribed for residents of the community, this time by City Sanitarian Hollis Rainey. They are:

- 1. Drain garbage and wrap it so that it will not draw flies.
2. Put vacuum sweepings in a tight sack or wrap to keep from blowing. This kind of dust is full of germs.
3. Wash out trash barrel regularly to keep down odors and flies. Also keep lids on barrels.
4. Rinse out foodstuffs from tin cans before discarding.
5. Cut down weeds in alley and surrounding area to prevent mosquito breeding. Empty water from old buckets, cans, and barrels.
6. Use a spray regularly against flies, mosquitoes and other insects.
7. If animals or fowls are kept on premises, be sure to rake up

droppings daily and put in fly-proof container. Then sprinkle lime all around to keep flies away.

PMA Borrowers Grain Sorghum Checks Ready

About \$25,000 is waiting for Deaf Smith county farmers who let the March 31 maturity date pass on their warehouse-stored grain sorghums without paying off the loan, says Faust Collier, county PMA secretary.

That amount is in the county PMA office for 385 farmers who were assured that the Commodity Credit Corporation would pay them the difference between the loan rate and the prevailing market rate as of maturity date.

Borrowers will be notified shortly as to the method of distributing the checks, Collier said.

CONG. ROGERS SAYS

Rogers' Admendment on Mirgant Labor Youth is Knocked Down

The people in the cotton producing sections of the 18th district will remember what happened during harvest season last year when the labor department refused to permit the children of migrant workers to help their parents in the fields. The rigid enforcement of this unfair law resulted in many of the counties having to put these people on their relief rolls forced the children to be at large and roam the streets while their parents were at work, and created many hardships too numerous to mention, both on the workers and the people in the district.

Several of us have introduced bills to cure this situation, but these bills are still in committee. In an effort to speed up this legislation, I offered an amendment to the migrant labor law on Wednesday. I was joined in this amendment by Mr. George Mahon, Mr. Clark Fisher, and Mr. Omar Burleson. The amendment was knocked out on a point of order on the ground that it was not germane to the bill since the bill had to do with imported labor from Mexico, while my amendment was for the purpose of helping citizens of this country. We are continuing the fight to correct this legislation and will not miss an opportunity to bring it up.

I thought you folks would like to know what happened in the House of Representatives when this amendment came up and I will show you the proceedings as they took place in the house and as printed in the Congressional Record.

MR. ROGERS of Texas. Mr. Chairman, I want to urge the adoption of the Poage bill, as it is legislation that will be of great help to the farmers of this nation. The amendment that I offer at this time is offered as a further aid to the farmers and an aid to migrant workers of this country, and for the purpose of correcting an injustice that is now present in existing laws. This injustice that I refer to was brought about by a Senate amendment to the Fair Labor Standards Acts in 1949.

The wording of the amendment operated to prevent and prohibit the employment of the children of these migrant workers. The result is that the migrant workers who are following the harvest in order to earn a living cannot use their children to assist them. In many cases these workers have large families, that is 9, 10, or 12 children. All of these children who are under 16 years of age cannot work in the harvest if school is in session in the district in which they desire to work. This creates a situation where the children of these migrant workers must be left to roam the streets or find something to do while their parents are working in the field. The law does not require them to attend school in these districts but prohibits them from working in those districts while school is in session. My amendment merely provides in effect that these children may work so long as they are not legally required to attend school. It does not in any manner permit anyone to engage in unfair child-labor practices nor condone sweatshop tactics.

I would not under any circumstances assent to an unfair child-labor practices nor in existence of sweatshops. This amendment does not allow a child to do any work that he is not allowed to under the present law. It merely clarifies ambiguous and misleading language now existing in the law that has created a serious problem and will continue to do so.

The migrant worker with a large family who is not allowed to use his family while work is available is forced to appeal to the relief boards in order to provide a living for his family while he is working and following the harvest. This has resulted in a serious social problem, and unless this law is corrected it will operate to contribute to child delinquency and in many cases to crime. The reason that many of you are not familiar with the problems of which I speak is because the enforcement of this law began only last year, and the full force of its bad effects will not be felt until the harvest season of this year.

MR. MAHON. Mr. Chairman, will the gentleman yield?

MR. ROGERS of Texas. I yield.

MR. MAHON. I want to thank the gentleman from Texas and commend him for offering his amendment. It has been my pleasure to collaborate with him in drafting the amendment and in seeking support for it. I wish to urge that

no point of order be made against it. Is it not true that the amendment offered by the gentleman should be incorporated in this bill and, if it is held to be subject to a point of order, should it not be incorporated in a separate bill? With the farm-labor situation as it is, we need not only the Poage bill as written but a provision in some form which would meet the situation described by the gentleman from Texas (Mr. Rogers).

MR. ROGERS of Texas. That is exactly right. The reason this amendment is now offered is that we fear we are fast approaching the harvest season. People in the farming districts all over this county are going to feel the pressure of this matter this year more than they have ever felt before. I urge the adoption of this amendment. Let us put it in this bill, so that the farmer can be helped in harvesting crops and in producing the agricultural products we so badly need.

MR. FISHER. Mr. Chairman, will the gentleman yield?

MR. ROGERS of Texas. I yield to the gentleman from Texas.

MR. FISHER. The amendment offered by the gentleman is absolutely sound, whether it meets the parliamentary situation or not. The gentleman has a bill pending, and so do I and the gentleman who just spoke, Mr. Mahon, before the Committee on Education and Labor now on the same subject. As it now stands, a terrible injustice is being heaped upon the migrant laborers themselves, because they are not permitted to pursue their normal livelihood and accumulate money to buy food and clothing and so forth during the school year which follows immediately after the harvest. The gentleman is to be commended on bringing this up and for presenting the reasons for it. I am hopeful that we will have a hearing, if the amendment is not placed in the bill, and that legislation correcting this injustice can be brought in soon.

MR. ROGERS of Texas. I thank the gentleman. There is one particular situation I have in mind, and I can bring you isolated cases by the dozen. A boy finished high school when he was 15 years old. Because he was under 16 he could not work in agriculture under the present law.

MR. SHELLEY. Mr. Chairman, will the gentleman yield?

MR. ROGERS of Texas. I yield to the gentleman from California.

MR. SHELLEY. Does not the bill before us only contemplate the bringing in of male workers?

MR. ROGERS of Texas. That is exactly true, but the people I am trying to help are not the children of the aliens but the children of the people that live in this country and have to make a living by following the harvest.

MR. SHELLEY. So in addition to bringing in these Mexicans under a wide open thing we want to take the American migrant workers and destroy all our child labor standards as applied to them.

MR. ROGERS of Texas. You are not destroying any child labor standards. If the gentleman knew anything about the Fair Labor Standards Act, he would know that statement was not true.

MR. CRAWFORD. Mr. Chairman, will the gentleman yield?

MR. ROGERS of Texas. I yield.

MR. CRAWFORD. As I understand the amendment, it does not interfere with any of the children attending school during the school term.

MR. ROGERS of Texas. That is exactly right.

THE CHAIRMAN. The time of the gentleman from Texas has expired.

MR. CRAWFORD. Mr. Chairman, I ask unanimous consent that the gentleman may proceed for two additional minutes.

THE CHAIRMAN. Does the gentleman from North Carolina (Mr. Cooley) renew his point of order at this time?

MR. COOLEY. Mr. Chairman, I will withhold my point of order until further.

THE CHAIRMAN. Is there objection to the request of the gentleman from Michigan? (There was no objection.)

MR. ROGERS of Texas. Here is what happened: Under the previous provisions of section, I believe, 13 (c), of the Fair Labor Standards Act, there was a provision that children could work in agriculture. It was not in these exact words, but it was to the effect that they could work in agriculture so long as they were not legally required to attend school. That was amended in 1949 by a Sen-

ate amendment, and the language was changed at the insistence of the Secretary of Labor. It read this way, that those children could not work in agriculture so long as school was in session in the district in which the employee was living at the time of the employment. So the results is that you are not creating a new pool of child labor. The children are allowed to labor right now under those exemptions, but you are prohibiting a child who is legally out of school in one district to work and help in another district where school is in session.

MR. CRAWFORD. The gentleman represents one of the great districts of Texas, does he not? MR. ROGERS of Texas. That is right.

MR. CRAWFORD. A district where the children of families in that district attend universities and are college graduates and live on the ranches and on the wheat farms and grow cattle, and all of them, I would venture to say, in all of the families which the gentleman represents, who live on the farms, the children start work at anywhere from 5 to 7 years of age and work right on through? Is that not true?

MR. ROGERS of Texas. Yes, sir, I did when I was that age. The situation under the present law is that a man who owns a farm and has four or five children can keep his own children out of school to harvest his own crop, but a man who is not fortunate enough to own land himself — MR. CRAWFORD. But who works in agriculture.

MR. ROGERS of Texas. That is right—he cannot keep his own children out to work another man's harvest.

MR. CRAWFORD. It is a case of destroying the child and destroying his future to live within the concepts of some crazy law that Congress has passed.

MR. ROGERS of Texas. That is right. In many instances it seems to be the order of the day to use every available means to teach a child how not to work and to pass laws making it a penal offense for anyone to show a child how to work. This is not the kind of principal upon which this country was founded and it is not the kind of principle upon which this country will endure. I want to express my deep appreciation to my distinguished colleagues from Texas, Mr. Geo-

and Mr. Omar Burleson, for their untiring efforts in seeking relief from the injustices of the present law, and I am sure that they join with me in the observation that our efforts will continue to remedy this situation should the point of order be sustained and this amendment not be made a part of this act. The outstanding work of these gentlemen toward a solution of this problem is well recognized by all the Members of this House.

THE CHAIRMAN. The time of the gentleman from Texas has expired.

Mrs. Z. P. Pilgreen of Vernon accompanied her grand-daughter, Judith Raye Haseloff, home. She will remain for a week's visit. Judith Raye has been visiting her grandmother for the past three weeks. Alice Carroll Garlington also of Vernon made the trip with them.

Mrs. Bourn received greetings throughout the day from friends and relatives unable to attend the celebration.

Many in the group present were octogenarians who had all been to gether on numerous similar occasions.

Those present were: Mesdames R. H. Carroll, B. C. Robinson, G. M. Suggs, C. H. Carl, J. M. Boone, W. B. Beach, J. M. Gilliland, E. A. Ferguson, H.

G. Conkright, John Robinson, J. W. Kirby, G. R. Jowell, J. S. Orr, R. C. McGilvary, T. E. Seigler Sr., W. N. Lemmon, R. J. Richardson, Fred Fuqua, of Amarillo, Mrs. Bourn's daughter, Essie Cardwell and the honoree.

Calling later in the evening were Mr. and Mrs. Carl Perrin, Mr. and Mrs. C. E. Smith and Mr. and Mrs. J. E. Kirby.

Mrs. Bourn came to Hereford with her family in 1906 from Denton county. Like many of her old-time friends here, she is spry and active for her years. Her flowers and her garden

are her chief interests and nothing short of a downpour or hail storm keeps her inside. She doesn't often miss her Sunday school class and has been an active member of the Baptist church for many years. She is a wonderful cook and still takes pride in preparing delectable dishes for her table.

Besides Mrs. Essie Cardwell, her daughter who lives here, Mrs. Bourn has two other daughters: Mrs. Fred Fuqua of Amarillo and Miss Mary Bourn of Chicago.

How to take the Work out of Housework

KEEP OUTING FLANNEL AS SOFT AS NEW!

Winter-time flannel nightgowns and p.j.s should NOT be ironed. Instead, brush them thoroughly with a clean clothesbrush. (Cost for ironing the rest of the family wash? Just two cents an hour!)

WONDER WHERE THE CUP HANDLES GO?

Properly stacked and mechanically washed, you'll have no broken dishes. And they dry by themselves, need less handling! (Saves time and work as well as dishes—and costs so little to use! Only a penny or two a day!)

THERE'S MORE THAN ONE TRICK

with a waffle iron! Use packaged mixes for cornbread waffles... for hot gingerbread waffles. And try adding finely chopped ham to regular waffle batter. Delicious! (Takes only one or two cents' worth of electricity to make all the waffles your family can eat!)

Softball League Lead Still Knotted After Summerfield, HH Win Monday

First place in the Hereford Softball league remained knotted after Summerfield and Hereford Hardware both won their games to come out of their latest encounters with their fifth win against one loss.

Hereford Hardware dumped C & Cleaners—Jiggs by a 9-0 count and Summerfield edged the Knights of Columbus, 7-5.

Hereford Hardware met C & R Cleaners—Jiggs in the first encounter of the evening. Dub Hair let the losers down with only three safe blows while his mates picked up eight off the slants of Jerry Drennan.

The winners had a big second inning, driving across six markers. They added one in the third and two in the fourth for their evening's scoring spree.

Summerfield picked up seven hits for their seven runs while the KC's used three for their five runs.

Thursday's schedule calls for Magnolia to meet Dawn in the twilight contest and C & R to play Summerfield in the nightcap.

"Sleeper Hold" Chills Estes in Mat Title Bid

Balk Estes slept through the most exciting part of his wrestling title match with Southwestern States Junior Heavyweight Champion Frankie Hill Murdock at the Bull barn last Saturday night -- but it wasn't his idea.

The Waxahachie badman put

the Elk City, Okla. challenger fast asleep with his dreaded "python" to take the second fall of the scheduled 90-minute title bout.

Estes never came back for the third fall, because Murdock didn't wake him up this time, and Estes couldn't answer

the bell.

Murdock left the ring without waking Estes up after the falls were tied up at one each. Ignoring the protests of the crowd and Referee Gene Blackley, Murdock stepped out of the ring and told Blackley, "There (Continued on page 3)

How to make Wise Tracks to a Beauty

How do you buy a new car? Are you one of those people who buy on love at first sight? Or do you check cars feature for feature, price for price—then pick the one that gives you the most for your money?

Whichever you are, we'd like to suggest that you come in and see our 1951 Buicks.

It's a sure bet that you'll go for the swift, smart look of a SPECIAL, SUPER or ROADMASTER—you'll fall seriously in love with the pace and

power of its bonnet-filling engine. And it's a cinch you'll go for the room and richness of those Buick interiors—the serene smoothness of Dynaflo Drive* and all-coil springing.

But don't let your emotion be the only judge—be sure to get the practical picture too.

Note that the power that gives you such a big kick here comes from Buick's famed valve-in-head Fireball Engine—which means you get a lot of miles from each gallon of gas you buy.

Note that the silken ease you enjoy with Dynaflo* goes hand in hand with real money savings in maintenance costs.

Above all, note what a Buick's price tag includes—how much more sheer automobile you get in a Buick than the same money would buy elsewhere.

How about making tracks to our showroom right soon—checking thoroughly into the matter—and see if you don't fall in love with a smart-buy Buick?

Rat Drive Effective, Use 300 Lbs. Warfarin

The recent rat drive conducted in the county was a success, according to Blackie Rainey, city sanitarian.

More than 300 pounds of warfarin poison was sold, Rainey said.

During the week-long drive, the city dumping grounds was also baited with 70 pounds of warfarin. Upon later inspection of the dump, Rainey found 10 or 15 dead rats. He estimated

there were lots more that crawled into hiding and died.

On the first night, the rats ate 12 pounds of the poison. On the second and third nights, they ate 17 pounds each night.

Rainey and Mr. Sparks, the USDA rodent expert sent here from Lubbock, pumped synogas under the concrete floor of a restaurant in Hereford. The gas was really effective in killing the rats, Rainey said.

Sleeper Hold

(Continued from page 1)
 is nothing in the rule book that says I have to wake him up." And he was right.
 So Murdock continues to wear the crown he wrested a few weeks back from Dory Funk, Boys Ranch foreman.

The Terrible Murdock stepped into the ring Saturday night with something else he had gotten earlier from this very Funk -- a beautiful shiner on his right eye. The crowd did not let the unpopular badman forget it, either. Funk and Murdock tangled Thursday at Amarillo in a non-title go and the champ came off second best.

To begin the festivities of this title match, Murdock came into the ring and offered to put his "sleeper hold" on any volunteer from the audience to prove its authenticity. There were no takers.

Now for the blow-by-blow account of the title go:

Estes came into the ring a heavy favorite with the crowd and began working immediately on the mouse on Murdock's right eye, which was often - Murdock could feel it and his eyes began to water.

Murdock conceded the first fall in 18 minutes as Estes was dealing terrific punishment to his right leg with a reverse toe hold, which he had on the champ for a great length of time.

After the fall was over, Murdock, still in real pain, could hardly limp out of the ring.

At the beginning of the second fall, Murdock -- with his customary rough tactics--came loaded for a fall with a mouthful of water, which he squirted in Estes' eyes.

This enraged the Oklahoman so much he really started giving Frankie the works, much to the delight of the capacity house.

When he broke free from the Estes brand of mayhem, he turned into a corner, and loaded up again with something he had concealed in his wrestling trunks.

Seeing something afoot not quite according to Hoyle, Estes biffed the champ in the stom-

ach, almost causing him to choke on whatever he had intended to use on the challenger.

From there on until bedtime, it was strictly murder, with Estes smearing the Waxahachie warrior all over the canvas and the crowd roaring its approval.

After a few minutes of this, Murdock slipped his "sleeper" on Estes. That was the end after six minutes. The challenger lay helpless in the ring as the crowd yelled for Murdock to bring him out of it.

Referee Blackley and a ringside fan hauled Estes up to his dressing room. After the five-minute wait, Estes was not able to answer the bell, so Murdock was given the bout.

In the first bout, George Overhuls and Jack Carter battled it out with Overhuls coming out on top, getting the first and third fall.

Overhuls pinned Carter in 16 minutes with a flying drop kick followed by a body press.

Carter came back to grab the second fall with a Japanese crab after 10 minutes of hostilities.

Overhuls made quick work

of the third fall by polishing off Carter in seven minutes with a flying full-nelson following it up with a body press.

Gene Blackley was the third man in the ring and did a commendable job.

"The Spur" Unique Story About Man Who Assassinated A. Lincoln

By Corinne Jennings
 "The Spur" is the unique title given the story about John Wilkes Booth, the man who assassinated Abraham Lincoln on Good Friday in 1865. The author, Ardyth Kennelly, was inspired by her insatiable curiosity about "the man who killed Lincoln" and with enough notes to "fill a basket" she has brought the story to life on paper.

The man, Booth deliberately planned and executed one of the most notorious crimes in history for a very selfish reason. Carefully dressed and almost foppishly so, he went to the theatre to carry out his plans.
 Known for her recent best seller, "The Peaceable Kingdom" she now brings forth a new type of writing in her newest novel.

Creeping into the Lincoln box in the Ford Theatre in Washington, John Wilkes Booth stood behind the gaunt President and pronounced dramatically the words, "Sic Semper tyrannis" and pulled the trigger of his tiny, gold mounted derringer. Then with a quick light movement vaulted over the railing to the stage but in so doing, his spur caught in the flag draped box and fell. The audience was spellbound as he hopped on one leg from the stage.

Like a tapestry woven of many colored threads the pattern appears; the young Booth was idolized by his family, his strange love for his sister, Asia, whose strange beauty was seen also in himself--his unsatisfactory love affairs, his fanatical hatred and jealousy and his famous brother, Edwin--his heavy drinking and wild excesses, and finally, his dream of eternal glory. The sum and substance of the "dream" that brought about both death of Lincoln and himself--"The man who kills Lincoln can be sure of immortality--real immortality!"
