DINOSAURS who roamed North America in the Cretaceous and Jurassic ages carried stones such as those shown above in their gizzards as part of their digestive tracts. That's the contention of Byrle Elliston of Hereford, who brought the "gizzard stones" into the Brand office last week. The large one, which measures nearly four inches and weighs about three pounds, was found by Elliston's son, Thomas, on the Missouri River near Great Falls, Montana. Byrle found the two medium-sized stones in the Big Horn mountains of Montana and the smaller one Northwest of Great Falls on the Sun River in Montana. Elliston said he would donate the stones to a museum if one should be located in Hereford. The stones, called gastroliths in the encyclopedia, will be on display in the Brand's window this week. Hereford Rural High School District trustees Monday morning will start interviewing applicants for the post of school district business manager.

First of a series of interviews will be held at 6:30 a. m. Monday in the Western Wheel Inn.

The opening was created at a called meeting of the trustees Tuesday night after a recommendation for supervision of duties was made by Superintendent of Schools Paul Stevens and Fred Baird, who now holds the position of business manager in addition to being school tax assessor-collector and school board financial secretary.

Stevens and Baird told the trustees that Baird's holding the three positions has resulted in an overload of duties. The recommendation was passed by unanimous approval of the board.

Duties of business manager include maintenance of buildings and grounds, assisting in supervision of transportation and helping in supervision of cafeterias in the schools, and assisting in the tax office.

Baird will retain his duties as school tax assessor-collector and as financial secretary of the board.

In other business, the trustees awarded a contract to Bryant Brothers Pipe Line Construction Co. for installation of a water line from Northwest Electric (Continued on page 2)

Deaf Smith Co. Rural Electric Gets REA Loan

A loan of \$715,000 to the Deaf Smith County Electric Cooperative was approved last week. The loan, from the Rural Electrification Administration in Washington, D. C., will be used to construct 92.4 miles of power line to serve an additional 204 customers and improvement of existing facilities.

Leo Forrest, manager of the co-op, said Substations 2, at Friona, and 3, at Dimmitt, will be improved and three-phase line will replace existing single-phase line in many places. Improvements particularly will be directed toward commercial power users, such as elevators and irrigation wells.

Part of the loan also will be used to furnish heavier transformers to about 240 present members who now are using more than 1,000 kilowatt hours per month. Forrest said the average co-op customer uses about 384 kilowatt hours of electricity per month.

Addition of the new members to be served will bring total membership in the Deaf Smith County Rural Electric Cooperative to more than 4000.

Last loan to the Deaf Smith County Co-op was in 1956, when it received \$740,000.

We know now for sure that the harvest is over this fall. Some farmers were drinking coffee Saturday morning when one of them said, "I sure wish we could have some rain to get things muddy again." That makes it official.

On our way to Amarillo Friday evening we were smack in the middle of the most traffic we have ever seen on the highway between Hereford and Canyon. There was a solid stream of cars and trucks going both directions. We don't know where most of them were going, but a few sure weren't in a hurry. Several cars were poking along at 40 miles an hour, which is a dangerous situation among that much traffic. Contract for widening of U. S. 60 (Continued on page 2)

Hinojosa was admitted to Deaf Smith County Hospital in Hereford for treatment of a six-inch cut on the left side of his throat.

Rojo's bond was set at \$1,000 by Justice Of The Peace C. B. Miles Wednesday morning. The case is pending action by 69th District Grand Jury.

Hereford basketball fans were still shaking their heads Saturday morning after the Whitefaces had scored 85 points... and gotten beaten by 16. Palo Duro cagers were terrific, with balanced scoring and height. Hereford played a tremendous game, but it fell short as they tangled with the Dons at their best. The two teams will meet in Hereford on Dec. 13 for what should be another thriller.

But basketball fans won't have to wait that long to see outstanding teams. Coach Tex Hanna brings his well-trained Borger Bulldogs to Hereford Tuesday, Nov. 29, at 8 p. m. for what should be a closely-matched contest. Hereford's B team, by the way, held off the Palo Duro reserves Friday night to win 61-52.

PARTNERSHIP POWER FOR PROGRESS

The lineman above is "re-planting a tree." It will have insulators instead of limbs and wires will replace foliage. But where this tree once spread its leafy comfort to a few square feet of the forest, it now will help carry electricity and a new life of comfort to one million Texans.

25 years ago, when this tree was still a switch, fewer than 10% of Texas farms and ranches had electricity. Today more than 95% of them have a steady, dependable electric service, thanks to the electric cooperatives.

Rural people borrowed money to build their own electric systems and they are paying back principle and interest on their loans. And with each new pole that is "planted" in rural areas, the member-owners of the 77 electric cooperatives in Texas are helping to furnish their friends and themselves with Partnership Power For Progress.

Mission Is Scene For Double Ring Ceremony

Standing before an altar flanked by white tapers, Miss Crisilla Greigo and Jeff Gomez repeated wedding vows in St. Joseph's Mission Oct. 30. Basket arrangements of pink and white gladioli completed the nuptial setting for the double ring ceremony, performed by Father Raymond Gillis.

The bride's parents are Mr. and Mrs. Luis Greigo and Gomez is the son of Mr. and Mrs. Jeff Gomez of Hereford. Mrs. Alfredo Barrera, organist, played traditional wedding music.

The bride, escorted to the altar by her father, was dressed in a traditional wedding gown of white nylon lace over taffeta. The gown was styled with a molded bodice and long tapered sleeves ending in petalpoints. The scalloped neckline and bodice were encrusted with pearls.

The voluminous skirt was designed of tulle over taffeta and featured panels of lace. Her veil of tulle was attached to a Juliet cap, falling to elbow-length.

An arrangement of white carnations and roses with white satin streamers formed the bridal bouquet.

Mrs. Rose Garcia, matron-of-honor, and Isabele Hernandez,

Julie Gonzales and Betsy Gomez, bridesmaids, were attired in identical dresses of pink net over taffeta. Matching picture hats, shoes and gloves completed the attendants' ensembles. They carried bouquets of pink mums accented with pink satin streamers.

Frank Garcia served as best man and was assisted by Trinidad Hernandez, Joe Soto, and Wallie Maldonado, who acted as groomsmen.

Ringbearer Luis Griego carried the wedding band on a small white satin pillow, adorned with white satin streamers. Elsie Perez, clad in a white organdy frock, was flower girl.

The basement of the church was the scene of a reception honoring the newly-wed couple at the close of the ceremony.

Mr. and Mrs. Gomez are now living in Hereford, after a short wedding trip to various points of interest in New Mexico.

Fraudulent Claims Subject Of Meeting

"Bold Crooks and Super Sleuths" was the title of a program presented at the noon meeting of Hereford Rotary Club Monday in the ballroom of the Jim Hill Hotel.

The program was presented by Hugh Harbert of Lubbock, associated with the Phoenix of Hartford Insurance Company, where he is assigned as State Agent. He spoke on behalf of the Speakers Bureau of Texas Insurance Advisory Association.

Harbert pointed out professional claimants are nothing new to the American scene, but with liability insurance rates geared directly to cost and frequently of claims, the subject has become one of serious concern.

His talk revolved around the modus operandi for the thieves, citing actual case histories from the Association of Casualty and Surety companies' claims.

"Scarcely an American is without some form of insurance today," he said. "Bold crooks will inflict personal injury to themselves to collect insurance benefits."

"They have the ability to work every angle," he commented. "That is a common trait among bold crooks. I wish I could tell you all these thieves are behind bars, but they are not."

He urged the club members to serve on juries involving insurance claims and to act with common sense. Sympathy, he added, sometimes overrules sound judgement.

The speaker was introduced by Rotarian Don Baugous.

President Woodrow Wilson gave to Franklin D. Roosevelt the table on which he wrote the first draft of the League of Nations plan.

Brownlow was headed west and attempted to turn into Griffin and Brand Co. when the automobile, travelling east, struck the right front fender of the pickup, according to Noel Carter, Dimmitt unit Texas Highway Patrol officer. The truck is owned by Griffin and Brand.

Damage to the pickup was estimated at \$300, and damage

Hereford High Whitefaces opened their basketball season Tuesday night with a 75-24 victory over the young Friona Chiefs.

Playing on their home court, the Herd used a fast-breaking attack and a modified press to stymie their opponents. In fact, they held Friona to free throws until after 9:45 of the game had passed. Friona finally scored its first field goal with 6:15 remaining in the second quarter and only mustered five field goals during the game.

Coach Cuby Kitchens used all nine of his varsity players in varying combinations during the game. Eight of the nine are lettermen from last year's squad.

It was prophetic that five different players scored in succession during opening minutes of play. Scoring honors went to Thomas Coffman and Dennis Hodges, co-captains of the team, with 14 points each. Little Ronnie Caster dumped his 13 for his finest high school performance.

With only four seconds gone in the game, Carl Miller dumped in a field goal and the Herd was off and running.

From then on, Miller and Thomas Coffman, the two big men on the team, had little chance to handle the ball except on rebounds.

Hodges, Caster and Greg Combs were pouring them in from outside and leading a fast-break parade downcourt.

Hereford roared to an easy 20-4 lead at the end of the first period, as Friona was limited to four free tosses. The Herd held this pace as they poured in 19 more points for a 39-9 halftime lead.

Friona was able to do only slightly better in the second half. The Whitefaces garnered 16 points for a 55-16 lead and stretched that to 75-24 before the contest ended.

Despite the victory, Coach Kitchens was not too pleased with his team's performance as they committed 23 personal fouls, missed eight free throws while hitting nine and made

bad passes on occasion.

BLONDIE

by CHIC YOUNG

WHY WOULD DAGWOOD BE READING THE HELP-WANTED COLUMNS IN THE PAPER?

HELLO--WHIPPLE COMPANY? I'M CALLING ABOUT THE JOB YOU ADVERTISED IN TODAY'S PAPER

DAGWOOD IS QUITTING ME! OH, THIS IS TERRIBLE--- I'VE GOT TO KEEP HIM HERE

I'VE BEEN PACING THE STREETS FOR HOURS-- MAYBE, IF I'D CALL AT HIS HOME AND PLEAD, HE'D LISTEN TO REASON

BLONDIE, IS DAGWOOD HOME YET? I'VE GOT TO SPEAK TO THE DEAR BOY

COME IN, MR. DITHERS-- HE'S AT THE SUPPER TABLE

I GAVE ORDERS TO REDECORATE YOUR OFFICE AND GIVE YOU A NICE, COMFORTABLE CHAIR FOR YOUR AFTERNOON NAPS

I TOLD THE CASHIER TO GIVE YOU A RAISE IN SALARY STARTING IMMEDIATELY-- OH, DAGWOOD, DON'T LEAVE ME

THERE'S THE BELL

IS DAGWOOD HOME, BLONDIE?

YES, CHESTER, COME RIGHT IN

DAGWOOD, I WANT TO THANK YOU FOR GETTING ME THAT JOB WITH THE WHIPPLE COMPANY

I WAS GLAD TO DO IT FOR YOU, CHESTER

DO YOU MEAN YOU'RE NOT GOING TO QUIT ME, DAGWOOD?

OF COURSE NOT-- WHY WOULD I LEAVE A SWEET BOSS LIKE YOU?

HE PASSED OUT COLD!

I WONDER WHAT BROUGHT THAT ON

I'LL FINISH MY SUPPER SOON AS I TAKE MR. DITHERS HOME

The PHANTOM

By Lee Falk and Wilson McCoy

ABOARD THE OCEAN CRUISER

RADIO THE ALARM AT ONCE! WE NEED HELP!

WITH WHAT? THOSE GOGGLE-EYE GUYS SMASHED THE EQUIPMENT, CAPTAIN.

THEY WOKE US UP! THEY TOOK ALL OUR CASH AND JEWELS!

GIGANTIC MEN!

THEY MUST BE ON THE SHIP!

PLEASE ONE AT A TIME!

FROM THE FRENZIED PASSENGERS AND CREW COMES A GENERAL STORY OF WHAT HAPPENED... DISGUISED PIRATES ALL LOOKING AND SOUNDING EXACTLY ALIKE...

THEY CAN'T GET OFF THE SHIP! WE'LL SEARCH EVERY CABIN FOR LOOT!

TOO LATE FOR THAT, SIR. I WAS WATCHING FROM MY SUN-DECK CABIN.

"A COPTER CAME FROM THE SKY... THEY LOADED THEIR LOOT ON IT... IT TOOK OFF..."

THEY HAD GUNS... THOSE MASKS AND COSTUMES... THOSE SHOES TO MAKE THEM THE SAME HEIGHT... SEARCH EVERY CABIN!

YES, SIR!

I HOPE YOU FIND THOSE HORRID FELLOWS... THEY TOOK EVERY CENT I HAD!

I'LL BE A NERVOUS WRECK FOR WEEKS.

I WONDER WHAT'S KEEPIN' MAGGIE --- IT'S SIX O'CLOCK-

SHE MUST HAVE FORGOTTEN ALL ABOUT OUR DATE -- IT'S ALMOST SEVEN --

OR MAYBE SHE'S BEEN GABBIN' ON THE PHONE ALL DAY AND DIDN'T NOTICE THE TIME PASSIN'--

WELL, WHERE HAVE YOU BEEN?

SITTING RIGHT HERE ALL AFTERNOON READING THIS MARVELOUS BOOK--

YOU COULD BENEFIT BY IT... IT'S ALL ABOUT A WONDERFUL NEW SYSTEM TO IMPROVE YOUR MEMORY!

Right Around HOME with MYRTLE

YOU HEARD ME, MYRTLE! I SAID YOU ARE NOT LEAVING THIS YARD TO RUN WILD WITH A GANG OF BOYS! WHAT'LL THE NEIGHBORS SAY?

WHY DON'T YOU JUST BOUNCE YOUR FOOTBALL AGAINST THE GARAGE? THOSE BOYS ARE TOO ROUGH!

I SPENT TWO WEEKS TEACHING HER THE FLYING TACKLE! DOES THIS MEAN I JUST WASTED MY TIME?

DON'T BE DISCOURAGED, SLUG! SOME NICE, MOON-LIGHT NIGHT I'LL LET YOU SHOW ME THAT TACKLE!

WE NEVER LET A PAL DOWN—SPECIALY WHEN SHE OWNS THE FOOTBALL!

YEE-AY, TEAM!

BUT, MOM, I PROMISED I'D SHOW 'EM MY NEW DEFENSIVE PLAY AND MY FLYING TACKLE!

HAPPY DAYS! WHEN THE KIDS PUT ON FOOTBALL TOGS I KNOW IT'LL SOON BE RABBIT-CHASING TIME!

YOU'D BETTER STAY CLEAR OF THE JACK RABBIT THAT KICKED YOU IN THE STOMACH LAST YEAR.

WHEN I HEARD YOU COULDN'T LEAVE YOUR YARD I TOLD THE GANG, AND WE VOTED TO PRACTICE RIGHT HERE!

BE CALM! IT'S NOTHING BUT A CASE OF EMOTIONAL FRUSTRATION! SHE'LL COME AROUND!

SWELL! WE'RE LUCKY-POP JUST CLEANED UP THE YARD, TOO!

NOW I WANT YOU TO STAY OUT OF FOOTBALL PRACTICE WITH MYRTLE, ARNOLD! YOU'VE HAD NO EXPERIENCE!

GOLLY, THITH CALLTH FOR THOME QUICK ACTION!

SURE I'VE HAD EXPERIENCE! WASN'T I HIT BY A TRUCK JUST LAST SUMMER?

WHEN I WAS MYRTLE'S AGE I DIDN'T EVEN KNOW WHAT A PIGSKIN WAS FOR!

I THOUGHT EVERYBODY KNEW IT'S TO HOLD THE PIG TOGETHER!

Friendship Room Scene Of Sorority Meeting

Mrs. Irving Alexander and Mrs. Frank Barrett were hostesses at a meeting of the Kappa Iota Chapter, Beta Sigma Phi, which was held in the Friendship room of the Hereford State Bank building Tuesday evening.

After a short business session, Mrs. Howard Gore presented the program on "Personality and Relationship." She told how a smile could change one into another person and also stated that the mentally ill were happiest because they saw only what they wanted to see. It was brought out that a person must find happiness within one's own self.

The second portion of the program was presented on "Awareness of Blessings," by Mrs. J. D. Greeson. She stated that each person is given a talent, even though sometimes the person does not realize this. Some people have the talent for making others happy by giving or doing.

L'Allegra Study Club Has Meet

Mrs. Joe Easley presented a program on science and "The Antarctic Challenge" at a Thursday meeting of L'Allegra Study Club. Mrs. Donald Shipley acted as hostess for the meeting, which was held at the Community Center.

(Continued on page 2)

After the completion of the program, secret pals were revealed for the past year by each member giving their secret pal a small toy. These toys will be given to the children's ward in Deaf Smith County Hospital as one of the sorority's projects for the year.

Present for the meeting were Mesdames Irving Alexander, Delbert Bainum, Frank Barrett, Homer Brumley, Doc Carter, Cecil Coker, Jon Fraser, Howard Gore, Noland Grady, J. D. Greeson, Robert Hickman, Bill Kendall, Harold Miller, Bess Moore, Van Nickols, Hicks Robertson, Larry Summers, Jim Thomas, Robert Tyler, Delmo Williams and C. C. Williams.

Church Music Festival Held

The Dawn Musettes sponsored a Church Music Festival Sunday afternoon in the Dawn Baptist Church. A Thanksgiving theme was used throughout the program.

A prelude of piano selections was presented by Phyllis Wimberley, a student at West Texas State College at Canyon.

The invocation was given by the Rev. Charles Davenport and Audri Miller read Psalm 100 for the call to worship. All present then joined in singing "O Worship The King."

"A Call To Singing," the National Federation of Music Club's hymn for juniors, was sung by members of the Dawn Musettes. James Gentry read "I Hear America Singing," by Walt Whitman.

Other songs sung by the congregation were several songs of thanksgiving, including "We Gather Together," "God of Our Fathers," and "America The Beautiful."

Hymns of Praise were: "The Old Rugged Cross," "There Shall Be Showers of Blessings," "Faith Of Our Fathers," and "Blest Be The Tie That Binds."

Members of the Dawn Music Club sang "There is a Green Hill Far Away" and "The Lord's Prayer," followed by the benediction, which was given by R. T. Stewart.

Members of the chorus were Mesdames Robert Strain, Jim McCabe, Melvin May, R. T. Stewart, Ray Polan, L. W. Tooley, Miss Phyllis Wimberley and Mrs. H. E. Miller Jr., director.

The group singing was led by Ted Wimberley and Mrs. Carl Wimberley was accompanist for the program.

Senior Citizens Are Feted By Gray Ladies With Party

The Gray Ladies of the Deaf Smith County Chapter of the American Red Cross honored senior citizens of Hereford with a party Nov. 14 in the Community Center.

The serving table was covered with a white cutwork cloth and centered with a mass arrangement of bronze and gold Chrysanthemums, intermixed with large pom-pom mums and greenery.

The centerpiece was flanked with three-branched silver candelabra holding tall yellow tapers. Crystal and silver appointments completed the table arrangement.

Several games were played to help the women get acquainted, and prizes were awarded to the oldest women present; to the woman having the greatest

number of children; and to the one having the most grandchildren and great-grandchildren.

Art students in the Golden Age group displayed their work, which was done under the direction of Mrs. Earl Plank.

Members of the Gray Ladies present were Mesdames M. T. Rutter, Earl Plank, R. L. Cris-

well, H. H. Miller, Henry Neely, Mrs. Arthur Triefel, and J. W. (Lefty) Thomas.

Sherry Frowell represented the Junior Gray Ladies and (Continued on page 2)

LA MADRE MIA

Guest Day Tea Held

La Madre Mia Study Club held their annual Guest Day Tea in the Community Room of the First National Bank on Thursday, Nov. 17, at 3 p. m.

Officers of the club, wearing corsages of giant yellow mums, served as hostesses and greeted each guest upon arrival. Those in the receiving line were Mesdames Joe Henry, John Smith, Eugene Sparks, G. C. Merritt, Homer Lee Owen and Bobby Williams.

An autumn theme was used in the decoration of the re-

freshment table. A beige cloth was used to cover the table, and featured an arrangement of dried materials, bronze mums and brown foliage. The centerpiece was flanked on either side by golden bisque gamebirds, with silver and china appointments used to complete the table setting.

Mrs. Joe Henry welcomed the group and introduced the guest speaker, Mrs. Clint Formby.

Mrs. Formby presented a book review on Hawaii, a recent publication written by

James A. Mitchner. She described the book as not only a great story, but as a great literary achievement.

She stated that it is a great work of actual hate so true to the spirit and the history of the islands that it can properly be called the first major chromatic of the land and its people. The book is a monumental tribute that will stand indefinitely.

Clubmembers presented the centerpiece to Mrs. Formby at (Continued on page 2)

WOMEN OF INTEREST

Any Busy Woman Can Remain 'Young In Heart'

By Mona Jette

Recently a sweet young thing was overheard making this remark:

"I hope I never grow old. I couldn't stand to look in the mirror to see myself all wrinkled and old."

Unfortunately, this young lady hasn't learned the basic lesson of Womanhood. That of "Pretty Is As Pretty Does." And as for age, don't you agree that you are as young as you feel?

How many of you can recall meeting someone at one point in your life that seemed unattractive? Or dull? Then, that person smiled, and the entire room seemed to diffuse with a friendly light and you suddenly thought:

"What an interesting person. I would really like to get to know her better."

Some people have the talent for living completely outside of themselves. They give and give, from an endless cup of helpfulness, and still retain the capacity of making others happy.

Mrs. Eunice Petersen is such a person. A pert little grandmother, she has worked in the Selective Service office for 16 years.

"I went to work when my two sons entered the service," said Eunice. "It's the only job I've ever had, besides that of taking care of my family."

Both Mr. and Mrs. Petersen are active members of the First Christian Church, and at the time of this interview, Eunice was rushing around trying to get to the church on time for a special meeting.

She sings in the choir and had

a prominent part in organizing groups to work at the Labor Camp in the early phases of the Migrant Ministry program. She is a long time member

Broadway Musicals Is Program Feature

Mrs. Roy Grubbs, president, presided over a meeting of the Calloplan Club held Thursday evening in the home of Mrs. Jack Kassahn, 116 Star.

During the business session, clubmembers voted to continue the "Tile Project" this year. These tiles are inscribed with a buyer's name and placed on the wall of the entrance way in the Community Center. Mrs. Ansel McDowell and Mrs. Jack Kassahn were named as co-chairmen of this project.

Clubmembers also voted to donate to the Kitchen Fund for the Community Center.

Mrs. Larry Beyer, program chairman, introduced the Rev. Father Declon Gilligan of Bovina, St. Anthony's Church of Bovina, as guest speaker.

Topic for the program was "Broadway Musicals" and Father Gilligan played excerpts from "Carman" and discussed the story behind the musical characters.

Those attending were Mesdames Larry Beyer, B. F. Cain, Paul Coneway, J. T. Gilbreath Jr., Roy Grubbs, Sue James, Jack Kassahn, Earnest Langley, Ansel McDowell, W. J. Mesick, Emmett Millburn, A. T. Sims, M. W. Nobles, Wes Owen, Carl Perrin and two guests, Mrs. Jay Boston and Father Gilligan.

Candlelight cast a soft glow as Miss De Anne Sparks and George W. Davis were united in marriage Friday evening in the Temple Baptist Church. The Rev. Robert Lacey, pastor, officiated over the impressive ceremony.

The bride is the daughter of Mrs. Leatrice Sparks, 125 Ave. J., and parents of the groom are Mr. and Mrs. L. J. Davis, 338 E. 2nd.

Strains of "The Bridal Chorus" from Wagner's opera "Lohengrin" filled the chapel as the bride was escorted to the altar and given in marriage by her uncle, H. E. Benson of Hereford.

Nuptial music was furnished by Mrs. Albert Ricketts, pianist, and Mrs. Pete Davis of Ft.

Worth rendered the vocal selections.

Vows were exchanged before the altar, which was draped in white satin and centered with a massed arrangement of white gladioli and mums, highlighted with greenery. Seven-branched candelabra, holding lighted tapers flanked the altar. Sprigs of green fern were entwined with white satin ribbon on each candelabrum, and emerald palms formed the backdrop for the entire arrangement. Family pews were marked by large white satin bows tied in love-knots.

The bride wore a traditional wedding gown of white lace over satin. The gown was fashioned with a basque waistline that

dipped to a deep point in the center front, and featured long tapered sleeves, culminating in petalpoints.

The neckline was accented by three large scallops and was delicately outlined with iridescent sequins and clusters of tiny seed pearls, offering flowery contrast to the billowing floor-length skirt of silk chiffon.

The front of the skirt was accented with a V'd panel of applied iridescent sequins and seed pearls forming a rose design.

Her elbow-length veil of nylon tulle cascaded from a tiny half-hat, which was edged with pearls. A bouquet of white feathered carnations topped a white Bible to complete the bride's ensemble.

The attendants were all sisters of the bride and were dressed in identically styled faille dresses featuring elongated bodices and bouffant skirts. Mrs. Mary Beth Jeff of Boulder City, Nev., matron of honor, wore yellow, while Mrs. Nelson Rutter, bride matron, and Miss Sylvia Sparks, bridesmaid, were attired in Nile green dresses. All three wore white feathered half-hats, white gloves and shoes and carried bouquets of yellow feathered mums, decorated with streamers tied with love knots.

Wilbur Davis, brother of the groom, served as best man and groomsmen were Pete Davis of Ft. Worth and Leslie Sharp of Hereford. Nelson Rutter of Lubbock and Jim Vins of Hereford were ushers.

A reception was held in the Fellowship Hall of the church immediately after the ceremony. The bride's table carried out her chosen colors of yellow and green. A white lace cloth over green was used, with the attendants' yellow bouquets forming floral notes. The table was centered with a four-tiered wedding cake, which was topped with a miniature bridal couple. Silver and crystal appointments were used to complete arrangements for the bridal table.

Delores Andrews presided at the cake service and Mrs. Bill Hindman of Spade and Miss Billie Parker of Plainview served punch.

When the couple left for a short wedding trip, the bride wore a green and black tweed suit with black accessories. She wore a corsage of white feathered carnations. After the couples' return, they will be at home at 606 Schley in Hereford.

The bride is a graduate of Hereford High School and attended Wayland Baptist College last year. The bridegroom was graduated from Hereford High School and attended Arlington State College at Arlington, Tex. He is presently employed at Hereford Hardware and is affiliated with the Boy Scouts of America here in Hereford.

In spite of this seemingly backbreaking schedule, which doesn't seem to even faze her, Eunice still has time for a little self-indulgence in the way of hobbies.

She was instrumental in bringing ceramics to Hereford some years ago, then went on to jewelry making. She worked with copper for awhile, then discovered the magic of oil painting.

She has become good enough to do paintings of her grandchildren, naturally her favorite subjects. She is now working enthusiastically with china painting, which is very difficult, and will probably find another big challenge this year.

In addition, she is an excellent seamstress.

"When I can find the time," Eunice laughed, her hazel eyes squinting with merriment.

Eunice is one of those rare creatures who likes to do things, but doesn't like to talk about it. She is very modest and an introvert by nature, an extrovert by choice.

American Women are busier than ever; all women in general and Hereford Women in particular. Many of these women are cut from the same cloth as Eunice Petersen because they are busy and alert, expecting no reward in the way of recognition.

You pass them on the street every day... the woman in the blue coat who spoke to you so cordially yesterday in front of the grocery store was one of them. The Blue Bird leader, who rides herd over twenty or more lively little girls once a week is one.

of them. But not grow older? That would be a little like standing in the same spot and marking time. Never going forward... just staying in the same spot. To tell the truth, you would be in a rut.

Everyone gets nostalgic for their lost youth, but who would really want to go back? Remember the impatience at Christmastime, thinking Santa Claus would never come? It is much more enjoyable and a lot more fun to watch your own children hang up their stockings and squirm in impatience.

And remember all the agonies? Especially the agony of wanting to grow up?

Growing older is the challenge. Eunice Petersen can't even be classified as "middle-aged," but wouldn't it be nice if all women could take each approaching year with the enthusiasm, poise and charm she personifies?

High Plains Water Depletion Is Complex Topic Facing Our Courts

Directors of the High Plains Water District are making an effort to secure tax depletion allowance on underground water. This proposition, recommended three years ago by The Brand, would be highly comparable to present oil depletion allowance, and would certainly be as equitable.

Most persons who own irrigated farms on the High Plains have bought them during the past 10 or 15 years and they have paid a premium for the farm due to existence of underground irrigation water. In our own county, for instance, the price of irrigated and non-irrigated land of similar location and quality runs on a more than 3-to-1 ratio in favor of the irrigated land. Since this water can be exhausted by one's neighbors, as well as through personal use, it seems only natural that the land value will decline in direct ratio with the water levels.

Needless to say, the presence of underground irrigation water is recognized on county and school tax levels all over the High Plains — and it should be recognized on the federal level through some form of depletion. Most people estimate a life of more than 50 years to present water tables, but doubtless each individual well will vary, once again, in a manner similar to oil wells. Because people do take existence of un-

derground water into consideration when the land is bought and sold, there seems little question but that it should be recognized in federal tax calculations. The average merchant considers his inventory as part of his assets and pays income taxes on it just as though it were cash; as the inventory is sold and becomes cash, he no longer lists the inventory as part of his assets. The land owner, on the other hand, pays income taxes on his income gained through irrigation and, although part of his water is gone, no concession is made as a result of having used part of his assets.

Just as United States Steel depreciates equipment, and just as Standard Oil depreciates usage of its natural resources, it seems to us that the High Plains farmer deserves some form of consideration in the depletion of underground water, an asset which tripled the price of his land at the time of purchase.

Hunters Can Aid Safety Records

Hunters who plan to go to the fields during the next few days and weeks will do well to concentrate on safety rules to prevent accidents, and possibly save their own lives or the lives of others.

The National Safety Council points out that to be a good hunter one must have complete control of himself and his gun. Unless he holds himself in check, he is likely to blast away at the slightest movement or sound.

Self control, says the Council, comes with practice. "By handling a gun properly at all times," says a recent Council bulletin, and by always waiting to see the game, he will train himself to do so habitually. These good habits will be instinctive when he is in the grip of excitement that comes with the anticipation of a shot.

Control, it is pointed out, is largely acquired. A hunter is urged to practice it all times afield—every time a gun is in his hands.

The following basic rules for hunting safely, compiled by the Council, should be studied by every hunter and person who possesses a gun. Here they are:

1. Treat every gun with the respect due a loaded gun.
2. Guns carried into camp or home, or when otherwise not in use, must always be unloaded.
3. Always be sure barrel and action are clear of obstruction.
4. Always carry your gun so that you can control the direction of the muzzle even if your stumble. Keep the safety on until you are ready to shoot.
5. Be sure of your target before you pull the trigger.
6. Never point at anything you do not intend to shoot.
7. Unattended guns should be unloaded.
8. Never climb a tree or fence or jump a ditch with a loaded gun.
9. Never shoot a bullet at a flat, hard surface or the surface of water.
10. Avoid alcoholic drinks before or during shooting.

Canadian Dam Is Good News

The overwhelming ratio, almost 30-to-1, by which Panhandle Cities approved the Canadian Dam proposal this week comes as good news, even to towns like Hereford which are not within the district.

In the first place, it fairly well assures our territory that we need not expect a water-piracy spree on the part of Amarillo such as are people of Muleshoe were subjected by Lubbock. Needless to say, this is important to all farmers and all towns within the Amarillo territory.

Many residents of intermediate points are likewise looking forward to recreational facilities which the proposed dam will create, along with residents of Amarillo, Borger and Pampa. To say the least, a shift of Amarillo recreational interests will open up some congested areas on Buffalo Lake at Umberger.

Most of all, though, it seems that people of the area are honestly interested in an adequate water supply. Water has ever been a tremendous problem on the Plains. Without it we cannot grow, prosper or advance; with it, our horizons are unlimited. Therefore, any movement which increases or conserves our water supply is definitely a step in the right direction.

The POWER of FAITH by Howard Brodie

When the bill for statehood passed, members of Alaska's delegation in Washington retired to the Senate chapel for "a prayer of Thanksgiving; a humble supplication for the successful voyage of the newly-launched ship of state."

Long before statehood was dreamed of, religious faith played its role in the Northland. In 1796 Empress Catherine of Russia, which ruled Alaska then, dispatched missionaries there. After the American purchase of the territory in 1867, a Presbyterian clergyman established the first native mission in Alaska.

Today, churches of all major denominations are found in the bigger cities, and missionary boats tie up at logging and fishing camps. Ministers cover their vast parishes by plane or dog sled. There are Indian and Eskimo preachers, and the Bible has been translated into native dialects. And 300 miles above the Arctic Circle, a native preacher conducts services.

A Little Girl Is More Than Sugar And Spice

By MRS. R. L. CRISWELL

I ran across this in an old scrap book and thought you might like reading it and thinking perhaps of a little girl, who is no longer a little girl, but who still has a few of the enchanting ways of the little one of a few years ago. They are little such a short time.

"Little girls are the nicest things that can happen to people. They are born with a bit of angel-shine about them, and when you open your mouth, she

stands there demure with that special look in her eyes. A girl is Innocence playing in the mud, Beauty standing on its head, and Motherhood gragging a doll by one foot.

"God borrows from many creatures to make a little girl. He uses the song of a bird, the squeal of a pig, the stubbornness of a mule, the antics of a monkey, the spryness of a grasshopper, the curiosity of a cat, the slyness of a fox, the softness of a kitten. And to top it off, she adds the mysterious mind of a woman.

"A little girl likes new shoes, party dresses, small animals, dolls, make-believe, ice cream, make-up, going-visiting, tea parties and one boy. She doesn't care so much for visitors, boys in general, large dogs, hand-me-downs, straight chairs, vegetables, snow suits or staying in the front yards.

"She is looudest when you are thinking, prettiest when she has provoked you, busiest at bedtime, quietest when you want to show her off, and flirtatious when she absolutely must not get the best of you again.

"She can muss up your house, your hair and your dignity—spend your money, your time and your temper—then just when your patience is ready to crack, her sunshine peaks through and you have lost a gain.

"Yes, she is a nerve-wracking nuisance, just a noisy bundle of mischief, but when your dreams tumble down and the world is a mess, when it seems you are pretty much of a fool after all, she can make you a king when she climbs on your knee and whispers, 'Daddy I love you best of all.'"

I don't know who wrote it, but he did a wonderful job; hats off to him. If you don't have a little girl, then you are missing one of the great things of life. And that does not mean to leave the little boy out; he is just as dear but (a boss of a different color). Nevertheless, he is the leader of our nation and the man of tomorrow.

CHEAPEST FOR WATER IN FUTURE

Water engineer Clarence Cooper Thursday told some 30 citizens gathered to hear his final report on a survey of Levelland's future water needs that the Canadian River may be the cheapest possible source of water for Levelland within the next 15 to 20 years. The engineer, hired to advise the city as to the feasibility of participating in the Canadian River Municipal Water Authority program — which came up for vote here Tuesday — asked the group simply, "What are you going to do when present ground water supplies decline?" Cooper made several specific points concerning the Canadian River Municipal Water projects as it affects Levelland and other participating cities. He said with the present rates established by the Bureau of Reclamation, the cost of treated water into ground storage in Levelland would be approximately 33 cents per thousand gallon — or a net increase over present production of 26 cents per thousand gallons.

CITY TO ANNEX AREAS

The Muleshoe City Council took the first decisive steps Tuesday afternoon to make use of the Home Rule Charter approved and filed by the Secretary of State, according to Arch March, Muleshoe City Manager. The annexation ordinance was authorized to be published in the paper this week. The ordinance will be considered by the Council on Dec. 20. The ordinance proposes to annex several areas of the city which are developed but outside its actual boundaries. The area includes the Harvey Gatlin addition, Pool Addition, an area across the tracks, an extension on the east side of town, and about a block extension on the south side of town. A hearing, although not required by law, will be held Tuesday, Nov. 29, in the City Hall. People for or against the ordinance will be heard individually at that time.

GINNS HAVE DAY-NIGHT JOB

Olton's cotton harvest turned into a full-fledged around-the-clock job this week as cool-but-clear weather prevailed. Practically all cotton coming to gins now is stripped cotton, ginners say. One ginner estimated that only about two per cent of the production is being pulled at present. Ginnings at the Olton ginning firms topped the 10,000 mark through 3 p.m. Wednesday. With 10,183 bales already in the bagging, ginners reported a total of almost 1,000 more bales on their yards, waiting to be processed. Grades continued to hold up well, despite the fact that almost all cotton coming in now is stripped. Average cotton coming in now is 31/32-inch middling light spot, which brings about 28.60 cents a pound. Peak of the cotton harvest apparently hit this week. Some gins had been going day and night except for one or two nights but most will have a seven-day 24-hour schedule from now until the end of harvest.

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm discusses money this week. It's sort of like a prize fighter discussing etiquette.

Dear editor:

I have run into a financial problem which I need help on. Well, actually it's not a problem, it's mostly a lot of people's economic ignorance.

I read in a newspaper last night which the wind had blown against my front fence yesterday afternoon and I pulled it off in a hurry because that fence can stand just so much pressure, that the American dollar is now worth only 42 cents.

I can report that there's not a word of truth in this, as I went to eight different stores in town this morning and couldn't find anybody who'd sell me one at that price. People around here apparently don't read the financial section of newspapers and everybody still wanted 100 cents for theirs, and acted like there wouldn't be any profit in that sort of deal. A man can't get ahead-against that kind of economic ignorance. Even when I showed them the article, they just laughed.

For a week now I have been concentrating on the money situation in the world and am as exhausted as the four candidates for President and Vice President and the only reason I don't fly somewhere for a rest in the sun like they did is that I don't have an airplane and anyway have found I can use the same sun they're using without getting off this bindweed farm.

As I understand it, the money situation is complicated by the fact that too much gold is leaving the United States, plus the fact the Russians have voted that a ruble now has more gold content than it did last month, even if it's printed on the same kind of paper.

One expert said the reason gold was leaving the country was because the U.S. was believed figuring on increasing the price of the stuff above \$35 an ounce, which it's not, he says, because that would be de-valuing the dollar. You may understand this but I don't. It frustrates my brain so much that the only way I've found to regain peace of mind is to get on the south side of the barn in the sunshine and re-read both party's platform promises.

People are always saying that a dollar won't go as far as it used to, but I don't understand this either. Actually, I've never known how far a dollar of mine went. As soon as it leaves my hands, I lose track of it. It's slammed into somebody's cash register and that's the last I hear of it.

I will appreciate it if you'll take time off from your other duties and explain the monetary system to me and the rest of your readers.

Yours faithfully,
J. A.

Future Homemakers Stage Mother-Daughter Banquet

by MRS. R. L. PINNELL. The first Mother-Daughter Banquet was held Thursday evening in the school cafeteria. The Future Homemakers of America members and Mrs. Don Johnson completely planned, cooked and decorated for the affair. Theme of the decoration was centered around Autumn.

Inside the U-shaped tables was an actual feed shock with leaves nestled around its base. The tables also had miniature copies of the large decorations. Invocation was led by Coralie Fortenberry. Mrs. Johnson gave the welcome to all invited guests.

The menu included fried chicken, baked potatoes, congealed salad, green beans and strawberry shortcake.

Twillia Story recognized the guests, which was followed by presentation of the "Beau's Gift" and coronation of personality queen Donna Brownlee and posture queen Coralie Fortenberry. Each queen was presented a gift from the FHA.

The sophomore girls sang several songs, accompanied by Mrs. Gene Moore. A trio including Sidney Blankenship, Calvin Peters and Wayne Milner, played four songs. Don Johnson pronounced the benediction.

Adrian's A and B basketball teams played two games last week. On Wednesday night, Adrian played at Boys Ranch, winning two victories.

The Caprock 4-H Girls achievement tea held last week in the home economics room drew several parents and interested friends.

The table was decorated with a centerpiece of dark-stained driftwood and orange daisies. All awards the girls had won this year were on display on another table, with their project record books.

Doris Horton led the group in singing a 4-H song and in the 4-H ritual. She also explained some of the work the girls had done during the past year.

Bee Team Swamps Friona By 71-27

BY WAIN MILLER
Brand Sports Writer

Hereford Bees scalped the Friona Chiefs to the tune of 71-27 to get their basketball season started with a bang here Tuesday night. This was Friona's second downfall in as many outings as Bovina also handed them a defeat.

B team coach Joe Brooks made use of all his talents as he showed off some of his new sophomore material. The Herd went ahead early in the first quarter and was never challenged again by Friona.

Lynton Allred, Mack Cansler, Randy Dowell, Jerry Curtsinger, and Macky Stevens started the game for Hereford. Friona scored five points before the mighty Herd got the ball rolling their way. Randy Dowell tipped in two rebounds and a charity toss for five points. Allred scored four, Stevens two, and Curtsinger one to give the Herd a 12-6 advantage at the close of the first period.

Allred sank a long one from the far corner to open the second quarter. Cansler hit for five, Randy Dowell totaled four, Ste-

'Deaf' Smith Says

To: The Spirit of General Sam Houston
From: The Spirit of Erastus Deaf Smith
Subject: Christmas Shopping in Hereford

Santa Claus and I had quite a conference the other day, Sam, and when we got through we visited all of the business places in Hereford.

Now Sam, you may be surprised to hear it, but Santa has decided to do all of his Christmas shopping right here. Seems as how he saw all of the things he wanted to give Mrs. Claus here and the best assortment of toys and gifts for the little children that you could find anywhere.

Santa is a really friendly fellow, but he is just so busy that he can't take time to fight the big city crowds, the traffic, the parking problem (it isn't real easy to park a reindeer and sled anywhere in a big city) and the indifference. Reckon if Santa can fill his needs here, most anyone else can — or at least

maybe they can try.

Santa says that next Thursday, Dec. 1, is going to be the official opening of the Christmas shopping season in Hereford. He is coming to town on Saturday, Dec. 3, with a whole fire truck loaded with candy. He just had so much that he couldn't get it all on his sleigh.

The Oasis Shrine Club is going to meet Santa at a secret place and drive him into town. The high school band has been asked to meet Santa at 3 p. m. at the intersection of Main and highway 60 and to lead him up Main to 4th Street. Santa will then swing around the block and park at the intersection of 3rd and Main, where he will be available to visit with all the children.

He has asked the service clubs to furnish him with some helpers to pass out the stockings filled with candy. The candy will be handed out in the parking lot of the First National Bank. Children will

line up in four lines in the alley and will enter the parking lot from the alley side and will leave on the Third street side.

Santa is also making arrangements to have his picture taken with any youngsters who would like that. The pictures will be taken in the Chamber of Commerce office during the week of Dec. 19 each afternoon between 3:30 and 4:30. Cost of the pictures will be just 75 cents. Cou-

pons for a picture will be available at most of the stores in Hereford.

Sam, I want to report, too, on my special preview of the Christmas decorations that the business people of Hereford have purchased. There will be ten strings on Main, one on East Third, and three on Park Avenue of the prettiest decorations ever seen in Hereford. They are made up by the same company that made up Amarillo's

and are even prettier than theirs—I think. Also, there will be a big script "Merry Christmas" at the intersection of Park and Highway 60 which will provide a real cheery Christmas greeting to travellers on the highway. Christmas in Hereford will truly be a wonderful experience this year, Sam. Why don't you come visit us.

vens, Allred, and David Dowell who replaced Allred, all scored two, and Joe Mack Hale, who took over Curtsinger's spot, added a free throw to give Hereford a 31-10 lead at the half.

Allred added five points during the third quarter. Dwight McGee and Mickey Stevens scored four each, while Randy Dowell and Jerry Curtsinger turned in two a piece. Hale swiped the ball and broke down court for a layup and Cansler tipped it in as the score stood 50-19 as the third quarter ended.

Charles Kelly, Virgil Strange, David Dowell, Dwight McGee, and Hale started the fourth quarter. Hail sank a layup before being replaced by Austin Hodges.

John Willoughby popped the net three times for six more, while Kelly laid in five, Strange four, and Hodges two to set the score at 71-27 as the final buzzer sounded.

Lesley is teaching social studies in Denton County. The student teachers are enrolled in the NTSC program for the preparation of teachers, most of them being assigned to schools in Denton, Dallas and Tarrant Counties, although a few teach at more distant points. One of two plans is followed: Students working in schools close to the campus have been teaching for half a day all semester. Those further away spend full-time in the classrooms for either the first or the second nine-weeks of the semester.

Governor Price Daniel has proclaimed Dec. 4-10 as "Beef Week in Texas" for 1961, marking the seventh consecutive year that state-wide tribute has been paid to the Texas Beef Council. The Governor delivered his official proclamation to Hugh A. Fitzsimons of San Antonio, president-elect of the council.

DO YOU REALLY UNDERSTAND THE BIBLE?

Many people maintain that the Bible is so simple and clear that any one can understand it. Yet today the Christian world is divided into conflicting opinions as to what the Bible means.

How would you interpret the following passages from the Bible: "I say to thee, thou art Peter, and upon this rock I will build my Church, and the gates of hell shall not prevail against it." (Matthew XVI, 18ff). "For, behold, henceforth all generations shall call me blessed." (Luke I, 48). "Receive the Holy Spirit; whose sins you shall forgive, they are forgiven them; and whose sins you shall retain, they are retained." (John XX, 23). "He who believes and baptized shall be saved." (Mark XVI, 16).

Catholics recognize the complete Bible as the inspired Word of God. REMEMBER WHEN?

BY CHARLIE SEEDS It was King Gustav of Sweden who said it, when presenting one of his many gold medals to the great American athlete. "Sir," he said, "You are the greatest athlete in the world."

Others have said the same about Jim Thorpe, the immortal Carlisle Indian. All-American football player, big league baseball player, and one of the greatest track and field athletes to perform.

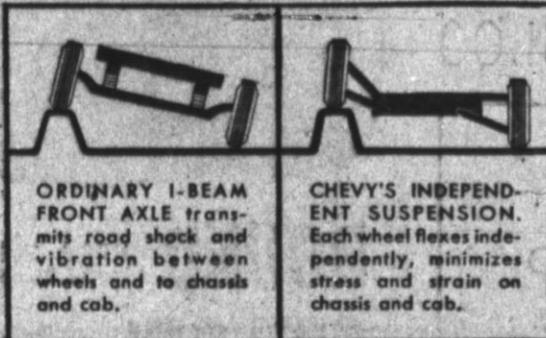

He had his finest hour that year in Stockholm at the Olympic Games. He won four of the five firsts in the pentathlon, four of the ten firsts in the Decathlon. That year was also his bitterest memory. For, because he had played a summer of semipro baseball, Thorpe's Olympic gold medals were taken away from him.

Remember the year? That was a year when driving an automobile wasn't taken for granted, and a driver had to be sure of his car's dealer and his "deal" before he acted.

The year was 1912. It makes good sense to be sure of all three "value points" today. Take the car, you can't drive better than the brilliant new 61 Ford. As for the dealer, well, our reputation for reliability is well established. Point three: we'll give you the best deal! For a better deal three ways, see CHAIR SEEDS MOTOR CO., 2nd W. Hwy. 60, Ph. HERE! THE TRUCKS THAT RIDE SMOOTHER, WORK HARDER, LAST LONGER!

ORDINARY I-BEAM FRONT AXLE transmits road shock and vibration between wheels and to chassis and cab.

CHEVY'S INDEPENDENT SUSPENSION. Each wheel flexes independently, minimizes stress and strain on chassis and cab.

Just a year ago, Chevy came up with independent front suspension and has already put some 300,000 Chevrolet trucks with it out on jobs.

The ride that results from Chevy's suspension design is making life a lot easier for drivers. (Just ask them.) It's taking better care of loads, the fragile kind that cost somebody money if they are bounced around. Chevy's ride also enables truck owners to revise their buying habits and work their trucks longer before they trade. This follows naturally. The trucks take less of a beating. There's less stress on sheet metal. Less abuse to tires. Less pounding that wears out parts before their time. The upshot of it is, you either save money or earn more of it or both. And you couldn't ask a truck to do more than that. See your dealer.

MAN, THESE DRYERS ARE THE GREATEST! BUT WHY ARE THEY ALWAYS GAS?

ANY FAMILY MAN CAN ANSWER THAT ONE! GAS IS FASTER, SAFER AND COSTS LESS. WHAT ELSE?

there are good reasons why 97% OF ALL COMMERCIAL LAUNDRIES USE GAS CLOTHES DRYERS

Gas goes to work instantly, with no warm-up wait. Gas is faster by far, reducing drying time to a minimum. Its low heat, high air-flow principle makes short work of even difficult-to-dry shag rugs and bedspreads, yet is ever-so-gentle on even the daintiest synthetics. And as for economy, a Gas Dryer operates for about 1/9th the cost of the other kind. When Gas drying rates first with those who know, wouldn't it be best for your family, too?
