County, Nation Favor Market Wheat Control

Deaf Smith County farmers joined the majority of wheat growers in the nation by favoring government marketing controls on the 1961 wheat crop Thursday.

County referendum results tabulated Thursday evening showed that 149 voted in favor of continuing quotas and 27 voted against the issue.

Thirty votes were challenged, and those votes will be considered in a meeting of the County Committee some time this week.

Results in the county included: Community A, 56 "for" and 10 "against"; Community B, 45 "for," nine "against" and 28 challenged votes; Community C, 16 "for," five "against" and two votes challenged; and Community D, 32 "for" and three "against."

Around Town

Take a deep breath and relax. It's probably the last chance you'll have for a week, 'cause the Harvest Festival is coming to town . . . among other things.

Last year's affair, optimistically tagged the first annual, is going to be bigger and better. The appreciation dinner and carnival will get events rolling on Monday. Tuesday, the Jaycees will sponsor the queen contest. And so, on an on, through Saturday night.

As the blue-eyed monster is saying so often, we'll get back to the program of the week, but first a short message.

County Commissioners will meet Monday in regular session. Only change is that they, along with the rest of the county offices, will be doing business in the sparkling courthouse. It is amazing what was done with a building 50 years old.

And the school board has a heavy agenda for its special meeting Tuesday night. Contracts for new teachers, budget study and participation in Moreman Avenue paving are the top topics.

Members of the First Baptist Church have extended an invitation of friends of Dr. and Mrs. Howard Scott, Beth and David, to attend a farewell reception on Tuesday, July 26. It will be held from 4 - 8 p. m. in the home of Mr. and Mrs. Gerald Wilson, 130 Star.

Hereford Art Guild will meet Monday, July 25, in the Hereford Community Center

BASEBALL IS IN THE NEWS. But the headlines weren't so good when Littlefield's Don Stephenson pitched a two-hitter against the Hereford Pony All-Stars Thursday night, to even the three-game series. Here Stephenson is framed by the first base coach's legs as he starts his windup.

Open District Pony League Baseball Meet Here Monday

Hereford's Pony League All-Stars will host three other Area 4 teams in a double-elimination district here starting Monday, July 25. At least six games, and possibly seven, will be played. There will be two games on Monday and Tuesday, with single games through July 28, or July 29. Entered will be Childress, winner of Area 1; Lubbock Southwest, champion in Area 2; Lubbock Dixie, winner in Area 3; and Hereford, champions for

Area 4. First game will be Monday at 5:30 p. m. matching Hereford and Lubbock Southwest. In the second game, slated for 8 p. m., Childress will meet the Lubbock Dixie team. Tuesday games, with the same starting times, will feature first round losers in the first contest, followed by the first round winners in the nightcap. In Wednesday's game, at 8 p. m., the winner of the Tuesday game between the losers will

Harvest Festival Underway With Dinner, Queen Contest

Merchants Host Livestock Group

More than 100 leaders in the livestock industry of Deaf Smith County will be honored guests at an appreciation dinner Monday evening. The dinner is being held as part of the second annual Harvest Festival in Hereford.

Vandals Slash New Car, Take Money, Goods

The Deaf Smith County Sheriff's Department Saturday morning investigated a burglary at McCullough Motor Company, 411 W. First, where one or more prowlers left an estimated \$300 in vandalism damage and stole \$50 in cash and personal items.

Investigating Deputy Sheriff L. R. Cherryhomes said entry was gained through a broken window of the shop.

(Continued on Page 2)

Hosting the event will be the Deaf Smith County Chamber of Commerce. It will start at 7:30 p. m. in the Jim Hill Hotel ballroom.

Speaker at the dinner will be Loran H. Walker, manager of the Livestock and Agriculture Department of West Texas Chamber of Commerce in Abilene.

All livestockmen will be guests of the merchants as a token of their appreciation for economy brought to the community by the livestock industry. Last year, the festival honored the vegetable industry in the county with an appreciation dinner, the first of a series of salutes planned by the county Chamber of Commerce.

About 150 invitations have been sent to county residents working in the livestock industry. About 300 persons are expected to attend the dinner.

The C of C office in Hereford has asked that the livestockmen return the R. S. V. P. (acceptance) cards to the Chamber office by Monday noon so that plans for serving can be completed.

A comedy skit will be provided by Burney McClurkan of Hereford. Chamber of Commerce manager Bill Thompson of Hereford will introduce the guest speaker.

Walker, a graduate of Texas A. & M. College where he majored in agriculture education, joined the WTCC staff in April, 1952. Since being on the staff he has assisted in the formation of the Texas Beef Council, and has inaugurated agriculture chemicals conferences at Texas Tech and Tarleton State College.

He is immediate past president of the Texas Commercial Agricultural Council and is a member of the five-man West Texas - Agriculture Research Committee.

Hereford's Pony League All-Stars took the rubber game in their series with Littlefield here Friday to win the Area 4 title.

Lynn Warren, who handcufted Littlefield in the opener Tuesday, did it again Friday as Hereford won 5 - 1. Hereford won the first game 5 - 3 and dropped the second 1 - 4.

He scattered eight hits as his mates made the most of their six hits.

The win moved Hereford into the District 7 tournament it will host here this week.

Little Leaguers Earn Area Finals With 11-1, 7-3 Wins

Defending champions, the Hereford Little League All-Stars battered Dimmitt and Canyon on successive nights to gain the area finals in Plainview Saturday night.

On Thursday, Hereford outclassed Dimmitt, 11 - 1; Friday night they beat down a Canyon rally in the last inning to win 7 - 3. Both games were played in Plainview, Saturday's game was set for 8 p. m.

In other action, Childress was dropped 11 - 4 by Plainview Friday after defeating Memphis in the opening round.

During the first game of the tourney, Ed Mims overpowered Dimmitt with his fast ball, al-

lowing just one run on six hits. His teammates were unleashing a 12 - hit attack.

Hereford scored in the last five innings after being set down in order during the first.

Terry Hill opened the second inning with a double. Wynn Buck got a single, Danny Lester was safe on a fielder's choice that didn't get anyone out and Robby Lemons singled as three runs scored.

Buck scored a run in the third on an error, Lester's single and Lemons' double.

Dimmitt managed to score in the last of the third, Marvin Hoelting got on by error and moved around on ground balls. Hereford blasted out four

more runs in the fourth. Gene Duvall doubled, Jimmy Allison singled, Steve Hodges singled and Hill got on by fielder's choice as Hodges was tagged out. Buck then smashed a triple and came in on Lester's single.

Gary Payne walked to open the fifth. He scored as Duvall and Hodges walked and Hill singled.

Hereford added one more in the sixth as Buck doubled. He scored as Mark Manning got on by error and Billy Watts got on by fielder's choice.

Wynn Buck paced the booming Hereford bats with a single, double, and a triple in.

Carnival Opening Monday Starts Festival Activity

A week of activities being held in connection with the three-day Harvest Festival will be inaugurated Monday evening, when Hereford Lions Club opens its annual six-day carnival.

The free carnival will be held in the Deaf Smith County Bull

merce, will include a rodeo each night of the celebration, a Farm and Home Show representing various businesses and organizations, a real Western-style barbecue, a street parade, and a luncheon featuring fresh vegetables grown in this county.

The festival officially gets underway Thursday and will continue through Saturday. Other pre-festival events will be a livestock appreciation dinner Monday evening and a queen contest Tuesday evening.

Rides and booths will be set up Monday morning for the carnival's opening at 7:30 p. m.

Lions club members will operate carnival booths, which will include a dunking board, doll racks, bear pitch, balloon darts, number darts, cigarette pitch, keg pitch, concession stand and bottle pitch.

They also will operate a hamburger booth, with proceeds going to the club's exchange student fund.

The carnival midway will be at the mouth of the Farm and Home Show in the Bull Barn, which will be opened at 2 p. m. Thursday. Some 40 booths will be installed in the Bull Barn Tuesday and Wednesday.

There will be no admission charge for the Farm and Home Show, which will be open from 2 p. m. to 10 p. m. Thursday and Friday and from 2 p. m. to 8 p. m. on Saturday. The Lions Club will stage its regular wrestling card at 8 p. m. Saturday in the Bull Barn.

At noon Thursday, the American Legion Auxiliary will serve a luncheon featuring locally-grown vegetables at the Legion Hut. Tickets for the luncheon will be sold at the door.

The three-day rodeo, under direction of Hereford Riders, Inc., will begin at 8 p. m. Thursday. Dick Rathjen of Happy will furnish stock and judges for the rodeo.

Tickets for the rodeo will be sold at the gate, according to Riders president Harold Easley

The Llano Estacado contingent arrived at the Jamboree at 3 p. m. Wednesday and set up camp in our designated area.

On the first night, we received staves and Jamboree neckerchiefs. Different colors on the staff indicates the position of the scout.

On Thursday, the three troops from the Panhandle went to Fairplay, 85 miles west of Colorado Springs, to see a ghost town.

Gerald Brockman got four of Dimmitt's six hits, all of them singles, but failed to score a run.

Jim Allison turned in a neat, unassisted double play for Hereford in the sixth as he grabbed Tommy Stafford's smash and doubled off Brockman.

Mims pitched the entire game for Hereford. He allowed four walks, hit two batters and struck out ten.

Marvin Hoelting started for Dimmitt, with Bob Bradford in relief. Together they gave up 11 runs on 12 hits, struck out six and walked five.

In Friday night's game, Hereford scored in the first three innings and then beat down a Canyon uprising late in the sixth inning.

Gene Duvall tallied after his double, moving around on a ground - out and an error.

Allison scored in the second, after getting on by fielder's choice. He went to second on an error and came in on singles by Terry Hulsey and Duvall.

But a five - run attack in the third inning made the difference. With one out, Hill walked and Buck doubled. Lester singled and stole second. With two men on base, Danny Baize parked one over the fence.

Allison singled, went to second on an error and to third on a wild pitch before Duvall singled him in.

With two out in the sixth inning, Canyon staged a rally that had the crowd roaring. Lanky Clyde Haley blasted a homer over the fence. Steve Hines got on by error and David Rossi hit a homer. The Hereford fans were beginning to worry as Cliff Sherrod doubled, but Terry Hill grabbed Thomas Lair's smash to end the game.

Southpaw Terry Hulsey went all the way for Hereford. He scattered five hits for Canyon's three runs. He walked two and struck out six.

Lair started for Canyon, being pulled in the fourth for Mike Winn. Together, they gave up seven runs on 11 hits, walked one and struck out eight.

Approval of the government controls means that all growers who comply with their acreage allotments would be eligible for price supports at 75 per cent of parity or not less than \$1.78 a bushel.

Farmers in this county have favored marketing controls for the past seven years.

Returns from 15 out of 21 states gave a strong majority in favor of quotas. Nationally, they averaged almost 81 per cent.

States supporting controls were Texas, New Jersey, Delaware, Virginia, South Carolina, Iowa, North Carolina, Indiana, Illinois, Kansas, Oklahoma and Kentucky.

Voting down continued controls were farmers in Pennsylvania, Alabama, New York, West Virginia, Ohio and Michigan.

If more than one - third of the voters opposed the quotas, there would be no quotas or penalties for the 1961 wheat crop, and price support would be available at 50 per cent of parity, as directed by law. Allotments would remain in effect as a condition of price - support eligibility.

All local growers who will produce more than 15 acres of wheat as grain in 1961 and their wives were eligible to cast ballots in the referendum, which was held from 8 a. m. to 6 p. m. Thursday.

The county received a 4082 acre allotment reduction on next year's crop, it was announced recently.

Polling places in this county included: Community A, county Bull Barn; Community B, county ASC office; Community C, Walcott School; and Community D, Simms Community House and Palo Duro Church.

The vote had nothing to do with allotments, since they are mandatory under the present law and present stocks of wheat.

Littlefield missed its big chance in the second inning after both teams were scoreless in the first. Don Stephenson singled but was picked off trying to steal second.

Singles by Eddie Wheeler, George Jones and Ray McKinney loaded the bases, but they couldn't score.

Hereford picked up three runs on two hits in the last of the second. Lynn Warren was hit by the pitcher, moving to second on a passed ball. He came in as Duncan singled. S. D. Baize got on by error and scored as Cain singled.

There were no more scores until the last of the fifth, when Hereford added a pair. S. D. Baize homered. Frank Cain greeted a new Littlefield pitcher with a single. A Luni moved Cain to second and Chuck Callaway's single got him to third, where he came in on a passed ball.

Littlefield's only score was in the sixth as Jones doubled and rode home on McKinney's triple.

Warren struck out eight and walked just one during his seven innings on the hill.

Larry Woods was charged with the loss. He gave up four runs on three hits, struck out three, walked two and hit two batters. McKinney came in on the fifth. He was charged with one run on three hits, struck out one and walked one.

Vandalism damage was to a 1960 model car on display in the show room. The burglars slashed seats, the padded dash and headliner of the car.

Taken from the building were a pink table model radio and three boxes of cigars. Investigation revealed that a safe, cash register and soft drink machine were ransacked. An estimated \$12 was taken from the soft drink machine.

Cherryhomes said the building was burglarized sometime between 7:15 p. m. Friday and 7:30 a. m. Saturday morning.

I notice where the cattle industry is being especially recognized in the Harvest Festival activities this week, and want to pitch in my two - cents worth. There never has been — and probably never will be — a more staunch, dependable, progressive citizenry than the cattlemen of Texas. I admit that many of them are hardheaded, independent and occasionally overbearing. They do have their faults but, taken all in all, they are the kind of folks who have long been the "backbone of the nation."

the cattlemen and wheat men who picked up the tab. The Brand mailed around 9000 copies into Idaho, and most of the advertising, which made the edition possible, came from cattle interests and elevators.

We get excited about new developments, but cattle today contribute a lion's share to the area income — and the cattlemen still ranks today as basic to our land. Mostly, they are still progressive, alert and just as dependable as ever. I am most happy to see these boys singled out for recognition, which is long overdue.

Louis Woodford came out in the Amarillo paper Friday and predicted that the Democrats will carry Deaf Smith County. He figures this, due to Johnson being on the ticket, plus unrest because of Republican handling of the farm program. No mention was made regarding the Demo platform move toward putting schools, highways and medicine under federal control, nor was any reference made to the probable GOP platform. I think a lot depends on what the Republicans do before you can accurately predict the territory. Anyway, Louis is our elected County Chairman — and certainly should know what people are thinking.

Jim Lipscomb was visiting around this week and didn't seem to realize how long it has been since he was Hereford's No. 1 coffee drinker. Because of the high ratio of fountain help turnover, Jim is now an unsung hero; he got the same treatment as other coffee hounds. Back when Jim was postmaster, they always kept a special cup for him and every girl knew not to bring Jim water, which he still insists will only "rust your stomach." This week the gal made the mistake of giving him a saucer, which Jim contends is only for tea parties, and provides an insult to any self-respecting coffee toper.

Time was when Jim averaged 17 cups a day, not counting those which he sipped at home. Glenn Weir was the champion before Lipscomb. I would like to see those two in a coffee drinking contest,

no holds barred. Optimist Club members have been putting up Harvest Festival decorations for the B&PW Club, and it is turning into something of a chore, especially for those who have to work before and after regular hours. They are doing a nice job, however.

Pop Lee called in and said why don't we talk like into trading the Russian spy, who just turned up, for the U-2 pilot who goes on trial in Russia soon? This sounds like a good idea, and I'll ask Mr. Khrushchev about it next time I see him, probably around the last of August.

A lot of people are worrying about their sons at the big Scout Jamboree in Colorado, but I have been worrying more about what might happen to Colorado Springs. Just think about having 55,000 boys descend upon any given point at the same time. They have the Jamboree each five years, and there is always one which strikes the fancy of every Boy Scout who, later, may not be so interested. That's what most of the dads tell me, anyway. Living in a tent is not so cheap, either; they say it costs \$140 for camp and transportation, plus another \$100 for special equipment. Add in a little spending money, and it's run to \$25 — a day. Most of them seem to think it is well worth the price, however.

Seems as if our former city manager, Cecil Massey, can't stay away from trouble. Clippings were circulating around this week about how the old boy got himself hung in effigy at the National Guard Armory at Weatherford, where he has been city manager since 1957. It all started when Massey fired the city recreation director, Bill Norris, who is a former pro ball player. Norris, quoted in the paper, said that he first resigned at Massey's request, but so many people insisted that he went back to work that he did; Massey, returning from vacation, blew his top when he found Norris on the job, ordering him off the premises. The Jaycees are circulating petitions left and right, and two of their officers were quoted as saying that Mas-

sey is a dictator who rules with an iron hand.

I notice in Mrs. Draper's Home Demonstration column where she issued a warning about blind corners on roads, due to mammoth heights of weeds at intersections. I also notice one or two such instances in Hereford. The warning is OK, but it might be easier to cut the weeds than to stop, get out and peer around the corner every time to see if anyone is coming. However, that's just an idea — and I'll admit it sounds more like my wife than me.

Just had a telephone call, name withheld, which said to tell Jack Bradley, the GOP delegate, that his search for a vice president is over. "Tell him," advised the caller, "just to nominate Ezra Taft Benson."

Events will include saddle bronc riding, bareback riding, bull riding, calf roping, bulldogging and barrel races for women. Two big events will be held Saturday morning - a festive street parade and a barbecue with all the trimmings. The parade, under direction of Hereford Optimist Club, will begin at 11:30 p. m. Sixteen groups, businesses or riding clubs have already entered the parade, and more are expected to file entries before Saturday morning deadline. The parade will form on Sampson Street and proceed south on Sampson to High 60, then west to Main and back north on Main to Dameron Park. The parade will lead toward the barbecue at Dameron Park, which is sponsored by the Rotary and Kiwanis clubs.

Troops are still arriving in the Jamboree area. All were due in by Thursday night. There is a great deal of activity, although the Jamboree has not officially started. Scouts are trading patches and souvenirs. The Hereford scouts report the water here is worse than water in Hereford. Dr. Grubbs has met two scouts from Venezuela. It is interesting to talk among 400 foreign scouts. The troop has been working hard building tables, gateways and preparing for the official opening of the Jamboree. Attending the Jamboree from Hereford are: David and Jim Grubbs, 13 and 15 year old sons of Dr. and Mrs. Roy James Grubbs Jr.; Tyler Thompson, 12, son of Mr. and Mrs. W. T. Miss Gladys Marie Whalin And Rudolf W. Jesko Wed

Miss Gladys Marie Whalin and Rudolf W. Jesko were married at 6:30 p. m. Thursday, July 14, in the Immaculate Conception Church of Muleshoe. Father C. J. Corcoran conducted the double-ring ceremony.

The bride's parents are Mr. and Mrs. C. W. Whalin, 307 E. Fourth Street, Muleshoe. The bridegroom is the son of Mr. and Mrs. Matt Jesko of 205 Western.

Four pyramiding candelabrum holding white wedding tapers gave illumination for the wedding scene against a background of fern trees and arrangements of gladioli, roses and carnations.

Mrs. Morris Hacker of Hereford, organist, and Carl Sundean of Clovis, N. M., provided the traditional wedding music.

Wedding attendants included Mrs. Laura Provence of Muleshoe, sister of the bride, matron of honor, and Mrs. Billie Logan of Muleshoe and Mrs. Theresa

The bride, given in marriage by her father, wore a waltz-length gown of Chantilly lace and taffeta designed with fitted bodice having a portrait neckline outlined in satin banding, and bracelet-length sleeves. Unpressed pleats at the waistline accented the fullness of the scalloped skirt and a pill box of lace and satin held the shoulder length veil of illusion. Her bouquet of white orchids and Stephanotis was carried on a

white Prayer Book. She carried out the tradition of wearing something old, new, borrowed and blue and wore a penny minted in the year of her birth for luck. Her only ornament was a pearl necklace, the bridegroom's gift.

For traveling to points in New Mexico, the bride chose a brown linen suit with bone accessories.

The bride is a graduate of Muleshoe High School. The bridegroom attended the University of Texas for two years after graduating from Hereford High School. They are now making their home at Route 3, Muleshoe, where he is engaged in farming.

Out-of-town guests attended the wedding from Clovis and Ruidoso, N. M., Amarillo and Hereford. Those from Hereford were Mr. and Mrs. Edd Jesko, Mr. and Mrs. Matt Jesko, Mr. and Mrs. Morris Hacker and Miss Shirley Schulte.

... and to the folks who have made it a success. Since the early days when Deaf Smith County was organized, the cattle industry has been the economic backbone of this territory. Now that we have a more diversified economy, the cattle business is still one of our most important segments in the use of farm commodities, as well as in providing income.

SECOND OF A SERIES

Alcoholism Was Serious Problem Back In 1870's

(Editor's note: This is the second of six articles on the growing menace of alcoholism and steps being taken to combat it in Texas. The series is distributed by the Texas Commission on Alcoholism through the Deaf Smith County Council on Alcoholism, which aids the state organization on the community level.)

It will surprise many Texans to learn that alcoholism was considered a serious public health problem by the framers of our state constitution way back in 1876.

These far-seeing statesmen provided in our basic law that "The Legislature may establish an inebriate asylum for the cure of drunkenness and the reform of inebriates." This provision, Section 42 of Article XVI, is written into the document ahead of those for the militia, homestead exemptions, land for the state capitol, and the prison system.

A Constitutional requirement that the effects of alcohol should be taught in all schools receiving state support was added in 1893.

It was not until the appointment of the Governor's Committee on Alcoholism in 1951, however, that a state-wide program in line with the modern concepts began to take shape. Next step was the creation of the Texas Commission on Alcoholism by the 53rd Legislature in 1953. An appropriation by the 55th Legislature in 1957 enabled the Commission to implement its program through an executive office which was opened in September of that year.

Stated purpose of the law creating the Commission is "... to prevent broken homes and loss of lives (due to alcoholism) ...". And in it, "Alcoholism is recognized as an illness and a public health problem affecting the general welfare and the economy of the State." The Commission is directed to attack the problem through a program of education, prevention, treatment, reclamation, and rehabilitation.

Six Governor-appointed members compose the Commission. Present Commissioners are Al Badger, Dallas, Chairman; Dr. Walter C. Goddard, Austin, Vice-Chairman; Macon Freeman, Coleman, Secretary; and members W. J. Barnes, Houston, Joe C. Carrington, Austin, and Charles A. Guy, Lubbock. All service without pay, and several have done so since appointment to the original Governor's Committee.

The Commission staff is headed by Frank B. Campbell, Executive Director, and includes an Education Director, Juvenile Re-

habilitation Counselor, and two Field Representatives. The office is in the State Office Building, Austin, Texas. Public enlightenment is essential to the abatement of alcoholism. Stressing the "ism" which designates the illness, the

Commission is neither "wet" nor "dry," neither favors nor opposes the sale or consumption of alcoholic beverages.

Its first and most important job is to sweep aside the hoary accumulation of misunderstanding, prejudice, and plain ignorance to reveal the clear and simple truth:

"Alcoholism is an illness."
"The alcoholic is a sick person who can and should be helped."
"Alcoholism is a public health

problem and a public responsibility."

In this effort it seeks continually to inform the public through all mass media. It stocks and produces authoritative literature, has motion pictures and film strips available to those qualified. It is prepared to assist in planning and conducting meetings, conferences, seminars and the like dealing with alcoholism and is in a position to secure the services of appropriate speakers.

As a state agency, the Commission labors to bring the problems of alcoholism to the attention of influential individuals and organizations at the state level and to co-ordinate alcoholism abatement endeavors on the part of governmental and civilian groups.

More than 70 leaders in various fields in some way concerned with the problem have accepted appointment to eight state-wide advisory committees to the Commission.

A Commission newsletter, "Spotlight on Alcoholism," is published bi-monthly and distributed to thousands of key people over the state.

An outstanding achievement of the Commission's first post-appropriation year, 1958, was the presentation of the First Annual I statute on Alcohol Studies in cooperation with the University of Texas and the Hogg Foundation for Mental Health. More than 200 individuals from a variety of special

fields attended sessions of the five-day institute, heard addresses by a nationally distinguished faculty, and discussed their particular alcoholism-related problems in workshop meetings. The second such institute was held at the University in June, 1959. This endeavor met with equal success.

Another major effort was devoted to the establishment of local Councils on Alcoholism in Texas Communities. (To Be Continued)

Littlefield Wins, 4-1, To Even Series Here

Don Stephenson hurled a two-hitter as the Littlefield All-Stars evened their series with Hereford in the Area 1 Pony League series here Thursday. Littlefield broke open a scoreless game in the fifth inning and won 4-1.

Hereford won the three-game opener Tuesday 5-3. Final game was set for Friday night. Thursday's game was a thriller all the way.

Littlefield managed to push across three runs in the fifth inning and another in the sixth, before Hereford scored in the seventh.

But scoring opportunities came earlier than that.

Littlefield got the bases loaded in the second on two singles and a walk but couldn't score. They did the same thing in the third, with men covering all the sacks on a hit batter and another pair of singles.

Hereford filled the bases in the fourth on three straight walks, but didn't get a man in.

An error in the fifth gave Littlefield the break it had been seeking. With one out, Terry Hughes walked and stole second. Charles Robinson's towering fly to left field was dropped by Wayne Edwards.

Don Stephenson singled in one run and Joe Priest doubled to push in a pair.

In the sixth, Mike Ranspot came on to pitch for Hereford. George Jones greeted him with a single. Rieky Phillips walked

iting the Jones for a few days and came to visit the Baldwins also.

The Rev. and Mrs. B. H. Baldwin and Eugene ate Sunday dinner with the Henry Dobbs family. Tommy Sparkman was also a dinner guest there.

Several from this community attended funeral services for Mrs. W. N. Hodges at the Methodist Church in Hereford, on Thursday evening. Three of the Hodges children, Walter, Aubyn and Mrs. Julian Johnson live in this community. The Hodges home was the place bought by the government for the Prison Camp during World War II. Aubyn Hodges lives on the place, since the Hodges bought it back from the government after the

war. Visiting Mrs. Joe Andrews on Friday was her grandmother, Mrs. Pilgreen of Vernon. She was accompanied by Mrs. A. S. Garlington, Miss Vena Moore and Mrs. Ray, all of Vernon. The women had been to Cuchara, Colo. vacationing for a week and were on their way home.

Misses Veradelle Andrews, Loreta Fowler, Bonnie Sparkman, Darlene Sparkman and Alma Andrews visited the Charles Kings in Amarillo Sunday. Bonnie and Darlene Sparkman remained to visit this week. Mr. and Mrs. Henry Andrews took Doris Jean to the Kings, on Thursday. On Saturday the Kings brought the girls home and visited her parents, the J. E.

Andrews and other relatives here.

J. N. Burgin and Alice of Sinton were visiting Thursday night and Friday with the Jim Brooks'. They were here to attend funeral services for their aunt, Mrs. W. N. Hodges.

Mrs. Henry Dobbs and Mrs. B. M. Sudduth have been ill for several days, but have improved this week.

Mr. and Mrs. Cleo Buchanan and children of Manteca, Calif. were visiting Friday with their relatives the T. L. Sparkmans Sr., A. T. Jones, O. E. Roberts, Springers and other relatives. Sons, Mrs. Annie Springer, Earl Springers and other relatives. They had been to Oklahoma.

Arkansas and Tennessee as well as Plainview visiting and touring. Mrs. Jennie Buchanan also of Manteca, who has been visiting for about four months in this area, went home with them on Saturday.

CAR DIVES, TOO
SAN DIEGO, Calif. (AP)—While sailor John Collins was away on a four-day cruise in the submarine USS Seafox, his British-made sports car also took a dive.

He had parked it on Harbor drive and police said it apparently had been pushed over a foot-high concrete buffer into San Diego Bay. "I guess somebody wanted the parking space," said Collins.

Second Annual 'Harvest Festival' Expresses Community Appreciation

Hereford's second annual Harvest Festival will swing into high gear this week,

You Still Can't Buy Friendship

Are the American people undergoing a change of heart?

Not too many years back, George Bernard Shaw became a hero on this continent simply by telling us that we were stupid, uneducated, and semi-heathen. We flocked to buy his books and to hear his lectures. We thought Mr. Shaw a great man, indeed. Fidel Castro tried the same thing recently, but our reaction appears to be different. We even cut off his sugar quota.

All over the world, in fact, one of the major indoor sports seems to be that of "biting the hand that feeds you", especially as concerns U.S. doles and trade. Certainly, not everyone is going to like us, but it does seem consistent that we would not bend over backwards to trade with and to subsidize those nations which frankly tell us that we are a bunch of first class crooks.

If our generosity brings about such results, let's keep some of our money at home instead of squandering it in far-away places. At least, we will have respect among ourselves — and we might even make a slight move toward balancing our budget.

There are a lot of angles and a lot of "reasons why" concerning the United States in the role of "International Benefactors," and most of us are familiar with this propaganda, some of which is bound to be true.

Mostly, though, it all traces back to the old adage: "You cannot buy friendship." Least of all, why should we continue to subsidize our declared and sworn enemies?

Public Welfare Ranks Foremost In Settlement Of Moreman Paving Plan

Satisfactory settlement of the Moreman Avenue paving dispute comes under the heading of good news to practically every resident of Deaf Smith County.

First and foremost, it means that rural and town students who attend Northwest Elementary School will have the benefits of a paved road — and this has always been the foremost consideration. Of near significance, it proves that representatives in our city, county and school governing bodies are willing to put the welfare of the people they serve ahead of their own personal feelings. This is highly important because, without cooperation, we cannot expect our community to prosper and continue to grow.

From our standpoint, it seems that the final arrangement was indeed equitable and fair. The county's technical ownership of the road was never stronger than city realization that is should, sooner or later, become part of the city. The fact that the groups, despite getting off to a poor start, were able to sit down and work out a reasonable and practical solution indicates that we do have good officials in all three governing bodies. This, at least, is a far

closing with a whirlwind finish Saturday.

Sponsored chiefly by local merchants and civic organizations, the idea of the big celebration is not especially that of creating business. Instead it comes as an expression of appreciation to all the people who have contributed to the community during the past year. In brief, it is a sort of "Thanksgiving in July." The idea and hope of all who have contributed and who have done so much work is to help a lot of people have a good time.

Generally speaking, the festival will follow pretty well the same pattern established in 1959. It will feature the Queen's contest on Tuesday, a parade Saturday, an excellent rodeo Thursday, Friday and Saturday, a barbecue Saturday at the noon hour, and of course, the carnival all week. Proceeds from the various phases of the festival will, as last year, be used to help finance worthwhile community projects during the next 12 months. The 40 exhibits, which pleasantly surprised all concerned last year, will again be a festival highlight, and will this year be designated as a community farm and home showing.

Hundreds of hours of planning and preparation have already gone into the project on the part of scores of people. Needless to say, hundreds of additional hours will be contributed by various persons as they work to help make the annual event another big success.

Much, therefore, depends upon YOU and your attitude when you come to attend the celebration. The idea is to select those particular phases you enjoy — and to have a good time; someone else will probably like the parts which may not appeal to you.

All in all, the Harvest Festival is a sincere attempt on the part of local folks to say, "Thanks, Friends! This party is on us, and when we can be of service along other lines, just let us know."

The POWER of FAITH by Howard Brodie

"Faith plays a very great part in our work," says Commissioner Emma Davies, glancing around the neat, two-story Faith Cottage. "Without it we would accomplish very little."

Indeed, faith and prayer are responsible for the very existence of the cottage itself, a refuge where women of the streets may retire to reorganize their lives.

For many years, Emma and her officers of the Salvation Army prayed daily to help these women. Her captains patrolled the streets of the King's Cross section of London trying to reach them. But there was neither money nor refuge for those who wanted to reform.

Emma appealed for a lease on a cottage which was being transferred to a railroad company but the outlook was dim until, while negotiations were going on, a 3,000-pound legacy arrived from an unknown benefactor in Canada. Faith Cottage became a reality.

The cottage is but one of Emma's accomplishments. She has worked with women and children in New Zealand, Ceylon and India. As commissioner, in charge of Women's Social Work in England, she holds the highest unmarried woman's rank in the Salvation Army.

With A Few Symbols, You Can Predict Too

By MRS. R. L. CRISWELL

Weather, weather. Now don't get me wrong — I am not predicting the weather by any means, but read a few signs of how to judge the coming weather by the different aspects of the sky.

These were written 30 years ago, but are generalities and perhaps they will give a few ideas that have been shelved for a long time by bringing them to mind.

A ray lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise with clouds lowering later in the morning also indicates rain.

Red in the morning, sailor's warning. Red at night, sailor's delight.

Halo (sundogs) — by halo we mean the large circles, or parts of circles, about the moon or sun. A halo occurring after fine weather indicates a storm.

Corona. By this term we mean

the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

Rainbows. A morning rainbow is regarded as a sign of rain; and evening rainbow, o' fair weather.

Sky color. A deep-blue color of the sky, even when seen through clouds, indicates fair weather; a growing whiteness, an approaching storm.

Fogs. Indicate settled weather. A morning fog usually breaks away to a clear sky before noon.

Visibility. Unusual clearness of the atmosphere; unusual brightness or twinkling of the stars indicates rain.

Frost. The first frost and the last frost are usually preceded by a temperature very much above the mean temperature.

"We always talk about the weather but never do anything about it", was said long ago,

and it still holds true today.

City or suburban dwellers can see the color of the sky if they are living far away from industrial centers, but how many have taken their children out to the country for a look at the stars and constellations. Do they know that we have a North Star, a Big Dipper, Job's coffin, Little Dipper and many others?

I remember our drive home in the wagon on Sunday night after church and how we children looked forward to it. Even after my father bought a survey with a fringe on top, we children begged to go to church in the wagon on Sunday evenings. Why? We would spread a quilt on the floor of the wagon bed and as we went to church we sat in all primness to keep our clothes from being wrinkled, but on our way home, father would hand the reins to mother and tell her to drive slow.

With happy chatter we children would begin. Papa came and lay by me and he would usually remember which child he had held in his arms the Sunday before and would take turns holding us. He pointed out the different constellations and told us how to always know the North Star and how the sailors would steer their ships by it.

There was Job's Coffin, a tiny triangle of small stars; Seven Sisters, and many others. How we loved it. Each night the stars were different, and in the late fall they would look so close it seemed to us that we could almost reach them with one hand if we stood on a high hill and reached up.

After I grew up we lived on a ranch and a geologist would often bring his wife out. He would spread a blanket on the ground and they would watch the stars for hours. She had lived in the east where the trees were so tall, the stars were only tiny pinpoints of light.

Their brilliance and beauty on a summer's night were a delight to her. She could hardly wait for the frosty clear nights that he told about so she could see them so close and enjoy their beauty still more.

CURBING FARM ACCIDENTS IS GOAL OF SAFETY WEEK

Farm accidents claim about 3,500 lives each year, more than any other industry. Some 11,000 farm residents die each year in all types of accidents and another million suffer accidental injuries. To direct attention to this appalling problem, President Eisenhower has designated the week of July 24-30 as "National Farm Safety Week". In Texas, Governor Daniel has proclaimed the period "Farm Safety Week in Texas." Theme of the observance is "Enjoy Farm — Practice Safety." Objective of the educational effort is to curb the soaring farm accident problem which hits one family in four each year. Texas is among the top ten states in the nation in accident rates associated with drownings, firearms, burns and electricity. The major cause of accidents across the nation is machinery, which accounts for about 35 per cent of all accidents, followed by drownings, firearms, falls, blows, animals, burns, electricity and lightning. The Governor said the nation's economy is dependent upon the continued well being and progress of its agricultural population, and accidents from farm work cause needless suffering, distress and loss of life each year among rural families.

USE OF 2-4-D SPRAY QUESTIONED

After discussing the problems caused by the use of 2-4-D plant spray, Randall County Commissioners' Court decided to have the criminal district attorney look up the law governing the use of the spray and interpret it for them. The problem was presented to the Court by A. B. Thompson and E. K. Williamson, Randall County farmers, who reported that their entire cotton crops were damaged by the use of the 2-4-D spray on surrounding land. The county agent said that 2-4-D is a plant growth hormone which affects the cells and the metabolism of broadleaf plants. It is used primarily for the control of weeds. Since the spray is non-selective, it kills or damages all broadleaf plants with which either the spray itself, or its fumes come into contact. Cotton is extremely sensitive to the spray and is affected by fumes from several miles away. Because of the potency of the spray a law was passed in 1953 which gave the state commissioner of agriculture authority over the use of 2-4-D. The law states that all dealers who supply spray to persons in areas where the law is in effect must maintain a registration list of the person who bought the spray, the crop it was to be used on, and the formulation of the spray.

GREEK VISITORS WILL TOUR COUNTY

Moore County farmers will take another step in the continuing promotion of the sale of grain sorghums this afternoon when they welcome a pair of Greek farm experts who will begin a six-day visit here. Alexandrios Andreou, professor of animal husbandry at the American Farm School, and Demetrios Hadjis, director of instruction at the American Farm School, located at Salonika, Greece. Salonika was the site of last year's trade fair which was attended by County Agricultural Agent Martin Gosselt and which served as the springboard for the promotion of grain sorghum sale in that European nation. Andreou presently is assigned as director of grain sorghum demonstrations throughout Greece for the Grain Sorghum Producers Assn. and the Foreign Agricultural Service of the U. S. Department of Agriculture. Greece is currently buying feed grain for various uses. The two served as interpreters for the County Agent during his visit with independent millers, government service officers, farm co-ops and individual farmers.

The BOOTLEG Philosopher

Editors note: The Bootleg Philosopher on his bindweed farm offers a prediction about Castro this week, and he may be right.

Dear editor:
I heard a man in town say yesterday he'll be glad when the national political conventions are over so he can get down to work, and all I've got to say is a man who has to depend on something held only once every four years to stop him from working, just ain't trying very hard to stop working.

But what I started out to say is something entirely different. According to a newspaper I read one night last week while somebody on T. V. I never heard of was seconding the nomination of somebody else I never heard of for President, although I guess I should have heard of him as he said he was the most fearless leader who ever lived, I forget in which state, at any rate, according to this newspaper, Castro over in Cuba, who has been taking over American plants over there right and left, is going to get even with the United States, by cutting down the Cuban sugar quota by selling Cuba's sugar to Russia. Well, it's not exactly a sale, he's going to do some trading with Mr. Khrushchev.

It's not any of my business, but I'm afraid Senor Castro is going to find trading with Mr. Khrushchev has its drawbacks.

Russia may take all his sugar, but it won't stop here. Before long, it'll take over all his cane fields too.

Then it will divide up the cane fields among the peons, and then a little later divide up the peons among the Communist bosses. They'll be sweetening their coffee with wild honey, until Russia gets around to taking their coffee too.

Russian generosity knows no bounds, and if Castro comes out of this Communist dickering with his beard left, he'll be lucky.
Winning a revolution is sort of like winning the Presidency. Campaigning is a hard and glamorous job, but after you win, your troubles have just begun. Ain't nothing glamorous about running a country on tax money in this atomic age with men like Khrushchev hanging around setting the dogs to barking, it's the hardest job on earth, it's even harder than running this bindweed farm, and I found out years ago that was too much for me.

Yours faithfully,
B. A.

45 YEARS AGO

Petty Burglars Steal Pastry From Bakery

Some time Friday night the gang of little petty, kitchen robbing loafers entered the back window of the Lewis Bakery and carried off just enough cakes, bread and other pastry and several boxes of chewing gum to be aggravating. This is the second business house within the past two or three weeks that has been the recipient of a visit of these prowlers, the meat market being the first to have the honor. For several weeks now, this thieving has been going on in the east part of town and while nothing of any big value has yet been taken, there is no telling just when the nerve of these "things" will prompt them to attempt something bigger. Probably would be a Lord's blessing if they did, for then the officers would have a clue of some kind to work on. Some clear eyed citizen ought to load his trusty old shot gun with a big load of salt and mustard seed and apply the application some time just as Mr. Robber is going away from the kitchen. Tuesday night Byrle Elliston took a shot at someone he discovered prowling around his residence. It probably was one of the "gang". Constable Purcell was called to the home of Mrs. Hysmith Wednesday night about ten o'clock by the information that some one had attempted to break into her home. By the time the officer reached the scene no trace of the marauder was to be found.

A New Feather In Texas' Caps

Texas, already world famous for doing the spectacular and the impossible, is about to set a new record if we will only follow the advice of Gov. Price Daniel.

"Support the Kennedy-Johnson ticket, but not the Democratic party platform," admonishes our astute governor and party leader. The only trouble rests in the fact that Mr. Daniel forgot to say exactly how this feat is to be accomplished.

Since both Kennedy and Johnson told the world that they thought the new Labor-Liberty platform, adopted by the party in Los Angeles, to be the greatest bit of prose assembled since the U.S. Constitution was written, and since both candidates announced that they will endorse, support and "stump for" the platform, it does seem that our governor might well pinpoint his method.

Those who know Mr. Daniel well, or who may have carefully studied his record, must certainly agree that he is the greatest "fence-rider" in all Texas' history. If anyone can support both sides at the same time, it will surely be our own Price Daniel.

Meanwhile, we eagerly await his method of operation. It will be one of those little gems which will probably linger forever on the scene of American politics.

REMEMBER WHEN?

BY CHARLIE SEEDS

In a small town in the Canadian backwoods, a country doctor named Allan Roy DeFoe went on a routine mission. A 25 year old woman, already the mother of six children, was going to have a baby. Her name was Olyvia Dionne.

What happened after the doctor arrived electrified the world... for Mrs. Dionne gave birth to five little girls, who became the most famous babies in the world, the Dionne quintuplets. Their combined weight was less than ten pounds all together at birth.

Dr. DeFoe saw to it that all of the quints survived... Yvonne, Annette, Cecile, Emilie and Marie. The world took the quints to their hearts. Within a few years 3000 visitors a day would be counted coming to their home just to see them. The world has never forgotten the Dionne quintuplets, whose early years were eagerly followed in press and newsreel by millions... but do you remember when they were born?

Remember the year? A family man in those days, with a few mouths to feed, couldn't afford to gamble when he bought a car, new or used. He looked for the best deal he could find... and bought from a reliable dealer he could trust.

The year was 1934. Whether you're in the market for a new 60 FORD or a good late model used car, we can offer you a better deal. Right now we have a terrific selection of good, reconditioned used cars... backed by our reputation for dependability and honest dealing. So, drive safely with a good used car from CHARLIE SEEDS MOTOR CO., INC., West Highway 60 at Miles, Phone EM 4-2727.

Mrs. J. F. Ward Feted At Luncheon On 88th Birthday

Win One Class of the First Methodist Church honored Mrs. J. F. Ward on her 88th birthday Tuesday at a mid-day luncheon held in Fellowship Hall of the church.

She was not only honored as teacher of the class, but for her far-reaching contributions to the work of the church in many lands. For many years she has been planning and praying for and giving material aid to countless phases of religious endeavor.

The story is almost 88 years long. Alice McMinn, the oldest in a family of twelve children, began devoting her life to helping others when she was nine, and to itemize her widespread service to mankind would be like writing a book. In fact, she has written a book entitled "Gardening for the Master," with the proceeds from the sale of the book going to ministerial students in McMurry College.

The book, a sketch of her own life and that of her late husband as they went about doing good, gives inspiration to all who read it. People who know her can never question her belief for they have seen her faith and kindness, her energy and

love, her forbearance and forgiveness exemplified in her life.

She has always looked to the future and began helping young people long before she reached maturity, clothing them, giving spiritual aid and helping educate them. She adopted two children and took many more into her home for years at a time. She organized S. S. classes, organized and helped build churches wherever she went, and for years people have taken clothing to her home where she has a special room for them. Countless down and outers are given clothing and food from this store and many boxes are sent to foreign lands.

Because her late husband was also interested in young people, she built Ward Hall in the local First Methodist church as a place where young people of Hereford could gather in social and religious activities.

Prayer has been her constant guide in her tremendous activities for the Lord. She has been crippled by a bad limb for years but she believes the Lord will carry out her plans anywhere in the world if she does all she can and prays hard enough.

One of her chief delights is receiving letters from hundreds of young people who feel that she has influenced their lives for good.

Now her heart is troubled over the situation in the African Congo and many times each day she prays that the mission work she helped start in the Congo Beige will be able to continue.

Characteristically, she expressed her desire to live many more years because "each year just adds that many more days to pray and work" for her special projects, especially the Congo Beige work.

Perhaps assisting missionaries in foreign fields has been her favorite project. She began with Miss Flora Foreman who went to the African Congo 20 years ago. She sent funds, supplies and clothes to Miss Foreman and helped, with the aid of her beloved Win One Class, to establish Methodist missions, school and hospitals. She helped with the largest Leper hospital at Minga and with the aid of the class helped build a parsonage for the family of a returning native minister whom she had educated in the United States.

She laughed and said, "We even put a bath tub in that one." At the Girls School at Lodja, the Win One Class has just recently added a Prayer Room which had been requested by the girls themselves.

Five years ago she helped bring a native and his wife and children to the United States for study at the large Negro school at Atlanta, Ga. Now he and his wife are crusading ministers in the Congo. Before Miss Foreman returned to the United States because of her health, Mrs. Ward had helped her start a social center for the young people in the Kindu Mission, and when Mrs. Ward sold large holdings of land in Dumas, she allotted 1/8 of the money to the work in the Congo.

Through Miss Foreman, she has adopted many boys and girls there for education and support. One of them was little Koko who has now finished the school at Wembo Nyami. The Win One Class has taken great pride in sending nice clothing and other gifts for the students.

Mrs. Ward gave the first thousand dollars to the Methodist Spanish Mission now being built at the Hereford Labor Camp and she and the class expect to give further aid.

Following the teachings of her well-worn Bible, Mrs. Ward expects to continue with her motto, which has become her way of life, "To do all she can for as many as she can - as long as she can."

Salad Supper Is Held By Class

Friendship Class of the First Methodist Church was entertained at a salad supper Friday evening, July 15.

Entertainment features included slides shown by Mr. and Mrs. George Heard, who spent the past three years in Iran. Other special guests were Jane and Leslie Heard, Mrs. H. D. Reed, formerly of Hereford and now of Morton, Miss., and Miss Naomi Hare, returned on vacation from mission work in Old Mexico.

ORDERS TO CLANCY

CASPER, Wyo. (AP) — The doctor says Clancy MacGillicuddy has to cut down his television viewing time.

However, Clancy is permitted to watch his favorite program—"Lassie."

Clancy is a 3-year old Dalmatian dog.

PARTY - CRASHER

TULSA (AP) — Officer Kenneth Clinton broke up a gambling game, but not according to plan.

From a building roof Clinton watched a poker session through

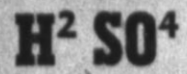

a window of an adjacent building. When he started to descend, some bricks crumbled and he fell from the top of the one-story structure.

Lt. Ralph Duncan, in an at-

tempt below, broke the officer's fall, but Clinton was hospitalized with a fractured pelvis.

In the commotion the poker game ended and the players vanished.

DAWN NEWS

Light Showers Fall This Week, Hampering Harvest Operations

By MRS. CARL WIMBERLEY Light to heavy showers fell in scattered portions of the community throughout the day on Wednesday. The heaviest precipitation fell in the vicinity of the home of Mr. and Mrs. Leonard Schmidt. Schmidt reported that he had received more than one inch.

Damp weather on Monday and Tuesday hampered combining operations. Farmers have been furrowing feed, and some have begun to irrigate the early crop. The wheat stubble is still reported to be black wet so no plowing is possible in it yet.

Mr. and Mrs. G. B. Hagar and their daughter, Betty, returned home this week from a two-weeks trip to Canada, Wyoming, South Dakota and Montana. They visited Yellowstone National Park and the Black Hills. In Alberta, Canada, the Hagers visited Misses Hattie and Ruth Bowlers, aunts of Mrs. Hagar.

The vacationers returned home by way of Washington, Oregon, Utah, Nevada, Arizona and New Mexico. In Arizona, they saw the Grand Canyon which Mrs. Hagar described as "breath-taking" in its beauty.

In Washington, the Hagers visited Norman Wright and at Salt Lake City, Mrs. Silas Ford. They reported that it was dry everywhere they went except in Colorado, New Mexico and Texas.

Mr. and Mrs. Clarence Betzen are the parents of a baby son born July 19 at the Deaf Smith County Hospital in Hereford. The baby weighed nine pounds five ounces.

Mr. and Mrs. George Ritter of Westway visited here last Friday in the home of Mr. and Mrs. Herschel Miller Jr.

The Women's Missionary Society will meet Tuesday, July 26, at 3 p. m. at the Dawn Baptist Church. Mrs. T. B. McCandless of Amarillo will be the guest speaker. Mr. and Mrs. Robert Strain and son, Wesley, recently spent several days visiting friends at Spearman and Perryton.
