HEREFORD, DEAF SMITH COUNTY, TEXAS, FRIDAY, MAY 13, 1922.

LARGE CROWD LISTENS TO CANDIDATE

CONVINCING LOGIC IN ALL THE ARGUMENT OUSLEY GIVES

POINTED FACTS

Federal Reserve Banks and Tariff are Discussed by The Speaker

The district court room was well filled Thursday afternoon, when Mayor Knight in a brief introductory speech, presented Hon. Clarence Ousley, candidate for the United States Senate.

After expressing his appreciation of the privilege of visiting the Panhandle, Mr. Ousley launched at once into a discussion of the issues which formed the basis of his address. Clearly, logically, convincingly, the speaker presented his argument, unflinchingly clinching it with salient facts. From time to time he was accorded hearty applause.

All who desired to meet and become acquainted with the distinguished visitor were given an opportunity to do so in an informal reception at the home of Mr. and Mrs. Holman Thursday evening, Friday morning, accompanied by Seth B. Holman, Mr. Ousley drove to Dimmitt where he was scheduled for an address at 10:30. Later the party drove to Tulla where he again spoke in the afternoon. His Hereford address was, in part, as follows:

"It is gratifying to find that people are ceasing to look for a miracle to restore good times. They realize that recovery must come through the slow process of labor and economy.

"At the same time they believe that blundering at Washington contributed in no small degree to the disaster which befell American business in general and American agriculture in particular, and they resolved if possible to set up safeguards against such mistakes in the future.

"My opinion is that we would have progressed farther on the road to recovery if we had joined the European nations in a business conference like that at Genoa and cooperated with them in measures to steady foreign exchange, to reduce armaments, to adjust the German reparations to a practicable basis and to quicken trade contacts. By these means I believe European buying would be stimulated and the market for our products would be improved. We are neglecting our customers who owe us money and to whom we wish to sell more goods.

"I believe also that the Federal Reserve Board has exercised too much authority over our regional and local banks in the limitation of credits, in fixing rediscount rates and in otherwise substituting their judgment for the judgment of our own bankers. I believe that a board composed of representatives of manufacturing, merchandising and farming as well as banking would have a more comprehensive view of the general welfare and I am confident that in this state we would have fared much better if the officers and directors of the Texas reserve bank had been permitted to use their own discretion in financing Texas cotton, wheat and cattle.

"I do not undervalue the Federal Reserve System. I think it is the greatest agency of national finance ever set up in any country. But I would make it what was really intended by the statesmen and economists who conceived it, and that is a system of twelve regional banks correlated and cooperating but not controlled by a central board. Instead we have in practice a great central bank with twelve branches.

"We should bring it back to the original design and at the same time set up a companion of agricultural credit based on the recent useful service of the War Finance Corporation which is furnishing accommodation to agriculture comparable to the accommodation which the Federal Reserve System furnishes to commerce. Commercial credit is based upon ninety day transactions; adequate agricultural credit must be based upon twelve months transactions and live stock credit upon three year transactions.

"There is no warrant in the Federal constitution for levying tariff duties except for revenue, but we can't levy tariff duties upon imports competing with commodities manufactured in this country without conferring some benefit upon the American manufacturer. We can no more prevent the incidental benefit of tariff taxes than we can escape the burden. No Democratic Congress has ever been able or willing to admit manufactured products duty free. Every Democratic Congress has knowingly bestowed benefits upon Am-

BEAUTY TO GREET WORLD WAR VETERANS

Miss Agnes Dohoney, who is said to be the most beautiful girl of the Golden West, has been selected as chairman of the reception committee to greet the disabled American veterans of the World War who meet at San Francisco for their second annual convention, June 26 to 30.

Esca W. Harrison Is Again Chosen Grain Men Head

The Panhandle Grain Dealers Association, which convened in Amarillo Tuesday of this week, re-elected to its presidency, E. W. Harrison of this city. A. Liske, of Canadian, was chosen vice president of the organization and Lester Stone, of Amarillo, secretary.

Speaking of the convention, Mr. Harrison said, "Grades of grain and freight rates on grain, particularly Texas rates, furnished the chief topics for discussion, with interest centering upon the equalization of rates from the Panhandle to Galveston and New Orleans. The meeting as a whole was very profitable."

A banquet at the Amarillo hotel was a feature of the convention.

JUDGE L. GOUGH ATTENDS MEETING OF WHEAT GROWERS

Judge L. Gough went to Amarillo Friday morning to attend a meeting of the executive committee of the Texas Wheat Growers' Association. Judge Gough is vice president of both the national and state organizations and, together with President McCracken of Pampa, has charge of the zone agency.

Mr. Gough is enthusiastic over the outlook for the association, especially since it is yet an experiment in Texas. He expresses the belief that through this medium Texas wheat growers will be able to solve their own problems of production and value; that extending the market period over the entire year will tend to stabilize the market and secure adequate return to the producer.

The association has opened an office in Amarillo and President McCracken has moved from Pampa to that city.

E. B. EZELL LOSES NEW CAR TUESDAY ON AMARILLO STS.

A phone message to Mrs. Ezell Thursday evening stated that no trace of the car had yet been found. Mrs. Ezell is a teacher in the high school here.

erican manufacturers by levying revenue duties upon manufactured products. Why should a Democratic Congress hesitate to levy revenue duties upon farm and ranch products and thereby confer some benefit upon farmers and stock raisers?

"Mr. Thomas and Mr. Mayfield say that revenue duties on farm products will not confer any benefit. They affirm that the Emergency Tariff on wheat was followed by a decline in wheat. Of course, we import but it-

SCHOOL TRUSTEES ARE BUSILY ENGAGED

H. L. BROADWELL MADE SCHOOL DIRECTOR BY THE BOARD

ENDORSE SCHOOL

Most Teachers Are Elected But Few Vacancies Yet to Fill

Matters incident to the closing of the school year have kept the school board busily engaged for the past several weeks, a number of special meetings supplementing the work done in regular session.

Much to the regret of the board, W. A. Miller, who has served one term and was re-elected in April, reported his inability to serve longer and the vacancy was filled by the appointment of H. L. Broadwell, who has already qualified and is now acting. The personnel of the board under its present organization is as follows: G. A. F. Parker, president; Mrs. E. W. Harrison, vice president; Mrs. B. F. Guthrie, secretary; A. O. Thompson, F. H. Oberthier, C. J. Faidock and H. L. Broadwell.

The board states that a summary of the year's work shows it to have been very satisfactory. The report of State Inspector Rogers, who visited the schools in February, commends very heartily the general working of the schools but declares that in order to be retained on the affiliated list, at least one new teacher must be added to the high school faculty, as the classes in English and history are too large to be handled by one teacher. Even with this addition to the teaching force it will be necessary that the superintendent teach three classes, a problem the board yet faces.

A mark of the board's endorsement of this year's work is shown in the fact that the entire faculty was retained with the exception of three who did not desire re-election: Miss Beauchamp of the grammar school, Miss Read of the science department, and Mr. Blocker, principal of the high school. These vacancies have not yet been filled. The faculty as it now stands includes: Miss Griffith, superintendent; Miss Williamson, home economics; Mrs. Ezell, Spanish and Latin; Miss Halstip, history; Mr. Dameron, history and English; Mr. Prewitt manual training; Miss Swisher, music; Mrs. Fertsch and Miss Sisk, junior high school; Mr. Hawkins, Principal Central School; Mrs. Parker, sixth grade; Miss Roberson, fifth grade; Mrs. Block, fifth grade; Miss Tildenburg, fourth grade; Miss Jones, third grade; Miss Bell, second grade; Miss Kibbe, second grade; Mrs. Garrison, first grade; Miss Friebele, first grade.

Biggs and Parmer Work to Destroy Dandelion Pest

The lawn is also undergoing the widely advertised iron sulphate treatment for dandelions. Lee Biggs and W. B. Parmer being in charge.

THE UNBALANCED WOMAN

If she is unbalanced or unseated or out of her place, what is the cause? Who is to blame? Who brought about this change? There is but one answer. Her God-decreed protector is to blame. Man is wholly responsible. The federal head of the family is guilty. Woman's place is home. Her throne is the domestic circle. She didn't leave it of her own volition. She didn't sacrifice her place voluntarily. Man is wholly responsible for the unbalanced condition of woman. He is the federal head of the family. It is his business to provide and protect. And it is his business to exercise the righteous discipline necessary to a perfect home and a good government. He has utterly failed in these last two duties. He has failed through indulgence, because of a lack of courage, a sense of responsibility, and a willingness to face his plain duty. He has practiced indulgence until he has made the woman extremely extravagant.

The average girl hates work, despises domestic responsibility, and is criminally conspiring to avoid those high duties. The man has neglected to build the home, to make it attractive and magnetic. Consequently, the woman has

gone out into the world. Many of them because of necessity have been forced into the trades to live. Many of them have gone into the world because the head of the family did not perform his duty, did not make the home happy, did not regulate it. Women have been thrown into the nerve-racking conditions of the outer world. The strain is too great, her nerves are unsettled; she is unbalanced. Her unbalanced condition has produced a state of extravagance, female recklessness, which is jeopardizing the whole domestic life of America. The man is wholly to blame for these wretched conditions.

If fathers do not go back to their homes, and husbands do not perform their duties as federal heads of their families, the domestic life of America will suffer irreparably. The guilt of the men has unbalanced the women and has produced social conditions which bring the blush to every cheek.

Society
The "Ten" class, which was recently organized in the Christian Church Sunday School, was given a delightful dinner party at the home of Miss Zena Owen on Wednesday night of this week.
Each member of the class brought a contribution to the "feed" and at eight o'clock a very elaborate dinner was served in cafeteria style, the table, with its decorations of cut flowers presenting a sight which would have delighted the most artistic eye. Banana ice cream and cake were served as a second course.
Progressive Forty-two furnished most enjoyable entertainment throughout the evening, being supplemented by victrola, piano and vocal music.
The guests departed at a late hour, declaring the party a great success and wishing great growth and prosperity for the class.

while the excitement was going on among the young folks, there were busy hands in the kitchen.
When the guests were called they found more excitement in the dining room, where their eyes looked upon the table decorated in cut flowers and every thing good to eat that the heart could wish, being served cafeteria style.
There was much laughter among the whole crowd when the time came to cut the birthday cake. The afternoon was spent in music and different games and when the time came to leave all regretted that the time had passed so quickly, but wishing Miss Lois many more happy birthdays they all departed for their homes.

Mothers' Club
A program in special recognition Mothers Day was the feature of a joyable afternoon shared by the members of the Mothers' Club. Tuesday The meeting was held in the club room the program including the following numbers:
Paper, "Little Known Mothers of Well Known Men"—Mrs. M. R. Corbett.
Reading—Miss Nellie Farmer.
Biographical Sketch of Mrs. Jane Herbert Long, the "Mother of Texas"—Mrs. J. J. Clark.
In response to roll call, each member gave the name of a pioneer-mother. The program was delightfully entertaining, as well as a beautiful exemplification of the spirit of Mothers' Day.

Bankers' Benefit Association

CHANGES AGE LIMIT AND PLAN OF FIRST PAYMENT

The organization of the Bankers' Benefit Association will soon be completed. After consulting with the Doctors we have decided to raise the age limit to 55; for all who are admitted between the ages of 45 to 55, it will be necessary to have an analysis of the urine, for which the applicant will pay the doctor \$1.00.

In order to make it possible for many good people to join, the bankers have suggested that we accept \$5.00 with the application, \$5.00 June 1st, \$5.00 July 1st.

Everyone should know this is not a promotion scheme, but a hard headed, common sense business proposition. It is simply a plan where 1,000 persons band themselves together for their mutual protection to the extent of \$2,000 against loss by death. We know we must die, and we know that \$2,000, paid at once in cash, will mean much to those we leave behind.

The other day someone said that the first \$15.00 paid was all for promotion. Now one of three things is true of this party. 1st, he hasn't informed himself by reading, or 2nd, the Good Lord never endowed him with much sense, or 3rd, he is so mean that he can't see good in anything.

We are spending some money in The Brand and otherwise to inform you about the Bankers' Benefit Association, that you may avail yourself of this opportunity to do something worth while for those who are dependent on you. If you don't do it then the responsibility is yours.

We can only admit 1,000 members.

If you haven't already sent in your application, do so at once for in a very short time the association will have the limit and a delay on your part will shut you out! When the membership reaches 1,000, the only chance then is to wait for someone to die and this may be 1, 2, 3, or 4 years. Therefore, you see where you stand if you don't get in now.

If you haven't the money, see your banker, for I'm sure that anyone who desires to provide \$2,000 additional protection for those dependent on them would be considered a good risk by him. If, for any reason, he doesn't let you have it, see us.

Hand in your application to any one of the three Banks or to this Agency.

We shall be pleased to give you any desired additional information; but for your own good, act now.

ALAS, THE POOR MEAT PACKERS!

While the meat packers are groaning their complaints of poor business to the public, lamb chops are costing the people 90 cents a pound. Why cannot the government make a real investigation, stripped of all wholesale economic and bewildering theories, and let the people know why the housewife is robbed and who gets the money. If the farmers got extortionate profit, the news would be blotted from the newspapers, and the retailers could not long remain in business in the light of outrageous gouging. If the packers are not getting it then their skirts should be cleared, because, frankly, the people believe the meat trust and the meat trust only is to blame.

When the cow was simply carved into meat and the rest thrown away, meat could be had at reasonable prices, but as soon as the by-products were developed, as soon as more money was made out of the horns and the hide and the rest of the trimmings, the price of meat, instead of falling, began to rise

J. A. COOPER
At Chautauqua

and it has gone up ever since. When the supply was excessive, business was poor, meat was a drug on the market, and so "profitable prices simply had to be charged." When a supposed shortage struck the country, then prices leaped by reason of the law of supply and demand. Surely it is time all of this jugglery was stopped and a few plain understandable facts were placed before the people. The meat trust should be fairly dealt by. At present it is regarded as the most impudent of business malefactors, and it is only fair that the truth should be smoked out.

DIG INTO THE OIL ROMANCES

If there is to be a real investigation of the leasing of the naval oil reserves after Secretary Fall conducted secret negotiations with the Sinclair Oil interests for the exploitation of the Teapot Dome field, the disclosures are likely to prove interesting. The Sinclair interests appear to be perfectly frank in their explanations, but the government is peculiarly reticent and seemingly in conflict with some statements that have been made. A complete airing of the spectacular achievements of the Sinclair Oil Company undoubtedly would be an inspiration to the youth of the country, which feels to some extent that present-day opportunities are not those of the "old days." The romance of millions that could be unfolded in all probability would put fiction in the shade. From an interesting beginning, the Sinclair Company has mounted the ladder until it has gone so far as to fix prices for the Standard Oil Company, while its enterprising president has experienced a life not less filled with interesting incidents than that of the elder Rockefeller. So far as the government deal is concerned, Wall Street appears to have had knowledge of the proposition before the public had any inkling of it, so there was no opportunity for the public to express its views or to point out any weak spot, if it existed. Congress knew as little as the public, so that the principle of

the "public be damned" seems to have operated throughout the transaction. A little light no, even though late, will do no harm.

That is, if you want a neat, even growth, and know its advantages. An unkempt, shaggy lawn detracts from the appearance, and so indirectly from the value of the house.

PROGRESSIVE

"We rise by things that are 'neath our feet:

By what we have mastered of good and gain:

By the pride deposed and the passion slain.

We Now Handle the Hudson Super-Six and the Essex

It is an ambition we have long held.

Our selection as Hudson and Essex dealers marks an important step forward for us as automotive merchants. We prize it as the highest recognition of worth.

For no company weighs a prospective dealer more carefully than the builders of these cars. Most important among their requirements is the ability to organize and execute service to owners, of a high character.

To Serve Two Great Cars

For buyers today consider not only the qualities of the car they get, but the character of dealer association they thereby form.

Yet it is also true that no such dealer organization, as Hudson and Essex have built, could have been gathered about cars, that in themselves had not established a great public following, with abiding faith in their qualities.

The Hudson Super-Six is now in its sixth year as a leader among the world's fine cars. It holds its place rightfully by mechanical superiority, fine quality and appearance,

and by a price advantage that makes it the best value among fine cars, by a wide margin.

And you already know what owners say of the economy, long life and reliability of the Essex. Certainly no car of its price was ever so widely compared in essential qualities to costly fine cars.

It is our wish to pledge the public a service that in all respects will match the uniformly high character of Hudson and Essex service, and be in all ways worthy of these two great cars.

LARGE CROWD LISTENS TO CANDIDATE

(Continued from Page One)

The wheat compared with our exports of wheat and the effect of the duty is negligible except in the immediate region of the importation. But if the duty does not enhance the value, then the consumer is not burdened and we have the delightful experience of collecting revenue without injuring anybody. That's a fine way to raise revenue. A little more of it would relieve some of the burden of direct taxes under which we are now groaning.

"Let us dismiss for the moment all thought of benefit and consider the situation from the standpoint of revenue alone. In 1920 and 1921 we imported 439,000,000 pounds of cotton and only 200,000,000 pounds of cotton cloth and yarn. Why should we not collect revenue from the larger volume of cotton imports as well as from the smaller volume of cotton manufactures? We imported 581,000,000 pounds of wool and only 26,000,000 pounds of woolen goods. Why not collect revenue from the wool as well as the woolen goods? We imported 3,546,000,000 pounds of wheat against only 332,000,000 pounds of four; we imported 317,000,000 pounds of oil cake, 858,000,000 pounds of hides and skins, and 1,071,000,000 pounds of vegetable oils. These are only a few of the imported farm and ranch products from which no revenue was collected under the Democratic tariff and from which the free raw material advocates now offering for the Senate would collect no revenue. I would collect revenue from them all, and I frankly declare that I would be moved in so doing both by the principle of equal an uniform taxation and by the hope that in giving a true application of this true principle I might confer some benefit upon American farmers and ranchmen.

"Someone asked me the other day why I pick on Thomas. I am not picking on Mr. Thomas in the sense of nagging or with any desire for controversy. Mr. Thomas is a man of fine ability and high repute as a lawyer and witness and I concede his sincerity. But he wishes to represent me as well as other citizens in the United States Senate, there to speak for us for a period of six years. We will have small chance to instruct him, if he should be

elected, and he will be warranted in assuming that his election will mean the endorsement of his views. His very ability makes him the more dangerous.

"Whatever may happen to me personally, I feel it my duty as a citizen to challenge any foolish or dangerous proposal made in the senatorial contest. Hence I call attention to the published report of Mr. Thomas' speech at Dalhart seriously proposing a revival of the United States Grain Corporation. Surely the wheat raisers of Texas have not forgotten that the grain corporation took out of their pockets an average of fifty cents per bushel when it fixed a price of \$2.00 on wheat that was actually selling at \$2.35 to \$2.50 because a majority of the people of the United States were more interested in cheap bread than in high wheat. I cannot conceive a greater disaster to agriculture than to put it in the power of majority consumers to fix prices on farm production.

"In my opinion two of his major proposals are extremely perilous and I should deeply regret an endorsement of these proposals. One is to have the Congress of the United States fix the price of farm products. We need only to look at Soviet Russia to see where that folly leads. We need only to recall our own war experience to realize how disastrous it is to producers, who are in a small minority, to permit a great majority of consumers to fix their prices. The whole scheme of price fix-

ing to the distinct disadvantage of food producers and to the distinct advantage of food handlers and food consumers. The fixed prices of wheat, hogs, potatoes and cotton seed were actually lower than the prevailing market prices and prevented the normal advances under the law of supply and demand.

"Not only is that particular proposal unfriendly to Texas farmers, but I fear that a man who embraces such fallacy will be led into other dangerous adventures. It is of a kind with all the discarded but ever recurring attempts of socialists to create value by fiat and to make the government the master of private business.

"The other dangerous proposal which Mr. Thomas makes is his denial of the right and duty of the federal government to use its powers in suppressing an insurrection which a state is unable or unwilling to control. He makes his meaning perfectly clear by citing the act of President Cleveland in suppressing the insurrection led by Eugene V. Debs which the Governor of Illinois refused to suppress, and the act of President Harding in suppressing the civil war which the Governor of West Virginia was unable to suppress. According to the theory of Mr. Thomas the nation is helpless to maintain its peace, to move its commerce and preserve its orderly life against internal disorder. From that theory I dissent. I hold that the Federal government is committed by the constitution and by the inherent right of national defense to compose disorder which interferes

with the free movement of interstate commerce when any state is lacking in power or defaults in duty.

"Mr. Thomas has raised two issues of vast importance and I am meeting them. I think that is what political campaigns are for—to present for the sovereign voters to decide.
