HONEY PHILOSOPHY for 1922

WHAT a wonderful boy they say he is—David Gladstone, fifteen years old, four feet tall, and yet a freshman in the College of Arts and Pure Sciences of New York University. He plans to enter law school as soon as he has completed his college requirements. Education? A prodigy, one of the seven wonders of the world. Isn't it a funny idea when those who see the setting of the sun know that a boy of seven—the age of reason—always has a much better education than Gladstones when he is taught, and really learns that happiness comes from making the other fellow happy. That's the meat. Why fuss over the trimmings?

Thrift Founded the Nation

Three hundred and two years ago a band of Pilgrims cast anchor on a wild New England shore.

Scarcely had these brave pioneers settled in their new colony when the terrible winter was upon them. Only half the party survived the hardships of that winter.

Nothing daunted, those who were spared stayed on, and planted their crops. By exercising the strictest economy they were able to live and prosper. These Pilgrims learned the value of thrift us a lesson thatft. Their method le we would do well to follow.
