ed to work up two proposals, one under which he would build all of the hangars and other buildings, one under which he would rent similar facilities from the city.

THE TWO eight-plane T-hangers for which Godwin opened bids Monday "might be built cheaper by an individual," Commissioner Cooper observed. Bid tabulations showed that the type construction preferred by the city commission, masonry walls and a curved metal roof, brought only two bids, \$56,367 by M. B. Allen Construction Co. of Amarillo, and \$56,740 by the Ladybug Co. of Hereford.

The city manager had quoted the designers estimate of the cost at \$35,000 at the time the plans were approved. Parker Bros. of Hereford bid \$35,139.56, but used an alternate roof construction plan.

Proposals for a metal building with concrete floor brought a variety of bids and included widely varied framing and sheathing plans: These bids included \$53,100 from The Ladybug Co.; \$30,432.38 from Parker Bros.; \$28,086.13 from Carl McCaslin Lumber Co.; \$42,159 from Star Manufacturing Co.; and \$49,999 from Link Tschudy Co. of Amarillo. Allen, Parker and Tschudy offered alternate-bids on buildings without concrete floors, which shaved several thousand dollars from the base bids noted above.

Bryant Bros. of Hereford submitted the lowest bid offered at \$24,000 on an all metal building, but did not arrive at City Hall until after the official bid opening. Their bid was not admitted.

THE COMMISSION was scheduled to open bids on two other proposals, installation of heating and air conditioning equipment on the second floor of city hall, and the sale of two steel granaries located on the airport land.

Action was postponed on the former due to receipt of only one bid.

Chester Wiggins bid \$410 to gain possession of the granaries. Unsuccessful bidders were Adrian Drager at \$190, Ross Walnick at \$100 for one tank, and Charles Packard at \$195.

TURNING to the paving of "skips" in previous paving projects, Commissioner Moore asked what could be done about these. Attorney Langley said that working up assessments would require about six weeks.

Commissioner Dr. R. R. Wills asked, "What about our own paving equipment?"

Mayor Godwin said, "We've still got it, but we don't have anybody that knows how to use it." The matter was dropped.

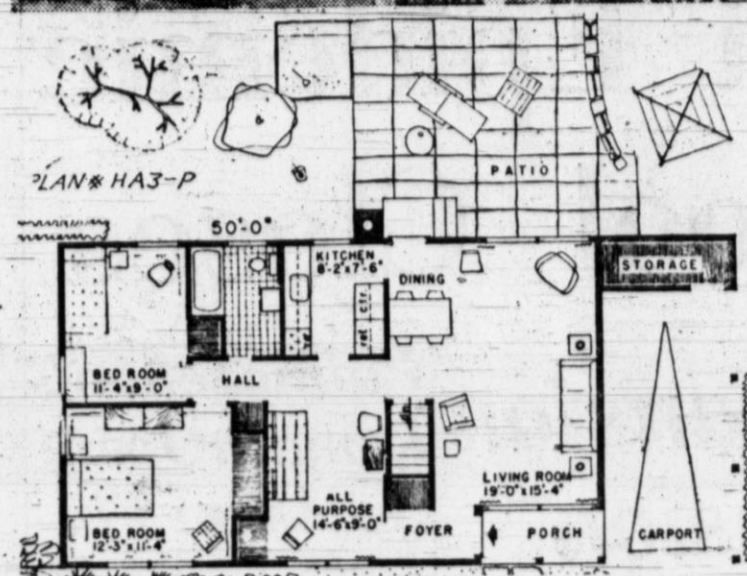

THE PURCHASE of a new fire truck was discussed briefly. Commissioner Wills observed, "We sort of obligated ourselves about six months ago."

Commissioner Cooper said he feels that a less expensive truck than that specified in previous discussions would serve the needs of the community and surrounding rural areas. Wills cautioned against buying fire truck that would not secure insurance rate credit from the state fire commission. No action was taken on the fire truck matter.

Commissioner Don Little and Bayne were both absent from the meeting.

It also has a full basement, a large patio in the rear and a through living room, front to rear. The plan, HA3-P, is by Architect Samuel Paul, 89-51 164th St., Jamaica N.Y.

Expansion...

(Continued From Page 1)

now, we might find building a wing at the junior high would result in a savings. But earlier it appeared that such an expansion was not as desirable as expansion of the high school.

Cunningham proposed, and the board approved a study of the problem by the school administrative staff and the use of Morris Wallace of Texas Tech, Lubbock, as a consultant. A report of this study is expected to be made on Oct. 23, during the board's special meeting on building needs.

The moving of the high school football stadium to school property located in northwest Hereford was discussed by the trustees. The increased physical education program, requirements of five football teams and two bands for outdoor space was cited as a pressing reason for expanding the practice and marching area for these activities.

Cunningham estimated, on the basis of a similar move just completed at Littlefield, that moving the stadium would cost about \$63,000.

HEAD COACH Jack Harris met with the board to discuss coaching staff needs. The junior high school shop teacher, Wendell Maloney, is to be assigned additional duties as an assistant to junior high coach J. E. Moad, as a result of trustees' honoring Harris request for an increased staff.

Approval also was given to employment of Cornell & Co., Amarillo, to audit school financial records for the 1956-57, 1957-58, and 1958-59 years, and to publish a financial statement for the past year as soon as practicable. The board discussed policies to be adopted on the gift of school sites to the district, and on maternity leave for teachers.

ly have about two dozen such aids in each issue have reported they've been swamped with applicants. Some people think the lettuce and carrot harvest brought the people in, others suspect seismograph crews are here, and construction workers on paving and building projects undoubtedly account for a portion of the newcomers. We've heard of workmen temporarily employed here that are commuting from Clovis, Amarillo and Canyon.

Zolo Master Magician and Co. will present two hours of magic at the high school auditorium Oct. 15, at 8 p.m. With his advertised "tons of equipment" he is supposed to be able to present a show which will be entertaining to the adult as well as the children. The show is sponsored by the Hereford Jaycees and admission to see the show will be adults \$1 and children 50 cents.

The meeting of the Blue Bird and Camp Fire leaders has been postponed according to Mrs. Lola Scott. The meeting was scheduled for October, but because of the Training Course which was held in September it was decided that it would be called off until a later date.

His father credits 4-H demonstrations, group work and activities with helping develop his son and he says, "His interests have increased our knowledge as a farm family and helped us put into practice newer and better methods of farming and livestock raising."

Pete's successful 4-H career has been supervised by Hugh Clearman, Deaf Smith county agent. Clearman says, "Pete is a recognized leader and has progressed to the point where he has his own farm operations; now 16, he is doing as good as the average county farmer. He is a real asset to 4-H club work in the county."

too many weeds. The brothers cleaned out the weeds, applied fertilizer and irrigation and that fall harvested better than a bale from their acre.

In their words, "Dad was surprised and we were delighted."

PETE CONTINUED to expand his 4-H demonstrations by renting land from his father for milo, wheat and an acre of turnips. In 1956 he rented from his father a farm which had been traded for and by midsummer 20 acres of land for wheat had been prepared. The farm was heavily infested with Johnsongrass and young Plank has planned his farming operations so this pest can be controlled.

Pete and his younger brother recently pooled their money and bought a used tractor.

Included in his 1957 crops was 20 acres of onions. "This," he reported, "was one project that didn't turn out so well but I have stored a lot of onions and if the price improves, I'll still be on the right side of the ledger."

ford the tie. Coached by Buzz Warren, Plainview operates primarily off a single wing formation with some T mixed in. Spearheading the attack is tailback Jesse McGuire, who is being boomed for all-state honors.

McGuire is a triple-threat man who can run, pass or punt with equal facility. A crunching fullback, Robert Dalton, increases the ground threat by Plainview. Dalton, who weighs 215, is a converted tackle. Another scoring threat is left end Bobby Huntington who is a good pass receiver.

PROBABLE starting lineup for Plainview has McGuire, 155, at tailback; Ronnie Stokes, 160, blocking back; Stanley Gardner, 155, wingback; Dalton, fullback;

Dewey Smith, 160, right end; Perry McWilliams, 175, right tackle; Gary Grott, 180, right guard; Lin Jones, 175, center; Darrell Anderson, 180, left guard; George Jones, 162, left tackle and Huntington, left end.

Harris probably will start Steve Slagle and Leslie Sharp at ends; Bill Drake and Danny Martin at tackles; Pete Plank and Charles Self at guard; Gary Rohand at center; Lookingbill at quarterback; Jim Curtisinger and Durward Jacobs at halfbacks and C. D. Fitzgerald at fullback. The Hereford freshman team will play at Plainview today beginning at 6:30 p.m. The frosh have won three and lost one.

In other games involving District 1-AAA teams, Phillips is at Ysleta; Littlefield is at Canyon; Dumas plays at Seymour, and Levelland goes to Andrews.

This is the world-famous BRUNER Fully Automatic that actually regenerates itself.

Here's How it Works—

Thousands of tiny golden beads called "Dowex" reach out and instantly trap the hardness particles in hard water. These chemical impurities remain inside the softener while the pure, softened water flows right on through. During the automatic regeneration process, this Bruner water softener flushes away the accumulated hardness minerals.

Dowex Softening Mineral Lasts a Lifetime—

Only nationally advertised DOWEX Lifetime Softening mineral, manufactured by the Dow Chemical Co., is used in Bruner softeners. A triple-duty mineral—it Softens, Filters and Removes Iron. Look for the DOWEX label, your assurance of highest quality.

susceptible," Seigler pointed out. "This will help keep from spreading colds and flu," he said.

SEIGLER said the hospital staff received Asian flu inoculations Monday. The Hereford Clinic doctors and staff have also received some inoculations.

Dr. R. R. Wills, county health officer, said people should avoid crowds, particularly in enclosed places, to try to keep the colds from spreading. He said there has been some pneumonia in the area, but mostly, "its just bad colds." He added that the clinic had been rushed by the number of people with colds.

By JIMMIE GILLENTE

THE PAST FEW DAYS have been like "Old-Home Week" as former residents showed up here and there. All of them are talking about how much the town has changed, though few of us who live here from day to day fully realize the extent of these changes.

Mr. and Mrs. Bob Hess were here over the weekend visiting with Mrs. Hess' parents, Mr. and Mrs. F. A. Tucker and family. Bob, a former KPAN-announcer, went from here to Lubbock, where he made an outstanding record with his radio program. Recently he resigned to accept management of the Artesia station.

STANLEY PHILLIP is also visiting here for the next week or so with his parents, Mr. and Mrs. John Phillip. Stanley went all of the way from printer's devil to shop foreman in The Brand office — and is now on the Billings, Mont. paper. He says he has developed quite a yen for trout fishing and, from the way he talks, he must be active in the Billings Chamber of Commerce. Stanley simply can't get over the way the town has changed. Says it just doesn't seem right without the old Chocolate Shop on the corner.

Ray Downey, former appliance dealer, is now in the insurance business out of Amarillo. Ray dropped in for a chat and to report that the family is doing fine.

FRANKLY, I would say the Rus-

sians stole a march on the U. S. A. when they launched their space satellite. However, they have had a lot more experience with "satellites," one kind and another. They did make one mistake, though. They should have waited until after the World Series. Even a successful trip to the moon wouldn't take people's mind off the series for very long.

Meanwhile, law enforcement officers are wondering what will happen next — and if someone is trying to build up an arsenal. The thing that has them wondering is the type of loot taken in a robbery at the Hereford Hardware. Missing are 11 pistols, .45, .38 and .22 calibers, an unknown quantity of ammunition; 5 hunting knives and \$10 in cash. Sounds as if Jessie James Jr. might break loose any night.

NEW ANGLES keep popping up on the Little Rock integration deal. I was reading one fellow the other day who figures that the Negroes — now under armed guard — are more near the status of slavery than at any time prior to the Civil War. Unquestionably, the word "integration" far from describes the situation in Arkansas. The Negroes have been "de-segregated", perhaps, but they will not be "integrated" until they are accepted willingly and wholeheartedly by the citizens of the community and by students of the school. Certainly, the colored race is further from this goal than before the federal court decision and arrival of the federal troops.

Almost as problematical as the integration question is that of the current "flu" epidemic. Some medics attribute it to Asiatic flu, while others are inclined to "pish-pish" the whole Asiatic angle as "newspaper talk." Never-the-less, something is taking quite a hunk out of the "average daily atten-

dance" in Hereford Schools, according to Fred Cunningham, superintendent. He reported 343 absentees Monday and 359 Tuesday from a total enrollment of 2,577. Ordinarily, the school has an average of 5 per cent of the students absent, but it jumped to 13.3 per cent Monday and was near 14 per cent Tuesday. Cunningham also said that the teacher personnel is affected with four to five out each day.

Rotary District Governor Truett Walton of Abilene has attracted wide interest with the following story as he makes his rounds visiting the various clubs:

A Negro man pulled a big truck up to the curb and parked next to a fire plug. A policeman standing nearby yelled at him to move on telling him he couldn't park there. The Negro didn't even look his way. The officer walked over and told him again to move away from the fire zone.

"I ain't interested in no fire plug," the offender replied, "and furthermore I ain't interested in no flat foot cop either."

The officer took him by the arm and led him to the police station where he turned him over to the traffic sergeant. The sergeant listened to the officers story and demanded an explanation from the Negro.

"Now look boss, I done tried to tell this flatfoot I ain't interested in no fireplug, I ain't interested in no flatfoot cop and furthermore I ain't interested in no ugly traffic sergeant."

With this the sergeant grabbed him up and took him to the judge. The judge heard the sergeants story and he too demand that the Negro explain his actions.

"Now listen Colonel, I done tried twice to explain this. I ain't interested in no fire plug, I ain't interested in no ugly traffic sergeant and furthermore I ain't interested in no snob of a judge."

The good judge raised out of his chair and told the Negro he would give him five seconds to explain his behavior, and if he didn't he would sentence him to 60 days in jail.

The Negro smiled and chanted, "Bossman, I done told you all I'm gonna tell you. I ain't interested in nothin. That truck I'm driving is the state pen truck. I'm driving it for the warden and doing a 99 year term."

HENRY ALTON MORGAN

Prison Fugitive To Be Returned To North Carolina

An escapee from the North Carolina State Penitentiary was arrested in Hereford by city police Sunday and is being held in city jail pending extradition.

North Carolina officers are to pick him up today.

Henry Alton Morgan, 35, formerly of Hereford, was arrested at the Tasty Drive-in. Police had been told by North Carolina prison officials that Morgan might return to the Hereford area.

According to Chief Henry Aycock, Morgan had escaped from prison on May 6 of this year. He was serving time on a 9-month sentence for driving while intoxicated and driving without a license.

After notifying the head of the North Carolina prison system, Aycock received a fugitive warrant Tuesday. He said Morgan at first said he would fight extradition and then changed his mind.

According to Aycock, Morgan "has been all over the country" since escaping.

GAA Women Executive Has Office in the Air

WOMAN PILOT—Mrs. Blanche Noyes, chief of the air marking staff of the Civil Aeronautics Administration, sits at the controls of her CAA plane, which serves as her office when she is flight-checking air markers across the country.

By JANE EADS

WASHINGTON — Blanche Noyes gave up a career behind the footlights 28 years ago to become one of aviation's leading ladies.

Now in her challenging real-life role as chief of the air marking staff of the Civil Aeronautics Administration, she is the only woman federal executive flying government aircraft. Though she spends a lot of her time in the air, flying alone, flight-checking air markers or plotting new sky-

ways, she says she's never lonely. "It's the only time I'm completely relaxed and happy," she told me. "I wouldn't change jobs for anything. It gets more interesting as time goes on."

Since 1936, when the program started, Mrs. Noyes has directed the placing of some 45,000 air markers (mostly on rooftops) to identify towns and nearby airports for pilots, and many have credited them with saving their lives. Still, Mrs. Noyes says she sees great

Both Stanton Teams Beaten

Both Stanton Junior High football teams lost close games to Dimmitt at Dimmitt Tuesday night. The Stanton seventh graders were stopped, 7-0, with Dimmitt gaining a touchdown in the third quarter.

The eighth graders from Stanton scored in the first period to take a 6-0 lead, but Dimmitt came back in the same quarter for a touchdown and extra point to win the game, 7-6.

Halfback Dickie Mason scored Stanton's TD on a 35-yard run; Stanton had a drive going in the last quarter but the clock ran out with the ball on the Dimmitt 10-yard line.

AMERICANS CAN HAPPY

NEW YORK (AP) — "Americans opened 42 billion cans last year 259 for every man, woman and child in the country."

Steelways says that from 50 to 80 per cent of such crops as tomatoes, sweet corn, beets, peaches, pears and apricots are preserved in cans.

room for improvement.

"Specifically, I would like to see every town and community of 75,000 to 100,000 in the United States air marked," she said. "CAA is doing everything it can to eliminate accidents. There isn't a cloud that hasn't been turned to cut down flying hazards and improve the airways to make flying completely safe."

She was particularly excited over a new luminous paint developed by a firm working cooperatively on experimental markers. She says it is now being used by the military at a number of bases to put on training aircraft to eliminate air collisions.

Mrs. Noyes, a handsome, fashion-conscious woman with a special yen for hats and jewelry, was taught to fly in exactly 3 hours and 45 minutes by her late husband, Dewey L. Noyes, an air mail pilot. She got her present job through personal endorsement by Amelia Earhart, whom she met in 1929 when they were competitors in the first women's air derby flying from Santa Monica to Cleveland.

She was named "Woman of the Year in Aviation" in 1954 and is a past international president of the 99s Inc., world-wide women's flyers' club. She has held the east-to-west speed record for women and competed against men to be co-winner of the transcontinental Bendix Air Race.

VOGUE FOR FALL—Pretty Janet Moyer of San Antonio was dressed for fall when Fall arrived. Close to 6 inches of rain brought out the bathing suit and what is better for chilly temperatures than a mink coat? Perhaps a reversible mink coat, says Janet. (AP Photo)

Sammy Lesly on Wentworth Team

LEXINGTON, Mo. Cadet Sammy Lesly, son of Mr. and Mrs. Luther Lesly, Rt. 4 Hereford, has earned a berth on Wentworth Military academy's high school football team, according to Capt. Bill Coulter, prep grid mentor. Sammy is a back on the cadet squad.

The Wentworth Junior Dragons opened their season in Alumni stadium here by defeating Missouri Military academy, 7-6, then they launched their road campaign last Friday evening traveling to St. Joseph, Mo., and engaging the Lafayette High School Shamrocks, losing 31-0.

STARTING EARLY

UPPER MARLBORO, Md. (AP) — Police Private Chris F. Preston had stopped for a traffic light when the pair wielding knives approached and one said, "Wanna feel my blade, man?"

Preston said he could barely see them from the car. One was 9, the other 10.

Judge Emmett H. Nanna said the youngsters were "a little young to be in the mugging business," told their parents to "lay on a little wood."

Civil Aeronautics Administration reported there are 298,076 active pilots in the United States. Of these, 80,494 were student pilots, and 132,525 pilots flying private airplanes.

Charge Local Man in Amarillo Court

Earl Alan Virden, 47, of Hereford was charged with driving while intoxicated, second offense, in Amarillo Monday.

Virden was arrested by highway patrolmen just west of Amarillo on U. S. Highway 66. His bond has been set at \$1,500 by Justice of the Peace Bonita Potter.

Virden was convicted of driving while intoxicated in Hereford in September of 1949, according to records in the sheriff's department.

ENJOY OUTING

Members of the Nateena Camp Fire group, with their guardians, Mrs. Mary Stapp and Mrs. Abie Crume, enjoyed a hike and picnic supper at Veteran's Park the past Thursday afternoon. This is part of the girls work toward their "Trail Seeker" rank of Camp Fire.

Participating in the outing were Ann Cunningham, Judy Crume, Nancy Boyer, Sharon Tinnin, Barbara Langley, Susan Stapp, Sharon Savy, Beverly Roberts and Donna Williams.

SCIENTIST BLAMES SCIENTIST

KENT, Ohio (AP) — A Kent State professor says scientists themselves are partly responsible for the small number of young people attracted to careers in science.

Dr. Ralph W. Dexter, a biological researcher, says "in spite of the role that science has played in developing modern civilization, the public has little knowledge and little appreciation of science and

scientists." He says scientists themselves could improve the situation "by giving more attention to social issues. A more sympathetic press and a more sympathetic public could do much to correct unfavorable impressions."

Cookies and cokes were served to everyone present at the meeting.

Investigate Theft

Sheriff's officers are investigating the theft of \$285 from Pedro Guerrero, a Mexican national, at Howard Gault's farm Sunday. Sheriff Charles Skelton said Guerrero said someone took the money from a trunk in his room.

MEETING PROGRAM

Design and flower arrangement will be the topic of the program which Mrs. O. G. Hill and Mrs. Glenn Boardman will present to the Hereford Garden Club at its regular meeting Friday afternoon. The club will meet in the home of Mrs. E. W. Young, 306 West 7th, at 3 p.m.

Thursday with Mrs. Floyd Cole. Some of the rainfall amounts reported in the community were .65 at the Floyd Cole home and about .50 at the Frank Robbins place.

Group Therapy Proving Effective in Treatment of Mental Illness

By P. D. ELDRED
SAN FRANCISCO (AP) — The Army is sending more and more men with emotional disorders back to duty with a method of treatment only now coming into widespread use: group therapy.

The treatment, as used at Letterman Army Hospital here, involves group discussions of the patients' problems "with most of the therapy done by the other patients."

The method has been developing for perhaps a dozen years.

"In group therapy the patient learns to recognize his debility and assists in determining the method of controlling or offsetting it," explains Lt. Col. W. R. Wilk, chief of the Clinical Psychology Service at Letterman.

"It is very useful, for it helps a patient to work through his problems, to find himself. It helps to

restore him to life as an efficient, stable person; one able to cope with his own problems and those of the world.

"Patients get to know there are others who have problems similar to their own. This gives them emotional support, makes them feel less isolated, less alone."

A group is operated on a "permissive" basis under the tactful guidance of a therapist, with individuals saying or doing anything they want, so long as they don't resort to violence.

This "permissive" approach almost invariably results in some members of the group talking about sex. They belabor the subject excessively, until it is exhausted. This takes time, sometimes several discussion meetings, before they drop it.

Leading questions from the therapist prompt the patients to talk about personal problems, personal outlook. The others enter into it, a surprisingly wise and understanding group despite their own mental conditions.

"I think most of the therapy is

done by the other patients," Col. Wilk said. "If a patient is abusive and belligerently claims there is nothing wrong with him, the others will tell him where he is wrong and why."

"At the same time, they will endorse the correct things he says, thus helping him to get his thinking into focus. In time, it may take as many as 30 or 40 talks like this, his trouble may clear up and he can return to duty."

CARD OF THANKS

We wish to take this means of expressing our sincere appreciation to all of those who were so kind, thoughtful and unselfish during the illness of our loved one, Mrs. Homer Brumley. We especially appreciate the blood donors, the women who sat up at the hospital, night after night, those who sent flowers, came to visit, and the hundreds of others who did everything within their power to help. It is impossible to adequately cover them all, but we do appreciate the many kind deeds. You made her life brighter and have helped us greatly in our time of need. May God bless each of you.

Rain Delays Play in Golf Tourney

Steady rain Sunday afternoon forced postponement of most of the annual Hereford City Golf Tournament. All golfers still in the tourney have until Sunday to complete their matches.

Charles Seed and Joe Kerr will meet at 1 p.m. Sunday in the finals of the men's division. Juanita Sims repeated as city women's champion by downing Hootie Gilbreath 3 and 1 in the finals played Monday afternoon.

Seed advanced to the men's final with victories over J. A. Pitman, 4 and 3, and Max Drever, 5 and 4. Kerr defeated Bob Lindsey, defending champ, 1-up, and W. W. Gilbreath, 3 and 2.

with a 2 and 1 decision over Rowena Posey.

First flight championship will be decided Sunday when John Ethridge meets either Frank Cogdell or Joe Butler. Cogdell and Butler were even after 18 holes Sunday and will play the tie off this week.

DON VAUGHN meets Jim Wood for first flight consolation. The second flight semifinals place Loyd Mings against W. B. Stark Sr. and W. L. Edelman against Jim Garner. Winners will meet for the title. Doc Cowan and E. S. Vaughn meet for second flight consolation.

Cliff Arnold took a 1-up, 19-hole victory over Troy Moore to win the third flight. Charlie Seeds won first flight consolation from Glenn Mings, 1-up.

Prizes and trophies will be presented to winners at 5:30 p.m. Sunday.

Panel Discussion Heads Stanton's P-TA Program

A panel discussion on what a parent should expect of a school and vice-versa highlighted the Stanton Junior High School Parent-Teacher Assn. meeting Thursday night in the school's auditorium.

The panel consisted of Mrs. Ernest McGee, H. D. Boardman, Mrs. A. T. Mims, L. L. Chism, Russell Engles and Earnest Langley.

Mrs. Ernest McGee discussed faith in the home. She said that the parent should teach the child to have faith in their parents, faith in themselves and faith in God.

H. D. Boardman made the statement, "Why work for the family if working you neglect what you work for?" He said to show love and not fail in giving the child a spiritual push.

The spiritual view was discussed by the Rev. Russell Engles. He said that the parent should teach God and the family should read and discuss the Bible together.

To discuss the medical obligations to the child was Mrs. A. T. Mims. She discussed the physical needs. She said that the parent should be more concerned about the diet of the child.

"It is important," she said, "to see that the child has an adequate breakfast, that he takes time to eat and has plenty to eat." Mrs. Mims also stated that the child should be kept home when ill and should stay home long enough to recover his illness.

Children need more physical education and to help their mental education each parent should give them the understanding they need, she said.

L. L. Chism discussed the problem from the teachers point of view. He told the panel and members that school was not only to teach boys and girls reading and writing and arithmetic, but also to give them the preparation to live life a little better than they would otherwise.

He gave the request that parents teach students courtesy and neatness as well as cleanliness. The student should be made to feel that he belongs to the school and that the school belongs to him.

Earnest Langley explained to those present that the students of today were the leaders of tomorrow and the back ground they acquired while at home would decide the leaders.

Yearbooks were presented to the members and an announcement of Dr. John MacFarland's lecture scheduled for 7:30 p.m. today to the Hereford High School P-TA in the high school auditorium. Dr. MacFarland is superintendent of the Amarillo school system.

TRAINING PAYS
PROVIDENCE, Ky. — Kern Montgomery always had a kind word for James Travis when the 6-year-old visited the coal mine where Montgomery operated a conveyor.

He even taught Jimmy how to operate the conveyor, explaining which button started and which stopped the machine.

One day recently they were standing on a coal loading platform when Montgomery's arm was caught in the conveyor. The arm was crushed and Montgomery was about to be mangled.

Remembering what he had been taught, Jimmy reached up and stopped the machine — probably saving his friend's life.

WALTER ROGERS WRITES:
Committee Checking On Traffic Safety

To the people of the 18th District: Much information is being gathered together at the present time by a Congressional committee in the hope that some solution may be found to the traffic problem that confronts this nation. This problem is one that takes approximately 20,000 lives each year and leaves between a million and a million and a half citizens of this country maimed or injured.

Research has commenced on several fronts. The automobile manufacturers are doing much of themselves in an effort to provide a safer package within which the occupant is conveyed from one point to another. This includes the new safety steering wheel, sometimes called the deep dish wheel. This is intended to provide a cushioning effect on the chest in the event of collision so that the body may be stopped before it is punctured by the steering post.

Another safety feature is new type door latches which will prevent the door from opening on impact. This feature was installed because statistics reveal that your

AUSTIN HIGHLIGHTS

Gov. Daniel Goes All Out for His Program

By VERN SANFORD
Texas Press Association

AUSTIN, — Gov. Price Daniel apparently is going all out to get the balance of his 1957-58 program adopted into law.

Special legislative session begins Oct. 14.

In recent speeches over the state Daniel has plugged for lobby control and a crime commission. More talks were scheduled — one on water conservation in San Antonio and another in Liberty.

In addition, the governor has made some outspoken statements on federal-state relationships. "Excerpts from his busy round:

CRIME — Present criminal code, says the governor, "is so antiquated that it protects the convicted criminal more than it protects the public."

He asked for a state law enforcement study commission that would make recommendations to the next regular Legislature on how crime and highway accidents can be reduced.

LOBBY CONTROL — Opponents of this bill are trying "to picture it as a struggle between business and labor," said the governor.

"This is ridiculous... the bill would require registration of those employed by both labor and industry to influence legislation."

"Vast majority of Austin lobbyists are legitimate operators who identify themselves and honestly perform their work. They have nothing to fear from this bill."

Opponents of the bill, said Daniel, are "modern-day carpetbaggers who hide their identity and improper expenditures."

FEDERAL SCHOOL AID — "Full responsibility for the operation and financing of public schools should be exercised by the states and their political subdivisions."

Governor Daniel sent a resolution to this effect to the Federal State Action Committee meeting in Chicago.

"With federal dollars comes federal controls," commented Daniel. As a single exception, Daniel favored federal aid for schools with a heavy enrollment from U. S. military installations.

LITTLE ROCK CONTROVERSY — Governor Daniel suggested that both President Eisenhower and Arkansas Gov. Orval Faubus had fumbled in handling the school integration problems there. Neither, he said, had "exhausted every means at their command" to avoid a violent showdown.

"Of course, here in Texas," said the governor, "we would have sent a couple of Texas Rangers to handle the situation."

BRIGHT FUTURE — Texans can look forward to more money, but a little less elbow room in the next few years.

So says U. S. Sen. Lyndon Johnson in predicting a population of 12 million for the state by 1975 with a total personal income of \$24,000,000,000. This compares with a \$9,000,000,000 income for some 9,500,000 people in the past few years.

Senator Johnson forecast a 1975 farm output of \$2,900,000,000, up a billion from now, and factory production worth \$8,600,000,000, nearly three times present production.

But, said Johnson, we cannot operate a \$24,000,000,000 state on the basis of our present water use. The rosy prospects for the future will quickly vanish unless we act to control our water resources."

"Texas," he said, "is a growing giant wearing last year's shirt. It's going to strangle," he said, unless there is quick action.

WEATHER TOLL — Cost of Texas' natural disasters in 1957 would be \$12 for every man, woman and child in the state.

Latest Civil Defense Department reports put the year's toll from blizzards, floods, tornadoes and hurricanes at \$1,000,000,000 in property damage.

Once again, said Department Director William L. McGill, Texas holds the "dubious distinction of being first in the nation in major disasters."

TB IN TEXAS — Startling facts revealed about tuberculosis in Texas came from Dr. Patrick Mc-

GEORGE HEARD WRITES:

Life Among the Iraqi Marrieds

(EDITOR'S NOTE: George Heard of Hereford is still working away in the Government Oil Refinery in Iraq. Here is another of his letters on the warp and woof of Iraqi life. This one concerns marriage customs.)

Dear Folks: The current issue of the European edition of Time magazine gives an account of the courtship and engagement of the King of Iraq. I have wondered if your edition gives it a writeup. There was nothing unusual about it by our standards so it may have received little notice. But Arabic or near Eastern rules of courtship are so much different from our rules that a simple story of "Boy Meets Girl", "Girl Catches Boy" really set the tongues wagging.

As a rule there are two things that happen over here that lead to marriage. The first is that parents of Boy and parents of Girl get together and decide on a marriage. The other thing that can happen is that Boy can fall in love with love and then ask

some older friend of his father to find him a girl.

If the parents make the decision, the marriage may take place at a very early age, possibly as low as 10 years. When this happens it may be several years before a home is established and the kids may keep on living with their own parents. A wedding took place since we have been here where the groom was supposed to be 14 and the bride 11. Friends who went to the wedding reported that the groom was younger than that and the bride older. Ages are not accurately kept here in all instances. These kids started living in their room in his parents series of mud huts.

You may think that this is just for the uneducated but this custom is for almost everyone. One of the Iraqi engineers who went to school in the States was recently married. He had been working at the refinery for three years and was almost 30 years old. He first fell in love with the idea of getting married, then he started having people help him find a wife. One of the engineers about his age who was already married helped him. So did several friends, and relatives. They got complete family, personal and financial information from him. They took his specifications around until they found some father who was interested in him as a son-in-law. They then brought him specifications of the girls who were available and their comments on the girl if they had seen her. If he was sufficiently interested, they would get a picture of the prospect. That is not always possible. Some time the contract was made entirely in the dark as far as looks of the bride is concerned.

A well-educated young man who has a good job has a chance to get a well-educated girl. If she is not so well educated, she needs either beauty or money. If the young man does not have a good education, he needs a better than average job, or money or a family with influence. Influence is better than cash because influence can put one in a position to make money. The whole thing is a trade: looks, money, family, position and education are bartered. The father with several daughters is always

Legion Auxiliary Has Guest Speaker

Charles Crowell, guest speaker for the American Legion Auxiliary Oct. 1, discussed the subject of scholarship and education. He said that there were several scholarships offered to children of veterans who died in service were never applied for. Crowell explained that the Legion could help by showing citizens how the scholarships were available.

Oct. 1 was designated as the regular business meeting and it was held in the Rock Clubhouse at Veterans Park. New year books were distributed by the year book committee.

Mrs. Beattie Saulcy, Mrs. Ella Kropff, secretary, Mrs. Alta Davis and Mrs. Artie Frost were elected delegates to the District convention to be held in Shamrock Nov. 9 and 10.

Mrs. Ethel Logan sent her resignation as Sergeant at Arms and Mrs. Edna Smith was elected to fill that office. Mrs. Cecil Smythe was elected as assistant.

Funk, Nelson To Tangle in Rematch Here

A rematch between Dory Funk and Art Nelson heads the wrestling card for Saturday night in the Bull Barn.

Last week Nelson and Funk staged a bloody three-fall brawl with Nelson being the winner. Funk tossed Nelson out of the ring for the first fall but Nelson came back to gain the last two.

Roger MacKay and John Tolos, in contrast to Funk and Nelson, fought a clean, fast match with MacKay winning the last two falls.

MacKay also will be back in the local ring this Saturday against Dick Raines.

Both matches are scheduled for two out of three falls with a one-hour time limit.

Odd Fellows Set Initiation Here

The Hereford Odd Fellows will hold their regular meeting Monday Oct. 14 at 8 p.m. at the Bull Barn.

The ladies of Hereford Rebekah Lodge will serve a banquet for the Odd Fellows at that time.

Following the banquet, the Initiatory Degree will be conferred upon a class of 25 candidates.

Lodges from Amarillo, Dimmitt, Dumas, Muleshoe, Olton, Littlefield, Earth, Morton, and Clovis, San Jon, Tucumcari and Roswell, N. M., will attend.

Grand Master Raymond Gage, Grand Warden Roy Kretzmeier and other Grand Lodge officers will attend.

CHURCHGOING REPTILES
ARENA, Wis. — Woodrow Roberts took his rattlesnakes to church here but it didn't do the reptiles much good. They just rattled and writhed all through the services.

The Rev. Gene Kordick, pastor of the Arena Bible Church, said he'd never had such competition before.

Roberts, who stopped for services on the way to a reptile farm, kept the three snakes in a glass topped container.

PRE-PREPARED
GRAND RAPIDS, Mich. — A tornado forecast found Civil Defense units here fully prepared. The forecast came during "Operation Alert," a Civil Defense test, with all units in action. There was no tornado.

T. J. Parsons To Observe Their 25th Anniversary

Mr. and Mrs. T. J. Parsons will observe their 25th wedding anniversary on Sunday, Oct. 13, at their home at 114 Ave. J. Hosts for

the courtesy will be their sons and daughters who have invited the friends of their parents to attend between the hours of 2 and 5 p.m.

T. J. Parsons and Miss Helen Stephenson were married at her home in Claude on Oct. 15, 1932. They lived in Claude for seven years, moving to a farm near Hereford. They are still operating the farm but moved to their present home three years ago.

Both are members of the First Methodist Church and Mrs. Parsons takes active part in Home Demonstration Club Work and 4-H Club work.

Children of the couple hosting the affair include Lloyd Parsons, a member of the Hale-Center public school faculty, Don Parsons, a student at West Texas State College, Nancy and Dorothy who attend Hereford schools.

A pink and silver theme will be emphasized in the decorative setting. The refreshment table will be laid with white nylon cloth over pink and appointments and floral arrangements will accent the color.

Former Resident Sees Big Change Here Since '47

By SANDRA GLENN

"I once hunted jackrabbits where Hereford has now built a new residential section." This was a comment made by Thomas Elliston, a former resident of Hereford who left 10 years ago and returned home recently to visit with his parents and old friends.

Elliston could hardly believe that Hereford was the same place. He said that when he left there were a few irrigation wells and it amazed him to be able to see an irrigation well standing in nearly all the fields.

When he left Hereford 25 Mile Ave. had not been paved and there were no homes on the west side of the cemetery. There were about four churches, the high school and Central Grade School. Since then, of course, the old high school has become Stanton Junior High, two new grade schools and the new high school have been built and several churches have sprung up.

The facelift on the downtown buildings has made it impossible for him to recognize them. Several of the old buildings have been moved out and replaced by new businesses.

"The town looks wonderful and the same friendly people are still around," he said.

Mrs. Thomas Elliston is visiting here for her first time and the one thing that has impressed her most is the Hereford-grown tomatoes.

"The town has improved quite a bit, in fact, they have removed so many of the old landmarks that I can hardly find my way around," Elliston said.

Thomas Elliston is the son of

Mr. and Mrs. J. B. Elliston. He is employed as a salesman for the North American Van Lines in Billings, Mont. Before coming to Hereford for a visit, he and his wife were in Dallas where Elliston attended the National Traffic Club Assn. as a delegate for his company.

Elliston was graduated from Hereford High School in 1930.

Duwayne Wallace was home this weekend visiting with his mother, Mrs. Virginia Wallace, and grandparents, Mr. and Mrs. W. E. Pittman. Duwayne is enrolled as a student at Texas Tech in Lubbock.

Mr. and Mrs. W. D. West and sons, Kevin and Shannon, spent the past week visiting in the home of Mrs. West's parents, Mr. and Mrs. Roy Boyd. The West family returned to Cleveland Wednesday.

Wyche H.D. Club Studies Mending

The Wyche Home Demonstration Club met in the home of Mrs. Charles Packard Thursday, Oct. 3, for a program on mending, patching and reweaving clothes. In charge of the program were Mrs. Ira Ott, Mrs. George Olson and Mrs. C. R. Damron.

Members present for this meeting were Mesdames Ira Ott, C. R. Damron, George L. Olson, W. P. Axe, Charles Packard, J. V. Pickens, A. J. Jones and E. C. Hewitt Jr.

The next meeting will be held with Mrs. C. R. Damron.

Several Folks on Sick List

By MRS. R. L. PINNELL

Several residents are reported on the sick list this week. Grandpa Grubeke was taken to an Amarillo doctor Thursday morning. Dorothy James and Mrs. Jim Voyles are also among the ill.

Homecoming for all Adrian exes is scheduled for Nov. 30.

Mr. and Mrs. John Skaggs, Grady and a friend, Roger of Amarillo, went to the Tech and A&M football game in Lubbock Saturday night a week ago.

Ernest and Velma Frank returned Tuesday from their trip. While gone they went through Kentucky, Virginia, Washington, Niagara Falls, New York, Canada, Detroit Mich. and Kansas City. They spent one night with a son and his family, Wesley Frank at Woodward. They also visited with the new addition to the Frank family, Richard Eugene. The Frank family accompanied Mrs. Frank's sister and her husband, Mr. and Mrs. Albert Fether of Claude, on this trip.

Baptist W. M. U. met Wednesday afternoon for a Royal Service program, "Open Doors." The leader was Mrs. Shag McCown. Attending were Mesdames Melvin Green, Buck Springer, Bob Caldwell, Shag McCown, Bill Lewis, Irene Brown, Bea Betts, Slick Grubeke and E. B. Pounds.

Plans were completed for the annual Garden Beautiful Club tour of homes scheduled for Oct. 18, at the club meeting held Friday afternoon in the home of Mrs. Lloyd Pool. Mrs. G. P. Owen and Mrs. Charles Hood were cohostesses.

New committees were appointed and reports from committees already working were heard and tickets which may be purchased from any member of the club were distributed.

Following the business session a tour of gardens was held when members visited the flower gardens of Mrs. J. K. Baker, Mrs. O. M. Dickey and Mrs. D. C. Martin. Mrs. Wesley Owen, a new-comer to Hereford, was a guest.

Those attending were Mesdames N. D. Bartlett Jr., Tom Carter, Ray Cowser, G. W. Edwards, E. W. Harrison, Charles Hood, V. O. Hennen, L. H. Lookingbill Sr., G. P. Owen, J. B. Pool, B. E. Roberson, D. B. Roberson, Mary Seigler, Lowell Sharp, Gerald Wilson, Lisle Woodford, Miss Frances Turrentine and the hostess.

C.W. Quattlebaum Wins ROTC Award

CANYON, (Special) — Charles W. Quattlebaum, Hereford junior, is among the eight cadets named "Distinguished Military Students" of West Texas State College Reserve Officers' Training Corps by Lt. Col. Edward L. Lindsey, professor of military science and tactics.

Quattlebaum is eligible to apply for a Regular Army commission, and, if he maintains high scholastic and military records, will be recognized as a "Distinguished Military Graduate" at commencement.

A biology major, Quattlebaum is a member of the Student Senate, WT's governing body, and was elected "Personality King." He is the son of Mr. and Mrs. W. C. Quattlebaum, 407 E. 4th.

at a disadvantage, and his daughters' looks and his money are the only thing that will keep him from having several old maids to keep.

When the deal is ready for closing, the father of the boy or whoever he has chosen as his agent, and the girl's father or relative get together and draw up a contract. A decision is made as to how much money will be paid and to whom, who will furnish the house, whether a house will be rented or bought. After this contract is signed, the young couple may get to see each other. They may even wait until after the wedding ceremony.

The wedding is really a surprise. When the young engineer before mentioned got married, he rented a garden and held a reception. All of his friends came to be with him. (He had no family or friend with a house and garden that was large enough). The bride had her friends (female) at her home. I should have mentioned that the groom had only men at his affair. The religious judge came to the garden to ask the required questions, then went to the home of the bride and completed the ceremony. They were married, that was all, perfectly legal with the blessings of the church.

But don't think they left immediately for a honeymoon. This took place two months ago, and they are not even roommates yet. They still live apart. Two evenings after the wedding, they made their first public appearance together. They are still having dates and parties. They tell me that the house is ready soon and then he will change his wedding ring from right hand to left hand and they will settle down to live happily ever after.

dren. It might even state a fixed sum that can be paid by the husband any time he wants to have a divorce. This is quite a departure from our ideal of "Death do us part," but we must admit that it is realistic. I doubt that in the States a man would sign a built-in freedom bonus contract unless he was very rich. At least the only ones I have ever heard of were by the rich playboys that make a hobby of collecting wives.

Some contracts over here may even make provisions for future marriages of the husband. Four wives are legal here but only with the consent of the wife. So sometimes she gives written consent before her marriage. So far we have not met families with several wives living together. Some of our friends have. As with all human relations, some are happy affairs but others are such that the men from the States are glad that it is illegal for them to have "double trouble." Those with several wives are usually wealthy and live in rural areas as tribal leaders. Those that we know of in Baghdad have separate homes. The exception is a case of a wife who had no children wanted the husband to marry again. We are told she is happy with the other wife's children. A wealthy sheik lives in his large home with the mer, and has his wives live in mud huts with the other servants.

It is noticeable that with these marriage arrangements that the educated men are usually married later in life than is our average. It is the usual thing to see a man 35 to 45 with a wife who looks 20 to 25.

As a rule the young men that I know do not like this arrangement and go along with it only because it is a custom that is strongly entrenched. It is impossible for the young man to get to know a girl unless he has a sister who has a friend. As the men and women live and visit apart it is even then difficult. This is a segregation that is more racial than race segregation in Alabama. Schools, homes, churches support the segregation. By the time these people get into business, it is so fixed that the casual conversation between the sexes that we know in stores, offices and on the street is not tolerated. A girl and her family are ruined socially if the girl appears in public with a man before the wedding.

The system has signs of crumbling and the king has contributed to it by selecting his own wife. The educated people do not like it and the Christians are allowing their women more freedom. Few Christians require their women to wear the Abaa. (The black cloth that covers a woman from head to foot). Many women wear western clothes under the Abaa and do not keep it tightly closed. These women wear it more as a cape. We see a few women with a veil. With the uneducated and in the rural areas a woman can be killed by a relative for showing her face. We read in the papers frequently about some woman being killed for disgracing the family. This shame brought on the family may have been from as little as showing her face, to the more serious crime of talking or walking with a strange man.

A run-away marriage, adultery, or leaving a husband without his consent are all grounds for being killed by a relative. There are some rules about this killing which must be observed. There is a distinction between killing with a witness present, or killing outside a house and killing in private. There is also a difference in whether the killing was justified. If the woman really did show her face or talk with the wrong man, and it is so proven in court, the killer may receive no sentence or possibly as much as a month. If he was mistaken, and it is proved the woman violated no custom he will receive a sentence of possibly six months — two years is considered extreme. Of course people spend longer in jail, but that is for a more serious crime like thinking-out loud that it would be better to have a different government rather than a monarchy.

It is really wonderful to know that there is a place like the United States were a woman can hunt a man, trick him into marriage, without the help of anyone other than the license.

ufacturing plants I noticed that not many of the cars, personal and otherwise, used in and around these plants were equipped with safety belts. Those who have en-

gaged in the safety belt research feel that it is most important that all cars be so equipped. Whether or not this will be done I do not know, but I do know that the present estimate of the cost of installing seat belts in the front seat of automobiles at the factory is approximately \$13. This means that if six million cars are manufactured next year and seat belts are installed in the front seats, the total cost of those cars will be increased 78 million dollars. Whether or not these safety devices and others will solve the problem is conjectural but one thing is sure. According to past statistics some 43 thousand people will lose their lives on the highways of this nation in 1957. There will be over 1 1/2 million people injured, over 100 thousand of them permanently. There will be over 10 million motor accidents. And the monetary cost will approximate 5 billions of dollars. Some years ago a wit made the statement that the most dangerous thing about an automobile was the "nut" that held the steering wheel." Statistics will prove this remains as true today as when it was said.

Reduction of speed and constant attention and alertness would do

more to solve this traffic problem than all of the safety devices put together.

VISITORS

We enjoyed visiting this week with Mr. and Mrs. R. M. Lemon and Mr. and Mrs. Glen Lemon from Booker. They were in Washington en route from the east coast area where Glen Lemon has been serving an active duty tour with the Army. It was also good to have PFC Lyndahl Nichols of Happpy who is stationed at nearby Glen Burnie, Md. with the Army.

Shane, head of the state's TB hospitals.

In a twin-panel session composed of newsmen and doctors, Dr. McShane reported that 22,000 Texans have active tuberculosis. One out of three persons has TB germs in his body.

"Texas spends \$6 per patient per day on its TB hospitals," Dr. McShane advised. "And we rank in the bottom fourth on what is spent in trying to get them well."

SCHOOL PANEL NAMED

Way is clear for a new study into needs of the public school system. Six appointments by Gov. Price Dantel completed membership of a new commission created by the last legislature to do the job.

Daniel's appointees: Dr. J. W. Edgar, commissioner of education; Dana Williams, Gladewater superintendent and president of the Texas State Teachers Assn.; Ed Ray, executive editor of the San Antonio Express and Evening News; Mrs. L. E. Dudley, Abilene; H. K. Jackson, Gatesville; Felix Tijerina, Houston.

Six appointments each were made earlier by the Speaker of the House, the Lieutenant Gover-

nor and the department of education.

BUSINESS YEAR UNCERTAIN

Despite its present high level, Texas business faces uncertainties in ending the year.

There is little evidence pointing to any substantial rise, observes Dr. John R. Stockton, director of the University of Texas Bureau of Business Research.

Causes for concern: softening of the building outlook, slackened expenditures by the federal government and business concerns. Bright hopes: expanding expenditures by state and local governments; high level consumer spending, continuing population increases.

SHORT SNORTS — House Speaker Waggoner Carr is entitled to use capital quarters for office space. Atty. Gen. Will Wilson has held in an opinion requested by the State Comptroller. Salary for a secretary and expenses for stationery, supplies, telephone and telegraph also were approved. . . John H. Hargrove has been appointed chief of the staff services division of the State Insurance Department by Commissioner William A. Harrison. Hargrove was formerly with the Texas Research League.

Camp Fire Plan Work

The DaKanya Campfire group met at the Campfire Hut Tuesday to make plans for activities for the girls this year. One of the ideas discussed was an overnight camping trip.

They discussed ranks for each member of the group and were given new books. They also talked about the new catalogue.

One visitor, Janie McBroom, was present. Members present were Kathy Knox, Chula Pugh, Donita Ahmed, Joyce Linderer, Sharon Blakley and the leader, Mrs. Harry Linderer.

Eighty-nine of Texas' 254 coun- ties have general library service.

County 4-H Clubs Begin New Year

The Deaf Smith County 4-H clubs began a new year on Oct. 1.

New yearbooks were ready and being distributed to the members. A program has been planned by the yearbook committee with Mrs. J. E. Dyer as chairman. Other members of the committee were Mrs. Earl Plank and Dorothea Prowell. Asst. Co. Home Demonstration agent.

New officers are being elected at the first meeting of the new

year and training on keeping re- cord books is being given by the leaders.

Record books are a part of 4-H club-experiences and are a way of telling others about progress and achievements of the members. A good record reflects interests as a 4-H member and shows the im- portance of a well rounded club experience. It shows self improve- ments and service to others.

Many of the awards that come to 4-H members are based on re- cords.

Merry Maidens

The Merry Maidens 4-H Club met in the home of Amanda Moore on Oct. 2, to elect officers. Those elected to serve this year were Nancy Parsons, president; Kay Albracht, vice president; Amanda Moore, secretary, treasurer; Glenda Fuhrmann, reporter; Merie Carmichael, song leader; Patsy Story, drill leader; Amanda Moore, clothing demonstrator; Kay Albracht, and Glenda Fuhrmann, food demonstrators; Becky Jackson, poultry demonstrator.

The program was given by Amanda Moore, Kay Albracht and Nancy Parsons. They discus- sed a hostess report, food demon- stration and clothing.

Mrs. Dorothea Prowell also gave a demonstration on tablesetting. The members were served re- freshments.

Walcott 4-H

The 4-H girls met at the Walcott School cafeteria on Oct. 1. Eliza- beth Burrus led the drill and Dianne Jack led the club songs.

Mrs. Pruitt acted as Chairman during the election of officers. The following officers were elect- ed: president, Kathryn Burrus; vice president, Roxie Day; sec- retary and treasurer, Elizabeth Burrus; reporter, Nancy Tyler; song leader, Dianne Jack; drill leader, Rose Neinst; food dem- onstrator, Dianne Jack, and clothing demonstrator, Kathryn Burrus.

Plans for presenting an achieve- ment program, to the Walcott P.T.A., were made.

Mrs. Pruitt gave the program on "Keeping Good 4-H Records." Refreshments were served to Shirley Benton, Elaine Newman,

Dianne Jack, Linda Day, Viola Newman, Nancy Tyler, Elizabeth Burrus, Rose Neinst, Edna Ste- ward, Roxie Day, Betty Lockhart, Kathryn Burrus, Gay Wyly, Helen Newman, Mrs. Glen Burrus, and Mrs. Roy Pruitt.

The next meeting will be at the Walcott School, Oct. 15.

WHEAT AND SMALL GRAINS NEED NITROGEN!

For the nitrogen your crops need, apply Phillips 66 Ammonium Nitrate. The nitrogen and other plant foods removed by last year's crops must be replenished to maintain higher yields and profits per acre. Wheat and other small grains respond quickly to nitrogen to help stimulate early growth... produce and support bigger heads per plant and more plants per acre.

For fall-seeded small grains, apply nitrogen this spring before plants reach the jointing stage. For spring-seeded small grains, apply nitrogen before seeding or as a top dressing early in the season.

Choral Club Begins Year

By ARGEN DRAPER

The H. D. Choral Club began its regular meetings last Monday. The club welcomed a new leader, Mrs. H. E. Owens of the Westway Community. Mrs. Owens is a music teacher and comes highly recommended to our group. We feel fortunate in having her and Mrs. Clay Ridgeway again as our accompanists. Mrs. J. C. Morrison is a new member; Mrs. Paul Hoff was elected Secretary.

There are still some concert tickets in the office if you have not bought yours.

The women's clubs yearbooks are about ready to go to the press. Each year the yearbook committee works out a schedule of club entertainment. This is done by drawing the clubs which entertain the other clubs. The yearbook committee asked Mrs. H. S. Fuller, who is the chairman, to work out a chart so all the clubs can entertain all the other clubs and there will not be a duplicate. Mrs. Fuller worked this out for the next 10 years. Each club entertainment will be different. The idea being that the clubs will become acquainted

Moisture Is Slight

By MRS. S. N. THWEATT

There has been a change in the weather this week. Sunday morning there was a little moisture and again Monday morning. Monday there was a wet fog but not any measurable amount.

Mrs. Elmer Northcutt and Mrs. Elywn Hartman of Friona spent Thursday with Mrs. Jack Clark of Summerfield.

Mrs. Helen Turner and daughters of Amarillo are visiting Mr. and Mrs. W. D. Howard.

Mr. and Mrs. D. E. Coldiron and sons, David and Romma, of Amarillo visited Mrs. Ruth Coleman Sunday. Since it was Mrs. Coldiron's birthday, Mr. and Mrs. Bruce Coleman had them over Sunday night for ice cream and cake. Others at the party were Mr. and Mrs. Joe Brown and son and Mrs. Josie Busley.

Mr. H. W. Barton of Wichita Falls and S. N. Thweatt were in Hereford Monday on business. They had lunch together.

There have been a number of the people in this community sick this past week. Among them were Floyd, Earl, Roger and Tommie Buse and Mrs. S. N. Thweatt.

Mrs. Roy Potts was a visitor of Mrs. N. A. Brown Friday afternoon.

Mr. and Mrs. Eldred Brown and son, Tommie, and Mrs. C. W. King visited in Portales, N. M., Sunday.

Mr. and Mrs. Ernest Brown visited relatives in Clovis, N. M., Sunday.

Mr. and Mrs. L. W. Potts of Rosedale, N. M., visited in the home of their daughter, Mrs. N. A. Brown, Sunday.

S. N. Thweatt, Spain and were made a business trip to Amarillo Wednesday. Thweatt and Spain visited their sister, Mrs. Dona Cloud.

Mr. and Mrs. S. N. Thweatt visited Mr. and Mrs. Bruce Coleman Friday. The Coleman family showed pictures of their vacation this summer. The Coleman family visited in Canada and some of the Western States. They said it was very pretty in Canada and they had beautiful fruit and flowers.

Mr. and Mrs. Shorty Newman and family visited in the home of Mr. and Mrs. T. D. Davenport of Hereford Friday night. Mrs. Newman has an eye infection and they were on their way to see the doctors. Mr. and Mrs. Davenport are expecting a baby in December.

Mrs. J. E. Rouse spent Sunday in Friona visiting Mrs. G. A. Collier. Mrs. Collier has been dismissed from the hospital recently but is reported to be doing fine.

Lawrence Nickles of Littlefield is farming 400 acres of maize at Fred Collett's place. He was up

to see about it yesterday. He also came to get his butane tractor. He is building a cotton gin at Goodland.

Roy Pruitt and Fred Collett were at Phillip Miller's home Sunday. Phillip was branding cattle.

Paint on Clothes
Paint stains can be removed from clothing by saturating them with equal parts of ammonia and spirits of turpentine. Soak the places well and then wash with soap suds.

The Hair
When rinsing the hair, try adding a half cup of vinegar to the rinse water. It will soften the hair and give it a pretty sheen.

Washing Rugs
Ordinary mild soap can be used for washing the rugs. Mix up a pail of lukewarm water with rich mild suds. Soak a cloth in the suds, wring out partially, and scrub a small area of the rug. Dip another rough cloth in a pail of lukewarm clear water, to which a little powdered alum has been added, and wipe off the suds.

Although large numbers of older people migrate to California and Florida, the proportion of older people in both those states is still below the national average of 8.2 per cent of the population, says a report of the Twentieth Century Fund.

Dawn H.D. Club Holds Auction

The Dawn Home Demonstration Club was entertained with a white elephant auction in the home of Mrs. Zed Stewart Friday. This auction was held for the purpose of making money and was sponsored by the finance committee. The items which were auctioned off were gifts brought by the members.

Mrs. Orval Galley finished the program with a demonstration on invisible mending, sturdy patching and reweaving.

Those present were Miss Lulu Botsford, Mesdames Richard Frye, Marion Russell, H. S. Fuller, Muri Little, Orval Galley, Ray Stewart, H. D. Fowler, Zed Stewart, Leonard Schmidt, the new member, and a guest, Mrs. W. G. Stewart of Canyon.

BAKED BONANZA

TULSA, Okla. — Cafe owner Archie L. Pennington vows he won't leave the day's receipts in the oven for safekeeping again.

The cafe's cook, Willie Lawrence, lighted the oven and didn't discover the money until he noticed a peculiar smell. About \$100 was "cooked." Pennington was able to turn in the money for its full value.

The first Hi-Y meeting of the season was held Monday night Sept. 22.

New officers were elected for the coming year. Those elected were President, Jim Curtsinger; Vice President, Bobby Burrus; Secretary-Treasurer, Carl Zimmerman; Sergeant-at-Arms, Bill Drake; Chaplin, Gwinn Morris; Reporter, Bill Johnson.

Mr. Virgil Young has been chosen as sponsor for the club this year. Mr. Young appeared before the club and expressed the pleasure of becoming their new sponsor.

Mr. Bill Stanford, also spoke to the group about making their club a Christian organization and going about selecting their new members in a Christian way.

TRI-HI-Y

A meeting of the Tri-Hi-Y was held Tuesday night, Sept. 24. The meeting was called to order by the President, Joan Brown. Linda Kay Noland gave the opening prayer.

Plans were made for the Hi-Y and Tri-Hi-Y Training Conference which were to be held here Sunday, Sept. 29. Committees were appointed to plan for refreshments. New members were also chosen by the group.

Nancy Godwin, Charlotte Moore, and Gladys Lee served refreshments to the group. The Tri-Hi-Y benediction was given and the meeting was adjourned.

Exchange Student Likes Our School

Silvana Felizia, exchange student this year from Italy, enjoys our activities. She also says she likes horseback riding and basketball, sports which she has learned since she arrived here.

Popcorn and oatmeal are some of her dislikes because, "In Italy, they feed such food to their animals."

Silvana is the daughter of Amalia and Renato Felizia. She has one sister, Laura, who is 18. Her father is employed by an insurance firm in Italy. Her family lives in town and she attends a school of 2,700 students. They have no football games and very few social activities. They attend school from 8 a.m. till 1 p.m. and also on Saturday.

There are few automobiles in her hometown and for recreation she takes a train or a bus for an hours ride to the mountains. There, she enjoys skiing and other winter sports.

She is looking forward to the coming school year and has many interesting things to tell of her country. She expects to make many friends and learn many of America's customs while she is here.

QUESTION OF THE WEEK

What do you think the school spirit is?

OMA LEE RANSPOT—Yelling at pep rallies and football games. Being courteous to everyone.

BETTY FERGUSON—It's hard to put into words: It's something you should have all the time not just every Friday morning at the Pep Rally. Backing your school at all times in sports and etc. is school spirit to me.

MARTHA BOOKOUT—I feel as Betty does. School spirit is something which you feel inside. Your loyalty to your school, your feelings toward your team and your fellow students are an everyday thing, not just when you see a few signs and a cheerleader down in front of you. Expressing this spirit by yelling, attending games and everything goes into making school spirit.

DOROTHY WILLIAMS—I would say that school spirit is a combination of your feelings about your school—love, loyalty, respect. If a person possesses these qualities, I'm sure he has school spirit. Our school has more school spirit than ever. I'm really proud of the way every student participates in making our school the best one ever!

MR. BELL—Pride in intellectual and scholastic achievement.

MRS. BUCK—Respect, enthusiasm and loyalty for all phases of school life.

DOLLY PAETZOLD—To me school spirit is the spirit of co-operation of everyone in a school on a certain project or program, giving all their support to that program and making it succeed in every way.

CARROLL WILLOUGHBY—When you, the Hereford fans, are behind your team win or lose. You attend all the games possible to let the boys know that you are for them. By yelling your heart out. Not leaving the game the last five minutes because the game is a cinch to win or lose. By smiling when the team made a losing play and say, "That's all right boys, we're still behind you." This is real school spirit.

School Spirit

By GALE BLYTHE

Every year about this time we are concerned with the problem of school spirit. We all know what school spirit is — but how many of us HAVE it?

To have a good school and team we can't sit back and never take part in helping support them. We have to go out and yell and back those boys on that field. School spirit is not only yelling it's also helping with anything that pertains to the school. These things don't sum up the complete meaning of school spirit.

rit, it's something that goes deeper. It's how you feel about your school and the way you take part in school activities. After all school spirit is nothing more than co-operation, loyalty and friendliness. We all want to have the kind of school spirit that will make people sit-up and take notice.

Let's really make our gym rock at the pep rallies and show our boys we're behind them all the way! What do you say gang!

A new order for books has gone in. Most of the new order is for books on scientific subjects. Two of the books are *Who Walk Alone*, by Burgess, and *Miracle at Carville* by Wells. These two are about leprosy.

Mrs. Leggett will always have the library open by 8:20 in the morning and will hold it open in the afternoon for a little while for those who do not have any other time to check out books.

Hereford Chapter of F.T.A. Holds First Meetings

The first meeting of the Hereford Chapter of F. T. A. was held Sept. 18, 1957.

Gladys Lee, president, called the meeting to order, then new officers were introduced. They are as follows: Vice-president, Martha Bookout; secretary, Glenna Gault; treasurer, Dorothy Williams, parliamentarian, Douglas Womble; historian, Betty Ferguson.

The dues were set for one dollar per year-fifty cents per semester. The meetings are to be the second and fourth Monday of each month.

Mrs. McDougal, the sponsor, explained the purpose of F. T. A. and also outlined a few of the highlights for the following year. She outlined briefly the district (Continued On Page 2)

Area 'Y' Meet Is Held Here

"It Is No Secret"

The bells of school ring out the news.
Another week is through.
Someone failed a test
Was that someone you?
You may have longed for added grades.
Your average to renew.
Do not be dishartened.
For I have news for you.

(Chorus)
It is no secret, what school can do,
What it's done for others,
I'll do for you.
With doors wide open
It welcomes you
It is no secret, what school can do.

There is no rest before a test,
If you think you can cheat
The principal you will greet, and your parents he will meet.
He'll tell them that you may come back if you won't cheat no more.
You're seen in school the next day,
But brother, are you sure!

Possible Careers, Their Advantages, Are Outlined

We, the staff of the Hereford Whiteface feel that many students in our school are beginning to think about their future careers. In light of this, we publish in part, from U. S. NEWS AND WORLD REPORT, one of the nation's largest business magazines, a list of professions and jobs that offer great possibilities in the future.

Elementary School Teachers
Shortage likely to continue into the 1960's. An increase of 1,000,000 pupils a year in kindergarten and the first eight grades. Result: 35,000 new teachers needed annually. Salary range: Between \$3,000 and \$3,500 to start; rising to \$8,000 for supervising principals in big cities.

High School Teachers
A continuing demand for 20,000 new teachers each year, with demand especially strong in the fields of math, science, home economics. Most states require four years of college training. Average salary: \$4,350 a year.

College, University Teachers
Openings numerous now; will increase greatly in next decade. Opportunities best for those with doctoral degrees. Pay scaled from about \$14,000 for instructors in small colleges to \$11,000 for professors in big universities.

Registered Nurses
An estimated 38,000 student nurses needed annually to meet demands of next few years. Training required: three years in hospital school; four or five years for college degree. Highest earnings: In industrial and business firms and in public-health work. Average for general-duty nurses: \$58.50 to (Continued On Page 2)

Bits of News

There were many H. H. S. exes seen at the Hereford-Dimmitt football game. Those attending the game from Oklahoma State University were Larry Kaul, Wayne Smith, and G. C. Merritt.

Students there from Texas Tech were John David Bryant, Bobby Viegel, Dorothy Daniels, Lynn Boomer, Sue Kirby, Jane Newsom, and Taylor Sims.

Northwest Texas Nursing students were Sandra Caraway and Elaine Wagoner. Kee Skypala was there from West Texas State College.

Th. Seniors, on Thursday, met in the auditorium to discuss the orders of pictures and invitations. W. B. Harris met with the group and discussed taking pictures. During the same time, homeroom presidents met in a committee to select invitations. Committee members were: Dorothy Williams, Lynda Phillips, Alan Neff, Fred Lookingbill and Monta Kay Gragg. They then reported before each homeroom, where votes were cast on one of the three selected by the committee. The invitation chosen had a picture of H. H. S. engraved in color on a white background.

Sept. 24 and 25, the High School students attended the movie, "War and Peace" at the Star Theater. The Juniors and Seniors went on Tuesday and the Freshmen and Sophomores went on Wednesday. The picture portrayed Napoleon's fatal march into Moscow in the early 1800's. Everyone enjoyed the movie.

Wednesday morning, Sept. 25, Mrs. Buck's Civics class sang

Happy Birthday to Fred Lookingbill. This was Fred's nineteenth birthday. The class presented Fred with a can of tomatoes.

From now on Gayle Wagoner won't open her locker door without wondering what will be in there next. Wednesday afternoon she opened her locker door and there sat a little kitten. I don't know who was the more astonished, Gayle or the kitten.

Thursday, Oct. 3, a grade school band was organized by Mr. Charles Bell, high school band director. Mr. Bell said the band would include sixth graders and some junior high students.

The Annual Staff announced last week that the deadline to buy annuals will be Oct. 23. The annuals will be ordered Oct. 15 and an estimate of how many to be ordered will need to be known at that time. If it is at all possible, please let someone on the Annual Staff know if you want an annual before Oct. 15.

Many Hereford people were present at the Hereford-Tulia game on Friday, Sept. 27. Some of the students seen were: Bobby Burrus, Sandra Story; Linda Hair, Nona Marie and Rosa Lee Strange, Carla Sue Crosswait, Eugenia Alexander; Maxine Ware, Janice and Barbra Jacobs, Marilyn Sigle; Gwinn Morris, Sylvia Wiman, Janie Bookout, Bobby Shelton; Gene Hutchesson, Oma Lee Ranstot, Linda Smith; Barbara Dameron, Don Ray Parsons; Betty Cates, Connie Robinson, Karan Smith; Priscilla Harris, Judy McGee, Marilyn Newell, Joy Wiman, Linda Renfro, Lois Christmas; Jimmy Brown, Judy Patterson, Milner Dewalt, Carol Ann Newell, Linda Russell, Chuck Troutman and Tommie Kay Robinson.

Mr. Charles Bell, band director, remarked last week that the new band members were going to be an asset to the band. He is very proud of them and thinks they are learning very fast. The new band members are: Dwayne and Beverly Poteet from Lockney, Joan Guerra from Edouard, Linda Waddill from Tulia, and Oleta French, who has been here for the past two years.

Mocha Frosting Flavors Cake

By CECILY BROWNSTONE
Associated Press Food Editor

THIS FROSTING IS THE ANSWER to a reader's request — and maybe her prayer! If you, too, have always wanted a professionally-smooth cover-up for a cake — the sort that bakeries prepare — we urge you to try this recipe.

Chocolate and coffee blend together in this frosting to spell m-o-c-h-a, a flavor that tastes with a sponge cake that also has coffee added.

COFFEE SPONGE CAKE

Ingredients: 1 cup sifted cake flour, ½ teaspoon double-acting baking powder, 1½ teaspoons cream of tartar, ¼ teaspoon salt, 1 tablespoon instant powdered coffee, 5 eggs (separated), ¼ cup sugar, ¾ cup light corn syrup, 1 teaspoon vanilla, Professional Mocha Frosting.

Method: Sift together the cake flour, baking powder, cream of tartar, salt and powdered coffee three times. With rotary beater (hand or electric), beat egg whites until frothy; gradually beat in the sugar. Slowly add light corn syrup, beating as you do so; continue beating until whites stand in straight peaks that do not topple over when beater is slowly withdrawn. Without washing beater, beat egg yolks until thickened and lemon colored; beat in vanilla. Fold beaten egg yolks into beaten egg-white mixture. Gradually fold in sifted dry ingredients, sifting about ¼ cup at a time over the surface. Pour batter into three ungreased round layer-cake pans (each 8 by 1½ inches); bake in moderate (350 degrees) oven for 20 minutes or until cake springs back when lightly touched with finger. Invert pans on cake racks until cake is cool — about 30 minutes. Loosen sides with spatula, using straight up-and-down motion; ease cakes from pans with fingers and long spatula. Put layers together and cover whole cake with Professional Mocha Frosting.

PROFESSIONAL MOCHA FROSTING

Ingredients: 6 ounces candy-making chocolate, ¼ cup water, 4 egg yolks, ½ teaspoon instant powdered coffee, ¾ cup light corn syrup, 1 cup butter or margarine, 1 teaspoon vanilla, blanched (whole or halved length-wise) toasted almonds.

Method: Melt chocolate and water in top of double boiler over hot (not boiling) water; cool thoroughly. With rotary beater (hand or electric) beat egg yolks until thick and lemon-colored; beat in instant coffee. Boil light corn syrup until it spins a thread (to 238 degrees on candy thermometer). Beating constantly, pour hot syrup slowly over egg yolks; beat until very thick and light colored; cool thoroughly. Cream butter and beat into cold egg yolk-corn syrup mixture. Add chocolate mixture and vanilla; beat until blended and smooth. Spread frosting on layers and outside of cake, reserving ¼ cup for edging. (If frosting is very soft, chill reserved portion briefly until stiff enough to use as edging.) For edging, force frosting through decorating tube. Refrigerate about 1 hour before slicing, then decorate top with almonds; use a knife to make bars on frosting around sides of cake. Enough frosting for filling and covering tops and sides of three 8 or two 9-inch layers. Cake keeps well refrigerated overnight; use a dome-type cover (a large bowl is fine).

Fashion Page

Lately, the girls have been pretty confused about how to dress. If you wear winter clothes it's hot, if you wear summer ones, it's cold. Although the weather may interfere with what to wear, and when, it doesn't keep the girls from looking cute as ever this year. It seems like Ivy League and pointed toe shoes are the rage.

Wasn't that a smart looking red sheath that Betty Ferguson had on the other day? Nancy Godwin had on a very cute two piece tweed suit. Charlotte Moore was also wearing a brown and green cotton dress with a white collar and bib. These were only a few of the eye catching styles that have been seen around lately.

Other eye catching sights are the new hair do's. A few of those wearing new hair styles are Ruby Brewton, Agatha Malone, Linda Waddill, Ann Smith, and Colleen Reeves.

DOGGED DETERMINATION
GARDNER, Mass. — Norman Casavant was bitten by more than curiosity when he wondered what was lying on the floor of a beach wagon parked near his home.

When he peered in a window for a closer look, a large St. Bernard dog leaped up and sunk his teeth in Casavant's nose.

D.E. Club Elects Their Officers

The first D. E. Club meeting was held during activity period Monday, Sept. 30. The following officers were elected: Nancy Godwin, president; Jim Culpepper, vice-president; Pat Dawson, secretary; Gladys Lee, reporter. Miss Pat Dawson was elected as the club's sweetheart.

The dues were discussed and set at \$1.25 for a year. They must be paid by Oct. 20.

The president explained the Radio Day (annual D. E. project) to the new members. Stunt night plans were made and a committee was selected. The committee was made up of Jim Culpepper, Carrol Willoughby, Pat Dawson, and Clydene Thomas.

Leather Gloves Take to the Tub

By DOROTHY ROE
Associated Press Women's Editor

It's a great age, I keep saying, in which to be a woman. Science keeps thinking up new ways to make us look younger, live longer and enjoy it more.

Even the small annoyances are being solved for us. Take gloves, for instance. Remember how difficult it used to be to keep your fine leather gloves fresh and immaculate. If you tried to clean them yourself, chances are you'd ruin them. And it was worth your life to try to find a cleaner who could be bothered with cleaning gloves.

Well, that's just one more dividend of modern living. Glove counters this fall are loaded with the new launder-leather gloves, each of which carries a guarantee of washability. Now being produced by all leading glove manufacturers, the new sure-to-wash gloves come in a wide range of styles and high-fashion colors.

Attached to each pair of gloves is a guarantee tag with simple directions for washing and instructions for returning the gloves for replacement or refund if they should prove defective in washing.

Among the new glove colors for fall — all colorfast — are a series coordinated to new costume colors. Deeper tones that are popular include cherry red, loden green, brown, pewter gray, russet and merino, a new taupe with a brown-

ish cast. Also important are lighter colors such as cottonwood (a warm, creamy beige), wicker tan, nougat (maple sugar color), gold, gray, pink and blue. And of course there are the perennials — black, white and navy.

A favorite glove length this season is about three inches above the wristbone — right for bracelet-length and push-up sleeves. Several have ingenious self-leather trim, or discreet touches of embroidery.

And a boon to forgetful girls is the lariat glove, a short pull-on with a leather cord loop and button by which you can lasso the glove to your wrist when you remove it from your hand.

NO DEW AFTER DROUGHT

Sullivans Give Butte Irish Day To Remember

BUTTE, Mont. — It's 6,000 miles to the Emerald Isle but Butte visitors don't have to go that far to find an Irishman.

Corktown and Dublin Gulch are names of sections of this mining city. It's not hard to determine why.

The Irish are possibly the largest national group among Butte's 35,000 residents — and no small part of that fact can be traced to a day 63 years ago when the old Silver Bow County courthouse was besieged, not by Indians, but Irishmen.

June 5, 1894, is known even today as the day the Sullivans came to town.

There were 69 of 'em, Sullivans all, who arrived in a body to seek American citizenship.

With them were goodly numbers of Harringtons, Murphys, Sheas and O'Briens and others whose names proclaimed their origin.

An index of naturalization for

the late 19th Century tucked away in a shelf of the district court clerk's office, shows the Sullivans greatly outnumbered their fellow Irish as settlers.

No less than 202 Sullivans applied for citizenship in Butte courts during those years.

There were 103 Harringtons, 96 Murphys, 62 Kelleys or Kellys, 46 Sheas, 41 O'Neills and O'Neils, 36 Lynches, 34 O'Briens, 29 Reillys and Rileys, 27 McCarthys, 26 Lowneys, 24 Kennedys, 22 O'Learys, 21 Walshes, 20 Ryans, 19 McGraths, 18 Callahans and Callaghans and lesser numbers of Brogans, Burnses, Carrolls, Clearys, and infinitum.

Thirty-three members of the group bore the name John Sullivan, most of them preferring John L. or John J.

There were the exceptions, too. There was one Simon Sullivan.

at the well

—to confess her sins. That is a dirty word, sin. Men don't relish being labeled a sinner and women hide under the cover of night to avoid being branded as one. Sin is like a rattlesnake — it buries its fangs in your flesh and pumps venom through every vein. You become groggy, weary, sick and helpless. But only for the grace of a loving God you would pass through the door on the bottom side and head straight for an eternity in Hell. But God lives and you may still have hope. Here is the woman at the well. She is corrupt, full of sin, but she is repentant. Isn't it just like Jesus to be wherever a man needs Him whenever he is ready to turn to God. He is chief authority at your church and He is waiting to forgive you as He forgave the woman at the well. He offers you everything worth while in this life and in the life to come. He will meet you at the door of your church next Sunday and go home with you after service and spend the entire week with you if you will invite Him.

YOU IN THE CHURCH
THE CHURCH IN YOU
Character is a by-product of the church. It is here that young and old alike are showered with benedictions stronger democracy, in the church the ministerial are the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

Tics Are Sign of Tension

By DOROTHY V. WHIPPLE, M.D.

Tics are purposeless movements, repeated in exactly the same way but not in any regular rhythm. They are always done unconsciously; the child cannot control the movement. A tic can be a whole body or a movement with one arm or leg or snoulder. Sometimes a tic shows itself as eye blinking.

Tics are a sign of tension in the child's life. Tics are not a normal stage of development. However, that doesn't mean that every child who develops a tic is headed for serious trouble. But it does mean that a danger flag has been raised.

Ralph seemed all right when he went to school in the morning, but at dinner he constantly jerked his right shoulder. He spilled his milk, he had trouble cutting his meat. He couldn't help these jerks and he was worried.

"WHAT'S THE matter with me, Mom, my shoulder keeps jerking?" Both Mom and Dad had of course noticed it. Their eyes had

met with a "let's talk about this later" glance. But when Ralph mentioned it himself, Dad said in the most matter of fact tone: "You have a tic, Ralph, and that means something must have upset you today. Would you like to tell us about it?"

"What's a tic?" "It's that jerk in your shoulder. It's a movement that goes on without your control. It's nervous, serious in itself but it suggests you're pretty nervous and jumpy about something."

Ralph didn't say anything, but his snoulder was getting worse. He got up from the table, said he was going in the other room. He turned on the television and sat down.

The dining room was in earshot of the living room. Ralph's parents finished their dinner in silence; then Dad sauntered into the living room, picked up the newspaper and sat down, not far from where Ralph was watching TV. As his dad approached, Ralph's shoulder, quiet for a few minutes, began twitching again.

RALPH WAS 10. He was a bright

lad and a good student. He worshipped his dad. His dad was everything a man ought to be and Ralph struggled to be the son he felt his dad should have. Ralph had many doubts about himself. He knew he wasn't all his dad thought he was and he'd wake in the night with the terrible fear that his dad had found out how he really was. It was all he could do not to scream out.

Then today there'd been a math test. Ralph couldn't do the third problem and he'd leaned over and copied it from Bill's paper. He hated himself for cheating — this much he knew. What he didn't know was that he hated his father for holding him up to standards he found it so difficult to meet.

Ralph thought he adored his father, and he did with the top of his mind but underneath was a deep resentment that he couldn't be just himself, that he had to live up to what he thought was his father's image of him. Ralph's dad didn't know this either. Ralph's tic did not disappear with his kindly sympathetic approach. So Ralph's parents realized they needed help in solving their boy's problems. The Child Guidance Clinic unraveled the conflicting feelings. Not only did Ralph's tic then disappear but he became a much more relaxed, happy youngster.

Household Scrapbook

Damp Cellar

Chronic dampness in the cellar can be counteracted by placing large chunks of unslaked lime around in the corners. Use only if the cellar is damp, not actually wet, and replace with fresh pieces when the old chunks don't seem to be absorbing any more moisture.

Floor Wax

A good floor wax can be made by mixing kerosene and melted paraffin to the consistency of cream, using it in same manner as any commercial wax, polishing afterwards with a flannel cloth.

Hydrangeas

Hydrangeas can be given a blue color by applying to the soil for use in pots one part of blue aluminum sulphate to 200 parts soil. If a pink color is desired, apply

hydrated lime in the same proportion.

Prevent discoloring

When fruits or salads for dessert are prepared in advance of serving, they can be prevented from discoloring if sprinkled generously

with lemon juice. The lemon juice accents the flavor, too.

Wicker Furniture

Painted wicker furniture can be preserved and given a gloss with ordinary furniture polish, wax or oil type. A more permanent gloss

can be imparted if you paint it with orange shellac, thinned out with denatured alcohol.

From an attendance standpoint the State Fair of Texas is the largest in the U. S.

FIRE HAZARDS

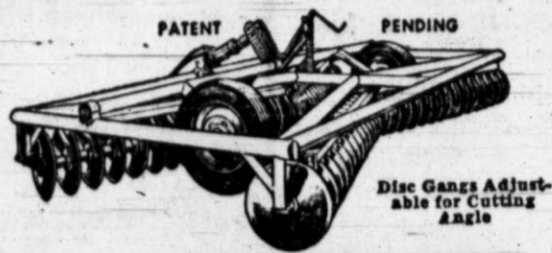

What better time than Fire Prevention Week to call your attention to Fire Hazards around your home and business. Of course, we have them . . . but, let's get rid of them.

Why not check your home now . . . is your wiring overloaded? Are you cleaning clothes with gasoline? How about those old oily rags you have stashed away in the garage or storage space? Of course, these are only a few of the many fire hazards that might pop-up around your home, but if we practice FIRE PREVENTION 52 weeks out of the year, then we'll have fewer hazards next year.

Hon. S. P. Huff of Vernon, nominated for the chief justice of the Amarillo court of appeals, has been appointed to fill out the unexpired term of Judge J. A. Graham, resigned. This was affirmed Monday by a wire from Governor Colquitt to J. M. Oakes, clerk of the court. Judge Graham will move to Brownsville, in the other extreme of the state, and will engage in law practice.

The opening of the Grizzle Chevrolet dealership in Hereford last Saturday was one of the best attended events the city has witnessed for years. It is estimated that more than a thousand people visited the exhibition of new cars and enjoyed the entertainment and refreshments. Out of town Chevrolet representatives were Charles E. Marshall from district headquarters at El Paso and Carrol Boling and John McCleskey of Clovis. Entertainment was furnished by Herb Sindt's orchestra music, and a wide variety of vaudeville work by the Kennon family of Hollywood, with trick roping, whip cracking, a dancing mule, a trained pony and comedy. Homer Grizzle, president of the automobile company, distributed one \$10 and six \$5 ser-

STAR PROBLEM
MAYSVILLE, Ky. (AP) — Young David DeLisle, noticing a star-like design before the serial number on a dollar bill, wrote the U. S. Secret Service for an explanation. Back came a letter from U. E. Baughman, chief of the service, who explained:
"The small design in front of the serial number indicates it is a 'Star' note. Every one-hundred-millionth note is a 'Star' note. They are used to replace notes that are found to be defective."
Now David has a problem: should he retain the one-in-a-hundred-million bill or live it up a dollar's worth?

Betsy Ross, with a snip of her scissors, convinced George Washington that a five-pointed star would look better than a six-pointed star on the American flag.
