Around Town

We're going to keep our ngers crossed for the next ew days while Hereford tries nail down an allocation for sugar beet refinery here. olly Sugar and the local ackers think that the governent probably will take 30-90 lays after the hearing to annce its decision. On Thursay, we'll try to bring you a nmary of the arguments being presented by the Texas Sugar Beet Growers Association. Personally, we are quite confident while fully aware that the USDA is capable of taking some strange steps. Hereford has carried the ball on this whole program for some fine assistance from the surrounding area. But, now everyone is jumping on the bandwagon, stabbing Hereford in the back to get a mill. Our feeling is that it is too late for the Hereford express to be sidetracked now.

The annual Tour of Homes and Fall Garden Show, sponsored by the Garden Beautiful Club, has been announced for Friday, Oct. 12, this year. We don't know the line-up yet, but here are some lovely new omes in town that could be included in the tour,

Hereford scored early in the staved off Hereford to fourth period and again just 36 en the first game on the seconds before the end of the Whiteface Field here Fri- game, but couldn't make either extra-point attempts.

It was a strange game that included a missing National Anthem and a five-play series for a first down. Weather was near perfect for

er later in the quarter the more than 3,000 fans who piled into the new Whiteface Field Friday evening. But the teams lined up and started playing while the Color Guard marched toward the flagpole and the band director held his baton aloft for the opening bars of "The Star-Spangled Banner" which was never played.

Hereford took the opening kick-off and went to work from its own 35. Oops! Fumble! Arnold Powell fell on the ball and Hereford tried again from the

Fumble! But this time guard Jim Axe was on the bottom and Dimmitt had a break with the ball just 33 yards from the end zone.

James Cowell's four yard run was the first offensive play, then Dimmitt took a five-yard penalty. Roy Battles scooted 17 yards around left end on a reverse. Jacky Nichols got three, Cowell carried twice for seven and Battles slanted across left tackle for the touchdown. Jim Ratcliff passed down the middle to Cowell for two extra points as Dimmitt led 8-0 with

Vegetable Show Is Called Off

The vegetable show which had been planned for Saturday, Sept. 29, has been cancelled by the Agriculture Committee Deaf Smith County Chamber of Commerce, according to an announcement by Frank Ford, committee chairman.

As he made the announcement, Ford commented that the show would be rescheduled as soon as representatives of some of the large frozen food processing plants agree to attend. "None of the companies seem

to be expanding and were not interested in a show at the present time," he explained.

'We feel, however, that we have accomplished something since all large companies have been informed that this area is willing and able to diversify its agriculture and the area would be a good site for a future plant," Ford commented.

He continued saying that with the large beef feeding industry and the great number of vegetables which are grown, "we feel that Hereford is a 'natural' for a frozen food processing

"We (the committee) intend to continue our efforts until we get a processing plant," Ford declared.

Signing of the contract, which calls for completion of the Texas plant by Sept. 1, 1964, took place in Shoup's office. He said the projected new beet sugar processing facility, intended to serve a wide area in West Texas and eastern New Mexico, is expected to cost in excess of \$15

Sabin Vaccine

Mass polio immunization was postponed "in view of the pre-sent controversy" at a meeting of the Deaf Smith, Parmer, Castro, Swisher and Oldham County medical society.

The resolution passed at a meeting held in Tulia on Tuesday and released for publication Wednesday reads:

"The Deaf Smith, Parmer, Castro, Swisher, and Oldham County medical society wishes to state that in view of the present controversy and uncertainty of the Sabin Oral Polio Vaccine, it is deemed necessary for the present to postpone mass immunization."

However, the resolution continues; "When all types of the oral vaccine are cleared and deemed safe, this medical society will sponsor mass immunization in each county.

A statement released by Hereford Junior Chamber of Commerce following a meeting of the club with Tulia and Dimmitt Jaycees stated that the club "feels it has accomplished the first major step in obtain-

ing mass imprunization. The Hereford Jaycees feel", the statement reads, "they have accomplished the first major step toward obtaining mass polie immunization in Deal County after receiving the announcement by the Deaf Smith. Parmer, Castro, Swisher, and Oldham County medical society that they will assume responsibility for sponsoring mass im-

munization in each county." In the statement, Hereford Jaycees offered their assistance

and cooperation. "When all types of the oral vaccine are approved by this medical society," the statement read, "and they announce their plans and dates for holding this clinic, the Hereford Jaycees offer their assistance and cooperation to help make the program a success."

TOO MUCH POWER

by FRANK FORD **Deaf Smith County** Farmer, Businessman and Candidate for STATE REPRESENTATIVE (Second Article of a series)

Those who advocate the centralization of taxing power and control in Washington and increased government spending as a cure-all are perpetrating a cruel fraud, in my opinion. The victims are the older people whose life savings are eaten away by the resulting inflation; the young couples struggling to save a nestegg while paying enormous hidden taxes; the generations to come who presumably will have to pay the rapidly rising government debts.

Also, the state and local governments who are faced with mounting problems and fewer sources of revenue while the planners in Washington continue to grab for more power. Sure there are differences in the wealth of the various states and counties. But turning over all problems to the Federal Government is not the answer. History has proven over and over again that too much power in one place is dangerous.

Our Constitutional System, with its checks and bal-ances, has provided the framework for more human progress in freedom, dignity and happiness than any other system ever devised. It has been chipped away by too many "Conservatives" with vested interests in particular spending projects.

Your Red Cross In Action

By Ramona Noel

By Ramona Noel and many activities are coming hope to get some more instrucup centering around our local

taking a Red Cross course to become an instructor in "Aid to the Sick and Injured." She will teach this in High School in connection with her Homemaking classes. The chapter sponsors this part of the Home Nursing program along with the 'Mother and Baby Care' which Mrs. Esther Springer teaches in the same course. Mrs. Springer has three classes scheduled in the school this year.

The High School Red Cross has completed and mailed their exchange album to Germany in return for one sent them by a group from there. Kathleen Kuper, head of the committee, did most of the assembling of the High Schools first album. Stanton Jr. High has completed and received three such albums from various countries.

The chapter Gray Ladies will combine their August and September luncheon meetings this month. Some of our Juniors are going away to school, but new ones are being added to take their place.

From our Water Safety Program over 200 certificates have been mailed to both adults and

children. Seven adults finished Fall is just around the corner Sr. Lifesaving, from which we tors. We are especially proud of our Jr. Lifesaving classes that Mrs. J. J. Durham spent a were completed with 25 receivweek in Lubbock at Texas Tech ing their badges. This is the most that the chapter has ever developed and these may become instructors when they reach 18 years of age. From this group also we hope to have a Water Safety committee in the Stanton Jr. High - Jr. Red Cross Council.

> Of our 15 authorized instructors we had around nine who taught classes this year. They were: Oliver Streu, Bill Hardwick. Eldon Howell, Nickie Dameron, Ramona Noel, Donna Smith, Judy Follis, June Caraway, and Mary Stapp. Also there were five assistants that we couldn't have done without and numerous aids that really pulled us through the summer. The assistants were: Ora Hale, Rose Ann Fraser, Doris Rush, Mary Walker, Betty Barrett, Barbara Barrett, Lynn Barrett. Doris Rojek passed her Advanced Swimmers test. Congratulations Doris, because there are very few that can pass this test.

The total number of hours spent this summer in the swimming program has not been completed, but we know they will add up to a few.

We'll see you next month.

Thursday's win at Dimmitt gave the Dogies an even mark for the season. The Dogies were limited to a 20-8 loss by the Canyon Eagles in the season opener played here Sept. 13.

Jimmie Gutierrez scampered 35 yards on a quick opener to score in the first half at Dimmitt, climaxing the only successful drive by either team. Gutierrez's boot for the extra point was good, placing Here-ford with a 7-8 advantage at

Opening the second half, Dimmitt drove to their 40 yard line, and then pulled off a successful fake punt for 20 yards to move into the Herd's territory for the first time. But the Dogies stopped the effort and took over to begin their second touchdown

Mike Moore and Wynn Buck, as well as Gutierrez, punched yardage until the Herd reached the six-yard line. Then Gutierrez scampered around left end for the score and followed through with the conversion to make it 14-0.

Dimmitt was forced to punt early in the third quarter. Wynn Buck hauled in the ball on the 30 and handed off to Mike Moore who went the full 70 yards for the third Here-ford marker. The try for extra point failed. Dogies were unable to stop

'The law provides that sufficient sugar beet acreage to produce 65,000 tons of sugar may be assigned by the Secretary of Agriculture to new factory areas each year through 1966," Shoup explained.

"Holly's application, which the proposal for a West Texas processing plant is based, was transmitted to the Secretary of Agriculture within an hour or two after we learned that President Kennedy had signed the new sugar law,' Shoup added.

The Holly executive said that the Department of Agriculture has scheduled hearings in Washington, beginning next Tuesday (Sept. 25), to consider the requests of those applicants seeking assignment of the annual a-

creage reserves. "Our planning has been very thorough, extending over many months," Shoup stated, "During the past week more than 700 which would be served by the willingness to grow more than 85,000 acres of sugar beets to Barn. be delivered to the proposed new plant; and they agreed to contribute over a 10-year period a total of \$5,000,000 to induce

the building of the factory. "We sincerely hope that there will be an early award by the Secretary of Agriculture of the necessary acreage, following the hearings next week, so that construction may be initiated soon thereafter, thus assuring our meeting our 1964 target date for the start of operations,' Shoup said today.

The Ferguson Company with which Holly contracted today is The Ferguson Company with a principal substitution of Morrison - Knudsen Company, Inc., one of the world's largest and best known engineering and construction firms. The Ferguson Company designs and constructs facilities, for industry and government throughout the free world. The establishment of the beet sugar industry in the West Texas-Eastern New Mexico area will be a tremendous addition to the area's total economy, The Holly president pointed out. 'Income to the farmers will be very important. The acregages planted to sugar beets will replace a number of surplus crops and will provide assured income to the growers," Shoup pointed out, "By-products of the sugar beets will form the basis upon which livestock feeding will expand, as has always been the case in areas where sugar beet production has been esta-

"The community in general will benefit," Shoup continued, "because the new factory will provide a new payroll in the area and will require a vast amount of supplies and services."

Holly Sugar is now one of the two largest beet sugar companies in the nation, operating 10 factories in Colorado, Wyoming, Montana, and California,

Whiteface Field missed the opening kickoff Friday night. They were on their feet for the Flag Raising ceremony and the National Anthem. It was embarrassing to all concerned that officials allowed play to start before this final bit of pre-game ceremony was completed. The American Legion Post Color Guard, all turned out neatly and sharply, found itself raising the flag during the game and the Hereford band was all puckered up and didn't get to blow a note. We hope, and believe, the timing on pre-game ceremonies will be better in the future ... and it should be.

but what a difference there can be

Same is true of mattresses. Two of them may look alike but one will give years of the most comfortable sleep you've ever known; the other may never be really comfortable and will become less comfortable every day it is used.

That makes quite a problem for a person about to buy a mattress. Our suggestion is that you select a brand that has built a good reputation over a period of years and that you buy from a store that emphasizes mattresses, knows mattresses and also has built a good reputation. To make it brief, come to our store and see Beauty-

Schools Should Close For Fair?

This year has been no exception when it comes to the annual crop of complaints because local school dismiss for Tri-State

Frankly, we do not necessarily agree that all schools should dismiss and send folks to Amarillo for the day, but we do recognize both sides of a difficult question and it seems that some opposition may be a little bit harsh or hasty in judging the school officials and administration.

Because Texas public schools now receive their "state aid" on a basis of average daily attendence, it would probably cost the distrcit much more to operate during the fair than to close for the day—and this would ultimately come from the pockets of the tax payers. In addition, if half of

School Bus Law Protects Lives

Announcement by the Texas Safety Patrol that highway officers will crack-down on passing violations in regard to school buses comes as an answer to the longtime complaint of many bus operators in the Hereford Rural district.

Without doubt, most of these violations are due to carelessness. State laws require that motorists come to a halt when passing a school bus which is discharging children, regardless of which direction the bus may be headed.

Because highway patralmen cannot be at all stops, it is also possible that the license numbers of offenders may be noted and sent to the Department of Public Safety as a means to providing continued safety for students. Like school crossing zones, rigid enforcement of this regulation may well save untold agony and heart-ache for all concerned.

Certainly, these laws were passed in behalf of the welfare of our children, and we should exert every possible opportunity to help see that they are enforced as completely as possible.

Polio Shots Are Up To Individual and like the Camp Fire project in Veteran's Park many of them can be accomplished

While most of Texas is wrangling over Type III polio shots, Hereford finds itself on the "outside looking in" which is an unusually good position — especially since we are not faced with a polio epidemic.

Caution against just such a situation, whether due to apathy or to wisdom, leaves the community in a position to pursue any course it may choose, and now that most people are familiar with the program because of extensive publicity, it seems that the Types I and II shots as proposed by the J-C's may well be in order. Final decision on the innoculation would be left to the individual, since participation is voluntary, which once again contributes toward ideal situation.

The arguments for polio shots are pretty much the same as arguments for other shots, such as smallpox, typhoid or other infectuous diseases. Like insurance, they aren't worth a lot until you need them and then they become invaluable. The fact that record turn-outs have been reported in many communities since the Canadian protest indicates that most people find the polio shot odds well in favor of the public.

Since the possible element of danger in Type III shots has been weighed by state and federal health boards, then publicized at considerable length, it is evident that most people are in excellent position to make their personal decisions when, and if, a mass innoculation program develops here. And we feel that one probably will develop within the next 30 days.

Hereford Eleven Meets Panhandle Squad Here

After holding the strong Portales squad to 6-0 last Friday, the Whiteface eleven will meet the Panhandle team Friday afternoon in their first home game of the season. Boasting an exceptionally well balanced squad, the Panhandle team comes to Hereford classed as one of the outstanding elevens of the section. Last year Panhandle handed the Whiteface team a 31-0 defeat and next Friday the Whiteface team will be playing for the first time this year on home grounds. Although touted as a strong eleven, Panhandle is generally considered slightly under last year's excellence — and coach Tom McCollum has been drilling his cohorts on weak points during the week. Most of the players saw action on a gridiron for their first time last Friday, By next Friday the team is expected to be in better shape, and by Oct. 1, when the Whitefaces play Happy, the squad should be in excellent shape.

50 YEARS AGO There is nothing that adds so much to the beauty of a town or home than shade and fruit trees. Hereford can boast now of having more beautiful trees than any other town of its size, and we might challenge a number of bigger towns. While a good start has already been made and many of our homes have a fine row of shade trees along the curb line and in the yards, while an ample number of fruit trees in the garden, yet there is plenty of room for thousands more. The kind of trees has a great deal to do with desirable results. Most any variety will grow in this section, but some are better suited than others. But why plant only non-fruit bearing varieties along the streets and curbs? Why couldn't the Hereford people make a great name for the city, a name that would resound down the ages to unnumbered generations, by planting hundreds of fruit trees instead of so many shade trees?

"Nesters", the term ranchers | Plains, but others turned to

Many tales are told concernthe conquering of the Great Plains, on the part of both the cowboy and the nester. Here is a yarn about a problem with which both had to deal when they worked in the

area. One early farmer on the Llano Estaçado (staked plains) had two young sons. Like most cowboys of the day, they frowned upon the idea of doing anything which required them to get off of their horses.

Their father was a farmer, and insisted that they help with the fence-building. So the three of them set out to get it done Following a morning of hard work, the trio had strung the first of four wires on the new barbed wire fence. Pop decided that the wire needed one last tug on the stretchers, despite the protests of his sons.

There was much prickly pear at that point, and the men had had to cut it down in order to build fence. After stepping carefully in the spot which had been cleared, Pop gave a mighty heave. The wire broke, the boys laughed, and Pop landed on the prickly pears.

Needless to say, Pop suffered in the same part of his anatamy as would a cowboy who had been in the saddle all day.

Another instance where thorny subjects created a problem concerns a young bride. Since she was alone much of the time, she loved to go riding. Her horse pasture was cluttered with mesquite bushes, many of

which were the size of trees." Once she rode too near one of the bushes, snagging her skirt on a branch. She tore her skirt free, but had to walk a mile back to her home.

She received a fright when a rattler struck at her from the cover of some broomweeds. From that time on, she walked carefully, looking anxiously before stepping.

There are many tales of the conquering of this plains area, Some occurred in our county, as well as elsewhere. More of these should be preserved.

STRICT EQUIPMENT USE POLICY ADOPTED

New, firm policies regulating the use of City of Olton equipment on work for individuals were approved by the City Council Tuesday night. An investigation of "on the side" jobs done by three city employees brought these developments: 1. Disclosure of about \$150 worth of work involving "after-hours" use of city equipment for which the city did not receive any of the amount paid. 2. Resignation of five city employees including water supertindent Harold Cartwright. 3. Payment to the city by three employees of the amount of money received for extra jobs. The situation came out into the open here last week after District Attorney Jack Young of Muleshoe suddenly began an investigation. That led to a special council meeting last Thursday evening at which details of the after-hours work was bared. Meeting in regular session Tuesday the City Council set down a stiff policy in writing. PHONE RATE HIKE SOUGHT

Canadian City Council members heard the first overtures for a telephone rate increase in Canadian from the Southwestern Bell telephone Company district manager George Newberry Tuesday night. The Council offered little encouragement, asked many questions, and took no action, according to City Manager James Morgan. Newberry presented a request for Council approval of a proposed new rate schedule which would boost the monthly charge for business telephones by 31 per cent and for one-party residence phones by more than 16 per cent. The proposal calls for an increase in the rate for business phones from \$8 to \$10.50, and on one-party residence phones from \$4.75 to \$5.50. Other residental rates would be boosted similarly but no increase is proposed for extensions or PBX phones.

GRANT RECEIVED FOR HOSPITAL

State of Texas Department of Health recently approved Castro County's application for a Hill-Burton fund assistance of \$225,000 to assist in the construction of a new Castro County Hospital and facilities. "It gives me great pleasure to inform you that the Board of Health at ifs meeting on Sept. 10 approved your application for \$225,000 to assist in the construction of the Castro County Hospital in Dimmitt," Dr. J. E. Reavy, Commissioner of Health, said in a letter to County Judge Raymond Wilson. Wilson said the construction on the building will probably begin in 1963. The Hill-Burton fund of \$225,000 matched dollar for dollar the bond issue passed in Castro County in 1960. Both complete the \$450,000 required for the new building and new facilities.

STORM SOAKS PERRYTON

Perryton was the center of an "isolated thunderstorm" Friday afternoon which moved swiftly in from the west and dumped 2.47 inches of rain on the city in about 45 minutes. The storm, struck about 5 p. m. Along with the frog-strangling rains came high winds which did some property damage and sent some inhabitants heading forstorm shelters. The wind blew rain in around windows and doors on west fronts of homes and buildings and the force of the wind stripped many branches from trees. THE SUNDAY HERALD

THE BOOTLEG ——Philosopher

(Editor's note: The Bootleg Philosopher on his bindweed farm discusses the Cuban problem this week, without making much dent in it.)

I was talking with a man in town the other day who keeps up with things in the world and he said it was time we did something about Cuba.

'Whatta you mean?" I asked. "I mean it's time President Kennedy did something about Cuba, that's what I mean." "Whatta you suggest he do?"

"Me suggest? That's not my job. That's his." I came on back home and got to thinking about this

and decided he's right. Something ought to be done about Cuba. Something

ought to be done about the Berlin wall. Something ought ought to be done about Rússia, about the Congo, India, Algiers. Something should have been done about Hitler before he got cranked up, something should have been done about the Kaiser, about Attila the Hun, Julius Caesar, the driver who nearly ran over me when I was coming back from town, high taxes, economic depressions, and the next man who's going to go berserk and shoot up

The trouble is, there are some problems that can't be solved ahead of time. There are too many things in life that can't be headed off.

Regardless of how violent and dangerous a family squabble next door is, and regardless of how wrong one side is and how right the other is, where's the man who

can solve it by wading in himself? It's wrong for Castro to trample the Cubans with the aid of the Russians, but it might be wronger to start an

Atomic war about it. Don't ask me. I'll tell you, being President is a fine job, but it sure

has its drawbacks. Running the world, like raising a family, has problems no man has the answer to. You can do what you can, but half the time it won't work. The kid will grow out of it or he won't.

Something ought to be done about Cuba, all right, just as something ought to be done about this bindweed farm. I'd rather think about Cuba, though. I know what ought to be done about this farm.

Yours faithfully,

The Grand Champion calf of the show was shown by Kathy Garrison and the Reserve Grand Champion by James Whaley, Showmanship award was awarded to Mack Fortenberry.

Also held in conjunction with the fair in Vega was a talent show and beauty contest with residents of the Adrian Community participating.

The show started with a number featuring Vicki Burns, Myrna Zaring, Linda Pridmore and Dorris Horton in a song and dance number called "Pitter Pat." It was followed by Jim Session, Rex Manley, Johnny Price and Erwin Brownlee singing "God Bless America."

Next on the program was a number by Donna, Sue, and Roxann Brownlee singing "My Baby's Gone." The trio won second place in the senior division of the show.

Coralie Fortenberry, Harvey Bronniman, Phyllis Peters, and Terry Williams sang a song entitled "Roses Are Red."

Also participating in the event was a group composed of Marsha Burns, Linda Pridmore, Jolene Betts, Phyllis Heaton, Suzetta Sisk, Ina Sue Ferguson, Brenda Ozun and Becky Knowles, accompanied by Rita Speed, singing "Moon River."

Tieing for third place in the senior division of the contest was Adrian foreign exchange student, Karen Neilses. She played "Twinkle, Twinkle Little Star," on the plano.

Winning second place in the junior division of the event were Jim Cavin and Larry Pridmore with a number called "Sitter on Saturday night."

Another participant in the contest from Adrian was Kris Garrison doing the twist.

The number was followed by the Sasser sisters accompanied by Monte Sasser playing the guitar. The numbers they presented included "You're Reason" and "I Want to Be Loved." They won a second in the adult division.

Monte also did a solo number singing two songs, "Family Men" and "Heart Over Mind." Master of ceremonies for the talent show was Bob Couch, the from Amarillo.

The show was followed by a beauty contest with twenty girls from Oldham County entered. First the judges picked the top ten. They were Paula Crietz, Deloris Dunnivan, Coralie Fortenberry, Sherry Haliburton, Pam Harle, Dorris Horton, Twana Jones, Alice Knox, Kathy Kromer and Jo Missner.
