Santa Receives **Christmas Mail**

It's that time of year again- the time when children's fancies turn to Santa Claus and what they will find

under the Christmas tree. Young Terry Warren of 421 Ave. K in Hereford was among the first of the younger set to remember that St. Nicholas would soon be coming. He posted his letter to Santa on Nov. 3.

All youngsters might well follow Terry's example if they are expecting goodles from the jolly old gentleman. In order to aid boys and girls, the Hereford Brand will help collect Christmas mail for Santa Claus.

Mail to Santa should be mailed to Santa Claus, in care of Box 673 in Hereford, In keeping with past tradition, all letters to Santa will be published in the Hereford Brand, and then rushed by special delivery to Santa at the North Pole so that he can

fill the youngsters' gift lists. Youngsters are reminded to get their letters in the mail early so that Saint Nick will have plenty of time to prepare his deliveries.

Second Theatre Burglary Nets \$40 In Change

Star Theatre here was broken into for the second time this month and the concession stand and a soft drink machine coin box were looted, netting more than \$40 in change.

The break - in was discovered about 7 a. m. Saturday as Fred Gonzalez opened the theatre to clean it.

Hereford Police Department officers investigating the burglary reported that a cabinet in the concession stand was broken open and approximately \$8 in change take.

Next, the burglars entered the concession stand store room. Then, the pins to a door leading into the theatre manager's office were removed and the door forced. The office was ran-

Thanksgiving Feast Held For Rebekahs, IOOF

Turkey population felt a tremendous decrease as more than 150 Rebekahs and Odd Fellows met for the groups' annual B-9-20-46-5c Thanksgiving supper. The affair was held Tuesday in the I. O. O. F. Hall.

Following a program concerning Thanksgiving, members nominated officers to be elected at the next meeting, which is slated for Tuesday, Nov. 27. The Weslyan Service Guild Presiding over the business ses-

Allisons Host Farewell Party

A 42 party was given in the home of Mr. and Mrs. C. R. Allison in honor of Mr. and Mrs. Wayland Hukill, who are moving to Lubbock.

Mr. and Mrs. Hukill were presented with a gift from those that were attending.

Refreshments were served to the following: Mr. and Mrs. Arthur Howe, George Zetzsche and children, Harley Bryant and children, Mr. and Mrs. Clark Dobbs, Arlie Dean, Mr. and Mrs. Ed Sherine, Don Cassells and the hosts.

SWING YOUR PARTNER round and round, goes the song, but Jim Haney (25) had another notion as he collared Levelland ballcarrier Benny Tyler (42). In to help tackle the smaller Lobo is Whiteface Bill Steele (75), while Ronnie Duncan (22) looks on in the background. It was

the final game of the season for both teams as the Levelland hosts claimed a 24-0 victory over Hereford. The Thanksgiving day game marked the final football action for seven Hereford graduating seniors.

period. Hereford took over on its 40 after a short kick. Haney got seven, fumbled and Rogers recovered. Arnold Powell got two, but Haney was stopped on the next play. Gambling on fourth down, Haney lost two on a fumble that was recovered by Levelland's Raymond Rister on the Herd 47. Levelland ran three plays for

three yards and punted for the only time in the game. As the quarter ended, Here-

ford got two yards in three tries and punted.

The Lobos again started to march, this time from their own 39. It took 14 plays to make the score, all on the ground. Not even a fumble and a five-yard penalty could stop the drive. Wayne Burton got 12 and 11 on two carries, the last one to the Hereford eight. With first and goal Hereford gave up six yards on two carries and stopped Button for no gain. But a penalty moved the ball to the one with McCann going over. Wayne Button passed to Ronnie Baggett for two more and Levelland led 16 - 0 with 4:33 left in the first half.

Hereford started to drive from its own 38 with Powell and Haney moving well. But from the Lobo 37, with first down, Kelly was held to one, Cain missed on a pass, lost eight when his protection failed and passed incomplete as the ball went over.

As the third period opened, Levelland started from its 45 and took to the air. With third and three, Burton hit a flanker ed up 12 yards and Burton took to the air again for 11. Then two ground plays got five and two passes went incomplete and Hereford got possession on its 14. Two plays got four, one yard less than a penalty cost and a

Ted Latham then came in run the Lobos and hit for a 15yard pass. A ground play got two and Latham threw for ten more. Another ground play got three and Levelland was penalized 15 yards, 13 of which Latham made up on a pass. Latham then ran for four.

Latham wanted to pass on fourth and goal from the three, but had to run. Steele cut him down a yard short.

The Herd got four yards on three plays, then Levelland was charged 15 yards for roughness. Three plays gained four yards with Kelly fumbling on the last carry and Levelland recovered on the Herd 24.

Two passes went astray and Burton fumbled with Haney recovering on the Herd 28. Hereford gained five as the third quarter ended. Cain then passed to Green, who lateralled

to Haney for an eight-yard gain.

Haney got four on two tries and a pass was incomplete as Steele punted into the end zone. Then the flags starting falling like snowflakes. Hereford was charged for five, Levelland gained three on the ground, was charged twice for five yards each time, gained ten, fumbled

and recovered, then was charg-

ed with another five. Burton then sparked a drive that moved on the ground. From the Herd 31, Burton passed for 13, then bootlegged around left end for 13 to the four, Darrell Burton then hit for the score. Wayne Burton passed to Ross Joplin for the final two points

with 4:17 left in the game. Hereford ran three plays and punted. Levelland got one, but was charged 15 yards. This was offset as Hereford was charged on pass interference for ten yards. Jimmy Kassahn recovered for Hereford on the next play for six. Two running plays pick- as Levelland was dropped in its backfield.

plete, so Haney got six and Powell two for a first down on the Lobos 11. Cain passed gain. Powell got eight, then one. From the two, Powell gained nothing, as time ran out. But a penalty against Levelland moved the ball inside the one and gave Hereford a final chance to score. But Powell was stacked up at the line on the last effort. For Hereford, it was the last

game for seven seniors: David was not out of fields a year ago Dowell, Bill Steele, Jimmy Kas-Arnold Powell, Austin Hodges, Charles Kelly and Gary McKee.

'I'm not going to like this book, but I want to read it," declared while checking out The Super . Americans by John

Now that I have finished, my leelings are somewhat different. I didn't like all of it, but it was fascinating ... hard to put down ... thought - provok-

John Bainbridge, a writer and travelled for several months. Then John wrote of what tragic, parts of it are mis-

For Bainbridge can no more write with complete accuracy of Texans and Texas than a Texan can write authoritatively about New York after three months in that metropolis.

Bainbridge carefully dissects Texas into its major parts. He writes entire chapters about oil, its discovery and those who have become wealthy (or poor) from it. He devotes a chapter to that Texas merchandising institution, Neiman - Marcus; a chapter to our homes, another to our artisits and writers.

Unfortunately, Bainbridge did not get into the heart of Texas its ordinary people and its smaller towns. He confined himself to Houston, Dallas, Fort Worth and San Antonio, with side trips to Midland and Odessa. We were unable to find any evidence that he got as far north as Lubbock, not to mention Amarillo or Hereford or Dumas or Borger. Nor is it likely that he managed to get to El Paso, or El Campo or The Valley, or East Texas.

From his interviews at N - M, the Cipango Club and various country clubs, he has brought to light more Texas millionaires than the Internal Revenue. He talks casually, yet with some awe, of their jewels, their clothes, their airplanes and their parties. If nothing else, he has given the reader a pocket Who's Who of Texas money.

Actually, Bainbridge takes his theme - and the book's title -from the prestands for is pretty well ex. Mr. and Mrs. Lester Babione. mise that all this

It is humorous at times (probably not where the author intended), serious at points, quite often educational. For a native Texan, it includes a lot of material that would have led to a hanging less than a century ago. Perhaps its ultimate value

lies in the premise that it does one good occasional to see himself as others see him. And certainly this Easterner has taken a close look at us our state. The book, all 380 frustrating

policy! But do you know this year's best blessing for me? It is being back in Hereford. I love the town, the climate, (in spite of the past week), and the people. Especially the people. Humans are basically the same everywhere, but fall into different categories.

There are people you like instantly . . . the lucky ones. They are the ones with the bright sparkle in their eyes and the lilts to their walks. To them, every day is an adventure and every common occurance an escapade.

There are hesitant humans. you do, they are almost as nice as the "instant people". But have any of you ever met anyone whom you disliked intensely ... even before you got to know them? They are sour on themselves and sour on the world, looking for the worse in everyone and everything. They aren't really people at all, just spiritual misers, and miss the cooking, decorating and sneakgreatest joy in life. The joy of giving of one's self.

People are the reason I like Hereford. You just can't beat lieve in Santa Claus!

The Deaf Smith County Chamber of Com-

group clinics, apparently with the sole object of finding out what the people really want and, needless to say, there are scores of

ideas which emerge from each session.

Some are practical, some are not, but always out of every session comes one specif-

Such a planning group would of necessity

represent the city, county and school in-

terest; it would represent the farmer, cat-

operate for the sole purpose of community

welfare, growth and happiness. The best

argument for a group of this type is the fact that it is difficult to arrive at any given

place - if you do not know where you

are going. A group of this type would re-

commend new schools ahead of acute

needs, it would recommend zoning and

possibly advance ideas on handling difficult

traffic problems. In a nutshell, it would

work toward making this area a better

place to live through foresight, vision and

application of sound practices. If operated

properly, the endorsement or veto of such

a group should be tantamount to success

could provide the solution to many of our problems and, instead of growing in a

topsy-turvy manner, such a planning group

might well direct our future growth in an orderly, successful fashion. Planned pro-

By CAL FARLEY in Boys Ranch Roundup "Nothing is worse than doing something

wrong and not getting caught at it." This sage bit of philosophy came not from a trained psychologist or an unusually observant adult but from one of our own Junior Staff Leaders, 17-year-old Leon Martin of Hereford, Texas, as we discussed some of the problems boys seem to have when they first come to the Ranch.

I was struck with the understanding and clear reasoning of this fine young man because he was voicing an opinion I and a good many others have held for a long time. The one difference, however, is that I reached my conclusion only after many years of experience in working with the type of boys we have at Boys Ranch.

Just to sound him out, I asked Leon exactly what he had meant by that statement and I was pleasantly surprised when he said that, in some ways, it had two meanings. The most obvious one, he explained, was that if a boy did something wrong and was not caught and corrected right then and there, he would probably do it again.

Then, if he was permitted to get away with small wrong-doings, it wouldn't be long before he would try something bigger, finally graduating to serious offenses that could result in loss, damage or personal injury to some innocent person and apprehension and prison for himself, usually bringing shame and hardship on his family. "Nothing is worse than doing something wrong and not getting caught at it."

Leon then went on to explain the second meaning which concerned some people who, through a peculiar mental quirk, would do

Judo Is Newest Fad In America

While Yankee customs have pretty well revamped the thinking and lives of most Japanese, the U. S. A. seems to be picking up a few of the Japanese customs, including judo, a form of jujitsu. Currently, more than 700 clubs and schools are teaching the sport in this country, and reports indicate that interest continues to grow.

Why the sudden interest in judo is a question almost as elusive as the sport itf. Judo, incidentally, means "the g way" when translated into Japanese. Housewives, school children and definite groups of sportsmen appear to be swelling the ranks of judo enthusiasts. Their universal answer is an interest in "self-defense".

While it may take a bit of doing for some of the Texas-size Texans to get used to having their 225 pounds tossed all over the place by a petit 110 pound blande, we must admit that the art of judo is an interesting equalizer. Junior, on the other hand, may well take things over around the house after a couple of semesters of high school judo in P. E. class. To say the least, judo definitely has an appeal never achieved through wrestling or boxing.

Judo seems far more substantial than some of the notions the Japanese have fostered off on the American people in the form of inferior merchandise across department and variety store counters. Invented and developed by a race of "little people", judo no doubt can contribute much toward self reliance for many in the States. The new fad, at the same time, may well provide a partial answer to the ever - growing need for more exercise among people in this country.

Anyway, judo is sweeping the country and if you are a big bruiser with tendencies toward being a bully, it might be well to look twice before making yourself obnoxious to those of smaller stature.

A sample of sugar beets sent recently from the Mc-Donald Irrigated Farms to the factory of the United States Sugar Company at Garden City, Kan., brings a most satisfactory report from the managers of that concern, as the following letter will indicate: To D. L. McDonald, Hereford, Texas, Dear Sir: The sample of sugar beets which were duly received and the following report from our chemist shows the analysis: Number of beets, three; Average weight, ounces, 39; Sugar contents, 17.8; purity, 86.5. These are excellent beets in size, sugar contents and purity. We would like to have a 100,000 tons of such beets. With best wishes, I remain, Yours very truly, F. A. Gillespie, Gen. 25 YEARS AGO

Members of the Commissioners Court voted in their regular session Monday to employ a Home Demonstration Agent for the county, and made an appropriation for the agent. The agent was employed after delegations from all school districts in the county appeared before the court and voiced sentiment in favor of resuming home demonstration work. The new agent will not be employed, however, until state funds are made available for that purpose. "At the present time the state allotment does not include an agent for Deaf Smith County," said Miss Ruby Mashburn, district agent, "but the county has been placed on the waiting list and as soon as additional funds are available an agent will be stationed in the county." Commissioners were firm in requesting a Home Demonstration Agent who has had previous experience, and one who ranks at the top of the list as to ability.

ed as a "saving." The saving is wholly illusory in such offers, Thompson cau-tioned, because the alleged regular price is fictitious. In case after case, the Federal Trade Commission has found that catalogue merchandisers have represented as the regular price of goods, a price in excess of the usual and customary price in the area in which the adver-

tising is disseminated. According to Thompson some of the catalog houses have represented that the prices at which their goods are offered are "wholesale" prices. In one recent complaint the Federal Trade Commission charged that a catalog house's alleged "wholesale" price actually ex-ceeded the usual price at which the goods sold in the trade area where the claim was made.

Real Versus Mythical Savings Savings claims logically have a great appeal to most consumers and they are therefore commonly used by legitimate business as a means of inducing trade and moving inventory. Prudent shoppers who know merchandise and prices are often able to effect genuine savings by responding to bona fide price reduction offers. "Un-fortunately," Thompson stated, "the public's confidence in the integrity of pricing representa-tions is taken advantage of in a variety of deceptive ways, including the use of illusory savings claims by some catalog merchandisers.

Thrifty consumers who seek savings in bargain offers which purport to sell articles for less than their regular or usual price can help avoid victimization, Thompson concluded, by dealing with firms known to them to be

ONE KILLED IN BUS-TRUCK CRASH

Fifty Bohner School students always anxious to get home after a day at school, could look back this week and be doubly thankful their Tuesday afternoon bus ride ended when it did. For at 4:35 p. m. after driver James Steptee had delivered the children to their homes, Olton School Bus No. 14 overturned after a collision involving a pickup truck. When the crash came, two persons were aboard the bus and two others were in the pickup. The toll: one dead and three injured, one seriously. Berry Allen Ball, 74-year-old Fieldton resident, was fatally injured in the mishap which occurred four miles west and one south of Olton at the intersection of two unpaved county roads. A Texas Highway Patrolman investigating the accident said the truck skidded 12 feet and hit the bus broadside. The bus careened 105 feet and overturned, landing right side up. The impact broke the rear wheels and axle from the frame of the vehicle. THE OLTON ENTERPRISE

COMMISSIONERS APPROVE WATERSHED PROJECT

The Running Water Draw Watershed project cleared legal hurdle in Parmer County on Tuesday when the Commissioners' Court tentatively agreed to act as co-sponsor of the project. The Parmer County Conversation District, the original sponsor, asked the commissioners to co-sponosr the project. The court agreed with certain restrictions. The commissioners requested the right to veto any actions by SCD if it meant purchasing right-of-way for dams to be built. The county agreed to pay the administrative costs (advertising for bids, letting contracts for dams, etc.), "We will be co-sponsors on that basis if the State Board of Soil Conservation Districts will accept the restrictions," said County Judge Loyde Brewer. RENT HOUSING CONTRACT SIGNED

Word was received in Floydada late last week by John Reve of the approval of the contract for construction of a low rent housing project in Floydada. Alston Construction Co. of Sweetwater had submitted an orginal bid of \$449,000 which was the low bid of those turned in, but still \$34,527 above the amount earmarked for the proposed units. After a meeting between the low bidder, the architect and the housing authority, some corners were cut to prune off the necessary amount and allow the acceptance of a revised bid. The forty living units will still be the same size as planned and will be well above FHA standards. Some of the items dropped included link fences, taking off some solar tile and replacing with wrought iron trim, and removal of planter boxes. The City of Floydada Housing Authority project will now enter the construction stage with the paper work and preparation all taken care of.

COTTON MAY EXCEED PREDICTIONS

Good weather, better seed varieties, and "know-how" by area farmers likely will boost Bailey County's 1962 cotton production beyond the 85,000-bale predicted level. That was indicated Thursday after a check of farmers throughout the region revealed that crop outlook is "as bright as in recent years — maybe even brighter." This optimistic report came from several sources. Late frostnot yet of the killing type in the Maple area — has been an aid to late developing cotton. Rains have held off further to aid the crop.

COUNCIL WARNED OF GAS, WATER RAISE Members of the Strafford City Council were "warned"

of a meeting with officials of Western Gas Co. of El Paso which will come at the next regular council meeting. This meeting will be for the purpose of explaining why Western Gas Co. should increase their rates for service rendered in the City of Stratford. This information was passed on to members of the Council by Mayor Harold Oquin at the last meeting. The Mayor read a letter from a company official which stated that the company "needs a higher return because of increasing development in Stratford."

THE **BOOTLEG** ---Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm discusses a weighty matter this week.

When Mr. Khrushchev's man in Washington, I forget his name, well, I haven't forgotten it but I can't spell it, was telling Mr. Kennedy a while back that Russia had no missiles in Cuba, he knew at the time, as everybody knows now, that he was lying.

Now you might think this would be embarrassing to

the Russians, but on the contrary they just laugh about it. Lying is one of the handy devices the Communists use whenever they get ready, and they've found it works plenty of times.

The Communists have found out telling the truth is in such high standing in the free world that you can gain lots of territory by deliberately abusing it. India is the latest country that can tell you about this at the moment.

But here's a high point I'm afraid the Communists have overlooked. They know quite a bit about human nature, but not everything. For example, If you can't fool one group of people with a deliberate lie, what's going to keep on Communist from lying to another Communist? What makes one Communist assume another Communist doesn't have some human nature too?

I'm no more a candidate for the job of expert on international affairs that I am for an award as an outstanding farmer, but I have a notion that the Russians and the Chinese Communists are now learning something about human nature, that if you can fool free countries by lying to them, you can also fool other Communist countries with the same tool. This may explain why Russia and China aren't too happy with each other. One has believed the other when he shouldn't have. They've forgotten that a liar on one front is pretty likely to be a liar on another front.

When Khrushchev says Communism will dominate the world, he's talking about Russian Communism. When the Chinese say the same thing, they're talking about Chinese

Home Decors Are On Increase

Downtown Christmas decorations went up this week, thanks to the Jaycees, and we were equally happy to read that the community will, once again, have a home decorations contest, sponsored as part of the Beautifications committee.

For several years now, home decorations seem to have been declining. If this was due to lack of an annual contest, we have the answer already with the 1962 committee. Mostly, though, we feel that the decline has resulted from lack of a bit of "push, publicity and persistence". People, busier than ever before, must have a bit of encouragement and prodding if they are to spend, their time and money in making the community one of the best decorated in the country - which it frequently has been in years past.

Decorations do require work but, like beautiful lawns, beautiful flowers and fine trees, they can also provide tremendous satisfaction and entertainment. The program has in many years past attracted hundreds of citizens who drive around at night during the holiday season to view decorations around town at the homes of friends and neighbors. Far from any possible affiliation with commercialization of the occasion, home decorations provide a wholesome application of the true Christmas spirit in that they represent a form of "giving" of one's self and one's time so that others may enjoy and appreciate the effort.

This year we predict some outstanding home decorations in the community, and it is a circumstance to which many will look forward with anticipated pleasure.

TOUCHDOWN FOR THE LOBOS, their first of three, Some as back Darrell Burton rounded left end in the middle of the first quarter. Attempting to stop the score are Hereford's Jim Haney (25) and Ronnie Duncan (22),

along with Bill Steele (75). Also in on the action is Levelland tackle Don Payne. The Lobos claimed a 24-0 win in the Thanksgiving day tilt. It was the final game of the season for both squads.
