Year's Total Building Permits Record High; November Amount Slumps

Local Economy Good Despite Carter Plan.

That feller on Tierra Blanca Creek says lucky are those who love eventually leads to friendship.

Dan Welty, Brand advertising salesman, says he realized he had been eating too many sunflower seeds when one morning, as he stepped outside, his head snapped around to the east!

THE OPEN HOUSE planned Saturday and Sunday for the new Carnahan-Griffin Real Estate office has been postponed due to the serious illness of Wilma Carnahan, Tommy's mother. Invitations had already gone out in the mail. A new date for the open house will be announced later.

FARM EDITOR Jim Steiert wrote a personal opinion article in yesterday's Brand concerning the irrigation gas problems, and we believe it provided a good overview of a complex situation. In the final analysis, as Steiert suggests in his article, the solution may have to come in the form of a new farm program from Washington.

The cost of irrigation gas is no more the villain than other production costs that have soared in the past two years. The farmer's primary problem remains the same as always—getting a fair and reasonable price for his crops. As much as most farmers dislike government regulation, farm legislation may be the only answer.

While other businesses pass along their increased costs to the consumer, the farmer cannot put a price tag on his products. He sells his wheat for a decreased price, and bread still goes up in the grocery store. It's not difficult to understand the farmer's frustration.

THE THE FUN Breakfast this week, Clint Formby gained some measure of revenge on emcee Doug Manning by playing a taped interview which he purportedly had with the Baptist minister. The "doctored" tape supposedly gave answers to questions which Formby posed to Manning. Some of the answers were startling, to say the least!

That portion of the program led Rocky Lee to approach staunch Democrat B.F. Cain with this observation after the breakfast:

"You know, B.F., since hearing what can be done with tapes, I don't know if Nixon was really so bad, after all!" quipped Lee.

If you want to help the Girlstown Coat & Shoe Fund this Christmas, you can make a check to Girlstown and send it to the Hereford Lions Club, Box 761, Hereford.

Houses Help

Even though construction in November went below pleasing levels, the yearly total is still a record due primarily to single family residential structures as the one above being built in the northwest section of Hereford. Numerous such

buildings are an indication of the strong local economy which is measured month to month by the city building permits. [Photo By Bobby Templeton]

Carter Sends Message To Moscow

Arms Limits With Russians Sought

PLAINS, Ga. (AP)—President-elect Jimmy Carter said today he plans to send an informal message to Moscow expressing his determination to seek permanent peace and strategic arms limitation accords with the Soviet Union.

Carter said he would do so through unofficial channels in response to Soviet leader Leonid I. Brezhnev's assurance that there will be no pressure from Moscow to test the new administration. By saying it, in an interview on the NBC-TV "Today" show, Carter in effect did it. He said his message would be a reciprocal expression of dedication to peaceful relations with the Russians.

Carter also said that after his Jan. 20 inauguration, he plans to press aggressively for progress in the stalled strategic arms limitation negotiations.

Carter, in sports shirt and sweater,

Hunter's Breakfast Is Next Saturday

With opening day of the 1976 pheasant season just eight days away, the ladies of the Hereford Volunteer Fire Department Auxiliary are drawing up the final plans for their annual Pheasant Hunter's Breakfast, to be held Saturday, Dec. 11.

The pre-dawn breakfast, which is attended each year by numerous local and out-of-town hunters, will get underway at 4:30 a.m. and continue through 7:30 a.m. at the Hereford High School cafeteria.

Auxiliary members will be serving up a hearty breakfast of scrambled eggs, ham, biscuits, gravy and coffee at a price of \$2.50 per plate.

Proceeds from the breakfast will benefit the local fire department.

avoided confirming but did not deny the selection of Cyrus R. Vance, once Lyndon B. Johnson's roving troubleshooter, to be his secretary of state.

On other issues, the president-elect—Said he is disappointed at the 6 to 7 per cent price increase posted by the steel industry, but declared he has no intention of imposing wage-price controls during his term unless there is a national emergency.

—Reserved his options on continued

production of the costly, controversial B1 bomber, which is being started by decision of the outgoing Ford administration. Carter said the limited production start announced Thursday will not affect his decision on the future of the disputed plane.

—Said he expects to name most of his Cabinet officers within the next three weeks. "I think that by Christmas I would have the Cabinet fairly well identified," he said. He said most of the people he

chooses will be relatively unknown nationally.

Vance, whose appointment was expected at a midafternoon news conference, is an exception. Carter also is expected to appoint Atlanta banker Thomas Bertram Lance to be his budget director.

"I think that by Christmas I would have the Cabinet fairly well identified," Carter said.

Cyrus Vance Selected To Fill Shoes Of Secretary Of State

PLAINS, Ga. (AP)—Cyrus R. Vance, who served as Lyndon Johnson's world-traveling troubleshooter and tried unsuccessfully to negotiate an end to the Vietnam war in 1968, is the man Jimmy Carter has selected to replace Henry A. Kissinger as secretary of state, sources say.

Carter declined today to confirm the selection but said he wasn't denying the choice would be Vance.

"I wouldn't want to deny Cyrus Vance or anyone else at this point," he said in an interview on the NBC-TV "Today" show.

He was expected to announce the Vance appointment at a news conference later in the day. It will be his first Cabinet appointment.

Carter said he would announce two appointments at the news conference. The second is expected to be that of Atlanta banker Thomas Bertram Lance as his budget director.

The President-elect said he expects to complete most of his Cabinet choices by Christmas.

He said he has been concentrating so far on the national security area, including the State Department, the Pentagon and the National Security Council.

He also mentioned the Treasury as an early priority.

"I think that by Christmas I would have the Cabinet fairly well identified," he said.

Vance, currently a New York lawyer, was a house guest at the Carter home here earlier this week, and the visit stirred speculation that Vance would be named either secretary of state or secretary of defense.

The nomination is subject to Senate confirmation.

Vance, 59, held a variety of posts under Presidents Kennedy and Johnson and

was a ranking foreign policy adviser to Carter during the president-elect's campaign for the White House.

A native of Clarksburg, W. Va., Vance was a Navy officer and is a lawyer. He took his first government assignment in 1957 as a special counsel to a Senate subcommittee headed by Sen. Lyndon Johnson.

President John F. Kennedy named Vance in 1961 as Defense Department general counsel and he later became Kennedy's secretary of the Army. Under Johnson, Vance was elevated in 1964 to deputy defense secretary, the No. 2 post in the Pentagon. He resigned the Pentagon job in 1965.

Johnson often used Vance as a world-roving troubleshooter. Assignments from Johnson sent Vance to the Mediterranean during Greek-Turkish

Brand News Editor

While President-elect Jimmy Carter considers whether or not to allow tax cuts to stimulate the economy on the national level, Hereford can boast a significant year in money growth even though the latest monthly indicator was less than pleasing.

Carter is yet uncommitted to campaign promises to improve money flow while he debates the steel manufacturers over prices hikes, but local residents still ought to be comforted by the fact that unemployment here and economic expansion will be the history for 1976 despite national conditions or policies. For the first 11 months of the year, building permits as recorded by the city tax office, show that the current total is \$6,782,600 with the possibility of December construction putting the total over the \$7 million mark.

THE GOOD NEWS of course is that the annual record total is guaranteed, but the November building permit total was the bad news. It was the lowest monthly figure for the year with only \$144,700 in construction.

As of this time last year, the total was \$3,990,371.

This reflects the value of new building within the city limits including new buildings such as mobile homes being carted in to the city. Mostly, the permits show new residential and commercial erections.

However, as of Friday, the December construction started off at a much better pace than last month as over \$100,000 in permits were issued. This included a \$43,000 house and a \$52,500 residence being constructed by the Boggs Construction Company. Also, a \$7,000 residence was permitted for Leonal Gonzales. If the permits continue at this pace, then December could result in a yearly total close to earlier predicted figures.

Since several million dollars months were recorded at the first of the year, some prognosticators forecast as much as \$10 million in permits being issued this year. But it will more likely just go over the \$7 million total.

THE ANNUAL RECORD now standing was just over \$5 million set in 1965 with Sugarland Mall was built. In 1970, permits again went over \$5 million as the record so far this decade.

The year in which Hereford hit the lowest yearly total was in 1974 when the total was \$2,215,000. That was the year the local cattle market and some agricultural markets plummeted.

However, the recovery to better times has been rapid as permits reached \$4,481,971 last year and are expected to almost double that figure this year. It's more like a geometric progression than a mathematical one.

The trend this year is different from last year, when the monthly totals hit significantly high levels in the closing months of the year. They started off poorly and climbed toward the end of the year.

In 1976, the total began well and started falling in mid-summer with a slight peak and then down to the November low. The highest month in the year was set in April with a \$1,295,340 total.

Other months are as follows: January, \$790,230; February, \$1,135,850; March, \$958,200; May, \$1,145,550; June, \$313,600; July, \$462,300; August, \$282,080; September, \$254,750; and October, \$339,350.

MOST OF THE PERMITS last month were for small amounts of various additions to existing structures. Residential buildings reflected the highest permits for a total of \$92,800. These

Steel Price Debate Continues

PLAINS, Ga. (AP)—President-elect Jimmy Carter said today the steel industry "missed a tremendous opportunity to help me as future president" by increasing prices 6 to 7 per cent. But he said he has no intention of imposing wage and price controls.

Refraining from the price increase would have been "a sign the business community is willing to make a sacrifice," Carter said. "The symbolic impact of not raising prices would have been notable... I was disappointed when they decided otherwise."

B1 Bomber Faces Carter

PLAINS, Ga. (AP)—President-elect Jimmy Carter said today the Pentagon's decision to begin production of the costly, disputed B1 bomber "doesn't really make much difference" in his consideration of whether to go on with it during the new administration.

The Ford administration awarded contracts on Thursday to start production of the war-plane Carter once opposed, putting the incoming president in the position of having to cancel a project under way if he decides against it.

Stable Oil Price Forecast

PITTSBURGH (AP)—James Lee, president of Gulf Oil Corp., says American motorists won't pay substantially more for gasoline after an anticipated 10 per cent hike in OPEC oil prices.

Yet he says an increase should alert the United States that it must reduce its dependence on foreign oil to avoid a bigger bite on consumers in the future.

The 13 member nations of the Organization of Oil Exporting Countries OPEC are to meet in Qatar later this month to discuss possible crude oil price changes.

Peasants Disrupt Mexican Farms

CULIACAN, Mexico (AP)—Thousands of peasants have disrupted farm work in the Mexican state of Sinaloa to enforce demands for land, and landowners warned that their crops could suffer.

The owners asked Gov. Alfonso Calderon to come to the region today to try to convince the squatters to stop their action and let the farmers work.

Gilberto Partida, a lawyer representing the landowners, warned, "If the situation doesn't return to normal soon, in some cases there will be a total loss of crops."

New Economic Figures Set Heavily With Carter

WASHINGTON (AP) - The latest government figures on unemployment and wholesale prices may weigh heavily in President-elect Jimmy Carter's decision on whether to boost the sluggish economy with new stimulating measures.

Carter has said he will consider recommending a tax cut or increased government spending aimed at creating jobs to get the economy moving if the slowdown continues much longer. In the three weeks since he said that, there has been little evidence that the slowdown is over.

The November job report was due out

from the Labor Department today.

The jobless rate stood at 7.9 per cent in October and 7.8 per cent in September. In October, a total of 7.6 million persons were without work, the highest number since December when 7.7 million were jobless.

The department also will release its November wholesale price index today.

Wholesale industrial prices, which pay a much larger role in determining the over-all rate of inflation than do farm and food prices, have been accelerating since June. In October, industrial prices spurred 1 per cent.

disputes over Cyprus, to South Vietnam at the time the war there was escalating, to the Dominican Republic during that country's 1965 civil war, to Panama during the 1964 Canal Zone riots and to South Korea in 1968 to assess what appeared to be rising threats from North Korea.

Johnson then named Vance, along with Averell Harriman, as part of the first negotiating team sent to Paris for peace talks with North Vietnam in 1968-69.

In a September speech to a high-level group that will recommend U.S. policies toward world problems, Vance said the

United States has a good chance to reach solid economic agreements with Third World nations.

He urged that the United States be "reasonably forthcoming" in its future dealings with poor nations.

Carter had indicated early on that he planned to name Vance as director of the Office of Management and Budget.

He had said he wanted to fill the OMB post early because of the need to begin serious work on preparing probable amendments to the 1978 fiscal budget that Ford will send to Congress a few days before the Jan. 20 inaugural.

Obituaries

NAOMA PRICE

Funeral services for Naoma Ruth Price, 80, of Canyon, mother of LeRoy Price of Hereford, will be held at 3 p.m. Saturday at Calvary Baptist Church in Canyon. The Rev. Jim Brown, pastor, will officiate.

Burial for Mrs. Price, who died Thursday, will be held in Memorial Gardens in Amarillo by Schooler-Gordon Funeral Directors of Canyon.

Mrs. Price was a native of Adairsville, Ga. and had been an Amarillo area resident since 1942. She was a member of Calvary Baptist Church.

She and her late husband formerly operated Price Grocery and School Supplies.

Survivors include two sons, Wayne of Canyon and LeRoy of Hereford; a daughter, Mrs. Martha Inman of Biloxi, Miss.; a sister, Mrs. Roy Waggoner of Savoy; 11 grandchildren and great-grandchildren.

LETITIA WEST

Graveside services are scheduled at 2 p.m. Monday in West Park Cemetery for Mrs. Letitia Baker West, 89, a former resident of this community.

The Rev. Doug Manning, pastor of First Baptist Church, will officiate. Interment will be under direction of Gilliland-Watson Funeral Home.

A resident of Caruthers, Calif., Mrs. West died Tuesday

in that city. She and her late husband, C.H. West, came to Deaf Smith County from Clovis, N.M., in 1946. Following his death in 1952, Mrs. West moved to California to live with her daughter, who survives her. Other survivors include a son, six grandchildren and six great-grandchildren.

VERA L. HOLMAN

Services are scheduled at 2 p.m. Saturday for Vera L. Holman, 59, of 608 Forest, in Smith & Co. Pioneer Chapel with the Rev. Jim Bozeman, pastor of Temple Baptist Church, officiating.

Interment will be in West Park Cemetery by Smith & Co. Funeral Home.

A resident of Hereford for 25 years, Mrs. Holman died at 9 a.m. Wednesday in her home. A housewife, she came here from Waurika, Okla., and was a member of Second Baptist Church at Canyon.

Survivors include a daughter, Marta Kilpatrick of 442 Mabel; a son, Greg of 427 N. 25 Mile Ave.; two sisters, Louise Terman of 608 Forest and Dorothy Rhymes of Fort Worth; five brothers, G.W. Chapman of Hereford, Raymond Chapman of Borger, Elmer Chapman of Long Beach, Calif., and Hayden Chapman of Fort Hood; her mother, Elsa Mae Chapman of 608 Forest; and two grandchildren, Coby and Tomi Kilpatrick, both of Hereford.

Millionaire Asks For HS Diploma

DALLAS (AP) - Millionaire record producer Snuff Garrett appears to have everything - an \$850,000 Bel Air mansion for which he paid cash, a gold Stutz automobile, a wife and four kids and a highly successful business.

He has everything except the high school diploma he covets.

Dr. George Reid, assistant superintendent of the Dallas Independent School District, received a letter this week from Garrett's public relations man asking if Garrett could meet with school officials this month to discuss ways to obtain that diploma.

Thomas Leslie Garrett, who now produces records for Cher, dropped out Dallas' South Oak Cliff High School in the 10th grade, despite Principal Ben Matthews' attempts to dissuade Garrett.

"I was making 'F' in everything but ROTC," recalled Garrett, now 38.

"He told me that the boy who finishes will earn \$35,000 more in his lifetime than a boy who drops out," remembered the former Dallas deejay.

By the time he was 30, Garrett had sold his first record producing company to Warner Brothers for \$2,500,000.

"Ben Matthews was right in trying to talk me into staying in school," said Garrett, who had produced records for Johnny

Burnette, Bobby Vee, Gary Lewis and the Playboys, Liza Minnelli and Jim Nabors, "I damn near starved to death."

Garrett had been working nights at KLIFF in Dallas for several years before he quit school. "They called me the librarian and I was making about \$5 a week."

He finally was able to land a deejay job in Lubbock, Tex., and moved to Wichita Falls, Tex., where he became famous for his bizarre promotion stunts.

He once spent a week in an auto atop a flagpole, equipped with two turntables, a St Bernard and a parrot.

Another time he spun records for 110 consecutive hours after a weekend of promotion parties. "I made \$1,500 on that one," he added.

His career as a producer began in 1959.

Garrett is planning to come home to Dallas this month to visit friends and relatives and hopefully get his diploma.

"Funny," he said, "All these years in the music business nobody ever asked me if I graduated from high school."

John Quincy Adams was the only president who returned to serve in the Congress after leaving the White House. He spent 17 years in the House of Representatives.

TSTA Offers 25 Per Cent Pay Hike For Public School Teachers

AUSTIN (AP) - All Texas teachers would get at least a 25 per cent pay increase in 1977-78 under a \$1.4 billion school finance plan proposed Thursday by the Texas State Teachers Association.

"We think it is a very reasonable request," Grace Grimes of Marshall, TSTA president, told a news conference. "It's what we asked two years ago and didn't get."

TSTA officials admitted the \$1.4 billion figure did not include a \$20 a month pay raise

that about \$150,000 teachers will get next year additionally under a long range salary schedule approved by previous legislatures.

Mrs. Grimes said that without the salary increases in their plan more than 25 per cent of Texas teachers would be frozen at the top of their present salary schedule next year.

She said the TSTA plan agreed in a number of instances with the \$850 million school financing plan submitted by Gov. Dolph Briscoe, which does

not have a built-in pay raise.

The House Committee on Alternatives to Public School Financing has proposed a \$1.2 billion bill for full state funding of the present program.

Mrs. Grimes said the TSTA plan would result in state-local financing of about 85-15 per cent. Briscoe's bill calls for 90-10 financing.

Mrs. Grimes said under the pay raise the base pay of beginning teachers would go

from \$8,000 to \$10,000. All teachers would get a 25 per cent pay increase "across the board" for the 1977-78 school year. Then in 1978-79 a Step 11 salary category would be added to the present 10-step minimum salary schedule. A Step 12 would be added in 1979-80 to give some teachers a 36 per cent increase above current levels.

The TSTA bill would provide an equalization aid formula giving \$210 per student, triple the present \$70 allocation - the same as the governor's plan.

The bill also would continue aid of \$40 per educationally disadvantaged child for special education classes.

Devaluation Helps Border

NOGALES, Ariz. (AP) - The Mexican peso devaluations have helped twin plant operations, those firms with plants on both sides of the border to take advantage of cheaper Mexican labor.

Robert C. Carrier, head of the Twin Plan Manufacturers' association here, said Wednesday that the savings in payroll expenses for the Mexican-side plants has been 15 to 20 per cent since the first devaluation in September.

Carrier, who is twin plant manager here for Molex Inc. of Lisle, Ill., said the savings has

been realized in conversion of American dollars to pesos to meet the payrolls on the Mexican side.

There are about 75 twin plant operations here and in Douglas, Ariz. - Agua Prieta, Mexico, 90 miles east of here. The plants on the Mexican side employ about 10,000 workers and they assemble luggage, electronics and some textile products.

The twin plants operate by providing parts for products from a plant on the American side to an assembly plant on the Mexican side.

When the products are

assembled, they are shipped back to the American-side plant, from where they are distributed for wholesaling.

While the devaluations have cut the peso's value in half, savings to twin plant manufacturers have been less because of a required 23 per cent pay raise on the Mexican side, Carrier said.

He said another 15 to 20 per cent raise is anticipated for January, but labor still will be cheaper than on the American side and the firms still will save due to the devaluations.

THE RIGHTS OF FREE PEOPLE INCLUDE THE CHOICE OF FAITH

The citizens of a free country never take their freedoms for granted, but have wisely provided a specific list of them in the set of rules by which they are governed. These freedoms include among other things the right of peaceable assembly, to speak and write whatever they see fit, and one of the most basic rights of all: to worship God in any manner they choose; a privilege consistent with the theory that freedom itself is man's God-given birthright. Be ever prepared to defend your freedom against anyone who would take it away from you, and avail yourself of one of its principal blessings by attending the Church of your choice every week on the Sabbath. And thank God for your right to do so, wherever you are.

We owe it to our ancestors to preserve entire those rights, which they have delivered to our care: we owe it to posterity, not to suffer their dearest inheritance to be destroyed.

—Author Unknown

Middle Ages Revived By Society For Creative Anachronism

STORRS, Conn. (AP) - Dust off that coat of arms, beckon your favorite wench and pop open a bottle of mead. The 10-year-old Society for Creative Anachronism is reviving those dark ages of the past - the Middle Ages.

The revival doesn't embrace all aspects of the Middle Ages, said one member, Jeffrey A. DeLuca of Williamantic. There's no religious persecution, no famine and "we try not to spread the plague."

Medieval clothing is required at society events, said Susan R. Tallmadge, 21, of Hartford. She said gentles don't refer to them as "costumes" because they aren't pretending to be medieval people - they are.

John L. Leland, a knight of the society who also is a Ph.D. candidate in medieval studies at Yale, said each gentle picks a pre-1650 identity, with name, skill and appropriate clothing.

And the society engages in warfare among its various kingdoms. The East Kingdom fights an annual war with the Middle Kingdom over the Barony-Marche of the Debatable Lands, or Pittsburgh, DeLuca said.

The loser gets Pittsburgh.

CB Sales Record Possible In 1976

WASHINGTON (AP) - Despite a late summer-early citizens band sales slump, more citizens band radios will be sold this year than in the 18 years since the general public has been permitted to use them, an industry trade group predicts.

John Sodolski, an Electronics Industries Association vice president, said 1976 sales will total nearly 10 million sets, more than double the number of CB radios sold last year.

expansion becomes effective.

Sodolski said only three million CB sets were sold between 1958, when CB radio as it is now known was created, and 1973, when a combination of factors triggered the current boom. Sales in 1973 exceeded one million, then more than doubled each year since then.

But the FCC expansion decision and its initial confusion, combined with the usual late summer sales slump and supply finally meeting demand, brought about a halt in the rising rate of sales in September.

Retail sales of radios, antennae and other accessories should top \$2 billion this year, he predicted.

Sodolski said there are nearly 20 million CB sets now in use. The Federal Communications Commission said it has issued 7.5 million licenses, with the rate of applications continuing at about 300,000 a month.

Many CB enthusiasts install units in both their homes and their cars to enable home-to-home mobile conversations.

The industry expects CB sales to continue to climb next year, Sodolski said, due largely to publicity since the growth of CBs began in 1973, new features and the expansion of the current 23-channel CB band to 40 channels next month.

Recent FCC figures show about 70 models containing the new 17 channels have been approved for sale on Jan. 1 when the FCC channel

Nevertheless, Sodolski said, record sales in the first half of 1976 and the expected resumption of sales in November and December is expected to result in the 10-million-unit sales this year.

Sodolski said he expects a shortage of the new 40-channel sets early next year because of FCC rules that prevent shipping the units to retailers until Jan. 1, and because of some industry difficulty in meeting new FCC standards required to lessen CB interference with television and other broadcast bands.

Nevertheless, the FCC said last week that 79 models had been approved for sale and testing of others will continue to determine whether they meet the new FCC standards and can be sold to the public.

Kelley To Remain Despite Carter

WASHINGTON (AP) - FBI Director Clarence Kelley said Thursday he does not intend to resign despite indications that President-elect Jimmy Carter wants to name his own FBI chief.

"I have said many times I am not going to resign," Kelley told a reporter. He said he had not changed his mind.

Asked whether he would resign if Carter asks him to do so, Kelley replied: "When that comes up, I'll address it then."

Campaigning in Connecticut in September, Carter said he would have fired Kelley if he had been president and known the facts behind allegations against the FBI director at the time. But Carter stopped short of saying he would fire Kelley as president.

"I will cross that bridge if I come to it," Carter said. When he first became

director of the FBI, Kelley had \$1.5 million in valances built in his living room by bureau employees. Kelley said the work was done without his knowledge. He reimbursed the government \$355 for labor and materials.

President Ford rejected a recommendation that he fire Kelley for the incident and for accepting gifts worth up to \$105 on special occasions from FBI executives.

Kelley said today he has not talked with Carter or any of Carter's staff about his job.

Asked whether he would like to arrange a meeting with Carter, Kelley said: "The matter of a meeting is up to him."

American painter James A. McNeill Whistler flunked out of West Point. He would have graduated in the Class of 1855 had he not failed chemistry.

THE MYSTERY of why Sonia Roberts and "Strawberry Hill" are sharing a cab is easily cleared up. Clues: Sonia is an actress. "Strawberry Hill" is a bloodhound. The cab is an English taxi. Setting is a Hollywood studio where the latest Sherlock Holmes epic, "The Seven Percent Solution", was filmed. Solution: A promotion stunt.

Mother Tries To Get Court To Delay Death

SALT LAKE CITY (AP) - Gary Gilmore waited in his Death Row cell today to learn whether his mother would succeed against his wishes in getting the U.S. Supreme Court to delay his Monday sunrise execution.

The nation's highest court and three courts in Utah were to consider a variety of pleas today seeking to stop Gilmore from facing a firing squad two days after his 36th birthday for the murder of a Provo motel clerk.

Attorney Anthony Amsterdam, representing Bessie Gilmore of Milwaukee, Ore., on Thursday asked U.S. Supreme Court Justice Byron R. White, the Utah Supreme Court and a state district court to intervene in the case.

White referred to petition for a stay to his fellow justices, meeting today in Washington, D.C.; for the court's regular weekly conference. The court could either deny or stay or grant one in order to give attorneys time to argue why the court should at a later date consider the case on its merits.

The U.S. Supreme Court also had before it the case of convicted Texas murderer Robert Excell White, 30, who says he wants to die as scheduled on Dec. 10.

The two state courts and the U.S. District Court for Utah were also to consider requests to delay what would be the first execution in the United States since 1967.

"The need for a stay of execution... is obvious," Amsterdam, a Stanford University law professor, told White. "Such stays are commonly granted in death cases. Indeed, the only factor that makes this application unusual is petitioner's

assertion that he wishes to be executed."

Gilmore's attorney, Ronald Stanger, said his client was "wondering" how his mother became involved in the appeals. Stanger said Gilmore expressed a desire to talk with her and to see copies of the appeals.

Mrs. Gilmore who is bedridden with arthritis, has said that she opposes capital punishment and wants her son to live.

She entered the case through the Legal Defense Fund of the NAACP, which has been among the most vociferous opponents of capital punishment. Gilmore is white, but the NAACP fears his death could hasten executions of many blacks who are among the 400 convicts on death rows around the nation.

Utah's death penalty law is

Chinese Appoint Minister

TOKYO (AP) - China has decided to appoint Huang Hua, former Chinese ambassador to the United Nations, as its new foreign minister. Peking's Hsinhua news agency reported Friday.

The Hsinhua broadcast monitored in Tokyo said the decision was "unanimously" adopted by the Standing Committee of the National People's Congress, the Chinese parliament.

"The meeting heard an explanatory statement by Vice Premier Li Hsien-nien on the appointments and removals proposed by Premier Hua Kuofeng amid warm applause.

"A decision was unanimously adopted to appoint Huang Hua minister of foreign affairs of the People's Republic of China and remove Chiao Kuan-hua from the post of foreign minister," Hsinhua said.

Huang, 63, served as ambassador to the United Nations since mainland China replaced Nationalist China in the world body in 1971.

"Chivalry with indoor plumbing" is the way another member described the Middle Ages-Revived version.

The society, begun in California, lists about 3,000 members in 35 chapters. They belong to guilds, DeLuca said, for wizards, cooks, exotic dancers and archers. "We have a Wenches Guild in Boston and there is a Virgins Guild, too," DeLuca said.

The society stages annually a Pentathlon of Arts, the next one early next year, probably in Philadelphia.

Members value chivalry and expect others in the society to behave like gentlewomen and gentlemen, DeLuca said. Royalty and "revolting barbarians" alike are called "gentles," he said.

Scramble Begins In Atlantic City

ATLANTIC CITY, N.J. (AP) - Behind the famous Boardwalk, the wheeling and dealing for financial position is on as this decaying resort city dreams of regaining its former elegance with the help of casino gambling.

The scramble "is now at fever pitch," said Albert A. Marks Jr., an investment banker who heads the Miss America Pageant here.

"But it should rapidly dry up into cold, hard business deals which should be the economic basis for the benefits of casino gambling," he said.

After New Jersey voters in the Nov. 2 election authorized casinos here, city officials predicted that gambling might begin by early 1978.

"I haven't seen this sort of optimism borne out by facts since 1930, when we were at the tail end of our heyday," said Marks.

Already there have been these developments:

-A bill was introduced in the legislature to regulate 16-hour gambling and grant casino licenses to hotels with at least 400 rooms. Three existing hotels - Howard Johnson's Regency, the Dennis and Chalfonte-Haddon Hall - seem

to qualify.

-National, Eastern and Northwest Odwrdnifzo lines have applied for permission to fly to nearby Atlantic City Airport. Now only Allegheny Airlines runs a 19-passenger shuttle flight between here and Philadelphia.

Resorts International Inc., a Florida-based firm with hotels and a gambling casino in the Bahamas, says it will build a \$50 million, 1,000-room hotel on the Boardwalk. It also plans to renovate the 1,101-room Chalfonte-Haddon, which it bought for \$5.2 million during the summer.

-Playboy says it wants to open a croupier's school here and is thinking about building a casino-hotel. Playboy owns four casinos in Britain.

-The FBI says organized crime is already trying to move in on the local vending machine and garbage removal industries. This follows a visit by a Miami associate of reputed gangster Meyer Lansky shortly after the referendum passed.

-William Whitner, a Charleston, S.C., developer, plans to break ground next month for a 30-story, 660-room hotel on a choice Boardwalk location adjacent to Convention Hall.

Copped Cup

The America's Cup, originally called the Hundred Guinea Cup, was offered by the Royal Yacht Squadron of Great Britain for a race around the Isle of Wight. The cup was won by the "America", a 100-foot schooner from New York, but was donated in 1857 for a perpetual international challenge competition.

AFL-CIO, UAW May Reunite

DETROIT (AP) - United Auto Workers President Leonard Woodcock will confer in Washington today with AFL-CIO President George Meany, renewing speculation the two giant labor groups will reaffiliate, the Detroit News reports.

The News said Woodcock disclosed plans for the meeting on Wednesday, adding that he will be accompanied by UAW Secretary-Treasurer Emil Mazey. There was no immediate comment from the union.

The two UAW officials reportedly will meet with Meany and his possible successor, Secretary-Treasurer Lane Kirkland.

Woodcock, 65, who will retire next May as head of the 1.4-million member UAW, has gone on record in favor of reaffiliation with the 14.2-million member AFL-CIO, a position believed to have the backing of a majority of the UAW's 26-member executive board. Mazey heads a bloc opposing the move.

The UAW bolted from the labor federation in 1968 because of a long-festering feud between Meany and the late UAW President Walter Reuther over domestic and foreign policy issues.

Att. Gen. John Hill Moves Closer To Announcing Governor Candidacy

WICHITA FALLS (AP) - Texas Atty. Gen. John Hill moved a step closer to announcing his gubernatorial plans Thursday when he told reporters of a statewide poll being conducted to see how the voters "regard me as a candidate for governor."

The attorney general was in this North Central Texas city to lift an injunction against Taylor Foundry. The foundry had been found in violation of clean air standards but was brought back into compliance with the addition of new pollution control equipment.

Hill, State Comptroller Bob Bullock and Lt. Gov. Bill Hobby have all expressed interest at one time or another in running for Gov. Dolph Briscoe's job, but Hobby and Bullock have publicly stated they would not run if the governor chose to try for a third term in 1978. Hobby has since announced his candidacy for another term in his present job.

Hill was in Waco for a speaking engagement late Thursday and could not be reached for further comment. But his press secretary, Mary Jane Bode, said she understood the poll was commissioned "very recently," with the contract going to a Dallas-based firm.

"I knew they were getting a questionnaire together," she said, "but I didn't find out until today that it was already underway."

Jim Bushala, Hill's executive assistant, said he had not talked with Hill in the past four days and was unaware of the poll's existence.

Fink Sold To New Owners

FINK (AP) - The administration didn't fink out. It sold out. Patricia Albright, who has been mayor for 14 years of this hamlet 80 miles north of Dallas in North Central Texas, turned over her title and that of the Fink General Store and Museum to new owners Wednesday.

A family business and the establishment here seemed perfect. "We had been intrigued by all the goings on in Fink," she said.

Albright said he thought the transition would be simple. "When you put a peanut farmer in the White House, me and Pat felt like we ought to put a cement mixer in Fink," Albright said.

"Besides, with his three kids that boosts the population to 16 - that's pretty near enough to qualify for revenue sharing," he added.

The ex-mayor said Wednesday she plans to do of a resting although she promised to help out in future Fink festivities. She said she thought the selling out was the right thing to do.

"The time to retire is when you're on top," Mrs. Albright said. "I don't know how we could top the Bicentennial Fink Olympics we had this year."

State Authority Over Bank Control Asked

SAN ANTONIO (AP) - Gov. Dolph Briscoe wants the state to have the final say when control of state-chartered banking institutions is shifted.

"It's a bad situation when banks are kited like hot checks and it has got to be stopped," Briscoe said Thursday.

Briscoe told a state conference on the handicapped he has asked the Texas Banking Commission to help prepare legislation to correct problems such as those that led to last summer's collapse of the Citizens State Bank of Carrizo Springs.

"Something needs to be done to protect the citizens of this state from situations developing again as they did in Carrizo Springs," Briscoe told an informal news conference.

The Carrizo Springs bank was the subject of a U.S. House Subcommittee hearing in San Antonio this week. One of the problems pointed out in testimony was how easily control of the bank was shifted from one group or individual to another.

He said, "We are considering measure to require approval of the Texas Banking Commission before controlling interest in state banks can change hands."

Nip And Tuck

The Canyon-Vernon game opened the tournament Thursday, and wound up nearly as close as the scoreboard shows in this shot. The Eagles, behind a point at this time eventually posted a 62-60 win behind Mike Flynn's 19 points. (Photo By Bob Nigh)

Wrestling Features Championship Matches

Hereford Lions Club officials announced a double main event with two championship matches on next Saturday's wrestling card.

Teddy Dibiase and Ricky Romero will challenge Dennis Stamp and Alex Perez for the Western States Tag Team title, while Pistol Pez Whitley, Dynamic young black wrestler, will contest Tank Patton for the Western States heavyweight Championship.

Dibiase was voted rookie of the year in professional wrestling in 1975 off an unexcelled record in Oklahoma and Louisiana. At 6-3 and 245 pounds and, he is agile and resourceful.

The son of the late, great "Iron Mike", who died in the ring in Lubbock seven years ago. Dibiase played football at West Texas State University. Last week he teamed with Dory Funk Jr. to defeat Perez and El Gran Goliath in the main event. His Partner for the forthcoming match, Romero, is a speedy and experienced pro from old Mexico who steps in at 224 pounds. Romero is the Rocky Mountain Heavyweight Champion, a title he has held longer than any other man.

Stamp, All-American in football and wrestling at Concordia College in Minnesota, comes in at a range 245 pounds with his new partner, Perez, 250 pound former boxing great from Lelia Lake, Texas.

Stamp and Perez acquired the tag team championship in a tournament when Rip Hawk and Swede Hanson were forced to vacate the title due to not having defended within thirty days. Hawk had been suspended by the National Wrestling Alliance for that time.

The 315-pound Patton, from Tampa Florida, recently won his crown from Scott Casey. Patton is a spoiler who has injured several men with his claw hold.

State Farm person to person health insurance

Hogs-Longhorns Tilt Still Important

By HARRY KING
Associated Press Writer

LITTLE ROCK (AP) - Former University of Arkansas Athletic Director John Barnhill was right about the possibility of an Arkansas-Texas matchup in December being a dud, but wrong about the year. In 1969, the American Broadcasting Co. asked Arkansas and Texas to move their game from mid-October to Dec. 6.

At that time, Barnhill warned Arkansas coach Frank Broyles that the two teams might wind up playing for the championship of Travis County, Tex., and Washington County, Ark. As it turned out, the game was for the national championship and Texas won 15-14.

The following year, ABC rescheduled the game for December and Texas won the Southwest Conference championship by beating the Razorbacks 42-7. This year, it is for the championship of Travis and Washington counties. Arkansas is 5-4-1. Texas is 4-5-1. The winner will finish fifth in the SWC; the loser sixth.

"ABC has had a winning percentage hooking up with the Razorbacks and Longhorns," said Texas coach Darrell Royal. "In 1960, they looked smarter than a tree full of owls. Coaches have to go through this all the time. It's only right that they have to join in there with us."

Both Royal and Broyles contend the game is still important. Royal has not been associated with a losing team since his schoolboy days in 1941. A victory Saturday night would keep that string intact.

"It's important," Royal said. "People say for what. I can tell you lots of reasons. We'd like to finish out this season with a win. I want it. I want it desperately. We're not playing for anything but pride, but we still have that and I want to win that Arkansas game awfully bad."

Broyles said the game is important, particularly for his seniors, because Texas is the only team they have never beaten.

Broyles said he had high hopes for the game when it was rescheduled for December. "We were young and hopeful and didn't anticipate the critical injuries we had which really reduced our chances of being a complete team," Broyles said. "We got key people hurt. Doug Barwegen wide receiver was a

key person. Ron Calcagni quarterback getting hurt in the first game is about the unluckiest thing we've had happen in a long, long time." Arkansas has used five quarterbacks this year -- Calcagni, Houston Scott and Martin Lemond -- and three of the five have started at least one game. Rystrom, a freshman, will be No. 4 when he starts

against the Longhorns. "We were competitive when we were healthy," Broyles said. "We could play with the best in the country. We beat Oklahoma State and Houston and those weren't flukes."

Arkansas, which hasn't won in its last four games, is coming off a 30-7 loss to Texas Tech.

Texas lost to Texas A&M 27-3 last Thursday. "If that won't sell Mallox, I don't know what will," Royal said of the A&M game. "That's the blues man, that's the blues."

Royal says he has lost four of his top five running backs, including fullback Earl Campbell, since the season began. "There's lots of years, you take away four out of our top five and we wouldn't have moved the ball," he said.

Campbell, an All-AWC choice as a freshman and sophomore, is expected to play against Arkansas. He has been sidelined with a pulled hamstring since Oct. 30. A crowd of about 50,000 is expected for the 8 p.m. kickoff.

Handling them will be the assignment of the Cards' offensive line, headed by Dan Dierdorf and Conrad Dobler. Occasionally, defenses have charged them with using less than legal tactics in their protection of Hart.

"Sure, it's embarrassing when the referee calls a holding penalty and identifies you," said Dierdorf. "But it's more embarrassing to turn around and see your man sacking your quarterback."

"I'll do anything I can get away with to protect my quarterback," Dobler said. "This is not a gentleman's game."

In Monday night's game, Cincinnati plays at Oakland. Baltimore has clinched an American Football Conference playoff berth but needs one more victory or a New England loss to wrap up the East Division title. But the Cards' situation is not nearly as serious as the one St. Louis is in. The Cards are

of that season. "I want to take some time to smell the roses," he said, but he did not spend long in the garden. Brown called again in 1973 after firing Bill Virdon. Murtaugh is survived by his wife, a daughter and two sons. His son Tim manages the Pirates' top farm club.

Stroke Claims Murtaugh

CHESTER, Pa. (AP) - Danny Murtaugh, who pledged to make his fourth baseball retirement his last so he could devote more time to the grandchildren he loved, is dead at age 59.

Murtaugh, who left the Pittsburgh Pirates just two months ago, slipped into a coma and died Thursday night after suffering a stroke two days earlier. "In my younger years, I don't think I spent enough time with my children," said the sentimental Irishman when he quit in October. "I'm going to make it up with my grandchildren."

Murtaugh was stricken at his home in nearby Woodlyn Tuesday and taken to Crozer Chester Medical Center. The stroke was considered serious and his condition steadily deteriorated.

He had a 10-year history of heart trouble and his death followed what he said was a season of very bad health. His friends in baseball mourned the fact that he would not get the chance to

fulfill his retirement dreams: scout ballplayers in the warm and easy sun, smell the roses, and play with his grandchildren. "He was a baseball man," said Cincinnati Reds Manager Sparky Anderson. "He liked it so much he came back to it when he shouldn't have."

Murtaugh was lured out of retirement three times by his close friend and mentor, Pirates General Manager Joe L. Brown, who gave Murtaugh his first managing job. Born in Chester on Oct. 8, 1917, Murtaugh began playing pro baseball at 19 and broke into the majors with the Philadelphia Phillies four years later.

The Boston Braves traded him to the Pirates in 1947 and the following year he had his best season, leading the league in putouts for a second baseman, assists and double plays while batting .290.

Brown hired Murtaugh to manage the New Orleans farm club in 1952 and he guided them to fifth place his first season while playing part-time. He had been third base coach for the Pirates less than two
