Second Pilot Walks Away From Cropdusting Crash

Pilot Dies Following Mid-Air Collision

BY JIM STEIERT
Brand Farm Editor

An Anahuac, Texas cropduster was killed about 7:20 this morning when his Cessna Ag Wagon spray plane collided with a second spray plane while working over a corn field on the Elmer Kimball farm one mile north and one mile west of the Easter community, then crashed in a nearby milo field and burned.

GAIL PIERCE, 45 was pronounced dead at the scene by Castro County Justice of the Peace Marshall Young.

The pilot of the second aircraft, Bob Woodring of Anadarko, Okla. managed to set his plane down in the cornfield and was not seriously injured.

Both pilots were flying for American Dusting Co. of Hereford.

According to reports at the scene, one of the planes was apparently finishing up a run through the corn field while the second plane was dressing the end of the field when the aircraft collided.

THE PLANE PILOTED by Pierce continued southeastward following the collision, clearing a power line before going down in a milo field.

The fuel tank on the aircraft exploded on impact and Pierce was apparently

killed instantly.

Woodring was taken to Deaf Smith General Hospital by private conveyance following the crash.

Local funeral arrangements for Pierce were pending at presstime with Smith & Co. Funeral Home here.

THIS MORNING'S FATAL crash came slightly over a year after two crop dusting tragedies which occurred in Deaf Smith County within a ten day period.

On June 15, 1975, Charles Seale, 30, of Hereford, was killed when his Cessna Ag Wagon crashed and burned after striking a utility pole.

The crash occurred in a wheat field 2.4 miles east of U.S. 385 near the D. of Smith County line. Seale was an employee of Whiteface Aviation and had been spraying milo at the time of the crash.

On June 15, 1975, Aaron Daniel Huddleston, 34, of Hereford, died in the fiery crash of his single-engine Piper Cherokee spray plane on the Clois Kemp farm, ten miles northeast of Hereford.

His aircraft also struck a utility pole, lost a wing and burst into flames after going down in a wheat field.

Huddleston was an employee of Cherry Flying Service of Hereford.

Tax Board Meets Today, Hears Appeals Friday

The Tax Board of Equalization is in session today hearing at the county courthouse cases presented to it by taxpayers who desire to have their evaluations changed from the figures established under the recently completed reappraisal program.

The school and county representatives to the board began meeting at 9 a.m. and were scheduled to adjourn at 4 p.m. today although cases will be heard until they are finished. The board meets again at 9 a.m. Friday and continues through 4 p.m.

The city tax Board of Equalization members including Wayne Lady, Melvin Jayroe and Neil Cooper were scheduled to meet at the city hall to hear cases since the city was not a part of the reappraisal program due to a statement in its charter. Hereford will use the reappraisal values starting next year according to Jim McMorris, tax appraiser and consultant for the local governing bodies.

McMorris and Company, which conducted the reappraisal, also is meeting at the courthouse to explain why values were set at the established

State Could Save Funds Off Airlines

AUSTIN (AP) - The state could save \$200,000 a year if the Texas Aeronautics Commission allows Southwest Airlines to link Austin with Corpus Christi, Dallas and the Rio Grande Valley, Comptroller Bob Bullock said today.

Bullock was called as a witness by Southwest at the commission hearing on the airline's application to broaden service.

He said his office had analyzed vouchers from all state agencies for the July 7-20 period for travel between the capital city and Dallas, Corpus Christi and the valley. Actual costs were compared with what they would have been if officials had been able to fly Southwest, he said. Fares were assumed to be Southwest's \$25 one-way peak period day rate.

"We estimated the savings to the state in the neighborhood of approximately \$200,000 a year," Bullock said, adding that this was a conservative estimate.

amounts. Taxpayers are invited to bring any evidence they feel has a bearing on property values to the meeting.

The values set by the Board of Equalization are binding for the coming tax year.

Super Search Progresses

The Hereford School Board of Trustees continued to seek out prospects for the superintendent's job at called meeting Wednesday evening with the interviewing of some applicants.

The board has been meeting at the central school district office to consider applications to the post vacated by Roy Hartman. He is scheduled to move to Grapevine officially as of Aug. 1, although he has spent most of his time during the past week preparing to take over this new school system, located north of Dallas.

Applications for superintendent will be taken until Aug. 6, as printed on the forms. However, the board has narrowed the selection down to about five prospects even though newer applicants will be given close scrutiny.

Trustees met until a more reasonable time Wednesday night as the meeting began at 4 p.m. Other called meetings in the past few weeks have begun as late as 7:30 p.m. and continued until midnight or 1 a.m.

Larry Wartes, assistant superintendent, has been performing the duties of superintendent based on his appointment by the board as acting superintendent. He will hold down the job until a permanent replacement is found.

No other meetings are scheduled as of this morning although one is expected sometime Friday. The board has the authority to call meetings in emergency situations with only two hours of advance notice time.

Jim Conkwright, school board president, said the board will not be rushed into a decision and will take as much time as necessary.

School will commence on time in mid-August with the present administrative staff.

Crash Claims Pilot

Hereford firemen hose down the wreckage of a Cessna Ag Wagon spray plane which crashed a mile north of the Easter community about 7:20 this morning. Gail Pierce of Anahuac, Tex., died in the crash of the aircraft when the fuel tank exploded on impact. The plane collided with a second Ag Wagon piloted by Bob Woodring of

Anadarko, Okla., prior to going down in a milo field and burning. Woodring managed to land his plane in a cornfield which the pilots had been spraying and was not seriously injured. This morning's crash marked the third fatal accident involving crop dusters in Deaf Smith County in just more than a year. (Photo by Jim Steiert)

Higher Rates On Interstate Gas Temporarily Halted By Courts

WASHINGTON (AP) - The U.S. Court of Appeals is blocking a \$1.5-billion a year increase in natural gas price ceilings while opponents seek to cancel the new ceilings.

The court issued an order Wednesday to temporarily stop the higher rate ceilings approved on Tuesday by the Federal Power Commission. Opponents said the new rate ceilings are so close to rates charged for unregulated intrastate gas that they amount to an FPC attempt to abandon its legal responsibility to regulate interstate prices.

A coalition of 16 petitioners challenged the FPC rate ceilings Wednesday, asking the appellate court to prevent collection

of higher rates until the court hears the case. The order granting a delay did not say if the appeals court would accept the case for review.

Issued by Judges Charles Fahy and Spottswood Robinson III, the order imposed an immediate stay of the increase "until further order."

Opponents of the higher FPC-approved rate ceiling said they also were asking the FPC to reconsider its decision approving the boost.

As approved by the FPC, the new rate ceiling would allow interstate natural gas pipelines to double and triple the previous price ceiling on new natural gas supplies sold by producers to the

pipelines.

The FPC said this would mean the average residential customer would pay about \$15.60 more per year for natural gas, an increase of about 6 per cent. The FPC said the actual amount would depend on where in the country the customer lives. For instance, a customer in Florida might face a yearly increase of about \$5.20 a year, but one in Ohio, where winters are colder, would see his bill boosted by some \$23.14.

The petitioners in the court case said it would take the FPC at least 60 days - probably longer - to review their request. They argued that without a court order blocking the new price ceilings, the higher rates would cost consumers at least \$367 million during the appeal.

They said there is virtually no chance consumers could get a refund if the FPC or the courts eventually overturn the price increase.

The petition urging the court to block the new rates claimed the increases eventually will be ruled illegal by the courts.

The FPC has maintained a price ceiling of 52 cents per thousand cubic feet on gas brought into the interstate market since Jan. 1, 1973. At the same time, unregulated gas sold in intrastate markets recently has commanded an average of \$1.55 per thousand cubic feet.

To make interstate pipelines more competitive for available gas supplies, the FPC authorized a new national price ceiling of \$1.42 per thousand cubic feet in Tuesday's decision, with additional increases of one cent every three months.

Earthquake Destroys Populated China Area

TOKYO (AP) - The Chinese Communist party today admitted "great losses" of life and property from the major earthquakes in a heavily populated industrial area of northeast China east and southeast of Peking. But no casualty figures or damage estimates were given.

Aftershocks were reported continuing.

Hsinhua, the official Chinese news agency, reported "extremely serious damage and losses" in Tangshan, an

industrial city of more than a million people 80 miles east-southeast of Peking and 40 miles northeast of Tientsin.

Hsinhua said the first quake was centered in the Tangshan-Fengnan area and "comparatively strong shocks" were felt in Peking and Tientsin, China's third largest city with a population of 4.3 million.

"Since the quake was not predicted in advance, it is believed that many of the

70 Killed In Plane Crash

PRAGUE, Czechoslovakia (AP) - Seventy people were feared dead in the crash of a Czechoslovak Airlines plane into a lake just outside Bratislava, the capital of Slovakia.

An airline spokesman said a Frenchman was among six survivors of the crash Wednesday near the Austrian border. The other five survivors, who were not identified, were still unconscious, sources said.

An official report said the dead were still being identified, but they included a West German and several Soviet citizens.

2nd Kidnapper Arrested

CHOWCHILLA, Calif. (AP) - James Schoenfeld, sought in the kidnaping of 26 Chowchilla school children and their bus driver, was arrested today by Menlo Park, Calif., police.

His brother already was in custody in the case.

An early report said an Idaho-licensed van driven by Schoenfeld was chased north through Mountain View shortly after dawn on north-south U.S. 101, a major freeway, and caught by Menlo Park police. The site was about 25 miles south of San Francisco.

Britons To Become Ugandans

NAIROBI, Kenya (AP) - President Idi Amin appeared to be taking a relaxed attitude today toward Britain's break in diplomatic relations with Uganda. But one of his aides told a Nairobi newspaper Britons remaining in Uganda "will become Ugandan citizens."

In a broadcast in Radio Uganda, Amin said he was studying the implications of Britain's move, which was announced in London Wednesday. Between 200 and 300 Britons still live in the former British colony in East Africa. Most are longtime residents, and many are missionaries.

GM Profits Soar Upward

DETROIT (AP) - The auto industry's bust-to-boom turn-around sent General Motors' profits in the second quarter soaring to a record \$909 million, the highest ever by an industrial corporation for a three-month period.

April-June earnings reported Wednesday by the world's largest auto maker amount to a startling \$10 million a day after taxes.

Profits jumped 173 per cent from \$333 million in the spring of 1975, when the industry was struggling out of its worst slump in four decades.

West Texas: Partly cloudy Saturday through Monday with widely scattered thunderstorms. Temperatures near normal with lows in the mid 60s to low 70s and highs low 90s north to near 100 extreme south.

SPS Board Approves Coal Fired Electric Generator

Directors of Southwestern Public Service Company, meeting Tuesday in Boston, approved construction of a third 350,000-kilowatt, coal-fired electric generator for installation at Harrington Station, northeast of Amarillo.

The unit approved will go into service in mid-1980. Roy Tolk, chairman of the board and chief executive officer of Southwestern, said that both 1980 and 1981 had been considered as completion dates while the unit was in the planning stage, but the load growth and customer gains in the last few months made it advisable to move forward to the 1980 date. Earlier, Tolk had reported to the board that the company had gained nearly 8,000 customers in the last twelve months.

New officer posts went to two Amarilloans as a result of the meeting and an earlier meeting of the board of TUCO INC., Southwestern's fuel subsidiary. Coyt Webb was named treasurer and assistant secretary of TUCO, and Doyle Bunch was elected assistant secretary and assistant treasurer of Southwestern.

Webb, who is a graduate of Texas Tech and a certified public accountant, joined Southwestern as a system auditor in 1964. He was named supervisor of internal auditing in January, 1975,

promoted to executive assistant in October of that year and elected assistant secretary of Southwestern and TUCO last January.

Bunch, a native Amarilloan and Tascosa High School graduate, earned his bachelor of business administration degree at Texas Tech. He is also a certified public accountant and joined Southwestern in June of this year from a national accounting firm.

Jake Webb is the Hereford manager for Southwestern Public Service.

The directors also approved an amendment to the by-laws, reducing the number of directors from 12 to 11. This action came after they had accepted, with regret, the resignation from the board of Murrell R. Tripp. Tripp, who had served on the Southwestern board since 1962, resigned for personal reasons.

All of the directors signed the necessary consent forms to stand for re-election at the annual meeting of stockholders which will be held in Amarillo in January of next year.

A price of \$12 per share was established for 1,050,000 shares of the company's common stock which will be offered to the public today. Proceeds from the sale will go for the construction of new facilities.

The regular quarterly dividend of 24 1/2

cents per share on the common stock, payable on September 1 to holders of record on August 16, was approved. The dividend will apply to the new shares which are being offered to the public today.

Other dividend action included declaration of the regular quarterly dividends on all outstanding issues of preferred stocks. These dividends will be paid on November 1 to holders of record on October 20.

H. Frederick Hagemann, Jr., of Boston, served as host director for the meeting.

Hereford Bull--

from page 1...

and spectators as well, were real pleased with the new high school complex where all the action took place.

WRITERS AND speakers seem to have time to sift through the English language and select the "Ten most...words in the dictionary." Here are some recent examples:

The 10 most frequently used words -- I, the, and, to, of, in, we, for, you, and a.

The 10 most unpleasant words -- belch, grub, slop, ground, asphalt, scratch, quack, backache, hunk, crabgrass. (Anyone could make his own list here).

The 10 most persuasive words -- you, easy, money, save, love, new, discovery, results, proven, guarantee.

Getting away from the "ten" groupings, an anonymous word-sifter came up with these groupings as the basis for good human relations:

The best 6 words--I admit I made a mistake.

The best 5 words--I am proud of you.

The best 4 words--What is your opinion.

The best 3 words--If you please.

The best 2 words--Thank you.

The best 1 word--WE.

And, he added, the least important single word in dealing with other people is: "I".

Earthquake

from page 1

residents of Tangshan did not have time to escape," the Peking office of Kyodo, the Japanese news agency, reported.

Kyodo said damage in Peking "has been held to the minimum" but "damage of considerable scope is reported in Tientsin."

Former Prime Minister Gough Whitlam of Australia, who was in Tientsin when the first quake hit, said most modern structures withstood the shock, but older buildings "collapsed completely." He said the first tremor was followed by "very large explosions on the horizon" and many aftershocks.

Foreigners in Peking said the casualty toll in the capital did not appear to be heavy. The U.S. liaison Office reported that all Americans in Peking and Tientsin were safe, and the head of the American mission, Thomas Gates, offered the Chinese government American aid.

"Our great leader Chairman Mao, the Party Central Committee and the State Council cabinet are very much concerned for the masses of people in the earthquake-stricken area," said Hsinhua.

It said Communist party officials of Hopeh province rushed to the quake area to direct quake-prevention and relief work. People in the areas "have been promptly organized in a united fight against the effects of the earthquake," the agency said.

It was the first official Chinese report on the quake, and it was not issued until

20 hours after the first shock. The U.S. Earthquake Information Service recorded the first quake at 3:40 a.m. Peking time Wednesday and said it measured 8.2 on the Richter Scale. It was the strongest earth shock registered by the service since the Alaska quake in 1964, which measured 8.4.

About 15 hours later a second major quake registered 7.9 after minor tremors throughout the day.

The open-ended Richter Scale measures ground movement. An increase of one whole number means a tenfold increase in the force of the quake.

A quake registering 8 on the scale is considered a "great" earthquake capable of causing tremendous damage. The San Francisco quake of 1906 was recorded at 8.3 on the Richter Scale.

Rift Among Christians Suggested In Lebanon

BY RICHARD PYLE Associated Press Writer

BEIRUT, Lebanon (AP) - An outbreak of fighting within the tight wing Christian alliance suggested a possibly serious rift Wednesday in forces ranged against Moslem leftists and Palestinians in Lebanon's civil war.

Christian leaders appeared to be trying to patch up the split after Christian radio broadcasts acknowledged fighting Tuesday between troops of the two major Christian factions, the Phalange party, and the "Tigers" militia of former President Camille Chamoun's National Liberal party, at the port of Jounieh.

The broadcasts said Chamoun, whose stance on many issues is tougher than the more powerful Phalangists, had agreed, in principle only, to a unified military command on the Christian side.

At least 12 persons were killed in the fighting in Jounieh, according to some reports. Judgments differed on how badly the right-wing alliance was hurt by the quarrel. Some observers were inclined to downgrade its importance, noting that such intramural disputes occur occasionally also among factions of the left.

The Jounieh incident erupted as efforts to find a solution to Lebanon's 16-month civil war continued. War deaths so far are estimated at 33,000.

A delegation of Palestinian negotiators returned to Damascus with the amended version of a draft agreement to end the war and reconcile the Palestinians with their former Syrian allies.

The draft proposal, worked out in Damascus with the Soviet Union as mediator, also was

said by an emissary of Syrian President Hafez Assad to have the "approval in principle" of Christian leaders.

The plan calls for a cease-fire to be supervised by a tripartite committee of Lebanese, Palestinians and Syrians under Dr. Hassan Sabry Kholi, chief mediator of the Arab League.

The plan also would empower the Arab League to bolster its peacekeeping forces from the present 3,500 to 10,000 troops. It named Syria as guarantor of

peace between the Palestinians and the Beirut government on the basis of the 1969 Cairo agreement that set terms for the Palestinian presence in Lebanon.

Another version would establish a round table conference headed by President-Elect Elias Sarkis to work out reforms giving the Moslem majority a larger voice in Lebanese government, traditionally controlled by the Christian minority.

Amin Calm After Break With British

NAIROBI, Kenya (AP) - President Idi Amin appeared to be taking a relaxed attitude today toward Britain's break in diplomatic relations with Uganda. But one of his aides told a Nairobi newspaper that Britons remaining in Uganda "will become Ugandan citizens."

In a broadcast on Radio Uganda, Amin said he was studying the implications of Britain's move, announced in London Wednesday.

"British nationals who have chosen to stay in Uganda should follow the situation in its present perspective and not listen to the imperialist mass media," he said.

The Nairobi newspaper Daily Nation said an official at Amin's command post in Kampala told it by telephone that "we don't mind" about the break in relations.

"The French government will handle the remaining British citizens here, and we know most of them have opted to stay," he

said. Then he added, without explanation, "They will become Ugandan citizens."

Between 200 and 300 Britons still live in the former British colony in East Africa. Most of them are longtime residents, and many are missionaries. About 250 Britons have left since the Israeli commando raid on the Entebbe airport to free more than 100 hijacked hostages.

In London, members of the House of Commons from all three major parties said the British government broke relations with Uganda because it thought Amin's hold on power was weakening and it hoped to undermine his political position further. But Foreign Secretary Anthony Crosland told Commons the action was being taken because it was no longer possible for Britain's representatives "effectively to discharge their normal duties."

The break, Britain's first with a member of the Commonwealth, followed Amin's expulsion of the staff of the British High Commission embassy in Kampala following his refusal to produce one of the hostages the Israelis said they did not rescue.

Carter Holding Briefings

PLAINS, Ga. (AP) - Jimmy Carter is picking the brains and challenging the assumptions of some of Washington's most experienced insiders in briefings of defense economics, foreign policy and intelligence.

His advisers say the sessions are invaluable for the former Georgia governor, who has campaigned widely but lacks first-hand experience in the inner workings of the national government.

In the last of the four briefings, Carter meets today with 10 foreign policy experts with government and academic experience.

The purpose of the briefings is "to give him the benefit of the knowledge and expertise that comes from being on the inside," Jody Powell, Carter's press secretary and a principal policy adviser, said in an interview.

"In these briefings, his function is to challenge establishment assumptions."

Carter met Wednesday with CIA Director George Bush, who flew into the grass-strip airport here with a team of intelligence analysts. The purpose was to give the candidate all possible

classified information to prevent Carter from making "a wrong mistake," Bush said, in quoting former baseball catcher Yogi Berra.

This week, Carter heard such defense experts as former Pentagon officials Cyrus Vance and Paul Nitze debate the relative strength of American and Soviet tactical armaments. He also analyzed the conflicting demands of unemployment and inflation with the help of a number of former Democratic economic advisers, including Arthur Okun and Paul Schultze.

For all of the participants except Bush, who came by Army helicopter, briefing the presidential nominee and his running mate Sen. Walter F. Mondale of Minnesota meant a three-hour bus ride through the southwest Georgia Piedmont and a box lunch featuring cold fried chicken and potato salad.

The Carter staff acknowledged that the 29 men and women who conducted the briefings consist largely of former government officials and teachers at prestigious Eastern universities.

Court Rules That Tax Revision Study Cannot Be Halted

AUSTIN (AP) - The 3rd Court of Civil Appeals agreed Wednesday with lower courts that state Rep. Luther Jones, D-El Paso, cannot stop Gov. Dolph Briscoe from having the Legislative Council do a study on property tax revision.

Jones sought a permanent injunction against Briscoe and other state officials to keep them from entering into an interagency contract with the Legislative Council for a study to determine the ability of each school district to support public education. An appropriation of \$5 million was made for the study by the 1975 legislature.

Jones contended that the legislative act did not contemplate spending any money to prepare a proposed revision of property tax laws. The suit was dismissed by a Travis County district court and Wednesday's decision upheld that ruling.

No Authority Designated For Channel Fire Fighting

HOUSTON (AP) - A Harris County labor leader said Wednesday the industrial complex around the Houston Ship Channel "is a no-man's land where no one has the authority to insure the fire protection of thousands of people who live and work there."

Don Horn, secretary-treasurer of the county AFL-CIO, told a special legislative study committee that no one has the authority to oversee or coordinate the various fire fighting agencies in the area.

City limits, but in the case of such disasters as the Goodpasture explosion, the city moves in and helps. Perino said the cost of providing overall, coordinated fire protection for the channel would be high and the cost should be considered before such an undertaking is approved.

Consultant Claims Increases In Gas Rates Inappropriate

AUSTIN (AP) - A consultant hired by the cities of Orange, West Orange and Pinehurst said in prepared testimony Wednesday that gas rate increases sought by Entex Inc. are not appropriate because they favor large industrial users.

usage customers without the benefit of justifiable cost studies," Stevens said. This tends to encourage use of natural gas rather than its conservation, Stevens added.

a Railroad Commission examiner at the hearing that rates should be such that Entex would earn a 7.25 per cent profit on a rate base consisting of 75 per cent of the original cost of its lines and equipment and 25 per cent of the current replacement cost.

Only Memories Left Of West Texas Air Base

PYOTE, Tex. (AP) - Once upon a time, when the world could still blush, and before it was old enough to know what cynicism is, Pyote Army Air Field trained bomber crews in this desert area of West Texas. They were young men-the kind who looked clean cut, and said words things like "Gee", "Oh my gosh" and, "Hi, Toots."

mechanics, and the instructors, and the camp followers all went home. Once again, rattlesnakes slithered unnoticed onto Pyote's cracking runways, and the untamed grass shot up knee high.

Texas Weather

By The Associated Press Showery weather lingered today on both sides of a cool front dragging its feet southward through Texas' Panhandle-Plains section. Skies were cloudy over much of West Texas and the Hill Country of South Central Texas and clear nearly everywhere else in the state.

State Thursday, July 29, 1976

Paroles Not Easy

AUSTIN (AP) - It's a "myth" that most paroled convicts get out with only one-third of their sentence served, Charles Sullivan said Wednesday. Sullivan, executive director of Citizens United for Rehabilitation of Errants IURE, told a news conference that a spot check of 1,232 cases checked showed 139 persons, or 53.3 per cent of those receiving paroles, were released with less than one year left of their sentence.

Committee To Check Sex Claims

CORPUS CHRISTI (AP) - A committee from the Texas House may join other state agencies in investigating claims that Giddings State Home and School officials sexually pressured students, according to state Rep. Lane Denton.

Russians Increase Lead In Olympic Medal Chase

By BOB GREEN
AP Sports Writer

MONTREAL (AP) - The United States now is almost hopelessly out of the medals race in the XXI Olympic Games and, in fact, doesn't even have a very good shot at second place.

The Americans, who once dominated these quadriennial celebrations of sports, suffered a gold medal shutout again Wednesday, their third in five days. They have gained only one gold medal since Sunday night and, in that period, have fallen far back of Russia and East Germany.

Russia, which picked up four gold-silver-bronze count of 33-31-23. East Germany has 30-19-18. The United States is a poor third at 22-26-19.

The trend, however, could be reversed. It's doubtful that America's inspired boxers and somewhat maligned track and field forces can muster enough strength in the closing days of the Games to overtake either of the Communist powers - but they can make it respectable. They could still make it interesting.

The key could come in today's activity. Maxie Parks, Los Angeles; Fred Newhouse, Baton Rouge, La.; and Herman Frazier, Philadelphia, have promised a 1-2-3 American Finish and a shutout of Cuba's Alberto Juantoreno in the men's 400 meters.

"We're ready to run him right out of a medal," said Newhouse.

And tonight, big John Tate of Knoxville, Tenn., will take on Cuba's favored Teofilo Stepien in a heavyweight boxing semifinal, the feature of the television coverage.

Tate is one of seven Americans who has reached the boxing semifinals. All of them are assured of at least a bronze medal. By comparison, the United States won only three boxing medals in the 1972

Games at Munich.

"We're doing it for Davey," is the boxers' rallying cry. Featherweight Davey Armstrong, Puyallup, Wash., was eliminated in the quarter-finals. His teammates say, quite frankly, he was robbed.

Tate, who suffered an eye cut, put together a strong third round for a 3-2 quarter-final decision over West Germany's Peter Hussing, clearing the way for the important bout with the formidable Stevenson, the defending Olympic champion.

Other Americans in tonight's semis are the fighting Spinks brothers, middleweight Mike and light-heavyweight Leon; light welter Sugar Ray Leonard, Palmer Park, Md.; light-weight

Howard Davis, Glen Cove, N.Y.; batamweight Charles Mooney, an Army sergeant stationed at Ft. Bragg, N.C., and flyweight Leo Randolph, Tacoma, Wash.

The Spinks, like Tate won quarter-finals Wednesday. The others had advanced earlier. Mike Spinks, from St. Louis, took a 5-0 decision over Ryszard Pasiewicz of Poland.

Leon, a Marine corporal at Camp Lejeune, N.C., had more trouble with the referee than he did Ottomar Sachse of East Germany. Leon scored one knockdown and an easy decision but was warned once for talking to the referee. And when he showed up for the judges' decision wearing a white cap with a red tassel, the referee

yanked it off and threw it in a corner.

Americans also have the lead in both men's and women's archery, and, thanks to an excellent ride by Hilda Gurney of Woodland Hills, Calif., moved into second place behind the West Germans in the equestrian dressage team competition.

The United States, which has won only the basketball gold in the past three days, was limited to two medals Wednesday, a bronze by four-time Olympian Wille Davenport, Baton Rouge, La., in the men's 110-meter hurdles, and a silver by Hawaiians David McFaull and Mike Rothwell in the Tornado class yachts.

Smith Glad It's Over

By WILL GRIMSLEY
AP Special Correspondent

MONTREAL (AP) - The long ordeal is ended for Dean Smith, the little Kansas-born court tactician who turned a mountain of headaches into a cascade of gold medals for the American basketball team.

"Now, after six months, maybe I can get in a round of golf," the University of North Carolina coach said after directing the U.S. fuz kids to the Olympic championship with a 95-74 victory over Yugoslavia. Smith, pale and showing signs of strain from 16-hour days, carping criticism and the responsibility of having to restore America's basketball prestige, heaved a big sigh of relief.

"No, I don't think I would want this job again," he acknowledged. "I think the Olympic basketball coach, like the members of the team, should be changed every four years."

It's been a tormenting grind, but it ended at the foot of a rainbow.

"Just before the semifinal game with Canada, I thought the pressure was really getting to me," he added, "but, even with the tremendous stake, I felt more at ease in the final."

He admitted he couldn't restrain tears during the playing of the "Star Spangled Banner."

"My other coaches cried, too," he said, referring to John Thompson of Georgetown University and Bill Guthridge, one of his aides at North Carolina.

Smith won with the youngest team ever to play in the Olympic Games. One, Phil Hubbard of Michigan, is only 19. Three are

20 and five 21.

Against the Yugoslavs, they played older men - four over 26, all well-seasoned. They have played together as a national team for years.

Smith's was a team that was ridiculed before it ever stepped on the floor.

The experts, including pro scouts, said it was weak up the middle, lacking a strong center in Mitch Kupchak of North Carolina after more highly rated pivot men became unavailable - by choice or otherwise.

Smith was sound assailed because there were four of his North Carolinian proteges on the team as well as three others from his conference, the Atlantic Coast.

"I wouldn't swap the 12 guys over there," he said, pointing to the team marching into the interview area, "for any other 12 guys that could have been picked. They proved themselves."

Smith said he personally got more satisfaction out of seeing his team redeem itself in the face of this widespread criticism than in the vindication of the "Great Munich Court Robbery" of 1972.

It was in the final at Munich that the United States lost its first basketball game in Olympic history, a 52-51 loss to the Russians after officials twice ordered replay of the final three seconds and the Soviets won on a goal by Alexander Belov.

Now they have a dozen golds, which they didn't refuse. Ironically, the coach doesn't get one, despite all the hours and sweat he poured into the campaign.

"It doesn't matter," Smith

Dickey Leads North In All-Star Clash

By MICHAEL A. LUTZ
AP Sports Writer

HOUSTON (AP) - Curtis Dickey can run the 100-yard dash in 9.3 seconds, about the same length of time it takes him to conduct a press interview.

Dickey is easily the most talked-about athlete at Texas High School Coaches Association THSCA Coaching School. He also is the least talkative.

The heralded All-state running back from Bryan likely will do his communicating tonight however when he leads the North against the South in the THSCA All-Star football game in the Astrodome.

Although a man of few words, Dickey has a way of getting his message across when he steps on a football field.

"They'll try to defend him wide because of that speed," said North Coach Ray Overton of Abilene Cooper. "I know that would be my greatest concern if I were on the other side."

Overton, says Dickey, who will attend Texas A&M this fall, is a deceptive runner and compares him to a smaller Earl Campbell, now at the University of Texas.

"Curtis is better in the open and Earl is better inside," Overton said. "If you can get Curtis into the secondary, he has the speed to make the big play."

"And you don't realize how fast Curtis is until you start looking at the white lines on the field."

Dickey ignores such comparisons. He considers himself just another athlete.

"The other All-Stars don't look at me as anything special," Dickey said. "I'm just like everybody else. That's the way I like it."

"The publicity is okay. It doesn't bother me. When you come here to play the next guy to go into the game is as good as you are."

The North, with more blue chip athletes surrounding Dickey, will rank the favorite.

Sammy Bickham of Plano, will start at quarterback and Mike Lockett of Fort Worth Eastern Hills and Bill Roberson of Breckenridge will round up the starting backfield.

South Coach L.Z. Bryan of Brazoswood, said the Reds would not try to make defenses to stop Dickey.

"They've got better balance than that," Bryan said. "They're all all-stars so we'll be trying to defense difference sets rather than designing anything to stop Dickey."

Bryan will counter with a starting backfield of quarterback Harold Bailey of Houston Yates, runnerup in 1975 city passing statistics, fullback Aaron Jones of Brazosport, David Brothers of Seguin at tailback and Stephen Callahan of Groveton at wingback.

BROWNSVILLE, Tex. (AP) - Mark Brooks of Fort Worth shot a 71 Wednesday to lead the 15-16 age division after the first round the Boys Open golf championships at Las Viejos Country Club here.

Let's Talk Sports

By Bob Nigh

We all thought it was a big joke yesterday afternoon when Publisher O.G. Nieman's wife Lavon announced over our intercom that it was raining and time to roll up any auto windows previously left down.

After all, it was only around 92 degrees outside. Once confirmation of the abrupt shower was obtained, however, (that being the doused head of a fellow employee) the race was on to our respective vehicles.

...And I thought the weather in Oklahoma was unpredictable!

RAN

After meeting new YMCA executive director Claude Huard Tuesday morning and hearing some of his ideas for activities through the Y, I am impressed with his attitude and interest in the local center.

RAN

While Huard will be the person responsible for putting the different activities into motion, he alone cannot make the decisions as to what activities to offer.

It is up to us, the local citizenry, to make our interests known, and above all, to offer to the Y our strong support to make sure it is a success.

As he indicated Tuesday, the Y program will consist of those activities the local people want...our interest and participation will insure that those programs we want continue.

Twins Sweep Texas

BLOOMINGTON, Minn. (AP) - Lyman Bostock says he's not thinking about winning the American League batting title this year, even though he raised his batting average to .350 Wednesday night.

Bostock had five hits as the Minnesota Twins swept a doubleheader from the Texas Rangers, taking the first game 8-5 and claiming an 8-0 victory in the nightcap.

"My job is to win ball games. That's my goal," Bostock said. "In my whole life, my only goal is to be a winner. Batting titles ... to come. But everyone can enjoy a championship."

While Twins Manager Gene Mauch praised Bostock's hitting, he noted that to win the American League batting championship a player has to out-hit Minnesota's Rod Carew. "Bostock's got pure hitting ability," Mauch said. "He has great hand-eye coordination and a ton-and-a-half of confidence."

Bostock drove in two runs in the first game, and Jim Hughes, 5-10, claimed the victory for the Twins.

Minnesota got 12 hits in the opener, 11 of them singles. The Twins scored five runs in the fourth inning when they opened with five straight singles.

In the second game Dan Ford hit a home run and drove in three runs to lead Minnesota as Steve Luebber, 1-2, won his first major league game in five years.

Luebber, 27, won two games with the Twins in 1971 and has spent the last four years with the Twins' minor league organization. He went 6-13 in 1975, allowing just three hits before giving way to reliever Tom Burgeimer.

Minnesota climbed to third place in the AL West with the victories, passing up the Rangers, who have lost 18 of their last 21 games. The Twins have won seven of their last nine games.

Texas Manager Frank Lucchessi said the Rangers have "hit the skids with our bats."

"Our hitting has tapered off tremendously," he said. "Our pitching has held us in so far. If it wasn't for them pitchers we'd be in big trouble."

However, Lucchessi said he never conceded anything until he is mathematically eliminated.

Minnesota and Texas wind up their series today. Eddie Bane, 3-2, will pitch for the Twins against Ranger Jim Umberger, 7-7.

RAN

Quote of the week. Baltimore Oriole Manager Earl Weaver speaking on newly-acquired slugger Reggie Jackson. "The fans in Baltimore are so hepped up at having Reggie, they expect him to hit a home run or a double or win the game every time he comes up. No man alive can do that, and he gets bood. But they're not really booing him; it's just the only way they can express disappointment."

Oh well, I guess it's better than throwing rotten vegetables...

Well, Texas Rangers fans it's looks like another long season is in the making unless the Rangers can halt their losing ways. Just a few weeks ago Texas was battling Kansas City for the division lead. Now they're 12 1/2 games back in fourth place.

Sugar Ray Closing In On Final Objective

By WILL GRIMSLEY
AP Special Correspondent

MONTREAL (AP) - There are 18 minutes - no more, maybe less - remaining in the ring career of Sugar Ray Leonard, and then he will hang up his gloves and go to school.

No amount of money and sweet promoters' promises can lure the polo kid from Palmer Park, Md., into pro boxing.

"My mama told me she wants me to quit. I always do what my mama says," the rugged light welterweight said today.

"Boxing has been fun for me but I got other things in life to do."

Leonard, at 20 a veteran of 135 amateur fights all over the world, is one of the survivors of the strong American team which will be battling to Soviet Union and Cuba for a major share of the medals in the weekend climax of the Olympic Games.

Impressive winner of his first four fights in the 140 pounds and under class, Sugar ray next faces Kazmier Poland in the semifinals and, if he wins, probably will go against a tough Cuban, Andres Aldama, for the championship gold.

"No doubt I'm going to win it," Leonard said with a cool confidence that had no trace of arrogance. "I've won everything there is to win - the Pan Am Games, North American, AAU, Golden Gloves. Only need the Olympics."

"My mama said I could box until I win this one, and that's it."

Sugar Ray's mama will be at the Olympic fight and see her will fulfilled - hers and that of a higher authority. If you happen to catch her on camera, you probably will see her hands clasped at her chin, head bowed and eyes closed - praying.

"We're a praying family,"

Sugar Ray said. "We're Baptists. I pray. My mama prays. We all pray."

If such petitions are judged on numbers, young Leonard stands a good chance of getting a favorable response. Getha, his mother, is just one member of the Leonard clan who will be raising cheers and silent entreaties.

"My daddy is here, too. My big brother, two sisters, my brother's girl friend and my girl friend. They all drove up in a trailer and parked it in the lot across from the Forum. You call it easy. It's yellow and it has my pictures pasted all over it. Getting tickets has been tougher than fighting."

Sugar Ray's dad, Cicero, took time off from his job as night manager of a Palmer Park super market to attend the Games. He loves boxing, Sugar Ray says, and his brother, Dale, 23, was once a champion in the armed services.

Sugar Ray, who is only 20, sat in an anteroom at the Olympic Village on his day off and spoke softly of his life style, his philosophies and his plans. He will enroll at the University of Maryland in the fall, majoring in business administration and communications, under a scholarship provided by the people of his home town.

REFEREE

COLUMBUS, Ohio (AP) - Candy Green, a 20-year-old Ohio State University physical education major recently became the first woman in the area to referee a wrestling match.

Her interest in the sport began as a student at Reynoldsburg High School where she officiated her first match.

"Wrestling is the biggest sport at Reynoldsburg," Miss Green said. "They are a pretty big power in central Ohio."

Owens Rallies South

HOUSTON (AP) - San Antonio Jefferson's Micah Owens was more concerned about his head swelling than any swelling in his sprained left ankle.

"I think it might swell on me a little too," Owens joked, referring to his head after rallying the South to a 95-90 victory over the North Wednesday night in the Texas High School Coaches Association THSCA all-star basketball game.

Owens, who easily won the game's most valuable player award, scored 33 points, grabbed five shots as the Rebels, who blew an 11-point second quarter lead, came back late in the fourth quarter to break a two-year North winning streak.

The 6-foot-6 Owens, who will attend New Mexico State, remained in the game in the third quarter after he crumpled with a sprained ankle.

Owens sprained the ankle as he came down after scoring his 22nd and 23rd points on a jump shot.

The ankle didn't affect my playing that much," Owens said. "I just came down on it wrong. I don't think I was fouled."

Blue-Chip Recruiting No Sweat Coaches Say

By MICHAEL A. LUTZ
AP Sports Writer
HOUSTON (AP) - Sammy Bickham of Plano and Curtis Dickey of Bryan, two of the state's most coveted football players, must have been the rewards of hard-fought recruiting battles for Baylor's Grant Teaff and Texas A&M's Emory Bellard, right?

Wrong. They were the easiest. Bickham, judged one of the top quarterback prospects in the state, visited only one campus-Baylor-before deciding to cast his lot with the Bears, and he paid his own way.

Dickey did not visit any schools-including A&M-officially. Bellard merely dropped by casually with a scholarship agreement and Dickey, who could have been the most highly recruited player in the state, signed it.

Bickham and Dickey will combine forces with the other North All-Stars in the Astro-dome Thursday night against the North in the Texas High School Coaches Association all-star football game.

"We visited with Curtis the first day it was legal and he told us he probably would come to A&M-bound all-stars here."

"He never wavered from it. He told every recruiter that came in he was going to A&M." Bellard said he had encountered only one other such

situation in his coaching career. "When I was at Texas Jerry Sizemore told me the first time I visited 'Coach, I'm coming to Texas.' And he did. He never even visited."

Bickham also made Teaff's recruiting job easy.

"I felt the Lord led me there," Bickham said. "It's kind of quiet there and I like quiet places. It's just a peaceful feeling."

Bickham, who spent about

one month working out at Baylor this summer added "A lot of wonderful things already have happened since I've been there and school hasn't even started."

Running backs Terald Clark of Galena Park has a sprained ankle and Aaron Jones of Brazosport received a hip pointer injury but both are expected to be ready to play for Brazoswood Coach L.Z. Bryan's South squad.

HOUSTON (AP) - Brazoswood, Beaumont Hebert, Rockdale, Big Sandy and Groom were tagged Wednesday by Texas sportswriters as favorites to win state champion football titles in 1976.

Coach L.Z. Bryan, who led Brazoswood to the Class 4A state title in 1974, was picked again to win the 4A crown by a panel of sports writers attending the Texas High School Coaches Association coaching school. Beaumont Hebert, dropping back into 3A this season, was picked to win the Class 3A crown. Rockdale was picked No. 1 in 2A, Big Sandy in A and Groom in B.

Bryan, who has compiled a 63-7-1 record since coming to Brazoswood in 1970, compiled a 10-2 record last year before losing to McAllen in a bi-district playoff. The Bucs went 14-1 en route to the state title in 1974.

Big Sandy, which dominated Class B last season en route to the state title, moved up to Class A this season and is the favorite to go all the way again under Coach Jim Norman.

District favorites in all classifications are selected by coaches. A panel of writers then picks the state champs from district favorites.

Hebert has 15 lettermen, including 11 starters returning from a team that compiled a 9-1 record last season in Class 4A. Rockdale also is changing classifications this season, dropping back to 2A from 3A, where it gained the state quarterfinals in 1975.

Here are Texas schoolboy football favorites, by districts for 1976 as selected by district coaches:

- 4A-1, El Paso Cornado. 2, El Paso Eastwood. 3, Pampa. 4, Hereford. 5, Odessa Permian. 6, Wichita Falls Rider. 7, Arlington Heights. 8, Arlington. 9, Irving. 10, Garland. 11, Dallas White. 12, Dallas Carter. 13, Sherman. 14, Longview. 15, Killeen. 16, Bryan. 17, Spring Branch Memorial. 18, Houston Lee. 19, Houston Kashmere. 20, Houston Yates. 21, Baytown Lee. 22, Port Neches-Groves. 23, Pasadena Dobie. 24, Galveston Ball. 25, Brazoswood. 26, Austin Johnson. 27, Corpus Christi Ray. 28, McAllen. 29, San Antonio McCollum. 30 San

Antonio Jay. 31, San Antonio Highlands. 32, San Antonio Churchill.

- 3A-1, Perryton. 2, Pecos. 3, Snyder. 4, Brownwood. 5, Grapevine. 6, Gainesville. 7, Mount Pleasant. 8, Jacksonville. 9, Beaumont Hebert. 10, Humble. 11, Waco Midway. 12, Georgetown. 13, Brozosport. 14, New Braunfels. 15, Beeville. 16, Raymondville. 2A-1 Spearman. 2, Childress.

- 3, Dimmitt. 4, Idalou. 5, Denver City. 6, Colorado City. 7, Kermit. 8, Alpine. 9, Breckenridge. 10, Bowie. 11, Keller. 12, Midlothian. 13, Kaufman. 14, Gladewater. 15, North Lamar. 16, Pittsburg. 17, Kirbyville. 18, Anahuac. 19, Dayton. 20, Columbus. 21, Madisonville. 22, McGregor. 23, Rockdale. 24, Leander. 25, La Grange. 26, Boling. 27, Randolph. 28, Pearsall. 29,

- Yoakum. 30, Bishop. 31, San Diego. 32, La Feria. A-1, Stratford. 2, Wellington. 3, Hart. 4, Petersburg. 5, Plains. 6, Iraan. 7, Haskell. 8, Roscoe. 9, Wall. 10, DeLeon. 11, Clifton. 12, Aledo. 13, Holliday. 14, Celina. 15, Farmersville. 16, Whitewright. 17, Blooming Grove. 18, Grapeland. 19, Big Sandy. 20, Ore City. 21, 22, Shelbyville. 23, Groveton. 24, Mart. 25,

- Barbers Hill. 26, East Bernard. 27, Schulenburg. 28, Rogers. 29, Comfort. 30, Sabin. 31, Poth. 32, Orange Grove. B-1, Groom. 2, Anton. 3, Forsan. 4, Sanderson. 5, Rochester. 6, Gorman. 7, Chico. 8, Meridian. 9, Little Elm. 10, Mount Enterprise. 11, Trinidad. 12, Comensel. 13, Hutto. 14, D'Hanis. 15, Smiley. 16, Agua Dulce.

Sports Shorts

THOUSAND OAKS, Calif. (AP) - Dallas Cowboy Coach Tom Landry says Roger Staubach will quarterback the team for most of the first half and Clint Longley for most of the second half in Saturday's preseason game with the Oakland Raiders.

Landry added that Danny White will be spotted at quarterback throughout the game. The coach indicated his main goal is to win over Oakland, yet he wants to see some young players under game conditions. He ticketed linebackers Randy White and Bob Bruenig, cornerbacks Beasley Reece and Aaron Kyle and safety Randy Hughes for a lot of duty in the game.

STEPHENVILLE, Tex. (AP) - A former coach at Texas Christian University and Sam Houston State University Dr. Bruce Craig, has been named head basketball coach at Tarleton State University here.

Craig will replace Jerry Stone, who resigned recently to become assistant coach at Midwestern University in Wichita Falls.

Craig holds bachelor's and master's degrees from TCU and a doctorate in physical education from North Texas State.

He played basketball at TCU from 1946-50 and later was an assistant coach with the Horned Frogs for six years before serving as head coach at Sam Houston from 1956 through 1964.

Briefs

FULLERTON, Calif. (AP) - Coach Chuck Knox says James Harris will start and play the first half against Tampa, with Ron Jaworski taking over in the third quarter and Pat Haden the fourth.

Jaworski, who's battling Harris for the quarterback job, however, will start against Dallas Saturday of next week, Knox said.

The Rams, continuing to trim their squad, asked waivers Tuesday on offensive lineman Mike Bales, a free agent from the University of Washington.

WILMINGTON, Ohio (AP) - Cincinnati Bengals wide receiver Pat McNally, who missed all of last season with a broken leg, will be out 10-14 days in his current effort to make the team. McNally, the fifth-round draft choice from Harvard last year, was injured in Saturday's intrasquad scrimmage. X rays for a possible shoulder separation proved negative, but he also suffered a mild concussion.

Kicker Mirro Roder also missed practice Tuesday at the Wilmington College training camp, complaining of tightness in his leg.

HOUSTON (AP) - New Mexico State-bound Micah Owens of San Antonio Jefferson scored 33 points and was named the Most Valuable Player at the Texas High School Basketball All-Star game at Hofheinz Pavilion Wednesday night.

The South beat the North 95-90 and Owens outplayed Phil Hale of South Grand Prairie 33 1/2 in the MVP voting. Hale, headed for Southern Methodist, scored 12 points. Mike Williams led the North with 19 points.

PAMPA, Tex. (AP) - Web Wilder, 65, of San Antonio has a two-shot lead after two rounds in the 42nd annual Tri-State Senior Men's golf tournament at Pampa Country Club but the talk of the town Wednesday was a 71-year-old who shot his age.

Wilder has a 141 total in the four-day event, two ahead of Eddie Smith of Tishomingo, Okla., while Lew Lacy of Oklahoma City shot 18 straight pars Wednesday to shoot his age of 71 and take over third place with a 144 total. The event attracts golfers from Texas, Oklahoma and New Mexico.

JUAN MANUEL GONZALES

Lions Entertained With Gospel Music

Gospel music was in the spotlight for the Hereford Lions during a regular weekly luncheon meeting Wednesday at Civic Club Center.

Cecil and Eunice Boyer and Geneva Justice, who call themselves "The Hereford Trio" on out-of-town appearances, provided the program for the Lions. The group has made many appearances at nursing homes over the past few years. Mrs. Justice is associated with the South Hills Manor home in

Dimmitt.

Lion Buddie Evans reported on the annual carnival project, informing members that the first two nights had grossed more than the same nights last year. Weldon Dickson reminded Lions to report Sunday at 2 p.m. to take down the carnival booths.

President Clete Corlis also reminded Lions that Wednesday was Blood Bank day in Hereford.

Obituaries

AGNES CHILDRÉ

Agnes Childre, 73, of Albuquerque, died Tuesday in Lovelace-Bataan Medical Center. Services will be held in Rose Chapel of Gilliland-Watson Funeral Home Friday July 30, 2 p.m., with Dr. Jordan Grooms, pastor of the First United Methodist Church officiating.

Interment will be in West Park Cemetery under the direction of Gilliland-Watson Funeral Home.

Miss Childre was born February 21, 1903 in Nevada, Tex. and was raised in Hereford. She was a school teacher.

She is survived by three sisters, Edith and Madge Childre of Albuquerque and Mrs. Ruth Mayheu also of Albuquerque; one brother, Jim Childre, of Oceanside, Calif., and many nieces and nephews.

The Panama hat was popularized by Theodore Roosevelt on his visits to his pet construction project — the Panama Canal. Panama hats are made not in Panama, but in Ecuador of fine jipijapa straw.

Ready

The annual Fall Rush at West Texas State University is almost underway. Helping prepare for it are [L-R] Nancy Newsom, a junior and daughter of C.F. Newsom of 150 Liveoak in Hereford; Paula Beauchamp, a senior from

Dumas; Carla Combs, a Pampa Junior; Carrie Ferguson, a Sunray junior; and Dee Dygert, a Midland junior. Applications for rush should be sent to the WTSU dean of Women's Office by early August. [WTSU Photo]

Marine Visits

PFC Juan Manuel Gonzales, son of Mr. and Mrs. Narciso Gonzales of 403 Ave. F is visiting his parents here on 15 days leave from his station with the First Tank Battalion, First Marine Division at Camp Pendleton, Calif.

Gonzales received special training in administration, having completed basic training in January of this year.

Approximately 3,600,000 birth control pills are taken by American women each year.

WTSU Schedule Of Classes Is Available

The West Texas State University fall schedule of classes is now available at the Registrar's Office in the WTSU Administration Building.

The bulletin contains the complete fall semester course listings that are being offered in the University's 33 departments. Also supplied is the fall semester calendar, the registration schedule, the tuition and fee schedule and the laboratory fees and incidental fees.

Registration at West Texas State is set for August 27 and 28 in the WTSU Activities Center.

The dormitories open August 24, and classes will begin August 30. September 4 will be the last day for registration and payment of fees.

Schedules are available without charge. Copies will be mailed upon request by contacting the WTSU Registrar, West Texas State University, Canyon, Texas 79016.

Bill Would Set Penalty For Hirings Of Aliens

WASHINGTON (AP) - A bill that would set penalties for businessmen who hire illegal aliens is under consideration by the Senate Judiciary Committee.

The bill, before the panel also would seek to equalize the system of selecting immigrants from the western and eastern hemisphere and would require congressional approval before large numbers of refugees could

enter the country outside regular immigration quota.

It is the most far-reaching measure of its kind since the Immigration and Nationality Act of 1953, which abolished the national origins quota system of immigration that critics contended favored northern and western Europeans over other peoples of the world.

The new bill was introduced by Sen. James Eastland,

D-Miss., the Judiciary Committee chairman.

To deal with what was described as a huge influx of illegal alien labor, the bill would make an employer of illegal aliens subject to a fine of up to \$500 for a first-time violation and, for a subsequent violation, a fine of up to \$1,000 for each alien involved.

The bill, however, would continue to allow employers to

obtain temporary workers from other countries for jobs for which domestic workers are unavailable.

Immigration from North and South America would be put on the same preference basis as from Europe, Asia and Africa.

The annual ceiling on immigrants from the Western Hemisphere, which is 120,000 compared with 170,000 from the Eastern Hemisphere, would be left unchanged.

Gets High Mark

WASHINGTON (AP) - The much-maligned Washington bureaucracy was ranked the highest in a poll of public attitudes toward value received from government jurisdictions. The survey also indicated heavy support for special federal aid to troubled big cities.

Asked, "From which level of government do you get the most for your money," 36 per cent of those responding to the survey cited Washington; 25 per cent named local governments; and 20 per cent said states.

The Advisory Commission for Intergovernmental Relations, which commissioned the survey, said fewer Americans - 30 per cent, as compared with 38 per cent last year - are looking for a cut in taxes and government services, though a slight majority is looking for the government to hold the line on both.

At a time when some politicians are campaigning against the federal bureaucracy, the survey shows that the public's attitude toward the jurisdictions has remained constant; for five years Washington has been considered a better value than state or local governments.

Asked whether they favor special federal aid to central cities, 48 per cent were in favor, 40 per cent opposed. Seventy per cent of those responding in the Northeast favored such a program, compared with only 39 per cent in the South. Opponents to such aid tended to be farmers, new suburban dwellers and homeowners.

Other findings included: -The percentage of those who wanted to keep taxes and government services about where they are increased from 45 per cent.

Paul Harvey News

Not In Ohio

It used to be as true in Ohio as anywhere. You could get away with murder!

Lawyers went shopping for liberal judges or for a judge whose background would tend to favor plaintiff or defendant.

Judges would "go shopping" for routine guilty-plea cases they could dispose of in a morning half-hour so they could spend the rest of the day on the golf course or race track.

The result--interminable delays.

In large cities it took four to five years to get a personal injury case to trial. When appealed it might not reach the Supreme Court until 10 or 11 years after the injury.

Criminal cases also piled up unattended on court dockets while those charged were frequently out on bail committing more crimes. And that's the way it was in Ohio. Not anymore.

The Constitution of The State of Ohio was amended in 1968. Now that state's Supreme Court makes rules for and supervises all of the state's courts. It's

made a big, big difference!

William O'Neill of Ohio, former speaker of the House, former attorney general, former governor, is now chief justice of that state's Supreme Court.

He godfathered the 1968 judicial reform and he enforces it.

Now trial judges in that state are accountable to him.

Now trial judges' records are visible to voters.

The results? Fantastic!

Justice went back to work! The first year the backlog of cases was reduced by more than 10,000.

In four years the number of criminal cases more than six months old was reduced from 1,894 to only 155!

In Cuyahoga County (Cleveland) overripe criminal cases were reduced from 595 to one!

In Franklin County (Columbus) the number of such cases was reduced from 479 to one!

Even more dramatic was the reduction of personal injury cases (mostly auto accidents). This backlog has been cut in half despite a 25 percent

increase in total cases!

When similar rules became effective in Ohio's municipal courts in 1975 the results were immediate and phenomenal: The first year backlog of cases was reduced by more than 65,000.

Where the attorney for a drunk driver used to demand a jury trial merely to delay the case until witnesses evaporated--he can't anymore.

Municipal courts are so nearly caught up that they'll be day-to-day current within 18 months!

Judges have gone back to work, lawyers have stopped seeking delays.

And all this has been accomplished without adding more judges.

The key to O'Neill's effective supervision of Ohio courts is some complex "rules of superintendence" which other state administrators and jurists can study.

Might not this hurry-up result in careless justice?

Chief Justice O'Neill says: "On the contrary -- justice delayed is more likely aborted."

Student Wins Reverse Civil Rights Case

WASHINGTON (AP) - In a ruling against "reverse" discrimination, a federal judge says Georgetown University violated the civil rights of a white student by setting aside most of its first-year law school scholarships for minority applicants.

"There is no justification for saying that a 'minority' student with a demonstrated financial need of \$2,000 requires more scholarship aid than a 'non-minority' student," U.S. District Judge Oliver Gasch ruled Wednesday.

The judge said Georgetown's four-year-old practice of earmarking 60 per cent of its first-year law scholarships for minority students was "arbitrary" and a violation of the Civil Rights Act's bar against discrimination on the basis of race.

The ruling is the latest in a series of federal court victories for persons who claimed they were subject to "reverse" discrimination by schools, corporations, or government agencies seeking to provide opportunities for racial minorities or women.

Gasch's decision was a personal victory for J. Michael Flanagan, who sued Georgetown because there were no scholarships left for white students by the time he was admitted in 1973, although there were still scholarships for minorities.

Flanagan complained that the minority students who garnered 60 per cent of the grants formed only 11 per cent of the class.

Flanagan, 24, has since graduated and lives in suburban Alexandria, Va. He could not be reached for comment.

The judge said he would hold a future hearing on Flanagan's request for \$3,700 in damages that the former student claimed he should have received in aid.

Georgetown's attorneys argued in vain that the school's financial aid policies were a "bona fide affirmative action program to increase minority enrollment." They also claimed the school was not subject to the civil rights law, but Gasch said it was since Georgetown accepted \$7 million in federal funds to build its Law Center.

At the Battle of Chalons, 451 A.D., Attila the Hun was defeated by the Romans.

Highway Humor Could Stem From Food Sign Proposal

By DAVE RILEY
Associated Press Writer
WASHINGTON (AP) - Remember driving down the highway in the old days and being entertained by those sign that read:

"The monkey took one look at Jim

"And threw the peanuts back at him.

"He needed Burma Shave."

Well, maybe the government should sell nutrition the way Burma Shave used to sell shaving soap, says Sen. Hubert H. Humphrey, D-Minn.

At a hearing Tuesday, federal health officials stressed the need to encourage Americans to take more interest in nutritional eating habits.

It occurred to Humphrey that the Pentagon spends millions of

dollars for roadside advertising in its constant search for enlistees. So, he asked, why not billboards telling people that eating right can help them live longer?

"And believe me, most people would rather live longer than join the Army," Humphrey suggested.

That doesn't mean that signs extolling the virtue of good eating habits will spring up overnight, but someday, you might see billboards like this along the freeway:

"For Sam and Sue it was the finish,

"When Sam refused to eat his spinach.

"He needed: Health, Education and Welfare."

One thing for which the government is well known, however, is the competitive spirit among the various departments and bureaus that

make it up. Therefore, you can expect other agencies to get into the act.

"Throat feel scratchy? Cough and choke?"

"We tried to tell you not to smoke.

"Listen to your Surgeon General."

If the campaign works, you can expect the military to ditch its old advertising campaigns and begin slapping up Burma Shave-style signs along more fertile fields.

"Is your old car hard to crank?

"Trade it for our Patton tank

"The U.S. Army."

And then, one day, no doubt the ultimate in roadside signs:

"Fight pollution, if you please.

"By ripping off dumb signs like these.

"Environmental Protection Agency."

Lennon Wins Battle

NEW YORK (AP) - British rock star John Lennon bit into a hot dog and washed it down with a soda pop as he celebrated victory in his 4 1/2-year battle to remain in the United States.

Lennon, who once called the United States "the center of the earth," was granted permanent-resident status Tuesday, climaxed a long court battle to avoid a deportation because of a 1968 conviction in England for possession of hashish.

"It's great to be legal again," the former Beatle said as he waved his green alien card, his ticket to this country. It was granted him by Judge Ira Fieldsteel, who reversed an earlier decision blocking Lennon from the country and ruled in Lennon's favor.

The judge's decision came after testimony about Lennon's character from writer Norman Mailer, actress Gloria Swanson, television personality Gerald Rivera and Japanese sculptor Isamu Noguchi.

After the hearing, the British singer, wearing a black suit and granny glasses, went to a favorite snack spot on the East Side.

Deadline On OSHA's Farm Safety Laws Gets Extension

COLLEGE STATION -- Farmers now have until October 25 to comply with certain safety standards under the Occupational Safety and Health Act (OSHA) that were to become effective June 7.

The safety practices concern guarding tractor power take-offs (PTO), displaying safety signs and providing initial employee training for machinery operations.

"Even though the deadline has been extended, farmers should continue with preparations to meet these safety standards," advises Dr. Gary Nelson, agricultural safety engineer for the Texas Agricultural Extension Service.

Particular emphasis is on guarding the PTO drive line. The tractor shield on the rear PTO shaft must be kept in place, notes Nelson. However, the

master shield may be removed when necessary to operate PTO driven equipment, provided the guards on such equipment cover the tractor PTO shafts.

"Regarding safety training, a farmer must instruct every employee in the operation and servicing of all equipment with which that employee is involved," emphasizes the Texas A&M University System engineer.

Among the safe operating practices in which the employee must be instructed are the following:

--Keep all guards in place when the machine is in operation.

--Permit no riders on farm equipment other than persons required for instruction or assistance.

--Stop the engine, disconnect the power source and wait for all

machine movement to stop before servicing, adjusting, cleaning or unclogging equipment, except when the machine must be running to be properly serviced.

--Make sure everyone is clear of machinery before starting the engine, engaging power or operating the machine.

--Lock out electrical power before performing maintenance or servicing equipment.

The requirement for safety signs calls for such signs to be placed at prominent locations on tractors and PTO driven equipment indicating that

power drive system safety shields must be kept in place.

Furthermore, when removal of a guard or access door might expose an employee to any equipment that continues to rotate after the power is disengaged, the employer must provide warnings to look and

listen for evidence of rotation and not to remove the guard or access door until all component movement has stopped.

"Complying with these safety standards will make the farm a safer workplace, so they should become a part of the farm operation as soon as possible," advises Nelson.

Food Production Items Freed From Sales Tax

COLLEGE STATION -- Texas farmers and ranchers no longer have to pay sales taxes on certain purchases to be used in the production of food and fiber.

Effective July 20, the Texas sales tax law exempted agricultural producers from sales taxes on such items as baling wire, fencing supplies, and machinery and equipment, points out Don Parks, area

economist with the Texas Agricultural Extension Service.

"However, a farmer or rancher does not automatically qualify for exemption from the sales tax," notes Parks.

"Producers must file an exemption certificate with each firm of business with which they deal. These certificates are available from the Comptroller of Public Accounts in Austin or from local branch offices of the Comptroller.

"To qualify for an exemption, the item purchased must be used exclusively on a farm or ranch. A farm or ranch is defined as land used entirely or partially in the production of

cropland, livestock or other agricultural products. Home gardens are not considered a farm," explains the economist.

Certain items are exempt without the use of an exemption certificate. These include feed for farm and ranch animals, fertilizer, seeds and annual plants, and animals.

Items requiring the use of an exemption certificate include fungicides, insecticides, herbicides, defoliants, desiccants, all medications for farm and ranch animals, and machinery and equipment used in food, grass and feed production, including such expendable supplies as hand tools, baling wire, fence

wire and posts, gates and storage facilities for bulk commodities.

Natural gas or electricity used on a farm or ranch is also exempt with the appropriate certificate if used for pumps for livestock or irrigation water, dairy barn operations, welding machines, electric fences, and lights for barns, pens and poultry houses.

To request exemption certificates, producers may write or call the Sales Tax Division, Comptroller of Public Accounts, 111 East 7th St., Austin, Texas 78774 (800-292-9687; after Aug. 1, 800-252-5555).

Thurber Named As Area Chairman For Fund Raiser

Bud Thurber of Hereford has been named as an area chairman for the Cattlemen's Round-Up for Crippled Children, an annual fund raising event for the West Texas Rehabilitation Center in Abilene.

Area chairmen serve as contacts throughout the Southwest in rounding up cattle, horses, and other livestock. Each year the donated livestock is sold in special auctions with the proceeds going to the West Texas Rehabilitation Center, a private, non-profit treatment and diagnostic facility serving

the handicapped of the Southwest. Ranchers wishing to donate livestock should contact their area chairman or the West Texas Rehabilitation Center so arrangements can be made for pick up.

The cattle sale is set for 1:00 p.m., September 27 at the Ranchers and Farmers Livestock Auction in Abilene. The sale of horses will be at Abilene Livestock Auction beginning at 1:00 p.m. on October 2. A special auction will follow in Coleman on October 6 and a farm equipment sale is set for November 6 in Lawn, Texas.

Education is the key Most Farm and Ranch Accidents Can Be Prevented

AUSTIN -- One hundred eighty-three deaths and thousands of injuries occurred on Texas farms and ranches during 1975 as a result of farm accidents. Many people were crushed when their tractors overturned; others were caught in, or run over by, machinery; and, still more were victims of shocks, falls and fires.

"Most of these accidents could have been prevented, however," states Joe Smetana, vice president for the Farm and Ranch Section of the Texas Safety Association. "Better training in the use of machinery, protective guards shielding dangerous moving parts, and more safety consciousness on the part of all rural workers can go a long way toward stopping these senseless deaths and injuries."

Because of the magnitude of the problem -- over half a million agricultural deaths and injuries occurred last year nationwide -- President Gerald Ford has declared July 25-31, National Farm Safety Week.

A special observance of this week in Texas also has been

proclaimed by Governor Dolph Briscoe and an intensive educational campaign will be carried out during that time by the Texas Safety Association, Texas Farm Bureau, State Agricultural Extension Service, Future Farmers and Future Homemakers, and the Young Farmers of Texas.

The theme for Farm Safety Week is "Educate for Safety." "The families and co-workers of those who died in farm accidents learned a painful, but effective, lesson through their experience," said Smetana. "But we feel education based on the experiences and solutions of others can be an equally effective, yet faster and less costly, process."

Safety education is everyone's responsibility. Parents should teach their children what is safe and unsafe and set good examples. Teachers should emphasize safety regularly in their vocational/agricultural courses. Community leaders should get information to farm people through literature and com-

munity services. And farmers and ranchers should train their workers -- particularly in the handling of new equipment.

While safety cannot be legislated, the federal government has taken steps to help assure that farms and ranches are safe and healthful places to work by including them under the Occupational Safety and Health Act (OSHA). The law outlines certain minimum standards which must be met by every farm employer who has one or more full or part-time employees. Members of a farmer's immediate family, however, are not regarded as employees and are not within the Act's coverage.

"Many farmers may not be aware that their operations come under governmental regulations," Smetana explained, "so, as part of our education efforts, Texas Safety Association has produced a bulletin entitled 'Agriculture and OSHA' which answers many questions about the Act's provisions and enforcement. Copies are available from TSA, P.O. Box 9345, Austin, Texas 78766."

South Texas Farmers Face Disaster As Result Of Rain

AUSTIN (AP) -- South Texas farmers in a 12-county area expected a bumper grain crop three weeks ago but now face "real disaster" from recent rains, Agriculture Commissioner John White said Wednesday.

"On July 1, we were looking at a grain crop in a line from Victoria to Starr County with an estimated worth of \$333.9 million," White said. "Today, farmers are facing damaged and down-graded grain and crop losses which might optimistically 'wash out' at least some \$200 million in sales."

"This means we've sacrificed about \$134 million in grain sales to the rain. And when we subtract seed, planting and harvesting costs from these sales, many of our grain farmers are going to be way down the red side of the ledger."

White said many people do not realize what has happened

in South Texas, "including some of our disaster relief agency people.

"Federal delays by state or federal relief agencies in processing emergency aid requests by these farmers only

increases the hardship," he said.

He said harvesting of poor quality grain is now under way with some farmers getting as little as \$1.50 per hundred weight on grain they expected to sell for \$4.50 or better.

County Ranks Second In Beets

AUSTIN--Deaf Smith County farmers placed second in 1975 Texas sugarbeet production with a crop of 159,300 tons, Agriculture Commissioner John White reported.

County farmers harvested 13,450 acres with an average yield of 11.8 tons per acre.

Planting for the 1975 crop began in mid-March across the state and was completed at the end of April, but many early stands had to be replanted and some acreage was abandoned because of late frost and freeze damage. Harvest began in late September and was completed

by mid-December, and many farmers reported reduced yields from curly top disease.

Texas placed thirteenth in the nation in production with a crop of 440,000 tons.

Castro County led the state in sugarbeet production with 161,500 tons.

Complete figures for Texas field crops have been compiled in the "1975 Texas Field Crops Statistics." Copies may be obtained by writing Agriculture Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin Texas 78711.

Quality Gas Air Conditioning is your best bargain.

Look into Arkla-Servel.

① **Solution Cooled Absorber**
Adds to the efficiency of the unit at higher outside temperatures.

② **Chrome Plated Generator**
The heart of the unit. The entire cooling process starts here. Eliminates the complexity and maintenance hassle of compressor-type systems. And chrome is one of the hardest metals known.

③ **Stainless Steel Burner**
Arkla/Servel units contain more stainless steel than any other air conditioner made.

④ **Leveling Chamber**
Allows unit to operate at high level of efficiency with varying outside temperatures.

⑤ **Solution Pump**
Contains the ONLY 3 MOVING PARTS of the sealed cooling system. Fewer moving parts mean less to wear out.

⑥ **Uni-Body Construction**
Sealed refrigeration system is welded, not bolted, to steel base, eliminating unnecessary vibration. Exclusive weather resistant paint protects sealed unit and other vital parts.

④ **Single Motor Drive**
One motor operates both pumps, thus reducing electricity consumption. One reason Arkla/Servel's use one-fifth the electricity needed by compressor-type units.

⑦ **Chilled Water Pump**
Made of durable, heavy-duty molded plastic. Can't rust. Corrosion and freeze resistant.

Learn ALL the quality features of this superior piece of cooling equipment. Give us a call.

FORECAST

Globe-Hopping with the Captain

"Captain Kangaroo," television's longest-running children's series, is traveling to various locations for the forthcoming season. Busch Gardens, in Williamsburg, Va., Tampa, Fla., and Dallas, Texas, will be visited as well as the San Diego Zoo, the city of San Francisco, and other locales in northern California. The 21-year-old program features its creator, Bob Keeshan, as the Captain, and is seen weekday mornings on CBS.

The Years of "Days"

"Days of Our Lives," NBC-TV's popular daytime drama, will present a number of retrospective programs covering a 10-year period in the lives of its current characters. The shows, which will be aired in late September, are being produced in response to viewers' requests for information about the history of the Horton family and other residents of the mythical town of Salem. Flashbacks will utilize footage of actual broadcasts dating from the program's premiere in November, 1965.

Nights at the Movies

Oscar-winners "2001: A Space Odyssey," and "The Sunshine Boys" are the latest block-busting feature films to be acquired by NBC-TV for the 1976-77 season. Kubrick's "2001" stars Keir Dullea and Gary Lockwood in a visually stunning saga of space travel and extra-terrestrial life. "The Sunshine Boys" features George Burns in an Oscar-winning portrayal of an aging vaudeville star, with Walter Matthau appearing as his old stage partner.

Just keeps bouncing along

Exclusive broadcast rights to National Basketball Association games have been secured by CBS-TV for two more years, starting with the forthcoming season. Under the agreement, the Network will broadcast a minimum of 37 games each year, including the NBA All-Star game. Among the possibilities under consideration is dividing the country up into regions of special interest, then broadcasting games to the areas where they will have the greatest appeal.

FARM SAFETY

JULY 25-31

REMEMBER

TO PREVENT FARM ACCIDENTS

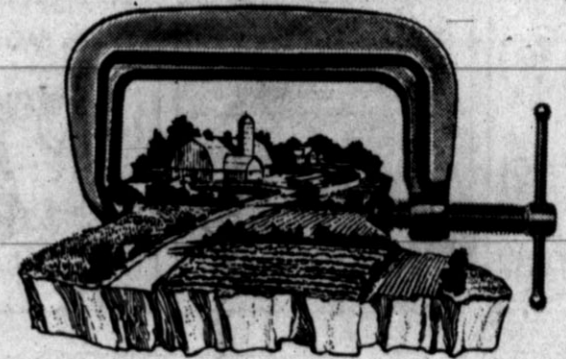

Be sure to play it safe ... everyday!

Handle machinery with respect, approach livestock cautiously, keep an eye out for any potential hazard!

Preventive medicine is always the best ... so take time to take care on the farm!

TIGHTEN UP on Farm Safety!

Mr. Farmer, Take This Good Advice!

Put the squeeze on carelessness! Accidents can occur anytime ... anyplace on your farm. The important thing to keep in mind is that with a little more awareness, most of these accidents could be prevented. What can you do?

Start by always keeping machinery, equipment and electrical circuits in top working order. Alert your family and workers to any possible safety hazards on the farm. Learn what else you can do. Farm safety is everybody's job!
