SURPRISES CONGREGA-TION IN SUNDAY STATEMENT

# WEDNESDAY

Will Marry in Dallas Then Return Here in Time For Sunday

The Rev. J. R. Sharp of the First Presbyterian church of Hereford announced from the pulpit last Sunday Will Show Esteem marriage, Wednesday, June 1, in Dallas, Texas, to Miss Laura Ellen James, teacher of history in the Hereford High school the past term. Following the announcement and close of the services the congregation flocked about the popular paster and wished him all kinds of good luck, prosperity and happiness in his married life.

Rev. Sharp recently purchased a ome just across the street from the church, improved it in a number of ways, and built a new fence around it. Suspicion was rife, of course, but Mr. Sharp kept his counsel and his equilibrium and gave an excellent immitation of a deaf and dumb man when searching questions were asked.

Miss James has a frost of friends here who will be sorry to lose a most excellent teacher from our schools but will rejoice that they are to have the teacher return permanently as one of the young matrons of Hereford.

Rev. and Mrs. Sharp will return the latter part of the week and regular services will be held by him next

### "Humoresque," Film of Intense Appeal to Be Shown Here

If you are interested in desiring to see a picture that makes the hopes and joy and tears of plain folks live on the screen, "HUMOR-ESQUE," is very close to the human heart. It has qualities which raise it high above the average,

It is the story of a lad with a soul for music and the great unselfish mother's love that helped him to the high place he came to occupy and of the beautiful girl who stood by him in poverty and in riches and in the great crisis of his life saved him from himself.

There are not words sufficiently strong to express my opinion of this production. There is something appealing about the picture that makes it really artistic. Its great unrest had torn the lad's heart ever since Europe unleashed her great guns of war. In this picture we will prove that God hears a mother's prayer.

This picture may be seen Wednesday and Thursday, June 1 and 2. If possible for all mothers to come, 1 assure you that your time will be well spent in seeing this picture. If possible, wife, bring your husband, or husband, bring your wife. In this picture you will learn what a mother's love for a child is. Come.

Be ready for the harvest rush with a fleet of Cletracs-the power-battery that makes the wheat farmer independent of weather conditions and labor shortage.

Each Cletrac easily hauls two binders-replacing six or eight horses and does twice the work. It keeps going more hours and longer days-is ready when the grain is just right.

The breakdown of a large tractor means a costly harvest hold-up, but if one of a fleet of Cletracs should be stopped it only means a little added work for the others. Cletracs work fast on the straightaway-turn short and get the corners clean—are economical and easy to operate.

Come in and look this tractor over. See for yourself its sturdy construction. Let us show you what it will do for you on your own farm.

# Prepare for the Harvest

When the ripened grain stands in the fields it is too late to prepare for the harvest. Now is the time to have your binder or harvester-thresher ready to work steadily and efficiently until the last acre of grain is cut. An old, badly worn machine may fail at a critical time when delay means serious loss in the crop. You can avoid this by getting the time tried

### HARESTER-THRESHER

This dependable machine is the result of years' manufacturing experience. You can depend on the Harvester-Thresher to make good whether the grain is short or tall, heavy or light.

Come in and let us show you why the Harvester-Thresher will make good under any harvesting condition. Let us talk to you about your harvesting machine requirements.

THE U.S. CHAIN TREAD One of the few tires of which it may te said that they deliver economyear in and year out and tire after tin The U. S. Chain Tread gives sufficient traction on all ordinary read surfaces. It is probably the handsomest, and by all odds the most popular, of the whole U. S., Fabric Tire line.

Economy rides on U.S. Tires-

F you could get together all the car wners you know, you'd probably find that their tire experiences had been much the same.

Most of them have taken their fling at "job lots," "discontinued lines" and "surplus stocks." Soon or late, nearly all settled back on quality first as the one sound assurance of tire value.

As soon as a man forgets the cutprice tag, and comes to the dealer who concentrates on a full, completely sized stock of U.S. Tires-he learns what it means to get fresh, live tires -not once in a while but every time.

Not merely in the big cities, but in his own home town.

Not merely for the heavy car, but for the medium and light-weight car-a full selection of size, tread and type.

Your U. S. Tire dealer can give you this service because of the service he gets from his neighboring U.S. Factory Branch. There are 92 of these Branches. Each gets its share of U. S. Tires, so that the dealer is always supplied with fresh, live stock.

U.S. Tires sell as fast as they are made. There is no over production. No surplus piled up waiting for a "market."

Wherever you buy a U. S. Tireyou buy a tire of current production, as full of life and value as the day it left the makers.
