## Interested Citizens Sponsor Luncheon...

# Arnold Paulson Seminar Scheduled For Thursday

Interested citizens of Bailey County are sponsoring an Arnold E. Paulson Seminar to be held Thursday, February 3, at the Methodist Fellowship Hall beginning at 9:30 a.m.

Arnold E. Paulson, a Minnesota businessman and one of America's most staunch supporters of private enterprise, and his associate Robert Cline

of Indiana, will present the seminar.

Tickets for the Seminar are priced at \$5 per person and will include a luncheon. Tickets are available at the following businesses: Muleshoe State Bank, Tri-County Savings and Loan, the Farm Bureau office, the NFO office and the Chamber of Commerce Office.

Arnold E. Paulson hails from Granite Falls, Minn. He is a past president of the Granite Falls Chamber of Commerce and the Junior Chamber of Commerce. Paulson was elected president of the Granite Falls Junior Chamber of Commerce its first year organized. That year the Granite Falls Jaycees were named the Outstanding

Jaycee Chapter in the nation. Granite Falls was the smallest community in the nation to ever win it the first year organized.

Paulson was head of seven major organizations at the same time during the same year. He is a past state president of the Minnesota Junior Chamber of Commerce and a former national Americanism chairman of the United States Junior Chamber of Commerce.

In 1950, Paulson was named Minnesota's Outstanding Young Man under 35 years of age.

Paulson has been in great demand throughout the nation as one of America's most sought after public speakers. For the past five years, during the winter and spring months, Paulson has traveled the nation conducting what is noted as "the greatest unfold story in America today."

Paulson has appeared on hundreds of radio and television programs across the nation. He has also sponsored his own

series of programs on a number of stations, The Voice of Rural America.

Paulson owned and managed the Minnesota Business and Industrial Promotion Agency, whose services helped communities develop their business and industrial development programs. Paulson is currently the executive director of the National Raw Materials Council and the national chairman of the Citizens Congress for Private Enterprise.

For the past several years, Paulson worked closely with the late Carl H. Wilken, research director of the National Foundations for Economic Stability, Washington, D. C. Paulson is also editor and publisher of his own economic newsletter.

Paulson and his associate reportedly present one of the most astounding economic seminars in the nation. They are most down to earth, educational and Cont. on Page 3, col. 1

## Primary Filing Fees Are Declared Unconstitutional

On January 20, 1972, a Three Judge Federal Panel held H. B. 5, 1st Called Session, 62nd Legislature, 1971 (our present primary filing fee statute) to be unconstitutional. In so holding the Court stated:

"Based on previous decision in Carter v. Dies and the fact that there has been no modification of the Texas Election Code justifying a different result in the instant case, we hold that House Bill 5 providing for filing fees for candidates for public office and in the alternative for a pauper's affidavit, accompanied by a petition of a certain number of qualified voters, to be invalid and void.

Those officials charged with the enforcement of House Bill 5 are enjoined from its full implementation. . . ."

The result of the holdings in Carter v. Dies, N. D. Tex., 1970, 321 F. Supp. 1958, and Rick Johnston et al v. Earl Luna et al CA-3-5373-C, was not to render our whole primary system unconstitutional. Those decisions relate only to filing fees assessed to candidates and in no way invalidate the requirement of holding primary elections. There has been some confusion as to whether election officials could even accept an application to place a candidate's name on the ballot. It is my interpretation that the holdings of the above mentioned cases have the following effect:

## Entries Taken For Ping Pong Tournament

The Muleshoe DeMolay Chapter is still taking entries for their Muleshoe Ping Pong Tournament to be held February 17, 18, and 19 at the Methodist Fellowship Hall.

There will be two divisions in singles, up to 14 years of age and 15 years and older, and one division in doubles.

The entry fee for singles will be \$2 per person and for doubles it will be \$3 per couple.

Trophies for first places and ribbons for other places have been ordered. This tournament will determine the Muleshoe Ping Pong Champion.

## 1972 Tags Go On Sale February 1

The new 1972 license tags will go on sale February 1, 1972 in the Tax Assessor's office in the Bailey County courthouse, according to Tax Assessor Jean Lovelady.

The new green and white plates start at CBX50 and go to CCB824. Truck tags start at IM2600 and end with IM4099 and farm tags will go from 8D1450 to 8D2599.

Renewal applications have been mailed from the state and these should be brought to the Tax office. Mrs. Lovelady stated that owners can order their tags by mail by sending the three part renewal application, the registration fee and one dollar to covering mailing costs. Mailed applications should be sent to the County Tax Office.

Tags must be displayed on cars no later than midnight April 1.

## Price Makes Statement On Re-districting

Following is an official statement by Congressman Bob Price:

"Yesterday's Federal Court decision rejecting the Texas Legislature's Congressional re-districting plan should come as a surprise to no one because of the obvious population differences between the Congressional districts in the state as they were drawn.

"While I have not yet seen a complete report on this de-

wish to consider this money a voluntary contribution to the state or county committee, but in this instance, a written statement to this effect must be given to the party official.) Election officials may accept voluntary contributions from any candidate who desires to contribute, and such contribution will be deemed a donation to the party to which such contribution is made.

At the present time, the filing deadline for the primary elections is still 6 p.m. on Monday, February 7, 1972. Applications must be filed by this time.

defensive and six offensive rebounds; hit 22 of 48 from the field for 60%; lost the ball 17 times; had 21 fouls and scored 59 points.

The score by quarters was: Muleshoe 12 26 41 57 Hereford 16 30 41 59 An interesting sidelight to the game was the fact that Muleshoe missed six of their one and one free throws.

The Muleshoe High School freshmen girls basketball team played in the Dimmitt Tournament last week advancing to the finals.

On Thursday the girls beat the Canyon Purple Team by a score of 25-26. Annie Tyler was high pointer with 10 points.

Friday night, they beat Olton 40 to 35. Suzan Barrett was high pointer with 20 points, Annie Tyler scored 12 points and Cindy Caison scored eight. The girls were to play in the finals Saturday night.

## Operation Everybody Voter Quota Set

The "Operation Everybody!" voter quota for Bailey County has been set by the Texas Democratic Party at 3,861, according to County Chairman Harvey Bass.

"That figure represents 65% of our estimated eligible voting population", Bass said. "The state goal of the Democratic Party is to have five million Texans registered between now and April 5, 1972, the last day to register in order to be eligible to vote in the May 6 primary."

"Operation Everybody!" is a project of the State Democratic Executive Committee. The special drive is headed by Mrs. James A. McMullen, III of Fort Worth, chairman, with Mrs. Abbie K. Evans of Houston as vice-chairman.

"Voter registration is free, but everyone must register in order to vote in the 1972 elections," Bass said. Application forms are at the County Tax Assessor's office in the courthouse.

A special plea is being made to all 18, 19, and 20 year olds to register and take advantage of the new law which entitles them to vote for the first time.

"Our county will be competing with other counties of similar size for statewide recognition in doing a good job," Bass said.

Gold, silver, and bronze plaques will be awarded to the counties which exceed their quotas by the highest margins.

All counties which meet their quotas will receive special certificates of merit. Bailey Co. Population - 8,437 Quota - 3,861

"Cycle" to most people has something to do with a motor or a bike.

To us, "cycle" has to do with the efficient production of electric power, with efficiency and with conservation of resources.

It's about a unit we'll install in 1973. It's called a Combined Cycle Unit. It utilizes a gas turbine to help create electricity and in so doing, it produces heat. We then use this heat to make steam to run a steam turbine which, in turn, produces electricity. Using these units in combination, we generate more power but with less fuel and water than if each were to be run separately.

So, we do the "cycling" and you'll have the power you'll need at the lowest possible cost. Sounds simple, doesn't it? But, it took lots of planning and lots of engineering know-how to come up with this means of conserving resources and yet producing adequate electricity.

ELECTRICITY--IT DOES SO MUCH GOOD

FOR SO MANY PEOPLE

### Seminar...

Cont. from Page 1

informative seminars anyone could ever attend. They are presented in the language of laymen so there is no double talk.

Paulson says it is impossible to comprehend what has taken place in this country over the past 20 years, unless a person takes the time and effort to completely evaluate the official records of the United States government pertaining to the national economy.

In spite of all the brainwashing about living under the greatest prosperity the world has ever known, the truth is, says Paulson, the United States is on the verge of bankruptcy. In reality we have created the most fantastic debt fueled economic system the world has ever known.

Paulson states that this seminar is not political as a sound and stable economy should be the first concern of both political parties. However, both parties are equally to blame for what has happened as both parties have contributed equally to the mess this nation is in. These seminars are destined

especially for the key people of the area, businessmen, clergy, educators, the professional men, farmers and labor.

The purpose of the seminar is to trace out the actual condition of the economy of the United States, then evaluate how we got ourselves into this mess and what must be done if we ever intend to work our way out of it.

Paulson states "Anyone that has an investment in this country cannot afford to miss this seminar. If you believe in Private Enterprise and want to preserve it, then you better take the time to find out what is happening and about to happen. You'll discover why our farmers are going bankrupt. You'll discover why up to 35% of the rural communities under 3,000 population are doomed. You'll discover why churches are in trouble. You'll discover why your schools are being consolidated. You'll also discover that all of these events are not the result of natural economics but through cunning planning with 70 million people living in rural America the victims."

Due to the limited seating capacity, tickets should be purchased by Tuesday.

tion, my understanding is that the Governor has the alternative to call a special session of the Legislature which could once again change the district boundaries. In a news report yesterday in Amarillo, Texas, the Governor was quoted as saying that he would not call a special session. If this is not done and the Panhandle and Northwest Texas district boundaries remain as the court has designated, I will certainly be pleased that I will have the opportunity to continue to represent the people who are in our present district.

"I have met many new friends in the counties which the court apparently eliminated from the proposed district, and have thoroughly enjoyed working with them and intend to continue to maintain our association regardless of how the boundaries are finally drawn.

Honored at the event were five area men who were presented the Silver Beaver Award, and a Hart, Texas woman who received the first Silver Fawn Award ever presented in the council.

Honored with the Silver Beaver Award for "distinguished service to boyhood" were Tom Branon, Lamesa; John B. Gean, C. Paul Mills, and Bill J. Swinney, all of Lubbock; and the Rev. James Patterson, Kress. The Silver Beaver is the highest award that can be presented to registered adult males by the local council of the Boy Scouts.

Presented the Silver Fawn

Award was Mrs. Betty Griswold, Hart, who began serving as a Den Mother in 1952 and is still at it. Mrs. Griswold is the first woman in the South Plains Council to receive the award that was created a year ago to recognize the contributions of women to the program of the Boy Scouts of America.

## LOUISA'S LETTER

Dear Louisa,

My children are being sent to a school on the other side of town which causes me to spend a great deal of time taking them there and going back for them. There is a bus but it comes so early and brings the children home so late that it is not good for them to be standing out in the road in the dark or being so tired when they finally reach home.

But I think that things will be better next month as one of my friends is moving to a house in the next block from me and she has two children who have been assigned to the same school as my children.

We are trying to decide whether it will be better for each of us to take a week carrying and going for all of the children or whether one of us takes them and the other goes for them. Then the next week we would exchange the morning and afternoon trip. Which do you think would be the better plan?

Mrs. D.--Tenn.

Answer:

It all depends on the habits of the two families. If one woman likes to get up early and the other one does not it may suit both for one to always take the morning trip and the other the afternoon.

When my boys were small I had a neighbor whose husband left every morning for work in time to drop his daughter by the school. Each morning he would take my boys with her and in the afternoon I would go for the three of them. It worked out very well.

Louisa.

Adjudicator for the event will be Ronald Bennett of Odessa, well-known in this area for his judging of contests and festivals.

On the night of February 4 the Festival weekend will begin with the "Texas Composers" contest, to be held in the home of Mrs. Sam Damron. The local Music Teachers' Association selects a number written by a Texas composer to be used in this contest. The pupil winning the contest plays the composition at the Texas Music Teachers' Convention to be held this year in Lubbock. This contest is for junior high age pupils, and 14 have been entered in it. Bennett will judge this contest, as well as the Festival the following day. The auditions for the Festival

itself will be held all day Saturday, the fifth, in the parlor of the First United Methodist Church. Repertoire is to be selected from the Baroque period or to be one movement of a sonatina or sonata. An exception to this will be beginning pupils with less than two years study, who may play anything desired.

Ratings from "fair" to "superior" will be given each pupil, along with a constructive critique sheet by Bennett. Those pupils making a rating of "superior" will be presented Friday night, February 11, in the Festival recital to be held at

the high school auditorium. All awards will be presented at the recital, with every pupil participating receiving a ribbon and those making "superior" receiving a special award. The recital is open to the public.

### WEEKLY RECIPE

**Sarah Anne Sheridan**  
In the South sweet potatoes are a traditional dish. However, it is gaining favor in all localities. There are many good recipes to choose from, but this is the one I use. If you have time these can be put in the orange cups making a colorful addition to your table. It also gives them an extra special flavor.

**Sweet Potatoes**  
5 or 6 large sweet potatoes  
1/4 c butter  
1/4 c sugar  
1/2 c milk  
2 egg yolks  
1/2 t nutmeg  
1/3 c raisins

Boil sweet potatoes until tender. Drain and remove skin. Mash until free of lumps and add a half stick of butter and cream well. Place in a buttered casserole dish and bake at 350 degrees for 30-45 minutes or until set.

**Meringue:**  
Beat the two egg whites until stiff, adding 2 T sugar to an egg white. Place on top of cooked casserole and brown in oven.

**CONGRESSMAN  
Bob Price**

U.S. House of Representatives  
18th Congressional District

Highlight of the first week back in session here in Congress was, of course, President Nixon's State of the Union Message last Thursday. The President gave what I thought was an excellent speech for a number of reasons: First, he didn't propose a whole batch of new programs;

the defense budget this year in order that we might not, while negotiating for peace in Southeast Asia, have to do so from any position other than one of obvious strength;

Fourth, the President once again voiced his support for local control of the nation's schools;

And fifth, he forcefully objected to the "irresponsible labor tie-up" involved in the West Coast dock strike and said that the Nation will not tolerate that sort of thing in the future.

All in all, I thought the President placed the burden on getting things done this year right where it belongs--on the leadership of the majority party in Congress. The President

is not a dictator; he can't order bills passed. Congress in general--and the majority party leadership in particular--has to work with him in order to get anything done.

**FEDERAL ELECTION CAMPAIGN ACT OF 1971**

The major piece of legislation passed by the House this week involved the most sweeping campaign reform bill in nearly 50 years. Entitled the "Federal Election Campaign Act of 1971," the bill passed the House by a vote of 334-20. I voted for it, because the provisions of the bill are designed to hold down the sharply rising costs of political campaigns and to disclose fully the source

and use of political funds.

The bill requires that every contribution or expense of more than \$100 must be reported in detail. It also sets limits on the amounts of their own money candidates for President, United States Senator and United States Representative may spend on their campaigns--\$25,000 for the House, \$35,000 for the Senate, and \$50,000 for President.

Although no overall spending ceiling is imposed, the bill does set a top amount which can be spent on TV and other costly media in races for President or Congress. The amounts that could be spent by candidates for President or Congress

on the communications media would be limited to 10 cents per voting-age person in the Nation, state or congressional district with a \$50,000 floor. No more than 60 per cent could be spent on TV and radio.

Other media subject to the 10-cent limitation would be newspapers, magazines, billboards and mass telephone campaigns. A cost-of-living escalator would permit this amount to increase as other costs rise.

Another provision of the bill requires every political committee raising more than \$1,000 for a candidate for President or Congress to report every contribution and expenditure of more than \$100. A gift of exactly \$100 would be exempt.

Corporations and labor unions could use voluntarily collected money--not union dues--for get-out-the-vote campaigns directed only at stockholders or union members and their families.

Reports must be filed three times each year with three extra reports in election years, including reports 15 and 5 days before the election. Reports would be filed with the Clerk of the House and the Secretary of the Senate, as now, and copies would be filed with the secretary of state of each state for local exposure.

**Economic Stabilization**

**Questions and Answers**

Q.-My lease will not expire until June 1. Can my landlord increase my rent before that date?

A.-No. Rentals under lease cannot be increased until the lease expires or comes up for renewal.

Q.-Where can I get forms to report wage and salary increases to the Pay Board?

A.-Forms PB-1 and PB-2 may be picked up at the local Service and Compliance Centers of the Internal Revenue Service. Instructions for filling out these forms are contained within the forms.

Q.-How does a consumer use a retailer's base price to determine if there has been a price violation?

A.-You should compare the current price of an item with the base price, i.e., the amount charged during the freeze period. If there has been an increase, you may want to ask the manager to explain to you why the price of the product has increased. You may be satisfied from his explanation that the increase is permissible, because increases are permitted to reflect manufacturer's and other costs. However, if you are not satisfied with his explanation, call your local Internal Revenue Service office.

Q.-I'm a small retailer doing less than \$200,000 worth of business a year. I have a sign on the wall of my store telling customers that base price information is available. Isn't that enough to satisfy the posting requirement?

A.-No. The base prices of your top 40 items or those products which accounted for 50 percent of your total dollar sales volume during the last fiscal year must be posted prominently in your store. (Retailers with sales of \$200,000 or more a year must post these prices in each department and must post the base prices for food and food-related products.) The important thing to remember is that the base price lists must be easily accessible to the customer and must not require him to ask a store employee for access to the information.

In addition to the above, all retailers must prominently display, on each floor of their establishments, at least one sign (minimum size 22" x 28") announcing the availability of base

price information for all items that are not posted or required to be posted. Base Price Information Request Forms must be available in at least one location on each selling floor of the establishment and the retailer must respond in writing to such written requests within 48 hours after the request is received.

Q.-Can a retailer post his base prices in book form?

A.-Yes, as long as the book is prominently displayed.

Q.-What constitutes a "department" as far as retail posting regulations are concerned?

A.-A department is the organizational unit customarily treated by the seller as a department.

Never try to imitate someone else; he may be doing the same thing.

**The standard deduction is up this year. But maybe you should itemize.**

Your best buddy Lenny might have told you to itemize your deductions because it would save you more tax dollars.

Your neighbor possibly suggested taking the standard deduction because you'd pay less taxes that way.

And Frank down at the office... he helps everybody with their return... what did Frank recommend?

If there's some way to save you money on your income tax, H & R Block will know how to do it.

Itemized and standard deductions are nothing new. We've been preparing returns for years using both. We'll figure out your situation both ways and then prepare your return using the method that's best for you.

You see, for only a few dollars more than it costs to do it yourself (with advice maybe from some other amateur), you can have your tax return prepared with complete confidentiality by a specially trained member of the H & R Block team. There are thousands of them in over 6,000 conveniently located offices.

Each member of H & R Block is warm, friendly and anxious to help you. A visit to H & R Block usually takes just a short time. Once in our office, you sit down over a free cup of coffee and possibly learn

things about your income tax that you never knew existed. Things that we know, because income tax returns are our only business.

H & R Block's fees start at \$5 and the average cost was under \$12.50 for over 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal representative.

It means that H & R Block also offers you year round tax service for just one low fee, with no extra charge for audits and estimates.

Yes, it's true. The standard deduction is up this year.

It's one of the many things we'll consider when we do your return.

### MHS Rosebud Chapter Meets

On January 26, 1972, the freshman Rosebud Chapter of FHA had a business meeting. Three boys and three girls were nominated to be crowned Prince and Princess at the Sweetheart Banquet February 12. The girls elected were Prisca Young, Susan Barrett, and Laverne Carpenter. The boys were Gary White, Mike Bland and Scotty Burton. Voting by secret ballot will determine the Princess and Prince. This banquet is always the highlight of a Freshman girl's school year.

### FFA Meets

The Muleshoe FFA held a meeting Monday January 24, 1972. Gary Lackey called the meeting to order. Much business was taken care of.

The Chapter discussed where the annual FFA banquet will be held this year. A committee was appointed to look into the matter.

It was suggested that a new trailer be purchased to haul stock to show. Many suggestions were made and the matter was discussed thoroughly. The advisors Mr. Bickel and Mr. Bray were asked to check on the price, size, etc.

Rules were explained for the Bailey County Stock Show and Houston Show. Citrus fruit sales were discussed.

### Sophomores Elect Beauties, Favorites

The Sophomore Class met January 25 to elect Class Favorites. Beauty Pageant candidates were also elected.

The favorites of the Sophomore Class are Kim Milner and Benny Hamilton.

Pageant candidates are Jeannie Putman, Patti Nickels, Gayla Hooten, Glenda Harlin, Richard Meyers, Fred Locker, Kelly St. Clair, and Tim Black. These candidates will participate in the Beauty Pageant February 19.

### Block Teaches Flying School

"This curvature is designed in such a way as to cause the air to flow down." If you are a flier, you know what Mr. Burel Block, the MHS language teacher, is talking about. Mr. Block is now talking the language of flying; and for the first time in the history of MHS, Aviation is now being taught.

Aviation Ground School is being held for 30 minutes in the morning during the regular Orientation Period for many interested students.

Mr. Block is qualified for this position because he has a flying license for private planes and gliders. Mr. Block lists flying as his hobby and wishes to pass his knowledge on to students so that they too may experience the joys and thrills of flying.

### FHA Planning Sweetheart Banquet

Girls are busy in all three FHA chapters implementing plans for the annual Sweetheart Banquet which will be held in the cafeteria Saturday, February 12, at 7:30 p.m. A red and white valentine theme will be carried out.

Girls in all three chapters are assisting the Epsilon Sigma Alpha Sorority in the house to house March of Dimes on Thursday, January 27, from 4-6 p.m.

Rose members who are working on State Degrees are progressing and will have them completed by February 25.

All Homemaking students are getting acquainted with three student teachers in the department. They are here from Texas Tech Home Economics Education Department.

## John Tower United States Senate COMMITTEE ON ARMED SERVICES

The Strategic Grain Reserve on the bill and referred it to the full Committee. In House last year and is now tend to offer two amendments under consideration by the Senate Agriculture Committee, fit individual farmers. One Shortly before the Christmas would allow on-recess, a Senate Agriculture farm storage of grain reserves. sub-committee completed work The other would allow release

of the reserves only when the market price has reached 100 percent of parity. A bill allowing for a strategic reserve of grain should allow storage of as much grain as possible on individual farms. To protect the farmer from a flooded market at a time when market prices are high, it is necessary to set the release price at a higher rate than 120% of the last five-year average as the House Bill provided. The adoption of these two amendments would substantially benefit farmers. \*\*\*\*\*  
On January 4, the Department of Agriculture announced that \$55.5 million had been released for the fiscal 1972 Rural Environmental Assistance Program (REAP). The action brought total REAP funds to the full \$195.5 million appropriated by the Congress. There has been a marked increase in the use of conservation and pollution-control practices by the farmers of America, who were among the first to recognize the importance of conservation and environmental protection. Last September 30, I wrote The President expressing my desire that the full Congressional appropriation for FY 1972 be spent. The cost sharing between the farmer and the federal government provided under REAP is one of the best practices in existence for the protection and improvement of our land resources. \*\*\*\*\*  
Rice growers are voting in a mail referendum January 17-21 on approval of marketing quotas for 1972. Should the quotas be approved, the average loan rate for the 1972 crop will be at 65% of parity, the same as last year. Over the past few years, parity has increased causing the loan price to be slightly higher even though the rate has remained the same. The 1972 allotment of 1,652,296 acres announced last August 6 has since been increased to 1,836,461 acres by Secretary of Agriculture Earl L. Butz. This increase should provide rice producers with a substantial increase in income. \*\*\*\*\*  
Farmers participating in the 1972 cotton, feed grain, and wheat programs will be allowed to plant any of eight different crops on the set-aside acres. These crops include castor beans, crambe, quail, mustard seed, plantago ovata, safflower, sesame and sunflower. This is the same list that was in effect for the 1971 crop year. Last year, there was a fixed rate of \$10 per acre deduction for planting these crops. However, in 1972, the rate will range from \$6 to \$10.20 per acre. The applicable charge for each county will be available at the county ASCS office. \*\*\*\*\*  
Wheat producers are being offered a voluntary set-aside for the 1972 crop. This is being done in an effort to prevent excessive production in view of the large 1971 crop and the 9 percent increase in planted wheat over the 1971 level. A farmer may voluntarily set-aside up to 75 percent of his domestic allotment provided that his 1972 planted wheat and set-aside does not exceed his 1971 planted crop. The additional set-aside will be determined at sign-up. \*\*\*\*\*  
I am quite pleased with the action taken by the Department of Agriculture in these developments, for I feel it is an indication of the Department's concern and interest in the well-being of the American Farmer. I am confident that the USDA will continue to meet the needs of the individual farmer and, indeed, the entire agriculture industry. \*\*\*\*\*

### New Snows!

You can see by the car tracks that people are going places despite the heavy snows. Others, like you and me, perhaps, are going places because of it—because the new-fallen snow is beautiful and we want to enjoy it and look at the pictures it makes on the landscape. Also, that frosty, crackly wind that comes with the first snows blows roses in our cheeks and new energy and expectations into our hearts. We can't wait to get out and do things and be with people.

A New Year is upon us. What wonderful things this year can bring. Does the New Year lying before you, with its promise, fill you with new life and excited expectations like the new snow mentioned above?

May your New Year be a happy and prosperous one, and may you find great peace every day through worship and spiritual blessings each week through attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### Birch Society Condemns Added Value Tax

Following his State of the Union Message, President Nixon, according to Rex T. Westerfield, director of Public Relations for the John Birch Society, launched a trial balloon of the Added Value Tax. The Added Value Tax is one of the most insidious taxes that can be instituted by any Government because it is a series of hidden taxes which are camouflaged in the retail price of commodities, reports Westerfield. The general public is then deluded into thinking that increased prices are

due to labor and business; and all the while, the real cause is increased taxation.

The Nixon hypocrisy was evident in the Wage and Price Controls. After promising the American people and Congress that he would not impose Wage and Price Controls, President Nixon instituted an economic dictatorship, said Westerfield. Significantly, wages and prices were frozen; but taxes and government spending were not. The Added Value Tax would compound this problem even

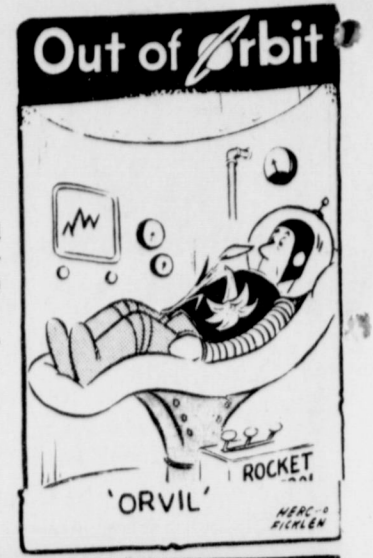

further. Inflation would continue-business and labor receiving the condemnation and blame for it-while the real culprit, Government, increases taxes and spending. Regardless of whatever euphemistic title is finally assigned to the Added Value Tax by the Nixon Administration, let us hope that

The balanced, rational life includes a portion of play and pleasure.

the American people will demand that their Congressman vote against this vicious and unnecessary tax, concluded Westerfield.

#### OSWALD'S POSSESSIONS

Dallas, Tex.--A federal judge has ruled that the government should pay \$3,000 for personal effects it seized from the estate of Lee Harvey Oswald, named as the assassin of President John F. Kennedy. Oswald's widow had sued to obtain more for the possessions--appraisers had set a post-assassination value at \$17,729.
