# Viets Dispute Withdrawal

BANGKOK, Thailand (AP) - Hanoi denied that the Chinese were withdrawing from northern Vietnam, claimed the fighting was escalating and ordered general mobilization.

Nhan Dan, the Vietnamese Communist Party newspaper, said Peking's announcement that Chinese troops began pulling out Monday, 16 days after the invasion started, was "contrary to the real situation in the battlefields.'

China "is stepping up its aggression, and its troops are frantically destroying Vietnamese villages," said the paper.

The Vietnamese army newspaper, Quan Doi Nhan Dan, said Peking was 'feverishly pouring more Chinese troops in to Vietnam," and asked: "Who can believe that China will withdraw when its southward crusade has just begun?"

The Vietnam News Agency said President Ton Duc Thang ordered "mobilization throughout the country to protect the nation and to win the aggressive war waged by the Chinese expansionsits."

It said the president signed a decree

ordering all citizens of military age to join the armed forces.

"All necessary manpower, material and financial resources shall be mobilized to meet the needs of war for national salvation," the decree said.

Bangkok intelligence sources said they had no evidence of a Chinese pullout, but intelligence reports frequently lag behind battlefield events.

Some of these sources said China might be following a scorched-earth policy in withdrawing and that this could be the stepped-up aggression Vietnam referred to.

Other intelligence sources said it was likely the fighting would not end abruptly but would wind down to small-scale border skirmishing.

The Vietnam News Agency said the first troops to be sent to war with China from Ho Chi Minh City, formerly Saigon, were given a rousing sendoff Sunday.

The agency said in the past few days thousands of young people in the former South Vietnamese capital volunteered to fight the Chinese. It said nearly 500,000 workers and civil servants joined a drive to make each factory "a fortress against Chinese aggressors.'

Chinese troops crossed the Vietnamese border on Feb. 17 with the declared aim of punishing Vietnam for alleged border provocations, and Peking's Xinhua Hsinhua news agency said in announcing the withdrawal that the Chinese had achieved their goal of "dealing devastating blows to Vietnamese armed forces."

Vietnam invaded Cambodia Dec. 25, ousted the pro-Peking government of Premier Pol Pot two weeks later and set up a pro-Hanoi regime made up of Cambodian Communists who had broken with Pol Pot. But the Cambodian army has been waging guerrilla war against the invaders ever since.

In a public hearing on the budget which goes into effect May 1, commissioners voted to increase the city budget by approximately \$200,000 over last year. Part of the increase will give city employees a seven percent salary increase.

The tax rate of \$1.25 per \$100 valuation based on 45 percent of assessed value was continued by the commission, who approved the rate and overall budget in separate ordinances.

Total estimated disbursements for 1979-80 are \$2,315,005, while revenues are anticipated at \$2,325,661. The beginning balance will be \$555,255, according to the budget.

The city on May 1 will have \$960,000 in outstanding bonds.

In other business Monday, the commission declared the City of Hereford as the sponsoring agent for a college student loan program, approved a change in Pioneer Natural Gas Co.'s franchise with the city on third reading, agreed to purchase a gasoline storage tank for the police and fire departments and heard a report on the construction of a new \$754,000 city hall.

Milton "Buff" Morris of Canyon and John Aikin of Hereford, representatives of postunity Plan Inc., told the commission that the federal government in 1975 permitted cities to become student loan authorities.

The loans, Morris said, are granted by banks and purchased by authorities. Since the largest division of OPI is in Hereford and a large number of graduates of West Texas State University and other Panhandle colleges are from Hereford, "we want to honor Hereford by making you the authority." Morris said.

He said that bonds will be sold to the (See CITY, Page 2)

# **Another Frito-Lay Pact Offer** Rejected by Corn Association

By JIM STEIERT **Brand Farm Editor** 

DIMMITT--Members of the High Plains Farm Bargaining Association voted by a margin of over four-to-one to reject the latest food corn production contract offer of Frito-Lay Inc. of Dallas during a special session at the Castro County Exposition Center here last night.

With a total of 54 former Frito contract growers participating in the session along with prospective contractors and other members of the bargaining group, the final tally was 58 against accepting the F-L proposal, and 14 in favor of taking the contract offered.

The vote represented an outright rejection of a Frito-Lay contract offer made last week of \$5.50 per

The mobile unit from Coffee Memorial Blood Center will be collecting blood from Hereford High School students tomorrow

in lieu of the monthly drive. The blood mobile will not be conducting a community drive here until April 25, according to Joan Bookout, chairman.

A total of 54 pints of blood were donated by Hereford citizens last week, when the mobile unit was at the Community Center. Blood was designa-

ted in the following amounts: Blood insurance, 20 pints; Hereford pool, 12 pints; Knights of Columbus, 1 pint; Joe Hernandez account, 3 pints; Frank Morgan account, 2 pints; Sam Choate account, 2 pints; Grady Shirey account 2 pints; Mary Dean account, 4 pints; Rufus Weathers account, 4 pints; and Ruth Craig account, 4 pints.

· hundredweight for food-grade yellow corn, and \$7 per cwt. for food-grade white

Those figures represented the most generous F-L contract offer to date, since negotiations between the young bargaining group and the Dallas-based firm opened in late January.

Members of the bargaining association originally set their price goals as \$6 per cwt. for yellow food corn and \$7 per cwt. for white food corn, emphasizing that major production cost increases made the higher prices necessary.

Frito originally offered \$5 per cwt. yellow corn contracts and \$6 per cwt. white corn contracts as negotiations

Last night's final verdict came after members of the board of directors of the association deadlocked on a vote concerning a recommendation for signing or not signing the proposed contract.

"I wish we could come to you and say we have a definite recommendation on whether you should sign or not. Ultimately, the choice is going to be yours on whether to sign or not," commented Weldon Davis of Hart, president of the bargaining group.

"Up until now, the board has handled these matters as they came up, and if the current contract offer had been in line with what the membership had expressed

County Judge W. Glen Nelson, director of the county spelling bee, has announced that Marie Griffin, Mary Parker and Lupe Alvarado will be judges of this year's

The spell-down will begin at 1:30 p.m. Thursday with the junior spelling bee, involving two students from each of the city's public elementary schools. The winner of Thursday's competition will have the option of going against four spellers from the local junior high schools on Friday, beginning at 1:30. Both bee contests will be staged in the County Courtroom, according to Judge Nelson.

Betty Mercer, Hereford High School counselor, will be pronouncing the contest words, taken from the official National Spelling Bee pamphlet. The student who is still standing after Friday afternoon's bee will advance to the regional contest April 28 at Stephen F. Austin Junior High School in Amarillo. The regional winner will represent this area at the National finals June 6-7 in Washington, D.C.

## Agricultural Use Tax Break Withheld for Corporations

AUSTIN, Texas (AP) - The House Ways and Means Committee has rejected a new attempt to withhold an "agricultural use" tax break from corporations.

Tax Talk

As the House Ways and Means Committee

debated taxation on productivity value Monday,

approximately 90 school administrators, county

judges and county commissioners from 25 countles

in the Panhandle were discussing the same subject

in a seminar sponsored by the Hereford

Independent School District at the Community

Center. Above, Ken Graeber [center] of Austin,

The action came Monday as the committee movéd toward a final decision on a bill implementing the 1978 Tax Relief Amendment.

An 8-4 vote against denying the "agricultural use" tax break to corporations settled the issue in committee but it is sure to arise again on the House floor.

The committee planned to take its final vote on the bill (HB1060) today after Rep. Wayne Peveto, D-Orange, said he wanted more time to analyze the latest draft of the measure.

Rep. Bob Davis, R-Irving, committee chairman, a committee decision today would assure the bill a place on next Monday's calendar for House debate.

Peveto and Rep. Stan Schlueter, D-Salado, reopened the issue of "agricultural use" appraisal of corporation-owned farm; ranch and timber land for taxation - probably the most sensitive

matter in the bill. Farm, ranch and timber land would be assessed for taxation on its ability to nourish crops, livestock and trees - not its value on a rising real estate market. Peveto said that would be an incentive for corporations to compete with individuals to buy farms and ranches that are offered for sale.

"We are going to see much faster depletion of the family farmer and rancher, and more land will fall under the ownership of large corporations," he predicted.

He said corporate ownership of timber land was so widespread in East Texas that giving corporations the tax break would "almost completely destroy" the tax bases of 11 counties.

### .....The Branding Iron ..... Principal Serves Community by Dousing Fires

By PAUL SIMS **Managing Editor** 

Jerry Richburg looked out of place as he arrived at the fire Monday afternoon wearing a sharp suit, slacks and patterned tie.

A half hour later, unless you knew him, you surely wouldn't think of him as a junior high school principal.

"I've got to go home and change. I can't go back to school looking like this," said Richburg as he peeled off his fireman's garb and exposed a filthy suit, slacks and patterned tie.

that, it's unusual, a challenge," Richburg

"The things I've learned are important to me. You receive training, as a firemen, in such things as rescue procedures, first aid, emergency medical care," he said. Training to be a fireman was an

experience Richburg won't forget. 'At training school, I got third-degree burns on both hands. The fire just got too hot. The gloves didn't burn, but heat got trapped inside the gloves.

"While I was training and learning, I used to dread the alarm because I didn't think I had prepared myself enough. But the more training I received, the more confident I felt about doing fires. Now it's a real excitement. There's an element of unknown there, and man has always been excited about the unknown."

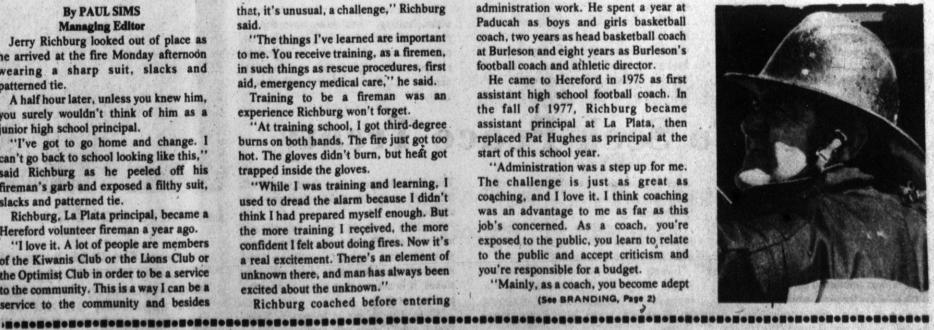

Richburg coached before entering

administration work. He spent a year at Paducah as boys and girls basketball coach, two years as head basketball coach at Burleson and eight years as Burleson's football coach and athletic director.

He came to Hereford in 1975 as first assistant high school football coach. In the fall of 1977, Richburg became assistant principal at La Plata, then replaced Pat Hughes as principal at the start of this school year.

"Administration was a step up for me. The challenge is just as great as coaching, and I love it. I think coaching was an advantage to me as far as this job's concerned. As a coach, you're exposed to the public, you learn to relate to the public and accept criticism and you're responsible for a budget.

#### Flexibility Needed. Mondale Claims

WASHINGTON (AP) - Vice President Walter Mondale declared the Carter administration's vigorous opposition to a balanced-budget amendment Monday, saying the government needs flexibility in order to manage a sometimes cantankerous economy.

The government's economic responsibilities go far beyond developing a balanced budget, he told the National League of Cities.

Sometimes we need a deficit in order to stimulate the national economy," Mondale said.

"That's what Franklin Delano Roosevelt did in the depths of the Depression." He added that a surplus is sometimes necessary to slow inflation.

Mondale's speech to the 1,500 city officials, was the administration's strongest argument yet against a proposed amendment to force Washington to balance its half-trillion-dollar budget.

A leader of the budget-balancing movement, Gov. Jerry Brown of California, is a likely challenger to Carter should he seek a second Democratic nomination for president and the administration hopes to stop his charge before it gets started by blunting his main

#### Senate Committee Favors Primary

AUSTIN, Texas (AP) - A 7-6 majority of the Senate State Affairs Committee wants Texas to have a bigger say in electing the next president of the United States.

The narrow vote late Monday sent to the Senate floor a bill that calls for a presidential primary vote in March of 1980 and moves regular primary elections from May and June to July and August.

Sen. Jack Ogg. D-Houston, author of the bill which has the support of Lt. Gov. Bill Hobby and Speaker Bill Clayton, said he is "negotiable" on leaving the regular primary elections in May and June. He also said he might agree to holding elections on Saturdays instead of Tuesday.

However, Ogg said he is "not negotiable" on changing the presidential primary date to coincide with the first primary election in May.

If approved by the Senate, the bill would go to the House, where similar proposals are in a subcommittee.

Gov. Bill Clements has threatened to veto any bill that would move the current May and June primaries to July and August, as Ogg's original bill provided. Chairman of both the Texas Democratic Party and the Texas Republican Party testified against the bill

despite Ogg's argument the early vote on

presidential candidates would give Texas more say in national politics.

#### Cancer Deaths Up Despite Research

WASHINGTON (AP) - Cancer is killing an increasing number of Americans each year despite \$6,5 billion spent by the government on research since 1971, Congress has been told.

At the same time, the mortality rate from heart disease, accidents and influenza and pneumonia has been gropping, Dr. Marvin Schneiderman sold a Senate health subcommittee Monday.

"Cancer mortality overall is increasing, so that it is the only major cause of death which has continued to rise from 1900 through 1976," said Schneiderman, associate director of the National Canter

But he added that about 85 percent of the increased incidence of lung cancer is due to cigarette smoking. When the lung cancer deaths relating to cigarette smoking are subtracted, "total cancer mortality has been declining overall."

Schneiderman said that among persons 45 and younger, both the incidence and mortality rates for cancer are declining.

"The decreases have come about, in part, through reduced incidence of breast cancer in young women, lung cancer in younger men and the childhood leukemias and Hodgkin's disease," he

doing. I would a whole lot rather have \$6.50 per cwt. for white corn and \$6 per cut. for yellow... Then we'd be trading on the long end of the deal," stated Jay Boston of Hereford.

Charles Schlabs of Hereford offered a comparison of corn prices, including hedging on the futures market, and emphasized the high dockage that many growers often see on their corn delivered for food purposes.

"You're not gonna' sell 100 pounds of corn, and you're not going to get \$5.50 for it when you figure in the shrink and dock. Let's take \$1.10 over the market, but hook it to next March futures. Whoever signs this contract ought to know what he's getting. Most of us are guilty of not truly considering what we'll actually be getting. Everybody who signs a contract sure oughta' look at their own figures before they sign," Schlabs stated.

. A number of growers continued to emphasize the importance of a minim price of \$6 per cwt. for yellow corn, and one grower pointed out that he would prefer not to plant any white corn, unless a favorable price is offered for the more widely produced yellow.

Pat Robbins, a director from the Frio vicinity warned growers that few have actually called and made comments to Frito-Lay officials, and that from visiting with F-L representatives himself, he had arrived at the conclusion that the current figures represent F-L's final offer.

"My impression is that Frito will not go any higher, although I will abide by the majority's decision here," Robbins stated.

Ray Joe Riley of Springlake, another director in the organization, indicated his reluctance to accept the current offer.

"I don't know if Frito will go any higher or not, but we didn't know when we started either. They have their grain cleaning facilities in this area, and it will cost them a lot to ship corn in here from elsewhere. The price offered has gone up as corn watering time has grown closer, and I still think there's a little room somewhere to negotiate a better price," he stated.

"We raise the most expensive corn in the U.S., and can't continue to do so unless we can sell it as a high quality. food-grade product. It comes down to whether we have the guts to wait and see, or if we are going to jump in and sign

now," Davis stated in summing up commentary on the issue.

The final membership vote included 41 no votes by old contract growers, and 17 no votes by individuals interested in a contract.

Thirteen old contract growers voted in favor of acceptance, as did one individual interested in a contract.

According to Davis, old growers are being requested to contact Frito-Lay by noon tomorrow tomake their intentions

"It's up to you to make the final choice," he stated.

The Hart corn farmer explained that F-L will apparently throw contract signings "wide open" now in an attempt to obtain sufficient grain stocks, and any further association bargaining efforts will hinge on the number of contract signings that result from the open signing policy.

Boston summed up the evening's action, stating, "I think we have done a remarkable job of sticking together on this issue, and if we make an appeal to everyone not to sign, I think we can make another try. We need \$6 for yellow corn

## Official: Protest Failed

KANSAS CITY, Mo. (AP) - Last\* month's demonstrations by the American-Apriculture movement were counter-productive and eroded the dwindling support that agriculture enjoys in the nation's capital, a federal farm official said

"The sentiment for agriculture in Washington is shifting quite fast," said Stewart Smith, associate administrator of the Agricultural Stabilization and Conservation Service. "Beneficial legislation may be lost because many Congressmen and Senators might hesitate to lend their support now because they think they've been pressured into providing that support."

### At Wits End

BY ERMA BOMBECK

I read something pretty frightening the other day. A story in a magazine said the cost of building had become so exorbitant that we would soon enter into a do-it-yourself boom. It made my flesh crawl.

I didn't raise sons to send them off to another do-it-yourself boom. Why does it have to be this way? Are we never to have a period in history where there is no wounding or maiming? No blood or no pain?

I remember when their father served in the do-it-yourse boom of 1949. How my eyes glistened with pride when I saw him in his coveralls. How courageous he looked standing there with his new tool box under his arm ... ready to defend our home against warps, drafts, peeling paint, leaks and deterioration. If I knew then what I know now, I would never have let him enlist.

Do-it-yourselfers are naive. They believe the pamphlets that start off, "You can install a new ceiling for pennies" or the pictorial teaser that shows a man digging a hole in his yard at 10 a.m. and 15 people splashing in a 35-foot pool when the sun is setting.

The basic training of most men in home chores is a simple exercise called hanging a picture. Many men consider this a sexual violation of a wall. They do not want to make a mistake. They measure the width 15 times, depth eight times,. make a small mark with a pencil, recheck the measurements one more time, put the wrong bit on the drill and discover within two minutes that they have missed the stud by three inches. The memory of that hole in the wall haunts them the Call the second of their fives.

From there on in, it's just one confrontation after another. I watched my husband go through the Dragging Door Campaign where a door had to be shaved when we got a shag carpet, the Battle of Running Toilet Skirmish, not to mention the Grape Wallpaper in the Kitchen Encounter where there was a talk of a trial separation until he could figure out that grapes grew down.

I saw a young couple the other day examining a tile kit for the bathroom. He was so young: He didn't know yet about the long hours, trips to the emergency room for treatment, the costliness of a mistake. I whispered in his ear, "A do-it-yourself boom only seems glamorous. Trust me, wait until you're drafted!

#### **MEASLES EPIDEMIC POSSIBLE IN 1979**

A measles epidemic may hit Texas and other states in 1979 -because many children immunized when vaccine was first available are not completely safe from measles (rubeola or 10-day measles). Measles outbreaks are occurring in Texas and elsewhere - with East Texas counties also reporting cases among students in grades 7 through 12.

#### VACCINATE THESE CHILDREN

Health authorities urge parents to have the following

children immunized: \*Children you think are immune because "they already had measles" but who saw no physician during the illness and never receiver a doctor's diagnosis. Only if a doctor diagnosed measles can parents be sure children are safe.

\*Children who were immunized with a killed measles virus vaccine. \*Children who were im-

munized with a live virus vaccine before 1968.

\*Children who had the measles immunization before \*Parents who are not sure of Square Dance their first birthday.

their child's immunization record - or safety from measles should contact their physician or Club Forms local health department for

WHAT TO ASK FOR According to health authorities, to be safe from measles, children need the "live, Club met Friday night in the further-attenuated measles vaccine" which is in current use.

This vaccine has proven to be safe and effective, they report. WHY THE PROBLEM? Today's threat of epidemic partly stems from the not-so-

effective measles vaccine given to children at the age of 12 months. Cases of measles are now being reported in these children who were thought to be fully protected. New findings show that vaccination with a live virus at the age of 15 months or after is more effective. MEASLES CAN BE HARMFUL

DEAR ANN: Will you please tell those crazy people out there that when someone in the family is sick, they should cancel the party? I don't know of anyone who wouldn't rather miss a party than catch the flu and be house-bound for a solid week.

Both my husband and I are now recovering from six days of total incapacitation. Our daughter had to stay home from work to take care of us. What's a day or two. It stands to reason more, we weren't the only ones at the party who got the flu. There were two others.

When we walked into the house, the hostess announced apologetically that she was sorry her husband couldn't join us because he was in bed with a miserable case of the flu which he had picked up from his mother who also had the flu. (She lives with them.)

I'm sorry we didn't have the good sense to tell her at the door, "Sorry, we don't need the flu. Please call us when everyone is well." And then, the closet, it would be good for

4-H'ERS TO STUDY ENERGY AT CONGRESS

Texas 4-H members will explore current sources of energy and management methods as well as look at energy possibilities for the future at the 1979 Texas 4-H Congress.

This year's state congress for senior 4-H members (those exhibits and displays on energy between the ages of 15 and 19) will be at the Shamrock Hilton Hotel in Houston, July 19-22. announced Joyce Shipp, county agent with the Texas Agricultural Extension Service. The theme of the congress will be "4-H and Energy: Partners for Progress." 4-H'ers attending The congress will look at such familiar energy areas as oil, gas and coal production and use of wind and water power. They will including nuclear power, solar energy and bio-mass conversion, the changing of animal and plant waste into energy.

### Miss Poteet Honored At Personal Shower

A lingerie shower and brunch feted Miss Kyla Poteet, bride-elect of James McDowell, Saturday morning in the Halbert Room of Hereford Country Club.

Miss Poteet and McDowell are to be married Saturday evening in the Presbyterian Church.

Former classmates and friends of the honoree were greeted by Miss Poteet, her mother, Mrs. Gene Poteet, and her fiance's mother, Mrs. W.C.

Signatures of guests were secured in the bride's book by Eleise McDowell.

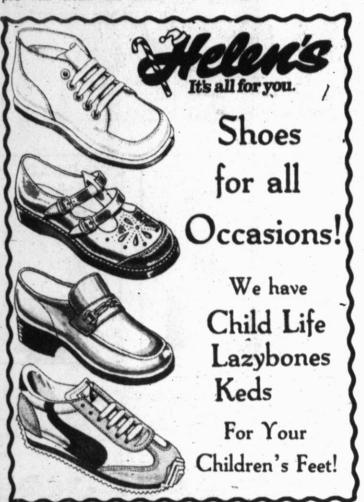

Miss Lori Steinkruger served quish Lorraine, sausage balls, muffins and strawberries topped with cream and brown

sugar from a table appointed with silver and crystal. The serving table was draped with a

layer of champagne satin. An ivy centerpiece was presented to Miss Poteet by the hostesses, who were Jan Garrett, Elaine Clarke, Wanda Payne, Lori Steinkruger and Marty Steinkruger.

# HHS Golfers Fourth After 1st Round

\* Looking better than they had all year was the way golf coach Terry Russell spoke of the Hereford High School golf team after finishing fourth in the first round of district competition.

"We played pretty well considering this is the toughest course that we play in district this year." Russell said. "The varsity was real consistent, and the play of John (Fostor-sopho-

more) was real good to see."

Foster finished fourth in individual scoring with a 79' as there were only five of all the golfers that shot under 80 for the 18 holes.

Other individual scores for the Herd varsity were Keith Pagett with 84, Miles Goforth with 86 and Bill Kirk and Jeff O'Rand with 89's.

Monterey had the best team

score of 312 followed by Coronado with 318, Plainview with 332, Hereford with a 338 and Lubbock High with a 347.

### Raiders To Be Watched In First Round Of NIT

By KEN RAPPOPORT **AP Sports Writer** 

The eyes of the National Invitation Tournament sponsors will be on Texas Tech, when the Red Raiders start shooting for the championship later this week.

"I think the NIT wants to see what kind of crowd we can attract against Indiana," says Texas Tech Coach Gerald Myers. "If we don't do well in the stands or on the court, they might not feel we deserve future consideration.'

Myers' team will-play the Big Ten Hoosiers in a first-round game on Thursday night at the Lubbock Coliseum, a 10,000seat arena where the Red Raiders averaged 8,194 during the season.

"Indiana averaged over 14,000 fans a game at home, and yet they gave the home berth to us." said Myers. "I think the NIT officials want to have its biggest field in history, is growing as much as we say it

playing Thursday night - but the Aggies will be on the road, at New Mexico.

The 42nd NIT gets under way Wednesday night with six Louisiana at Virginia, Clemson at Kentucky, Wagner at Old Dominion, St. Joseph's at Ohio State, Rhode Island at Maryland and Nevada-Reno at Oregon State. The remainer of Thursday night's games include Alcorn State at Mississippi State, St. Bonaventure at Alabama, Holy Cross at Dayton and the-Mid-American Conference runner-up at Purdue.

The Mid-American title will be decided tonight in a playoff between Central Michigan and Toledo, who finished in a tie for first place during the regular through the weekend, a season. The winner will earn an automatic berth in the NCAA

### Indiana State No. 1 With 55 First Place Votes

NEW YORK (AP) - Indiana State's Larry Bird won't be thumbing a ride to the National Collegiate Athletic Association tournament, but when you're No. 1. you don't have to. And when you have a broken thumb, you can't. Bird and his Indiana State

teammates retained the No. 1 ranking in The Associated Press college basketball poll Monday, collecting 55 of 58 first-place votes and 1,150 points in belloting by a nationwide panel of sport writers and broadcasters, easily outdistancing runnerup UCLA.

"I fractured the tip of my left thumb in the second half of our game against New Mexico State Saturday, but that won't keep me from playing in the NCAA tournament," Bird said, adding "I know I can shoot."

The Sycamores, 29-0 and seeded No. 1 in the NCAA Midwest Regional, also received one second-place vote, one fourth-place vote, one seventhplace vote and issued ... one 'Bird' warning to the other 39 teams in the NCAA tournament.

"If a team beats us, it will have to pay the price," Bird said. "We've got a team that doesn't mind getting down on the floor and we are not a one-man team."

UCLA, seeded first in the NCAA's West Regional, received the remaining three first-place votes and 1.077 points. The Bruins, 23-4 and ranked third last week, clinched their 13th straight Pac-10 titlelast week with victories over California and Stanford.

North Carolina, No. 7 last week, jumped to No. 3 with, 1.034 points after winning the Atlantic Coast Conference title and earning the No. 1 seed in the NCAA's East Regional with

a 71-63 triumph over Duke on 5. Notre Dame

Big Ten co-champion Michigan State remained No. 4 with 932 points, followed by Notre Dame, No. 2 last week but upset by both DePaul and Michigan. with 850 points. The Irish were 12. Marquette , 21-6 seeded No. 1 in the NCAA's Mideast Regional.

Duke slipped one notch to sixth with 810 points - 13 more than Southwest Conferencechampion Arkansas, No. 10 last DePaul, unranked three

weeks ago and 14th last week, continued its rapid rise, moving to No. 8 with 678 points. Louisiana State and Syracuse

rounded out the Top 10, the

Tigers, with 612 points, edging

the Orangemen by two points. Georgetown, which defeated Syracuse 66-58 last Saturday. headed the Second 10 with 556 points. The Hoyas were followed by Marquette, Temple, lowa, Texas. Purdue, Detroit, Louisville, San Francisco and Southeastern Conference champion Tennessee, the only newcomer to this week's Top 20,

replacing Ohio State. Every member of The Top 20 except Purdue will play in the NCAA tournament, which will determine the national champion. The Boilermakers will play in the National Invitational Tournament.

### Healing of diverticulosis

DEAR DR. LAMB Some months ago I read your column about diverticulosis (pockets of the colon). I have read other articles about the use of fiber so I got some bran. My doctor didn't give me any encouragement to use it as I had been on a bland diet for years. I was afraid to try it but then I read The Health Letter on diverticulosis and decided I would give it a try I do think it's important to point out that you get gas from eating cereals that contain lots of bran for the first three weeks and this is why some people don't continue

In a short time I noticed some improvement. I didn't expect miracles because I'd had the problem for 20 years. Now I have only slight discomfort and hardly any gas, and I'm eating solids every day, corn on the cob, peas and also strawber-

Would you please explain to me the actual healing process and do the pockets actually disappear? I am still hesitant to eat seeds nuts and tomatoes. Could you tell me about when it would be safe to eat these, if at all? Before when I ate these, I'd suffer for about a month with an attack.

DEAR READER sounds to me like you're getting along pretty well, so why take the chance? I'm sorry to say there are no really good studies to show what happens to the pockets of the colon, or diverticula, on a long term basis after a nerson started using bran or significantly increased bulk in his diet

A lot of the symptoms of diverticulosis are related to underlying spastic colon. Some people think that's why the little pockets, or ruptures, develop in the first place The symptoms are often improved when bulk is added to the diet. You're absolutely right

about having increased symptoms of gas for the first three weeks. This is why I sometimes suggest to people that they sneak up on the problem by adding a little bran at a time.

The pockets are really little ruptures, and I suspect that they will not really

disappear. But many people have diverticulosis and don't have any symptoms. If your dietary regime causes improved bowel function so you don't have any symptoms, that in itself is considerable

improvement. Since the pockets persist, I think it might be a good idea. to continue to avoid seeds and such material. With your improved bowel function, they might not cause trouble, but I'm not sure anyone could guarantee they wouldn't

I'm glad you got some value from The Health Letter. Other readers who want the issue, number 5-6, Diverticulosis, can send 50 cents with a long, stamped, selfaddressed envelope for it Send your request to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019

Some readers may be confused about the different terms used. A diverticulum is one pocket. Two or more pockets are diverticula. The disease itself is diverticulosis. If one of those little diverticulum gets inflamed, it is diverticulitis.

### S&L Association Mood Uncertain

AP Business Analyst NEW YORK (AP) - At would have been gladdened by the cascade of money that a bin spilled into their vaults in. The irony of this is that the

The mixed mood demonstrates again how unpredictable is this aspect of finance, in which the deposits of small savers are aggregated to provide loans to homebuyers. S&Ls are the biggest mortgage lenders.

In January, despite a drop in the national savings rate to only 4.6 percent of takehome pay. the S&Ls attracted an avalanche of \$4.4 billion in net savings. that is, after deducting for

Since these so-called thrift institutions exist almost solely by lending out at higher interest rates the funds deposited in savings accounts, you're justified in asking what it takes to make them smile.

The answer A better spread; the ability to earn more on loans than they must pay on savings. Increasingly, S&I managers are concerned about their ability to do so. They're beginning to feel boxed in.

As a result, loan comalmost any other time, the mitments fell 4 percent at the savings and loan associations very time deposits poured into their vaults like coal chuted into

### Offshore Rig Explodes, Killing Two

NEW ORLEANS (AP) gas well exploded in flames on an offshore drilling rig in the Gulf of Mexico Monday killing two men and leaving six missing, officials said. Twents seven others escaped by jumping into a survival capsule

The rig continued to burn, but there was no immediate word on

The dead and missing worked for Penrod Driling Drilling Co and other contractors aboard a Placid Oil Co. platform, located about 45 miles south of Morgan City, said James King, a Placid spokesman in Houma, La

He said the platform contained about 14 producing wells. "The other wells are shuf in by a containing system." he

t fire boat pumped water on the flames, but the Coast Guard said the rig was engulfed in fire three hours after the blowout.

Other ships on the scene picked up the survivors, officials

The U.S. Geological Survey said the fire started during the drilling of a well in about 40 feet of water. In an announcement issued in Washington, the survey said the well had reached a depth of 10,615 feet and the drill pipe became stuck.

When attempts were made to remove the pipe, some gas circulated, leading to a fire and explosion, the statement said.
