TUESDAYS—TWICE A WEEK—FRIDAYS

23RD YEAR, NO. 28.

HEREFORD, DEAF SMITH COUNTY, TEXAS, FRIDAY, APRIL 27, 1923.

NEARLY TWO INCHES RAIN HAS FALLEN

SPLENDID SEASON IN GROUND INSURES FINE CROPS

SOME HAIL ALSO

But Crops Not Advanced Enough to be Damaged Very Much

Heavy rainfall has occurred all over this southwestern country during the past three days and the range and farm lands are thoroughly soaked. Hail has accompanied the rain in many localities, but grain crops are so young that little damage has resulted.

Perhaps the city of Hereford has had less rain than any other section but at that 1.85 inches has fallen here so far during the month of April. The official rain gauge at the First National Bank shows the details as follows:

April 10—1
11—35
18—35
20—2
24—3
26—25

Total—1.85

Three tenths of an inch fell here Tuesday afternoon and a quarter inch Thursday during the day. Very heavy rains were reported north and northwest and also in the Springlake country and portions of Castro county. Claud Norton stated Friday that it rained six and a half inches in an hour at his place together with a heavy fall of hail, small in size but thickly bunched.

Friday cleared off beautifully and apparently the wet spell is over. The ground is in great shape and high hopes are entertained that the cold weather and danger of frost is gone and that 1923 will be a banner small grain, cotton and fruit year.

J. E. Smith, Castro Co. Man, Drops Dead Thursday

J. E. Smith, residing about nine miles south and west of Dimmitt in Castro county, was suddenly stricken with heart trouble between three and four o'clock Thursday afternoon and expired before medical aid could be secured. Mr. Smith had worked on a silo on his place up to noon. Following the noon meal he played dominoes and joked with the boys and was apparently in the best of health. He did not go back to work until late, and then was merely doing small jobs. He looked up at the silo, suddenly turned off abruptly and started to walk away, and pitched forward on his face. He was picked up at once but was dead in a few seconds.

The body was brought to Hereford by the E. B. Black hearse and prepared for shipment to Modena, Mo., his old home, Friday morning. The body was accompanied by Mrs. Smith, son and daughter.

Joseph Edward Smith was about 54 years of age. He was raised in Missouri and came to this country in 1898, residing here since that time. He leaves an immediate family consisting of his wife, son, Leland, and daughter, Evelyn. In addition he is survived by five brothers and two sisters, Clarence, Louis and J. T., who live in this community, B. H. Smith of Quanah, and Mesdames Ella Stephens of Era, Kansas, and Clara Burt, of Siloam Springs, Ark.

The supposition is that burial ceremonies will occur in Modena probably Sunday afternoon.

Large Number Shriners Attend Amarillo Meeting

A large number of Shriners, several of them with their wives, went to Amarillo Tuesday and most of them stayed over that night, for the Shrine ceremonies at that point. In addition several carjacks of other Hereford citizens went up to look on as far as they could. Among the Shriners who attended were: Mr. and Mrs. H. L. Rice, Mr. and Mrs. Ray Conaway, Mr. and Mrs. Carl Cockrell, Mr. and Mrs. Walter Dunlap, Mr. and Mrs. J. E. Beyer, Rev. and Mrs. Paul J. Merrill, A. Herbst, H. K. Fox, Gano Hastings, Homer Wilkinson, W. H. Ray, E. A. Johnson, Jim Black, A. O. Thompson, E. D. Reed, Geo. L. Moss, Edgar Ramsey of Dimmitt, and E. H. Kinsley, Al Henschel and J. C. Wilkinson of Friona.

Mrs. E. Renfro is Stricken and Passes Away April 25

The legion of local friends of Mrs. Fannie Renfro, wife of E. Renfro of this city, were shocked to hear of her death Wednesday, which occurred in Sagre, Okla., about 11:00 a. m. Mrs. Renfro had been sick for over a year, suffering from heart trouble, and had been in the habit of going to Sagre frequently for electrical treatments. She left here Monday, and Tuesday Mr. Renfro was advised that she was seriously ill and hurried to her at once. The body was brought home from Amarillo Thursday by the E. B. Black Undertaking Co.

Funeral services will be held from the residence Saturday, April 28, at 2:30 o'clock, conducted by the Rev. Paul J. Merrill of the Christian church. Mrs. Renfro was born August 23, 1867, in Knox county, Mo. She married Mr. Renfro in 1883. They lived in Oklahoma until 1901, when they moved here, residing in the country until five years ago when they came to town. Ten children, three girls and seven boys, were born to this union, of which four sons and one daughter have passed on ahead of their mother. The surviving children are Mrs. Roger Johnson and Miss Mabel Renfro, and Crisford, John and Bob Renfro, all of Hereford. Besides these, Mrs. Renfro leaves three brothers, Claud, Will and Charlie Blanchard, all of Trenton, Mo. Claud and Will Blanchard, with Miss Leona Blanchard, daughter of Claud Blanchard, are expected in Hereford Saturday morning in time to attend the last rites.

The united sympathy of the community has gone out to Mr. Renfro and his family in this great loss, following so closely upon the death of three sons in recent years. Mrs. Renfro was a devoted Christian, mother and friend and she will be sadly missed in this community in which she has worked and lived for so many years.

Dandelion Problem Puzzling to Commissioners

What to do with that Dandelioned courthouse lawn is sorely puzzling the members of the commissioners court these days. Charlie Paddock was found wandering around on the plot Friday, engaged in deep thought. When asked his opinion about the matter Mr. Paddock said: "We realize that something ought to be done about this right now. The wind drifts this seed all over town. But what to do and how to do it is another matter. Suppose we plow it all up, as some people advocate, what then? We will have an unsightly dirt heap about the courthouse for a year or two, getting rid of the seeds, and then when we plant it again the Dandelions will be right back with us, because any seed you plant these days has more or less Dandelion seed mixed with it. I have about arrived at the conclusion that the best plan would be to keep the lawn mowed off short all the time, preventing most of the Dandelions from seeding. This would not kill it out but would certainly hold it down."

Dollar Wednesday Draws Crowd for Prize Awards

The prize drawing for Dollar Wednesday on April 25 attracted a good crowd as usual and much excitement was caused on the corner opposite the First National Bank where the truck containing the prizes was parked. The big can was full of tickets and it took quite a while to finish the job. The committee has in view the matter of putting on some method that will cut down the time of drawing these prizes. A nice crowd came in from the country Wednesday, attracted by the drawing. Weather conditions also aided in getting a good crowd, as farmers were unable to work the wet ground. Merchants reported a brisk demand all day, and the Dollar Wednesday continues to justify the expense and effort being put into it by the business men of the city.

Old Timers in Trouble Again—Can You Help?

The Old Timers Club has another puzzle for the historians to unravel. Following the solving of the Quannah Parker dispute the club has been doing along without any argument worth while until this week a railroad dispute arose. Question before the house now is: Did Dallas or Denison, Texas, first secure a railroad? There's a warm argument on about this momentous question. Any information concerning it will be gladly received by the Club and The Brand will also be glad to have it.

75 Sacks Clothing Shipped Out Near East Relief

Seventy-five sacks, bulging with clothing of every description, shoes, hats and everything else that is worn by human beings were prepared for shipment to the Dallas office of the Near East Relief Friday afternoon in the basement of the courthouse. The collection was the result of the visit here last week of a special worker for the cause who held meetings in the churches and organized local solicitation committees.

A. L. Biggs was appointed shipping clerk for the staff and, together with Rev. Hill of the Baptist church and Rev. Sharp of the Presbyterian church, and Dr. Farrell, sacked the offering and tagged it and got it all ready for sending out Friday afternoon.

Hereford High Baseball Team Ready for Games

Harrison Employs Expert Herdsman To Handle Hogs

E. W. Harrison, new president of the Panhandle Swine Breeders Association and owner of a fine herd of Duroc Jersey hogs is showing his faith in the future of the registered hog industry in this section by his works. In addition to steadily building up his herd with fine blood from time to time, Mr. Harrison this week added a first class, experienced hog herdsman to his staff to properly care for the herd. The new herdsman is James Dawson, formerly with the Alexander, Mickle & Jones firm of Childress, and a man who knows Reds and how to handle them. Mr. Dawson's special job will be to get the Harrison hogs in shape for the show the coming fall. Mr. Harrison expects to take a string of good ones to the most important displays and put Hereford on the map as the home of real, honest-to-goodness red hogs.

Oil Man Buys Bunch Fine Registered Cattle Here

Mrs. L. R. Bradley Sells Lot Of Anxiety 4th Stuff At \$100 Each

Last Monday Henry Hobb of Wichita Falls, Texas, loaded out about 100 registered Hereford cows and heifers, 92 of these being the O. M. Shore herd of Anxiety 4th breeders he bought last November, wintered by Ed East on the Ivey Springvale Hereford ranch, six miles east of Hereford.

While shaping this herd up for shipping Mr. Hobb rode out to the neighboring Tierra Blanco Hereford ranch, owned by the L. R. Bradley Estate, and found a herd of sixty-eight 2-year-old heifers, strong in Anxiety 4th blood, that he wanted to add to his herd. So he asked Mrs. Bradley to come to the ranch, purchased the heifers at \$100 per head, horn branded them and loaded them out with his other purchases to be shipped to his well improved 21-section ranch east of Texline, Texas.

Mr. Hobb now has as well bred a herd of cattle as can be found in this part of the country and with such a capable herdsman as John Davis to help handle them it is expected that he will secure great returns on his investments.

In addition to the cows and heifers Mr. Hobb shipped four very fine bulls in this consignment, known as Beau Peveral, sold by John Purcell, Superior Domino and Don Stantway, sold by T. C. Ivey, and Diamond B., sold by Mrs. L. R. Bradley. These are all line bred Anxiety 4th bulls.

Telephone Work To be Completed, Beginning Monday

District Manager Hill and Constructive Foreman Harrison of the Southwestern Bell Telephone company were in Hereford Friday planning the final details of the installation of the new telephone system.

The long-delayed cable, which has halted the work for several weeks, has finally arrived and next Monday the crew will be started again on the last lap of the job of giving Hereford a more modern and satisfactory telephone service. Poles and wiring with the exception of this one cable, have been erected, and most of the houses have been made ready for a quick switch to the new line. In a short time now the work will be completed, says Mr. Hill.

Hereford Gun Club Now In Second Place in League

Statistics obtained from the headquarters of the Panhandle Trapshooters Association here on the results of the competition to date show the following percentages for the three clubs involved, based on 500 birds shot at:

Club	Birds	Percentage
Perryton	481	922
Hereford	430	860
Amarillo	420	840

The Hereford club got off to a bad start but have been showing steady improvement. The difference of thirty-one birds between Hereford and Perryton is a big handicap to overcome, still the local gunners believe it can be done and are determined to hammer away at it with the hope of final victory.

The occasion seemed very enjoyable to all and everything went smoothly excepting some unavoidable accidents caused by foul balls. Of course we all know the wind was to blame, so we plead "not guilty."

By next Sunday the management expects to have the grandstand accident-proof and the diamond in first class shape and everything will be in fine condition for the Tulla team which is scheduled for next Sunday evening at 7:30 p. m.

Whereas, the management and our people wish to extend an invitation to all neighboring towns to be with us and enjoy the occasion with your whole heart.

ANNOUNCEMENT

of Interest to

MILLIONS of FAMILIES

"I will build a car for the multitude"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters, each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

Moab. Nurtured by affliction, the friendship of the three women was firmly cemented and they would accompany her at least part of the way. When the time came for them to return they were reluctant to take the step that would forever sever the home ties.

Naomi had always bravely struggled with life's problems. Hers was a battle to fight and she fought it well. Bereft of husband and sons, alone and in grief, she sacrificed self on the altar of duty, determines that she will not lead her daughters into a world unknown to them, and nobly speaks to them: "Go return each to your mother's house. The Lord deal kindly with you, as ye have dealt with the dead and me."

Then she kissed them and they lifted up their voices and wept. Orpah, kissed her mother-in-law and was persuaded to return to her native land. But Ruth was not so easily diverted. Love to her meant more than tears and kisses. Hers was a love of a stronger kind, the kind that triumphs and shuts out all reason, the kind that cleaves, for "Ruth cleave unto her."

Naomi persisted, assured her that it was to her advantage to return to her own country, reminded her that she, Naomi, had no son to be her husband, and as a widow she would be disgraced, pleaded with her how she would have to leave her idolatrous worship, the worship of Chemash, and how in obedience to Jehovah. But Ruth said: "Treat me not to leave thee, or to return from following after thee, for whither thou goest, I will go; and where thou lodgest, I will lodge; thy people shall be my people, and thy God, my God: Where thou diest, will I die, and there will I be buried: the Lord do so to me, and more also if I ought but death part thee and me."

What a wonderful woman Naomi must have been! Her religion of love and kindness amid the cruelties of heathenism attracted all that was good in the human soul. Endowed with

such Godly virtues, her personal influence became a great power. Ruth, seeing the beauty and grandeur of such a life, was wont to adopt the customs, language and religion of Naomi's people, to follow her to death's door and the grave.

Seeing that "Ruth was steadfastly minded, firm in her resolutions, Naomi submitted."

So they, the two women, lonely and sorrowful, trudged along until they came to the village of Bethlehem.

All the town was moved about them, and they said, "Is this Naomi? Time and grief having shadowed her life, Naomi said, "Call me Mara (bitterness) for the Almighty hath dealt very bitterly with me. I went out full and the Lord hath brought me home again empty." Should we know the sweetness of life did we not also taste its bitterness.

They came to Bethlehem in the beginning of the barley harvest in the month of April. Anxious to make good, Ruth went to work immediately as a reaper in the gleaners field. Later she meets her employer, Boaz, a man of great wealth, kinsman of Naomi, but devout, who treats Ruth with utmost respect and commands all his harvest men to do so. Finally she became Boaz's wife. Little did the populace of Bethlehem then know what part this ambitious foreigner woman, so buoyant with youth, would play in the history of Israel. Her heroism, love and loyalty won for her the most important place, as ancestor to a family of kings, and as great grandmother to David thru whom the Messiah was to come.

Little did the populace then know of what historical renown the village of Bethlehem would win, as a home and playground for David while a boy, and battleground when a man, as the birthplace of Jesus, the Saviour of the world.

"God moves in a mysterious way His wonders to perform."

International Sunday School Lesson
April 29, Ruth the Faithful Daughter, Ruth 1:14-22
Now it came to pass in the days when the Judges ruled, that there was a famine in the land about Bethlehem, Judah. A certain man name Elimelech, his wife, Naomi, and their two sons, Mahlon and Chilion, came into the country of Moab, and continued there. After a time Elimelech died, Mahlon and Chilion married Moabitish women, Orpah and Ruth, and lived there ten years, when Mahlon and Chilion also died. Heart-broken, Naomi turned her thoughts homeward.
Having heard how the Lord had visited His people, how prosperity had again come to the land of Judah, she arose and, with her two daughters-in-law, prepared to leave the land of

De Laval Separators

Important Considerations in the Selection of a Cream Separator

THOROUGHNESS OF SEPARATION: A separator must be capable of thorough separation with all conditions of milk, whether cows be fresh or advanced in lactation, whether the temperature of milk at separation be 70 degrees or 90 degrees, and whether a 15 per cent or 50 per cent cream be run. The De Laval is the only separator which fulfills these conditions.

SPEED REGULATION: The proper speed of a separator must be regularly maintained and practicable means provided for insuring this. Every De Laval machine is equipped with a Bell Speed-Indicator.

TEN MONTHS OF WORK
vs
TEN MINUTES OF HAIL

It takes ten months of work and care to raise a crop, from the breaking of the ground, on through the planting and tending, protection from stock and pests—before it is ready for the harvest.

It takes ten minutes of hail to utterly destroy the result of all this season's work, and leave the farmer unable to meet his obligations, and face to face with want and suffering unless he has

shown business judgment and foresight by protecting himself with an insurance policy against hail in one of our tried and tested companies. The cost of such protection is small.

The benefits are large. Our companies have millions behind them and an unblemished record for fair and honest adjustments, properly and cheerfully paid.

Thrive your crop against hail today. All losses paid in the field.

Sees Rural America a Great Community Farm

Mrs. W. C. Martin, of Boque County, Texas, known as "The Community Builder of the South," has vision of rural America as a great community farm and along the same general lines as those employed in community development throughout the South. Cave Springs, Tex., is the best example of community development. In two years it changed from a deserted post office on a mud road to a prosperous village in the center of the rich Sabine Bottoms. Pictures show Mrs. Martin who worked out the ideas at Cave Springs. The Community house built there and the type of bungalows in which all residents now live.

GREAT DEMAND FOR FORDSON TRACTORS IN TWO BIG FIELDS

Both agriculture and industry are making increasing demands for the Fordson Tractor. While the use of the Fordson as a farm implement is extending in every agricultural section of the country as farmers come to realize the advantage and economy of power farming, a most noticeable feature of the sales is the growing use of this sturdy and dependable power plant in industrial and commercial activities.

Contractors and builders are everywhere adapting the Fordson to meet their needs for power, either moveable or stationary, and road engineers throughout the country are specifying its use with highway construction machinery.

To meet this growing demand for Fordson Tractors production is now at capacity and for the first three months of the year reached a total of 27,087 as compared with 8,340 for the same period a year ago.

THE HEREFORD BRAND

NOT THE ONLY ONE

There Are Other Hereford People Similarly Situated.

Can there be any stronger proof offered than the evidence of Hereford residents? After you have read the following, quietly answer the question: D. R. Grimes, farmer, Hereford, says:

"Some time ago I was down with my back and kidneys and could hardly move around, as my back was so sore and lame. My back ached constantly and when I stooped, sharp catching pains took me and I could hardly straighten. I also had dizzy spells and my kidneys were weak and irregular in action. At night I had to get up two or three times to pass the secretions. The trouble seemed to come on in spells. Whenever I feel any symptoms now I get a box of Doan's Kidney Pills at J. J. Clark Drug Co., and they always fix me up, and relieve me of all the misery."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Grimes had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Chautauq is the most American thing in America.

During the war President Wilson called the Chautauq "an integral part of the national defense."

All of this appreciation by foremost men of our country is but recognition of the widespread acceptance by American communities everywhere of Chautauq and the certain fundamental things which it supplies.

Because it brings direct to American communities the wide range of contemporary thought in a democratic American way, the Chautauq has permeated every fibre of American life.

Chautauq tents are places where whole families go; and American families are the foundation of the Nation. The wholesome inspiration there requires no censor and the people on the platform are living the same life as the people in the audience.

There are communities without Chautauqs. There are also communities which still use the watering trough and stage coach. The progressive communities of America have Chautauqs.

What would the result be in Europe if this great institution could serve to crystallize the thought of the people themselves?

The Redpath Bureau is the greatest of all Chautauqs, covering not only the United States but Canada. The Premier Circuit of Redpath-Horner is the greatest Circuit in all the widespread system, reaching over the Middle West and the Southwest. Hear that program and judge for yourself the value of the Chautauq to you, your community and the Nation.

New American Venus is Perfect '34'

Miss Martha Gonzalez, age 20, of Brooklyn, N. Y., a perfect 34, has been selected by J. E. Bolton, fashion expert, as the new American Venus. "American designers are no longer keeping in mind the perfect 36 of the Venus de Milo type in their designing," say fashion authorities.

hour-grass and weeds, filling holes, smoothing greens and tees, etc. It is believed this will make the field much more attractive. A lot of other details were discussed Wednesday night.

In spite of rains the players have been out on the links every day this week and interest continues unabated in the Ancient and Honorable game. Jail and Filling Station Construction Work Begins

Work of steepling the jail and erection of a garage is well under way by contractors Buckner, Carter and Lambert. The mortar between the bricks in the jail can be picked out with a lead pencil and it was only a question of months until the building would have been absolutely unsafe. In fact some arches were beginning to crumble and bricks would fall when a door was slammed.

The spaces between bricks are being

thoroughly chinked with cement and then the entire outside stuccoed, saving the building to the taxpayers for years to come.

Contractor Jake Triefel is also busy with the foundation work on the new filling station for Glen Snyder and C. L. Roberts, opposite the Light & Power office.

Two Out-of-town Men to Fill Presbyterian Pulpit

Two special attractions will be offered at the Presbyterian church on next Sunday. At the morning hour Professor Jarrett of the West Texas Normal will deliver the third and last of his series of lectures on child training. At the night service it is expected that Roy Nunn will fill the pulpit, if he arrives here in the morning as scheduled.

Mr. Nunn has been taking the first year of his theological course at a school in San Francisco, Calif., and is looked for on the Sunday morning train from the west.

CHAUTAUQUAS AND THE NATION

"The time has long since passed when there could be any doubt of Chautauq's service to the Country; we are far past the era of misunderstanding when this great work could be waved aside with the light word and gesture of tolerant superiority. Chautauq has served to reveal the individual American community to itself at its best."

The statement above might well be taken as the over-enthusiastic comment of some Chautauq fan. Instead it is the opinion of the President of the United States, Warren G. Harding, uttered only last December, 1922.

President Harding has but followed in the foot steps of two former Presidents in his valuation of the Chautauq in its relation to American life. Theodore Roosevelt said, "The Chautauq is the most American thing in America."

Tune-in for "Home Sweet Home," May 8
